Dear Teresa,

Here is your personal palm reading! This will be a general reading of your palm, and what it says about you and your personality. Enjoy.

First let's take a look at your Life Line. You have the best kind of Life Line, long and clearly marked. This shows that you will possess good health, vitality and a very nice life expectancy. The wide swooping motion of your Life Line indicates strength, enthusiasm and an improved love life. The little lines you see extending upward from your Life Line are representative of your ability to recuperate. The little lines you see extending downward from your Life Line are indicators of your tendency to waste your energy.

Now let's see what your Head Line had to say. Your Head Line is deep, long and straight, stretching across the palm. This indicates a logical and direct way of thinking. The straighter the line, the more realistic the thinking, and the deeper the line, the better the memory. The joining of your Head Line and Life Line at the beginning indicates that your strong sense of mind generally rules over your body. You also look at childhood with a cautious and fearful outlook.

The last line we'll look at is your Heart Line. A slight disregard to the true meaning of love and its responsibilities are indicated by a Heart Line like yours that starts between the middle and index finger. You tend to easily give your heart away. A long Heart Line like yours, running almost all the way across the palm, represents an idealist in love. In love you tend to look for those whose status rises above your own, and you have a great respect for them.

You have a spade-shaped hand. This is the hand of an inventor. You are probably very good with all things mechanical. Often those who've forged new paths in science and engineering have a spade-shaped hand. Women who have this type of hand enjoy do-it-yourself projects (decorating and sewing). It also gives these women a manual dexterity greater than most men have.

We hope that gives you a little more insight into your personality, and your palm. Thanks for visiting us.

Your friend,
The OFE Palm Reader

I just got Scott's party, from Drew, regarding your party. I did get your call ages ago, and meant to call you back, which I hope to do this weekend. But on the party note, I won't be able to make it that weekend. Like you said, I will be heading to the same bachelorette party/shower that Steph and those girls are going to to. So I will be heading to Madison on Friday, when Milwaukee come Saturday night. I would love to come and catch up with you. Maybe we can plan supper next time I am home, whenever that may be.....??? I will let you know in advance. Have an awesome party and I will talk to you on....promise.....

Miss you...Tricia
