DA Case No.: 2005CA000607
Agency Case No.: 05-0157-955
Court Case No. 05-CF-381

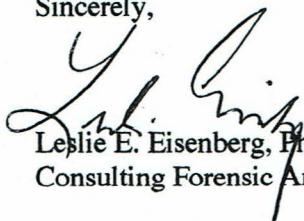

Dear District Attorney Kratz:

Thank you for the copy of my testimony in the Preliminary Hearing in the above matter that I received on February 4, 2006.

As requested earlier this week by Investigator Mark Wiegert, Calumet County Sheriff's Department, I enclose a CD-Rom of all photographs taken by me from November 10, 2005 through January 28, 2006 in the above matter. None of the photographs has been altered in any way. As my examination continues additional photos will be taken and I will provide you with those photographs when I have completed my analysis. I will also furnish you with a preliminary report as soon as possible. It will be brief, addressing the determination of sex, the condition of the remains, any additional biological information determined to date, as well as any information that may be pertinent to a determination of cause/manner of death.

For your reference and information, I include a copy of an article that appeared in the *Journal of Forensic Sciences* entitled, "Characteristics of Gunshot Wounds in the Skull." I have highlighted specific sections for review with respect to this case. If you would, please provide a copy to Investigator Wiegert.

Sincerely,

Leslie E. Eisenberg, Ph.D., D-ABFA
