FEDERAL BUREAU OF INVESTIGATION  
WASHINGTON, D. C. 20535

Report of Examination

Examiner Name: Curtis Thomas *CTA*

Date: April 11, 2006

Unit: Cryptographic and Electronic Analysis

Phone No.: 703-632-6187

Case ID No.: 62D-MW-44363

Lab No.: 060118254 QG

Results of Examinations:

The Q3 specimen is a Canon A310 Powershot digital camera.

The Q4 specimen is a Motorola RAZR cellular telephone.

The Q5 specimen is a Compact flash memory card.

The Q6 specimen is a Compact flash memory card.

The Q7 specimen is a Compact flash memory card.

The Q8 specimen is a Compact flash memory card.

The Q9 specimen is a Compact flash memory card.

The Q10 specimen is a Palm Zire 31 Personal Digital Assistant (PDA).

All specimens were too heavily damaged to recover any data. Photographs of each specimen are included on a Compact Disc (CD) labeled Derivative Evidence One (DE1). It is not possible to ascertain the manufacturer of any of the Compact flash memory cards, however, the cellular telephone was identified as a Motorola RAZR, and the PDA was identified as a Palm Zire 31 model, and comparison photos are included on DE1. The photographs can be viewed by inserting the DE1 CD and opening the folder labeled for each corresponding Q specimen.
