

1 STATE OF WISCONSIN : CIRCUIT COURT : MANITOWOC COUNTY
2 BRANCH 1

3 STATE OF WISCONSIN,

4 PLAINTIFF,

JURY TRIAL

TRIAL - DAY 1

5 vs.

Case No. 05 CF 381

6 STEVEN A. AVERY,

7 DEFENDANT.

8 **DATE:** FEBRUARY 12, 2007

9 **BEFORE:** Hon. Patrick L. Willis
10 Circuit Court Judge

11 **APPEARANCES:** KENNETH R. KRATZ
Special Prosecutor
12 On behalf of the State of Wisconsin.

13 THOMAS J. FALLON
Special Prosecutor
14 On behalf of the State of Wisconsin.

15 NORMAN A. GAHN
Special Prosecutor
16 On behalf of the State of Wisconsin.

17 DEAN A. STRANG
Attorney at Law
18 On behalf of the Defendant.

19 JEROME F. BUTING
Attorney at Law
20 On behalf of the Defendant.

21 STEVEN A. AVERY
Defendant
22 Appeared in person.

1 THE COURT: At this time the Court calls
2 State of Wisconsin vs. Steven Avery, Case No. 05 CF
3 381. Will the parties state their appearances for
4 the record, please.

5 ATTORNEY KRATZ: Good morning, Judge. The
6 State of Wisconsin appears by Calumet County
7 District Attorney Ken Kratz, lead counsel and
8 appearing as special prosecutor in this case.
9 Appearing with me include Tom Fallon, an Assistant
10 Attorney General from the Department of Justice and
11 Norm Gahn, an Assistant District Attorney, from
12 Milwaukee County, Wisconsin, also appearing as
13 special prosecutor.

14 ATTORNEY STRANG: And good morning. Steven
15 Avery appears in person. He's represented by Jerome
16 Buting, immediately to my left, and I am Dean
17 Strang.

18 THE COURT: All right. We're here this
19 morning, before we bring the jurors out, first of
20 all, to discuss any comments the parties have on the
21 opening instructions that have been provided by the
22 Court. Before we get to that, are there any other
23 issues that either party feels should be addressed
24 before the jurors are brought in?

25 ATTORNEY KRATZ: The one logistical issue I

1 had was during the opening statements and the
2 closing arguments the Clerk, Ms Bonin, has a switch
3 near her which is called public seating or something
4 of that nature. I'm going to ask that that switch,
5 and I got the approval of the sheriff for that --

6 Quite frankly, Judge, with PowerPoint or
7 other presentations in this area, the gallery and
8 other spectators find it much easier to see those
9 without that one bank of lights, the public
10 seating lights. If Ms Bonin would like to try
11 that at this point so the Court can see, I would
12 appreciate that.

13 THE COURT: Go ahead.

14 ATTORNEY KRATZ: I think Mr. Buting
15 indicated he had no objection. It just provides
16 less glare and an opportunity for those in the
17 public to observe what it is that we're talking
18 about. Again, I suggest that just for openings and
19 closings.

20 THE COURT: All right. Any objection?

21 ATTORNEY STRANG: There is not.

22 THE COURT: Anything else to take up before
23 we address the opening instructions?

24 ATTORNEY STRANG: My thought is that we
25 might take Mr. Avery's personal statement on

1 waiving -- or not waiving, but stipulating to the
2 second element of Count 3 of the second Amended
3 Information.

4 THE COURT: Very well. For the record, I
5 will note the Court has previously been informed
6 that the defendant intended to stipulate to the
7 second element of the possession of a firearm
8 charge; that is, the defendant's status as having
9 been convicted of a felony before November 5 of
10 2005.

11 Before I notify the jury that the
12 defendant is making that stipulation, the Court
13 has to make sure that the defendant is doing so
14 knowingly and voluntarily. So, Mr. Avery, I'm
15 going to be addressing these questions to you.

16 Before the Court accepts your
17 stipulation to one of the elements of the felon
18 in possession of a firearm charge, I'm going to
19 be asking you a few questions. If you have any
20 trouble understanding any question that I ask,
21 let me know and I will let you speak with your
22 attorneys.

23 Mr. Avery, do you understand that you
24 have the right to a jury trial in this case and
25 that includes the right to require the State to

1 prove every element of each offense charged,
2 beyond a reasonable doubt, to all members of the
3 jury? Do you understand that?

4 THE DEFENDANT: Yes, I do.

5 THE COURT: You understand that in the case
6 of the felon in possession of a firearm charge, this
7 means that you can, if you wish, require the State
8 to prove, beyond a reasonable doubt, that you were
9 convicted of a felony before November 5 of 2005? Do
10 you understand that?

11 THE DEFENDANT: Yes, I do.

12 THE COURT: Do you further understand that,
13 if you wish, you can stipulate; that is, you can
14 agree that you were convicted of a felony before
15 November 5 of 2005 and make further evidence on that
16 issue irrelevant; do you understand that?

17 THE DEFENDANT: Yes, I do.

18 THE COURT: Do you wish to waive your right
19 to a jury trial on that element; that is, agree that
20 you were convicted of a felony before November 5 of
21 2005?

22 THE DEFENDANT: Yes, I do.

23 THE COURT: Have you had adequate
24 opportunity to discuss your decision with your
25 attorneys?

1 THE DEFENDANT: Yes.

2 THE COURT: And have your attorneys
3 explained to you your right to a jury trial on this
4 element?

5 THE DEFENDANT: Yes.

6 THE COURT: Has anyone made any promises or
7 threats to you to give up your right to a jury trial
8 on this element of the firearms charge?

9 THE DEFENDANT: No.

10 THE COURT: Do you understand each of the
11 questions that I have asked you and what your
12 attorneys have told you about this matter?

13 THE DEFENDANT: Yes.

14 THE COURT: Mr. Strang, have you had
15 adequate opportunity to discuss this matter with
16 your client?

17 ATTORNEY STRANG: Yes.

18 THE COURT: And do you believe that
19 Mr. Avery is knowingly and voluntarily giving up his
20 right to a jury trial on this particular element of
21 the possession of a firearm charge?

22 ATTORNEY STRANG: On that element, yes, I
23 do.

24 THE COURT: Very well, the Court does find
25 that the defendant has knowingly and voluntarily

1 waived his right to a jury trial on the second
2 element of the felon in possession of a firearm
3 charge and the Court will accept the defendant's
4 stipulation on that element.

5 ATTORNEY KRATZ: For the record, Judge, the
6 State also acquiesces and accepts the stipulation.

7 THE COURT: Thank you. As I indicated
8 previously, I have provided the parties with a copy
9 of the Court's proposed opening instructions. And
10 it's the Court's understanding that those proposed
11 instructions are acceptable to each of the parties
12 with the exception of some language involving the
13 elements of the crime on the two counts that are
14 charged as a party to the crime. First, counsel, am
15 I correct in that understanding?

16 ATTORNEY KRATZ: Yes, Judge. Although the
17 State, as Mr. Gahn and Mr. Fallon and I have spoken,
18 and after our brief conversation in chambers, we are
19 asking the Court adopt a very similar series of
20 language that the Court has proposed in its last
21 submission. I will be happy to put our ideas on the
22 record, but you are correct, Judge, there is one
23 change that we're requesting.

24 THE COURT: All right. And Mr. Strang.

25 ATTORNEY STRANG: We were satisfied with

1 the whole of the Court's final proposed instructions
2 to be given preliminarily and we object to the
3 modification that the State has offered.

4 THE COURT: All right. I will hear from
5 the State first, then, on the proposed modification.

6 ATTORNEY KRATZ: Thank you, Judge. The
7 substantive change that we are asking is that
8 towards the bottom of page six of the preliminary
9 instructions, when the Court reads the element of
10 the offense for first degree intentional homicide,
11 as a party to the crime, the Court submit the
12 following language:

13 That Steven Avery caused the death of
14 Teresa Halbach or aided and abetted Brendan
15 Dassey in causing the death of Teresa Halbach.

16 As we have indicated throughout the jury
17 selection process and, in fact, in motions before
18 trial, whether Mr. Dassey testifies in this case
19 at all or whether Brendan Dassey is to be
20 referred to at all in this trial is still very
21 much at issue.

22 To highlight or alert the jury that
23 Brendan Dassey is the individual from which
24 Mr. Avery acted in concert, we believe to be
25 inappropriate and would, as some of the jurors

1 quite candidly indicated in jury selection,
2 suggest that the State should, for whatever
3 reason, be calling Mr. Dassey as a witness, not
4 withstanding his Fifth Amendment rights not to do
5 so, or against self-incrimination.

6 We're, therefore, Judge, asking that the
7 elements read that Steven Avery caused the death
8 of Teresa Halbach or aided and abetted another in
9 causing the death of Teresa Halbach. Similar
10 language would be inserted into the second
11 element, again, removing the words Brendan Dassey
12 and inserting the words another.

13 That provides no prejudice to the
14 defense. It is an accurate statement of the law
15 and, again, removes the suggestion that the State
16 in some way has a burden, or obligation, or even
17 practically speaking should call Mr. Dassey or
18 insert Mr. Dassey into this case.

19 Lastly, Judge, if the Court adopts that
20 change, then the statement or comment as to
21 unanimous agreement not being required, further
22 up on the page, on page No. 6, is in fact
23 appropriate, is required, and we would ask -- I
24 think that's joined by Mr. Strang -- that that
25 instruction be reinserted and added in the

1 preliminary instructions.

2 THE COURT: Mr. Strang? Well, just --
3 before I get to Mr. Strang, Mr. Kratz, what is the
4 language, I'm looking at page 6, element one, what
5 language exactly is the State proposing?

6 ATTORNEY KRATZ: Just instead of the name
7 Brendan Dassey, you are just exchanging that with
8 the word another.

9 THE COURT: Just a second.

10 ATTORNEY KRATZ: Aided and abetted another
11 in the commission of the crime. I think that's a
12 correct statement of the law and as I mentioned,
13 Judge, removes the suggestion that the State have an
14 obligation to set forth its theory of the
15 prosecution when it may very well be that Mr. Dassey
16 not testify in this case.

17 THE COURT: So, you are proposing to read
18 Steven Avery caused the death of Teresa Halbach or
19 aided and abetted another in causing the death?

20 ATTORNEY KRATZ: That's right.

21 THE COURT: And with respect to the other
22 references to Mr. Dassey in this count and the other
23 count, you are proposing that in each case it be
24 replaced with another.

25 ATTORNEY KRATZ: Yes, Judge.

THE COURT: Mr. Strang.

ATTORNEY STRANG: How I wish that on March 2, 2006, the State had thought it as inappropriate to pair Brendan Dassey and Steven Avery in the commission of these crimes as it thinks it today. And the 11 months of prejudicial publicity that we have had, perhaps we would have been spared, if the State thought then that it was inappropriate to link these two together as co-actors, accomplices in the death of Teresa Halbach.

Today is too late to do that. To now insert the ambiguous term "another", which potentially includes the whole world, is to invite the very speculation about who an accomplice may have been or who a third party culprit may have been, that the State successfully opposed when we made a fairly elaborate proffer on possible third party actors.

Up through that motion, it was the State's position that Brendan Dassey, and Brendan Dassey only, was the possible third party or accomplice in this crime. And now, on no showing at all of the potential culpability of another, the State proposes to throw open the field of

1 possible accomplice liability to the entire
2 world.

3 That's not fair. It's not consistent
4 with the positions the State has taken to date
5 and it leaves Mr. Avery, on the one hand, unable
6 to suggest directly the liability of a third
7 person; and yet, on the other hand, defending a
8 potentially shifting or unstated theory on who
9 his accomplice or accessory may have been.

10 The State's choices on this case and on
11 the history of it before seem to me pretty clear.
12 Either stick with Brendan Dassey as the man you
13 think is the accomplice and prove it, or drop the
14 party to a crime allegation in Count 1 and Count
15 2 altogether and prove that Steven Avery
16 committed this crime without allowing him to run
17 the risk of accessory as a liability to a
18 phantom.

19 Those seem to me the two legitimate
20 choices. That's why we accepted and agreed with
21 and thought accurate the Court's final draft of
22 the preliminary jury instructions. We equally
23 would accept a redraft that struck the party to a
24 crime theory altogether, but that's the State's
25 choice to make.

1 It's allowed to decide on what theory of
2 liability it will proceed. It is not allowed on
3 the morning of opening statements to back away
4 from the man it has roped to Steven Avery for 11
5 months and say, could have been anybody. Just
6 another. Just not fair.

7 And I would ask the Court to leave the
8 instructions as they are, unless the State wishes
9 to drop the party to the crime theory of
10 liability in which case the instructions would be
11 confined to Steven Avery alone.

12 As to unanimous agreement, I don't know
13 that I have talked with the State about this at
14 all and, in fact, I don't think that unanimous
15 agreement requirement should be added back. The
16 Court had struck it; it should remain stricken.
17 And the reason is really very straight forward.

18 Understanding that there is Wisconsin
19 law to the contrary, my view of the due process
20 requirement in the 14th Amendment and the right
21 to a unanimous verdict that it embraces is that
22 the jury, all 12, must be unanimous on whether
23 the defendant is the principal, the defendant
24 directly committed the crime, or whether he was
25 an accessory, that is, an aider and abettor.

1 Now, I agree, for purposes of discussion
2 in the abstract, that which of two means of
3 aiding and abetting that Wisconsin law
4 recognizes, those, let's assume for the sake of
5 argument, jurors need not agree on unanimously.
6 Once they have decided unanimously, that it is as
7 a party to the crime rather than as the principal
8 that the defendant has been proven guilty.

9 But this instruction allows jurors to
10 differ and to return a verdict that is not
11 unanimous on the fundamental question of whether
12 one is a principal, or liable as an accessory, an
13 aider abettor, or a party to the crime.

14 Unanimity instruction, therefore, ought
15 not be given at all at this point. By final
16 instructions, I'm confident that the parties and
17 the Court, in the end, can draft an instruction
18 that treats unanimity properly.

19 THE COURT: All right. There appear to be
20 two points that separate the parties. And I'm going
21 to rule as follows: First of all, before I indicate
22 the Court's decision, I think it's important to note
23 that what we're talking about here are not the
24 closing instructions that the jury is going to get
25 when it's time to deliberate on the verdict, but

1 rather opening instructions, the purpose of which is
2 simply to make it easier for the jurors to follow
3 the evidence and understand what it is the State has
4 to prove in order to justify a guilty verdict.

5 With that thought in mind, I think it's
6 best to steer clear of controverted issues that
7 may be clarified as the evidence comes in. The
8 instructions the Court gives in the opening are
9 not necessarily the instructions that will be
10 given in the closing. It's easier to be more
11 specific at that time once the Court knows what
12 the evidence is.

13 For those reasons, I'm going to --
14 Actually, I previously changed the elements of
15 the crime language on the two party to the crime
16 charges based on a format submitted by the
17 defense. I'm going to continue to use the
18 defense format, but I will substitute another for
19 Brendan Dassey.

20 I agree that it's not a good idea at the
21 start of the trial to focus attention on
22 Mr. Dassey; although, I understand that's the
23 basis of the State's party to the crime theory.
24 When the closing instructions are given,
25 depending on how the evidence comes in, the

1 request being made by the defense may well be
2 appropriate. But for purposes of the opening
3 instructions, which are simply to outline the
4 elements that the State must prove, I don't think
5 that level of specificity is required.

6 With respect to the unanimity language,
7 as I indicated to the parties in prior
8 correspondence, while the comment to the party to
9 the crime instruction would suggest that the
10 unanimity requirement is appropriate, the Court
11 has not had a chance to fully address the defense
12 arguments and there are arguments to the contrary
13 that I believe must be addressed before the Court
14 is in a position to make a final decision.

15 It's not necessary during the opening
16 instructions to tell the jury whether or not they
17 have to be unanimous. The instructions are
18 intended to help them follow the evidence.
19 Therefore, I am not going to include the
20 unanimity language in the opening instructions.

21 I did previously reword the opening
22 language to the substantive instructions to
23 notify the jurors that the Court is going to be
24 reading portions of the specific jury
25 instructions. So certainly the possibility is

1 left open that the unanimity language can be
2 inserted in the closing instructions.

3 I believe that addresses the parties
4 comments with respect to the opening
5 instructions. Is there anything else either
6 party feels should be addressed before we bring
7 in the jurors and swear the jury?

8 ATTORNEY KRATZ: Judge, one housekeeping
9 matter, I don't know if you have reminded the jurors
10 or perhaps -- excuse me -- the public as they were
11 brought in, but without an interest in having a Mike
12 Sherman moment, perhaps all cell phones should be
13 turned off. I don't know if that was something --

14 THE COURT: Actually, the Court has ordered
15 that no cell phones be permitted in the courtroom
16 and I trust that the folks guarding the entrance to
17 the door have enforced that requirement.

18 ATTORNEY KRATZ: And the attorneys as well,
19 Judge, at least the State has taken care of that and
20 that's the only other comment we have. Thank you.

21 THE COURT: Anything else from the defense?

22 ATTORNEY STRANG: Nothing here, your Honor.

23 THE COURT: If not, we can have the jury
24 brought in.

25 (Jury panel present.)

1 THE COURT: Good morning, jurors, you can
2 be seated for a brief period of time. The Court has
3 already called this morning the case of State of
4 Wisconsin vs. Steven Avery, Case No. 05 CF 381. In
5 a minute I'm going to read to you some opening
6 instructions in this case, but before we do that,
7 the Clerk will swear you in. So at this time I will
8 ask you to all please rise.

9 THE CLERK: If you all would raise your
10 right hand.

11 (Jury panel sworn.)

12 THE CLERK: Please be seated.

13 THE COURT: Members of the jury, before the
14 trial begins, there are certain instructions you
15 should have to better understand your functions as a
16 juror and how you should conduct yourself during the
17 trial. Your duty is to decide the case based only
18 on the evidence presented and the law given to you
19 by the Court.

20 Do not let any personal feelings of bias
21 or prejudice about such things as race, religion,
22 national origin, sex, or age affect your
23 deliberations.

24 Do not begin your deliberations and
25 discussion of the case until all the evidence is

1 presented and I have instructed you on the law.

2 Do not discuss this case among
3 yourselves or with anyone else until your final
4 deliberations in the jury room.

5 We'll stop or recess from time to time
6 during the trial. You may be excused from the
7 courtroom when it is necessary for me to hear
8 legal arguments from the lawyers.

9 If you come into contact with any of the
10 parties, lawyers or witnesses, do not speak with
11 them. For their part, the parties, lawyers and
12 witnesses will not contact or speak with the
13 jurors.

14 As the Court has previously informed
15 you, the jury will not be sequestered during this
16 trial. That decision is dependent on the jurors
17 not listening to, watching, or reading any news
18 accounts of the case during the trial, nor
19 discussing it with anyone, including members of
20 your family, or other jurors.

21 For these reasons it is vital that you
22 do not listen to any conversation about the case.
23 Do not read any newspaper or internet reports or
24 listen to any news reports on radio or television
25 about this trial.

1 To assure that you are not exposed to
2 improper media coverage, the Court is ordering
3 that, for the duration of the trial, you do not
4 watch the local news on television; do not listen
5 to the local news on the radio; and do not read
6 the newspaper, unless you first have someone
7 remove any articles about this case.

8 In addition, do not visit any internet
9 websites or web logs which may include any
10 information about the case. Should you be
11 exposed to any reports or communications from any
12 source concerning the case during the trial, you
13 should report that information to the jury
14 bailiff.

15 Do not investigate this case on your own
16 or visit the scene. Do not engage in any
17 experimentation or research relating to any
18 issues, facts, or persons involved in the case.

19 Do not consult dictionaries, computers,
20 websites, or other reference materials for any
21 additional information.

22 The Court is aware that many of you have
23 been exposed to publicity concerning this case
24 before you were selected to serve as a juror.
25 Each of you has committed to base your verdict

1 only on the evidence introduced during the trial.
2 It is of vital importance to the parties and to
3 the sanctity of the court process that you remain
4 true to this commitment.

5 Anything you may see or hear outside the
6 courtroom is not evidence. You are to decide the
7 case solely on the evidence that is offered and
8 received at trial.

9 Evidence is defined as, first, the sworn
10 testimony of witnesses both on direct and
11 cross-examination, regardless of who called the
12 witness.

13 Second, the exhibits the Court has
14 received.

15 And, third, any facts to which the
16 lawyers have agreed or stipulated or which the
17 Court has directed you to find.

18 Attorneys for each side have the right
19 and the duty to object to what they consider are
20 improper questions asked of witnesses and to the
21 admission of other evidence which they believe is
22 not properly admissible. You should not draw any
23 conclusions from the fact an objection was made.
24 By allowing testimony or other evidence to be
25 received over the objection of counsel, the Court

1 is not indicating any opinion about the evidence.
2 You jurors are the judges of the credibility of
3 the witnesses and the weight of the evidence.

4 You are not required to, but you may
5 take notes during this trial except during the
6 opening statements and the closing arguments.
7 The Court will provide you with materials for
8 this purpose. In taking notes, you must be
9 careful that it does not distract you from
10 carefully listening to and observing the
11 witnesses.

12 You may rely on your notes to refresh
13 your memory during your deliberations, otherwise
14 keep them confidential. Your notes will be
15 collected by the jury bailiff after each day's
16 session and kept in a secure place until the next
17 day of trial. After the trial, the notes will be
18 collected and destroyed.

19 You will not have a copy of the written
20 transcript of the trial testimony available for
21 use during your deliberations. You may ask to
22 have specific portions of the testimony read to
23 you. You should pay careful attention to all the
24 testimony because you must rely primarily on your
25 memory of the evidence and the testimony

1 introduced during the trial.

2 It is the duty of the jury to scrutinize
3 and to weigh the testimony of witnesses and
4 determine the effect of the evidence as a whole.
5 You are the sole judges of the credibility; that
6 is, the believability of the witnesses and of the
7 weight to be given to their testimony.

8 In determining the credibility of each
9 witness and the weight you give to the testimony
10 of each witness, consider these factors:

11 Whether the witness has an interest or
12 lack of interest in the result of the trial.

13 The witness' conduct, appearance and
14 demeanor on the witness stand.

15 The clearness or lack of clearness of
16 the witness' recollections.

17 The opportunity the witness had for
18 observing and knowing the matters the witness
19 testified about.

20 The reasonableness of the witness'
21 testimony.

22 The apparent intelligence of the
23 witness.

24 Bias or prejudice, if any has been
25 shown.

1 Possible motives for falsifying
2 testimony.

3 And all other factors -- excuse me --
4 all other facts and circumstances during the
5 trial which tend either to support or to
6 discredit the testimony.

7 Then give to the testimony of each
8 witness the weight you believe it should receive.
9 There is no magic way for you to evaluate the
10 testimony. Instead, you should use your common
11 sense and experience. In everyday life you
12 determine for yourselves the reliability of
13 things people say to you; you should do the same
14 thing here.

15 To assist you in evaluating the
16 evidence, I will now read to you portions of the
17 specific jury instructions for the offenses with
18 which the defendant is charged. I will read them
19 to you in their entirety at the close of the
20 evidence.

21 Count 1 of the Information charges the
22 defendant with first degree intentional homicide
23 as a party to the crime. Section 939 of the
24 Criminal Code of Wisconsin provides that whoever
25 is concerned in the commission of a crime as a

1 party to that crime and may be convicted of that
2 crime although that person did not directly
3 commit it.

4 The State contends that the defendant
5 was concerned in the commission of the crime of
6 first degree intentional homicide by either
7 directly committing it or by intentionally aiding
8 and abetting the person who directly committed
9 it.

10 If a person intentionally aids and abets
11 the commission of a crime, then that person is
12 guilty of the crime as well as the person who
13 directly committed it. A person intentionally
14 aids and abets the commission of a crime when,
15 acting with acknowledge or belief that another
16 person is committing or intends to commit a
17 crime, he knowingly either assists the person who
18 commits the crime or is ready and willing to
19 assist and the person who commits the crime knows
20 of the willingness to assist.

21 To intentionally aid and abet the crime
22 of first degree intentional homicide, the
23 defendant must know that another person is
24 committing or intends to commit the crime of
25 first degree intentional homicide and have the

1 purpose to assist in the commission of that
2 crime.

3 Before you may find the defendant guilty
4 of first degree intentional homicide as a party
5 to the crime, the State must prove, by evidence
6 which satisfies you, beyond a reasonable doubt,
7 that the defendant directly committed the crime
8 or intentionally aided and abetted the commission
9 of the crime.

10 First degree intentional homicide as
11 defined in Section 940.01 of the Criminal Code of
12 Wisconsin is committed by one who causes the
13 death of another human being with intent to kill
14 that person or another. Before you may find the
15 defendant guilty of first degree intentional
16 homicide, the State must prove, by evidence which
17 satisfies you, beyond a reasonable doubt, that
18 the following two elements were present:

19 One, Steven Avery caused the death of
20 Teresa Halbach or aided and abetted another in
21 causing the death of Teresa Halbach. Cause means
22 that the defendant's act was a substantial factor
23 in producing the death.

24 Two, Steven Avery acted with the intent
25 to kill Teresa Halbach whether he did so directly

1 or aided and abetted another.

2 Intent to kill means that the defendant
3 had the mental purpose to take the life of
4 another human being or was aware that his conduct
5 was practically certain to cause the death of
6 another human being. While the law requires that
7 the defendant acted with intent to kill, it does
8 not require that the intent exists for any
9 particular length of time before the act is
10 committed.

11 The act need not be brooded over,
12 considered, or reflected upon for a week, a day,
13 an hour, or even for a minute. There need not be
14 any appreciable time between the formation of the
15 intent and the act. The intent to kill may be
16 formed at any time before the act, including the
17 instant before the act and must continue to exist
18 at the time of the act.

19 You cannot look into a person's mind to
20 find intent. Intent to kill must be found, if
21 found at all, from the defendant's acts, words,
22 and statements, if any, and from all the facts
23 and circumstances in this case bearing upon
24 intent.

25 Intent should not be confused with

1 motive. While proof of intent is necessary to a
2 conviction, proof of motive is not. Motive
3 refers to a person's reason for doing something.

4 While motive may be shown as a
5 circumstance to aid in establishing the guilt of
6 the defendant, the State is not required to prove
7 motive on the part of a defendant in order to
8 convict. Evidence of motive does not, by itself,
9 establish guilt. You should give it the weight
10 you believe it deserves, under all the
11 circumstances.

12 If you are satisfied, beyond a
13 reasonable doubt, at the conclusion of the trial,
14 that the defendant directly committed both
15 elements of first degree intentional homicide,
16 you should find the defendant guilty. If you are
17 not so satisfied, you must find the defendant not
18 guilty.

19 Count 2 charges the defendant with
20 mutilating a corpse, also as a party to the
21 crime. The State contends that the defendant was
22 concerned in the commission of the crime of
23 mutilating a corpse by either directly committing
24 it or by intentionally aiding and abetting the
25 person who committed it.

1 Before you may find the defendant guilty
2 of mutilating a corpse as a party to the crime,
3 the State must prove, by evidence which satisfies
4 you, beyond a reasonable doubt, that the
5 defendant committed the -- directly committed the
6 crime of mutilating a corpse or intentionally
7 aided and abetted the commission of that crime.

8 Mutilating a corpse as defined in
9 Section 940.11 (1) of the Criminal Code of
10 Wisconsin is violated by one who mutilates a
11 corpse with intent to conceal a crime or avoid
12 apprehension, prosecution, or conviction for a
13 crime. Before you may find the defendant guilty
14 of this offense, the State must prove, by
15 evidence which satisfies you, beyond a reasonable
16 doubt, that the following two elements were
17 present:

18 One, Steven Avery mutilated the corpse
19 of Teresa Halbach or aided and abetted another in
20 mutilating the corpse of Teresa Halbach.

21 Two, in mutilating the corpse of Teresa
22 Halbach or in aiding and abetting another in
23 mutilating her corpse, Steven Avery acted with
24 the intent to conceal a crime. This requires
25 that the defendant acted with the purpose to

1 conceal a crime.

2 If you are satisfied, beyond a
3 reasonable doubt, at the conclusion of the trial,
4 that Steven Avery directly committed both
5 elements of this offense, you should find the
6 defendant guilty. If you are not so satisfied,
7 you must find the defendant not guilty.

8 Count 3 charges the defendant with felon
9 in possession of a firearm. Section 941.29 of
10 the Criminal Code of Wisconsin is violated by a
11 person who possesses a firearm, if that person
12 has been convicted of a felony.

13 Before you may find the defendant guilty
14 of this offense, the State must prove, by
15 evidence which satisfies you, beyond a reasonable
16 doubt, that the following two elements were
17 present:

18 One, the defendant possessed a firearm.
19 Firearm means a weapon which acts by the force of
20 gunpowder. It is not necessary that the firearm
21 was loaded or capable of being fired.

22 Possess means that the defendant
23 knowingly had actual physical control of a
24 firearm. An item is in a person's possession if
25 it is in an area over which the person has

1 control and the person intends to exercise
2 control over the item.

3 Two, the second element, is that the
4 defendant had been convicted of a felony before
5 November 5, 2005. The parties in this case have
6 agreed that Steven Avery was convicted of a
7 felony before November 5, 2005 and you must
8 accept this as conclusively proved.

9 If you are satisfied, beyond a
10 reasonable doubt, at the conclusion of the trial,
11 that both elements of this offense have been
12 proved, you should find the defendant guilty. If
13 you are not so satisfied, you must find the
14 defendant not guilty.

15 The final count charges the defendant
16 with false imprisonment. False imprisonment as
17 defined in Section 940.30 of the Criminal Code of
18 Wisconsin is committed by one who intentionally
19 confines or restrains another without the
20 person's consent and with knowledge that he has
21 no lawful authority to do so.

22 Before you may find the defendant guilty
23 of this offense the State must prove, by evidence
24 which satisfies you, beyond a reasonable doubt,
25 that the following five elements were present:

1
2
3
4
5
6
7
8
9
10
11
12
13
14
15
16
17
18
19
20
21
22
23
24
25

One, the defendant confined or restrained Teresa Halbach during her lifetime.

Two, the defendant confined or restrained Teresa Halbach intentionally. This requires that the defendant have the mental purpose to confine or restrain Teresa Halbach.

Three, Teresa Halbach was confined or restrained without her consent.

Four, the defendant had no lawful authority to confine or restrain Teresa Halbach.

Five, the defendant knew that Teresa Halbach did not consent and knew that he did not have lawful authority to confine or restrain Teresa Halbach.

Although this requires genuine restraint or confinement, it does not require that it be in a jail or prison. If the defendant deprived Teresa Halbach of freedom of movement or compelled her to remain where she did not wish to remain, then Teresa Halbach was confined or restrained.

The use of physical force is not required. One may be confined or restrained by acts, or words, or both.

You cannot look into a person's mind to

1 find out intent or knowledge. Intent and
2 knowledge must be found, if at all, from the
3 defendant's acts, words, and statements, if any,
4 and from all the facts and circumstances in this
5 case bearing upon intent and knowledge.

6 If you are satisfied, beyond a
7 reasonable doubt, at the conclusion of the trial,
8 that all five elements of this offense have been
9 proproved -- excuse me -- have been proved, you
10 should find the defendant guilty. If you are not
11 so satisfied, you must find the defendant not
12 guilty.

13 In reaching your verdict examine the
14 evidence with care and caution. Act with
15 judgment, reason and prudence. Defendants are
16 not required to prove their innocence, the law
17 presumes that every person charged with the
18 commission of an offense is innocent. This
19 presumption requires a finding of not guilty,
20 unless in your deliberations you find it is
21 overcome by evidence which satisfies you, beyond
22 a reasonable doubt, that the defendant is guilty.

23 The burden of establishing every fact
24 necessary to constitute guilt is upon the State.
25 Before you can return a verdict of guilty, the

1 evidence must satisfy you, beyond a reasonable
2 doubt, that the defendant is guilty. If you can
3 reconcile the evidence, upon any reasonable
4 hypothesis consistent with the defendant's
5 innocence, you should do so and return a verdict
6 of not guilty.

7 The term reasonable doubt means a doubt
8 based upon reason and common sense. It is a
9 doubt for which a reason can be given, arising
10 from a fair and rational consideration of the
11 evidence or lack of evidence. It means such a
12 doubt as would cause a person of ordinary
13 prudence to pause or hesitate when called upon to
14 act in the most important affairs of life.

15 A reasonable doubt is not a doubt which
16 is based on mere guesswork or speculation. A
17 doubt which arises merely from sympathy or from
18 fear to return a verdict of guilt is not a
19 reasonable doubt.

20 A reasonable doubt is not a doubt such
21 as may be used to escape the responsibility of a
22 decision. While it is your duty to give the
23 defendant the benefit of every reasonable doubt,
24 you are not to search for doubt, you are to
25 search for the truth.

1 As you know, although this is a
2 Manitowoc County case with a Manitowoc County
3 jury, the case is being tried at the Calumet
4 County Courthouse. You will learn that when
5 Steven Avery became a suspect in this case, the
6 Manitowoc County District Attorney turned control
7 of the case over to the Calumet County District
8 Attorney because Mr. Avery had a lawsuit pending
9 against Manitowoc County at the time.

10 For logistical reasons, the parties
11 jointly requested that the trial be held in
12 Calumet County and the Court granted that
13 request. You should draw no inference for or
14 against either party to this case because of the
15 location of the trial, or the fact that it is not
16 being prosecuted by the Manitowoc County District
17 Attorney.

18 In a few minutes the lawyers will make
19 opening statements. The purpose of an opening
20 statement is to give the lawyers an opportunity
21 to tell you what they expect the evidence will
22 show, so that you will better understand the
23 evidence as it is introduced during the trial. I
24 must caution you, however, that the opening
25 statements are not evidence.

1 At this time we're going to take a very
2 short break so that the State may get its
3 equipment ready to present the opening statement.
4 We'll be back in just a few minutes.

5 (Jury not present.)

6 THE COURT: Five minutes, counsel.

7 ATTORNEY KRATZ: That's fine.

8 (Recess taken.)

9 (Jury present.)

10 THE COURT: You may be seated. Members of
11 the jury, at this time we're going to hear the
12 opening statement from the State. Mr. Kratz, you
13 may begin.

14 ATTORNEY KRATZ: Thank you, Judge. May it
15 please the Court, ladies and gentlemen of the jury,
16 Mr. Strang, Mr. Buting, Mr. Avery, good morning.

17 MR. AVERY: Good morning.

18 ATTORNEY KRATZ: We're all a little nervous
19 this morning. And I think that if we admit that,
20 we, being the lawyers, and the jurors asked to
21 decide this important matter, I think we're all
22 going to be better off.

23 And on behalf of the State, let me first
24 start by thanking you, thanking you for your jury
25 service, thanking you for your attention that you

1 are about to give in this case, and thanking you
2 in detail for what in jury selection we talked
3 about may perhaps be the most important decision
4 that you will ever make, at least for the rest of
5 your lives.

6 You will note, and we have already
7 introduced, that there are three attorneys on
8 this case, myself, Ken Kratz, the Calumet County
9 District Attorney. This is my courthouse. And
10 I'm joined by Mr. Fallon who is seated directly
11 to my right. Mr. Fallon is an Assistant Attorney
12 General with the Department of Justice. And
13 joining us also is Mr. Norm Gahn.

14 ATTORNEY GAHN: Good morning.

15 ATTORNEY KRATZ: Mr. Gahn is an Assistant
16 District Attorney in Milwaukee County, Wisconsin.
17 You will learn that each of us are special
18 prosecutors in this case. But what's so special
19 about a special prosecutor? Why would some small
20 town lawyer from Chilton be in charge of this entire
21 prosecution, this big of a case? Why would Ken
22 Kratz be asked to lead up this prosecution?

23 We'll talk about how this case was
24 assigned over, but just understand, at least for
25 this person, that although we are all experienced

1 prosecutors, we're doing a favor for Manitowoc
2 County. It's a rather big favor for Manitowoc
3 County, but it's a favor nonetheless. It is
4 helping the Manitowoc County District Attorney's
5 Office in presenting this case.

6 Mr. Rohrer, your District Attorney,
7 asked me to take over the case early on. You
8 will learn about when that happened. But it is
9 still something that we were simply asked to and
10 we did, in fact, perform.

11 There's two investigators in this case.
12 Now, you are going to hear that there were
13 hundreds of law enforcement officers involved in
14 this investigation, but these kinds of cases
15 require direction. They require leadership by
16 law enforcement officials that have experience.

17 The first lead investigator in the case
18 who is seated in the courtroom is Mark Wiegert.

19 MR. WIEGERT: Good morning.

20 ATTORNEY KRATZ: Mr Wiegert is an
21 investigator with the Calumet County Sheriff's
22 Department.

23 The other lead investigator in this case
24 is Tom Fassbender. Mr. Fassbender works for the
25 Department of Justice. He works for a law

1 enforcement branch of the Department of Justice
2 which is called the Division of Criminal
3 Investigation.

4 And, again, knowing who we are, knowing
5 who the five of us are, the prosecution team, we
6 hope may help in determining what's important in
7 these cases.

8 The Judge has told you, at least in
9 brief terms, what an opening statement is. But
10 often times evidence comes in in bits and pieces,
11 especially in a six week trial. That isn't
12 something that you will expect all of the
13 evidence to come at you at once. And so if we
14 can provide a road map or an overview of what the
15 evidence is going to show, that should be helpful
16 for you.

17 Some juries that I have spoken to, it's
18 been helpful to describe this process as the
19 provision of the cover of a jigsaw puzzle box.
20 All right. You think of evidence as pieces in a
21 jigsaw puzzle. You wouldn't tell, if you were
22 handed one piece of a jigsaw puzzle, where that's
23 going to go. But if you got the box and if you
24 have the box, some of the pieces are obvious
25 where they go; some are not so obvious, but at

1 least it's a guide. It's a help for you as to
2 where these pieces all fit.

3 Now, before I go any further, I want to
4 talk to you about something that I know some of
5 you, in your specific questions, expressed as
6 some concern and that's the nature of the
7 evidence that's going to be presented. This is a
8 very, very serious crime and potentially has
9 very, very graphic kinds of details that may be
10 involved or may be presented.

11 But there is some uncertainty about how
12 much evidence is going to be presented. And I
13 wanted to assure you, as the lead prosecutor, as
14 the person responsible for the presentation of
15 the case a couple of things.

16 Number one, and perhaps most importantly
17 for you, as the jury, I'm only going to present
18 those pieces of evidence that are necessary;
19 those pieces that are necessary to tell you the
20 entire story. My job is not to present gruesome,
21 or overly graphic information for you.

22 And I think as we go through this
23 process, you are going to find that the evidence
24 is pretty straight forward. It is not
25 necessarily gruesome or graphic, isn't something

1 that you should fear at this early stage. All
2 right.

3 I understand the sensitivities not only
4 of you, but of most of the people seated on the
5 left hand side of the courtroom. And I --
6 actually, I want you to look over to the left
7 side of the courtroom. That's the Halbach
8 family.

9 You are going to see them throughout the
10 case, friends and family. And I want to assure
11 you that before the first piece of evidence is
12 ever introduced in this case, everyone of those
13 people: The mother, the father, the brothers,
14 the sisters, the friends, and any other family
15 members that wanted to, have already seen all of
16 this evidence. All right.

17 I sat down with them and as sensitively
18 as I possibly could, allowed them an opportunity
19 to review the evidence. That's just something
20 that a prosecutor should do and that's all been
21 done. So as you see photographs being presented,
22 as you see physical evidence being brought into
23 the courtroom; I want to assure you that the
24 Halbach family already has seen it.

25 They have already known the kinds of

1 evidence that are going to be presented. And I
2 think that that was necessary for you to hear and
3 necessary for you to understand that this family
4 does have that information.

5 The Judge has told you that there's four
6 charges. I'm very, very briefly going to talk
7 about those four, because I don't want to
8 reiterate what the Judge did. But there are four
9 separate charges that the defendant is charged
10 with: First degree intentional homicide,
11 mutilation of a corpse, felon in possession of a
12 firearm and false imprisonment.

13 Now, the Judge instructed you and my job
14 today in opening statement, again, this isn't
15 evidence, but it is a help for you; it's the
16 cover if you will; it's the road map; it's the
17 overview, to talk about the first legal concept
18 that you as a jury has to understand. And that's
19 the concept called being a party to the crime.

20 The Judge has told you that that can be
21 satisfied either if the defendant committed an
22 offense himself or if the defendant aided and
23 abetted another in the commission of the offense.
24 Now, the first two counts, the homicide and the
25 mutilation of a corpse are charged as a party to

1 the crime.

2 And so you will learn, at the conclusion
3 of the case, six weeks from now, if you fast
4 forward six weeks from now, that the jury
5 instructions will tell you that if the defendant
6 committed any of those elements himself, or if
7 the defendant aided in another -- another --
8 excuse me -- aided and abetted another in the
9 commission of those offenses, that you can and
10 should find him guilty.

11 Now, I can't stand up here and predict
12 what the defense is going to bring into this
13 case, what cross-examination they may encounter,
14 or if they even choose to present any kind of
15 defense, nor should I. That isn't my job.

16 My job, as the prosecutor, is to present
17 our case, to present the physical evidence that
18 we have developed, to present the witnesses that
19 we have developed to prove our case. But just
20 understand, and just remember this concept when
21 it comes time to deciding whether or not the
22 defendant is guilty.

23 The Judge also told you about something
24 called elements of the offense. The State has
25 the burden of proof here. The defense has

1 absolutely no burden. And our burden is to prove
2 the case, beyond a reasonable doubt.

3 The Judge explained to you already that
4 beyond a reasonable doubt means a doubt for which
5 a reason can be given when considering all the
6 evidence. Let me tell you what it is not,
7 though. Beyond a reasonable doubt is not beyond
8 all doubt. It's not 100 percent. And when we
9 are dealing with a human justice system, you
10 can't expect beyond all doubt, or beyond a shadow
11 of a doubt, or comments sometimes that we have
12 heard about that.

13 It's beyond a reasonable doubt. A doubt
14 for which a reason can be given. And I'm
15 standing before you, members of the jury, telling
16 you that I accept that burden. I will prove this
17 case, beyond a reasonable doubt. But we didn't
18 want you going into this case expecting one
19 hundred percent, or beyond all doubt, because
20 there are human factors or dynamics that go into
21 these cases.

22 Each charge, the Judge told you, has
23 elements of those offense, we're going to go
24 through those in just a minute. But, also, each
25 of the four charges should be considered

1 separately. You shouldn't group them together
2 and decide if he is guilty of all four or none.
3 Each of the four counts are to be considered
4 separately. And, in fact, there is separate
5 evidence for all four of those counts.

6 And, finally, the defendant is presumed
7 innocent. As Mr. Avery sits here today, because
8 you have heard no evidence in this case, he is
9 presumed by you, or should be presumed by you, to
10 be innocent. However, and this is a big however,
11 that presumption disappears at that very moment
12 when the evidence in this case satisfies you,
13 beyond a reasonable doubt, that he is guilty of
14 that offense. That presumption disappears at the
15 moment that the evidence proves that he is
16 guilty.

17 Count 1, the Judge instructed you, has
18 two elements. And why I'm telling you this and
19 why I'm showing them on the screen or on a
20 PowerPoint presentation is because these are
21 serious, serious crimes; in fact, the most
22 serious crimes that we have in the State of
23 Wisconsin.

24 The legal concepts aren't all that
25 complex. We are talking about two things that we

1 have to prove, caused the death of somebody and
2 did it intentionally. Nothing magic about that,
3 nothing complex about that and all of you should
4 be able to understand that.

5 The same thing with mutilation of a
6 corpse, just the two elements; that he mutilated
7 a corpse and that he did so to conceal a crime
8 that had been committed. You will hear evidence
9 in this case about what that crime was that he
10 was trying to conceal. The crime, as you may
11 have already guessed, is the first degree
12 intentional homicide.

13 Mr. Avery is also charged with felon in
14 possession of a firearm; again, two elements, the
15 felon in possession. First, that he possessed
16 the firearm, that seems obvious. And, number 2,
17 that some time before November of 2005, he had
18 been convicted of a felony.

19 Now, the Judge has told you that that
20 second element is stipulated. Stipulation means
21 that the facts are agreed to by the parties; that
22 you can take that as already having been proved,
23 beyond a reasonable doubt, that Mr. Avery has
24 that felony conviction. And so it's just the
25 first element of that offense that the State has

1 to prove. Do you all understand that? All
2 right.

3 Now, false imprisonment has five
4 separate elements to the offense. Those five
5 elements are that he confined or restrained, note
6 that that's in the disjunctive; he either
7 confined or restrained Teresa Halbach,
8 intentionally, without her consent. He didn't
9 have authority and he knew that he didn't have
10 authority to confine or restrain Ms Halbach.

11 All right. Enough of the civics lesson.
12 Let's talk about what the evidence is going to
13 show. On Monday, October 31st, 2005, beginning
14 at approximately 2:45 p.m., the State intends to
15 prove to you that the defendant restrained,
16 murdered, and mutilated a 25 year old
17 photographer named Teresa Halbach.

18 We're going to prove to you what
19 happened. We're going to prove to you who
20 committed this crime. We're going to prove to
21 you where it happened. We're going to prove to
22 you when, specifically, it happened. And those
23 will prove all of the elements of the offense.

24 What we're not going to prove to you,
25 what the Judge has already told you we don't have

1 to and, in fact, can't prove to you, is why. We
2 can't prove the why in a case like this. That's
3 called motive, the reason behind the killing;
4 what was in Mr. Avery's mind when he decided to
5 kill this lovely young woman.

6 I'm going to introduce you to somebody.
7 This remarkable young woman was 25 years of age;
8 she was single; she was a freelance photographer.
9 She had her own photography business that was,
10 although in its infancy, was doing quite well.

11 This woman, and I will remind you
12 several times in this opening and throughout the
13 trial, I will remind you that we're talking about
14 a real person. We're talking about somebody's
15 daughter, somebody's sister, a lot of people's
16 friend. Teresa Halbach had her whole life in
17 front of her and the evidence is going to show
18 that on Halloween of 2005, that all ended, that
19 ended in the hands of the defendant, Steven
20 Avery.

21 It's such a big case, with such a big
22 job that we have to try to present all of this
23 investigation. I'm going to start from the
24 beginning and I'm going to start talking about
25 the investigation itself.

1 Ms Halbach was reported missing on the
2 third of November, 2005. Ms Halbach worked for
3 a -- at least part of her photography business
4 was that she worked for a publication called *Auto*
5 *Trader Magazine*. You are going to learn through
6 the case and you are going to hear from several
7 witnesses from *Auto Trader* that it is a magazine
8 that, basically, is responsible for selling
9 automobiles, some other things, trailers and the
10 like, but mostly automobiles. And it's a
11 publication that Teresa supplemented her income
12 with.

13 Teresa was mostly responsible or mostly
14 enjoyed taking photographs of weddings and was
15 already developing quite a niche and quite a
16 specialty taking pictures of little kids, of
17 babies and young children. But to supplement her
18 young business, she worked for *Auto Trader*
19 *Magazine*. So to understand how this case
20 transforms from a missing person investigation
21 into what became one of the largest criminal
22 investigations in Wisconsin history, starting
23 from the beginning, we're starting from the
24 investigation, is important for you to
25 understand.

1 The investigation determined that Teresa
2 Halbach took three pictures or at least had three
3 business stops on the 31st of October. Now, one
4 of those were a person by the name of
5 Mr. Schmitz; one of those was a person by the
6 name of Mr. Zipperer. And the third and the last
7 stop that she made late in the afternoon on the
8 31st was at the Steven Avery Salvage Property.

9 The investigation early on determined
10 that this man, Steven Avery, called *Auto Trader*
11 *Magazine* at 8:12 that morning, on that very day,
12 on the 31st of October. And Mr. Avery asked,
13 specifically, that the same woman who has been
14 out here before, the same woman who on at least
15 six and perhaps more occasions had come out to
16 take pictures. Mr. Avery wanted her out there
17 the afternoon of the 31st.

18 Now, two very critical findings very
19 early on in this investigation came to light:
20 Number 1, that Steven Avery was the one who lured
21 Ms Halbach out to the property on the 31st. But
22 number 2, and perhaps as importantly, Steven
23 Avery was the last person to see Teresa Halbach
24 alive.

25 Who is this man? The Judge told you

1 that there was a lawsuit which was filed against
2 Manitowoc County and many of you, in fact,
3 virtually all of you, knew something about Steven
4 Avery before serving on this particular jury.
5 Mr. Avery achieved some degree of notoriety back
6 in 2003 when he was exonerated for a 1985 sexual
7 assault conviction.

8 You should know that that exoneration
9 was based upon DNA evidence. You should know
10 that that DNA evidence was performed by the
11 Wisconsin State Crime Laboratory and it was
12 performed by an analyst, the head of the DNA unit
13 in Madison, a woman by the name of Sherry
14 Culhane. I want you to remember that name
15 because you are going to hear that name later on
16 in this case.

17 Mr. Avery, as you already heard, later
18 filed a civil lawsuit against Manitowoc County
19 seeking compensation, seeking money for the --
20 excuse me -- for the time that -- that he was
21 wrongfully convicted. And it's that degree of
22 notoriety, that's how Mr. Avery comes to you in
23 this case. That may or may not have some things
24 to do with this case.

25 Now, we understand and the evidence is

1 going to be clear, that Mr. Avery never should
2 have been convicted in 1985 based upon
3 eyewitness -- or mistaken eyewitness testimony;
4 that there wasn't any DNA evidence, at least the
5 DNA analysis wasn't to the level or to the point
6 that it is now and certainly isn't anything like
7 you are going to hear about in this case; and, in
8 fact, should have been exonerated and was in
9 2003.

10 We'll also tell you and at the close of
11 this case I'm going to point to everyone of you
12 presenting jurors and say that that has
13 absolutely nothing to do with this case. When
14 deciding who is accountable for the death of 25
15 year old Teresa Halbach, Mr. Avery's past and his
16 past exoneration have nothing to do with this
17 case.

18 Ms Halbach, as you have heard, or she
19 comes in this case as the -- part of a missing
20 persons investigation. Now, Calumet County, and
21 Mr. Wiegert, as a matter of fact, was in charge
22 of that missing persons investigation early on.
23 That's through the 3rd and the 5th. Those parts
24 of the missing persons investigation that
25 happened in Calumet County are Calumet County law

1 enforcement's responsibility. Those parts of the
2 missing persons investigation that happened in
3 Manitowoc County necessarily and appropriately
4 are Manitowoc County's responsibility.

5 When looking for a 25 year old freelance
6 photographer, there is nothing improper about
7 Manitowoc County being involved in that case.
8 You are going to learn, however, that on the 5th,
9 on the 5th of November, at about 2:00 in the
10 afternoon, Judge Jerome Fox, another judge from
11 Manitowoc County, one of the three sitting judges
12 in Manitowoc County, assigned me to be
13 responsible for the prosecution and to assist in
14 the investigation of this particular case.

15 You have already heard that the reason
16 for that was something called a perceived
17 conflict, an apparent conflict; that is, it may
18 look bad if Manitowoc County remained involved.
19 You are going to hear evidence from many law
20 enforcement officers; in fact, the lead
21 investigators in this case, that there was no
22 actual conflict.

23 There was nothing that prohibited, or
24 precluded, or legally made it impossible for
25 Manitowoc County to keep performing or keep

1 assisting in this case. But we all felt it
2 better; myself, Mr. Rohrer, the two district
3 attorneys, Sheriff Pagel and the law enforcement
4 officials for Manitowoc, that the case be
5 transferred over to Calumet County and to DCI,
6 the Division of Criminal Investigation, with the
7 State to lead up the investigation.

8 Now, you are going to hear that
9 Manitowoc County officials remained involved in
10 the case. They remained involved in the
11 investigation that when manpower, and we are
12 going to be talking about how many police
13 officers were necessary, that they remain in a
14 helping or a support role, but the case is, in
15 fact, turned over to Calumet County.

16 This particular photograph, I want you
17 to look at for quite a bit of time as I'm
18 talking. This is the Avery Salvage Yard, located
19 in the Town of Gibson. This is a photo that you
20 are going to see a lot during the course of this
21 case. And this is, for the next six weeks, a
22 property that you are going to come to know very,
23 very well.

24 And so as Mr. Fallon and Mr. Gahn and I
25 were talking about this opening statement, we

1 thought it appropriate that we introduce you to
2 the Avery salvage property. First of all, it's a
3 40 acre property. The entire square here is 40
4 acres.

5 What you also need to understand is that
6 all of these, appear to be little dots, are cars.
7 These are all junked vehicles in the Avery
8 salvage property. And a number that you are
9 going to hear is that there are about 4,000
10 junked vehicles on the Avery Salvage property.

11 There's four residences, four places
12 where people live on the Avery salvage property.
13 The first, in the lower left hand corner, which
14 is the northwest corner of the property, is
15 Steven Avery's trailer. That's where Steven
16 Avery lived on the 31st of October.

17 Living next to Steven was his sister,
18 Barb Janda. Barb had four sons that were living
19 with her at the time. But when you kind of look
20 at this property it's important to know where
21 Barb Janda's trailer is.

22 Steven's parents, Allen and Delores
23 Avery, also had a trailer, had a residence on the
24 property. And that was up closer to what you
25 will find out are some business buildings, the

1 salvage business itself was kind of up in this
2 quadrant, or this corner of the yard.

3 And, finally, Steven's brother, Charles
4 Avery, Chuck, also had a trailer on the property.
5 All right.

6 Now, you are going to hear that
7 surrounding this property on three sides was an
8 active, working gravel quarry. And so we're
9 going to have some larger aerial photos that
10 we're going to show you in just a minute, but
11 just to give you an idea of what's around this
12 property, not just the 40 acres of search area,
13 but hundreds of acres that surrounded that that
14 were also included in the search.

15 Members of the jury, the evidence is
16 going to show and you are going to hear from
17 officers, when they talk about the search efforts
18 in this case, that a search area this size is
19 nothing short of overwhelming. All right. All
20 of the places that the officers can look is
21 absolutely overwhelming.

22 If you know anything about the case you
23 will understand this event. But on Saturday, the
24 5th of November, Pam and Nikole Sturm, two
25 citizens, two citizen searchers, were given

1 permission and did search the Avery salvage
2 property.

3 Pam and Nikole found the needle in the
4 haystack. Pam and Nikole Sturm found the one
5 vehicle on the property that all of the citizen
6 searchers that you are going to hear about were
7 looking for.

8 Now, there are several things that the
9 evidence is going to show. And as you look at
10 this photograph, several things about the
11 attempts at whoever placed this vehicle here, to
12 disguise it, to hide it, attempts to obscure its
13 detection, you are going to learn, members of the
14 jury, through this evidence in the case, that the
15 vehicle was locked, that the four doors on this
16 vehicle were locked when Pam and Nikole came upon
17 it.

18 You are going to learn that the license
19 plates were both removed, both the front and back
20 license plates were removed from the vehicle.
21 You are going to learn the battery was
22 disconnected and you are also going to learn that
23 the vehicle identification number was necessary
24 to, in fact, identify this as Teresa Halbach's
25 vehicle.

1 Now, the evidence is also going to show
2 you where on the property Teresa Halbach's
3 vehicle was found. It was found in -- not
4 accidentally -- the furthest point from the
5 defendant's trailer. Again, you are going to
6 find that it was intentionally obscured, that it
7 had immediate access to something called a car
8 crusher on the property.

9 And, again, just to orient you, Steven
10 Avery's trailer is in the lower left hand portion
11 of this particular photograph. Where it was
12 found was not an accident. We'll also tell you,
13 during the course of the introduction of the
14 testimony, that it's important where it wasn't
15 found. It wasn't found on a roadway. Wasn't
16 found in some mall parking lot. It was found on
17 the Avery salvage property, the family business
18 property.

19 I talked about the car crusher; you will
20 hear a little bit about that piece of equipment
21 that was near or right next to Teresa Halbach's
22 vehicle. You are going to learn and you are
23 going to hear evidence sometime through this six
24 weeks how this piece of equipment works, how a
25 regular looking vehicle, car, SUV, truck, starts

1 out looking like a regular vehicle and ends up
2 flattened or smashed.

3 You are going to learn why it's
4 important that Teresa's vehicle was next to the
5 car crusher and you are going to learn the
6 numbers of crushed vehicles and how easily Teresa
7 Halbach's vehicle could never have been found in
8 this case. Could have been slipped in between,
9 if you will, one of those other cars.

10 You will hear about a lot of
11 professionals that were asked to perform
12 assistance in this case. You are going to hear
13 about law enforcement professionals; you are
14 going to hear about Crime Lab analysts; you are
15 going to hear about some very, very, well
16 qualified expert witnesses.

17 And all of those professionals have two
18 legs. One of them, though, has four. It's a
19 Belgian Shepherd named Brutus. Brutus is a
20 search and rescue -- or search and recovery dog
21 that is insensitively called a "cadaver dog".

22 What Brutus does is one thing. Brutus
23 is highly trained. And you are going to hear
24 testimony from Brutus' handler, Julie Cramer.
25 Brutus does one thing and that's find where a

1 deceased person has been.

2 The first official, first professional,
3 to approach this vehicle after it's found, after
4 law enforcement secures that area so nobody else
5 can get around there, the first professional was
6 a four legged variety. It was Brutus. It was a
7 canine.

8 And Brutus, you are going to hear, was
9 asked -- not directed towards this vehicle, but
10 asked to just search around this particular
11 location. You are going to hear evidence that
12 late in the afternoon on the 5th, after the
13 vehicle was found, after a search warrant was
14 already obtained in this case, that Brutus, when
15 approaching Teresa Halbach's vehicle, alerted.

16 It's called hitting on the vehicle. It
17 was quite a dramatic alert. And you are going to
18 hear from Ms Cramer about that. Sadly and
19 unfortunately, that meant one thing to the
20 handler and that meant one thing to the lead
21 investigators in the case. Early on, they
22 suspected, because of Brutus, because of this
23 search and rescue dog, because of this cadaver
24 dog, that a deceased individual either was in the
25 back of this SUV, or at some point had been in

1 the back of that SUV.

2 Now, importantly, you are also going to
3 hear that the police decided not to touch the
4 vehicle at that time. The police decided not to
5 process it even when the Crime Lab was on the
6 scene.

7 You are going to hear that the Crime Lab
8 loaded this vehicle onto an enclosed trailer,
9 trucked the enclosed and intact SUV all the way
10 to Madison, where on a Sunday, for a very brief
11 amount of time, but mostly on Monday, that
12 vehicle was processed by the experts. Processed
13 by those state agents, by those State Crime Lab
14 expert employees, analysts, when they made some
15 very dramatic and very important findings in the
16 case.

17 I don't want to get ahead of myself.
18 Because on November 5th, on that first night, on
19 that first afternoon, there were places to look,
20 as you can imagine. After Teresa Halbach's
21 vehicle was found on the Avery salvage property,
22 Mr. Wiegert, Mr. Fassbender, directing many law
23 enforcement officials, had a job to do.

24 Now, you saw the size of the Avery
25 salvage property. You are going to hear

1 testimony from Mr. Fassbender. He's going to
2 provide you with an idea about the methodology,
3 about the plan, the search plan in this case.

4 You are going to hear Agent Fassbender
5 talk about missing persons investigations and
6 when they go from missing persons to criminal
7 investigations, how their thought process
8 changes. But at that early stage, when they find
9 the vehicle, when they don't know that there is
10 any blood in the back of the vehicle, when they
11 don't know if a body is involved in this case,
12 that Agent Fassbender and every other law
13 enforcement officer, you will hear, at that
14 scene, had one thing in mind and that was to find
15 Teresa. The job of the police at the time was to
16 find Karen Halbach's daughter.

17 And you are going to hear the evidence
18 that the officers made very, very quick work of
19 searching all of the residences on the Avery
20 salvage property, all of the four residences, all
21 of the outbuildings. They are searching for
22 Teresa Halbach and the search plan, again, is to
23 find the victim, find the victim's body.

24 But a secondary obligation of theirs is
25 also to look for obvious signs of evidence,

1 right? You don't have to watch CSI to know that.
2 At least a first kind of sweep, or a first kind
3 of look through, or a first kind of search of all
4 of these residences are to try to find obvious
5 signs of a crime if, in fact, a crime did occur,
6 or something that is going to help law
7 enforcement find Teresa Halbach. Why I say all
8 that is because Steven Avery -- With search
9 warrant in hand, Steven Avery's residence was
10 searched on the 5th.

11 Now, again, we're looking for Teresa's
12 body, hopefully alive, but if not, it is
13 important to find if she's on that property.
14 Steven Avery's garage is searched, other
15 residences, all of the other buildings on the
16 residence are searched, the salvage business
17 itself. But the 4,000 vehicles, in what you will
18 hear was a torrential downpour, were also
19 examined for the first time on the evening of the
20 5th.

21 Now, law enforcement officers were
22 involved in that, but Brutus' friends were also
23 involved in that, other canines, the rest of the
24 team, the other search and rescue animals, the
25 canines, were taken in a downpour, in the pitch

1 dark, out on a 40 acre property. And everyone of
2 these cars was encircled by one of those dogs
3 trying to find Teresa Halbach.

4 Please recall, at this early stage, the
5 police don't know what they are looking for yet.
6 They don't really have an idea yet of the kinds
7 of things that they are looking for. So when you
8 remember this search plan, you will hear evidence
9 and some officers may even call it the funnel
10 approach, nothing fancy about calling it the
11 funnel approach, it makes sense.

12 It's a way to describe search efforts.
13 It is actually an interviewing technique as well.
14 But it's a way to find evidence in a funnel type
15 of approach. We're looking for the body first.
16 Then we're looking for obvious signs of evidence.
17 Then as you get closer and closer into more
18 detail, more thorough, more directed searches,
19 because you are able to go back into all of those
20 places and all of those properties, that's the
21 methodology.

22 And as you hear officers testify
23 throughout this case, when they testify on the
24 witness stand, remember that funnel approach.
25 Remember that kind of methodology as they talk

1 about these kinds of things. But make no
2 mistake, that on the first night, they are
3 looking for Teresa and they are hoping to find
4 Teresa alive.

5 When that was unsuccessful, the next
6 morning, on the 6th, Mr. Fassbender, Mr. Wiegert,
7 were able to secure some help. They needed
8 bodies. They needed some cops. They needed some
9 volunteers. And so they got volunteer
10 firefighters from all over the Manitowoc and
11 Calumet County areas.

12 And they all showed up in force, en
13 masse, on the morning of Sunday, November 6th.
14 And for the first time, everyone of those 4,000
15 vehicles was opened up. Everyone of those 4,000
16 trunks was opened by a firefighter with a police
17 officer with them, looking for the body of Teresa
18 Halbach.

19 Also on Sunday, November 6th, a firearm
20 was found, or recovered; it was actually found
21 the evening before. But it was seized; it was
22 recovered. It was hanging over the bed of the
23 defendant, Steven Avery. He thought it was
24 appropriate to recover that as a piece of
25 evidence and, in fact, it was.

1 You are going to hear that the brand
2 name of this semi-automatic .22 caliber rifle is
3 Marlin. You are going to hear that it is
4 something called tube loaded. Not that any of
5 these things are going to mean much to you at
6 this point, but there are a number of bullets
7 that are able to be loaded into this
8 semi-automatic rifle.

9 You are going to hear, by the way,
10 although hanging over Mr. Avery's bed and his
11 exercising control over that, should be obvious
12 that on the 31st of October, Mr. Avery exercised
13 a great deal more control.

14 A deserving piece of evidence was seized
15 on the -- Sunday, the 6th of November. And it
16 is, what we believe, the last recorded voice of
17 25 year old Teresa Halbach. When Mr. Avery, the
18 evidence will show, made arrangements to have
19 this young woman come out to his property that
20 afternoon, he didn't use his own name.

21 He didn't use the name Steven Avery.
22 Even though Ms Halbach had been out to the
23 property, as I told you, on a number of occasions
24 before; Mr. Avery used a different person's name.
25 He used the name B. Janda, the initial B. Janda,

1 J-a-n-d-a. That's Barb Janda, can be Barb Janda,
2 but when we called the *Auto Trader Magazine*
3 people in Milwaukee, and you are going to hear
4 from Ms Schuster and Ms Pliszka, two employees of
5 *Auto Trader*, Mr. Avery used the name and used the
6 number for B. Janda.

7 Teresa Halbach doesn't know who B. Janda
8 is. You are going to hear evidence that Ms
9 Halbach called back the telephone number for Barb
10 Janda and she left this voice mail. This voice
11 mail was recovered, was retrieved. You are going
12 to hear this voice mail.

13 And you are going to hear from Teresa in
14 her own words, in this courtroom, that she got
15 the message, that she knows that you want me to
16 come out to the property. Teresa Halbach tells
17 B. Janda that she's going to be out there
18 sometime after 2:00 p.m., that very day, on the
19 31st of October.

20 This will be important for you in
21 determining a timeline. Where was Teresa all
22 that day; was this before or after she went to
23 the Schmitz photo shoot and the Zipperer photo
24 shoot. That's going to be uncontroverted.
25 Absolutely, this is the last stop that she made

1 on the 31st of October.

2 Two days into this, folks, we're now on
3 Monday, the 7th of November, and the first
4 results come from the Wisconsin State Crime
5 Laboratory. The first results find several
6 things.

7 First of all, in the back cargo area of
8 Teresa's SUV, they find that there's female
9 blood. They find there is a lot of female blood
10 in the back of Teresa's SUV. But they also
11 found, interestingly, male blood, at least at
12 that early stage with their early typing, they
13 could find that it was male blood.

14 And interestingly and importantly that
15 already on Monday, the 7th of November, there is
16 male blood found in the victim's vehicle in at
17 least six different locations. Six different
18 places they find male blood. Mr. Wiegert,
19 Mr. Fassbender, all of the investigators don't
20 understand the significance of the male blood
21 being in six different places. They do, however,
22 understand the significance of a lot of female
23 blood. And they suspect early on that something
24 horrible has come to Teresa Halbach.

25 Also on Monday, a burn barrel was

1 discovered, not just any burn barrel. Again,
2 here's a picture, an overview, a part of the
3 aerial photograph of the Avery property itself.
4 There is Steven Avery's trailer and located
5 outside of Steven Avery's trailer was a burn
6 barrel that was recovered.

7 Now, again, not just any burn barrel,
8 but Steven Avery's burn barrel. And you will
9 hear later in my opening and you will hear a lot
10 of evidence about the trial, about what critical
11 pieces of information were found from that burn
12 barrel. But put it in perspective, on Monday,
13 that was found.

14 I provide this slide just as another
15 example for you of where that burn barrel was in
16 relationship, not only to the proximity of Steven
17 Avery's trailer, but the proximity to this red
18 Dodge Caravan. You may also have guessed, this
19 is the car that Steven Avery asked Teresa Halbach
20 to come take a picture of. All right. So the
21 proximity of the burn barrel to his front door
22 and also to the Dodge Caravan will be important
23 in the determination at the close of this case
24 when you decide who was responsible for these
25 crimes.

1 The next day, three critical pieces of
2 evidence are found on Tuesday, the 8th. Now, we
3 talked about these more detailed searches. On
4 Tuesday, one of these more detailed searches
5 occurred in Mr. Avery's trailer.

6 You are going to hear evidence that this
7 bookcase was pulled out, was jostled about. You
8 are going to hear evidence about this particular
9 binder having been pulled out of the bookcase.
10 And after the officers looked through it, how it
11 was slammed back in as the book case was actually
12 pulled out from the wall.

13 And after jostling and after searching
14 it, after slamming things around and after
15 putting the bookcase back in its location, you
16 are going to hear this is what the officers saw.
17 They saw a Toyota vehicle key in the bedroom of
18 Mr. Avery. You are going to hear evidence that
19 it had obvious evidentiary value, that the
20 officers at that time stopped what they were
21 doing and Investigator Dan Kucharski of the
22 Calumet County Sheriff's Department seized or
23 took control of that key during that more
24 detailed search.

25 More detailed searches were also

1 occurring at the same time of the entire Avery
2 Salvage Yard, which included now officers,
3 volunteer firefighters, going through all of the
4 cars again; 4,000 searches occurred again, on
5 Tuesday. But you are going to hear this time
6 they weren't looking for a body, at this time
7 they were looking for stuff. They were looking
8 for evidence.

9 After the body wasn't found in their
10 first search, they are going back and they are
11 looking for items of obvious evidentiary value.
12 You are going to hear testimony they found
13 something of obvious evidentiary value; they
14 found the victim, Teresa Halbach's, license
15 plates crumpled up in a station wagon.

16 I just show you this slide to show you
17 what the vehicle looked like, the station wagon
18 that the license plates were found in. And also
19 provide this aerial photograph to give you an
20 idea of the vehicle that the license plates were
21 found in.

22 Very quickly, I want to remind you of
23 Steven Avery's trailer is down in the lower left
24 hand corner; that the access road leading to
25 Mr. Avery's trailer comes from the top of this

1 figure down towards the right. Teresa Halbach's
2 vehicle is found in the first vehicle (sic) next
3 to the access road on its way to Steven Avery's
4 trailer. Again, the evidence is going to show,
5 not by accident, the proximity to the defendant's
6 roadway, the proximity to the defendant's
7 trailer, all becoming important.

8 Now, I told you that there were three
9 important discoveries on the 8th. And the third
10 and perhaps the most important discovery that day
11 is something that's being referred to as a burn
12 area. Again, just to orient you, it's the same
13 kind of picture that we have been looking at:
14 Steven Avery's trailer; Steven Avery's garage.
15 The Dodge Caravan, the van that Ms Halbach was
16 taking pictures of, was located right there; and
17 there's the burn area.

18 The proximity of this burn area to the
19 garage is obvious; the proximity of this burn
20 area to Mr. Avery's trailer itself is obvious.
21 To provide you with another view of this burn
22 area, again located -- you can see his trailer,
23 you can see the garage on the right.

24 But, importantly, that burn area
25 contained human remains. It contained obvious

1 bone fragments. Even to the untrained officers
2 that stumbled upon this particular burn area,
3 even when they called over the Crime Lab to
4 process this particular location, it was obvious
5 that there were human remains in this particular
6 burn area.

7 Now, this next picture is particularly
8 important because it was taken before any
9 processing begins. There's the burn area that
10 we're talking about. That's the burn area that
11 contained the obvious human remains. You will
12 see and you will hear from the officers who were
13 at the scene, that this burn area, from the first
14 night, was guarded, was guarded by Mr. Avery's
15 German Shepherd. I believe his name was Bear.

16 But this particular German Shepherd, not
17 of the friendly sort, did not allow law
18 enforcement officers to get close to this burn
19 area. Did not allow any of the canine help that
20 was out there to get close to that area. And any
21 time -- excuse me -- law enforcement even got
22 close to the burn area, Bear made sure that they
23 were shooed away.

24 But I think it's also important about
25 this case, when we talk about proximity, there

1 isn't any question who exercises control over
2 this burn area. And in the background, just --
3 just see how close it is to that van that Teresa
4 Halbach was asked to take a picture of.

5 The next day, Wednesday, November 9th,
6 was the first time that recovered bone fragments
7 from that burn area are identified by an
8 anthropologist. An anthropologist is a
9 professional who looks at bones and can identify
10 whether they are human, or that they are
11 non-human, where they go. We'll talk about that
12 a little bit later.

13 But even though these fragments are
14 small, even though they are burned almost beyond
15 recognition, on Wednesday, the 9th, they
16 determined that those were, in fact, adult female
17 remains found right behind the defendant's
18 garage.

19 All right. This is the first image that
20 is not a photograph that I'm showing you. This
21 is computer generated. And we're going to hear
22 from a man who created these images. His name is
23 Tim Austin. He works for the State patrol, the
24 State of Wisconsin, in scene reconstruction.

25 And what Tim Austin will tell you is

1 that he was out at the scene -- and we'll talk
2 about this a little bit later -- but he was out
3 at the scene and took over 4100 measurements out
4 at the scene. And after taking his own
5 photographs and after taking over 4100 images --
6 excuse me -- measurements, he was able to
7 recreate some of these scenes for you, for the
8 jury.

9 And these are created for the jury so
10 that you can see things that the naked eye can't
11 see; so that you can see things that photographs
12 can't show; so that you can see relationships
13 between some evidence and fixed objects or other
14 evidence that's found. And so as you see this
15 perspective you will see that you are up, you
16 know, dozens of feet above the ground. And it's
17 something, again, unless you are that tall, you
18 are not going to be able to see this kind of
19 location.

20 But this particular computer generated
21 animation is important to embrace or to -- for a
22 jury to look at in the case because the burn area
23 is clearly visible. How close it is to
24 Mr. Avery's garage; how close it is to the
25 trailer; how close it is to the other area,

1 what's called the curtilage, that is the area
2 that surrounds Mr. Avery's property, all becomes
3 important.

4 All right. So these are -- And when
5 something is not a picture, when it, in fact, was
6 created through computer animation or computer
7 generation, I will let you know that.

8 One of the bones that was recovered was
9 a long bone. And I'm showing you this for a
10 reason, in my opening statement, so that you
11 understand what we're looking at here. That we
12 aren't just looking at some bone in abstract.
13 We're not just looking at some DNA profile.

14 It's Teresa Halbach's shinbone. All
15 right. It's Karen Halbach's daughter's tibia.
16 And attached to Teresa Halbach's tibia was some
17 tissue. Now, despite Mr. Avery -- The evidence
18 will show, that despite Mr. Avery's effort to
19 completely obliterate all these bones, by
20 burning, to incinerate these bones completely,
21 this bone survived.

22 This tissue that was on the bone
23 survived, which allowed a DNA match, which
24 allowed the State of Wisconsin analyst, guess
25 who, Sherry Culhane, when she performed an

1 analysis on that tissue, to match it with the
2 blood found in the back of the SUV; with a soda
3 can that is found in the front of the SUV; and
4 with a standard.

5 Now, the standard is also called an
6 exemplar. You are going to hear those two
7 statements, but Teresa Halbach, before the 31st
8 of October, had a Pap smear performed, a cervical
9 swab that was performed. And thankfully for us,
10 that was kept at Bellin, up in Green Bay. Well,
11 Sherry, also -- Ms Culhane, also, was able to
12 develop a DNA profile from the Pap smear.

13 We know that's Teresa. And from that
14 exemplar, from that example, matches the tissue
15 on the leg bone; matches the blood; matches the
16 soda can. We can say with 100 percent certainty
17 that those human remains are those of Teresa
18 Halbach.

19 The first 11 days of this case become
20 extremely important. And for just about five
21 minutes here, I want to give you those 11 days
22 in. And what you have just heard, that part of
23 the investigation, you have only heard 11 days
24 worth of investigation, which has gone on 15
25 months now. But the first 11 days are important

1 and I want to just run through those for you.

2 Ms Halbach is killed on the 31st of
3 October, at the Steven Avery salvage property,
4 sometime after 2:45 p.m. You are going to hear
5 from a gentleman by the name of Tom Pearce, who
6 is Teresa Halbach's business partner, that she
7 doesn't show up for work on the 1st or 2nd.

8 And on the 3rd, Teresa Halbach is
9 reported missing to law enforcement authorities.
10 That's when the missing persons investigation,
11 from a law enforcement standpoint, begins. I
12 think, if you will, as to the feelings of the
13 Halbach family and friends and how worried they
14 are even on the 3rd.

15 But on the 4th, you are going to hear
16 from a witness named Ryan Hillegas who helped
17 coordinate the citizen search efforts.

18 You are going to hear that there was
19 something called cell tracking. We're going to
20 hear a little bit about that. A cell phone
21 actually is almost a transmitting device and it
22 pings or beeps, if you will, off of cell towers
23 all over the state, whenever you carry it in your
24 pocket, whether it's on or not. You are going to
25 hear evidence about attempts to find Teresa's

1 cell phone; if we find her cell phone, we can
2 find Teresa.

3 We also looked at those early stages for
4 whether or not she used any of her credit cards.
5 Where is Teresa Halbach? We try to find that
6 out.

7 You are going to hear that a gentleman
8 by the name of Curt Drumm, a pilot in the
9 Manitowoc area, volunteered his airplane and
10 helped law enforcement fly over Mr. Zipperer's
11 residence and Mr. Schmitz's residence and the
12 Avery compound and any of the roads that may have
13 led to and from there to try and find Teresa
14 Halbach.

15 On the 5th, we know that Teresa's
16 vehicle was found at the Avery salvage property.
17 You will hear that search warrants were obtained.
18 You will hear during the course of this case that
19 a search warrant is nothing more than a piece of
20 paper. It's a judicial authorization; a judge
21 authorizes law enforcement officers to search the
22 property, in private areas. And we got many,
23 many search warrants in this case and searched
24 for her body.

25 You have heard already, that on the 6th,

1 firearms are obtained or taken from Mr. Avery's
2 bedroom; his garage is searched, at least the
3 first search of the garage for those items of
4 obvious evidentiary value. But remember, on that
5 Sunday we don't have any results yet, from the
6 Crime Lab. Those don't come until sometime on
7 Monday, when the Crime Lab determines that both
8 male and female blood is located in the SUV.

9 We search, for the first time, all of
10 the junked vehicles, at least all of the trunks
11 are searched.

12 And Mr. Avery's burn barrel is
13 discovered and searched.

14 And other things will happen and you are
15 going to hear from other officers that the
16 surrounding areas, not just the 40 acres, but
17 hundreds of acres of gravel pits and the like are
18 being searched in these early days.

19 On Tuesday, perhaps the most important
20 of all the days as far as discoveries go, those
21 three critical discoveries are made: The Toyota
22 key, the license plates, and the burn area behind
23 the defendant's property.

24 On Wednesday, the 9th, there is an
25 identification made of male blood in the victim's

1 vehicle. That blood matches the DNA profile of
2 the defendant, Steven Avery. And bones are
3 recovered and determined to be that of an adult
4 female.

5 You will hear on the 10th, on Thursday,
6 the burn area is further excavated by arson
7 investigators and other Crime Lab and other types
8 of officials but, interestingly, the defendant's
9 DNA is now found on the key.

10 And, finally, on Friday, the 11th, the
11 female blood that was found, the great pool, if
12 you will, of female blood, in the cargo area, is
13 now matched. It is determined to match the soda
14 can -- the saliva from the diet Wild Cherry
15 Pepsi, I believe, soda can in the front of
16 Teresa's car. The blood is now presumed to be
17 that of the victim, Teresa Halbach.

18 You have heard the term that they told
19 me there would be no math, well, there is going
20 to be some science. And here's where I have to
21 at least give you an overview of what the science
22 of this case is going to be.

23 The science, the blood part of the
24 science, the DNA analysis and explanation of this
25 case is going to come from this gentleman right

1 here, Norm Gahn. Mr. Gahn, you will learn by his
2 examination, is quite knowledgable in DNA and DNA
3 from a prosecution standpoint. And in all
4 honesty and in all candor, that's why he was
5 added to the prosecution team, because this is
6 such an important part of the case. The science
7 becomes very, very important.

8 You are going to hear about a DNA
9 analyst from the Wisconsin Crime Lab named Sherry
10 Culhane. Again, Ms Culhane, almost unbelievably,
11 is the very analyst that exonerates Mr. Steven
12 Avery several years earlier. She's the same
13 analyst that does the detailed DNA work on
14 Mr. Avery's work with the Innocence Project and
15 frees Mr. Avery from his incarceration.

16 Well, that same woman, Sherry Culhane,
17 processes this vehicle. Because she's the unit
18 head, because this is such an important case, she
19 does the work herself. She does all of the
20 analysis of all of the blood that's found in
21 these cases.

22 You are going to hear from Ms Culhane,
23 through the assistance of Mr. Gahn, what DNA is,
24 that it is a genetic fingerprint, if you will.
25 Provides an opportunity, as most of you may

1 already know, to take a sample and to take a
2 unknown sample, something like blood that's found
3 in the back of an SUV and to take a known DNA
4 sample, since our DNA is all the same in all of
5 our bodily fluids.

6 Our blood has the same DNA as our
7 saliva, as our semen, as the skin cells, as our
8 tissue; it's all the same DNA. So once you
9 develop a profile, each of us all has different
10 DNA; it's unique to each of us. And Mr. Gahn
11 will explain all of that for you.

12 But with that as the background, Ms
13 Culhane was able to establish all of the places
14 in that SUV that had Teresa Halbach's DNA. You
15 are going to learn that they found a large
16 quantity of the blood and DNA in the cargo floor
17 and the side panel. The back cargo door, you are
18 going to hear that there were splatters, spatters
19 of Teresa's blood in the back cargo door.

20 You are going to hear that on the rear
21 tailgate there were droplets of Teresa's blood;
22 her DNA is found on the door handle; and, also,
23 as I have already alluded and you might expect,
24 the saliva from the soda can, Ms Culhane will
25 find DNA evidence.

1 I told you about male blood that was in
2 the SUV. On Wednesday, the 9th of November,
3 Steven Avery subjected to a very thorough medical
4 examination, again, as result of a warrant, as a
5 result of a judicial authorization to do that
6 particular kind of examination. And what they
7 found was a very, very deep cut to Mr. Avery's
8 right middle finger but, importantly, on the
9 outside of his right middle finger. And that's
10 where the cut was.

11 This cut was actively bleeding on the
12 31st of October. And I guess, thankfully, for
13 the State. And as a jury, I hope at the
14 conclusion of this case you will say thankfully
15 for you. Because DNA analysis was then possible
16 because of his actively bleeding, of his leaving
17 his DNA behind, inside of Teresa's vehicle.

18 Ms Culhane will tell you that the
19 defendant's blood was found in at least six
20 places in Teresa Halbach's SUV including the rear
21 passenger door, smeared or wiped on the rear
22 passenger door. Okay. There's a front door;
23 there's a back door; kind of like a four door
24 car. It was in the backdoor and it's along the
25 edge or along the metal of the rear passenger

1 door. That's Steven Avery's blood. That's how
2 much blood he left on the side of the door.

3 We have heard about the defendant's
4 blood on the ignition. That positively matched
5 that of Steven Avery. As you think about this
6 case and I will argue at the end of the case, but
7 there isn't any secret and the defense
8 understands this is as well, an actively bleeding
9 middle right finger. And when you look at the --
10 excuse me -- When you look at the smear, kind of
11 visualize turning the ignition and how that can
12 smear from the outside of the middle finger and
13 leave that particular kind of DNA evidence.

14 Other places that the defendant bled
15 inside of the victim's car included blood on her
16 CD case in her front seat. Both front seats had
17 droplets of Mr. Avery's blood on it. The rear
18 tailgate, remember I told you there was a droplet
19 of Teresa's blood; because Mr. Avery is actively
20 bleeding, there is a droplet of his blood as
21 well. And also on the front console floor, is
22 kind of up in that particular area.

23 Sherry Culhane and Mr. Gahn are better
24 able to explain all those for you, but it's
25 important for you to know. Now, again, the

1 jigsaw puzzle, when you hear the evidence and
2 when you have to decide who killed Teresa
3 Halbach, this evidence points to one person.

4 Now, Mr. Gahn and his questioning, and
5 Ms Culhane is going to tell you, that DNA
6 evidence, again, is not just from blood. It can
7 be from skin cells which are left through
8 perspiration, sweat, okay, saliva and sweat and
9 all those other kinds of bodily fluids that we
10 talked about. So when somebody's hands are
11 sweating and you handle something, it's possible
12 that you can leave your DNA on that thing that
13 you handled.

14 You heard a suggestion already in which
15 there will be evidence in this case that the
16 battery was disconnected on Ms Halbach's vehicle.
17 We'll tell you, or at least we'll argue as to why
18 that happened. But importantly, in reaching up
19 underneath the hood, to open up Teresa Halbach's
20 vehicle, Mr. Avery was kind enough to leave his
21 DNA on the hood latch. Okay. That will come
22 from Sherry Culhane as well.

23 In handling Ms Halbach's key that starts
24 the ignition and putting it into his bedroom,
25 Mr. Avery was kind enough to leave his DNA on

1 that portion of the Toyota key that was found.

2 So that's part of the science.

3 Other science is going to include things
4 like teeth, teeth that were recovered from the
5 burn area. This part of the science, by the way,
6 will be handled by Mr. Fallon, and other expert
7 witnesses, but most importantly, through somebody
8 called a forensic odontologist.

9 That's a big word, kind of scared me
10 when I first heard it. Gentleman's name is
11 Dr. Donald Simley. Mr. Simley is a odontologist.
12 From a forensic standpoint, it's kind of a
13 dentist who matches stuff up.

14 So Mr -- or Dr. Simley, the dentist, the
15 odontologist, will show you a -- what's called a
16 panorex x-ray. We went to Teresa's dentist. We
17 got her x-rays from when she had work being done
18 and Dr. Simley will show you tooth number 31,
19 which is the second last tooth in the bottom left
20 jaw.

21 Dr. Simley will also tell you that
22 x-rays were taken of teeth that were found from
23 the burn area. He will show you tooth number 31
24 that was actually recovered from the burn area
25 and will allow the jury to make their own

1 comparisons.

2 We talked about an anthropologist. Our
3 anthropologist is Dr. Leslie Eisenberg.

4 Dr. Eisenberg will tell you about her
5 credentials, about how she does this -- this
6 whole kind of work. And although, unfortunately,
7 the bones that she had to deal with and, again,
8 we aren't talking about a full skeleton that was
9 found in that -- that bone (sic) pit.

10 If we did, by the way, we may not be
11 including a charge against Mr. Avery for
12 mutilation of a corpse. But mutilation of this
13 little girl -- excuse me -- not this little girl,
14 but this young woman, absolutely occurred.
15 Because this is what's left, small tiny pieces of
16 bone fragment.

17 And when you talk about a jigsaw puzzle,
18 when you talk about trying to put all of this
19 together; it's a very, very difficult process.
20 And when I asked -- And the testimony, actually,
21 of Dr. Eisenberg is going to allude to this
22 jigsaw puzzle kind of analogy and we don't even
23 have a box or a cover to go on. Luckily for us
24 and luckily for you, Leslie Eisenberg is your
25 jigsaw puzzle covered box.

1 In other words, Dr. Eisenberg knows
2 where everyone of these bones goes.
3 Dr. Eisenberg will identify all of these bone
4 fragments. She'll identify, from a female
5 skeleton and from examples that are used, all of
6 the different parts of Teresa that were found.
7 Okay. And it will help you as far as
8 identification processes go, as to what parts of
9 Teresa's bones and what parts of the body were
10 actually recovered in this case.

11 Now, not all evidence is of equal
12 weight. And two really important pieces of bone
13 were found. And those were two pieces of what
14 are called the cranium, the skull, that were
15 burned very, very badly but were identified as
16 such by Dr. Eisenberg.

17 The parts of the skull, this picture
18 that you are looking at is actually a part of the
19 skull now. This brilliant woman is going to tell
20 you that this isn't just part of the skull, but
21 this is a little piece of the skull that's just
22 on top of or over somebody's left ear.

23 How do you tell that kind of thing
24 looking at a bone like that, but that's what an
25 anthropologist apparently -- apparently does.

1 And that's why she's an expert, and we're not, in
2 this area. But, importantly, the damage, the
3 defect that's caused, the evidence is going to
4 show that you are looking at the inside, from the
5 inside out, the inside of Teresa's skull out;
6 that the circular or half circle -- because this
7 isn't the full piece, this is half of the
8 important piece here -- is extremely important.

9 The defect, the damage here, the
10 testimony will be, is caused by a high velocity
11 projectile. We take this same bone fragment and
12 you are going to hear evidence about other
13 experts and it allows some other analysis of this
14 particular piece of bone, this particular piece
15 of cranium.

16 You are going to hear from a gentleman
17 by the name of Ken Olsen from the Crime Lab; he
18 is an expert in trace evidence, the CSI kind of
19 stuff, but the trace from an elemental
20 standpoint. When you x-ray something, the
21 evidence is going to show bone and other kinds of
22 vascular or veins and things show up after you
23 x-ray even a burned piece of bone.

24 But what also shows up are things that
25 don't burn up. All right. When Mr. Olsen

1 testifies, he's going to point to these little
2 bright dots. See those okay from there? These
3 little bright dots that are right on the lip of
4 the cranial defect.

5 Those little bright dots he's going to
6 say he examined. He recovered those and he did
7 his analysis on them, elemental analysis, and
8 found that they are lead. These little dots are
9 lead, what's called lead spray. You are going to
10 hear testimony that there's only one thing, only
11 one item that can travel fast enough, as a
12 projectile, to cause this kind of a defect and
13 also leave lead. And as you might predict,
14 that's a bullet. All right. Lead spray is left
15 by bullets.

16 Dr. Eisenberg, then, with the assistance
17 of a gentleman by the name of Jeffrey Jentzen, is
18 the Milwaukee County Medical Examiner.
19 Dr. Jentzen, has -- and you will hear he has a
20 great deal of experience nationally, a national
21 expert in things like gunshot wounds.

22 Dr. Jentzen and Dr. Eisenberg will
23 render two expert opinions: First of all, that
24 the left parietal region, the region just above
25 the left ear, the thing that you just saw, the

1 combination of the projectile and the lead spray,
2 leads these two experts -- and especially the
3 pathologist -- especially Dr. Jentzen, who will
4 tell you that that's an entrance wound, just
5 above the left ear of Teresa Halbach.

6 They will also find a second and we will
7 show you a second entrance wound, similar kind of
8 defect that's found in a recovered bone that is
9 on what's called the occipital region of the
10 skull. That's to the back and just to the left
11 side of the back of the skull and that was a
12 second entrance wound.

13 Finally, their opinion, when they put
14 together -- when you ask of the State, what was
15 the cause of death, what was the mechanism of
16 death, at the conclusion of this case I will be
17 able to tell you, this was a homicide and it
18 included at least two gunshot wounds to the head
19 of 25 year old Teresa Halbach.

20 I'm almost done so hang on. Remember
21 this burn barrel, remember found outside of
22 Mr. Avery's trailer, well, this burn barrel, as I
23 told you, was examined. And although Mr. Avery,
24 the evidence will show you, attempted to burn up
25 all of the stuff that was in the burn barrel, it

1 didn't burn. It didn't burn up.

2 And the things that didn't burn up were
3 electronic components. All of these electronic
4 components were found in Mr. Avery's burn barrel.
5 This is other evidence. This is more evidence,
6 not just the science, not just the DNA, not just
7 the blood, but at the conclusion of the case will
8 be other evidence that will be able to assist you
9 in pointing to who killed Teresa Halbach.

10 Of those electronic components, included
11 Teresa's cell phone. You will hear evidence that
12 Teresa had a Motorola V3 RAZR cell phone. And
13 when we look at and when the experts show you
14 those electronic components that are found within
15 the burn barrel, you will recognize or some of
16 you might, the Motorola sign.

17 But for those of you that don't, we're
18 going to have a gentleman by the name of
19 Mr. Thomas from the FBI come here from Virginia
20 and he's going to show you all those components
21 and he's going to show you what they looked like
22 when they were recovered from Mr. Avery's burn
23 barrel and what they used to look like on a
24 Motorola V3 RAZR cell phone. All right. So you
25 are going to be able to match up the components

1 itself and what it used to look like before Mr.
2 Avery's attempts to destroy that evidence as
3 well.

4 You are going to hear about a digital
5 camera that Teresa Halbach had; digital camera
6 that she used to take pictures was a Canon A310,
7 PowerShot A310. You are going to hear all kinds
8 of interesting evidence about how a digital
9 camera -- and some of you may know this and
10 certainly our media friends know this. But when
11 you take a picture with a digital camera, that
12 photo, that image that you take with a digital
13 camera leaves a signature. It leaves an
14 electronic imprint on the image itself.

15 And so, if you put that picture on a
16 laptop computer or your home computer and you
17 take your little mouse and put what's called the
18 cursor, the little arrow thing, over the picture
19 itself, it gives you an incredible amount of
20 information. Gives you the date that that
21 picture was taken. It tells you things about the
22 picture itself, including what kind of camera was
23 used.

24 And you are going to learn and you are
25 going to see at least six different pictures that

1 were taken at Steven Avery's property by Teresa
2 Halbach. And all six of those include that
3 little imprint, include that signature, will tell
4 you conclusively that Teresa uses the Canon
5 PowerShot A310. All right.

6 We'll have these even more blown up for
7 you, but that says PowerShot A310. There isn't
8 going to be any question at all about whose
9 camera it was that Mr. Avery burned in his burn
10 barrel on the 31st of October.

11 You are going to hear about those other
12 electronic components, by the way. I don't know
13 if you use a palm pilot or a PDA, a personal data
14 assistant. Teresa had one of those. That was
15 also burned up and found in that burn barrel with
16 some other information.

17 But when on the topic of what other
18 evidence, what additional evidence, we're not
19 done there folks. All right. We have other
20 evidence that we have developed in the last 15
21 months. You are going to learn that in
22 Mr. Avery's garage, after shooting the bullets
23 into 25 year old Teresa Halbach, they ejected
24 what are called shell casings.

25 Those are the little brass casings that

1 come out of a gun after you shoot the gun. Well,
2 it's possible for experts, for toolmark experts
3 from the Crime Lab to match up those shell
4 casings with a specific gun. And they will, in
5 fact, match that .22 caliber rifle that's hanging
6 over Mr. Avery's bed.

7 Now, March 1st and 2nd, 2 bullets were
8 found, also, in Mr. Avery's garage. Through a
9 more detailed search, you will find out why that
10 happened. Through a more detailed search of the
11 garage, two bullet fragments were found in
12 Avery's garage. One of those bullet fragments,
13 after going through Teresa Halbach, included
14 Teresa's DNA.

15 And so as a matter, through Mr. Gahn and
16 through his experts, you will learn that Teresa
17 helped you too, that she left behind some
18 evidence for you to consider in this case.
19 Teresa left behind her DNA for you to consider on
20 one of the bullets that's found in the defendant,
21 Mr. Avery's, garage.

22 You will hear about things like phone
23 calls. You'll hear about how phone calls can't
24 be changed in the records and we can provide a
25 timeline as to when certain things happened; when

1 Mr. Avery called for Teresa; when he called her
2 two times before she ever got there; and when he
3 places a -- what we're going to be called an
4 alibi call, two hours after she's already at the
5 property. You are going to hear about all those
6 kinds of phone calls.

7 And as I mentioned, at least briefly,
8 before other analysis of bone and tissue, other
9 things to point to, if in fact the State even
10 question whose bones and whose tissue it is
11 behind Mr. Avery's property.

12 Lastly, I just want to remind you of the
13 kinds of exhibits that you are going to hear in
14 this case. You are going to see items that were
15 seized, stuff that was seized from the scene,
16 from Mr. Avery's property. You are going to get
17 photographs from out at the scene, but you are
18 also going to see photographs after the evidence
19 was already obtained so that you have a more
20 pristine or a better view of some of this
21 evidence.

22 You are going to look at documents and
23 records. You are going to hear from experts.
24 And they will provide some written expert reports
25 and also summary and demonstrative exhibits.

1 Just a little bit on summary exhibits.
2 When there's lots of evidence like documents;
3 lots of things in documents, phone records, you
4 know, things like this; when it's hard for you to
5 digest, we'll try to create a one or a two page
6 summary of all that information to help the jury
7 and find out exactly what all of it means.

8 And, finally, audio and videotaped kinds
9 of evidence, you would expect to find those kinds
10 of things.

11 Remember I told you before, just talking
12 about different kinds of photos, about those
13 pictures that Teresa took, those six different
14 pictures; this is one of them. It was taken on
15 June 20th, by Teresa Halbach.

16 I use this as the example because --
17 because I wanted to. But it shows very clearly
18 Mr. Avery's trailer, his garage. It's clear
19 through *Auto Trader Magazine*, when Mr. Avery, in
20 June of this year tried to sell this particular
21 trailer, Teresa Halbach took this picture, again,
22 with a Canon PowerShot A310. You will hear all
23 those kind of things.

24 But the reason, at least for this part
25 of the presentation, I'm showing you this, is it

1 tells you a difference between a scene photo and
2 things that I mentioned at least briefly before;
3 computer generated scene models. Again, this
4 isn't a picture. This is a -- provided by
5 Mr. Austin, but you will note that it's something
6 that you couldn't see with your eye.

7 Again, usually there's elevations that
8 are involved. These kinds of models are, by the
9 way, within an inch, you will hear, accurate.
10 Every measurement is within an inch. So this
11 isn't some blackboard that was taken down and you
12 just do the best you can.

13 And these are 4100 measurements that
14 make everything geometrically perfect,
15 geometrically accurate to within an inch. But
16 these kinds of models should assist you. Since
17 it's the middle of February, we're not going to
18 be traipsing off to the Avery property.

19 These kinds of things may help you in
20 understanding better and getting a better tour of
21 the Avery property. But just this model, as an
22 example, shows you how close Mr. Avery's burn
23 barrel is to his front door; how close it is to
24 the vehicle that Ms Halbach took pictures of.
25 And even things like after taking the pictures,

1 the path that Teresa Halbach took as she walked
2 towards Mr. Avery's property.

3 For those of you big picture people, not
4 detail oriented people, you all were asked that
5 question, we'll have aerial photographs for you.
6 Again, when we look at all of the surrounding
7 gravel pits on at least three sides of the Avery
8 property and how that may fit into some of those
9 kind of things.

10 We have interior photos as well. Photos
11 of the inside of Mr. Avery's garage. Now, you
12 will note a couple things about this photo.

13 First of all, you will note how cluttered, to say
14 the least, that it is. And this might help you
15 understand how difficult it was for officers, not
16 knowing what they are looking for, in November,
17 to kind of go through this garage, not knowing
18 that the shooting -- not knowing that the
19 shooting happened in this garage. The officers
20 didn't really know what they were looking for.

21 But in March, when this picture was
22 taken, and they know what they are looking for
23 and they know where to look in the garage, these
24 kind of pictures should be able to help you. But
25 Mr. Austin also will help you in giving you a

1 geometric perspective, ripping the roof off, if
2 you will, of the garage and show you models of
3 the insides of the garage.

4 By the way, just so there isn't any
5 question why I'm showing you this exhibit, one of
6 the bullets, number 9, which was found in the
7 crack of a -- the cement, that was not cleaned up
8 in this case. And tent number 23A, underneath
9 what was a air compressor, the evidence is going
10 to show, is the bullet that Teresa left her DNA
11 for you. Underneath that air compressor is where
12 they recovered that second bullet.

13 Other interior photos, you are going to
14 see photos of the interior of Mr. Avery's
15 bedroom, the gun rack that hangs over Mr. Avery's
16 bed with two firearms, one was a .50 caliber
17 muzzleloader and on top of that was a .22 caliber
18 automatic -- semi-automatic rifle.

19 But Mr. Austin, again, provides you
20 with, ripping off the roof, if you will, interior
21 scene models, where you are going to be able to
22 look at the living room of Mr. Avery and his
23 spare bedroom and his bathroom and Mr. Avery's
24 master bedroom, be able to kind of walk around
25 within that space. So it will help you

1 understand where some of these evidence -- or
2 some of this evidence was found.

3 Finally, the kinds of witnesses that you
4 are going to hear from, include citizens and law
5 enforcement officers and records kinds of people;
6 although, most of those will be agreed to between
7 Mr. Strang and us, as well as expert witnesses.

8 You will hear from various kinds of
9 citizens like Bobby Dassey, who is one of the
10 sons of Barb Janda, who you will hear testimony
11 about, that at about 2:45 on the 31st of October,
12 Bobby saw a young girl drive up to the Avery
13 property.

14 Bobby Dassey saw this young girl, later
15 identified as Teresa Halbach, get out of her
16 teal, or blue, or green colored SUV and actually
17 take pictures of the van that her mom had for
18 sale. Bobby Dassey is going to tell you, that
19 after looking out the window and after seeing
20 Teresa Halbach take these photographs of this
21 vehicle and finish her job, that Teresa walked
22 towards Steven Avery's trailer.

23 You will hear evidence that she was
24 walking towards the main entrance of Steven
25 Avery's trailer and that Bobby thereafter took a

1 shower and left to go deer hunting, bow hunting,
2 about 15 minutes later. You are going to hear
3 from Bobby that when he left 15 minutes later,
4 Teresa's SUV was there, but Teresa was nowhere to
5 be found.

6 You are going to hear that Bobby Dassey
7 was the last person, the last citizen that will
8 have seen Teresa Halbach alive. You are going to
9 hear from other citizens like that, other people
10 that will help place this case into context for
11 us.

12 Juries are triers of fact. You don't
13 decide what the law is, the judge does that. But
14 you decide what the facts of the case are. And
15 the facts in this case aren't just going to point
16 to who did it; it's not just a who done it case.
17 It's a what happened and where it happened and
18 when it happened.

19 But we're also going to provide you
20 evidence, not just that Steven Avery did it, but
21 to the exclusion of other people as well. In
22 other words, positive evidence about who done
23 know it, but also negative evidence of why that
24 necessarily excludes others. And so you get to
25 find those facts and at the end of this case, you

1 will search for the truth. You are not to search
2 for doubt, you are to search for the truth.

3 I told you when you started this case
4 and when this opening statement started, that
5 this may, in fact, be the most important decision
6 that you will ever -- going to make.

7 That leaves us, then, with the end. I'm
8 going to remind you through this case, I'm not
9 going to apologize about it, but this is Teresa
10 Halbach. I'm not going to apologize about the
11 fact that this is not a DNA profile number. This
12 isn't a box of recovered bones, but as I have
13 mentioned before, remembering the humanity of
14 Teresa Halbach. Remembering who she is, what she
15 meant to these people, is an important part of
16 this process.

17 Ultimately, this process includes
18 assigning accountability. It will require you to
19 assign responsibility for the murder and
20 mutilation of an innocent 25 year old young lady.
21 I'm confident, members of the jury, that after
22 the conclusion of this, what could in fact be a
23 six week trial, that you are going to agree with
24 me. You are going to agree with the State that
25 we have met our burden, that is, beyond a

1 reasonable doubt. I will ask at the conclusion
2 of this case, that you return verdicts of guilty.
3 Thank you. Thank you, Judge.

4 THE COURT: Thank you, Mr. Kratz. Members
5 of the jury, it's quarter to 12. It's a little
6 earlier than we normally take our lunch break, but I
7 don't believe there is time enough to get started
8 with anything else before lunch.

9 During the course of the trial the Court
10 will attempt to give you a break every hour and a
11 half or so, because I realize that your attention
12 is required and sitting for much longer than that
13 can impair your attention.

14 I do want to remind you at this time, as
15 I will periodically throughout the trial, that
16 you are not to begin your deliberations and
17 discussion of the case until all of the evidence
18 is presented and I instruct you on law at the
19 conclusion of the case.

20 Do not discuss the case among
21 yourselves, including the opening statement given
22 today, or with anyone one else, until you begin
23 your final deliberations in the jury room. We'll
24 take our lunch break now and resume at 1:00.

25 (Jury not present.)

1 THE COURT: You may be seated. Counsel, in
2 terms of the schedule for this afternoon, is the
3 State going to have some evidence to present after
4 the opening statement?

5 ATTORNEY KRATZ: We will, Judge, we'll have
6 as many witnesses as the Court wants to proceed with
7 this afternoon.

8 THE COURT: All right. We'll see you back
9 at 1:00.

10 ATTORNEY STRANG: I have just one quick --

11 THE COURT: Go ahead.

12 ATTORNEY STRANG: -- matter if I might.

13 I decided against interrupting
14 Mr. Kratz's opening statement because I thought
15 this could wait, honestly, and I don't like to
16 interrupt someone's opening. But probably in the
17 first 20 minutes of his opening, Mr. Kratz
18 explained to the jurors that the presumption of
19 innocence persists only until that moment when
20 the evidence overcomes it and proves guilt,
21 beyond a reasonable doubt.

22 I understand -- I understand the
23 argument. I understand what was meant, no ill
24 intent was meant, but that's enough of a
25 variation from the actual instruction that the

1 presumption of innocence attends the defendant
2 until after closing arguments and deliberations
3 begin, that I simply would ask the Court to
4 repeat part of that presumption of innocence
5 instruction this afternoon, before I start.

6 We don't have to make a big deal out of
7 it; I just thought an abbreviated reminder might
8 help. I also noted in the State's Power Point
9 slide that explained the element of false
10 imprisonment that the language, during her
11 lifetime, was omitted.

12 That's, I think, the kind of thing that
13 the Court already has covered and can cover
14 again, but it might be a good idea, and this
15 covers me too, for the Court simply to remind the
16 jury that all legal instructions come from the
17 Court in the end.

18 THE COURT: All right. I did -- I do
19 recall the statement regarding the presumption of
20 innocence that you referred to. And I do agree that
21 the precise extemporaneous statement for Mr. Kratz
22 is not technically correct. I'm going to grant your
23 request and repeat the presumption of innocence
24 instruction before you give your opening.

25 The other item about during the victim's

1 lifetime, I think I covered in the initial
2 instructions, again, and I'm confident that six
3 weeks from now the jury will have forgotten any
4 subtle distinction that may have taken place in
5 the opening. But I will repeat the presumption
6 of innocence instruction without giving any
7 specific reason why --

8 ATTORNEY STRANG: No.

9 THE COURT: -- because I doubt that the
10 jury caught the significance of it, but it was
11 technically incorrect.

12 ATTORNEY STRANG: Right. And it was
13 unintended and there doesn't have to be a big deal
14 made about this.

15 THE COURT: All right. Anything else
16 before we break?

17 ATTORNEY KRATZ: No, that's fine, Judge,
18 thank you.

19 (Noon recess taken.)

20 THE COURT: Members of the jury, a question
21 came up during break concerning the definition of
22 presumption of innocence, so I'm going to read that
23 excerpt to you again at this time, from the opening
24 instructions I gave you earlier. Then we'll hear
25 the opening statement from the defense.

1 Defendants are not required to prove
2 their innocence. The law presumes every person
3 charged with the commission of an offense to be
4 innocent. This presumption requires a finding of
5 not guilty unless in your deliberations you find
6 it is overcome by evidence which satisfies you,
7 beyond a reasonable doubt, that the defendant is
8 guilty. Mr. Strang, at this time you may begin.

9 ATTORNEY STRANG: Thank you, your Honor.
10 Good afternoon. This summer it will be 22 years, 22
11 years since a woman running on the beach in
12 Manitowoc was raped and beaten nearly to death. The
13 Manitowoc County Sheriff's Department investigated
14 those awful crimes and they charged Steven Avery
15 with rape and attempted murder on that Manitowoc
16 beach, 22 summers ago.

17 He said consistently that he was
18 innocent, that he had not done it. No one
19 believed him, no one but his own family believed
20 him.

21 And as that case was making its way
22 through the Manitowoc County Circuit Court, just
23 one county over, Teresa Marie Halbach was five
24 and was starting kindergarten. Somewhere else,
25 somewhere we don't know, a man named Gregory

1 Allen, presumably, was laughing and planning his
2 next violent rape.

3 Eleven years later, in 1996, Steven
4 Avery was trying, still, to make people
5 understand that he was innocent. DNA testing was
6 in its infancy. It was beginning to move into
7 courtrooms, out of scientific laboratories. But
8 we have come a long way, just a few years since
9 1996, and it was not as advanced as it is today.

10 But in 1996, Steven Avery took a chance
11 and had blood drawn, a little vial of blood. It
12 was sent off, through the help of his lawyers,
13 for early DNA testing. It couldn't clear him
14 entirely. It helped, but it did not conclusively
15 prove Steven Avery's innocence of the attempted
16 murder and rape on the Manitowoc beach.

17 And when the tests failed to prove him
18 entirely innocent, that blood was sent back, in a
19 box sealed with evidence tape, to the Manitowoc
20 County Clerk of Court. And there, in 1996, that
21 blood vial, sealed in the box with evidence tape,
22 took up residence in the now 11 year old file of
23 the 1985 case; in a box, in the open, in the
24 Manitowoc County Clerk of Court's Office. And
25 there it sat.

1 And in 1996, here, just a few miles
2 north of here, Teresa Marie Halbach was learning
3 to drive at age 16, I assume. And the irony --

4 Could you hear me before? Can you hear
5 me now?

6 THE COURT: We can hear you better now.

7 ATTORNEY STRANG: All right. Is it the
8 Verizon guy who says that?

9 Teresa was learning to drive, I assume,
10 at age 16. And the irony -- the irony is that
11 the blood vial in the Clerk's Office probably is
12 what ends up in her car, eventually.

13 And time moves forward, though, to 2002.
14 Science also has moved forward. DNA testing has
15 improved, and a new effort is made to exonerate
16 Steven Avery.

17 Now, the blood in the vial, in the box,
18 under the evidence tape, in the Clerk's Office,
19 is not, you will learn, what is used for the 2002
20 and 2003 DNA testing. But, some materials from
21 that box, that file, the overall file from the
22 1985 case, some are sent to the Wisconsin State
23 Crime Laboratory in Madison, to Sherry Culhane,
24 to whom Mr. Kratz introduced you.

25 And the person from the Manitowoc County

1 Sheriff's Department involved, low these many
2 years later, the department was, but a person
3 from the Manitowoc County Sheriff's Department
4 who documented the things that were sent from
5 that old court file to the Crime Laboratory and,
6 therefore, presumably looked at the box and
7 assisted in deciding what to send. That person
8 was, by that time, a lieutenant -- or a
9 detective, now a lieutenant, named James Lenk.

10 Now, Detective Lenk was with the
11 Manitowoc County Sheriff's Department, had his
12 office in the Sheriff's Department that adjoins,
13 or is connected by a small courtyard, to the
14 Manitowoc County Circuit Court and the Clerk's
15 Office, by a small courtyard to the south of the
16 courthouse. He was, as I say, a detective with
17 the Sheriff's Department. Today he is the
18 lieutenant of the detectives and leads the
19 Detective Unit.

20 He documented, in 2002, what was sent to
21 the State Crime Laboratory from that file. 2002
22 is the year that Teresa Halbach graduated from
23 the University of Wisconsin at Green Bay and came
24 home a short distance back, here to Calumet
25 County, to start off a promising career.

1 In 2003, nearly a year after the
2 necessary DNA samples were sent, the Wisconsin
3 State Crime Laboratory was able to establish that
4 Steven Avery did not rape and beat the woman on
5 the Manitowoc beach, as he had been saying all
6 along. And because of the advance of science,
7 the Crime Lab was better -- was able to do better
8 than that. It was able to establish that Gregory
9 Allen did.

10 Now, unfortunately, in the time that
11 passed, Mr. Allen had raped violently, again,
12 because he had his liberty while that man did his
13 time. But in the fall of 2003, as the weather
14 was cooling, the State of Wisconsin at long last
15 joined Steven Avery in a motion to set aside his
16 conviction, and an innocent man also went home.

17 Home for Steven Avery, home is the
18 salvage yard of which you have seen, now, many
19 glorious pictures, from up high, from down low,
20 from angles all over. The pictures are a good
21 deal more glorious looking than the salvage yard
22 itself, but this was home. It's the only home
23 that would take him back after this time.

24 Allen Avery, Steven's father, back there
25 in the working shirt, just as you might expect;

1 Allen Avery started that business nearly 40 years
2 ago on the 40 acres that he scrimped to buy. He
3 raised sons and a daughter. And they didn't
4 wander far from the business.

5 Chuck and Earl joined it, Barb works
6 elsewhere, works a factory job, but lives on the
7 property. And this is the sort of business where
8 the family, as you saw, shares the perimeter of
9 this property with the 4,000 rusting, decaying
10 cars that are the refuse, the wreckage of other
11 people's lives.

12 This is not a glamorous business, but it
13 is a necessary business. It is a good business.
14 And, yes, as you will learn, you have got to get
15 your hands dirty if you're going to be in the
16 salvage business. Not just dirty, you get your
17 hands bloody, because you are working with
18 rusted, jagged metal disassembling cars. And the
19 dirt that grinds into your palms and that you
20 find under your fingernails doesn't wash off at
21 night.

22 But this was his family's business and
23 this was home. And he rejoined his brother's,
24 Chuck and Earl; and his father, Allen; his
25 mother, Delores, on the family's property and at

1 the business. He became, again, one in the Avery
2 clan, one man in the Avery clan. And tried to
3 resume some normalcy of life, sharing the
4 perimeter of that salvage yard, not in a pretty
5 house in town, on a nice stone foundation, but in
6 a trailer home, down from his sister's trailer
7 home. Both of them down from the doublewide that
8 mom and dad have, and Chuck's trailer toward the
9 back, on the path toward the crusher.

10 And it is, although not glamorous, a
11 worthwhile business and it's work with its own
12 dignity. What would we do, if we didn't have the
13 salvage yards in which to find spare parts. I
14 guess we would be reliant entirely on the big
15 corporations that make the cars, to continue to
16 make spare parts for them and sell them at such
17 prices they might see fit.

18 So it would be pretty tough without the
19 Allen Averys and the Steven Averys of the world.
20 It would be pretty tough for the guy who is
21 restoring the 1968 Pontiac GTO hard top, in his
22 garage, to do that economically. It would be
23 pretty tough for the guy working on a 1965
24 Mustang convertible, in his spare time, to do
25 that.

1 Maybe more importantly, it would be
2 pretty tough for the woman who's got young kids
3 to feed, and a job to hold down, and medical
4 bills, and she just has to get another
5 50,000 miles out of that 1988 Oldsmobile. And
6 for these people, maybe for you, for many of us,
7 it's a good thing that that young woman's father,
8 or brother, or maybe she, can go to the salvage
9 yard and keep the 1988 Oldsmobile running a
10 little while longer.

11 Now, in 2003, when Steven went home,
12 Teresa Halbach also was home. Her photography
13 business was flourishing and things were going
14 reasonably well. In 2004, Steven Avery filed a
15 lawsuit seeking some recompense for the hole in
16 his life, the time he had spent as an innocent
17 man, for the crimes that Gregory Allen committed.

18 This was a serious lawsuit. It was in
19 federal court, down in Milwaukee, and there was
20 no question but that a Manitowoc County Sheriff's
21 Department and, in the end, the court system, had
22 gotten the wrong guy.

23 And as that lawsuit crept forward, as
24 lawsuits do, we came to October 2005. In October
25 2005, about the middle part of the month, James

1 Lenk and another ranking officer of the Manitowoc
2 County Sheriff's Department, Sergeant Andrew
3 Colborn, Mr. Lenk and Mr. Colborn both were
4 pulled into the lawsuit, not as defendants or
5 parties to the lawsuit, but as witnesses,
6 witnesses who had their depositions taken in the
7 middle of October, 2005.

8 Now, a deposition, typically in a civil
9 lawsuit, is an event where you get a subpoena as
10 a witness; you come normally to a lawyer's
11 office, the conference room, the library, the
12 lawyer's office; lawyers from both or all sides
13 are there.

14 A court reporter is there; these days
15 often a videographer as well. And the court
16 reporter swears the witness under oath, the
17 lawyers ask questions of the witness under oath
18 and they are recorded, much as Mrs. Tesheneck is
19 recording what we're saying here. There's no
20 judge; it happens, as I say, typically in a
21 lawyer's office.

22 And these two men, Lenk and Colborn,
23 were witnesses. They were witnesses about their
24 own conduct. Neither had been with the Manitowoc
25 County Sheriff's Department in 1985, but an event

1 in 1995 or 1996 came up in that lawsuit. And as
2 to that event, both of them were witnesses being
3 questioned about their own activity and conduct
4 with respect to Mr. Avery's imprisonment.

5 By the end of that month, unfortunately,
6 those depositions would begin to matter. And
7 indeed, from the time it was filed in 2004, you
8 will learn, the lawsuit itself mattered. This
9 sort of lawsuit, or the public cry of the
10 innocent man wrongly convicted and imprisoned has
11 to be, as you will see here I think, it has to
12 be, as you get into the heads of law enforcement
13 and begin to understand the process of law
14 enforcement, this kind of thing has to be a
15 nightmare for every good law enforcement officer.

16 These folks do not want to put innocent
17 people in prison. They want to put guilty people
18 in prison. And when they get it wrong, when the
19 whole system gets it wrong, there understandably
20 are feelings of shame, of embarrassment, anger,
21 humiliation, conflicting feelings about this.

22 This is a good cops worst nightmare,
23 made all the more worse by the fact that Gregory
24 Allen, free, thanks to Steven Avery being
25 convicted instead, Gregory Allen went on to rape

1 and beat again.

2 This lawsuit kindled real difficult
3 emotions. And the focal point of those emotions,
4 naturally, was the Manitowoc County Sheriff's
5 Department which had investigated the rape many
6 years ago on the Manitowoc beach.

7 And so when October 31, 2005, Halloween,
8 rolls along, Lieutenant Lenk and Sergeant Colborn
9 not only have the lawsuit to contemplate, but
10 now, within the last three weeks, have been made
11 witnesses in it and had their depositions taken.

12 October 31, 2005, began at the Avery
13 Auto Salvage Yard, much as any workday would.
14 This was a Monday, the yard was open. Not long
15 after 8:00 in the morning, about 8:12 in the
16 morning, Steven Avery called *Auto Trader* down
17 in -- actually I think in Hales Corners, Highway
18 100 down on the southwest side of Milwaukee,
19 called *Auto Trader*, as he had done a number of
20 times before, and said, we need a photographer,
21 we have a car for sale.

22 Now, the car belonged to Barb Janda, the
23 van, the mini van you saw computer images of and
24 actual photographs of. It was there. It was
25 hers. It was for sale. I don't expect there

1 will be any dispute about that. And it was
2 Barb's to sell. The calls about it were Barb's
3 to take, the price was Barb's to dicker or
4 negotiate with people interested in making an
5 offer, on the used van.

6 Steve left B. Janda as the name because
7 that was the name of the seller. But Barb works
8 during the day at a factory in town. She does
9 not work at the salvage yard as Steven did. He
10 leaves her telephone number because that's where
11 the phone calls have to go if there's an
12 interested buyer.

13 And this, you will find out, is not at
14 all unusual or sinister. It doesn't involve
15 luring anyone anywhere. There was a car for
16 sale. There were photographs to be taken. And,
17 indeed, on that day alone, for Teresa Halbach,
18 with the three appointments we know about; this
19 was not the only appointment where the seller of
20 the car was not the person whose name was given
21 to *Auto Trader*.

22 The Schmitz car was called in by and
23 listed as an appointment for a Craig Sippel
24 (phonetic). And that little bit of confusion was
25 quickly cleared up by the police. Wasn't really

1 Sippel's car; it was Schmitz's car, no big deal.
2 But she thought she was going to see a Craig
3 Sippel, not a Steven Schmitz.

4 She thought that she was going to see a
5 B. Janda, I suppose, not a Steven Avery. But
6 here's what she knew, she knew the address.
7 Steven gave the address. This is an address, as
8 Mr. Kratz explained to you and I agree, to which
9 Teresa Halbach had been a number of times,
10 probably about a half dozen, five, six, maybe
11 more times, to take photographs of cars or the
12 trailer for sale, for example, the photograph you
13 saw.

14 She knows the address. She knows where
15 she's going. As you will see, this is not a
16 surprise, or a secret to her or to anyone else.
17 And at 11:45 that morning, she called Barb
18 Janda's number and evidently left a voice mail
19 message saying that she would be able to get
20 there that day, sometime after 2:00.

21 Now, this Manitowoc County area was
22 Teresa's territory so to speak, for *Auto Trader*.
23 This was her freelance work as I understand, not
24 her main source of income. Her photography
25 studio work I think probably was her passion and

1 this was a side job for a young photographer to
2 generate some more money.

3 She has a territory for Auto Trader.
4 Steven Avery wouldn't necessarily know what her
5 territory is or whether she's the only
6 photographer working it. And sometime close to
7 2:30, he's obviously getting fidgety. He makes
8 two phone calls to her cell phone from his cell
9 phone and he uses the *67 feature, you will find
10 out, which as I understand it on the -- on
11 Teresa's telephone, then, no telephone number
12 would come up; come up is unavailable, or
13 something like that, or blocked.

14 But he is on his own cell phone and he
15 may not want, not being entirely sure whose
16 number he is calling, he may not want to be
17 giving out his cell phone number. At least the
18 second of those calls goes unanswered.

19 And the time frame gets fuzzy here.
20 Mr. Kratz said that it was late afternoon that
21 Teresa arrived and I'm inclined to agree with
22 that; although it is difficult to nail down. But
23 I think the best evidence you will hear is that
24 although Teresa Halbach is in the neighborhood of
25 the Zipperers, who are really just -- I don't

1 know how far, but not too far down Highway 147
2 and then south toward Manitowoc a little bit. So
3 they are in the general vicinity.

4 And I think at about 2:15 she's near the
5 Zipperers, trying to figure out exactly where
6 she's going to get to the Zipperers to take that
7 photograph of their car. But I think the best --
8 the best estimate we'll get out of the evidence
9 of when she actually arrives at Avery Road, which
10 is that gravel road that leads down towards,
11 first, Barb Janda's trailer and then Steven
12 Avery's trailer, which you saw on the north edge
13 of the 40 acre parcel; the best estimate of when
14 she swings her Toyota down that gravel road is
15 probably shortly before 3:30, probably not 2:45,
16 as one of Barb Janda's sons, Bobby Dassey,
17 recalls it.

18 Why do I say the best estimate, because
19 there is a school bus driver. Two of Barb
20 Janda's boys, Brendan and Blaine, are still in
21 Mishicot High School and it's Monday, as I said.
22 And they ride the school bus. And school
23 schedules being what they are, of course, unless
24 there is really terrible weather or something,
25 school lets out at the exact same time every day,

1 the bell rings and kids run out the door.

2 The bus is going to be leaving about the
3 same time and the bus driver will be driving the
4 same route every day. So this bus driver, who's
5 no relation to the Avery family, or the Halbachs,
6 or anybody else for that matter, just happens to
7 be the school bus driver; her name is Lisa
8 Buchner.

9 Lisa Buchner, when interviewed by the
10 police says, you know, about 3:30 when I dropped
11 the Dassey boys off at the head of Avery Road, I
12 looked down the road and I saw a young woman
13 taking a photograph, or photographs, of a van.
14 Now, Buchner actually isn't sure when she's
15 questioned about this whether it's Monday,
16 Tuesday, or Wednesday of that week.

17 But Monday is the day that a young woman
18 would have been taking a photograph of the van,
19 down near the end of Avery Road. So she's got a
20 pretty good reason to have a good bead on the
21 time. She's going to know her route, this is
22 something she's doing five days a week. And it's
23 about 3:30 that she sees this young woman down
24 the road, taking a photograph of the van.

25 Teresa Halbach does her business. And

1 the way this works is the person selling the car
2 then gives the photographer \$40. The
3 photographer makes out a receipt for the
4 transaction, typically also offers the customer
5 the current copy, current edition of the *Auto*
6 *Trader Magazine* and leaves.

7 And that's what Teresa Halbach did.
8 Steven Avery last sees her going back out Avery
9 Road and about to turn left to go back out to
10 Highway 147.

11 Now, somebody clearly sees her later.
12 We don't know who, I don't know where, I don't
13 know when. And I, like Mr. Kratz, don't know
14 why.

15 I do know this and can tell you that you
16 will hear this about the evidence. One of the
17 things that the photographers who freelance or
18 work for *Auto Trader* do, is to go take
19 photographs on appointments that have been set
20 for them through the *Auto Trader* office.

21 But there is another thing they can do,
22 they get some money for that, obviously. Some of
23 the \$40 goes to the photograph. But there's
24 another thing they can do and that's called a
25 hustle shot. The hustle shot is exactly that,

1 it's business that the photographer hustles up
2 for herself, or for himself.

3 And as an incentive for the
4 photographer, to hustle a little bit and, you
5 know, thicken the *Auto Trader Magazine* with new
6 customers selling cars, or boats, or trailers, or
7 whatever, as an incentive for their photographers
8 to do that, *Auto Trader* gives the photographer a
9 little bigger cut on a hustle shot.

10 You are going to learn that Teresa
11 Halbach was good at hustle shots. She drummed up
12 a lot of these. She was likeable. She was hard
13 working. She was good at getting hustle shots.

14 I have no idea -- I have no idea at all
15 and I don't think you will either, unfortunately,
16 whether she had a hustle shot, or two, or three,
17 that day or not. It would not have been
18 uncommon. But if, in fact, she's near the
19 Zipperers at 2:15 and as I think is probable from
20 the evidence, she doesn't show up to the Averys
21 until about 3:30, it's possible there's a hustle
22 shot in there or I suppose stopping for lunch or
23 something, we don't know.

24 It's possible there are hustle shots
25 that are not scheduled through *Auto Trader* after

1 the Avery shot. Because after all, I mean, if
2 we're at 3:30, there's a good bit of daylight
3 left in the working day, I suppose. But we don't
4 know.

5 What we do know is that someone sees her
6 later. And Steven Avery calls her later, as a
7 matter of fact, from his cell phone. Again, he
8 calls her cell phone at about 4:35 that
9 afternoon. Why, because he thought, I have got
10 another car I would like to sell. I might as
11 well, if she's still around, or if she can swing
12 back, I might as well have her shoot that one
13 too.

14 But he doesn't get an answer from her,
15 doesn't answer the phone, when he calls at 4:35.
16 He sticks around. And at that point his
17 girlfriend, Jodi Stachowski, is in jail serving
18 some time for a drunk driving conviction. She's
19 in the Manitowoc County Jail.

20 Jodi, you will learn, calls Steven
21 regularly. Because she's in jail, she has to
22 call collect. And you can't call collect from a
23 jail to a cell phone. I don't know if you can
24 call collect to any cell phone from anywhere.
25 But in any event, you can't call a cell phone

1 from the jail, calling collect. So you have got
2 to call a land line.

3 So that's exactly what Jodi Stachowski
4 does, first a little bit after 5:30 in the
5 evening she calls. And jail systems, I don't
6 know if you know this, but jail systems,
7 typically, and the Manitowoc County Jail clearly
8 does this, cut off phone calls after 15 minutes.
9 Inmates have a lot of time on their hands,
10 sometimes people they are calling don't. So the
11 call just ends at 15 minutes.

12 So Jodi calls about a little bit after
13 5:30 on the land line. And then she calls again
14 just shortly before 9:00 p.m. And Steven is
15 home. Steven answers the phone in his little red
16 trailer there, both times. And both of those
17 conversations go 15 minutes, almost to the
18 second.

19 He tells her that he's been doing a
20 little cleaning. He tells her that Brendan, his
21 nephew, Brendan Dassey, is over. They hassle.
22 These are inane conversations, honestly, but they
23 are tape recorded, because every phone call out
24 of the jail is tape recorded, so we know they
25 happen.

1 Does it sound like he's just killed
2 someone, no. Does he hide the fact that his
3 nephew, Brendan, from 50 yards away, or whatever
4 it is, Barb's trailer, has come over, no.
5 Doesn't have to tell Jodi that, if they were up
6 to something no good, but he does. Brendan is
7 around.

8 And for all the world, as I say, these
9 conversations simply are inane, they don't ring
10 of someone who has committed a murder or in the
11 midst of committing a murder, or in the midst of
12 mutilating a corpse or falsely imprisoning
13 anyone, no screaming in the background. They are
14 just inane telephone conversations between a
15 squabbling boyfriend and a squabbling girlfriend.

16 And October 31 comes to a close. It's
17 about three days later, Thursday evening about
18 5:00, November 3, when Mrs. Halbach reports
19 Teresa missing. Teresa lives almost next door to
20 the elder Halbachs; I mean, the two houses, you
21 can see the one from the other, on the dairy
22 farm, up north of here, in Calumet County.

23 So the report goes to the Calumet County
24 Sheriff's Department. It's a missing person
25 report. No one has seen Teresa since Sunday,

1 actually. And the Calumet County Sheriff's
2 office responds, interviews the family, a couple
3 of close friends, and learns very quickly about
4 these three appointments that Teresa had on
5 Monday. Now, at least two of those -- at least
6 two, maybe the third even, but at least two, are
7 in Manitowoc County; Zipperers and Avery, or B.
8 Janda.

9 So the Calumet County Sheriff's
10 Department calls for help from the Manitowoc
11 County Sheriff's Department on this missing
12 person report; that very night, 5:00, the report
13 is made. By the end the of the dinner hour,
14 Calumet County is calling the Manitowoc County
15 Sheriff's Department for a little bit of help.

16 And who do we get? We get Sergeant
17 Andrew Colborn. And he's told, look, two places
18 we would like to sort of check out and see if
19 Teresa Halbach showed up on Monday, the Zipperer
20 residence and Steven Avery. Well, that's a name
21 that rings a bell, you better believe; less than
22 three weeks, or about three weeks, after his
23 deposition.

24 And it is interesting that of those two
25 places that Sergeant Colborn is asked to check

1 out and inquire after Teresa Halbach, he only
2 goes to one. He goes to Steven Avery's home and
3 Steven cooperates with him. Tells him
4 essentially what I have told you about Teresa
5 Halbach coming to take the picture of Barb
6 Janda's van. Doesn't clam up, doesn't seem
7 nervous, isn't uncooperative; that very night,
8 November 3, around 7:00, when Sergeant Colborn
9 knocks on his door.

10 Out of the blue, the same night,
11 Lieutenant James Lenk, now the head of the
12 Detective Unit in Manitowoc County Sheriff's
13 Department, calls Calumet about this missing
14 person report. Now, at this time, on Thursday
15 night, November 3, this is -- let's be clear,
16 this is just a missing person report, a young
17 woman who hasn't been seen for three days.

18 It's in another county. It's not even
19 Manitowoc County at all. And nobody has called
20 for Lieutenant Lenk. And nobody's called looking
21 for him. But the chief detective of Manitowoc
22 County takes it upon himself, that night, to call
23 Calumet and offer to get involved in the missing
24 person investigation where one of the
25 appointments that was to be kept was Steven

1 Avery.

2 And the next morning, Lieutenant Lenk
3 does one better than that, he goes out himself to
4 Steven Avery's trailer with another officer from
5 Manitowoc. And he knocks on the door again, just
6 as Sergeant Colborn had done the night before,
7 inquiring after Teresa Halbach. Again, Steven
8 Avery is cooperative.

9 Lieutenant Lenk asks, could I take a
10 walk through your trailer, can I look around, do
11 you mind? No, I don't mind. Come on in.
12 Lieutenant Lenk walks through Steven's trailer,
13 sees nothing amiss, thanks him for his
14 cooperation and leaves.

15 November 5, Saturday, Steven has left to
16 go to the family cabin up in Crivitz, early that
17 morning, where Allen goes every weekend and most
18 of the family goes up too. Steven has gone up on
19 Saturday morning. But about 10:30 on Saturday
20 morning, Pam and Nikole Sturm find the Toyota
21 they suspect, correctly, as it turns out, is
22 Teresa's. As it turns out, is Teresa's, in the
23 far diagonal corner of the salvage yard from
24 Steven Avery's trailer.

25 As you might expect, law enforcement

1 officers descend on the property and the first to
2 arrive are Manitowoc County Sheriff's Department
3 officers at just about 11:00, in the morning, on
4 the nose. And, folks, from that point forward,
5 from 11:00 a.m. on Saturday, November 5, 2005,
6 this is not so much a funnel approach, as you
7 will see. It is a tunnel approach. It is a
8 tunnel vision approach to this case.

9 All of the feelings about Steven Avery,
10 all of those churning emotions, all of that,
11 within the Manitowoc County Sheriff's Department,
12 floods out. You can call it tunnel vision, you
13 can call it investigative bias, but from that
14 point on, this investigation is about Steven
15 Avery and not much else.

16 From 11:00 in the morning on Saturday,
17 November 5, 2005, before the police say they have
18 even opened the car; before they say they know of
19 any blood of any sort in or on the car; before
20 anybody even knows whether this young woman has
21 been hurt or killed, the focus is on Steven
22 Avery.

23 Other people are asked, her male
24 roommate; former boyfriend and current friend,
25 Ryan Hillegas; others are asked: Do you know

1 anything about her disappearance? Did you have
2 anything to do with it? All of them say no. And
3 those denials, those statements are accepted.

4 Not Steven Averys, not Steven Avery's
5 denials or expressions of innocence. Time and
6 again the police go back to Steven Avery and ask
7 the same questions. And he talks to them every
8 time.

9 Even by the time his lawyers in the
10 civil lawsuit down in federal court in Milwaukee
11 find out about it and are trying to encourage him
12 not to the talk to the police, he talks. On the
13 3rd to Colborn, on the 4th to Lenk, on the 5th to
14 officers up in Crivitz, on the 6th, on the 9th,
15 he talks. And he is not believed. Do they want
16 to go through his house, sure, come on in my
17 house, on November 4, Lieutenant Lenk.

18 After the Toyota is found and the police
19 arrive at about 11:00, that Saturday morning,
20 Lieutenant Lenk and Sergeant Colborn come in to
21 work and they too arrive at the Avery property.
22 You will hear that Lieutenant Lenk now has
23 changed his sworn version of when he arrived that
24 afternoon.

25 And he has the ability to change his

1 sworn story about when he arrived that afternoon
2 at the Avery property, because somehow he avoided
3 signing in on the log, the log sheets that the
4 Calumet County Sheriff's Department was keeping
5 of that potential crime scene. He signed out,
6 but somehow he managed not to sign in.

7 And on that 40 acre parcel, after the
8 Toyota has been turned over to the Division of
9 Criminal Investigation in Madison, now, as search
10 efforts are to be begin on that parcel, now the
11 Manitowoc County Sheriff's Department nominally
12 turns over control of the investigation to
13 Sheriff Jerry Pagel of the Calumet County
14 Sheriff's Department, this county's sheriff's
15 department. Nominally, that afternoon, control
16 of this investigation was turned over to Calumet
17 from Manitowoc because of the apparent conflict
18 of interest that Mr. Avery's lawsuit represents
19 for the Manitowoc County Sheriff's Department.

20 Now, if you are thinking, though, that
21 the evidence will show you that Manitowoc County
22 bowed out because of the conflict of interest
23 after it turned the investigation over to Calumet
24 County; if you are thinking that, it's
25 reasonable, but you are wrong. Manitowoc County

1 Sheriff's Department stays very much involved in
2 this investigation.

3 And what does Lieutenant Lenk and what
4 does Sergeant Colborn do by way of volunteering
5 to help, that very afternoon, Saturday
6 November 5. Do they volunteer to help look in
7 the 4,000 cars? No. Do they volunteer to search
8 Allen and Delores Avery's home? No. How about
9 the pole barns or the outbuildings of the salvage
10 property's business itself? No. They volunteer
11 to search Steven Avery's trailer. And they do,
12 on November 5.

13 And once they get into that trailer with
14 the search warrant, well, then, what these two
15 do -- and there are two other officers with them,
16 one from Manitowoc and one from Calumet -- what
17 Lenk and Colborn do is, they say, don't worry,
18 we'll take Steven's bedroom. And they search
19 this bedroom.

20 Now, this is a mobile home. If the
21 bedroom itself is 10 by 12, or 12 by 12, or 10 by
22 10, I would be surprised if it was much bigger
23 than that. From me to the wall in front of you
24 is about the depth and roughly the width of that
25 bedroom in the small trailer in which Steven

1 Avery lives.

2 They search, that is, Lenk and Colborn
3 search his bedroom on the night of November 5.
4 And they find nothing of interest. They see the
5 guns; they stay on the wall. But don't bother
6 seizing guns on the 5th, come back to those the
7 next day. And it is Lenk and Colborn who come
8 back the next day, not somewhere on the property,
9 but to Steven Avery's trailer.

10 On November 6, they search his garage,
11 garage is actually between him and his sister
12 Barb's trailer, but for our purpose here, let's
13 call it his garage. You will find out that the
14 Dassey boys have access to the garage, Barb has
15 access, the family has access to this garage.

16 But it's Lenk and Colborn and another
17 detective from Manitowoc County named Dave
18 Remiker who searched the garage on Sunday, the
19 6th. They find 10, maybe it's 11, something, 10
20 or 11 spent .22 casings. And they pick all of
21 those up.

22 But remember -- remember the bullet
23 that's found under little tent number 9 on the
24 picture that Mr. Kratz showed you? The bullet
25 that's apparently in a crack in the floor, right

1 smack in the middle of the garage near the front
2 where the door is? That, no one sees or picks up
3 on November 6th, November 7th, November 8th and
4 so forth through November 12th.

5 Neither does anyone see a bullet back
6 under the air compressor. But you will see
7 photographs of that garage as it was in
8 November 2005, not as it was in March, 2006,
9 when, finally, low and behold, why there's
10 bullets, why don't we pick up these bullets.

11 You will see the garage in photographs,
12 not computer simulations, photographs, as it was
13 in November, 2005. You will be able to see, that
14 although the garage is very cluttered, there's no
15 clutter under the air compressor. There's no
16 clutter there, where four months later someone
17 finds a magic bullet, there, as you walk into the
18 garage, looking at the floor.

19 November 7, Steven Avery's trailer is
20 searched again, guess who; Lenk and Colborn. Now
21 there probably -- There certainly are over 50 law
22 enforcement officers on this property, 24 hours a
23 day, well before November 7th, probably by
24 sometime late the night of the 5th, certainly by
25 the 6th. There may be over 100 law enforcement

1 officers working this property.

2 They have got the family excluded. They
3 have got a perimeter around the entire 40 acres
4 and more. They are controlling traffic and
5 entry. They are logging in who comes and goes.
6 They control this place.

7 And as you heard Mr. Kratz say, they
8 have got any number of people searching, but it's
9 Lenk and Colborn, again, who are searching
10 Mr. Avery's trailer, there in the northwest
11 corner of that salvage yard. And on November
12 7th, they find nothing of interest in his home.

13 Tuesday, November 8, they are back.
14 They are back in Mr. Avery's home, back in that
15 small bedroom. And now, Lieutenant Lenk, on what
16 you will hear is probably the seventh search of
17 that small bedroom, Lieutenant Lenk, now, when
18 he's the only one in that room, says, why, my
19 gosh, there's a key sitting in plain view, next
20 to the night stand.

21 There is, you saw a picture of it as he
22 says he found it, one solitary key on a ring,
23 connected to a fob. That key fob is just like,
24 and probably is, the one that Teresa Halbach's
25 younger sister bought her as a little present.

1 One key, and one key only, on the ring connected
2 to that fob, it's a Toyota key.

3 And the man whom the State would have
4 you believe bled all over Teresa's car, manages
5 not to bleed on her key. His blood isn't found
6 there, although, apparently, somehow his DNA is,
7 but not his fingerprints. And more
8 interestingly, although this is a 1999 Toyota and
9 I gather she's been using this key, the State
10 believes, every day to start her car and turn it
11 off, Teresa Halbach's DNA and fingerprints are
12 not found on her key.

13 For good measure, on November 8,
14 Lieutenant Lenk and Sergeant Colborn searched
15 Steven Avery's garage yet again. No bullets, no
16 nothing. And the case against Steven Avery,
17 largely, is made at that point. And a whole lot
18 of it, as you will see, depends on lieutenant
19 James Lenk, Sergeant Andy Colborn.

20 And they, both of them, have elected
21 never to tell Sheriff Jerry Pagel, the man in
22 charge of the investigation for Calumet County;
23 they have elected not to tell him that they had
24 their depositions taken in Steven Avery's case
25 probably three weeks earlier. They didn't tell

1 anybody in the Calumet County Sheriff's
2 Department that.

3 November 8 is also the day that the bone
4 fragments are found in a burn area hardly 20
5 yards outside Steven Avery's master bedroom
6 window. Hardly 20 yards. Small burnt bone
7 fragments, human burnt bone fragments. But what
8 you will learn and you do not hear this morning,
9 what you will learn is that burnt human bone
10 fragments also apparently are found in one of the
11 burn barrels behind Barb Janda's house.

12 Burnt the same way, fragmented about the
13 same way, and apparently human in origin. Not
14 Steven Avery's burn barrel, not the one you heard
15 about, but there are four burn barrels to the
16 southeast, that is the most distant corner of
17 Barb Janda's trailer, from Steven Avery's
18 trailer. Four burn barrels back there for Barb
19 Janda and the Dassey boys. Burnt bone fragments.

20 And there are what seem to be probable
21 human burnt fragmented bones found in the Radandt
22 Gravel Quarry, probably a quarter mile south of
23 Steven Avery's property.

24 Now, I don't think that the State has
25 been able to link, through DNA analysis, those

1 burnt bone fragments conclusively to Teresa
2 Halbach.

3 But how many burnt human bone fragments
4 are there supposed to be, and when you only have
5 one person missing. And the burnt human bone
6 fragments in the Janda burn barrel, about which
7 you did not hear this morning, those are
8 fragments from bones that are not connected, not
9 part of one limb, not connected to one another
10 within the human body. Sort of a random mix of
11 bone fragments, as apparently are those that are
12 found a quarter mile to the south in the Radandt
13 gravel pit.

14 And as you piece this evidence together,
15 here's what you are going to have to conclude,
16 bone fragments, parts of this body were found
17 where they were not burned. They were burned and
18 moved because, again, the fragments aren't
19 connected to one another.

20 It's not that, you know, it's not that
21 an arm could have been removed and burned one
22 place and the rest of the body another place. We
23 have got the fragments themselves mixed up and
24 found in three different places. The body
25 couldn't have been burned in that way, in three

1 different places or even two, if you set aside
2 the Radandt gravel pit. These bone fragments
3 were moved.

4 The question then becomes, the question
5 you will have to decide eventually is, were they
6 moved from Steven Avery's burn area to the Janda
7 burn barrel or the gravel quarry, or were they
8 moved from somewhere else to Steven Avery's burn
9 area and maybe to one of the other places where
10 bone fragments, burnt, are found.

11 At least, did they start in the burn
12 area and get moved somewhere else, or did they
13 start somewhere else, burned somewhere else and
14 get moved to the burn area. Now, an expert --
15 experts here, in what scientists will call
16 thermal injuries to bodies, cremation, an expert
17 or two, to the extent you hear that, may be able
18 to give you some help on that question, some
19 help, but I'm not sure that an expert can answer
20 this conclusively.

21 In the end, you folks are going to have
22 to do the hard work and the hard thinking on
23 that. But I think when you have heard it all,
24 you will conclude that it's at least most likely,
25 more probable, that the bones were moved to

1 Steven Avery's burn area, not burned there and
2 moved from that area to another place or two.

3 Why? You are going to find out that
4 there are better places, even on the Avery
5 salvage yard property, in which to incinerate a
6 body. The burn area is relatively flat and
7 scooped out a little bit, but it's relatively
8 flat and open. It's a burn area, like many farms
9 or rural homes have, just folks have burn
10 barrels.

11 It doesn't have well developed sides to
12 focus heat back inward on the fuel or things
13 being burned. Neither does it have a ready
14 external source of fuel. But the aluminum
15 smelter, the aluminum smelter at the Avery Auto
16 Salvage property does. Big propane jets, an
17 enclosed area, it will take an aluminum
18 transmission down to liquid in a few minutes.

19 The wood furnace that heats the
20 outbuildings of the Avery Auto Salvage business;
21 Chuck's home; Allen and Delores' home, that's an
22 enclosed area that will incinerate fuel in it
23 very quickly.

24 And because we have got probable human
25 burnt bone fragments found on the adjoining

1 property, the gravel quarry to the south, we
2 can't rule out other possible burn sites. And an
3 expert won't be able to tell you what other
4 possible burn sites there are. Expert or not,
5 that's not something he or she will be able to
6 tell you.

7 But once it's more likely, as I think
8 you will find it to be more likely, that the body
9 is burned somewhere else and bone fragments then
10 are brought to Steven Avery's burn area, then
11 he's not guilty. Because if he's the one who
12 burned the body somewhere else, he's not going to
13 bring the bones back to dump them 20 yards
14 outside his bedroom window.

15 Neither is he going to dump a cell phone
16 and a digital camera and a palm pilot in his own
17 burn barrel. Too many other places where these
18 things could be disposed of out in the salvage
19 yard, whether the retention pond, whether the
20 gravel quarry, or some other burn barrel in the
21 woods. So once you understand that those bones
22 probably were not burned in that burn area, the
23 fact that they are found there, you will see
24 tends to suggest he's not guilty, not that he is.

25 It is perfectly clear to anyone around

1 this investigation on whom the focus of the
2 Manitowoc County Sheriff's Department and the
3 other investigators, to the extent that tunnel
4 vision, that investigative bias bled over, it's
5 perfectly clear on whom the focus of this
6 investigation is.

7 The police didn't kill Teresa Halbach,
8 obviously, they have that in common with Steven
9 Avery, but they wanted to believe he did. They
10 very much wanted to believe that he did. And
11 whoever did kill her, or burned that body,
12 exploited that tunnel vision pretty skillful.

13 Suggesting this sort of tunnel vision,
14 suggesting this kind of investigative bias,
15 planting blood in her car, fairly serious
16 allegations to make. In fact, I will take away
17 the fairly, they are serious allegations.
18 Understand them, that bias and tunnel vision are
19 human anomalies.

20 And if you conclude, reluctantly, that
21 Mr. Lenk or Mr. Colborn, in addition to all the
22 other interests they took in searching and
23 focusing on Steven Avery, planted blood in her
24 car, you will also conclude that they put it
25 there because they figured it had to be there.

1 It should be there. It must be him.

2 This wasn't so much, I think the
3 evidence will show you, an effort to frame an
4 innocent man, it was an intense, intense desire
5 to conclude that he, in fact, was the guilty man;
6 all other possible leads for information not
7 withstanding. It was an immediate focus on this
8 man, starting shortly after 11:00, Saturday,
9 November 5, 2005. But you do not have to take my
10 word for that.

11 I can make this work; I'm not as adept
12 at it as I should be. I'm going to play for you,
13 two tapes, a part of it, just excerpts, short
14 excerpts of two tapes.

15 The first one is Saturday, November 5,
16 2005, at 11:35 in the morning, 35 minutes give or
17 take a minute or two, after the Manitowoc County
18 Sheriff's Department first has arrived at the
19 Avery property, because that Toyota has been
20 found; well before the police say they opened the
21 Toyota; well before they say they knew of any
22 blood; well before Brutus, the friendly cadaver
23 dog comes along and hits; 35 minutes after the
24 first officers arrived when the Sturm's called
25 and said, hey, we think we found something.

1 What I'm going to do is scroll through a
2 transcript that we prepared and then I will play
3 the excerpt of the tape for you. It is not a
4 great recording. The transcript is not evidence,
5 the tape will be, I expect. So if you think my
6 transcript is wrong, listen to the tape; it's the
7 evidence, or it will be. That's the tape that
8 matters. The transcript may help you in
9 understanding it or hearing it.

10 Detective Remiker is calling in, he's
11 asking for dispatch. Dispatch responds, I put
12 unintelligible, I think it's go ahead, but I'm
13 not sure, you can decide. Maybe you won't
14 understand it for sure either.

15 Detective Remiker says to the
16 dispatcher, you will need to get ahold of the
17 Crime Lab for their evidence response team to
18 start responding to this location. Now, he's out
19 at the Avery Salvage Yard. As you will hear.
20 Dispatch says, 10-4, Crime Lab out of Madison,
21 Milwaukee, where?

22 Our Crime Lab has branches in Wausau,
23 Madison and Milwaukee. The main one is in
24 Madison. Detective Remiker says, it's going to
25 be the Madison response team and he was right.

1 Now, Detective Jacobs joins in, this
2 radio traffic, radio conversation. Calls in with
3 his badge number, his squad number, I'm in code,
4 you will find out what that means, anything you
5 need other than a portable for Schetter. And
6 what you'll find out is he's talking about a
7 portable radio for Deputy Inspector Greg Schetter
8 of the Manitowoc County Sheriff's Department who
9 is, I think, the number two or three ranking
10 officer in the Department and who's probably also
11 going out to the Avery property. Detective
12 Remiker, not that I can think of right now,
13 Dennis. Dennis Jacobs. Let's see if this work.

14 (Tape recording played.)

15 DETECTIVE REMIKER: Yeah, need to get a
16 hold of the Crime Lab for their evidence response
17 to start responding at this location.

18 DISPATCH: 10-4. Crime Lab out of
19 Madison, Milwaukee, where?

20 DETECTIVE REMIKER: Madison response
21 team.

22 DETECTIVE JACOBS: 278, I'm in code,
23 anything you need other than a portable for
24 Schetter.

25 ATTORNEY STRANG: It cut off. Sorry about

1 that, you will hear -- You will get a chance to hear
2 the whole conversation. And it continues, Dennis
3 Jacobs says, okay, other than the car, do we have
4 anything else. He's talking to Remiker here. Dave
5 Remiker says, not yet. Detective Jacobs, Okay. Is
6 he in custody? Detective Remiker, Negative, nothing
7 yet.

8 Not who, not is who in custody, but
9 negative. He is not in custody, nothing yet.
10 Detective Jacobs, Okay. I'll gather my stuff and
11 head out.

12 (Tape recording played.)

13 DETECTIVE JACOBS: Okay. Other than the
14 car do we have anything else?

15 DETECTIVE REMIKER: Not yet.

16 DETECTIVE JACOBS: Is he in custody?

17 DETECTIVE REMIKER: Not yet, nothing
18 happening.

19 DETECTIVE JACOBS: Okay. I will gather
20 my stuff and head out.

21 ATTORNEY STRANG: Now, that's 11:35, is he
22 in custody yet. Detective Remiker, clearly, I
23 gather, as I hear it, knows who Detective Jacobs is
24 talking about, but we don't, 35 minutes after the
25 police have arrived.

1 And to get a better feel for that
2 conversation at 11:35, we have to go back five
3 minutes earlier when Detective Jacobs is calling
4 in on the land line, 5 minutes earlier, 30
5 minutes, 30 minutes after the police have arrived
6 at the Avery property after Teresa's car has been
7 found there.

8 Dispatcher answers the phone. Detective
9 Jacobs, Katie -- the name of the dispatcher --
10 just rolled into the parking lot. Can you tell
11 me, do we have a body or anything yet? Do we
12 have a body or anything yet? This is 30 minutes
13 after they found the car.

14 I don't believe so. I believe they
15 wouldn't find the first bone fragment for three
16 days. Do we have Steven Avery in custody,
17 though? I have no idea. You can hear it
18 yourself.

19 (Tape recording played.)

20 DISPATCH: Good morning. Manitowoc
21 County Sheriff's Department, Katie speaking.

22 DETECTIVE JACOBS: Katie, I just rolled
23 into the parking lot. Can you tell me, do we
24 have a body or anything yet?

25 DISPATCH: I don't believe so.

1 DETECTIVE JACOBS: Do we have Steven
2 Avery in custody?

3 (Tape recording starts playing again.)

4 DISPATCH: Good morning. Manitowoc
5 County Sheriff's Department, Katie speaking.

6 DETECTIVE JACOBS: Katie, I just rolled
7 into the parking lot, can you tell me do we have
8 a body or anything yet?

9 DISPATCH: I don't believe so.

10 DETECTIVE JACOBS: Do we have Steven
11 Avery in custody at all?

12 DISPATCH: I have no idea.

13 ATTORNEY STRANG: Now, I will finish it out
14 so you can link it up to the call -- the discussion
15 with Detective Remiker 5 minutes later. Oh, I heard
16 him say pick up that party. Oh no, the dispatcher
17 says, Pete, who is just another Manitowoc County
18 Sheriff's officer, is sitting up there waiting and
19 stopping people from going in and that. He found
20 someone with a body only warrant for our department.

21 A body only warrant is an arrest warrant
22 or a bench warrant where they are going to take
23 the person into custody, rather than immediately
24 grant him bail. Okay. Do we have -- All right.
25 I will talk to Remiker. Yeah, your best bet is

1 to talk -- because nothing has come through. We
2 have the vehicle, that I know. But more than
3 that, I don't know. All right. Bye. Bye.

4 (Tape recording played.)

5 DETECTIVE JACOBS: Oh, I heard him say
6 pick up that party.

7 DISPATCH: Oh, no. We have -- Well,
8 Pete is sitting up there waiting and stopping
9 people from going in and that. He found somebody
10 with a body only warrant for our department.

11 DETECTIVE JACOBS: Okay. Do we have --
12 All right. I will talk to Remiker.

13 DISPATCH: Yeah, your best bet is to
14 talk to -- Nothing has come through. We have the
15 vehicle, that I know.

16 DETECTIVE JACOBS: All right. Thank
17 you.

18 DISPATCH: But what more, I don't know.
19 All right. Bye.

20 DETECTIVE JACOBS: Bye.

21 ATTORNEY STRANG: So you can take the
22 tunnel vision and investigative bias from them, not
23 from me. Now, in the end here, in the end, when you
24 have heard it all, there's not a speck of Teresa
25 Halbach's blood anywhere in Steven Avery's trailer.

1 There's not a piece of hair, nothing, nothing to
2 suggest she's ever been in the trailer. And only
3 the magic bullet found 4 months later to suggest
4 she's ever been anywhere near the garage.

5 And when you consider the forces, the
6 emotions, the very human failings at work here,
7 it's no surprise that the blood from that
8 unsecured vial, in the box, in the Clerk's
9 Office, that Lieutenant Lenk examined back in
10 2002, ends up in that Toyota. Because that's
11 where it ought to be. Is he in custody yet?

12 Jerome Buting and I will not ask you to
13 make that kind of snap judgment here. The
14 Halbachs deserve better than that. The police
15 deserve better than that. You owe it to
16 yourselves, in making this decision, to do better
17 than a snap judgment, a snap judgment 30 minutes
18 after that Toyota is found.

19 Jerome Buting and I are going to ask you
20 to do your job right. Think long and hard about
21 all of the evidence. But in the end, after the
22 full and fair consideration of everything and
23 everyone, the full and fair consideration that
24 Steven Avery did not get in 2005, from the
25 Manitowoc County Sheriff's Department; we're

1 going to ask you to send him home. We're going
2 to ask you to send him home, again. We're going
3 to ask you to get it right this time. We're
4 going to ask you to set it right when this case
5 is over.

6 THE COURT: Thank you, Mr. Strang. Members
7 of the jury, we're going to take an afternoon break
8 now. We'll resume in 15 minutes and the State will
9 begin the presentation of evidence. I will remind
10 you again, as I will a number of times throughout
11 the trial, do not discuss the case during the break
12 or at any other time until all the evidence has been
13 received.

14 (Jury not present.)

15 THE COURT: All right. Counsel, we should
16 be ready to go promptly at 2:45.

17 (Recess taken.)

18 THE COURT: At this time the State may call
19 its first witness.

20 ATTORNEY KRATZ: State will call Mike
21 Halbach, your Honor.

22 THE CLERK: Please raise your right hand.

23 **MICHAEL D. HALBACH**, called as a witness
24 herein, having been first duly sworn, was
25 examined and testified as follows:

1 THE CLERK: Please be seated. Please state
2 your name and spell your last name for the record.

3 THE WITNESS: Michael Daniel Halbach,
4 H-a-l-b-a-c-h.

5 **DIRECT EXAMINATION**

6 BY ATTORNEY KRATZ:

7 Q. Mr. Halbach, did you know a young woman by the
8 name of Teresa Halbach?

9 A. I did.

10 Q. Describe, who was Teresa, please.

11 A. Teresa was -- or is my sister. She was born on
12 March 22nd, 1980. Grew up with my family on a
13 dairy farm near Hilbert.

14 She loved travel; she had been to Spain,
15 Mexico, New Zealand, Australia.

16 She had many friends. She loved doing
17 things with her friends. She was a good friend
18 of mine, as well.

19 She was my big sister, someone I could
20 go to talk to about any problems I would have.
21 We would go to lunch, talk about her business
22 which she ran, called Photography by Teresa.

23 And in August of 2005, she coached her
24 sister's 7th grade volleyball team to second
25 place in their league. So I know that that's

1 something she really loved doing, was working
2 with those kids. That was the main focus of her
3 photography business as well.

4 And she graduated from the University of
5 Wisconsin, Green Bay, in 2002, major in
6 photography and she graduated summa cum laude.

7 Q. I'm going to hand you a couple of exhibits.
8 First exhibit is that which is marked as Exhibit
9 No. 1. Could you tell us what that is, please.

10 A. It's a photo of Teresa.

11 Q. Do you know when that photo was taken?

12 A. Not exactly, but by the looks of it, it was
13 fairly recent. I would say 2005.

14 Q. Does that particular photo accurately depict your
15 sister, Teresa, and as it did the last time that
16 you saw her?

17 A. Yes.

18 Q. By the way, when was the last time that you saw
19 her; do you recall?

20 A. The last time I saw my sister was October 30th,
21 2005, the day before she went missing. We were
22 at my grandparents house. It was my grandpa's --
23 Halloween was my grandpa's birthday. And the day
24 before we went to their house, the entire family
25 was there, aunts, uncles.

1 Q. Mr. Halbach, I'm sure we'll get better at this
2 with the jury, but I'm going to direct your
3 attention to the large screen in the courtroom,
4 is that another version or a larger version of
5 what's been marked as Exhibit No. 1?

6 A. Yes, it is.

7 Q. You mentioned that Teresa was part of your
8 family, can you tell us who else was involved in
9 your immediate family, please?

10 A. I have an older brother, Tim; and then Teresa
11 would be the second oldest; myself; and two
12 younger sisters, Katie and Kelly; parents, Tom
13 and Karen.

14 Q. Directing your attention to Exhibit No. 2, I'm
15 also putting that on the screen for the jury; can
16 you tell us what that is, please.

17 A. It's a photo we took outside my parents farm. I
18 believe it was in 2004, that summer, early fall.
19 It's a photo we used for our Christmas cards that
20 year. And it's a photo of my family.

21 Q. And as you are pointing to Exhibit No. 2, please,
22 could you tell us, or tell the jury, who all is
23 in that photo?

24 A. Tom, Teresa's, I guess legally would be her step
25 dad, standing in the back with the jean shirt; to

1 his left is, Katie, younger sister; and to her
2 left is Kelly, the youngest of the family. In
3 front from left to right is the oldest brother,
4 Tim; and then my mom, Karen; then myself holding
5 our dog, Eddy; and Teresa is on the end.

6 Q. All right. How often would you get to see
7 Teresa; how often would you interact with her?

8 A. Every few days I would probably talk to her
9 either on the phone, or if it was a weekend, we
10 would probably see each other, if I was at my
11 parent's house if she would stop over during the
12 week, or over the weekend. So I would see her --
13 see her or at least talk to her every three days
14 or so.

15 Q. Are you familiar with Teresa's electronic devices
16 that she owned?

17 A. Yes, I am.

18 Q. Could you tell us about those, please.

19 A. She owned a cell phone, a Motorola RAZR, and I
20 know this because she talked on it a lot. She
21 also had a palm pilot. I believe it was -- the
22 brand was Palm 1, I believe.

23 She had tons of photography equipment,
24 obviously. Hasselblad is one camera; Canon is
25 another; and through one of her jobs she had a

1 little snapshot camera for the job. She worked
2 through *Auto Trader Magazine*. She had this
3 little snapshot camera to do that job.

4 Q. Do you know what kind of vehicle Teresa drove?

5 A. It was a Toyota RAV4. It was bluish-green in
6 color.

7 Q. We're going to have the actual photo marked as an
8 exhibit, but I'm going to direct your attention
9 up to the large screen. Could you tell us what
10 it is we're looking at there.

11 A. Could you repeat that.

12 Q. Sure, I'm about to have this photo made part of
13 the -- or to complete the record, but could you
14 tell us and can you look at the large screen and
15 tell us what it is that we're looking at.

16 A. That's Teresa holding one of her cameras she had
17 with her professional photography business,
18 standing outside the driver's side door of her
19 Toyota RAV4.

20 Q. Mr. Halbach, could you -- regarding Teresa's
21 RAV4, could you tell us how often you had contact
22 with that vehicle?

23 A. I would say I have ridden in it a few times, but
24 I would see it whenever I saw her. It was her
25 only vehicle, so when she would drive it or when

1 she would drive around, she would be in that
2 vehicle. So I was very familiar with it and had
3 ridden in it a few times.

4 Q. Teresa's license plate said -- as you sit here
5 today, did you know or were you familiar with
6 what Teresa's license plates were?

7 A. Yes, I was.

8 Q. And how are you familiar with that?

9 A. One of Teresa's jokes and how she remembered her
10 license plate, her license plate numbers -- or
11 letters and numbers were SWH-582. She remembered
12 those letters because she would joke that it
13 stood for single white Halbach.

14 (Exhibits No. 3 & 4 marked for identification.)

15 Q. Mr. Halbach, I provided you with two exhibits
16 Exhibit No. 3 and Exhibit No. 4, can you tell us,
17 though, what those are, please?

18 A. Pictures of Teresa's license plate.

19 Q. And which one of them has the sticker on it.

20 A. Exhibit No. 3.

21 Q. All right. Just so the jury is shown Exhibit
22 No. 3, I'm going to direct your attention to the
23 large screen, again; what is it that we're
24 looking at?

25 A. Teresa's license plate?

1 Q. SWH-582, is that right?

2 A. That's correct.

3 THE COURT: Excuse me, Mr. Kratz, just for
4 the record, I think the photo of Teresa Halbach with
5 the RAV4 was referred to as an exhibit, but we
6 haven't marked it yet; are you still looking for the
7 original?

8 ATTORNEY KRATZ: We are, Judge. Although
9 we have the original, Judge, we'll be referring to
10 it either with this witness or the next witness who
11 also has familiarity with that.

12 THE COURT: Just, I think, to keep the
13 record straight, it should be reflected that while
14 it may have been referred to as an expected exhibit
15 number, it has yet to be numbered.

16 ATTORNEY KRATZ: All right, judge.

17 THE COURT: You may proceed.

18 Q. (By Attorney Kratz)~ And the other vehicle, or
19 what I guess would be considered the front
20 license plate, you said that was Exhibit No. 4;
21 is that right?

22 A. Yes, that's correct.

23 Q. And I have now directed your attention to that on
24 a large skween -- screen, excuse me, once again,
25 Exhibit No. 4, the large screen photo here,

1 accurately reflects Exhibit No. 4; is that
2 correct?

3 A. Yes, it does.

4 Q. All right. I have now handed you what's been
5 marked for identification as Exhibit No. 5, tell
6 us what that is, please.

7 A. It is the picture we looked at not too long ago
8 with Teresa standing outside the driver side of
9 her Toyota RAV4.

10 Q. Just for the record, Exhibit No. 5, then, would
11 be the image that we're looking at on the screen
12 now; is that correct?

13 A. Yes.

14 Q. All right. By the way, Mr. Halbach, did you have
15 an idea as to when this photo was taken? Did I
16 ask you this?

17 A. You didn't ask me that. I mean, I would guess
18 sometime maybe 2004, maybe early 2005.

19 Q. I guess the question that the jury needs to know
20 is, was this Toyota RAV4, the vehicle in which
21 your sister is standing in front of, the same
22 vehicle that she was driving at the end of
23 October of 2005?

24 A. Yes, it is.

25 Q. You mentioned that Teresa was involved in the

1 photography business; can you tell us about that
2 a little bit?

3 A. Yeah, through college she developed a passion for
4 photography and, hence, why she declared that as
5 her major. I would say her sophomore and junior
6 year she worked at Bay Park Square Mall in Green
7 Bay at Picture People taking photos of children,
8 mainly families.

9 After she got done doing that, during
10 her last semester at Wisconsin, Green Bay, she
11 started this internship with Tom Pearce of Pearce
12 Photography in Green Bay, doing many of the same
13 things, taking pictures of children, families,
14 some, and also doing weddings on the weekends.
15 So she continued working with him and then later
16 on in 2002, she started her business, which she
17 named Photography by Teresa, which continued up
18 until Halloween of 2005.

19 Q. Now, you indicated that you are familiar that at
20 least one of her clients was *Auto Trader*
21 *Magazine*; is that what you told us?

22 A. Yes, that's correct. She in, I think it was
23 October of 2004, she started working for *Auto*
24 *Trader Magazine* as a way to supplement her income
25 for her professional business. Since she was

1 just starting out with her own business, she
2 wouldn't always have clients. So. Yeah, just as
3 a way to have some steady income, she got this
4 job with the *Auto Trader Magazine* to take
5 pictures of vehicles in people's yards, that they
6 were selling themselves.

7 Q. First photo I'm showing you has been marked as
8 Exhibit No. 7, can you tell us what that is,
9 please?

10 A. Exhibit No. 7 is Canon PowerShot A310; it's the
11 box for the Canon camera. It's not the camera
12 itself.

13 Q. And, once again, were you familiar that that was
14 one of the cameras that Teresa had used in her
15 employment?

16 A. Yes, I am, in her employment with *Auto Trader*,
17 yes.

18 Q. The other exhibit, I think it was Exhibit No. 6;
19 is that correct?

20 A. That's correct.

21 Q. Can you tell me what that is, please?

22 A. It's a box for a Palm 1 Zire 31 palm pilot.

23 Q. And, once again, the large screen, does that
24 accurately depict the box, again, recovered from
25 your sister's home, the box that she saved for

1 her palm pilot?

2 A. Yes, it does.

3 Q. Was your sister kind of a pack rat; did she save
4 this kind of stuff?

5 A. Having gone through her stuff, yeah, she saved a
6 lot of stuff, yes.

7 Q. Was your sister married?

8 A. No, she's not.

9 Q. Who did she live with?

10 A. She lived with a friend of hers from high school,
11 named Scott Bloedorn. He lived in the upstairs
12 of the apartment -- or of the house she was
13 renting from my parents.

14 Q. How close was this to your parents' house?

15 A. Down the road a short ways, eighth mile, roughly
16 quarter mile. Not too far.

17 Q. Okay. Mike, did you ever have an opportunity to
18 see or talk with your sister as she either went
19 to work for the *Auto Trader Magazine* or as she
20 went to work at her own studio?

21 A. As she went there?

22 Q. Yes. In other words, were you familiar with how
23 she dressed to go to work?

24 A. Yes.

25 Q. Can you tell us about that.

1 A. She would always dress professionally, especially
2 when she was going to her professional
3 photography business, you know, black pants, a
4 nice shirt. And if she happened to be doing *Auto*
5 *Trader* that same day, she would go in those same
6 clothes.

7 But if it was -- if she wasn't going to
8 her job that day, she would dress comfortably,
9 not necessarily in professional clothes, but nice
10 clothes nonetheless. Might be a nice pair of
11 jeans and a nice shirt or, you know, maybe khakis
12 and a shirt, sweatshirt.

13 Q. Mike, as long as we have the photos, again, what
14 we're looking at here, that's a picture -- which
15 picture is that, No. 6?

16 A. That is Exhibit No. 6.

17 Q. We're going to have the actual exhibit marked so
18 that we don't just have a photo of it?

19 ATTORNEY KRATZ: Janet, is that going to be
20 No. 8?

21 THE CLERK: Yes.

22 (Exhibit No. 8 marked for identification.)

23 ATTORNEY KRATZ: Mr. Wiegert, could you
24 provide that to the witness.

25 Q. (By Attorney Kratz)~ Mr. Halbach, we're showing

1 you what's marked for identification as Exhibit
2 No. 8; can you show the jury and tell them what
3 that is, please?

4 A. This is the same box as in the Exhibit No. 6,
5 it's the box for Teresa's Palm 1 Zire 31 palm
6 pilot.

7 Q. And if I'm not mistaken, Exhibit No. 7, I think,
8 was the box for the Canon PowerShot A310; is that
9 right?

10 A. That's correct.

11 Q. We're going to have that box, actually, marked
12 for identification as Exhibit No. 9.

13 (Exhibit No. 9 marked for identification.)

14 Q. Once, again, Mr. Wiegert will be providing that
15 to you. If you could show it to the jury and
16 tell them what Exhibit No. 9 is, please?

17 A. Exhibit No. 9 is the box for the Canon PowerShot,
18 the A310, that Teresa used for her *Auto Trader*
19 job.

20 Q. Once again, after your sister's disappearance and
21 after investigators began contacting you,
22 specifically, and your family, these items were
23 found in her personal effects and turned over; is
24 that right?

25 A. That's correct.

1 Q. Can you tell me who Pam Sturm is?

2 A. Pam Sturm, to me, would be my first cousin once
3 removed. She would be my grandma's sister's
4 daughter.

5 Q. Okay. The involvement of Pam and her daughter,
6 Nikole, after your sister was missing, could you
7 describe that for the jury?

8 A. You said her involvement?

9 Q. Yes.

10 A. Pam Sturm was the person who ended up finding
11 Teresa's vehicle on the Avery salvage yard. I
12 recall coming home that day, after I had been
13 with my brother driving, in her -- being inside
14 my parents' house crying and my mom telling me
15 that we found the vehicle -- or Pam found the
16 vehicle, Pam and her daughter, Nikole. So, I
17 guess that would be her involvement.

18 Q. All right. Let's go back just a little bit,
19 Mike, if we can. After your mom reported your
20 sister missing on the 3rd of November, how was it
21 that you were informed of that?

22 A. On Thursday, November 3rd, I was working. I got
23 a call from my mom that afternoon at about 2:00
24 or 2:30 wondering if I knew where -- or if I had
25 talked to my sister in the previous, you know,

1 since Sunday. And I said that I hadn't.

2 And so I went on to call one of Teresa's
3 good friends at her work and asked her if she had
4 known where Teresa could be. Because it was
5 completely unlike her to go somewhere without
6 telling anyone, especially a family member, a
7 good friend, her roommate, or her boss.

8 So, I guess after we made those calls it
9 became very evident to me that something was
10 seriously wrong and I expressed that to my mom.
11 Then shortly after -- and she was, you know, she
12 was in agreement, obviously; she knew something
13 was wrong, just like everyone else did.

14 Q. Did the family ask for some assistance and did
15 you receive it from some of Teresa's friends
16 regarding searching for her?

17 A. In searching for her we, you know, all we had to
18 do was make a couple phone calls to some of
19 Teresa's friends and they would call numerous
20 other people. We needed help passing -- passing
21 out posters on Friday, November 4th and also
22 doing searches by car on Saturday, the 5th and
23 doing searches by foot a few days following that.
24 So, whenever we needed help, we had help from
25 Teresa's friends, family members, community

1 members. Anyone who wanted to help, who had
2 time, would help us out in searching for Teresa.

3 Q. Who is Ryan Hillegas?

4 A. Ryan Hillegas is -- he was Teresa's ex-boyfriend.
5 They were together a few years and then were off
6 a few years once they went to college. And he,
7 basically, organized most or probably all the
8 search efforts that we did for Teresa. Him,
9 along with Scott Bloedorn, did the majority of
10 getting people together and telling people where
11 to go to search for Teresa.

12 Q. I ask you to refer back to this photo, can you
13 tell me what exhibit that is, again?

14 A. Exhibit No. 5.

15 Q. Okay. I can see by your sister's physical
16 stature, but if you can just verify for us, was
17 Teresa in good physical condition?

18 A. Yes, she was. She had a -- she went to a gym. I
19 don't know how regularly, but she had a
20 membership at a gym and was -- seemed physically
21 fit, yes.

22 Q. Mike, I think you talked about, on the 3rd,
23 meeting with your family, and on the 4th, really,
24 the citizen efforts for Teresa's search kind of
25 ramped up; but can give you us any more details

1 about that?

2 A. Yeah, on the -- Well, the day we reported Teresa
3 missing, that Thursday, we had got a call from a
4 man named Jay Breyer who offered his services at
5 Youth Educated in Safety, which is a missing
6 persons organization. He offered to make copies
7 and make up a missing persons poster.

8 So we took him up on that offer that
9 night, finalized the poster and then the
10 following afternoon we had got copies made. He
11 had made the copies and around 2:00 or 2:30 in
12 the afternoon was when we were meeting with
13 whoever had the time and the vehicle to drive
14 across all of northeast Wisconsin to put up these
15 posters, which basically said, you know, missing
16 person, Teresa Halbach, height, weight, what she
17 was wearing that day. So that's what happened on
18 Friday afternoon.

19 Q. Mike, Mr. Fallon is going to hand you what's been
20 marked for identification as Exhibit No. 10. I'm
21 going to put it up on the screen for the jurors.
22 Can you tell us what we're looking at, please?

23 A. That's the missing persons poster that Jay Breyer
24 helped us make that we put up on the 3rd -- or
25 the Friday, the 5th -- or, yeah -- the 4th,

1 Friday, the 4th. That's right.

2 Q. Indicates that your sister was 5 feet 6 inches
3 tall, 135 pounds; is that approximately accurate?

4 A. Yes.

5 Q. Now, after -- First of all, let me ask you
6 where -- where these posters distributed, if you
7 recall?

8 A. It would have been a very large area of northeast
9 Wisconsin including Appleton, Green Bay,
10 Manitowoc, Chilton, south towards Milwaukee, east
11 to the Lakeshore. And I recall semi-drivers
12 wanting to, you know, stop at the house, pick up
13 some fliers because they were concerned as well.
14 And they were going to Madison, Milwaukee and
15 further. So they had volunteered to put up
16 posters for us on their routes.

17 Q. Mr. Halbach, let me ask you this, did you try to
18 recreate, from the 31st of October, routes that
19 Teresa may have taken?

20 A. Yes. Yeah, so those were our main areas we
21 wanted to put up these posters, as well as to
22 search by vehicle and by foot, because we could
23 trace her whereabouts to, you know, a certain
24 location. That's where you want to focus most of
25 your efforts. So that's what we did.

1 Q. All right. Perhaps you answered this and I
2 apologize if you did, but do you recall how many
3 thousands of these posters you distributed?

4 A. I guess I can't recall specifically, but it would
5 be, you know, probably a couple thousand.

6 Q. All right. Now, we're going to hear from Mr.
7 Hillegas a little bit later in the trial
8 regarding the specifics of the missing persons
9 investigations, but did those search efforts
10 include actually walking around or looking in
11 roadways or ditches?

12 A. Yeah, that Saturday morning, the 5th, that
13 morning, it was about 7:00 a.m., a group of
14 volunteers met at my sister's house and we set
15 out by vehicle to -- to basically trace the
16 routes that she may have taken that Monday.

17 And certain people were given different
18 areas, not necessarily the places she definitely
19 traveled, but perhaps she drove down to Milwaukee
20 to meet with someone, or drove up to Door County,
21 so we had people driving in those areas as well.
22 But myself, specifically, I went with my brother
23 to the places where we -- and the routes that we
24 thought for sure she could have taken, you know.
25 Since we were her brothers, we can get it in her

1 mind better than anyone. So we drove over there.

2 I can recall specifically driving down
3 Highway 147, getting out, looking down
4 embankments where, if you would drive by
5 casually, you wouldn't be able to see down there.
6 So, we thought maybe she had gotten in an
7 automobile accident, was trapped, you know,
8 unconscious, whatever it may be. So we wanted to
9 do what we could to eliminate that possibility.

10 So, you know, we looked wherever we
11 could, drove around as many roads as we could,
12 side roads, back roads, whatever, just looking
13 for signs of her vehicle or Teresa herself.

14 Q. And until that call came, or until the news came
15 on the 5th, that Teresa's vehicle had been found,
16 was that your hope that there had been some
17 accident or something?

18 A. Yeah, I mean, from the start I think it's just
19 the way my family is, is we're strong,
20 optimistic, also, you know, realistic too. But,
21 yeah, we hoped to find some sign and we hoped we
22 would find Teresa alive.

23 So when we found her vehicle, it was
24 good because we were getting closer to finding
25 Teresa. So we were happy to find the vehicle,

1 but we didn't find Teresa, so that half the goal
2 was missing. We didn't accomplish half the goal
3 when we found the vehicle.

4 Q. All right. Mike, I had mentioned at the early
5 stages of the presentation of this case, in fact,
6 to the jury, about meetings that you had with law
7 enforcement, meetings you had with me,
8 individually, throughout this case. Have you
9 been kept informed as to the developments and the
10 evidence, not just that was found, but the
11 evidence that was going to be presented at this
12 case?

13 A. Yes, we had always -- were informed in advance of
14 anything, whether it be a news conference,
15 whether it be information that would be submitted
16 to the courthouse and available to the media,
17 shortly thereafter. We would always be aware of
18 what was going to be said in the media or what
19 not. And in advance of every court hearing, we
20 have been kept informed of what we would hear
21 that day, just so there were no surprises; so we
22 could prepare ourselves emotionally for those
23 events.

24 Q. That includes the physical evidence that is going
25 to be presented at this trial?

1 A. Yes, that's correct.

2 Q. The last question I have, Mike, and I'm going to
3 apologize in advance as to the insensitivity of
4 it, but at any time after the 31st of October,
5 had you ever seen, spoken from, or heard from
6 your sister, Teresa Halbach?

7 A. No, I have not.

8 ATTORNEY KRATZ: I would move the admission
9 of Exhibit 1 through 10.

10 THE COURT: Any objection?

11 ATTORNEY STRANG: No objection at all.

12 THE COURT: Those exhibits are admitted.

13 ATTORNEY KRATZ: No further questions.

14 THE COURT: Mr. Strang.

15 ATTORNEY STRANG: Is this working now?

16 THE COURT: Yes, it is.

17 ATTORNEY STRANG: All right.

18 **CROSS-EXAMINATION**

19 BY ATTORNEY STRANG:

20 Q. Thanks for coming. And I don't have a lot of
21 questions. I don't want to make this any harder
22 a day for you than it's already been. But, we
23 have established that Teresa was 5 foot 6, about
24 135 pounds, back in October of 2005?

25 A. Yes.

1 Q. Give or take. You said she was fit. She was an
2 athlete to some extent?

3 A. To some extent, she played a little in high
4 school, but I know she would exercise at our home
5 as well.

6 Q. Sure. Little volleyball, was that her sport, or
7 basketball, or both?

8 A. Well, she coached her sister's 7th grade
9 volleyball team, so there was definitely an
10 interest there.

11 Q. Was that her sport in high school?

12 A. She played some. I don't think she played past
13 her sophomore year, but ...

14 Q. Okay. But, you know, I mean, somebody who was at
15 least reasonably athletic and fit?

16 A. Right.

17 Q. In addition to working out at home, she belonged
18 to some private gym somewhere?

19 A. Correct.

20 Q. Okay. You guys were all raised on a dairy farm;
21 did you grow up there?

22 A. Yeah, for the most part, yeah.

23 Q. Working a dairy farm?

24 A. Yes.

25 Q. And when you say for the most part, is that not

1 when you were a little bitty boy, or ...

2 A. Up until I was eight years old on, I was on the

3 dairy farm, yes.

4 Q. Okay. Sure. And you, the kids, helped out with

5 chores, I assume?

6 A. Correct.

7 Q. Like all farm kids have to?

8 A. Yes.

9 Q. That included Teresa?

10 A. She didn't help out in the barn as much as she

11 helped out in the house, babysitting for our

12 sisters and taking care of chores in the house.

13 Q. She did get acquainted with milking, though, at

14 some point, I assume?

15 A. Very seldomly.

16 Q. Was that mostly the boys?

17 A. Yeah. Yes.

18 Q. She was someone who had a good sense of humor?

19 A. Yes.

20 Q. Also could stand up for herself, though?

21 A. Absolutely.

22 Q. Little bit feisty in a good way?

23 A. Yes.

24 Q. Yeah, and I don't mean in a bad way, but I mean

25 she was personable?

1 A. Yes, independent.

2 Q. And your family, I take -- I take it is
3 tightknit, your immediate family?

4 A. Yes.

5 Q. By that, I mean Tom and Karen, your folks, or you
6 and Tim, Katie and Kelly and Teresa?

7 A. Yes.

8 Q. But you guys also have a pretty good extended
9 family in this area, as I understand it?

10 A. Yes, we do.

11 Q. Has the family been in Calumet County or this
12 area for generations?

13 A. Yes. Yeah.

14 Q. Okay. I mean, in other words, you know Pam
15 Sturm, you were saying is a first cousin once
16 removed?

17 A. Correct.

18 Q. I couldn't possibly tell you how you got there
19 but, I mean, you have got all kinds of cousins,
20 aunts, uncles?

21 A. Yes.

22 Q. That kind of thing, in the area?

23 A. Yes.

24 Q. So, in addition to Teresa's friends, you had a
25 lot of family to pull on when looking for her?

1 A. Correct.

2 Q. This -- this effort to retrace her steps on
3 October 31, did that -- did that get going,
4 Mr. Halbach, pretty much right away, the evening
5 that you all reported her missing.

6 A. Yeah. Yeah, we had talked about where we knew
7 Teresa was on the 31st; what appointments she
8 had, where she was supposed to be before then,
9 you know, where she was supposed to be after then
10 and the days following, as well.

11 Q. Okay. On the 31st, were you able to nail down
12 appointments?

13 A. Yes.

14 Q. So, I mean, do you think it was that Thursday
15 night that you figured out that Avery Auto
16 Salvage was one of the appointments; if you
17 remember?

18 A. I don't remember exactly if it was that night, or
19 if it was the next day, or -- it was one of those
20 two.

21 Q. Either Thursday night or Friday morning, the 4th?

22 A. Yes.

23 Q. Okay. And at some point pretty quickly, the
24 media all got interested in this; am I recalling
25 that correctly?

1 A. Yes.

2 Q. Was it Friday, already on the TV they were
3 talking about the Avery Auto Salvage or flying
4 over it, that kind of thing?

5 A. I don't recall, specifically, myself, you know,
6 seeing the media involvements saying Steven
7 Avery, but I know that they reported on the
8 missing persons case involving my sister, that
9 Thursday night.

10 Q. Oh, right away Thursday night?

11 A. Correct.

12 Q. And then Friday and I know by Saturday, there was
13 a lot of media coverage?

14 A. Yes.

15 Q. Not that you were watching but, I mean, you were
16 out -- that you were just sort of aware of it?

17 A. Yes.

18 Q. Did you -- Did you have access to her computer
19 passwords or account information for, like, her
20 cell phone, for example, or bills, that kind of
21 thing?

22 A. Cell phone, yes; computer password, yes.

23 Q. She had shared that with you at some time
24 earlier?

25 A. I did business work for her, website graphics,

1 so --

2 Q. Oh.

3 A. I, yeah, I just knew it through that.

4 Q. So, you knew it through that --

5 A. Correct.

6 Q. -- because you would have a reason to get on to
7 her computer to help her with her website?

8 A. Well, I didn't have to go on her computer, but I
9 had to connect to a web host --

10 Q. Sure.

11 A. -- just to put stuff for her website, so.

12 Q. Okay. I'm nodding like I know what you are
13 talking about and I really don't. But the point
14 is you had -- you had access to her password
15 information so you could check her cell phone
16 bill?

17 A. I never did. I don't know -- So since I never
18 did, I wouldn't know if I had the right password
19 for her cell phone bill. I knew --

20 Q. Okay.

21 A. -- her password for her voice mail.

22 Q. And that's where I was going. I think -- I think
23 on Thursday evening, November 3, somebody was
24 able to get at her cell phone records on the
25 computer, but that was not you?

1 A. I don't think on her computer, no.

2 Q. Okay. And you didn't have her voice mail?

3 A. I said I did -- did have her voice mail password.

4 Q. You did have her voice mail password. Okay. Did

5 you check voice mails?

6 A. I did.

7 Q. Do you remember when you did that?

8 A. It was probably Thursday evening, early evening.

9 Q. After your mom --

10 A. Yes.

11 Q. -- had --

12 A. Yes.

13 Q. -- filed a missing persons report?

14 A. Yes.

15 Q. Okay. So I take it you were at work earlier that

16 day?

17 A. Correct.

18 Q. And the missing person report was sort of at the

19 end of the day, 5:00 or something?

20 A. Correct.

21 Q. Were you familiar enough with Teresa Halbach's

22 everyday stuff to know what -- what she carried

23 keys to?

24 A. I mean, yes, I think I would have an idea of what

25 keys she would have, yes.

1 Q. Okay. Let's just -- Let's start with the house
2 that she and Scott Bloedorn were sharing, this
3 was the older farmhouse?

4 A. At one point it was a farmhouse.

5 Q. Okay. Is it actually on the Halbach farm or just
6 next door or ...

7 A. It's next door, my parent's home, the house and
8 the land.

9 Q. Okay. But it --

10 A. It's not -- It doesn't share a driveway at all.

11 Q. Yeah.

12 A. It has its own driveway.

13 Q. Separate parcel, but next door.

14 A. Correct.

15 Q. Can you see the two houses from one another?

16 A. You have to look through a line of evergreens and
17 there's a big shed a little further back, but you
18 can see it through the trees, yes.

19 Q. But they are next door neighbors, essentially;
20 although it's a rural area?

21 A. Correct.

22 Q. Okay. And I take it there was -- there was a
23 house key to the house? Go ahead.

24 A. Yes, there was.

25 Q. Do you know whether there was a separate garage

1 key?

2 A. I believe that's correct.

3 Q. Okay.

4 A. I would imagine there was.

5 Q. And do you have -- do you have any way of knowing
6 whether Teresa would also have had keys to your
7 folk's house?

8 A. I don't think she did.

9 Q. You told us the Toyota was the only car she was
10 driving, so she didn't have keys to other cars,
11 as far as you know?

12 A. Correct, she didn't, no other keys.

13 Q. Swipe card for the gym?

14 A. I can't recall if she specifically had a swipe
15 card. She must have had something to get into
16 the gym. I forget what it would have been.

17 Q. Okay. And if you know, was she someone with,
18 like, a lot of people, I guess, who would have
19 had some doodads, or charms, or that kind of
20 thing on the key chain?

21 A. I don't ever recall her having any of that, a lot
22 of fancy stuff on her key chain, no.

23 Q. Okay. The gathering at -- was at grandpa's house
24 on Sunday, October 30?

25 A. That's correct.

1 Q. For his -- for his birthday?

2 A. Correct.

3 Q. And then, I think -- Were there, if you know, did

4 she -- had she had plans to go to a Halloween

5 party the Saturday night right before that?

6 A. I believe so. Earlier in the evening she was

7 helping me with a wedding, shooting a wedding

8 video. After that I think she would have went to

9 a Halloween party. I believe that's correct.

10 Q. Okay. Saturday night, October 29?

11 A. Right. Yeah, it would have been later on in the

12 night.

13 Q. Let's just sort of help the jury with that.

14 You're -- You're a videographer. You're in the

15 video business?

16 A. Correct.

17 Q. So not only would she be a photographer for

18 weddings, but you also videotape weddings as a

19 business, or a side business at times.

20 A. Well, that was the only one that I had. That was

21 my first time and I haven't done one since then.

22 Q. Okay. But the two of you were helping each other

23 out with that one?

24 A. Right.

25 Q. I didn't notice one in the picture, whichever

1 number it is, where Teresa is standing next to
2 her Toyota when she has got her camera; I didn't
3 notice there, but did she ordinarily carry a
4 purse?

5 A. I don't recall her having a purse -- well -- I
6 can't say for sure.

7 Q. That's okay. That's all right. How about, I
8 mean, did you -- did you notice, was she a
9 jewelry person, bracelets, necklaces?

10 A. Not a whole lot of jewelry, really, at all. I
11 don't -- maybe a couple of rings.

12 Q. Not bracelets, though, or necklaces.

13 A. Probably not too often.

14 Q. How about earrings?

15 A. I don't recall her wearing earrings very often
16 either.

17 ATTORNEY STRANG: That's all I have. Thank
18 you.

19 THE COURT: Mr. Kratz, any redirect?

20 ATTORNEY KRATZ: Not for this witness,
21 Judge. Thank you.

22 THE COURT: Very well, you are excused.

23 ATTORNEY KRATZ: Next witness, Judge?

24 THE COURT: You may call your next witness.

25 ATTORNEY KRATZ: Tom Pearce.

1 THE CLERK: Raise your right hand, please.

2 **THOMAS PEARCE**, called as a witness

3 herein, having been first duly sworn, was

4 examined and testified as follows:

5 THE CLERK: Please be seated.

6 THE COURT: You may proceed, Mr. Kratz.

7 THE CLERK: Please state your name and

8 spell your last name for the record.

9 THE WITNESS: Thomas Pearce, P-e-a-r-c-e.

10 **DIRECT EXAMINATION**

11 BY ATTORNEY KRATZ:

12 Q. Mr. Pearce, how are you employed?

13 A. I'm sorry?

14 Q. How are you employed?

15 A. I'm self-employed.

16 Q. Can you tell the jury in what capacity?

17 A. I'm a professional photographer. I have my own
18 studio.

19 Q. Did you know a young woman by the name of Teresa
20 Halbach?

21 A. Oh, yes, I did.

22 Q. Can you tell the jury how you first became
23 knowledgable about Ms Halbach?

24 A. It was in January of 202 (sic), through an
25 internship program through the university. She

1 approached me to do an internship through the
2 university and I took her on as an intern. And
3 from there on, through the internship program
4 which ends when she graduates, I saw that she was
5 an exceptional person in photography and for her
6 age, that I asked her to stay on and work through
7 my studio or with me doing weddings and
8 portraits.

9 Q. What university was this?

10 A. University of Green Bay.

11 Q. I think you mentioned that you had seen something
12 in her that actually made you offer her a job;
13 can you tell us what that was?

14 A. Well, you know, in this field, you see -- and I
15 have worked with other interns and some of them
16 do have the drive, the passion, the want and
17 knowing that -- Being a photographer, a lot of
18 people think it's very easy. It's a lot of
19 hours. It's a lot of dedicated work.

20 And she had that and I haven't seen that
21 in many people in a lot of years. And I was
22 impressed with that. She knew the
23 responsibility, the sacrifices it took. And she
24 was eager to learn. She was consistently asking
25 questions and from -- doing different projects

1 and so on. So I was very impressed with her and
2 that's why I asked her to stay on.

3 Q. Was she technically good at what she did?

4 A. Yes. The university -- I also went to school,
5 but not here in Green Bay. They teach you the
6 book. And how should I say, you should know the
7 rules before you know how to break them. And
8 that's part of out in the field.

9 And that's why I think the internship
10 program is a good program. Because it has -- In
11 many different fields, people come out and see
12 what it's really like in everyday life and not so
13 much how the book says it. But you have got to
14 know the book, but you have to break the rules
15 when you are out there.

16 Q. After offering Teresa a job, or employment
17 through your studio; how long did that last and
18 did that evolve into some other business
19 relationship.

20 A. As far as working for me, or I should say really
21 with me, she was a go-getter, like I said, she
22 had that passion. And I looked and as a -- when
23 you are a staff photographer for someone, you
24 have got to abide by their ways of doing things,
25 their policies, because you are working for them,

1 so you have to do stuff their way.

2 Well, I didn't want to hold her back
3 because she was incredibly involved and had that
4 passion for this. So, on the other hand, I
5 didn't want to not lose her, but have her go out
6 and go, hit and miss, hit and miss, which a lot
7 of young photographers do.

8 I had a full studio, plenty of room for
9 both of us. So we sat down and we talked and we
10 did something that no one has done before. She
11 started her own business, not be in competition,
12 but complimenting each other.

13 So she worked out of my studio; she used
14 all the facilities of the studio, but she ran her
15 own business through that -- through my studio.
16 Meanwhile, we cooperated in doing advertising
17 together, promotions, learning, helping one
18 another. I would book weddings for her, she
19 would book for me. There was never any
20 competition between us. And it was something
21 unusual, but it worked out very well for both of
22 us.

23 Q. Did she call upon you for advice?

24 A. Many times, yes. And it was, basically, not only
25 the technical end of it, the photography end of

1 it, but on how to run a business, what is needed
2 behind the scenes. And that's where in this
3 business a lot of the people that get into the
4 photography business, they know photography but
5 they don't know the business end of it.

6 So, yes, I did mentor her in a lot of
7 different areas. Thirty-eight years of
8 experience, and I wanted to share that with her,
9 because I could see that she was, basically, like
10 me when I came out of college -- school. I was
11 eager. I had the passion. We had a lot of
12 similarities. I graduated from -- with a degree
13 in photography.

14 I was the -- also worked the photo
15 school newspaper and she did. And I worked at
16 many different studios before I moved up here in
17 the Green Bay market. So we had that same
18 background. And I think it's a duty for any of
19 us to share what we have learned, our experiences
20 with someone up and coming.

21 Q. I think, Mr. Pearce, you talked about weddings
22 and portraits and the like, that was -- or at
23 the -- by the fall of 2005, had Teresa been
24 developing a particular niche within the
25 photography business?

1 ATTORNEY STRANG: Your Honor, I wonder if
2 we could approach the side bar for just a moment.

3 THE COURT: Sure.

4 (Side bar taken.)

5 Q. (By Attorney Kratz)~ Mr. Pearce, could you
6 discuss whether or not Teresa had developed a
7 particular niche within the photography business?

8 A. I think if there was any one area, it was
9 children. She loved to photograph children of
10 all ages. She had a knack for that. But as far
11 as a niche, I mean, we all -- that would be her
12 certain niche, but she was well versed at doing
13 weddings, and good at doing weddings and
14 portraits and family. But her love was doing
15 children, from all ages of children.

16 Q. Now, as part of that business, as part of
17 Teresa's photography business, were you aware of
18 a particular client that she serviced, which was
19 *Auto Trader Magazine*?

20 A. There was a time when she had told me about, that
21 she had picked up a client, which was *Auto*
22 *Trader*, and she would be running around taking
23 pictures of cars, yes, I was aware of that.

24 Q. All right. And had she ever asked your opinion
25 or advice about working for *Auto Trader* or that

1 kind of photography?

2 A. I don't think she asked my advice, but I think I
3 may have suggested something to her. Her
4 photography business was picking up for studio
5 wise a lot. And it seemed like when she -- It
6 seemed when she first started with *Auto Trader*
7 was just on Mondays. Mondays we're typically
8 closed in the industry, because we worked a lot
9 of Saturdays.

10 So, it seemed all of a sudden that she
11 not only had to do *Auto Trader* on Monday, but
12 possibly Wednesdays and some Saturdays. She was
13 constantly telling me that she was running doing
14 *Auto Trader*. And I could see that she was
15 starting to burn the candle at both ends.

16 And at one time, I sat her down and I
17 said, gee, you know, you are running here, you
18 are running here, you're running and I didn't
19 want her to get to a burn out point. So I just
20 asked her, how is *Auto Trader*, is it a good
21 client, blah, blah, blah.

22 We never talked on how much she was
23 making, or whatever. That -- that was never
24 discussed. I mean, that was where we drew the
25 line in our business end of it, but I was more

1 concerned about her well being of running, of the
2 constant running. She was constantly running and
3 that's what she enjoyed. So that was the only
4 time I really had any discussion with her about
5 *Auto Trader*.

6 Q. Let me ask you this, Mr. Pearce, are you familiar
7 with the defendant, Steven Avery?

8 A. As far as familiar with him, as far as what?

9 Q. Have you heard the name before the 31st of
10 October?

11 A. Just one time and I think it was the spring, late
12 spring or early summer, Teresa had mentioned to
13 me, she said kind of matter-of-factly, you will
14 never guess whose cars I was taking pictures of.
15 And she told me the name and it didn't ring a
16 bell.

17 She actually had to remind me or say,
18 oh, that was the guy that was wrongfully
19 convicted and so on and so forth. And we had a
20 little discussion and then I remembered the case
21 and so on and so. We talked about -- a little
22 bit about her being out and about, running around
23 all over the county, by herself, and her safety
24 and so on and so forth. And that was basically
25 it. That was the only time she ever mentioned it

1 to me.

2 Q. All right. We have learned that Teresa Halbach
3 drove a 1999 Toyota RAV4 SUV, picture's in front
4 of you. Would you look on the back; what exhibit
5 number is that?

6 A. 05 CF 381, Exhibit 5.

7 Q. All right. Have you ever seen that vehicle
8 before?

9 A. Oh, sure. She was working with me when she
10 purchased it. Actually, I took that picture.
11 And she was happy as a lark to have her first
12 car. She used to have a beater that was an older
13 car, not a beater. And now this allowed her
14 freedom to go. Yeah, she was very happy with
15 that car.

16 Q. Turning now to a more serious series of topics,
17 Mr. Pearce, sometime after the 31st of October,
18 after that Monday, after the Halloween; did you
19 see Teresa the next day at work, Tuesday, the 1st
20 of November?

21 A. No, like I said earlier, Mondays we were closed.
22 Actually, the last time I saw Teresa was
23 Saturday, before the 31st. When Tuesday came,
24 she had her own hours because she had her own
25 business. Since I'm there like 60 hours a week;

1 she may have been there one week 20 hours. All
2 depended on her schedule and so on. But she
3 always kept me informed of was she going to be
4 gone for a day; did she have appointments; was
5 she going to take off for a weekend; etc. She
6 was very responsible in that sense, extremely
7 responsible for a young person.

8 Well, Tuesday came and by noon she
9 wasn't there. I didn't think too much, oh, okay,
10 I know she was there Saturday working, did *Auto*
11 *Trader*. So I'm going through my mind, well,
12 what -- I knew Wednesday, because every Wednesday
13 morning, she actually was one of the founders of
14 a BMG Group, BMG marketing group, Business
15 Marketing Group that meets once a week. Business
16 leaders, they go over leads and what's going on
17 in Green Bay and so on.

18 She was one of the founders and very
19 active in it. She usually would come in, oh,
20 about, sometimes 11:00, 11:30 on that Wednesday,
21 religiously. Because she would be in town for
22 that meeting. So Wednesday around noon, she
23 didn't show up. I thought, okay, this is a
24 little strange. I tried calling her and I got
25 her cell phone, but her phone book and it was

1 full, where I couldn't even leave a message.

2 Q. Her voice mail?

3 A. Her voice mail box, that's it, yes, it was full.

4 I couldn't even leave a message. I thought this
5 was a little strange, because typically you get
6 right through to her. She was very good at
7 returning calls; very good at leaving messages
8 and letting me know. So kind of, well, maybe
9 she's sick, you know, with the flu, flu season,
10 covered up under the covers, turn the cell phone
11 off, just go and doing that.

12 Q. Sure.

13 A. So I thought, well, for sure she'll be in
14 Thursday. And I had called, a couple times, her
15 cell phone. So by Thursday, now, I haven't heard
16 from her.

17 Q. This is Thursday the 3rd of November.

18 A. Right. Yes.

19 Q. Okay. What did you do then?

20 A. I tried to call her again, same thing, with the
21 phone. Now, some of her work was coming in,
22 being shipped in to be processed. And I knew
23 that she knew, she kept track of that. So, if
24 she was out of town or sick, I think she would
25 have called me by this time. And I started

1 getting really, really worried.

2 I didn't know who to call, her friends,
3 etcetera, so I think was around 1:00, somewhere
4 in that time period. I called Karen, Teresa's
5 mother, seeing if she knew. That was the only
6 phone number I had, other than Teresa's. I
7 didn't have any of her friend's. And talked to
8 Karen about it. And she was going to call some
9 of her friends, or she already had. And the next
10 thing I know it was 10:00, on the news, I heard
11 it was, officially, that Teresa was missing.

12 Q. Perhaps you can help us, Mr. Pearce. Are you
13 familiar with use of digital cameras, digital
14 film and how a digital camera can imprint or
15 create an electronic signature on photos that are
16 taken there from?

17 A. I'm not a real good expert on digital, but I know
18 some of what the digital cameras do, if that's
19 what you're --

20 Q. I'm going to direct you to some images and when
21 you take the cursor for a computer over a digital
22 image, as an example, this image gives the
23 dimensions, gives the date the picture taken is
24 10/10/05 at 3:18 p.m. Camera model, it indicates
25 Canon PowerShot A310 to JPEG image and the size

1 of that. Are you familiar with the taking, or
2 production of digital photography, that those
3 kinds of details are provided right in the image
4 itself? Do you understand the question?

5 A. Yes. Yes, sir. Absolutely true, they are.
6 Unless you get a 10 or \$15 or \$20 digital camera,
7 the nicer cameras, even the smaller ones, will do
8 that automatically in their programing for that.

9 Q. All right. Same question I have asked another
10 witness and I will ask you Mr. Pearce, after
11 the -- well, really after the 29th of October,
12 2005, had you ever heard or spoken to Teresa
13 Halbach?

14 A. No.

15 ATTORNEY KRATZ: That's all I have for this
16 witness, Judge. Thank you.

17 THE COURT: Mr. Strang.

18 **CROSS-EXAMINATION**

19 BY ATTORNEY STRANG:

20 Q. Mr. Pearce, the Teresa Halbach you knew was
21 someone you described once as feisty?

22 A. Well, depends on how you mean feisty.

23 Q. How did you mean it?

24 A. Full of energy.

25 Q. Someone who was in good shape and could fight

1 back?

2 A. I would think so.

3 Q. She carried a cell phone regularly?

4 A. I'm sorry, I can't hear you.

5 Q. She carried a cell phone regularly?

6 A. As far as I know, yes, that was her life line.

7 Q. But that wasn't something she would hook on a
8 belt or do one of these things, she would keep it
9 in her purse?

10 A. Well, most of the time when I would see her, she
11 would have it out of her purse and on the
12 counter.

13 Q. If she were out somewhere, though, the cell phone
14 was always in her purse, I think you have said
15 before?

16 A. I couldn't answer that 100 percent. I would
17 think so. She was in her car, maybe it would be
18 on the driver's seat. I know it went with her
19 wherever she went.

20 Q. And when she was at Pearce Photography, she
21 frequently would leave the cell phone out on the
22 counter. If she was out somewhere else, it was
23 in her purse, typically, that was your experience
24 with her?

25 A. Well, I know when she was at work it was always

1 out in the open on the counter, just like this
2 picture sitting here, because that was her
3 business line. When she was out -- out of the
4 studio, I really don't know what she did with her
5 cell phone.

6 Q. I'm going to show you a report of an interview
7 that you had with an agent named Alan Hunsader;
8 do you remember talking with him?

9 A. Sure.

10 Q. I'm going to offer it as an exhibit, I'm just
11 hoping it might refresh your recollection about
12 the cell phone. I invite you to look at the last
13 paragraph on that page. Just to yourself.

14 A. Yeah, I guess.

15 Q. Does that help --

16 A. Yeah.

17 Q. -- refresh your recollection about your
18 experience with Teresa Halbach and her cell
19 phone?

20 A. When we would shoot a wedding together she would
21 have her cell phone in her purse. Through her --
22 When -- When we would go to -- give an example,
23 we did a lot of work in a park which was 5
24 minutes away from us, doing weddings, even in her
25 training time she would keep her cell phone in

1 her purse. That was my oversight.

2 Q. You described it as her lifeline just a few
3 minutes ago.

4 A. Right.

5 Q. Was that the only number you had for her?

6 A. Yes.

7 Q. You don't know whether she had a land line phone
8 in her home?

9 A. I don't think so.

10 Q. You were aware that she evidently shared her cell
11 phone number with *Auto Trader* customers.

12 A. I knew at one time she said to me that she was
13 able to give out her business cards to the *Auto*
14 *Trader*. So in that respect I guess, yeah,
15 because her cell phone number would be on that.

16 Q. And indeed there was -- there were at least a few
17 occasions on which you were aware that she was
18 getting calls on her cell phone from customers or
19 dissatisfied customers of *Auto Trader* and she
20 would refer those to the *Auto Trader* office?

21 A. She mentioned to me a couple times that people
22 were calling her direct. They had a problem with
23 *Auto Trader*, or whatever the case may be.

24 Q. She said, don't bother me, call the *Auto Trader*
25 office?

1 A. Yes, sir.

2 Q. What -- What day was it, as best as you can
3 recall, and I'm going to chase the time to, if
4 you can, that you first called Teresa's cell
5 phone the week of October 31 and found the voice
6 mailbox full?

7 A. I think it would have been Tuesday afternoon and
8 that -- somewhere in that time period.

9 Q. And the voice mail box was full?

10 A. Yes.

11 Q. Okay. And then Wednesday, before this marketing
12 group luncheon, after she didn't show up; did you
13 try that again?

14 A. Yes, sir.

15 Q. Still full voice mailbox?

16 A. Still full.

17 Q. And if I understood you correctly, you said you
18 tried again Thursday?

19 A. Mm-hmm, yes, sir.

20 Q. So full voice mailbox Tuesday, Wednesday and
21 Thursday?

22 A. I believe, I'm almost positive all three times,
23 because I thought that was very unusual.

24 Q. Starting Tuesday, mid-afternoon.

25 A. Yes, sir.

1 Q. This studio, it was your studio, but she was
2 sharing space, if I understood you --

3 A. Yes.

4 Q. -- correctly?

5 A. Yes.

6 Q. Keys, keys to the studio, one, more than one?

7 A. She had a set of keys, yes, sir.

8 Q. What is a set of keys, meaning to the studio?

9 A. Well, as myself, we always carry two, so that --
10 I mean, it's the same key, but in case we drop
11 it. And Teresa had a funny thing about not
12 losing her keys, but misplacing her keys all the
13 time. So I gave her two, one to put on her key
14 chain and one to put in her purse somewhere, so
15 she always has it. So, two keys.

16 Q. If she mislaid the key chain?

17 A. Yes.

18 Q. Okay. So the office key was one of the keys on
19 that key chain?

20 A. I would think so.

21 Q. Is it a key chain you saw?

22 A. I'm sorry?

23 Q. Is it a key chain that you ever saw?

24 A. Laying on the counter or something, yes.

25 Q. Okay. It had a number of keys on it?

1 A. I would think maybe three or four.

2 Q. Okay. About three weeks before she disappeared,
3 Teresa Halbach, you were aware, had been getting
4 a lot of telephone calls that she was not
5 answering on the cell phone?

6 A. Yes, sir.

7 Q. They would leave no message?

8 A. If you are referring to the same thing, I think,
9 she was standing almost right next to me, in a
10 day, and she got this phone call. And she looked
11 at it and went, said, oh, not them again, or not
12 him again, and just kind of forgot about it.

13 She looked a little upset, so I
14 questioned her a little bit about this and she
15 told me, just forget about it. Somebody keeps
16 calling her all different hours, a nuisance call.
17 And that was about two or three weeks and she had
18 mentioned that she had been getting them for
19 awhile and I had said, well, why don't you give
20 me the number and I will call and find out
21 instead of her dealing with it and she said, no,
22 don't worry about it. But that's, I think, what
23 you're talking about.

24 Q. Right. And whatever the number was that came up
25 on the phone, she recognized it?

1 A. Yeah, she knew what it was, but she wouldn't let
2 me know.

3 ATTORNEY STRANG: Thank you.

4 THE COURT: Any other questions, Mr. Kratz?

5 ATTORNEY KRATZ: Just one area of inquiry
6 of Mr. Pearce.

7 **REDIRECT EXAMINATION**

8 BY ATTORNEY KRATZ:

9 Q. Mr. Pearce, would you have considered yourself as
10 long -- or together with a mentor, being a friend
11 of Teresa's?

12 A. A good friend and a good colleague, yes.

13 Q. In that regard, had you ever admonished or warned
14 Teresa about her behavior, if she was alone with
15 somebody in a home?

16 ATTORNEY STRANG: Relevance.

17 THE COURT: Mr. Kratz.

18 ATTORNEY KRATZ: Judge, it actually will be
19 relevant to the false imprisonment charge. The
20 issue of being restrained or confined. If
21 admonished by an individual that that shouldn't
22 occur, it goes to that particular element of that
23 offense.

24 THE COURT: Mr. Strang.

25 ATTORNEY STRANG: I don't know that we

1 ought to be arguing the point here. I'm not at all
2 convinced of the relevance.

3 THE COURT: I don't know about the
4 relevance, but I think its beyond the scope of
5 redirect. I'm going to sustain the objection.

6 ATTORNEY STRANG: We can't hear the Court.

7 THE COURT: It's beyond the scope of
8 redirect. I'm sustaining the objection.

9 ATTORNEY KRATZ: That's all I have of
10 Mr. Pearce then, Judge. Thank you.

11 THE COURT: You're excused.

12 ATTORNEY KRATZ: Could we approach just
13 briefly, Judge.

14 THE COURT: Sure.

15 (Side bar taken.)

16 THE COURT: For the benefit of the jurors,
17 I informed counsel that I really didn't want to go
18 beyond 4:30 today. I'm aware of the fact that you
19 have not only been sitting in the jury box most of
20 the day, but also the fact that there's travel to
21 and from Manitowoc each day. So unless it is really
22 important, I'm going to do my best to get you out of
23 here at 4:30 all the time. But I have been told
24 that there is a witness who isn't going to take very
25 long. So, Mr. Kratz, you may call your witness.

1 Q. On Friday, the 4th of November, did you make any
2 stops, or what was your -- or what did your
3 search efforts entail?

4 A. I met up with my sister and our search effort was
5 to look for her vehicle. So we got some
6 information from the Halbachs about what her
7 schedule was, where she had -- the area that she
8 was going to and we just tried to track down the
9 Toyota.

10 Q. All right. In that effort, Mr. Beach, did you
11 find your way to the Avery Salvage Yard property?

12 A. Yes.

13 Q. And could you tell the jury, please, what
14 occurred once you got to that property.

15 A. We came to the property. I was the passenger in
16 the vehicle. I stepped out, I went into the
17 garage. There was a lone desk. There was a
18 person sitting at the desk talking on the phone.

19 Another person came to the desk to greet
20 me and then at that time point I asked the person
21 if -- if they ever had any photographers come to
22 the salvage yard to take pictures of vehicles.
23 And he said he didn't know. And then I came back
24 and I mentioned that my cousin was missing. She
25 was a photographer. And that was the reason for

1 my visit.

2 Q. All right. Let me ask you, Mr. Beach, do you
3 know the defendant, Steven Avery, the gentleman
4 seated in the courtroom today?

5 A. At the time I did not; today I do.

6 Q. When you got to the salvage yard on the 5th of --
7 excuse me -- on the 4th of November, that Friday;
8 was Steven Avery one of the people that you
9 talked to at the office or in what you call the
10 garage?

11 A. Yes, he was the second person.

12 Q. Did you specifically ask Mr. Avery whether or not
13 your cousin, Teresa, had been to the salvage
14 yard?

15 A. Yes.

16 Q. What did Mr. Avery tell you?

17 A. He said that she was there; roughly about 2:00 in
18 the afternoon.

19 Q. All right. Just, back up just a second.
20 Mr. Avery himself told you that Teresa was there
21 that day or the day that she had come to take
22 pictures?

23 A. Yes.

24 Q. At 2:00 in the afternoon, right?

25 A. Yes.

1 Q. This would have been three days after her
2 appearance there; is that right?

3 A. Yes, this was a Friday.

4 Q. Okay. Mr. Avery give you any more details about
5 what Teresa had done while at the property?

6 A. He told me that she was there, there was a
7 vehicle behind the office garage and she was
8 taken to the vehicle to be photographed. That
9 was about -- That was her purpose for being
10 there.

11 Q. Let me ask you, Mr. Beach, upon your stopping at
12 this *Auto Trader* or -- excuse me -- at the Avery
13 salvage lot, did you provide any information or
14 any literature to the -- either Mr. Avery himself
15 or to the Avery salvage business?

16 A. No, I did not.

17 Q. How long was it that you discussed your cousin
18 with Mr. Avery?

19 A. Five minutes.

20 Q. Finally, Mr. Beach, did Mr. Avery know who you
21 were talking about; in other words, did he
22 indicate whether or not this woman had been there
23 before?

24 A. Yes, I described her build, her -- what she
25 looked like, what she drove. And he confirmed

1 all that. And he confirmed that she was there to
2 take photographs.

3 Q. Had she been there before?

4 A. Had she been there before?

5 Q. Did he tell you?

6 A. Yes.

7 Q. What did he say, if you can remember?

8 A. In my line of questioning about my cousin, she
9 was missing, he said that, yes, Teresa Halbach
10 came there on a regular basis.

11 Q. So that the jury is clear, Mr. Beach, after that
12 five minute -- that brief contact with Mr. Avery;
13 did you return to the Avery salvage property or
14 did you have any other conversation with
15 Mr. Avery?

16 A. No.

17 ATTORNEY KRATZ: That's all I have of this
18 witness, then, Judge.

19 THE COURT: Mr. Buting.

20 ATTORNEY BUTING: Thank you, Judge.

21 **CROSS-EXAMINATION**

22 BY ATTORNEY BUTING:

23 Q. Now, Mr. Beach, do you know what time it was that
24 you came to see Mr. Avery at the Avery Salvage
25 Yard?

1 A. About 4:00.

2 Q. On Friday afternoon?

3 A. Yes.

4 Q. And by that time, of course, there had been
5 reports about your sister in the media, right --
6 I'm sorry, your cousin, with the media about her
7 being missing and all of that?

8 A. I do not know; I did not hear that.

9 Q. So you didn't see any of the news report about
10 your cousin?

11 A. Correct.

12 Q. Okay. So how was it that you ended up at the
13 Avery salvage lot?

14 A. Friday morning, I received a phone call from my
15 parents. They told me about my cousin, Teresa,
16 was missing. I -- Later that afternoon, I came
17 up, I met up with my sister. We then got
18 information from the Halbachs. After that we
19 just drove around and we started from Mishicot
20 and we worked our way north.

21 Q. Okay. My question, I guess is, did somebody give
22 you information about what her appointments were
23 that day?

24 A. The Halbachs told me the general area she had
25 work in, but they did not give me any idea of

1 where her stops were.

2 Q. So no one told you that she had an appointment on
3 Monday, the 31st, at the Avery salvage lot --
4 yard?

5 A. Correct.

6 Q. You just stumbled on that?

7 A. Yeah, by incident. It was incidental.

8 Q. Okay. And when you got there, Steven Avery, the
9 person sitting to my left, who you now know, came
10 up and seemed concerned about what you were
11 asking about, right?

12 A. Yes.

13 Q. Seemed calm?

14 A. Correct.

15 Q. Did not appear to be holding anything back?

16 A. No.

17 Q. Correct?

18 A. Correct.

19 Q. In fact, I think you described him as being very
20 forthright, didn't you?

21 A. Correct.

22 Q. Expressing genuine concern about, you know, what
23 happened to your cousin?

24 ATTORNEY KRATZ: Objection, Judge, calls
25 for speculation, how genuine it may be.

1 THE COURT: Well, he can testify as to his
2 impression.

3 THE WITNESS: He said that he was
4 concerned.

5 Q. (By Attorney Buting)~ Okay. And you accepted
6 that?

7 A. Yes.

8 Q. And he told you -- You described his vehicle --
9 I'm sorry, you described her vehicle, the RAV4?

10 A. Yes.

11 Q. And he said, yes, I do recall, she was driving
12 that. And she came -- he actually said she came
13 some time mid-afternoon, didn't he?

14 A. Yes, he said that she was at his garage, salvage
15 yard, around 2:00.

16 Q. But he actually -- he qualified that by saying
17 approximately mid-afternoon?

18 A. Correct.

19 Q. Okay. Wasn't exact on the time?

20 A. Correct.

21 Q. And he said that she did take photo of the
22 vehicle, right?

23 A. Correct.

24 Q. And that he did not know her next stop, right?

25 A. Yes.

1 Q. And he told you that when the RAV4 pulled out of
2 the driveway, that it went to the left from the
3 Avery property?

4 A. Correct.

5 ATTORNEY BUTING: All right. I have no
6 further questions.

7 THE WITNESS: Thank you.

8 THE COURT: Anything else? Very well, you
9 are excused.

10 Members of the jury, that's going to
11 conclude the court proceedings for today. I will
12 remind you again not to discuss this case with
13 anyone, before we resume tomorrow. And we'll see
14 you tomorrow morning.

15 (Jury not present.)

16 THE COURT: Counsel, I would just ask that
17 tomorrow morning the attorneys meet in chambers at
18 8:20 before the day begins, just to let me know
19 what's coming.

20 ATTORNEY BUTING: What time did you say the
21 jury is coming, 8:45?

22 THE COURT: Okay. Meet at 8:30. We'll
23 find out from experience what time they normally get
24 here. I believe you are right, meet at 8:30.

25 ATTORNEY FALLON: Excuse me, Judge, did you

1 STATE OF WISCONSIN : CIRCUIT COURT : MANITOWOC COUNTY
2 BRANCH 1

3 STATE OF WISCONSIN,
4 PLAINTIFF, JURY TRIAL
5 vs. TRIAL - DAY 2
6 STEVEN A. AVERY, Case No. 05 CF 381
7 DEFENDANT.

8 **DATE:** FEBRUARY 13, 2007

9 **BEFORE:** Hon. Patrick L. Willis
10 Circuit Court Judge

11 **APPEARANCES:** KENNETH R. KRATZ
12 Special Prosecutor
On behalf of the State of Wisconsin.

13 THOMAS J. FALLON
14 Special Prosecutor
On behalf of the State of Wisconsin.

15 DEAN A. STRANG
16 Attorney at Law
On behalf of the Defendant.

17 JEROME F. BUTING
18 Attorney at Law
On behalf of the Defendant.

19 STEVEN A. AVERY
20 Defendant
Appeared in person.

21 *****

1 THE COURT: At this time the Court calls
2 State of Wisconsin vs. Steven Avery, Case No. 05 CF
3 381. Will the parties state their appearances for
4 the record, please.

5 ATTORNEY KRATZ: State appears by Calumet
6 County District Attorney Ken Kratz and Assistant
7 Attorney General Tom Fallon, appearing as special
8 prosecutors.

9 ATTORNEY STRANG: Steven Avery is here in
10 person. Jerome Buting and Dean Strang on his
11 behalf.

12 THE COURT: Very well, we are outside the
13 presence of the jury at this time. It is my
14 understanding the State has a matter it wishes to
15 bring up before we bring the jurors in.

16 ATTORNEY KRATZ: There are several matters,
17 Judge. One of them is addressing an area of
18 stipulations, but the other issue is making a record
19 and expressing our concern regarding Mr. Strang's
20 opening statement.

21 On three different occasions in
22 Mr. Strang's opening statement we believe that
23 Mr. Strang either announced the introduction of
24 what would otherwise be inadmissible testimony or
25 either overtly, or at least mistakenly, violated

1 previous rulings of this Court.

2 First, Judge, was on the area of third
3 party liability. This Court had previously
4 excluded any mention of a possible third person,
5 pursuant to the **Denny** analysis that the Court
6 announced in its ruling, other than that of
7 Brendan Dassey.

8 During Mr. Strang's opening statement,
9 Mr. Strang asked the jury to consider the fact
10 that somebody saw Ms Halbach after she left the
11 Avery property on the 31st of October.
12 Mr. Strang had even discussed that she may have
13 been taking some other photos and may have made
14 another stop, but invited the jury to believe
15 that somebody had seen the victim and, at least
16 by inference, that somebody else was involved in
17 taking the life of Teresa Halbach; again,
18 contrary to the Court's ruling as to third party
19 liability.

20 I do not intend to raise objection and
21 ask for a curative instruction with the jury, but
22 should there be testimony, certainly elicited to
23 that fact, the State would be issuing objection.
24 And if Mr. Strang would like to respond, that's
25 fine, but I would ask the Court reiterate its

1 ruling prohibiting any evidence of third party
2 liability other than that of Mr. Dassey.

3 THE COURT: All right. Before I hear from
4 Mr. Strang, do I understand there were a couple
5 other items?

6 ATTORNEY KRATZ: There were, Judge. The
7 State also -- excuse me -- The Court, also, in
8 pretrial rulings, dealt with the issue of bias of
9 witnesses, especially as it related to Manitowoc
10 County Sheriff's deputies. That bias that the
11 defense had, in a pre-trial posture, attempted to
12 elicit, was something that they referred to as
13 institutional bias; that is, a bias that could be
14 attributed to the entire department or every member
15 of the Manitowoc County Sheriff's Department,
16 irrespective of their involvement in Mr. Avery's
17 prior investigation or the civil lawsuit that was
18 filed.

19 This Court specifically rejected that
20 theory of admissibility, rejected Mr. Strang's
21 offer at that time of something that he called
22 institutional bias in a pre-trial manner. I was
23 astounded yesterday to hear Mr. Strang stand
24 before this jury and not only talk about the term
25 institutional bias, talking about the Manitowoc

1 County officers in general rushing to judgment,
2 inviting this jury to make up, if you will, for
3 what the last jury did in finding Mr. Avery
4 guilty before.

5 But when invited or when given the
6 opportunity to show, well, who are we talking
7 about with institutional bias, who rushed to
8 judgment, Mr. Strang played a tape of somebody
9 named Detective Jacobs and somebody named
10 Detective Remiker. Nothing about Colborn or
11 Lenk, each of which this Court had authorized
12 that by way of bias evidence and, in fact,
13 specifically limited Mr. Strang to that of
14 Mr. Lenk and Mr. Colborn.

15 And so, despite the Court's pre-trial
16 admonitions and rulings, apparently the defense
17 has, at least to this moment, ignored those
18 prohibitions and at the very first opportunity;
19 that is, during their opening statement,
20 exploited the idea of institutional bias with the
21 jury.

22 Lastly, Judge, the defense, on a number
23 of occasions, attributed statements to Mr. Avery.
24 On one specific occasion, Mr. Strang indicated
25 that he, meaning Mr. Avery, said that he saw the

1 victim drive down the dirt road and turn left on
2 to 147, apparently towards Interstate 43.

3 Those statements being attributed to the
4 defendant are, in fact, hearsay. If Mr. Strang
5 can tell me today that Mr. Avery is going to
6 testify, then I will withdraw my objection,
7 thankfully, or -- or very appropriately.

8 However, to inject or to assert what
9 Mr. Strang knows or should knows (sic) would
10 otherwise be hearsay and inadmissible testimony
11 at an opening statement is, in fact, improper.
12 I, again, simply alert the Court that if there is
13 going to be, through this trial, any attempts to
14 get Mr. Avery's statements in through somebody
15 other than Mr. Avery, or absent some other
16 hearsay exception, then the State will be
17 interposing those objections when necessary.
18 That's all I have regarding the opening
19 statements, Judge. Thank you.

20 THE COURT: Mr. Strang.

21 ATTORNEY STRANG: I will take them in the
22 order that Mr. Kratz has raised his concerns.
23 First, the matter of third party liability.

24 (A) **Denny** concerns only the situation
25 which a defendant wishes to offer the specific

1 identified person as the alternate culprit and
2 try to prove that person's liability. My opening
3 statement was very, very different than that.

4 What I did was perfectly legitimate,
5 which was to point out that if he didn't kill
6 her, but she's dead, then someone else did and we
7 don't know who did that. That's an entirely
8 legitimate prediction of where the evidence will
9 go and an entirely legitimate theory of defense,
10 if you will, to say, I didn't kill her; if they
11 prove someone did, then it's someone else and we
12 don't know who it is.

13 So quite apart from violating the **Denny**
14 ruling and quite contrary to violating the **Denny**
15 ruling, I'm entirely outside of **Denny** here and
16 this was a wholly proper explanation of what we
17 expect the evidence to show.

18 (B) Yesterday morning the State was
19 backpedaling away from Brendan Dassey and wants
20 the opportunity itself to suggest that just
21 another person, some other person, another out
22 there, assisted in the killing, or participated
23 directly in the killing of Ms Halbach and
24 Mr. Avery aided and abetted.

25 It's beyond irony to hear now, this

1 morning, that while the State has the 5 billion
2 people on this planet to whom it might point as
3 possible culprits, the defendant can point only
4 to Mr. Dassey. I'm squarely within the jury
5 instruction that the Court gave, at the State's
6 persuasion and over our objection, yesterday
7 morning.

8 And (C) nothing I said, I think, would
9 be inconsistent with Ms Halbach having run into
10 Brendan Dassey after leaving Mr. Avery's
11 presence, yesterday. Now, that's not what we're
12 going to be arguing in closing argument, but as a
13 matter of opening statement, I'm squarely within
14 proper balance here both of a good faith
15 prediction of the evidence and outlining
16 Mr. Avery's defense that he didn't do it and
17 doesn't know who did.

18 The second question was institutional
19 bias. Again, several points (A) I never used the
20 term institutional bias in my opening statement.
21 The transcript will show that I used the term
22 investigative bias; once, twice, or maybe more
23 than twice.

24 (B) As I argued earlier, the question is
25 bias. And bias is an issue that's relevant to

1 each and every witness called by the State or,
2 for that matter, by the defense, if the State
3 wants to point out that witness' bias.

4 Pattern Instruction 300, Wisconsin
5 Criminal Jury Instructions, concerns the
6 assessment of credibility of witnesses. I think
7 refers specifically to considering bias or
8 possible reasons or motives to falsify for every
9 witness. So the question here is bias of each
10 and every witness, not institutional bias of a
11 department.

12 And there were a number of Manitowoc
13 County Sheriff's Department employees involved in
14 this investigation. The bias of any one of them
15 who appears as a witness is relevant. It may be
16 proven by extrinsic evidence because bias is not
17 a collateral issue. That was settled in
18 Wisconsin not later than 1978 with the Wisconsin
19 Supreme Court decision of ***State v. Williams***.

20 (B) Both Dennis Jacobs and David Remiker
21 are on the witness list. Indeed, Dennis Jacobs
22 is on the defense witness list. I reasonably
23 anticipate Detective Remiker and/or Detective
24 Jacobs will appear as witnesses in this trial.

25 It would be difficult to imagine how the

1 State could prove its case without calling
2 Detective Remiker. So there's a tone of
3 tinniness here when Mr. Kratz says, someone named
4 Detective Remiker. I can't imagine the State
5 would not be calling him, given his role in the
6 investigation.

7 And the conversations that I played,
8 really go to Remiker's bias alone. He knows who
9 the "he" is that Detective Jacobs is talking
10 about. So, although I suspect both of them
11 probably will be witnesses and their bias clearly
12 an issue, even if Remiker only testified here,
13 the excerpts I played would be relevant extrinsic
14 evidence of bias, indeed, through at least one
15 conversation which Detective Remiker himself was
16 a party.

17 The third and final issue was statements
18 of the defendant. It is true that, at least over
19 objection, one cannot offer the out of court
20 statements of his own client for the truth of the
21 matter asserted, because 908.01 (4) ordinarily is
22 limited to statements of the party opponent.

23 It is also true here that I reasonably
24 anticipated what the evidence in this trial will
25 be and that would include some of the statements

1 of Mr. Avery. Indeed, my prediction proved
2 pretty good, because by the third witness, David
3 Beach, we had unobjected to testimony
4 establishing the very statements of Mr. Avery
5 that I included by reference in my opening
6 statement.

7 Mr. Beach, according to my notes,
8 testified without objection from the State, that
9 when he talked to Mr. Avery, Mr. Avery said he
10 didn't know where Teresa Halbach was going next
11 and that when she pulled out she turned left from
12 the Avery property.

13 That's almost verbatim what he said
14 about turning left at the end of Avery Road as
15 she left. Mr. Beach's testimony also included
16 recitations of Mr. Avery's statements that she
17 came first at about 2:00 in the afternoon and
18 then later, approximately then or mid-afternoon,
19 elicited on cross-examination by Mr. Buting.
20 Again, all without objection of the State.

21 So, not only was it a fair prediction of
22 the evidence, the prediction came true. The
23 statements of the defendant that I suggested the
24 jury would hear in opening statement, it has
25 heard admissibly and without objection.

1 THE COURT: Anything else, Mr. Kratz?

2 ATTORNEY KRATZ: No, thank you, Judge.

3 THE COURT: All right. First of all, with
4 respect to the third party liability issue, there's
5 a difference between a party introducing extrinsic
6 evidence that a specific third party is guilty of
7 the crime versus just saying, my defendant didn't
8 commit the crime so somebody else might have. I do
9 not believe that the statements made by the defense
10 in its opening statement fall into the prohibited
11 category there.

12 I don't believe there was any reference
13 to a specific third party who was the responsible
14 third party. Obviously, if the defendant is
15 pleading not guilty and saying I didn't do it,
16 somebody else has to have done it, and I don't
17 think that the defense went further than that.

18 With respect to the bias suggestion, the
19 Court's previous rulings in this case have dealt
20 with the introduction of extrinsic evidence on
21 the issue of bias. There are specific standards
22 that apply to the introduction of such evidence.

23 It was my understanding from what I
24 heard in the defense opening, that essentially
25 they are relying on not extrinsic evidence, but

1 evidence that is actually part of this case, to
2 make their argument. And I cannot say at this
3 stage of the proceedings that that's
4 objectionable.

5 With respect to the statements of the
6 defendant, as Mr. Strang indicated, those
7 statements can become admitted at trial through
8 means other than the defendant testifying
9 himself; and, in fact, to this point in the trial
10 it's pointed out by defense counsel that's
11 already happened. And so I can't say at this
12 stage that there was anything prohibited about
13 the references in the defense opening.

14 Just in general, I would note the
15 following: The Court instructs the members of
16 the jury that the opening statements themselves
17 are not evidence. They will get instructed that
18 again at the close of the case.

19 If either party makes a representation
20 in their opening that some evidence will be
21 introduced and it turns out that the evidence
22 does not get introduced, the party who made the
23 statement in the opening statement runs the risk
24 that the other side will bring it up in closing;
25 that is, remind the jury that the other side told

1 you they would hear this evidence and this type
2 of evidence was never introduced.

3 So I think to the extent that anything
4 mentioned by the defense in its opening was not
5 from the past, the State will have adequate
6 opportunity to address that in closing argument.

7 Is there anything else to take up before
8 we bring the jury back?

9 ATTORNEY KRATZ: There is, Judge, although
10 there were no stipulations to note yesterday in our
11 first testimony, there will be witnesses that are
12 scheduled to begin today that may be the subject of
13 agreements between the parties. I thought, unless
14 the Court wants to get going, I thought this might
15 be an opportunity to provide the Court with those
16 agreements.

17 We alerted the Court that we had made
18 some agreements regarding stipulations. And I
19 wish to take a few minutes to put those on the
20 record, if I can, at this time. If Mr. --
21 Mr. Strang has recommended that perhaps at this
22 time, since our first witness may not be the
23 subject of any of these stipulations, but later
24 witnesses today might, perhaps we can give you
25 our written list of stipulations.

1 Some of them just won't be objections by
2 the defense and may not need to be in writing.
3 And if that satisfies the Court, then perhaps
4 after our next break or sometime before the close
5 of the day we can put the rest of those on the
6 record.

7 THE COURT: I think that would be helpful.

8 ATTORNEY STRANG: If we could take just a
9 moment to photocopy, this is an email that I sent to
10 Mr. Kratz going paragraph by paragraph through
11 proposed stipulations. If we could have just a
12 moment to let Mr. Kratz photocopy that and we'll
13 keep a copy here at our table so that, you know, I
14 don't, you know, inadvertently forget --

15 THE COURT: All right.

16 ATTORNEY STRANG: -- we agreed not to
17 object.

18 THE COURT: I believe the copying is being
19 done as we speak. We'll bring the jury in now and
20 then take our first witness today.

21 (Jury present.)

22 THE COURT: You may be seated. Good
23 morning, members of the jury. Before we get started
24 today, I want to apologize for the fact that I
25 understand the bus was late yesterday. Doesn't do

1 much good to release you at 4:30 if you have got to
2 wait for the bus until 5:00. We'll be addressing
3 that situation to make sure that the bus is here on
4 a timely basis.

5 THE BAILIFF: The bus was here on time,
6 your Honor; it was at 4:30.

7 THE COURT: Oh, it was. Because when I
8 called the courthouse back, they told me it was not.
9 At any rate, that's good news. I was also told
10 there was some concern about the temperature on the
11 bus on the way over; is that being addressed?

12 THE BAILIFF: It was fine last night and it
13 was fine this morning.

14 THE COURT: Okay. Finally, I note that one
15 of the jurors in the back row does not appear to be
16 as tall as the rest of them and I don't think that's
17 because of your stature. We're having the
18 courthouse folks address that to put you up on a
19 riser so that all the jurors in the back row will be
20 seated on the same level.

21 With that, I believe we're ready to
22 begin. Mr. Kratz, you may call your first
23 witness.

24 ATTORNEY KRATZ: Thank you. We'll call
25 Angela Schuster to the stand.

1 THE CLERK: Please raise your right hand.

2 **ANGELA SCHUSTER**, called as a witness

3 herein, having been first duly sworn, was

4 examined and testified as follows:

5 THE CLERK: Please be seated. Please state
6 your name and spell your last name for the record.

7 THE WITNESS: Angela Schuster,
8 S-c-h-u-s-t-e-r.

9 **DIRECT EXAMINATION**

10 BY ATTORNEY KRATZ:

11 Q. Ms Schuster, could you tell the jury how you are
12 employed, please.

13 A. I'm employed with *Auto Trader Magazine*.

14 Q. You will either have to speak up or perhaps,
15 Judge, the microphone ...

16 A. *Auto Trader Magazines*.

17 Q. What are your duties with *Auto Trader*?

18 A. Well, right now, I'm the district circulation
19 manager. At the time, I was the operations.

20 Q. When you talk about "at the time", are you
21 talking about during the fall of 2005?

22 A. Yes.

23 Q. Ms Schuster, if you could tell the jury, please,
24 what were your duties during the fall of 2005?

25 A. Took care of the daily office functions,

1 complaints, reports, all office staff, all
2 photographers.

3 Q. As a -- You were in a supervisory capacity?

4 A. Yes.

5 Q. As a supervisor, did you supervise a young woman
6 by the name of Teresa Halbach?

7 A. Yes.

8 Q. Can you tell the jury, please, how did you know
9 Ms Halbach?

10 A. Well, I brought Ms Halbach on as a photographer
11 through a reference from one of our circulation
12 outlets. She applied for the job that we had
13 open into the Green Bay area.

14 Q. How long had Ms Halbach been working for *Auto*
15 *Trader*?

16 A. About a year.

17 Q. Could you tell the jury, please, how
18 photographers for *Auto Trader* got compensated for
19 their work?

20 A. They were paid per shot. Most of their
21 appointments were prescheduled. We have a
22 telemarketing service that telemarkets to get
23 prospects or what we call leads for our
24 photographers and otherwise people that schedule
25 appointments over the internet or phone in the

1 office.

2 Q. You said that Ms Halbach had been working for you
3 for about a year, did she have a particular
4 district that she was responsible for?

5 A. When she was brought on, she was responsible for
6 Green Bay. And then mid-year, 2005, she had
7 taken over the Manitowoc/Sheboygan area, one day
8 a week, on Mondays, for us.

9 Q. Now, Ms Schuster, as manager of the *Auto Trader*
10 office, at least for this region, are you
11 familiar with the records, the business records
12 within that office?

13 A. Yes.

14 Q. As a custodian of the business records, were you
15 also asked to review previous photographs, or
16 previous images that Teresa Halbach had taken?

17 A. Yes.

18 Q. And were you asked, Ms Schuster, specifically, to
19 review previous visits or images that Ms Halbach
20 had taken at a property known as the Avery
21 Salvage Yard?

22 A. Yes.

23 Q. And have you done that?

24 A. Mm-hmm.

25 Q. I'm going to ask you to look at the six different

1 images that are in front of you. And I believe
2 -- Ms Schuster, just so that we can get through
3 these images, I believe they are -- they are
4 without -- they are without objection.

5 I'm first going to have you look at
6 Exhibit No. 11. This is an image taken on
7 June 20th at the Avery Salvage property; do you
8 see Exhibit No. 11 there?

9 A. Mm-hmm.

10 Q. And, in fact, all of those six exhibits, Exhibits
11 11 through 16; is it your understanding that all
12 of them were taken at the Avery salvage property?

13 A. Yes.

14 Q. I'm first going to show you Exhibit No. 11, which
15 I believe was taken on June 20th at the Avery
16 salvage property. Please look at the large
17 screen that is noted to your right; is that a
18 accurate depiction of Exhibit No. 11, as well?

19 A. Yes.

20 Q. Second image, image No. 12 --

21 ATTORNEY BUTING: Counsel, do you want to
22 indicate the year, you said June 20th.

23 ATTORNEY KRATZ: I'm sorry, June 20th of
24 2005.

25 Q. (By Attorney Kratz)~ That's the year that she was

1 taking these photos; is that right?

2 A. Yes.

3 Q. Second image, image No. 12, taken on August 22nd,
4 once again, I will have you look at the large
5 screen to your right; is that a true and accurate
6 depiction of what is noted as Exhibit No. 12?

7 A. Yes.

8 Q. And, again, August 22nd of this year, that's
9 2005; is that correct?

10 A. Right.

11 Q. Third image, that will be image No. 13, taken on
12 August 29th, 2005; is that correct?

13 A. Yes.

14 Q. And, again, looking to your right, showing on the
15 screen, is that a photo taken by Teresa Halbach,
16 again, at the Avery salvage property on the 29th
17 of August?

18 A. Yes.

19 Q. Fourth image, that is image No. 14, taken on
20 September 19th, 2005 at the Avery salvage
21 property. Again, Exhibit No. 14 on the large
22 screen; is that a true and accurate depiction of
23 the image that's in front of you?

24 A. Yes.

25 Q. Image No. 15, again, a photo taken also on

1 September 19th, the Avery salvage property; is
2 that an image that is that on the large screen, a
3 true and accurate depiction of image No. 15
4 that's in front of you?

5 A. Yes.

6 Q. And, finally, image No. 16, taken on
7 October 10th, 2005, again, at the Avery --
8 actually, Steven Avery's residence, right outside
9 of his garage. Exhibit No. 16 appear to be a
10 true and accurate depiction of what's being shown
11 on the screen to your right?

12 A. Yes.

13 ATTORNEY KRATZ: I would, at this time,
14 Judge, move the admission of Exhibits 11 through 16.

15 ATTORNEY BUTING: No objection.

16 THE COURT: Those exhibits are admitted.

17 Q. (By Attorney Kratz)~ Ms Schuster, you had
18 mentioned that Ms Halbach had a territorial
19 responsibility for up this way. And I'm not sure
20 if you mentioned the Manitowoc and Sheboygan
21 area; did you testify about that before?

22 A. Yes.

23 Q. All right. Just so we're clear, during late
24 October of 2005, did Ms Halbach remain
25 responsible for that particular district?

1 A. Yes.

2 Q. Were you aware that Ms Halbach had outside
3 photography employment other than for *Auto*
4 *Trader*?

5 A. Mm-hmm, yes.

6 Q. Is that typical or is that usual for
7 photographers that you employ?

8 A. To have a second job, yes.

9 Q. They are not discouraged or anything from working
10 at their own studio, are they?

11 A. No.

12 Q. Ms Schuster, was Ms Halbach provided with any
13 equipment from *Auto Trader* itself to perform
14 these shots?

15 A. Yes, she was provided with everything that she
16 needed to do her business right from her home.

17 Q. Did that include being provided with a camera?

18 A. Yes.

19 Q. Do you know what kind of camera Ms Halbach was
20 provided by *Auto Trader*?

21 A. I don't recall specifically offhand, but we
22 usually use Kodak or Canon.

23 Q. All right. Let me ask you, were you asked, Ms
24 Schuster, to determine in this case what camera
25 Ms Halbach was given?

1 A. Yes.

2 Q. And as you sit here, can you remember it?

3 A. No.

4 Q. Would there be anything that could refresh your
5 recollection, perhaps being shown a photograph of
6 the box that she was given, or something like
7 that, or what might refresh your memory about
8 that?

9 A. A box. When we determined, when Mr. Fassbender
10 came to the office and was going through items,
11 the camera that we had purchased versus the
12 camera used to take these pictures, were used on
13 a camera that we had purchased.

14 Q. All right. Ms Schuster, I'm showing you what has
15 been marked as Exhibit No. 9 can you tell us what
16 that is, please?

17 A. It's a Canon PowerShot A310 digital camera.

18 Q. And does that now refresh your recollection as to
19 the camera provided to her by *Auto Trader*
20 *Magazine* for her use?

21 A. Yes.

22 Q. In fact, was she provided with --

23 A. Yes.

24 Q. -- that box, that camera?

25 A. Yes.

1 Q. All right. So the jury can see a picture of that
2 box, I will put that up on the screen; does that
3 photograph to your right appear to be a
4 photograph of what's included in Exhibit No. 9?

5 A. Yes.

6 Q. Now, Ms Schuster, can you tell the jury, after a
7 digital image is taken by one of your
8 photographers, one of your employees, how does
9 that physically get into the magazine? Can you
10 just tell us about that process.

11 A. Sure. The photographers hand in their discs
12 along with their paperwork. The discs are then
13 downloaded at the office onto our software system
14 and then sent over to our production department
15 that places the ads into the book.

16 Q. When a photographer like Teresa was scheduled to
17 take a shot or a photo for *Auto Trader*, how would
18 that typically be set up?

19 A. How would the picture be set up?

20 Q. Yeah, how would the appointment be set up?

21 A. By phone, by email, mail.

22 Q. All right. Was there an employee, somebody in
23 your office, other than you, who would typically
24 make those appointments or set up those photo
25 shoots?

1 A. Yes, the staff in the office handle most of the
2 phone calls that come into the office.

3 Q. Would it be fair that the support staff, the
4 receptionist or secretaries, would have more
5 contact with the photographers than you would?

6 A. Yes.

7 Q. Do you know a woman by the name of Dawn Pliszka?

8 A. Yes.

9 Q. Who is Dawn Pliszka?

10 A. Dawn Pliszka was our receptionist in 2005.

11 Q. As custodian of the records for *Auto Trader*, were
12 you able to determine Ms Halbach's first trip to
13 the Avery Auto Salvage property?

14 A. No, not by photo. We had the actual appointment
15 information, but the photo had been purged from
16 our system.

17 (Court reporter couldn't hear.)

18 A. The photo was purged from our system.

19 Q. I understand that, but what I'm asking is, do you
20 also keep records, or calendars, or things of
21 that nature to recreate appointments or things
22 like that with your photographers?

23 A. Our customer's information is kept in our data
24 base, by phone number.

25 Q. Were you aware that Steven Avery, or another, or

1 under another name, was one of *Auto Trader's*
2 customers?

3 A. Not before this, no.

4 Q. That's what I'm asking you, after this, were you
5 asked to find that out?

6 A. Yes. Yes.

7 Q. And did you find that out?

8 A. Yes.

9 Q. And could you tell us about Steven Avery's
10 contacts with *Auto Trader*?

11 A. Well, he would phone in his requests for the
12 photographer to come out to his property to take
13 pictures. All of our customers are given the
14 option to prepay, or pay with the photographer
15 when he or she gets there. They would normally
16 pay when the photographer got to this property.

17 Q. By the way, how much does each photo shoot cost?

18 A. We have several different packages, so anywhere
19 about from twenty-four ninety-five to fifty-nine
20 ninety-five.

21 Q. You said Mr. Avery typically paid the
22 photographer, paid in cash when he was there?

23 A. Mm-hmm.

24 Q. You have to say yes or no?

25 A. Yes.

1 Q. All right. And, again, back to my earlier
2 question, Ms Schuster, were you able, then, to
3 determine the first time that Ms Halbach had gone
4 to the Avery property, through those records, or
5 is that something that you couldn't recreate?

6 A. Yes, we were.

7 Q. And what was that date?

8 A. In June.

9 Q. Was that the June 20th photo that we saw?

10 A. Yes.

11 Q. Do you know how many times Ms Halbach was asked
12 to go out to the -- Steven Avery's property?

13 A. With the June, there was five times she was out
14 there -- four times she was out to his property.

15 Q. That's not counting the 31st of October; is that
16 right?

17 A. Right.

18 Q. And, again, Exhibits 11 through 16 are the photos
19 or the product from those trips; is that correct?

20 A. Yes.

21 Q. Now, you said that your photographers generally
22 would either contact you by phone or perhaps by
23 fax or email. Do you know, specifically, how Ms
24 Halbach made her connections or contacts with
25 *Auto Trader*?

1 A. Through fax and phone.

2 Q. And so if a customer had made an appointment,
3 even a last minute appointment; how would that
4 typically be relayed to Ms Halbach?

5 A. If it was a last minute appointment, then the
6 staff would write up the customer's information
7 on a -- we have what was called a shoot or
8 reshoot form, gather as much of the information
9 from the customer and let the customer know that
10 the photographer may or may not be out that same
11 day, depending on his or her schedule.

12 Once they gather the information, then
13 they call the photographer and ask if they had
14 been to the area, or if they can possibly fit
15 that shoot into their day. And, then, depending
16 on if they get a hold of them or what they say,
17 either a photographer will call the customer
18 directly, or the office will call and let them
19 know if they can make the shoot.

20 Q. Ms Schuster, I have now placed in front of you
21 what's marked as Exhibit No. 17, you talked about
22 some shoot or reshoot form. What is Exhibit 17?

23 A. The photo shoot/reshoot form.

24 Q. Now, did you fill out Exhibit No. 17 or did
25 somebody else do that?

1 A. Somebody else did.

2 Q. And will we hear from that person later on this
3 morning; is that right?

4 A. Yes.

5 Q. Ms Schuster, was their typically a time frame or
6 a amount of time that you, as the manager, and
7 the photographers, specifically wanted by way of
8 lead time before they would go out to shoot any
9 of these photos?

10 A. Typically it's a 24 hour lead time, if the
11 customer wants an appointment. However, we do
12 have areas such as the Manitowoc/Sheboygan that
13 is typically not a busier area for us, so it is
14 open one day per week. So if we do get customers
15 that will call from our shorter service area, so
16 to speak, we will try to get the photographer
17 there that day, if they call on that day that
18 they are there. So ...

19 Q. Do you know, back in late October -- You are
20 talking about this being Teresa's district, back
21 in late October of '05; do you know the one day
22 of the week that *Auto Trader* would service that
23 county?

24 A. Mondays.

25 Q. So if somebody would call on Monday, let's say

1 Monday, October 31st, would it be possible that
2 if called during that same day that the photo
3 could be taken that same day?

4 A. Yes.

5 Q. Ms Schuster, when were you first informed or when
6 were you asked about the whereabouts of Ms
7 Halbach?

8 A. Thursday evening, her mother had called the
9 office.

10 Q. And any time after the 31st of October, had you
11 heard from Teresa Halbach?

12 A. No.

13 Q. Let's talk about the 31st, then, of October. And
14 I'm going to ask you, specifically, whether you
15 had any contact with Teresa Halbach, whether you
16 did, any time that day?

17 A. Yes.

18 Q. Can you tell us when, please?

19 A. Teresa called in shortly after 11:00.

20 Q. 11:00 a.m.?

21 A. 11:00 a.m.

22 Q. What was the purpose of that?

23 A. The purpose was, she was returning Dawn's call
24 from this morning; Dawn had left her a message to
25 see if she was able to take a shoot. And Dawn

1 had already left for lunch and I had answered the
2 phone. And Teresa had said -- asked if Dawn was
3 there. I said, no, she was at lunch. And she
4 said, can you just let her know that I will be
5 able to get that shoot; she can fax the
6 information over to me.

7 Q. Verifying that she would be able to take the
8 photo; is that right?

9 A. Yes.

10 Q. Was that the -- Again, based upon your records,
11 was that the photo shoot that you later
12 determined to be at the Steven Avery residence?

13 A. Yes.

14 Q. Or property. We'll hear from Dawn a little bit
15 later this morning, but other than that call,
16 sometime just after 11:00 a.m.; did you have any
17 other contact with Teresa?

18 A. No.

19 Q. Finally, Ms Schuster, after law enforcement
20 became involved in the search efforts, did you
21 provide those digital images that we have
22 referred to, as well as the information regarding
23 the activities on the 31st and the information
24 regarding the Canon PowerShot A310?

25 A. Yes.

1 ATTORNEY KRATZ: That's all I have of Ms
2 Schuster, Judge. Thank you.

3 THE COURT: Mr. Buting.

4 ATTORNEY BUTING: Thank you. See if I can
5 get this thing working; can you hear me?

6 THE WITNESS: Yes.

7 **CROSS-EXAMINATION**

8 BY ATTORNEY BUTING:

9 Q. Good morning, ma'am.

10 A. Good morning.

11 Q. We haven't actually met before, have we?

12 A. No, we have not.

13 Q. I want to step back a little bit and clarify just
14 how some of these procedures work, if we may.
15 *Auto Trader* headquarters is actually in Hales
16 Corners, in the Milwaukee area, right?

17 A. We're a satellite office, yes --

18 Q. Okay.

19 A. -- in Hales Corners.

20 Q. Okay. And out of that office, you run
21 photographers all over the state, right?

22 A. Correct. Yes.

23 Q. And the state is kind of divided up in regions.
24 And one of these regions is the northeastern area
25 of Manitowoc, Sheboygan, Brown County area,

1 right?

2 A. Yes.

3 Q. And most of the contact with the photographers in
4 those more distant regions, not right in the
5 Milwaukee area, are done by emails, fax and
6 phone?

7 A. Yes. And they also have overnight packages that
8 they send.

9 Q. Okay. So in Ms Halbach's case, for instance, did
10 she come down and interview for the job in Hales
11 Corners?

12 A. No, I actually went to Green Bay and interviewed
13 her.

14 Q. Okay. And that was about a year or so before
15 October, 2005?

16 A. Yes.

17 Q. And was that the only time you actually met her?

18 A. Yes.

19 Q. From that point on, for the next year, to your
20 knowledge did she ever come down to Hales
21 Corners?

22 A. No.

23 Q. So all of her -- Well, for instance, let me ask
24 you this, do you know whether she ever met Dawn
25 Pliszka, the receptionist?

1 A. Not that I'm aware.

2 Q. Okay. So, really, her communication was with
3 your office by phone, fax; did she use email with
4 you?

5 A. She did.

6 Q. Okay. And most of those communications were
7 fairly brief, I take it?

8 A. Yes.

9 Q. We got -- We got a call for you, or we got a job
10 for you, here's the information, name, address,
11 phone number; that's pretty much it?

12 A. I think -- I think the staff had more
13 conversation with her. How was your weekend,
14 that sort of thing, but for the most part,
15 probably brief.

16 Q. Small talk kind of things?

17 A. Mm-hmm, yes.

18 Q. And your communication with Teresa Halbach was
19 probably less even than the staff who were
20 answering the phone?

21 A. Yes.

22 Q. Okay. Now, what you would typically do, when
23 somebody would call in, or when the telemarketers
24 -- Telemarketers were based in Florida, I think;
25 is that right?

1 A. Yes, they were at the time.

2 Q. And what they would do is, they would comb
3 newspapers or other publications for people who
4 already put ads in and call them and say, hey,
5 you know, why don't you put an ad in our
6 publication as well?

7 A. Correct. Yes.

8 Q. Sort of cold calls --

9 A. Yes.

10 Q. -- right? And in fact, that's -- if you know,
11 isn't that how *Auto Trader* made the contact with
12 this George Zipperer later the same day, on
13 October 31st?

14 A. Yes.

15 Q. It was a telemarketing call, right?

16 A. Yes.

17 Q. Okay. Now, so what your office would do is, it
18 would either get the information from your
19 telemarketers saying here's an address, phone
20 number, we want you to go take a photograph of;
21 or that person -- customer would call in or use
22 the internet to call in themselves and say, we
23 want this appointment, right?

24 A. Yes.

25 Q. And then your office -- Someone in your office

1 would prepare some kind of a form to fax to the
2 photographers their appointments?

3 A. Yes.

4 Q. Who did that; was that you?

5 A. That was Dawn.

6 Q. So Dawn would do that. Did you bring any of
7 those records with you today; any of those kind
8 of appointment sheets?

9 A. No, I did not.

10 Q. I'm going to show you one so we know what we're
11 talking about.

12 ATTORNEY BUTING: Mark this.

13 (Exhibit 18 marked for identification.)

14 Q. Now, this one, if I understand it, is from a
15 couple months earlier. We'll talk about some
16 more recent ones in a minute. But if you could
17 just identify for us what this is?

18 A. That is the photographer's detailed appointment
19 report for that day.

20 Q. And it's been marked as Exhibit 18 now, right?

21 A. Yes.

22 Q. Your Honor, could I use the ELMO?

23 THE COURT: Sure.

24 Q. (By Attorney Buting)~ A little hard to see
25 because this is a white sheet, but showing you

1 what's up on the screen now; is -- that's what we
2 just referred to as Exhibit 18?

3 A. Yes.

4 Q. And at the top there is a fax line that says from
5 *Auto Trader*. It's got the fax number that you
6 would fax it to the photographer, in this case
7 Teresa, right?

8 A. Yes.

9 Q. And, then, it's also got a faxed back one from
10 Teresa, correct?

11 A. Right.

12 Q. Now, this one has a lot of handwriting on it. It
13 doesn't come to the photographer, in this case
14 Teresa, like that, right?

15 A. No, it does not.

16 Q. It would initially come with just the typed out
17 information of date, name, address and phone
18 number on the right column, right?

19 A. Correct. Yes.

20 Q. And, then, over -- You would get these from, not
21 just Teresa, but from all the photographers, and
22 you would go through them in terms of figuring
23 out what to pay them, right?

24 A. Yes.

25 Q. So these were regular records that you use in

1 your business to determine how to -- not only
2 keep track of appointments, but pay the
3 photographers?

4 A. Yes.

5 Q. And what Teresa would do, you became familiar
6 with her custom and practice, right?

7 A. Yes.

8 Q. Which was that she would take these forms and
9 then in handwriting she would put along the side,
10 done, done, done, no pay, done pay, those kinds
11 of things?

12 A. Yes.

13 Q. And then at the top, if we could see the very top
14 of it a little bit. In this instance, she
15 circled 8 and she put 6 completed and 2 no
16 payment, right?

17 A. Yes.

18 Q. And then she has, plus one hustle?

19 A. Yes.

20 Q. And then P form, what's that?

21 A. The P form is a form that photographers use when
22 they get a shot that might be a referral, or a
23 second shot at a customer's home. And so how
24 they are numbered, it starts with a P; that's why
25 we call it a P form.

1 Q. Okay. All right. And so from this, then, you
2 would figure that you would pay her 8 -- for 8
3 shots plus this hustle one?

4 A. Correct.

5 Q. And we'll talk about the hustle in just a minute.
6 Now, normally, Teresa's practice, as all of the
7 photographers' practice would be, that you would
8 not get this form back from them until after the
9 day's appointments had been completed; is that
10 right?

11 A. Correct.

12 Q. So that, for instance, let's take October 31st.
13 Or, actually, let me clarify something. The
14 deadline for getting your ads into the magazine,
15 is what?

16 A. Mondays and Tuesdays.

17 Q. Okay. So Teresa's day for that part of the
18 state, which was Monday, she would be expected to
19 get that information to *Auto Trader* by the very
20 next day in order to make it into the deadline?

21 A. Yes.

22 Q. The way she would do that, in fact, you provided
23 discs, little digital camera discs for each
24 photographer, right?

25 A. Yes.

1 Q. And she would -- she would go around, take all
2 the pictures for that day, collect the paperwork
3 from the customer, put it all in an overnight Fed
4 Ex, UPS, something like that, and overnight it to
5 *Auto Trader* in Milwaukee for the next day?

6 A. Yes.

7 Q. Okay. And along with the money?

8 A. Yes.

9 Q. Okay. So from the customer, Teresa would collect
10 -- She would take the photograph. She would also
11 fill out a form that included, what, a copy,
12 written part, should be the description of the
13 vehicle?

14 A. Yes.

15 Q. And the money and all of that would go to you,
16 overnight?

17 A. Yes.

18 Q. But even before that arrived at your office, she
19 would fax this kind of a sheet to you at the end
20 of the day?

21 A. Right. Yes.

22 Q. But now, there's something kind of unusual about
23 October 31st of 2005, and the way that works,
24 wasn't there?

25 A. Yes. We actually received a fax from Teresa

1 earlier in the day.

2 Q. Okay. And, in fact, you received it, if I
3 recall, it was shortly after midnight on the
4 30th; that is, very early, you know, 12:30 or
5 12:18 a.m., early morning hours of the 31st?

6 A. Right. Yes. Correct.

7 Q. And that was faxed from her?

8 A. Correct.

9 Q. And it involved the shoots for that upcoming day?

10 A. Yes.

11 Q. That hadn't even -- Appointments hadn't even been
12 made yet, or kept yet, right?

13 A. No, if it was faxed back to us, it would be
14 anything that she had completed.

15 Q. Okay. But the one that you received on the 31st,
16 correct me if I'm wrong, actually contained the
17 appointments for the day of the 31st; did it not?

18 A. No. No, we don't print their appointment reports
19 or their actual leads until 7:00 a.m. in the
20 morning. So on the 31st, on that Monday, her
21 leads would not have been printed until after
22 7:00 a.m.

23 Q. Okay.

24 A. So she couldn't have had them at 12:30.

25 Q. So the one that she sent back to you at 12:30

1 a.m. was --

2 A. It was from Friday, or Saturday or Thursday.

3 Q. Okay. But in it, it included some information
4 about appointments that had been actually
5 rescheduled for the coming week?

6 A. Yes, photographers do reschedule appointments as
7 well.

8 Q. Okay. Now, you mentioned that most of the leads
9 for photographers come from *Auto Trader* itself,
10 either the telemarketing or customers who called
11 in?

12 A. Yes.

13 Q. About 90 percent of the shoots that the
14 photographers do, come from -- from *Auto Trader*
15 to the photographer?

16 A. Yes.

17 Q. But there's something else where maybe 10 percent
18 on average of a photographer's shoots are called
19 hustle shots, right?

20 A. Yes.

21 Q. And those are where leads come, not from *Auto*
22 *Trader*, but from the photographer him or herself?

23 A. Yes.

24 Q. And there is an incentive for photographers to do
25 that because they get paid more on hustle shots,

1 don't they?

2 A. Yes.

3 Q. What was the pay for a *Auto Trader* lead,
4 typically?

5 A. Typically, eight seventy-five.

6 Q. \$8.75 for one photo.

7 A. One photo.

8 Q. Okay. And what about a hustle shot?

9 A. Eighteen seventy-five.

10 Q. Okay. And when the photographer would -- would
11 schedule a hustle shot, it would not be on your
12 list of appointments that were faxed to the
13 photographer the morning of each day, whatever
14 you said, 7:00 a.m., right?

15 A. Correct.

16 Q. In fact, your office would not even know about
17 any hustle shots, unless and until the
18 photographer sent that information back to you at
19 the end of the day; isn't that right?

20 A. Yes.

21 Q. And like, for instance, let's take this one
22 that's up there. She specifically says 8 of the
23 appointments that you gave her -- your office
24 gave her, were completed, right?

25 A. Yes.

1 Q. But there was an additional one that's not listed
2 anywhere on that sheet, right?

3 A. Right. It's probably handwritten on the bottom.

4 Q. Well, let's look and see. Okay. That would be
5 considered the hustle, the one that's
6 handwritten?

7 A. Yes. Actually, we would not have considered that
8 a hustle, a hustle shot she confirmed with the
9 office. That was a rescheduled appointment that
10 she had taken that day.

11 Q. Okay. So the hustle shot is not even on this
12 form yet?

13 A. It's a three us (phonetic). It does not.

14 Q. Okay. In fact, that was often Teresa's practice,
15 is that you didn't know -- For instance, you
16 didn't really care on this particular form, when
17 you get this back, you didn't care about the
18 information from those hustle shots yet, right?

19 A. Correct.

20 Q. What you cared about is making sure that when the
21 Fed Ex came the next day, that's when you needed
22 to know the information of the name, address,
23 photo, copy information for these hustle shots,
24 right?

25 A. We like to have them on the forms, but they don't

1 often write them on there.

2 Q. Very often, yes. And in Teresa's case, she often
3 didn't, right?

4 A. I would have to look at her sheets to be sure if
5 it was often or not.

6 Q. Okay. I'm going to let you do that in just a
7 couple minutes, but I wanted to get a few other
8 things about the way this business works down
9 first. Repeat customers are very common for *Auto*
10 *Trader*, right?

11 A. Yes.

12 Q. In fact, you like those kinds of customers,
13 right?

14 A. Yes.

15 Q. The first time someone calls in you set up an
16 account for them, right?

17 A. Yes.

18 Q. And then, they can either be billed or they pay
19 as you go kind of approach, from that point on,
20 right?

21 A. Right. We don't bill. They will pay when the
22 photographer comes out or they can prepay.

23 Q. Okay. And Mr. Avery was one of those repeat
24 customers, was he not?

25 A. Yes.

1 Q. You mentioned -- It was a little unclear, you
2 mentioned four times that he had been there, then
3 you mentioned five. Counting, starting with June
4 and going up through October 31st, that was
5 actually six times that he had used your
6 business; isn't that right?

7 A. October 31st would have been her 5th visit to his
8 property.

9 Q. Well, let's -- Do you have those exhibits still
10 up there in front of you, photographs? Exhibit
11 11, you said was a June 20th shot; do you see
12 that?

13 A. I have to find 11. Yes, that was June.

14 Q. Exhibit 12 was August 22nd?

15 A. Yes.

16 Q. Exhibit 13 was August 29th?

17 A. Okay.

18 Q. Exhibit 14 and 15 were from the 19th -- I'm
19 sorry, September 19th; is that right?

20 A. Yes.

21 Q. And then the last one you have up there is
22 October 10th of '05, that's Exhibit 16?

23 A. Okay.

24 Q. So that's five that you have up there, right?

25 A. Five through -- Yes.

1 Q. So the 31st of October would have been the 6th
2 visit?

3 A. Okay.

4 Q. Okay. And your records had Mr. Avery's address,
5 correct, your office records?

6 A. Yes.

7 Q. As an account, an open account that you have,
8 right?

9 A. Yes.

10 Q. It had his phone number, right?

11 A. Yes.

12 Q. And, in fact, you had more than one phone number
13 associated with that particular account, correct?

14 A. I do believe so, yes.

15 Q. Now, the name Janda, J-a-n-d-a, that also was a
16 name that was used on a prior visit to Teresa to
17 the Avery salvage property was it not?

18 A. I'm not sure.

19 (Exhibit No. 19 marked for identification.)

20 Q. I'm going to show you Exhibit 19, see if you can
21 identify that.

22 A. Exhibit 19, okay.

23 Q. It's another one of her fax?

24 A. Reports.

25 Q. Appointment sheets?

1 A. Yes.

2 Q. Okay. If you look at the first, very first name
3 on the list there.

4 (Court reporter couldn't hear.)

5 Q. Say it again.

6 A. Tom Janda.

7 Q. J-a-n-d-a, right?

8 A. Yes.

9 Q. Can everybody see that, the first name there?
10 And right next to that name is a phone number,
11 right?

12 A. Yes.

13 Q. And an address, 12930A Avery Road, correct?

14 A. Yes.

15 Q. And that's the very same address and phone number
16 that was given by Mr. Avery when he called in
17 your office on October 31st, right?

18 A. Yes.

19 Q. And so your office knew that this Janda, B.
20 Janda, was associated with the Avery salvage
21 property?

22 A. I'm not sure if Dawn had recognized that at all.
23 The phone numbers are different, so that's why
24 another account was created under B. Janda.

25 Q. But the very name of the road is Avery, correct?

1 A. Correct.

2 Q. So that's a little bit of a hint that it's
3 associated with Mr. Avery, right?

4 A. Sure.

5 Q. Okay. This one by the way is?

6 ATTORNEY BUTING: Maybe you could unzoom
7 it.

8 Q. (By Attorney Buting)~ This is the appointment, I
9 believe, for September 19th. And if you could
10 just read the bottom of that note.

11 ATTORNEY BUTING: Push it up a bit, Dean.

12 Q. (By Attorney Buting)~ It says 9/19 at the top.
13 She says, I also did one hustle shot. It's the
14 first one on the disc, but I forgot to send the
15 sheet with the info. Is that right?

16 A. Yes.

17 Q. Okay. Now, when Mr. -- Mr. Fassbender,
18 Investigator Fassbender from the DCI, met with
19 you, he had you go through a number of the
20 records that you had on Mr. Avery's involvement
21 and Teresa Halbach's entire photo shoot history,
22 correct?

23 A. Yes.

24 Q. And you actually printed out a list of all of
25 these -- or copies of each one of these forms

1 that -- like Exhibit 18 and 19 that we're
2 referring to here today, right?

3 A. Yes. Anything that we had in our files, yes.

4 Q. Any of these that Teresa had done, you printed
5 out?

6 A. Yes.

7 Q. And you looked through them when you talked with
8 him, right?

9 A. We didn't look through everything.

10 Q. Okay. Well, would it be fair to say that from
11 your review of the records, it was clear to you
12 that Teresa did have a history of these hustle
13 shots, of using these hustle shots for some extra
14 income?

15 A. Sure. Yes.

16 Q. And maybe you will need to take a moment to look
17 at these, but I believe in the last 16 or 17
18 visits -- I'm sorry, 16 or 17 days that Teresa
19 did any of these shoots of any kind, she did 12
20 hustle shots; does that ring a bell?

21 A. I would have to look.

22 Q. All right.

23 ATTORNEY BUTING: Mark this whole stack of
24 reports.

25 Q. (By Attorney Buting)~ But if you could just take

1 a moment. Just ignore my post-its, but
2 count through how many days of shoots that is.
3 It's starting with September 19th of 2005, and
4 then count up how many actual hustle shots she
5 reports?

6 A. Okay.

7 Q. Count the days first.

8 A. All right. Fifteen days.

9 Q. Fifteen days, okay. Count up how many hustle
10 shots she did during that 15 day period.

11 A. Okay. It appears five.

12 Q. Let's look at this again, please. There's one
13 there, right?

14 A. Okay, but listed here, this does not -- this does
15 not tell me that there's a hustle on this sheet.

16 Q. That's right.

17 A. So I did not count that.

18 Q. Well, she puts down that she did a hustle?

19 A. Right. When these sheets would come back, if she
20 would mark down that there's a hustle shot on
21 here, before payroll, after they hand in their
22 papers, I would go through the sheet and if I
23 wouldn't see a hustle on here, I would have to
24 call them.

25 Q. Right.

1 A. And say on this date you have a hustle; I don't
2 see anything for a hustle. You know, unless they
3 would specify, that's how they would be paid for
4 the hustle.

5 Q. But she wouldn't -- On these forms that she faxes
6 back to you, she doesn't always put the names of
7 the hustles, that comes in later?

8 A. Right.

9 Q. But here she's just telling you that she did do
10 another hustle, it's just not reflected on these
11 records.

12 A. Right. Yes.

13 Q. So she says she did one hustle on this form,
14 right?

15 A. Right.

16 Q. Okay.

17 A. And this one she does a hustle.

18 Q. Okay. So that's two.

19 ATTORNEY KRATZ: Judge, could I ask what
20 the relevance of this is --

21 ATTORNEY BUTING: I will get to that.

22 ATTORNEY KRATZ: -- about this homicide; if
23 she did 9, or 11, or 13 hustle shots.

24 ATTORNEY BUTING: I will get to that.

25 THE COURT: I will give him a little

1 latitude.

2 Q. (By Attorney Buting)~ So there's 3, you saw that
3 one there, right?

4 A. Yes.

5 Q. So there's 8 on that one, right? That's 11,
6 another one there, that's 12; do you agree?

7 A. Yes. If you count what she wrote up on top.

8 ATTORNEY FALLON: I couldn't hear the
9 witness' response.

10 ATTORNEY BUTING: If you count what she
11 wrote up top.

12 Q. (By Attorney Buting)~ So what Teresa told you on
13 these forms, is that she did 12 hustles in these
14 15 days?

15 A. Correct.

16 Q. And, again, she wouldn't -- you wouldn't know
17 about those hustles that she did in advance,
18 correct?

19 A. Correct.

20 Q. And so, on October 31st of 2005, if Teresa
21 Halbach had done a hustle shot, you would not
22 have known it in advance, would you?

23 A. No.

24 Q. So if Teresa Halbach, after 3, 3:30, 4, whatever,
25 later in the day on October 31st, went to do one

1 of these hustle shots, you wouldn't know it?

2 A. Correct.

3 Q. Because you never got a completed fax like this
4 back after October 31st?

5 A. Correct.

6 Q. Or anything in the mail with the information from
7 that hustle shot, correct?

8 A. Correct.

9 Q. So the bottom line is, from your records, you
10 don't know and cannot tell this jury, whether or
11 not Teresa Halbach left Mr. Avery's property on
12 October 31st and went somewhere else to do a
13 hustle shot; isn't that right?

14 A. That's correct.

15 Q. Thank you.

16 THE COURT: Mr. --

17 **REDIRECT EXAMINATION**

18 BY ATTORNEY KRATZ:

19 Q. One follow up question, Ms Schuster, the real
20 bottom line is, if Ms Halbach was killed by Mr.
21 Avery, she couldn't have done any hustle shots
22 after that, could she?

23 A. That would be correct.

24 ATTORNEY KRATZ: That's all.

25 ATTORNEY BUTING: Nothing.

1 THE COURT: All right. The witness is
2 excused.

3 Members of the jury, we'll take our
4 morning break at this time. The attorneys, I
5 believe, have something to take up outside the
6 presence of the jury, so I can't tell you exactly
7 when you will be coming back. But as soon as
8 we're ready, we'll call you back.

9 ATTORNEY BUTING: Judge, I would move
10 Exhibit 18 and 19 in.

11 THE COURT: Any objection?

12 ATTORNEY KRATZ: No.

13 THE COURT: Those are admitted.

14 ATTORNEY KRATZ: When would you like us
15 back, Judge.

16 THE COURT: Let's report back at 25 to 11.

17 ATTORNEY KRATZ: That's fine. Thank you.

18 (Recess taken.)

19 (Jury not present.)

20 THE COURT: Mr. Kratz, do I understand that
21 the State wishes to address a matter outside the
22 presence of the jury before the next witness?

23 ATTORNEY KRATZ: I do, Judge. We do have
24 Dawn Pliszka, who is our next witness. The Court
25 had previously ruled on an admissibility issue. I

1 believe the Court contemplated a very brief offer of
2 proof that would require some brief testimony. I'm
3 prepared to call Ms Pliszka. And I think it
4 probably best we excuse Ms Pliszka from the
5 courtroom so that counsel can argue admissibility on
6 that one.

7 THE COURT: Does the defense agree?

8 ATTORNEY STRANG: Sure.

9 THE COURT: Okay. Very well. You may call
10 your next witness.

11 ATTORNEY KRATZ: Dawn Pliszka.

12 THE CLERK: Please raise your right hand.

13 **DAWN PLISZKA**, called as a witness
14 herein, having been first duly sworn, was
15 examined and testified as follows:

16 THE CLERK: Please be seated. Please state
17 your name and spell your last name for the record.

18 THE WITNESS: Dawn Pliszka, P-l-i-s-z-k-a.

19 **DIRECT EXAMINATION**

20 BY ATTORNEY KRATZ:

21 Q. Ms Pliszka, this is not your testimony before the
22 Court, but this is -- excuse me -- before the
23 jury, but this is simply retrieving from you some
24 very narrow information about a conversation that
25 you had with Teresa; do you understand that?

1 A. Yes.

2 Q. You were a receptionist with *Auto Trader* during
3 the fall of 2005; is that right?

4 A. Yes.

5 Q. And what kind of relationship did you have with
6 Teresa; in other words, did you and Ms Halbach
7 have occasion to discuss matters of a more
8 personal nature?

9 A. Yes, we did.

10 Q. During the course of those discussions, did Ms
11 Halbach ever describe for you a contact or
12 incident that she had with the defendant, Steven
13 Avery?

14 A. Yes.

15 Q. Could you describe, first of all, the words that
16 she used and then we will describe the
17 circumstances surrounding that. So first tell us
18 what she told you.

19 A. After she was out there, around October 10th, it
20 was like about a week or so after that, she had
21 stated to me that he had come out in a towel.

22 Q. He meaning whom?

23 A. Steven Avery.

24 Q. Had come out where?

25 A. She didn't specify, she just said that he had

1 come out, just in a towel.

2 Q. All right. Did Ms Halbach describe for you
3 anything else about that, any other details about
4 seeing Mr. Avery in a towel?

5 A. The only -- I just said, really, and she said,
6 yeah, and she said, yeah, and she laughed and
7 just said kind of, ewww, you know.

8 Q. Okay. You said kind of what?

9 A. Ewww.

10 Q. Ewww.

11 A. Yeah, just that.

12 Q. I guess not in a positive way?

13 A. Not in a positive way, no.

14 Q. Did Ms Halbach -- or was she seeming to describe
15 a specific event; in other words, was she
16 remembering that event when she was describing it
17 for you?

18 A. Yes.

19 ATTORNEY KRATZ: At least as far as my
20 offer of proof, the rest is argument. I don't have
21 anything further from Ms Pliszka for this offer of
22 proof.

23 THE COURT: Mr. Strang.

24 CROSS-EXAMINATION

25 BY ATTORNEY STRANG:

1 Q. Hi. Do you think this was a week or more after
2 October 10th?

3 A. Yes, that I talked to her. I don't know when the
4 incident exactly was.

5 Q. Okay. But you're probably talking to Teresa
6 Halbach October 17, or some time shortly after
7 that?

8 A. Mm-hmm. Yes.

9 Q. She did not say that this had happened on October
10 10 or any specific date?

11 A. She did not specify the date, no.

12 Q. She didn't call you to tell you about this
13 incident?

14 A. Not specifically, no, it just came up in
15 conversation.

16 Q. You were chitty chatting with her?

17 A. Yeah. Mm-hmm.

18 Q. And the reaction was ewww?

19 A. Yeah, it was unfavorable.

20 Q. Yeah. And then she sort of laughed it off?

21 A. Right.

22 Q. This was 10 -- 10, 15 seconds of conversation?

23 A. I would say, yes.

24 Q. How long was the phone call, roughly?

25 A. Altogether, probably a couple minutes at that

1 time.

2 Q. What sorts of other subjects did you two cover in
3 that conversation?

4 A. Probably just work related. I don't really
5 remember all the details of the conversation. I
6 just remember her saying that.

7 Q. Do you remember whether she called you or you
8 called her?

9 A. I think that time she called me, probably she had
10 a question on one of her photos, I think.

11 Q. Okay. So she had some more immediate work
12 purpose for the call?

13 A. Mm-hmm. Yes.

14 Q. And the two of you got sort of chatting and this
15 is one of the things she brought up?

16 A. Right.

17 Q. She did not give you any sense of time on when
18 this had occurred?

19 A. No, she did not.

20 ATTORNEY STRANG: Okay. Thanks. That's
21 all I have.

22 ATTORNEY KRATZ: Judge, one follow up.

23 **REDIRECT EXAMINATION**

24 BY ATTORNEY KRATZ:

25 Q. In the interim, that is, between October 10th and

1 October 17th, or really around that period of
2 time, would you have these kinds of conversations
3 often with Teresa, personal chit chatty
4 conversations?

5 A. Pretty much every time she called in. I talked
6 to her a couple times a week because I sent out
7 the photo leads and everything, so we talked
8 quite a bit.

9 ATTORNEY KRATZ: That's all I have. If we
10 could excuse Ms Pliszka, Judge, then I'm prepared to
11 make my argument.

12 THE COURT: All right. I just have a
13 couple of follow up questions.

14 **EXAMINATION**

15 BY THE COURT:

16 Q. You said that the conversation took place a week
17 or so after October 10th?

18 A. Yes.

19 Q. And is it your understanding that October 10th is
20 the day that she was describing that this
21 happened?

22 A. I really can't say for sure.

23 Q. All right. So you don't know if she was talking
24 about a visit to Mr. Avery's property on October
25 10th or at some previous unspecified visit?

1 A. Yeah, I would not know that for sure.

2 Q. And do you remember how the comment -- or what
3 prompted the comment, what background
4 conversation led up to it?

5 A. I don't really remember, no. I just remember --
6 We used to talk about different things that had
7 happened during our day that were unusual, or
8 funny, or different customers and things like
9 that, so.

10 THE COURT: All right. You are excused
11 from the courtroom for a few minutes. Mr. Kratz.

12 ATTORNEY KRATZ: Thank you, Judge. As this
13 Court knows, this statement is being offered
14 pursuant to the hearsay exception of a statement of
15 a recent perception. It is important, Judge, to
16 note the different admissibility standards for
17 recent perception, compared to present sense
18 impression, or even excited utterance where time is
19 important; that being time -- the time sensitive
20 nature.

21 Because of the nature of this particular
22 conversation, it's clear that the three factors
23 that are required for recent perception have been
24 established. First of all, the issue of whether
25 or not the event or condition that's being

1 described was recently perceived is a factor, but
2 recently is in a much, much broader term.

3 1988 Court of Appeals decision of
4 ***Kluever vs. Evangelical Reform Congregation,***
5 cited at 143 Wis. 2d, 806, was a 8 to 10 week
6 period between the event and its description.
7 The recent perception admissibility theory was
8 satisfied by that 8 to 10 week period.

9 But here, Judge, I think we can infer
10 that the -- because it only occurred a short time
11 after the October 10th meeting, that it was of
12 recent perception; at least more recent or recent
13 enough to satisfy that particular prong.

14 Again, Judge, the statement -- or,
15 secondly, I should say, the statement must be
16 made where the declarant is recalling something
17 clearly and that it's not in response to some
18 litigation or investigation.

19 The second and third prongs aren't
20 really, I believe, at issue in this case. So I
21 believe the State has met, through this offer of
22 proof, the foundation under 908.045 (2) with the
23 declarant, that is, Ms Halbach, being
24 unavailable, that this is a statement of recent
25 perception and would ask the Court allow its

1 admissibility.

2 THE COURT: Mr. Strang.

3 ATTORNEY STRANG: Thank you, your Honor. I
4 agree that if this statement fits anywhere it would
5 fit under Section 908.045 (2). Wisconsin's unusual,
6 I think not taken directly from a uniform rules of
7 evidence or model rules of evidence, but Wisconsin's
8 exception for statements of recent perception.

9 Clear out the under brush first.

10 There's -- if there's no gainsay in the fact that
11 Teresa Halbach is unavailable, so the State meets
12 that threshold requirement. And I, like
13 Mr. Kratz, view this statement as not in
14 contemplation of litigation.

15 I have no reason to question Teresa
16 Halbach's recollection being clear at the time.
17 And this statement was not in response to
18 instigation of a person who was investigating or
19 litigating a claim. So the question does come
20 down to the recency requirement.

21 Going to back up just a little bit, if
22 you think about the basic rationales of hearsay
23 exceptions, most of them are either because the
24 out of court statement is of a type that's
25 extraordinarily reliable and courts have

1 recognized that over the last several centuries.
2 Or that the hearsay statement is of a type where
3 we have a high necessity to have something like
4 that. And, of course, reliability and necessity
5 are not poles.

6 All of the exceptions, at least where
7 un -- unavailability are concerned, have both a
8 necessity component and then some assurances of
9 reliability. And because we're under the
10 unavailability exceptions, the necessity interest
11 presumably would be higher. And that's why we
12 see a relaxation of the reliability requirement,
13 with a little bit more expansive tolerance for a
14 period of time than, for example, under the
15 excited utterance exception where there's a lower
16 presumptive necessity showing because the
17 availability of the declarant doesn't matter.

18 So, with that focus, let's look, first,
19 at necessity. Very, very low necessity here.
20 The State originally sought this type of evidence
21 because it had added a sexual assault allegation
22 to the Information. That now has been dismissed,
23 so sexual assault is not in play.

24 And the State conceded, in its opening
25 statement, that it can't answer the motive

1 question, can't explain for a jury why and won't
2 attempt to prove motive here. So even where
3 sexual assaults go into play, the original
4 reasons the State offered in pursuing this bit of
5 evidence originally as uncharged misconduct, both
6 have fallen away and necessity is very low.

7 Reliability, though, also is quite low
8 here. As -- as my question suggested and I think
9 the Court's question cemented, we have no way of
10 knowing here whether this statement related back
11 as far as June 20 or as recently as October 10,
12 which itself would have been about a week or
13 perhaps more after the incident.

14 Mr. Kratz cited **Kluever**, K-l-u-e-v-e-r,
15 **vs. Evangelical Reformed Immanuel Congregation**.
16 And it's true that there was an 8 to 10 week
17 period of time at issue in **Kluever**, but the facts
18 of **Kluever** are worth noting. The statement was
19 made while the declarant was in a hospital bed
20 recovering from a bad fall.

21 And the Court noted, in accepting the 8
22 to 10 week time period that the statement was one
23 of his few "islets", i-s-l-e-t-s, of memory in
24 the time period since his fall. So there was
25 sort of a compression, or at least an amorphous

1 quality of time for the declarant there, kind of
2 a foreshortening, if you will, of recency given
3 the injuries that the man had sustained and was
4 recovering from in the hospital bed.

5 So, I don't know in the end that **Kluever**
6 gives a whole lot of help here. I do concede
7 that we don't need the immediacy or quite the
8 recency that an excited utterance would require
9 for the reasons I explained concerning the
10 underlying rationale for these hearsay
11 exceptions.

12 But I don't think the State has shown
13 that this had any real recency. It certainly
14 wasn't the purpose of the call, no sense of
15 immediacy, casual chit chat, at least a week and
16 perhaps four months after the incident at issue.

17 So coupled with a very low necessity for
18 this, at this point, and a dubious showing of
19 recency, whether we look just to 908.045 (2) or
20 the Court also considers the 904.03 analysis,
21 again, with necessity and how -- how probative
22 really, is this of any relevant or material
23 issue; I think for both those reasons this just
24 ought not be admitted.

25 There is some prejudice to it too. It's

1 got a little bit of a salacious quality. I'm not
2 saying it couldn't be dealt with on cross, but I
3 don't think the State has met the threshold to
4 fit it within this hearsay exception. The State
5 has offered no other; and, on balance, I also
6 think that 904.03 would suggest exclusion.

7 THE COURT: Mr. Kratz.

8 ATTORNEY KRATZ: Just very briefly, Judge.
9 The uniqueness of this statement, that is, the event
10 of a man of Mr. Avery's stature showing up, or
11 coming out, as the term is, in just a towel, we can
12 infer would have drawn some comment if it would have
13 happened sooner, perhaps as early as June 20th as
14 counsel may have suggested.

15 But I think the fact that this was in
16 the course of business chit chat and this
17 statement comes out of the blue, if you will, as
18 far as Mr. Avery goes, adds to its reliability
19 and to its credibility. And for those reasons,
20 Judge, and for the other reasons that I have
21 mentioned, we'll ask the Court allow this as
22 admissible.

23 THE COURT: All right. I'm going to take a
24 few minutes to check a few things. I will be back,
25 probably within about 10 minutes with a decision.

(Recess taken.)

(Jury not present.)

THE COURT: The Court has previously ruled that the statement regarding the brief statement of Teresa Halbach that Mr. Avery had come out in a towel could be admissible subject to appropriate foundation. The appropriate hearsay exception reads in relevant part as follows: The following statements are not excluded, the statement which describes an event or condition recently perceived by the declarant, not in contemplation of pending or anticipated litigation and while the declarant's recollection was clear.

In this case, it's not disputed that the statement was not made in contemplation of any litigation. There does not seem to be a dispute that the statement was made while the declarant's recollection was clear. There is an issue as to whether or not the statement described an event or condition recently perceived.

The situation is complicated somewhat in this case by the fact that, as the Court understands the testimony of the witness, we don't know precisely when the date was that the statement was alleged to have been made.

1 In the Court's opinion, this is a very
2 close decision. As the parties recognize, the
3 recency requirement does not, in this case,
4 necessarily mean a day or two before. But the
5 Court feels that some specificity is required,
6 and in this case we don't really know within the
7 range of weeks or months exactly when the
8 statement was made. Presumably it could have
9 been -- or when the observation was made,
10 presumably it could have been any time from the
11 middle of June until October 10th.

12 I'm also concerned by the lack of
13 context in which the decision was made, or it's a
14 very short one sentence description of an event
15 or condition, without any qualifiers, or any
16 solid explanation. And in the Court's opinion,
17 that makes its relevance and certainly potential
18 for prejudice -- relevance, less; potential for
19 prejudice greater.

20 And for that reason, while the decision
21 is admittedly a close one, the Court is not going
22 to allow the evidence in for the reasons I gave.
23 The lack of specificity and the uncertainty as to
24 exactly when the statement was made and the fact
25 that different inferences could be drawn from it

1 because there is so little information about its
2 background.

3 Anything else before we bring the jury
4 back in?

5 ATTORNEY KRATZ: No.

6 THE COURT: Very well, we'll bring in the
7 jury.

8 (Jury present.)

9 THE COURT: You may be seated. Mr. Kratz,
10 at this time the State may call its next witness.

11 ATTORNEY KRATZ: State will call Dawn
12 Pliszka, Judge.

13 THE CLERK: Raise your right hand.

14 **DAWN PLISZKA**, called as a witness
15 herein, having been first duly sworn, was
16 examined and testified as follows:

17 THE CLERK: Please be seated. Please state
18 your name and spell your last name for the record.

19 THE WITNESS: Dawn Pliszka, P-l-i-s-z-k-a.

20 **DIRECT EXAMINATION**

21 BY ATTORNEY KRATZ:

22 Q. Ms Pliszka, I want to direct your attention to
23 the fall of 2005 and ask if you can tell the jury
24 how you were employed at that time?

25 A. I was a receptionist at *Auto Trader*.

1 Q. And what were your duties as a receptionist?

2 A. I sent out the photography leads. I took
3 incoming phone calls. Sent out t-shirts. Mailed
4 out catalogs.

5 Q. As part of that employment, did you have the
6 privilege of knowing a young woman named Teresa
7 Halbach?

8 A. Yes, I did.

9 Q. Could you tell the jury, please, how you knew Ms
10 Halbach?

11 A. She was one of our photographers. She started
12 just a little after I did, so we were fairly
13 close.

14 Q. Ms Pliszka, I'm going to direct your attention,
15 specifically, to October 31st of 2005, ask if you
16 were working on that day?

17 A. Yes, I was.

18 Q. Do you remember about what time you started work?

19 A. I started at 7:00.

20 Q. Seven in the morning?

21 A. Mm-hmm. Yes.

22 Q. At or about 8:12 a.m., do you recall receiving a
23 call that day?

24 A. Yes, I do.

25 Q. And could you tell the jury about that call,

1 please.

2 A. It was from a man. He said that he wanted the
3 photographer who had been out there before. He
4 was selling a mini van and he needed her to take
5 photos.

6 Q. Did this man identify what name the photography
7 job would be under?

8 A. I couldn't quite make him out because he was very
9 hard to understand. The closest I got was the
10 initial B. Janda.

11 Q. This man said that he wanted the photographer who
12 had been out there before; did he identify by
13 name that person?

14 A. No, he did not.

15 Q. Did he provide you an address where he wanted
16 this photo to be taken?

17 A. Yes, he did.

18 Q. Do you remember what that was?

19 A. I don't remember the exact number, but it was
20 something B Avery Road.

21 Q. If I showed you a document from that morning,
22 would that help refresh your recollection of
23 that?

24 A. Yes.

25 ATTORNEY KRATZ: Exhibit 17, Janet, do you

1 have that?

2 Q. (By Attorney Kratz)~ I have now handed you what
3 has been marked for identification as Exhibit
4 No. 17. Tell the jury, first of all, what is
5 that?

6 A. This is a photo shoot lead. It's for a same day
7 appointment, which we don't normally do. But if
8 the photographer is able to, we could have
9 written them up and sent them to them.

10 Q. Whose handwriting is on that form?

11 A. That's mine.

12 Q. Would that form have been filled out at the same
13 time that you received this call from this
14 person?

15 A. It was actually filled out later on, after I had
16 left a message for Teresa to see if she could
17 make it out there that day.

18 Q. But does that sheet help refresh your
19 recollection as to the information provided by
20 this man?

21 A. Yes.

22 Q. What was the address that was given for the photo
23 shoot?

24 A. 12930A Avery Road.

25 Q. Now, when this man said that he -- Let me start

1 again. Remind me of the language, the specific
2 language the man used in requesting the
3 photographer?

4 A. He had wanted the photographer that had been out
5 there before.

6 Q. Did he say why he wanted that same photographer?

7 A. Because he had a mini van for sale.

8 Q. Was a phone number provided?

9 A. Yes, it was.

10 Q. Could you tell us what that phone number was,
11 please.

12 A. It is 920-755-8715.

13 Q. Now, did you know the district or the area from
14 whom this call had come; in other words, what
15 photographer you were going to assign to do this
16 shoot?

17 A. Yes.

18 Q. How did you know that?

19 A. They were assigned by location. When you would
20 type it in the system, it would automatically pop
21 up the photographer's next available date.

22 Q. Who was the photographer that had that district?

23 A. Teresa Halbach.

24 Q. I think that you had said that same day
25 appointments were unusual; is that right?

1 A. Yes.

2 Q. Can you tell the jury about that, please.

3 A. Normally, we had a 24 hour notice for photos, but
4 sometimes if someone wanted to make a deadline
5 and the photographer was in the area, we would
6 leave a message for them and then they would go
7 out to that person's residence, if they could
8 make it.

9 Q. Ms Pliszka, I'm now going to direct your
10 attention to approximately 9:46 a.m. and ask if
11 you tried to call Teresa Halbach at that time?

12 A. Yes, I did.

13 Q. Could you tell the jury about that call, please.

14 A. I wasn't able to get a hold of her, so I left her
15 a message saying that someone said -- I'm sorry
16 -- that she had been out there before. I
17 couldn't find a record of him in the system, but
18 if she could make it today, that would be fine,
19 otherwise I had scheduled it for the following
20 Monday, which would have been her next available
21 appointment.

22 Q. Were you notified, Ms Pliszka, any time later
23 that day that Ms Halbach was able to make that
24 appointment?

25 A. When I came back from lunch, there was a note

1 from Angie Schuster that -- it was said that she
2 had wanted me to fill out one of these lead
3 sheets and fax it to her because she would be
4 able to make it that same day.

5 Q. She, meaning Ms Halbach?

6 A. Ms Halbach, yes.

7 Q. Finally, Ms Pliszka, were you able to and did
8 you, in fact, speak with Teresa Halbach later
9 that day?

10 A. Yes, she called me at 2:27 and we talked --

11 Q. Who?

12 A. Teresa. Called me at 2:27 and we talked for a
13 little while and she said, yeah, I'm able to go
14 get that photo. By the way, it was the Avery
15 brothers and I'm on my way out there right now.

16 Q. So 2:27 p.m. she told you she was on her way to
17 the Avery property?

18 A. Yes.

19 Q. Let me ask you this, Ms Pliszka, how do you
20 remember that call?

21 A. I remember because I looked at the time, because
22 she didn't normally work, I think, past 1:00 and
23 I thought it was kind of late for her to be going
24 out there. So I happened to look at the clock at
25 that time, so.

1 Q. All right. Just as an aside, do you remember
2 what else you guys talked about at that time?

3 A. She needed UPS labels and then I was telling her
4 about my son going trick or treating.

5 Q. So you remember that being Halloween?

6 A. Yes.

7 Q. Finally, Ms Pliszka, after that call, after you
8 hung up and concluded that call with Teresa, did
9 you ever have occasion to talk with her again?

10 A. We tried to get a hold of her, on I think
11 Thursday morning, but we weren't able to.

12 Q. Let me ask that again, did you ever talk to
13 Teresa Halbach again after that time?

14 A. No, I did not.

15 ATTORNEY KRATZ: I would move the admission
16 of Exhibit 17, Judge, and that's all the questions I
17 have for this witness.

18 THE COURT: Any objection to the exhibit?

19 ATTORNEY BUTING: No objection.

20 THE COURT: Exhibit 17 is admitted. Who
21 will be doing cross?

22 ATTORNEY BUTING: I will, Judge.

23 THE COURT: Mr. Buting.

24 **CROSS-EXAMINATION**

25 BY ATTORNEY BUTING:

1 Q. Good morning.

2 A. Good morning.

3 Q. Is it Ms Pliszka?

4 A. Pliszka.

5 Q. Pliszka, okay.

6 ATTORNEY BUTING: Judge, could you maybe
7 explain to the jury that it's your request that we
8 wear these mikes when we move around?

9 THE COURT: That's right, the attorneys who
10 stand, we require the attorneys to use these mikes
11 so everybody can hear.

12 ATTORNEY BUTING: So forgive me if I fumble
13 with them a little bit.

14 Q. (By Attorney Buting)~ All right. Now, you still
15 have Exhibit 17 up in front of you, do you not?

16 A. Yes.

17 Q. All right. Now, I will refer to that in just a
18 minute. But, you mentioned that your duties are
19 answering incoming phone calls?

20 A. Yes.

21 Q. Calling out to photographers and assignments?

22 A. Yes.

23 Q. Also faxing out these appointment sheets?

24 A. Yes.

25 Q. You actually prepare them sometimes yourself,

1 too?

2 A. Yes.

3 Q. And how many photographers -- And you work in the

4 Hales Corners office, right?

5 A. I'm no longer employed there.

6 Q. I'm sorry, back in October of 2005 --

7 A. Yes.

8 Q. -- you were -- Will you wait till I answer --

9 finish the question so that the reporter is not

10 tripping over us here. October of 2005, you

11 worked in Hales Corners?

12 A. Yes.

13 Q. And how many photographers did you deal with at

14 that time, around the state?

15 A. Probably around six.

16 Q. Okay. And most of your communication with them

17 was by email, or fax, or phone?

18 A. Mostly by fax and phone.

19 Q. Mostly fax and phone, okay.

20 A. Yes.

21 Q. In fact, did you ever meet Teresa Halbach?

22 A. No, I did not.

23 Q. You never met her face to face at all?

24 A. No.

25 Q. So your relationship with her, when you say you

1 were close, it was just from phone conversations?

2 A. From phone conversations, yes.

3 Q. And these phone conversations were usually just a
4 couple of minutes or so as you would -- because
5 you had other duties, other calls coming in and
6 all of that?

7 A. Yes.

8 Q. Okay. So you didn't really know much,
9 personally, about her, other than what would be
10 transmitted in these very brief phone calls?

11 A. Yes.

12 Q. All right. Now, this phone call that you got on
13 October 31st, you knew the name -- you recognized
14 the name Janda, J-a-n-d-a, right?

15 A. That's what I could make out --

16 Q. Okay.

17 A. -- from what he had said.

18 Q. And in fact, you know, then the man gave you the
19 address and it was on Avery Road, right?

20 A. Yes.

21 Q. And you knew that the Jandas and the Averys were
22 basically the same people, same area, right?

23 A. No, I did not.

24 Q. You didn't?

25 A. No.

1 Q. Were you interviewed by an Investigator Wiegert
2 of the Calumet County Sheriff's Department about
3 this incident?

4 A. I'm not sure. I believe so.

5 Q. Okay. Let's say at about 8:00 or 9:00 on
6 November 3rd, that would be Thursday, do you
7 remember getting a call from an investigator at
8 the Sheriff's Department?

9 A. Yes.

10 Q. Yes?

11 A. Yes.

12 Q. And he asked you some questions of what you knew
13 about this phone call on the 31st of October?

14 A. Yes.

15 Q. And did you tell him that you knew that the
16 Jandas are basically the Avery brothers, that you
17 have done -- they have done work for them before,
18 but does not know why they give the name B.
19 Janda; did you tell him that?

20 A. No, I did not.

21 Q. So if he wrote that in his report, he was just
22 making it up?

23 A. I did not know that it was -- she told me --
24 Teresa told me it was the Avery brothers. At the
25 time I took the call, I had no idea who it was.

1 Q. Okay. Exhibit 17, in front of you there, has an
2 account number, right?

3 A. Yes.

4 Q. That's the Avery's account, isn't it?

5 A. I believe that was one that I had just created
6 for this lead.

7 Q. So you created this as a whole new account?

8 A. Because I couldn't find it in the records. I
9 checked by phone number and the last name and I
10 couldn't find the person in there -- or him in
11 there.

12 Q. I'm going to show you Exhibit 19, see if maybe
13 this refreshes your recollection a little bit.
14 Is that one of the appointment sheets that you,
15 or somebody in your office, prepares and faxes to
16 the photographers?

17 A. Yes.

18 Q. And at the very, very top, there's a little code
19 that says run by?

20 A. Yes.

21 Q. And it says D. Plisz -- D. P-l-i-s-z-k, (sic)
22 that would be you, right?

23 A. Yes.

24 Q. So you actually ran this report yourself?

25 A. Yes.

1 Q. On --In this particular instance, September 19th,
2 2005, right?

3 A. Yes.

4 Q. And the very first name listed there is Tom
5 Janda, is it not?

6 A. Yes, it is.

7 Q. And the address there, would you read that off,
8 please?

9 A. It's -- I'm sorry I can't see.

10 Q. I'm sorry.

11 A. 12930A Avery Road.

12 Q. Is that the same address that you have here on
13 Exhibit 17, the photo shoot that you filled out
14 on October 31st?

15 A. Yes.

16 Q. So, on October 31st, you did, in fact, know -- or
17 those were records that you had taken an
18 appointment for the Janda's on a prior date?

19 A. That's not necessarily from me. There were three
20 or four of us that would run appointment photos.
21 It would depend. I ran the reports in the
22 morning. I didn't necessarily read them
23 thoroughly; I just would fax them out to the
24 photographer.

25 Q. (By Attorney Buting)~ If you would look at the

1 screen right there; I'm showing you a zoomed in
2 picture of this Exhibit 19. The date is
3 September 19 of 2005, right?

4 A. Yes.

5 Q. And that is -- It does indicate that you ran
6 that?

7 A. I ran the report, but that does not mean that I
8 had taken the original lead.

9 Q. Sure. But you ran the report and the report
10 included Tom Janda, the very first one, very same
11 phone number, very same address, that you have in
12 front of you on the October 31st exhibit,
13 correct?

14 A. No, the phone number is different.

15 Q. All right. But the address is the same?

16 A. Yes, but I didn't search by address in the
17 system.

18 Q. You just searched by phone?

19 A. Right, because we had tried to get people off the
20 phone as quickly as possible. So if I couldn't
21 find it by phone number and last name, and for
22 some reason it didn't come up in the system.

23 Q. For some reason, but it should have because you
24 did have a record of Janda's, correct?

25 A. From what that is, yes.

1 Q. Okay. And I realize it's been a long time, so
2 you may not remember everything as well 15 months
3 later, but the record speaks for itself.

4 ATTORNEY KRATZ: I'm going to object to
5 this, it's argumentative. It says Tom Janda, not B.
6 Janda, not the phone number. She's answered this.
7 It's argumentative.

8 THE COURT: I don't know if it's
9 argumentative, but the last thing the attorney said
10 was a statement, not a question.

11 ATTORNEY BUTING: I will move on, Judge,
12 sorry.

13 Q. (By Attorney Buting)~ Now, you said that the same
14 day appointments that would be called in, were
15 unusual?

16 A. Yes.

17 Q. Not that unusual, though, they happened, right?

18 A. Yes, they did.

19 Q. You have a form that's made for that purpose?

20 A. Or for reshoots, if someone had already had a
21 photo, the same --

22 Q. So particularly repeat customers who knew the
23 photographer's route, knew what day they would be
24 in the area; those are the kind of people that
25 would call the same day. They knew they could

1 still get in before the deadline?

2 A. Sometimes. Sometimes people just weren't aware
3 of the deadlines and they would see. We could
4 have also ran it for a week, without a photo, and
5 just extended his ad as well.

6 Q. Okay. So, when you got this phone call, though,
7 that morning, there was nothing that unusual
8 about it, about getting this call from this
9 gentleman saying he wanted a photograph taken of
10 the car, was there?

11 A. No.

12 Q. Okay. And you just followed your regular
13 routine, which is to call, in this case Teresa,
14 leave a message with the name, address, see if
15 she was available, right?

16 A. I left the name and the phone number and the
17 addresses, yeah; if she could make it that would
18 be great, if not, we could always call the
19 customer back and he was scheduled for the next
20 week after.

21 Q. And that's something that she had done before,
22 right?

23 A. Yes.

24 Q. You had done same day ones with her, right?

25 A. Yes.

1 Q. And in your experience, it also would not be
2 unusual that the person calling may not be the
3 person who actually owned and selling the
4 vehicle, right?

5 A. Yes.

6 Q. In fact, that very day, October 31st, there was a
7 gentleman that called in, left the name, Sippel,
8 I believe; does that ring a bell?

9 A. No, it does not.

10 Q. Well, you sent out --

11 ATTORNEY BUTING: Let me do this, let me
12 mark this as an exhibit.

13 (Exhibit No. 20 marked for identification.)

14 Q. (By Attorney Buting)~ Can you identify Exhibit 20
15 for us, please.

16 A. This is one of the leads that would have printed
17 because it was done before 24 hours. That would
18 have been one of her normally scheduled leads for
19 the day of the 31st.

20 Q. Okay. And that was run by you?

21 A. Yes.

22 Q. Once again.

23 (Exhibit No. 21 marked for identification.)

24 Q. And could you exhibit -- or identify Exhibit 21
25 also, please?

1 A. That is also another lead; it appears to be the
2 29th of October.

3 Q. And at the very top there is a fax date and time;
4 do you see that?

5 A. Yes.

6 Q. What is it?

7 A. It says 10/31, 2005, 0093 (sic).

8 Q. So like 12:13 a.m.?

9 A. Yes, this appears -- I think this is from Teresa
10 because it says rescheduled for Monday.

11 Q. Right. The handwriting. Let me just put these
12 up on the screen for a minute, so we know what
13 we're talking about. Exhibit 20 is the report
14 that you did -- that you ran at 7:08 a.m. on
15 Monday, October 31st, right?

16 A. Yes.

17 Q. And that's what you would have then faxed to
18 Teresa for her schedule for the day, right?

19 A. Yes.

20 Q. And that only has one appointment on it, a
21 Mr. George Zipperer, right?

22 A. Yes.

23 Q. But, in fact, you knew she had more than one
24 appointment on that day, right?

25 A. Yes.

1 Q. And Exhibit No. 21, which I'm showing you now, is
2 the report that you indicated she faxed on
3 October 31st at 0013 hours, right?

4 A. Yes.

5 Q. And on that, this is actually an appointment
6 scheduled for a previous day, Saturday, the 29th,
7 I think, right?

8 A. Yes.

9 Q. On that, she wrote another appointment that was
10 to be rescheduled for Monday, right?

11 A. Yes.

12 Q. And the name of that individual, can you read --
13 I don't know if you can read the first name, but
14 the last name is Sippel, right?

15 A. Yes.

16 Q. So I have one other one I want to show you. I
17 haven't marked this yet, but maybe you can tell
18 me from looking at this; do you know what kind of
19 a form this is?

20 A. This is the actual lead form that prints along
21 with their schedule.

22 Q. So this is something that you prepare?

23 A. Yes, or I edit it.

24 ATTORNEY BUTING: I better mark this
25 actually.

1 (Exhibit No. 22 marked for identification.)

2 Q. And this is Exhibit 22?

3 A. Yes. This was the one I had originally done.

4 And I believe I changed it for the Monday, the
5 same day appointment for the 31st. I was
6 originally going to schedule it for the following
7 week.

8 Q. Okay. But what's the difference between
9 Exhibit 22 and Exhibit 17?

10 A. She -- That wouldn't print until the next day.
11 This one here, Exhibit 22, would not have printed
12 until Tuesday.

13 Q. Okay.

14 A. Because that's why we usually don't do same day
15 appointments, because they don't print until the
16 following day.

17 Q. Okay. So by print, you mean enter the
18 information in your computer and do what? You
19 fax within -- that's not what you fax to the
20 photographers usually, is it?

21 A. Yes.

22 Q. It is?

23 A. It is, yes.

24 Q. Okay.

25 A. They got that actually, as well too, so they

1 could put information on there pertaining to the
2 ad and then photo number and everything so it
3 would match up.

4 Q. Okay. And this, specifically, is for B. Janda,
5 right?

6 A. Yes.

7 Q. Is that the address, 12930A Avery Road?

8 A. Yes.

9 Q. It's got phone numbers over there on the right,
10 correct?

11 A. Yes.

12 Q. Even got information about the vehicle, 1989
13 Dodge mini van?

14 A. Yes.

15 Q. And that is to be -- What is it, run --

16 A. Run till sold.

17 Q. What does that mean?

18 A. The ad will run until -- it will run as long as
19 the person needs to, as long as they would have
20 called every three weeks to renew it.

21 Q. Okay. So, all of this information was given to
22 you by the caller on October 31st at 8:12 a.m.,
23 right?

24 A. Yes, it was.

25 Q. Now, did you know that Mr. Avery had -- You did

1 know that Mr. Avery had Teresa's direct phone
2 number, right?

3 A. No, I did not.

4 Q. Were you aware that he had done a privately
5 arranged shoot with her on October 10th?

6 A. I wasn't -- Those are called hustle shots and I
7 didn't have any information about those, so I
8 wouldn't have known.

9 Q. Well, let me show you a couple more exhibits.

10 (Exhibit No. 23 & 24 marked for identification.)

11 Q. (By Attorney Buting)~ I'm showing you Exhibit 23;
12 can you identify that, please.

13 A. It's another -- It's one of her lead sheets. And
14 it looks like it has -- I think that's her
15 writing on there. This is when she was done with
16 photos.

17 Q. Right.

18 A. She would fax them in so she could get paid for
19 them.

20 Q. Sure. I understand. And this one also was
21 prepared by you?

22 A. Yes.

23 Q. Okay. And the date of this one is?

24 A. 10/10/2005.

25 Q. Okay. And what this does is this lists -- Well,

1 let me put it up on the screen once and we'll
2 talk about what it says. Can you also identify
3 Exhibit 24?

4 A. This appears to be one of the logs that the
5 photographers did on their own, like a hustle
6 shot, or maybe a call in or something that they
7 would have written up themselves. So this is
8 Teresa's writing.

9 Q. That's looks like Teresa's writing?

10 A. That looks like Teresa's writing, yeah.

11 Q. And can you tell what date this is at all or
12 where it came from or if it's in anyway
13 associated with Exhibit 23?

14 A. I really can't be certain.

15 Q. Okay. Well, let me -- let me put them up on the
16 bigger screen and we'll talk about them from
17 there, please. All right. First, Exhibit 23,
18 let's see here. This is the exhibit you
19 mentioned you prepared on October 10th, right?

20 A. Yes.

21 Q. It's a little bit hard to see there, but there
22 you go, October 10th. And this was a list of
23 Teresa's scheduled appointments that had been
24 made through *Auto Trader* on that day, right?

25 A. Yes.

1 Q. And there are just three -- Actually, looks to me
2 like the second one is crossed off; it's a Robert
3 Beaudry?

4 A. Yes.

5 Q. First one is Robert Beaudry; second one is Roger
6 Poegle, or something like that.

7 A. Yes.

8 Q. But Mr. Avery is not on here, correct? He was
9 not a scheduled appointment that day?

10 A. No, he was not.

11 Q. Yet down below she has written Steve Avery,
12 right?

13 A. Yes.

14 Q. And done, next to it, right?

15 A. Right.

16 Q. And, in fact, in your records, you are aware
17 that -- that there's actually a photograph that
18 she took, on that date, of a Pontiac Grand Prix,
19 from Mr. Avery; are you aware of that?

20 A. I wasn't certain of the vehicle; I did know she
21 had an appointment on the 10th, but I wasn't sure
22 of what the vehicle was.

23 Q. Okay. So that was an appointment that she --
24 that Mr. Avery apparently arranged privately with
25 her, rather than through your office, correct?

1 A. It appears to be, yes.

2 Q. And the hustle shot document that you are
3 referring to -- let me zoom out first so the jury
4 can see -- these are forms that the photographers
5 have that they fill out or they may fill out if
6 they are doing hustle shots?

7 A. Yes.

8 Q. Privately arranged shots, right?

9 A. Yes.

10 Q. In fact, it says at the top, private party, photo
11 log, right?

12 A. Yes.

13 Q. I'm sorry, little hard to see. And in this she
14 has got Steve Avery's name?

15 A. Yes.

16 Q. You recognize this to be her handwriting?

17 A. Yes.

18 Q. Because you have seen it many times. And then
19 she also says Steve Avery, \$45, paid cash, right?

20 A. That looks like the account number 45800.

21 Q. Oh, okay.

22 A. That's the account number.

23 Q. I'm sorry. Just says paid cash?

24 A. Right.

25 Q. And it lists the 1984 Pontiac Grand Prix, T-tops,

1 and Oldsmobile engine, 5.0, make offer? And it
2 has got a phone number, right?

3 A. Yes.

4 Q. So, would it be fair to say, then, that the
5 records show Mr. Avery must have had some phone
6 number for Teresa in order to make this private
7 arrangement with her on that date?

8 ATTORNEY KRATZ: Objection, speculative,
9 Judge.

10 THE COURT: I'm going to sustain the
11 objection.

12 ATTORNEY BUTING: All right.

13 Q. (By Attorney Buting)~ This is an example of these
14 hustle shots that are made privately between the
15 photographer and the customer, right?

16 A. Yes.

17 Q. And you know that that does happen frequently
18 with photographers, correct?

19 A. Yes, it does.

20 Q. And that it did happen with Teresa?

21 A. Yes.

22 Q. In fact, more than just this one time we
23 mentioned with Mr. Avery; there were many hustle
24 shots she did, correct?

25 A. Yes.

1 Q. And when she would do those, you would have no
2 way of knowing that she had gone to one of these
3 private party hustle shots until she faxed back
4 the report at the end of the day; isn't that
5 right?

6 A. Yes.

7 Q. And, unfortunately, though, on October 31st, you
8 never got a form back that said where she had
9 gone, right?

10 A. No.

11 Q. So you don't know whether or not Teresa had any
12 hustle shots, privately arranged shots on
13 October 31st, do you?

14 A. No, I do not.

15 Q. And this phone conversation that you had with her
16 at 2:27 p.m. you had some brief discussion and
17 she said that she was on her way to the Avery's?

18 A. Yes, she did.

19 Q. She said the Avery brothers; is that what she
20 said?

21 A. She said the Avery brothers, yes.

22 Q. She seemed very familiar with them?

23 A. Yes, she did.

24 Q. You don't know whether she meant she was on her
25 way directly or whether she intended to make

1 another stop before she got there?

2 A. No, I do not. I just assumed -- She said she was
3 on her way there right now, so, I assumed.

4 Q. Okay. So, if she was not there for another hour,
5 you don't know whether she would have made
6 another stop, get a bite to eat, something like
7 that?

8 A. No, I would not.

9 Q. Or if she had another hustle shot in between?

10 A. No, I would not.

11 Q. More importantly, you don't know whether after
12 Mr. Avery, Teresa had a private hustle shot where
13 she was going, where she was planning to go to,
14 do you?

15 A. She didn't mention it but, no, I did not.

16 Q. And she wasn't in the habit of mentioning when
17 her hustle shots were with you, right?

18 A. Sometimes she would, sometimes she wouldn't, so.

19 Q. Okay. Now, these hustle shots, by the way,
20 sometimes they would be where she would go to a
21 customer for one car and she would hustle a
22 second one while she's there, right?

23 A. Yes.

24 Q. And, in fact, that happened in this Tom Janda
25 case where she got two photos on the same date;

1 September 19, right?

2 A. I'm not certain.

3 Q. All right. Well, that was something that
4 happened and those were considered hustle shots
5 too, right?

6 A. Yes.

7 Q. So, you don't know whether somebody hailed her as
8 she was leaving Steven Avery's residence,
9 somebody else on the Avery salvage property, a
10 brother, customer, whatever, who hailed her and
11 said, hey, let's take a picture, private hustle
12 shot of another vehicle, do you?

13 ATTORNEY KRATZ: Judge, objection, that
14 does calls for speculation.

15 ATTORNEY STRANG: My question was, she
16 doesn't know, I'm trying to establish.

17 THE COURT: That objection is overruled.

18 Q. (By Attorney Buting)~ Is that correct?

19 A. I would not know.

20 Q. All right. Now, just a couple of final -- one
21 other point I want to make here. Since it
22 appears that Mr. Avery had made a private hustle
23 arrangement with Teresa Halbach in the past, you
24 don't know of any reason why he couldn't have
25 also done that on October 31st, do you?

1 A. Unless he would have lost her phone number, no.

2 Q. Okay. And, of course, if he was going to do that
3 -- put it this way, if he had wanted to kill
4 Teresa Halbach, he could have simply called her
5 directly instead of calling your office and
6 leaving a red trail -- easy trail right to his
7 house, couldn't he?

8 A. Yes.

9 ATTORNEY BUTING: Thank you. I have
10 nothing further.

11 THE COURT: Mr. Kratz, any other questions?

12 ATTORNEY KRATZ: No.

13 THE COURT: Very well, you are excused.

14 Members of the jury, that takes us to
15 noon, so we'll take our lunch break at this time
16 and resume at 1:00. I will remind you, again, do
17 not discuss the case or any of the testimony you
18 have heard this morning or anything else about
19 this case during the noon hour.

20 (Jury not present.)

21 THE COURT: All right. Counsel, are there
22 going to be any other outside the presence of the
23 jury matters to address this afternoon that you are
24 aware of?

25 ATTORNEY BUTING: No, Judge.

1 ATTORNEY KRATZ: Not that I can think of.

2 ATTORNEY BUTING: I would and I should
3 have, I move the admission of all those exhibits
4 that I referred to, which are -- looks like 20, 21,
5 22, 23, 24.

6 ATTORNEY KRATZ: Well, 24 she said she
7 couldn't identify, so we'll object to that. Doesn't
8 seem that he posted it to the jury when she said she
9 couldn't identify it, but it should not be received;
10 it was not identified.

11 ATTORNEY BUTING: She did identify it as
12 Teresa's handwriting. She identified it as a
13 private party log that's used in their business.
14 The only thing she couldn't identify was the date,
15 but that will be linked up by the prior witness who
16 testified that, on October 10th, 2005, a photograph
17 was taken of that very car that's listed there --

18 THE COURT: Mr. Kratz.

19 ATTORNEY BUTING: -- which is Exhibit 16.

20 ATTORNEY KRATZ: I don't object to the
21 relevance in that it appears to link up, but she
22 couldn't identify it.

23 THE COURT: I think she identified some
24 elements of it. The date, she couldn't identify,
25 but that's by the nature of the exhibit; though,

1 actually, I think the date's repeated again a little
2 higher where it's easier to see. At any rate, I'm
3 going to move all the exhibits.

4 ATTORNEY KRATZ: Thank you.

5 THE COURT: See you at 1:00.

6 ATTORNEY BUTING: At 1:00, you said?

7 THE COURT: Yes.

8 (Noon recess taken.)

9 THE COURT: At this time we are back on the
10 record. Mr. Kratz, you may call your next witness.

11 ATTORNEY KRATZ: State would call Curt
12 Drumm, your Honor.

13 THE CLERK: Raise your right hand.

14 **CURTIS DRUMM**, called as a witness
15 herein, having been first duly sworn, was
16 examined and testified as follows:

17 THE CLERK: Please be seated. Please state
18 your name and spell your last name for the record.

19 THE WITNESS: Curtis W. Drumm, D-r-u-m-m.

20 **DIRECT EXAMINATION**

21 BY ATTORNEY KRATZ:

22 Q. Mr. Drumm, if you could sit back just a little
23 bit, you are a little loud. Tell the jury,
24 please, where are you from?

25 A. I live in Manitowoc.

1 Q. And were you asked, on the 4th of November, of
2 2005, to assist law enforcement officers in
3 search efforts for Teresa Halbach?

4 A. Yes, I was.

5 Q. And what were you asked to help with?

6 A. At that point I didn't know the name or anything
7 else, just that I was asked to help search for a
8 missing person.

9 Q. Sometime on the 4th, then, of November,
10 Mr. Drumm, did you assist law enforcement?

11 A. Yes, we went up that afternoon for about two and
12 a half hours.

13 Q. You probably might want to tell the jury what you
14 mean by we went up?

15 A. I'm sorry, we -- they had called and asked if we
16 had an aircraft available. I operate the pilot
17 services at the Manitowoc airport. And our run
18 was called the fix base operator. We rent
19 airplanes, provide flight instruction, things
20 like that.

21 The Sheriff's Department called and
22 noted that they had a missing person and would we
23 have an airplane and pilot available to go up and
24 search several locations that they thought she
25 might have been at. And I said, yes, and we set

1 up a time. They came out in the afternoon.

2 We went up for about two and a half
3 hours starting around 1:30, 2:00 and flew until
4 sometime around 5:00. Went to two different
5 locations in the Manitowoc County area. And then
6 followed a path that took us up toward Green Bay
7 and then back down toward this area here where
8 the home was and then back over to the Manitowoc
9 area.

10 Q. One of the first witnesses that answered all my
11 questions before I even asked them, so.

12 A. I'm sorry, I didn't know what order you wanted
13 it.

14 Q. Trust me, it's pleasant this way, Mr. Drumm. I'm
15 going to have to go back, though. The
16 investigators that you went up with, did those
17 include Sheriff Jerry Pagel from the Calumet
18 County Sheriff's Department, as well as
19 Investigator Wendy Baldwin from the Sheriff's
20 Department?

21 A. Yes, sir.

22 Q. Were you told where to fly; in other words, were
23 you told what locations they were interested in?

24 A. They gave me, I think some latitude longitudes,
25 which I programmed into a GPS. And, of course, I

1 knew nothing of the nature of the investigation.
2 They just told me to go there, that they were
3 looking for a possible car or a person. The
4 first location was relatively near the airport.
5 Am I getting ahead of myself?

6 Q. No, you are doing great. Why don't you tell us
7 that first location -- By the way, do you know
8 whose home, or whose residence, or where that was
9 located?

10 A. They did not tell me, no. It was the vicinity of
11 Highway 310 and Q I believe, about a mile and a
12 half from the airport. We circled over that
13 property and a radius of a couple miles around
14 that area.

15 Q. Let me stop you there, Mr. Drumm. The residence
16 around Highway 310 and Q, was that the first
17 location that they instructed you to look at?

18 A. Yes, sir.

19 Q. Are you familiar, Mr. Drumm, with the Avery Auto
20 Salvage property?

21 A. I was not until following, everything had
22 happened.

23 Q. But are you now, familiar?

24 A. Oh, yes, sir.

25 Q. And was that the first property that they asked

1 you to go search around?

2 A. No, that was the second.

3 Q. All right. So Avery's wasn't even the first
4 place that they asked you to look?

5 A. No, sir.

6 Q. All right. After that first residence, then you
7 were asked to search a second property; is that
8 right?

9 A. That's affirmative. That ended up being the
10 Avery property. We followed roads. Again, they
11 weren't sure why she was missing, so we followed
12 roads and the smaller county highways to see if
13 she had maybe gone off the road or into the ditch
14 or had an accident that wasn't reported or
15 otherwise found. Eventually worked our way up to
16 what's the Avery property.

17 Q. When you say that we were searching, what's all
18 included in an aerial search or a search with an
19 airplane?

20 A. You know, they were the investigators, so they
21 knew what they were looking for. As a pilot, I'm
22 more used to looking at things from the air, so
23 they gave me a description of the vehicle we were
24 looking for, the color and the make and model.

25 And we tried to see if there was any

1 place where that car might have been in a ditch,
2 or an area where it may have been involved in an
3 accident, or if it had been hidden some place, or
4 behind a garage or in front of some trees, or
5 whatever.

6 From above, you have got a lot better
7 perspective of areas, being able to look down
8 through the trees and through different areas.
9 So we tried to find the car.

10 Q. Mr. Drumm, then, not just residences, but you
11 also searched roadways and ditches.

12 A. Roadways, ditches, area farms, behind barns, any
13 place that, you know, she may have gone either on
14 purpose or otherwise. We just tried to identify
15 any places we might assist in finding the car.

16 Q. There's an exhibit in front of you, Exhibit
17 No. 25. I'm going to have the jury look at this
18 at the same time you are. Why don't you tell us
19 what this is, what are we looking at?

20 A. Looks like the salvage yard.

21 Q. And, again, does Exhibit 25, at least from an
22 aerial view, which are views that you are
23 familiar with, does this look the same or similar
24 as it did on or about the 4th of November, of
25 2005?

1 A. Yes, it does. Yeah, there was several adjacent
2 gravel pits to it, forest areas, farm areas.
3 This appears to be the private property we looked
4 at.

5 Q. Okay. Now, I assume, Mr. Drumm, that as we zoom
6 in a little bit on this photograph, is it fair
7 that it would be difficult to pick out a specific
8 car in that location?

9 A. We tried to fly over different aisles and the
10 size of the yard was -- was so expansive and so
11 many vehicles there, it was difficult really to
12 pick out anything of any detail. We were at
13 about 500 feet, which is the FAA minimum for a
14 flight over unpopulated areas. But even from
15 500 feet, it's tough to pick out a specific car.

16 Q. All right. Did you find any vehicle that looked
17 like a blue, or teal, or greenish Toyota RAV4.

18 A. Not that I'm aware of. If the investigators saw
19 something, they didn't tell me.

20 Q. After the Avery property was searched, you said
21 that you went someplace else, could you describe
22 that.

23 A. They had indicated that she might have had some
24 friends up in Green Bay that she might have been
25 meeting with. And we followed primarily the

1 county roads east of I-43, because that's where
2 she would have been coming from, from this, if
3 this had been her last stop. And worked our way
4 up toward Green Bay, again, looking to see if
5 there was anything in ditches or side roads or
6 anything.

7 I questioned why, they said, well, maybe
8 she had an accident, or something hadn't been
9 reported, or was at the side of the road. So we
10 followed the roads all the way up, almost to
11 Green Bay, then turned around and followed the
12 roads on the west side back toward her residence.
13 And, again, searching all the side roads and
14 looking for anything that might have been out of
15 the ordinary.

16 Q. So you were told that the area on or adjacent to
17 the Halbach, that is, the Teresa Halbach
18 residence was also searched; is that right?

19 A. Yes, we spent a fair amount of time in that
20 vicinity, again, looking to see if the car was
21 around, if we could find anything that might help
22 them find the girl.

23 Q. Was there also another property; that is, another
24 residence in Calumet County that you were asked
25 to search around? Do you remember?

1 A. We may have gone -- They may have -- We flew over
2 a lot of areas. Basically, I just flew the
3 airplane and the investigators asked me to go
4 left or go right, to different areas. I didn't
5 question where exactly they were looking, but we
6 spent a fair amount of time in this area
7 looking -- looking at different areas, just
8 points of interest of theirs.

9 Q. And to get right to the question, Mr. Drumm, at
10 least based upon what the investigators told you,
11 was the Avery salvage property the focal point,
12 or the only place that you were looking for
13 Teresa's car?

14 A. No. We spent substantial time looking at other
15 locations.

16 ATTORNEY KRATZ: I would move the admission
17 of Exhibit 25. That's all the questions I have.

18 ATTORNEY STRANG: No objection.

19 THE COURT: Very well. The exhibit is
20 admitted. Mr. Strang.

21 **CROSS-EXAMINATION**

22 BY ATTORNEY STRANG:

23 Q. Good afternoon, Mr. Drumm.

24 A. Hi.

25 Q. Do you know now what the first place was that you

1 flew over near the intersection of 310 and Q?

2 A. They mentioned a name and I don't really recall.

3 They just said that these were locations where

4 she had appointments.

5 Q. Okay. There was a residence?

6 A. There was a residence and several outbuildings,

7 several trees.

8 Q. Rural sort of residences?

9 A. Pardon me?

10 Q. Rural sort of residences?

11 A. Yes.

12 Q. Okay. So you went there, then you flew

13 essentially north to the Mishicot area, to the

14 Avery property?

15 A. Correct.

16 Q. From there, continued north to the Green Bay

17 area?

18 A. Correct. We didn't do the city of Green Bay, we

19 got to the southern outskirts.

20 Q. Following what, 42 or 57?

21 A. We basically followed the east side of I-43.

22 Q. Okay. Back down along the lakeshore?

23 A. No. We came back down on the west side of I-43

24 back toward --

25 Q. Toward Chilton.

1 A. -- toward Chilton.

2 Q. Past Hilbert, St. John?

3 A. Again, kind of zigzagged around from an airplane
4 at 500 to a thousand feet, clear day, you have
5 pretty good visibility.

6 Q. This was on November 4?

7 A. Yes, correct.

8 Q. The plane wasn't equipped with aerial photography
9 equipment?

10 A. No, sir.

11 Q. And, obviously, you were piloting the plane?

12 A. Yes.

13 Q. So, someone else in the plane was taking photos?

14 A. I believe one of the investigators was taking
15 pictures.

16 Q. I mean, not you?

17 A. No.

18 Q. And were these just sort of regular snapshot kind
19 of cameras out the window as you banked?

20 A. Yes.

21 Q. Any videotaping going on on November 4th?

22 A. I'm sorry, I don't recall that.

23 Q. Fair enough.

24 A. I was looking out the front window.

25 Q. I understood that. And, then, as you flew back

1 from Chilton, Hilbert, and the area north of
2 here, back to Manitowoc; was it back to the Avery
3 Auto Salvage, or back to the airport?

4 A. Back to the airport.

5 Q. Okay. Now, the photograph that we have up here
6 is Exhibit 25. As it is set up now, that's a
7 view from substantially above 500 feet above
8 ground level, true?

9 A. From that perspective we would have been -- that
10 looks like higher than 500 feet.

11 Q. Fifteen hundred feet above ground level, probably
12 something like that?

13 A. Depends on the angle of the lens you use, that
14 could have been much lower, if you use a wide
15 enough lens and made it look like that.

16 Q. I'm --

17 A. It's hard to tell.

18 Q. I'm just -- I'm just looking at the size of the
19 buildings and the size of cars. You -- you've
20 been flying for how long?

21 A. Fifteen, twenty years.

22 Q. Okay. Familiar with something called pattern
23 altitude?

24 A. Yes.

25 Q. Ordinarily that's a thousand feet above ground

1 level?

2 A. Correct.

3 Q. Okay. Pattern meaning when you are in a pattern
4 over the airport?

5 A. Right.

6 Q. You have done a lot of flying in the pattern, as
7 they say, at a thousand feet above ground level?

8 A. Correct.

9 Q. You are familiar with the general view of terrain
10 at approximately that altitude?

11 A. Correct.

12 Q. This looks a little bit higher than that?

13 A. If you were at a thousand looking with the naked
14 eye, that -- that's -- that's higher.

15 Q. Okay.

16 ATTORNEY STRANG: Now, maybe with
17 Mr. Kratz's help, we can zoom in just a little bit.

18 ATTORNEY KRATZ: Where would you like me to
19 zoom in?

20 ATTORNEY STRANG: Let's -- Let's go up to
21 the pond. Can we go to -- a little further or do we
22 lose resolution? Okay. Let's work with that.

23 Q. (By Attorney Strang)~ Just give us a perspective
24 of about 500 feet above ground level?

25 A. That's approximately 500.

1 Q. Okay. Which is considered the minimum safe
2 altitude for flying over sparsely populated
3 areas.

4 A. Correct.

5 Q. Now, if -- if -- if -- I realize the window is in
6 the photograph, but this area here, can you see
7 me and see it?

8 A. Yes.

9 Q. Why don't you tell our jurors what you recall
10 this area as being, if you do?

11 A. I don't exactly recall if that's a gravel pit
12 area. There were a lot of gravel pit areas,
13 either active or abandoned. I don't recall what
14 that area was.

15 Q. Just for orientation, though, you recall this as
16 being south; that is, the right edge of this
17 photo as being south?

18 A. I believe so.

19 Q. Okay. What you do remember is there were a lot
20 of gravel pits around the Avery Auto Salvage?

21 A. That's correct.

22 Q. Or quarries?

23 A. Correct.

24 Q. Okay. And whether that's one of them or not, you
25 just don't remember?

1 A. Again, I don't know what I was looking for, so,
2 other than a car.

3 Q. You went up again on November 5 -- or no, on
4 Saturday, November 5, or no?

5 A. Not with law enforcement.

6 Q. Not with law enforcement?

7 A. No, I made other flights, subsequent, once it
8 became apparent what was going on, but not with
9 any law enforcement.

10 Q. With whom did you make other flights over the
11 Avery Auto Salvage property?

12 A. I don't recall.

13 Q. But, I mean, just as a matter of interest while
14 the search for Teresa Halbach was going on?

15 A. The area north of the airport, in that vicinity,
16 is a regular practice area we use with students.
17 It's off the airways. It's not near the airport.
18 It's -- It's an area we use for practicing flying
19 over unpopulated areas.

20 Q. Okay.

21 A. So that wouldn't be in the path of going to some
22 place on a training flight.

23 Q. And, in other words, the flights you did later,
24 to the extent they took you over the Avery Auto
25 Salvage, were unrelated to the search for Teresa

1 Halbach?

2 A. Right, they had nothing to do with it.

3 Q. How much time did you spend in the general
4 vicinity of the Avery Auto Salvage Yard?

5 A. Oh, I would say maybe 15 minutes, 20 minutes.

6 Q. How much time, roughly, over the first residence,
7 Highway 310 and Highway Q?

8 A. Five or ten.

9 Q. And mostly, then, transit time, other than some
10 time circling over Hilbert, St. Johns, that area?

11 A. Correct. And when we did our transit, they
12 weren't straight lines necessarily, we flew
13 around again surveying the side roads trying to
14 see if we could see anything.

15 ATTORNEY STRANG: That's all I have. Oh,
16 I'm sorry, just a moment. That's it. Thank you.

17 THE COURT: Mr. Kratz, any redirect?

18 ATTORNEY KRATZ: No, Judge. Thank you.

19 THE COURT: Very well, the witness is
20 excused.

21 ATTORNEY KRATZ: Steve Schmitz, please.

22 THE COURT: Please raise your right hand.

23 **STEVEN SCHMITZ**, called as a witness

24 herein, having been first duly sworn, was

25 examined and testified as follows:

1 THE CLERK: Please be seated. Please state
2 your name and spell your last name for the record.

3 THE WITNESS: Steven Schmitz,
4 S-c-h-m-i-t-z.

5 **DIRECT EXAMINATION**

6 BY ATTORNEY KRATZ:

7 Q. Mr. Schmitz, where are you from, sir?

8 A. New Holstein, Wisconsin.

9 Q. I'm going to direct your attention to the 31st of
10 October, 2005, ask if you remember that day?

11 A. Yes, I do.

12 Q. And did you make any contact that day with a
13 young woman that you later learned was Teresa
14 Halbach?

15 A. Yes, I did.

16 Q. Tell the jury, please, how it was that you made
17 contact with Ms Halbach?

18 A. I had a car for sale. She contacted me that day.
19 She was going to be here about 1:30. She showed
20 up. She did a photograph of my car. I gave her
21 a check. She gave me a receipt with a bag with
22 information in it and then she left.

23 Q. I'm going to show you what's been received as
24 Exhibit No. 5, ask you if you can direct your
25 attention to the large screen; is this the woman

1 that you made contact with the afternoon of the
2 31st?

3 A. Yes, it is.

4 Q. Mr. Schmitz, how long was it that this
5 transaction occurred; in other words, how long
6 did it take for Ms Halbach to take the
7 photographs, get paid, give you the information
8 and be on her way?

9 A. Ten to fifteen minutes, max.

10 Q. Where did this transaction take place?

11 A. In my driveway.

12 Q. In New Holstein?

13 A. Yeah.

14 Q. You're quite sure it was around 1:30 p.m.?

15 A. Yes, I am.

16 Q. The vehicle that's depicted here in Exhibit No.
17 5, the bluish green SUV, was that the vehicle
18 that Ms Halbach was driving, if you remember?

19 A. Yes.

20 Q. Can you tell the jury, please, how Ms Halbach was
21 dressed that day, if you remember?

22 A. She had blue jeans on, button up white blouse and
23 a spring jacket, waist length. I believe it was
24 blue in color.

25 Q. I don't expect you to know this, Mr. Schmitz, but

1 I will ask it any way. Do you know what kind or
2 what brand of blue jeans she was wearing?

3 A. No.

4 Q. How long did you say the jacket was that she had
5 on?

6 A. I would say about waist length. It was like a
7 summer jacket.

8 Q. How was she paid, if you remember?

9 A. I gave her a check.

10 Q. After Ms Halbach concluded her transaction with
11 you, do you know which way she left, which way
12 she drove?

13 A. She headed north on Highway A.

14 Q. And for those of us not familiar with the New
15 Holstein area, does going north on Highway A
16 intersect with any large roads that we would
17 know?

18 A. It was formerly Highway 149, now I believe it's
19 HH.

20 Q. What's north of that, is what I'm asking?

21 A. 151, if you keep going north.

22 Q. 151 would be the main road or the main trunk road
23 between would be Chilton and the Calumet County
24 area and Manitowoc; is that right?

25 A. Yes.

1 Q. Ms Halbach appear upset to you when you met with
2 her?

3 A. No. Very friendly and very polite.

4 Q. The information or the papers that she left with
5 you; do you recall those? Can you describe them?

6 A. Yeah, one was a for sale sign. There was a book
7 that was the *Auto Trader* and then there was like
8 a contract, if you were to sell your vehicle, how
9 to fill it out properly, like a sales receipt.

10 Q. So a receipt and an *Auto Trader Magazine*; is that
11 right?

12 A. Right.

13 Q. Do you recall what this receipt looked like?

14 A. It was a larger white thing probably 6 by 8
15 square, just a common receipt.

16 Q. Do you know what it was called? You didn't keep
17 it, did you?

18 A. No. No.

19 ATTORNEY KRATZ: I think that's all I have
20 of Mr. Schmitz. Thank you, Judge.

21 THE COURT: Mr. Strang.

22 **CROSS-EXAMINATION**

23 BY ATTORNEY STRANG:

24 Q. Mr. Schmitz, just generally, where is New
25 Holstein in relation to, let's say the city of

1 Manитowoc?

2 A. Oh, quite a ways away, I would say probably
3 35 miles.

4 Q. Is it west, southwest?

5 A. West, yeah, southwest.

6 Q. That is, New Holstein is west and a little south
7 of Manitowoc?

8 A. I'm actually south of New Holstein.

9 Q. Okay. Fair enough. The car you had was at your
10 house, as you said?

11 A. Yes.

12 Q. But you owned that jointly with another
13 gentleman?

14 A. Yes, I did.

15 Q. His name is Craig Sippel?

16 A. Yes.

17 Q. Mr. Sippel is the one who actually called and
18 made the appointment with Auto Trader?

19 A. Yes.

20 Q. And gave your address presumably --

21 A. Yes.

22 Q. -- as the place for the photo shoot?

23 A. Right.

24 (Court Reporter couldn't hear.)

25 A. The car is stored in my shed.

1 Q. In your shed?

2 A. Yes.

3 Q. You may need to swing your mike a little closer
4 to you, or you a little closer to it. If you get
5 too close it gets too loud, a delicate balance.
6 Mr. Sippel is a friend of yours?

7 A. Yes.

8 Q. You know him well?

9 A. Yes.

10 Q. He wasn't trying to lure a photographer to your
11 house by using his name when he called *Auto*
12 *Trader* asking for someone to come to your
13 residence?

14 A. No.

15 Q. Thanks.

16 ATTORNEY STRANG: That's all I have got.

17 THE COURT: Very well.

18 ATTORNEY KRATZ: Judge, if I could ask one
19 follow up question.

20 THE COURT: Yes.

21 **REDIRECT EXAMINATION**

22 BY ATTORNEY KRATZ:

23 Q. Mr. Schmitz, do you recall the date that law
24 enforcement came and asked you questions
25 regarding your contact with Ms Halbach?

1 A. Like a day or so after. I'm not positive. They
2 contacted me to make sure that she was there and
3 I said, yes, she was.

4 ATTORNEY KRATZ: That's all I have. Thank
5 you, sir.

6 THE COURT: You are excused.

7 THE WITNESS: Thank you.

8 ATTORNEY KRATZ: State will call JoEllen
9 Zipperer to the stand.

10 THE CLERK: Please remain standing, raise
11 your right hand.

12 **JOELLEN ZIPPERER**, called as a witness
13 herein, having been first duly sworn, was
14 examined and testified as follows:

15 THE CLERK: Please be seated. Please state
16 your name and spell your last name for the record.

17 THE WITNESS: My name is JoEllen Zipperer,
18 Z-i-p-p-e-r-e-r.

19 **DIRECT EXAMINATION**

20 BY ATTORNEY KRATZ:

21 Q. Good afternoon, Mrs. Zipperer. The questions
22 that I have for you relate to incidents that
23 occurred on the 31st of October of last year,
24 2005. Let me first ask you, Mrs. Zipperer, where
25 do you live?

1 A. 4433 County Trunk B in Manitowoc.

2 Q. Is that residence near any intersections, any
3 major roads?

4 A. Near 310 and B.

5 Q. So your residence is near Highway 310; is that
6 right?

7 A. Yes.

8 Q. Who do you live there with, Mrs. Zipperer?

9 A. My husband and my daughter and my grandson.

10 Q. If we all promise not to call you, Mrs. Zipperer,
11 could you give us your home telephone number,
12 please?

13 A. 682-5719.

14 Q. Thank you. On the 31st of October, 2005, do you
15 remember having contact with a young lady at your
16 residence?

17 A. Yes, I do.

18 Q. First of all, could you tell the jury about what
19 time you had contact with this young lady?

20 A. Mid-afternoon.

21 Q. Do you know any closer time to that, anything
22 more specific, or do you not recall?

23 A. Not exactly, I think it was maybe around 3:00.
24 I'm not sure exactly. I was outside working, so.

25 Q. Do you know for sure, or are you guessing, Mrs.

1 Zipperer?

2 A. I'm just estimating that it was around
3 mid-afternoon.

4 Q. Okay. Could you tell me what this young lady
5 looked like?

6 A. She was shorter than I am. She was slender,
7 petite, young.

8 Q. Did you have any conversation with this young
9 lady?

10 A. Yes, I did.

11 Q. Do you know why she was there or can you tell the
12 jury why she was there?

13 A. She was taking a picture of a car that we had for
14 sale.

15 Q. Did this young lady identify herself; did she
16 tell you what her name was?

17 A. I don't remember that she told me her name.

18 Q. After watching the news, or a couple days after
19 having contact with this young woman, did you
20 find out or figure out who it was that was at
21 your residence?

22 A. Yes.

23 Q. And do you remember who that was?

24 A. Yes.

25 Q. Who was that?

1 A. It was Teresa Halbach.

2 Q. I show you a picture which has been received as
3 Exhibit No. 5, just so that we're all sure, if
4 you look to your right, is that the young lady
5 that was at your residence on the 31st?

6 A. Yes, it was.

7 Q. Mrs. Zipperer, can you tell the jury if you
8 remember what this young lady was wearing?

9 A. She was wearing a dark jacket, waist length. I
10 think she had jeans and she had brown hiking
11 boots. Hiking shoes, not boots. They were
12 shoes.

13 Q. All right. When you had contact with this young
14 lady, how long was it that you spoke with her?

15 A. About 15 minutes she was there.

16 Q. After taking the pictures or after finishing her
17 business there, can you tell me what she did?

18 A. She came to talk to me, with some papers. She
19 told me that I should give them to my husband and
20 he should look them over and decide if he wanted
21 to go ahead and put the car in the magazine. And
22 if he did, the picture would be already taken and
23 then all he had to do was call her the next day
24 or whenever he decided to put it in the paper,
25 the magazine.

1 (Exhibit No. 26 marked for identification.)

2 Q. Mrs. Zipperer, I have handed you what's been
3 marked for identification as Exhibit No. 26.

4 It's a bag full of materials; do you recognize
5 that bag?

6 A. Yes.

7 Q. And do you recognize the materials or the papers
8 that are inside of it?

9 A. Yes.

10 Q. Were those the materials or the papers that
11 Teresa Halbach left for you or gave to you after
12 you had your transaction with her?

13 A. Yes.

14 Q. You can just kind of pick one of those things up.
15 First of all, let's start with the *Auto Trader*
16 *Magazine*; is there a magazine in there? Is that
17 right?

18 A. Mm-hmm.

19 Q. Would you show that to the jury, please.

20 (Witness shows the jury.)

21 Q. Is there something in those papers called a bill
22 of sale?

23 A. Yes.

24 Q. Would you show that to the jury, please.

25 (Witness shows the jury.)

1 Q. And is there also a for sale sign in there?

2 A. Yes.

3 Q. Could you show us that, please.

4 (Witness shows the jury.)

5 (Exhibit No. 27 marked for identification.)

6 Q. You can put them back into the bag, if you will.

7 I have now given you what's been marked as

8 Exhibit No. 27. It's a photograph, but it may be

9 a little easier for the jury to see what we're

10 talking about. Can you tell us what Exhibit 27

11 is, please.

12 A. I'm not sure what this is.

13 Q. You don't know what that's a photograph of?

14 ATTORNEY STRANG: I don't have any quarrel

15 that it's a photograph of the items in Exhibit 26.

16 Q. (By Attorney Kratz)~ You were just holding those

17 items, weren't you, in Exhibit 26; isn't this a

18 picture of the things that are in Exhibit 26?

19 A. Oh, yes.

20 Q. A for sale sign, a bill of sale and an *Auto*

21 *Trader Magazine*?

22 A. Yes.

23 ATTORNEY KRATZ: Thank you, counsel.

24 Q. (By Attorney Kratz)~ Mrs. Zipperer, after

25 speaking with this young woman, did she tell you

1 where she was going, where she was heading next?

2 A. No, she didn't.

3 Q. How long was she there?

4 A. About 15 minutes.

5 Q. This young lady seem upset to you?

6 A. No.

7 Q. How was her demeanor; in other words, how did she
8 act towards you?

9 A. She was very nice. She was pleasant and
10 friendly. She smiled, a couple things we talked
11 about, she smiled.

12 Q. Now, prior to her arrival, Mrs. Zipperer, do you
13 recall receiving a phone call from this young
14 lady?

15 A. That day?

16 Q. Yes.

17 A. She left a message that she was having trouble
18 finding our house, but I was outside so I didn't
19 hear it until later, after she was gone. But she
20 found the place. She just told me that she was
21 having trouble finding it. And then she asked me
22 if that was the right house. I said, yes. And
23 she asked me if it was okay if we took a picture
24 of the car. And then I showed her how to get to
25 it. And then she went by herself to take the

1 picture.

2 Q. When she told you that she found the place or
3 when she indicated that she had been lost before
4 she got there; did she indicate how long she was
5 looking for your residence or how long she had
6 called you before she got there, anything like
7 that?

8 A. No, she didn't.

9 Q. Now, was this a vehicle that you were selling or
10 somebody else?

11 A. My grandson was selling it.

12 Q. So you didn't have anything to do with the sale
13 of this car; is that right?

14 A. No.

15 Q. You were just the one that spoke with Ms Halbach;
16 is that right?

17 A. Yes.

18 Q. Did you see her leave?

19 A. No, I did not see her leave.

20 Q. Mrs. Zipperer, after your brief contact with Ms
21 Halbach, did you have any further discussion with
22 her or did you ever talk to this young lady
23 again?

24 A. No, I did not.

25 ATTORNEY KRATZ: I think that's all I have,

1 Q. I'm sorry. This is a strange place, nods of
2 heads don't work as well here as they do outside.
3 So you didn't hear the message until sometime
4 later, after she left?

5 A. In the evening I heard it.

6 Q. So I guess mid-afternoon could have been 2, 2:30
7 possibly?

8 A. Could have been.

9 Q. Could have been 3:00?

10 A. Could have been.

11 Q. Could have been 3:30 or a little after that,
12 something like that, but sometime in the middle
13 of the afternoon?

14 A. Yes.

15 Q. That's the best you can do for us today?

16 A. Yes.

17 Q. Okay. Fair enough. And what sort of yard work
18 was keeping you busy that afternoon?

19 A. I was outside raking.

20 Q. So it's the kind of thing where either you
21 weren't wearing a watch or you weren't worrying
22 about the time?

23 A. No, I don't wear a watch.

24 Q. Now, you folks are -- your address is actually on
25 County Highway B?

1 A. Right.

2 Q. County road B. Okay. Mr. Kratz may have asked
3 you this and I was jotting a note and maybe
4 didn't hear it, but if you continue going north
5 on county road B; do you come to Highway 147?

6 A. Right.

7 Q. Not too far away, right?

8 A. It's about 10 minutes from our house.

9 Q. To the north of B, right?

10 A. Yes.

11 Q. And if you go left on 147, before too long, do
12 you come to the Avery Auto Salvage on your left?

13 A. I don't know where that is. I was never there.

14 Q. Okay. All right. Are you -- At county road B
15 and Highway 147; is that roughly the Mishicot
16 area?

17 A. Right.

18 Q. And you are pretty much due north of the City of
19 Manitowoc?

20 A. Right.

21 Q. All right. Now, you didn't see from which
22 direction this young woman came to your house?

23 A. No, I didn't.

24 Q. You didn't see which direction she left your
25 house from?

1 A. I did not.

2 Q. Okay. You came in for supper time?

3 A. I did?

4 Q. Yes, back to the house.

5 A. Yes.

6 Q. And your husband, George, came home?

7 A. Yes.

8 Q. Your grandson, this was his car?

9 A. Yes.

10 Q. His name is Jason?

11 A. Yes.

12 Q. He was home too?

13 A. I'm not sure when he came home.

14 Q. Sometime that evening, or in any event he stays
15 with you?

16 A. Yes.

17 Q. Okay. Were you -- Were you there, nearby, on the
18 evening of November 3, 3 days after this,
19 Thursday, November 3, sometime shortly after
20 supper when your husband, George, got a telephone
21 call from a sheriff's detective?

22 A. I could have been.

23 Q. Do you remember that call?

24 A. I think so.

25 Q. Actually -- And then later on in the evening,

1 pretty late, about 9:40 at night, a second call
2 came in from a sheriff's detective?

3 A. Yes.

4 Q. Someone in Calumet County both times? Do you
5 remember that?

6 A. I don't remember which one it was.

7 Q. But George was on the phone both times?

8 A. Yes.

9 Q. And the first one, do you remember George raising
10 his voice and getting angry?

11 A. At the first one?

12 Q. Yes.

13 A. He could have.

14 Q. When you say he could have, I'm wondering whether
15 you remember that or that just sounds like
16 something George might do on a bad day?

17 A. Yes, he does raise his voice sometimes.

18 Q. Do you remember that occasion when the sheriff's
19 detective called from Calumet and George raised
20 his voice on the phone?

21 ATTORNEY KRATZ: Judge, I'm sorry, I didn't
22 know that Mrs. Zipperer was involved in this call.
23 Did she testify that she knew who was on the phone?

24 ATTORNEY STRANG: Yes.

25 THE COURT: I believe she did.

1 ATTORNEY STRANG: Right.

2 Q. (By Attorney Strang)~ And Mrs. Zipperer, you

3 weren't on the phone yourself?

4 A. No.

5 Q. But you were near George on his end, I mean, you

6 were in the room or near George while he was on

7 the phone?

8 A. I could have been in the house. I don't remember

9 exactly which call. I don't listen always to

10 what he talks to.

11 Q. Mm-hmm. But do you remember a time when there

12 was a great deal of news about Teresa Halbach

13 being missing?

14 A. Yes.

15 Q. All right. So this would have been that very

16 night that it first made the news, three days

17 after she was to your home, that Thursday; do you

18 have that --

19 A. Yes.

20 Q. -- evening in mind?

21 A. Yes.

22 Q. And I take it it's not often that a detective

23 calls from the sheriff's department to your home?

24 A. No.

25 Q. Do you remember hearing your husband, George,

1 after he raised his voice into the telephone,
2 threatening that he was going to call his
3 attorney?

4 ATTORNEY KRATZ: I'm going to object; this
5 is clearly hearsay.

6 THE COURT: Let's -- Mr. Strang.

7 ATTORNEY STRANG: I'm not offering it for
8 the truth; I'm offering it for the fact that it was
9 said.

10 THE COURT: I'm not sure I discern the
11 difference. You are offering it for -- because of
12 the fact it was said.

13 ATTORNEY STRANG: Yeah, the verbal acts.
14 In fact, I intend to show these were not the truth
15 -- were not being offered for the truth.

16 THE COURT: Well, let's -- I'm not -- Let's
17 step back a second. Foundationally, I know the
18 witness testified about being aware of some calls,
19 but I'm not sure if I'm tracking that she remembers
20 a specific caller being there. So why don't you
21 step back.

22 ATTORNEY STRANG: Sure. That's fair
23 enough.

24 Q. (By Attorney Strang)~ And I understand this is
25 the better part of a year and a half ago, but do

1 you remember your husband receiving a call on
2 Thursday evening, November 3, 2005, which was the
3 night that the news first reported Teresa Halbach
4 missing?

5 A. I don't remember a specific date, no.

6 Q. Do you remember the phone call that I'm
7 describing?

8 A. I remember him talking to someone, but I don't
9 know when.

10 Q. Okay.

11 (Court reporter couldn't hear answer.)

12 A. I don't know if I know who he was talking to.

13 Q. Okay. And I'm not asking for the name of the
14 other person. I understand you weren't on the
15 phone. But this was the night that he would have
16 received two phone calls, two separate phone
17 calls from an investigator --

18 ATTORNEY KRATZ: Judge, I'm going to
19 object. I want to be heard outside the presence of
20 the jury. Counsel is testifying.

21 THE COURT: All right. We'll excuse the
22 jury for a few minutes.

23 (Jury not present.)

24 THE COURT: All right. Mr. Kratz.

25 ATTORNEY KRATZ: Thank you, Judge. This is

1 clearly a hearsay. And counsel injecting the facts
2 in front of this jury, making comments like this is
3 the night that the two investigators called you, not
4 only calls for a hearsay response, but Mr. Strang is
5 offering the testimony in lieu of this witness.

6 I don't see any exception to the hearsay
7 rule. It is for the truth of the matter
8 asserted, even if Mr. Strang's relevancy, if
9 there is any, is the fact that an investigator
10 called suggesting the fact that it was an
11 investigator on the phone, elicits that hearsay
12 response. It is improper, Judge.

13 THE COURT: Mr. Strang.

14 ATTORNEY STRANG: Why don't we excuse the
15 witness so that we're not tainting her testimony by
16 my response.

17 THE COURT: All right. Mrs. Zipperer, can
18 you step out in the hall for a minute.

19 (Witness leaves the courtroom.)

20 THE COURT: Mr. Strang.

21 ATTORNEY STRANG: Thank you. First of all,
22 I am leading the witness, this being
23 cross-examination I'm suggesting to her the answer.
24 The basis, a good faith basis, for the questions is
25 indisputable.

1 I have one report from Corporal Lemieux
2 of the Calumet County Sheriff's Department
3 documenting her phone call. She doesn't give a
4 time of the actual call; she only tells us that
5 about 5:00 on Thursday, November 3, 2005, is when
6 she begins working on the missing person
7 investigation and then writes a report that sort
8 of logs her activities that -- that evening. One
9 of them being a call with Mr. Zipperer in which
10 he becomes belligerent on the telephone.

11 And then I have the report of
12 Investigator John Dederling of the Calumet County
13 Sheriff's Department documenting his call later
14 that same evening. He places the call at
15 approximately 9:40 p.m. on Thursday, November 3,
16 2005, and describes, verbatim. His report says
17 George was extremely belligerent initially and
18 goes on from there.

19 I don't intend to offer Mr. Zipperer's
20 comments for their truth. Indeed, the intent is
21 to show that Mr. Zipperer told, first, Corporal
22 Lemieux and, then, Investigator Dederling, a
23 series of lies about his own activities; about
24 Jason's activities; about whether the *Auto Trader*
25 photographer was a trespasser on the property.

1 Threatened to have the dog eat anyone who would
2 come on the property; wanting Teresa Halbach
3 arrested even after being told that she was a
4 missing person; denying that he had contacted
5 *Auto Trader* or arranged for photographs of the
6 car.

7 So what I'm interested in is eliciting,
8 not for the truth, but as relevant verbal acts,
9 these statements that I believe she would have
10 overheard.

11 THE COURT: Mr. Kratz.

12 ATTORNEY KRATZ: Judge, the fact that
13 Mr. -- Well, first of all, the fact that Mr. Strang
14 has to ask this witness who she was talking to, that
15 alone calls for a hearsay response, so there isn't
16 any foundation. But the relevance, even if there
17 was a hearsay exception, to the fact that
18 Mr. Zipperer flies off the handle or indicates that
19 Ms Halbach was a trespasser, or some other reason, I
20 fail to see. And for both of those reasons, would
21 ask that this question be excluded.

22 ATTORNEY STRANG: Now, she herself meets
23 with Investigator Dederling later that evening at
24 what he marks as 9:53 p.m. So he physically, then,
25 comes to the residence, Investigator Dederling does.

1 He talks with her, as well as her husband. So,
2 again, that's why I believe she's there. And that's
3 the background.

4 THE COURT: I think I understand the --
5 your objection to the hearsay exception being that
6 you are not offering the statements for the truth of
7 the matter asserted. But what's the relevance?

8 ATTORNEY STRANG: The issue here is whether
9 the people investigating Teresa's death investigated
10 without bias, investigated objectively, sort of
11 followed the evidence where it led them.

12 When somebody who was, essentially,
13 evenly placed with Mr. Avery, that is, both known
14 to be appointments on the afternoon that Teresa
15 Halbach is last seen; when that person becomes
16 belligerent and uncooperative with the police,
17 continues to be bellicose and uncooperative when
18 told that this is a missing person and that the
19 police need help; and then tells the police a
20 series -- not one, not two, but a whole series of
21 lies; it's relevant to whether the police, then,
22 pursued that and said, gosh, we have somebody who
23 would have been one of the last people to see her
24 and he's lying to us about just about everything
25 that's coming out of his mouth.

1 He is hostile. He is uncooperative.
2 Perhaps he is worthy of some further
3 investigation. I intend to show later that, in
4 fact, Mr. Zipperer got little or no further
5 investigation.

6 THE COURT: Mr. Kratz.

7 ATTORNEY KRATZ: He can ask the police
8 that, Judge. It shouldn't come in through
9 Mrs. Zipperer, or call George Zipperer.

10 ATTORNEY STRANG: I don't know that I --
11 that I need to call witnesses to do this. Now, if
12 he would rather I ask the police -- and, obviously,
13 if Mrs. Zipperer really does not remember her
14 husband's end of the conversation, then I will do
15 it, with Investigator Dederling. I mean, I'm not --

16 THE COURT: Is the investigator going to be
17 testifying for the State?

18 ATTORNEY KRATZ: He's right outside the
19 door, Judge. He is probably going to be my next
20 witness, with this line of questioning.

21 THE COURT: Given how little the witness
22 appears to remember about the conversation, I'm not
23 sure that it's necessary for the Court to rule on
24 the objection. And if we have got other people here
25 who are firsthand, maybe, Mr. Strang, if they say

1 something that you feel this witness somehow might
2 be in a position to clear up, you can consider
3 bringing her back. But I don't see at this stage,
4 based on what I have heard so far, that she
5 remembers enough about it to offer anything
6 probative.

7 ATTORNEY STRANG: And I will understand
8 completely and entirely accept Mr. Kratz's polite
9 refusal to answer this question, but I will ask -- I
10 will put it to the Court and the Court can require
11 Mr. Kratz, if it wishes, whether the State expects
12 to call Corporal Lemieux.

13 ATTORNEY KRATZ: I don't know.
14 Mrs. Zipperer is not done and I have some questions
15 as well, so.

16 THE COURT: Is Mr. Zipperer scheduled to be
17 testifying?

18 ATTORNEY KRATZ: He's on the witness list;
19 I don't intend to call him. It would be cumulative
20 for what Mrs. Zipperer is saying.

21 THE COURT: Well, at any rate, at this
22 stage, Mrs. Zipperer doesn't seem to remember enough
23 about the conversation. I think it's time to move
24 on.

25 ATTORNEY STRANG: And that's fair and I

1 understand I can do this through Investigator
2 Dederling. I didn't have anything else for
3 Mrs. Zipperer, so I can pass this back to redirect
4 when the jury --

5 THE COURT: Very well.

6 ATTORNEY STRANG: -- is called back.

7 THE COURT: Mr. Kratz, you do have a few
8 questions?

9 ATTORNEY KRATZ: Just since Mr. Strang
10 brought up her memory about the time, she does have
11 a written statement about that.

12 THE COURT: All right. We'll bring the
13 jury back in. We can bring the witness back in.
14 Mr. Strang, I will ask you, for the record when the
15 jury comes back in, if you have any further
16 questions.

17 ATTORNEY STRANG: Sure.

18 (Jury present.)

19 THE COURT: You may be seated. Mr. Strang,
20 do you have any further questions for this witness.

21 ATTORNEY STRANG: I do not have any further
22 questions on cross-examination. Thank you, your
23 Honor.

24 THE COURT: Mr. Kratz.

25 ATTORNEY KRATZ: Just briefly.

REDIRECT EXAMINATION

1
2 BY ATTORNEY KRATZ:

3 Q. Mrs. Zipperer, after Teresa Halbach went missing,
4 do you recall being interviewed yourself by an
5 investigator with the Calumet County Sheriff's
6 Department whose name was John Dederer?

7 A. I don't remember his name, but I was interviewed.

8 Q. A bald fellow, remember being interviewed by?

9 A. I can't remember if he was bald.

10 Q. All right. Mr. Strang asked you if today you
11 recall the approximate time that Teresa was at
12 your residence. And I believe, with Mr. Strang,
13 you indicated that it was sometime in the
14 afternoon, sometime in the later afternoon. Is
15 that what you told him today?

16 A. Mid-afternoon.

17 Q. Do you recall providing Investigator Dederer
18 with a written statement wherein you indicated
19 the time that Teresa was out to your property?

20 A. I remember that day, yes.

21 Q. Do you remember what you wrote in that statement?

22 A. Not everything.

23 Q. If I showed you that statement, would that help
24 refresh your memory about the time that she was
25 there?

1 A. Right. I think I have to have my other glasses,
2 though.

3 Q. I'm sorry?

4 A. Julie has my reading glasses.

5 ATTORNEY KRATZ: We'll get those. In come
6 the reading glasses.

7 THE WITNESS: I'm sorry.

8 Q. (By Attorney Kratz)~ Now, Mrs. Zipperer, I don't
9 want you to say anything, but I want you to just
10 look at your written statement, that's Exhibit
11 No. 28 that's been put in front of you. I want
12 you to just read it to yourself.

13 Mrs. Zipperer, my associate is going to
14 take that exhibit from you, going to take that
15 away from you. And now I'm going to ask you, if
16 after reading that statement if that refreshes
17 your recollection about when Teresa was out to
18 visit you that day?

19 A. Yes, it does.

20 Q. And what time, then, was she out to see you that
21 day?

22 A. Between 2 and 2:30.

23 ATTORNEY KRATZ: That's all I have got,
24 Judge. Thank you.

25 THE COURT: Mr. Strang, anything on

1 recross?

2 ATTORNEY STRANG: I do.

3 **REXCROSS-EXAMINATION**

4 BY ATTORNEY STRANG:

5 Q. The piece of paper that the prosecution just
6 showed you, that actually was something written
7 by the police officer, correct?

8 A. Right. I just told him and he wrote it down.

9 Q. He wrote it down and then you signed it at the
10 bottom?

11 A. Yes.

12 Q. And you wrote the date on it?

13 A. Yes.

14 Q. And that was, oh, six days or so after the young
15 woman had come to your house?

16 A. I don't remember the date that was on there.

17 Q. Okay. It says November 6th, you don't have any
18 reason to doubt that, do you?

19 A. No.

20 Q. Okay. And when the police officer asked you
21 about time, were you doing what you were doing
22 today, which is giving your best estimate of when
23 this young woman showed up while you were raking
24 leaves in the yard?

25 A. No, I probably -- I was -- That was right because

1 I was -- I just couldn't remember right today
2 what exactly time it was.

3 Q. Okay. But as I understood, you don't wear a
4 watch?

5 A. No, I don't.

6 Q. You weren't wearing a watch on Halloween, 2005?

7 A. No.

8 Q. You were out in the yard raking leaves?

9 A. Right.

10 Q. And at that time, do you remember whether he
11 suggested 2 to 2:30 or do you know why he wrote
12 that down?

13 A. That's what I thought it was on that day.

14 Q. And as you sit here today, is that your best
15 recollection, or mid-afternoon?

16 A. What was on the paper, 2 to 2:30.

17 Q. Okay. You are going to go with the paper?

18 A. Right.

19 Q. Okay. Thank you.

20 ATTORNEY KRATZ: Thank you.

21 THE COURT: All right. Mrs. Zipperer, you
22 are excused.

23 ATTORNEY KRATZ: May we approach, Judge.

24 THE COURT: Yes.

25 (Side bar taken.)

1 ATTORNEY KRATZ: State will call Ryan
2 Hillegas, your Honor.

3 Janet, has 27 been received?

4 THE CLERK: Yes.

5 ATTORNEY KRATZ: I move 28, Judge, although
6 I'm quite certain it won't be received in its
7 entirety, but to complete the record I think that it
8 needs to be.

9 THE COURT: That is the last witness'
10 written statement?

11 ATTORNEY STRANG: Yeah, it was just used to
12 refresh recollection.

13 ATTORNEY KRATZ: Just -- Just for the
14 purposes that it was used, Judge.

15 ATTORNEY STRANG: I don't think it gets
16 admitted, but the record is clear that it was used;
17 it was Exhibit 28.

18 THE COURT: So I'm not being asked to admit
19 it, correct?

20 ATTORNEY KRATZ: Not -- No, not in its
21 entirety, you are asked to receive it not to admit.

22 THE COURT: Very well, I will receive it.

23 THE CLERK: Please raise your right hand.

24 **RYAN HILLEGAS**, called as a witness
25 herein, having been first duly sworn, was

1 examined and testified as follows:

2 THE CLERK: Please be seated. Please state
3 your name and spell your last name for the record.

4 THE WITNESS: Ryan Hillegas, last name is
5 H-i-l-l-e-g-a-s.

6 ATTORNEY KRATZ: You can back up just a
7 little bit, Mr. Hillegas, since the microphone is
8 certainly loud enough for you.

9 **DIRECT EXAMINATION**

10 BY ATTORNEY KRATZ:

11 Q. Mr. Hillegas, did you know a woman by the name of
12 Teresa Halbach?

13 A. Yes.

14 Q. How did you know Teresa?

15 A. I guess she was a long time friend. We had dated
16 for five years or so, end of high school and
17 early part of college.

18 Q. At some point, did you and Ms Halbach stop being
19 boyfriend/girlfriend?

20 A. Yes.

21 Q. Did you remain on friendly terms with her?

22 A. Yes.

23 Q. How often would you speak with her?

24 A. Maybe once every week, sometimes every couple,
25 but definitely kept in touch every week or two.

1 Q. During the time period of October, 2005, were you
2 aware of Ms Halbach's living arrangements?

3 A. Yes.

4 Q. And what were they, if you recall?

5 A. She lived in a house with a friend of ours, Scott
6 Bloedorn.

7 Q. Scott was also a friend of yours; is that right?

8 A. Yes.

9 Q. And was it your understanding that Scott and
10 Teresa had any kind of a romantic relationship?

11 A. No, no romantic relationship.

12 Q. Just roommates?

13 A. Just roommates.

14 Q. Mr. Hillegas, are you familiar with how close the
15 residence that Teresa lived in was to her
16 parents' house?

17 A. Yes.

18 Q. Where was it?

19 A. Her parents lived roughly a quarter mile down the
20 road.

21 Q. And are you also familiar with the vehicle that
22 Teresa drove at the time?

23 A. Yes.

24 Q. Could you tell us about that vehicle, please?

25 A. It was a Toyota RAV4, a blue-green color,

1 combination blue-green.

2 Q. I show you what's been received as Exhibit No. 5;
3 it's on the large screen. Is that the -- both
4 the photograph of Teresa Halbach and also her
5 RAV4?

6 A. Yes.

7 Q. Mr. Hillegas, when was the first time that you
8 heard that your friend, Teresa, had gone missing?

9 A. It was Thursday, after Halloween, which would
10 have made it the 3rd, I believe, of November,
11 then.

12 Q. And on November 3rd, can you tell the jury what
13 you did, please?

14 A. Yeah, in the afternoon, I believe it was, I'm
15 going to say around 3:00 or so, Scott had called
16 me and said that Teresa's dad had went over and
17 asked if he had seen Teresa. And Scott called me
18 and I went over to the house that afternoon.

19 Basically, tried digging up any
20 information on where she might be. We started
21 calling her friends. We found a list of her
22 friends on her computer with all their numbers.
23 So we started calling all them to see if anybody
24 had whereabouts. And then after that we printed
25 off her cell phone records off the internet, just

1 to see what calls she had made, or other numbers
2 of friends we could find on there.

3 Q. Let me just stop you at that point.

4 Mr. Hillegas, finding her cell phone records, how
5 does something like that occur? How did you do
6 that?

7 A. Well, there were a couple of us that tried
8 figuring it out. Basically figured out her
9 password and made up a user name that worked and
10 got into her phone records and printed it right
11 off.

12 Q. Had you known at that time that she hadn't been
13 seen since the 31st of October?

14 A. Basically, I knew that she was missing. I didn't
15 know she hadn't been seen by anybody. But I knew
16 that -- knew that she was missing or decided that
17 she was missing at that point.

18 Q. After printing off or getting access to her cell
19 phone records, I assume to her account, through
20 her cell phone provider; were you able to provide
21 that information to law enforcement authorities?

22 A. Yes.

23 Q. You said that you had called some people; what
24 kind of calls were you making?

25 A. Well, the -- I mean, we called all her friends

1 and basically just said that, you know, we
2 haven't seen her, and wondering whereabouts.
3 None of those people really turned anything up
4 for us. And, then, we had called a good list of,
5 like, the last numbers she had called and numbers
6 on her phone.

7 Q. Now, on the 3rd -- By the way, that would be the
8 first day that she had been reported missing; is
9 that your understanding?

10 A. Yes.

11 Q. On the 3rd, were there other friends or other
12 family members who were assisting you in the
13 search effort?

14 A. Yes. Yeah, it was me, Scott Bloedorn, one of her
15 girlfriends, Kelly Bitsen (phonetic) came over.
16 I believe a little later another friend, named
17 Lisa, was over as well.

18 Q. About how long that evening did you work on this
19 project?

20 A. Well, for the good portion of the night,
21 probably, I guess, until midnight, 1:00. We were
22 calling friends and other people we didn't get a
23 hold of and people that were finally returning
24 calls later. Better portion of the night.

25 Q. The next day, the 4th, Friday, the 4th of

1 November; did you become, again, actively
2 involved in the search for Teresa?

3 A. Yes.

4 Q. Tell the jury what you did, please.

5 A. Yeah, that afternoon, you know, it was probably
6 late morning, but I had talked to the family.
7 And they had arranged with the missing persons
8 organization out of Appleton; they were printing
9 up fliers, missing person fliers. And they just
10 asked me if I could pick them up and arrange, you
11 know, how we would get them out.

12 That was kind of the afternoon. I went
13 and picked up the posters, probably early
14 afternoon, noon, 1:00. And when I had gotten
15 back, then, to Teresa's house, there was a good
16 number of family members and friends who were
17 waiting to, basically, find out what they can do
18 and go pass the fliers out.

19 Q. I will show you what's been received as Exhibit
20 No. 10; are these the missing person posters that
21 you are talking about?

22 A. Yes.

23 Q. About how many of those posters did you assist in
24 not only having produced, but in distributing?

25 A. I'm going to estimate, but probably, geez,

1 somewhere -- I don't know, probably between a
2 thousand and 2,000, maybe 3,000. They were all
3 over the place, I guess.

4 Q. Did you receive assistance from her employer, or
5 at least one of her employers, *Auto Trader*
6 *Magazine*?

7 A. To handle the fliers?

8 Q. Just to get information from them.

9 A. I never spoke with anybody from *Auto Trader*.

10 Q. Okay. An organization that did help you, though,
11 and it's up in the top left hand corner of this
12 exhibit, is something called YES, Youth Educated
13 in Safety; is that right?

14 A. Yes.

15 Q. This missing persons search organization, did
16 they provide you with some technical and other
17 assistance?

18 A. Yes.

19 Q. The distribution efforts, that is, getting these
20 posters out; who was in charge of that?

21 A. I guess I was kind of the unofficial leader,
22 coordinator, of the effort, if you could call it
23 that.

24 Q. How many people did you have to help?

25 A. Well, when I got back to the house that day,

1 there were -- I'm estimating here, but probably
2 between 30 and 45 people. That was on just the
3 first afternoon, when we handed them out. But
4 then we had contacted truck stops and faxed
5 fliers.

6 We had people just stopping by
7 throughout the day to pick up fliers. Just to
8 put them out anywhere we could. I know there
9 were people out pretty late on Friday night and
10 still putting up fliers and driving city to city.

11 Q. Did your efforts, Mr. Hillegas, include the
12 media?

13 A. A little bit, yes.

14 Q. And this information -- information about the
15 missing person, where she was last seen and those
16 kind of things, was that distributed to the
17 media, as far as you know?

18 A. Yeah. And they had fliers too, so ...

19 Q. Now, with you being the -- whether you want to
20 call it official or unofficial, being the
21 coordinator of this citizen search effort on that
22 Friday, that is, the day after Teresa was
23 reported missing; what other efforts were being
24 developed to try to find Teresa?

25 A. Well, after Friday and we had got the posters out

1 basically kind of through the instruction of the
2 YES Foundation and their recommendations, first
3 they wanted us to get fliers out and make as many
4 people aware as we could, all about Teresa and
5 that she was missing. After that, it was kind of
6 to go a little more and basically to search.

7 Friday night after the posters were done
8 being handed out, we had gotten back and me and
9 Scott, for most of the night decided -- we kind
10 of planned a road search, I guess you could call
11 it, where everybody got in their vehicles and
12 drove certain parts of roads and maps that we had
13 plotted out for them, just to make sure we
14 covered everything, but ... So Friday night we
15 pretty much planned on an all day road search
16 that went on Saturday, with volunteers again.

17 Q. Well, Friday night you said that you were making
18 some maps; how was that done?

19 A. Satellite imagery off the internet mostly,
20 otherwise just Map Quest.

21 Q. Maps of what?

22 A. Maps of, you know, the areas we wanted to search.
23 We kind of blew up smaller portions so you could
24 see the roads better and county highways out in
25 the Manitowoc area near the Averys, any kind of

1 county highway. Basically, we tried to cover
2 anything from Hilbert to Green Bay, all the way
3 to the lake. Pretty much covering as much land
4 as we could.

5 Q. Well, this was a citizen search effort; is that
6 right?

7 A. Yes.

8 Q. In other words, family members and friends and
9 very -- very much so just a citizen effort
10 coordinated by you; is that right?

11 A. Yes.

12 Q. Let me ask you something, Mr. Hillegas, why would
13 you center or why would you direct some of your
14 search efforts around the Avery property?

15 A. Well, mostly for the fact that, you know, the
16 media had covered so much of it. You know, all
17 you heard about was around the Avery property.
18 And I believe at that point we had known that,
19 you know, her last kind of whereabouts were in
20 that neck of the woods.

21 Q. So even as an untrained law enforcement officer,
22 you knew to look for the last place she was seen
23 alive; is that right?

24 A. Yes.

25 Q. Okay. It didn't strike you as being unfair to

1 Mr. Steven Avery, did it?

2 A. No.

3 Q. All right. Now, these physical searches, you
4 said the road searches and things like that; how
5 many people were involved in that effort?

6 A. Well, throughout the day on Saturday there were
7 people kind of coming and going, people getting
8 up, work late in the morning, still wanted to
9 help. Estimate, say probably Saturday's effort
10 was a little bigger than Friday, probably between
11 80 and 110 people, I would guess.

12 Q. All right. So over 100 of Teresa's friends and
13 family and relatives were gathered to look for
14 her Saturday morning; is that right?

15 A. Yes.

16 Q. What time did you all convene and where did this
17 happen?

18 A. Everybody met at Teresa's house. I believe
19 everybody was there early, probably 6, 6:30, a
20 good portion of them were there by about that. I
21 would say between 6 and 7 is when everybody got
22 there.

23 Q. Tell us about that morning; what happened that
24 morning.

25 A. Well, everybody pretty much met in the driveway.

1 Me and Scott, by that point in the morning, had
2 all the maps arranged. But we had a large map
3 that we printed out with kind of smaller
4 sectioned areas that we had printed smaller maps
5 out for everybody to use.

6 Basically had everybody line up and come
7 in the back of the house. And they were to walk
8 through, once they got in the kitchen, we kind of
9 gave them an assignment, groups of one car or
10 two, we would give the same map to and have them
11 all cover the same area to make sure all the
12 roads were all covered.

13 But everybody had an assignment. When
14 they were done with their assignment, pretty much
15 instructed to call back and we would give them a
16 new assigned area to cover, one that hadn't
17 been -- that we hadn't sent any people to yet.

18 Q. Just kind of a grid search?

19 A. Basically, yes.

20 Q. All right. Do you know Pam Sturm or her
21 daughter, Nikole Sturm?

22 A. Yes.

23 Q. How do you know Pam and Nikole?

24 A. I had met them Saturday morning. They showed up
25 after the good majority of everybody else had

1 left. But that was the first time I had met
2 them.

3 Q. After, then, the first wave, if you will, of
4 citizens got their maps and they went off to do
5 their search; what did you and Pam Sturm discuss?

6 A. Well, Pam had showed up after pretty much the
7 whole group of everybody had already left to
8 search in the morning. And we had a good -- you
9 know, so many people, we had a good portion of
10 everything that we had divvied up. Good portion
11 of that was already handed out to other people.
12 Wasn't much area left to search yet.

13 And she just asked, basically came out
14 and said, had anybody gone to the car yard yet,
15 the Avery Salvage Yard. We just said, no, that
16 we hadn't been sending anybody in there and she
17 offered to and said she would be willing to
18 and --

19 ATTORNEY BUTING: Objection, your Honor,
20 hearsay.

21 THE COURT: Mr. Kratz.

22 ATTORNEY KRATZ: Not offered for the truth,
23 Judge. It's where Pam eventually goes. I can
24 certainly go on to another question. I'm not
25 inquiring any further into conversations.

1 THE COURT: Assuming that witness is going
2 to be testifying later, I will agree; I will allow
3 it.

4 Q. (By Attorney Kratz)~ Before Pam left, then, to
5 travel to the Avery Salvage Yard, was she
6 provided a map or any other information?

7 A. Yes. Yes, I gave her a map.

8 Q. What other information was she provided, if you
9 know?

10 A. I gave her a map about the area out there and how
11 to get out there. Scott had borrowed her his
12 camera just in case they were to find something.

13 Q. Do you know what kind of camera it was?

14 A. A digital camera, I don't know what brand.

15 Q. When you say provided them, who was with Pam?

16 A. Pam and her daughter.

17 Q. Nikole?

18 A. Nikole, yes.

19 Q. All right. Do you know about what time Pam and
20 Nikole left, then, for the Avery property?

21 A. I'm going to estimate, but I would probably say
22 somewhere between quarter to 8 and 8:00 maybe.

23 Q. Sometime later that day, without telling us the
24 words or what you heard, but did you hear some
25 results of what Pam and Nikole Sturm had found

1 out at the location?

2 A. Yes.

3 Q. Even after Pam and Nikole's discovery, later on
4 the 5th, did you and other citizens remain
5 involved in search efforts?

6 A. Yes.

7 Q. Can you describe those for the jury, please.

8 A. Well, the car search on Saturday went all day,
9 pretty much into the night again. And Saturday
10 night, then, once everybody was done searching,
11 we met back at the house and started planning our
12 next endeavor to go on, I guess you could say.

13 Q. Let me -- Let me just stop you. After the car --
14 After the SUV was found, in this case; you kept
15 searching, you kept your search efforts going?

16 A. Yes.

17 Q. Why?

18 A. Well, we hadn't found Teresa.

19 Q. Do you remember what locations your citizens
20 searched for Teresa?

21 A. Yeah. You know, we went through all the cities,
22 neighboring cities around Manitowoc County.
23 Sunday, we had started doing fields and parks and
24 ditches next to the highways, any place that, I
25 guess, something could or somebody could be put

1 and, you know, not be visibly seen. But Sunday
2 we started doing actual walk-throughs of land and
3 property near the Averys.

4 Q. It's a hard question, Ryan, but you were looking
5 for Teresa's body; is that right?

6 A. Yes.

7 Q. Did you continue to receive technical assistance
8 in assigning citizens to this effort?

9 A. Yes.

10 Q. Who did you get assistance from?

11 A. Well, basically, the YES Foundation, again. We
12 took any advice from them that we could, since
13 Jay Breyer, who was, I guess, the leader of it,
14 or the guy who runs it, he had seemed to have a
15 lot of experience in missing person cases.

16 Q. Did you personally proceed near the Avery salvage
17 property and did you engage in searches of that
18 area?

19 A. Yes.

20 Q. Do you remember where you -- where you looked
21 around there --

22 A. Yes.

23 Q. -- just briefly.

24 A. Yeah, we -- we did, like Maribel County Park is
25 near there. We did some private -- or public

1 land that was pretty much adjacent to Avery
2 property, but behind it all. Any field somewhere
3 around there that were outside the police bounds
4 that we could get to, basically we searched.

5 Q. Mr. Hillegas, was this all before human remains
6 were found on the Avery property itself?

7 A. I believe so, yes.

8 Q. After you learned -- I assume you learned at some
9 point that human bones and human remains were
10 found; is that right?

11 A. Yes.

12 Q. After that point, did you continue with your
13 search efforts or did you call them off?

14 A. No, we called the search off then.

15 ATTORNEY KRATZ: That's all I have of
16 Mr. Hillegas, Judge. Thank you.

17 THE COURT: All right. I think at this
18 time we will take our afternoon break. We'll come
19 back in 15 minutes.

20 Members of the jury, I will remind you,
21 again, not to discuss the case during the break.
22 We'll see you in 15 minutes.

23 (Jury not present.)

24 THE COURT: Ten to three, counsel.

25 ATTORNEY KRATZ: Thank you, Judge.

THE COURT: Mr. Buting, at this time you may begin your cross-examination of the witness.

ATTORNEY BUTING: Thank you, your Honor.

CROSS-EXAMINATION

BY ATTORNEY BUTING:

Q. Mr. Hillegas, can you give me a little bit of background on how long you knew Teresa?

A. Sure. I met Teresa, I believe, when I was a freshmen in high school and I have known her ever since.

Q. And did you grow up in the same general town, then, I take it?

A. She lived in St. John; I lived in Hilbert. We went to the same high school.

Q. And then you went off -- How are you employed by the way?

A. I'm a registered nurse.

Q. And where are you working right now?

A. In Milwaukee.

Q. At various hospitals?

A. At Froedert Hospital.

Q. Okay. And back in October of 2005, where were you working?

1 A. I was currently unemployed. I had just finished
2 school.

3 Q. Okay. So on October 31st, you were not working
4 at all?

5 A. That's correct.

6 Q. And where were you living?

7 A. At home with my parents.

8 Q. Which is?

9 A. In Hilbert.

10 Q. In Hilbert, okay. Now, you said that you used to
11 date Teresa kind of on and off, or for how long
12 were you on and how long were you off?

13 A. Well, we dated for a total of five years, I
14 think. We broke up two or three times in the
15 middle for short periods, maybe for a month at a
16 time.

17 Q. So when was the last time you would say when you
18 broke up?

19 A. 2001, I believe.

20 Q. Was that your initiative or hers?

21 A. Just kind of a general understanding, kind of
22 both of us. We were just going separate ways,
23 so.

24 Q. Okay. And after that time, did you have any
25 interest in renewing that nature of that kind of

1 a relationship with her?

2 A. No.

3 Q. Now, Scott Bloedorn, was also a friend of yours,
4 right?

5 A. Yes.

6 Q. Was he, back in October of 2005, your best
7 friend?

8 A. One of them, yes.

9 Q. Okay. Would you -- When did he move in with
10 Teresa?

11 A. I don't know that.

12 Q. Well, was it less than a year?

13 A. It was less than a year before that Halloween.

14 Q. Eight or nine months sound about right?

15 A. It might be. I guess I'm not sure.

16 Q. Okay. You have been over to that house before I
17 take it, right?

18 A. Yes.

19 Q. What's the layout of the house? How is it set
20 up? How was it set up back then?

21 A. Well, Scott had -- Scott's room was upstairs.
22 Teresa's was downstairs. It was kind of an --
23 almost an understanding; all Scott's stuff was
24 upstairs and Teresa's was downstairs. They kind
25 of had it split, shared a kitchen and the

1 bathroom.

2 Q. So they had sort of their own floors and separate
3 bedroom on each floor?

4 A. Yes.

5 Q. But they shared the kitchen and you said the
6 bathroom, there was one bathroom they shared?

7 A. Yes.

8 Q. So they would see each other frequently,
9 presumably, during the day? Is that a yes?

10 A. Sure. Yes.

11 Q. Okay. And did you come over and visit Scott
12 various times while he was living with Teresa?

13 A. Yes.

14 Q. And did you spend time over there; dinner,
15 watching TV, or a movie or something?

16 A. Occasionally, yes.

17 Q. Was it -- Well, I take it, then, from -- when you
18 say that you talked with her at least every other
19 week, or every week even?

20 A. Yes.

21 Q. On the phone, or would you actually get together
22 with her, or what?

23 A. Either on the phone, or I would see her at the
24 house when I would go visit Scott.

25 Q. Okay. So you were over there quite a bit during

1 that last six months or so?

2 A. I wouldn't say quite a bit.

3 Q. Once a week?

4 A. Occasionally, once a week, maybe.

5 Q. Okay. Okay. Over that time, would it be fair to
6 say that you became accustomed with Teresa's
7 habits and routines, generally?

8 A. No, I wouldn't say that.

9 Q. Well, did you know, for instance, was she a
10 homebody; did she like to go out?

11 A. She kind of did what she wanted. Sometimes I
12 would go over there and, you know, not see her
13 the three times that I stopped that week. And
14 the following week I could go there and I would
15 be there three nights in a row when she would be
16 there every night, just depended.

17 Q. Were you familiar with her circle of friends?

18 A. Most of them, yes.

19 Q. For instance, she went to UW Green Bay, right?

20 A. Yes.

21 Q. And she worked in Green Bay?

22 A. Yes.

23 Q. So she had a lot of friends in Green Bay?

24 A. Yes.

25 Q. And would she go out, socializing with those

1 friends, if you know?

2 A. Yes.

3 Q. Did you ever go with her when she would socialize
4 with that group of friends?

5 A. When we were dating, yeah. She was in Green Bay
6 the first -- the last two years when we were
7 dating, so, occasionally, then, I would go out
8 with her and her friends, but other than that,
9 not really.

10 Q. Would you say she was a sociable person,
11 generally?

12 A. Yes.

13 Q. She liked to be around people?

14 A. Yes.

15 Q. She liked to go to parties?

16 A. Yes.

17 Q. Liked to go to bars?

18 A. Yes.

19 Q. Particularly karaoke bars, I think, was one of
20 her favorites?

21 A. I believe so, yes.

22 Q. Okay. And in 2005, were there times when you
23 would also go out with her to those kinds of
24 places, either parties or bars?

25 A. I don't think I -- I think the only bar -- I

1 maybe only went out with her once that whole
2 year, probably just didn't share that with her.

3 Q. And do you know whether Scott ever went out with
4 her to bars or parties?

5 A. A few times. I don't believe it was too often.

6 Q. Okay. And when she would be home, do you know
7 whether she would have dinner there or whether
8 she would eat out? You know, what did she do at
9 home?

10 A. Occasionally she did both.

11 Q. Did she and Scott have dinner together?

12 A. Not that I'm aware. I mean, maybe they sat down
13 and ate a meal together, but.

14 Q. So you are not that familiar with what the
15 evening routine was; is what you're saying?

16 A. No.

17 Q. Okay. Do you know whether it was unusual for her
18 to be out overnight during those last six months
19 or so?

20 A. Occasionally she would. I know she would go to
21 Green Bay and stay at a friend's house overnight.

22 Q. Okay. Let me ask you about the weekend of
23 October 29th and 30th, 29th being Saturday; did
24 you see her or talk with her that day?

25 A. I don't believe I talked to her on Saturday. I

1 don't think so.

2 Q. Okay. Did you talk with her or see her on

3 Sunday?

4 A. Yes.

5 Q. And where was that?

6 A. At her house.

7 Q. And how did that come about?

8 A. I had just stopped briefly. I was dropping

9 something off for Scott and she was sitting there

10 at her computer.

11 Q. Do you know about what time that was?

12 A. I don't know.

13 Q. I mean, are we talking morning, afternoon, night?

14 A. I don't know.

15 Q. You don't remember at all?

16 A. No.

17 Q. And she was just sitting at the computer?

18 A. Yes.

19 Q. Did you talk to her at all?

20 A. A little bit, yes.

21 Q. Now, the night before, Saturday night, was sort

22 of Halloween weekend; there would be parties, bar

23 parties, house parties, whatever. Did you chit

24 chat at all, talk about that?

25 A. On Sunday we had just talked and she had

1 mentioned that she had a cowgirl hat and she was
2 going to dress up like a cowgirl. And that was
3 pretty much the extent of it.

4 Q. This was, I'm sorry, Saturday or Sunday?

5 A. Sunday.

6 Q. Okay. Did she talk about having gone out the
7 night before, Saturday night at all?

8 A. No.

9 Q. Do you know from any other information whether
10 she did go out Saturday night?

11 A. I don't know.

12 Q. Or Sunday night?

13 A. I don't know that either.

14 Q. You said that you distributed 1,000 to 3,000
15 posters?

16 A. Roughly.

17 Q. And that she had all these friends and helping
18 out, including friends in Green Bay calling. You
19 called some friends; is that right?

20 A. Yes.

21 Q. This was on November 3rd, when you called the
22 friends, right?

23 A. That was Thursday, yes.

24 Q. Yeah, Thursday. But you said none of those
25 people were particularly helpful, giving you any

1 information about her. Most of them hadn't seen
2 her for awhile?

3 A. That's correct.

4 Q. With all those posters out, all that publicity,
5 did anybody ever come forward and talk to you,
6 tell you where Teresa was on Saturday night?

7 A. No.

8 Q. October 29th?

9 A. Not that I remember.

10 Q. So that night is an unknown in her life; is that
11 right?

12 A. I don't know of what happened that night with
13 her.

14 Q. Be fair to say that Teresa had a private side as
15 well, that you didn't know about?

16 A. No, I don't think so. I don't think she had a
17 private side that I didn't know about. We were
18 pretty open with each other. We talked a lot.

19 Q. Well, if she had gone out Saturday night with
20 somebody, or some place, and you know nothing
21 about it, would that surprise you?

22 ATTORNEY KRATZ: Objection relevance,
23 Judge.

24 THE COURT: Mr. Buting.

25 ATTORNEY BUTING: I will withdraw it.

1 THE COURT: Very well.

2 Q. (By Attorney Buting)~ So the last time you
3 actually saw Teresa was Sunday?

4 A. Yes.

5 Q. You never talked with her on the phone after
6 that?

7 A. No.

8 Q. Monday, Tuesday, Wednesday, Thursday, you never
9 called her?

10 A. No. Well, that's not correct. I did call her
11 somewhere in the middle of the week and I did not
12 get an answer and her voice mailbox had said that
13 it was full.

14 Q. Okay. Do you remember what day that was?

15 A. No, I don't.

16 Q. Thursday, Wednesday?

17 A. I called her on Thursday when I realized she was
18 missing, but I believe I called her once earlier
19 in the week.

20 Q. Okay. So when you first learned, you said it was
21 Scott that came over; did he come over, or call
22 you, or what did he?

23 A. He called me.

24 Q. Called you and said that -- he said that he
25 wanted your assistance, or what?

1 A. He just called and said that Teresa's dad had
2 came over to his work site and asked him if he
3 had seen her recently. And Scott had called me
4 on his way home just asking if I had talked to
5 her. Asking if I could come over and help.

6 Q. Now, you said that -- Scott's work site? What is
7 that?

8 A. Scott worked construction. I don't know where
9 his work site was, but usually they did kind of
10 local house work.

11 Q. Okay. Did you ask Scott if he had tried to call
12 Teresa at all during the Monday, Tuesday,
13 Wednesday, Thursday?

14 A. I don't know.

15 Q. May have called, is that what you are saying?

16 A. I don't know.

17 Q. Did you think that it was odd that three or four
18 days had gone by without Scott coming forward and
19 saying, where is she?

20 A. No.

21 Q. That didn't strike you as odd at all?

22 A. No.

23 Q. Why not?

24 A. Well, they were kind of on differing schedules.
25 Teresa worked for herself and Scott worked

1 construction. So he would be up and out of the
2 house by 5:30, 6 in the morning. A lot of times
3 I know Teresa didn't get up and go to work until
4 9 or 10.

5 Q. So did you know Scott's schedule?

6 A. Fairly well, yes.

7 Q. But you didn't know where he was working, is what
8 you are saying?

9 A. I didn't know what site they were on that day.

10 Q. On any given day?

11 A. On any given day, for that matter. Occasionally
12 I would know, just from driving by and seeing him
13 on the side of the road working on a house, but.

14 Q. Okay. What kind of construction did he do?

15 A. Rough work, rough framing.

16 Q. Rough carpenter?

17 A. Yeah.

18 Q. Now, when you went over there, to her house, on
19 Thursday; you said Scott had already found some
20 kind of information or no?

21 A. No.

22 Q. What did you do first; how did you start to
23 gather information about who to call?

24 A. I just started looking through all her records.
25 She had filing cabinets set next to her computer.

1 Kind of her business workstation, I guess. Just
2 started looking through the files. Turned her
3 computer on and there was actually a -- She had
4 an icon that was named Teresa's friends. Clicked
5 on that and her friend's basically popped right
6 up with phone numbers.

7 Q. Was this a laptop?

8 A. It was.

9 Q. Okay. And what did you do first? You talked
10 about going online with her phone records, or did
11 you call friends first?

12 A. Well, we got the phone list of her friends and
13 started calling them. And I guess you could
14 probably say it kind of all went down at the same
15 time. We were calling friends; it was me and
16 Scott, and Kelly Bitsen was calling friends as
17 well. And we were kind of working on getting her
18 phone records at the same time.

19 Q. How soon did Kelly Bitsen arrive? How long were
20 you and Scott there together before she arrived?

21 A. I'm going to estimate and say between --

22 Q. Six, something like that?

23 A. What's that?

24 Q. She arrived like 6 or 7, something like that?

25 A. Yeah, she was there a few hours after I got

1 there, I believe. She was one of the first
2 people --

3 Q. Okay.

4 A. -- that we called of her friends.

5 Q. Now, tell me about this online search. You tried
6 calling her phone and it was full, right?

7 A. Yes.

8 Q. Did you know her voice mail password?

9 A. No.

10 Q. Did you ever -- So you didn't call and listen to
11 her voice mail at all?

12 A. No.

13 Q. Never?

14 A. No.

15 Q. Never did that day, or before?

16 A. No.

17 Q. Or since? Okay. And she had never shared her
18 password with you for the online records either?

19 A. No.

20 Q. So you just went online to Cingular Wireless, or
21 whatever, .com and just guessed her password.

22 A. Well, we -- me and Kelly Bitsen had just kind of
23 figured that it would fairly be something
24 relating to her sisters. I believe -- I think it
25 was their birthdays that got into it for us. I'm

1 not exactly sure about what the password was.

2 Q. But you didn't know what her user name was.

3 A. No, I believe that automatically came up when you
4 entered her phone number in, you just need the
5 password.

6 Q. Okay. And that's the first time you ever tried
7 to search her phone record or use that password?

8 A. Yeah.

9 Q. Do you know if -- if anybody else knew her voice
10 mail password?

11 A. I don't know that.

12 Q. Or if anybody else listened to her voice mails?

13 A. I don't know that either.

14 Q. All right. By the time that Calumet county
15 investigators arrived, I take it you guys were
16 pretty concerned about Teresa's well being, where
17 she was?

18 A. Yes.

19 Q. And you knew that it was important that you
20 provide as much information, as accurate
21 information as you could?

22 A. Yes.

23 Q. Did the police interview you and Scott together,
24 or did they put you in separate rooms when they
25 talked to you, or how did they do that?

1 A. I believe we were -- I believe we were in the
2 same room.

3 Q. Okay. Now, did the investigators ask you any
4 questions about the nature of your relationship
5 with Teresa?

6 A. Yeah.

7 Q. And they learned that you were a former
8 boyfriend, stayed good friends with her?

9 A. Well, I believe I just said that I was a friend
10 of hers. I don't think I mentioned that I was an
11 ex-boyfriend.

12 Q. Okay. And they didn't pursue that and ask if you
13 had ever had anything more than a friendship is
14 that what you are saying?

15 A. I believe so. It came out eventually, I just
16 didn't feel that it mattered.

17 (Court reporter coughing, asked him to repeat.)

18 Q. Let me try again.

19 A. Ask it again, please.

20 Q. Did the police ever probe further and ask if you
21 had -- the nature of your relationship with her
22 beyond whether there was ever anything more than
23 friendship?

24 A. I don't think they really probed into that. I
25 mean, I don't remember when it came out or who

1 was the one that mentioned that we used to date.

2 Q. Okay. But it wasn't talked about that night?

3 A. I don't believe so.

4 Q. When they were trying to find out what was
5 happening -- or what had happened to this missing
6 person, right?

7 A. Yeah.

8 Q. And if Scott was there with you, then, did they
9 ask Scott the nature of his relationship with
10 Teresa?

11 A. Yeah.

12 Q. Did they ask any kind of probing questions about
13 whether he was ever intimately involved with her?

14 ATTORNEY KRATZ: Objection relevance,
15 Judge. Is this a Calumet County bias; that's my
16 question?

17 THE COURT: Mr. Buting.

18 ATTORNEY BUTING: Investigative biases are
19 relevant no matter who is doing the investigation
20 involved in the case.

21 THE COURT: I don't know if this really
22 falls under bias; I will allow the question.

23 THE WITNESS: Please ask me again.

24 Q. (By Attorney Buting)~ Did the investigators probe
25 the nature of Scott's relationship at all to see,

1 you know, as to whether or not there was any kind
2 of intimate relationship between the two of them?

3 A. I don't believe they probed into it. I believe
4 he just said that he was a roommate and a friend.

5 Q. Okay. So a single man living in a house with a
6 single woman, but that was the extent of it, just
7 roommates?

8 A. Yes.

9 Q. And as far as you knew, that was the extent of
10 their relationship as well?

11 A. Yes.

12 Q. Scott never told you otherwise?

13 A. That's correct.

14 Q. Teresa never told you otherwise?

15 A. That's correct as well.

16 Q. And your recollection is that you don't know when
17 your former boyfriend status ever came up; it was
18 sometime down -- some several days later?

19 A. That's correct.

20 Q. Wasn't like the next day?

21 A. May have been. Like I said, I don't know when it
22 came up.

23 Q. Okay. So, going to the next day for a minute,
24 now, let's just go to November 4th. You
25 mentioned that -- Well, let me go back for a

1 minute. You mentioned that you had this meeting,
2 sort of on Friday -- on Thursday night, the 3rd.
3 And that was you and Scott and Kelly, and is that
4 it, or do other friends come over?

5 A. I believe her friend, Lisa, was over, but not
6 until quite a bit later that night.

7 Q. Okay. And so the plan was made to contact this
8 organization, YES, the next day, make posters?

9 A. No, actually the family was in contact with YES.

10 Q. Okay. So that was something that came up later?

11 A. Yes.

12 Q. On the 4th, after you had all these posters made
13 up; you had another meeting that -- that late
14 afternoon or evening, Friday, to talk about where
15 to go from here?

16 A. Yeah, Friday -- Friday night, after the posters
17 were done being handed out.

18 Q. Okay. And you said that you downloaded satellite
19 images and maps and were kind of trying to figure
20 out how to divide up different areas, right?

21 A. Yes.

22 Q. And you were asked about why you directed any
23 efforts towards the Avery area, on direct, by
24 Mr. Kratz; do you recall that?

25 A. Yes.

1 Q. And I believe you said it was because the media
2 had the information and the media was already
3 seeming to focus on Mr. Avery; is that right?

4 A. I don't think it was Avery himself. I believe
5 that it was just that we knew her last
6 whereabouts were out in Manitowoc County.

7 Q. Okay. And had you seen any interviews with
8 Mr. Avery at that point, or any news people
9 coming down and talking to people on the Avery
10 property?

11 A. I don't know if I had seen any interviews. I
12 guess I was out putting posters up most of the
13 day.

14 Q. But you did know that by that time the word was
15 out in the media that the last known place, at
16 least that they thought the last known place had
17 been at the Averys, right?

18 A. Yes.

19 Q. And so that would have been true for anybody's
20 knowledge, not just yours, anybody watching the
21 media?

22 A. Yes.

23 Q. Now, the next morning, then, when you started
24 dividing up things, Scott was with you, right?

25 A. Yes.

1 Q. And was Scott helping to assign people different
2 places?
3 A. Yes.
4 Q. And when the Sturm's arrived, you said that Scott
5 had borrowed Pam Sturm a camera; is that right?
6 A. Yes.
7 Q. Had lent, had lent her, given her a camera?
8 A. Yes.
9 Q. A digital camera?
10 A. Yes.
11 Q. He didn't give everyone of those members,
12 Saturday morning, a camera, did he?
13 A. No.
14 Q. He just gave it to Pam Sturm, who he knew was
15 going to go out to the Avery Salvage Yard?
16 A. That's correct.
17 Q. The only person he gave a camera to, right?
18 A. Yes.
19 Q. And during this entire missing person period,
20 that is, before the RAV4 was found, did the
21 police ever ask you for any kind of alibi for
22 October 31st?
23 A. No.
24 Q. They never asked your whereabouts whatsoever?
25 A. I don't believe so.

1 Q. Okay. Anybody, point blank, ever ask you, if you
2 had any knowledge about her disappearance, or
3 were involved in it?

4 A. I don't know if they did it like that, like they
5 were accusing me but, of course, people asked me
6 if I had talked to her, or knew anything. And
7 that's why I was there to help.

8 Q. Okay. And, to your knowledge, did you ever hear
9 the police ever ask Mr. Bloedorn, Scott Bloedorn,
10 if he had an alibi for Monday, October 31st in
11 the evening, late afternoon hours?

12 A. I don't know that.

13 Q. So it would be fair to say that you weren't in
14 any way treated like a suspect, that you could
15 tell?

16 A. That's correct.

17 Q. And even on the 5th, and thereafter, when the
18 search narrowed into the Avery's area and
19 surrounding areas, the police actually let you
20 through some check points, along with some other
21 searchers, you leading them to come and search
22 the area, right?

23 A. Yes.

24 Q. Within the perimeter of the area around the Avery
25 property that they had made off limits to the

1 general public, right?

2 A. Yes.

3 Q. And was that true of Scott as well?

4 A. Yes.

5 ATTORNEY BUTING: That's all I have.

6 THE COURT: Any redirect?

7 REDIRECT EXAMINATION

8 BY ATTORNEY KRATZ:

9 Q. Just so we're clear Mr. -- I'm sorry. Just so
10 we're clear, Mr. Hillegas, the area that you were
11 allowed access to was the outside of the Avery
12 property itself, in other words, the surrounding
13 properties, not within the salvage property; is
14 that true?

15 A. Yes.

16 ATTORNEY KRATZ: That's all I have, Judge.
17 Thank you.

18 THE COURT: All right. You are excused.

19 ATTORNEY KRATZ: I call Pam Sturm, Judge.

20 THE CLERK: Please raise your right hand.

21 **PAMELA STURM**, called as a witness

22 herein, having been first duly sworn, was
23 examined and testified as follows:

24 THE CLERK: Please be seated. Please state
25 your name and spell your last name for the record.

1 THE WITNESS: My name is Pamela Sturm,
2 capital S-t-u-r-m.

3 **DIRECT EXAMINATION**

4 BY ATTORNEY KRATZ:

5 Q. Good afternoon, Ms Sturm. Describe for the jury,
6 if you will, whether you knew a young woman named
7 Teresa Halbach.

8 A. Yes, I did. She is my second cousin. Her
9 father, Tom Halbach, is my first cousin.

10 Q. Ms Sturm, sometime after the 3rd of November,
11 after Teresa was reported missing, did you
12 volunteer to become involved in search efforts
13 for Teresa?

14 A. Yes, I did.

15 Q. Can you describe for the jury how you first
16 became involved.

17 A. On November 4th, I saw a news release at like
18 10:00 in the morning and it was a Friday morning.
19 And it said that -- They showed Teresa's picture
20 and it said Teresa was missing. And as soon as I
21 got home from work, I called my sister and she
22 didn't know anything about it. So I waited until
23 night and I called my other first cousin, Betty
24 Halbach, who is Tom Halbach's sister. And I
25 asked her if that was correct and she said, yes,

1 Teresa is missing.

2 Q. All right. When was it, Ms Sturm, then, that you
3 first became involved in actually searching for
4 Teresa?

5 A. Well, that Friday night, when I had talked to
6 Betty, I said, anything I can do for you,
7 anything I can help you with, I will certainly
8 help. And she had called back like an hour later
9 and said there's going to be a search tomorrow
10 morning starting at probably 9:00. And I said,
11 well, I would be happy to help.

12 Q. That next morning, then, on Saturday, the 5th of
13 November, did you go to the rendezvous place; in
14 other words, the place where everybody else was
15 meeting?

16 A. Yes, I did. It's an old farmhouse that Teresa
17 was renting. And I met with two gentlemen, Ryan
18 and Scott. And they were organizing a search
19 team.

20 Q. Just so I can complete the record, that would be
21 Ryan Hillegas and Scott Bloedorn?

22 A. That's correct.

23 Q. All right. Who did you go there with?

24 A. My daughter, Nikole Sturm, came with me.

25 Q. How old is Nikole?

1 A. Twenty-nine years old.

2 Q. About what time did you arrive at the residence,
3 if you recall?

4 A. I estimated it at around 9:00 a.m.

5 Q. When you got there Pam, what happened?

6 A. Well, we got their late; the search team was
7 already gone. Ryan and Scott were still there.
8 And I asked them if I could help out. And they
9 said, yes, they have maps for the area that they
10 were going to search. And he showed me the map
11 and then he showed me the picture of Teresa and
12 all the details regarding Teresa.

13 And I indicated that I would like to go
14 to the Avery Salvage Yard where Teresa was last
15 seen. And he said, well, if you want to, it's
16 not part of, you know, the search, but if you
17 wish to do that, go ahead.

18 Q. Okay. About what time, then, did -- Let me back
19 up just a minute. Prior to going to the Avery
20 salvage property, did you receive anything from
21 either of those gentlemen?

22 A. I received a map and I received a bulletin that
23 showed Teresa's picture and all her details.

24 Q. Did you get anything else, that you can recall?

25 A. I also forgot my camera, so I thought I should,

1 you know, try to get a camera and see if Scott or
2 Ryan had a camera, in case we came across
3 something on the property. And I believe it was
4 Scott's camera and he lent it to us.

5 Q. Do you remember what kind of camera it was?

6 A. It was just a digital camera as far as I know.

7 Q. So the jury understands, it was you that asked
8 for a camera?

9 A. Yes, I did.

10 Q. Ms Sturm, were you familiar with the Avery
11 salvage property?

12 A. No, I'm not -- I wasn't at all. All I knew it
13 was a 40 acre plot salvage yard for vehicles.

14 Q. Did you proceed to that location?

15 A. Yes, we did.

16 Q. About what time did you and Nikole arrive at that
17 location?

18 A. I approximate the time about 10 minutes to 10,
19 right around that area.

20 Q. Okay. I'm showing you what's been marked and
21 received as Exhibit No. 35, Ms Sturm. It is
22 directly to your right on the large screen, do
23 you see that?

24 A. Yes.

25 Q. Will that aerial photograph assist you in

1 explaining for the jury where you and Nikole went
2 upon your arrival?

3 A. Yes.

4 Q. And are you oriented pretty well there; do you
5 recognize that location?

6 A. I recognize the buildings and the approximate
7 area that I found the vehicle.

8 Q. I think I misspoke. I think it's -- It's Exhibit
9 25, I'm sorry. I'm going to take a laser
10 pointer. Do you recognize the road that comes in
11 from Highway 147 and this is --

12 A. Yes.

13 Q. -- the business itself; that is, the office
14 building and the like. Now, do you recognize the
15 orientation?

16 A. Yes.

17 Q. All right. About 10 to 10, sometime before
18 10:00 in the morning, could you tell the jury
19 what happened?

20 A. Well, we drove in and we noticed that there were
21 three driveways to the salvage yard. And it
22 appeared to be the center driveway was probably
23 the one we should take. So we did take that one.

24 Q. Ms Sturm, you are going to have to back up just
25 about three inches from the microphone, okay.

1 Because it is distorting you just a little bit.

2 We can hear you just fine. Go ahead, tell us.

3 A. I was in my car and we pulled up in front of the
4 main building.

5 Q. And on Exhibit No. 25, can you tell what that is?
6 Can you point with that with the laser pointer?

7 A. I believe it's that one.

8 Q. When you got to that location, what did do you?

9 A. When we got to that location, there were a few
10 cars parked to the right of us and we saw two
11 gentlemen conversing. But we went into the
12 building to see if we could find any of the
13 owners of the property. And there was no one
14 inside so then we exited.

15 Q. After exiting, did you, in fact, find one of the
16 owners of the business and did you, in fact, talk
17 to him?

18 A. Yes, we did. The two gentlemen that were
19 conversing by the vehicle, they stopped
20 conversing and I walked up to them and I said, is
21 anyone of you an Avery, an owner of this
22 property? And he said, yes, and he walked over
23 to us and he said his name was Earl.

24 Q. Just very quickly going to show you a photograph;
25 is this the gentleman that you spoke with, Earl

1 Avery?

2 A. Yes, that's correct.

3 Q. Okay. I'm sorry to interrupt you; go ahead, what
4 happened then?

5 A. Well, I told them that we were from -- we were
6 volunteers from the search party. And I said it
7 would relieve Karen and Tom's mind if we could go
8 through the property and make sure that the
9 vehicle, Teresa's vehicle, wasn't there.

10 And Earl said, yeah, I know how it is
11 because I just lost a nephew and I know how they
12 are feeling. They must feel awful that she's
13 missing. We just had a conversation and then I
14 asked him if we could go and search the property,
15 the whole property, for a sign of Teresa, or her
16 vehicle. And he gave us permission.

17 Q. Now, Ms Sturm, prior to your arrival at that
18 location, had you had any contact or direction
19 from any law enforcement officials?

20 A. No, sir, we didn't.

21 Q. After obtaining permission or consent from Earl
22 Avery to search the property, what did you do?

23 A. Earl said that the roads were very muddy in the
24 salvage yard and it would be better if you would
25 walk. So, you know, we locked up our vehicle and

1 walked to the left.

2 We decided we were going to sweep from
3 the left to the right. So we walked down in
4 between the buildings, I believe it was, and
5 started on the left and swepted to the right.

6 Q. Do you want to show us with the pointer what you
7 did, if you can recall?

8 A. So we were parked here -- I'm sorry. And then we
9 walked, I believe we walked through here and we
10 searched these vehicles first.

11 Q. Just so the record is clear, on Exhibit No. 25
12 here, you are pointing to vehicles that would be
13 just to the south of the Avery business itself
14 and just as you would be walking, I guess, almost
15 directly south from the property; is that
16 correct?

17 A. That's correct.

18 Q. All right. How long did that take you; do you
19 remember?

20 THE COURT: Maybe we should ask the witness
21 a few questions to orient direction.

22 ATTORNEY BUTING: Judge, before we do that,
23 could we approach side bar for a minute, please?

24 THE COURT: Sure.

25 (Side bar taken.)

1 Q. (By Attorney Kratz)~ I'm sorry, Ms Sturm, do you
2 know -- do you know -- Orienting yourself to
3 Exhibit No. 25; do you know which way is north or
4 south or east or west?

5 A. Well, actually, I didn't before, but I looked on
6 a map and it appears that the car was in the
7 southeast corner.

8 Q. So which way is south on the -- on Exhibit No.
9 25, if you know? You are pointing to what would
10 be the southeast corner of the 25 -- or the 40
11 acre parcel; is that right?

12 A. Right.

13 Q. South, do you know, would south be to the right
14 or to the left of the diagram?

15 A. No.

16 Q. Pointing at Exhibit No. 25, Ms Sturm, do you
17 remember where you and Nikole walked?

18 A. Yes.

19 Q. Okay. Let me just ask a clarifying question.
20 Does this photo, does this exhibit help you
21 explain to the jury where you folks looked and
22 searched?

23 A. Yes.

24 Q. If I zoomed in a little bit on the diagram, would
25 that help --

1 A. I think that would help.

2 Q. Does that help you some more?

3 A. Oh, yes.

4 Q. Why don't you show us, then, and then as you
5 explain, where did you and Nikole start looking?

6 A. That's the building and then I believe I went in
7 between and she went around here. And then we
8 searched all these vehicles here and we went down
9 here and right here. And then we found it up
10 here.

11 Q. All right. Now, there's a lot of heres there,
12 so --

13 A. I'm sorry.

14 Q. That's all right.

15 A. I'm not good at directions.

16 Q. I'm going to take you through this and help you
17 explain, for the record, what you were talking
18 about. You continued in a southerly direction,
19 you and Nikole, basically walking south, looking
20 through the vehicles; is that right?

21 A. Right.

22 Q. Now, which batch of vehicles did you search, if
23 you can -- if you can explain the kind of
24 searching that you were doing; I'm sure the jury
25 is going to be interested in that as well.

1 A. Okay. I started up here. And up here are
2 trucks, cars, RVs. And we had tried to look in
3 each and every one of them. And you can see
4 there are rows here.

5 Q. Again, you are pointing to an area what would be
6 just south of the business outbuildings; is that
7 right?

8 A. Right.

9 Q. Okay.

10 A. Right.

11 Q. And you moved to a different batch of cars; is
12 that right?

13 A. Right. So we had searched all of these. Then we
14 went down here south and there were, like, you
15 can see there's two rows here. So I searched the
16 first row. My daughter was on the second row.

17 Q. I'm going to stop you right there, Pam. Can you
18 tell the jury what you were looking for.

19 A. We were looking for any trace of Teresa, be it
20 the car or herself.

21 Q. Did you find, by the way, when you searched those
22 two rows of cars, any vehicle that either matched
23 the description of Teresa's, or anything that you
24 thought was obvious?

25 A. No.

1 Q. Where did you go then?

2 A. Then we continued south and I searched these
3 vehicles. And my daughter was right around here.

4 Q. I'm going to stop you there. You are pointing to
5 an area just north of what looks like a body of
6 water or small pond; is that correct?

7 A. That's correct, there's a --

8 Q. Point to the pond.

9 A. There's a little pond right here.

10 Q. Okay.

11 A. Okay.

12 Q. And after looking at those rows of cars, where
13 did you then look?

14 A. Okay. Then my daughter went to this row and I
15 had continued up here. And I saw these vehicles
16 up here. And this is like a ridge up here.

17 Q. Okay.

18 A. And it's shaped like a bowl, the quarry. So up
19 on the top, there was a little car path up there.
20 Just a path, I would say. But I had to climb up
21 this little hill here. And you could see there
22 are some vehicles here. And I thought, I have to
23 search up there. I have to search each and every
24 one.

25 Q. All right. And did you do that?

1 A. So I went up there and I went through, like,
2 three cars. And I came upon this car that had
3 all these branches on the top of it, leaning
4 against it. And there was an old hood of a car
5 there, up against it. And it was kind of bluish
6 green. And I thought this is really strange.
7 This is really strange.

8 And it looked like a little SUV, like I
9 was looking for, a RAV4 Toyota SUV. And I went
10 around to the back of the vehicle. And, again,
11 there were branches leaning up against it. And I
12 noticed that it said RAV4. Well, my heart
13 started going, you know, oh, my goodness, maybe
14 this is it.

15 Q. Let me stop you right there.

16 A. All right. Sorry.

17 Q. Ms Sturm, I have showed you what has now been
18 marked as Exhibit No. 385; that's the first --

19 A. Yes.

20 Q. -- first vehicle?

21 ATTORNEY BUTING: What was the number?

22 ATTORNEY KRATZ: Three -- I'm sorry,
23 Exhibit 29. I'm sorry.

24 Q. (By Attorney Kratz)~ Do you see that?

25 A. Yes.

1 Q. It's 385 on my list. All right.

2 A. Correct.

3 Q. Now, looking at the large screen; is that the
4 photo, 385?

5 A. Yes, that's correct.

6 Q. Now, you spoke to the jury just before about
7 seeing the back of this vehicle and seeing the
8 word RAV4 on it. Is Exhibit No. 385 -- excuse me
9 -- Exhibit 29, does that look the same or similar
10 as it looked on the morning of October -- excuse
11 me -- November 5th?

12 A. Yes.

13 Q. In fact, Ms Sturm, were these photos; that is,
14 the next 6 photos that we are going to see, Nos.
15 29 through 35, were those taken by your daughter,
16 Nikole, with your assistance, on the morning of
17 the 5th of November?

18 A. Yes, that's correct.

19 Q. And do Exhibits 29 through 35 -- 34, I'm sorry,
20 all appear the same, or similar, as they did on
21 the 5th of November?

22 A. Yes.

23 Q. We're going to go through those in just a minute,
24 but since you mentioned the back of the vehicle,
25 I want to show this picture. What else did you

1 see?

2 A. I looked for license plates on the front and on
3 the back and I couldn't find any. I noticed
4 LeMieux Toyota was on the back, but I didn't know
5 if that was on Teresa's car.

6 Q. Let me just stop you. In fact, on Exhibit 29,
7 you can see the LeMieux Toyota sticker on the
8 back of this exhibit; is that right?

9 A. Right.

10 Q. All right. You mentioned, I think, that part of
11 your observations were that the vehicle had some
12 other debris on it. Let me just show you this
13 exhibit. Which number is that? I think -- Is it
14 31, Exhibit 31?

15 A. Thirty-one.

16 Q. All right. I'm going to have you describe
17 Exhibit No. 31, tell us what we're looking at,
18 please.

19 A. Well, that's the front of the vehicle. And it
20 appears to be some kind of door frame up against
21 the vehicle. And then you will see on the
22 bottom, there's a piece of plywood propped
23 against the front passenger side.

24 Q. Why don't you -- I'm sorry to stop you, why don't
25 you do the best you can and take the laser

1 pointer and show me that door frame that was
2 propped up against it.

3 A. I thought this was a door frame here.

4 Q. All right.

5 A. And then there was a piece of plywood. That's
6 plywood there. And there's an old hood of a car,
7 not from the Toyota, propped against the car
8 right here. And you can see all these branches
9 against the car too, and then on top of the car
10 too.

11 Q. Now, in this exhibit, that is, Exhibit No. 31,
12 you can see there's no front license plate; is
13 that what you saw on that morning as well?

14 A. That's correct.

15 Q. By the way, these exhibits, 29 through 34, are
16 they identical to what you and Nikole saw that
17 morning?

18 A. They are identical.

19 Q. How do you know that?

20 A. Because we actually took the photos of this car.

21 Q. So Exhibits 29 through 34 were taken with what?

22 A. With the digital camera I got from Scott. My
23 daughter, Nikole Sturm, took the pictures of the
24 vehicle.

25 Q. And how close were you when she took them?

1 A. I was right next to her.

2 Q. So all of these photos were images that you saw?

3 A. Yes.

4 Q. Now, Ms Sturm, I know that you are no expert and
5 I'm not going to ask for an expert opinion at
6 all. But from what you saw, especially on
7 Exhibit 31, did it appear that those items had
8 been intentionally placed there?

9 A. I thought so. I thought it was obscuring the
10 view of the car, or even like a camouflage on the
11 car. That's what I thought.

12 Q. Let me go through the rest of the images here.
13 We saw the back of the car. Again, this is
14 Exhibit No. 29; is that right?

15 A. Yes.

16 Q. Exhibit No. 30 is the side of the car?

17 A. Yes.

18 Q. Thirty-one is the -- what would be the front
19 right corner of the car?

20 A. Yes.

21 Q. Thirty-two is one of the tires, looks like the
22 left rear tire, or that area of the vehicle?

23 A. Yes.

24 Q. Is this No. 33?

25 A. Yes, that's correct.

1 Q. A left side, in fact, the driver's door and the
2 left or driver's rear door; is that an accurate
3 description?

4 A. That's correct.

5 Q. And, finally, Exhibit No. 34, would be looking
6 from the left side, but the top of the vehicle
7 showing some branches and some other debris; is
8 that right?

9 A. Yes, that's correct.

10 Q. When you saw this, Ms Sturm, what did you do?

11 A. My daughter was still searching to the right of
12 me. I couldn't see her. I became very, very
13 worried for our safety, because 90 percent this
14 was probably Teresa's car and we're in danger.

15 So I called Nikole's name. I think I
16 maybe even screamed. I shouldn't have, but I
17 did, and I went running to the area where she
18 was. I said, Nikole, Nikole, you have to come
19 and see this car. It must be her car. So she
20 came up by me and she looked at it and she said,
21 mom, it does look like her car. It's got that
22 LeMieux Toyota, and it's RAV 4. And she thought
23 perhaps it was too.

24 Q. Ms Sturm, after making these observations, did
25 you attempt to verify the identification of this

1 vehicle?

2 A. Yes.

3 Q. And how was that done?

4 A. My daughter, Nikole, brought her cell phone along
5 and we -- I should back up. Ryan gave us a
6 direct line to Sheriff Pagel in case we found
7 something. So I dialed Sheriff Pagel's number
8 and at that point I got voice mail.

9 I thought, oh, no, I need to talk to the
10 sheriff. And it said something about if you want
11 to go back to the dispatcher, dial 0, so we did.
12 And we came back to the dispatcher. And I said,
13 we need to talk to Sheriff Pagel, now. I think I
14 found the vehicle. So she switched us over
15 directly to Sheriff Pagel.

16 Q. Exhibit No. 35, Ms Sturm, is a audio recording.
17 I'm going to have you listen to that. And I'm
18 going to ask you if this is, in fact, the phone
19 call that you placed just about 10:30 in the
20 morning on Saturday, November 5th. I hope it is
21 loud enough and audible and we'll give it a try.

22 (Tape playing.)

23 DISPATCH: Dispatch.

24 PAM STURM: Okay. I called to --
25 Mr. Pagel's answering service is on.

1 DISPATCH: Okay.

2 PAM STURM: Okay. We are at Avery
3 Salvage.

4 DISPATCH: Okay.

5 PAM STURM: Okay. And we're searching
6 for the vehicle.

7 DISPATCH: Right.

8 PAM STURM: For Teresa Halbach. We have
9 found a RAV4. What color, specifically, was her
10 RAV4 and do you have a VIN number?

11 DISPATCH: Um --

12 PAM STURM: This vehicle --

13 DISPATCH: Inaudible.

14 PAM STURM: Okay. This -- I don't know,
15 this is like a --

16 DISPATCH: Do you know --

17 PAM STURM: -- bluish green. Okay. Do
18 you have a -- Do you have the ID number?

19 DISPATCH: Hold on. Hold on.

20 PAM STURM: -- the ID number.

21 DISPATCH: Hold on. 801, can you call
22 dispatch right away. Do we have a VIN number, a
23 VIN number?

24 PAM STURM: It's not on the side, Nick,
25 go on the other side.

1 DISPATCH: Hold on. Here's Jerry.

2 SHERIFF PAGEL: Hi, this is Sheriff

3 Pagel.

4 PAM STURM: Oh, Sheriff Pagel, hi. This

5 is Pam Sturm. I'm on the search for Teresa

6 Halbach and we found a RAV4.

7 SHERIFF PAGEL: You did?

8 PAM STURM: It's a bluish green, more

9 blue than green. We just wanted to know if you

10 have the VIN number for that vehicle.

11 SHERIFF PAGEL: Yes, we do. We do have

12 a VIN number. Have you got the VIN number?

13 PAM STURM: I can't find it on the --

14 SHERIFF PAGEL: Where is the vehicle at?

15 PAM STRUM: I'm at Avery salvage.

16 SHERIFF PAGEL: Okay.

17 PAM STURM: It is all covered up.

18 SHERIFF PAGEL: It's all covered up?

19 PAM STURM: Not all covered, but it has

20 got a lot of stuff on it, branches.

21 SHERIFF PAGEL: I don't have my glasses.

22 Okay. It's got branches over it?

23 PAM STURM: Yeah. Where is the VIN

24 number on something like this?

25 SHERIFF PAGEL: The VIN number would

1 probably be on the windshield -- or underneath by
2 the -- on the dash, driver's side.

3 PAM STURM: Dash, driver's side, Nick.

4 SHERIFF PAGEL: Look through the front
5 window.

6 PAM STURM: Through the front window.

7 SHERIFF PAGEL: Mm-hmm. I will give you
8 Investigator Wiegert, he's got the VIN number
9 here.

10 INVESTIGATOR WIEGERT: Hi, are you
11 looking at it right now?

12 PAM STURM: Yeah, and you know we can't
13 find that VIN number.

14 INVESTIGATOR WIEGERT: What color is it?

15 PAM STURM: It is bluish green.

16 INVESTIGATOR WIEGERT: Does it look like
17 a newer one?

18 PAM STURM: Yes, it's a '99 to 2000.

19 INVESTIGATOR WIEGERT: Is there --

20 PAM STURM: More of a bluish green,
21 though, that's why we don't want to put, you
22 know --

23 INVESTIGATOR WIEGERT: Is there any
24 license plates on it?

25 PAM STURM: No plates on it, but it's a

1 little covered up. It's weird, it's covered up.

2 INVESTIGATOR WIEGERT: Okay.

3 PAM STURM: Some of it's --

4 INVESTIGATOR WIEGERT: Can you get to
5 the front of the car?

6 PAM STURM: Yeah, I will. It's a
7 LeMieux Toyota sticker on it. But I haven't --

8 INVESTIGATOR WIEGERT: I don't know if
9 they had a LeMieux Toyota sticker on it. I don't
10 know about that.

11 PAM STURM: Is it okay if I go in the
12 car?

13 INVESTIGATOR WIEGERT: No, do not go in
14 the car. Do not touch the car.

15 PAM STURM: Yeah.

16 INVESTIGATOR STURM: Stay on the outside
17 of the car. Go over to the front, on the
18 driver's side.

19 PAM STURM: Yeah, I realize that. I'm
20 in the business. I kind of know, but I can't
21 find the VIN number. I'm picking up the wiper.

22 INVESTIGATOR WIEGERT: Okay.

23 PAM STURM: There is -- Can't find the
24 VIN number. Can't find it. Oh, here it is,
25 Nick. I don't have my glasses.

1 INVESTIGATOR WIEGERT: You don't have
2 your glasses either?

3 PAM STURM: My daughter is with me.

4 INVESTIGATOR WIEGERT: Okay.

5 PAM STURM: Okay. Now hang on. The
6 first -- the last four digits, 3044.

7 INVESTIGATOR WIEGERT: Okay. Hold on.
8 I have to find it here again. 3044?

9 PAM STURM: Yes.

10 INVESTIGATOR WIEGERT: Okay. Can you go
11 even more in?

12 PAM STURM: I don't know. Nick, can you
13 look at any other numbers? There are some people
14 out here. So we have to be careful. And, you
15 know, there's some -- I don't know if they are
16 employees or --

17 INVESTIGATOR WIEGERT: Okay.

18 PAM STURM: -- who they are, but they
19 are like -- Okay, Nickie, just --

20 INVESTIGATOR WIEGERT: Can you see any
21 other numbers?

22 PAM STURM: Yeah. Say it real slow,
23 Nick. Can't see the very beginning number, but
24 here goes, T0Z5F7, a 1 or a T, a 1 or a T --

25 INVESTIGATOR WIEGERT: Okay. Where are

1 you?

2 PAM STURM: 30 -- Is that the number?

3 INVESTIGATOR WIEGERT: Where are you?

4 PAM STURM: No, you just tell me if this
5 is the car.

6 INVESTIGATOR WIEGERT: Okay. Stop. I
7 can't tell you anything. Where are you?

8 PAM STURM: I'm at Avery salvage.

9 INVESTIGATOR WIEGERT: Okay. Are you on
10 their property?

11 PAM STURM: Yes, I am.

12 INVESTIGATOR WIEGERT: With their
13 permission or not?

14 PAM STURM: Yes, sir. Yes, sir.

15 INVESTIGATOR WIEGERT: Okay. Stay right
16 where you are. Do not touch anything. Do not go
17 anywhere around that vehicle. Stay right
18 where --

19 PAM STURM: Are you --

20 INVESTIGATOR WIEGERT: What's your phone
21 number?

22 PAM STURM: Is this it?

23 INVESTIGATOR WIEGERT: I don't know
24 that.

25 PAM STURM: Okay.

1 INVESTIGATOR WIEGERT: What's your phone
2 number?

3 PAM STURM: What's your phone number,
4 Nick? 920-941-0211.

5 INVESTIGATOR WIEGERT: I'll call them on
6 the way.

7 PAM STURM: This is long distance. You
8 need to dial the entire number.

9 INVESTIGATOR WIEGERT: Okay. Stay where
10 you are. Do not touch the vehicle. Do not let
11 anybody else touch the vehicle.

12 PAM STURM: Don't touch it. Don't touch
13 it, Nick.

14 INVESTIGATOR WIEGERT: And I will be
15 calling you shortly, okay?

16 PAM STURM: Well, I hope you can get me,
17 you know.

18 INVESTIGATOR WIEGERT: Just stay where
19 you are; I will find you.

20 PAM STURM: Well, we asked this guy real
21 nice to come in here. But --

22 INVESTIGATOR WIEGERT: If you have a
23 problem you dial 911.

24 PAM STURM: That's --

25 INVESTIGATOR WIEGERT: We'll be on our

1 way. We're going to have somebody over there as
2 soon as possible.

3 PAM STURM: All right.

4 INVESTIGATOR WIEGERT: Okay. Thank you.

5 PAM STURM: All right.

6 (Tape concluded.)

7 (Tape transcribed to the best of my ability.)

8 Q. (By Attorney Kratz)~ Let me ask you, again, Ms
9 Sturm, Exhibit No. 35, that audio conversation
10 that you heard, between yourself, Sheriff Gerald
11 Pagel and Investigator Mark Wiegert; is that a
12 true and accurate version of the conversation or
13 representation of the conversation as it occurred
14 the morning of the 5th of November?

15 A. Yes, it is.

16 ATTORNEY KRATZ: We would move the
17 admission of Exhibit 35, Judge.

18 ATTORNEY BUTING: No objection.

19 THE COURT: Exhibit 35 is admitted.

20 ATTORNEY KRATZ: And as they have been
21 identified, Judge, I am going to move the admissions
22 of Exhibit 29 through 34.

23 ATTORNEY BUTING: No objection to those
24 either.

25 THE COURT: Exhibits 29 through 34 are

1 admitted as well.

2 Q. (By Attorney Kratz)~ Ms Sturm, were any other --
3 At about this time, were any other investigative
4 behaviors or actions taken with this SUV? Do you
5 understand my question?

6 A. I don't understand.

7 Q. Did you or your daughter, Nikki, attempt to
8 determine whether or not this vehicle was open or
9 locked?

10 A. Nikole attempted to open the doors.

11 Q. Did she do so with a bare hand, or did you see
12 her doing this?

13 A. I told her to use the sleeve of her sweatshirt,
14 but evidently she used tissue. You know, I saw
15 her reach in, but I'm not sure if it was -- you
16 know, I didn't exactly see the tissue. So, yes,
17 she did try the doors, but you will have to ask
18 her which specific doors.

19 Q. I will do that, but if you -- did you or your
20 daughter determine whether or not the doors were
21 opened or locked.

22 A. They were all locked.

23 Q. Did you or your daughter ever otherwise enter
24 that vehicle?

25 A. No.

1 Q. Did you or your daughter otherwise touch that
2 vehicle?

3 A. No, just the windshield wiper.

4 Q. After Investigator Wiegert told you to step away
5 from the vehicle and to not touch it further, did
6 you and Nikki do that?

7 A. Yes, we did. We probably went -- I don't know,
8 probably about a thousand yards -- again, on
9 directions I'm terrible.

10 Q. Well, at this point we're not going to --

11 A. Right.

12 Q. -- ask you to guess. Back to Exhibit No. 25,
13 then, Ms Sturm, let's go back just very briefly.
14 Could you show us, again, or show the jury again,
15 the location to the best that you can recall
16 where this vehicle was discovered?

17 A. It was up on this ridge.

18 Q. And you are pointing to a ridge or a berm area to
19 the immediate south of that pond; is that right?

20 A. That's correct.

21 Q. That would be the area farthest -- or furthest
22 southernmost point of the Avery property; is that
23 your understanding?

24 A. That's my understanding.

25 Q. On Exhibit No. 25, just so that we're not talking

1 south or north, be to the right of the pond; is
2 that right?

3 A. That is correct.

4 Q. You mentioned that after calling dispatch, after
5 reporting the discovery of this vehicle, you and
6 your daughter went to a location on the property;
7 is that right?

8 A. Yes, that's correct.

9 Q. Where was that?

10 A. Well, I was up here, okay, because that's where I
11 found the vehicle. And you can look over to this
12 quarry over here. So I went to the highest
13 point -- and that was almost the highest point
14 anyhow, but I just had to look to see if Teresa
15 was over there.

16 So then I looked over there and then we
17 proceeded down here. And over here is a car
18 compacter and we -- we were over there. And I
19 put my daughter behind a car because I thought we
20 were in danger and I just stayed out here.

21 Q. All right. You are pointing to an area near what
22 we have been calling the car crusher, but there
23 is an open -- an open area where there aren't any
24 junk vehicles; is that what you are pointing to?

25 A. There are some vehicles here and there's

1 compacted vehicles here and here's the compacter
2 itself, but, yeah, right in here there aren't any
3 cars.

4 Q. Is that where you waited?

5 A. Yes.

6 Q. Now, tell us what happened then?

7 A. Well, we waited about 20, 25 minutes before
8 someone arrived. Before they arrived, we saw a
9 man up on the ridge. By the buildings up here,
10 there's a ridge. And I got a little concerned so
11 I -- like I said, I put Nikki behind a car so
12 nothing would happen to her. And we just waited
13 and waited. And it seemed like forever, you
14 know.

15 Q. In 20 or 25 minutes, did somebody arrive?

16 A. Yes. A Sheriff Remiker arrived first.

17 Q. Was he a plain clothes officer or an officer in
18 uniform; do you remember?

19 A. No, I don't recall if it was.

20 Q. Do you know what department responded first?

21 A. I believe it was Manitowoc County.

22 Q. Okay. After the law enforcement officers got
23 there, did they, then, basically, take over that
24 area?

25 A. Yes, he had another patrolman go back to the car

1 and just, like, you know, stay by the car so no
2 one else would go by the car.

3 Q. Tell us what you saw; did you see anybody going
4 by the car?

5 A. He stayed by the car and then other officers
6 arrived sheriff, Sheriff -- Deputy Wiegert.

7 Q. Now, these are Calumet deputies; is that right?

8 A. Yes. Yes, Deputy Wiegert.

9 Q. Slow down --

10 A. I'm sorry.

11 Q. Ms Sturm, slow down just a second. Before any
12 other police officers arrived on the scene, after
13 you and Nikki had called in to dispatch, did you
14 notice any other individuals going up or near
15 that vehicle?

16 A. No one went near that vehicle. We watched to
17 make sure no one went over there.

18 Q. You were watching just for that; isn't that
19 right?

20 A. Yes.

21 Q. And after the law enforcement of -- the Manitowoc
22 County law enforcement officers got there, did
23 any of those law enforcement officers enter or
24 approach that vehicle?

25 A. Only one deputy went up by the vehicle, just to

1 guard. He was just guarding the vehicle. He
2 never went in the vehicle. He never touched the
3 vehicle.

4 Q. That's what I'm asking you. And you were
5 watching for that, weren't you?

6 A. Yes, I was. Yes.

7 Q. So nobody from the time -- Listen to my
8 question --

9 A. All right.

10 Q. -- before shaking your head. Nobody from the
11 time that you discovered that vehicle, until
12 Calumet County law enforcement officials,
13 including Investigator Wiegert, nobody touched or
14 entered that vehicle, to your knowledge; is that
15 true?

16 A. That's correct.

17 Q. After the police officers arrived, did you have a
18 chance to speak with Investigator Wiegert?

19 A. Yes, I did. I explained to him, you know, how we
20 found the vehicle. And he said that we would
21 have to give a statement at that time.

22 Q. Did you give an oral and a written statement
23 then?

24 A. We gave an oral statement to Deputy Wiegert and
25 then we gave a written statement and an oral

1 statement to Deputy Dederling.

2 Q. Also from Calumet County?

3 A. Yes.

4 Q. I want you to look at Exhibit No. 25 again, how
5 long from when you entered that property did it
6 take you to find Teresa's vehicle?

7 A. I believe we entered at 10 to 10 and by 10:20 to
8 10:25 we had found the vehicle.

9 Q. So within the first 40 minutes?

10 A. Correct.

11 Q. Ms Sturm, do you know how many vehicles are on
12 this property?

13 A. I didn't at that time. I had no idea.

14 Q. Looking at it now, do you think you got lucky?

15 A. Yeah. Well, not lucky, God showed us the way; I
16 do believe that.

17 Q. Do you think, looking at this exhibit now, that
18 you and your daughter Nikki could have searched
19 that entire salvage yard?

20 A. We would have tried. We would have came back the
21 next day if we had to.

22 Q. After giving your statements, after both the oral
23 and written statements were provided to law
24 enforcement, after assuring them that you hadn't
25 touched or entered the vehicle, where did you go?

1 A. One of the deputies brought us back to the main
2 building, in his vehicle, because I was kind of
3 afraid to walk back up there. And then we left.

4 Q. Where did you go then?

5 A. Actually, we went to Karen and Tom's house and
6 talked to them for a while.

7 Q. Who's Karen?

8 A. Karen is Teresa's mother.

9 Q. Did you tell her what you found?

10 A. Yes.

11 Q. Ms Sturm, about what time, then, did you get to
12 the Halbach residence; if you know?

13 A. You know, I think it was --

14 ATTORNEY BUTING: What's the relevance of
15 this?

16 THE COURT: Just a minute. Mr. Kratz.

17 ATTORNEY KRATZ: I'm just wondering if she
18 went anywhere in between; I can ask it that way.

19 THE COURT: Go ahead.

20 Q. (By Attorney Kratz)~ Did you go anywhere in
21 between the Avery salvage property and the
22 Halbach residence?

23 A. No, we didn't.

24 Q. Went straight there?

25 A. Yes.

1 ATTORNEY KRATZ: That's all the questions I
2 have of this witness, Judge. Thank you.

3 THE COURT: All right. We'll get started
4 on cross-examination today, go until 4:30.
5 Mr. Buting.

6 ATTORNEY BUTING: Thank you, Judge. We may
7 get done if we're lucky.

8 **CROSS-EXAMINATION**

9 BY ATTORNEY BUTING:

10 Q. Now, ma'am, you -- on the dispatch tape, we heard
11 you say, I know, I'm sort of in the business. By
12 that you mean you have private investigator
13 experience, right?

14 A. That's correct.

15 Q. You used to be a licensed private investigator,
16 right?

17 A. That's correct.

18 Q. So you had some idea what to do and how to do
19 this search, right?

20 A. Some idea.

21 Q. Is it your testimony that before Saturday
22 morning, November 5th, you had not done anything
23 in terms of investigating or searching for Teresa
24 or her vehicle?

25 A. No, I haven't -- hadn't.

1 Q. And after that, did you also do any additional
2 investigation on your own?

3 A. Yes, I did.

4 Q. And did you, in fact -- Were you, in fact, called
5 to an area near Mishicot by some individuals who
6 had found what they thought might be some
7 evidence?

8 A. I don't recall being called by someone, no.

9 Q. Well, did you -- Were you with somebody looking,
10 in the area of Mishicot?

11 A. We were in the area of Mishicot and I spoke with
12 some of the business owners in Mishicot.

13 Q. Those were bars, right?

14 A. That's correct.

15 Q. And they were down near the river?

16 A. No, this was about -- the river is about a
17 quarter mile from the actual town.

18 Q. Okay. And what day was that?

19 A. I'm not sure.

20 Q. Well, was it Saturday night -- Was it nighttime
21 or daytime?

22 A. No, it was during the day. So it was, you know,
23 Sunday, Monday, Tuesday, one of those days, that
24 I had a day off and I wanted to help out.

25 Q. And what was your purpose in going to those bars

1 and talking to those --

2 A. To see --

3 Q. -- business owners?

4 A. To see if anyone knew anything about Teresa or

5 had seen Teresa.

6 Q. Okay. And were you passing out your name and

7 phone number or anything like that for people?

8 A. I don't recall doing that, no.

9 Q. Do you remember being called to an area near the

10 river, a turn around area near the river, by one

11 of those individuals from the bar area, to look

12 at some --

13 A. I know we had searched around the river area and

14 then at that point, we, meaning one of the bar

15 owners in town, said he would come down and help

16 me out. And on the search we had found a cell

17 phone.

18 Q. And what was that bar owner's name?

19 A. I don't recall.

20 Q. Do you remember -- Do you know an individual by

21 the name of John Champion (phonetic)?

22 A. I'm not sure if that was his name or not.

23 Q. Okay. And you found a cell phone down by the

24 river?

25 A. Yes.

1 Q. And also some business papers, some sort of
2 papers nearby?

3 A. I don't recall any papers.

4 Q. But that cell phone, you thought, might be
5 important?

6 A. I thought perhaps it was important.

7 Q. For all you know, it could have been Teresa's,
8 right?

9 A. Could have been.

10 Q. So what did you do?

11 A. I called the sheriff's department and someone
12 came down and photographed the cell phone.

13 Q. And who was that; Mr. Wiegert?

14 A. No, I'm not sure -- exactly sure who that was. I
15 believe I got his card, though.

16 Q. Was he plain clothes?

17 A. No.

18 Q. He was wearing a deputy's brown uniform?

19 A. That is correct.

20 Q. Which county sheriff are we talking about?

21 A. I'm not sure.

22 Q. Well, this is Mishicot, so that's Manitowoc
23 County, right?

24 A. I would assume.

25 Q. So you would assume that it was probably a

1 Manitowoc County sheriff deputy that came down
2 there, right?

3 A. There were so many police officers at the Avery
4 salvage yard at that time, it could have been
5 anyone.

6 Q. This wasn't at the Avery salvage yard, was it?

7 A. No.

8 Q. This was miles away over in Mishicot?

9 A. Couple miles away, yeah.

10 Q. And the cell phone, you said somebody took
11 pictures of it?

12 A. That's right.

13 Q. And did that individual also take possession of
14 the cell phone?

15 A. Yes.

16 Q. And what happened next?

17 A. We met up with the search party again. And I
18 described the cell phone to one of the Halbachs,
19 I believe, and they said it wasn't Teresa's.

20 Q. Well, did you make any notes of what kind of cell
21 phone it was?

22 A. I did at that time, I knew what it was. Now I
23 can't recall.

24 Q. Okay. But you didn't take any pictures of your
25 own, though?

1 A. No.

2 Q. And you don't know what day this was; it could
3 have been Sunday, the 6th?

4 A. It was after the 5th.

5 Q. Okay. So it could have been the 6th, right?

6 A. No, I don't think I worked on the 6th. I think I
7 had off on Monday or Tuesday and I went back to
8 help out.

9 Q. Okay. Now, you are not a private investigator at
10 this point, right?

11 A. No, I'm not.

12 Q. And you weren't back in October of 2005?

13 A. No, I wasn't.

14 Q. You were just helping out as a volunteer for the
15 Halbach family at that time?

16 A. Yes.

17 Q. And you said that Ryan, when you met on Saturday
18 morning, Ryan Hillegas gave you a direct phone
19 number for Sheriff Pagel?

20 A. Yes.

21 Q. So he had -- Evidently he had Sheriff Pagel's
22 direct line?

23 A. It was either the direct line or the line into
24 that department.

25 Q. Well, when you called it, it got right to Sheriff

1 Pagel's voice on his voice mail, right?

2 A. Voice mail, yes.

3 Q. Okay.

4 A. But we did talk to the dispatch too.

5 Q. I know, that's later, though. The number you
6 called just put you right to Sheriff Pagel's
7 voice mail, correct?

8 A. Yes.

9 Q. When you saw the vehicle there, up on that ridge,
10 and you said you thought it was 90 percent in
11 your own mind that this might be, in fact,
12 Teresa's vehicle you, of course, looked inside
13 for Teresa as well, right?

14 A. Correct.

15 Q. And you got a decent look inside there because
16 you actually saw some soda bottles too, I think,
17 right?

18 A. We did see some soda bottles.

19 Q. Okay. And you didn't see Teresa, right?

20 A. No.

21 Q. And you didn't see any blood, right?

22 A. Not that we could visually see, no.

23 Q. Okay. Well, you didn't see any blood, period.

24 A. No.

25 Q. Okay. And you were looking. What else did you

1 see besides soda bottles? See anything with her
2 name on it?

3 A. No, I can't remember anything, no.

4 Q. Okay. If I understood you correctly, did you say
5 that you actually found this vehicle within 10
6 minutes of your search?

7 A. No, sir.

8 Q. I thought you said you went in at 10:10 and you
9 found it at -- or 10 minutes to 10; is that
10 right?

11 A. That's correct?

12 Q. Okay. I misunderstood. I apologize. So you
13 found it within about 30, 35 minutes or so?

14 A. That's correct.

15 Q. And when you walked up on that ridge, it was the
16 only car with any kind of branches, or wood, or
17 debris put on top of it, right?

18 A. That I saw, yes.

19 Q. All the other ones looked like they did -- they
20 do in this photograph here. They are generally
21 visible, not camouflaged, or anything of that
22 sort, right?

23 A. I guess I didn't look any further down the line
24 so I can't really say absolute, you know.

25 Q. Okay. But of the vehicles -- of the area you did

1 look through, which would have been from the
2 buildings in the upper left corner, where
3 actually is the northeast corner, south all the
4 way to that edge of the Avery property, you
5 didn't see any other vehicles that were --
6 appeared to have been obscured, or covered with
7 anything?

8 A. No.

9 Q. So this one was unique of all of the vehicles
10 that you saw?

11 A. Right. And it was about the right color and it
12 was a RAV4.

13 Q. And to you, it looked pretty obvious that this
14 was somebody just trying to camouflage this,
15 right?

16 A. It appeared to be that way.

17 Q. But it was actually double parked along that
18 ridge of vehicles, on the left -- or I'm sorry,
19 on that car path you mentioned behind the pond,
20 right?

21 A. Right.

22 Q. Those were a single line of cars and this one was
23 double parked right next to one?

24 A. Right.

25 Q. On the tape, I heard you say something, I think

1 about there were people nearby, while you were at
2 the scene and calling in to report this?

3 A. When we first walked down the quarry --

4 Q. That's a simple yes or no; were their people --
5 you said something about their being people
6 nearby, right?

7 A. Yes.

8 Q. And these appeared to be what, other customers or
9 something, milling about?

10 A. I can't say for sure, but I thought perhaps they
11 were getting parts off of vehicles.

12 Q. Okay. Like customers would do there, right?

13 A. Right.

14 Q. And Steven Avery wasn't one of them, I assume,
15 right?

16 A. No.

17 Q. And you mentioned a man up on the ridge, or not
18 on the ridge, but up on the hill, kind of back
19 towards the buildings, when you were sitting
20 there waiting for 20 minutes?

21 A. Correct.

22 Q. And Steven Avery wasn't that man either, was he?

23 A. I don't know for sure.

24 Q. Well, who was that man; do you know?

25 A. I don't know.

1 Q. Do you have any description of him?

2 A. No, sir.

3 Q. Was it the same -- Was it Earl Avery?

4 A. It could have been. It's just too far away to
5 see.

6 Q. So you just -- wasn't anything in particular
7 about that man, or what he was doing, that caused
8 you concern; it was just the overall feeling you
9 had that maybe this wasn't the safest place to
10 be; is that fair?

11 A. That's fair, yes.

12 Q. Okay. And until the police arrived, you were --

13 ATTORNEY BUTING: We're about to finish up,
14 Judge.

15 Q. (By Attorney Buting)~ Until the police arrived,
16 you were trying to keep an eye on that vehicle,
17 make sure none of these other customers or
18 anybody else would walk near, right?

19 A. That's correct.

20 Q. But once the police arrived, then that was their
21 job, right?

22 A. No, we kept our eye on it.

23 Q. Once Manitowoc arrived, you were concerned about
24 Manitowoc police approaching that vehicle?

25 A. About anyone approaching or touching that

1 vehicle.

2 Q. And so you kept a good eye to make sure none of
3 the Manitowoc people would do it?

4 A. That anyone would do it.

5 Q. But if you were about a thousand -- What did you
6 say, a thousand yards away, a thousand feet away?

7 A. I'm not very good at distance; right by the car
8 compacter.

9 Q. Okay. But then after Wiegert -- after Detective
10 Remiker arrived, you went back over by the -- to
11 the left, on this picture, did you not? I think
12 you said you went about a thousand yards away?

13 A. Could you rephrase that.

14 Q. I believe, maybe I misunderstood you, but I
15 thought -- I thought you said that you walked
16 about a thousand yards away from where the
17 vehicle was, when Detective Wiegert arrived?

18 A. Like I said, I'm not very good at distance. I
19 would say three football fields. Now, I'm trying
20 to judge the distance that way.

21 Q. Okay. Nine hundred yards, a thousand yards,
22 close enough. And you weren't paying attention
23 at that point, then, to what was going on with
24 the car, from that big of distance away once --
25 once Investigator Wiegert arrived, right?

1 ATTORNEY KRATZ: Judge, I'm sorry, I know
2 this is late, but a football field is only
3 100 yards, three of them wouldn't be 900? If my
4 math --

5 (Attorneys talking over each other.)

6 ATTORNEY BUTING: You are right. I'm
7 sorry. I'm sorry, it is late, 900 feet.

8 Q. (By Attorney Buting)~ But after Wiegert arrived,
9 you were talking to Investigator Wiegert, gave an
10 oral statement to him, right?

11 A. Right.

12 Q. And you talked to Dederling and gave an oral and
13 written statement to him, right?

14 A. Correct.

15 Q. So, you weren't paying attention to what was
16 going on with the car at that point; you were
17 giving statements oral and written, right?

18 A. We were facing the vehicle.

19 Q. While you are sitting there writing a statement,
20 or did you not write it?

21 ATTORNEY KRATZ: Objection, argumentative,
22 Judge. She said she watched the vehicles the whole
23 time. I don't know how many times she has to say
24 that?

25 THE COURT: Well, he's allowed to ask a

1 question about writing and watching the vehicle at
2 the same time. I will allow the question.

3 Q. Did you hand write the statement yourself?

4 A. Yes.

5 ATTORNEY BUTING: Thank you, no further
6 questions.

7 THE COURT: Attorney Kratz?

8 ATTORNEY KRATZ: Not for today, Judge.
9 That's fine.

10 THE COURT: Okay. You are excused -- Well,
11 before I say that, when you say not for today, are
12 you intending to ask questions on redirect tomorrow?

13 ATTORNEY KRATZ: No, I'm sorry.

14 THE COURT: Very well, you are excused for
15 today.

16 Members of the jury, that concludes the
17 portion of the trial for you today. I will
18 remind you again not to talk to each other about
19 this matter. Also, make sure that you do not
20 listen to any news accounts. Don't read the
21 newspaper. Don't listen to the local news on the
22 radio. Don't watch the local news on TV. We
23 will see you tomorrow, tomorrow morning.

24 (Jury not present.)

25 THE COURT: Now, you may be seated.

1 Counsel, before we leave today, did you wish to take
2 up the issue of these stipulations on the record?

3 ATTORNEY KRATZ: We certainly can, Judge --

4 ATTORNEY BUTING: Judge, before we do that,
5 I do want to clear up a couple of things. And it's
6 a -- I want to make a specific renewed discovery
7 request on two items. Because until today, I was
8 not aware, have not actually received any reports
9 from any Manitowoc or Calumet County sheriffs about
10 this search that Ms Sturm was involved in down by
11 the Mishicot river area, where a cell phone was
12 found, photographs apparently were taken, the phone
13 was seized. There's no reports of that activity
14 anywhere in any of the discovery we have received.

15 Secondly, Mr. Sturm -- I'm sorry,
16 Mr. Drumm testified about Exhibit 25, and perhaps
17 it wasn't clear, because he was asked maybe two
18 different things on direct and cross, but I
19 understood him to say that Exhibit 25 was a
20 picture of a photograph taken on November 4th.

21 And as I looked at it more carefully,
22 it's obvious that it was not. It was something
23 taken long after the vehicle was discovered.
24 There's all sorts of police vehicles around,
25 Command Posts, the RAV is not there. The RAV 4

1 is not there.

2 But he did testify that he did not
3 recall video -- whether video was being taken
4 during the flight, but he did recall photographs
5 being taken. And we did not receive any
6 photographs from that flight. All we have
7 received was a video and so I would renew a
8 discovery request for those photographs as well.

9 THE COURT: All right. And before I ask
10 for a response from the State, I did want to note
11 for the record that the side bar that was requested
12 during the testimony of Pamela Sturm related to that
13 photo and the issue that Mr. Buting just raised.

14 And as I understand it, both parties
15 acknowledge that Exhibit 25 is an aerial photo of
16 the Avery Salvage Yard property, but one that was
17 taken some time after at least the victim's
18 vehicle was removed from the property. And how
19 long after that, I'm not exactly sure. But is
20 that correct, counsel?

21 ATTORNEY KRATZ: It is, Judge, and in fact,
22 there are a couple of very important points to
23 raise. First, the question that I asked of
24 Mr. Drumm was whether or not Exhibit No. 25 looked
25 the same or similar as to what he observed on the

1 4th. I think that is not at all the same question
2 as, was this photo taken on the 4th.

3 Perhaps as importantly, the Court will
4 note in the proposed stipulations and agreed upon
5 stipulations by the parties, that aerial photos
6 are one area that before we even walked into
7 court we had agreed would be admissible without
8 objection. And this might be a good segue to put
9 that on the record.

10 Lastly, this cell phone down by the
11 river is the first I have heard of this.
12 Certainly never came through our office. Never
13 was provided by our office as part of discovery,
14 because I don't have anything from that.

15 Mr. Drumm's testimony about a video
16 being taken from his plane is accurate. That was
17 already provided to defense and I can also assure
18 the Court that I am unaware of any photographs
19 that were taken therefrom.

20 So although the video has been provided
21 from that flyover, from that aerial search, I
22 don't understand there to be any still photos
23 from there; although, they did get the video.

24 THE COURT: So what you are saying is that
25 your understanding is, from what I take it, exactly

1 the opposite of Mr. Drumm's understanding. I think
2 he said he thought there were photos taken, but was
3 not aware of video, though, he wasn't personally
4 involved in either one, he was flying the plane.
5 You are telling me that what actually happened was
6 video was taken, but no photos. The video has been
7 turned over.

8 ATTORNEY KRATZ: I'm sure the camera he saw
9 was a video camera and that has been turned over to
10 the defense.

11 ATTORNEY BUTING: I would ask, if counsel
12 is just discovering this cell phone incident today,
13 and the way she described it, obviously there was
14 some sort of police involvement, that perhaps
15 overnight he should check with probably Manitowoc
16 and see what's up with that.

17 ATTORNEY KRATZ: Perhaps Mr. Buting would
18 like to do that; it's not in my possession, Judge.

19 THE COURT: How did this come to light?
20 How did you know how to ask the questions about it,
21 Mr. Buting? I guess I'm at a loss. I don't know
22 how it got started.

23 ATTORNEY BUTING: We get tips too, just
24 like they do. Sometimes useless, sometimes not.
25 This one sounded like maybe it might be more

1 legitimate, so I thought I would ask her about it.
2 But I had no confirmation of it, until today.

3 And she clearly describes a police
4 action of some sort. They -- To say that it's
5 not in his possession, Manitowoc officers are
6 testifying for the State. They have been
7 involved in critical parts of this case in terms
8 of evidence that was discovered, so I think he
9 does have an obligation under **Brady**, potentially,
10 to get to the bottom of this and find out is this
11 something that was never even documented,
12 Manitowoc never even wrote a report or did they
13 write a report and we just haven't received it.

14 ATTORNEY KRATZ: Wait a second, Judge.
15 When throwing the word **Brady** around, it sounded
16 through this witness that inquiry was made that very
17 day. Was this Teresa's cell phone? The Halbach
18 family assured them it wasn't her cell phone at all.
19 I don't know what could ever be considered
20 exculpatory, potentially exculpatory, relating to
21 relevant evidence.

22 That notwithstanding, I just asked
23 Investigator Wiegert, he hasn't heard of this
24 either. We can certainly check our reports and
25 we're happy to do that for Mr. Buting. And more

1 thoroughly check that and also make some
2 inquiries, but it's quite certain, at least to
3 me, that it isn't something in our possession.
4 And even if it were, would have very little, if
5 any, relevance to this particular case.

6 THE COURT: Well, I don't know if it has
7 any **Brady** implication or not, but it sounds like
8 something that would be in at least the possession
9 of the State, this case being State of Wisconsin vs.
10 Mr. Avery, not Calumet County. So I'm going to ask
11 the State to determine whether there are any reports
12 of the incident and if there are any, share them
13 with the defense.

14 ATTORNEY KRATZ: We'll do that, Judge.

15 ATTORNEY BUTING: Thank you.

16 THE COURT: I did not understand Mr. Drumm
17 to be testifying that the aerial photo on the screen
18 was one that he necessarily thought was taken the
19 day he flew over the salvage yard property. It
20 might -- If it's going to come up as an issue in any
21 way because of, for example, the line of police cars
22 that are on the property, it might be helpful for
23 the parties to notify the jury when the photo was
24 taken. I don't think anything about that's come in
25 yet, or if it has, I haven't caught it.

1 ATTORNEY BUTING: I think we should because
2 we did zoom in on it a little bit. And I don't know
3 if they saw, but I mean I knew what I was looking at
4 and the RAV4 was clearly not there. I don't want
5 them back in deliberations, you know, not knowing
6 what's going on, looking at this. You know, if they
7 misunderstood that it was taken when Mr. Drumm was
8 flying on the 4th, before the vehicle was even
9 discovered, it just may confuse things.

10 THE COURT: As I watched the evidence
11 myself, I wondered if anybody was going to zoom in
12 and show where the RAV4 was because I was not aware
13 of when the photo was taken. So I think the jury
14 should be informed of that.

15 Anything else before we get to the
16 stipulations? Have I missed anything that's been
17 placed in issue?

18 ATTORNEY KRATZ: No.

19 THE COURT: If not, let's move on to the
20 stipulations. Who is going to speak?

21 ATTORNEY KRATZ: I certainly can, Judge.
22 Mr. Strang, I'm sure, will correct me if there's a
23 problem. First of all, there is one stipulation
24 that came up this afternoon. As Mr. Schmitz was
25 leaving the witness stand, I had neglected to

1 inquire of him what his telephone number was.

2 I'm simply doing that because there's
3 going to be a summary exhibit contemplated later
4 that each of the witnesses, rather than
5 calling -- a custodian of Mr. Schmitz's phone may
6 have been called, rather than recall him for that
7 purpose, Mr. Strang was gracious enough to agree
8 to a stipulation. His phone number, Judge, is
9 894-3912. I believe that's a 920 area code. And
10 that should be included as a fact and provided to
11 the jury.

12 As the Court knows, Mr. Strang,
13 Mr. Buting, and the prosecution team had worked
14 for several weeks on proposed stipulations of
15 fact. We have tried to eliminate witnesses that
16 were either unnecessary or would provide
17 testimony or evidence that was not really
18 contested or at consequence to the real issues in
19 this lawsuit.

20 And so in an exchange of emails,
21 Mr. Strang and I came up with these following
22 stipulations. Most of them, Judge, I will tell
23 you do not have to be provided to the jury by way
24 of affirmative comment by the Court, but simply
25 as an agreement as happens in most trials,

1 between attorney's, that objections will not be
2 made or an agreement as to admissibility of
3 evidence.

4 And so from that perspective, the
5 parties have agreed as follows:

6 First, that the DNA exemplar of the
7 victim in this case, Teresa Halbach, which
8 consisted of a Pap smear, a cervical sample,
9 would be admitted without the necessity of
10 providing witnesses as to its -- how it was
11 obtained, how it was stored, or the transport
12 thereof.

13 There will be testimony as to the DNA
14 analysis performed by the Wisconsin Crime Lab,
15 but authentication and transport witnesses,
16 Mr. Strang has agreed, will not be required. If
17 the Judge wants to inquire of Mr. Strang as we do
18 these one at time, that's fine, or I can do them
19 en masse. I don't care how the Court wants to
20 proceed.

21 THE COURT: Mr. Strang.

22 ATTORNEY STRANG: I think the much more
23 efficient way to do this would be just to make a
24 part of the record my February 4, 2007, email to
25 Mr. Kratz which lays out in writing just exactly

1 what's stipulated and what's not. I think, you
2 know, these go paragraphs A through W and not all of
3 them are stipulations, but most of them are.

4 THE COURT: Do I understand that these are
5 not, for want of a term of art, Jury Instruction 162
6 stipulations that are going to be read to the jury,
7 these are simply items pertaining to evidence that
8 the parties are going to agree to as we go along?

9 ATTORNEY STRANG: That's right. And that's
10 a good distinction between these and the Steven
11 Schmitz stipulation. On the Steven Schmitz
12 stipulation, the stipulation is that, had he been
13 asked, he would have testified that his telephone
14 number is 920-894-3912. So that's a stipulation
15 about what evidence would have been given by a
16 witness. Most of these --

17 THE COURT: Just a minute. If there's
18 another written document, or something that's going
19 to be received with his telephone number on it and
20 it's not objected to, I don't know that I have to
21 instruct the jury in --

22 ATTORNEY STRANG: Right.

23 THE COURT: -- closing instructions, the
24 parties can agree that's his phone number, right?

25 ATTORNEY STRANG: Correct, if there were a

1 written document and it's not objected to, then
2 there is no Pattern Instruction 162 stipulation
3 instruction to give. And most -- most of these
4 paragraphed stipulations are of the latter nature.
5 In other words, we just agreed among us that I won't
6 make an authenticity objection, you know, you still
7 have to prove up relevance, or I, you know, I may or
8 may not object under 904.03. But I don't have a
9 problem with authenticity.

10 Some of them go -- Some of them go
11 further than that; for instance, just as an
12 example, we're stipulating that Teresa Halbach
13 purchased a Motorola RAZR V3 phone in August,
14 2005. And we're going to allow admission of the
15 contract and receipt without the calling of any
16 witness, so.

17 THE COURT: I have no problem with simply
18 accepting a written copy of the email; though I have
19 already marked up the copy that was circled by, I
20 believe, Mr. Kratz or someone and given to me, so I
21 will need a clean one, but I won't require the
22 parties to put the agreement further on the record
23 if they don't feel a need for it.

24 ATTORNEY KRATZ: Judge, what I will do,
25 since what you have, dated the 4th of February, is

1 actually a response to an email that I wrote to Mr.
2 Strang on the 25th of January, I'm going to attach
3 both of these as one exhibit. I will have it
4 marked, I will have it received by the Court. And
5 this, together, is an accurate reflection, then, of
6 what both parties agree to. I don't have any
7 problem with the procedure.

8 ATTORNEY STRANG: And that's ideal because
9 my February 4 email says see your January 25, 2007,
10 email. I will also just make crystal clear that
11 we're not walking away from the stipulation to the
12 authenticity of the aerial photographs. There is no
13 objection to Exhibit 25.

14 The issue is -- and I fully accept
15 Mr. Kratz's explanation of what question he
16 actually asked Mr. Drumm. Once he repeats it, I
17 think it rings a bell with me. All I can say is
18 that sitting here, as one attentive observer, in
19 my own mind, when I heard Mr. Drumm testifying, I
20 was -- I guess assuming that Exhibit 4 --
21 inferring that Exhibit 25 was taken on
22 November 4. And if I made that mistake then
23 jurors may have. So that's why we just need to
24 clear up the date. It doesn't affect the
25 admissibility or the authenticity of Exhibit 25.

1 We have no quarrel with that.

2 THE COURT: Well, again, I think perhaps
3 the primary reason to clear up the date is not have
4 the jury wondering whether or not the RAV 4 is in
5 that photo. The parties have already demonstrated
6 to the jury that they have the capability to zoom in
7 on these photos. So I think it will help the jury
8 and everyone, to know exactly when it was taken.
9 Anything further this afternoon?

10 ATTORNEY KRATZ: It's a digital photo,
11 Judge. I'm just telling the Court because just
12 something that I learned about the signature on a
13 digital photo. It was taken, at least if the time
14 in the camera is correct, on November 8th, 2005, at
15 7:15 a.m., using a Canon EOS Digital Rebel XT
16 camera. I don't know what the Court wants by way of
17 information, but we'll try to verify that time and
18 any other information. And I think it's a very
19 valid point and we'll alert the jury to that.

20 ATTORNEY STRANG: I don't think the State
21 needs to spend anymore time verifying that. I mean,
22 November 8, I don't have any reason to doubt and the
23 photo is perfectly plausible for having been taken
24 on November 8.

25 THE COURT: Okay.

1 ATTORNEY STRANG: So I'm happy with that.

2 ATTORNEY KRATZ: Judge, if I may, page 185
3 of the Calumet County Sheriff's Department
4 discovery, on the third last paragraph, actually
5 talks about this very image, how it was taken and
6 when and why and those kind of things. So, page
7 185.

8 THE COURT: All right.

9 ATTORNEY KRATZ: That not withstanding,
10 Judge, we will -- Oh, I'm sorry. I'm sorry, Judge.
11 I misspoke. I was hearing two things, page 185, the
12 third last paragraph is the information regarding
13 the other cell phone that was found, that mystery
14 one down by the river.

15 THE COURT: The Mishicot cell phone?

16 ATTORNEY KRATZ: Yeah, page 185 of the
17 Calumet County Sheriff's Department report, third
18 from the bottom paragraph, that should be the
19 information that Mr. Buting has been looking for.

20 I'm sorry. But the other information,
21 as to the time and date of the aerial photo, all
22 seems accurate as well. That's all I have for
23 today.

24 THE COURT: All right. I will ask the
25 attorneys to meet in chambers again at 8:30 just to

2 STATE OF WISCONSIN,

3 Plaintiff,

4 -vs-

5 STEVEN A. AVERY,

6 Defendant.

TRANSCRIPT OF DAY 3 OF

12-PERSON JURY TRIAL

Case No. 05-CF-381

7 PATRICK L. WILLIS
8 JUDGE PRESIDING

9 APPEARANCES:

10 ATTY. KENNETH R. KRATZ, Special
11 Prosecutor, from Calumet County,
12 Wisconsin, ATTY. THOMAS FALLON,
13 from State of Wisconsin Attorney
14 General's Office, and ATTY.
15 NORMAN GAHN, from Milwaukee
16 County, appearing on behalf of
17 the Plaintiff.

18 ATTY. JEROME F. BUTING, of the
19 firm, Buting & Williams, of
20 Brookfield, Wisconsin, and ATTY.
21 DEAN A. STRANG, of the firm,
22 Hurley, Hurish, & Stanton, of
23 Madison, Wisconsin, appearing on
24 behalf of the Defendant.

25 Date of Proceedings: February 14, 2007

1 (Proceedings commenced at approximately 9:00 a.m.)

2 THE CLERK: All rise.

3 THE COURT: You may be seated. At this time
4 the Court once again calls the case of State of
5 Wisconsin versus Steven Avery, case 05-CF-381.
6 Would the parties state their appearances for the
7 record?

8 MR. KRATZ: Is the sound system not on?

9 THE COURT: Nope. It's not on at all?

10 MR. KRATZ: No.

11 THE COURT: Okay. It's on now. Terrific.
12 Mr. Kratz, appearances for the State?

13 MR. KRATZ: Your Honor, the State appears by
14 Calumet County District Attorney Ken Kratz,
15 appearing as special prosecutor. Also appearing in
16 this case is Mr. Fallon, Assistant Attorney General,
17 and Mr. Gahn, Assistant District Attorney from
18 Milwaukee County.

19 MR. BUTING: Good morning, your Honor.
20 Attorney Jerome Buting, and Attorney Dean Strang,
21 appearing with Mr. Avery, who is present.

22 THE COURT: All right. Mr. Kratz, are you
23 going to call your next witness?

24 MR. KRATZ: I don't know if this is working,
25 Judge.

THE COURT: Does that help at all? Check the plug under the desk.

(At which time the sound system started working after the electric cord for the microphone was plugged into a different outlet under the District Attorney's table.)

MR. KRATZ: That is probably going to be a little loud. But the State calls Nicole Sturm, Judge.

THE CLERK: If you would raise your right hand?

NICOLE STURM, being first duly sworn on oath to tell the truth, the whole truth, and nothing but the truth, testified as follows:

THE CLERK: Please state your full name and spell your last name please.

THE WITNESS: Nicole Sturm, S-T-U-R-M.

DIRECT EXAMINATION BY MR. KRATZ:

Q Good morning, Ms. Sturm. Thank you for coming this morning. Let me first ask you if you know a woman by the name of Pam Sturm?

A Yes.

Q Who is Pam?

A She is my mother.

Q And were you with Pam on the morning hours of

1 November fifth of 2005?

2 A Yes, I was.

3 Q Would you tell the jury where you went that
4 morning please?

5 A We first went to Teresa's house, to enter the
6 search, to become volunteers for the search.

7 Q All right. Thereafter, Ms. Sturm, did you
8 accompany your mother to a property which is
9 known as the Avery Auto Salvage Yard?

10 A Yes, I did.

11 Q And after arriving at that scene, we understand
12 from your mother that you received, you and she,
13 that is, received permission to search for the
14 vehicle on that property; is that correct?

15 A Yes. We received permission from Earl Avery.

16 Q Tell the jury, as best you can remember, what
17 efforts you made to search for Teresa's car that
18 morning?

19 A We started out heading toward the south of the auto
20 salvage yard. We went through, looking inside
21 vehicles, looking for anything that we could
22 distinguish, anything to do with Teresa, whether it
23 be Teresa herself, or any articles that would be "as
24 to her".

25 Q Sometime just before 10:30 that morning, I

1 understand you found something; is that right?

2 A Yes, my mom indicated that she found a RAV-4 Toyota
3 vehicle that didn't exactly match the description on
4 the search form that we had, but looked very
5 similar, and was distinguishing because it was
6 covered up with auto salvage materials, as well as
7 branches. So, she definitely called me over, and I
8 went running.

9 Q All right. When you ran toward your mother's
10 location, can you tell the jury what you saw
11 please?

12 A I saw a blueish green RAV-4 with salvage parts up
13 against it, and branches over the top and on other
14 areas, definitely a vehicle that looked like someone
15 was trying to hide.

16 Q Now, there is an exhibit which has been marked in
17 this case and received as Exhibit Number 31. I
18 direct your attention to the large screen here
19 to your right, and ask if that, in fact, is the
20 vehicle that you saw that morning?

21 A Yes, that is the vehicle.

22 Q Now, your mother explained --

23 MR. BUTING: Objection, counsel is leading
24 the witness by saying "your mother did this, your
25 mother did that". She should be asked open-ended

1 questions, and let the witness explain what she saw
2 and what she did.

3 THE COURT: I will sustain the objection to
4 the form of the question.

5 MR. KRATZ: That's fine, Judge.

6 BY MR. KRATZ:

7 Q Ms. Sturm, who took the photographs of these
8 vehicles?

9 A I took the photographs.

10 Q And, other than taking the photographs, can you
11 tell the jury what else you did around that
12 vehicle?

13 A With a tissue, I checked all four doors to see if
14 any of the doors were open. They were all locked.
15 So, none of the four doors were open. I also used
16 my cell phone to call the Sheriff's Office.

17 Q Can you describe this "tissue" a little bit
18 better?

19 A Sure. Because it was a cold November day, I brought
20 tons of tissues with me, because my nose was
21 running, and "what not". I had clean tissues within
22 my pockets. My mom stated, "Please use -- I don't
23 want to disturb anything, so please use your shirt
24 sleeve, or whatever you have to avoid touching the
25 vehicle. I thought I better, that I had clean

1 tissues in my pocket, so I used that. I did check
2 all four doors to see if anything was open. They
3 were all locked.

4 Q Ms. Sturm, you did have occasion to look inside of
5 this; correct.

6 A Yes, I did look in at every angle, and saw a Wild
7 Cherry Pepsi in the front, and a bottle of Aquafina,
8 but I didn't see Teresa, or anything that I could
9 identify that it was definitely Teresa's vehicle at
10 that point.

11 Q Could you describe the lighting conditions inside
12 of the vehicle please?

13 A Well, the area that the vehicle is in, you can see
14 there are trees, and "what not". It was a rather
15 cloudy day. It was definitely dark. You couldn't
16 visably see. We did not have flashlights to be able
17 to intricately look at details within the vehicle.

18 Q Did you check for a vehicle identification
19 number?

20 A Yes, I did look. I didn't know exactly where they
21 were located. So, it did take a little while to
22 locate the VIN number. But we be did find the VIN
23 number on the driver's side, near the windshield.
24 It was a black interior, and a black dashboard, but
25 also the metal that the VIN number was on was black

1 metal, as well. It was a little difficult to
2 actually read the VIN number, as well as the fact
3 that I am a little bit short, so I had to try to
4 reach over the top of the vehicle to read the VIN
5 number, without touching the vehicle, or actually
6 touching or rubbing up against the vehicle.

7 Q After the telephone call was made to law
8 enforcement authorities, where did you go?

9 A I stayed right near my mom, right near the vehicle,
10 and, after law enforcement was contacted, we moved a
11 little bit away from this vehicle, but we kept our
12 eyes on the vehicle at all times, just to make sure
13 that no one else was coming. We didn't want to draw
14 attention to ourselves, in case someone would come
15 after us, because we did find the vehicle.

16 Q Was there any fixed object or any place that you
17 were standing, while you waited for law
18 enforcement to arrive?

19 A We were near a car crusher, the machinery that
20 crushes cars in the salvage yard.

21 Q While you were waiting for law enforcement,
22 did any individuals approach that vehicle?

23 A No. No one was near the vehicle.

24 Q How long was it before law enforcement arrived, if
25 you can remember?

1 A I would say approximately 20 minutes, at the most.

2 Q After law enforcement's arrival, can you tell us
3 what you did please?

4 A When law enforcement arrived, we pointed to where
5 the vehicle was, and we stayed on the scene to be
6 able to give statements.

7 Q When law enforcement arrived, where were you
8 looking, and what were you doing?

9 A We stayed right near the car crusher area, and we
10 were waiting for the actual identification that it
11 was Teresa's vehicle, and for them to come back and
12 identify it as Teresa's vehicle, because at that
13 point in time we still were unaware, if it was her
14 vehicle or not.

15 Q When law enforcement arrived, were you also
16 watching the vehicle?

17 A Yes, we kept our eyes on the vehicle at all times.

18 Q Did anybody enter the vehicle?

19 A No one entered the vehicle.

20 Q Did anybody touch the vehicle, that you saw?

21 A No one touched the vehicle.

22 Q Ms. Sturm, did you know the difference between the
23 Manitowoc County Sheriff's Deputies and the
24 Calumet County Sheriff's Deputies?

25 A Yes, they did identify themselves, with their names

1 and which department they were from.

2 Q Do you know which department was the first to
3 arrive on the scene?

4 A The first to arrive on the scene was Manitowoc
5 County. However, they had an officer that stood
6 near the vehicle and did not touch the vehicle. He
7 did not really approach the vehicle. He just "stood
8 guard", to make sure it was not touched until
9 Calumet County did arrive.

10 Q About how long after Manitowoc's arrival did
11 Calumet arrive?

12 A Just a few minutes. They were right behind.

13 Q After the Calumet County officers arrived, did you
14 continue to watch the vehicle?

15 A Yes, we did.

16 Q Once again, Ms. Sturm, did anybody either
17 approach, touch the vehicle, or enter the vehicle,
18 while you were there?

19 A No. No one touched the vehicle, or entered the
20 vehicle while we were there.

21 Q How long were you there before you actually
22 left that scene?

23 A We were there until like noon or "12:30-ish" before
24 we left the scene. So, two hours, or two and a half
25 hours.

1 Q In that two hours that you were there, or two
2 and a half hours that you were there, that entire
3 time, did you see anybody enter or touch that
4 vehicle?

5 A No. No one entered or touched the vehicle.

6 Q Ms. Sturm, you mentioned that you had checked the
7 four doors. What four doors are you talking
8 about?

9 A The driver's side, front and passenger doors, and
10 the actual passenger, front and back.

11 Q All four were locked?

12 A All four were locked.

13 Q Were you asked to give either a verbal or a
14 written statement to law enforcement that day?

15 A Yes, I gave a written statement to law enforcement.

16 Q Did you tell law enforcement that you checked the
17 doors and they were locked?

18 A Yes, and I indicated that I did use a tissue, that I
19 didn't use my bare hands to check the doors.

20 MR. KRATZ: I believe that's all I have.

21 Thank you.

22 THE COURT: Mr. Buting?

23 MR. BUTING: Thank you, your Honor.

24 CROSS EXAMINATION BY MR. BUTING:

25 Q Good morning, ma'am?

1 A Good morning.

2 Q Now, you talked about when you first arrived, that
3 you began looking through some vehicles before
4 your mom discovered this SUV; is that right?

5 A That's correct.

6 Q And, in fact, before you did that, were you there
7 when she asked permission, or did you ask
8 permission yourself of anybody who appeared to be
9 on the property?

10 A I wasn't there when my mom asked Earl Avery for
11 permission to search the property.

12 Q And he gave permission; right? Freely?

13 A Yes, he gave permission.

14 Q Is there some reason you look at them every time
15 you answer, other than looking at me?

16 A No.

17 Q Have you been told to do that by somebody from the
18 District Attorney's office?

19 A No.

20 Q Did you prepare for your testimony today?

21 A No, I did not.

22 Q Okay. So, he gave you permission; right?

23 A Yes. He gave us permission.

24 Q Did you get his name?

25 A Yes.

1 Q What was it?

2 A Earl.

3 Q Okay. He didn't hesitate to give you permission
4 to check anywhere you wanted; right?

5 A No, he did not hesitate.

6 Q Okay. It didn't appear as if he had anything to
7 hide from you?

8 A No.

9 Q Okay.

10 A Not to my knowledge.

11 Q You said as you were going through the beginning
12 vehicles, you were looking for either Teresa, or
13 any articles that would appear to be
14 hers; right?

15 A Correct.

16 Q So, you were looking carefully inside each
17 vehicle, not just looking at the outside of the
18 vehicles; right?

19 A We were trying to glance into the vehicles, and look
20 anywhere that was open. Some of the trunks were
21 open.

22 Q Did you open any doors?

23 A No.

24 Q You never opened up any doors of the other
25 vehicles?

1 A No.

2 Q Okay. But you were looking inside those vehicles,
3 even though they are were not, obviously, not
4 Teresa's vehicle; right?

5 A No, they didn't fit the description of Teresa's
6 vehicle.

7 Q I understand. Even though they didn't fit the
8 description, you were looking inside those
9 vehicles, as well, to see if you could see
10 anything; right?

11 A Correct.

12 Q Anything like "Teresa herself"; right? Her body?

13 A Correct.

14 Q Or anything that would look like hers?

15 A Correct.

16 Q Okay. Then, when you got to the RAV-4, your mom
17 was not sure if it was the same one or not?

18 A Correct.

19 Q And so you were looking inside that vehicle to
20 see, again, if there was anything that would
21 indicate to you any articles of Teresa's?

22 A Correct.

23 Q Okay. So, you were looking carefully inside
24 there, because you were trying at that point
25 to make some determination of whether that was,

1 really was Teresa's vehicle; right?

2 A I was looking for things like the license plate, or
3 anything that we could look at, that we had
4 information about, to be able to identify if the
5 vehicle was hers, or not.

6 Q Or anything, any writing that might have her name
7 on it; right?

8 A Yeah.

9 Q Any personal effects that you could use to help
10 you identify that vehicle was actually Teresa's;
11 right?

12 A Correct.

13 Q So, it was important to look inside the vehicle,
14 not just at the outside; right?

15 A Correct.

16 Q You saw no blood whatsoever, did you?

17 A It was a dark, or "very dark" interior.

18 Q Ma'am, did you see any blood?

19 MR. KRATZ: Judge, I will object as
20 "argumentative". She is trying to answer the
21 question. If it's not "yes" or "no", she should be
22 able to explain.

23 THE COURT: That is a "yes" or "no"
24 question. If the explanation is not sufficient on
25 cross, you can ask it on redirect.

1 MR. KRATZ: I will do that, Judge.

2 BY MR. BUTING:

3 Q So, "yes" or "no"? Did you see any blood?

4 A No.

5 Q You didn't have a flashlight with you, you said;
6 right?

7 A No. I said I did not have a flashlight, yes.

8 Q Nevertheless, we are talking about a Saturday
9 morning; right? It was daylight?

10 A Correct.

11 Q In fact, it was 10:30 in the morning, something
12 like that?

13 A Correct.

14 Q It was not raining?

15 A No, it was not raining.

16 Q It was not terribly dark? It was a typical cloudy
17 November day, at 10:30 in the morning; right?

18 A It was a cloudy day at 10:30 in the morning.

19 Q Okay. And the trees that you mentioned were
20 around it, none of the trees had leaves on them,
21 did they?

22 A No, but it was a very brushy area with trees, versus
23 the other flat area that we were looking at, where
24 there was nothing blocking the other vehicles.

25 Q All right. Now, you knew that, in fact, your

1 mother warned you that it was important that you
2 not touch the vehicle, the RAV-4 that you found;
3 right?

4 A Correct.

5 Q You were doing your best not to alter the scene;
6 correct?

7 A Correct.

8 Q And not only did you not want to touch the
9 vehicle, you didn't want to touch any of the
10 branches, or debris, or anything else up against
11 it either, did you?

12 A Not with my bare hands, no.

13 Q Okay. The only thing you ever touched, even with
14 a tissue, were the door handles; is that right?

15 A To reach one of the door handles, I did have to pull
16 back, I believe it was a salvage part, to be able to
17 reach the door handle. I did that with the tissue,
18 as well.

19 Q All right. So, did you move something that was
20 against the vehicle itself?

21 A I just took the tissue and pulled it back, so I
22 would be able to reach the door handle.

23 Q That would be the hood, that was propped up
24 against it?

25 A I would have to see the picture to identify it.

1 MR. BUTING: Would you put up Exhibit 30,
2 Counsel?

3 (At which time Exhibit 30 was shown on the
4 big screen in the courtroom.)

5 BY MR. BUTING:

6 Q I think that is it, right there up on the screen?

7 A Yes.

8 Q Okay. It was some salvage part, that in order for
9 to you get at the door handle on that right rear
10 door, you had to move that panel?

11 A I did not necessarily physically move it. I just
12 pulled it back and checked the door.

13 Q And reached over?

14 A Right.

15 MR. BUTING: Okay. Let's go to Exhibit 29
16 please.

17 (At which time, Exhibit 29 was shown in the
18 courtroom on the big screen.)

19 BY MR. BUTING:

20 Q Do you see Exhibit 29 up there?

21 A Yes.

22 Q That is a photo of the rear of the RAV-4?

23 A Yes.

24 Q And there is a door handle on that door too;
25 correct?

1 A Correct.

2 Q You didn't check that one, to see if it was
3 locked, did you?

4 A No, I did not.

5 MR. BUTING: And if you could go to Exhibit
6 33 please? Thank you.

7 (At which time Exhibit 33 was shown in the
8 courtroom on the big screen.)

9 BY MR. BUTING:

10 Q Thank you. That is a picture -- By the way, you
11 are the one who took all of these pictures?

12 A That's correct.

13 Q Okay. That is a picture of -- It shows sort of
14 the driver's side area of the RAV-4; right?

15 A Correct.

16 Q There is sort of a walkway, or a walk area I
17 suppose, between the RAV-4 and this red vehicle,
18 whatever it is?

19 A Correct.

20 Q By the way, just so we're clear, this RAV-4 was
21 found up along the ridge area, of the border of
22 the property; right?

23 A I wouldn't know whether it was the border.

24 Q Okay. Well, there is a single row of cars up
25 along that area; right?

1 A Correct.

2 Q And there they were all sort of "bumper to
3 bumper", lined up like you would parallel park a
4 bunch of cars along a street; is that correct?

5 A Correct.

6 Q This was the only one that was sort of "double
7 parked", where it was next to, or where it was
8 "two by two"; right?

9 A I don't recall at this time if it was the only one
10 that was doubled parked.

11 Q Okay. But it was the only one with any kind of
12 debris piled on it; right?

13 A Correct.

14 Q It was the only one with any kind of branches
15 piled on it; correct?

16 A Correct.

17 Q You said to us that it was obvious that it
18 appeared that somebody was trying to conceal it;
19 is that correct?

20 A Correct.

21 Q In that sense then, that made it very different
22 than any of the other vehicles; right?

23 A It made us suspicious, yes.

24 Q It made it stand out, the fact that it was,
25 because it was the only one that was covered like

1 that; right?

2 A That, and the fact that it was similar to the
3 description of the vehicle that was Teresa's.

4 Q Okay. So, it was not so concealed that you
5 couldn't tell what it was when you got near it;
6 right?

7 A Can you rephrase that?

8 Q It was not so covered up with items that, when you
9 got anywhere near it, that you were unable to
10 determine it was even a RAV-4, was it?

11 A No, I could tell it was a RAV-4.

12 Q Okay. So, it was just sitting there, for anyone
13 to find, who would be looking through the salvage
14 area; right?

15 A If you were on foot searching, yes.

16 Q Okay. Now, from Exhibit 33, you said that you
17 you were trying to get the VIN number off of the
18 vehicle; right?

19 A Correct.

20 Q And the VIN number, for this particular vehicle,
21 in fact, or for most, I think, are, it's on the
22 dash, kind of at the very end of the windshield,
23 kind of down by the windshield wipers; is that
24 correct?

25 A That was where we were looking on this vehicle, yes.

1 Q I don't know if you knew that before, but you
2 learned it that day; is that correct?

3 A Yes.

4 Q You were told by the officers, that your mom was
5 talking to on the phone, that is where you should
6 direct your attention?

7 A After searching elsewhere on the vehicle, yes.

8 Q Okay. By the way, that VIN is stamped?
9 It's in the dash, in black, right there in black
10 metal?

11 A Correct.

12 Q The VIN itself is a black number, just kind of
13 raised?

14 A Correct.

15 Q Or recessed, bumps, something like that; right?
16 So, to see it, you have to get pretty close, don't
17 you?

18 A Within, you know, eyesight, yes.

19 Q In order to do that, you have to walk around to --
20 Where did you walk along, from the rear? Did you
21 approach it from the rear, or did you approach it
22 from the front?

23 A I don't recall that at this time, which way I
24 approached the vehicle, to check the VIN number.

25 Q Can you get to it either way?

1 A (Pause)

2 Q I mean, could you come around to the front, and
3 lean over, and look from there? Or did you have
4 to go around the rear, and come up alongside
5 of the vehicle, in order to get to the front?

6 A I don't recall at this time.

7 Q Okay. That's fair. Now, you said you waited
8 around 20 minutes or so, before the first officers
9 arrived?

10 A Approximately 20 minutes.

11 Q But during that time you had retreated over near
12 where the crusher was?

13 A Yes, correct.

14 Q That is what, about 900 feet, or a thousand feet
15 away, or something like that?

16 A I can only make an approximation. I would say it
17 would probably be, by blocks, maybe four blocks,
18 city blocks.

19 Q Okay. Then the first to arrive were the Manitowoc
20 officers?

21 A That's correct.

22 Q And did you see a Manitowoc officer walk up toward
23 the vehicle?

24 A Correct.

25 Q More than one?

1 A I recall one officer --

2 Q Okay.

3 A -- approaching the vehicle.

4 Q How many Manitowoc officers arrived first?

5 A (Pause)

6 Q One or two?

7 A I don't recall the exact number of officers that

8 arrived.

9 Q Several?

10 A I made contact with the one officer, and I remember

11 the other officer walked to the vehicle.

12 Q Well, you were watching carefully, you said, to

13 see what was going on; right?

14 A Correct.

15 Q Were you watching because you were concerned that

16 the police might somehow plant something in that

17 vehicle?

18 A No.

19 Q That thought never occurred to you, did it?

20 A No.

21 Q Of course not. So, your only concern was if

22 anybody other than police officers would come to

23 the scene of the RAV-4 and disturb it in any way;

24 right? That was your focus?

25 A That, and the focus that we needed to make sure it

1 was her vehicle.

2 Q Sure. So, once the Manitowoc police officers
3 arrived, you were put at ease a little bit, that
4 at least some law enforcement was there; correct?

5 A I wouldn't say we were "put at ease".

6 Q Well, you were no longer alone at this strange
7 auto salvage yard, with other people milling
8 about; correct?

9 A Correct.

10 Q Now, there was law enforcement there; right?

11 A Correct.

12 Q And they had guns; right?

13 A I would assume they had their guns.

14 Q So, your real interest at that point was if this
15 was really Teresa's car? That is what you were
16 concerned about?

17 A Correct.

18 Q And at some point did one of the officers come
19 back and tell you that? One of the Manitowoc
20 officers?

21 A I don't recall if it was a Manitowoc officer, or
22 Calumet, at that time.

23 Q Okay. How long was it before the Calumet
24 officers arrived on the scene, if you know?

25 A I can only make an approximation. I would say it

1 was a few minutes.

2 Q Okay. How many of them arrived?

3 A I don't recall the exact number of officers that
4 arrived.

5 Q Were they in marked squads? Or unmarked squads?

6 A I don't recall if it was unmarked or marked.

7 Q Were they uniformed? Or not uniformed?

8 A The detective that I spoke to was an un-uniformed
9 officer.

10 Q "Un-uniformed", did you say?

11 A Yeah.

12 Q Plain clothes? Did you see any marked Calumet
13 squads arrive there in the area of the RAV-4?

14 A I don't recall if it was marked or unmarked.

15 Q So, you don't know whether any officers that were
16 coming or going were Manitowoc or Calumet; right?

17 A Not unless they identified themselves. The plain
18 clothes detective identified himself as Calumet.

19 Q So, the one detective identified himself; right?

20 A Yes.

21 Q And the others didn't? Or they did?

22 A I did not have direct contact with all of the
23 officers who arrived at the scene.

24 Q So, you don't recall if they were marked cars, and
25 you don't remember seeing any Calumet uniforms?

1 You don't know if the officers who arrived were
2 from Calumet or Manitowoc; right?

3 A They don't have distinguishing uniforms. They were
4 all brown.

5 Q So, they were just "police officers"; right?

6 A Correct.

7 Q But at some point, I believe, on direct, you said
8 that you did see some -- Well, let me go back and
9 ask it this way: Did you see any Manitowoc
10 uniformed officers at the scene?

11 A As I said, I didn't distinguish based on their
12 uniforms. They are all brown. So, at that point in
13 time, the people that I spoke to had identified
14 themselves as Manitowoc, or Calumet. But I didn't
15 speak with every officer that was there.

16 Q When you say "the people that you spoke to", it
17 was one person that you spoke to; right?

18 A No, I spoke to both Manitowoc and Calumet County
19 officers.

20 Q You did?

21 A Correct.

22 Q Maybe I am misunderstanding. I apologize. Were
23 they wearing uniforms? Or plain clothes?

24 A Plain-clothes detectives.

25 Q So, you talked to two plain-clothes detectives?

1 One said he was from Manitowoc, and one said he
2 was from Calumet?

3 A That's right.

4 Q So, you saw somebody that was uniformed approach
5 the RAV-4 or not?

6 A A uniformed officer did approach the RAV-4.

7 Q Okay. Did you ever see somebody that you could
8 readily discern was a Calumet County officer, as
9 opposed to a Manitowoc officer, come up and
10 relieve the Manitowoc officer, who was near the
11 RAV-4?

12 A I couldn't discern whether they were Manitowoc or
13 Calumet.

14 Q Okay. So, you don't know if or when any Calumet
15 officers took over responsibility for that RAV-4
16 itself, do you?

17 A No.

18 Q You said you were there at the property, the Avery
19 salvage property until about noon or 12:30?

20 A That's correct.

21 Q But before that time, you and your mother had
22 sort of retreated from the car crusher area,
23 farther north, over toward the entryway, didn't
24 you?

25 A No, we stayed near the car crusher area.

1 Q So, you stayed near the car crusher, when you
2 gave your statements?

3 A Yes.

4 Q And the entire time you were on that property,
5 you were just right near the car crusher?

6 A Yes.

7 Q You never went anywhere else further away to talk
8 with officers by any other vehicles?

9 A By what vehicles?

10 Q By any other vehicles, on any other area of the
11 lot?

12 A No.

13 Q You were standing next to your mother the whole
14 time?

15 A Yes.

16 Q Okay. Now, Ms. Sturm, have you ever locked
17 yourself out of your car?

18 A Yes.

19 Q Did you call the police to help you get in?

20 A No.

21 Q Do you know anybody else who has?

22 A No.

23 Q Do you know, if you needed to, if you couldn't find
24 anyone else to get your keys, to get into your
25 vehicle, you could call a police officer, and

1 he would help you get into your vehicle; right?

2 A I called a locksmith.

3 Q Okay. But do you know you could call an
4 officer? Many times people do call officers for
5 that purpose?

6 A No. When it happened to me, I called the locksmith.

7 MR. BUTING: Okay. Thank you. No further
8 questions.

9 THE COURT: Mr. Kratz?

10 REDIRECT EXAMINATION BY MR. KRATZ:

11 Q Ms. Sturm, the defense attorney had asked you
12 about looking in the vehicle, and whether you
13 could see inside the vehicle. Do you remember
14 those questions?

15 A Yes.

16 Q Was it easy to see into those windows?

17 A No, it was not easy.

18 Q I will have you take a look at Exhibit 33,
19 although we will be looking at some others. Is
20 there anything different about the rear windows,
21 than the front driver's windows?

22 A The rear windows had a tint to them, and, as you can
23 see from the picture here, as I'm sure other people
24 have done, there is glare in the windows. So, if
25 you really wanted to see inside, and if you weren't

1 concerned about not trying to disrupt the scene at
2 all, you would have to cup your hands over the
3 vehicle, to make sure you were blocking out the
4 glare, and the shadows, which we didn't do.

5 Q You did not do?

6 A No.

7 Q I will show you Exhibit number 30, and ask you to
8 describe the tint on the back windows?

9 A The rear and back windows were darkly tinted. The
10 front windshield and the driver's and passenger's
11 doors were not. So, once again, you can see there
12 is definitely a "glare".

13 Q Ms. Sturm, whether the officers were Calumet
14 County or Manitowoc County, did any officer
15 approach that vehicle?

16 A No officer touched the vehicle while we were
17 present.

18 Q Did you see any officer pull out a device, or try
19 to pry open the door, or anything like that, while
20 you were there?

21 A No.

22 Q If that would have happened, would you have
23 seen it?

24 A Yes, definitely.

25 MR. KRATZ: Okay. That's all I have of Ms.

Sturm.

MR. BUTING: Nothing further.

THE COURT: Very well, you are excused.

MR. KRATZ: The State will call Bobby Dassey to the stand.

BOBBY DASSEY, being first duly sworn on oath to tell the truth, the whole truth, and nothing but the truth, testified as follows:

THE CLERK: State your full name and spell your last name please.

THE WITNESS: Bobby Dassey, D-A-S-S-E-Y.

DIRECT EXAMINATION BY MR. KRATZ:

Q Mr. Dassey, how old are you?

A 20.

Q Can you tell us where you live please?

A Right outside of Michicot on Avery Road.

Q Do you know the defendant, Steven Avery?

A Yes, he is my uncle.

Q You have to speak up just a little bit please?

A Yes, he is my uncle.

Q Is he in the courtroom here at this time?

A Yes, he is.

Q Would you point him out for the record, and tell the Judge where he is seated?

A Right over there, to my right.

1 Q Sitting next to his two attorneys?

2 A Yes.

3 MR. KRATZ: Judge, I would ask the record to
4 reflect the defendant's identification.

5 THE COURT: The record will reflect the
6 witness identified Mr. Avery.

7 BY MR. KRATZ:

8 Q Mr. Dassey, do you know where, at least during the
9 fall of 2005, prior to November fifth, where your
10 uncle lived?

11 A Yes. He lived right next door to us.

12 Q I will ask you to describe the kind of residence
13 that, first of all, that you live in?

14 A We live in, I would say, a mobile home, a
15 three-bedroom house, mobile home.

16 Q On October thirty-first, 2005, who all lived in
17 your home?

18 A My mom, my step-dad, and my two younger brothers.

19 Q What were the names of your younger brothers?

20 A Blaine and Brendan.

21 Q Blaine and Brandon?

22 A Brendan.

23 Q Bobby, do you recall October thirty-first of 2005?

24 A Yes.

25 Q Could you tell the jury if you were employed

1 at that time?

2 A Yes, I was. I worked at Fischer Hamilton's, third
3 shift.

4 Q What time would you start work on any day?

5 A I would start at ten at night and work until six in
6 the morning.

7 Q On October thirty-first of 2005, could you tell
8 the jury if you were home during the daytime
9 hours?

10 A Yes, I was.

11 Q And how late, or how long were you home until?

12 A I was home until 2:30 that day.

13 Q What were you doing before 2:30?

14 A I was sleeping.

15 Q When you say "2:30", are you talking about the
16 afternoon or morning?

17 A In the afternoon.

18 Q To your knowledge, Bobby, was anybody else at home
19 with you?

20 A No.

21 Q Do you remember anything unusual that happened at
22 about 2:30 that afternoon?

23 A A vehicle had drove up, and started taking pictures
24 of the van.

25 Q All right. Let's back up just a minute. Were you

1 still sleeping? Or did you wake up?

2 A I was up by 2:30, yeah.

3 Q At 2:30, did you see something?

4 A Yes.

5 Q What did you see?

6 A I seen a vehicle pull up in our driveway.

7 Q Do you recall which window you were looking from?

8 A Through the front window, in front of the kitchen
9 table.

10 Q Bobby, could you describe that vehicle for the
11 jury please?

12 A It was a light green SUV, like a "teal" color.

13 Q How do you know that it was about 2:30 in the
14 afternoon?

15 A Because I was going hunting that night, so that was
16 the time I wanted to get up. I got up at "two".

17 Q All right. From which way did this blue or teal
18 SUV drive in, as you were looking out the window?

19 A Toward the west it would be.

20 Q Can you tell the jury please from which
21 direction your uncle's trailer is from your house?

22 A The west.

23 Q Did you know what kind of SUV it was?

24 A Not at the time.

25 Q All right. After seeing that vehicle driving up

1 the roadway, tell the jury what you saw then?

2 A I seen Teresa Halbach get out of the vehicle, and
3 started taking pictures.

4 Q What was she taking pictures of?

5 A A maroon van.

6 Q A what?

7 A A maroon van.

8 Q Can you tell us about this vehicle? Where was it
9 parked?

10 A It was parked right in front of our house.

11 Q Now you told this jury it was Teresa Halbach that
12 had taken the pictures. How do you know that?

13 A Now, I know that. At the time, I didn't.

14 Q What did this woman look like?

15 A She was about maybe five-eight. She had brown,
16 shorter-like hair. She had a black coat on, that
17 went past the hips.

18 Q Was she wearing pants, or a skirt?

19 A She was wearing pants.

20 Q Now, about this van, what can you tell the jury
21 about that van?

22 A It was a 1989 Plymouth Voyager. It had lots of
23 miles on it. It was my mom's van. She had it for
24 a couple of years. I don't know really much more
25 about it.

1 Q All right. As you were looking out the window,
2 you said that you saw a woman taking pictures.

3 Can you describe that please?

4 A Well, I seen her take one picture of the front of
5 the van. Then I went in and took a shower.

6 Q Okay. After seeing her taking some pictures, did
7 you see her do anything else?

8 A She started -- Before I got in the shower, she
9 actually started walking over to Steven's trailer.

10 Q You could see that from your location?

11 A Yeah. Through the window, yeah.

12 Q You said, "walking toward Steven's trailer". What
13 does that mean?

14 A She walked toward it, to the door.

15 Q How close to the door did she get, before you
16 stopped watching?

17 A Maybe 25 yards.

18 Q Did you see her enter your uncle's trailer?

19 A No.

20 Q Why not?

21 A Because I wanted to take a shower. I didn't pay no
22 attention to it.

23 Q All right. Was there anybody with her at that
24 time?

25 A No.

1 Q Was there anybody outside, or making contact with
2 her, outside by the vehicle?

3 A No.

4 Q After seeing this woman walking toward your Uncle
5 Steven's trailer, did you ever see this woman
6 again?

7 A No.

8 Q How long was it that you were in the shower? Do
9 you remember?

10 A Maybe three minutes, or four minutes.

11 Q Okay. What did you do then?

12 A Got dressed, and left, to go hunting.

13 Q Now, when you left to go hunting, did you have a
14 vehicle on the premises?

15 A Yes.

16 Q Can you tell the jury what kind of vehicle it was?

17 A A black Chevy Blazer.

18 Q Where was that parked?

19 A It was parked right between the house and the
20 garage.

21 Q About what time do you think you left to go
22 hunting?

23 A Probably twenty to three, quarter to three.

24 Q Quarter to three? Bobby, how do you know that
25 was the time? Why is that time important as it

1 relates to hunting?

2 A Well, that is when the deer start moving. They go
3 on their feeding patterns then.

4 Q Pardon?

5 A They go on their feeding patterns then.

6 Q Where did you go hunting that day?

7 A It was actually maybe two miles up the road from my
8 house.

9 Q What kind of hunting was it?

10 A Deer hunting. Bow hunting.

11 Q Mr. Dassey, when you walked out to your vehicle
12 to go bow hunting, did you notice if that teal or
13 blue SUV was still in the driveway?

14 A Yes, it was.

15 Q It was?

16 A Yes.

17 Q Did you see Ms. Halbach?

18 A No.

19 Q Did you see any signs of her at all?

20 A Nope.

21 Q What did you do then?

22 A I proceeded to leave. I got in my vehicle and I
23 left.

24 Q Did you hunt that day?

25 A Yes.

1 Q Did you get anything that day?

2 A No. I seen two deer. I didn't get anything, no.

3 Q All right. After deer hunting, what did you do?

4 A Came home, and I laid down, and I went to sleep

5 again.

6 Q What time did you get home? Do you recall?

7 A It was "five-ish".

8 Q Now, when you drove back home at about five

9 o'clock in the afternoon, was Ms. Halbach's

10 vehicle still visible?

11 A No.

12 Q What did you do when you got home?

13 A I watched TV for a little bit, then I went to bed.

14 Q Did you go to sleep?

15 A Yes.

16 Q How long did you sleep?

17 A Probably three hours.

18 Q Let me back up just a few minutes, Bobby. At any

19 time during the morning or early afternoon hours,

20 did you receive any phone calls at your residence?

21 A No. Not that I am aware of.

22 Q Why don't you tell us what that means, "not that

23 you are aware of"?

24 A I am a real deep sleeper. When I sleep, I don't

25 hear nothing.

1 Q If the phone rings, would you have heard it?

2 A No.

3 Q After getting up that afternoon, did you check for
4 any messages, or check the answering machine?

5 A No.

6 Q Now, you mentioned that, while you were home that
7 day, you didn't think anybody was home when you
8 got up and when you left. After you went bow
9 hunting, was anybody home at that time?

10 A No.

11 Q Are you familiar with your brothers' schedules,
12 that is, your brothers that were at school?

13 A Yes.

14 Q What brothers went to school at that time?

15 A Blaine and Brendan.

16 Q Are you familiar with when Blaine and Brendan
17 usually got home from school?

18 A They usually got home at quarter to four.

19 Q That would be 3:45?

20 A 3:45, yeah.

21 Q So, about an hour after you would have left to go
22 deer hunting?

23 A Yes.

24 Q When you got home at about five o'clock, Bobby,
25 were Blaine and Brendan home?

1 A I can't recall.

2 Q All right. Now, you have a fourth brother, or a
3 third brother; is that correct?

4 A Yes.

5 Q What is his name?

6 A His name is Brian.

7 Q Do you know where Brian was at the time?

8 A He was at work.

9 Q Now, was Brian living at your home at the time
10 too?

11 A No.

12 Q Where was Brian staying at the time?

13 A He lived in Manitowoc with his girlfriend.

14 Q What is your mother's name?

15 A Barb.

16 Q And is Barb related to Mr. Avery, if you know?

17 A Yes.

18 Q How?

19 A Sister. Brother and sister.

20 Q When you got up and went bow hunting, and left for
21 bow hunting, was your mother home at that time?

22 A No, she was at work.

23 Q When you got home from deer hunting, was your
24 mother home yet?

25 A No.

1 Q Do you recall your mom coming home, or seeing
2 her that night?

3 A When I got up at nine o'clock, I seen her.

4 Q All right. I think I asked this, Bobby. I'm
5 sorry. But what time did you start work?

6 A I started work at ten.

7 Q Ten p.m.?

8 A Yep, ten p.m.

9 Q Where is the place that you work? What city is it
10 located in?

11 A Two Rivers.

12 Q Bobby, the rest of that week, after the
13 thirty-first of October, do you recall the rest of
14 that week?

15 A Some of it.

16 Q That weekend, that Friday and Saturday, the fourth
17 and fifth, did other family members go somewhere
18 that weekend?

19 A Yeah, they went up north.

20 Q What does "up north" mean?

21 A Up to Crivitz.

22 Q Do you know what is up in Crivitz?

23 A My grandpa has a cabin up there.

24 Q Do you know what family members went up north that
25 weekend?

1 A Steven, Brendan went, and Brian went, and my grandma
2 and grandpa were up there.

3 Q Steven, Brendan, and Brian? You didn't go?

4 A Nope.

5 Q Do you remember why you didn't go?

6 A I had to work that Sunday night.

7 Q Let's go back to the thirty-first, your work
8 schedule. You said that you worked at ten
9 o'clock; is that right?

10 A Yes.

11 Q Do you remember what time you left home for work?

12 A Probably about 9:30.

13 Q At 9:30 p.m. on the thirty-first of October, did
14 you see anything when you left your house?

15 A Not that I recall.

16 Q Did you see anything by your uncle's?

17 A I didn't even look.

18 Q Now, that weekend, the Saturday, the fifth of
19 November, do you recall that day at all?

20 A No.

21 Q Do you remember something being found on the Avery
22 property that Saturday?

23 A Her vehicle.

24 Q That is the day I'm talking about. Do you now
25 remember that day?

1 A Not really.

2 Q All right. Do you remember where you were when
3 that vehicle was found?

4 A I was by my friend's house.

5 Q What is your friend's first name?

6 A Mike.

7 Q How were you notified, if you remember, that
8 Teresa's vehicle was found on the Avery property?

9 A The TV and my mom.

10 Q Now, Bobby, at the time, back on the thirty-first
11 of October, did you have any pets?

12 A Yes, I had just got a black lab. She was two months
13 old.

14 Q Was that an "inside", or "outside" dog?

15 A Inside dog.

16 Q On the thirty-first of October, when you went
17 hunting, did you take your dog with you?

18 A No.

19 Q When you went to your friend Mike's house on
20 Saturday, the fifth, did you take your black lab
21 with you?

22 A No.

23 Q Were you able to get back home on the fifth of
24 November?

25 A No.

1 Q Tell us why not?

2 A They had the road all blocked off. They wouldn't
3 let anybody in there.

4 Q Who is "they"?

5 A The police officers.

6 Q How about your dog? What happened to your black
7 lab?

8 A I had to wait, like, three hours, in order to get
9 her.

10 Q In order to get her?

11 A Yeah.

12 Q How did you get her?

13 A I had to give my statement and everything. Then the
14 investigator went in and got her.

15 Q They got your dog for you?

16 A Basically, yeah.

17 Q Now, Bobby, on the third of November, that would
18 be a Thursday, I believe, do you recall having a
19 conversation with your Uncle Steven regarding a
20 body?

21 A Yes.

22 Q Could you tell us what your Uncle Steven told you
23 that day?

24 A Well, my buddy, Mike, was over too, and he asked us,
25 it sounded like he was joking, honestly, he asked us

1 if we wanted to help get rid of a body.

2 Q Your Uncle Steven asked you if you wanted to help
3 get rid of a body?

4 A Yeah.

5 Q What was your response?

6 A "No".

7 Q Bobby, are you familiar with a Suzuki Samurai, a
8 gray Suzuki Samurai?

9 A Yes.

10 Q Where was that vehicle please?

11 A That was in Steven's garage. He was going to fix it
12 up.

13 Q On the thirty-first of October, do you recall
14 where that Suzuki Samurai was?

15 A I don't even know.

16 Q Do you remember, generally, where it was parked?

17 A No.

18 Q If you don't know, that's fine.

19 A I don't know.

20 Q All right. Bobby, have you ever seen a fire, like
21 a bonfire, by your Uncle Steven's?

22 A Yes.

23 Q Do you remember the last time you saw a bonfire by
24 your Uncle Steven's?

25 A Maybe two weeks before that, before this all

1 happened.

2 Q There is -- Let me just ask you: Is there some
3 place where your Uncle Steven would have fires?

4 A Yes, right behind his garage.

5 Q Can you describe that area for us?

6 A It was just a mound of gravel that he, basically,
7 burned stuff on.

8 MR. KRATZ: If I could have a moment with
9 counsel, Judge?

10 (AT WHICH TIME MR. KRATZ CONSULTED WITH
11 other counsel about some photographs.)

12 BY MR. KRATZ:

13 Q Bobby, we have had some photographs marked. I
14 will have you identify some of these, in fact,
15 all of them, to help the jury understand what we
16 are talking about. The first exhibit I want you
17 to take a look at is Exhibit Number 37. Can
18 you tell us what that is please?

19 (While the witness was looking at the
20 exhibit, and before he began his answer, Mr.
21 Strang made the following statement.)

22 MR. STRANG: While he is doing that, your
23 Honor, I have a concern that I want noted now, and
24 that I would like the raise outside of the jury's
25 presence, between the direct and cross of Mr.

1 Dassey.

2 THE COURT: Are you saying you would like to
3 raise it out of the jury's presence now? Or later?

4 MR. STRANG: No, not now. If we can take
5 that up between the direct and the cross, that would
6 be fine.

7 THE COURT: Very well.

8 BY MR. KRATZ:

9 Q Tell us what Exhibit 37 is please?

10 A That is Steven's trailer.

11 Q Steven --

12 A -- Avery's trailer.

13 (At which time Exhibit 37 was shown in the
14 courtroom on the big screen.)

15 Q I will let the jury now see Exhibit 37. Can you
16 tell us kind of what else is shown there? What
17 are we looking at?

18 A Well, the red thing is Steven's trailer. The garage
19 is to the left. That is his truck sitting there,
20 and that is his burning barrel right in front of the
21 house.

22 MR. KRATZ: If I could have one moment,
23 Judge?

24 (At which time Mr. Kratz had a brief
25 discussion with Mr. Strang, in low tones, off the

1 record, out of the hearing of everyone else in the
2 courtroom.)

3 BY MR. KRATZ:

4 Q I will give you a laser pointer. There is a
5 button there. Using the laser pointer, again,
6 Bobby, can you show us where Steven's trailer is?

7 A Steven's trailer is right there.

8 Q Okay. You mentioned a burning barrel?

9 A The burning barrel would be right there.

10 Q Whose burning barrel is that?

11 A That would be Steven's burning barrel.

12 Q Where is Steven's garage?

13 A Right there.

14 Q All right. The next exhibit is number 38. Can
15 you tell us what that is please?

16 A (Pause).

17 Q It's in front of the next picture, 38?

18 A Just another picture of Steven's trailer and his
19 garage.

20 Q It's a little different angle; is that right?

21 A Yes.

22 Q I will now let the jury look at Exhibit 38.

23 Tell us what we are looking at please?

24 A Basically, just looking at Steven's trailer again,
25 and his garage, and his truck.

1 Q What is Exhibit 39 please?

2 A It's a closer shot of Steven's trailer.

3 Q Now we're letting the jury see Exhibit 39. Where
4 would Steven's main entrance be? How do you get
5 in the trailer?

6 A Through the door right by the step right there.

7 Q The record will reflect that you are pointing to
8 the entrance furthest to the right of this
9 trailer; is that correct?

10 A Yes.

11 Q Does the photograph help you, or could you
12 describe for the jury about how close Ms. Halbach
13 was to that trailer, when you stopped watching her
14 approach?

15 A She was probably right about there.

16 Q Looking which way?

17 A Toward the trailer, west.

18 Q Exhibit 40 is the next exhibit. Would you
19 describe what that is please?

20 A Just a closer view of Steven's front door.

21 Q That is the door we were talking about?

22 MR. KRATZ: We lost our batteries here,
23 Judge.

24 (The photographs which had been shown on the
25 large screen in the courtroom, were not able to be

1 seen, until new batteries could be installed in the
2 remote control device.)

3 BY MR. KRATZ:

4 Q While we are getting new batteries for our remote
5 control, I will ask you some other questions,
6 Bobby. First of all, how often would your Uncle
7 Steven have fires at his property?

8 A Maybe one or two every month.

9 Q You mentioned that Steven -- Or you identified, at
10 least, Steven's garage. Who uses Steven's garage?

11 A Steven does.

12 Q Does anybody else have access to it?

13 A At that time, no.

14 Q All right. Even though the batteries are not
15 changed yet, or they are kind of going bad, we
16 will do the best we can until we get some new
17 ones. This is Exhibit 40, that you have
18 identified. What are we looking at here?

19 A That is Steven's front door, the main entrance.

20 Q There is what looks like a deck that goes around
21 the trailer. Can you explain that please?

22 A Yes, it is basically a deck that runs around the
23 whole trailer. He has got a little "plateau" at the
24 end.

25 Q All right. Do you see the next picture in front

1 of you, Exhibit 41?

2 A Yes.

3 Q Can you tell us what that is please?

4 A That is just a picture of the door to the far left
5 of the trailer.

6 Q All right. We are now letting the jury look at
7 Exhibit 41. Again, what are we looking at?

8 A That is just another door to Steven's trailer.

9 Q Now, on the left there, the left-most edge of
10 Exhibit Number 41, is that the door that you are
11 talking about?

12 A Yes.

13 Q Do you know where that door goes?

14 A It goes into the hallway of the trailer, closest to
15 the bedroom in the back.

16 Q Have you been in Steven's trailer before?

17 A Yes.

18 Q On the thirty-first of October, did you have
19 keys to Steven's trailer?

20 A No.

21 Q Do you know if anyone else from your home had
22 keys to his trailer?

23 A No.

24 Q No, "you don't know"? Or, no, "they didn't"?

25 A No one did.

1 Q All right. The next exhibit in front of you is
2 Exhibit 42. Tell us what that is?

3 A This is a picture of the back of Steven's trailer.

4 Q Do you want to take the laser pointer, now that
5 the jury can see Exhibit 42? Why don't you tell
6 us what we are looking at?

7 A This is the back side. This side faces north. That
8 is the back of Steven's trailer. That is his pool.

9 Q Now, there is a back patio door on that trailer?

10 A Yes.

11 Q Can you show us that please?

12 A That would be right there.

13 MR. KRATZ: Just so the record is clear,
14 Judge, he is pointing at what would be just about
15 the very middle of the trailer.

16 BY MR. KRATZ:

17 Q That is the patio door; is that correct, Bobby?

18 A Yes.

19 Q What kind of pool is that?

20 A Just a pool that is like four feet deep.

21 Q Okay. Exhibit 43 is the next exhibit in front of
22 you. Can you tell us what that is?

23 A Just another view of the back of Steven's trailer.

24 Q Now we will let the jury take a look. It's a
25 different angle, pretty much the same as Exhibit

1 42?

2 A Yes.

3 Q Which way have we moved around? Or the camera?

4 A Which way?

5 Q Yeah.

6 A It has moved to the right, south.

7 Q Exhibit 43 shows Steven's back patio door?

8 A Yes.

9 Q Could you show us that please?

10 A Right there.

11 Q Now, behind Steven's trailer, Exhibit -- Excuse

12 me. Behind Steven's garage, did Steven have a

13 dog house?

14 A Yes.

15 Q Does Exhibit 43 show that?

16 A Yes.

17 Q If you could point out the dog house for us

18 please?

19 A Right there.

20 Q Directly behind the dog house, what is that area?

21 A That would be the burning pit.

22 Q You had mentioned, Bobby, before about seeing the

23 fires at Steven's. Where on this property did you

24 see those fires?

25 A Right there.

1 Q Directly behind this garage?

2 A Yes.

3 Q The next exhibit that we are asking you to
4 identify is Exhibit 44. Tell us what that is
5 please?

6 A This is another shot of Steven's house and the
7 garage.

8 Q Now the jury can see Exhibit 44. What are we
9 looking at?

10 A Basically, you are looking at Steven's trailer
11 again, the garage, and the dog house, and his truck.
12 Again, right there is where he had his burning pit.

13 Q His burning pit?

14 A Yeah.

15 Q Now, this exhibit, that is Exhibit 44, do you know
16 about where this was taken from?

17 A This actually was taken right in front of our house.

18 Q Is this east, or west, or north, or south of
19 Steven's trailer? Do you know?

20 A It would be east.

21 Q Okay. The next exhibit is Exhibit 45. Can you
22 tell us what that is please?

23 A That is a picture of Steven's garage.

24 Q Again, now that the jury can see Exhibit Number
25 45, why don't you take the laser pointer and

1 tell us what we are looking at?

2 A Basically, that is just Steven's garage again, and
3 his truck. That is the door he mainly used to the
4 garage.

5 Q That is what? You have to speak up.

6 A That is the door he mainly used for the garage.

7 Q Kind of a service door?

8 A Yeah.

9 Q All right. The next exhibit is Number 46. Can
10 you tell us what that is please?

11 A Another picture of Steven's garage.

12 Q All right. Exhibit 46, now that the jury can
13 see it, again, can you explain what we are looking
14 at?

15 A Just another picture of Steven's garage.

16 Q Is the service door open, or closed?

17 A It's open.

18 Q That burning pit, or burn area, can you tell us
19 where that is on this picture?

20 A It would be right there, where that white gravel is.

21 Q Right behind the garage?

22 A Yes.

23 Q What is Exhibit 47?

24 A A picture of Steven's burning pit.

25 Q All right. Now that the jury can see Exhibit 47,

1 why don't you tell us what we are looking at?
2 A You are just looking at Steven's burning pit,
3 directly behind the garage.
4 Q Do you recognize anything else in this picture?
5 A There is a seat.
6 Q What do you mean, "a seat"?
7 A From a vehicle, right there, and his trailer is
8 there. The dog coop is there.
9 Q Bobby, had you seen that seat out by there by your
10 Uncle Steven's house?
11 A Not that I recall.
12 Q Now on Exhibit Number 47, if you can show us, more
13 specifically, where the burning happened, where
14 the burn area is?
15 A Right around there.
16 Q There is a blackened area, which would be just
17 west and just right of the car seat. Is that the
18 place that you are pointing?
19 A Yes.
20 Q What is the next exhibit?
21 A The picture directly behind Steven's garage.
22 Q That is Exhibit 48; is that right?
23 A Yes.
24 Q Now that the jury can see Exhibit 48, tell us what
25 we're looking at?

1 A Basically, the back of Steven's trailer. There is
2 the dog coop again. That is where his burning pit
3 would be.

4 Q The dog "what"?

5 A The dog "coop".

6 Q The dog coop, C-O-O-P?

7 A Yeah, or dog house.

8 Q Where is Steven's garage?

9 A Right there.

10 Q That is the building to the very right of the
11 exhibit; is that correct?

12 A Yes.

13 Q Where is Steven's trailer?

14 A Right there.

15 Q So, the red building, just to the west; is that
16 correct?

17 A Yes.

18 Q Again, where is the burn area?

19 A This is partially shown in the picture, to the far
20 south of the picture.

21 Q The next exhibit is Number 49. Tell the jury
22 what this is please?

23 A Another picture of behind Steven's garage.

24 Q Now that the jury can see Exhibit 49, would you
25 again tell us what we are looking at?

1 A Just looking at the same picture as before, that dog
2 house, the garage, his trailer. That is where the
3 burning pit would be.

4 Q What is the next exhibit, 50?

5 A A picture of the burning pit, just at a different
6 angle.

7 Q There is something else in this picture, as well;
8 is that correct?

9 A Yes.

10 Q What is that?

11 A That is his dog.

12 Q Do you know the name of that dog?

13 A His name is "Bear".

14 Q "Bear"?

15 A Yes.

16 Q Whose dog was that?

17 A Steven's.

18 Q Pointing to Exhibit 50, can you show us the area
19 where things were burned?

20 A Right there.

21 Q That would be directly in front of the dog?

22 A Yes.

23 Q Can you tell us about "Bear"? Would the animal,
24 the dog of Steven Avery, usually be an inside dog
25 or an outside dog?

1 A Outside dog.

2 Q Do you know how long Bear's chain was, where

3 Bear would be able to wander?

4 A Fifteen feet.

5 Q Okay. Now in the back of this picture, the

6 background of Exhibit 50, do you see any vehicles?

7 A Yes.

8 Q What do you see?

9 A The maroon Plymouth Voyager.

10 Q Can you point that out?

11 A Yes, right there.

12 Q That car is not far, or just to the right of the

13 garage?

14 A Yes.

15 Q That is the same vehicle you saw Teresa Halbach

16 taking photos of?

17 A Yes.

18 Q I don't know if you are able to answer this,

19 Bobby, but I will ask you. What was Bear's

20 personality, or demeanor like, if you know? Do

21 you know what I'm asking you?

22 A He was really calm.

23 Q The next picture is Exhibit 51. What is that

24 please?

25 A That is a picture of Steven's burn barrel.

1 Q Where was this burn barrel located?
2 A Northwest of Steven's trailer.
3 Q In the background of that picture, you also see
4 a vehicle; is that correct?
5 A Yes.
6 Q What vehicle is that?
7 A That is the Plymouth Voyager again.
8 Q You also see a road between the burn barrel and
9 the vehicle; is that correct?
10 A Yes.
11 Q Can you describe that road for us please?
12 A That would be the driveway leading down to Steven's
13 trailer.
14 Q Now, Mr. Dassey, does Exhibit 51 help you, or
15 could you help explain or show the jury where you
16 saw Ms. Halbach walking, before you took your
17 shower?
18 A She was walking right about there, walked right
19 through there.
20 Q Walking in a westerly direction toward Steven's?
21 A Yes.
22 Q The next exhibit is Exhibit 52. Tell us what that
23 is please?
24 A That would be a picture of our burning barrels.
25 Q What do you mean "our burning barrels"?

1 A My mom's burning barrels.

2 Q How many were there?

3 A Three.

4 Q Are you sure?

5 A I don't know. I thought there was three.

6 Q Okay. Where were the burn barrels located?

7 A In our back yard, right behind our garage.

8 Q And this picture has some people in it. Do you
9 know who those people are?

10 A No.

11 Q Now, to the left, or behind the burn barrels are
12 some vehicles. Do you know how far away those
13 are? In other words, how close to your property
14 we are looking at?

15 A (Pause)

16 Q That's a bad question. Let me try it again. The
17 burn barrels, how close were they to the edge of
18 what would be your mom's property?

19 A 25 yards, or 30 yards.

20 Q The next exhibit is Exhibit 53. This is going to
21 look familiar, but what is that?

22 A Just another view of Steven's trailer.

23 Q From a little different angle; is that right?

24 A Yes.

25 Q What is Exhibit 54?

1 A That is a picture of our house, my mom's house.

2 Q Let's talk about that a little bit, now that the
3 jury can see Exhibit 54. Please take the laser
4 pointer and tell them what they are looking at?

5 A This is, basically, my mom's house. That is our
6 golf cart.

7 Q Your what?

8 A Our golf cart.

9 Q Okay.

10 A This would be the side of the house to the
11 farthest west. The burning barrels would be right
12 back there. You can't see them on there.

13 Q Could you tell us, or show us in this picture, the
14 window that you were looking out when you watched
15 Ms. Halbach?

16 A That window right there.

17 Q Okay. And I know that the vehicle for sale is not
18 shown on this picture, but which direction was it?
19 Can you kind of show us?

20 A It would be right over there.

21 Q To the right, off screen?

22 A Yes.

23 Q The next exhibit is Exhibit 55, can you tell us
24 what that would be?

25 A That would be my mom's answering machine.

1 Q Where was that located?

2 A In our living room.

3 Q Again, now that the jury is able to see Exhibit
4 55, what kind of answering machine was it? Do you
5 know?

6 A No.

7 Q Is there a phone that went with it?

8 A Yes.

9 Q Where did the phone go?

10 A I don't know.

11 Q But, what I mean is, was the phone placed on
12 a cradle, or something, on this phone?

13 A Yes.

14 Q Where is that?

15 A It's not on there.

16 Q Okay. Had you ever used that answering machine?

17 A No, I don't use it at all.

18 Q Have you ever retrieved a message from that
19 answering machine?

20 A Yes.

21 Q How do you retrieve a message from it?

22 A You just hit "play".

23 Q The next exhibit for the jury is Exhibit 56.
24 Have you ever seen that before?

25 A Yes. That would be my grandmother's.

1 THE COURT: Just a second. I think, Mr.
2 Kratz, it's 10:30. I think we will take our morning
3 break.

4 MR. KRATZ: We can certainly do that, Judge.

5 THE COURT: I will remind you, again,
6 members of the jury, not to discuss the case at any
7 time during the course of the trial, including
8 during any breaks. We will see you in 15 minutes.

9 (At which time the jury left the courtroom.
10 Then the following proceedings continued immediately
11 in the courtroom, out of the presence of the jury.)

12 THE COURT: You may be seated. Mr. Kratz,
13 did you have something first?

14 MR. KRATZ: Yes. Since there are several
15 photos, I believe we have received a stipulation as
16 to their admissibility. I understand that each
17 should be shown one at a time, but I think the Court
18 knows the technological limitations that we are
19 having, trying to toggle through this remote
20 control, so that only one is shown at a time, or
21 only after Mr. Dassey identifies what it is.

22 I'm wondering if there is a better way, or
23 if there is an opportunity that we may show these in
24 a more efficient fashion, perhaps one photo after
25 another, without having to go to a blue screen every

1 time.

2 I can certainly do that. It's Mr. Strang's
3 call. I understand that, Judge. This is simply a
4 request to make it a little easier for the jury to
5 watch these, and look at these exhibits, which I
6 believe had been stipulated as to their
7 admissibility.

8 THE COURT: Mr. Strang?

9 MR. STRANG: I think we should continue to
10 do it this way. There is a concern, or I imagine
11 there are many witnesses, who will have as many
12 photographs to go through. The concern is not the
13 authenticity of the photographs, or their
14 admissibility, but rather the kind of things that
15 appear on the screen.

16 When Mr. Kratz has the lap top on his desk,
17 he can stop the projecting of them up there before
18 one exhibit has been selected, and, you know, this
19 is just a good method to do it, because we may get
20 some photographs where, for some reason or not, they
21 ought not to be published to the jury, whether
22 because the witness can't identify it, or whatever
23 reason.

24 THE COURT: All right.

25 MR. KRATZ: That's fine. All I can do is

1 ask, Judge. I understand.

2 THE COURT: Mr. Strang, was there something
3 else you wished to take up?

4 MR. STRANG: There was. There is the matter
5 that I raised, and noted that I wanted it recorded,
6 that I had raised the matter, but it could wait for
7 our break to raise it. I wanted to do some checking
8 through the discovery too, before I did it.

9 My recollection of Bobby Dassey's testimony
10 was that he said that on Thursday, November 3, 2005,
11 in the presense of Bobby Dassey, and his friend,
12 Mike -- he didn't identify him further than as
13 "Mike" -- that Steven Avery asked if they wanted to
14 help get rid of a body, or "the body". I'm not
15 clear. I didn't write this down better.

16 But at the time Bobby said that he thought
17 Steve was joking about that, and it was shortly
18 after that testimony that I interjected briefly, as
19 I did.

20 We have no written summary of an interview
21 of Bobby Dassey, in which that statement is recited.
22 So, the immediate concern was disclosure of oral
23 statements of the defendant, that the State intends
24 to use at trial, I think, under Section
25 971.23(1)(b).

1 We do have a Calumet County Sheriff's
2 Department report of a contact with Michael
3 Osmunson, O-S-M-U-N-S-O-N, where, for counsel's
4 benefit, and the Court's, is page 259 of the Calumet
5 County Sheriff's Department report. That report,
6 which is not an interview of Bobby Dassey, recites a
7 statement of this Michael Osmunson, that he and
8 Bobby were inside the Dassey garage, when Steven
9 came over, and he goes on from there.

10 I think probably here, the best thing for
11 me to do is, what I will do is just read this for
12 the Court's benefit now, and make this a Court
13 Exhibit, page 259 of the report. The first chance I
14 get, we will make a copy of it. I will read the
15 relevant paragraph in its entirety.

16 "Michael indicated the only time he had been
17 at the Avery property between 10-31-05 and 11-14-05
18 was on Thursday, 11-10-05. He stated he and Bobby
19 were inside the Dassey garage when Steven came over.
20 Michael indicated he was aware Steven was one of the
21 last people to see the missing girl, and jokingly
22 asked Steven if Steven had her (the missing girl) in
23 a closet. At this point Steven asked Michael if
24 Michael wanted to "help bury the body", and they
25 laughed about this together. Michael stated he had

1 just learned about the missing girl on the Tuesday
2 prior to that. He once again indicated he thought
3 Steven might have been the last one to see the
4 missing girl." End of the relevant paragraph.

5 Although the following one sentence
6 paragraph says, "According to Michael, Steven stated
7 people go missing all the time and this girl may
8 have left, or may, quote, "have left for Mexico."
9 Period, close quote.

10 Now, although we have been told that Bobby
11 is in the garage at the same time, there is no
12 indication that Bobby overhears the statement.
13 Moreover, there was a different context for the
14 statement laid out here than what Bobby gave. That
15 is, Michael himself is joking with Steven, jesting
16 with him about having the girl in the closet. This
17 is clearly a joking response to the jest.

18 We have "help bury the body", instead of
19 "help get rid of the body". But, most significant
20 of all, this conversation clearly takes place on
21 Thursday, November tenth, 2005, not Thursday,
22 November 3, 2005. And Michael Osmunson says he had
23 just learned about the missing girl on the Tuesday
24 prior to that. Well, that has to be Tuesday,
25 November eighth, because on November 1, no one had

reported Teresa Halbach missing.

I was not concerned about Michael Osmunson being a witness in this case. Why? Because Steven Avery was arrested on November 9, 2005, and he has been continuously in custody since then, and was not in the Dassey garage, or Janda garage, or anyone else's garage, on Thursday, November 10, 2005.

Now we have a different witness, to whom this statement has never been attributed, of which we have no summary identifying him as someone who overheard the statement, or identifying a statement, as having been Bobby Dassey, as the individual identified, or critically identifying the statement as having been made on November 3, as a time when Steven Avery was not in custody, was at home, or in the salvage yard property, and the implication is this may have been before Teresa Halbach even is reported missing.

In large part, that implication arises because we didn't have the joke that was made to Steven Avery as the precursor of this. So, what I'm left with is this jury having heard testimony from the first blood relative of Mr. Avery to testify here, his nephew and next-door neighbor, that amounts to a confession of a crime, and under

1 the circumstances, although, technically, because
2 Bobby is listed in the report of contact with
3 Michael Osmunson, technically, the discovery statute
4 here may have been complied with. I have not looked
5 at the case law under the discovery statutes, but,
6 setting that aside, this comes as an unfair
7 surprise.

8 It's materially different than the summary
9 or the statement of which we have been given notice.
10 There is no way to unwind this from the juror's
11 minds. It has enormous unfair prejudicial impact.
12 I can think of no remedy, short of asking for a
13 mistrial, on the introduction of this testimony by
14 the State on the direct examination of Bobby Dassey,
15 without having been invited by the defense, or the
16 defense otherwise having opened the door, or done
17 anything to which you could say this would be an
18 invited response.

19 I move, therefore, for a mistrial on the
20 grounds I have explained.

21 THE COURT: Mr. Kratz?

22 MR. KRATZ: Well, Judge, after Mr. Strang
23 concedes that the discovery statute was complied
24 with, or I guess in his words, "may very well have
25 been complied with", I will leave the legal analysis

1 to the Court. A summary of this conversation was
2 provided, and although it appears that this Michael
3 fellow got the Thursday wrong, as far as being the
4 third versus the tenth, because Mr. Strang is
5 correct, that as of the tenth, Steven Avery was in
6 custody.

7 This witness did testify consistently with
8 what the story was, that he believed his Uncle
9 Steven was joking, that it was said in a joking
10 manner, and, if Mr. Strang wishes to inquire as to
11 the context of it, he may do so on cross
12 examination. That is what cross examination is for.

13 It certainly does not rise to the level of
14 material that requires a mistrial. We would ask
15 that the Court not do that.

16 THE COURT: Before I go back to Mr. Strang,
17 did I understand that the State indicated they gave
18 that to the defense, not only the Michael Osmunson
19 statement, but also information that Mr. Dassey
20 would testify as he did today? I thought that is
21 what I heard you start to say.

22 MR. KRATZ: No, he got it from -- He got
23 page 259, with all of the other discovery, including
24 Mr. Dassey's. I don't know if the conversation is
25 included in Mr. Dassey's report, but it was in Mr.

1 Osmunson's on page 259.

2 MR. STRANG: This page 259 is the only
3 notice I had of any discovery, any conversation, of
4 anything at all in any form. Indeed, I had asked
5 for any statements of Bobby Dassey. I see no
6 mention of a Mike, or Michael, or Michael Osmunson,
7 anywhere in the report itself, that concerns what
8 Bobby Dassey had to say. So, there, I will tell you
9 this caught me completely unaware.

10 THE COURT: Mr. Kratz, I guess I am not
11 sure, what was the State expecting, that Mr. Dassey
12 was going to testify to a different date today, to
13 the tenth, rather than the third?

14 MR. KRATZ: I don't understand the question,
15 Judge. It was the third. This witness testified
16 that this conversation with Mike, because Steven was
17 not in custody then, this witness testified it was
18 on the third.

19 THE COURT: Right. But it's my
20 understanding, from what I have been told, and you
21 folks have the benefit of that here, I have not seen
22 the report, that is the report from Mr. Osmunson,
23 that indicated the conversation took place on the
24 tenth.

25 MR. KRATZ: We will probably have to get

page 259. I don't have that in here. Perhaps I can make a better record about that. Perhaps the Court can read all of page 259.

MR. STRANG: Mr. Buting, I think, can go across the hall to the Clerk's office, and get copies of page 259 for everyone, including the Court, and counsel for the State.

THE COURT: All right. We will take our break. Somebody can have the document brought back to my chambers. I will take a look at it.

MR. KRATZ: That's fine. Thank you.

(After a short recess, the following proceedings took place in the courtroom, outside of the presence of the jury.)

THE COURT: You may be seated. Is there anything further from either party concerning the defense motion?

MR. STRANG: I have one thing to add, Your Honor. This is because this is serious, and I want to get it right. I did not say this until I double-checked on the break.

But the further reason that I was not concerned, and set aside the possibility of the Osmunson statement, or the oral statement of the defendant, through Osmunson coming in, is that the

1 State does not list Michael Osmunson on their
2 witness list. Neither did the defense. His name,
3 nowhere, appears on either party's witness list, and
4 what we have here then, on reviewing this, is a
5 materially different statement, made at an entirely
6 different time, and impossible to have been made on
7 the day that Mr. Osmunson says it was made that day.

8 So, it's not entirely consistent, in the
9 sense that he expresses no uncertainty about it
10 having been November tenth, Thursday, and says that
11 is because he had learned of Teresa Halbach being
12 missing on the preceding Tuesday, which only could
13 mean not earlier than Tuesday, November eighth, as
14 the Court notes. On that record, I can stand.

15 THE COURT: Mr. Kratz?

16 MR. KRATZ: Thank you, Judge. First of all,
17 the Court needs to note there was no violation, at
18 least a statutory discovery violation. The fact
19 that Mr. Strang indicates the impossibility of
20 November tenth, '05, as being the date of this
21 conversation, actually plays in the State's favor,
22 and does beg the question: Why the defense is
23 claiming surprise?

24 Why didn't they do something with this
25 statement? The defense had this information

1 available to them. If the context, and the subject
2 matter, and if the dates are wrong, there are many
3 remedies available to the defense. They could have
4 interviewed Osmunson, and apparently have chosen not
5 to. They certainly have had access to Bobby Dassey,
6 and the entire Dassey family, and I don't know if
7 Mr. Strang has indicated, or is representing that
8 they did not interview Bobby Dassey, but that, I
9 think, should be part of the record, as well.

10 Secondly, and next, it's important to note,
11 the jury is not going to be misled at all in this
12 case. A mistrial is reserved, as this Court knows,
13 in serious cases of prosecutorial misconduct, or
14 breach, or when some other remedy is not going to be
15 available. Given the fact there is no violation, no
16 discovery violation, certainly a mistrial is not at
17 all appropriate.

18 Let me offer, if there are concerns that the
19 Court still has, if the Court believes that, on
20 cross-examination, cannot be dealt with, Mr. Strang
21 still has available to him, either: To interview
22 Mr. Dassey, if the Court wants to grant a brief
23 continuance. Or to have Mr. Dassey come back, to
24 shore this up. Or interview Mr. Osmunson. Or to
25 secure Mr. Osmunson's appearance.

1 But the notice of the conversation was
2 provided. The fact that defense did nothing with
3 it, the fact that defense failed to interview, or
4 failed to appreciate, even if every belief was that
5 it was in a joking manner, the poor joke, that the
6 off-color remark that Mr. Avery apparently made,
7 regarding the remains of Ms. Halbach, I think that
8 is something perhaps that the defense should have
9 done. But it's not something the Court should
10 attribute to the State. Nor should a mistrial be
11 the remedy that the Court chooses in this case.
12 That is all I have, Judge. Thank you.

13 THE COURT: Mr. Strang?

14 MR. STRANG: First, we have not interviewed
15 Bobby Dassey. Second, the report, which the Court
16 now has a copy of, and I ask to be made part of the
17 court record as a Court Exhibit, again, is that he,
18 Michael, and Bobby were inside the Dassey garage,
19 but, from that point forward, describes this as a
20 conversation between Michael and Steven.

21 So, the remedy here is not to repeat this
22 statement, again and again in front of the jury, or
23 call another witness to change the date. The remedy
24 here is a mistrial, or something that effectively
25 would erase this testimony from the jury's

1 consideration, because, again, it's a materially
2 different statement, under different circumstances,
3 on a different date. That has an all-together
4 different meaning, and it becomes something a killer
5 would have done, as we sit here.

6 As the statement was presented to us, it was
7 impossible to have been made. It was false on its
8 face. So, if there were a remedy, short of a
9 mistrial, and I don't think that there is. But if
10 there were a remedy, short of that, it would be
11 something like the Court instructing the members of
12 the jury that testimony was given concerning a
13 statement that Mr. Avery supposedly made to Bobby
14 and Mike, his friend, on November 3, and that the
15 statement was not made, the testimony was false.

16 It was not made, and the testimony about it
17 was false, and at that point, the Court, I think, if
18 it were going to adopt a remedy, short of a
19 mistrial, would roll into it, with that instruction,
20 and connect it with the Falsus in Uno Instruction,
21 about Bobby Dassey's testimony, inviting, but not
22 instructing the jury that it may disregard, as
23 false, all of Bobby Dassey's testimony because of
24 his false testimony on this point.

25 I don't know if that would suffice, but

1 that comes much closer to a remedy than repeating
2 it, and, you know, remaking the statement over and
3 over, again, on cross examination, or with another
4 witness, in front of the jury.

5 I don't have case law at hand, on whether
6 the page 259 of the Calumet County Sheriff's
7 Department report, technically, suffices under
8 Section 971.23(1)(b) or not. I'm assuming here, for
9 the sake of argument, because we are told that Bobby
10 is somewhere in the garage when the statement
11 purportedly is made, I'm assuming, for the sake of
12 argument, that the State is just on the right side
13 of the line on discovery.

14 But, I have also laid out the practical
15 problems, and a good argument could be made, and I
16 will make it, if there is case law to support it, a
17 good argument can be made that the statement
18 testified to here is so materially different in
19 date, time, and content, than the statement of which
20 we were given notice, that they are not the same
21 oral statement. But, in any event, I don't think
22 the Court has to resolve that. The damages and the
23 problems are clear, and are serious.

24 THE COURT: All right. The starting point
25 here is the discovery statute, Section 971.23(1)(b).

1 That statute requires that the prosecution provide
2 to the defense a written summary of all oral
3 statements of the defendant. That would be
4 statements of Mr. Avery, which the District Attorney
5 plans to use in the course of the trial, and the
6 names of witnesses, who the defendant made the oral
7 statements to.

8 In this case, the Court is satisfied that,
9 at least, literally, that statute has been complied
10 with, that the disputed testimony involves a
11 statement attributed to the defendant, and there is
12 no dispute that the discovery information provided
13 by the State to the defense included information
14 indicating that both Mr. Osmunson and Bobby Dassey
15 were present at the time the defendant made the
16 statement.

17 What is different is the date on which the
18 statement was made, and as noted by defense counsel
19 in his argument, that can have a significant
20 difference here, because it can affect the
21 credibility of the statements themselves.

22 I would note at the outset that, in terms of
23 assessing the problems presented to the defense
24 here, both from page 259 which was presented to the
25 Court, and based on the testimony of Mr. Dassey,

1 both of the witnesses to the defendant's statement
2 indicated that they thought he was just joking at
3 the time. That is another element in which the
4 information provided to the defense and the
5 testimony given today on the witness stand are
6 consistent with each other.

7 I do agree that I would not fault the
8 defense, saying they didn't take the opportunity to
9 simply follow up on the information on page 259,
10 because by reading page 259, they would have been
11 led to believe that the information contained could
12 have been easily attacked, on the basis the
13 defendant could not have made that statement on
14 November tenth.

15 But they did have information to suggest the
16 statement was made. It's not unusual for a witness
17 to be mistaken about dates.

18 In the Court's opinion, I think that the
19 defense is entitled to some consideration in the
20 form of having an adequate opportunity to prepare to
21 cross examine the witness about the statement that
22 was made today.

23 I don't believe, first of all, there was,
24 strictly speaking, a violation. And, secondly,
25 given the nature of the testimony, that the

1 statement was made in jest, it would not rise to the
2 level of something that would warrant the granting
3 of a mistrial.

4 The Court would be inclined to grant the
5 defense an opportunity, first of all, to cross
6 examine the witness, in an attempt to attack the
7 statement today, if the defense wishes. The Court
8 will also require the State to make the witness
9 available for the defense to consult at a later
10 date, if the defense feels it needs additional time
11 in which to prepare to cross examine the witness on
12 this issue.

13 The Court may also consider giving an
14 instruction to the jury at some later point, if it
15 is deemed to be warranted. But I think it's
16 premature at this stage to speculate as to whether
17 or not such an instruction may be required, or what
18 the content of such an instructions might be.

19 So, I am giving the defense an alternative
20 opportunity. You are free to cross examine the
21 witness today. You are free to also, if you cross
22 examine him today, to have him brought back at a
23 later date, after you have had more time to digest
24 the testimony today. You can also postpone your
25 cross examination of the witness, if you wish.

1 MR. STRANG: I understand the Court's
2 rulings. Those are three choices that present some
3 complicated weighing for us to do. I guess, as a
4 first step, what I would like to do is have 30
5 minutes, or something, to talk with Mr. Buting about
6 that.

7 And I would like at this point the Court to,
8 until Mr. Dassey has completed whatever testimony he
9 is going to give in this case, I would like the
10 Court to order that the State, and any agent of the
11 State, including members of the Calumet County
12 Sheriff's Department, or either of the two lead
13 investigators, or anyone acting on their behalf,
14 not discuss with Bobby Dassey any aspect of his
15 testimony, have no contact with him about his
16 testimony actually given already, or anticipated
17 further, on direct or cross examination.

18 So, in other words, I would like him
19 sequestered. That agents of the State would include
20 the District Attorney's office, anyone involved on
21 the prosecution's side of the case, or acting at the
22 prosecution's direction, and I also will not talk to
23 Mr. Dassey either, without approaching the Court,
24 and telling the Court and counsel that we intend, or
25 we are asking to be able to interview him, while his

1 testimony is ongoing, in the sense that he has not
2 been released from his appearance here.

3 But I would like to, at a minimum, to
4 "freeze the frame", so to speak, where it is, and to
5 start with, like I said, I think 30 minutes for Mr.
6 Buting and I to talk about which, of the three
7 options the Court has afforded us immediately, we
8 best should choose in representing Steven Avery.

9 THE COURT: Mr. Kratz?

10 MR. KRATZ: I do have a suggestion, Judge.
11 My direct examination of Bobby, as the Court may
12 have already predicted, will be concluded with Bobby
13 identifying the balance of the photos that are in
14 front of him. I don't intend to ask him any other
15 questions. That seems to be seamless enough that it
16 would allow Mr. Strang an opportunity over the lunch
17 hour.

18 Perhaps the Court could even grant a
19 little extension over the lunch hour for the defense
20 to discuss their strategy, so the jury could at
21 least hear the rest of the direct testimony, which
22 is just the identification of the other photographs
23 and exhibits. I think that would be fair for Mr.
24 Strang, to give him an opportunity to discuss that.

25 MR. STRANG: Well, if it's really just

1 finishing identifying the photographs, and there is
2 no summary or windup at the end, then that is a
3 reasonable suggestion. I think we could, if I could
4 get 90 minutes for lunch today, Mr. Buting and I
5 could incorporate the discussion, I'm suggesting we
6 need to have, over the lunch hour. So, I don't have
7 any quarrel, if I understand Bobby Dassey really
8 does end on direct examination, when the last
9 photograph is identified and explained.

10 MR. KRATZ: Counsel has just reminded me,
11 Judge, that if, during the course of Bobby's
12 identification of some photographs, he says
13 something, I may ask a clarifying question. That
14 may raise some areas of inquiry.

15 So, although my intent is to ask about these
16 photographs, and what is depicted in them, it's
17 possible that it could go into other areas of
18 information, on the property and the like. But I
19 don't envision, certainly don't envision revisiting
20 this "statement issue". But I was just trying to
21 come up with a suggestion that could at least
22 complete the direct examination before lunch.

23 MR. STRANG: Perhaps it would be useful to
24 know, your Honor, how many photographs we have left
25 to go, and about what time the prosecution expects

1 its continued direct examination will consume.

2 THE COURT: Mr. Kratz?

3 MR. KRATZ: I think we have 20 pictures
4 left, Judge. I think the questions will be what you
5 heard so far, is what we are looking at.

6 THE COURT: Why don't we finish up on that
7 and take a lunch break at that point?

8 MR. STRANG: And I do I think I would like a
9 ruling about -- I know I would like a ruling on my
10 request that Mr. Dassey, at this point, until a
11 further order of the Court, not be questioned in any
12 way by any agent of the State.

13 He will have to have some incidental contact
14 with Julie Leverenz, who is the Victim-Witness
15 Coordinator from the Calumet County District
16 Attorney's Office. I odn't have any practical
17 objection to that, "When does he need to back?", or
18 whatever.

19 THE COURT: Any objection from the State?

20 MR. KRATZ: No.

21 THE COURT: All right. The Court will order
22 that no attorney or representative of either side
23 have any contact with Mr. Dassey until his testimony
24 is completed. And the Victim-Witness Coordinator is
25 not to discuss any aspect of his testimony with him.

1 With that, I believe we can bring the jury back
2 in and complete the direct examination of Mr.
3 Dassey.

4 MR. KRATZ: The record should reflect that I
5 have instructed the Victim-Witness Coordinator as to
6 what to do.

7 THE COURT: Thank you.

8 (The jury was brought back to the courtroom,
9 and the following proceedings continued in the
10 courtroom, in the presence of the jury.)

11 THE COURT: You may be seated.

12 Mr. Kratz, at this time you may resume your
13 direct examination.

14 MR. KRATZ: Thank you.

15 BY MR. KRATZ:

16 Q Bobby, we left off on Exhibit Number 56, that was
17 in front of you. I think you started to tell us
18 what Exhibit 56 was. Can you tell us again
19 please?

20 A That is my Grandma's house.

21 Q Now that the jury can see exhibit 56, where is
22 your Grandma's house located in relationship to
23 you?

24 A To the east.

25 Q Okay. We will see an overview, or at least the

1 jury has. But how far down that road is your
2 Grandma's trailer located? Do you know?

3 A Maybe six tenth's of a mile.

4 Q And then they have a road, or more of a "long
5 driveway"; is that correct?

6 A Yes, it is a long driveway.

7 Q The next exhibit is Number 57. Can you tell us
8 what that is please?

9 A It's another picture of my Grandma's house.

10 Q From a different angle?

11 A Yes.

12 Q And, again, now that the jury can see Exhibit
13 number 57, how are we looking at her trailer?

14 A That would be, if you are coming into the driveway,
15 that would be the east side of it, the northeast
16 side of it.

17 Q So, if you are coming from the main road, on
18 Highway 147, you are coming toward the end of it?

19 A Yes. That would be the front.

20 Q What is the next exhibit, Exhibit 58?

21 A That is the office area, inside the shop, of the
22 salvage yard.

23 Q Now, as I get that picture up, if I can, in fact,
24 do that, you are talking about the shop?

25 A Where they do all of their business. Where they fix

1 the cars.

2 Q On the Avery Salvage property, this is other than
3 just residences; is that correct?

4 A Yes.

5 Q Do you know how many other buildings there are,
6 other than residences?

7 A Three.

8 Q Exhibit Number 58, is that one of them?

9 A Yes.

10 Q The main office area, if somebody did business
11 with the salvage place, he would come into this
12 room here?

13 A Yes.

14 Q All right. Tell us what Exhibit 59 is?

15 A Just another picture of the Plymouth Voyager van.

16 Q Now, Exhibit 59, where was that taken from? Do
17 you know?

18 A From the driveway.

19 Q Do you still have the laser pointer up there?

20 A Yes.

21 Q Can you show us with the laser pointer where your
22 mother's and your home would be located in
23 relationship to this picture?

24 A It would on this side of the picture.

25 Q The left side?

1 A Yes.

2 Q And that is the maroon van, again, the van that
3 you saw Teresa taking pictures of?

4 A Yes.

5 MR. STRANG: Objection, asked and answered.
6 The testimony is getting cumulative, Your Honor.

7 THE COURT: Mr. Kratz?

8 MR. KRATZ: Judge, although I understand I
9 have asked the questions, these are all different
10 angles. They will have a use later in the trial. I
11 suspect, with this picture, that is
12 self-explanatory.

13 THE COURT: I will allow the one question,
14 to put the picture in context.

15 BY MR. KRATZ:

16 Q That was the vehicle that Teresa was taking a
17 picture of?

18 A Yes.

19 Q All right. The next exhibit is Exhibit Number 60?

20 A That is another picture of the van, just a different
21 angle.

22 Q What we are showing on the screen is Exhibit 60?

23 MR. STRANG: Objection, cumulative and a
24 waste of time, under Section 904.03.

25 THE COURT: Are you referring to the

1 description of the photo, or the photo itself?

2 MR. STRANG: The photo and the description
3 of it.

4 THE COURT: It's my understanding at this
5 time we are going through these photos because they
6 may be used later. It's a bit difficult for the
7 Court to say, in advance, that a photo may be a
8 waste of time, since I don't know the purpose for
9 which it may be used. So, I'm not going to rule on
10 the objection for now.

11 MR. KRATZ: All right.

12 BY MR. KRATZ:

13 Q Exhibit 61?

14 A Another picture of the van at a different angle.

15 Q What is in the background of Exhibit 61?

16 A My mom's house.

17 Q When looking at Exhibit 61, could you again point
18 out the picture, or, excuse me, the window that
19 you looked out and watched things from?

20 A It would be that window there.

21 Q The left-most window on the trailer; is that
22 correct?

23 A Yes.

24 Q Exhibit 62 is the front of -- What is that?

25 A That would be Steven's car.

1 Q What kind of car is that?

2 A Pontiac Grand Am.

3 Q You mentioned that Steven had a truck, as well?

4 A Yes.

5 Q We saw that in a previous picture; is that
6 correct?

7 A Yes.

8 Q This blue car, that Grand Am, is, obviously, a
9 different vehicle. Did Steven drive this car?

10 A Yes.

11 Q What is Exhibit 63?

12 A That would be the yard's flatbed, the salvage yard
13 flatbed.

14 Q What is a flatbed, for those of us, who don't
15 know?

16 A For hauling cars, for picking up cars.

17 MR. STRANG: Your Honor, I would like to be
18 heard briefly at side bar, if I may?

19 THE COURT: Very well.

20 (At which time a bench conference was held
21 off the record, in low tones, between the Court and
22 the attorneys, out of the hearing of everyone else
23 in the courtroom.)

24 BY MR. KRATZ:

25 Q What is the next picture of, in front of you,

1 Exhibit 64?

2 A The would be my Grandma's golf golf.

3 Q Your Grandma's what?

4 A Golf cart.

5 Q And, again, on the large screen, that is a
6 representation of the photo that is in front of
7 you?

8 A Yes.

9 Q Do you know where that golf cart was normally
10 kept?

11 A In her garage.

12 Q What is Exhibit 65?

13 A My mom's golf cart.

14 Q Again, directing your attention to the large
15 screen, where was that normally kept?

16 A Mostly outside.

17 Q Outside of what?

18 A Our house.

19 Q The next photo is Exhibit 66. Can you tell us
20 what that is?

21 A That would be the car crusher.

22 Q Where on the property was that located? Do you
23 know?

24 A Down in the pit.

25 Q What does "down in the pit" mean?

1 A It would actually be on the east side of the pit,
2 the far side.

3 Q The east side of the property?

4 A Yes.

5 Q Bobby, did you ever operate this piece of
6 equipment?

7 A No.

8 Q Okay. I think he have this on a couple of
9 different angles, but can you tell us about
10 Exhibit 67?

11 A Just the front view of the crusher, again.

12 Q Actually, I am not even going to post these to the
13 jury. Just tell me we what it is.

14 A Just a front view of the crusher.

15 Q And 68?

16 A A back view of the crusher.

17 Q And Exhibit 69?

18 A A picture of the whole background.
19 Q Of the pit that you were talking about?

20 A Yes.

21 Q Okay. I will show this one. Tell us what we are
22 looking at here.

23 A There is the far east side of the property.

24 Q Can you show us, with the laser pointer, the
25 crusher please?

1 A The crusher is right there.

2 Q Is there a body of water, or a pond, right there?

3 A Yes. That would be right around there.

4 Q Now, do you know what is on the other side of that

5 pond?

6 A Just an embankment.

7 Q Are there vehicles on the other side?

8 A There is, a little lower, and there is the

9 embankment.

10 Q Could you show us that, with your laser pointer,

11 what you are talking about?

12 A There is the embankment, and there is the road that

13 runs on this side of the pond.

14 Q Okay. What is Exhibit 70?

15 A Crushed cars.

16 Q Had you seen any crushed cars on the property?

17 A No.

18 Q You were not involved in the business at all?

19 A No.

20 Q What is the next picture, number 71?

21 A A picture of tires.

22 Q And what are picture 71, the tires, or where were

23 they located?

24 A Just north of the crusher.

25 Q What is Exhibit 72?

1 A A pile of tires.

2 Q Do you know where those tires were located?

3 A That is just southwest of Steven's trailer, in the
4 back corner.

5 Q Exhibit 73, what is that?

6 A Just the Avery Salvage sign.

7 Q Where was that sign located, now that the jury is
8 seeing it on Exhibit 73?

9 A At the end of Avery's Road.

10 Q What does Avery Road connect with?

11 A Highway 147.

12 Q So, this sign, that is on Exhibit 73, would be at
13 that intersection; is that correct?

14 A Yes.

15 Q The next exhibit is Exhibit 74. What is that?

16 A Just an overview of the salvage yard.

17 Q Can you describe that any further?

18 A Directly south from Steven's trailer.

19 MR. KRATZ: I think this will be the last
20 picture I will show. There are some others up
21 there.

22 THE COURT: All right.

23 BY MR. KRATZ:

24 Q Exhibit 74, what are you looking at?

25 A This is maybe half of the salvage yard, with cars.

1 Q Those vehicles are located throughout the salvage
2 property?

3 A Yes.

4 Q And, in fact, what is Exhibit 75?

5 A More pictures of cars in the junk yard.

6 Q And Exhibit 76?

7 A Just another picture of an overview of the yard.

8 Q And 77?

9 A The same thing, another picture of the overview.

10 Q More junk cars?

11 A Yes.

12 Q More junk cars? Finally, Exhibit 78, in front of
13 you?

14 A More junk cars.

15 MR. KRATZ: With that, Judge, I will move
16 admission of Exhibits 37 through 78, as identified
17 by Mr. Dassey.

18 THE COURT: Mr. Strang?

19 MR. STRANG: Number 70, I think he said he
20 has never seen these crushed cars before. So, I
21 don't think that we even got to the relevancy of
22 number 70. I think many of the others are
23 cumulative. But as a practical matter, some of
24 that we can address later. I don't have any
25 questions about their authenticity.

1 THE COURT: All right. The Court will at
2 this time allow all of the exhibits in, except for
3 Exhibit 70, based upon laying a foundation.

4 THE COURT: Mr. Kratz, do you have any
5 further questions for this witness?

6 MR. KRATZ: No, not at this time, Judge.

7 THE COURT: All right. Members of the jury,
8 counsel and I have a few things to take up before we
9 continue. So, we are going to take a break at this
10 time, early for lunch, and resume at one o'clock.
11 Again, I will remind you not to discuss the case in
12 any fashion during the break.

13 (The jury left the courtroom. The following
14 proceedings continued in the courtroom, outside of
15 the presence of the jury.)

16 THE COURT: You may be seated. We are now
17 outside of the presence of the jury. Mr. Strang,
18 you requested a brief side bar during the witness'
19 testimony. Did you wish to put that on the record?

20 MR. BUTING: Yes, I do. We had two
21 photographs identified and published to the jury.
22 These were, by my notes, numbers 22 and 63, in which
23 obvious police crime-scene evidence yellow tape is
24 wrapped around, first, what was identified as Mr.
25 Avery's Grand Am, and, secondly, the witness

1 identified a flatbed truck. The implication of the
2 evidence tape, obviously, is that there is something
3 of evidentiary value, inculpatory presumably, since
4 the State is offering these, and it appears to be
5 police tape.

6 That is an unfair implication as to both the
7 Grand Am and the flatbed truck. I cannot imagine
8 what the probative value of the photographs of these
9 two vehicles is. In any event, certainly the State
10 has photographs of the Grand Am, without evidence
11 tape, or other suggestions there is something to be
12 preserved, or something incriminating, or
13 inculpatory, about it.

14 So, I think those ought not come in, for
15 those reasons. That is a much longer version of
16 what I said at the side bar, but that was the issue
17 I was raising at side bar, off the record, and I
18 will note that, although I am aware, under State
19 versus Miniero, M-I-N-I-E-R-O, and other cases, the
20 Appellate Courts of the State are not fond at all of
21 off-the-record side bars, I'm the one who requested
22 the side bar, and I knew that it would be off the
23 record. So, I will try to make clear, what I think
24 I said, and the side bar, then immediately, has to
25 be on the record, but I appreciate the Court giving

1 me a chance now to elaborate much further on the
2 issue I raised in summary at side bar.

3 THE COURT: All right. I will say the Court
4 is aware, we have been admonished by the Appeals
5 Courts to avoid side bars, whenever possible, and
6 whenever one is held, to make a record of it. I try
7 the remember to do that, as best I can.

8 Mr. Kratz, any response to the defense's
9 concern about the two exhibits?

10 MR. KRATZ: Just briefly, Judge. Those
11 items were, in fact, as soon as both of them were
12 inspected, one of them, the blue Pontiac was
13 processed, and the items therein tested by the
14 Wisconsin State Crime Laboratory, and a DNA profile
15 was developed from within, the fact that Steven
16 Avery's blood is near the console of that vehicle,
17 as well as in Ms. Halbach's vehicle, the State
18 intends to include in evidence in this case.

19 Especially, if the defense intends to pursue
20 their "planting of Mr. Avery's blood" evidence, and
21 the Court, I'm sure, on its own, can surmise the
22 argument that the State may make, if, in fact,
23 "planting evidence" is going to continue to be
24 advanced in this case.

25 The negative evidence, that is, the lack of

1 evidence in the flatbed, has similar evidentiary
2 value, and whether the State intends to argue
3 directly the implication of negative evidence, or
4 just the fact that the State looked, the fact that
5 the State, in fact, did a thorough investigation,
6 all has at least some relevance in this case, and
7 the showing of these two photographs are not, in and
8 of themselves, prejudicial.

9 They will both be referred to later in this
10 trial, and at this time I think it's proper for the
11 Court to not reject or exclude those photographs as
12 exhibits. Thank you.

13 THE COURT: All right. I'm satisfied that,
14 at least at this stage of the trial, both of the
15 photos offered have at least the potential for
16 probative value, for the reasons stated. Among
17 other things, the thoroughness of the State's
18 investigation can be put into play later in this
19 case.

20 I do have one question, however. Does the
21 State have photos of either the Pontiac Grand Am or
22 the flatbed, that doesn't have evidence tape
23 involved?

24 MR. KRATZ: I can check, Judge. I don't
25 know that we have the flatbed. The Grand Am, we may

1 have photos at the crime lab, and that is something
2 that I can certainly inquire into. But these were
3 the first photos. I don't know that evidence tape,
4 in and of themselves, since the jury will hear they
5 were processed, is anything prejudicial at all. But
6 I will check for the Court.

7 THE COURT: All right. Let's have the
8 parties report back at one o'clock. Then the first
9 order of business will be hearing from the defense?

10 MR. STRANG: Yeah. I would like a little
11 more time than one o'clock. If I could get 90
12 minutes, I think that would be enough.

13 THE COURT: All right. We will give you
14 until 1:15.

15 MR. STRANG: Okay.

16 (After the noon recess, the following
17 proceedings resumed in the courtroom, outside of the
18 presence of the jury.)

19 THE COURT: You may be seated. At this time
20 we're back on the record, outside of the presence of
21 the jury. I will indicate for the record that I met
22 with counsel briefly in chambers before we began.
23 It's my understanding, I believe that we have an
24 agreement on how we are going to proceed this
25 afternoon, and that involves, specifically, taking a

witness out of order. Is that correct, counsel?

MR. KRATZ: The state understands, Your Honor, that the defense has asked for an opportunity to defer its cross examination of Bobby Dassey until the beginning of court tomorrow. We understand that the State, excuse me, the defense, wishes an opportunity to interview Mr. Dassey sometime yet this afternoon, and the State is prepared to call Trooper Austin, and have him present his testimony before the cross-examination begins, which, as I understand, the defense has asked for leave to commence that tomorrow morning.

THE COURT: Mr. Strang?

MR. STRANG: I had suggested in chambers that our conclusion and the defense's statement was that we did need to interview Bobby Dassey before cross examining him, and that we wish to cross examine him only once, so as not to draw undue attention to him, or to any part of his testimony. Because that is an interview that is of unpredictable length, and will take us in different possible directions, some of which I can predict as possibilities, and I'm not sure I can predict all of the possibilities, I had asked that we have the balance of the day to do that, and that we start

tomorrow morning with the cross examination of Bobby Dassey, so that, for the jury, this just flows sequentially, and, you know, the fact that the Court had to resolve some issues is all the jury would know.

In chambers, as I understood the Court, it was unwilling to adjourn for the afternoon and start up again tomorrow morning. I object to taking another witness, out of order, because I expect that, as I understand this trial, then Bobby Dassey will be the only witness, whose cross examination did not immediately follow in order with his direct examination. That is, it was broken up by another witness.

The Court, of course, controls the mode and the order of the interrogation of witnesses. But this does tend to highlight him, and also it leaves us attending to Trooper Austin, which that time probably would be better used and should be used in interviewing Bobby Dassey, and adjusting the cross examination of Bobby Dassey.

Accordingly, doing a one-and-a-half, or one-hour witness, is better than having no time to interview Bobby Dassey at all, to be sure. But I don't think this is an adequate remedy, and as I

1 forecasted in chambers, and won't repeat here, there
2 are a number of possible issues that we may need to
3 visit or revisit, depending on the results of the
4 conversation with Bobby Dassey.

5 But, in any event, I do ask the Court then
6 to exempt us, or to carve an exception for Mr.
7 Buting, and myself, and our defense investigator,
8 this afternoon, so that we can talk to Bobby Dassey
9 here, during the midst of his testimony, so to
10 speak.

11 But we would ask that the Court's earlier
12 order remain in place, for agents of the State,
13 other than Ms. Leverenz, who, of course, as a
14 practical matter, has to have some communication
15 with Bobby Dassey about the Court's schedule and
16 plans.

17 THE COURT: Mr. Kratz?

18 MR. KRATZ: Thank you, Judge. As the Court
19 know, in chambers it was the State's request that
20 the defense proceed directly with cross examination.
21 I will have an exhibit marked for the Court, which I
22 alerted the Court, and reminded counsel that they
23 already had in their possession, pages 516 and 517
24 of the Sheriff's Department discovery, which is now
25 a second place within the material that Mr. Strang

1 already had, which alerted the defense counsel to
2 the substance of, and the surrounding circumstances
3 of the interview that Mr. Dassey mentioned in his
4 direct testimony.

5 To suggest to this Court, at this time, that
6 it was not until this very moment that the defense
7 realized the significance of Bobby Dassey, when they
8 have known for well over a year that Bobby Dassey
9 was the last person, other than their client, to see
10 Ms. Halbach alive, and walking toward Mr. Avery's
11 trailer, to suggest it's only now that they believe
12 it important to interview Mr. Dassey, the State
13 believes to be disingenuous.

14 That not withstanding, Your Honor, we
15 understand why the defense has made this request.
16 We do disagree that, after Mr. Strang and Mr. Buting
17 have an opportunity to interview Mr. Dassey, that
18 the State should somehow be prohibited or precluded
19 from, ourselves, interviewing or speaking with Mr.
20 Dassey. That is a separate issue, of course.

21 And with that exhibit now having been
22 provided to the Court, we don't believe that we have
23 any further need to make any further record on this
24 issue. Thank you, Judge.

25 MR. STRANG: I acknowledge that I have had

1 in my possession pages 516 and 517 of the Calumet
2 County Sheriff's Department report. It's not well
3 over a year, of course, because Mr. Buting and I
4 have first entered our appearances less than a year
5 ago in this case. But we have had those, that
6 report, and those two pages, for months, and, in any
7 event, I wish that the question of the interviewing
8 of Bobby Dassey were as easy as whether he is
9 important or not.

10 That is not the question. There are a whole
11 lot of other dynamics at work here, such as the
12 availability of witnesses, and the allocation of
13 resources, and some of those things. We don't need
14 to rehash all of the arguments about why the defense
15 had wanted a trial date later than February 5, 2007.
16 But it's not all that easy.

17 I can say, and should say, that we have not
18 interviewed Bobby Dassey at any time, and we hope to
19 be able to do that today. And the issue, in the
20 end, I think under Section 971.23(1)(b) comes down
21 to the meaning of "witness", and whether here we
22 were provided notice by the State that Bobby Dassey
23 will be a witness to testify to the oral statement
24 at issue, materially different as it is from Mr.
25 Osmunson's rendition, and some differences from the

1 second-hand rendition from another witness, in pages
2 516 and 517, in just recounting to a law enforcement
3 agent what Bobby Dassey supposedly said to him,
4 about what Steven Avery said, in Bobby Dassey's
5 presence.

6 So, I think we have got a record. I have
7 made, and I will renew the mistrial motion, and the
8 request for lesser relief, with the least-favored
9 alternative being given the afternoon here to attend
10 just to Bobby Dassey, and resuming the trial with
11 the jury tomorrow morning, with Bobby Dassey's
12 cross-examination.

13 I understand the Court has ruled on that. I
14 just wanted to make our position clear.

15 THE COURT: All right. First of all, the
16 Court has already denied the motion for a mistrial,
17 and I have heard nothing to make me change that.
18 Since the matter was brought up on the record this
19 morning, the State has presented the Court with
20 another piece of discovery, which makes reference a
21 little more directly to the statement that was the
22 subject of the defense motion here.

23 Given the fact, never the less, that the
24 witness himself, in his own statements, apparently,
25 did not make reference to the information contained

1 in the other two documents, that highlighted the
2 witness' exposure to this alleged statement on the
3 part of the defendant, I agree that the defendant
4 should be permitted some time to explore this issue
5 and to interview the witness.

6 I have not been presented a reason why
7 such an interview should require hours of
8 preparation, since the defense has had the
9 opportunity to interview this witness for as long as
10 this case has been pending. There is only one
11 narrow issue, specifically, the witness' testimony
12 as to one statement on the part of the defendant,
13 that gives rise to the need for another interview.

14 I'm confident, if we break a little earlier
15 today, and the defense has an opportunity to
16 interview the witness, that should be sufficient to
17 address any problem that may exist.

18 I do agree, under the circumstances, that
19 the defense should have the right to interview Mr.
20 Dassey first. But, under the circumstances, I see
21 no reason to prohibit any representative of the
22 State from interviewing Mr. Dassey later.

23 Again, for those reasons that have been
24 stated earlier, we are talking about one fairly
25 narrow statement here, that is referenced in at

1 least two different spots in the discovery that was
2 admittedly provided to the defense. I think the
3 remedy the Court has ordered should be sufficient to
4 address this issue.

5 Likewise, I don't believe -- The Court will
6 simply inform the jury, for the convenience of the
7 parties and the witnesses, we are going to hear from
8 Officer Austin, and the cross examination of Mr.
9 Dassey will be completed tomorrow morning. That
10 happens on a fairly routine basis in many trials for
11 a variety of reasons, and the Court has never known
12 that to be something that is likely to influence the
13 jury in any way.

14 So, at this time we will bring the jurors
15 back in. Then, Mr. Kratz, you can call your
16 witness.

17 MR. KRATZ: Thank you

18 THE COURT: What was the exhibit number of
19 pages 516 and 517?

20 THE CLERK: Exhibit 89.

21 THE COURT: Okay.

22 MR. STRANG: Don't we have another issue?

23 THE COURT: There is another issue that I
24 will take up tomorrow morning. I don't believe it
25 was required to be taken up now.

MR. STRANG: Okay.

MR. KRATZ: Judge, regarding Mr. Austin, I told the Court that Mr. Austin intends to explain his process through a power point demonstration, which, after we're concluded, I will mark and make part of the record. I do have a hard copy for the Court to follow along. I have provided Mr. Buting and Mr. Strang with a copy, as well, so they can follow along.

And, finally, as I alerted the Court, later in this trial, some of these computer images may be, in fact, referred to in a small sub-set of these images. I also have some four-by-six images made to complete the record. I will provide those and have those marked, as well, to be identified by this witness, at the conclusion of his testimony.

But I will give the Court and the Clerk the exhibits here, and the Court can follow along with the power point demonstration, as well.

We are prepared to proceed then.

THE COURT: Very well.

(At which time the jury came into the courtroom. The following proceeding continued in the courtroom, in the presence of the jury.)

THE COURT: You may be seated. Members of

1 the jury, for reasons relating to availability of
2 witnesses, we are going to take a witness out of
3 order at this time. The defense will be conducting
4 its cross examination of Mr. Dassey tomorrow
5 morning, and the State is going to call another
6 witness at this time.

7 Mr. Kratz?

8 MR. KRATZ: We will call Trooper Tim Austin
9 at this time.

10 TIMOTHY AUSTIN, being first duly sworn on
11 oath to tell the truth, the whole truth, and nothing
12 but the truth, testified as follows:

13 THE CLERK: State your full name and spell
14 your last name please.

15 THE WITNESS: My name is Timothy Austin,
16 A-U-S-T-I-N.

17 DIRECT EXAMINATION BY MR. KRATZ:

18 Q Mr. Austin, how are you employed?

19 A I am employed as a trooper with the Wisconsin State
20 Patrol. I'm assigned to the Wisconsin State Patrol
21 Academy, to the Technical Reconstruction Unit.

22 Q Can you tell us what the Technical Reconstruction
23 Unit is?

24 A The Technical Reconstruction Unit is a specialized
25 unit, if you will, of persons that work with crash

1 reconstructions and crime scene reconstructions for
2 the Division of the State Patrol.

3 Q Could you briefly set forth your education,
4 training, and experience in the areas of scene
5 modeling?

6 A Yes, sir. I have been trained and certified as an
7 instructor in the field of forensic diagramming,
8 which includes the use of computer-aided drafting or
9 drawing software, and a Geodimeter, which is,
10 basically, an electronic surveying device for
11 collecting measurements.

12 Q Now, Trooper Austin, we will be referring to the
13 large screen here in the courtroom. This is what
14 is known as a "power point presentation", or PC
15 presentation software. Could you, first of all,
16 just tell the jury what we will be looking at
17 during your testimony, and how this was created?

18 A Yes. To assist with my testimony, under the
19 direction of Mr. Kratz, I created a power point
20 presentation. What you will see is a series of
21 slides that will help to bring us through the
22 forensic mapping project that I did in this
23 particular case. You will see some images in two
24 dimensions, and some three-dimensional computer
25 scenes that I generated.

1 Q All right. What is forensic mapping?

2 A Forensic mapping is the science, if you will, of
3 collecting measurements at a crash or crime scene,
4 and then putting them together later, in either a
5 two-dimensional diagram or three-dimensional models.
6 Such was my objective in this particular case, to
7 collect measurements at the given property, and
8 later to bring those measurements into the office to
9 create two-dimensional diagrams and some
10 three-dimensional models.

11 Q Specifically, Trooper Austin, on November fifth of
12 2005, were you asked to proceed to, and did you,
13 in fact, proceed to a property known as the Avery
14 Salvage Yard?

15 A Yes. On November fifth of 2005, I was requested by
16 local law enforcement to go to the Avery property in
17 Manitowoc County for the purpose of forensic
18 mapping.

19 Q How long were you at that property?

20 A The forensic mapping activities went from November
21 fifth through November twelfth of that year.

22 Q You mentioned, I think, earlier that this forensic
23 mapping process requires the taking of
24 measurements. Can you describe that process, and
25 how many measurements were involved?

1 A Yes. As I said before, we utilized an electronic
2 measuring device, in addition to recording some
3 measurements by hand, with tape measures, if you
4 will. But the bulk of the measurements were taken
5 using an electronic device known as the Geodimeter,
6 G-E-O-D-I-M-E-T-E-R, or the total station. In
7 total, we documented over 4100 measurements at the
8 Avery property.

9 Q Tell us about the "total station" process please?

10 A Certainly. The total station, as I said before, is
11 an electronic device composed of an electronic
12 distance measuring system, which essentially
13 measures distance, distance from the total station
14 to a given evidentiary point. It also has a
15 theodolite, which measures angles. It also has a
16 data collector and a prism.

17 Q Just for the record, and for the reporter's
18 benefit, a hard copy of this will be provided for
19 the spellings of everything you said. This is
20 a picture of the Geodimeter; is that correct?

21 A Yes.

22 Q And those other devices that are used to create
23 these measurements are included within the total
24 station package itself; is that correct?

25 A Yes, that is correct. Hence, the name, "total

1 station". It measures not just angles. Like a
2 transit would, it also measures distance, and that
3 is because we have a Theodolite and a distance
4 measuring system in there. We have a total package,
5 or, hence, a "total station".

6 Q I'm sure Mr. Platkowski would like you to slow
7 down just a little more. That would be terrific.
8 Can you tell us about the information storage and
9 retrieval?

10 A Certainly. Again, what the total station does is
11 measures the distance and angles to a particular
12 location. For example, if I were measuring an item
13 of evidentiary value where Mr. Kratz is, I would ask
14 him to hold the prism over that item of evidentiary
15 value. The total station would recognize the angle
16 to Mr. Kratz, both horizontally and vertically. It
17 would then measure the distance. What it will
18 document is that particular point's location in 3-D
19 space. In other words, along an X-axis, a Y-axis,
20 and a Z-axis, based on where the total station is
21 located. If there is another point on the other
22 side of the courtroom, it would do the same thing,
23 distance and angle to that particular point. It
24 stores that data in an on-board data collector,
25 which you see in the lower pictures.

1 Q Is that basically a computer?

2 A Yes, it is, and it does convert these horizontal and
3 vertical angles to X, Y, and Z coordinates, for
4 later retrieval.

5 Q All right. Let's talk about the total station's
6 accuracy. Can you tell the jury: Just how
7 accurate is this process?

8 A This particular total station has a maximum angular
9 error or induced error from instruments of three
10 seconds. So, what that means, as I said before, it
11 measures in angles. If I take a circle, that circle
12 is divided into 360 degrees. Each degree is divided
13 into 60 minutes. Each minute is divided into 60
14 seconds. So, this particular instrument is accurate
15 to within three of those seconds.

16 Mr. Kratz, at this particular scene, the
17 longest shot distance was about 1200 feet. If I
18 calculate it out mathematically, that means our
19 maximum error induced by the instrument is less than
20 a half inch.

21 Q All right. Let's talk about the location, the
22 Avery salvage property itself. I have put your
23 next slide on the screen, and feel free to use
24 the laser pointer, or whatever you may need, to
25 explain or describe for this jury please the

1 mapping locations?

2 A In this slide I put an aerial photograph of the
3 Avery property. The purpose of this was to show
4 that we had actually forensically mapped out this
5 entire location. That is, everything that you see
6 here on the screen was mapped out, using that
7 Geodimeter total station.

8 This second slide, Mr. Kratz, shows us a
9 different view, another aerial photograph of the
10 same property. This time we have changed it, so
11 north is to the left side of the screen, and in the
12 box is where it shows the Avery salvage property.
13 That map was created, and I put this slide up
14 because, in addition to mapping the Avery salvage
15 property, we also completed some forensic mapping at
16 what is best described as the "deer camp".

17 I was not privy as to who owns the deer
18 camp. I know it's an unrelated person. We did
19 forensic mapping at this location too, and also a
20 cul-de-sac at the end of Kuss Road. The areas we
21 mapped were somewhat considerable in terms of
22 geographic location, if you will.

23 Q Are you familiar with a term called "CAD" drawing?

24 A Yes, sir.

25 Q From a two-dimensional stand point, describe that

1 for the jury please?

2 A What Mr. Kratz is referring to as "CAD", is
3 "computer-aided drawing". In addition, we are doing
4 all of our diagraming on the computer, and we refer
5 to two-dimensional drawings. What that is is an
6 orthogonal view, meaning looking from the top
7 straight down. That is how most of the Avery
8 property was diagramed, so that when you look at the
9 computer drawing, it's essentially as if you were
10 way above that scene, looking straight down at it.

11 What that allows you to do is take specific
12 locations and "zoom in on it", if you will, to look
13 at those locations in detail.

14 Q Let's look at some of the two-dimensional
15 drawings. What are we looking at now?

16 MR. KRATZ: By the way, Judge, I will, as
17 we go through this, I will refer to the hard copy.
18 This will be the bottom of page 7, just so the
19 record is clear, as this witness testifies.

20 BY MR. KRATZ:

21 Q Go ahead, Mr. Austin.

22 A What we are looking at here is that two-dimensional
23 CAD drawing that was created, showing the Avery
24 property that we saw in the aerial photographs, and,
25 again, we have the ability to zoom in on specific

1 areas, if we wanted to see the details of a
2 different location in that entire over-all salvage
3 property.

4 Q Were you able, with your total station measuring,
5 are you able to tell the jury the perimeter, if
6 you will, in distances?

7 A Yes. Not directly with the total station, Mr.
8 Kratz. However, once we bring it into the computer
9 environment, we can take measurements to be able to
10 determine the extent of that. In this case here, I
11 want to say the "rough measurements", because the
12 property is not perfectly square. But north and
13 south, the measurement is approximately 1260 feet,
14 and east and west, the measurement is approximately
15 1300 feet. That comes out to be just under 40
16 acres.

17 Q All right. Let's talk about some of the
18 two-dimensional views that you created then. This
19 image, again, which would be on the bottom of page
20 8, is the entire Avery property; is that correct?

21 A Yes, sir. And I will put this image back in here
22 again to show you that we're going to zoom in, if
23 you will, on certain sections on those
24 two-dimensional diagrams. So, with this portion of
25 that drawing, we are now going to look at the

1 two-dimensional drawing, which shows the
2 northeastern corner of the property. In that
3 northeastern corner of the property are the business
4 buildings, if you will, for the Avery Salvage Yard.

5 What we are looking at here, sir, there are
6 blue-colored buildings down here, is the main
7 business or main shop. There are also some other
8 storage locations. This would be private residences
9 located here.

10 Q Were you also asked to do a two-dimensional view
11 of where Theresa Halbach's vehicle was located?

12 A Yes. The scene we were just at, was at the
13 northeastern corner. We are now going to go down,
14 where you see a yellow box, to the southeastern
15 corner of the property. The very first night of
16 forensic mapping, the RAV-4 was there. Therefore,
17 we did, forensically, map its location, and a
18 two-dimensional diagram was generated, and we can
19 zoom in on that area on the two-dimensional diagram,
20 to see that location.

21 Q Then on the top of page 11 now, the screen that
22 the jury is viewing, why don't you tell us what we
23 are looking at?

24 A What we are looking at here are details of that
25 southeastern corner of the property, and what we see

1 here is the RAV-4, that Mr. Kratz has asked me
2 about, positioned here. Now, we did, actually,
3 using the total station, locate pieces of wood or
4 other debris that was leaning up against or on top
5 of the vehicle. That is why you see, in this
6 two-dimensional drawing, there are some items on
7 that view of the car.

8 Q Were you asked to determine the location and the
9 distance between the RAV-4 and a fixed object
10 which is known as a "car crusher"?

11 A Yes. To assist with that, I will put the aerial
12 photo back on, to, again, show that. The RAV-4 was
13 located down there in this location, and the vehicle
14 crusher is located where you now see the yellow
15 square. If you look at the CAD drawing of this, we
16 can see where the vehicle crusher is related to the
17 position of the RAV-4. Now, if I take a direct, "as
18 the crow flies", measurement, if you will, from the
19 RAV-4 straight across, and there is a pond area
20 here, but straight across to the vehicle crusher is
21 about 380 feet away.

22 Q Again, for the jury, when you say about 380 feet
23 away, you can actually tell them within a half
24 inch how far away that is, can't you?

25 A If you were to ask me, Mr. Kratz, specific

1 locations, say this spot on the RAV-4 to this spot
2 on the crusher, we could get very accurate. I
3 rounded this off to the nearest foot, just because
4 I'm taking an approximate position on the RAV-4 to
5 an arbitrary position on the vehicle crusher.

6 Q Were you also asked to do two-dimensional views of
7 the area closer to Steven Avery's residence
8 itself?

9 A Yes, sir. Mr. Kratz, if we move from the vehicle
10 crusher here to the northwestern area of the salvage
11 yard, there are two private residences in that area,
12 one belonging to Mr. Avery, and we can, again, on
13 the two-dimensional drawings, zoom in, if you will,
14 on this location to view a scaled scenic
15 representation of that area.

16 Q On the top of page 14 then is our first
17 two-dimensional view. Why don't you show us what
18 you are looking at?

19 A Again, the northwestern portion of that property,
20 what we are seeing here is a private residence.
21 This would be Mr. Avery's residence. There is a
22 garage next to it, and a little further east is
23 another private residence and garage.

24 Q I think you may have testified, just in passing,
25 but so the jury understands, were you personally

1 involved in taking all of these measurements?

2 A Yes, sir.

3 Q How many measurements did you take?

4 A For the Avery salvage property, there are over 4100
5 measurements that were documented.

6 Q How long were you there? How many days?

7 A It would be November fifth through the twelfth,
8 about a week. This slide, Mr. Kratz, shows that
9 two-dimensional CAD drawing of the Avery salvage
10 yard, and I have highlighted or labeled, if you
11 will, these areas that we just saw details of, the
12 location of the RAV-4 in the southeastern corner,
13 the vehicle crusher, the business office we saw
14 first in the northeastern corner, and in the
15 northwest, this is Mr. Avery's residence.

16 Q Were you asked to determine some distances for
17 us?

18 A Yes, I was asked to determine some general
19 distances. Again, as we saw earlier, these are
20 point-to-point measurements. They do not account
21 for the fact that we could not really walk from the
22 business office to the RAV-4. There are some
23 obstructions in here. But if you took a direct
24 measurement, you would see it's about almost 1100
25 feet from the RAV-4 to the business office.

1 Q I will just move forward a couple of slides,
2 because the last slide, the slide on the bottom of
3 page 16, shows all of those measurements. Why
4 don't you go head, Mr. Austin, and tell us what
5 all of those measurements are?

6 A Yes, sir. The other measurements I added on here,
7 like the distance from the RAV-4 to Mr. Avery's
8 residence, again straight across the property, is
9 approximately 1480 feet. The distance back from Mr.
10 Avery's residence to the business office is about
11 1100 feet.

12 For the final measurement, what I did is
13 take the "driving distance", if you would, if we
14 were to go from Mr. Avery's residence, drive around,
15 and come around from the eastern portion of the
16 property, down to the RAV-4 location, would be about
17 2600 feet of distance.

18 I have to add, Mr. Kratz, this doesn't
19 account for changes in "grade". In other words, the
20 Avery property is not just a flat surface. There
21 are some elevations in there. That doesn't account
22 for traveling down a hill, or traveling up a hill.
23 So, the actual distance might be slightly greater
24 than 2600 feet.

25 Q How far is that in miles?

1 A Well, a mile is 5,280 feet, so this would be close
2 to a half mile.

3 Q Now, these two-dimensional views, the charts or
4 the diagrams, if you will, have been used in
5 trials. But are you able, with this software, are
6 you able, with your training and experience, to
7 convert these measurements, and to convert
8 these two-dimensional images into more
9 three-dimensional scenes or models?

10 A Yes. As I mentioned before, the total station
11 actually records measurements in 3-D space, that is
12 not just our flat X and Y axis, but also a Z axis,
13 up and down, so we can come up with the elevations,
14 or the height of specific objects, which was done in
15 this case using a different software package.

16 Q Let's talk about that software.

17 A The software package utilized is known as Forensic
18 3-D. It's a computer-aided drawing program. It's
19 powered by a CAD engine called Rhinoceros. It's
20 typically used in the marine industry, and the
21 jewelry-design industry.

22 What this does is allows a user to actually
23 draw in 3-D space. With the three-dimensional
24 drawings, it allows us to better understand, as I
25 wrote up here, the spacial and geometrical

1 relationships between objects. In other words, we
2 are not just looking straight down, and it's
3 something where we can examine another vantage point
4 or perspective.

5 Q So the jury understands, eventually where we are
6 going, I know I'm fast-forwarding, and we will get
7 there, but will this allow us to go through an
8 animation, to actually do a tour or walk-through
9 of various locations?

10 A Yes. As we work our way through enough of the
11 slides I have here, we will eventually get to using
12 the software to create an animation or walk-through,
13 if you will, of the physical scene.

14 Q All right. Let's talk about assigning texture
15 maps?

16 A With the software package, the user utilizes a
17 process called texture mapping to create a drawing
18 like the one you see here. What that means is, if I
19 create a three-dimensional model from this software,
20 I can apply a texture to that, to make it more
21 realistic looking, if you will.

22 In this case, for example, what was done is
23 a photograph was taken of the siding of Mr. Avery's
24 residence. Using that photograph of the siding, it
25 was pasted onto a three-dimensional model, so that

1 actual siding is what you see in this model that was
2 rendered.

3 Now, when we look at things such as grass or
4 wood, that was taken from a personal library that I
5 had, if you will. That way, I can make something
6 look similar to grass or look similar to wood. But
7 there are certain aspects of this property that the
8 texture mapping was done by using the actual
9 photographs that we had of the siding of the
10 residence, the siding of the garage, the floor in
11 the bathroom, and the floor in the bedroom.

12 Q All right. What areas were you asked to do
13 three-dimensional modeling in?

14 A Although the entire property, again, was
15 forensically mapped, the three-dimensional modeling
16 was done in the northwestern area, as that area is
17 the area of the two residences that we have
18 discussed earlier.

19 Q The first scene model is from the bottom of page
20 19. Why don't you walk us through this
21 briefly?

22 A What we are looking at here is an overview of the
23 entire area that was done in three dimensions. For
24 what we are seeing here, north would be to the
25 bottom of the image. In other words, we are looking

1 to the south, and on the right-hand side we see Mr.
2 Avery's residence. We see the garage next to that,
3 and we have to talk about these other residences
4 too, private residences here, and then the garage
5 and the vehicles and the other items that were in
6 place when the forensic mapping was completed.

7 Q You talked about Mr. Avery's residence, and I
8 think you also mentioned this residence. Do you
9 know what that is?

10 A This residence that we are seeing on the left side
11 of the screen, which would be to the east, is the
12 residence of, I believe, Barb Janda, and Mr. Dassey.
13 Here we have that previous slide that we showed,
14 with a box around that, and next we have essentially
15 zoomed in, if you will, or moved closer, to get a
16 close-up view of that Janda-Dassey residence.

17 Q Is this view the front of that residence?

18 A Yes. This would be the front of that residence.
19 Again, we are at "north", looking south. What is
20 nice about using the forensic or three-dimensional
21 models here, we can actually take that and go around
22 to view the back side. We are not limited just to
23 certain views of this location.

24 Q Let me ask you, Trooper Austin, the advantage,
25 recognizing it's not a photograph, but is the

1 advantage of incident scene mapping that it does
2 allow perspective, or views, that perhaps the
3 naked eye can't see?

4 A Yes. The first part of the question is very
5 important. These are not photographs. These are
6 again, scene models that were created and compiled
7 based on the measurements taken at the scene. But
8 where they are advantageous, we can change the views
9 and change the perspective.

10 This one, for example, I don't know how high
11 up the camera is in the air, probably somewhere
12 around 50 to 75 feet. But, obviously, it's not a
13 view that I could take or obtain from being out
14 there at the scene.

15 Q What are we looking at now?

16 A As I stated before, with these models, we can
17 actually change our location to gain a different
18 perspective. In this case, we moved behind the
19 Janda-Dassey residence just to get a good look at
20 the back side of that house, to see the geometric
21 relationships of objects there.

22 Q We are talking about the Janda property. Were you
23 also asked to do a scene model for the Avery
24 property, and what is called the curtilage, the
25 area around it, as well?

1 A Yes. Just as we did with the Janda property, we can
2 do the same thing with the Mr. Avery's residence,
3 over on the west side. What you are seeing here is
4 another view of the larger model, where we are
5 zooming in on Mr. Avery's residence. Just as we did
6 previously, we can move around to the back side, to
7 view the spacial relationships there. So, again,
8 the advantage is that we can take any particular
9 view or perspective we want, to look at it, and see
10 that, using the three-dimensional models.

11 Q Now, these are exterior views, that is, on the
12 outside of the property. Were you asked to, in
13 effect, do the same process inside of the
14 buildings?

15 A Yes, that is correct. Exterior models were created
16 of Mr. Avery's residence and the garage next to it.
17 It's the same process that I did for the exteriors.
18 Most of the measurements that we talked about were
19 taken inside the residence. What I can do with this
20 software is actually go in closer on that residence,
21 fade in or out, or remove the roof, so that we can
22 see all of the various rooms inside the residence.
23 Again, it's a view that we could not have through
24 normal photographs of the buildings.

25 Q At the bottom of page 24, the first interior scene

1 model, why don't you tell us what we are looking
2 at?

3 A This particular model shows Mr. Avery's residence,
4 and, again, what we have done here, the roof was
5 hidden, which allows us to gain a perspective of how
6 the house is laid out, where these various rooms are
7 in relationship to each other, and where some of the
8 main pieces of furniture that were measured are
9 located.

10 Q Are you able, and can you, in fact, take specific
11 rooms and give us better views of a particular
12 room?

13 A Yes. Actually all of the rooms to the one side I
14 had originally created images showing the interiors
15 of the rooms. For example, in this case, we can
16 look at the back bedroom, which you can see outlined
17 here in yellow. We can zoom in closer from another
18 angle to gain a perspective of how that particular
19 room is laid out.

20 Q What I'm showing you is the bottom of page 25.
21 Is that the layout, or more details of the images
22 of Mr. Avery's master bedroom, or what you called
23 the back bedroom?

24 A Yes. However, I wouldn't say "more details" because
25 it's the same model that we saw before. All we have

1 done is changed our perspective, moved a little
2 closer, to see the objects that were placed in the
3 room. It's not necessarily any more detailed. It's
4 just that we have moved to a new perspective. We
5 can now see the spacial relationships of the objects
6 in that location.

7 Q You said you were asked to do the same interior
8 modeling with the garage? Can you tell us about
9 that?

10 A Yes, sir. The exact same process was utilized with
11 the garage. However, these measurements here were
12 also documented using that total station, and when
13 this was mapped, we picked out the main or the
14 larger items that were in the garage to place them
15 into the model, and what you are seeing here is an
16 overview of the garage with the roof removed, so we
17 can see what is in that garage.

18 Q On March first and second of 2006, additional
19 information was brought to your attention, and the
20 prosecution then, that is, myself, Mr. Gahn, and
21 Mr. Fallon, asked you to include or create some
22 additional images; is that correct?

23 A Yes, that is correct, Mr. Kratz. Additional
24 measurements were recorded by other law enforcement
25 officers in March of 2006, and I was asked to

1 include two of those evidentiary items in the scale
2 model, and those items were denoted by what is
3 described as being "evidence markers".

4 So, to help show those locations, using
5 their measurements, I placed the evidence markers in
6 the model, so that we can see where the items were
7 positioned.

8 Q Now, so that the jury understands the later use of
9 these in the coming weeks, this image we are
10 looking at, from the bottom of page 27, although
11 not a photograph, does provide, again, a
12 perspective that the naked eye cannot see; is that
13 correct?

14 A That's correct, Mr. Kratz, because, if you recall, a
15 few slides ago, as you showed what was in the
16 garage, there was a Suzuki Samurai in this position,
17 and in the middle there is a snowmobile in this
18 particular view. That Suzuki Samurai and the
19 snowmobile were removed. That was done by me with
20 the intention of being better able to view the
21 locations of these items of evidentiary value.

22 In addition, we see one marked as 23A.
23 Previous to this slide, there was an air compressor
24 over that particular location. To help to be able
25 to see that location better, I hid or "turned off",

1 if you will, that air compressor, so you don't see
2 it in this particular view.

3 Q Now, you have made a point before to distinguish
4 between these models and photography. Your
5 next slide attempts to describe that distinction a
6 little bit further. Why don't you go ahead and do
7 that?

8 A Yes. Again, as in the previous question from Mr.
9 Kratz, he asked me if these were photographs. They
10 are not photographs. They should not be taken as
11 being photographs. What they are, are
12 three-dimensional models.

13 All that a photograph is going to show you
14 is the scene as it was observed when the picture was
15 taken. In the models, what you are seeing is a
16 scaled geometric perspective, where we can remove
17 the roof. We can hide the air compressor, or gain
18 different views to better see particular items.

19 Q All right. The next area I would like you to
20 discuss is an area behind the garage of Mr.
21 Avery's. Were you asked to provide some modeling
22 of that?

23 A Yes. As we did with the two houses, we can take a
24 particular area. In this case, you see, again, a
25 yellow box showing an area behind the garage. We

1 can, essentially, zoom in, or change our perspective
2 to see what some of the items are behind that
3 garage.

4 Q Again, this is an image, which is at the bottom of
5 page 29. Do those include observations not only
6 that you made, but measurements that you were
7 involved in taking sometime between the fifth and
8 the twelfth of November?

9 A Yes. This particular slide shows some items behind
10 Mr. Avery's garage, that were based on measurements
11 that were recorded by me or other observations.

12 Q Now, you said we were able to kind of shift
13 things around to get different perspectives, and
14 the top of page 30 and 31 are examples of that; is
15 that correct?

16 A Yes. What we have done is essentially stayed in the
17 same area, but we have shifted our "camera", if you
18 will, or our position, so you can gain another
19 perspective, or another view of the items located
20 behind the garage.

21 Q Were you asked, Mr. Austin, to provide the jury
22 with some perspective between the areas behind Mr.
23 Avery's garage and some of the back yard areas of
24 the Janda property?

25 A Yes, I actually moved over the location from that

1 area about behind the garage to this area behind the
2 Janda-Dassey residence. Again, it was the same
3 thing we have seen before. We can shift our
4 perspective, and our view, to show this location
5 behind that particular residence. This view here is
6 one that is an elevated view, looking to the -- This
7 would be the northwest, and we see not just the area
8 behind the Janda-Dassey property, but also Mr.
9 Avery's residence, further into the image.

10 Q Once again, were you asked to create the same
11 separate angle, if you will, or separate
12 perspective about what would be the north of Mr.
13 Avery's property?

14 A Yes. If I move our focal point, if you will, to
15 this particular location, that is being shown on
16 this screen, we can gain yet another perspective
17 showing the northern areas, if you will, the areas
18 in front of Mr. Avery's residence.

19 Q Can you show us -- This is the top of page 33.
20 What are we looking at here?

21 A What you are looking at is the view looking from the
22 north to the southwest, and we see Mr. Avery's
23 residence here, and the garage that we looked at
24 previously. Up, from the main portion of the image,
25 we are seeing a Dodge Caravan, and there was also a

1 burn barrel positioned over here.

2 Q Finally, Trooper Austin, were you asked to provide
3 some additional measurements in this quadrant, or
4 this area of the property?

5 A Yes. I was asked to provide some measurements to
6 gain an understanding of the distances here. What
7 you are seeing in this view is that
8 three-dimensional model, but we are looking straight
9 down on it. Again, the original view is very
10 similar to the two-dimensional drawings we saw
11 previously.

12 But this helps us to better show the
13 measurements, and the measurements that we have in
14 here also is the distance from the main entrance of
15 Mr. Avery's residence to the burn barrel. That is
16 approximately 106 feet, and the measurements taken
17 from the burn area behind the garage to some burn
18 barrels behind the Janda-Dassey residence were a
19 distance of about 236 feet.

20 Q It's your understanding, or at least your
21 directions came from the prosecution, to explain
22 or to indicate those measurements for the jury on
23 this diagram; is that correct?

24 A Yes, that's correct.

25 Q The last area of inquiry, Mr. Austin, has to do

1 with skeletal models. Although they are clearly
2 not within your area of expertise, and you will
3 not be testifying about these models, would you
4 tell the jury at least what you were asked to
5 do and how this may come into play later in this
6 trial?

7 A I was asked to assist the forensic anthropologist,
8 Dr. Leslie Eisenberg, in the creation of models of a
9 human skeleton, to help identify the location of
10 various bones. Now, to accomplish this, I met with
11 Dr. Eisenberg, and worked with her, directly under
12 her supervision, to create the models as to these
13 bone locations.

14 The initial skeletal model I obtained from
15 the FBI in Quantico, Virginia. I took that model's
16 texture, and as I said before, with the property, I
17 made it look more of a bony texture, if you will,
18 and under Dr. Eisenberg's supervision, again, I
19 created various models showing that human skeleton,
20 and I saw some of the bones on it.

21 (Plaintiff's Exhibits 91 through 116 marked
22 for identification.)

23 Q Trooper Austin, as I have asked you before, and
24 with the witnesses that will come after you, that
25 are going to be using your animation, or, excuse

1 me, your skeletal and scene models, have you been
2 asked to create 4 by 6 prints of the models?

3 A Yes, I was asked to create that for most of the
4 images that we saw on the power point, to create 4
5 by 6 prints of these renditions; yes.

6 Q The first image that I have for you is, I think,
7 Exhibit 91; is that correct?

8 A Yes, sir.

9 Q And it goes through image, or, excuse me, Exhibit
10 116?

11 A Yes, sir.

12 Q Exhibit 91, if you can just take a moment,
13 through Exhibit 116, are those the scene model
14 images, both being included in your power point,
15 and that you created as part of this total station
16 project?

17 A Yes, sir, with the exception of, there are several
18 aerial photographs that were utilized in my initial
19 report that are shown here. Those are not scene
20 models. They are photographs taken from aircraft.

21 Q Those are actually identical to some that were
22 already received from other law enforcement? Is
23 that your understanding?

24 A Yes, sir.

25 MR. KRATZ: I would move admission of

1 Exhibits 91 through 116.

2 MR. STRANG: No objection.

3 THE COURT: Those exhibits are admitted.

4 BY MR. KRATZ:

5 Q Then, Trooper Austin, we are going to move on to
6 your animation. That is the culmination of all of
7 these scene models. Tell the jury please how this
8 animation was created?

9 A The intention here was to create an overview or a
10 walk-through of the scene from the models that we
11 saw previously. Now, to create motion, what we have
12 is a series of these images. In fact, it shows 30
13 of them per second to show or to make it appear as
14 if we're moving through that scene. To create the
15 animation, that I believe we're about to see, over
16 5,250 pictures were brought together at 30 per
17 second to move us through the location in question.
18 I saved these and made a DVD, which was turned over
19 to Mr. Kratz.

20 (Plaintiff's Exhibit 117 marked for
21 identification.)

22 Q What we are going to show then, Trooper Austin,
23 is Exhibit Number 117, which I believe is the
24 animation that you are referring to. I would ask
25 that during the presentation of this animation

1 that you not interrupt, that you remain silent,
2 and I will ask you just a few follow-up questions
3 after that?

4 A I understand.

5 MR. KRATZ: If I may, Judge, the only thing
6 left in my direct examination was the playing of the
7 animation.

8 (The animation CD was attempted to be
9 played, but the equipment did not work properly, and
10 the CD was not able to be shown.)

11 MR. KRATZ: It appears that it won't play on
12 this laptop. With my apologies to Mr. Strang, if he
13 could begin his cross examination. Then if I could
14 play it at the end, I would appreciate that.
15 Otherwise, I have no further questions of this
16 witness.

17 THE COURT: Mr. Strang, are you in agreement
18 with that procedure?

19 MR. BUTING: Why are we playing the
20 animation at all?

21 THE COURT: Mr. Kratz, is that something
22 that the State intends to use later in the trial?
23 So, you need some foundation, to get it accepted?

24 MR. KRATZ: This is actually, Judge, to
25 assist the jury in understanding the relationship of

1 these objects. I did intend to play it now. If you
2 want to take just a couple of minutes for a break,
3 we can certainly have that set up, and I can play it
4 now.

5 MR. STRANG: I don't mind starting my cross.
6 I think we will see the animation later. We have
7 had the foundation for it. I don't know that we
8 need to play it now. I can begin my cross.

9 THE COURT: Very well.

10 CROSS EXAMINATION BY MR. STRANG:

11 Q Good afternoon.

12 A Good afternoon, sir.

13 Q I will turn my "mike" on. How is that? All
14 right. So, on November 5 you get to the Avery
15 Salvage Yard; right?

16 A Yes, sir.

17 Q And one of the first orders of business is to map
18 the area around the Toyota RAV-4?

19 A Yes. The first place we mapped was around the
20 RAV-4.

21 Q All right. That involved taking the little prism,
22 and going up, and putting that on or over certain
23 objects around the Toyota?

24 A Yes, sir. Yes, that's correct.

25 Q Did it also involve putting the little prism,

1 sometimes sticking it in a certain area on the
2 Toyota, or over it directly?

3 A Over it directly. Not directly on that particular
4 item.

5 Q Okay. And then somebody else stood somewhere else
6 with the "total station", as you call it, and it
7 shined the little laser and bounced it back to the
8 prism; is that correct?

9 A Yes.

10 Q And so this was a two-person process?

11 A Yes, it is a two-man operation.

12 Q And you took a number of measurements around the
13 Toyota?

14 A Yes.

15 Q And objects around it?

16 A Yes.

17 Q Then a number of measurements of the Toyota
18 itself?

19 A The Toyota itself, we would have had four
20 measurements.

21 Q Just the four corners?

22 A No, when we map the location of vehicles, we utilize
23 the position of the wheels. We can get data showing
24 us later the exact size of a particular vehicle, for
25 axle 1 and axle 2.

1 Q Okay. Then what you do is you later give the
2 computer some information about the model of the
3 vehicle?

4 A No, I will look up that elsewhere, to get the
5 dimensions. I will use the dimensions to draw the
6 vehicle. I don't tell the computer, "It's this
7 particular vehicle", and it draws it. I have to do
8 a little research to get some information about it.

9 Q Then the computer fills in a "Toyota", in effect?

10 A Either I draw that, or I use an existing Toyota, and
11 specify which items to fill in. There is a lot more
12 manual work than there is that the computer does by
13 itself.

14 Q All right. The point is, what you are doing here
15 is, you have already said this, but let's explore
16 it a little bit. There is no camera involved
17 in any of this; correct?

18 A No.

19 Q Not an old-fashioned camera, or a digital camera?

20 A No camera.

21 Q There are a couple of prisms and a laser?

22 A Yes.

23 Q And you have a computer that calculates angles and
24 distances?

25 A The total station does that.

1 Q Then at your desk top, you probably have a laptop
2 computer, something sort of like this; right?

3 A Yes, I use a computer.

4 Q And you can open various files, and the computer
5 allows you to add a color?

6 A Yes.

7 Q And a texture?

8 A Yes.

9 Q And to pick standard sorts of objects that might
10 be included?

11 A Yes.

12 Q Like a tree?

13 A Yes.

14 Q Your computer even has a little file you can open
15 up and pick the type of tree you want?

16 A That's correct.

17 Q Whether it has leaves, or does not have leaves?

18 A I can pick the global season, yes.

19 Q You can turn the sun on?

20 A That's correct, I can.

21 Q You can turn the sun off?

22 A Yes.

23 Q If you want to put the sun in the northern sky, on
24 November 5, or the northern hemisphere, you can do
25 that?

1 A Yes, I could.

2 Q You could put it in the eastern sky, if that is
3 where you felt like putting it?

4 A Yes.

5 Q You could have the sun rise in the west, if that
6 was your choice on a given day; is that correct?

7 A If it was my intention to change science, yes, I
8 could move the sun.

9 Q Okay. So, what we have got here is a model;
10 right?

11 A Yes, a three-dimensional model, yes.

12 Q Actually, it's a two-dimensional model; right, that
13 looks three-dimensional, by the use of
14 perspective? Everything I saw was projected on
15 this surface? Am I right?

16 A Well, the screen, yes, is two-dimensional.

17 Q Right. The model itself looks three-dimensional,
18 by the use of perspective?

19 A Well, it's not a physical model, like the cups here.
20 I can't bring it in to you. It's a computer model,
21 but I'm drawing it in 3-D space, and assigning it to
22 an X and Y axis, but I don't have a physical axis to
23 give you.

24 Q In that sense, it's not three-dimensional? It's
25 two-dimensional, but by using the vanishing point

1 and the principles of perspective, we can give it
2 the illusion of three-dimensional space on a flat
3 screen?

4 A It's difficult for me to follow you. We do our work
5 in 3-D, but you could say the same is true of
6 photography, that photography is two-dimensional.

7 Q Sure.

8 A If that is what you are saying, I will agree with
9 you.

10 Q When you say you do your work in three-dimensions,
11 you are not actually building a model, in any
12 event? I mean that you didn't use something like
13 this box for Barb Janda's trailer, I assume?

14 A No, it's not a physical stick-built model, if you
15 will, or plastic model. It's a virtual computer
16 environment.

17 Q Okay. Got it. Now, we are in the virtual
18 environment. Let's go back to what you and I both
19 agree is two-dimensional space. Okay? We will go
20 to what you call your orthogonal views. Got me?

21 A Sure. Orthogonal.

22 Q "Looking straight down", in other words?

23 A Yes.

24 Q Orthogonal is a fancy, \$64 word, for looking
25 straight down at something?

1 been of evidentiary value in surrounding quarries.
2 Those were not done by me, but I have knowledge of
3 that.

4 Q That is -- These maps were -- Mapping coordinates
5 were provided to you; correct?

6 A I do have GPS coordinates for other items, yes, I
7 do.

8 Q All right. Let's back up. Probably half of
9 our jury knows what "GPS" is. The other half
10 doesn't. That is "Global Positioning Satellite"?

11 A That's correct. The other instrument uses a total
12 station also, but that also utilizes a GPS, global
13 positioning satellite system. Those were specific,
14 I believe, 11 or 12 points out in the quarries
15 identified by the search teams.

16 Q And someone else did that mapping, I understand,
17 using a different technology?

18 A Yes, sir. That is correct.

19 Q Using actually satellites that have
20 geo-synchronized orbits; is that correct?

21 A Yes.

22 Q To use a fancy term, that allows anybody who gets
23 access to the system to know where you are, by
24 degrees of latitude and longitude, down to a
25 matter of seconds anywhere on the globe?

1 A Yes, that's correct, sir.

2 Q All right. And the purpose of taking these GPS
3 measurements was to provide them to you for your
4 forensic mapping project?

5 A Yes. Should they become necessary later for
6 mapping, we had it available to us, if such was
7 needed.

8 Q I will show you figure 50 from your report. Okay.
9 I will put that up here. But first I will just
10 ask you: That is your figure 50?

11 A Yes.

12 Q That is a page of your report, labeled figure 50?
13 You have seen it before?

14 A Yes.

15 Q Indeed, you made it; is that correct?

16 A Yes, sir, I did.

17 Q All right. Now, that is up on the little gizmo
18 called an "Elmo". Tell us what you see. Tell us
19 what you have in your figure 50?

20 A This is a map, I believe from Microsoft Streets, or
21 maybe from Delorme Atlas. I would have to see what
22 program I used. It shows the roads in the vicinity
23 of the Avery property. What I have done here, I
24 indicated with a red box the approximate location of
25 the Avery Salvage Yard, and the approximate location

1 of Steven Avery's residence. There is also a
2 reference to GPS coordinates, which I believe is for
3 the surrounding quarry.

4 Q Okay. And you put in a little red flag?

5 A Yes. What I did, in this mapping program, I gave
6 it the GPS coordinates, and it gave me a little red
7 flag, that is seen on the screen in that particular
8 location. Then, using Microsoft Word, I generated
9 my report. I labeled that flag as being those
10 particular GPS coordinates.

11 Q Okay. You gave the jury a little lesson before
12 about degrees, minutes, and seconds. If I read
13 the coordinates that you have given us here, or
14 not given by you, but which were included here, we
15 have longitudinal 44 degrees north; right?

16 A Yes.

17 Q In the northern hemisphere; right?

18 A Yes.

19 Q And 14 minutes right?

20 A Yes.

21 Q And 51 seconds?

22 A Yes, sir.

23 Q And a latitude of 87 degrees west?

24 A Yes, sir.

25 Q West of the Greenwich Mean line?

1 A That is my understanding, sir.

2 Q 41 minutes and 51 seconds?

3 A Yes, sir.

4 Q Okay. And you got only one of these areas, but
5 did I understand you, that you actually were
6 provided 11 or 12 specific GPS sites, GPS
7 coordinates outside of the Avery Salvage Yard
8 property?

9 A This one that you are showing is not one of the ones
10 that was provided to me by the GPS mapping team.
11 This is one that was provided to me when I was
12 working with Dr. Eisenberg. So I don't want any
13 confusion, or to imply or suggest to you this is
14 from the team that used the GPS total station.

15 Q Okay. Thank you. I didn't understand that. I
16 don't want any confusion either. So this is one
17 you got from or with Dr. Eisenberg?

18 A Yes.

19 Q But there were 11 or 12 other GPS coordinates?

20 A From that other team, yes. When the search teams
21 located things they thought could be "something",
22 those were indicated to me.

23 Q Something of interest?

24 A Yes.

25 Q Okay. Do you have any way of knowing, as you sit

1 here today, what the distance is from the red flag
2 site, or the site represented by the red flag
3 here, to either the salvage yard or Mr. Avery's
4 residence?

5 A I do not. But if you would like me to, I can
6 certainly figure it out for you.

7 Q I will bet you can. (Laughing) If anything, I bet
8 you can. Is that a lot of trouble?

9 A No. If you want to bring me back later, I can
10 certainly give you that number.

11 Q I don't know if I will or not. But do you have a
12 sense at all, as of now, just ball-parking?

13 A No, I don't. I wouldn't feel comfortable.

14 Q Okay. Fine. North is "up" in this figure?

15 A Yes, sir.

16 Q Okay. So, the flag looks like it is southwest,
17 essentially, of the Avery Salvage property?

18 A Yes.

19 Q Now, let's go back to what we are calling the
20 three-dimensional or perspective images that give
21 us the illusion of depth and height and width.
22 Okay. The virtual environment of three dimensions
23 on those, you couldn't possibly map with your
24 total station and its prism stick, every little
25 item that a photograph might pick up; correct?

1 A No, sir.

2 Q It's just a matter -- I guess you could,
3 possibly, but there it becomes an issue of time
4 and manpower resources; right?

5 A Yes, I agree.

6 Q And how did the decision get made on what things
7 to map and what not to map?

8 A I can give you a particular location, in reference
9 to the garage, for example, I really didn't have
10 guidance. With the garage, I picked, or at least I
11 wrote in my report, a page of the larger items that
12 were there.

13 In terms of the interior of the house, I was
14 told "main pieces of furniture", bed, dresser, desk,
15 that type of thing.

16 Q And once you have mapped them, things can be
17 taken out, so to speak, just "pheeew" (sound
18 effect noise) out of the computer model?

19 A Yes. They can be hidden, or as I said, "turned
20 off", so we no longer see it in that model.

21 Q You gave one example of the air compressor in the
22 garage. Do you remember that?

23 A Yes. The thing is, Mr. Strang, there are layers
24 over objects, separate layers. We can, essentially,
25 turn off one layer, so we don't see it in our model.

1 That was done in the garage with the air compressor,
2 the Suzuki Samurai, and the snowmobile.

3 Q Okay. "Now it's here. Now it's not." That is a
4 matter of a few strokes or clicks of a mouse --

5 A Yes.

6 Q -- for you? I think I have it. Who gives you
7 directions as to what actual items that were
8 present should be included in the model and what
9 are not?

10 A Guidance was given from the lead team of
11 investigators for the prosecution.

12 Q They wanted the compressor out, so you took it
13 out?

14 A Yes.

15 Q They wanted the Samurai in, so you left the
16 Samurai in?

17 A Yes.

18 Q Okay. Now, I will show you a photograph. I don't
19 think that we have seen this before. I will ask
20 if you recognize it?

21 A It's very possible that I may have taken this
22 photograph. This appears to be the southeastern
23 area of the salvage yard, the location where the
24 RAV-4 was located. It appears that is either in the
25 process of covering or uncovering it, with the large

1 blue tarp.

2 Q Very good. Whether you took it or not, you
3 recognize the photograph?

4 A Yes.

5 Q There is a good old-fashioned photograph, this
6 photo?

7 A Yes.

8 MR. STRANG: I will mark this as an exhibit.

9 (Exhibit 118 marked for identification)

10 BY MR. STRANG:

11 Q It's now Exhibit 118. I would like to let the
12 jury see it. Okay. That is the tarp over the
13 Toyota RAV-4?

14 A Yes, that is my recollection that night, that the
15 vehicle was covered.

16 Q So, what we are seeing under the blue tarp is the
17 car right where it was when you arrived on
18 November 5?

19 A Yes.

20 Q And are we looking, generally, "toward the car
21 crusher", or "from the car crusher"?

22 A In this position, sir, we are looking to the west.
23 The car crusher would be off to our right and
24 perhaps slightly behind us to the northeast.

25 Q Okay. So the car crusher is back off this way?

1 If we are standing here, snapping the picture,
2 back off behind us?

3 A No. It would be more to our right. If we are
4 looking straight at that photograph, as we're
5 looking straight to the west, it's not far to the
6 right, just slightly behind. That is the direction
7 the crusher would be.

8 Q All right. What we would see is, there is a whole
9 lot of trees, it looks like, and underbrush, and
10 that kind of thing, that extends along this line
11 of cars?

12 A Yes. There are some smaller, if you will, "trees",
13 kind of along the other side of the pond. The pond
14 would be off to our right also.

15 Q Okay. We are up on a ridge, if you will, above
16 the pond?

17 A Yes. The pond is pretty -- set down pretty low.
18 So we're higher in elevation than the pond.

19 Q There is actually sort of a berm here, behind to
20 the left of the Toyota and that line of cars; is
21 that correct?

22 A Yes. You can actually see that in the photograph
23 there. I'm just pointing to the berm. Over on the
24 opposite side of this begins some of the quarry type
25 property.

1 Q To the south of the Avery property?

2 A Yes. South would be to our left in this particular
3 image.

4 Q All right. So, when, for example, you mapped the
5 area around the Toyota and the car crusher in the
6 southeastern corner of the property, and created
7 models of it, you simply omitted most or all
8 of the trees that we see in the photographs of the
9 area?

10 A I, actually, perhaps -- I don't want to be a
11 stickler on verbiage. I didn't create models. We
12 have the two-dimensional orthogonal diagrams, but
13 "models" usually refers to the three-dimensional
14 model, for which we use the prism of the total
15 station to essentially trace the exterior of the
16 tree line. So each individual tree was not
17 collected. But we do see on the two-dimensional
18 view just what that width would be, as far as we can
19 go to the trees.

20 Q Okay. I think you essentially outlined the area
21 where there would be trees?

22 A Correct. Just to better explain that, if I may. If
23 the walls on the sides of the courtroom were the
24 trees, I would probably take a point in the back and
25 a point in the front just to show that is the tree

1 line, as opposed to every individual tree.

2 Q And where you did that, let's see. We are looking
3 at one of your orthogonal views of the rear area
4 we have been discussing?

5 A Yes.

6 Q All right. What you have shown us is some
7 representation of the trees to the south?

8 A Yes. That is the best way to describe the squiggly
9 line that you just referred to. That would have
10 been taken along that south tree line that you are
11 referring to now. If you look just north of that,
12 there is another squiggly line that is tougher to
13 see.

14 Q This image right here that I'm referring to?

15 A Right. That would be the edge of the other trees
16 there.

17 Q It's very faint, but you are saying you provided
18 some line indicating there were trees along there?

19 A Yes. It might be better if I had the color version
20 of this. The ground, if you will, I believe is two
21 separate colors here, which helps us to observe that
22 difference. But that is how the mapping was done
23 also on the eastern side here, along the tree line.
24 That is another tall berm there.

25 Q But if one were standing on the crusher in the

1 spot where the arrow comes down, you would get the
2 impression, from this orthogonal diagram, you may
3 be able to see straight to at least the car that
4 seems to intersect the line of sight in front of
5 the Toyota. This would look like a line of sight
6 on your drawing; correct?

7 A That was not my intention at all, Mr. Strang. I
8 just wanted to show the distance from the RAV-4 to
9 the crusher.

10 Q Absolutely. I understand that was not your
11 intention. I understand. In fact, my point
12 is: This would not represent the line of sight;
13 correct?

14 A No. I don't -- I would have to go back and look at
15 the other photographs to see how thick the tree line
16 is. I don't want to infer that I could see the
17 RAV-4 from the crusher, which is 380 feet. There
18 are smaller trees that you would have to look
19 through. I just don't know.

20 Q So, there is no way to know, because, really,
21 other than showing a squiggly line, you left out
22 the trees and underbrush and anything else in the
23 way?

24 A That's correct, I did.

25 Q Okay. Was this the only car, if you will, on the

1 north side of that line, or near the north tree
2 line?

3 A Based on looking at the diagram, it appears that it
4 was. I would like to go back and review the
5 photographs, but I don't recall leaving out any
6 vehicles on here that were, specifically, mapped.
7 Just to point out these areas over here, these are
8 all of the vehicles over here. Obviously, we didn't
9 map any of those. We just traced around that row of
10 cars.

11 But down in this area, I believe I mapped
12 out the location of all of the vehicles here, except
13 where you see where we have this pattern again.

14 Q Blank spots, so to speak?

15 A Yeah. They appear to be blank here.

16 Q Again, I'm not a witness. I don't have a perfect
17 memory. I am not just saying I think you left
18 any cars out. I don't think you did either. But
19 I just wondered if you had a recollection, if that
20 was, in fact the only car on the north side of
21 that little lane?

22 A I can't -- Just looking at the drawing, I would say
23 it was the only car right there.

24 Q Okay.

25 A I would feel more comfortable referring to some of

the photographs, but I believe that is it.

Q Mr. Buting just indicated there appears to be a second car, kind of hidden by the label of the RAV-4?

A Yes, there is.

Q Okay. All right. If we were going to get a real line of sight, we would really want to use photographs, not something that you and your computer generated?

A If we wanted to look at this and say: Could you see the RAV-4 from the crusher? No, this, right now, in this form, is probably not the best medium to use. If you wanted to see: What is the distance? That is why I had it here.

Q As the crow flies?

A Right.

Q I will not pester Mr. Kratz to go back to the power point presentation, but I will just use my black and white copy of the sheet that you folks provided me.

A What page are you on, sir?

Q 27, at the bottom.

THE COURT: Mr. Strang, just for break purposes, do you know how much time you have left?

MR. STRANG: Five minutes, something like

that.

THE COURT: Mr. Kratz, what about the State?

MR. KRATZ: My presentation is about a minute and a half, Judge.

THE COURT: All right. Members of the jury, after we are done with this portion of the proceedings today, we are going to let you go early. That why I kept it going. But if you want a break now, you can have a break now.

THE JURY: No.

THE COURT: I see heads nodding "No", so we will plunge ahead. All right. Mr. Strang?

BY MR. STRANG:

Q All right. Our jury has already seen a slide of this, that garage, sort of; right?

A Yes. This is my model of the garage.

Q And what you have done for us is help us make believe that the garage had no roof?

A I don't like the words "make believe", but, yes. The roof was removed so we could see inside the garage.

Q Then we can also see it as if we were hovering 20 or 30 feet up, something like that, whatever this is?

A Yes.

1 Q Taller than any of us?

2 A Yes.

3 Q Okay. And this is a pretty clean looking
4 garage, the model; is that correct?

5 A Yes.

6 Q You have got a view of a John Deere tractor?

7 A Yes, it is.

8 Q And it's a vivid, electric green in color; is that
9 correct?

10 A Yes.

11 Q But if people look at the garage, the John Deere
12 tractor is there? If we look at an actual picture
13 of the garage, we see the John Deere tractor?

14 A Yes.

15 Q With some other things; right?

16 A Yes.

17 Q A whole lot of clutter?

18 A Yes. A snowmobile is in there. There is a table
19 with the items in the back. I know we are seeing a
20 lot more clutter in the actual scene or the
21 photograph than we have seen in the model, but we
22 have two different purposes for this too.

23 Q Okay. Is this thing down here the seat, and then
24 the wind screen of one of the snowmobiles?

25 A Yes.

1 Q Does the photograph show the garage as you
2 actually saw it the week of November 5 to November
3 12?

4 A Yes, it does.

5 Q And how about this? Does that take us to the
6 other side of the garage, the east side of the
7 garage?

8 A Yes, that shows the east wall of the garage. We see
9 a snowmobile, some tables. There is a freezer back
10 over here too. That is how I recall the garage.

11 Q There is a snowmobile under there somewhere?

12 A Yeah. Do you see this green stripe here? That is
13 the wind screen that you saw on the other one.

14 Q Okay. What is the gray thing on the right side of
15 the photo?

16 A Are you referring to this here, sir?

17 Q Yes?

18 A That is the Suzuki Samurai.

19 Q All right. That is the garage as it actually
20 looked to you November 5 through November 12?

21 A Yes, that is how I recall the garage.

22 Q Let's look at the south wall of the garage, or
23 part of the south wall. That is how it looked to
24 you, November 5 through November 12?

25 A Yes, it does. Again, I see a tool chest, the air

1 compressor we talked about before. There is a
2 weeder, with a waste basket. That definitely fits,
3 my recollection of the garage.

4 Q So, if you use the laser pointer, the air
5 compressor is gone?

6 A It's this green item down here near the center of
7 the photograph.

8 Q That thing that you took out of the photo is the
9 little evidence tent that said "23-A"?

10 A Yes, I did.

11 Q Now, the photograph, actually, you can see pretty
12 well under the compressor in the photograph, can't
13 you?

14 A Yes.

15 Q That is one of the few places in the garage that
16 appears not to be cluttered?

17 A With the exception we cannot see behind the wheel.
18 I can see some flooring under it from this view.

19 MR. STRANG: All right. I'm going to mark
20 the photographs that you have just shown us and then
21 I'm done.

22 (Exhibits 119 through 121 marked for
23 identification.)

24 BY MR. STRANG:

25 Q Okay. Real quick, just so the record is clear,

1 I'm doing them in the same order I just showed
2 them to you. Exhibit 119 has the John Deere
3 tractor in it; is that correct?

4 A Yes, it does.

5 Q Exhibit 120 is the side of the garage with the
6 snowmobile that you pointed out and part of the
7 gray Samurai?

8 A Yes.

9 Q And Exhibit 121 is the south part, the south wall
10 of the garage, with the air compressor?

11 A Yes, sir.

12 MR. STRANG: Okay. I move the exhibits that
13 have been offered with Mr. Austin, Your Honor, and
14 that's all I have.

15 THE COURT: Any objection to the exhibits?

16 MR. KRATZ: No.

17 THE COURT: Very well. The exhibits are
18 admitted. Mr. Kratz?

19 (At which time Mr. Kratz made an attempt to
20 show the video presentation to the jury again, but
21 it was not successful.)

22 MR. KRATZ: Judge, we seem destined to not
23 have this work today. We will put it in through
24 another witness. I will have this animation marked,
25 however, and if it is received without objection,

1 then I have no further questions of this witness.
2 Thank you.

3 THE COURT: All right. Mr. Strang?

4 MR. STRANG: That's fine. We can mark it
5 and I think it can be received for purposes of
6 today.

7 THE COURT: Very well. The Court will order
8 it received, but not admitted. Is that it, counsel?

9 MR. STRANG: Yes, I think, for now.

10 THE COURT: All right. Members of the jury,
11 that is all the jury work we have for you today. So
12 I'm excusing you for today.

13 Before we do that, I will remind you that
14 the Court has previously ordered that you do not
15 watch the local news on television, or listen to the
16 local news on the radio, or read the newspaper,
17 unless you have someone first remove any articles
18 related to the case from the newspaper. In addition
19 to videos, internet web sites, or web logs, which
20 includes any information about the case.

21 If you are involuntarily exposed to any
22 information about the case from any source, please
23 take steps to immediately avoid any further
24 exposure.

25 With that, you are excused for today.

1 (At which time the jury left the courtroom
2 for the day. The following proceedings continued in
3 the courtroom, outside of the presence of the jury,
4 with the attorneys and the defendant being present.)

5 THE COURT: You may be seated. Counsel, is
6 there anything to put on the record before we
7 conclude today?

8 MR. STRANG: What exhibit number did you
9 give the animation?

10 MR. KRATZ: The animation was Exhibit 117.
11 Judge, we did offer that, but the power point
12 itself, although the hard copy was previously
13 marked, I alerted the Court that I was going to ask
14 that the actual disk be received. For purposes of
15 the record, that is Exhibit 122, and I will offer
16 that at this time.

17 THE COURT: Are there any exhibits, that
18 either party may move admission for, that we should
19 address at this time?

20 MR. KRATZ: I have moved all of them, Judge.
21 I think they have been authenticated and identified.

22 MR. STRANG: I think we have addressed all
23 of them. I know I moved Exhibits 118 through 121,
24 and those were admitted. My notes suggest that Mr.
25 Kratz has moved his exhibits, and the Court has

1 ruled on everything that he discussed or has shown
2 today.

3 MR. FALLON: Can I ask the Clerk what
4 Exhibit 90 was?

5 THE REPORTER: Is this on the record? I
6 don't know who is speaking right now.

7 MR. KRATZ: That's Mr. Fallon.

8 THE REPORTER: Okay. Thank you.

9 THE CLERK: Mr. Austin's report is Exhibit
10 90, and the power point is Exhibit 122.

11 MR. FALLON: Okay.

12 THE COURT: Mr. Kratz, has the State moved
13 admission of the animation disk?

14 MR. KRATZ: Yes.

15 THE COURT: I think that was viewed in the
16 motion hearing before we started. Does the defense
17 agree that can be admitted? That was the thing they
18 didn't get to work today. But I believe it
19 previously has been shown in court as part of a
20 motion hearing.

21 MR. STRANG: Right. That is Exhibit 117.
22 It was offered and received. I don't think that it
23 was admitted yet, because nobody identified it or
24 has seen it. Isn't that Exhibit 117?

25 MR. KRATZ: Yes.

(Jury not present.)

THE COURT: At this time the Court calls State of Wisconsin vs. Steven Avery, Case No. 05 CF 381. We are here this morning for the continuation of the trial in this matter. Will the parties, again, state their appearances for the record.

ATTORNEY KRATZ: State appears by Calumet County District Attorney Ken Kratz, Assistant Attorney General Tom Fallon, and Assistant D.A. Norm Gahn, all appearing as special prosecutors.

ATTORNEY STRANG: Good morning. Steven Avery is here in person, again, and Jerome Buting and Dean Strang representing him.

THE COURT: All right. I will indicate for the record that before we began, I met in chambers with counsel, briefly, to discuss the agenda for the day. It's my understanding that after we bring the jury out, the State is going to first complete the demonstration associated with the last witness yesterday, in the form of an animation, and that the parties are agreeable to the State presenting that animation, without Mr. Austin being recalled to the stand.

ATTORNEY STRANG: That's right. I understand it's just going to be played once

1 straight through, without narration, and that's
2 fine.

3 THE COURT: Okay. And the parties were
4 also discussing a potential stipulation for the
5 Court relating to the testimony of the next witness.

6 ATTORNEY KRATZ: Judge, the prosecution
7 team has discussed that. We would entertain such a
8 stipulation, but only after we hear what the
9 cross-examination is of this next witness. The
10 State is unwilling to enter into a stipulation at
11 this time, but I will candidly tell the Court that
12 if the cross goes as expected and as represented, it
13 is very likely that we will agree to that request,
14 yeah.

15 THE COURT: All right. Mr. Strang.

16 ATTORNEY STRANG: I can't force a
17 stipulation.

18 THE COURT: Okay. Very well. We'll
19 address that matter, then, after we complete
20 Mr. Dassey's testimony. Anything else to take up
21 before we bring in the jury? Anything else before
22 we bring in the jury, counsel?

23 ATTORNEY STRANG: No, your Honor.

24 ATTORNEY KRATZ: I don't think so, Judge.

25 THE COURT: All right. The jury can be

called in.

(Jury present.)

THE COURT: You may be seated. Members of the jury, before we get started with the first witness today, you may recall that there was a short animation scheduled to be shown at the end of Mr. Austin's testimony yesterday. I'm informed that the technical difficulties have now been ironed out and counsel has agreed to present the animation to the jury without recalling Mr. Austin to the stand; is that correct, counsel?

ATTORNEY KRATZ: Yes, Judge.

THE COURT: All right. Mr. Kratz, you may proceed.

(Animation viewed.)

ATTORNEY KRATZ: For the record, Judge, that was Exhibit No. 117, 1-1-7. That's all we have for Trooper Austin. Thank you, Judge.

THE COURT: Thank you. And before we took the testimony of Mr. Austin yesterday, I believe we left off with cross-examination of Bobby Dassey. So at this time, you can bring Mr. Dassey in and the defense can begin their cross-examination.

ATTORNEY KRATZ: Can we approach just briefly?

1 THE COURT: Sure.

2 (Side bar taken.)

3 THE COURT: Members of the jury, as you can
4 see, the picture on the computer screen there is
5 little out of kilter. We have a technical person
6 who is going to adjust the projector.

7 ATTORNEY KRATZ: It sounds like it's a
8 setting on the projector. It's something during the
9 break that the techs can take care of.

10 THE COURT: All right.

11 ATTORNEY STRANG: Can you switch that over
12 to ELMO?

13 ATTORNEY KRATZ: Sure.

14 THE CLERK: Please raise your right hand.

15 BOBBY DASSEY, called as a witness
16 herein, having been first duly sworn, was
17 examined and testified as follows:

18 THE CLERK: Please be seated. Please state
19 your name and spell your last name for the record.

20 THE WITNESS: Bobby Dassey, D-a-s-s-e-y.

21 **CROSS-EXAMINATION**

22 BY ATTORNEY STRANG:

23 Q. Good morning. Welcome back.

24 A. Good morning.

25 Q. Did you grow up on the salvage yard that you

1 described living at yesterday?

2 A. Just my high school years in school.

3 Q. That is, you were living with your mom?

4 A. Yes.

5 Q. With Barb Janda?

6 A. Yes.

7 Q. You described your step dad, yesterday, right?

8 A. Yeah, Tom.

9 Q. His name was Tom -- is Tom Janda?

10 A. Yes.

11 Q. Your mom is now married to another fellow named

12 Scott Tadych?

13 A. Yes.

14 Q. You are the second of four boys?

15 A. Yes.

16 Q. All of you have the last name Dassey?

17 A. Yes.

18 Q. From Pete Dassey?

19 A. Yes.

20 Q. Your natural father?

21 A. Yes.

22 Q. And Brian is older than you?

23 A. Yes.

24 Q. Then there is you, Bobby?

25 A. Yup.

1 Q. All right. Then we have got Brendan -- no, I'm
2 sorry, we have got Blaine?

3 A. Yup.

4 Q. And Brendan is the youngest of the four brothers?

5 A. Yes.

6 Q. So Brian, the oldest boy, oldest son, already was
7 out of Barb's house back on Halloween, 2005?

8 A. Yes, he would come and go once in awhile.

9 Q. He lived nearby, but didn't sleep there most
10 nights?

11 A. Yeah.

12 Q. So you and your two younger brothers were still
13 living with your mom, Barb Janda?

14 A. Yes.

15 Q. You have been there since about the time you
16 began high school?

17 A. Yes, 2001 we moved in.

18 Q. Were you living in the mobile home?

19 A. Yes.

20 Q. Same one, same place?

21 A. Yes.

22 Q. Steven Avery, who lived just to the west of you,
23 is your uncle?

24 A. Yes.

25 Q. Your mom's brother?

1 A. Yes.

2 Q. And then you also had an Uncle Chuck living on
3 the salvage yard property?

4 A. Yes.

5 Q. That's also your mom's brother?

6 A. Yes.

7 Q. And he lives back around to the southeast, sort
8 of behind the office buildings and the other
9 buildings of the business, right?

10 A. Yes.

11 Q. In a trailer home there?

12 A. Yes.

13 Q. Grandpa and grandma live there?

14 A. Yes.

15 Q. That is your mom's mother and father?

16 A. Yes.

17 Q. Allen and Delores?

18 A. Yes.

19 Q. Them in the back?

20 A. Yup.

21 Q. Okay. And they live up, right off the parking
22 lot, in the main area of the business?

23 A. Yes.

24 Q. They have a doublewide trailer?

25 A. Yes.

1 Q. And a garage attached?

2 A. Yes.

3 Q. Or at least next --

4 A. Next, yeah.

5 Q. -- to the trailer. You also have an Uncle Earl,

6 your mother's brother, Earl, don't you?

7 A. Yes.

8 Q. Earl is married to a woman named Candy?

9 A. Yes.

10 Q. Earl and Candy don't live on the salvage yard --

11 A. No.

12 Q. -- property? They live nearby too?

13 A. Yes.

14 Q. And Earl, in fact, you know, works at the salvage

15 yard?

16 A. Yes.

17 Q. Chuck works at the salvage yard?

18 A. Yes.

19 Q. And after Steve got out of prison, he came to

20 work at the salvage yard?

21 A. Yes.

22 Q. Your Grandpa Allen had started the salvage yard?

23 A. Yes.

24 Q. But he is not quite as active, the adult boys are

25 basically running the business?

1 A. Yes.

2 Q. Your mom works elsewhere?

3 A. Yes.

4 Q. And back about Halloween of 2005, she had a
5 factory job?

6 A. Yes.

7 Q. Did she work first shift?

8 A. Yes.

9 Q. So she's up and out of the house pretty early in
10 the morning?

11 A. Yes.

12 Q. About the time you are getting home probably --

13 A. Before.

14 Q. -- back then? Before you even got home?

15 A. Yeah.

16 Q. Okay. So you are getting off work at 6 in the
17 morning from your third shift?

18 A. Yup.

19 Q. And by the time you are home at 6:15, 6:30, she's
20 already gone?

21 A. Yeah.

22 Q. She would then come home mid-afternoon?

23 A. Yes.

24 Q. What goes on at a salvage yard business,
25 Mr. Dassey?

1 A. Well, they sell used parts for cars, the people
2 that need these parts.

3 Q. Okay. Do they also do some car repair?

4 A. Once in a while, yeah.

5 Q. Okay. Did you ever work for the salvage yard?

6 A. For one summer.

7 Q. I mean for wages?

8 A. Yeah.

9 Q. Okay. What did you do that summer you worked at
10 the salvage yard?

11 A. I just changed colors -- I mean, changed tires,
12 and stripped cars.

13 Q. What do you mean by stripping cars?

14 A. Taking all the stuff that you can get money for
15 off of them.

16 Q. After you have stripped the car, taken all the
17 valuable spare parts off, where do the things you
18 stripped off go?

19 A. Into piles.

20 Q. Where does the rest of the car go?

21 A. It goes down to be crushed.

22 Q. Okay. And some of the cars now look like they
23 are lined up in rows, and they are not crushed;
24 is that the area you guys call the pit?

25 A. Yes.

1 Q. And why are some of the cars not crushed, but
2 just lined up in rows down there?

3 A. Because them are the cars that are still good,
4 that they can still sell stuff off of.

5 Q. You can still strip some parts off of?

6 A. Yes.

7 Q. Some of them pretty old?

8 A. Yes.

9 Q. Others pretty new?

10 A. Yes.

11 Q. How do cars get to come to the salvage yard? How
12 is it that a car would end up there?

13 A. People call them, they go pick it up.

14 Q. The Avery salvage business runs a wrecker?

15 A. Yes.

16 Q. Or towing service?

17 A. Yes.

18 Q. Okay. So let's say there is a car crash and one
19 or both of the cars is totaled, might those end
20 up at the salvage yard?

21 A. Yes, if they are called.

22 Q. By a police department, or a fire department, or?

23 A. Yeah.

24 Q. Or private people?

25 A. Yeah.

1 Q. Any of those?

2 A. Yeah.

3 Q. Okay. You saw wrecked cars, and that is cars
4 that have been in a crash, come in, the summer
5 you worked there?

6 A. Yes.

7 Q. Some of those cars, because there's been a car
8 crash, some of them have blood in them?

9 A. Yes.

10 Q. And are there -- are there any parts from a car,
11 when you are stripping it, that you might melt
12 down?

13 A. Yes.

14 Q. What would that be?

15 A. Like aluminum.

16 Q. What's aluminum on a car?

17 A. Like rims, transmission, all that stuff.

18 Q. Transmission is probably the biggest cast
19 aluminum --

20 A. Yes.

21 Q. -- piece on a car? Does the Avery Salvage Yard
22 have a place to melt down aluminum rims?

23 A. Yes.

24 Q. Or aluminum transmissions?

25 A. Yes.

1 Q. Where is that?

2 A. It is in the old shop building.

3 Q. Up around that parking lot area?

4 A. Yes.

5 Q. And what -- what is this thing that melts down
6 the aluminum transmission?

7 A. It's called a smelter.

8 Q. Okay. Big thing, small thing? Have you ever
9 seen how it works?

10 A. It's pretty big.

11 Q. Do you know how it works?

12 A. It is heated by propane. That's all I really
13 know.

14 Q. There's a big outdoor propane tank next to it?

15 A. Yup.

16 Q. And you say people would come there to buy spare
17 parts. Are these just -- just people who are
18 maybe fixing their own car in the garage?

19 A. Yes.

20 Q. Or restoring an older car, or something like
21 that, hobby type people?

22 A. Yes.

23 Q. Independent small repair garage people, do they
24 ever come to buy parts, to put on cars that they
25 may be fixing for customers of theirs?

1 A. Yes.

2 Q. One of the cars that we have seen over and over
3 again, I think that you talked about, was this
4 maroon, I think you said 1989 Plymouth Voyager
5 mini-van?

6 A. Yes.

7 Q. That was your mom's car and you know that?

8 A. Yes.

9 Q. It was for sale back around Halloween, 2005?

10 A. Yes.

11 Q. That Steven was helping her sell it?

12 A. Yes.

13 Q. Did it eventually sell?

14 A. No.

15 Q. At the same time that one was for sale, were you
16 aware of other cars that may have been for sale,
17 or on and off, you know, for sale, whether they
18 were actively advertised or not?

19 A. Yes.

20 Q. Such as?

21 A. Steven had a Chevy Blazer for sale and a Monte
22 Carlo.

23 Q. Where were those kept, if you know?

24 A. Up at the end of our driveway.

25 Q. This was back around Halloween of 2005?

1 A. Yes.

2 Q. At the end of your driveway, do you mean there's
3 a road that comes down, if you take a right
4 instead of going into the salvage yard business,
5 there is a road --

6 A. Yes.

7 Q. -- that runs east west there near the north side
8 of the property?

9 A. Yes.

10 Q. Is that the driveway you are referring to?

11 A. Yes.

12 Q. That actually goes down to a little loop driveway
13 in front of your house?

14 A. Yes.

15 Q. And then sort of goes into Steve's garage?

16 A. Yes.

17 Q. So it would have been up toward the main road so
18 to speak?

19 A. Yes.

20 Q. By the --

21 A. By the --

22 Q. -- entrance to the business?

23 A. -- mailbox.

24 Q. Or the entrance to the office?

25 A. Yes.

1 Q. Now, yesterday, Mr. Kratz asked you about a
2 conversation that happened in your garage, with
3 a -- your friend Mike was there?

4 A. Yes.

5 Q. Is Mike, Mike Osmunson?

6 A. Yes.

7 Q. Or Michael Osmunson, but you call him Mike?

8 A. Yes.

9 Q. How do you know you were in the garage, your
10 garage, when this conversation happened?

11 A. Because we just arrived home and we entered the
12 garage.

13 Q. What was going on in the garage?

14 A. We bought some climbing sticks that night for
15 hunting and we were putting them together.

16 Q. Climbing sticks are little sticky pads you put on
17 the rungs to climb up a deer stand?

18 A. Yes.

19 Q. So your boots don't slip and you fall off and
20 break your neck?

21 A. Yes.

22 Q. You were doing that with Mike in the garage.

23 A. Yes.

24 Q. Roughly what time, do you remember, you guys were
25 doing this?

1 A. Probably 6:30, 7:00.

2 Q. Somewhere in that range?

3 A. Yes.

4 Q. And was there a deer?

5 A. Yes.

6 Q. Okay. What was -- This was a deer that was
7 hanging at that point?

8 A. Yes.

9 Q. In the garage. Was the deer skun out?

10 A. No, not at that time.

11 Q. The time of this conversation had not been
12 skinned yet?

13 A. Yes.

14 Q. Or had been?

15 A. It hadn't.

16 Q. When did you get this deer?

17 A. That night.

18 Q. And how long or how did you get the deer?

19 A. It was a road kill. It was hit right up the road
20 from our house.

21 Q. Now, when you get a road kill, you can't just
22 take that home and eat it necessarily, can you.

23 A. No.

24 Q. You have got to get a tag in this state?

25 A. Yes.

1 Q. From the DNR?

2 A. Yes.

3 Q. You had not hit the deer?

4 A. No.

5 Q. But you saw it hit?

6 A. Yes.

7 Q. And knew it was a fresh kill?

8 A. Yes.

9 Q. So you put it in your truck?

10 A. Yes.

11 Q. Brought it home?

12 A. Yes.

13 Q. And it was too late at that point to get the tag?

14 A. Yes.

15 Q. Did you hang it up that first night?

16 A. Yes.

17 Q. Who called to get the tag?

18 A. My mom did.

19 Q. And do you remember whether she called to get the

20 tag, called about the tag, the night you first

21 found the deer or the next day?

22 A. The night that we found the deer.

23 Q. But you didn't get the tag until the next

24 morning?

25 A. Yes.

1 Q. Okay. I'm going to show you Exhibit 123. Can
2 you make out what that is?

3 A. That's a tag.

4 Q. A tag for the deer that was hanging in your
5 garage --

6 A. Yes.

7 Q. -- when you had this conversation with Mike?

8 A. Yes.

9 Q. Okay. While you are putting the climbing sticks
10 on?

11 A. Yes.

12 Q. All right. Now, the tag is dated November 4 or
13 11/4/05, isn't it?

14 A. Yes.

15 Q. Okay. So where did you get the tag?

16 A. From 310 Mobile.

17 Q. You will have to explain that. At least some of
18 the jurors may not understand this. It's a DNR
19 tag, right?

20 A. Yes.

21 Q. But the DNR sets it up so that there are local
22 agents or places you can go?

23 A. Gas stations.

24 Q. Gas stations where you can get the tag?

25 A. Yes.

1 Q. So you don't have to run to Madison or something?

2 A. Yes.

3 Q. Okay. And there's a Mobile gas station on
4 Highway 310, near your house?

5 A. Yes.

6 Q. That's what you call the Mobile 310?

7 A. Yes.

8 Q. Did you take the deer to the Mobile 310 to get it
9 tagged?

10 A. Yes.

11 Q. So you had to take it down from where it was
12 hanging in your garage?

13 A. Yes.

14 Q. For anybody who doesn't know, why do you hang a
15 deer?

16 A. It helps cure the meat.

17 Q. And do you hang it before you skin it, or after
18 you skin it, or both?

19 A. I usually hang it and skin it, then you let it
20 hang for a day.

21 Q. Okay. But you didn't skin it the first night you
22 had it?

23 A. No.

24 Q. Because you had to get it tagged?

25 A. Yes.

1 Q. So you took it down the morning of the 4th of
2 November?

3 A. Yes.

4 Q. Went and got it tagged yourself?

5 A. Yes.

6 Q. And I want to be clear about that, even though
7 your mom had called about the tag, you actually
8 took the deer to get it tagged?

9 A. Yes.

10 Q. Because she was off to work on a Friday morning?

11 A. Yes.

12 Q. November 4 was Friday?

13 A. Yes.

14 Q. Now, you bring the deer back and you have the
15 deer tagged, I assume, right?

16 A. Yes.

17 Q. What did you do with the deer at that point?

18 A. I hung it up again and scun it out.

19 Q. Okay. And was it that night that you hung it up
20 again and scun it out, that you had this
21 conversation with Mike?

22 A. No, it was the night before.

23 Q. The night before?

24 A. Yes.

25 Q. Okay. You remember talking to us last night?

1 A. Yes.

2 Q. And telling us that it was the second time you
3 hung the deer, and the deer was scun out, when
4 you were doing the climbing sticks?

5 A. Yes.

6 Q. The -- You remember that the conversation with
7 Mike happened after the news of Teresa Halbach's
8 disappearance had been on TV?

9 A. Yes.

10 Q. That you are certain of?

11 A. Yes, it was that day.

12 Q. After it was on TV?

13 A. Yes.

14 Q. Okay. Now Thursday night, November 3rd, you
15 would have gone to work?

16 A. Yes.

17 Q. You would have left for work about 9:30?

18 A. Yes.

19 Q. To be there a little bit before your 10:00 shift?

20 A. Yes.

21 Q. Friday nights you don't have to work?

22 A. No.

23 Q. That is, for you, the workweek ends at 6:00 on
24 Friday morning, right, but it starts up again at
25 10:00 on Sunday night?

1 A. Yes.

2 Q. Actually Friday night and Saturday night are your
3 -- it's your weekend?

4 A. Yes.

5 Q. So Friday night, 6:30 or 7, Mike's over and you
6 don't have to go to work that night?

7 A. Yes.

8 Q. But you have heard the night before -- or not you
9 I guess but -- the night before the news has been
10 on the TV about Ms Halbach disappearing?

11 A. Yes.

12 Q. The -- Let me -- Let me just get that up on the
13 screen so the jury can see the date on it. Boy,
14 that's tough it washes out. This isn't a picture
15 you took?

16 A. No.

17 Q. That's deer blood on the left --

18 A. Yes.

19 Q. -- side? We can't do it this way, but what I'm
20 looking at is way over on the right side of this
21 tag. It says date of issuance of the permit/tag;
22 do you see that?

23 A. Yes.

24 Q. And what is the date of issuance of the
25 permit/tag?

1 A. 11-04-05.

2 ATTORNEY STRANG: Your Honor, maybe I will
3 just, if I may, just pass this around the jury in
4 the old-fashioned way.

5 THE COURT: Any objection?

6 ATTORNEY KRATZ: No.

7 THE COURT: Go ahead.

8 Q. (By Attorney Strang)~ As you and Mike were
9 putting these climbing sticking pads on the deer
10 stand, your Uncle Steven walked over to the
11 garage?

12 A. Yes.

13 Q. Came in. He and Mike had some conversation?

14 A. Yes.

15 Q. You didn't catch the first part of the
16 conversation, I gather?

17 A. Yes.

18 Q. That is, I mean you did not catch?

19 A. No, I didn't.

20 Q. So you don't personally know whether Mike started
21 the conversation or Steve did?

22 A. No, I don't.

23 Q. What you caught was Steve making a joke about,
24 want to help me get rid of a body, or dispose of
25 a body, something like that?

1 A. Yes.

2 Q. That was clear to you it was a joke?

3 A. Yes.

4 Q. Mike laughed?

5 A. Yes.

6 Q. You laughed?

7 A. Yes.

8 Q. And Steve followed that up by saying something
9 like, people go missing all the time, and this
10 girl may have left for Mexico?

11 A. Yes.

12 Q. Did you guys laugh about that too?

13 A. Yes.

14 Q. Was this the first you learned that Teresa
15 Halbach was missing?

16 A. Yes.

17 Q. But one or both of them, from a conversation, had
18 seen it on TV?

19 A. Yes.

20 Q. What the TV had said -- well, I guess you hadn't
21 seen the TV, but you eventually did see TV
22 reports?

23 A. Yes.

24 Q. Of Ms Halbach missing? And it described her as
25 missing?

1 A. Yes.

2 Q. At least for the first several days?

3 A. Yes.

4 Q. Now, you, I think beginning on November 5, which
5 is the day you tried to come home and found Jambo
6 Creek Road blocked off?

7 A. Yes.

8 Q. Saturday?

9 A. Yes.

10 Q. Okay. Beginning that day, you were coming home
11 to try to get your labrador puppy back after
12 goose hunting?

13 A. Yes.

14 Q. In the morning?

15 A. Yes.

16 Q. With Mike, again, actually, right?

17 A. Yes.

18 Q. Okay. So you come back and you can't get to your
19 house because the police have the road blocked
20 off?

21 A. Yes.

22 Q. Beginning that, right then and there, for
23 probably over three hours that Saturday,
24 November 5, you've talked to the police a number
25 of times?

1 A. Yes.

2 Q. About the investigation into Teresa Halbach's
3 disappearance and death?

4 A. Yes.

5 Q. It was a little over three hours, as you recall,
6 that first day, Saturday, before you could get
7 your dog back?

8 A. Yes, it was about three and a half hours.

9 Q. Okay. And then, at least two other times, you
10 were interviewed in the weeks, or days, weeks,
11 months following Teresa Halbach's disappearance?

12 A. Yes.

13 Q. In any one of those conversations with the
14 police, did any police officer ever ask you about
15 this joke that you overheard between Mike and
16 Steve in the garage?

17 A. No.

18 Q. If we go back to Friday, November 4, again, later
19 in the night, do you remember either yourself or
20 your Uncle Steven getting a call, probably on a
21 cell phone, from your Uncle Chuck?

22 A. No.

23 Q. Something about having seen headlights back by
24 his house?

25 A. Not that I remember.

1 Q. And asking you guys to check it out?

2 A. Not that I remember.

3 Q. You have no recollection at this point, now, of
4 having driven down in the pit to see if you and
5 Steve could find the source of these headlights
6 Chuck was talking about?

7 A. Not that I remember.

8 Q. Okay. But you stayed home that weekend, you did
9 not go up to Crivitz?

10 A. Yes.

11 Q. You were asked yesterday, by Mr. Kratz, about --
12 I'm sorry, I'm going to go back to Monday,
13 October 31. I'm hopping around a little bit, but
14 we're back to Monday, October 31. You were asked
15 whether you heard a telephone call come in from
16 Teresa Halbach at about 11:45 in the morning?

17 A. No.

18 Q. That is, you were sleeping then?

19 A. Yes.

20 Q. And you are a sound sleeper?

21 A. Yes.

22 Q. The answering machine is in the living room?

23 A. Yes.

24 Q. Which is sort of next to and west of your
25 bedroom?

1 A. Yes.

2 Q. But it's not in your room?

3 A. No.

4 Q. That answering machine is the kind that, I mean
5 you have heard calls come in to the answering
6 machine, I take it?

7 A. Yes.

8 Q. Just not this one?

9 A. No.

10 Q. When a call comes in and you don't answer and it
11 goes to the answering machine, this is the kind
12 of answering machine where you hear the caller
13 leaving the message?

14 A. Yes.

15 Q. It's like a speaker phone, it broadcasts, so to
16 speak?

17 A. Yes.

18 Q. Okay. But even with that, you didn't hear Teresa
19 Halbach leave her message?

20 A. No.

21 Q. You had I think said, yesterday, that on
22 Halloween, you had no reason to be in your Uncle
23 Steven's garage?

24 A. Yes.

25 Q. That's true.

1 A. (No verbal response.)

2 Q. Now, you had been in that garage on various times

3 before?

4 A. Yes.

5 Q. Been in there since?

6 A. Yes.

7 Q. Typically, if you were going to go in Steven's

8 garage, it would be because he was asking for

9 your help on fixing a car or a snowmobile or

10 something?

11 A. Yes.

12 Q. He would ask your help occasionally?

13 A. Yes.

14 Q. Ask for Brendan's help occasionally?

15 A. Yes.

16 Q. Ask for Blaine's help occasionally?

17 A. Yes.

18 Q. Maybe Brian, your older brother, when he still

19 lived there?

20 A. Yes.

21 Q. When you got up that afternoon, on Halloween, and

22 you happened to look out the window, you see the

23 woman you now know as Teresa Halbach?

24 A. Yes.

25 Q. Your recollection is that she was wearing a black

1 coat?

2 A. Yes.

3 Q. It came down below her hips?

4 A. Yes.

5 Q. That she was wearing trousers?

6 A. Yes.

7 Q. They were black?

8 A. I do not know the color.

9 Q. It's been a while since then, but one of the
10 times you talked to the police, specifically a
11 Calumet County investigator named John Dederling,
12 was back in February, February 27 of 2006, coming
13 up on a year ago?

14 A. Yes.

15 Q. Back then, when you were talking to Investigator
16 Dederling, the events of Halloween, 2005, were a
17 little fresher in your mind?

18 A. Yes.

19 Q. Did you try to tell Investigator Dederling the
20 truth as best you recalled it when you talked
21 with him?

22 A. Yes.

23 Q. Not just on February 27, but each time you talked
24 to him?

25 A. Yes.

1 Q. You knew it was important to give him accurate
2 details if you could?

3 A. Yes.

4 Q. You think reviewing his report might help refresh
5 your recollection about what exactly Ms Halbach
6 was wearing that day you saw her?

7 A. Yes.

8 (Exhibit No. 124 marked for identification.)

9 ATTORNEY STRANG: Just going to put an
10 exhibit sticker on this so we know what we're
11 talking about.

12 Q. (By Attorney Strang)~ I'm going to show you
13 Exhibit 124, which is just Investigator
14 Dederling's report. And I want you just to read
15 this to yourself. You are welcome to look at all
16 of it, or any of it, if you want to. I thought
17 that this paragraph on Page 2 of the report might
18 be the most helpful. But you look at whatever
19 you want, just read it to yourself. All done?

20 A. Yes.

21 Q. Okay. Does that help you remember today a little
22 better what Ms Halbach was wearing back on
23 Halloween, 2005?

24 A. Yes.

25 Q. When you saw her? Was it black trousers you saw?

1 A. I honestly don't remember now.

2 Q. You don't. What did this help you remember?

3 A. That she was wearing black trousers.

4 Q. Okay. That's at least what you told Investigator

5 Dedering, back when this was fresher in your

6 mind?

7 A. Yes.

8 Q. But you cannot recall what color her top was?

9 A. No.

10 Q. What you saw Ms Halbach do, as you were looking

11 out that kitchen window you described, or the

12 window near the kitchen, you saw her taking a

13 photograph or two of the van, right?

14 A. Yes.

15 Q. And then you go hop in the shower?

16 A. Yes.

17 Q. Very quick shower you told us yesterday?

18 A. Yes.

19 Q. Three, four minutes?

20 A. Yes.

21 Q. Okay. And then the next time you can look out

22 the window, presumably you have put some clothes

23 on?

24 A. Yes.

25 Q. So that takes a minute or two, or what?

1 A. Yes.

2 Q. Do you look out the same window then again?

3 A. Yes.

4 Q. And now you see her sort of walking towards your
5 Uncle Steven's trailer?

6 A. Yes.

7 Q. Not too long after that, you leave the house with
8 your bow to go hunting?

9 A. Yes.

10 Q. Her SUV is still there?

11 A. Yes.

12 Q. But you don't see her?

13 A. No.

14 Q. And you don't see your Uncle Steven at the
15 moment?

16 A. No.

17 Q. You are not looking for either one of them?

18 A. No.

19 Q. You are just going out to get in your truck?

20 A. Yes.

21 Q. Your truck is the other direction, so to speak,
22 it's away from Steven's house?

23 A. Yes.

24 Q. Tell -- I guess tell the jury, did you hear a lot
25 of horrible screaming when you came walking out

1 with the bow?

2 A. No, I didn't hear anything.

3 Q. Anybody crying for help?

4 A. No.

5 Q. Was there any background noise, that you
6 remember, that would have blocked out those sort
7 of sounds?

8 A. Not that I remember.

9 Q. Did you, as you drove off then to go deer
10 hunting, it's what, 2:45, or 3, somewhere in
11 that --

12 A. Yes.

13 Q. -- range?

14 A. Yes.

15 Q. The deer I guess probably, in general, aren't
16 going to be up out of their beds and feeding,
17 looking around for food in November until close
18 to dusk?

19 A. Yes.

20 Q. You are just driving 2 miles to your little
21 hunting area?

22 A. Yes.

23 Q. By yourself?

24 A. Yes.

25 Q. Is it that you like to get up in the stand

1 especially early?

2 A. Yes.

3 Q. So you don't spook the deer or something?

4 A. Yes.

5 Q. Okay. Even if you are going to have to wait a
6 couple hours for dusk?

7 A. Yes.

8 Q. Anybody see you --

9 A. Yes.

10 Q. -- as you are going hunting? Who?

11 A. Scott Tadych.

12 Q. Scott Tadych?

13 A. Yes.

14 Q. Okay. Was he a friend of your mom's at that
15 point?

16 A. Yes.

17 Q. How do you know he saw you?

18 A. Because I passed him on the highway.

19 Q. Okay. And what you told Investigator Dederling is
20 that Mr. Tadych would be available to verify
21 precisely what time he had seen you?

22 A. Yes.

23 Q. Why did you think that?

24 A. Maybe he looked at his clock in his truck.

25 Q. You hadn't -- Had you talked with him about --

1 with Mr. Tadych, about whether he could verify
2 precisely when he saw you?

3 A. No.

4 Q. You were just kind of hoping or guessing that
5 maybe he could?

6 A. Yes.

7 Q. What -- What sort of -- Well, you were bow
8 hunting that day, do you also participate in the
9 gun season for deer?

10 A. Yes.

11 Q. What do you use as a deer rifle?

12 A. .30-06.

13 Q. Is that yours?

14 A. Yes.

15 Q. Do you have any other guns?

16 A. Yes.

17 Q. What other long guns?

18 A. I have shotguns, mostly all shotguns.

19 Q. Mostly all shotguns. But back at the end of
20 October, 2005, you also had a .22 caliber rifle?

21 A. Yes.

22 Q. Marlin?

23 A. Yes.

24 Q. Semi-automatic?

25 A. Yes.

1 Q. And then your mom had a bolt action .22 rifle in
2 her bedroom, right?

3 A. Yes.

4 Q. You kept your Marlin .22 semi-automatic in your
5 bedroom?

6 A. Yes.

7 Q. Mr. Dassey, just to finish, are you quite sure
8 now whatever details you don't remember of
9 Halloween, 2005, today, are you quite sure now
10 that you woke up and got up sometime by 2:30, or
11 a little before?

12 A. Yes.

13 Q. You said yesterday that Blaine and Brendan were
14 still in high school, got home usually what,
15 3:40, 3:45, somewhere in there?

16 A. Yes.

17 Q. And that was regular every day?

18 A. Yes, every day.

19 Q. Because they took a school bus to and from
20 school?

21 A. Yes.

22 Q. School lets out at the same time, the bus runs
23 the same route, that they were pretty regular.

24 A. Yes.

25 Q. And are you quite sure that Blaine and Brendan,

1 coming home that Halloween, 2005, were not the
2 ones who found you still asleep and awakened you?

3 A. No.

4 Q. And if Blaine told the police that you were still
5 sleeping at 3:40, or 3:45, when he got home from
6 the school bus, and that you awoke after he got
7 home, Blaine is just mistaken?

8 A. Yes.

9 ATTORNEY STRANG: That's all I have.
10 Thanks.

11 **REDIRECT EXAMINATION**

12 BY ATTORNEY KRATZ:

13 Q. Mr. Dassey, you stated today on cross-examination
14 that you believe that you saw Teresa walking
15 towards your Uncle Steve's trailer after your
16 shower; is that right?

17 A. Yes.

18 Q. But you had seen her arrive before your shower?

19 A. Yes.

20 Q. Did you see where Ms Halbach parked her SUV?

21 A. Yes.

22 Q. Where was that?

23 A. Just in front of the van, on the north side of
24 the driveway.

25 Q. No obstruction to your view of that?

1 A. No.

2 Q. Mr. Strang showed you a police report, an
3 investigative report prepared by Investigator
4 Dederling; did you get a chance to look at that
5 today?

6 A. Yes.

7 Q. Have you had a chance to look at that before
8 today, that you can recall?

9 A. Yes.

10 Q. When I asked yesterday, when the last time you
11 saw a fire at Steve's burn area was --

12 ATTORNEY STRANG: Scope.

13 Q. -- do you recall what your answer was?

14 ATTORNEY STRANG: Scope.

15 THE COURT: Just a second, there's an
16 objection that it's beyond the scope of redirect; is
17 that correct?

18 ATTORNEY STRANG: Of cross, yes. Beyond
19 the scope of cross, so it's not proper redirect.

20 ATTORNEY KRATZ: It's what else he told
21 Investigator Dederling. He showed him the very
22 exhibit that I'm intending to refer to.

23 THE COURT: No. I don't think that's
24 enough. It wasn't something that was dealt with on
25 cross, so I'm going to sustain the objection.

1 ATTORNEY KRATZ: All right.

2 Q. (By Attorney Kratz)~ You said that you saw Scott
3 Tadych on the way to deer hunting. About what
4 time was it that you saw him; do you recall?

5 A. Quarter to three.

6 Q. About 2:45 p.m.?

7 A. Yes.

8 Q. So you had already seen Teresa Halbach by 2:45
9 and, in fact, had already left your residence; is
10 that right?

11 A. No, she was still there.

12 Q. What I'm saying is, you had already seen her?

13 A. Oh, yes.

14 Q. And had left your residence --

15 A. Yes.

16 Q. -- by 2:45?

17 A. Yes.

18 Q. Mr. Strang, asked if you heard any screaming or
19 if you heard any other noises when you got into
20 your truck; were you listening for anything like
21 that?

22 A. No.

23 Q. How long does it take from exiting your trailer
24 until you get into your truck; how far of a
25 distance was that?

1 A. Maybe 10 feet. I had it parked right in front of
2 the door.

3 Q. How long would it take to get into your car?

4 A. Maybe 10 seconds.

5 Q. Oh, so in those 10 seconds, you didn't hear any
6 screaming or any calls for help --

7 A. No.

8 Q. -- is that right?

9 ATTORNEY KRATZ: I think that's all, Judge.
10 Thank you.

11 ATTORNEY STRANG: No recross, your Honor.

12 THE COURT: Very well. Mr. Dassey you are
13 excused.

14 ATTORNEY STRANG: Your Honor, I will move
15 Exhibit 123 -- or Exhibit 123, 124 was used only to
16 refresh.

17 THE COURT: Any objection?

18 ATTORNEY KRATZ: No.

19 THE COURT: Very well, the exhibit is
20 admitted.

21 ATTORNEY STRANG: And we could probably
22 have just a quick minute at side bar.

23 THE COURT: All right.

24 (Side bar taken.)

25 THE COURT: Members of the jury, I'm going

1 to excuse you for a couple minutes. I don't believe
2 this is going to turn into our morning break, so I
3 will excuse you for a few minutes and we'll call you
4 back as soon as we're ready to proceed. Again, as
5 always, do not discuss the case during the break.

6 (Jury not present.)

7 THE COURT: You may be seated. Mr. Strang.

8 ATTORNEY STRANG: As I understand the
9 narrow point of disagreement of the unreported side
10 bar, Mr. Kratz is under the belief that I had asked
11 all the questions that -- on which we sought a
12 stipulation on Michael Osmunson's testimony and that
13 he left them go by without hearsay objection so that
14 there was no need for a stipulation.

15 And I did not ask all the questions,
16 there remains a couple of important points that I
17 did not inquire about and that I do want the
18 stipulation on. I did ask one important one and
19 we could leave that off now. I agree there is no
20 need for a cumulative stipulation on that. The
21 point I did not go into, because Mr. Dassey
22 testified here on cross that he didn't hear the
23 beginning of the conversation. And I think he
24 said he doesn't -- or agreed he didn't recall
25 whether Michael started it or Steve started the

1 conversation.

2 So what I -- what I would need is,
3 Michael indicated he was aware of Steven was one
4 of the last people to see the missing girl and
5 jokingly asked Steven if Steven had her, the
6 missing girl, in a closet. That's the -- that's
7 the chunk of it, the start of the conversation
8 that I didn't cover and could not cover with
9 Brendan Dassey because --

10 ATTORNEY KRATZ: Bobby Dassey.

11 THE COURT: Bobby Dassey, you meant?

12 ATTORNEY STRANG: I'm sorry, Bobby Dassey,
13 yes. Because he -- he did not hear it. I did cover
14 the Mexico statement. Steven stated that people go
15 missing all the time and the girl may have left for
16 Mexico. I think I did cover that. Mr. Kratz didn't
17 object. We can omit that from the stipulation at
18 this point. Again, I'm not looking to make it
19 cumulative.

20 THE COURT: All right. I should note,
21 before I hear from Mr. Kratz, that the purpose of
22 the side bar was counsel asking the Court for an
23 opportunity to bring this matter to the Court's
24 attention. Very short side bar. I heard no
25 argument from either party during the side bar, but

1 simply excused the jury so that I could hear
2 argument at this time.

3 ATTORNEY STRANG: That's right. And,
4 again, that side bar was at defense request.

5 THE COURT: Mr. Kratz.

6 ATTORNEY KRATZ: Judge, I have no objection
7 to the Court reading those, which would now be those
8 three sentences that were asked by stipulation,
9 omitting the paragraph that starts with, "according
10 to Michael". And also, as Mr. Strang had alerted
11 the Court early this morning, the sentence that
12 begins, "Michael stated he had just learned", that
13 sentence to be omitted.

14 But the balance of that paragraph,
15 beginning with, "he stated he and Bobby", and
16 ending with the phrase, "missing girl", with the
17 one sentence being omitted. If that's going to
18 end this issue, Judge, I don't have any objection
19 to agreeing that that be provided to the Court.
20 Make sure that the Court has omitted or crossed
21 out that one line, Michael stated he had learned.
22 But other than that, Judge, we'll agree to that
23 stipulation.

24 THE COURT: I'm going to ask someone to
25 read to me what it is you do want presented to the

1 jury, because I'm having trouble following this.

2 ATTORNEY STRANG: I will read it just as I
3 would propose to read it to the jury. If he were
4 called to testify, Michael Osmunson, the parties
5 agree, would testify that he stated he and Bobby
6 were inside the Dassey garage when Steven came over.
7 Michael indicated he was aware Steven was one of the
8 last people to see the missing girl and jokingly
9 asked Steven if Steven had her, the missing girl, in
10 a closet.

11 At this point, Steven asked Michael if
12 Michael wanted to help bury the body, and they
13 laughed about this together. He once again
14 indicated, that is, Mr. Osmunson once again
15 indicated he thought Steven might have been the
16 last one to see the missing girl.

17 THE COURT: And that's what the State is
18 agreeing?

19 ATTORNEY KRATZ: That's just fine, Judge.

20 ATTORNEY STRANG: And -- Well, okay.
21 Mr. Buting points out that the next sentence,
22 according to, is different than the testimony that I
23 elicited from Mr. Dassey. I did -- I did -- I don't
24 remember exactly the words now, I got into something
25 about maybe she went to Mexico, as I recall, but ...

1 THE COURT: Well, I'm not going to, from
2 the bench, impose a stipulation on the parties.

3 ATTORNEY STRANG: Right.

4 THE COURT: If you folks have an agreement
5 and you wish to read something to the jury and each
6 of you agrees to it, I will allow you to do that.

7 ATTORNEY KRATZ: Counsel asked the question
8 about, she may have gone to Mexico, we do object to
9 that. We don't object to the other part of the
10 stipulation, once again, as I indicated, to put this
11 matter to rest.

12 THE COURT: And, Mr. Strang, you are going
13 to present that to the jury as a stipulation.
14 Mr. Kratz will agree on the record. I will let the
15 jury know that it's a stipulation and they can take
16 it as evidence.

17 ATTORNEY STRANG: Okay. No problem with
18 my, in the last sentence there, for context, saying
19 Mr. Osmunson once again, instead of he once again?

20 ATTORNEY KRATZ: That's fine.

21 THE COURT: Very well. All right. We'll
22 bring the jurors back in. Mr. Kratz, I would like
23 to take the morning break about 10:30, so if you are
24 still in your direct --

25 ATTORNEY KRATZ: I will stop.

THE COURT: -- stop.

(Jury present.)

THE COURT: You may be seated. Members of the jury, before we proceed to the next witness, the parties have a stipulation to put on the record. Mr. Strang.

ATTORNEY STRANG: Thank you, your Honor. The parties, I think, have agreed that if -- if he were called to testify, a man named Mike Osmunson would testify that he stated he and Bobby were inside the Dassey garage when Steven came over. Michael indicated he was aware Steven was one of the last people to see the missing girl and jokingly asked Steven, if Steven had her, the missing girl, in a closet.

At this point Steven asked Michael if Michael wanted to help bury the body, and they laughed about this together. Mr. Osmunson once again indicated he thought Steven might have been the last one to see the missing girl.

THE COURT: Mr. Kratz, is that the State's understanding of the stipulation?

ATTORNEY KRATZ: It is, Judge.

THE COURT: Very well. Members of the jury, based on that stipulation, you may accept the

1 facts read by Mr. Strang as evidence in this case.
2 At this time, Mr. Kratz, you may call your next
3 witness.

4 ATTORNEY KRATZ: The State would call Brett
5 Bowe.

6 THE CLERK: Please raise your right hand.

7 **LIEUTENANT BRETT BOWE**, called as a
8 witness herein, having been first duly sworn, was
9 examined and testified as follows:

10 THE CLERK: Please be seated. Please state
11 your name and spell your last name for the record.

12 THE WITNESS: Brett James Bowe, B-o-w-e.

13 **DIRECT EXAMINATION**

14 BY ATTORNEY KRATZ:

15 Q. Mr. Bowe, how are you employed?

16 A. Patrol lieutenant with Calumet County Sheriff's
17 Department.

18 Q. How long have you been so employed?

19 A. Two years.

20 Q. And prior to that particular rank, could you tell
21 the jury how you were previously employed?

22 A. I started with the Sheriff's Department as a
23 jailer, became a patrolman, then a patrol
24 lieutenant -- patrol sergeant and then eventually
25 a lieutenant.

1 Q. What are your duties, currently, as a lieutenant?

2 A. I supervise the patrol staff.

3 Q. Sometime after November 5th of 2005, did you
4 become involved in the investigation that brings
5 us here to court today?

6 A. Yes, I did.

7 Q. When did you first become involved in that
8 investigation?

9 A. Sunday morning, the 6th.

10 Q. And would you tell the jury how you first became
11 involved?

12 A. I was contacted Saturday night and asked to come
13 to the scene to assist with taking control of the
14 Command Post.

15 Q. What is a Command Post?

16 A. It's a central location in a crime scene that we
17 utilize for staging and organizing the activities
18 that we're going to carry out during the day.

19 Q. Are there duties or were there, I should say.
20 The week of the 5th through the 12th, were there
21 duties in assuming responsibility for the Command
22 Post that you performed?

23 A. Yes, there were.

24 Q. And why don't we talk about, generally, those
25 duties. We'll talk specifically in just a few

1 minutes, but talk about generally what those
2 duties include.

3 A. The primary duty was scheduling and making sure
4 that there was security around the property
5 during the evening hours and during the day.
6 There were also numerous large scale searches
7 that went on at the property, or around the
8 property. And we were provided personnel to do
9 that and then we organized that.

10 Q. The Avery salvage property itself, that 40 acre
11 parcel, were you one of the officers responsible
12 for securing that area, again, between the 5th
13 and 12th of November?

14 A. Yes, I was.

15 Q. Describe for the jury, if you will, the security
16 on the perimeter, that is, the 40 acres. We're
17 going to talk a little bit outside of that in
18 just a minute, but let's first talk about the 40
19 acre perimeter. Could you describe for the jury
20 how that area was secured?

21 A. We stationed an officer at the four corners of
22 the property. One of the corners was the Command
23 Post, so there were always several people in that
24 position. And then we had an officer in the
25 remaining three corners with a squad car.

1 Q. I'm showing you what's first been marked as
2 Exhibit No. 79; can you tell us what that is
3 please.

4 A. This is an overview photo of a majority of the
5 40 acres.

6 Q. All right. I think we have a better way to show
7 these today. I'm hoping at least. Actually,
8 Officer, we're going to, because there's a couple
9 of technical issues that we're going to do during
10 the break, I'm just going to talk through this
11 and then after our morning break we'll be able to
12 look at some exhibits.

13 You talked about the four corners,
14 though, of the 40 acre property and that you had
15 people posted there. During what period of time
16 were they posted and was this a around the clock
17 thing, or describe that for the jury?

18 A. Most of the time it was around the clock. During
19 the day when there were a large number of people
20 in a certain area, we may utilize that security
21 person to assist those people in the area,
22 because they really hadn't left that area any
23 way.

24 At night those people stayed in their
25 positions through the entire night. And then if

1 there was no activity in that area they stayed in
2 that position also.

3 Q. We have talked about the 40 acre property, then,
4 let's go beyond that. Can you describe the area
5 that surrounds the Avery property?

6 A. To the north of the Avery property is State
7 Highway 147; running to the east of it would be
8 Jambo Creek Road; and to the west of it was
9 County Q. The Avery property is south of 147 and
10 there's a small dead end road, Avery Road, that
11 leads into the 40 acres.

12 Q. Were you familiar that sometime after 10:30 in
13 the morning, on Saturday the 5th of November,
14 that law enforcement officers took control of the
15 Avery property?

16 A. Yes, they did.

17 Q. Was there a law enforcement presence or security
18 perimeter set up outside of the 40 acres?

19 A. Yes, there was. There was an officer at the
20 intersection of 147 and Q, that when I arrived
21 Sunday morning was in place. There was also an
22 officer -- Between that and Avery Road, there is
23 a road that runs north off 147. There was an
24 officer there keeping individuals from coming
25 down onto 147. And then there was an officer at

1 Jambo Creek Road with the intersection of 47
2 (sic). There was also an officer at the end of
3 Avery Road that was checking people in and out of
4 the property.

5 Q. This responsibility for security, was that yours
6 alone or was that shared?

7 A. The security on the property was shared with
8 Lieutenant Sippel.

9 Q. So the jury knows, who is Lieutenant Sippel.

10 A. He would be the dispatch lieutenant for the
11 Calumet Sheriff's Department.

12 Q. Works for Calumet --

13 A. Yes.

14 Q. -- County? At that scene, Lieutenant Bowe, who
15 did you take direction from?

16 A. I took direction from Sheriff Pagel and
17 Investigator Wiegert and Agent Fassbender.

18 Q. And Investigator Wiegert and Special Agent
19 Fassbender, what was their role, if you know, at
20 the scene?

21 A. I believe they were lead investigators.

22 Q. I know you talked about security, or the
23 perimeter security, were you also involved of
24 security within the 40 acres? I mean, not just
25 the four corners, but also other security issues?

1 A. Generally, no. If there was something specific,
2 I would make arrangements to get people for them,
3 but then they would place them where they needed
4 them.

5 Q. You may not know this, Lieutenant Bowe, but how
6 many law enforcement officers were involved in
7 this search effort; do you know?

8 A. Total?

9 Q. Yes.

10 A. I don't know.

11 Q. All right. Other than security, your other
12 responsibility, you talked about coordinating
13 some of the searches; is that right?

14 A. Correct.

15 Q. Which areas of search responsibility did you
16 have?

17 A. Any time there was a large scale search, we
18 coordinated that. There were two large scale
19 searches inside the salvage yard and there were
20 two large scale searches outside the property.
21 There was also -- the Winnebago Dive Team was on
22 scene, so we coordinated that.

23 Q. Let's take them in reverse order. Talking about
24 the dive team, what was the dive team asked to
25 do?

1 A. The dive team was called in on Sunday, the 6th
2 and Monday the 7th. They were asked to dive any
3 of the surrounding bodies of water. There was
4 several gravel pits or stone quarries around this
5 property and there was water collecting in those.
6 So they were asked to come in and search those
7 areas.

8 Q. Do you know what they were searching for?

9 A. Evidence, anything, a body, any property that may
10 have belonged to Ms Halbach.

11 Q. All right. And what kind of -- you talk about
12 the surrounding property, what kind of acreage or
13 area are we talking about?

14 A. Inside the roadways that we were talking about,
15 there's over 500 acres. And we did search
16 outside that to some extent, too.

17 Q. So were all 500 acres searched?

18 A. There were probably portions of it that were not
19 searched. There were some wooded areas that were
20 searched with dogs, but didn't get the massive
21 search that we did in some other areas.

22 Q. Other than the heavily wooded areas, would you
23 say the other, or the balance of the 500 acres
24 was searched --

25 A. Yes.

1 Q. -- by law enforcement?

2 A. Yes, it was.

3 Q. The coordination of these large scale efforts
4 like the dive team that you mentioned; who would
5 you directly speak with? Would it be the
6 searchers or was there an intermediary usually?

7 A. What we would do is we would put a representative
8 from the Sheriff's Department, one of our
9 deputies, with each group. We would break them
10 down into 10 man groups.

11 Q. Let me stop you there. When you say our
12 deputies, who are you talking about?

13 A. Calumet Sheriff's Department.

14 Q. Go ahead.

15 A. We would communicate with our deputies which area
16 we wanted to search, if we were looking for
17 anything in particular. And they would relay
18 that to the individuals that were in their group.
19 They would notify us when they were going out,
20 when they were searching, and when they completed
21 their search. So we communicated directly with
22 the Calumet officer that was with the team.

23 Q. You talked about the dive team, let's talk about
24 the search areas outside of the 40 acres. I'm
25 talking -- I'm excluding the Avery property

1 itself. And can you describe those large scale
2 searches for us, please.

3 A. A majority of that was either open field or
4 quarries. What we would do is we would take a
5 section of it and we would send our teams out to
6 search that area. They would let us know when
7 they were completed and then we would determine
8 which additional area to send them to.

9 The dive team searched four ponds
10 directly around the Avery property on Sunday.
11 And then on Monday they moved to a another quarry
12 that was south of Jambo Creek Road and they
13 searched two large ponds there.

14 Q. Were the ponds left intact or were the ponds
15 disturbed at all to due to the searching?

16 A. The ponds that the dive team searched were left
17 intact.

18 Q. Were there other ponds that were examined?

19 A. There were.

20 Q. Tell us about that, please.

21 A. There were five silt ponds that were located at
22 Radandt's main headquarters for their quarry.
23 They utilized those for washing rock. The water
24 would run into one pond and it would kind of go
25 from pond to pond until it got to the last one

1 and most of the dirt would be gone and they would
2 pump it out and use it again. The dive team
3 determined that they couldn't dive those because
4 they were -- there was too much sludge in them
5 from the dirt they had washed off. So Radandt
6 agreed to dig two of those ponds out while we
7 watched them do it.

8 Q. All right. I think I may have interrupted you
9 about the other outlying property searches. You
10 said that they were open field searches. Then
11 you mentioned the dive team and I think that's
12 where I interrupted you. What other kind of
13 searches were in the outlying areas?

14 A. Included in the open field, there were also
15 quarries. There's quarries all over in that
16 area. So our teams would go from an open field
17 and then they would have to work their way into a
18 quarry and they would search the quarry.
19 Probably half of them were inactive at the time,
20 or even more. So they would cover that area.

21 Q. How many officers were involved in those large
22 scale searches, if you know?

23 A. It varied by day. One day we had 60 troopers
24 that were involved. On Sunday when we did the
25 initial exterior search, we had 30 officers

1 accompanied by 60 firemen.

2 Q. All right. So anywhere between 60 and 90 people
3 searching at a time; is that right?

4 A. Correct.

5 Q. And, again, for how many days did these searches
6 occur?

7 A. On two separate days we searched the exterior of
8 the property. And on two days we searched the
9 interior of the property.

10 Q. All right.

11 A. So four days total.

12 Q. When we come back from the break, we'll talk
13 about the interior of the property. But is there
14 anything that we have left out on the exterior,
15 any searches that you haven't described on the
16 exterior of the Avery property?

17 A. Other than the searching with the dogs. On the
18 first three days that I was involved, we had dogs
19 on scene. So we would couple those up with
20 Calumet officers and we would send them to
21 different areas around the property and just have
22 them run their dogs through that property. The
23 majority of what they ran through, we searched by
24 hand again, later.

25 Q. Were those the --

1 A. Search and rescue dogs.

2 Q. Searching for evidence, or searching for body, or
3 both?

4 A. Searching for body.

5 ATTORNEY KRATZ: This might be a good time
6 then for our morning break. Thank you.

7 THE COURT: All right. Members of the
8 jury, we'll take our morning break at this time.
9 We'll resume in 15 minutes. Again, do not discuss
10 the case during the break.

11 (Jury not present.)

12 THE COURT: Counsel, we'll resume, then, at
13 10:45.

14 ATTORNEY KRATZ: Thank you.

15 (Recess taken.)

16 THE COURT: Mr. Kratz, you may continue
17 your direct examination.

18 ATTORNEY KRATZ: Thank you.

19 **DIRECT EXAMINATION, CONTD**

20 BY ATTORNEY KRATZ:

21 Q. Lieutenant, in front of you is Exhibit No. 79.
22 Could you tell us what that is, please.

23 A. This is an overhead photo of a partial view of
24 the Avery property.

25 Q. And you recognize that aerial photograph?

1 A. Yes, I do.

2 Q. And as I mentioned, I think this will work better
3 today. I'm hopeful anyway. The jury is now
4 seeing Exhibit No. 79; is that correct?

5 A. Correct.

6 Q. And will this photograph help you explain some of
7 the interior, or at least large scale searches
8 from within that property?

9 A. Yes, it will.

10 Q. All right. How were search teams assembled?

11 A. As I said, the personnel would be provided to me,
12 be it State troopers, or deputies, or firemen.
13 We would then break them down into groups of
14 about 10 individuals and we would have a leader
15 for that group who would normally be a deputy
16 from the Calumet Sheriff's Department. We would
17 coordinate everything through that officer and
18 then he would give the people under him the
19 information that they needed. And they would
20 report to him anything that they found.

21 Q. I know that you mentioned law enforcement and
22 some others, but what other type of individual
23 were utilized in these search efforts?

24 A. Volunteer firemen.

25 Q. Referring then to Exhibit No. 79, describe, if

1 you will, the first large scale search operation?

2 A. The first large scale search operation was in the
3 salvage yard. It was on Sunday afternoon. We
4 utilized approximately 50 firemen. We utilized
5 approximately 50 firemen along with at least a
6 dozen officers, broke them into groups.

7 There are approximately 4,000 salvaged
8 vehicles on the property. We had the firemen go
9 through the salvaged vehicles, opening the trunks
10 and hoods of every vehicle.

11 Q. That first search was when, I'm sorry?

12 A. That was Sunday.

13 Q. The 6th?

14 A. Yes.

15 Q. What were you looking for?

16 A. We were looking for a body.

17 Q. Referring, again, to Exhibit No. 79, could you
18 show us the cars that you are talking about?

19 A. Everything down in this area up through here,
20 around. It actually extends a little further
21 back to this side, but these are all salvaged
22 vehicles. There's a couple up in this area here.

23 Q. Were you present during that large scale search?

24 A. Yes, I was.

25 Q. And what was required to look in these vehicles?

1 A. As far as what, to open them?

2 Q. Yes.

3 A. The firemen used crowbars or they used their
4 hooligan tools that they had with them. And they
5 would open the trunks and the hoods, just verify
6 that there wasn't a body inside the vehicle.

7 Q. On the 6th of November, was every vehicle
8 searched; that is, all 4,000 vehicles?

9 A. Yes, they were.

10 Q. Was some method that you or somebody else
11 developed for how a vehicle -- how you knew a
12 vehicle was searched or not?

13 A. The individual groups had crime scene tape or had
14 caution tape. They would either mark the
15 individual vehicles as they searched them, or as
16 you can see, the vehicles are in fairly big
17 groups; one group would start on the end. They
18 would work their way to the other end and then
19 they would mark the two ends with caution tape so
20 that everybody would know that that group of
21 vehicles had been searched.

22 Q. All right. What was the next large scale search
23 that you were involved in coordinating?

24 A. On the property?

25 Q. Yes.

1 A. The next large scale search was on Tuesday, it
2 involved 60 State troopers and approximately 35
3 volunteer firemen. They went through all of the
4 vehicles again. This time they were doing a
5 thorough search of the entire vehicle.

6 Q. This is a different kind of search, then, on the
7 6th?

8 A. Yes, it is.

9 Q. What was the scope of the search?

10 A. This search, they were looking for particular
11 items. They were looking for the license plates
12 from Teresa Halbach's vehicle. They were looking
13 for a tool. She had a tool kit in her vehicle
14 and there was a tool missing from it; they were
15 looking for that. And then they were looking for
16 any specific items that may have belonged to her,
17 or would be of evidentiary value. So they were
18 doing a much more thorough search.

19 Q. And, again, are you aware that all 4,000 vehicles
20 were searched?

21 A. Yes, they were.

22 Q. Exhibit No. 79 shows parts of the entryways. How
23 is it that vehicles could travel from within or
24 throughout the inside of the salvage yard? Do
25 you understand that question?

1 A. You mean once they were in the yard?

2 Q. Yeah, talk about the roadways within the yard
3 itself.

4 A. Okay. In between each group of vehicles, you can
5 see, these are all roadways through here. They
6 kind of work their way through the property.
7 It's just a dirt road that you can drive on.

8 There's a gap between the vehicles. You
9 can drive through it. That's what they used for
10 their roads. So, it's no formal road, the roads
11 could change depending on where they put the
12 vehicles. But it was an opening through the dirt
13 that was used to drive on.

14 Q. Are you familiar with a surrounding property
15 which is called Radandt's Quarry?

16 A. Yes, I am.

17 Q. Again, referring to Exhibit 79, if you could tell
18 us where that is located.

19 A. Radandt has -- Let's see. This is the north on
20 this end. Radandt has an active quarry from here
21 down, which would be to the west. They also had
22 a quarry on the south end, which would be in this
23 area here.

24 Q. From Radandt's Quarry, or from at least the
25 access corner, the corner that would attach

1 Radandt's to Avery's, did you go to that corner,
2 to that location? Did you physically stand in
3 that location?

4 A. Yes, I did.

5 Q. And are you able, and were you able, to see
6 Mr. Avery's trailer and garage from that corner?

7 A. Yes, you can.

8 Q. I'm going to show you what has been -- or have
9 you look at what's marked as Exhibit No. 80; tell
10 us what that is.

11 A. This is a view of Mr. Avery's residence from the
12 south.

13 Q. Would that be near Radandt's property line?

14 A. Yes. Yes, it's actually -- His property, his
15 residence is right there. This view is from
16 somewhere in this area, I would believe.

17 Q. All right. Have the jury look at Exhibit No. 80.
18 Tell us what we're looking at here, please.

19 A. This is the backside of Mr. Avery's residence and
20 his detached garage.

21 Q. Now, I note that, and tell me if I'm correct or
22 not, is there a grade difference between Mr.
23 Avery's and Radandt's property?

24 A. There's a berm between the two properties. And
25 then on Radandt's side, it goes straight down

1 into the quarry. It's probably a 15 to 20 foot
2 drop into the quarry.

3 Q. All right. I'm just going to have you mark -- or
4 describe these next exhibits, some aerial photos;
5 what is Exhibit No. 81?

6 A. This is a view, an aerial view of the Avery
7 property from the northeast. It would be Avery
8 Road coming into the northeast corner of the
9 property.

10 Q. We'll have the jury take a look at Exhibit 81; is
11 that a picture of 81?

12 A. Yes.

13 Q. With your laser pointer, could you describe the
14 buildings that we're looking at. By the way, let
15 me put in a foundational question. Did you
16 become, in that seven or eight days, familiar
17 with all of the buildings on this property?

18 A. Yes, I did.

19 Q. All right. Looking at Exhibit No. 81, can you
20 tell us -- identify the buildings that are
21 located therein?

22 A. Starting at the top, there's a fenced in area in
23 here. It's an impound area. There is a large
24 shed in there that is an impound storage. I
25 believe it's a metal shed. And then there's a

1 smaller garage down in this area. It's also used
2 for storage.

3 This is a longer narrow shed that was
4 used for heavy equipment storage. Down in the
5 trees here would be Allen and Delores Avery's
6 residence and there's also a detached garage in
7 there to. I believe it would be right there.

8 This is an office area and a work area.
9 We referred to it as the new office. And then
10 there's another work area back in here that was
11 referred to as the old office area that was used.

12 Q. Beginning your testimony, Lieutenant Bowe, you
13 talked about a Command Post being established.
14 Does Exhibit No. 81 show that area?

15 A. Yes, it does.

16 Q. Could you describe that for the jury, please.

17 A. The Command Post that we utilized was in this
18 area. That's where we organized our large scale
19 searches. We also had debriefings there. There
20 was also a Command Post located up here that was
21 used by the Investigative Team. So it was more
22 of a work area for them.

23 Q. Does Exhibit No. 81 also show an access road;
24 that is, how you would get to the Avery property
25 from Highway 147?

1 A. Yes, it does. This road right here is Avery
2 Road; that's a paved road coming in that dead
3 ends at the property.

4 Q. And if you turn right on that road, where does
5 that take you?

6 A. This is a gravel driveway that runs the length of
7 the property and it would end at Steven Avery's
8 residence.

9 Q. Lieutenant Bowe, are you familiar with the corner
10 of the property that not only has a pond, but
11 from which Teresa Halbach's vehicle was found?

12 A. Yes, I am.

13 Q. Have you look at Exhibit No. 82, please, and tell
14 us what that is, please.

15 A. This is an aerial view from the east of the
16 southeast corner of the property where the pond
17 was and where Teresa Halbach's vehicle was found.

18 Q. And does it accurately depict that corner?

19 A. Yes, it does.

20 Q. I will have the jury, then, look at No. 82. With
21 your laser pointer, tell us what we're looking
22 at, please.

23 A. This is Radandt's Quarry to the south. There is
24 an open field to the east. The view is from the
25 east. This is probably a little more than half

1 of the property.

2 This is a low area in the salvage yard
3 where a lot of the run off collects into a small
4 pond. There's a berm up behind that and Teresa
5 Halbach's vehicle was found up in this area.

6 Q. Does this exhibit also show the car crusher?

7 A. Yes, it does. It's down right here.

8 Q. All right. Are you familiar with what would be
9 the northwest corner of the property, that is,
10 the area where Mr. Avery's residence was?

11 A. Yes, I am.

12 Q. And could you look at Exhibit No. 83, please, and
13 tell us what that is?

14 A. This is an aerial photo from the north, looking
15 south on to the Avery property and the Radandt
16 Quarry that's directly west to it.

17 Q. I will have the jury now look at Exhibit No. 83.
18 Tell us what we're looking at.

19 A. Once again, this is one of Radandt's quarries.
20 This was an active quarry at the time. This is
21 Steven Avery's residence and garage. And this
22 would be Barb Janda's residence and garage. And
23 we have got about half of the salvage yard
24 included.

25 Q. Does this photograph, that is, Exhibit No. 83,

1 show a second entry way into the Avery property?

2 A. Yes, it does.

3 Q. Could you describe that for the jury, please.

4 A. There's a gravel road that comes up through here
5 that connects all the quarries and runs down to
6 Radandt's processing plant. There is a conveyor
7 that runs along the middle of that road and then
8 runs into the Avery property. Where the Avery
9 property and Radandt's meet, there is a passage
10 way to drive a vehicle through there.

11 Q. You talked about security being maintained on
12 four corners of the property. How many corners
13 of the property in which security was maintained
14 24 hours does this exhibit show?

15 A. Two.

16 Q. And could you tell the jury, please, where law
17 enforcement officers were stationed?

18 A. There was an officer stationed down in this area
19 at the end of the road in front of Steven Avery's
20 residence. And there was also an officer
21 stationed down in this area, just before it
22 splits to go into the two quarries, securing this
23 corner.

24 Q. I don't know if I asked this well enough when you
25 described the purpose, but why were you

1 attempting to secure the four corners of the
2 property?

3 A. One, we had taken custody of the property, we
4 wanted to continue that through the entire time
5 that we were there. We also wanted to assure
6 that nobody else came into the property.

7 Q. The corner of the Avery property that includes
8 Mr. Avery's residence, is that depicted also in
9 Exhibit No. 84, the next exhibit?

10 A. Yes, it is.

11 Q. Can you describe what Exhibit 84 is, please.

12 A. This is an aerial photo from the southeast
13 showing the northwest corner of the Avery
14 property. And then the outside properties from
15 there.

16 Q. I will have the jury look at Exhibit 84. And if
17 you would be so kind as to tell them what we're
18 looking at.

19 A. This is the same quarry for Radandt that we had
20 looked at. This is an open field. This would be
21 Steven Avery's residence. This would be Barb
22 Janda's residence. And then we're seeing the
23 beginning of the salvage yard.

24 Q. At least as to the west and as to the northwest,
25 does Exhibit 84 show the surrounding or adjacent

1 properties?

2 A. Yes, it does.

3 Q. Now, there was something yesterday that we heard
4 from Trooper Austin; it was called a deer camp.
5 Does Exhibit 84 show that?

6 A. Yes, it does. The deer camp is right in this
7 area.

8 Q. Just for the record, you are pointing to what
9 would be to the almost uppermost and leftmost
10 corner of the exhibit; is that right?

11 A. Yes.

12 Q. What did that consist of and what are we looking
13 at, if you can tell us?

14 A. That was a camp that Radandts used. They own
15 most of the land around this area and they used
16 that for deer hunting. It consisted of three
17 mobile homes that they had set up for deer
18 hunting or something of that nature.

19 Q. All right. Lieutenant Bowe, you talked about the
20 different berms or the different grade around
21 Mr. Avery's property. When referring to Exhibit
22 No. 84, could you describe that a little bit
23 further, please.

24 A. The berm on the west, you just want me to refer
25 to?

1 Q. If there's other -- other differences in
2 elevation that this wouldn't show, I would
3 appreciate if you would explain that what
4 surrounds Mr. Avery's.

5 A. There's a small berm that starts in this area,
6 Mr. Avery's property. Most of the salvage yard
7 is in what appears to be an old quarry.
8 Mr. Avery's property and the rest of the
9 residence were up on where the normal grade would
10 have been. So there's a small berm between his
11 property and Radandt's quarry. The further you
12 get to the south, the higher that berm gets,
13 between the two properties.

14 Q. Lieutenant Bowe, from within the 40 acres itself,
15 is there also a difference in grade?

16 A. Yes, there is.

17 Q. Can you describe that for us, please.

18 A. As I said, where the residence and the buildings
19 are, they appear to be on what was the original
20 grade. As you go into the quarry, you have to go
21 down hills into the quarry and then you reach a
22 bottom grade where it appears is where they hit
23 the -- the rock bed.

24 So it all slopes down as you go south.
25 And then it kind of levels out in the bottom.

1 And then when you get to the south end of it,
2 there is a large berm separating that property
3 from the next quarry.

4 Q. What's the next exhibit that you have in front of
5 you, what number?

6 A. Eighty-five.

7 Q. Okay. Could you just tell us what that is,
8 please.

9 A. This is an aerial photo from the south of the
10 entire Avery property.

11 Q. We're going to go through these rather quickly,
12 but I'm going to show you, now, Exhibit 85; does
13 that show the entirety of the 40 acre Avery
14 salvage property?

15 A. Yes, it does.

16 Q. If you can just very briefly orient us, what are
17 the four corners that we're talking about?

18 A. This is the north. This would be Steven Avery's
19 property to the northwest. This is where the
20 Command Post was set up. This would be Al and
21 Delores' residence. This is the southeast, this
22 is where the small retention pond is and where
23 the vehicle was found. And this would be the
24 southwest, this is where the conveyor would exit
25 the property.

1 Q. Does Exhibit No. 85 allow you to show the jury
2 all four locations where you had officers posted
3 throughout the day?

4 A. Yes, it does.

5 Q. And if you could just briefly point to those
6 areas.

7 A. There would be one officer in this corner, at the
8 end of the road.

9 Q. Let me just stop you there. Would that officer
10 be with a squad?

11 A. Yes.

12 Q. A marked squad?

13 A. Yes. Most of time, yes.

14 Q. Go ahead.

15 A. There was an officer down in this area under the
16 conveyor. There was an officer stationed in this
17 area, watching the top of the berm in this area
18 up here. And then we had officers up here at the
19 Command Post.

20 Q. Now, other than those four corners, if you will,
21 are there other access points? In other words,
22 is there other ways in which an individual or a
23 vehicle could enter this property?

24 A. The only way for a vehicle to enter the property
25 would be through the conveyor belt down here, or

1 through the main driveway up on the top.

2 It splits, you can get down through the
3 buildings, or you can come down this edge and
4 come down into it. There's a fence that runs
5 along here and is a pretty steep grade through
6 here. So you couldn't access it with a vehicle.
7 There's also berms that run down this side and
8 then around the bottom and then up this side.

9 Q. To the west of Steven Avery's, it does show a
10 body of water; do you see that on this exhibit?

11 A. Yes, I do.

12 Q. And can you point to that, please. What is that?

13 A. It's a low spot in the quarry where the water
14 gathers.

15 Q. Okay. This is a good -- good segue to talk about
16 the weather that week. Do you recall the
17 weather, the week beginning the 5th of November?

18 A. I wasn't there the 5th of November. I was
19 informed it rained through most of the evening.
20 When I got there on Sunday, the 6th, it was cold
21 and windy during the morning. We had a snow
22 shower that came in through the morning, which is
23 one reason why we didn't start opening the
24 vehicles until the afternoon. Through the rest
25 of the day -- or through the rest of the week, it

1 was normally cloudy and cold.

2 Q. The roadways from within the Avery property, when
3 you got there on the 6th, would you describe that
4 condition for us, please.

5 A. In the salvage yard?

6 Q. Yes.

7 A. They were very muddy. They were covered in
8 water. Some of them had as much as a foot of
9 water on them. So we had to be very careful
10 where we drove inside the salvage yard. For the
11 first few days, we didn't take squads down in
12 there. We would use four wheel drive vehicles if
13 we had to get in there, or walk through it.

14 Q. I think there's only three exhibits left. Why
15 don't you tell us, what's the next exhibit you
16 have?

17 A. Eighty-six.

18 Q. What does that show?

19 A. The aerial photo of the entire property from the
20 north.

21 Q. So what would be the exact opposite of 85; is
22 that right?

23 A. Correct.

24 Q. Opposite end?

25 A. Correct.

1 Q. Now, I am going to show Exhibit No. 86.
2 Virtually the same view as 85, just from the
3 north instead of the south; is that right?
4 A. Correct.
5 Q. You had mentioned that there were some searches
6 on areas that surrounded the Avery property,
7 including some gravel pits. Exhibit 87 and 88,
8 are those related to any of those searches?
9 A. These are photos that would have been taken
10 inside of one of the gravel pits.
11 Q. All right. Do you know, by looking at 87 and 88
12 which pit, or is that too difficult to testify
13 to?
14 A. Yeah, I wouldn't be sure.
15 Q. All right. Are you able to identify Exhibits 87
16 and 88 or not?
17 A. No.
18 Q. All right. We'll save those for another witness.
19 What was your schedule? In other words, how
20 often were you there; and were you ever relieved;
21 and did you ever go home from that location?
22 A. I arrived Sunday morning, approximately at 7:30.
23 Lieutenant Sippel had been there since Saturday.
24 I stayed through Sunday, stayed Sunday night.
25 Lieutenant Sippel went home Sunday night and came

1 back Sunday (sic) morning. I stayed until Monday
2 afternoon, actually Monday evening. I think I
3 left around 7:30 at night. And then I returned
4 the following morning again at about 7:00. So we
5 were both there during the day and then we took
6 turns being there at night.

7 Q. So how many hours straight would you be there and
8 then how many hours would you be off?

9 A. Generally, between 30 and 36 hours we would be
10 there. And then we would be off the property
11 roughly 12 hours.

12 Q. All right. How long did that last, again, for?

13 A. I left Friday night and didn't return to the
14 property. Lieutenant Sippel had returned Friday
15 morning and then I believe he was the last one
16 off the property Saturday when they left.

17 Q. The 12th?

18 A. Yes.

19 Q. Referring to Exhibit 86, which is the last
20 exhibit and the one that's shown, the buildings,
21 both the residences and the outbuildings, who was
22 responsible for coordinating the searches of
23 those?

24 A. That was coordinated by Investigator Wiegert and
25 Agent Fassbender.

1 Q. Okay. So the cars and the property itself was
2 your responsibility; is that right?

3 A. Correct.

4 Q. The buildings, that is, the interior searches,
5 was the lead investigator's; is that right?

6 A. Correct.

7 Q. Did you participate in any of those interior
8 searches or was your responsibilities limited to
9 exterior or vehicle searches?

10 A. The only participation I would have had with the
11 interior searches is if Investigator Wiegert or
12 Agent Fassbender required one of the teams from
13 inside one of the buildings to move somewhere
14 else. I may advise them of that or send somebody
15 to assist them in moving, but that was my only
16 involvement.

17 Q. All right. Finally, Lieutenant Bowe, I'm going
18 to direct your attention to March 1st and 2nd of
19 2006; did you return to the property on those two
20 days?

21 A. Yes, I did.

22 Q. And what were your responsibilities on March 1st
23 and 2nd?

24 A. On the 1st and 2nd, they executed a search
25 warrant for Mr. Avery's residence and his

1 detached garage. I was keeping track of the
2 individuals entering and exiting Mr. Avery's
3 residence.

4 Q. Is there a term for that?

5 A. I was logging them in and out.

6 Q. Okay. You weren't involved, however, in any
7 active searching?

8 A. No, I was not.

9 ATTORNEY KRATZ: All right. I would move
10 admission of Exhibits 79 through 86 at this time,
11 Judge.

12 ATTORNEY STRANG: I don't have any
13 objection.

14 THE COURT: Very well, those exhibits are
15 admitted.

16 ATTORNEY KRATZ: I'm sorry. That's all I
17 have of this witness.

18 THE COURT: Mr. Strang.

19 ATTORNEY STRANG: I would like to start
20 with Exhibit 85, if we could.

21 **CROSS-EXAMINATION**

22 BY ATTORNEY STRANG:

23 Q. Good morning, Lieutenant.

24 A. Good morning.

25 Q. I have got Exhibit 85 up on the screen, for no --

1 Well, I picked this one only because at least
2 north is to the top, which is where we're used to
3 looking at on maps. And you told us where the
4 security points, the 24 hour security points --
5 that's my term not yours --

6 A. Yes.

7 Q. -- but you know the four corners --

8 A. Four corners, yes.

9 Q. -- that you described. Before I get to those for
10 just a moment, you were logging people in and out
11 of this whole 40 acre area from November 6th, for
12 you, through the 11th or the 12th, as well,
13 weren't you?

14 A. Yes. Are you referring to the entrance?

15 Q. Well, that's where I'm going to go. And when I
16 say you logging, I don't mean you personally
17 necessarily, but that was one of the tasks you
18 were overseeing?

19 A. I did not oversee that, but there was an
20 individual logging people in and out of the
21 property.

22 Q. Okay. And where was that done?

23 A. Primarily, that was done where Avery Road met
24 147. There was a squad car parked right on Avery
25 Road, at the entrance.

1 Q. Okay. So, although -- although Avery Road, which
2 runs north to 147 and 147 was roughly east/west
3 at that point?

4 A. Yes.

5 Q. Although Avery Road is paved, it -- it really
6 only goes one place?

7 A. Correct.

8 Q. Dead ends at a cul-de-sac just outside the
9 business entrance?

10 A. Yeah, the pavement just ends right about in this
11 area. And then everything else is gravel
12 driveways from there, so.

13 Q. So when you, for example, would come for one of
14 these 30 to 36 hour shifts, you would get checked
15 in or logged in up north of this photo where you
16 turn off 147 --

17 A. Yes.

18 Q. -- to come down Avery Road?

19 A. Yes, I would.

20 Q. The logging in would involve somebody visually
21 identifying you and either you writing your name
22 on a log sheet or the officer with the log sheet
23 writing your name down?

24 A. Correct.

25 Q. Now, once you became familiar to the officers

1 keeping the log, that's pretty quick in terms of
2 identifying you.

3 A. We still had to identify who we were, the
4 officers weren't familiar with us at all, so.

5 Q. And it was a rotating group of officers who
6 were --

7 A. Yes.

8 Q. -- doing the logging?

9 A. Yes, it was.

10 Q. Okay. And you weren't necessarily coming in
11 uniform as you are today?

12 A. I always wore my work jacket so I had my patches
13 and my badge.

14 Q. Okay. But even there, yes, we can see you are
15 from the Calumet County Sheriff's Department, but
16 we want your name.

17 A. Right. Right.

18 Q. The purpose for -- Well, first of all, when --
19 when -- You are familiar with that sort of
20 logging operation?

21 A. Yes, I am.

22 Q. In fact, you did it on March 1st and 2nd?

23 A. Yes.

24 Q. At the smaller area of Mr. Avery's house?

25 A. Yes, I did.

1 Q. When you are logging people in and out, the
2 purpose is to log everyone in and out, correct?

3 A. Yes, it is.

4 Q. I'm sorry?

5 A. Yes, it is.

6 Q. Okay. Now -- And in general, if there's an
7 ongoing search or law enforcement effort, in
8 general, the idea would be to keep the public
9 out; that's one idea, right?

10 A. That's one aspect of it, yes.

11 Q. And in general, another aspect would be to know
12 which law enforcement officers are in?

13 A. Right. The primary purpose is to keep track of
14 who came onto the property.

15 Q. Now, this isn't to say that some members of the
16 public might not be allowed in. I mean, someone
17 who had a trade purpose or someone who needed to
18 pick up medication; if there was some particular
19 good reason for a member of the public to come
20 in, somebody at that perimeter logging point
21 either can make the decision or could radio back
22 and decide whether to let someone in for a
23 particular purpose or not?

24 A. Yes, they could.

25 Q. Law enforcement officers, it's not so much that

1 you are trying to keep them out, but you want --
2 you want to know who's in and who's leaving?

3 A. Correct.

4 Q. Just to keep track of bodies and personnel and
5 some control over the scene?

6 A. Correct.

7 Q. Was that the -- During a week in November,
8 roughly a week in November when you were out
9 there Sunday through Friday, was the log check in
10 point you have described the only place that
11 people were being logged in and out?

12 A. Yes, it was.

13 Q. Now, let's go, as I said, to the four security
14 points. Do you still have the laser?

15 A. Yes, I do.

16 Q. Okay. The one at the northwest corner, 24 hours
17 a day somebody -- and I assume they changed
18 shifts -- but someone would be in the squad car
19 sitting up there?

20 A. Yes, they would be in the area.

21 Q. Either in their squad car or wandering around?

22 A. Around on foot, yes.

23 Q. Somewhere close. All right. And the squad
24 car -- I don't know if you ever went over there
25 to see this personally, but the squad car

1 presumably would be parked near the end of that
2 gravel road?

3 A. Yes.

4 Q. Within yards, really, of the one burn barrel that
5 stands -- that stands, you know, east and a
6 little bit north of Steven Avery's trailer?

7 A. Are you talking the one on the other side of the
8 driveway?

9 Q. Yeah, we -- we -- we have seen the burn barrel
10 that's -- I don't know how to describe it other
11 than east and a little bit north.

12 A. Up in this area.

13 Q. Yeah, somewhere up in that area.

14 A. Yes.

15 Q. Okay. That's -- that's the general area where
16 that perimeter guard would be posted?

17 A. Correct.

18 Q. And then you did the other four corners. These
19 folks would get out of their cars from time to
20 time and walk the perimeter a little bit?

21 A. They would get out of their vehicles; they would
22 stretch their legs, walk around their car, yeah.

23 Q. And overnight, you know, 11 at night until 7:00
24 in the morning, in general, less searching, less
25 active searching was going on?

1 A. Generally, when it got dark, we didn't search.

2 Q. So other than folks at the Command Post and these

3 perimeter guards, many of the law enforcement

4 personnel on the scene would go home or go

5 somewhere?

6 A. Correct.

7 Q. And come back the next day with daylight?

8 A. Yes.

9 Q. So I understand you don't know how many or what

10 the total number of law enforcement officers

11 involved were, but the numbers sound to me like

12 dozens and dozens.

13 A. During the day?

14 Q. Yes, during the day, I'm sorry.

15 A. Depending on which day it was, yeah.

16 Q. Could have been something close to a hundred, a

17 little above, a little below?

18 A. I think a hundred would probably be the max.

19 Q. At peak?

20 A. At one day, yeah.

21 Q. In any event, though, at night, after dark, we

22 would drop down to the four perimeter guards and

23 then maybe a handful of people at one or both

24 Command Posts?

25 A. Correct.

1 Q. Now, if I understood you, on the search
2 assignment responsibility, was sort of a -- kind
3 of a simple division. You were -- You and
4 Lieutenant Sippel were responsible for
5 assignments on open area searches and car or
6 vehicle searches in the salvage yard?

7 A. Yes, we were.

8 Q. And then Investigator Wiegert and Special Agent
9 Fassbender were in charge of assignments for
10 searches within buildings, so to speak, on the
11 Avery property?

12 A. Yes.

13 Q. There were plenty of tasks available for people
14 in either your area of responsibility or the area
15 of responsibility covered by Mr. Wiegert and
16 Mr. Fassbender?

17 A. I'm not sure what you are asking.

18 Q. Well, I mean, there were a number of officers
19 involved in searching inside buildings and then a
20 number of people involved searching the open
21 areas?

22 A. Yes, there were.

23 Q. Okay. Now, at -- This scene, I think we know
24 this, but you know this scene is in Manitowoc
25 County, not Calumet County?

1 A. Yes, it is.

2 Q. So this was -- this was an atypical investigation
3 for you?

4 A. Because of the location?

5 Q. For a number of reasons, but specifically the
6 location. I mean, you are -- you are out of
7 county?

8 A. Yeah, I'm not familiar with the roads.

9 Q. Right. It's just -- it's atypical in the sense
10 that it's out of county for you?

11 A. Somewhat.

12 Q. And you knew -- you knew the reason for that, in
13 general, was that a decision had been made the
14 day before you got there, to turn over
15 investigative control to Sheriff Pagel, who runs
16 your department?

17 A. Yes.

18 Q. And then, of course, the department under him,
19 the Calumet County Sheriff's Department.

20 A. Yes.

21 Q. That -- Your understanding was the decision was
22 because there might be an appearance of a
23 conflict of interest involving the Manitowoc
24 County Sheriff's Department?

25 A. Possibly. I was not in part of that discussion

1 at all.

2 Q. Okay. All right. But you were told that Sheriff
3 Pagel was in charge?

4 A. Yes.

5 Q. And then Investigator Wiegert?

6 A. Yes.

7 Q. And, of course, Mr. Fassbender is from the
8 Division of Criminal Investigation, not either
9 one of the sheriff's departments?

10 A. Correct.

11 Q. Okay. You were aware of a lawsuit that Steven
12 Avery had pending against Manitowoc County at the
13 time?

14 A. Yes, I was.

15 Q. A federal lawsuit, was your understanding?

16 A. Just what I heard on the news. I really didn't
17 keep track of it.

18 Q. Sure. You -- You had contact, though, with a
19 number of Manitowoc County Sheriff's Department
20 officers during the six days that you were there?

21 A. Yes, I did.

22 Q. And -- And officers from all kinds of departments
23 in the area, right?

24 A. Correct.

25 Q. Two Rivers Police Department, Mishicot Fire

1 Department, all kinds of different departments
2 assisted?

3 A. Yes.

4 Q. Wisconsin State Patrol sent a large complement of
5 troopers?

6 A. Yes.

7 Q. So this was a collaborative effort of a large
8 number of law enforcement officers from a variety
9 of agencies?

10 A. Yes.

11 Q. You were aware that some of the Manitowoc County
12 Sheriff's Department officers, in particular, had
13 strong feelings about Mr. Avery and his lawsuit?

14 A. I'm not aware of that. Nobody voiced that to me.

15 Q. You didn't discuss the lawsuit of Mr. Avery --

16 A. No.

17 Q. -- one way or the other?

18 A. No.

19 Q. You met, during your time there, another --
20 actually someone of your rank, a lieutenant from
21 the Manitowoc County Sheriff's Department named
22 James Lenk?

23 A. Yes, I did.

24 Q. Had you known Lieutenant Lenk before?

25 A. No.

1 Q. But met him sometime during that week?

2 A. Sometime, yeah.

3 Q. He was in and out, involved in this effort?

4 A. Yes.

5 Q. You had also met Sergeant Andrew Colborn from the
6 Manitowoc County Sheriff's Department?

7 A. Yes.

8 Q. Again, he too had some role and was in and out at
9 various times?

10 A. Correct.

11 Q. Neither one of those two gentleman told you, as
12 one of the assigning officers of open field and
13 car searches, that they had been deposed, had
14 their depositions taken in Mr. Avery's lawsuit,
15 did they?

16 A. No.

17 Q. And no one else told you that either?

18 A. No.

19 Q. Did you meet a Manitowoc County Sheriff's
20 Department detective named Dave or David Remiker?

21 A. Yes.

22 Q. He had some role too, during the course of the
23 six days?

24 A. Yes.

25 Q. An investigator from Manitowoc County Sheriff's

1 Department named Dennis Jacobs?

2 A. Yes.

3 Q. Same thing, in and out --

4 A. Yes.

5 Q. -- with some role in this? Were -- Were -- At
6 any time were Mr. Lenk, Mr. Colborn, Mr. Remiker,
7 and Mr. Jacobs in your area of responsibility;
8 that is, involved in open field or car searches?

9 A. No, they were not.

10 Q. Is it fair to conclude, then, if you know, that
11 they were in Investigator Wiegert and Special
12 Agent Fassbender's area of search responsibility?

13 A. Yes, they were.

14 Q. Had you been asked to give up a couple of your
15 guys and take, let's say, Lenk and Colborn, for
16 open field and vehicle searches, you could have
17 done that?

18 A. Yes, I could have.

19 Q. I mean, to some extent, the bodies were
20 interchangeable?

21 A. I was provided with a group of people and I put
22 them in a place.

23 Q. Right.

24 A. Yes.

25 Q. And I guess it was a poorly phrased question, but

1 you were aware that there were some very
2 specialized, trained people from the Wisconsin
3 State Crime Laboratory in Madison who were among
4 the people involved in the search efforts?

5 A. I was aware the Crime Lab was on scene; I'm not
6 sure what they were -- what their function was.

7 Q. Okay. But -- But you are aware that -- that the
8 Crime Lab has people with some specialized
9 talents, whether that's fingerprints or --

10 A. Correct.

11 Q. -- trace evidence recovery, that kind of thing?

12 A. Correct.

13 Q. Okay. When you -- If you now go forward to
14 March 1st and March 2nd, 2006.

15 A. Okay.

16 Q. So we're not quite four months, but going on four
17 months later. That's the next time, actually,
18 that you were back to the Avery salvage property?

19 A. Yes.

20 Q. And this is the time when, in connection with a
21 search warrant, your role is to log people in and
22 out of Mr. Avery's trailer, his home?

23 A. Correct.

24 Q. There was someone else logging people in and out
25 of his garage right next door?

1 A. Correct.

2 Q. So these positions, logging people, it's a fairly
3 small area that you were responsible for?

4 A. Yes.

5 Q. The idea being to be quite careful or meticulous
6 about logging who comes and who goes?

7 A. Yes.

8 Q. I mean, in other words, essentially, you would
9 have a visual on the area that you are
10 responsible for logging?

11 A. Yes.

12 Q. While you were there on March 1 and March 2,
13 2006, you were in a position to see and I think,
14 actually, to log much of this. But you at least
15 saw carpeting removed from the hallway in Steven
16 Avery's home?

17 A. I saw them carry carpeting out, yes.

18 Q. And -- and you were back in the trailer yourself,
19 after the carpeting was removed.

20 A. Yes, I was. I believe I helped them remove some
21 stuff.

22 Q. Okay. So what you know is that the hallway that
23 runs back to the extra bedroom and the bathroom
24 and the master bedroom to the south, that hallway
25 there had all the carpeting removed and carried

1 out by law enforcement?

2 A. I believe so, yes.

3 Q. You saw the carpet removed, similarly, from the
4 entire master bedroom?

5 A. Yes.

6 Q. Sort of wall-to-wall carpet that was just
7 removed?

8 A. Yes.

9 Q. You saw the mattress removed from the master
10 bedroom?

11 A. Yes.

12 Q. The box springs.

13 A. Yes.

14 Q. And the entire bed frame in pieces?

15 A. Yes.

16 Q. Rails, head board, foot board, that kind of
17 thing?

18 A. Correct.

19 Q. Pillows, you saw taken?

20 A. They may have been; I believe they were bagged.

21 Q. And then you were -- you were aware, in your role
22 of logging the trailer, that actually the wood
23 paneling in the master bedroom, or Steven's
24 bedroom, was pulled off the walls and taken out?

25 A. Yes, it was.

1 Q. All of it, from that bedroom?

2 A. I'm not sure if all of it was taken or not; I
3 wasn't in there when they did that. But they
4 took out several pieces, yes.

5 Q. Okay. And I'm trying to remember if, you know,
6 if the inside of the closet was and I don't
7 either, but you saw a number of --

8 A. I saw pieces --

9 Q. -- pieces --

10 A. -- come out of the residence, yes.

11 Q. -- of the paneling on the walls?

12 A. Yes.

13 Q. Right down to the septic trap being removed from
14 below that, beneath that residence?

15 A. I didn't see that come out, but I'm aware that
16 they took that, yes.

17 Q. You were not aware of what was going on in the
18 garage?

19 A. No.

20 Q. That was not your responsibility?

21 A. No, other than what I could see from my vantage
22 point, I didn't know what was happening in there.

23 Q. Okay. Lieutenant Lenk and Sergeant Colborn were
24 not in the residence on March 1 and March 2; is
25 that your best recollection?

1 A. I don't recall them being in there at all, no.

2 Q. But do you recall them there and involved in the
3 garage search?

4 A. I don't recall them. I would have to check the
5 log.

6 Q. Okay. Well -- And one way or the other, you just
7 don't recall now?

8 A. I don't recall. I'm familiar with them, but I
9 don't know that I have really even talked to them
10 much.

11 Q. Fair enough.

12 ATTORNEY STRANG: That's all I have got.
13 Thank you. Oh, I'm sorry. I'm sorry.

14 Q. (By Attorney Strang)~ For the moment, I'm not
15 going to mark these five pages that I'm showing
16 you, because I don't know whether you will
17 recognize them or not, but I will ask you. What
18 do you say?

19 A. I haven't seen them before. I believe they are
20 going to be a log in for March 1st and March 2nd
21 for entering the property.

22 Q. But you haven't seen them before?

23 A. I haven't seen these before, no.

24 Q. None of it is your writing.

25 A. No.

1 Q. Or the log sheets you kept for the house on
2 March 1 and 2?

3 A. No. No. In fact, I'm on here.

4 Q. Very good. Was there a separate log point just
5 to get on the property on March 1 and March 2?

6 A. Yes, there was.

7 Q. So someone actually had to log in twice, then, if
8 he was involved --

9 A. If you entered --

10 Q. -- in the search?

11 A. If you entered -- Yeah, if you entered the garage
12 or the residence, we -- we would keep track of
13 people entering and leaving those parts. But
14 anybody who entered the property also logged in
15 when they got there and when they left the
16 property.

17 Q. And was that out, again, at Highway 147 and Avery
18 Road?

19 A. I believe that was down around Barb's residence.

20 Q. Closer in, because this was a smaller search
21 area?

22 A. It was a much smaller search area.

23 Q. This page, on its face, says it was cut by a Gary
24 Schultz of your department. And I'm curious, is
25 that -- is that form the sort of log sheet that

1 you were keeping on March 1 and 2?

2 A. This is the form that we used. These were
3 actually created for our large scale searches.
4 The top has the group leader listed and that's
5 how we broke it down and kept track of them that
6 way. We used these to log people in and out of
7 the residence because we had them available.

8 Q. Have you seen this page before?

9 A. I don't recall seeing this page before. This was
10 kept by Officer Schultz.

11 Q. You recognize the form, though?

12 A. Yes, I do.

13 Q. Same type of form you used on March 1 and 2?

14 A. Yes, it is.

15 Q. The form, then, is kept in the ordinary course of
16 the business of the Calumet County Sheriff's
17 Department?

18 A. This was something that was created on scene for
19 our large -- like I said, our large scale
20 searches.

21 Q. Right.

22 A. And when we came back, we had these left over, so
23 we decided to use them because they were set up
24 with the in and the out and we could keep track
25 of.

1 Q. Sure. And then the person keeping track is
2 simply recording observations he or she makes at
3 about the time he or she is observing who is
4 coming and going?

5 A. Yes.

6 Q. And then you folks kept these in the regular
7 course of the business of the sheriff's
8 department?

9 A. Yes.

10 Q. Okay.

11 (Exhibit No. 125 marked for identification.)

12 Q. (By Attorney Strang)~ So now that we have Exhibit
13 125 --

14 ATTORNEY KRATZ: Judge, could -- could I
15 inquire of counsel whether he intends to ask any
16 specific information on that form? If he does, then
17 I do need to be heard. If he is just showing the
18 form, the kind of form, I don't have any objection.

19 ATTORNEY STRANG: I have no -- no objection
20 to going to side bar for a moment --

21 THE COURT: All right.

22 ATTORNEY STRANG: -- if Mr. Kratz wishes.

23 (Side bar taken.)

24 Q. (By Attorney Strang)~ So we have the first page
25 that you looked at and then Mr. Buting was kind

1 enough to gather up the rest of the pages of
2 that. So I think we have got five pages now.

3 ATTORNEY KRATZ: What was the exhibit
4 number, Mr. Strang?

5 ATTORNEY STRANG: It's 125.

6 ATTORNEY KRATZ: Thank you.

7 THE COURT: Is this the first page, been
8 marked as 125?

9 ATTORNEY STRANG: But I'm going to staple
10 it so we have a complete exhibit.

11 Q. Okay. And so there is no mystery, pages two
12 through five are just like page one. I mean,
13 it's the same form, running log, and page five
14 where it ends is a partial page?

15 A. Correct.

16 Q. Okay. This isn't something that you recall ever
17 seeing before, this specific document, or is it?

18 A. Not this first page, no.

19 Q. The other pages you do or ...

20 A. There's one page, page number 3, where I have
21 initialed off on it, that would have been a lunch
22 break. Officer Schultz and I, we had a pickup
23 truck parked between the residence and the
24 garage.

25 Q. Mm-hmm.

1 A. We stayed in that truck and we watched our
2 perspective posts.

3 Q. Sure. Okay.

4 A. When we took a lunch break, everybody was cleared
5 out. He took his lunch break. I took over the
6 log and just verified that nobody entered and
7 then I initialed off that everybody was out of
8 the garage.

9 Q. You had reason to know that -- that Gary Schultz
10 was doing the same job for the garage that you
11 were doing for the trailer?

12 A. Correct.

13 Q. Log --

14 A. Yes.

15 Q. -- people --

16 A. Yes.

17 Q. -- into the garage?

18 A. Yes.

19 Q. And, again, in general, I mean, this is a form
20 you recognize and you yourself used the same form
21 on the same days, but for the trailer rather than
22 the garage?

23 A. Correct.

24 ATTORNEY STRANG: Okay. I will -- I will
25 move the exhibit -- admission of Exhibit 125. I

1 will just staple the five pages together so it's
2 complete.

3 THE COURT: All right. Mr. Kratz, do I
4 understand the State wishes to be heard?

5 ATTORNEY KRATZ: Yes, Judge. But that can
6 be after -- after examination of this witness.

7 THE COURT: All right. The Court will
8 reserve ruling at this time on the request for
9 admission.

10 ATTORNEY STRANG: And that is all I have.

11 THE COURT: Mr. Kratz, anything on
12 redirect?

13 ATTORNEY KRATZ: Just two questions.

14 **REDIRECT EXAMINATION**

15 BY ATTORNEY KRATZ:

16 Q. Lieutenant Bowe, Mr. Strang asked you, at night,
17 if there were -- it was dark in the -- in the
18 salvage area. Is that completely accurate?

19 A. No, it is not. Through most of the time, we had
20 a light set up in the southeast corner of the
21 salvage yard. They would be set up down in this
22 area where her vehicle was found.

23 Q. Her being Ms Halbach's?

24 A. Yes.

25 Q. What kind of lights are we talking about?

1 A. We're talking floodlights that are run off of a
2 generator.

3 Q. So that quadrant, the southeast quadrant, would
4 be lit up even during night time hours; is that
5 true?

6 A. Yes, it was.

7 Q. And the final area of inquiry I have, Lieutenant
8 Bowe, is the search responsibilities in your
9 unit, that is, open fields and vehicle searches;
10 did that include citizen searches?

11 A. There was one group of citizen searchers that
12 requested to assist. We allowed them to search
13 the open field north of the residence. They
14 actually started from 147, worked their way down.
15 They were told to stay out of the line fence
16 along the edge of the property and they were
17 watched to make sure that they didn't go near
18 that. And they worked back and worked their way
19 back up to the highway.

20 Q. They never entered the 40 acre perimeter?

21 A. Correct. I believe they had two representatives
22 that came into the property and spoke with the
23 investigators and myself. And that was the only
24 involvement they had inside the property.

25 Q. Now, within the 40 acre perimeter, individuals

1 who may have been involved in searching vehicles;
2 did those include non-sworn law enforcement
3 officers?

4 A. Yes, they did.

5 Q. And did those individuals, then, have any
6 specialized training, to your knowledge, in
7 either evidence collection or evidence
8 processing?

9 A. No, they did not.

10 Q. Now, conversely, the officers who searched the
11 interior, that is, those that Mr. Fassbender and
12 Mr. Wiegert had responsibility for; was it your
13 understanding that those officers required a
14 higher level of expertise?

15 A. The individuals that they were utilizing were
16 evidence techs, which means that they have been
17 specifically trained to preserve and gather
18 evidence.

19 Q. All right. Obviously, a different kind of
20 expertise than a volunteer firefighter; is that
21 right?

22 A. Yes, sir.

23 ATTORNEY KRATZ: That's all I have for this
24 witness, Judge. Thank you.

25 THE COURT: Mr. Strang.

1 ATTORNEY STRANG: Thank you.

2 RECROSS-EXAMINATION

3 BY ATTORNEY STRANG:

4 Q. When we were talking about dark out before, we
5 were -- we meant the sun going down --

6 A. Mm-hmm.

7 Q. -- correct? Teresa Halbach's Toyota already had
8 been removed from the scene before you came on
9 Sunday morning, November 6th?

10 A. Correct.

11 Q. But if I understood you, nevertheless, you kept
12 generators and some bright lights down in that
13 southeast corner of the property anyway?

14 A. Yes.

15 Q. The rest of the property was not similarly
16 illuminated at night?

17 A. My understanding was they had initially set the
18 lights up where her vehicle was.

19 Q. Mm-hmm.

20 A. Once her vehicle was removed, they kept the
21 lights running at night. They would reposition
22 them from night to night. Most of the time they
23 illuminated this corner. Sometimes they
24 illuminated out into this area. But they would
25 move them around.

1 ATTORNEY STRANG: Great, thanks.

2 THE COURT: All right. You are excused.

3 Members of the jury, at this time we'll
4 take our lunch break. Again, I remind you not to
5 discuss the case during the break and we'll
6 resume after lunch.

7 (Jury not present.)

8 THE COURT: You may be seated. Mr. Kratz,
9 the State wishes to be heard on the defense request
10 to admit Exhibit 125?

11 ATTORNEY KRATZ: We do, Judge. Actually,
12 Mr. Fallon has asked for an opportunity to discuss
13 that. Again, in candor to the Court, we believe
14 eventually this exhibit is going to be received,
15 just not through this particular witness. We may be
16 withdrawing our rejection, but we would ask to be
17 allowed to inform the Court of that after the lunch
18 break.

19 THE COURT: Oh. All right. We'll take our
20 lunch break now and resume at 1:00.

21 ATTORNEY KRATZ: Thank you.

22 (Noon recess taken.)

23 THE COURT: At this time we're back on the
24 record, outside the presence of the jury. I will
25 indicate for the record that before resuming this

1 afternoon I met with counsel in chambers concerning
2 a request that had been made to the Court from a
3 juror for permission to ask a question.

4 And it's the Court's policy, at least in
5 criminal cases, not to permit jurors to ask
6 questions, for a variety of reasons. I have
7 prepared a statement to read to the jury when
8 they return and I provided a copy of that
9 statement to the attorneys.

10 And, counsel, I just wish to confirm for
11 the record that the parties are in agreement with
12 the statement the Court proposes to read.

13 Mr. Kratz.

14 ATTORNEY KRATZ: Yes, Judge. Your Honor,
15 the State has received the Court's anticipated
16 response and we have no objection.

17 THE COURT: Mr. Strang.

18 ATTORNEY STRANG: We think it's a good
19 response.

20 THE COURT: All right. At this time, then,
21 we'll bring the jurors in.

22 (Jury present.)

23 THE COURT: You may be seated. Members of
24 the jury, before we begin with the first witness, I
25 have a statement I wish to read to you.

1 The Court has received a request from a
2 juror that the Court ask a -- an additional
3 question of the last witness. The Court
4 appreciates the jury's interest and attentiveness
5 in this case, but in criminal cases, the Court
6 does not permit jurors to submit questions to
7 witnesses, for a variety of reasons.

8 In our adversary system, it is the duty
9 and responsibility of the attorneys for each side
10 to ask the questions. Sometimes a juror may ask
11 a question about evidence which is inadmissible
12 and the Court does not want the jury to speculate
13 about why a question may not be allowed to be
14 asked.

15 Other times the jury may be anticipating
16 evidence that will be introduced later. The
17 parties have the right to control the order in
18 which the evidence is received.

19 To assist you in performing your
20 important task, you are allowed to take written
21 notes during the trial. At the end of the trial
22 each juror will receive a written copy of the
23 Court's final instructions. However, for the
24 reasons that I have stated, among others, I must
25 tell you that the jury will not be allowed to

1 pose questions for witnesses in this case. You
2 are to draw no inference for or against either
3 party, because of that restriction.

4 Mr. Kratz, you may call the State's next
5 witness.

6 ATTORNEY KRATZ: Thank you, Judge. State
7 will call Pete O'Connor to the stand.

8 **DEPUTY PETER O'CONNOR**, called as a
9 witness herein, having been first duly sworn, was
10 examined and testified as follows:

11 THE CLERK: Please be seated. Please state
12 your name and spell your last name for the record.

13 THE WITNESS: Peter O'Connor,
14 O-'C-o-n-n-o-r.

15 **DIRECT EXAMINATION**

16 BY ATTORNEY KRATZ:

17 Q. Good afternoon, sir. Could you tell us how you
18 are employed, please.

19 A. I'm employed as a deputy with the Manitowoc
20 County Sheriff's Department in the Patrol
21 Division.

22 Q. How long have you been so employed?

23 A. Just over 18 years.

24 Q. And were you employed on that capacity on
25 November 5th of 2005?

1 A. Yes, I was.

2 Q. Deputy O'Connor, on November 5th, were you asked
3 to respond to a call at the Avery Salvage Yard?

4 A. Yes, I was.

5 Q. Can you tell us where that is located, please.

6 A. It would be off of Highway 147 and Avery Road. I
7 believe it's in the Town of Gibson, in Manitowoc
8 County.

9 Q. Is that also in the State of Wisconsin?

10 A. Yes, it is.

11 Q. Did you, in fact, respond to that scene?

12 A. Yes, I did.

13 Q. And about -- First of all, when did you get the
14 call to go to that property?

15 A. It would have been approximately 10:50 a.m.

16 Q. Did you proceed to that scene?

17 A. Yes, I did.

18 Q. About what time did you get there?

19 A. I arrived at approximately 10:54.

20 Q. At 10:54 a.m., then, could you tell the jury what
21 you did and what, if anything, you saw?

22 A. At first I took up a position on what would be
23 the north side of Highway 147 at the intersection
24 of Avery Road. I was instructed by Detective
25 Remiker to monitor the scene and see if anyone

1 was attempting to leave the scene.

2 A short time later I did notice some
3 vehicles driving down Avery Road onto Highway
4 147. I did advise Detective Remiker of this, at
5 which point he instructed me to go onto Avery
6 Road, just off of 147, and put up a roadblock and
7 detain anyone who was attempting to leave off of
8 Avery Road.

9 Q. Were you able to perform that duty?

10 A. Yes, I was.

11 Q. About what time did you set up this roadblock?

12 A. Approximately 10:56 a.m.

13 Q. So within the two minutes from when you arrived
14 and when you set up the roadblock, had you
15 observed any vehicles leaving or entering the
16 Avery salvage property itself?

17 A. There were none that entered. I believe there
18 were two that had left.

19 Q. All right. At 10:56, then, could you tell the
20 jury what you did.

21 A. I set up the roadblock on Avery Road, just off of
22 Highway 147. The primary duty at that time was
23 to prevent anyone from leaving the property and
24 prevent anyone, other than law enforcement
25 personnel, from entering the property. During

1 the time I was there, I did detain six vehicles
2 in total.

3 Q. Six vehicles entering or leaving?

4 A. They were -- They would have been leaving the
5 property.

6 Q. All right. And at that time, at least at that
7 early stage, did you individually know what was
8 happening; in other words, did you know what the
9 purpose of the call was?

10 A. Not totally. Detective Remiker apparently had
11 some information that there was an individual, or
12 individuals, on the property and they had
13 possibly found the vehicle belonging to Teresa
14 Halbach.

15 Q. All right. Deputy O'Connor, the road, Avery Road
16 itself, can you describe that for the jury?

17 A. It's a small town road. I believe it's paved.
18 It runs basically south off of Highway 147. Runs
19 back to the Avery property. It's a small two
20 lane road.

21 There's also some large LP gas tanks
22 just off of Avery Road. I believe they use it as
23 a filling station for trucks.

24 Q. All right. Deputy O'Connor, to your knowledge,
25 were you the first law enforcement officer of any

1 county to arrive at that scene?

2 A. Yes, I was.

3 Q. Did you observe any other law enforcement
4 officers arrive at that location?

5 A. A short time later, probably within a couple of
6 minutes of my arrival, Sergeant Orth of our
7 department arrived, followed shortly thereafter,
8 probably by a minute or two, by Lieutenant
9 Hermann. And he was followed almost immediately
10 by Detective Remiker.

11 Q. All right. The location that you were stationed
12 at, how far is that from the Avery salvage
13 property itself; in other words, the 40 acre
14 salvage yard, if you know?

15 A. I'm not real sure how far up the property comes
16 to Highway 147; however, based upon, like, where
17 the office area would be and the residences, I
18 was probably, I'm going to just guess, a quarter
19 of a mile.

20 Q. All right. You said Sergeant Orth would have
21 been the second to arrive; is that right?

22 A. Yes.

23 Q. Would he have been the first officer to actually
24 drive into the property itself?

25 A. Yes, he would have.

1 Q. And you didn't do that?

2 A. No, I did not.

3 Q. You stayed on the highway?

4 A. I stayed up at that position until I was relieved
5 by Deputy Haese at approximately 2:02 p.m.

6 Q. All right. You said after Sergeant Orth and
7 Lieutenant Hermann and then Detective Remiker
8 arrived; did you see any other law enforcement
9 presence?

10 A. There was various people coming at various times.
11 I recall yourself being there eventually.
12 Investigator Wiegert, I believe his name is, with
13 your department, came by. Assistant District
14 Attorney Griesbach from our District Attorney's
15 Office arrived. So there was -- I remember your
16 sheriff from this county arriving, Deputy
17 Inspector Greg Schetter.

18 Q. All right. Let me just -- Let me just stop you
19 there. The Calumet presence, that is Calumet
20 County Sheriff's investigative staff; do you know
21 about how long after Detective Remiker got there
22 that they arrived at that location?

23 A. No, but I wouldn't think it was very long,
24 probably within a half an hour or so.

25 Q. All right. Lastly, Deputy O'Connor, other than

1 that first late morning and into the afternoon of
2 Saturday, the 5th of November, did you have any
3 other involvement in either search efforts or any
4 other law enforcement efforts at that location?

5 A. I was not involved in any search efforts. After
6 I was relieved by Deputy Haese, I did go back to
7 Manitowoc. I was instructed to pick up some
8 supplies and bring them back. I arrived back on
9 scene at approximately 3:23 p.m. to drop off the
10 items. I left approximately 20 minutes later.

11 Q. Let me just stop you. What kind of supplies are
12 we talking about?

13 A. I was instructed to take some ropes, bungee
14 cords, and tent stakes out to the scene.

15 Q. All right.

16 A. And then on November 10th, I was instructed to do
17 basically the same thing I had done. I set up on
18 Avery Road. This time, however, I was keeping a
19 log of the personnel coming in and leaving the
20 scene. I arrived there at approximately
21 7:00 a.m., leaving at approximately 5:00 p.m.
22 that day.

23 Q. Other than logging individuals coming in and
24 going out, did you have any other involvement
25 that day?

1 A. No, I did not.

2 ATTORNEY KRATZ: That's all I have of
3 Deputy O'Connor, Judge.

4 THE COURT: Mr. Strang.

5 ATTORNEY STRANG: Thank you.

6 **CROSS-EXAMINATION**

7 BY ATTORNEY STRANG:

8 Q. When you arrived on November 5, you actually go
9 no further than just off of Highway 147?

10 A. Correct.

11 Q. And during your time there, you are not keeping
12 any log of who's coming or going at that time?

13 A. No, I'm not.

14 Q. Okay. You -- You suggested that there may have
15 been two vehicles that left before you started
16 stopping people coming or going. Could that have
17 been -- Are you referring maybe to three pickup
18 trucks?

19 A. I recall one of them being a pickup truck. I
20 don't recall what the other vehicle would have
21 been.

22 Q. This may help. Let's see if I can make a short
23 tape play for you. We should hear it if things
24 work right. And it's on a CD. I'm just going to
25 suggest to you that it's a -- it's a radio

1 dispatch tape from November 5. Let's see if I
2 can make it go and see if that helps.

3 "10858, just received a call from Cal
4 County, there's an individual on the property off
5 of 147 -- "

6 "Mm-hmm."

7 "-- that may be out with that vehicle
8 (inaudible).

9 Q. Let me just stop it right there. Do you -- do
10 you recognize any of the voices we have?

11 A. The primary one sounds like it's Detective
12 Remiker and 496 would have been Lieutenant
13 Hermann.

14 Q. What is -- what's 496?

15 A. That's our call numbers, when dispatch assigns a
16 call, our numbers are given to the officer to
17 respond.

18 Q. Is this like a badge number?

19 A. Correct.

20 Q. Okay. And are you reasonably familiar with who
21 is who by call number?

22 A. Pretty much.

23 Q. So we heard Detective Remiker who is 278, right?

24 A. Correct.

25 Q. And I'm sorry, 496 was Lieutenant Hermann?

1 A. Correct.

2 Q. There are two Hermann's in your department,
3 right?

4 A. Correct.

5 Q. The lieutenant is Todd, if I'm remembering right?

6 A. He was lieutenant at that time; he's since been
7 promoted to deputy inspector but, yes, that would
8 be Todd.

9 Q. And there's a Robert, who was the deputy
10 inspector that is now the elected sheriff, is it?

11 A. At that time he was the inspector and now he is
12 the elected sheriff.

13 Q. Okay. And this is Todd, the lieutenant, we're
14 hearing?

15 A. Correct.

16 Q. Okay.

17 (Inaudible.)

18 "Dispatch, copy."

19 "405-278."

20 Q. (By Attorney Strang)~ 405 is you?

21 A. That's me.

22 "147" (Inaudible.)

23 "Okay. Get over there, don't have a lot
24 of details. Got a call, Cal County is heading
25 that way also."

1 Q. (By Attorney Strang)~ Now, what are you getting
2 there?

3 A. Well, 405 is me. And I was just saying where I
4 was. I was not real far from the Avery property
5 at that time. The other officer was Detective
6 Remiker and he was just informing me that they
7 didn't have a lot of information, but I should
8 head that way.

9 Q. Okay. You essentially answered my question, but
10 let's just nail down, you recognize the tape?

11 A. Correct.

12 Q. I mean, this comes back to you as events --

13 A. Correct.

14 Q. -- of about the time on November 5 you have
15 described?

16 A. Yes.

17 Q. Okay.

18 (Inaudible.)

19 "I will set up by the entrance across
20 the street."

21 "10-4."

22 "278, can you give me a 21?"

23 Q. (By Attorney Strang)~ That's the dispatcher
24 calling?

25 A. Correct.

1 Q. To Detective Remiker?

2 A. Yes.

3 Q. Asking for a 21, which is a location?

4 A. No, 21 is a telephone call.

5 Q. Telephone call. 1021.

6 A. 1020 would be location. 1021 is a telephone
7 call.

8 Q. Okay.

9 "278."

10 (Inaudible.)

11 "I have a pickup truck coming out of
12 there."

13 Q. (By Attorney Strang)~ That's Remiker.

14 "Why don't you go in and try and make
15 contact. Unknown who she is, female party,
16 possibly just a citizen who is out there. She
17 received permission from the property owner to
18 look around. We're not even sure where she is.
19 I'm going to give her a call; I just got a cell
20 phone number.

21 Q. (By Attorney Strang)~ Okay. So you are the one
22 who says there's a pickup truck coming out of
23 there?

24 A. I remember saying that, yes.

25 Q. And then Detective Remiker is saying, why don't

1 you go in and try to make contact with the
2 citizen?

3 A. Correct.

4 Q. Is that -- I mean, that's the gist of what we're
5 hearing?

6 "So this is a private party that's
7 supposed to be back there?"

8 "It might be, I didn't get a lot of
9 information from Cal County. That's all they
10 could give me."

11 "10-4."

12 Q. (By Attorney Strang)~ That's you?

13 (Inaudible.)

14 "405, get in there to get more
15 information, looks like it might be the vehicle."

16 (Inaudible.)

17 "I have three pickup trucks coming out
18 of there."

19 (Inaudible.)

20 Q. (By Attorney Strang)~ That was you?

21 A. Saying the pickup truck is coming out, yes.

22 Q. I got three pickup trucks coming out of there
23 sometime. And this is Remiker, right before
24 that, telling you get in there?

25 A. Correct.

1 Q. Meaning go onto the property?

2 A. Correct.

3 Q. But you didn't?

4 A. No, I did not.

5 Q. Okay. And just tell us -- tell us why that is?

6 A. I believe once I said that those pickup trucks

7 were leaving, I believe that he said that I

8 should stop the traffic and identify.

9 Q. Yeah, and actually, you're exactly right.

10 "As of right now, block off that road;

11 nobody goes in, nobody comes out. Get license

12 plates. Coming into Mishicot."

13 "405, dispatch."

14 "I copy."

15 "Ford Lincoln 38152."

16 (Inaudible.)

17 Q. (By Attorney Strang)~ Now, that's exactly what I

18 think we heard Remiker say, as of right now block

19 off that road?

20 A. Correct.

21 Q. Nobody goes in, nobody comes out, get license

22 plates?

23 A. Correct.

24 Q. And then the next thing we hear is you calling

25 dispatch with a license plate?

1 A. Correct.

2 Q. Okay. And it goes from there and then within
3 just a few minutes, is it Sergeant Orth and
4 Detective Remiker and Lieutenant Hermann all
5 arrive?

6 A. Correct.

7 Q. In something like that -- Orth, Hermann, Remiker,
8 in that order?

9 A. Correct.

10 Q. Okay. So -- So we got our -- one pickup truck
11 coming out of there earlier and then you say
12 there have been three pickup trucks coming out
13 there sometime?

14 A. The one that I ran the plate on, I believe got
15 out before I was able to get set up. So I just
16 ran the plate as he went by me.

17 Q. Okay.

18 A. There was other vehicles that I could see coming
19 down Avery Road; those I do believe I was
20 successful in stopping.

21 Q. And did there come a time shortly after this
22 where you -- one of the people you stopped you
23 found had something called a body only warrant?

24 A. Correct.

25 Q. What's a body only warrant?

1 A. It's put out by the Courts. Generally speaking,
2 it's for if they don't show up for a court
3 appearance or some sort of a matter. They will
4 put out a body only, which means that they cannot
5 bail themselves out, they have to go before the
6 court to satisfy the warrant.

7 Q. Right. So you have got an active open warrant
8 for someone; you as a sworn law enforcement
9 officer are allowed to take them into custody
10 once you have them and you know there is a
11 warrant for them?

12 A. Correct.

13 Q. Okay. And that just -- that was somebody who was
14 coming out?

15 A. Yes, it was.

16 Q. Not a member of the Avery family?

17 A. No.

18 Q. Just somebody who happened to be there?

19 A. Just somebody who happened to be there and coming
20 out.

21 Q. And, in general, were these -- did these appear
22 to be customers coming out that Saturday morning?

23 A. Yes.

24 Q. The business was open?

25 A. I believe it was open until noon that day.

1 Q. And so I'm just -- I'm not entirely clear. You
2 think it's four pickup trucks that left before
3 you started stopping the traffic or is a total of
4 three? Are you clear anymore?

5 A. I thought it was only one that actually got -- I
6 think it was two that got past me. I could not
7 get the first one's license plate. The second
8 one was the one that I called out, I believe. I
9 believe anything else I was able to stop before
10 they were able to get out, as best as I can
11 recall.

12 Q. Maybe I misunderstood. I'm going to go back just
13 a little bit.

14 "As of right now, block off that road;
15 nobody goes in, nobody comes out. Get license
16 plates."

17 Q. Going back a little more.

18 (Inaudible.)

19 "405, get in there to get more
20 information, looks like it might be the vehicle."

21 (Inaudible.)

22 "I have three pickup trucks coming out
23 of there."

24 (Inaudible.)

25 Q. (By Attorney Strang)~ Am I hearing that right,

1 that's you saying, I have had three pickup trucks
2 come out of there sometime?

3 A. Sounds garbled to me on this end, so I can't tell
4 what number I'm saying.

5 Q. Okay. And in any event, though, first you are
6 being told to get in there. And then, now,
7 immediately after this, you are being told, as of
8 right now, block off that road?

9 A. Correct.

10 "As of right now, block off that road.
11 Nobody goes in, nobody comes out. Get license
12 plates. Coming in to Mishicot."

13 Q. And that's what you do?

14 A. Correct.

15 Q. And I'm sorry, what was the second day when you
16 were out there for 10 hours, 7 to 5 and did keep
17 a log?

18 A. That would have been the 10th, I believe.

19 Q. Your job that day was simply maintain a log?

20 A. Just maintaining a log, logging people coming in,
21 logging people going out, and making sure nobody
22 comes in who wasn't supposed to be in.

23 Q. All right. Very well. So that includes checking
24 law enforcement officers' identification?

25 A. Correct.

1 Q. And certainly checking citizens and probably
2 screening and keeping most of them out?

3 A. Correct.

4 ATTORNEY STRANG: That's all I have.

5 ATTORNEY KRATZ: Just one moment, counsel.

6 THE COURT: Mr. Strang, the court reporter
7 was just telling me she had trouble hearing
8 everything that was coming through on the audio. Is
9 that an exhibit or is it going to become one?

10 ATTORNEY STRANG: Probably make sense to
11 make it an exhibit.

12 THE COURT: I think that would be good,
13 because otherwise I'm not sure that the record will
14 be accurate.

15 ATTORNEY STRANG: Why don't -- Why don't we
16 call it 126.

17 THE COURT: Okay.

18 ATTORNEY STRANG: And I -- it's on a CD
19 with four tracks. I will dupe it overnight, burn a
20 copy and we can leave this one with the Court.

21 THE COURT: Very well. Is that acceptable
22 to the State?

23 ATTORNEY KRATZ: It is, in fact, we're
24 about to do that with a photo, Judge. That's just
25 fine.

1 THE COURT: Okay.

2 REDIRECT EXAMINATION

3 BY ATTORNEY KRATZ:

4 Q. This photo Deputy O'Connor, we're going to be
5 calling Exhibit 127. We're going to be replacing
6 the electronic version with a 4 by 6, but to help
7 the jury understand what we're looking at, why
8 don't you tell us what Exhibit 127 is.

9 A. Looks like an aerial photo of the -- partially
10 the Avery property. Looks like that would be
11 Highway 147 there and Avery Road.

12 Q. There's a laser pointer up right next to you
13 there.

14 A. Okay.

15 Q. If you can show us Highway 147 and what would be
16 Avery Road.

17 A. I believe this would be Highway 147 here, the
18 diagonal, and then this would be Avery Road
19 coming in here.

20 Q. But 147 will be to the top of that exhibit --

21 A. Correct.

22 Q. -- and Avery Road goes from pretty much left to
23 right towards the top of the exhibit; is that
24 correct?

25 A. Correct.

1 Q. And that exhibit really shows the entirety of the
2 Avery Road, that is, what would be a service road
3 or the entrance to the Avery salvage property; is
4 that correct?

5 A. Correct.

6 Q. In other words, as we look at this exhibit from
7 left to right, that's the whole road?

8 A. Yes.

9 Q. All right. And the furthest right point on that
10 exhibit, that's where the business is and, in
11 fact, some of the residences --

12 A. Correct.

13 Q. -- is that right? Now, could you just show the
14 jury, just so they are oriented, where was it
15 that you were stationed and where were you
16 stopping the vehicles?

17 A. This area right here would be the propane tanks I
18 was talking about.

19 Q. All right.

20 A. So it would have been just to the Highway 147
21 side of those tanks, right in this area.

22 Q. All right. So you are actually south of Highway
23 147 a ways, a couple hundred feet maybe?

24 A. That would be a fair estimate, yes.

25 ATTORNEY KRATZ: Very good. That's all I

1 have, then. And, Judge, when we get the hard copy
2 of this, which may already be in the court file, but
3 we will replace and have received Exhibit 127, I
4 believe as admission.

5 ATTORNEY STRANG: That's works just fine.
6 That works just fine.

7 THE COURT: All right. The exhibit is
8 admitted.

9 ATTORNEY STRANG: I just will nail this
10 down with one last question.

11 **REXCROSS-EXAMINATION**

12 BY ATTORNEY STRANG:

13 Q. So, between 10:56 and when you leave at about
14 2:00 p.m on November 5, there is no log of law
15 enforcement people coming into or leaving the
16 Avery property?

17 A. I did not start one. I don't know if one of the
18 other officers that were down below started one
19 or not.

20 THE COURT: Very well, Mr. O'Connor, you
21 are excused.

22 ATTORNEY KRATZ: My next witness, Judge?

23 THE COURT: Yes.

24 ATTORNEY KRATZ: State would call Sergeant
25 Orth to the stand.

1 THE COURT: Members of the jury, you can
2 stand up and stretch a bit if you wish before the
3 next witness comes in.

4 **SERGEANT JASON ORTH**, called as a witness
5 herein, having been first duly sworn, was
6 examined and testified as follows:

7 THE CLERK: Please be seated. Please state
8 your name and spell your last name for the record.

9 THE WITNESS: Jason Orth, O-r-t-h.

10 **DIRECT EXAMINATION**

11 BY ATTORNEY KRATZ:

12 Q. Mr. Orth, could you tell us how are you employed,
13 sir?

14 A. Patrol sergeant with Manitowoc County Sheriff's
15 Department.

16 Q. How long have you worked for Manitowoc County?

17 A. Just under 10 years.

18 Q. And were you employed in a law enforcement
19 capacity before that?

20 A. No.

21 Q. What are your duties with the department at this
22 time?

23 A. As I mentioned, I'm a Patrol Sergeant for the
24 Patrol Division.

25 Q. General -- general traffic and --

1 A. Traffic and criminal investigations.

2 Q. All right. Sergeant Orth, I'm going to direct
3 your attention to November 5th of 2005, ask if
4 you were employed with Manitowoc County at that
5 time?

6 A. Yes, I was.

7 Q. Were you in roughly the same capacity?

8 A. Correct.

9 Q. On that date, in fact, sometime just before
10 11:00 in the morning, were you called to a
11 property known as the Avery Salvage Yard?

12 A. Yes, I was.

13 Q. And did you proceed to that scene?

14 A. Yes, I did.

15 Q. Do you recall about what time you arrived at that
16 scene?

17 A. Approximately 10:59 hours, 10:59 a.m.

18 Q. Tell the jury what you did when you got to that
19 scene, please.

20 A. I proceeded down to the southernmost portion of
21 the property, the southeastern portion of the
22 property where I was flagged down by two white
23 females who were later identified as Pamela and
24 Nikole Sturm.

25 Q. As you testify, I'm going to show you an exhibit

1 which has already been received as Exhibit
2 No. 86. There's a laser pointer in front of you
3 and you should feel free to, if you believe it
4 will assist your testimony or the jury's
5 understanding, to use that laser pointer.

6 First of all, Exhibit 86, does that look
7 familiar to you; are you oriented all right when
8 you look at that?

9 A. That would be the residence on the lower left
10 hand corner, trailer?

11 Q. Yes, the business, the entrance, I believe it's
12 uncontested, is in the lower left hand corner.
13 Avery Road would be towards us if you're looking
14 from north to south.

15 A. Over here is where you are saying the main
16 entrance is?

17 Q. If you come towards us, down on the exhibit,
18 Highway 147 would be off the screen to the
19 bottom.

20 A. Okay. All right. Then I would have proceeded
21 down the eastern side here, down to the lower
22 area.

23 Q. All right. Sergeant Orth, were you the first law
24 enforcement officer, at least that you observed,
25 that was on the Avery property itself?

1 A. Yes, I was.

2 Q. Now, you are using the pointer and you were
3 showing, I think, the jury that you were
4 traveling from what would be a generally
5 northerly direction south along what would be the
6 east side or the left side of the property; is
7 that right?

8 A. Correct.

9 Q. Can you show us the road that you traveled on
10 please?

11 A. (Witness demonstrates.)

12 Q. All right. And, again, the record should reflect
13 that you showed us that service road or driveway
14 on the easternmost edge of the property. Where
15 was it that you stopped your vehicle?

16 A. I stopped the vehicle right where Pamela and
17 Nikole Sturm were standing, which is in the
18 southeastern portion of the property.

19 Q. Do you recall any piece of equipment being close
20 to that location?

21 A. There was a vehicle crusher in that general area.

22 Q. Did you see these women when you got there?

23 A. Yes, I observed them -- actually, they were
24 attempting to get my attention. They were
25 flagging me down.

1 Q. Let me ask, Sergeant Orth, whether you were
2 driving a marked or an unmarked patrol unit?

3 A. It was a fully marked patrol car.

4 Q. Tell the jury what you saw when you arrived.

5 A. About that time I saw Pamela and Nikole Sturm
6 both physically upset, as they were crying. They
7 immediately directed my attention to the
8 southernmost row of junked vehicles. And one of
9 the two had indicated that the vehicle in
10 question was approximately 10 vehicles in.

11 Q. Now, when you say the southernmost road, can you
12 tell us what you are talking about?

13 A. On the picture?

14 Q. Yeah, if I zoom in a little bit here, tell me if
15 that helps?

16 A. There we go. They were positioned right around
17 this area and they were directing my attention to
18 this southernmost row of vehicles.

19 Q. And the record should reflect that you are
20 pointing to an area south of the pond or what
21 appears to be a body of water which is also south
22 of the crusher; is that right?

23 A. Correct.

24 Q. From -- And maybe with this more zoomed in
25 version of Exhibit No. 86, could you once again

1 show us where you parked, and if you proceeded on
2 foot, which way you walked?

3 A. I parked the squad car right in this general area
4 near the crusher. I asked both Pamela and Nikole
5 to remain at this location. And then I walked
6 down this overgrown access road, which led to the
7 southernmost row of vehicles.

8 Q. Did you walk around the pond, that would be
9 around the left of the pond?

10 A. Correct, the southeast side.

11 Q. And, again, Sergeant Orth, were there any other
12 law enforcement officers at that location?

13 A. No, I was the only one at that time.

14 Q. And were there citizens that were meeting with or
15 speaking with either of the Sturm women at that
16 time?

17 A. No.

18 Q. Tell us where you walked and tell the jury what
19 you saw.

20 A. I walked down this overgrown access road towards
21 the vehicle in question, a green or blue RAV4. I
22 observed that the vehicle did not have any
23 registration plate on the rear, as I was
24 approaching.

25 It had two branches covering the back of

1 the vehicle. It had a old wooden fence post
2 propped up against the passenger side rear
3 taillight. It had an old vehicle hood resting up
4 against the passenger side rear fender. It had a
5 piece of plywood propped up against the front
6 passenger side fender.

7 It had at least one branch covering the
8 roof and at least one branch covering the hood of
9 the vehicle. So it was quite obvious somebody
10 attempted to conceal it.

11 Q. Was there anybody in that area or location when
12 you got there?

13 A. No one was in that area at all.

14 Q. Did you approach the vehicle?

15 A. I did approach the vehicle on the passenger side
16 and immediately glanced in the front passenger
17 side window looking for persons.

18 Q. Looking for what?

19 A. Looking for Teresa.

20 Q. Was she in the vehicle?

21 A. Teresa was not in the vehicle; it appeared to be
22 unoccupied.

23 Q. Did you attempt to open any of the doors?

24 A. No, I did not.

25 Q. Did you in any other way touch or disturb the

1 vehicle?

2 A. No, I did not.

3 Q. After looking in the vehicle and not finding a
4 body, what did you do?

5 A. At that time my next goal was to positively
6 identify the vehicle; therefore, I walked around
7 the rear of the vehicle to the driver's side and
8 attempted to read the VIN number. However, with
9 it being overcast and shadows and so forth, I was
10 unable to clearly read the VIN number.

11 Q. What did you do then?

12 A. At that time I observed Detective Remiker and
13 Lieutenant Hermann approaching the vehicle.
14 Therefore, I met them several feet behind the
15 vehicle.

16 Q. Again, referring to Exhibit No. 86, could you
17 direct the jury to approximately -- first of all,
18 approximately where the RAV4 was and then where
19 did you meet with Detective Remiker?

20 A. Okay. Detective Remiker and Lieutenant Hermann
21 parked in the same general area of my squad car
22 back by the crusher area. They walked the same
23 exact path I did up and over and the vehicle was
24 in this general area.

25 Q. All right.

1 A. And I met them approximately seven feet behind
2 the vehicle.

3 Q. Upon Detective Remiker and Lieutenant Hermann's
4 arrival, did you note whether either of those
5 individuals touched, entered, or otherwise
6 disturbed the vehicle?

7 A. No, they did not. Lieutenant Hermann remained
8 approximately seven feet behind the vehicle.
9 Detective Remiker and I then re-approached the
10 vehicle in attempts to positively ID it.

11 Q. How?

12 A. Detective Remiker walked up the passenger side.
13 I believe he had a flashlight. He started
14 viewing the VIN number. While he was viewing the
15 VIN number, I looked in the back window, once
16 again to verify Teresa was not in the vehicle.
17 While looking in the back window, I observed --
18 it turns out it was a photo memory card that had
19 Teresa's name written on it. Moments later
20 Detective Remiker informed me the VIN number also
21 matched.

22 Q. After obtaining a positive identification for the
23 vehicle, what did you do then?

24 A. I proceeded approximately 30 feet behind the
25 vehicle and started providing security.

1 Detective Remiker and Lieutenant Hermann
2 immediately proceeded back to the staging area
3 where we parked our squad cars to once again talk
4 to Pamela and Nikole Sturm.

5 Q. What do you mean by staging area?

6 A. The area where we were parking our vehicles and
7 later in the investigation where other officers
8 started parking when they arrived.

9 Q. Could you show us, again, on the overview?

10 A. Which would be where I'm pointing is where I
11 parked near the crusher, which is I would say at
12 least 100 yards away from where the vehicle in
13 question was located.

14 Q. All right. Sergeant Orth, from your arrival,
15 being the first officer that was there, would you
16 have been in a constant position to determine
17 whether any law enforcement officer or citizen
18 entered or disturbed that vehicle?

19 A. Yes, I was. I had constant visual of the
20 vehicle.

21 Q. And I want you to tell the jury whether any
22 police officer or any citizen entered or
23 otherwise disturbed that RAV4?

24 A. No police officer or citizen approached or
25 touched that RAV4.

1 Q. How long did you remain as a primary security
2 officer for that vehicle, in that location?

3 A. I would have to look in my report to see the time
4 I ultimately left. However, I know I received my
5 first break at about 1:00. Lieutenant Hermann
6 proceeded up to my location, approximately
7 30 feet behind the vehicle, at which time he
8 focused on the vehicle.

9 I went to the staging area where I took
10 a short break; however, even at the staging area
11 there was still a clear view of the vehicle. So
12 even during my short breaks I was able to
13 observe; no one approached.

14 Q. Let's go back to that just a minute. You said
15 there was a clear view of the vehicle from the
16 staging area; is that where Pam and Nikole Sturm
17 were standing?

18 A. Correct.

19 Q. When you stood in the exact location that Pam and
20 Nikole Sturm were standing, could you see the
21 RAV4 from that location?

22 A. Yes.

23 Q. So if anybody disturbed or entered the vehicle,
24 would you have been able to see that?

25 A. Yes.

1 Q. You said that some other police officers and
2 other law enforcement types arrived at the scene;
3 is that right?

4 A. Mm-hmm, yes.

5 Q. All right. Who else came to the scene? Who else
6 was there?

7 A. Deputy Cummings from the Manitowoc Sheriff's
8 Department. Are you talking through the entire
9 time I was there?

10 Q. Yeah, I'm talking really about whether other
11 departments, other agencies had arrived.

12 A. Calumet County sheriff's office had officers
13 arriving.

14 Q. About how long after your arrival before Calumet
15 showed up?

16 A. An hour, that would be an estimated time.

17 Q. I suspect there's logs or better information for
18 that; is that fair?

19 A. Correct.

20 Q. Nevertheless, between the time that you arrived
21 and when Calumet County got there, were there
22 other Manitowoc County officials that were
23 responsible for scene security or was that your
24 responsibility?

25 A. That would have been myself; Lieutenant Hermann,

1 when he gave me a short break; and Deputy
2 Cummings, when he gave me a short break.

3 Q. Again, these short breaks, did you maintain
4 visual connection with the vehicle at that time?

5 A. Yes. As I mentioned, I was over near the staging
6 area where I could still see the avenues of
7 approach for the vehicle. I just want to
8 clarify, there were some small trees in this area
9 around the pond; however, due to the time of
10 year, there was no foliage upon the trees,
11 therefore, you could still see through.

12 Q. Okay. I'm going to come right out and ask you,
13 any time before Calumet County arrived, did you
14 see a gentleman who works for your department
15 named Lieutenant James Lenk?

16 A. I did not see him.

17 Q. At any time before Calumet County arrived, did
18 you see a gentleman who works for your department
19 named Andrew Colborn?

20 A. No, I did not see him.

21 ATTORNEY KRATZ: That's all I have of this
22 witness, Judge.

23 THE COURT: Mr. Buting.

24 ATTORNEY BUTING: Thank you, Judge.

25 CROSS-EXAMINATION

1 BY ATTORNEY BUTING:

2 Q. Good afternoon.

3 A. Good afternoon.

4 Q. Sergeant, you said that when you would take your
5 break you would go directly to the location where
6 Nikole and Pam Sturm were, right?

7 A. Correct.

8 Q. And you said -- and that was near -- right next
9 to the crusher, right?

10 A. Near the crusher.

11 Q. Okay. Well, I don't know if you can see there,
12 maybe it's because this photo is kind of far away
13 from you, but you have been pointing to this area
14 around here, just very close to the pond, as the
15 area where the crusher is, right?

16 A. Actually, I believe that crusher may be more to
17 the left and down. That's a -- that's a focal
18 point for me to say we were near that area;
19 however, when we parked, the staging area --

20 Q. I assume.

21 A. -- if that's the crusher, we were parked in front
22 of the crusher closer to the pond area, but
23 that's one --

24 Q. Do you want to walk --

25 A. -- specific area.

1 Q. -- up a little closer to see if this is the
2 crusher down here at the very bottom of the
3 picture?

4 A. If you would like me to, I could.

5 Q. Well, I would like to clear this up. I want -- I
6 want to be -- I want the jury to understand the
7 distances and where exactly you were situated.
8 And would you please tell us whether you were
9 down here at the crusher or whether you were up
10 there --

11 A. I was up here.

12 Q. -- closer to the pond? You were up here?

13 A. Right.

14 Q. That's right where -- You were standing right
15 next to Pam and Nikole Sturm when you would take
16 those breaks, right?

17 A. I'm not sure if they remained at that area. I'm
18 referring to that area because that is where I
19 met them. That is where I parked. And then when
20 I would take a break, I would remain -- return to
21 that area.

22 Q. Well, sir, didn't you just say that you stood in
23 the exact location that Pam and Nikole Sturm
24 stood in and could see the vehicle from that --
25 from that spot, right?

1 A. I was in the same general area; I did not stand
2 in the exact spot.

3 Q. Oh, so you never stood in the exact spot where
4 Pam and Nikole Sturm stood, is that what you are
5 now telling us?

6 A. That would be impossible, if they were standing
7 there, to stand in the exact spot.

8 Q. All right. Were you standing in almost the exact
9 spot that Pam and Nikole Sturm -- I believe
10 counsel said the word exact spot, but you
11 understand what we're talking about? I'm not
12 saying you are standing on top of them,
13 obviously.

14 A. I was standing in the same general area.

15 Q. Okay. And by same general area, you consider --
16 Let me ask you this, if we heard testimony that
17 the distance from the crusher to the vehicle,
18 which was -- we have heard testimony that the
19 distance from the crusher to the vehicle is 379
20 feet, would you disagree with that or agree with
21 that?

22 A. That's probably accurate.

23 Q. Okay. And so the distance from where the crusher
24 is to about to where you are saying you were, by
25 my estimation would be at least 100 feet, 75

1 maybe?

2 A. Possible.

3 Q. So you consider standing 75 or 100 feet away from
4 somebody to be in the same general area; is that
5 what your testimony is?

6 A. When we're talking this is such a big area here,
7 I was considering this the same general area.

8 Q. Okay. Just wanted to clarify how precise you
9 are, okay. Now, when you first walked up to the
10 vehicle, you said that you approached on the
11 passenger side, right?

12 A. Correct.

13 Q. And you didn't have a flashlight with you?

14 A. No, I did not.

15 Q. But you looked in which window to see if there
16 was a body?

17 A. The front passenger side window.

18 Q. Okay. And you saw none, right?

19 A. Correct.

20 Q. And did you look around to see if there was any
21 keys or anything like that in the vehicle?

22 A. No.

23 Q. You weren't looking for anything but a body at
24 that occasion -- on that occasion, right?

25 A. Correct.

1 Q. And then you walked around the rear over on the
2 driver's side?

3 A. Correct.

4 Q. All the way up to where the VIN number would be?

5 A. Yes.

6 Q. But you couldn't see any of them?

7 A. It wasn't clear.

8 Q. Okay. So you -- The question is, could you see
9 any of the VIN numbers?

10 A. Yes.

11 Q. Okay. Did you report that, call it in, I can see
12 you know, VIN number -- the first four, or the
13 last four, or anything like that?

14 A. No, I did not because as soon as I realized it
15 was not clear and I could not read the entire
16 VIN, at that time I already observed Detective
17 Remiker and Lieutenant Hermann approaching.

18 Q. Okay. And then, they were on foot, is that what
19 you are saying, or did you see them driving up?

20 A. I saw the last of them driving up, but what I'm
21 referring to is they were literally walking down
22 the path while I was trying to look at the VIN.

23 Q. Well, did you see them when they were walking or
24 did you see them when they were driving?

25 A. Both.

1 Q. Okay. So you watched them park and then you
2 watched them walk the whole way to where you
3 were?

4 A. Not the entire time, but I observed them.

5 Q. And did they park up here in this area that you
6 have been circling, or did they park down here
7 closer to the car crusher, lower part of this
8 photograph?

9 A. As we were the first responding officers, we were
10 up here more. And the more officers that would
11 arrive would end up being further to the north,
12 which would be closer to the crusher.

13 Q. Okay. And then, Detective Remiker had a
14 flashlight?

15 A. I believe so.

16 Q. And you said that he walked over and was shining
17 the flashlight; was he on the driver's side when
18 he was shining the flashlight in or ...

19 A. He would have been on the driver side, by the
20 front driver side fender, looking at the VIN
21 number.

22 Q. And you were looking in the back window when you
23 saw this photo memory card?

24 A. Correct.

25 Q. What side of the car were you on at that point?

1 A. I was in the back of the vehicle. I don't recall
2 if I was closer to the driver side or the
3 passenger side.

4 Q. Well, what window did you look through?

5 A. The back window.

6 Q. The very rear tailgate window?

7 A. Correct.

8 Q. Okay. And you didn't have a flashlight?

9 A. No, I did not.

10 Q. But you were able to see a photo memory card?
11 About how big was that?

12 A. I don't recall. I recall the name Teresa
13 sticking out.

14 Q. Okay. But we're talking about an item maybe an
15 inch and a half, two inches big, something like
16 that?

17 A. Probably about that size, yes.

18 Q. You're talking about those little square things
19 that you stick in the small digital cameras; is
20 that right?

21 A. I glanced in. I don't know exactly what type of
22 item it was; however, I did clearly see her name.

23 Q. I understand that. I'm getting to that. But I
24 would like to make it clear, just about the size
25 of this object that you were looking at. Can you

1 tell me --

2 A. No, I cannot.

3 Q. I mean, you know what a floppy disc is, the old
4 floppy disc that used to go in computers?

5 A. Yes, I do.

6 Q. It was smaller than that, right?

7 A. I believe so.

8 Q. So it was one of the real small scan discs, or
9 whatever they are, that you use in cameras,
10 right?

11 A. In my report, I indicated that I observed a
12 smaller piece of paper with Teresa's name on it.
13 After reviewing Detective Remiker's report, that
14 is when I learned it was some type of digital
15 camera card.

16 Q. Okay. And on that little card, you were able to
17 see her name, right?

18 A. I saw the name Teresa.

19 Q. Okay. Did you look in any other windows?

20 A. No.

21 Q. The entire time that you were there, guarding, or
22 standing over the vehicle, or looking into it,
23 you never saw any blood inside the vehicle, did
24 you?

25 A. I was approximately 30 feet behind the vehicle, I

1 could not see inside.

2 Q. Sir, we have established that you looked in the
3 passenger side window, first, the front passenger
4 side window when you first arrived, right?

5 A. Correct.

6 Q. You didn't see any blood, right?

7 A. I glanced in for a body.

8 Q. Did you see any blood, sir?

9 A. No, I did not.

10 Q. Thank you. Then, we know at least one other time
11 you looked in the rear tailgate window, right?

12 A. Correct.

13 Q. Are those the only two times you have ever looked
14 inside the vehicle?

15 A. Correct.

16 Q. Okay. And you didn't see blood on that occasion
17 either, did you?

18 A. No, I did not.

19 Q. But you were able to see something as small as a
20 handwritten Teresa on a little computer disc,
21 right?

22 A. Correct.

23 Q. And if you had seen blood, of course, that would
24 have been something you would have made a note
25 of, wouldn't it?

1 A. I would imagine if I saw blood, yes.

2 Q. Okay. Did you ever see Lieutenant Lenk that day?

3 A. No, I did not.

4 Q. And you left at 2:00?

5 A. Excuse me?

6 Q. You said you left at 2:00?

7 A. I would have to read from my report.

8 Q. Okay. You didn't actually keep a log of -- or

9 you didn't actually start preparing a log of

10 anybody coming to and from that scene of the RAV4

11 until 2:45; isn't that right?

12 A. No.

13 Q. You did prepare a report, right?

14 A. Yes.

15 Q. And you try and be truthful and complete and

16 accurate when you make those reports?

17 A. Correct. As soon as I stood behind the vehicle,

18 approximately 30 feet, I used the small notepad

19 out of my shirt pocket. That was a rough log

20 that I started. When I proceeded back to the

21 staging area is where I prepared a final log,

22 which is probably what you are referring to.

23 Q. All right. If you would just read what you say

24 for the entry that says 14:45 hours; that is

25 2:45, is it not?

1 A. Correct. You want me to read this?

2 Q. Sure, read the last sentence.

3 A. I started a log to document the names of

4 individuals approaching the immediate area around

5 the vehicle.

6 Q. Okay. I started a log, right?

7 A. Correct.

8 Q. Is there any place earlier in your report where

9 you mention that you ever took any notes,

10 anywhere else, about who was coming and going,

11 other than this entry right here, that says it's

12 2:45 p.m.?

13 A. No, my rough field notes is when I started

14 previously.

15 Q. Do you still have those?

16 A. No, I do not.

17 Q. So we just have to rely on your memory; is that

18 right?

19 A. As far as the time of breaks and the time I

20 approached.

21 Q. And who came and went, right?

22 A. Correct.

23 Q. You are a sergeant?

24 A. Yes.

25 Q. And you were a sergeant then --

1 A. Yes.

2 Q. -- October 31st? Lieutenant Lenk is above you in
3 rank?

4 A. Correct.

5 Q. And was on that day?

6 A. Correct.

7 Q. Lieutenant Lenk was in the hierarchy, what,
8 fourth highest ranking officer?

9 A. At the department?

10 Q. Yeah.

11 A. I'm not sure.

12 Q. Did it ever enter your mind that one of your
13 superior officers might want to plant evidence
14 inside that RAV4?

15 A. Absolutely not.

16 Q. Nothing you would have been, in your wildest
17 imagination, thinking of?

18 A. Absolutely not.

19 Q. So when you were watching that RAV4, it was not
20 with the thought in mind that, I better make sure
21 none of my superiors are coming in here and
22 touching this vehicle planting evidence, right?

23 A. I'm not sure what you mean.

24 Q. That wasn't -- That wasn't a purpose of you
25 watching the vehicle, to make sure that one of

1 your superiors couldn't gain access to it and do
2 something with it, was it?

3 A. I was securing the vehicle for any persons.

4 Q. Okay. By the way --

5 ATTORNEY BUTING: Would you put that back
6 up there for a moment, please. I'm sorry it keeps
7 cutting out. Can you zoom out?

8 ATTORNEY KRATZ: Sure.

9 ATTORNEY BUTING: Not quite that far, one
10 more in please. That's good. That's good.

11 Q. (By Attorney Buting)~ The veh -- The direction
12 that you approached, which is now the upper left
13 hand corner, was to the southeast of the pond,
14 right?

15 A. You're asking where I approached?

16 Q. Yeah, I think you showed us that you approached
17 from the southeast corner?

18 A. Proceeded from the north, traveling southeast.

19 Q. There's actually other ways to get to that RAV4
20 vehicle; aren't there, from the west?

21 A. Correct.

22 Q. From the south?

23 A. Correct.

24 Q. Or anyone of these rows on the right hand side of
25 the photograph leading -- again, approaching from

1 the west?

2 A. Correct.

3 Q. And just --

4 ATTORNEY BUTING: That's all, thank you.

5 THE COURT: Any redirect?

6 ATTORNEY KRATZ: If I could have just a
7 moment, Judge.

8 THE COURT: Sure.

9 **REDIRECT EXAMINATION**

10 BY ATTORNEY KRATZ:

11 Q. Sergeant Orth, do you recall the color of the
12 memory card or the paper that had the writing on
13 it?

14 A. I'm not certain. I believe it was white, because
15 the name seemed to jump out at me.

16 Q. My point is, what was the other general color in
17 the back of the vehicle; was it light or dark?

18 A. Darker colored background.

19 Q. Was there something about the memory card or the
20 writing that stood out or was a contrast in color
21 to the surrounding location?

22 A. If I remember correctly, it was like a white
23 background with blue or black ink. I think blue.
24 I just glanced in real -- like when I looked in
25 the front window, it was just glancing in to look

1 for a person. And when I looked in the back, it
2 was just a glance, for the most part, but it did
3 jump out.

4 Q. So you didn't see dark blood on the dark
5 interior?

6 A. No, I did not.

7 ATTORNEY KRATZ: That's all I have, Judge.
8 Thank you.

9 ATTORNEY BUTING: Nothing further.

10 THE COURT: All right. You are excused.

11 Mr. Kratz, I think we'll have you get
12 started on your next witness.

13 ATTORNEY KRATZ: State would call
14 Lieutenant Hermann to the stand.

15 THE COURT: If the jury wishes to stand, I
16 will give you that privilege.

17 THE CLERK: Please raise your right hand.

18 **DEPUTY INSPECTOR TODD HERMANN**, called as
19 a witness herein, having been first duly sworn,
20 was examined and testified as follows:

21 THE CLERK: Please be seated. Please state
22 your name and spell your last name for the record.

23 THE WITNESS: My name is Todd Hermann,
24 H-e-r-m-a-n-n.

25 **DIRECT EXAMINATION**

1 BY ATTORNEY KRATZ:

2 Q. Mr. Hermann, how are you employed?

3 A. I'm employed with the Manitowoc County Sheriff's
4 Department.

5 Q. And what rank do you hold?

6 A. At this present time, I'm a deputy inspector for
7 the department.

8 Q. On September -- excuse me -- November 5th of
9 2005, what rank did you hold at that time?

10 A. I was a patrol lieutenant in charge of the
11 4:00 a.m. to noon shift.

12 Q. On November 5th, do you recall receiving a
13 dispatch call or direction to proceed to a
14 property known as the Avery Salvage Yard?

15 A. Yes.

16 Q. Did you proceed to that location?

17 A. Yes, I did.

18 Q. And do you recall about what time you arrived at
19 that location?

20 A. It was approximately 11 -- 11:03 in the morning.

21 Q. At 11:03 on the 5th of November, tell the jury
22 what you did and what you saw.

23 A. At that point, I traveled down Avery Road, had
24 information about the Halbach vehicle missing and
25 that it was located by a search party in the

1 Avery Salvage Yard. I drove down into the
2 salvage yard near a vehicle car crusher where
3 Sergeant Orth's vehicle was parked. And that's
4 where I stopped with my squad.

5 I met with Detective Remiker and we
6 proceeded down a path to where Sergeant Orth was.
7 We proceeded towards the Halbach vehicle to
8 identify it, to identify if there was anything in
9 the vehicle.

10 Detective Remiker and Sergeant Orth
11 walked up to the vehicle and I stayed just a
12 short distance behind them, away from the
13 vehicle.

14 Q. About how far from behind the vehicle did you
15 stop?

16 A. I was out of reach of the vehicle anywhere from
17 three to seven feet or so.

18 Q. My question is, were you close enough to see what
19 Detective Remiker and Sergeant Orth were doing?

20 A. Yes.

21 Q. Did you maintain constant visual connection with
22 both the vehicle and with those two gentlemen at
23 that time?

24 A. Yes, I did.

25 Q. Did you see either Sergeant Orth or Detective

1 Remiker either enter the vehicle or otherwise
2 disturb the vehicle?

3 A. No, they did not.

4 Q. If they did, would you have seen it?

5 A. Yes, I would have.

6 Q. Now, Mr. Hermann, on the property or on -- at
7 your location at that time, did you see a
8 gentleman by the name of Lieutenant Lenk?

9 A. No, I did not.

10 Q. Did you see a gentleman by the name of Sergeant
11 Colborn?

12 A. No, I did not.

13 Q. You certainly know those two individuals?

14 A. Yes, I do.

15 Q. If they would have been there, would you have
16 recognized them?

17 A. Yes, I would have.

18 Q. After Sergeant Orth and Detective Remiker
19 completed their inspection of the vehicle; did
20 you see what they did?

21 A. Yes, they walked back out away from the vehicle
22 towards me and we walked away from the vehicle.

23 Q. Okay. What did you do then?

24 A. Sergeant Orth -- As we were walking out, I had
25 Sergeant Orth stay within view of the vehicle.

1 He was approximately 30 feet away from the rear
2 of the vehicle, so he could maintain visual
3 contact with the vehicle and make sure it wasn't
4 disturbed.

5 Myself and Detective Remiker walked up,
6 away from the scene, back towards where the squad
7 cars were parked by the vehicle crusher.

8 Q. Are you familiar with the term "scene security"?

9 A. Yes, I am.

10 Q. And which officer was primarily responsible for
11 securing the RAV4, or maintaining scene security,
12 at that time?

13 A. When we left Sergeant Orth there to maintain
14 visual contact, he was mainly in charge of
15 watching that vehicle.

16 Q. I guess what I'm asking, I'm asking to clear up
17 for the jury is, that was Sergeant Orth's primary
18 responsibility, from what you knew, at that
19 location?

20 A. At that point, yes.

21 Q. That's what I'm asking, at that point.

22 A. Yes.

23 Q. Was that responsibility, that is, scene security,
24 sometime shortly thereafter turned over to a
25 different department?

1 A. Yes, it was.

2 Q. Which department was that?

3 A. Calumet County Sheriff.

4 Q. And after being turned over to Calumet County
5 Sheriff, did your department, that is, the
6 Manitowoc County Sheriff's Department, ever
7 reassume responsibility for the scene or scene
8 security?

9 A. No.

10 Q. Mr. Hermann, were you involved in the decisions
11 or the discussion of turning over responsibility
12 of this investigation to Calumet County, or was
13 that done by somebody else?

14 A. Yes, I was present during this exchange when we
15 spoke with Sheriff Pagel.

16 Q. Let me just ask, about how long after your
17 arrival at that scene was it that Calumet County
18 officials arrived?

19 A. Approximately 40 to 45 minutes, 11:40, 11:45, I
20 believe it was.

21 Q. Anytime within that 40 or 45 minutes that you
22 were there, before Calumet County arrived, did
23 you see any officers, or any citizen for that
24 matter, either enter or in any way disturb that
25 vehicle?

1 A. No, nobody disturbed that vehicle during that
2 time.

3 Q. That was something that was important to you; is
4 that right?

5 A. That is correct, yes.

6 Q. Why?

7 A. Because it is a vehicle we were looking for,
8 potential evidence; we didn't want to disturb it.

9 Q. Did you have occasion, Mr. Hermann, to meet with
10 and speak with either Pam or Nikole Sturm on
11 scene?

12 A. Yes, I did.

13 Q. Describe their demeanor generally, if you recall.

14 A. They were very shook up, very upset, that they
15 found the vehicle.

16 Q. Now, do I understand that Sergeant Orth was
17 already on scene when you got there?

18 A. Yes.

19 Q. Who was the second officer to arrive; was that
20 you, or was that somebody else?

21 A. Me and -- Myself and Detective Remiker were there
22 right at the same time, you know, shortly. We
23 would have been the second officer -- officers on
24 the scene, within minutes we were there, after
25 Sergeant Orth.

1 Q. Can you tell the jury, please, who, other than
2 Sheriff Jerry Pagel of the Calumet County
3 Department, in fact, the sheriff; other than
4 Mr. Pagel, who was involved in ultimately
5 deciding whether this investigation or the scene
6 would be transferred to another agency?

7 A. Deputy Inspector Schetter, I spoke with. He in
8 turn would have been in contact with Inspector
9 Hermann of the Manitowoc County Sheriff's
10 Department. I had gotten that information from
11 the deputy inspector, basically he discussed that
12 matter with me.

13 Q. All right. So you had some input into that
14 decision; is that right?

15 A. Yes, I did.

16 Q. Lastly, Mr. Hermann, the scene or integrity of
17 the SUV being Sergeant Orth's responsibility, was
18 Sergeant Orth provided with any relief or any
19 breaks while he was on that location?

20 A. Yes, he was.

21 Q. And who provided breaks or break relief for him?

22 A. I did provide two breaks for Sergeant Orth,
23 during his visual observation of the vehicle.

24 Q. While providing those breaks, did you maintain
25 constant visual contact, then, with the vehicle?

1 A. Yes, I did.

2 Q. At any time during those two brief breaks, again,
3 did any individual, citizen, or law enforcement
4 officer enter or disturb that vehicle?

5 A. No, nobody disturbed the vehicle.

6 ATTORNEY KRATZ: That's all the questions I
7 have of this witness, your Honor.

8 THE COURT: Mr. Buting.

9 **CROSS-EXAMINATION**

10 BY ATTORNEY BUTING:

11 Q. Mr. Hermann, or do you go by Deputy Inspector
12 Hermann, is that ...

13 A. That is my current title, correct.

14 Q. I will call you Deputy Inspector Hermann, thank
15 you. Are you inspector now?

16 A. Deputy Inspector.

17 Q. Deputy Inspector. Okay. Now, on November -- I'm
18 sorry -- yeah, November 5th of 2005, you were a
19 lieutenant, right?

20 A. That is correct.

21 Q. And you obviously knew Lieutenant James Lenk,
22 right?

23 A. Yes, I did.

24 Q. He was also a lieutenant in your department?

25 A. Yes.

1 Q. Would you explain to me a little bit about the
2 hierarchy back then; who was at the top? Who was
3 the top sheriff at that time?

4 A. Sheriff Ken Peterson.

5 Q. Okay. And immediately below him, second in
6 command, would be who?

7 A. Inspector Hermann.

8 Q. Okay. And then -- That's Robert Hermann, right?

9 A. Correct.

10 Q. Brother or relative?

11 A. That's brother.

12 Q. That's your brother, okay.

13 A. Yes.

14 Q. And then does it branch down into one or more
15 deputy inspectors?

16 A. Yes.

17 Q. How many?

18 A. There are -- There's a deputy inspector in charge
19 of the jail, deputy inspector in charge of Patrol
20 and Investigative Division and deputy inspector
21 in charge of our support.

22 Q. Okay. And so on November 5th of 2005, who were
23 those three deputy inspectors? Schetter?

24 A. Deputy Inspector Schetter was in charge of
25 operations at that time.

1 Q. Okay.

2 A. Deputy Inspector Larry Welnicke was in charge of
3 the jail. And I believe Deputy Inspector Bill
4 Beck was in charge of support.

5 Q. Okay. And then the next level below that is
6 lieutenants?

7 A. Yes.

8 Q. And how many lieutenants were there?

9 A. Three lieutenants.

10 Q. That would be yourself?

11 A. In charge of -- As far as the Patrol Division is
12 concerned, there's three lieutenants: Myself,
13 Lieutenant Seim, and I believe it was Lieutenant
14 Bessler at the time.

15 Q. Okay. And that's -- your division was the Patrol
16 Division, right?

17 A. Yes.

18 Q. And then is there also a lieutenant of the
19 Detective Bureau?

20 A. That's correct, Lieutenant James Lenk.

21 Q. So, he would have been the top dog in the
22 Detective Bureau at that time, basically, right?

23 A. Yes.

24 Q. And you have already mentioned that -- his
25 decision to transfer authority, but let me just

1 make sure we're clear. You were aware about Mr.
2 Avery's civil lawsuit against your department and
3 Manitowoc County for the years that he spent on
4 the wrongful conviction case, right?

5 A. Yes.

6 Q. And the concern was pretty obvious to you, as
7 soon as this vehicle was discovered on his
8 family's property, that maybe there might be an
9 appearance of a conflict, if not an actual
10 conflict, for your department to be investigating
11 this case; isn't that right?

12 A. Yes.

13 Q. By the way, were you deposed in that lawsuit; did
14 you go through any depositions yourself?

15 A. No, I did not.

16 Q. Do you know whether -- And did you know at that
17 time whether or not Lieutenant James Lenk had
18 gone through any depositions in that lawsuit?

19 A. I'm not aware of that.

20 Q. I'm talking about November 5 right now, okay?

21 A. Yes.

22 Q. You weren't aware of that, right?

23 A. Whether or not Lieutenant Lenk had been disposed
24 in any --

25 Q. Deposed, yes.

1 A. Deposed in any of the civil litigation?

2 Q. Right.

3 A. I'm not aware of it.

4 Q. And you were not aware of it then?

5 A. No.

6 Q. What about Sergeant Andrew Colborn; were you
7 aware he had been deposed as a witness in that
8 lawsuit?

9 A. Not to my recollection. I don't recall if he was
10 or if he was not, the same as far as Lieutenant
11 Lenk; I don't recall if he was or if was not --

12 Q. So it's --

13 A. -- at that time.

14 Q. -- it's possible that you were aware of it, you
15 are just not sure right now; is that what you are
16 telling me?

17 A. I don't recall at this point; I don't recall if
18 he was or was not.

19 Q. Okay. But at any rate, it was pretty common
20 knowledge, would you say pretty much every member
21 of the Manitowoc Sheriff's Department was aware
22 of Mr. Avery's lawsuit against them?

23 A. Yes.

24 Q. Okay. Now, you talk about this decision to turn
25 over the lead of this investigation of this case

1 on November 5, 2005. And you said that was about
2 45 minutes after the first officer arrived,
3 right?

4 A. Yes.

5 Q. So by 11:45 in the morning the decision had
6 already been made that you should pass this off
7 to Calumet, right?

8 A. Yes.

9 THE COURT: Excuse me. Mr. Buting, I think
10 you are just starting to get into something that I'm
11 sure is going to continue for a while, so to help
12 with the flow of things --

13 ATTORNEY BUTING: It might not, but that's
14 okay, we can take a break now.

15 THE COURT: We'll take our afternoon break
16 at this time.

17 Again, members of the jury, do not
18 discuss the case in any way during the break.

19 (Jury not present.)

20 THE COURT: Counsel, then let's report back
21 at five minutes to three.

22 ATTORNEY BUTING: Okay. Thank you.

23 (Recess taken.)

24 (Jury present.)

25 THE COURT: Okay. Mr. Buting, at this time

1 you may resume your cross-examination of the
2 witness.

3 ATTORNEY BUTING: Thank you, your Honor.

4 CROSS-EXAMINATION CONTD

5 BY ATTORNEY BUTING:

6 Q. I think we were talking about the decision to
7 transfer the lead authority in the investigation
8 to Calumet. Was it about 11:45: a.m., right?

9 A. Yes.

10 Q. Actually, I'm going to come back to that in just
11 a moment, but let me ask you this first. You
12 parked -- When you first pulled up into the
13 southeast area of the salvage yard, you parked
14 near the crusher; is that right?

15 A. Yes. Somewhere in that general area, yes.

16 Q. Okay. And did you look at that crusher? Did it
17 appear to be in operating order, or could you
18 tell?

19 A. I don't know what -- how it op -- I know -- I
20 have a idea of how it operates, whether or not it
21 was working at the time, it was not running when
22 I arrived.

23 Q. Did you see a bunch of flattened crushed cars
24 stacked nearby.

25 A. Yes, I did.

1 Q. Okay. And when you walked up to the Toyota RAV4,
2 did you see any indication at all that maybe
3 somebody had tried to crush it and failed or had
4 started to crush it and failed?

5 A. No, I did not.

6 Q. It was completely intact, as far as you could
7 tell?

8 A. Yes.

9 Q. Even though there was a crusher nearby that could
10 have -- if someone knew how to use it, could have
11 been flattened -- flattened that RAV4 to a
12 pancake, right?

13 A. If the crusher was working, yes, correct, they
14 could. The vehicle could have been crushed.

15 Q. Okay. And if that would have been done to that
16 RAV4, it would have been a pretty unrecognizable
17 vehicle at that point, right, unless you start
18 ripping it apart?

19 A. I don't know. As far as emblems or whatever
20 would be visible, I guess I can't make
21 assumptions unless you see a vehicle like that
22 crushed.

23 Q. It would be a lot less recognizable than it was
24 when you saw it.

25 A. Yes, it would definitely change the appearance of

1 it.

2 Q. Okay. And this -- By that time, the news, or
3 word had been out on the media, the news, missing
4 persons, posters spread all over the place, that
5 Teresa's vehicle was a Toyota RAV4, right?

6 A. Yes.

7 Q. And you said, I think as you walked up to the --
8 Maybe I'm confusing you with the prior witness.
9 But as you approached the vehicle, it appeared as
10 if somebody had been trying to conceal it?

11 A. Yes. I did not testify to that, but it did
12 appear that way to me.

13 Q. I'm sorry, I may be morphing you into the prior
14 witness, but. In fact, the effort to conceal it,
15 this Toyota RAV4, wasn't that good, was it? I
16 mean it wasn't covered?

17 A. No, not completely.

18 Q. And, in fact --

19 ATTORNEY BUTING: Counsel, if you could put
20 up that one right now, appreciate it.

21 Q. (By Attorney Buting)~ As you walked up to the
22 rear of it, this is what you see, great big
23 letters, RAV4 Toyota, right?

24 A. Yes.

25 ATTORNEY KRATZ: Exhibit 29, counsel?

1 ATTORNEY BUTING: Exhibit 29 we're showing
2 to the jury right now.

3 Q. (By Attorney Buting)~ The hood that was leaning
4 up against the side of the vehicle is over here
5 on the right side of the picture, right? I'm not
6 sure this is even in here, but there was a big
7 vehicle hood leaning up against the passenger
8 side, right?

9 A. Yes.

10 Q. An old rusty piece of junk, correct?

11 A. An old hood, yes. I believe it may be in the
12 photo, just to the right of the post.

13 Q. All the way over here?

14 A. I believe that --

15 Q. Part of it there.

16 A. -- would be part of it, yes. Yes, it was right
17 up against it.

18 Q. Now, if that hood had been pulled up against the
19 back of this vehicle, you wouldn't be able to see
20 the tire cover that says RAV4 Toyota, would you?

21 A. No, you would not have been able to.

22 Q. Okay. And this vehicle was along that little
23 ridge where all of the other vehicles were single
24 file parked, nose to bumper, nose to bumper. And
25 this was the only one that was double parked,

1 right? Two deep, sticking out?

2 A. I'm not sure how many vehicles were double parked
3 or single parked, but this one was double parked,
4 correct.

5 Q. Okay.

6 ATTORNEY BUTING: Could we maybe put up
7 that -- No. 89, what we were looking at before?
8 That one, the aerial view -- Any aerial of that area
9 is fine. There we go. Thank you.

10 ATTORNEY KRATZ: Want me to zoom in?

11 ATTORNEY BUTING: One more.

12 Q. (By Attorney Buting)~ Okay. So looking at that
13 line of vehicles that is parked along the berm on
14 the north -- or south side of the pond there; all
15 the rest of those vehicles look like they are
16 single -- any other double parked?

17 A. Yes, it appears that way, that they are single
18 parked.

19 Q. Okay.

20 ATTORNEY BUTING: This is Exhibit 86 for
21 the record. Thank you.

22 THE COURT: Counsel, excuse me for a
23 second, can at least one attorney from each side
24 approach.

25 (Side bar taken.)

1 Q. (By Attorney Buting)~ We better clear something
2 up, Lieutenant. This photograph was taken after
3 the Toyota RAV4 had already been removed from the
4 scene, correct?

5 A. I don't know when it was taken.

6 ATTORNEY KRATZ: Actually, Judge, we'll
7 stipulate to that fact. We'll complete the record
8 later, but that is a stipulation that we're willing
9 to not only alert the jury, but the witness, at this
10 time.

11 THE COURT: For the benefit of the record
12 and the jurors, counsel, do I understand -- and I
13 know there's been a series of aerial photos
14 introduced -- do I understand that all of those
15 photos were taken after the date that the vehicle
16 was removed from the scene?

17 ATTORNEY KRATZ: Yes.

18 ATTORNEY BUTING: That's correct.

19 THE COURT: Both party's understanding?

20 ATTORNEY BUTING: Yes, there are no -- at
21 least that we have seen so far, we have not seen any
22 aerial shots with the RAV4 still in this location.

23 THE COURT: Thank you.

24 ATTORNEY BUTING: Okay.

25 Q. (By Attorney Buting)~ But you do recall where it

1 was -- well, actually we'll leave that for
2 another witness. So after you approached that 3
3 to 7 feet, you said, from the vehicle; you didn't
4 actually look inside the vehicle yourself, right?

5 A. I did not, no.

6 Q. Okay. And then you retreated back to where the
7 cars were parked?

8 A. Yes.

9 Q. And then you had some other duties that you
10 attended to. You mentioned that you -- you gave
11 Sergeant Orth a couple of breaks, I think?

12 A. Yes, I did.

13 Q. But in between those times, there was an hour or
14 more in between that, you were doing other
15 things, right?

16 A. I was standing by in that area, yes.

17 Q. Okay. But, for instance, you were talking with
18 Deputy Inspector Schetter?

19 A. Yes.

20 Q. And I believe you said --

21 A. Detective Remiker.

22 Q. -- Detective Remiker and Sheriff Pagel. And you
23 were going through that whole decision making
24 process about transferring authority, lead
25 authority, over to Calumet, right?

1 A. Yes.

2 Q. And so there was a meeting going on down there
3 and you guys were fucused on that, right?

4 A. Yes, we were in that discussion, correct.

5 Q. And you also, for a period of time, spoke with
6 Earl Avery, right?

7 A. Yes, I did.

8 Q. He -- After seeing all the congregation down
9 there, whatever; he started coming down on a four
10 wheel -- what do you call those, ATV's?

11 A. Yes, he did.

12 Q. Okay. And then, so you asked him some questions
13 about the crusher?

14 A. Yes, I did.

15 Q. And then at some point -- First, do you know how
16 long it was before you left the car crusher area
17 and retreated to the Command Post that was being
18 set up over by the entrance way to Avery Road
19 and ...

20 A. Without looking at a report, I do not recall the
21 time that I left the area of the car crusher.

22 Q. Well, I'm not sure that the report will help, but
23 I will let you take a look at it, maybe it will
24 refresh your recollection. It's page 10 and 11
25 of 22.

1 A. I did not have a time listed as to what time we
2 left that area and went back to the car -- or the
3 end of Avery Road.

4 Q. Okay. But do you think it was an hour, two
5 hours, three hours; you don't have any
6 recollection today about how long that was?

7 A. No.

8 Q. At some point you did, though, retreat to the
9 area that later a Command Post was put up there
10 right at the entrance to the business area,
11 right?

12 A. Yes.

13 Q. Okay. But before that, there was an incident
14 that occurred --

15 ATTORNEY BUTING: If you could put No. 86
16 back up for just a moment. Just at that distance is
17 fine, I think.

18 ATTORNEY KRATZ: Like this?

19 ATTORNEY BUTING: Yeah, just leave it that
20 way.

21 Q. (By Attorney Buting)~ There was an incident that
22 occurred where it turned out that there were
23 some -- a number of civilians who had somehow
24 managed to find their way onto the Avery
25 property, right?

1 A. I don't believe it was onto the Avery property;
2 it was into the car area. It was to the south of
3 the car area.

4 Q. But it turned out there was like four or five
5 people walking in, approaching from the south
6 through the gravel pit, right?

7 A. Yes.

8 Q. Is that right?

9 A. Yes.

10 Q. And it turned out that these were friends of
11 Teresa trying to help. Nothing wrong with that,
12 they were just seeing if they could help, right?

13 A. They were part of a search team, yes.

14 Q. Okay. And they actually got all the way up to
15 the southwest area there of the -- there was no
16 perimeter guard at the southwest area of the 40
17 acre lot at that time, right?

18 A. Correct, there was not.

19 Q. And when you talked to them, they were all the
20 way over by the gravel conveyor by that time,
21 correct?

22 A. Yes.

23 Q. All right. Did you put a guard in there at that
24 point, on the southwest area, or did that come
25 later?

1 A. I did not and I'm not aware of any guard that was
2 placed there. I did not put anybody up there.

3 Q. Okay. That wasn't your responsibility, somebody
4 else may have, but you had nothing to do with any
5 of that?

6 A. Correct.

7 Q. Okay. Just a couple of other things to clear up.
8 Even though the decision was made to transfer
9 lead authority at 11:45, of the overall
10 investigation, that's not when your department
11 transferred security supervision of the RAV4
12 area, is it?

13 A. No, it is not.

14 Q. In fact, that didn't take place until 2:45, when
15 Sergeant Orth was replaced by -- I'm sorry, that
16 didn't take place until 3:04 p.m., when Calumet
17 Sergeant Tyson relieved Deputy Cummings of your
18 department; is that right?

19 A. Correct, yes.

20 Q. So for the first four hours that that vehicle was
21 sitting on the Avery property, after having been
22 discovered by a member of your department -- or,
23 I'm sorry. After a member of your department
24 arrived, it was under the control, immediate
25 control of members of the Manitowoc Sheriff's

1 Department, correct?

2 A. Yes.

3 ATTORNEY BUTING: All right. Thank you.

4 THE COURT: Mr. Kratz.

5 ATTORNEY KRATZ: I just have got a few.

6 **REDIRECT EXAMINATION**

7 BY ATTORNEY KRATZ:

8 Q. I'm just going to clear up one thing, Mr.
9 Hermann, Exhibit No. 86, I'm going to zoom into
10 the area. Do you recall where the RAV4 was
11 parked as you look at this exhibit, or if I show
12 you a picture of the RAV4 as Ms Sturm took it,
13 would that assist you?

14 A. That would assist me.

15 Q. I will show you what has been received into
16 evidence as Exhibit 33. I will just find it and
17 we will be all set. Exhibit 33, you see a red
18 truck to the left, which would be to the south of
19 that vehicle; is that correct?

20 A. That is correct, yes.

21 Q. Now, I want to go back to Exhibit No. 86 and zoom
22 in again. You can see the red truck, kind of in
23 the middle of that lane; is that right?

24 A. Yes, that's where it would be parked.

25 Q. Does that refresh your recollection?

1 A. Yes.

2 Q. That the RAV4 would have been closest to the pond
3 or south of that location about where my cursor
4 for my computer is at this time; is that right?

5 A. Correct.

6 ATTORNEY KRATZ: With that clarification,
7 then, Judge, that's all I have of this witness.

8 THE COURT: Anything else from the defense?

9 ATTORNEY BUTING: None, your Honor.

10 THE COURT: All right. The witness is
11 excused.

12 Members of the jury, at this time
13 counsel and I have a matter to take up in
14 chambers, so we're going to take a break at this
15 time. I will have to let you know whether we'll
16 be resuming with additional testimony today or
17 whether you will be excused early. But we'll get
18 the message to you in the jury room as soon as we
19 know.

20 If this is our final farewell for the
21 day, I remind you, again, not to watch any news
22 media accounts of this case, or discuss it with
23 anyone in any manner. Thank you.

24 (Jury not present.).

25 THE COURT: Before we go off the record, I

1 want to reflect that the Court asked the parties for
2 a brief side bar conference. And the sole purpose
3 of that conference was to clarify what the Court had
4 previously understood to be the agreement of the
5 parties; and that is, that all of the aerial photos
6 which have been shown to the jury to date were, in
7 fact, taken after the RAV4 had been removed from the
8 property.

9 I had brought that issue up to the
10 attorneys earlier because I didn't think it had
11 been made clear to the jurors when the photos
12 were taken. And I didn't want to have them
13 looking for something that wasn't there. And I
14 believe that the parties indicated previously at
15 some point that would be placed on the record and
16 I just asked the attorneys if today was the day.
17 Anything else, counsel, before we break?

18 ATTORNEY KRATZ: No.

19 ATTORNEY BUTING: To.

20 THE COURT: I will see you in chambers.

21 (Proceedings concluded.)

1 THE COURT: At this time the Court calls
2 State of Wisconsin vs. Steven Avery, Case No. 05 CF
3 381. We're here this morning for a continuation of
4 the trial in this matter. Will the parties state
5 their appearances for the record, please.

6 ATTORNEY KRATZ: Good morning, your Honor,
7 State appears by Calumet County District Attorney
8 Ken Kratz, Assistant Attorney General Tom Fallon,
9 Assistant District Attorney Norm Gahn, all appearing
10 as special prosecutors.

11 ATTORNEY STRANG: Good morning, as well.
12 Steven Avery is here in person; Jerome Buting and
13 Dean Strang on his behalf.

14 THE COURT: Thank you. Mr. Kratz, at this
15 time you may call the State's next witness?

16 ATTORNEY KRATZ: Thank you, Judge. The
17 State would call Julie Cramer to the stand.

18 THE CLERK: Please raise your right hand.

19 **JULIE CRAMER**, called as a witness
20 herein, having been first duly sworn, was
21 examined and testified as follows:

22 THE CLERK: Please be seated. Please state
23 your name and spell your last name for the record.

24 THE WITNESS: Julie Cramer, last name is
25 C-r-a-m-e-r.

1 ATTORNEY KRATZ: Ms Cramer, if you could be
2 so kind as to pull the microphone a little bit
3 closer, we'll probably be able to hear you a little
4 bit better. Good morning, Ms Cramer.

5 **DIRECT EXAMINATION**

6 BY ATTORNEY KRATZ:

7 Q. Tell the jury, if you would, please, what, if
8 any, involvement you were asked to have in the
9 search for Teresa Halbach.

10 A. I'm with Great Lakes Search and Rescue Canine and
11 I handle a search and rescue dog. And we were
12 asked to come and help with the search for Teresa
13 Halbach.

14 Q. How long have you been involved in search and
15 rescue?

16 A. I started training search dogs in 1989.

17 Q. Do you know how many search dogs you have
18 trained?

19 A. I'm handling, currently, my sixth and seventh
20 dog. The dog that I work now is my fourth human
21 detection or cadaver dog.

22 Q. Do you work with a specific organization?

23 A. Our organization, Great Lakes Search and Rescue,
24 is a group of volunteers. We respond to any --
25 any agency request, whether it's law enforcement,

1 fire rescue, emergency management.

2 Q. How long has that organization been together?

3 A. Great Lakes was founded in 1992 and incorporated
4 in 1993, so we have been together 14 years.

5 Q. The agencies that you assist, including law
6 enforcement; do you assist any civilians in
7 civilian type searches?

8 A. We never respond to civilian requests. If a
9 family member of a missing person calls us, we
10 refer them to their agency. We get involved with
11 civilians on search scenes, but we always assist
12 agencies.

13 Q. Let's talk about the dogs themselves. Are there
14 different kinds of dogs for different kinds of
15 searches?

16 A. Sure, within the scope of search and rescue dogs
17 there are tracking dogs, like bloodhounds. There
18 are area search dogs that pick up the scent of a
19 person in clear areas. And then there are
20 cadaver dogs or human remain detection dogs.
21 They have two different names. And we have all
22 the types of dogs within our search team.

23 Q. Do different kinds of breeds need -- Let me ask
24 you this way, is a specific kind of breed
25 selected most often for these different kinds of

1 searches?

2 A. Yes, usually you select a breed that is most
3 adaptable to that kind of search. Bloodhounds
4 are known for their ability to track people. A
5 lot of the German Shepherd breeds are used for
6 area searches. Within the human remains
7 detection, you want a dog that's very high drive
8 and able to do the work. I handle a Belgian
9 Shepherd.

10 Q. What does high drive mean?

11 A. A dog that will keep working in spite of bad
12 weather, will find the same thing over and over,
13 or if you look for very small scent sources,
14 because we also look for evidence, not just whole
15 bodies.

16 Q. Is there a certification procedure for dogs?

17 A. Yes, there is. Within our dog team we have a set
18 of credentials that the dog has to train for a
19 year and then pass testing to show that they
20 are -- are qualified to do the work. And then,
21 depending on what part of the country you live
22 in, there's various testing that you need. We
23 have met all the testing available to us at this
24 time.

25 Q. What kind of training goes into a specific kind

1 of dog; in this case, a human remains detection
2 dog?

3 A. A lot of time. A lot of hours. Brutus, the dog
4 that I worked on this case has about 6,000 -- had
5 about 6,000 logged hours at the time that he
6 responded to this case.

7 So it's a weekly, monthly, daily
8 commitment of our handlers to work with their dog
9 in the area of expertise.

10 Q. The certification -- or to obtain a
11 certification, does that require some field
12 testing; in other words, that you actually go out
13 in the field and have to demonstrate the
14 reliability of the dog?

15 A. Yes, it does. And that has to be recertified
16 annually to a set of standards. The dog has to
17 be able to perform in different environments:
18 Wilderness, human contamination. They have to
19 work set up problems set by an outside evaluator
20 and they have to show that they can reliably
21 locate the source that was set up for them, both
22 on land and water, depending on your
23 certifications.

24 Q. There is a photo in front of you; it's Exhibit
25 No. 128. Can you tell us what Exhibit 128 is.

1 A. That is a picture of my dog, Brutus, and I. This
2 was our team picture taken this past year.

3 Brutus is a 10 year old Belgian Malinois, which
4 is one of the types of Belgian Shepherds. And he
5 is certified in human remains detection, both
6 land and water.

7 Q. All right. You said that Brutus was 10 years
8 old, can you give the jury a little background on
9 Brutus.

10 A. I obtained Brutus when he was about 18 months
11 old, from a dog shelter. We do a lot of
12 recycling of dogs. I started working with him as
13 my partner then. He and I have been certified
14 within our team here in Wisconsin and in northern
15 Illinois for the last eight years.

16 Q. Now, even though he had been certified eight
17 years ago, you had mentioned that the
18 certification process, especially for Brutus, is
19 an annual event; is that right?

20 A. Yes.

21 Q. Does Brutus have a track record or history that
22 you can explain to the jury?

23 A. Brutus has an extensive track record. He seems
24 to find the detection of human remains to be
25 something easy for him, like a labrador with

1 ducks. And he has worked hard at it for all
2 these years.

3 We have been on numerous searches and
4 he's established a track record in northern
5 Illinois and Wisconsin as a dog that works in
6 blood evidence and human remains detection.

7 Q. How many human remains detection cases has Brutus
8 been asked to assist on?

9 A. He's been out -- I have been out myself on about
10 200 human remains detection cases. Brutus has
11 accompanied me -- he is my third cadaver dog --
12 on about 150 of those. We have been successful
13 in about 70 cases.

14 Q. All right. When you mean -- or when you mention
15 the word successful, what does that mean?

16 A. That there's actually been something located in
17 the area we search. Establishing credibility for
18 a dog is a little bit hard because sometimes
19 we're not in an area where there is anything. So
20 sometimes you search really hard and there is
21 nothing there.

22 But Brutus does both land and water.
23 And he's worked hard and there have been about
24 approximately between 70 and 80 documented cases
25 where he has correctly indicated at something

1 that's later been determined to be part of a case
2 or human remains.

3 Q. On the flip side of that, has Brutus ever
4 indicated human remains when they weren't there;
5 in other words, has -- I don't know how to gently
6 ask this. Has Brutus ever been wrong?

7 A. We have not found Brutus to be wrong in that we
8 were able to say that he just barked to bark.
9 There have been times where what he has found is
10 not related to a case.

11 For instance, if he's working septic
12 systems, sometimes there have been barks where we
13 have learned over the years and through training
14 that we take things that you watch for with dogs.
15 He has to -- He is alerting not to a specific
16 person, but to the source that he is trained to
17 find.

18 One time we searched an area where there
19 were more than one -- there was more than one
20 source. We did locate three different sources;
21 the agency was only looking for one.

22 Q. All right. Now, Brutus isn't the only dog that
23 you have handled in the human remain detection
24 area; is that right?

25 A. That's correct.

1 Q. And Brutus -- Do you have other dogs, or are you
2 aware of other human remain detection dogs?

3 A. Yes. On our team -- On our team, Great Lakes
4 Search and Rescue Canine, there are three
5 certified human remain detection dogs right now
6 and three dogs in training that actually hope to
7 certify this year for the first time.

8 We also affiliate with a team out in
9 northern Illinois that has four dogs that have
10 passed their testing. So, if we were called
11 today to a search, we would have access to seven
12 human remain detention dogs that we know to be
13 qualified.

14 Q. And you are familiar with not only the
15 credentials, but the track record of all those
16 dogs; is that right?

17 A. Yes.

18 Q. What's the rank for Brutus among those human
19 detection dogs?

20 A. It sounds like a bias, because he's mine, but
21 right now he is the most experienced human
22 remains detection dog that we have available to
23 us.

24 Q. All right. In front of you, also, is an exhibit,
25 Exhibit No. 129. It's a piece of paper. Can you

1 tell us what that is, please.

2 A. That was Brutus' testing; that was his land
3 cadaver evaluation testing in 2005, which would
4 have been the last evaluation test he took prior
5 to the call on this case where he did pass.

6 Q. And, again, indicating a certification as to his
7 ability to perform these human remain detection
8 functions; is that right?

9 A. Correct. And there's both an area of wilderness
10 and urban. Urban, in the human remains detection
11 dog, is an area of human contamination: down
12 buildings, interiors. So he passed both his
13 wilderness and his urban human remain detection
14 testing in 2005.

15 Q. I'm going to ask you to just explain that a
16 little bit further. What are wilderness
17 detections and is that easier to do; then, let's
18 talk about the urban. All right.

19 A. Okay. Usually, when you start to train a dog,
20 you start with wilderness because it's a natural
21 environment. And to pass that test, the dog goes
22 out and finds a person, for instance, someone who
23 would be hiking in the woods and would be
24 deceased, or in a natural environment.

25 Normally, that's done first and then you

1 proceed into urban, which is the -- if you follow
2 urban the whole way, you could actually look at,
3 like, collapsed structure dogs. But Brutus and I
4 haven't worked that far into it. We have
5 maintained in this area rather than going to the
6 national response for hurricanes and disasters
7 and that kind of thing.

8 We do urban human remain detection. It
9 means he was certified to go into a building to
10 find people, go into piles of rubble. He's
11 worked in landfill and junkyard areas that have
12 contamination and he's still able to find
13 remains.

14 Q. All right. Before we get into this case, there
15 is one area that I found interesting and perhaps
16 the jury might, is you said water detection.
17 What is that?

18 A. Dogs are very successful in helping locate
19 drowning victims. And too many times people
20 think dogs can't find in water, but they can.
21 When a subject is underneath the water, they are
22 still giving off scent and so we train dogs to be
23 placed in boats and go out. And when they smell
24 the correct scent, they give an indication, in
25 most cases a trained bark indication. And that

1 helps assist divers in locating where to dive to
2 find -- to recover the body.

3 Q. How is a human remain detection dog, or the scent
4 given off, different than, let's say a
5 bloodhound, a live scent search that we do?

6 A. The scent isn't given off any differently, but
7 the difference is when a person is alive. Your
8 scent is very specific. Each of us smells
9 differently. It's almost as individual as a
10 fingerprint would be.

11 And so a live dog, a bloodhound, is
12 given an article of clothing and they go out and
13 follow that scent as it comes off a person. When
14 a person dies, your body begins to decompose.
15 And it's that -- that chemical and gas changes in
16 the body that a human remains detection dog is
17 trained to find.

18 And that human remains smell the same.
19 We all start to smell the same after we're
20 deceased. And so a human remains detection dog
21 is trained to find that smell as opposed to dead
22 animals, dead fish, or other smells. So it's a
23 similar type of training, but they are trained on
24 different sources.

25 Q. All right. Let's move, then, to the 5th of

1 November of 2005. Was your organization asked to
2 assist in this search effort?

3 A. Yes.

4 Q. And did you respond to the -- what's now known
5 as, or what the jury now knows as the Avery
6 Salvage Yard?

7 A. Yes, we did.

8 Q. Tell the jury what happened when you got there?

9 A. We were paged at approximately 1:00 in the
10 afternoon. We arrived on scene at 2:30 and we
11 were held at the roadblock. At approximately
12 3:30, they requested a dog team trained in human
13 remains detection to come and clear an area
14 within the Avery Salvage Yard; specifically, they
15 wanted us to check a car crusher.

16 Q. There's an exhibit, Ms Cramer, that's been
17 received as Exhibit No. 86, that the jury has
18 seen before. This is a larger version of that.
19 Will this exhibit allow you or help you explain
20 what you and Brutus did on the evening of -- of
21 the fifth?

22 A. On this -- At this first time, we were asked to
23 just bring one dog team down, so we took our most
24 advanced dog, our most experienced dog, which
25 would be Brutus. And we responded what would be

1 kind of from the bottom left corner of that
2 photo. We came up the roadway to the area that
3 would be a car crusher. We would have entered
4 this way and we came in and, I believe -- is this
5 the car crusher?

6 Q. Yes.

7 A. We were asked, first, to clear that location.

8 Q. What does clear that mean?

9 A. Take the dog through and determine if he's giving
10 any trained indication of human remains. When
11 Brutus smells what he believes is human remains,
12 he barks; he gives me a bark indicator. So we
13 did check this car crusher and we did not get any
14 indicator at the car crusher.

15 Q. All right. Where did you then take Brutus?

16 A. They then asked us to proceed through the area of
17 cars that were crushed, right in here. And we
18 did do that.

19 Q. Was there any indication of human remains?

20 A. He did not give any indicators there.

21 Q. Where did you go then?

22 A. Then they asked us to clear along this ridge way
23 down there.

24 Q. I need to stop you, Ms Cramer. When you say
25 they, who are you talking about?

1 A. There were investigators with us and I don't have
2 names, without referring to a report, but several
3 law enforcement investigators that went with
4 Brutus and I. My husband, Bob, served as my
5 backup.

6 Q. When a officer asks you, generally, or in this
7 case, specifically --

8 A. Mm-hmm.

9 Q. -- were they hinting to you or giving you any
10 indication of what it is that they wanted Brutus
11 to look for?

12 A. No. No. They are very careful not to do that.
13 Again, here, at this time, on the 5th of
14 November, we had no information for -- to
15 ourselves, other than we were helping with a
16 missing person case.

17 So we first checked the car crusher
18 here. We worked up here. Then there was a line
19 of cars up along a ridge, that's actually kind of
20 a elevated ridgeway, and they asked us to clear
21 that group of cars next.

22 Q. And did you and Brutus do that?

23 A. Yes. And in that area, Brutus did give a trained
24 indication. It was a vehicle that was underneath
25 some brush and there was a blue tarp there. And

1 he did indicate. He went to this vehicle very
2 quickly. He came back to me and sat and gave his
3 trained indication, which was a bark. I asked him
4 to show me again. He went back to the same
5 vehicle, barked and returned to me again.

6 Q. You asked him to show you again; what does that
7 mean?

8 A. Sometimes when a dog is in a big area, they bark,
9 we ask them to pinpoint. He had initially
10 approached this vehicle that was -- That is the
11 vehicle that we approached.

12 Q. Let me just stop you there. I put on the screen
13 and I didn't mean to interrupt you. But Exhibit
14 No. 31 has now been placed on the screen for the
15 remainder of your testimony. Why don't you go
16 ahead and tell us what, specifically, Brutus did.

17 A. We would have been approaching from the back.
18 The manner in which we were clearing, we're
19 coming this way. And Brutus works off leash, so
20 he ranges a distance from me.

21 He ran up to a vehicle that looked like
22 that and he was at the back doorway, kind of
23 where the wheel was, where the wheel cover was.
24 He came back to me and he barked. And the law
25 enforcement back there with me asked if he was

1 alerting and I said yes. And normally, when he
2 alerts, I ask him to show me; he returns to the
3 source that he has found.

4 He then came back and he was very
5 interested in this area. I recall because I was
6 worried he was going to knock this piece of
7 plywood over. He was alerting on the side of the
8 vehicle, barking, placing his paw on the vehicle.

9 Q. Now, alerting on a vehicle, as his trained
10 handler and working with him in 150 of these
11 cases, what if anything did that tell you?

12 A. That told me that Brutus felt that he smelled
13 blood or some type of human remain at that
14 vehicle. I did ask backup, the law enforcement,
15 if they wanted us to clear the interior of the
16 vehicle. They said, no, please secure your dog.
17 So, called him to me and secured him.

18 Q. So Brutus alerted twice on this vehicle; is that
19 right?

20 A. Mm-hmm. From the back, behind the piece of
21 plywood and from the side here.

22 Q. I don't know if you are able to answer this, Ms
23 Cramer, but is there a level of confidence that
24 you can attribute to Brutus; in other words, how
25 he was barking at you, confidence as far as his

1 alert?

2 A. There is. Sometimes the dogs will -- they
3 will -- they will have a scent. For instance,
4 they might be downwind of a scent and they will
5 bark, but it will be kind of a -- you can tell
6 they are smelling something, but it means you
7 need to investigate further. Other times they
8 definitely have a source.

9 This was definitely an indicator where
10 he wanted -- What he wanted me to do, what Brutus
11 wanted me to do was open this door for him. We
12 did not do that, but in some cases, you know, he
13 would proceed into the source. So he was
14 confident that he wanted me to come right there.
15 That's as close as he felt he could get to what
16 he was smelling. So he pawed the vehicle and
17 barked.

18 Q. All right. You said law enforcement asked you to
19 secure your dog; what does that intend?

20 A. That just means put him on a leash. Whenever we
21 respond, we aren't investigators, so we do what
22 we're told. Sometimes they simply want to see
23 what a dog does in an area. Other times they
24 need to do other things.

25 In this case, I asked if they wanted me

1 to approach the vehicle; they said no, secure
2 your dog. I put him on a leash. And then we
3 were actually taken back, away from the vehicle
4 at that time.

5 Q. Your team, that is the team of cadaver dogs, or
6 human remain detection dogs, were they used later
7 that evening?

8 A. Yes, we were used, actually, for five days. We
9 were used later that evening. Brutus and I were
10 redeployed. We had other dogs deployed into the
11 salvage yard, so, yes.

12 Q. Let's talk about you and Brutus. After Brutus
13 alerted -- By the way, do you remember the
14 weather that night?

15 A. Yes, it was getting uglier and uglier. There was
16 sleet. It was windy. And as darkness approached
17 it really got -- the visibility got bad. It was
18 freezing rainy snow.

19 Q. All right. By the way, does that weather
20 condition affect Brutus' reliability or ability
21 to find the scent?

22 A. It would depend on the area. It definitely cuts
23 down the distance from which a dog can work.
24 Because, obviously, if it's snowing and rain is
25 coming down, the dog can't find something from

1 far away. One of the reasons I have selected him
2 is he is really durable. So he doesn't care if
3 it's raining or snowing; he just has to get in
4 closer to his source to be able to find it
5 because he can't smell something on the breeze
6 like he would have on a nice day.

7 Q. The question, Ms Cramer, what was the weather
8 like when Brutus first alerted on this vehicle;
9 was that a factor at all?

10 A. The first alert, it was still just threatening.
11 It worsened as the evening went on. I don't
12 recall that at the time we first worked, that it
13 had started to sleet yet. It was just looking
14 ugly.

15 Q. You said that Brutus, with your assistance, then
16 was asked to check some other areas; can you tell
17 us about that, please.

18 A. That evening?

19 Q. Yes.

20 A. The next assignment, we did work some more in
21 that particular area of the salvage yard. We did
22 work around. There was a pond right there, so we
23 checked the perimeter of the pond and we checked
24 a few rows of vehicles there. Then we were
25 returned to base. And then we began to check

1 some buildings.

2 Q. Let me go back to Exhibit No. 86 and ask if you
3 recognize the trailer in what would be the
4 northwest corner of the Avery salvage property?

5 A. This trailer?

6 Q. Yes.

7 A. Yes. We did search that building, that evening.

8 Q. Who is we?

9 A. Brutus and I.

10 Q. All right. And were there any alerts that Brutus
11 found from within the building itself?

12 A. Within that building, we did get one trained
13 alert in a bathroom area.

14 Q. Thereafter, Ms Cramer, was Brutus taken outside
15 of the trailer?

16 A. Yes. The intention had been to work the
17 perimeter outside the trailer. Brutus proceeded
18 toward -- between this garage and this trailer
19 and was extremely agitated. But there was a
20 dog -- By this time it had gotten dark and it was
21 sleeting. There was a dog barking. I leashed
22 Brutus as to not engage the dog. I wasn't aware
23 of how long the dogs chain was or what type of
24 interaction the two dogs would have.

25 Q. Specifically, Ms Cramer, behind the garage, do

1 you see a darkened area on the photo or Exhibit
2 No. 86?

3 A. Yes.

4 Q. Could you point to that with your laser pointer,
5 please. Did Brutus ever, or was he allowed to
6 ever search behind that garage, in that area?

7 A. Not that evening. The marker that I used was
8 this white tank. He was at that tank and was
9 barking. But beyond the tank, I couldn't tell
10 where the German Shepherd reached, so I called
11 him back to me and leashed him at that time.
12 Then what he did is he ran -- he was pushing to
13 go this way and he actually ran kind of back in
14 this direction, toward another dog.

15 Q. Ms Cramer, I'm going to show you what's been
16 received for identification as Exhibit No. 50,
17 5-0; do you recognize that dog?

18 A. That would be the dog, that I believe, that was
19 barking at us that night in the dark.

20 Q. And this area, what appears to be a burned out
21 area, was this dog near the location that is seen
22 in Exhibit 50?

23 A. From my recollection, that's very similar to
24 where the dog was located. If I'm orientated to
25 this picture, the white tank would be somewhere

1 right over here. That's as far as my dog and I
2 approached right then. We weren't aware how long
3 his chain was.

4 Q. So the night of the 5th of November, Brutus
5 wasn't able to check this area for human remains;
6 is that right?

7 A. That's correct.

8 Q. The last question that I have for you is the
9 training that Brutus may have had in detection of
10 burned or incinerated human remains. First of
11 all, is it possible for a human remain detection
12 dog to be trained in that field?

13 A. Yes, it is. And prior to this case, we had
14 obtained cremated remains for training purposes.
15 One of the sources used in Brutus' 2005 test was
16 cremated remains.

17 At that time we had not worked that in
18 the field, but we had used it in certification.
19 Since the time of this case, Brutus has
20 successfully located some cremated remains on
21 another case.

22 Q. All right. And so although not given an
23 opportunity to find cremated remains that
24 evening, if given the opportunity, do you have an
25 opinion as to whether Brutus would have been able

1 to do that?

2 ATTORNEY STRANG: Objection, speculation.

3 Q. (By Attorney Kratz)~ Not talking about the
4 results, but would he have been certified or
5 trained in those detections?

6 A. Yes.

7 THE COURT: Just a second. Mr. Strang.

8 ATTORNEY STRANG: Speculation.

9 THE COURT: Parties wish to argue?

10 ATTORNEY KRATZ: Judge, the dog is
11 certified in that area, that's all I'm asking.

12 ATTORNEY STRANG: And I think the testimony
13 was he wasn't then.

14 (Court reporter couldn't hear.)

15 ATTORNEY STRANG: I believe the testimony
16 was, or the implication was, that he was not
17 certified at the time.

18 THE COURT: Mr. Strang, why don't you ask
19 some additional foundation questions.

20 ATTORNEY KRATZ: Mr. Kratz, you mean?

21 THE COURT: I'm sorry, Mr. Kratz.

22 Q. (By Attorney Kratz)~ Was Brutus certified at that
23 time in the detection of cremated human remains?

24 A. There is no specific test for that. One of the
25 sources on his 2005 evaluation was cremated

1 remains. He did successfully locate that in an
2 evaluation setting.

3 Q. So, let me ask it this way: In the past, that
4 is, prior to November 5th, 2005, Brutus has been
5 successful in identifying cremated human remains;
6 is that right?

7 A. Yes.

8 ATTORNEY KRATZ: Your Honor, I will move
9 the admissions of, I think it's Exhibit 128 and 129
10 at this time, otherwise I have no further questions.
11 Thank you.

12 THE COURT: Any objection to admission of
13 the exhibits?

14 ATTORNEY STRANG: I don't.

15 THE COURT: Very well, the exhibits are
16 admitted.

17 **CROSS-EXAMINATION**

18 BY ATTORNEY STRANG:

19 Q. Good morning, Ms Cramer.

20 A. Good morning.

21 Q. Several minutes ago, you commented that at the
22 moment you can't remember the name of law
23 enforcement officers without looking at your
24 report; when did you prepare a report of this
25 case?

1 A. I prepared a report of this case in November of
2 '05.

3 Q. And do you have that with you today?

4 A. I don't have it with me.

5 ATTORNEY STRANG: Maybe we should just
6 approach, your Honor, briefly.

7 (Sidebar taken.)

8 Q. (By Attorney Strang)~ Would you bear with me just
9 a second and we'll see if this is helpful or it
10 may be of some use in refreshing your
11 recollection. I will just leave it with you. I
12 don't know that we'll need it, so we won't mark
13 it for the moment, but you can have it if you
14 need it.

15 Now, I gather that you have got at least
16 two -- two living beings you describe as a
17 partner; one is your husband Bob?

18 A. Yes.

19 Q. And the other is Brutus?

20 A. Yes.

21 Q. And it sounds like maybe you handle some other
22 four legged partners as well?

23 A. Yes.

24 Q. Where do you and your various partners live?

25 A. We live in Cedar Grove, Wisconsin.

1 Q. Give me a rough idea, is that Sheboygan County?

2 A. Sheboygan County.

3 Q. Do you have a TV? Do you have a television?

4 A. Yes.

5 Q. You do, okay. And you are responding here on
6 November 5, 2005?

7 A. Yes.

8 Q. Do you suppose you had had your television on at
9 any time between -- let's say 10:00 on
10 November 3, 2005 and the time you came up to
11 Manitowoc County from Cedar Grove?

12 A. Actually, we were at a map and compass training
13 in Milwaukee and we were not at home at the time
14 of the call. We responded from the nature center
15 in Milwaukee County.

16 Q. Okay. That was a conference that you were
17 attending?

18 A. It was map and compass training for the canine
19 team.

20 Q. When you arrived, up in Manitowoc, or actually in
21 what I will call the Avery salvage property --

22 ATTORNEY STRANG: And I'm going to ask
23 Mr. Kratz if he would put exactly that one back up
24 on the screen, 86; is that right? Maybe we'll --
25 What I'm interested in is, I want to have the

1 crusher and the pond and the southern ridge.

2 ATTORNEY KRATZ: How's that?

3 ATTORNEY STRANG: Sure, just great.

4 Q. (By Attorney Strang)~ So by the time you got up
5 here, it's 2:30 and you are detained out at the
6 check in point back up by Highway 147 for about
7 an hour?

8 A. Yes.

9 Q. Come in, and you describe for us the route you
10 went, and I don't need to repeat that, but I did
11 want to pick up on the car under the tarp, okay?

12 A. Okay.

13 Q. Was the car under the tarp when Brutus approached
14 that particular car?

15 A. Wasn't really under a tarp. There was a blue
16 tarp near the vehicle. It had wood on it and
17 there was a series of cars in a row, but the blue
18 tarp is how I recollected where that car was.

19 Q. Sort of tented over the car?

20 A. Yes, kind of on the side.

21 Q. What do you mean by on the side?

22 A. Tented partially over that car on the front end
23 of the car.

24 Q. But Brutus didn't have to go under the tarp to
25 get to the rear passenger wheel well, for

1 example?

2 A. No, he did not.

3 Q. He did not have to go under the tarp to get to
4 the rear cargo door area?

5 A. No, he did not.

6 Q. And those were the two places where he barked?

7 A. Yes.

8 Q. And at that point, the sleet probably had not
9 started, is your recollection?

10 A. That's my recollection.

11 Q. The wind hadn't picked up yet?

12 A. No.

13 Q. And then, what you went, then, is, further --
14 South is up in this picture, okay. We all know
15 that. I'm just going to suggest that to you. So
16 to the right is west?

17 A. Yes.

18 Q. You sort of worked further west along that line
19 and then around the perimeter of the pond a
20 little bit?

21 A. Yes.

22 Q. Now, setting aside partner Bob and the other --
23 any other partners in your life. Let's talk
24 about partner Brutus for just a minute. Brutus
25 is a dog?

1 A. Yes.

2 Q. Does Brutus get some time to just be a dog?

3 A. Yes.

4 Q. Does he live with you?

5 A. Yes.

6 Q. Inside dog?

7 A. Yes.

8 Q. And does -- When Brutus is off duty and just kind
9 of hanging out being a dog, does he ever behave
10 like a lot of other dogs?

11 A. Yes.

12 Q. Does he bark?

13 A. Rarely.

14 Q. But he will sometimes bark?

15 A. Yes.

16 Q. For example, when he's telling you things, when
17 he's telling you, please, open the door for me on
18 the Toyota; he's doing that by behaviors,
19 correct?

20 A. Right.

21 Q. He hasn't mastered English?

22 A. No.

23 Q. Or any other language you speak?

24 A. No.

25 Q. So barking is one of the things he does that will

1 tell you, as his partner, what it is he wants.

2 A. Barking is the behavior we have reinforced for
3 cadaver recovery, yes.

4 Q. And you described even, for the jury, that
5 sometimes -- my word now -- you get sort of a
6 tentative bark when something is in the wind, so
7 to speak, and sometimes, again my word, more of a
8 definitive or determined sort of bark?

9 A. Yes.

10 Q. And the art of this is interpreting -- your
11 interpretation of the gradations between those
12 two sort of barks?

13 A. Yes, and proving it in evaluation.

14 Q. And will Brutus tend to bark when he's confronted
15 with, say a German Shepherd?

16 A. Yes.

17 Q. Is he interested in other dogs?

18 A. Not primarily, if the dog barks at him, he will
19 bark back.

20 Q. Mm-hmm. And does he like to sniff other dogs in
21 the way that dogs introduce themselves
22 particularly?

23 A. He's not as interested in dogs as some but, yes.

24 Q. When you are working him, he gets a break from
25 time to time?

1 A. Yes.

2 Q. Probably every hour or so?

3 A. Depending on circumstances, yes.

4 Q. He gets some sort of a reward at a break time?

5 A. Yes, water.

6 Q. Water. And by reward, I don't necessarily mean a
7 dog bone or something, but a scratch on the ear,
8 some -- some sort of reinforcement that he's
9 appreciated?

10 A. Yes.

11 Q. And that would include water, typically, for
12 Brutus?

13 A. Yes.

14 Q. Now, you -- I'm going to use a sort of a fancier
15 word than Mr. Kratz did, but you just straighten
16 me out if you don't understand me, because I sort
17 of suspect you will. In handling canines or
18 trained dogs, one of the things you are
19 interested in is false positives, true?

20 A. Yes.

21 Q. A false positive here would mean an alert that
22 the dog gives when, in fact, there is no source
23 on which the dog would have been trained to
24 alert?

25 A. That would be a false positive.

1 Q. Okay. You are also interested in false
2 negatives, true?

3 A. Yes.

4 Q. A false negative would be when, for example, as a
5 matter of a training exercise, you know, or
6 someone knows, because usually this would be done
7 blind to you, correct?

8 A. Correct.

9 Q. But someone who has set up the training exercise
10 knows that there is a scent source on which the
11 dog has been trained, correct?

12 A. Correct.

13 Q. If the dog covers the area in which the scent
14 source is hidden, but fails to give an indication
15 or alert, that would be considered a false
16 negative?

17 A. Correct.

18 Q. In other words, the dog missed it?

19 A. Yes.

20 Q. And that was a mistake, because we know it's
21 there?

22 A. Right.

23 Q. All right. What is, or now doesn't matter so
24 much, but as of November 5, 2005, what was
25 Brutus' rate of false negatives?

1 A. Brutus' rate of false negative would be very low.
2 I would have to refer to a lot of logs because
3 it's about 6,000 hours of training. He very
4 rarely has missed a source. I can't say never,
5 but very rarely.

6 Q. And, indeed, the false negative rate is not
7 something you have ever calculated for Brutus?

8 A. No.

9 Q. What was his rate of false positives in November,
10 2005?

11 A. False positives are, when you are training a
12 cadaver dog, the bigger concern because the dog
13 is trying to please a handler.

14 Q. Yes.

15 A. But Brutus worked through that about five years
16 earlier. His rate of false positive has also
17 been very low as his training progressed with his
18 age.

19 Q. So, up until about five years before this, let's
20 say 2000, roughly, Brutus had a noticeable and
21 unacceptable rate of false positives?

22 A. Not unacceptable. When you shape a behavior with
23 an animal, any animal, you are always building
24 toward that perfect behavior. And so with a dog
25 that is very intense in what they are doing, a

1 false negative -- a false positive, I'm sorry,
2 would be initially an attempt to please a
3 handler.

4 And that's what you train for. And
5 until that reaches an acceptable level, you
6 normally can't pass an evaluation. That's the
7 reason that we pass certification testing, is
8 when we feel that the dog is at a level that is
9 reasonable. And Brutus did that a long time ago,
10 at his age.

11 Q. About five years ago?

12 A. He has actually passed that for eight years;
13 seven years at the time of the case.

14 Q. All right. But you have not calculated a false
15 positive rate for him, either?

16 A. No.

17 Q. So as you sit here today, you don't know what the
18 false positive rate is, other than your sense is
19 that it's very low.

20 A. Correct.

21 Q. To be entirely fair, it's very difficult with
22 task dogs like this to know what's a false
23 positive out in the field?

24 A. That's true.

25 Q. Because sometimes you may not necessarily find

1 the scent source that the dog correctly is
2 finding?

3 A. That's correct.

4 Q. So the falseness, so to speak, may be the human
5 inability to find a scent source that the dog
6 does smell?

7 A. Right.

8 Q. Okay. Now, in that regard, these dogs have just
9 enormously sensitive capacity for smell?

10 A. Yes.

11 Q. This is called the olfactory sense, correct?

12 A. Yes.

13 Q. People like you who, for 18 years, have been
14 training dogs like this, have no idea how it is
15 that this olfactory smell -- or sense of the dog
16 gets so well developed?

17 A. That's true.

18 Q. What you know is, that it is, correct?

19 A. Yes.

20 Q. So if you are working a human remains dog, if you
21 are working a human remains dog in specific, in
22 this part of the world, let's say Wisconsin,
23 northern Illinois, you sometimes have to go back
24 and try to learn, if you can, are their native
25 American Indian burial grounds in the area, for

1 example?

2 A. Yes.

3 Q. Because the dog may pick up on human remains that
4 are 1,000, conceivably 2,000, years old, true?

5 A. That would be possible.

6 Q. You have to be aware of, maybe from the local
7 historical society, was there a 19th century
8 cemetery or family burial plot in the area that
9 I'm working, because the dog may be picking up
10 those remains?

11 A. Yes.

12 Q. You have to be aware of the locations of
13 mortuaries and, for example, whether you are
14 downstream, as a matter of the water table, from
15 the septic system of a mortuary or crematorium?

16 A. Yes.

17 Q. But all that said, what the dog really is
18 smelling is decomposing human remains, correct?

19 A. Yes.

20 Q. Human remains meaning human tissue, skin, bone,
21 muscle, ligament, that sort of thing?

22 A. We train on that and blood, bone.

23 Q. And exactly, very good, and that's exactly where
24 I was going. So we have human tissue and also
25 human bodily fluids, correct?

1 A. Yes.

2 Q. A dog will hit on decomposing blood, or should,
3 if properly trained, correct?

4 A. Yes.

5 Q. Other human bodily fluids, a dog will hit on
6 conceivably --

7 A. Yes.

8 Q. -- correct? And so what happens is, the minute
9 tissue comes off us, for whatever reason, or
10 lands on the ground, a process of decomposition
11 begins, correct?

12 A. Correct.

13 Q. This is an ordinary biochemical process?

14 A. Yes.

15 Q. There are bacteria in the human body at all times
16 and then other bacteria on the ground, or grass,
17 or in the environment, that will begin to
18 breakdown human tissue?

19 A. You are sort of speaking, though, of life scent,
20 scent coming off a live person. A human remain
21 detection dog needs a source of either blood, or
22 teeth, or hair, to give off that scent.

23 Q. Correct.

24 A. What's coming off you is live scent.

25 Q. I understand that. That's why I'm saying the

1 minute human tissue hits the ground or is no
2 longer connected to me, for whatever reason,
3 that's what I'm talking about, okay?

4 A. Okay.

5 Q. Are you with me? I'm not talking about while my
6 tissue is on me or in me? Okay?

7 A. Right.

8 Q. But let's say now that -- that I have cut myself,
9 okay? Badly enough to be dripping blood all
10 over. After I faint, and you folks have to
11 revive me, we can worry about the dog. But let's
12 say I'm doing that, and at that point the -- the
13 blood drips on the floor are going to begin to
14 decompose?

15 A. Yes.

16 Q. And we don't think of that immediately, but
17 that's biochemically what's going on at that
18 point, correct?

19 A. Yes.

20 Q. And if it were a good day or a normal day, the
21 typical day for Brutus, if you brought him into
22 this courtroom a day, or two, or a week, or a
23 year after I had bled all over the carpet,
24 assuming no one had, you know, been successful in
25 so cleaning the carpet as to remove all scent of

1 my decomposing blood, you would expect an alert?

2 A. Yes, I would.

3 Q. In training these dogs, it is not uncommon for
4 you to use, I guess what politely could be called
5 medical waste?

6 A. We obtain it from a coroner, but I think that's
7 what you are asking me.

8 Q. Yeah. That is, actual human remains?

9 A. Yes.

10 Q. Although, not necessarily an entire cadaver?

11 A. No.

12 Q. Or corpse?

13 A. No.

14 Q. Other than a sort of specialized farm in
15 Tennessee, under the control of the University of
16 Tennessee, there really isn't a training or
17 proving ground in this country where an entire
18 corpse or cadaver would be used for the purpose
19 of training dogs?

20 A. That is correct.

21 Q. There are essentially three ways to train the
22 human remains dogs that you have described for us
23 here. One would be to use something like a pig
24 carcass.

25 A. We do not do that.

1 Q. Right. And most responsible human remains dog
2 trainers no longer use a pig carcass or parts of
3 a pig, correct, in training?

4 A. Correct.

5 Q. Because although pigs are very similar to humans
6 in some ways, the fact is that there will be --
7 or a dog may be able to detect differences in
8 decomposing pork or pig carcass as opposed to
9 decomposing human remains?

10 A. That's correct.

11 Q. Another, if we go up the scale then in
12 reliability, another way to train or test or
13 prove these dogs is to use something called
14 pseudo corpse, true?

15 A. That's correct.

16 Q. That's a chemical compound that's produced
17 commercially and available for sale?

18 A. We do not use that, but I'm aware of the product.

19 Q. And the trend, you know, in your business, is
20 moving away from using pseudo corpse, or this
21 chemical product, correct?

22 A. Correct.

23 Q. But at least the idea of pseudo corpse is that
24 it's supposed to mimic very closely the
25 collection of gases that emit from decomposing

1 human tissue?

2 A. Yes.

3 Q. That's at least the theory, correct?

4 A. Mm-hmm. Yes.

5 Q. And then the most reliable and third or final

6 means of training or proving a human remains dog

7 would be to use actual human remains of some

8 kind, correct?

9 A. Correct.

10 Q. Now, these might be obtained lawfully from a

11 coroner's office.

12 A. All of our sources are obtained lawfully.

13 Q. Right. And that's why -- that's why I said that.

14 I understand you do this lawfully. And that's

15 off the table, okay. So when I say obtaining

16 human remains, it's understood you are doing this

17 lawfully.

18 A. Yes.

19 Q. Fair enough. But a coroner's office might be one

20 source.

21 A. Yes.

22 Q. Hospitals might be another source?

23 A. Not for us, but I'm sure you could.

24 Q. For other people in this business?

25 A. Mm-hmm.

1 Q. Okay. But what is obtained, then, without
2 becoming completely indelicate, is some small
3 quantity of some sort of human remain, not a
4 corpse or a cadaver?

5 A. That's correct.

6 Q. The dog, then, is alerting to, or is trained to
7 recognize the package, if you will, of gases and
8 scents that are released in the decomposition or
9 the breaking down of this sort of human tissue.

10 A. Yes.

11 Q. If we were chemists we would be talking about
12 esters and alchemies as the source of these
13 odors.

14 A. Okay.

15 Q. Is that --

16 A. You are okay. I'm not a chemist.

17 Q. Okay. I mean is that something you heard --

18 A. Yes.

19 Q. -- or ever been taught?

20 A. Yes.

21 Q. Okay. I couldn't begin to tell you which esters
22 and which alchemies, but this is the chemist's
23 name for the molecular structure of these gases
24 that are given off.

25 A. Okay. Yes.

1 Q. One of the gases that decomposing human tissue
2 gives off actually is very common, commonly
3 understood, and that's methane?

4 A. Yes.

5 Q. But that's only one of the gases, correct?

6 A. Right.

7 Q. So one of the challenges if you are going to work
8 a dog in a landfill, for example, is to train him
9 not to hit only on methane.

10 A. Correct.

11 Q. Correct, because landfills give off all kinds of
12 methane --

13 A. Correct.

14 Q. -- true? That's because any sort of living
15 tissue in either the animal or plant kingdom, as
16 it decomposes, will release methane gas?

17 A. Yes.

18 Q. You are not interested in that, per se, you are
19 interested in methane only to the extent that
20 that is part of the cocktail of odors and gases
21 that decomposing human tissue gives off?

22 A. That's correct.

23 Q. But a landfill is a challenging site --

24 A. Yes, very.

25 Q. -- for a human remains dog, for this reason?

1 A. Yes.

2 Q. Likewise, a salvage yard, have you ever worked a
3 salvage yard before?

4 A. Not this large a salvage yard, no.

5 Q. But you have been to that type of scene?

6 A. Yes.

7 Q. Okay. And one thing you know that you have in
8 salvage yards is some number of cars.

9 A. Yes.

10 Q. Some of those cars are just old and they went
11 kaput and stopped running and somebody towed them
12 off to the salvage yard?

13 A. Yes.

14 Q. But some of them, though, were wrecked or ruined
15 in car accidents?

16 A. Yes.

17 Q. Car accidents, unfortunately, sometimes cause
18 human beings to bleed?

19 A. Yes.

20 Q. Sometimes profusely bleed?

21 A. Yes.

22 Q. When the car is towed off after the wreck,
23 ordinarily no one has made any effort to clean up
24 the blood, or worse, of the human remains in that
25 wrecked car.

1 A. That's true.

2 Q. So a salvage yard, particularly one this size,
3 with over 4,000 wrecked cars, is also a
4 challenging environment for a dog?

5 A. Yes.

6 Q. You had here, as a matter of fact, a number of
7 alerts from Brutus to cars in the salvage yard?

8 A. Yes, we did.

9 Q. Most of those, I'm just going to set aside the
10 Toyota that you described, most of those human
11 beings later decided, didn't have any relevance
12 to the investigation, correct?

13 A. That would be up to the investigators.

14 Q. Right. I mean, your job was simply to say,
15 Brutus is barking, he is alerting on the trunk of
16 this car, or the backseat of this other car.

17 A. That's right.

18 Q. The investigators take it from there?

19 A. Yes.

20 Q. But it would not surprise you to learn that
21 investigators, then, may have decided there is
22 another source of human remains here and it means
23 nothing?

24 A. Yes.

25 Q. This dog, Brutus, never was scented, if you will,

1 for Teresa Halbach?

2 A. No, you don't scent human remains detection dogs.

3 Q. Right. And this "scent" is normally a noun, not
4 a verb, as we just used it. Let's explain that a
5 little bit. By scenting a dog, what that means,
6 in your special field, is if we have a search and
7 rescue dog, a bloodhound typically, but not
8 necessarily exclusively, could be a beagle or
9 something, correct?

10 A. Correct.

11 Q. What we would do is give an article of clothing;
12 a shoe, a shirt, something that's known to belong
13 to the missing person?

14 A. Yes.

15 Q. Let the dog smell that or get the scent of that
16 item of clothing, correct?

17 A. Yes.

18 Q. And then ask the dog, on leash or off, whether he
19 can find the scent?

20 A. That's correct.

21 Q. And then to follow the scent.

22 A. Yes.

23 Q. So it's not -- So for those dogs, it's not so
24 much an alert process as it is being trained in
25 the process of leading a handler along the path

1 of the scent, if the scent is detected?

2 A. Yes.

3 Q. Brutus was not given Teresa Halbach's scent?

4 A. No.

5 Q. Because you don't do that with the human remains
6 dog?

7 A. That's correct.

8 Q. Brutus, then, to the extent he was alerting on
9 the Toyota, could not tell you whether he was
10 smelling the remains of Teresa Halbach?

11 A. That's correct.

12 Q. He could not tell you whose remains, obviously,
13 he might have been smelling?

14 A. That's right.

15 Q. He could not tell you whether it was human bodily
16 fluid or human tissue that he was smelling?

17 A. That's right.

18 Q. He could not tell you whether the person who left
19 the body tissue or the bodily fluid was alive or
20 dead?

21 A. That's right.

22 Q. What he could tell you was that someone has left
23 some sort of human remains here?

24 A. That's correct.

25 Q. In the example I gave of my cutting my hand and

1 bleeding all over the floor, presumably I could
2 be rendered first-aid, or I could put a little
3 bandage on, or something, and I would go on just
4 fine.

5 A. That's correct.

6 Q. Some people might not be happy that I'm going on
7 just fine, but I would go on just fine, right?

8 A. Right.

9 Q. But, nonetheless, Brutus would alert on human
10 remains on the floor?

11 A. Yes.

12 Q. So the label of a cadaver dog is one that you
13 rightly tend to shy away from a little bit and
14 prefer human remains detection dog?

15 A. I prefer it, because sometimes we're looking for
16 evidence not corpses.

17 Q. Not corpses, exactly. And in any event, unless
18 you find a corpse, there is no way to know that
19 an alert means a corpse?

20 A. You would normally look for what source the dog
21 was hitting, whether it was a corpse or material.

22 Q. Tissue or fluid.

23 A. Mm-hmm.

24 Q. And by fluid, let's -- let's get specific about
25 that. Menstrual blood?

1 A. Yes.

2 Q. Semen?

3 A. Yes.

4 Q. How about saliva?

5 A. Yes.

6 Q. By tissue, let's get a little more specific;

7 skin?

8 A. Yes, the only -- the only thing I guess I want to

9 say is, in a way you seem to cross over into live

10 scent. You know, I'm sloughing skin off.

11 Q. Right.

12 A. My cadaver dog isn't going to hit on that. There

13 has to be a piece of a finger, a pool of blood.

14 So, that's like with saliva, if somebody talks

15 and spits saliva, my dog isn't going to hit on

16 it. Now, if there was a large quantity of saliva

17 that was allowed to sit long enough, I may or may

18 not get a hit. I haven't actually tested that.

19 Q. But -- But you might.

20 A. Correct.

21 Q. Yeah. And it's a very good point. So there is a

22 volume issue here?

23 A. Yeah. You can't just -- Live scent would be skin

24 sloughing off. That would be something that a

25 bloodhound would be much more interested in than

1 a cadaver dog.

2 Q. Or -- Or even if he we don't think of it as live,
3 I mean, sloughed off skin cells aren't dead?

4 A. Plus, they stop. There's only a life span on
5 that. If you would have -- That's why a tracking
6 dog needs to be brought on scene, they like to
7 say within 72 hours, because at some point that
8 stops being an effective source for that dog.

9 But if there is an actual tooth, or a
10 finger, or a pool of blood, that, then, is going
11 to give off a source -- a scent that the dog will
12 hit on.

13 Q. And lasts much longer --

14 A. Yes.

15 Q. -- conceivably?

16 A. Yes.

17 Q. Right down to the example we started with, you
18 know, the native American who died a thousand
19 years ago?

20 A. Correct.

21 Q. But the -- What I guess the point is, again, as
22 you said, a tooth; it could be bone material; it
23 could be skin, if in sufficient quantity; could
24 be muscle tissue, correct?

25 A. That's correct.

1 Q. The dog will alert to all of these things,
2 regardless of whether the person who left it is
3 alive or dead?

4 A. That's correct.

5 Q. Did I understand you correctly -- and we're
6 probably -- probably done with Exhibit 86 -- I
7 don't know, let's find out if we need another
8 photo. You -- You were shown on direct
9 examination a photo that had a trailer down in
10 sort of a diagonal opposite corner of this
11 property?

12 A. Yes.

13 Q. If we call that Steven Avery's trailer, is that
14 something you recognize?

15 A. I worked in that trailer, yes.

16 Q. And you know it -- you know it to have been the
17 home of Steven Avery?

18 A. I do now.

19 Q. Okay.

20 A. I did not at the time I searched it.

21 Q. Fair enough. But you do now. Did you work
22 Brutus through that entire trailer?

23 A. Yes. We entered in through the door and worked
24 the interior.

25 Q. From stem to stern?

1 A. As much as investigators asked me to search, yes.

2 Q. Well, and was that from one end to the other?

3 A. Yes.

4 Q. The one alert that you got was in the bathroom?

5 A. Yes.

6 Q. The bathroom of a home is a place where one would
7 not uncommonly find human bodily fluid?

8 A. That's true.

9 Q. Traces of urine, for example.

10 A. Yes.

11 Q. Not -- If there's a man living and using the
12 bathroom, one would not uncommonly find traces of
13 blood, at least if he's someone who shaves in the
14 morning?

15 A. That's true.

16 Q. So what the source, again, of the alert was, you
17 are not able to say?

18 A. No.

19 Q. Neither was Brutus?

20 A. No.

21 Q. Did you work to the master bedroom, the bedroom
22 at the far --

23 A. Yes.

24 Q. -- upper left here?

25 A. Yes.

1 Q. No alerts in the master bedroom?

2 A. No.

3 Q. Did you have a chance to work Brutus in the --

4 inside the attached -- or the detached garage,

5 that's about square in the middle of the portion

6 of Exhibit 86 that we have on the screen?

7 A. No, we did not. We only worked as far as the

8 tank where he was barking and then he skirted

9 around to another area.

10 Q. Meaning he ran up along to the east here, to the

11 left?

12 A. Yes, he ended up proceeding behind the next

13 building.

14 Q. Where did he go?

15 A. There was an area of four burn barrels which he

16 barked at.

17 Q. Oh. This is what you now know to be the Janda

18 trailer?

19 A. I don't know whose trailer that is.

20 Q. But it was a blue trailer --

21 A. Yes.

22 Q. -- just east of Mr. Avery's garage?

23 A. Yes.

24 Q. And there were four burn barrels in the back?

25 A. Yes.

1 Q. He alerted on those?

2 A. Yes.

3 Q. Where did he go from there?

4 A. There was another dog barking. The weather at
5 this point was very bad so they asked me to
6 secure him. And we then returned to base.

7 Q. And the other dog was over by this blue trailer?

8 A. Yes. And we exited the property off site of this
9 picture. We came out to the road.

10 Q. Were you actually handling dogs before 1989?

11 A. Not in the search and rescue capacity.

12 Q. Understood, but were you working with trained
13 dogs, guide dogs --

14 A. Yes.

15 Q. -- or other human assistance dogs?

16 A. Yes.

17 Q. Okay. Dogs have been a passion of yours for a
18 long time?

19 A. Yes.

20 Q. You have worked with hundreds of dogs?

21 A. Yes.

22 Q. Maybe thousands?

23 A. Maybe.

24 Q. Those have included all kinds of shepherds?

25 A. All breeds.

1 Q. And specifically a range of shepherds, correct?

2 A. Specifically shepherds, yes.

3 Q. Okay. A Belgian Shepherd here; you have worked
4 with German Shepherds?

5 A. Yes.

6 Q. And if someone asked you, do you think you could
7 have approached and handled the dog behind
8 Mr. Avery's garage?

9 A. I didn't have enough contact to know that. The
10 weather really was a factor.

11 Q. Sure.

12 A. And I -- I was concerned about my working partner
13 at that time. The dog was sounding off, whether
14 that was aggressive or not, we didn't really stop
15 to make that determination.

16 Q. Fair enough. So I guess the answer is maybe,
17 maybe not?

18 A. We could not have worked that area without
19 removing that dog from the site. I won't work my
20 dog with somebody else's dog chained in the area.
21 So we couldn't work the area, but I could make a
22 determination on whether I could have handled
23 that dog or not.

24 Q. Okay. Have you met dogs you couldn't handle?

25 A. Oh, yeah.

1 Q. Okay.

2 ATTORNEY STRANG: That's all I have. Thank
3 you. Thank you, very much.

4 THE COURT: Mr. Kratz, any redirect?

5 ATTORNEY KRATZ: If I could have just a
6 moment, Judge.

7 **REDIRECT EXAMINATION**

8 BY ATTORNEY KRATZ:

9 Q. Mr. Strang asked about false positives and false
10 negatives, have you had an experience,
11 specifically with Brutus, where Brutus alerted,
12 found a scent that was originally believed to
13 have been a false positive that actually turned
14 out to be an accurate reflection of some
15 evidence?

16 A. We had two, both in 2005, that come to mind. In
17 one case we were called to a drowning situation
18 where it was believed a driver and his vehicle --
19 the driver had Alzheimer's -- had entered a canal
20 in northern Illinois. Brutus gave a very
21 definitive alert in an area that would have been
22 logical where the vehicle could have been gone
23 in. Divers looked without success for two days.
24 We cleared scene.

25 I was very concerned about that as a

1 false positive. Bothered me a lot in training.
2 Some weeks went by and we received a call from
3 the agency that as a barge had gone through
4 taking corn in this canal, they had struck
5 something and in finding out, it was the vehicle.
6 It had obviously gone in with enough force it was
7 silted into the river. They were able pull to
8 the vehicle out and the driver was within the
9 vehicle.

10 That was an example of what looked to be
11 a false positive that was true. We also had an
12 evidence kind of case, same kind of thing.

13 Q. Let me just -- My point is that Brutus has been
14 found --

15 A. Yes.

16 Q. -- before, to be accurate, when even humans --

17 A. When we thought --

18 Q. -- couldn't find what --

19 A. -- he was wrong, yes.

20 ATTORNEY KRATZ: That's all I have of Ms
21 Cramer, Judge.

22 ATTORNEY STRANG: I'm just taking one last
23 look at the report. I probably will have no further
24 questions, but if I could just have a moment or two.

25 THE COURT: Go ahead.

1 RECROSS-EXAMINATION

2 BY ATTORNEY STRANG:

3 Q. The area of the four burn barrels, Brutus
4 actually alerted on two of the barrels?

5 ATTORNEY KRATZ: Objection, beyond the
6 scope of redirect.

7 ATTORNEY STRANG: It is, I'm just getting a
8 chance to look at the report. It is beyond the
9 scope of redirect.

10 THE COURT: All right. How many questions
11 are you looking to ask?

12 ATTORNEY STRANG: I think two.

13 ATTORNEY KRATZ: That's fine, Judge, he
14 can.

15 THE COURT: Very well.

16 Q. (By Attorney Strang)~ I have asked one already;
17 he alerted on two of the barrels?

18 A. Yes.

19 Q. And the alerts go with extreme animation and
20 excitement?

21 A. Yes.

22 ATTORNEY STRANG: That's all I have.
23 Thanks.

24 ATTORNEY KRATZ: Nothing further. Thank
25 you.

1 THE COURT: Very well, the witness is
2 excused.

3 THE WITNESS: Thank you.

4 ATTORNEY KRATZ: Can we approach, just
5 briefly, Judge?

6 THE COURT: Sure.

7 (Side bar taken.)

8 THE COURT: Members of the jury, we're
9 going to get started on the next witness, but if you
10 want to stand up and stretch a bit now, you can,
11 that's fine.

12 All right. At this time, Mr. Kratz, you
13 may call your next witness.

14 ATTORNEY KRATZ: State will call Tom
15 Fassbender, your Honor.

16 **SPECIAL AGENT THOMAS FASSBENDER**, called
17 as a witness herein, having been first duly
18 sworn, was examined and testified as follows:

19 THE CLERK: Please be seated. Please state
20 your name and spell your last name for the record.

21 THE WITNESS: Tom Fassbender,
22 F-a-s-s-b-e-n-d-e-r.

23 **DIRECT EXAMINATION**

24 BY ATTORNEY KRATZ:

25 Q. Mr. Fassbender, how are you employed?

1 A. I'm a Special Agent with the Wisconsin Department
2 of Justice, Division of Criminal Investigation.

3 Q. How long have you been a law enforcement
4 official?

5 A. Almost 27 years.

6 Q. What is the Department of Justice?

7 A. The Wisconsin Department of Justice run under the
8 auspices of the Attorney General in Wisconsin.

9 Q. There's a law enforcement branch to that division
10 or department; is that right?

11 A. Yes, that's the Division of Criminal
12 Investigation, DCI.

13 Q. Do you have a specific area of authority with
14 DCI?

15 A. Yes, I'm currently with Special Assignments
16 Bureau within DCI. DCI is broken up into several
17 different areas and bureaus, and that is where I
18 am. And the primary purpose of Special
19 Assignments Bureau, amongst other things, would
20 be homicide investigations or death
21 investigations.

22 Q. And why does DCI typically assist, or why are
23 they assigned homicide investigations?

24 A. Due to the complexity of those types of
25 investigations at times, and with the size of

1 them, and a lot of times you have counties that
2 maybe have one detective or two detectives, and
3 DCI is there to assist in those instances.

4 Q. Is it common for DCI to take over an entire case
5 or does DCI typically help other agencies?

6 A. DCI typically assists.

7 Q. I'm going to direct your attention, Agent
8 Fassbender, to November 5th of 2005, ask if the
9 Division of Criminal Investigation received a
10 call on that day to assist in an investigation?

11 A. Yes, we did.

12 Q. Could you describe for the jury how that
13 happened.

14 A. A sheriff from Calumet County, Jerry Pagel,
15 contacted DCI, I believe the administrator for
16 DCI, and asked for our assistance at that time,
17 which was still a missing persons investigation
18 being conducted.

19 Q. Did you personally respond?

20 A. Yes, I did.

21 Q. And where did you go and what time did you get
22 there?

23 A. I received a call at home. I probably departed
24 that area, or my residence, about 1:00. Picked
25 up another Special Agent and headed to the Avery

1 Salvage Yard, the Avery properties, and probably
2 got there just a little after 2:00 p.m. that day.

3 Q. Sometime at or about 2:00 p.m., were you involved
4 in, that is, did you participate in discussions
5 regarding who was going to lead up or be in
6 charge of this investigation?

7 A. Yes.

8 Q. And could you recount those discussions for the
9 jury, please.

10 A. Upon arrival at that scene, I met with -- I know
11 for sure, Jerry Pagel, the Sheriff of Calumet
12 County. And I was advised that the Manitowoc
13 County Sheriff's Department had asked the Calumet
14 County Sheriff's Department to take the lead role
15 in the investigation.

16 And let me advise that the investigation
17 pertained to Teresa Halbach. And the reason we
18 were at the Avery Salvage Yard was that her
19 vehicle had been found on that property.

20 Q. Did you, on behalf of the Department of Justice,
21 agree to assist and participate in this
22 investigation?

23 A. Yes.

24 Q. As the investigation unfolded, could you identify
25 for the jury other law enforcement officers --

1 excuse me -- other law enforcement agencies that
2 were involved in this investigation?

3 A. Of course Calumet County Sheriff's Department,
4 DCI, Manitowoc County Sheriff's Department,
5 Manitowoc Police Department, Two Rivers Police
6 Department. Some smaller police departments in
7 Calumet County, New Holstein, I think Brillion, I
8 think Kiel. Winnebago County Sheriff's
9 Department with a dive team. Brown County
10 Sheriff's Department assisted in a capacity. I'm
11 not real sure what capacity that was at this
12 moment. FBI has assisted with technical
13 assistance. Marinette Sheriff's Department.

14 Q. That's just the law enforcement agencies?

15 A. Yes.

16 Q. Were there other support agencies that assisted?

17 A. Yes.

18 Q. Name some of those, if you can recall.

19 A. Various fire departments, volunteer fire
20 departments from both Calumet County and
21 Manitowoc County, Great Lakes Search and Rescue,
22 would be an example of who we just heard from.

23 Wrecker services, implement dealerships,
24 citizen search groups, pilots. I -- I imagine I
25 could go on for a little while yet, but I can't

1 think of them.

2 Q. I guess my question, Agent Fassbender, in the
3 over 25 years of experience that you have had,
4 especially in homicide investigations; have you
5 been involved in an investigation with this many
6 agencies and this many resources being assigned
7 to one case?

8 A. No, sir, I have not.

9 Q. You mentioned the Manitowoc County Sheriff's
10 Department's role. As lead investigator, or as
11 one of the two individuals assigning
12 responsibility to allocate all of these resources
13 that we're talking about, could you describe what
14 Manitowoc's role was contemplated to be.

15 A. Yes, it was decided that they would assist in the
16 investigation in a support capacity or an
17 assistance capacity. It was their county. They
18 knew the resources. They had the contacts for
19 such things as wrecker services, implement
20 dealerships, if we needed equipment, and various
21 other things that would have come up, many other
22 things that probably came up during this
23 investigation on scene.

24 Q. Were you able, and have you been able, to attach
25 a number, that is, how many different

1 individuals, both the law enforcement and support
2 services, that were involved in this
3 investigation from start until today?

4 A. A total number?

5 Q. Are you able to do that or not?

6 A. I can get close day by day, but I have never
7 attached a total number, no.

8 Q. The allocation of the resources, the assignment,
9 your decision to assign specific officers to
10 specific duties, how were those decisions made?

11 A. Basically, it was a group decision, as team work.
12 And we had two lead investigators on the case,
13 so-called, myself and Investigator Mark Wiegert
14 from the Calumet County Sheriff's Department.
15 The sheriff was out there. We had other
16 detectives and investigators out there. And what
17 commonly would happen is, like when I got there
18 initially on Saturday, there was a briefing.

19 And I was briefed as to what was
20 happening, what had happened. We would get
21 together and make decisions on where we want to
22 go and what we want to do. After activities are
23 completed, for example, like at the end of the
24 day, we would have a debriefing session where we
25 would meet and we would talk to the

1 investigators, searchers, interviewers,
2 neighborhood canvassers, and try and get a report
3 back on the information that they may have come
4 across or evidence that they may have found. And
5 we digest that, and as a group or as a team, we
6 try and decide what do we want to do next, where
7 we want to go with this.

8 Q. The resources that were available to you, again,
9 whether it's law enforcement, for now let's limit
10 it to law enforcement resources. Did officers
11 that were presented to you, and law enforcement
12 assets that were presented to you, have different
13 levels or degrees of experience in various law
14 enforcement areas?

15 A. Certainly, yes.

16 Q. And was that factored into your decision on who
17 to assign to what task?

18 A. Most definitely.

19 Q. Can you give some examples.

20 A. Obvious example is, if we were going to search
21 for evidence, the location of evidence, which may
22 involve the collection and processing of
23 evidence, I want someone that's trained and
24 experienced in that area to do those searches.

25 In this instance, we had the Crime Lab

1 there on and off at this scene. We utilized them
2 to go to some various areas, or spots where
3 evidence was found, because obviously their
4 people are trained in that area.

5 Q. Are there other -- or are you familiar, as a law
6 enforcement officer and homicide detective, are
7 you familiar with evidence technicians, or law
8 enforcement officers that have that specialized
9 training also?

10 A. Certainly, with most departments, counties,
11 police departments, they have individual officers
12 on their department that have received additional
13 and specialized training in the collection,
14 processing, preservation, etcetera, of evidence.
15 And those are the types of people that -- or
16 officers, excuse me, that we're going to want
17 doing that task.

18 Q. What kind of a case did this start out as?

19 A. Missing person case.

20 Q. And in those very early stages of this
21 investigation, what was your primary goal in the
22 missing persons investigation? Do you understand
23 my question?

24 A. I imagine the primary goal in a missing persons
25 investigation would be to find the missing

1 person.

2 Q. Was that your goal in this case?

3 A. Yes.

4 Q. Now, at some time -- and we're going to hear
5 about the first 11 days or so, in fact, we're
6 going to hear about 15 months worth of
7 investigation, but for the first day, the first
8 hours of this investigation, was your goal
9 different than it became throughout the rest of
10 the week and, in fact, for the last 15 months?

11 A. Yes.

12 Q. How was it different?

13 A. In the fact that we were searching for, and
14 hoping to find, Teresa Halbach alive.

15 Q. Agent Fassbender, decisions that you made in this
16 case, would those decisions, and were those
17 decisions in this case, different when this was a
18 missing persons or searching for Teresa alive and
19 did that change sometime over time? That's a
20 really awkward way of asking that, but are there
21 different decisions that are made when you are
22 looking for a live body, rather than being
23 involved in a criminal ongoing investigation?

24 A. It depends on when you're talking and when I got
25 there, or as opposed to Thursday, when she was

1 first reported missing, there's differences.
2 When I got there, even though we were still in a
3 missing persons capacity, I'm taking on a little
4 different light to this and I'm coming in
5 thinking that something bad had happened.

6 And we do that because we don't -- we
7 don't want to miss anything. We may get one
8 chance at this, and it's easier to prove or
9 disprove that maybe something bad happened than
10 to go the other way and not have the evidence or
11 the scene to work with.

12 Q. I understand. Let's talk kind of globally or big
13 picture about a search plan. First of all, were
14 you one of two law enforcement officials that
15 were directing search efforts in this case?

16 A. Yes.

17 Q. Did you have an overall plan, or an overall
18 search plan for not just the first day, but the
19 first week of this investigation?

20 A. Generally, I think you can have an outline or an
21 overall search plan to start with, but as I
22 mentioned before, it's fluid. It may change
23 depending on evidence found, or information from
24 interviews brought back, or neighborhood
25 canvasses, stuff like that. It needs to remain

1 fluid, you can't have that lock and load
2 mentality and say this is what we're going to do.
3 It may change.

4 Q. Let's talk specifically, then, about your search
5 plan the first day, or even the first hours.
6 What was your first search plan, or your first
7 plan of attack, just after search warrants were
8 obtained from, I think it was Judge Fox in this
9 case?

10 A. Well, number 1, in any investigation, a homicide
11 or death investigation, I should say, is life is
12 first and foremost, always. Check for life, find
13 life, and treat it, even at the cost of maybe
14 losing evidence. So, in this case it was no
15 different. We needed to find, to see if Teresa
16 is on that property and if she's alive.

17 So we organize a sweep. Law enforcement
18 officers, we call it a sweep, but basically what
19 they are doing is sweeping through the buildings
20 on the property to see if Teresa is in any of the
21 buildings. Along with that is also a concern for
22 officer or other people's safety. That's a
23 secondary concern on a sweep, is there anyone
24 else on the property that could be a concern for
25 law enforcement safety. So the sweeps were

1 organized with the law enforcement officers we
2 had present.

3 Q. Is that the first thing that law enforcement does
4 is sweep through these -- talking about the
5 residences now?

6 A. Most always, yes, that's the first thing we do.

7 Q. And what kind of distinction is a sweep versus a
8 search of a property?

9 A. Well, this property was a little different. On a
10 normal death scene, you are sweeping there to
11 check for life and for safety. And maybe you
12 have to bring EMT's in, and other people, a
13 coroner. You can't bring them into that scene
14 unless you know that scene is secure and safe.
15 The same thing here, essentially, to make sure,
16 to the best of our ability, a scene that size,
17 that it's safe and to determine why or if --
18 check to see if we could find Teresa.

19 Q. Was that done in this case?

20 A. Yes.

21 Q. Were all of the residences on the Avery property
22 swept?

23 A. Yes.

24 Q. Were all of the business buildings and other
25 outbuildings swept?

1 A. Yes, sir.

2 Q. After that sweep was performed, and we may get
3 into this after the break, but my last question
4 at least for this part of your examination is,
5 did your search efforts then become more directed
6 or more detailed?

7 A. I'm going to add to my answer here. We had the
8 sweeps, and as we heard already, the dogs were
9 brought in, and a dog was utilized specifically
10 in certain areas, the car crusher, the line of
11 cars along the south berm, some of the
12 residences, and the buildings.

13 Not just one dog, I believe nine dogs
14 were brought in. And then they were also
15 utilized to sweep the property, the vehicles, the
16 salvage yard property, 4,000 plus vehicles. They
17 were working and they were accompanied with law
18 enforcement officers at this time. And then,
19 yes, then we started talking about where are we
20 going to go from here. Are we going to get more
21 detailed or what are we going to do.

22 ATTORNEY KRATZ: With that, then, Judge, I
23 think this is a good time for our morning break.

24 THE COURT: All right. The Court agrees.
25 Members of the jury, at this time we'll take our

1 morning break. I remind you, again, not to discuss
2 the case in any manner during the break. And we'll
3 resume in about 15 minutes.

4 (Jury not present.)

5 Before breaking, the record should
6 request (sic) that the parties requested two
7 brief side bars this morning. The first one was
8 a defense inquiry as to whether or not the State
9 had a copy of Julie Cramer's report, which it
10 turned out they did and that was used.

11 The second more brief side bar was
12 Mr. Kratz asking the Court if we should hold a
13 break or begin Mr. Fassbender's testimony, and we
14 did. Does that reflect counsel's understanding
15 of what transpired?

16 ATTORNEY STRANG: It does. And just so
17 it's clear, we have -- the defense has a copy of
18 that report. I just didn't happen to put it in my
19 file so it's not that it hadn't been turned over, it
20 was.

21 THE COURT: All right. We'll resume with
22 Mr. Fassbender's testimony in 15 minutes.

23 (Recess taken.)

24 (Jury present.)

25 THE COURT: Okay. Mr. Kratz, you may

1 resume your questioning of the witness.

2 ATTORNEY KRATZ: Thank you.

3 **DIRECT EXAMINATION CONTD.**

4 BY ATTORNEY KRATZ:

5 Q. Agent Fassbender, you had previously told us
6 about a search plan or methodology that first
7 includes a sweep securing the area, looking for a
8 live body. And that was, in fact, performed in
9 this case; is that correct?

10 A. That's correct.

11 Q. In your search methodology, after that is
12 completed, that is, after that sweep is
13 completed, what's the next level of searching
14 that you had performed on the 5th?

15 A. At this point, we're probably back at the command
16 center taking in information and briefing each
17 other. I know we still had dogs searching the
18 salvage yard, perimeters of buildings, at that
19 time.

20 The Wisconsin State Crime Laboratory
21 from Madison, Wisconsin, had been called earlier
22 on and had arrived at the scene, somewhere around
23 4:00 in the afternoon probably. And they were --
24 although they went to some different areas on the
25 property there, their primary purpose was to

1 process and take care of the RAV 4 that was found
2 on the property, Teresa's SUV.

3 While that was going on, a decision was
4 made to start the search of the buildings,
5 residences, and a team, a evidence location
6 collection processing team, was put together to
7 start that process. With the individuals we had
8 -- or the personnel we had on site, we were able
9 to come up with one team of four individuals to
10 start that process. And they started at Steven
11 Avery's trailer down at the end of the driveway
12 to the west, and they started that about 7:30.

13 Q. Before we get into individual searches, Agent,
14 I'm wondering if we can talk, at least in more
15 general terms, as to your search plan, or your
16 search methodology, not necessarily where
17 specific places were searched, but if there was,
18 in fact, a generalized search plan?

19 A. Well, certainly. And in death investigations
20 normal scenes, generally, like I said before, we
21 determine if there's life and if there's a
22 deceased or a corpse on the scene.

23 After that, you secure the scene and
24 limit, generally, the number of people that go
25 into that scene. Secure evidence, look for

1 evidence, possible witnesses at the scene that
2 you may want to speak to or detain immediately,
3 so you don't lose them, and get a search warrant.

4 And in this case, we basically did those
5 things, maybe a little different. We got the
6 search warrant. And, again, generally, in a lot
7 of these scenes, you don't necessarily know
8 exactly what you're looking for, maybe on the
9 first search.

10 This scene is definitely that way. We
11 don't even have a body, so to speak. So we're
12 not real sure, exactly, what we're looking for.
13 It behooves us to send investigators into these
14 searches because they are familiar with these
15 types of investigations a lot times and they may
16 have a better knowledge about things that might
17 be evidentiary in value.

18 I think about an investigation I did not
19 too long ago where we did the same thing. And
20 this death investigation there was a corpse on
21 the scene, and we got a search warrant, we went
22 in and did a search of this building. It was a
23 trailer, very similar to the ones that we were
24 dealing with on this scene. And the deceased --

25 ATTORNEY BUTING: Your Honor, I'm going to

1 object if we're going to be talking about a
2 different case. I think we need to focus on this
3 case rather than start describing what searches do
4 or don't occur in other cases.

5 THE COURT: Mr. Kratz.

6 ATTORNEY KRATZ: Judge, certainly the
7 methodology, I expect there's going to be questions
8 by defense counsel as to why this took so long. If
9 they aren't going to question, then I will stop
10 right now with this line. If there is going to be
11 cross about that, I think the jury is entitled to
12 know.

13 THE COURT: Because the question relates to
14 why the witness did what he did, I'm going to allow
15 a little latitude and allow him to answer the
16 question.

17 ATTORNEY KRATZ: Thank you, Judge.

18 Q. (By Attorney Kratz)~ Go ahead.

19 A. I'm just using this as an example, when you have
20 a piece of evidence. Well, the body is a piece
21 of evidence, it gets sent to autopsy. We get a
22 search warrant, we hold the scene, we conduct a
23 search, not necessarily knowing what we are
24 looking for for sure. We get intelligence back.
25 And this example, we get information back from

1 the pathologist.

2 And in this case the pathologist told us
3 to look -- it was a bludgeoning death and a
4 stabbing death -- to look for this type of knife,
5 with this many serrations and a crowbar that was
6 used, this type of information that they can find
7 out. And thus we ended up holding this scene
8 three or four days because we're getting
9 information back. We like to do that because it
10 can assist in our search. It can narrow our
11 scope of search. So a lot of times what I'm
12 getting at is a search may start out fairly broad
13 and maybe not knowing exactly what we're looking
14 for, but it narrows as we move along. Hopefully
15 get more intelligence and information.

16 Q. Is there a term that goes along with this kind of
17 a search methodology?

18 A. You could call it funneling, a funnel approach.

19 Q. Exhibit 86, which is on the board, do you
20 recognize that scene?

21 A. Yes, I do. That's the Avery Salvage Yard, along
22 with some residences.

23 Q. Was one of the residences on the salvage yard
24 that residence of Steven Avery?

25 A. Yes, 12932 Avery Road.

1 Q. Do you know what township that's located in?
2 A. Gibson?
3 Q. Gibson?
4 A. Gibson Township.
5 Q. Do you know what county that's in?
6 A. Manitowoc.
7 Q. And State of Wisconsin?
8 A. Yes.
9 Q. At the early stage of this proceeding, that is on
10 the fifth of November, when you arrived on the
11 scene, and when you were directing the searches;
12 was Mr. Avery, the defendant, Steven Avery, a
13 person of interest in this investigation?
14 A. When I arrived on scene on Saturday?
15 Q. Yes, and throughout the rest of the 5th?
16 A. Yes.
17 Q. Why?
18 A. Because of a lot of things, information that had
19 been developed. First and foremost, an
20 investigation like this, when I go in, who last
21 saw the person. That's just common sense, who
22 last saw the person. So that was the primary
23 reason that he would have been a person of
24 interest.
25 Q. All right. You talked about the specialization

1 that some law enforcement officers needed. I
2 think you mentioned both evidence detection or
3 collection, or processing. After that occurs, is
4 it common for evidence to be sent elsewhere for
5 further examination?

6 A. Yes.

7 Q. What kinds of places is evidence sent for further
8 examination?

9 A. Any number of places. The primary place that we
10 would send evidence to is the Wisconsin State
11 Crime Laboratory in Wisconsin, either Madison,
12 Milwaukee, or Wausau. The FBI laboratories could
13 be used, private laboratories could be used,
14 specialists like forensic anthropologists could
15 be used.

16 Q. Agent Fassbender, you used the term that I have
17 been asked to have you further explain, and
18 that's a search warrant. Tell the jurors or
19 those of them that may not know, what is a search
20 warrant?

21 A. A search warrant is, essentially, an order signed
22 by a judge, directing law enforcement to search,
23 essentially, a person, a place, or a thing, for
24 items of property, or items, and then forthwith
25 bring those items back before the court. On a

1 search warrant, you have five days to execute the
2 search warrant from the date it was delivered,
3 and returned.

4 And after the search warrant is
5 executed, you have 48 hours, normally it's looked
6 at as business hours, to return that search
7 warrant to said court with an inventory of items
8 that were seized as evidence.

9 Q. And you mentioned in this case that a search
10 warrant had been obtained, in fact, more than
11 one?

12 A. Yes. And I neglected to say search warrants
13 based on probable cause by a law enforcement
14 officer to believe that those items of property
15 are where you are looking. And that's through a
16 written affidavit, or testimony, or even
17 telephone or radio.

18 Q. As one of the lead investigators, I think you
19 said that you were involved in directing search
20 efforts on this property; is that right?

21 A. Yes.

22 Q. Were there areas that you were directing
23 searches?

24 A. Yes.

25 Q. Other than search efforts, this -- I mean,

1 globally, this investigation, did it include
2 things other than searching the Avery property?

3 A. Yes. We had not only the Avery property and the
4 size that we were dealing with there, and the
5 items that we were dealing with there, we also
6 had, up in Marinette County, where Mr. and
7 Mrs. Avery have land in that area, and some of
8 the family was up there that first weekend, that
9 we were dealing with.

10 Some of our DCI agents went up there,
11 and Marinette County detectives were also up
12 there. We were down in Milwaukee dealing with
13 Auto Trader. We were running around, even
14 Manitowoc County, or other counties, to some
15 salvage yards. So, it could -- and a lot of
16 investigations do that -- they can stretch, you
17 know, from one end of the state to the other at
18 times.

19 Q. All right. Were interviews being conducted in
20 those various locations?

21 A. Interviews were being conducted in many
22 locations.

23 Q. Now, this is all happening at the same time as
24 the search efforts; is that right?

25 A. Yes.

1 Q. Though some of the resources that you had to
2 allocate, in other words, direct?

3 A. Yes.

4 Q. Steven Avery, the only person being investigated?

5 A. No.

6 Q. Explain that.

7 A. We go into an investigation and, like I said, I
8 think I used the term before, you are not going
9 to lock and load. You are going to listen to all
10 the intelligence and information being brought
11 in. Look at all the evidence. You are there to
12 find the truth. That's what we go there for, is
13 to find the truth.

14 And the object is to allow the evidence,
15 and the facts that are uncovered as you go along,
16 to lead you to the most logical suspect. So, I
17 don't go in with necessarily one person I think
18 definitely did it. There's definitely reasons
19 and intelligence to point maybe in a direction
20 and you follow that direction.

21 Q. I think you mentioned before, the last person to
22 see her alive, obvious place to start; is that
23 right?

24 A. Well, certainly.

25 Q. We heard yesterday, or perhaps it was the day

1 before, about perimeter or scene security. Can
2 you mention that just briefly, or discuss that
3 just briefly?

4 A. When you get to a scene like that, or a death
5 scene, it behooves you to secure the scene right
6 away, to allow, or to not allow, let's say
7 citizens or even officers that shouldn't be
8 coming into that scene. We put on a desk
9 investigation school, one of the things we always
10 say is, you know, the sheriff, the chief is going
11 to want to get into that scene, they always want
12 to.

13 Don't let them in. The less people you
14 have in that scene, most often the better,
15 because you are not affecting evidence that might
16 be in that scene. So you secure that scene, you
17 put up a perimeter, and you try and protect it.

18 Q. You talk about scenes, and I just want to
19 distinguish this case from a typical -- if there
20 can be a typical homicide investigation or a
21 homicide that occurs in somebody's apartment.
22 Can you distinguish this kind of case from that?

23 A. I don't know if I really have to. It's an
24 outdoor scene, with indoor locations, with
25 buildings and stuff, and you have 15 buildings on

1 that property. You have got 40 acres to search.
2 Forty acres in and of itself is going to be very
3 difficult, but add 4,000 plus cars to that, 54
4 crushed cars, multiple individuals and people to
5 interview, it is not a normal scene.

6 Q. All right. Agent Fassbender, Lieutenant Bowe
7 talked about a command center; are you familiar
8 with the command center that was established
9 here?

10 A. Yes.

11 Q. Can you describe how that was set up.

12 A. Initially, a Manitowoc County -- I think maybe a
13 HazMat Unit, it's kind of like a big RV, in a
14 sense, with an office in it and capable of
15 setting up phones and computers and fax, I
16 imagine, was brought to that scene. And then
17 after that, Calumet County brought a trailer, and
18 their Command Post to that scene and then we were
19 operating out of both of those locations. And
20 that location being at the end of Avery Road,
21 right in that area where the road ends, the
22 pavement ends, right in that area.

23 Q. Being one of the lead investigators, were you
24 familiar with the efforts, not only the search
25 efforts, but the investigative efforts that

1 occurred during the first eight days of this
2 case?

3 A. Yes.

4 Q. Let's start then with the first day, on
5 November 5th. We have heard about how you became
6 involved, how a search warrant was obtained, how
7 a sweep occurred. We heard briefly about the
8 dogs that were brought in. But you said that
9 there were nine canine units. Can you tell the
10 jury where they were deployed or where they were
11 searching?

12 A. The canine units were a mix. They weren't all
13 so-called cadaver dogs. Some were mixed trained,
14 some were more like bloodhounds, live search
15 dogs. Initially, just one was brought in, but
16 then after Brutus got done with his initial
17 search, the rest were brought in. And the
18 primary focus to start with, was to search the
19 salvage yard in and around the vehicles, in that
20 40 acre area.

21 Q. Can you show, in Exhibit No. 86, what you are
22 talking about?

23 A. Well, essentially, what I'm talking about is the
24 salvage yard area where these dogs had to search.
25 That may have included these cars, may have

1 included the impound area also. Due to weather
2 concerns and darkness, they actually came back to
3 complete that search.

4 Q. Let's talk about the weather. Do you remember
5 the weather on the 5th?

6 A. Oh, yes.

7 Q. Tell -- Tell the jury about that.

8 A. Initially, it was predicting -- the weather was
9 predicted to be bad. Rain, storms moving in. As
10 a result I was in contact with the Crime
11 Laboratory, and we decided to try and place a
12 tarp over the RAV 4 SUV, not touching it, but
13 place it over and suspend it, which we did.

14 And then it started to sleet, maybe a
15 light rain, but the wind really picked up at this
16 time. And we ultimately ended up removing that
17 tarp because it was starting to let loose and it
18 appeared that it was going to affect the debris
19 that was used to conceal the car and we didn't
20 want to do that. So we just had to live with it.

21 Then it stopped raining. But then
22 somewhere -- my best guess right now is right
23 after dark, or after dark, it stormed. It was
24 torrential downpour the rest of the night. We
25 got some rain. It filled up that pond down there

1 by the SUV, which was dry at the time, and it
2 stormed very bad.

3 Q. Were you involved in observing Brutus and Brutus
4 working that area that Ms Cramer talked about?

5 A. Yes, I was.

6 Q. Tell us what you recall seeing?

7 A. Brutus came down and started near the car crusher
8 in the salvage yard and worked that area first.
9 And then Brutus worked to the south, southeast
10 corner of the salvage yard, in that area.

11 And then along the southernmost edge of
12 the property or berm there. There's a row of
13 cars along that area and Brutus worked along that
14 area. We were advised by Brutus' handler, prior,
15 what Brutus would do if he was alerted on a
16 vehicle. And when Brutus approached the RAV 4
17 SUV, it became apparent, even to me, that Brutus
18 had alerted on that vehicle, going to the vehicle
19 and going back and sitting in front of Julie and
20 barking.

21 Q. Agent Fassbender, you testified that you got
22 there about 2:00 in the afternoon; is that right?

23 A. About, yes.

24 Q. And we have heard other law enforcement officers
25 testify to this, but I'm going to ask you the

1 same questions. Any time after 2:00 p.m., did
2 you see any law enforcement officer or citizen
3 enter that RAV 4 vehicle?

4 A. No.

5 Q. Did you see any law enforcement officer disturb
6 or tamper with anything around there that would
7 have been of obvious evidentiary value?

8 A. No.

9 Q. Is that important to you?

10 A. Yes.

11 Q. Why?

12 A. Because that's probably, right now, our main
13 piece of evidence in this case.

14 Q. You mentioned that the Crime Lab was called in;
15 is that right?

16 A. Yes.

17 Q. How come?

18 A. I didn't request the Crime Lab, but if I go to
19 death scenes, I always request, or request the
20 agents I'm working with, to bring the Crime Lab
21 in. They are essentially our evidence techs.

22 Q. In front of you, Agent, are some photos. We're
23 going to walk through those for the jury. First
24 photo is Exhibit No. 395. Tell us what that is,
25 please.

1 A. Exhibit 130 you mean?

2 Q. I'm sorry, yes.

3 A. Exhibit 130, it's almost dark, looks duskish, and
4 it's a photograph of the condition of the RAV 4
5 SUV when it was found. There's some people near
6 the scene, one of them is myself, one is a deputy
7 with Calumet County, and one of them is, the ones
8 I can see, and one of them is a forensic
9 scientist with the Crime Laboratory.

10 Q. You are in that photo?

11 A. Yes.

12 Q. And do you recognize that scene?

13 A. Yes.

14 Q. I'm showing the jury, now, Exhibit No. 130. Tell
15 the jury what we're looking at, please.

16 A. Again, that's the -- Teresa's RAV 4 SUV, parked
17 facing in a westerly direction along that
18 southern berm of the salvage yard. With the
19 debris, trees, pieces of wood, cardboard,
20 plywood, a vehicle hood on, or around, or leaning
21 against the SUV, and then the individuals there.
22 Myself is in that red jacket. We're law
23 enforcement or Crime Lab personnel.

24 Q. Point to the Crime Lab people, if you can?

25 A. Right there, the nice way to say it, the person

1 with less hair, was a Crime Lab person, and then
2 myself.

3 Q. Do you know what his name is?

4 A. John Ertl. And then the deputy from Calumet
5 County. And I think that's a Crime Lab personnel
6 also, I'm not sure.

7 Q. When you got there, again, we have heard this
8 before, but was this vehicle being watched or
9 guarded?

10 A. Yes.

11 Q. To your knowledge, from your arrival, since
12 that's all you can testify to, from 2:00 p.m.
13 until the Crime Lab arrived, was it continuously
14 watched by law enforcement officers?

15 A. I arrived and I went to the Command Post first,
16 right after 2. I probably got down into the area
17 by the crusher a little later, maybe 2:20, 2:25.
18 From that point on I could say, yes, it was.

19 Q. Why didn't you or other law enforcement officers
20 on the scene enter that vehicle or process it
21 there?

22 A. Much safer to really, especially with a vehicle,
23 an outside setting like that, with pending
24 weather, to just secure the vehicle, put it in a
25 closed trailer, let the Crime Lab do their thing.

1 Take it down to the Crime Lab and process it
2 there, rather than trying to process this out in
3 those conditions outside.

4 Q. Is that what was done?

5 A. That's what was done.

6 Q. Did anybody, Crime Lab members included, enter
7 that vehicle out at the scene?

8 A. Not that I'm aware of, no.

9 Q. What was done with the vehicle, if you know, and
10 were you involved in that?

11 A. Yes, I was involved in that, to a degree.

12 Probably about 7:30-ish, that evening, with the
13 rain coming down, I was asked to take the wrecker
14 service, Rabas Wrecker Service, down to the area
15 by the car crusher. Another, I guess, wrecker
16 service was also there, Pethan -- Pethan, out of
17 Calumet County. They had an enclosed trailer
18 that could carry vehicles. They were also there,
19 came down to that location.

20 At that point, the Crime Lab personnel
21 that were there accompanied the wrecker operator
22 over to the RAV 4 location where they hooked up
23 the RAV 4 and towed it back to the location by
24 the car crusher, where the enclosed trailer was
25 waiting, and they backed it into that enclosed

1 trailer and secured it in that enclosed trailer.

2 They also took some of the items like
3 the vehicle hood and put that in there. They
4 examined a lot of the remaining items to see if
5 there was any obvious evidentiary value on those
6 items, and ended up not taking most of those
7 items.

8 Q. I'm going to show you some of those things.
9 What's Exhibit 131? Let's get through these
10 pictures first.

11 A. 131 is a photograph of the hood and windshield
12 area of the RAV 4 SUV. It depicts the branches,
13 and trees, and a cardboard box that had been
14 placed on top of the hood of that vehicle.

15 Q. Now that the jury can see 131, is that debris the
16 way it looked the evening of the 5th of November.

17 A. Essentially, the wind may have moved some things,
18 or the rain may have moved some things a little.

19 Q. What's 132?

20 A. That's a photograph, again, of the SUV. This
21 photograph is taken toward the passenger front
22 quarter panel or quarter area of the vehicle,
23 again, showing -- looks like a fence post or two
24 and a piece of cardboard up against the RAV 4.

25 Q. Now see Exhibit 132, is that the image that you

1 are looking at?

2 A. Yes.

3 Q. What's 133?

4 A. 133 is a picture of the RAV 4. This would be the
5 driver's side rear quarter panel area of that
6 vehicle.

7 Q. Is that Exhibit 133?

8 A. Yes.

9 Q. Now, these appear to be taken after darkness; is
10 that right?

11 A. Yes.

12 Q. What's 134?

13 A. A picture of the RAV 4 SUV, similar to two
14 exhibits ago, the passenger side a little more
15 inclusive showing, again, the fence post,
16 plywood, and debris.

17 Q. And here is 134. And I understand that this gets
18 a little bit tedious or monotonous, but do some
19 of these angles or the different shots become
20 important in not only this investigation, but in
21 most investigations?

22 A. Certainly.

23 Q. What's 135?

24 A. 135 is a picture of the rear portion of the RAV
25 4, again, showing some of the debris, fence post,

1 trees, leaning up against the RAV 4 and that is
2 it.

3 Q. 136?

4 A. A picture of the RAV 4 coming at the passenger
5 rear corner so you can see the rear of the RAV 4.
6 And then the passenger side, although you can't
7 see most of it because of the fence post and a
8 vehicle hood leaning up against that portion.

9 Q. Before I leave 136, I'm sorry, if you can refer
10 to this exhibit, do you see any rear license
11 plates if you look at the screen, Agent
12 Fassbender?

13 A. No.

14 Q. Where would the license plates be?

15 A. Where would they be?

16 Q. No, I mean, where should they be on this vehicle?

17 A. To the left of the spare tire there and just
18 below it.

19 Q. Can you point with the laser pointer.

20 A. Certainly, right there.

21 Q. It's obvious from 136 that they are missing?

22 A. Yes.

23 Q. Here is 137. I think you described that. What's
24 138?

25 A. I don't know if I did do 137. I thought I had

1 done 136. 137 is a picture of the passenger side
2 of the RAV 4 and, again, depicting the hood, the
3 plywood, and some tree material, branch material.

4 Q. So this is 137?

5 A. Yes.

6 Q. All right. What's 138?

7 A. 138 is the passenger side front fender area of
8 that same RAV 4 and, again, you can see some of
9 the debris and articles apparently used to
10 conceal it.

11 Q. Is that 138?

12 A. Yes.

13 Q. And, finally, 139?

14 A. I don't know that I have a 139.

15 Q. I'm sorry, it goes to 138. All right. After the
16 RAV 4 was loaded onto the enclosed trailer, was
17 that trailer secured to your knowledge?

18 A. Yes.

19 Q. How was the vehicle -- By the way, were you
20 present for the loading of the vehicle?

21 A. Yes.

22 Q. How was it loaded on the vehicle, was it started
23 up or something?

24 A. No, the wrecker operator backed it into that
25 trailer. There was a ramp set out and the

1 wrecker operator backed it right up into that
2 trailer and then it was secured.

3 Q. Agent Fassbender, you talked about some residence
4 searches occurring that first night, that is, the
5 5th; were those occurring while this SUV was
6 being processed?

7 A. Yes, sir.

8 Q. Do you know, or can you tell the jury, what
9 residence searches were ongoing?

10 A. The residence at 12932 Avery Road, which was the
11 residence of Steven Avery.

12 Q. Back to Exhibit 86, which I'm sure we'll use a
13 lot, in the lower right hand corner of that
14 exhibit?

15 A. Yes, the lower right hand corner right there,
16 which would be the northeast section of the
17 entire property.

18 Q. Now, you talked about a sweep --

19 A. Northwest.

20 Q. I'm sorry. You talked about a sweep of that
21 residence; is this search that you are now
22 describing something different?

23 A. Yes.

24 Q. How is it different?

25 A. This search is a search that's organized more for

1 the location or finding of things of apparent or
2 obvious evidentiary value, things that are in the
3 search warrant, or asked for in the search
4 warrant. Again, we're not exactly sure,
5 precisely sure, what we might be looking for at
6 this time either.

7 Q. Was a search team put together to search that
8 residence?

9 A. Yes.

10 Q. And do you know how individuals were selected for
11 that search team?

12 A. Yes.

13 Q. Tell us about that.

14 A. We were looking for individuals who preferably
15 were investigators or detectives and who had
16 training, experience, and expertise in the
17 location of and the processing of evidence.

18 Q. Were some of those officers or evidence techs on
19 scene; in other words, were they at the location?

20 A. Yes.

21 Q. Were some of them Calumet County officers?

22 A. Yes.

23 Q. Were some of them Manitowoc County officers?

24 A. Yes.

25 Q. We might as well address this right now, Agent

1 Fassbender, did you, as a lead investigator in
2 this case, have hesitancy in assigning any
3 Manitowoc County sheriff's officer to any tasks
4 at that scene?

5 A. No, absolutely not.

6 Q. Tell the jury why.

7 A. They were there to assist us. In fact, some of
8 the people that actually worked on those teams, I
9 have trained and I have worked with. And the
10 people that we're talking about that would have
11 worked on these scenes, were law enforcement
12 officers, were very professional and did a good
13 job.

14 Q. You talked about resource allocation, were
15 evidence techs at a premium at that scene?

16 A. Yes.

17 Q. What does that mean?

18 A. People who -- Again, officers who have been
19 trained and have experience in processing,
20 locating, preserving evidence. You know, a lot
21 of departments may have only one of those people,
22 two of those people. We had a huge scene here
23 and most officers don't have that level of
24 expertise. And at a homicide scene, that is the
25 level of expertise I want processing my evidence.

1 Q. You had mentioned, just previously, that after
2 the weather turned really nasty, efforts were
3 suspended that evening?

4 A. The majority of the outside efforts were
5 suspended, that's correct.

6 Q. All right. The search inside of Steven Avery's
7 residence that -- or that continued?

8 A. That continued to about 10, if I remember right.

9 Q. After 10:00 p.m., what happened?

10 A. Most people -- I shouldn't say most of the
11 people, people involved in the searches met back
12 at the command center where we debriefed, where
13 we talked about what had happened, what we
14 learned that day, what was found for evidence.

15 Q. Anything else happen on the 5th, of substance?

16 A. The RAV 4 was transported to the Crime Lab in
17 Madison, Wisconsin.

18 Q. All right. Let's move to the next day, then,
19 Sunday, the 6th; do you recall that day?

20 A. Yes.

21 Q. Could you just, in an outline form, tell the jury
22 what investigative efforts occurred on Sunday,
23 the 6th?

24 A. Dogs came back to the scene. There was a lot
25 more to search, but they were concerned that

1 because of the rain, that they wanted to do it
2 again, or make sure they covered every place in
3 this property.

4 So they came back. I believe eight dogs
5 this time, came back to that scene, finished the
6 salvage yard area, went around the
7 perimeter building -- perimeters of buildings,
8 etcetera. Also brought in that day were
9 somewhere in the vicinity of 45 to 50
10 firefighters. And we utilized them to get into
11 the salvage yard and look into locked areas or
12 locked containers: Trunks, hoods, any other
13 places that we needed to get open to look, to see
14 if there was a person in there, a body.

15 Those teams were formed with law
16 enforcement presence; in other words, there's a
17 law enforcement officer with each team of
18 firefighters that went into the salvage yard.

19 Q. Was it your understanding that all 4,000 of these
20 vehicles were individually searched, that is, the
21 trunks were searched that Sunday?

22 A. Yes. So that was -- the main manpower went to
23 that purpose. Also on Sunday, we had the luxury
24 of forming essentially two, three, evidence
25 processing teams. We had a similar team that we

1 had the night before.

2 We had an additional team utilizing some
3 Manitowoc police -- Manitowoc City Police
4 evidence technicians and investigators, and we
5 were able to get the Crime Lab to come back that
6 afternoon, also, for additional processing.

7 Also during this time, just like
8 Saturday, there were numerous interviews and
9 follow-ups going on at the same time.

10 Q. Were there any firearms or guns seized that day?

11 A. Yes. The previous evening, the search of Steven
12 Avery's residence, during the debriefing at the
13 end of the evening, the technicians that were in
14 his trailer informed us that they had seen some
15 guns in there, informed us what they had taken
16 and what they had seen. They didn't seize the
17 guns.

18 They informed that there was a vacuum
19 cleaner. They took the bag out of the vacuum
20 cleaner. They informed us about a carpet cleaner
21 and some other things. It was determined at that
22 time we're going to go back in there and get some
23 of those items, the guns, the two rifles. We
24 wanted the vacuum cleaner because of the rotating
25 brush, the carpet cleaner, some bedding. So,

1 yes, there was, and we did reenter that trailer
2 to get those items.

3 Q. I think Officer Bowe, yesterday, talked about
4 dive teams or teams searching ponds; did that
5 occur that day?

6 A. Yes. We had the Winnebago County Sheriff's
7 Department Dive Team on that day also.

8 Q. Are you familiar with the residence of
9 Mr. Avery's sister, Barb Janda?

10 A. Yes, I am.

11 Q. I'm going to have you look at Exhibit 86 again,
12 tell the jury where is that property.

13 A. That property is right here, which would be
14 almost directly east of the Steven Avery
15 property. And then next to that residence is her
16 unattached garage.

17 Q. On that Sunday, that is, on the 6th, was any
18 property recovered or seized from outside of, or
19 near, Ms Janda's property?

20 A. Yes.

21 Q. What was that?

22 A. That was some burn barrels, four burn barrels,
23 that were located behind her residence.

24 Q. About where, can you show us?

25 A. I think right there, which would be from her

1 residence, in a southeasterly direction, about --
2 I don't know, 100 feet maybe.

3 Q. All right. Let me just stop you right here.
4 This is the first full day, but the second day of
5 search. Did you have an idea, as a lead
6 investigator, yet, what you were looking for?

7 A. No, not entirely. If I might?

8 Q. Go ahead.

9 ATTORNEY BUTING: Judge, objection to the
10 witness narrating on his own.

11 THE COURT: I guess it depends if what he's
12 about to say is in additional response to the last
13 question, or simply random thought.

14 ATTORNEY KRATZ: I suspect this isn't
15 random, is it?

16 THE WITNESS: No.

17 ATTORNEY BUTING: The proper way would be
18 to place a question to the witness.

19 THE COURT: Mr. Kratz.

20 Q. (By Attorney Kratz)~ Can you elaborate on your
21 last answer, Investigator?

22 A. I believe you asked me about knowing what we were
23 looking for. And elaborating on that answer, we
24 had reason, sometimes, to go where we went. The
25 barrels for example, the dogs had alerted on the

1 barrels, so we knew that we wanted to go there.

2 Q. All right. Now, were all of these items, that
3 is, the items that were seized, and the places
4 that were searched -- or searched, included in
5 this judicial authorization, this thing that you
6 called a search warrant?

7 A. Yes.

8 Q. You said the Crime Lab remained on the scene, or
9 came back to the scene on Sunday; is that right?

10 A. They came back to the scene Sunday afternoon.

11 Q. Were they given some specific responsibilities or
12 specific places to search?

13 A. Yes. They were essentially kind of like a roving
14 evidence team, places where the dogs may have hit
15 on, or where searchers found what they thought
16 might be evidence. A lot of times, that's where
17 we would send them, to look at that, or process
18 it, if necessary.

19 Q. All right. Were there other residences and
20 buildings searched that day?

21 A. Yes.

22 Q. Can you tell us about those.

23 A. We had a search team search the garage, the
24 unattached garage next to Steven Avery's house.
25 We had a team that went through Barb Janda's

1 house and her garage. We had a team go through
2 the unoccupied or abandoned trailer along the
3 driveway going toward Ms Janda and Steven's
4 house. A team went through Mr. and Mrs. Avery's
5 residence and garage.

6 Q. Allen and Delores?

7 A. Yes. A team went through Charles Avery's
8 residence and garage. And teams also went
9 through all of the outbuildings, in the northeast
10 section of the property, associated with the
11 business.

12 Q. All of that happening at the same time that the
13 law enforcement and firefighters are opening
14 every trunk?

15 A. Yes.

16 Q. Is there anything happening on Sunday, off site;
17 in other words, off of this property included in
18 your investigation?

19 A. Yes. Up in Marinette, we were interviewing
20 members of the family up there. I believe it was
21 Sunday that two vehicles were seized up there. A
22 flat bed truck from the business, and Steven
23 Avery's car, were seized and taken to the police
24 department or the sheriff's department up there.

25 We had agents and detectives doing

1 interviews, neighborhood canvasses. Neighborhood
2 canvasses are essentially someone going around to
3 residences in the neighborhood, businesses,
4 whatever might be, and asking questions about
5 whether they saw or heard anything.

6 Q. So all this is happening at the same time?

7 A. Yes.

8 Q. It's your responsibility to kind of coordinate
9 all this at once?

10 A. Myself and Investigator Wiegert.

11 Q. So the jury is clear, did you receive assistance
12 and direction, not only from other law
13 enforcement, but other legal authority at that
14 time?

15 A. Yes.

16 Q. Who else was involved?

17 A. Well, we were working with the District
18 Attorney's Office, Calumet County District
19 Attorney's Office.

20 Q. Me?

21 A. Yes.

22 Q. Okay. The search warrants, that is, the request
23 and the authorization by judges, when you
24 received them, is that something that you
25 prepared, or something that somebody else

1 prepared?

2 A. That's something that someone else prepared.

3 Q. Who typically would prepare them?

4 A. Either the District Attorney, Assistant District
5 Attorney, or their staff.

6 Q. All right. Agent Fassbender, then, did anything
7 else, at least that sticks out in your mind,
8 occur on that Sunday, the 6th?

9 A. That night, before the Crime Lab retired for the
10 evening, we asked them to go back into the
11 residence of Steven Avery. The reason we did
12 that is, we had found what appeared to be blood
13 in there, the previous evening.

14 And they went in there to look at the
15 blood patterns. As a result of doing that, they
16 identified some potential blood that needed to be
17 processed yet, and they advised us of that during
18 the debriefing that evening.

19 Q. This was a Sunday; is that right?

20 A. Sunday, yes.

21 Q. Is anything else going on at the State Crime Lab
22 as far as you know, on that Sunday?

23 A. Yes.

24 Q. What was that?

25 A. The RAV 4 vehicle had already been down there --

1 ATTORNEY BUTING: Objection, your Honor.
2 This witness can't testify what's going on some
3 place two hours away.

4 ATTORNEY KRATZ: It's certainly not for the
5 truth, Judge, it's did this officer do anything in
6 response to that.

7 ATTORNEY BUTING: That's fine.

8 THE COURT: All right. For that purpose, I
9 will allow it.

10 A. I was informed that day, that to an initial
11 processing of that vehicle, that they had
12 received a positive test for the presence of
13 blood in that vehicle.

14 Q. All right. And did that further direct your
15 search efforts and where to look and what you
16 were looking for?

17 A. Yes, certainly, to a degree.

18 Q. Let's move to Monday, the 7th of November. Tell
19 the jury how this search effort progresses,
20 please.

21 A. Okay. Monday, again, we started early in the
22 morning. Volunteer firefighters are utilized,
23 again. I believe we have about 60 of them on the
24 scene this day. Coupled with about 20 law
25 enforcement officers, the majority being from the

1 Manitowoc Police Department, some from Two Rivers
2 Police Department, a few from Manitowoc County,
3 DCI agents, and Calumet County. Calumet County
4 had -- this was a day that they brought over
5 jailers and dispatchers to assist in the search
6 effort.

7 And, again, what happened this day was a
8 good majority of the -- I believe the Mishicot
9 Fire Department volunteers, along with DCI agents
10 and possibly some law enforcement officers, went
11 down by the crusher. And there were about 54
12 crushed cars down there. And they methodically
13 went through everyone of those crushed cars,
14 apparently ripping off the roof of those cars and
15 any closed areas to search those cars.

16 After searching them, they had like a
17 front end loader down there with forks on the
18 front, I believe. And they moved the cars from
19 the south side of that car crusher over to the
20 north side, when they were done searching it.
21 They had these tools to get into this and enable
22 them to do this, whether it was Jaws of Life or
23 cutting tools.

24 Q. You said that 54 crushed cars were near the car
25 crusher; is that right?

1 A. That's my knowledge, yes.

2 Q. And understanding that all 54 were searched?

3 A. Yes.

4 Q. Do you know what they were looking for?

5 A. Well, obviously, a body, or any indications of
6 such, clothing or other things that were in the
7 search warrant.

8 Q. Was anything at least brought to your attention,
9 as the lead investigator, found in the search of
10 those 54 crushed vehicles?

11 A. No, sir. May I continue with Monday then?

12 Q. Counsel may want me to do this a little bit more
13 question and answer, so I will interject a couple
14 of questions. Were there on site and off site
15 teams that were formed that day?

16 A. Yes.

17 Q. Did any of the off site teams move towards, at
18 least in their search efforts, towards the 40
19 acre Avery property?

20 A. I'm not sure I understand. But along with the
21 teams that did the crushed cars, firefighters and
22 law enforcement, again, coupled up into teams.
23 And there was law enforcement with each team of
24 firefighters and they were searching the
25 perimeter of this area, this 40 acre area, just

1 outside the perimeter and in that area, and
2 working their way either toward, depending where
3 they started, or away from the property. Again,
4 looking for anything that might be of obvious
5 evidentiary value.

6 Q. Did they find anything, that you are aware of,
7 that had obvious evidentiary value?

8 A. Yes.

9 Q. What was that?

10 A. Toward the northwest section of the property,
11 just north of Steven Avery's residence, there was
12 a burn barrel located. One of these search teams
13 found that burn barrel. Inside that burn barrel
14 was a wheel -- not the tire, but the axle -- or
15 the rim part of the wheel. They looked under
16 that.

17 ATTORNEY BUTING: Judge, objection, to what
18 they did or didn't do, if he is not there. These
19 witnesses will be testifying later. I think he can
20 describe this without getting into that kind of
21 detail.

22 ATTORNEY KRATZ: I think that's fair,
23 Judge. I will have him refer to the exhibit and
24 tell me what he saw.

25 THE COURT: I agree. The objection is

1 sustained.

2 Q. (By Attorney Kratz)~ In looking at Exhibit 37
3 that's on the screen, is this the burn barrel
4 that you are talking about?

5 A. Yes.

6 Q. Can you point to it with the laser pointer.

7 A. Yes, right there.

8 Q. So that was discovered on Monday, the 7th?

9 A. Yes.

10 Q. Did you direct officers to take control, that is,
11 to seize and otherwise process the contents of
12 that burning barrel?

13 A. Yes. DCI agents went down there and took control
14 of that and, ultimately, released it to one of
15 the evidence collection teams and it was,
16 ultimately, seized and taken in -- again, in an
17 enclosed trailer, to the Calumet County Sheriff's
18 Department for subsequent processing.

19 THE COURT: Excuse me. I'm not sure, are
20 you talking about the burn barrel was seized?

21 THE WITNESS: Yes, the whole burn barrel.

22 Q. (By Attorney Kratz)~ You spoke earlier of, Agent
23 Fassbender, about some weapons, some firearms
24 having been seized from Mr. Avery's property;
25 were there other firearms on the Avery Salvage

1 Property itself?

2 A. Yes, sir, there were.

3 Q. Were those ever taken or seized?

4 A. Yes.

5 Q. When did that happen?

6 A. I think that ended up being a multi day effort.

7 Probably started on Monday and maybe even went
8 through two or three days, because firearms were
9 located in each residence, in vehicles, in shops.
10 So, there was a multitude of firearms to take.

11 And involved with were safes, gun safes, that had
12 to be opened.

13 Q. Now, we're going to hear from Crime Lab witnesses
14 perhaps in the next week or two, but on that
15 Monday, without telling us what they told you, on
16 that Monday, the 7th of November, did you receive
17 a preliminary report from the Crime Lab regarding
18 the processing of the SUV?

19 A. I was in contact with the Crime Lab pretty much
20 every day and, yeah, I received information on
21 Monday.

22 Q. All right. We'll get from them what it is that
23 they found on each day. The question, though, is
24 when you would receive updates, daily updates,
25 from the Crime Lab, would that further direct

1 your search efforts?

2 A. Most definitely.

3 Q. Anything else happen on Monday that stands out in
4 your mind of significance, either search efforts
5 or off site investigative efforts?

6 A. Winnebago County Dive Team was there, again, to
7 conclude or finish their search of ponds. And by
8 ponds, I'm talking about adjacent property,
9 quarries, gravel pits.

10 Also, on Monday, one of the teams -- I
11 believe one of the teams, or an individual
12 officer -- no, probably one of the teams -- was
13 directed to go into Steven Avery's trailer and
14 obtain the serial number off of a computer in
15 that trailer because he wanted to get a search
16 warrant for that computer.

17 Q. All right. Let's move to the next day, then,
18 Tuesday, the 8th of November; do you remember
19 that day?

20 A. Yes, I do.

21 Q. Now, again, after receiving information from
22 interviews, as well as Crime Lab and other
23 analysis; were more directed searches to happen
24 that day?

25 A. Yes.

1 Q. Where were those?

2 A. Residences, Steven Avery's being one, Charles
3 Avery being one. I believe some vehicles, maybe
4 some of the other residences and buildings.

5 Q. Now, Agent Fassbender, I have counted, just by
6 listening to your broad overview, of several
7 times that officers have already, by this point,
8 been into Steven Avery's residence; is that
9 right?

10 A. Yes.

11 Q. On Tuesday, the 8th, did you send them in there,
12 again?

13 A. Yes.

14 Q. Tell the jury why.

15 A. On Tuesday morning, we formed another evidence
16 collection team and search team. What we were
17 looking for at that time was, again, we're
18 getting more intelligence and more information to
19 come -- that were coming in. And we sent them in
20 there to look for some of that stuff.

21 One of the primary things was, if you
22 recall, I talked about Sunday evening and the
23 Crime Lab identifying some more blood in that
24 trailer. Well, Monday, we had, again, an
25 opportunity to do that, to get back into that

1 trailer. Because we were busy with other things,
2 including a potential burial site that we found
3 off the Avery property, which took a lot of our
4 resources for a good part of the day, so one of
5 the primary purposes we went in there was to
6 analyze and collect that blood, to also serve a
7 search warrant on the computer and take that.
8 And also under our direction, to conduct a
9 complete and thorough search of that, being more
10 detailed.

11 Q. What's a thorough search? What are you talking
12 about?

13 A. What I would like, when I'm directing someone to
14 do that, that they are moving things, looking
15 under things, looking in books, in between
16 things, a complete and thorough search.

17 Q. Is that a different kind of search than you
18 understood occurred up to that point?

19 A. Yes, to a degree. The first one, they are not
20 necessarily knowing what they are looking for,
21 obvious evidentiary value, on that first one.
22 Trace evidence, like blood and stuff like that,
23 that you don't want to lose, because you can lose
24 that fairly quickly. So, I want them to take
25 that on the first one. But now, you know, we're

1 getting along in the week here, and I don't know
2 how long we're going to be holding this scene
3 after that. Let's do our complete and thorough
4 search here and make sure that we're not missing
5 anything.

6 Q. During that thorough search were you called to
7 the Avery trailer?

8 A. Yes.

9 Q. And did they, meaning the evidence techs in that
10 trailer, show you something that they believed
11 had obvious evidentiary value?

12 A. That's correct.

13 Q. What did you see?

14 A. They showed me a Toyota car key with a blue fob
15 attached to it.

16 Q. Did you direct anything be done with that Toyota
17 car key?

18 A. Yes. That would be preserved, packaged. And
19 then one of our agents, DCI agents, took ultimate
20 possession of that and transported it directly to
21 the Crime Laboratory.

22 Q. Why?

23 A. To get processed, number one, and number two, to
24 see if it worked in the RAV 4.

25 Q. What is worked in the RAV 4 mean?

1 A. If it went into the ignition and would turn the
2 key, turn the ignition of the RAV 4.

3 Q. Other than the Toyota -- Other than a Toyota RAV
4 key -- a Toyota key being found that day, that
5 is, on Tuesday, were there any other discoveries
6 that you were directed to or that you were asked
7 to come and look at?

8 A. Yes.

9 Q. What was that?

10 A. We also, that morning, we had -- not a -- on that
11 day we did have approximately 60 troopers,
12 Wisconsin State Patrol troopers come to the
13 scene. Now, the State Patrol was present from
14 day one here, doing the mapping, or helping with
15 scene security. I may have failed to mention
16 that.

17 But on that day, we had 60 troopers
18 come. The reason we had them come, is for the
19 same concept. We wanted to do more of a detailed
20 search of that entire salvage yard. And all
21 those vehicles in that salvage yard, looking now
22 for obvious evidence. And during that search
23 they were, again, coupled with some firefighters,
24 volunteer firefighters, 25, 30 maybe. And during
25 that search, two license plates were located in a

1 salvaged vehicle. Those two license plates
2 turned out to be the license plates for Teresa's
3 vehicles.

4 Q. All right. Was there a third major discovery on
5 that day, that is, Tuesday, the 8th?

6 A. Yes.

7 Q. What was that?

8 A. Directly behind the garage that's adjacent to
9 Steven Avery's residence where the dog had been
10 located, or was located, there was a burn area
11 found. And discovered in that burn area were
12 pieces of bone.

13 Q. Looking at Exhibit No. 86, can you tell the jury
14 where that burn area was located?

15 A. Yes. This is the garage for Steven Avery. And
16 then just south of that garage, this darkened
17 area, would have been a dug out area from a berm
18 or pile of dirt and gravel and that's the area
19 where the bones were discovered.

20 Q. Were some individuals with some expertise asked
21 to come take a look at that location?

22 A. Yes, the Crime Lab was on scene that day and they
23 were asked to come and help process that area.

24 Q. Any DCI agents?

25 A. Yes.

1 Q. What kind of agents, if that's a fair question?

2 A. Arson investigators or former arson
3 investigators.

4 Q. Why would you send an arson investigator to an
5 area like this?

6 A. Because it's a burn area and they were trained in
7 fires and burns and they deal with, many times,
8 finding bodies in burned buildings or wherever,
9 they are trained in that area.

10 Q. Was it your understanding that the Crime Lab,
11 with the assistance of these arson investigators,
12 began to process the scene that day?

13 A. Yes.

14 Q. By the way, Agent Fassbender, were you called to
15 look at that burn area that Tuesday?

16 A. I believe so, but I just don't recall.

17 Q. You had other things going on that day as well?

18 A. Yes.

19 Q. Other than those three major discoveries,
20 anything else occur on site that day that you can
21 recall?

22 A. I believe that evening, before the Crime Lab
23 left, we asked them to go back into Steven
24 Avery's trailer and Charles Avery's -- Charles
25 Avery's trailer and do some luminal testing

1 involving a chemical that can illuminate the
2 presence of blood, amongst other compounds or
3 chemicals, but they usually use that for
4 determining if there was any blood in that area,
5 blood that may not be visible to the naked eye.
6 So we have them do that that evening, yet.

7 Q. Now, Agent Fassbender, the next several days
8 Wednesday, Thursday, Friday, and into Saturday,
9 did you and other law enforcement agents maintain
10 control of the Avery Salvage Yard?

11 A. Yes, sir.

12 Q. And I know that we are going to hear from each of
13 the individual officers, but if you could just
14 tell us, generally, what happened for the balance
15 of the week. What kinds of additional
16 investigative efforts were made for those last
17 three days?

18 A. Crime Lab was there Tuesday and I believe
19 Wednesday. And their primary duties that they
20 were doing was just processing. I know they were
21 at the Calumet County Sheriff's Department
22 processing the barrels and stuff like that. On
23 Wednesday we obtained search warrants for
24 fingerprints and DNA from the adult members that
25 were commonly associated with the Avery salvage

1 yard, or residents, the Avery family pretty much,
2 or the members who worked on that salvage yard.
3 Did interviews of those individuals, or attempted
4 to.

5 We had, I think, one small evidence
6 collection team, or evidence technicians that
7 were doing follow-up stuff that needed to be done
8 that day. For example, we knew that there was a
9 garage door opener in Teresa's car. And then
10 they found a tool that was like an emergency
11 roadside tool. We learned that and we were
12 looking to see if we could find that anywhere, to
13 determine whether that was taken from the scene,
14 or it was actually Teresa's property. Things
15 like that. So some people went back into the
16 buildings and then did some searching that day.

17 Q. When was it that the property was turned back
18 over to the Avery family?

19 A. Saturday morning.

20 Q. The 12th?

21 A. Yes, November 12th.

22 Q. Now, although we're going to hear from Crime Lab
23 experts, I think you mentioned that each day
24 additional findings were made; is that fair?

25 A. That's correct.

1 Q. And with those additional findings, further
2 interviews and further investigation was
3 completed?

4 A. Yes.

5 Q. Now, other than this site, the balance of the
6 week, could you tell the jury, just briefly, what
7 kinds of things were happening off site?

8 A. Continued -- We would continue to do interviews
9 off site. We did records exams. Records exams
10 can consist of the business records of the Avery
11 Salvage Yard, and can go to financial records,
12 can go to telephone toll records that have been
13 subpoenaed, that type of stuff, that had to be
14 analyzed.

15 Neighborhood canvasses, again, were
16 ongoing. We tried to do traffic surveys which,
17 basically, are identifying vehicular traffic or
18 people who commonly go through that area, to see
19 if they might have seen anything, activities such
20 as that.

21 ATTORNEY KRATZ: Judge, although I'm
22 virtually finished, I do have one or two more areas
23 of inquiry. I don't know if the Court wants to take
24 our afternoon break at this time.

25 THE COURT: All right. It's just about

1 noon, so we'll take our lunch break at this time and
2 resume at 1:15. Members of the jury, I will remind
3 you, again, not to discuss this case over the lunch
4 hour. We'll see you after lunch.

5 (Jury not present.)

6 THE COURT: You may be seated. Counsel, is
7 there anything else to take up outside the presence
8 of jury before we resume after lunch?

9 ATTORNEY KRATZ: No.

10 ATTORNEY BUTING: Yes, there is, Judge. I
11 have a couple things I need to make a record on. We
12 have -- First of all, we had a request out from the
13 prosecution -- to the prosecution, for discovery,
14 for a long time, and had no response, as to any
15 citizen complaints, fire and police commission
16 complaints, anything that -- regarding Lieutenant
17 Lenk and Sergeant Colborn. And that has not been
18 complied with yet.

19 Further, we have received some
20 information from what appears to be a reliable
21 source that one or more of these burn barrels
22 were lost at some point, while in custody. That
23 is, the chain of custody apparently may have a
24 break in it, and that they were discovered, I
25 believe at the State Patrol custody rather than

1 Calumet, or DCI, or whatever. We received
2 nothing like that in our discovery. I don't know
3 if there is any such evidence. I would ask that
4 the State comply with the discovery and turn that
5 over immediately.

6 THE COURT: Mr. Kratz.

7 ATTORNEY KRATZ: Other than the defense
8 having received all of our evidence logs, we can
9 certainly make some more directed inquiries that
10 they have everything that we have, at least that I'm
11 aware of.

12 Regarding the issue of the citizen or
13 other personnel records kinds of complaints,
14 that's something I'm sure that we'll need a more
15 extended hearing on and something that we're not
16 prepared to address at this time. Of course,
17 since those witnesses aren't testifying now, it
18 doesn't become ripe yet. But I would suggest the
19 Court set aside at least some period of time
20 between now and when those witnesses testify, to
21 address those personnel records issues, which I
22 assume counsel understands what's necessary to
23 secure those -- those items.

24 But regarding the chain of custody, not
25 only can that be addressed by cross-examination,

1 but I believe we have complied, as has been noted
2 throughout this case, with discovery, that the
3 defense has things perhaps that they don't even
4 know they have. But that notwithstanding,
5 Judge, we'll make sure, once again, that
6 everything has been turned over. And if there's
7 a further problem, we can alert or address the
8 Court at that time.

9 THE COURT: All right. I will ask the
10 attorneys to discuss this matter further. If there
11 is still an area of disagreement that requires a
12 hearing, let the Court know and I will schedule it.

13 ATTORNEY KRATZ: All right. Thank you.

14 (Noon recess taken.)

15 (Jury present.)

16 THE COURT: Mr. Kratz, at this time you may
17 resume your direct examination of the witness.

18 ATTORNEY KRATZ: Thank you, your Honor.

19 **DIRECT EXAMINATION CONTD.**

20 BY ATTORNEY KRATZ:

21 Q. Agent Fassbender, we left off talking about the
22 last three or four days of the search, bringing
23 us to the 12th of November. On the 12th of
24 November, how was this scene returned to the
25 Avery family?

1 A. I met with Charles Avery and, I believe, Barb
2 Janda was also present, and it was turned over to
3 Charles.

4 Q. Between the 5th and the 12th of November, had you
5 received requests from Avery family members to
6 retrieve some personal belongings within the
7 salvage yard and the residences?

8 A. Yes, we had quite a few requests and, actually,
9 contacts with the Avery family members. They had
10 pets or animals on the scene; medicine, I
11 believe; mail on one occasion, where we had Barb
12 Janda come in and get some mail. We were
13 dealing, both Investigator Wiegert and myself,
14 with them consistently.

15 Q. Were attempts made, when at all practical, to
16 meet those needs, whether for business or
17 personal reasons?

18 A. Yes, I understand that we had this -- their
19 homes, their businesses, for a week. And I
20 understand that it is an extreme hardship. I
21 have empathy for that. When we go to these
22 scenes, we try to process them as quickly as
23 possible because of that.

24 Q. The last area of inquiry, Agent Fassbender, you
25 mentioned limiting access to the scene itself

1 from the outside, that is, from citizens or at
2 least knowing who was on that property; did you
3 testify about that?

4 A. Did I, yes.

5 Q. Was there a method created to insure that you
6 could keep track of that kind of information?

7 A. Yes, logs are created on crime scenes such as
8 this, to record officers, law enforcement
9 personnel, or whoever else, whether it be a
10 coroner, whoever, that comes into the scene. In
11 fact, when I got there on Saturday, ultimately, I
12 got down by the car crusher, that staging area
13 down there, and about 2:25 I think it was. And
14 the officers that were staged there, I told them,
15 I recommended that they start a log there also.

16 Q. Was that done to your knowledge?

17 A. I believe so.

18 Q. And do you know about what time a log was started
19 for entry on to the Avery property?

20 A. I'm not sure.

21 Q. Again, about what time was it that you arrived?

22 A. About 2:00.

23 Q. And was a log begun yet at that time?

24 A. I believe so, but I just don't recall.

25 Q. That would have been somebody else's area of

1 involvement or decision; is that right?

2 A. Yes, sir.

3 ATTORNEY KRATZ: Judge, I would move the
4 admission of Exhibits 130 through 138 at this time.

5 THE COURT: Any objection?

6 ATTORNEY BUTING: None.

7 THE COURT: Very well, those exhibits are
8 admitted.

9 ATTORNEY KRATZ: That's all I have of this
10 witness. Thank you.

11 THE COURT: Mr. Buting.

12 ATTORNEY BUTING: Yes, Judge.

13 **CROSS-EXAMINATION**

14 BY ATTORNEY BUTING:

15 Q. Good afternoon, Mr. Fassbender.

16 A. Good afternoon.

17 Q. Let me go back to the beginning of your
18 testimony, about some of your experience, for a
19 few minutes, okay?

20 A. Yes.

21 Q. Twenty-seven years as a law enforcement officer
22 is a long time; would you agree?

23 A. Yes.

24 Q. Not that you are old yet, but it's a lot of
25 experience. And I'm not sure that we got clear,

1 was all of that with DCI?

2 A. Five years of that was with the State patrol.

3 Q. Okay. But always for the State, pretty much?

4 A. Correct.

5 Q. And you did say that one of the functions of DCI
6 is to help out other law enforcement departments,
7 all over the state, particularly smaller ones,
8 that may not have as many detectives, right?

9 A. Certainly.

10 Q. And, you know, coming from outside of an area,
11 you kind of have a different perspective perhaps
12 than the local people who have been, you know, in
13 individual local departments?

14 A. Yes, possibly.

15 Q. I mean, you are somewhat at a disadvantage when
16 you talked about knowing local vendors and
17 resources if you need tow trucks and that sort of
18 thing, right?

19 A. Yes.

20 Q. So it's helpful to have those local departments
21 available for that kind of assistance, certainly?

22 A. Yes, sir.

23 Q. Okay. But in smaller departments sometimes, you
24 know, you realize that there's probably some
25 history between certain suspects and certain

1 police departments?

2 A. Certainly that could be.

3 Q. Okay. You have the advantage of, though, coming
4 on the scene without that kind of problem. You
5 don't have any prior history with anybody who may
6 be a suspect or person of interest, right?

7 A. Yes, I like to think so.

8 Q. And in this case, when you were called in, you
9 live in the Fox Cities area?

10 A. Correct.

11 Q. Okay. So you watch the television stations from
12 Green Bay, and that's where you get most of your
13 media news?

14 A. Yes, sir.

15 Q. And Appleton news, of course. So you knew this
16 Teresa Halbach case, missing person case, had
17 already gotten quite a bit of publicity, right?

18 A. I had seen bits and pieces, yes.

19 Q. Okay. And when you were called into this case,
20 you knew that this was going to be pretty high
21 profile; would that be fair?

22 A. Just based on Teresa missing, or where I was
23 being sent?

24 Q. Where you were being sent?

25 A. The possibility, yes, existed.

1 Q. Okay. So you wanted -- You knew that your
2 performance as an officer -- You didn't at that
3 point know you would be a lead investigator, did
4 you?

5 A. No.

6 Q. But you knew that, obviously, your performance
7 could be under the microscope, so to speak, of a
8 high profile case?

9 A. My performance is always under a microscope, but
10 more people may see it, yes.

11 Q. Okay. Sure. So you wanted to make sure that it
12 was a thorough investigation that you undertook,
13 right?

14 A. Yes.

15 Q. As complete an investigation as you could?

16 A. Yes.

17 Q. And as you described it, this funnel approach,
18 you wanted to be as thorough and get all leads
19 and everything carefully investigated before you
20 narrowed down to the bottom of that funnel, that
21 one man, right?

22 A. Generally, yes.

23 Q. Okay. Now, you also knew -- well, maybe you
24 didn't. Did you know, before you got assigned to
25 the case and you went over to the Avery property,

1 were you aware of Mr. Avery, who he was?

2 A. Yes.

3 Q. You knew about the wrongful conviction, and all
4 the years in prison, and all of that, right?

5 A. Yes.

6 Q. And you knew that he had filed a lawsuit against
7 Manitowoc County after that, right?

8 A. I believe so.

9 Q. Well, was there talk in the law enforcement
10 community, in this whole area, you know,
11 northeastern Wisconsin, about this lawsuit, at
12 all?

13 A. No, not from my experience.

14 Q. Okay. So what you knew was not insider
15 knowledge, it was just from the news?

16 A. Essentially, I know DCI looked at something
17 related to that.

18 Q. In fact, the Attorney General commissioned a
19 report by your department?

20 A. Yeah, the Attorney General.

21 Q. Okay. And she looked and focused on the wrongful
22 conviction of Mr. Avery to try and see what, if
23 anything, went wrong, that could be determined?

24 A. Although I wasn't involved in that, I believe so.

25 Q. Okay. And you knew, then, that after all that

1 was done, and all the information was gathered,
2 and additional facts were learned, Mr. Avery
3 filed a lawsuit against Manitowoc County?

4 A. Yes, I believe so.

5 Q. And against Manitowoc County sheriff or former
6 sheriff?

7 A. I'm not sure about that. I know it was Manitowoc
8 County. I believe Manitowoc sheriff too, yes.

9 Q. Okay. All right. And then you arrive, with that
10 background and that knowledge, and you come to
11 the scene, and the first thing you do is you go
12 to the Command Post, which is right at the
13 entrance way to the Avery property, right?

14 A. Yes, sir.

15 Q. And you go through a debriefing -- or a briefing,
16 I should say, with those in command, right?

17 A. Yes.

18 Q. You mentioned Sheriff Pagel, Deputy Inspector
19 Schetter perhaps, was he one of the ones you
20 spoke with?

21 A. Perhaps, I can't recall.

22 Q. Was Investigator Wiegert there?

23 A. I don't think he was. I think he was obtaining a
24 search warrant.

25 Q. Okay. Lieutenant Hermann, maybe?

1 A. I don't know.

2 Q. All right. But some upper brass, so to speak, in
3 the Manitowoc -- I'm sorry, in the Manitowoc
4 County Sheriff's Department, as well as the head
5 of the Calumet.

6 A. I definitely remember speaking with Sheriff
7 Pagel. And I know I saw Deputy Inspector
8 Schetter there.

9 Q. Okay. And Schetter is with Manitowoc Sheriff's
10 Department and Pagel is with Calumet?

11 A. Correct.

12 Q. And so you knew, then, that a determination had
13 already been made, before you arrived, that there
14 was a conflict of interest, or an appearance of a
15 conflict of interest, for Manitowoc County to
16 investigate Mr. Avery?

17 A. Correct.

18 Q. So for that reason, Calumet had been turned --
19 the lead investigation authority had been turned
20 over to Calumet?

21 A. Yes.

22 Q. And you, of course, wanted to do everything you
23 could, within your knowledge, to try and make
24 this investigation a fair one, right?

25 A. Yes, sir.

1 Q. You didn't want to go into this and set up some
2 kind of investigation that would have an
3 appearance of unfairness, right?

4 A. I didn't want to set up an investigation that was
5 unfair.

6 Q. Okay. Much less the appearance. And this was a
7 high profile case, you didn't want the public to
8 think that you were leading an investigation that
9 appeared to be unfair or biased in some way,
10 against the gentleman who had sued Manitowoc
11 County?

12 A. I don't know if I agree with that. I was
13 concerned about finding the truth, not about the
14 press, not about what people thought. And I made
15 my decisions based on that.

16 Q. All right. At any rate, in order to try and
17 ensure that there was a fair investigation, you
18 kind of looked around and made some decisions
19 that a few things had to be -- had to be changed,
20 that hadn't been done yet, right?

21 A. I'm not sure what you are asking.

22 Q. All right. I will be more specific, I'm sorry.
23 When you arrived at the property at 2:25 p.m.,
24 you drove right in to the Command Post and didn't
25 have to sign in or sign out, initially, did you?

1 A. As I answered before, I don't recall.

2 Q. All right. But let me just mark something and
3 show it to you.

4 (Exhibit No. 142 marked for identification.)

5 Q. All right. Showing you what's marked now as
6 Exhibit 142, does that look at all familiar to
7 you?

8 A. Yes, I have seen this.

9 Q. Okay. And can you tell the jury what that is.

10 A. That's one of the logs I was talking about, a
11 sign-in log, sign-out log --

12 Q. Okay.

13 A. -- at the scene.

14 Q. Okay. And this particular one, I think actually
15 says -- no this one doesn't, doesn't say exactly
16 where it is. But does this one appear to be one
17 that was taken up at the intersection of Highway
18 147 and Avery Road, or does this look like one
19 from somewhere else?

20 A. This looks like one that was started down by the
21 car crusher, I believe, that staging area down
22 there.

23 Q. Okay. So everybody who came down in that area
24 had to sign in there?

25 A. I would hope so.

1 Q. Okay. The very first entry is what?

2 A. DCI Agents Hunsader and Fassbender at 2:25 p.m.

3 in and then some initials.

4 Q. Okay. So this log, in any event, appears to have

5 been started right with your arrival?

6 A. Yes.

7 Q. And that's good police practice to do that,

8 right?

9 A. Certainly.

10 Q. You then have a record of everybody who comes and

11 goes, right?

12 A. Yes.

13 Q. And it has got an exact date and time that

14 someone comes, right?

15 A. Correct.

16 Q. And that applies to officers?

17 A. Yes.

18 Q. No matter what their rank?

19 A. Yes.

20 Q. Even the top dog sheriff has to sign a log like

21 this, right?

22 A. They should.

23 Q. In order to get past that checkpoint, you would

24 have to sign in, if you were going in in the

25 normal way, right?

1 A. You should, yes, if you are going by that
2 checkpoint, yes.

3 Q. Well, unless you were eluding the checkpoint in
4 some way, and coming in at a different location,
5 you would really have to sign in, wouldn't you?

6 A. Yes.

7 Q. The guard or the officer who's there says -- you
8 know, doesn't let anybody by without signing in?

9 A. Correct.

10 Q. And, now, you said you have seen this document
11 before. Have you had a chance, in the past, to
12 go through it with much detail?

13 A. No, probably not.

14 Q. I'm going to show it to you for a minute, if you
15 could look at it, please, and --

16 THE COURT: Is this still Exhibit 142,
17 Mr. Buting?

18 ATTORNEY BUTING: Yes it is.

19 Q. All right. Would you make note of the last page,
20 which is toward the end of the day when people
21 are signing off. You said around 10:00 people
22 were knocking off on -- this is the first Friday,
23 November 5th -- I'm sorry, Saturday,
24 November 5th?

25 A. Yes.

1 Q. Most of the investigation detectives were leaving
2 around 10-ish, something like that?

3 A. Ten, eleven, sure.

4 Q. Okay. And towards the bottom there, it says --
5 would you read that line, please.

6 A. In military time, 2241 hours, Lieutenant Lenk,
7 Detective Remiker, Sergeant Colborn, out. And,
8 then, must be a call number of the officer that
9 was in control of the log, 492.

10 Q. Okay. And 2241, what is that in regular
11 civilian?

12 A. 10:41.

13 Q. Okay.

14 A. P.M.

15 Q. All right. So the log shows that Lieutenant Lenk
16 signed out, from that checkpoint, at 10:41 p.m.
17 on November 5th, correct?

18 A. Yes. If this is all November 5th, yes.

19 Q. Okay. Well, if you take a minute and look
20 through there and show me where Lieutenant Lenk
21 signed in, if at all.

22 ATTORNEY KRATZ: Judge, I'm going to
23 object. That assumes a fact that's not into
24 evidence, that Lieutenant Lenk was there before
25 2:25.

1 ATTORNEY BUTING: Well, we're establishing
2 this.

3 ATTORNEY KRATZ: Well, if you're
4 establishing that at all, that would be hearsay. If
5 that's what he's using it for, he's assuming a fact
6 that's not in evidence.

7 THE COURT: I understand the question to
8 relate simply to whether or not there is a sign in
9 for Mr. Lenk at some earlier point in time.

10 ATTORNEY KRATZ: With respect to the Court
11 and counsel, then, he should ask that question,
12 Judge, not show me where Lieutenant Lenk signed in,
13 if he's on that form.

14 THE COURT: I will allow you to go into
15 that on redirect.

16 ATTORNEY KRATZ: Thank you, Judge.

17 A. And the question was?

18 Q. The question is, do you see an entry that
19 Lieutenant Lenk signed in anywhere on that log on
20 November 5th?

21 A. No, sir, I did not.

22 Q. All right. Now, correct me if I'm wrong, feel
23 free, but there's a couple of possibilities of
24 why that might be. One is that Detective Lenk
25 bypassed the checkpoint somehow, right?

1 A. Yes, that checkpoint.

2 Q. And we have -- You have testified already that
3 that is the checkpoint to get in that area and no
4 one is supposed to come and go without getting
5 checked in, right?

6 A. In that particular area down by the car crusher,
7 yes.

8 Q. Okay. And the car crusher is the closest
9 checkpoint -- one of the closest check areas to
10 the RAV 4, right?

11 A. Correct.

12 Q. Another possibility is that he was -- Lieutenant
13 Lenk arrived and was at the scene before that log
14 was even begun, right?

15 A. Right.

16 Q. Do you know Detective Lenk before this
17 investigation?

18 A. No.

19 Q. So, did you know him by sight at all before this
20 investigation? Would you be able to recognize
21 him if he showed up at Avery salvage?

22 A. No, I don't believe so.

23 Q. Okay. Do you know whether you saw this person,
24 now known as Lieutenant Lenk, at the Avery
25 Salvage when you arrived at about 2:00?

1 A. I don't recall.

2 Q. Okay. So you have no recollection of seeing him
3 arrive yourself?

4 A. No recollection.

5 Q. Or recollection of him even being there when you
6 arrived?

7 A. Correct.

8 Q. Okay. By the way, if I may divert for just a
9 second, you said -- When you talked about putting
10 together some teams, you said that you had
11 actually trained certain individuals in one of
12 these evidence processing teams from Manitowoc?

13 A. A couple of them.

14 Q. Would you just tell me who, the names of those
15 people?

16 A. Detective Remiker and Sergeant Colborn.

17 Q. Okay.

18 A. Not in evidence collection.

19 Q. Not in evidence collection?

20 A. No.

21 Q. So whatever personal knowledge you had about
22 their training had nothing to do with their skill
23 in that specific field of collecting evidence?

24 A. Correct.

25 Q. Okay. When you came into this case, I assume you

1 were not considering the possibility that some
2 law enforcement officer would actually plant
3 evidence against Mr. Avery, were you?

4 A. No.

5 Q. Have you ever encountered a case where you had to
6 deal with that issue?

7 A. I worked in public corruption for 12 years with
8 white collar crime, and planting evidence, I
9 don't believe I have ever had a police officer do
10 that.

11 Q. All right. So when you came to the scene, your
12 focus was not on making sure that no police
13 officer would do something that bad, like plant
14 evidence, right? That wasn't part of your focus
15 when you arrived?

16 A. Certainly.

17 Q. Okay.

18 ATTORNEY BUTING: I'm sorry, counsel, could
19 we put up Exhibit 86 again, our most common exhibit
20 so far.

21 Q. All right. Could you show us, again, where this
22 checkpoint area was or -- Strike that. Show me
23 where, when you drove down to the RAV 4 area, or
24 the southeast corner of that property, show me
25 where you parked? Or did you drive, or walk, I'm

1 sorry?

2 A. I believe, the first time I went down there I
3 drove.

4 Q. Okay. And show me about where you parked. Could
5 you maybe zoom it up one level? Okay. That's
6 good.

7 A. I believe it was probably right in this area,
8 right here.

9 Q. Kind of right next to the crusher? Like here's
10 the crusher, right?

11 A. You know, I can't remember exactly, but I would
12 say a little south of the crusher. Probably be
13 just -- not halfway in between that pond area and
14 the crusher, but further south of the crusher a
15 bit.

16 Q. Well, did you do a report that sort of summarized
17 your involvement during that week?

18 A. Yes.

19 Q. I'm not going to mark this right now, unless we
20 later need it. But for the record, is this one
21 of your reports?

22 A. Yes, it is. It's a DCI report, report No. 180,
23 Case File 051776.

24 Q. Okay. And this is a report that you prepared
25 when, back in November of 2005?

1 A. Report date 12/9/05.

2 Q. Okay. But closer in time to the events than we
3 are today, obviously?

4 A. Certainly.

5 Q. I want you to take a moment and read this to
6 yourself, this paragraph to yourself, and see if
7 that refreshes your recollection about where you
8 parked.

9 A. Okay.

10 Q. Okay. I will leave it here in case we need it
11 again, but does that help refresh your
12 recollection a little bit?

13 A. It does. It's similar to what I said.

14 Q. Where it says just west of the crusher, right?

15 A. Near and just west of the crusher.

16 Q. So, in this area, but now you're thinking maybe a
17 little bit further down here?

18 A. Maybe not. I thought I was a little further
19 south to the crusher when I look at the pictures.
20 Whether it was just west of the crusher, I'm not
21 sure. It may have been.

22 Q. In any event, from the crusher, from where you
23 parked, would be at least somewhat closer to the
24 location of the RAV 4 than it would be if you
25 were all the way at the crusher itself, by

1 however many feet you parked away?

2 A. Yes.

3 Q. Okay. And from that distance you indicated you
4 were still quite a distance away, right?

5 A. Yes.

6 Q. And so much so that you pulled out some
7 binoculars to be able to view the RAV 4 from that
8 distance?

9 A. I didn't pull out some binoculars, I think
10 someone at the scene had some and they let me use
11 them.

12 Q. Okay. Well, at this time you think it was 2:25,
13 so your understanding was that the first officers
14 arrived at 11?

15 A. I believe so.

16 Q. And this was, as you described it, at that point,
17 I think you said this on direct, this RAV 4 was,
18 at that point, the major piece of evidence on
19 this property, that you knew of?

20 A. Yes.

21 Q. That was it. That's the focus. That's the
22 big -- That's the missing woman's car --

23 A. Yes.

24 Q. --right?

25 A. Yes.

1 Q. And when you arrived up there, having already
2 been briefed at the Command Post, you knew about
3 this issue with the appearance of a conflict for
4 Manitowoc County, right?

5 A. Correct.

6 Q. And then, yet, you discovered that it wasn't
7 until 3:00, approximately, that a Calumet deputy
8 took over responsibility for trying to secure
9 that major piece of evidence?

10 A. I don't know that for sure as I sit here, but it
11 may have been.

12 Q. Well, maybe just so the record is clear, you have
13 one advantage of being a witness here today in
14 that you haven't been sequestered, right?

15 A. Correct.

16 Q. You have been able to sit here at the trial along
17 with Mr. -- or Investigator Wiegert, and hear
18 most of the testimony, right?

19 A. Correct.

20 Q. And you heard, I think it was with Sergeant Orth,
21 testimony that there was at 3:04 p.m. -- or maybe
22 it was Lieutenant Hermann, I may be mistaken,
23 that it was 3:04 p.m. that Manitowoc Deputy
24 Sheriff Cummings transferred responsibility for
25 security of that vehicle to a Calumet County

1 deputy?

2 A. I'm not disputing it, I just don't independently
3 recall that bit of testimony.

4 Q. You don't recall the time, or don't recall the
5 testimony?

6 A. When he said what time he turned it over.

7 Q. So, you wouldn't disagree with me that it was
8 3:00?

9 A. I have no reason to.

10 Q. Okay. So did it cause you concern that for four
11 hours the major piece of evidence in this case
12 was under the control of the very department that
13 had already been determined to have a conflict of
14 interest in this case?

15 ATTORNEY KRATZ: Objection, Judge. I think
16 it's a mischaracterization. The word conflict is,
17 in fact, a mischaracterization.

18 ATTORNEY BUTING: I will rephrase it. I
19 know what counsel is talking about.

20 Q. Did it cause you concern that, for four hours,
21 the major piece of evidence in this case was
22 under the control and security of the one
23 department that, itself, determined to have an
24 appearance of a conflict of interest?

25 A. No, it didn't. I was not involved in that

1 decision making. I knew that officers were on
2 that scene, protecting that scene.

3 Q. You weren't involved in that decision making at
4 all, because that took place before you got
5 there?

6 A. Correct.

7 Q. Okay. And the fact, you were trying to shape
8 things up a bit and make sure that logs were
9 taken and all of that when you arrived?

10 A. I suggested a log be kept.

11 Q. Okay. So it didn't concern you that there was
12 going to be an appearance that the fox was
13 guarding the hen house, so to speak; is that
14 right?

15 A. Absolutely not.

16 Q. Okay. Well, did you suggest that Manitowoc back
17 off and that the Calumet deputy take over? Was
18 that part of your decision?

19 A. I don't believe so. It happened, but I don't
20 believe that was specifically my decision.

21 Q. So it was just coincidental that it happened
22 around the time you arrived?

23 A. Probably, yes.

24 Q. All right. Now, at that point, you were already
25 designated as co-leader?

1 A. No, I don't think so. I think that happened when
2 Detective Wiegert got back and we -- I can't
3 remember when exactly, if it was after Brutus
4 alerted, or before, but we were having a briefing
5 at the command center and a determination was
6 made and we were asked to do that.

7 Q. Okay. So, that's -- All right. That's fine. So
8 that was after Investigator Wiegert came back
9 with the search warrant?

10 A. Yes.

11 Q. And that was about 3:35, I believe, right?

12 A. I believe so, 3:25, 3:35 and it was even later
13 than that, I believe.

14 Q. The designation was later than that?

15 A. Yes.

16 Q. Sure. I understand. So, then, just so we're
17 clear, when you got there, the leader of the
18 investigation, Investigator Wiegert, was not
19 present on the property?

20 A. He was not present. I don't even know if he was
21 the leader or not, but he was not present.

22 Q. And there were no prosecutors present?

23 A. When I got there, I can't remember. I know they
24 were there at some time, I just can't remember if
25 they were there then.

1 Q. Well, if you look at Exhibit 142, see if that
2 refreshes your recollection as to when any of the
3 district attorneys involved returned to the
4 property.

5 A. I see an indication at what appears to be
6 3:32 p.m.

7 Q. 3:32?

8 A. 3:32 p.m. Manitowoc County District Attorney and
9 Assistant District Attorney on the scene. That
10 is not saying whether they were there earlier
11 than 2:25 or not.

12 Q. Okay. What about Mr. Kratz or his assistant?

13 A. 4:03 p.m., Assistant District Attorney from
14 Calumet County, Jeff Froehlich. And then there's
15 an entry at 4:17 for both district attorneys
16 returned.

17 Q. All right. That's good enough for now, I guess.
18 So during that period of time, then, until
19 Investigator Wiegert came -- or came back with a
20 search warrant, or until the district attorneys
21 came, did you view yourself as sort of an agent
22 in control, or not; you were still an outsider,
23 so to speak?

24 A. Yes, I did not view myself as an agent in control
25 of anything.

1 Q. Okay. That's fine. At some point, though, that
2 did happen. And Sheriff Pagel, I believe it was,
3 requested you to be a co-leader?

4 A. Probably, yes.

5 Q. And then, you mentioned that you had some
6 meetings and discussions about trying to develop
7 some kind of a search plan?

8 A. Yes.

9 Q. And the first thing you did was this, you called
10 it a sweep of all the properties, right?

11 A. Correct.

12 Q. And like you said, this was a missing person case
13 still, but you came into this thinking something
14 more, didn't you.

15 A. Yes, based on what I knew at the time, plus, to
16 me just good practice to do that.

17 Q. Okay. Something more, even including a homicide,
18 right?

19 A. True.

20 Q. And, in fact, the search warrant applications
21 that were prepared told the Court they were
22 looking for evidence, including evidence of a
23 possible homicide, right?

24 A. Correct.

25 Q. And that was -- that took place even before you

1 got to the scene?

2 A. Yes.

3 Q. Okay. And so, in part, because of that, I
4 believe you testified on direct that you wanted
5 to make sure that you didn't miss anything in
6 this investigation, that it could be a lot more
7 than just a missing person, it could be homicide.
8 So you wanted to make sure that nobody missed
9 anything, right?

10 A. You try to do that, as a concept, to go in with
11 that mentality.

12 Q. All right. Let me go through some of these
13 searches, briefly, with you. If I told you that
14 on November 5th, at 3:48 p.m., the first entry
15 was made to Mr. Avery's trailer for this sweep
16 type search; does that fit with your
17 recollection?

18 A. That sounds right.

19 Q. Detective Remiker and Deputy Steier?

20 A. Yes.

21 Q. Two of them went in, it was a quick 10 minutes in
22 and out of the building, looking to see if there
23 was a live person there, Teresa, right?

24 A. Yes.

25 Q. And then they went on to other buildings and, you

1 know, doors were being kicked in, if necessary to
2 get in, because you were looking for, hopefully,
3 still a live person?

4 A. Yes, there were multiple teams, not just that one
5 team, I think.

6 Q. Okay. And then immediately after they left
7 Mr. Avery's residence, the trailer, the same team
8 immediately went right into the detached garage
9 sitting next to his trailer as well?

10 A. I think so, yes.

11 Q. Again, a quick entry, look around to see if
12 there's anybody there, alive or otherwise?

13 A. Yes.

14 Q. But in neither instance was anything seized?

15 A. Not that I know of.

16 Q. Okay. And, then, you did mention that, I think,
17 the next level of searches sort of right after
18 the sweep, and the sweep was also to make sure
19 that there's nobody there that could harm the
20 officers, some gunmen, armed gunmen, or something
21 like that, right?

22 A. For our protection, yes.

23 Q. That's routine procedure?

24 A. Correct.

25 Q. Okay. But the next level of search after that

1 was these dogs. You said there were like nine
2 cadaver or human remains type dogs?

3 A. A combination of human remains, mixed, and live.

4 Q. So all different kinds of dogs, but search dogs?

5 A. Yes.

6 Q. And they started going through everything, right,
7 as quickly as they could?

8 A. Primarily the vehicles in the salvage yard.

9 Q. Okay. And we -- we heard about this indication
10 or alert that this dog, Brutus, did in the
11 bathroom of Mr. Avery's trailer, right?

12 A. Yes.

13 Q. You heard that testimony today?

14 A. Yes.

15 Q. But you were aware that there were other alerts,
16 many alerts, all over that property, right?

17 A. There were other alerts, yes.

18 Q. Including right at the front door of Chuck
19 Avery's trailer, residence, right?

20 A. Correct.

21 Q. Now, Chuck Avery, Mr. Avery's brother, also lived
22 on the property, right?

23 A. Yes.

24 Q. And in fact, his trailer is the closest trailer
25 to the RAV 4 that was discovered, closest

1 residence, right?

2 ATTORNEY BUTING: Maybe if you could zoom
3 out one --

4 A. Yes.

5 ATTORNEY BUTING: -- degree, please,
6 counsel?

7 Q. Could you point where Chuck Avery's residence was
8 on there, or is?

9 A. I will have to squint a little bit here, but I
10 think it's right there.

11 Q. Okay. And there were other hits, other buildings
12 and cars, and kind of all over the place,
13 initially, right?

14 A. Yes.

15 Q. So it's not like Steven Avery's bathroom, where
16 he shaves, is the only place that any dog alerted
17 on that 40 acre property?

18 A. Yes, sir, that's correct.

19 Q. All right. Okay. Then you broke up into teams.
20 Well, actually, let me go back for just a minute
21 before I -- A number of times, let me just
22 clarify that. A number of times you said this
23 was a general search plan you were trying to put
24 together at that stage, right?

25 A. Beginning with the sweeps?

1 Q. Yeah, the whole plan from when you got there.

2 A. Trying to put a plan together, certainly, yes.

3 Q. And that it was fluid, that it adjusted based on
4 information, new information, you might get or
5 not get, right?

6 A. Throughout the entire time we had that property,
7 yes.

8 Q. Okay. Well, I think you said on direct, though,
9 that you weren't -- when you set up that very
10 first plan, that you really weren't sure what you
11 were searching for.

12 A. We had a search warrant that indicated items that
13 we were searching for.

14 Q. Right. And in that search warrant -- I mean, you
15 took us off a little with an example of a case
16 where some pathologist told you, maybe look for a
17 knife with a serrated blade or something, right?

18 A. Correct.

19 Q. In this case, though, you didn't have that kind
20 of information yet.

21 A. That's right.

22 Q. You said you were looking at this investigation
23 already as a homicide, potentially?

24 A. Yes.

25 Q. And your search warrant told you to look for any

1 kind of instrumentologies (sic) that could cause
2 a homicide, including knives, right?

3 A. Yes.

4 Q. Firearms, right?

5 A. Yes.

6 Q. Whatever else could be used, items to bludgeon
7 someone, anything like that, right?

8 A. Correct.

9 Q. So the officers did know to look for all those
10 kinds of items, at least?

11 A. They should have, yes.

12 Q. All right. So -- So, then, after the first
13 entries, after the very first brief sweep of
14 Mr. Avery's trailer, you then sat down to put
15 together a team who could actually start
16 collecting evidence -- search and collect
17 evidence, not just do these sweeps?

18 A. Yes.

19 Q. And, again, I'm assuming that foremost in your
20 mind was that you wanted to make sure that this
21 was going to be a fair investigation and a fair
22 search of anyone's property on that 40 acre
23 parcel, right?

24 A. Of course.

25 Q. And so you would not knowingly have assigned

1 officers to certain duties, if you had known that
2 they might be in a situation where there's an
3 appearance of a conflict of interest, right?

4 A. Again, I have trouble with the word appearance.
5 If there's a definite conflict of interest, that
6 would be a concern of mine.

7 Q. All right. Well, let me ask it this way, sir.
8 Did you know, on that day, November 5th, when you
9 are putting this team of searchers together, did
10 you know that Lieutenant Lenk had been deposed as
11 a witness in Mr. Avery's civil lawsuit, just
12 three weeks earlier?

13 A. No, I didn't.

14 Q. Did you know that Sergeant Colborn, Sergeant
15 Andrew Colborn, had also been deposed as a
16 witness just three weeks earlier?

17 A. No, I didn't.

18 Q. And neither Sergeant Colborn nor Lieutenant Lenk
19 told you those -- that fact, did they?

20 A. Not to my recollection, no.

21 Q. As a matter of fact, when did you first learn
22 that they had been deposed; was it at my behest?

23 A. It may have been. I don't know if I knew before
24 then, at a hearing.

25 Q. A hearing in August?

1 A. That may have been.

2 Q. That was your first -- the first time anybody
3 told you, hey, these guys were deposed as
4 witnesses, with Mr. Avery sitting right there?

5 A. I don't remember if that was the first time.

6 Q. All right. But, surely, you didn't know it
7 anyway on November 5th?

8 A. Correct.

9 Q. And if you had known that, if you had known that
10 these two officers who you were assigning to go
11 into Mr. Avery's residence, a person of interest,
12 if you had known that those two officers had been
13 deposed as witnesses in that civil case, you
14 would not have assigned them to that duty would
15 you?

16 A. That's not correct. Based on what I know now --

17 Q. I'm asking you your knowledge then. Are you
18 telling me that you would have, even if they had
19 -- if they had told you, and if you had known,
20 that they were witnesses in that civil case, you
21 would have still assigned Lenk and Colborn, to
22 the evidence team that went into Mr. Avery's
23 residence?

24 A. Number one, I needed evidence technicians.

25 Number two, I would have asked --

1 ATTORNEY BUTING: Your Honor --

2 A. -- them what it related to.

3 ATTORNEY BUTING: -- this is a yes or no
4 answer. He can explain it on redirect.

5 THE COURT: That's correct, it is a yes or
6 no answer.

7 A. Based on -- I guess repeat the question again.
8 I'm saying yes.

9 Q. You are saying that even if you had known that
10 Lenk and Colborn had been witnesses in the civil
11 lawsuit, three weeks earlier deposed in
12 Mr. Avery's civil lawsuit, you would have still
13 assigned them to go search Mr. Avery's residence?

14 A. There's more to the answer. You want yes, I will
15 tell you yes right now, but there's more to that
16 answer.

17 Q. All right. Well, let me talk about what your
18 resources were. You, by that time, had other
19 people who could go in that -- Mr. Avery's
20 residence and search, didn't you?

21 A. We were looking for trained evidence technicians
22 and we put a team together with them. I don't
23 know of any other people that I would have used
24 for that.

25 Q. Well, you had another team, didn't you? You had

1 another team search other areas, other buildings
2 on that property?

3 A. On Saturday, no. The Crime Lab was there, but
4 they were busy with the vehicle.

5 Q. All right. You had the property for a week?

6 A. Yes.

7 Q. You went in and out of this trailer -- we'll get
8 into how many times during that week -- there
9 would have been no reason for you to rush to
10 search Mr. Avery's trailer, without waiting a few
11 more moments for the Crime Lab specialists to
12 come and search it?

13 A. On Saturday, or another day?

14 Q. Saturday, or even wait until another day. I mean
15 you already knew that Teresa wasn't inside.

16 A. I had a capable and qualified team that could go
17 in there and do the job.

18 Q. All right.

19 A. I sent them in there.

20 Q. And there were certainly other buildings on that
21 property, where other people resided, that did
22 not have a civil lawsuit that required the
23 testimony, at a deposition, of Mr. Lenk and
24 Mr. Colborn, right?

25 A. Yes.

1 Q. Chuck Avery, let's just look at him for a second.
2 It's another residence where the dog alerted,
3 right?

4 A. Yes.

5 Q. Could have sent Lenk and Colborn in there and
6 have someone else go into Mr. Avery's residence
7 to, again, make sure that there's no appearance
8 of some funny business going on?

9 A. Saturday?

10 Q. Yes.

11 A. A possibility. I'm looking at other bits of
12 information also when I'm determining where we're
13 sending in our first team.

14 Q. Well, you sent the first team to Mr. Avery's,
15 because you said that was the obvious place to
16 start.

17 A. Based on several reasons.

18 Q. All right. Let's look at those a little bit. I
19 think right before that, if I recall, you said
20 that Mr. Avery was not the only person being
21 investigated?

22 A. Correct.

23 Q. But that you felt he was the most obvious place
24 to start.

25 A. I had to pick a place to start. The person who

1 last saw that person alive was a pretty logical
2 place to start.

3 Q. But you have done many homicide investigations
4 over the years, right?

5 A. That depends on what you term as many. I'm not
6 going to say I have done hundreds of homicide
7 investigations.

8 Q. But you have done enough, you know about certain
9 patterns, for instance, often the most obvious
10 suspect in a homicide is a spouse, you look at
11 the spouse, right?

12 A. Yes, the people we love the most.

13 Q. Or you look at a boyfriend or an ex-boyfriend,
14 don't you?

15 A. Yes.

16 Q. Or how about a roommate?

17 A. Yes.

18 Q. How about a roommate who doesn't report the
19 victim missing for three, almost four days?

20 A. Yes.

21 Q. That would be somebody you would want to
22 investigate?

23 A. That's a possible area to look at.

24 Q. That would be somebody you want to ask for an
25 alibi?

1 ATTORNEY KRATZ: Judge, I'm going to
2 interpose an objection. If counsel really wants to
3 get into a true motive, I think this going to
4 require advance rulings. I would like to either be
5 heard outside the presence of the jury, or I would
6 object to this line of questioning as it deals
7 directly with the -- (Inaudible.)

8 THE COURT: All right. The Court is going
9 to excuse the jurors for a few minutes.

10 (Jury not present.)

11 THE COURT: You may be seated.

12 ATTORNEY KRATZ: If I may be heard, Judge?

13 THE COURT: Yes.

14 ATTORNEY KRATZ: Thank you, your Honor.

15 The defense has now introduced into this trial
16 motive, that is, asking this officer, why what
17 Mr. Buting has now identified as several individuals
18 who might have an obvious motive to kill Ms Halbach.
19 The State, as this Court knows, earlier in this
20 case, offered specific evidence, it's called other
21 acts evidence, 904.04 (2), to prove Mr. Avery's
22 motive.

23 Now that the defense has opened the
24 door, now that the defense has suggested that
25 other people have motive, the inferences that

1 Mr. Avery does not, that is a reasonable
2 inference for the jury to draw, based upon Mr.
3 Buting's questioning of this witness. I am at
4 this time, then, Judge, going to ask the Court
5 revisit, or at least allow additional argument on
6 the issue of other acts evidence.

7 If Mr. Buting, who now believes that
8 motive is at issue, Mr. Buting and the defense
9 now believes that motive should be considered by
10 this jury as part of the case, and at least by
11 the inference that Mr. Avery does not have a
12 motive, the State would, once again, reoffer
13 those items, which we specifically offered in
14 pre-trial attempts, to address Mr. Avery's motive
15 directly.

16 This Court has heard, through our
17 opening statement, that we were not going to
18 raise motive as an issue, that we had stayed away
19 because of the Court's previous ruling on this
20 entire issue. But now that Mr. Buting, and now
21 that the defense has raised the issue of motive,
22 I'm going to ask the Court revisit those issues.

23 THE COURT: Mr. Buting.

24 ATTORNEY BUTING: Judge, I have done
25 nothing of the sort. What we're doing here is

1 cross-examination of this officer, who testified
2 that Mr. Avery was the obvious choice of where to
3 start the investigation. All we're talking about is
4 what's going through his mind, at that day, that
5 time, in terms of where to allocate his resources.
6 And I'm demonstrating his bias towards Mr. Avery,
7 and focus on Mr. Avery, to the exclusion of others.
8 That's all this is going into. There's no motive
9 otherwise being introduced.

10 THE COURT: All right. I will make a
11 couple of comments. First of all, the Court, by
12 denying the State's other acts motion, did not
13 prohibit the State from introducing any evidence
14 relating to motive. Rather, the Court simply denied
15 the particular mechanisms, if you will, that were
16 proposed by the State, for other reasons related to
17 the law involving the admission of other acts
18 evidence.

19 With respect to the questions posed by
20 the defense at this point, they don't involve an
21 offer of extrinsic evidence and, therefore, at
22 least at this point, do not raise a **Denny** issue.
23 The Court is well aware of its prior ruling and I
24 will keep my ears open in the event that happens,
25 but I don't believe it's happened to this point.

1 The focus of the questioning, as I understand it
2 to this point, rather goes to decisions that the
3 officer made in the investigation of this matter
4 and other paths of investigation that could have
5 been followed.

6 So I'm going to overrule the objection
7 at this point. If the State believes it's going
8 too far, again, I will reconsider it, again, but
9 I'm only ruling on what I heard to this point.
10 You can bring the jury back in.

11 (Jury present.)

12 THE COURT: You may be seated. Mr. Buting,
13 you may resume.

14 ATTORNEY BUTING: Thank you.

15 BY ATTORNEY BUTING:

16 Q. I believe we left off with you saying, yes, you
17 would certainly like to investigate it. These
18 are the people you were talking about, the
19 roommate or ex-boyfriend?

20 A. That is an avenue that would be approached,
21 absent other circumstances.

22 Q. All right. And wouldn't you also want to, so you
23 don't miss anything, as you said, investigate an
24 employer who doesn't report an employee missing
25 for three days?

1 A. In relation to the employer reporting, related to
2 this case?

3 Q. Yeah, this case.

4 A. That would be something you would look into
5 possibly, yes.

6 Q. All right. But at any rate, you decided that the
7 first place you would start would be Mr. Avery's
8 trailer, residence?

9 A. Based on information that I had, yes.

10 Q. All right. And you put together, actually, a
11 team of four officers, correct?

12 A. A team of four officers was put together, yes,
13 whether I did it specifically, I don't recall.

14 Q. Three of those four officers are Manitowoc
15 Sheriff's Department employees, right?

16 A. Two investigators and one officer -- or sergeant,
17 yes.

18 Q. And they are Lieutenant Lenk, Sergeant Colborn,
19 and Detective Remiker?

20 A. Yes.

21 Q. And then you also had a Calumet Sergeant Tyson?

22 A. Yes.

23 Q. As part of that team. And that team entered
24 Mr. Avery's residence at 7:30 p.m. on November
25 5th, Saturday?

1 A. Yes.

2 Q. And they didn't leave until 10:05 p.m.?

3 A. That's correct.

4 Q. Those four officers, searching Mr. Avery's
5 residence, for over two and a half hours?

6 A. Yes.

7 Q. Both sides are having trouble with the
8 electronics in this courtroom, I'm afraid. Let
9 me try something else, we'll see if I can put on
10 one of the slide exhibits. I'm showing you
11 what's Exhibit 102, I think, yes. We heard
12 testimony about this animation before, right?

13 A. That's correct.

14 Q. And this is accurate, I guess, to the inch, or
15 half inch, or something like that; is that what
16 we heard.

17 ATTORNEY BUTING: Zoom out just a bit,
18 there we go.

19 Q. This is the sum total --

20 ATTORNEY BUTING: Zoom out one little bit
21 to show the whole --

22 Q. This is the sum total of residences that you had
23 four officers in for two and a half hours, on the
24 evening of November 5th, correct?

25 A. Yes.

1 Q. And at that time, they were looking for any
2 evidence, including evidence of a possible
3 homicide, right?

4 A. Yes, sir.

5 Q. They were looking for blood, right?

6 A. Yes.

7 Q. Certainly any indication, maybe, that Teresa
8 Halbach had been in that residence?

9 A. Correct.

10 Q. It's a rather small area to search, as residences
11 go, don't you think?

12 A. I suppose, yes.

13 Q. And they seized 50 some items on that occasion,
14 right?

15 A. I don't know how many items they seized on that
16 occasion.

17 Q. And from your knowledge of the investigation
18 later, none of those items were in anyway linked
19 to Ms Halbach, were they?

20 A. That's probably true. I'm not positive.

21 Q. Okay. We'll follow through with that in a
22 minute. And then they left and quit for the
23 night, and the next day they went to search
24 Mr. Avery's garage; is that right?

25 A. Yes. Make up of the team was a little different,

1 though, I think.

2 Q. I'm sorry, you're right. It was Lieutenant Lenk,
3 Sergeant Colborn, Remiker, the same three
4 Manitowoc officers, right?

5 A. Correct.

6 Q. At this time with Deputy Kucharski -- I believe
7 is the way you pronounce it -- from Calumet?

8 A. Yes.

9 Q. So four more officers, this time searching this
10 one room garage; is that right?

11 A. Yes.

12 Q. For 1 hour and 47 minutes, does that sound right?

13 A. I don't know, sounds right.

14 Q. If I told you they entered at 8:00 a.m. and left
15 at 9:47 a.m. on November 6, Sunday morning, would
16 you disagree with that?

17 A. No, I wouldn't.

18 Q. You also mentioned that later that day, on
19 Sunday, after briefing with you, you determined
20 that the officers had seen a couple of firearms
21 in Mr. Avery's residence, and you wanted to send
22 them back in to retrieve those items, right?

23 A. They talked about several items and, yes, we did
24 want to.

25 Q. And so the same team of four, four officers,

1 Remiker, Lenk, Colborn, and Kucharski, went back
2 into Mr. Avery's residence at 12:25 p.m. on
3 November 6th and left at 12:48 p.m.; would you
4 disagree with that?

5 A. No, I wouldn't.

6 Q. So 23 minutes in his residence, again, right?

7 A. Correct.

8 Q. That's now the third -- I'm sorry, the fourth
9 entry to Mr. Avery's trailer?

10 A. Yes, sir.

11 Q. By law enforcement officers?

12 A. Correct.

13 Q. And then later that evening, Sunday evening?

14 ATTORNEY BUTING: You can put the trailer
15 back on.

16 Q. Later that evening, you had a team from the Crime
17 Lab go back into Mr. Avery's residence, the 5th
18 entry, right?

19 A. Yes.

20 Q. Okay. And that's when you said that they came in
21 with alternate light sources and things of that
22 nature, to try and see if there might be other,
23 you know, bloodstains, or something like that,
24 that might have been missed?

25 A. That night they were looking for blood patterns.

1 It's a different night that they used the
2 luminal.

3 Q. And they indicated a few areas that they thought
4 your officers should at least collect. Maybe
5 they are important, maybe they are not?

6 A. Correct.

7 Q. But they didn't themselves collect it, they left
8 it for your officers?

9 A. To my knowledge, yes.

10 Q. And then you said the next day, which would have
11 been Monday, November 7th, Lieutenant Lenk and
12 Sergeant Colborn, and Sergeant Tyson went back
13 into Mr. Avery's residence again, for the
14 computer?

15 A. To take the serial number off the computer.

16 Q. If I told you that they were in for 7 minutes at
17 9:57 a.m. to 10:04 a.m.; would that fit with your
18 recollection?

19 A. Yes.

20 Q. Now, that's now the sixth entry?

21 A. Yes.

22 Q. By law enforcement to Mr. Avery's residence,
23 right?

24 A. Yes.

25 Q. The following day, the team comes in a little bit

1 smaller. At this time it's just Lieutenant Lenk,
2 and Sergeant Colborn, and Deputy Kucharski,
3 right?

4 A. Yes.

5 Q. This is Tuesday morning, November 8th. If I told
6 you then that they entered at 8:25 a.m. and left
7 at 12:18 p.m.; would that fit with your
8 recollection?

9 A. 8:25. I'm not sure about when they left.

10 Q. All right. And that was the 7th entry to
11 Mr. Avery's residence, and that's the entry that
12 this key was supposedly discovered by Lieutenant
13 Lenk, right?

14 A. Yes, sir.

15 Q. That had been missed in six other entries,
16 correct?

17 A. Yes.

18 Q. And we will hear how it was discovered and how
19 obvious it was, later. I'm not going to ask you
20 about that because you weren't present for the
21 discovery of the key, were you?

22 A. That's correct.

23 Q. You arrived and they said, hey, we have got this
24 key, it's a Toyota key. And you rushed to --
25 Strike that. You come immediately to take a look

1 at the key and see whether or not something else
2 should be done with it, right?

3 A. What should be done with it, yes.

4 Q. Okay. And you mentioned, let's send it to the
5 Crime Lab and see if it will start the ignition
6 of the Halbach vehicle?

7 A. That's right.

8 Q. And then, I'm just going to go through this
9 quickly, on November 9th, you sent Lieutenant
10 Lenk, Sergeant Colborn and Calumet Deputy,
11 Wendling, back into Mr. Avery's residence, again,
12 looking for a garage door opener I think you said
13 it was, or some things like that?

14 A. Yes, garage door opener.

15 Q. Because, what was it, there was a garage door
16 opener found in Teresa Halbach's RAV 4?

17 A. Yes.

18 Q. And there was some concern that maybe that was
19 the killer's, right?

20 A. That was a thought, and so we looked around the
21 property, not just Steven's residence, to see if
22 we could locate whether they were. In fact, we
23 actually brought that thing up, I think the next
24 day or the day after, to see if it opened any
25 garage door.

1 Q. And it turned out to open Teresa's own garage
2 door?

3 A. Yes.

4 Q. So it was unrelated to the crime?

5 A. Yes.

6 Q. And then, again, later on November 9th, Lenk and
7 Colborn and Wendling went back in for 10 minutes,
8 from 11:40 to 11:51, looking for some missing
9 tool; does that ring a bell?

10 A. That I don't recall. They went in a garage.

11 Q. Okay. That was November 8th when they were
12 looking for a garage -- I'm sorry, they were
13 looking for a tool that was missing from a kit
14 that was in Teresa Halbach's car, right?

15 A. Right. That was -- My recollection is that kind
16 of ran together, this tool was discovered
17 earlier, and that was kind of ongoing. And they
18 went in Steven's trailer to look for the garage
19 door opener and saw some pair of women's gloves,
20 I believe. Then they went into the garages, I
21 think they went into Barb's, in her garage, to
22 look for this tool.

23 Q. Okay. So, let me just finish up with the
24 residence first, and then go back to the garage.
25 You do recall, though, that there was an entry,

1 another entry, which would now be the 8th, 9th
2 entry to Mr. Avery's residence, on November 9th?

3 A. November 9th being Wednesday?

4 Q. Yes.

5 A. And that was the garage door opener, yes.

6 Q. Okay. And then you obtained a second warrant,
7 right?

8 A. Yes.

9 Q. And, then, thereafter, Mr. Avery's residence was
10 again entered, three more times, on
11 November 12th, for two hours and four minutes, by
12 Trooper Austin, to take measurements for these
13 helpful animated computer diagrams, right?

14 A. Yes.

15 Q. And, again, on November 12th, this time,
16 yourself, entering briefly, looking for some kind
17 of document, right?

18 A. I think myself and two of the other
19 investigators, looking for some documents, yes.

20 Q. And, then, I think you did one more quick run
21 through at 9:30 on November 12th, shortly before
22 the property was re-released to the Avery's,
23 right?

24 A. Yes, generally you do a final -- a final sweep.

25 Q. I count 12 entries to Mr. Avery's trailer during

1 that week, by law enforcement; would you disagree
2 with that?

3 A. No.

4 Q. Okay. Going back to the garage, I'm not sure, I
5 think I said that after -- that there was the
6 first sweep entry of the garage, right?

7 A. Yes.

8 Q. On the 5th. And then the next morning, when the
9 four officers spent almost two hours in that
10 little garage, on November 6, right?

11 A. Yes.

12 Q. And then there was also one looking for the tool,
13 on November 8th?

14 A. Yes.

15 Q. Lasted about 24 minutes, would you agree with
16 that?

17 A. I'm not sure if that was the 8th or the 9th.

18 Q. One of those two days?

19 A. I thought it was the 9th when they were looking
20 for that emergency roadside tool.

21 Q. Okay. And it wasn't found, right?

22 A. They found a bag that had tools like that in it
23 on a Samurai in there, but did not, ultimately,
24 match up to what we were looking for.

25 Q. And then, without belaboring the point here too

1 much, the garage, Mr. Avery's garage, was entered
2 again on November 9th, for 19 minutes,
3 November 10th, briefly, looking for a hacksaw
4 blade; do you remember that?

5 A. Yes, I believe Agent Sturtivant had done that.

6 Q. And on November 12th, one final time before you
7 released the property?

8 A. Yes.

9 Q. So I count six entries to his garage by law
10 enforcement during that week; would you agree
11 with that?

12 A. Five or six, I wasn't counting along.

13 Q. All right.

14 ATTORNEY BUTING: Judge, do you want to
15 take an afternoon break. Might be a good time.

16 THE COURT: All right. We'll take our
17 afternoon break at this time. Resume at five
18 minutes to three.

19 (Jury not present.)

20 (Recess taken.)

21 THE COURT: Mr. Buting you may resume your
22 cross-examination.

23 ATTORNEY BUTING: Thank you, your Honor.

24 CROSS-EXAMINATION CONTD.

25 BY ATTORNEY BUTING:

1 Q. Couple things I wanted to clear up. You
2 mentioned that some firearms -- one of the
3 entries to Mr. Avery's residence was to secure
4 the couple firearms, and a vacuum brush, or
5 something like that; do you remember that?

6 A. Yes.

7 Q. And that there were other firearms also on the
8 other buildings, other residences?

9 A. Yes, buildings, residences, cars.

10 Q. Including one of the firearms taken from
11 Mr. Avery's residence was a .22 Marlin rifle?

12 A. From Steve's residence?

13 Q. From Steve's -- I'm sorry, from Steven Avery's
14 residence, yes.

15 A. Yes.

16 Q. There were also two other .22 Remington -- I'm
17 sorry, .22 Marlin rifles found elsewhere on the
18 property, right?

19 A. Did you say two others?

20 Q. Right.

21 A. I know there is like another Marlin Glenfield or
22 something.

23 Q. That was in Bobby Dassey's bedroom?

24 A. I'm not even sure if that's where that one was.
25 I'm not aware of the other Marlin, if there was

1 one.

2 Q. Barb Janda's?

3 A. No.

4 Q. No. All right. You also mentioned at one point,
5 I think on November 8th, that the Wisconsin Crime
6 Lab had to be diverted to some potential burial
7 site?

8 A. Yes, some searches that were being conducted off
9 on the perimeter off the Avery properties had
10 come across a suspicious area that they
11 thought -- and I think the dogs actually went by
12 it -- that it could have been a clandestine
13 burial site.

14 Q. Just to clear up, so the jury is not speculating
15 about that, that turned out to be nothing, right?

16 A. That's correct.

17 Q. Okay. All right. Now, one of the things that
18 you did, let's go back to the 5th, to the RAV 4
19 site again.

20 ATTORNEY BUTING: Could we put up No. 86,
21 please.

22 ATTORNEY KRATZ: Me?

23 ATTORNEY BUTING: I'm sorry, is it on ours
24 now?

25 Q. All right. You mentioned that it was -- it

1 looked like it was threatening, like it might
2 rain, and so you were concerned about the
3 elements of the RAV 4 and all that, right?

4 A. Yes.

5 Q. And I'm going to show you Exhibit 118 that you
6 identified yesterday. Just take a look and then
7 I'm going to put that one up on the screen for
8 the jury along with these two. Also, show you
9 Exhibit -- that's a picture -- 118, is when the
10 tarp is just being started to be put over the
11 RAV; is that right?

12 A. It's either when it's being put over or taken
13 off.

14 Q. Okay. It's not completely off, right? You are
15 actually in it, right?

16 A. Yes.

17 Q. You are wearing the red?

18 A. Yes. I just don't know if it's on or off, coming
19 on or off.

20 Q. Okay. And let me put that up on the screen while
21 you take a look at those two exhibits and see if
22 you can identify those. All right.

23 ATTORNEY BUTING: Zoom in on that, that
24 southeast corner, please.

25 Q. Okay. Now, once again, just so no one is

1 confused here, especially the jury, this picture
2 is taken -- Exhibit 86 is after the RAV 4 had
3 been removed from the scene entirely, this is
4 like a different day, right?

5 A. Yes.

6 Q. Could you point where the RAV 4 was, right next
7 to that red vehicle, right?

8 A. Yes.

9 Q. Okay. And Exhibits -- what are they, 143 and
10 144, in front of you?

11 A. Yes.

12 Q. Those are what we're going to put up on the ELMO
13 in a second, but those are photos taken from some
14 place on the north side of this pond, looking
15 towards the RAV 4, while it was still there on
16 November 5th, right?

17 A. I believe so.

18 Q. All right. Then let's try the ELMO, if you don't
19 mind. All right. Just for the benefit of the
20 jury, when we were talking about 118, where we
21 were saying that the tarp is part way on or part
22 way off, whatever, that this is the photo we were
23 talking about, right?

24 A. Yes.

25 Q. And this one is apparently taken from a position

1 somewhere east of the vehicle looking west?

2 A. That's right.

3 Q. Now, at some point, though, the RAV 4 was almost
4 completely covered by this tarp contraption
5 right?

6 A. It was a tarp that we tried to put over the
7 vehicle without touching it, so we were using
8 surrounding trees, or whatever, or cars --

9 Q. Sure.

10 A. -- to do that. So it was more like a cover,
11 canopy type thing that we were trying to
12 accomplish.

13 Q. Okay. And so, we haven't seen any pictures yet
14 of what it looked like when it had -- I think it
15 was probably more than one tarp?

16 A. Not that I remember.

17 Q. You think it's just all one tarp?

18 A. I thought it was. If we used two, I don't
19 recall.

20 Q. Okay. I'm showing you 144 first. And, again, as
21 you testified a moment ago, this is a picture
22 that's taken from some position apparently looks
23 like it's about just on the other side of that
24 detention pond, looking kind of southwest?

25 A. Yes.

1 Q. Okay. And that's what it looked like after the
2 tarp was completely placed on it?

3 A. I would have to agree, only the tarp doesn't look
4 blue there.

5 Q. Okay.

6 A. Might just be the camera.

7 Q. Was the tarp maybe two colored, one side blue,
8 one side gray?

9 A. Possibly, but the first picture showed that the
10 blue side was out.

11 Q. Okay. And so an individual standing -- This
12 appears to be a picture taken, actually, closer
13 to the RAV 4 than one would be if they were
14 standing at the car crusher; would you agree?
15 Isn't that the pond in the foreground right
16 there?

17 A. It looks like it, yeah.

18 Q. Okay. Now, Exhibit 143, looks like maybe is a
19 little bit farther back. I'm going to show you
20 that one right now. Do you see the pond in the
21 foreground there?

22 A. Yes.

23 Q. And the Toyota RAV 4 enclosed or covered by the
24 tarps?

25 A. Yes.

1 Q. So, again, one standing over in this area,
2 watching what might have been going on, or just
3 taking a look at the scene, wouldn't have been
4 able to see the RAV 4 at all, because it was
5 covered; is that right?

6 A. Yes.

7 Q. So the tarps --

8 ATTORNEY BUTING: Your Honor, would it be
9 alright if I published these to the jury, since it's
10 not all that easy to see on the ELMO.

11 THE COURT: We don't have slides of these?

12 ATTORNEY KRATZ: Sure. You didn't ask me
13 to do that.

14 ATTORNEY BUTING: I couldn't find any. I
15 don't know.

16 THE COURT: Why don't the two of you get
17 together, off the audio, and see if you can find
18 them quickly. If not --

19 ATTORNEY KRATZ: Which one do you want up
20 first, counsel?

21 (Off record.)

22 Q. (By Attorney Buting)~ Okay. That is 144, now
23 we're looking at the screen, it has a 144 on it,
24 I believe, doesn't it. Yeah. And then could you
25 -- Just leave it there for a minute. So the

1 purpose for the tarp, at least as far as you were
2 concerned, was to try and protect the vehicle
3 from the elements, if it started raining, right?

4 A. The vehicle, the items covering or concealing it,
5 yes.

6 Q. Okay. And so you tried to drape these over
7 branches and things to not actually touch it?

8 A. Correct.

9 Q. So that there was room around it like,
10 particularly in between the vehicles and --
11 almost looks like that's a tent type opening or
12 something on the one side of it, right?

13 A. I don't know.

14 Q. All right.

15 ATTORNEY BUTING: Well, that's okay. Just
16 show the other one and then we'll be done with this
17 topic.

18 ATTORNEY KRATZ: Which exhibit number,
19 counsel?

20 ATTORNEY BUTING: That one is 143, isn't
21 it, Special Agent Fassbender?

22 THE WITNESS: Yes.

23 ATTORNEY BUTING: All right.

24 Q. (By Attorney Buting)~ All right. Now, when you
25 searched the property, I mean, you walked around

1 the property over the course of a week, right,
2 and you became familiar yourself with various
3 buildings and their locations?

4 A. To a degree. We were quite busy in the command
5 center that we didn't do that a lot, but to a
6 degree.

7 Q. Well, were you aware from your searches that
8 there was an aluminum smelter located on the
9 property?

10 A. I was informed of that, I never saw it
11 personally.

12 Q. Could we -- Let me mark this and see if this
13 refreshes your recollection.

14 (Exhibit No. 145 marked for identification.)

15 Q. (By Attorney Buting)~ I'm showing you Exhibit
16 145, tell me if you have ever seen that, or ever
17 saw that during that week?

18 A. No.

19 Q. No. Okay. Well, we'll save this exhibit then.
20 Nevertheless, you were told that there was an
21 aluminum smelter on the property?

22 A. Yes.

23 Q. And that, in fact, at some point during the
24 investigation you were aware that there was
25 someone sent an anonymous letter, that was found

1 at the Green Bay Post Office, that said, body was
2 burnt up in aluminum smelter, 3 a.m., Friday
3 morn, right?

4 A. I'm aware of that letter. The exact verbiage,
5 I'm not sure, but something to that effect, yes.

6 Q. All right. And it was contained in an envelope
7 from the Green Bay Police Department, that had a
8 big sticker on it, flourescent green, that said
9 check for latents, right?

10 A. I believe so, yes.

11 Q. Now, that letter sat in the property department
12 of Calumet Sheriff's Department until I
13 discovered it, just this past November; isn't
14 that right?

15 A. Until you discovered it?

16 Q. Until I pointed it out to you?

17 A. That's where it was, yes.

18 Q. You and Mr. -- Investigator Wiegert were present
19 when I found this particular letter in the
20 property inventory, right?

21 A. Yes.

22 Q. And was only then that it was sent to the Crime
23 Lab to be analyzed for any sort of prints or
24 anything, right?

25 A. I believe so, yes.

1 Q. Is that because the body being burnt in the
2 smelter didn't fit your theory that Mr. Avery was
3 guilty of this crime?

4 A. I felt it didn't fit the facts and the evidence.
5 That smelter was examined by arson investigators
6 and they determined that it didn't appear to have
7 been used for a while.

8 Q. Did you suggest any DNA or the anthropologist
9 examine it to see if there were any bone
10 fragments?

11 A. The particular arson investigator that examined
12 that is the one that found most of the bone
13 fragments in the burn area.

14 Q. And if that smelter had been used to burn the
15 body, though, that would really tend to indicate
16 that Mr. Avery wasn't guilty of this crime,
17 because it would not make sense to burn the body
18 in the smelter, take the bones and place them on
19 your own backyard, would it?

20 ATTORNEY KRATZ: Objection, speculation.
21 Judge, we're not getting into what makes sense about
22 what Mr. Avery did, are we?

23 THE COURT: I will sustain the objection.

24 ATTORNEY BUTING: All right. I will move
25 on.

1 Q. (By Attorney Buting)~ Let me just fast forward a
2 little bit here to February and March of 2006,
3 okay. Are you with me?

4 A. Yes.

5 Q. All right. By that time, through all of your
6 investigation, you knew that as of that time, you
7 had found no physical evidence linking Teresa
8 Halbach to Mr. Avery's trailer or garage right up
9 to February 28th?

10 A. I don't believe that's accurate.

11 Q. What did you find?

12 A. We found shell casings in the garage that did
13 match up to the rifle in the house.

14 Q. This is a junkyard, people shoot guns all the
15 time, right? I mean, you found shells all over
16 the place, 40 acres, right?

17 A. Oh, certainly, yes.

18 Q. Junkyard, these people were sighting rifles, you
19 knew that, shooting rabbits, the mere existence
20 of shells, without a link to a particular body,
21 doesn't prove anything, does it?

22 A. I don't know if at that time our anthropologist
23 had indicated -- I can't -- indicated that there
24 was possible bullet holes in the skull or not,
25 but that would be --

1 Q. But if there were, the shells didn't link to that
2 anyway, did they?

3 A. The shells linked to a rifle found in the
4 trailer, that's all it was.

5 Q. Right, which could have had nothing to do with
6 this offense, as far as you knew, at that time?

7 A. It could have been, you know, we just -- No, we
8 didn't know.

9 Q. Okay. And you mentioned on direct, something
10 about blood stains, and the Crime Lab finding
11 little extra areas. So the jury is not left
12 speculating for the next week, about whether
13 those were ever found to be Teresa Halbach, they
14 were not; isn't that right?

15 A. That's correct.

16 Q. None of those blood stains matched anyone except
17 Mr. Avery?

18 A. Yes.

19 Q. All right. And it was only on a subsequent
20 search, around March 1st and 2nd, that a bullet,
21 any bullets, any fragments of bullets, or bullets
22 themselves, were found in Mr. Avery's garage,
23 right?

24 A. Yes, sir.

25 Q. Now, were you present for the execution of search

1 warrants for Mr. Avery's trailer and garage,
2 again, on March 1st and March 2nd?

3 A. March 1st only, I believe, and just the
4 beginning, the execution of it and maybe half
5 hour, hour.

6 Q. Okay. And you are aware that they were doing
7 more of these logs, checking people in and out of
8 the scene, as should be standard procedure,
9 right?

10 A. Yes.

11 Q. And you are probably on here somewhere, there you
12 are. If you could identify Exhibit 147 for me,
13 please.

14 A. This looks like a entry log dated March 1, 2006,
15 at 3:30, 1530 hours, Avery Road, State Trunk
16 Highway 147. This would have been a log-in sheet
17 out away from the two scenes of the residence and
18 the garage. More of an entry type log-in
19 sheet --

20 Q. All right.

21 A. -- for everyone coming down that road.

22 Q. So anybody who is coming back on the Avery
23 salvage property, that 40 acre area; is that
24 right?

25 A. I believe so, yes.

1 Q. And Exhibit 146 -- I had those backwards, sorry.

2 A. And this is March 2 appearing to be the same type
3 of log -- sign-in log, probably in the same area,
4 more of entry log --

5 Q. Okay.

6 A. -- for that area.

7 Q. All right. You arrived at 1735, 5:35 p.m.,
8 right?

9 A. Yes.

10 Q. Can you tell me who arrived at 6:10?

11 A. 1810 hours, Lieutenant Lenk from Manitowoc County
12 Sheriff's Department.

13 Q. Lieutenant Lenk. Did you ask him to come to the
14 scene?

15 A. I don't recall if I personally asked him to come
16 to the scene or not.

17 Q. This was now five months after the original
18 searches for that week of November,
19 approximately?

20 A. About four months, yes.

21 Q. Certainly wasn't necessary, on that occasion, for
22 Mr. Lenk to arrive, to be somebody who would help
23 search Mr. Avery's residence or garage again, was
24 it?

25 A. No, I don't believe he did search there. I think

1 some of his personnel were there. And he, as
2 their supervisor, I don't know if that's why he
3 stopped out there.

4 Q. Is that his name squeezed in there, almost as an
5 afterthought, on the second to the last line?

6 ATTORNEY KRATZ: I'm going to object. It's
7 argumentative, Judge, as afterthought, it's
8 absolutely improper.

9 ATTORNEY BUTING: I'm sorry, counsel is
10 right.

11 THE COURT: All right. I take it the
12 question is being withdrawn.

13 ATTORNEY BUTING: I will withdraw the
14 question, yes, thank you, sir.

15 Q. And do you see Mr. Lenk again at the scene the
16 following morning?

17 ATTORNEY KRATZ: I'm going to object,
18 didn't Mr. Fassbender say he wasn't there the next
19 day?

20 THE COURT: Mr. Buting, you might want to
21 rephrase the question.

22 Q. (By Attorney Buting)~ Did you see Mr. Lenk's name
23 on Exhibit 146 as having logged in and entered
24 the scene, again, the morning of March 2nd?

25 A. Yes.

1 Q. And at what time would that be?

2 A. 8:49 a.m.

3 Q. All right. I will put it up quickly on the ELMO.

4 Now, this search is the search that -- that --

5 where a couple of bullet fragments were

6 discovered, right?

7 A. Yes.

8 Q. Five months after the previous searches, four

9 months, my math is bad I guess, four months?

10 A. Yes.

11 Q. Okay. And it's not like you weren't looking in

12 the first search, or having your officers look in

13 that first -- what was it, five entries to his

14 garage, the week of November 1st, or 5th to the

15 12th, they were looking for small items like

16 that, right?

17 A. Some of those searches were very specific for

18 items, some were not. Some were overall

19 searches.

20 Q. Okay. And, in fact, in one of the searches, one

21 of those five entries at least, police did

22 recover, you said, a number of shells to a .22

23 rifle?

24 A. Shell casings laying on the floor.

25 Q. Okay. So, not much bigger than the bullet

1 fragments that were found on March 1st and 2nd?

2 A. Actually, probably quite a bit bigger, in
3 comparison. If you have a bullet fragment like
4 that, and a shell casing like that.

5 Q. But this was your crack team of searchers, right,
6 the best you had out there?

7 A. This is the team I sent there, yes.

8 Q. Okay. And they did bring shells back, but no
9 bullets, right?

10 A. The shells were laying in the middle of the
11 floor, basically.

12 Q. At that time, though, none of the investigators
13 knew that there would be evidence from the
14 anthropologist that suggested that perhaps Teresa
15 Halbach had actually been shot in the head, with
16 cranial pieces, did they? That information came
17 later?

18 A. True, yes.

19 Q. Shortly before this March 1st and March 2nd
20 search?

21 A. I don't know. I'm not sure when that information
22 came.

23 Q. So -- Well -- Let me just see if I can refresh
24 your recollection. Well, I don't want to waste
25 time right here, but -- At any rate, I will move

1 on. By that time you did know, though, that --
2 and that is, what I'm talking about here is, by
3 March 1st and March 2nd, of 2006, which are
4 important dates in this investigation, you know
5 this, right?

6 A. Yes.

7 Q. Additional search warrants were issued, right?

8 A. Yes.

9 Q. By that time, you knew that the mattresses, both
10 bedroom mattresses had been thoroughly examined
11 by -- visually and otherwise, for blood, and no
12 blood was found, right?

13 A. By March 1st and 2nd?

14 Q. Yeah, before that date. You know officers had
15 gone into the -- stripped the bedding, right?

16 A. Yes, I just don't recall if we took the
17 mattresses.

18 Q. Okay.

19 THE COURT: Mr. Buting, can you specify
20 what mattresses we're talking about?

21 ATTORNEY BUTING: Okay.

22 THE COURT: I'm not sure that was done.

23 Q. (By Attorney Buting)~ All right. Let me put it
24 this way, in the first -- What did we have, 12
25 entries to Mr. Avery's residence, no blood was

1 seen on the mattress in Mr. Avery's bedroom,
2 right?

3 A. I don't believe so.

4 Q. And no blood was seen on any of the sheets or
5 bedding?

6 A. I believe that's correct.

7 Q. And you have been to the murder -- I don't know
8 how many murder scenes you have been to, but you
9 have been to bloody murder scenes before, right?

10 A. Yes.

11 Q. Stabbings?

12 A. Yes.

13 Q. You are familiar with castoff blood spatter?

14 A. Yes.

15 Q. That is, if somebody is stabbing a person who's
16 laying on a mattress in the middle of Mr. Avery's
17 bedroom, repeatedly, there may be blood spatter
18 on the ceilings and walls from the knife?

19 A. There may be.

20 Q. And there was none in this case, right?

21 A. None that we found.

22 Q. And no clumps of a woman's hair that were found
23 cut off anywhere in the bedroom?

24 A. That's correct.

25 Q. No trail of blood as one would expect if you

1 carry a body that's been stabbed, on the mattress
2 of Mr. Avery's bedroom, through the house and out
3 the backdoor?

4 A. Unless it was cleaned up, no, we didn't see
5 anything.

6 Q. And outside on the back porch or on the front
7 porch, that wooden deck, no blood trail dripping,
8 right?

9 A. If they would have went that way. They could
10 have went out the backdoor also.

11 Q. All right. Which has a little stoop, concrete
12 steps?

13 A. Yes.

14 Q. No blood in their, right?

15 A. Not that I know of.

16 Q. No blood trail leading into the garage of
17 Mr. Avery, or out?

18 A. Into the garage, or out? Outside the garage, no,
19 not that I know of.

20 Q. Okay. And inside the garage, a few blood stains,
21 but not Teresa Halbach's blood, right?

22 A. Correct.

23 Q. So, in short, then, by March 1st and March 2nd,
24 when those search warrants were issued, four
25 months of investigation had found not one shred

1 of Teresa Halbach's DNA anywhere in Mr. Avery's
2 trailer or garage; isn't that right, sir?

3 A. Yes.

4 Q. Thank you.

5 THE COURT: All right. Redirect, Mr.
6 Kratz?

7 ATTORNEY KRATZ: Absolutely.

8 **REDIRECT EXAMINATION**

9 BY ATTORNEY KRATZ:

10 Q. Agent Fassbender, describe for the jury the
11 circumstances surrounding what Mr. Buting now
12 calls the discovery of this letter from Green
13 Bay; why were you with Mr. Buting?

14 A. Mr. Buting was being allowed to look at the
15 evidence that was in our possession or in the
16 Calumet County's possession.

17 Q. Do you remember who else was present?

18 A. I believe Attorney Strang was there also.

19 Q. Do you remember Mr. Gahn being there?

20 A. Yes.

21 Q. Do you remember Mr. Buting asking the prosecution
22 if that letter could be dusted for prints?

23 A. Yes.

24 Q. Do you remember agreeing to do that for
25 Mr. Buting?

1 A. Yes.

2 Q. Not forcing Mr. Buting to go to his own lab, but
3 you would do it for him; is that right?

4 A. That's correct.

5 Q. And even though this letter had to do with the
6 smelter, had you already eliminated the smelter
7 as a place where Ms Halbach could have been
8 burned in this case?

9 A. Yes.

10 Q. Now, wait a second, you have already eliminated
11 the smelter and this letter has nothing to do
12 with the case, why did you send it off for prints
13 for Mr. Buting?

14 A. Because he asked us to do it.

15 Q. Mr. Buting also asked you to look at some photos
16 today. I think it's Exhibit 142 and 143, of some
17 tarps; do you still have them up here?

18 A. No, I don't.

19 ATTORNEY KRATZ: Do you know where those
20 exhibits are?

21 ATTORNEY BUTING: I will get them, I think
22 I put them back. Just 142 and 143?

23 ATTORNEY KRATZ: For now.

24 Q. Is this Exhibit 142, Mr. Fassbender?

25 A. No, I have got 143 and 144 here.

1 Q. Well, look at the screen here. I want to know
2 which exhibit this is.

3 A. That -- I believe that's 144, yes, 144.

4 Q. All right. Mr. Buting asked if, from this
5 vantage point, if a law enforcement officer would
6 be able to see the SUV; do you remember that
7 question?

8 A. Yes.

9 Q. What was your answer?

10 A. Well, I can see where the SUV was tarped.

11 Q. All right. You can't see the SUV, though, can
12 you?

13 A. No.

14 Q. Do you know where you were when this picture was
15 taken?

16 A. I may have been by the SUV doing the tarping.

17 Q. That's 143 and 144. This was the second exhibit
18 that Mr. Buting showed you. Do you have this up
19 there, Mr. Fassbender?

20 A. 143, yes.

21 Q. Once again, the suggestion that if you were from
22 this location you couldn't see if somebody was
23 approaching or tampering with the vehicle?

24 ATTORNEY BUTING: I object to that specific
25 suggestion. That wasn't my question.

1 ATTORNEY KRATZ: Certainly the inference,
2 Judge, that's why he showed it, otherwise it has no
3 relevance.

4 THE COURT: Why don't you rephrase the
5 question?

6 ATTORNEY KRATZ: All right.

7 Q. Do you remember Mr. Buting's line of questioning
8 about not being able to see this vehicle?

9 A. Yes.

10 Q. Okay. Now, as we learned earlier in this trial,
11 you put your cursor over a digital photo, says
12 the date that it was taken, 11/5 and 4:16 p.m.;
13 do you see that on the screen?

14 A. Yes.

15 Q. Okay. And exactly the same time and date as the
16 previous picture; do you see that?

17 A. Yes, I do.

18 Q. The picture right before that that Mr. Buting did
19 not want you to see --

20 ATTORNEY BUTING: Objection to that.

21 THE COURT: Sustained.

22 ATTORNEY KRATZ: I will rephrase it.

23 Q. (By Attorney Kratz)~ The picture that Mr. Buting
24 did not show the jury shows a bunch of people
25 walking up at the same time, the same location,

1 towards the SUV; do you see that picture?

2 A. Yes, I do.

3 Q. And whether or not Mr. Buting has it in his
4 possession, are you one of those people?

5 A. Yes.

6 Q. Are you walking towards that tarped SUV that
7 Mr. Buting suggested you couldn't see?

8 A. Yes.

9 Q. One picture after, that Mr. Buting didn't show,
10 you see some other officers walking towards that
11 tarped vehicle?

12 A. Along with myself, yes.

13 Q. Same time, same location, same tarped vehicle; is
14 that right?

15 A. Yes.

16 Q. Let me ask you, Agent Fassbender, do you believe
17 that at the time that these photos were taken you
18 were in a position to see if anybody either
19 tampered with or entered that vehicle?

20 A. Almost certainly.

21 Q. Under whose control was that particular vehicle
22 at that particular time?

23 A. The Calumet County deputy.

24 Q. Agent Fassbender, the defense attorney,
25 Mr. Buting, asked -- and, in fact, I wrote down

1 his question -- whether or not on the 5th of
2 November, the first search by Messrs. Tyson and
3 Remiker, whether or not there was any evidence
4 that was found that was linked to Ms Halbach; do
5 you remember that question?

6 A. Yes.

7 Q. Do you remember what your answer was?

8 A. I believe it was no.

9 Q. Okay. Do you remember, on that first search, a
10 note with Ms Halbach's phone number being seized
11 from Mr. Avery's computer table?

12 A. Yes, I do.

13 Q. And that note, with Ms Halbach's phone number,
14 had the words "back to patio door"; do you see
15 that?

16 A. Yes, I do.

17 Q. Do you recall, now, that that was seized on
18 November 5th?

19 A. Yes.

20 Q. Would you say that that is some evidence that was
21 seized on the 5th that is obviously linked to Ms
22 Halbach?

23 ATTORNEY BUTING: Your Honor, I'm sorry.
24 Do you have a copy that we could mark, please.

25 ATTORNEY KRATZ: I do. I can have this

1 marked. What I will do, Judge, is state for the
2 record that it is Item No. 041. That item number
3 corresponds to discovery that defense was sent.
4 Unless there is an objection by counsel, I will
5 replace it with an exhibit number. We can certainly
6 do that, your Honor.

7 THE COURT: What is the next exhibit
8 number?

9 THE CLERK: 148.

10 (Exhibit No. 148 marked for identification.)

11 THE COURT: All right. Let's make it 148.

12 ATTORNEY BUTING: That's fine. I just
13 wanted it marked for the record.

14 ATTORNEY KRATZ: I appreciate it. Thank
15 you, counsel.

16 (Exhibit No. 149 marked for identification.)

17 Q. What will be Item No. 149, seized from the same
18 computer table, is another sign with Ms Halbach's
19 phone number; is that correct?

20 A. That's correct.

21 Q. Was that seized on the 5th of November as well?

22 A. Yes, it was, sir.

23 Q. This address, 3302 Zander Road, we'll get into
24 that with other witnesses, but do you now believe
25 that this is connected to Ms Halbach? It's her

1 phone number, isn't it?

2 A. That's her phone number, yes.

3 (Exhibit No. 150 marked for identification.)

4 Q. Now, what will be Item 150, do you recall, now,
5 that an Auto Trader Magazine was seized from
6 Mr. Avery's residence that evening?

7 A. Yes, I do.

8 Q. This is the identical Auto Trader Magazine that
9 Ms Zipperer received, that she had testified
10 earlier; you were in court when that was
11 testified to, wasn't it?

12 A. Yes.

13 (Exhibit No. 151 marked for identification.)

14 Q. Also identically to Ms Zipperer, what will be
15 Exhibit No. 151, was a bill of sale also found on
16 Mr. Avery's computer table, again, identical to
17 that received by Ms Zipperer. Do you recall that
18 now being seized on the 5th of November, don't
19 you?

20 A. Yes, I do.

21 Q. Let me ask you, Mr. Fassbender, do you know how
22 many items of physical evidence were seized in
23 this case alone, the Avery homicide
24 investigation?

25 A. Upwards of 970.

1 Q. Can you remember all 970 items of evidence that
2 were seized?

3 A. No, I can't.

4 Q. Mr. Buting asked you if knowing that Mr. Lenk and
5 Mr. Colborn was involved in a deposition, whether
6 or not you would assign them to search
7 responsibilities; do you remember that question?

8 A. Yes, I do.

9 Q. Do you remember answering yes to that question?

10 A. Yes.

11 Q. Do you have an explanation for that answer?

12 A. Yes.

13 Q. What is that explanation?

14 A. My explanation is, if they told me that, I would
15 have asked them what the circumstances
16 surrounding that were. Upon them telling me, and
17 what I know now of those circumstances to be, I
18 know there was no direct conflict of
19 interest with those two individuals.

20 They weren't working when he was charged
21 and convicted on the original charge. And when
22 they got deposed, Mr. Colborn was a jailer in
23 that jail and he received a call from another
24 jail that an anonymous person said something
25 about them having the wrong person in jail and

1 they have the right one. Didn't identify who it
2 was, what it was about.

3 Mr. Colborn did the right thing and
4 forwarded that phone call to the Detective's
5 Bureau. Mr. Colborn was not even a sworn
6 officer. Mr. Lenk wasn't even a detective at the
7 time. He was working the road. That call went
8 up to the Detective Bureau and was handled by
9 whoever was up there at that time. And, then,
10 when Mr. Avery was exonerated, Mr. Colborn made a
11 comment to Mr. Lenk, something to the effect
12 that, boy, I wonder if that call they took way
13 back when was Mr. Avery. They had nothing to do
14 with this.

15 Q. So that, as far as you know, was Lenk and
16 Colborn's connection, this mysterious connection
17 to this civil lawsuit; is that right?

18 A. Yes.

19 Q. Knowing that, as you sit here today, as the lead
20 investigator in the case, have any problems at
21 all with Lenk or Colborn's involvement in this
22 case?

23 A. Absolutely not.

24 Q. Do you know how many law enforcement officers,
25 how many citizens, and how many other witnesses

1 were deposed as part of that lawsuit?

2 A. No, I don't.

3 Q. Finally, Agent Fassbender, whenever a Manitowoc
4 County Sheriff's deputy was asked to assist in
5 this entire investigation, that is, when any
6 search was done out at the scene, were they
7 accompanied by a Calumet County or State DCI
8 agent?

9 A. Yes.

10 ATTORNEY KRATZ: That's all the redirect I
11 have, Judge.

12 THE COURT: Any recross, Mr. Buting?

13 ATTORNEY BUTING: Just a bit.

14 **RECROSS-EXAMINATION**

15 BY ATTORNEY BUTING:

16 Q. Now, you weren't deposed in this civil lawsuit
17 yourself, right?

18 A. That's correct.

19 Q. You had nothing to do with it, you were a truly
20 independent, objective investigator at that
21 scene?

22 A. Yes.

23 Q. Okay. Lenk and Colborn, though, were deposed
24 about their own conduct, in 1996, regarding a
25 phone call that might have resulted in

1 Mr. Avery's spending eight more years in prison
2 because of the way they handled it, right?

3 A. I believe the way they handled it was correct.

4 Q. Well, what you believe, sir, isn't really the
5 issue. The question is what they believe.

6 A. And I can't speak to what they believed.

7 Q. That's right, you can't. Thank you. The point
8 of the matter is, also, that neither one of them
9 told you about this connection.

10 ATTORNEY BUTING: You can take that -- or
11 leave it on for a minute.

12 Q. Neither one of them told you that they had been
13 witnesses in a civil lawsuit, did they?

14 A. That's correct.

15 Q. And both of them volunteered to go search
16 Mr. Avery's residence, didn't they?

17 A. I don't know if they volunteered or they were
18 asked, but they did it.

19 Q. All right. They did, though?

20 A. Yes.

21 Q. Yeah. And both of them knew, or you could tell
22 us if you thought that they knew, that their boss
23 had already found enough of a conflict, or
24 appearance of conflict, with Mr. Avery's lawsuit,
25 to turn over authority to a neighboring county.

1 They knew that?

2 A. I would assume they knew that.

3 Q. Okay. And with that knowledge, they still didn't
4 say, oh, hey, by the way, we should tell you
5 about this deposition that we both had three
6 weeks earlier, did they?

7 ATTORNEY KRATZ: Objection, asked and
8 answered, three times now, Judge.

9 THE COURT: I'm going to sustain the
10 objection.

11 ATTORNEY BUTING: All right.

12 Q. (By Attorney Buting)~ You recall my questions to
13 you about whether any items linked to Teresa
14 Halbach, was whether any physical evidence linked
15 her inside his trailer or garage, right?

16 A. Possibly, I don't remember if it was physical
17 evidence or not.

18 Q. All right. This bill of sale has no date, could
19 have been any time, right?

20 A. Correct.

21 Q. The phone number for Teresa Halbach being in his
22 residence is certainly not a surprise, because we
23 know from the records that he had her phone
24 number and had called and arranged a sale just a
25 few weeks earlier, right?

1 the question and the answer because it's not the
2 testimony. Bobby Dassey never said he saw her in
3 the trailer.

4 THE COURT: I'm not sure I understood the
5 question, the question that's being objected to.

6 ATTORNEY BUTING: That was a clear
7 inference on counsel's question, if not the direct.

8 THE COURT: I'm going to sustain the
9 objection. I think it's beyond the scope of
10 redirect. Witness is excused.

11 Mr. Kratz, we'll let the State get
12 started on the next witness.

13 ATTORNEY KRATZ: If you would like, Judge,
14 we will call Mr. Brandes to the stand.

15 THE COURT: The jurors may stand up and
16 stretch, if you wish, before the next witness takes
17 the stand.

18 THE CLERK: Please raise your right hand.

19 **WILLIAM BRANDES, JR.**, called as a
20 witness herein, having been first duly sworn, was
21 examined and testified as follows:

22 THE CLERK: Please be seated. Please state
23 your name and spell your last name for the record.

24 THE WITNESS: William Brandes, Jr.,
25 B-r-a-n-d-e-s.

BY ATTORNEY KRATZ:

Q. Mr. Brandes, thank you for coming. And can you tell the jurors, please, from what community you come?

A. Brillion, Wisconsin.

Q. And I think everybody knows where Brillion is, but in case they don't, tell the jurors, where Brillion is located.

A. Right near the Manitowoc/Calumet border, right in Calumet County, about 15 miles from here.

Q. Mr. Brandes, on the 8th of November of 2005, were you asked and did you in fact participate in a volunteer search of the Avery Salvage Yard?

A. Yes, I did.

Q. And in what capacity did you assist in that search?

A. I was with a group of State troopers and other volunteer firemen, I believe, searching a search section of the Avery junkyard.

Q. Were you assigned or paired up with somebody?

A. I don't know about paired up, but there was a group of maybe 10 of us, maybe a few more.

Q. Were there -- Again, from what organization were you volunteering?

1 A. The Brillion Fire Department.

2 Q. Were there any sworn law enforcement officers in
3 your group?

4 A. Yes, the Wisconsin State troopers were with us.

5 Q. All right. And, again, about how many people
6 were in your search team?

7 A. Roughly 10, maybe a few more.

8 Q. Do you know how many volunteer or firefighter and
9 law enforcement searchers were involved on the
10 8th?

11 A. Quite a few, not offhand.

12 Q. Okay. What were your responsibilities that day;
13 what did you do?

14 A. We were just given a section to search and search
15 every vehicle, very thoroughly, around it, and
16 see if there was anything that looked out of
17 place or might seem suspicious. And we were also
18 instructed that they were looking for certain
19 items, what the victim had been wearing, a
20 certain shirt and jeans, you know, that might be
21 that. And license plates they were looking for.
22 And there was some -- I think that was about it.

23 Q. All right. Did you assist and did you help
24 perform searches of these vehicles?

25 A. Yes.

1 Q. Tell the jury what kind of searches these were;
2 how did you search the vehicles?

3 A. You just slowly go over each vehicle. And there
4 were multiple people going over them. Go inside
5 them. If you couldn't get the trunk open, some
6 of them they pried the trunk open. Or you just
7 looked through them real good. Anything like
8 clothing or something, you actually took it out
9 and probably handled it. Looked around, you
10 know. Looked under stuff, if you could, just to
11 find out what you could find.

12 Q. About how many vehicles did you search that day,
13 personally; do you recall?

14 A. Yeah, quite a few, maybe 50.

15 Q. All right.

16 A. Maybe more.

17 Q. I'm sorry to interrupt you. Do you remember the
18 area or was there a specific area that you were
19 assigned to search?

20 A. Yes.

21 Q. What area was that?

22 A. As you went in, it was more to the right, around
23 the back of a shed and toward, kind of like a
24 fence line that was on the Avery property.

25 Q. You have some photos in front of you; is that

1 right?

2 A. Yes.

3 Q. First photo, I think it's Exhibit 139; is that
4 right?

5 A. I have no numbers.

6 Q. Let's look on the back?

7 A. Oh, sorry.

8 Q. There you go.

9 A. Yup, 139.

10 Q. Thank you. Can you tell the jury, what is
11 Exhibit 139, please.

12 A. That is the station wagon I found the license
13 plates in.

14 Q. You recognize the photo in 139; is that right?

15 A. Yes.

16 Q. We're just going to talk about that one first,
17 for a minute. Going to show the jury, now,
18 what's been identified as Exhibit No. 139. And
19 if you could refer to the large screen up here
20 for us; tell us what we're looking for? There's
21 a laser pointer, if that will help you.

22 A. You are actually looking -- I don't know what the
23 direction is, I think it's toward the south. But
24 there's a road they are standing on, that's the
25 edge of the property. And it's right along a

1 fence line that kind of contains the property.

2 And from where you are standing, to your
3 left would be the entrance to the property. You
4 would actually go through that and around that
5 blue building to come in; that's the way we came
6 in.

7 Q. Do you recognize this station wagon?

8 A. Yes.

9 Q. Did you search or look in this station wagon?

10 A. Yes.

11 Q. Tell the jury how you did that, please.

12 A. I was just walking along. I was actually on the
13 driver's side searching. And there were a bunch
14 of weeds. We crawled through the weeds and
15 looked in.

16 And I looked -- I peered in the back and
17 behind what would be the passenger side seat.
18 The back seat was folded down flat. And behind
19 the passenger side seat was a set of what ended
20 up to be license plates, but at that time were
21 folded like in three different -- folded twice
22 inward, so you could not see a number or the --
23 anything on them.

24 Q. The license plates were folded, describe that for
25 me.

1 A. Like, if you take them and fold them in with one
2 thumb and then fold the other one on top again so
3 they were like pinched together.

4 Q. The plates were folded?

5 A. Yes.

6 Q. Were you wearing any protective items on your
7 hands at the time?

8 A. I -- Just gloves that I had owned.

9 Q. All right. You had gloves on?

10 A. Yeah.

11 Q. What did you do when you found that item in this
12 vehicle?

13 A. I picked them up. And when I figured out they
14 were license plates, I had slowly peeled them
15 open. And I wasn't quite sure with the number on
16 them, but I thought I had something, so there was
17 a State trooper next to me and I asked her what
18 the number was. She repeated it because she had
19 written it down.

20 Q. That number, what number are you talking about?

21 A. The license plate number inside. Because they
22 were folded in, you couldn't read them until I
23 unfolded them. And when she confirmed that them
24 were the license plates we were looking for, I
25 gently set them back down inside the car.

1 Q. Did you call over the law enforcement officer,
2 the trooper, to then take over or take control of
3 the plates?

4 A. Yes, she was actually, like, standing right next
5 to me.

6 Q. Okay. After the plates were set back down, do
7 you recall a photograph being taken of those?

8 A. Yes.

9 Q. And how did that occur; do you know?

10 A. They rode in and there were a bunch of people
11 that came in. We actually didn't move and I
12 think an investigator came in and photographed
13 it.

14 Q. Okay. We have put another picture in front of
15 you; what is that? It's No. 140; is that right?

16 A. Yes. That was taken from the -- I believe the
17 passenger side, kind of right over the fence.
18 And that's where they were laying, right in there
19 in the back of the seat -- or on the seat in the
20 back.

21 Q. Does that show the interior of the vehicle, the
22 location where you found the plates?

23 A. Yes.

24 Q. And now, I will have the jury look at Exhibit No.
25 140. Referring to the large exhibit, then, can

1 you tell us what that is?

2 A. That's on -- like -- like, right under that fence
3 wire would be where the plates were located.

4 Q. Why don't you take that laser pointer -- and I
5 know this may not be comfortable for you, but
6 show us where you found the plates.

7 A. Right in that general area there.

8 Q. And they were folded in thirds?

9 A. Yes.

10 Q. And when you looked in that vehicle, could you
11 see the license plate number, or did you have to
12 open them to see it?

13 A. They had to be opened to be seen.

14 ATTORNEY KRATZ: I think, for this witness,
15 Judge, that's all I have. Thank you Mr. Brandes.

16 THE COURT: Mr. Strang.

17 **CROSS-EXAMINATION**

18 BY ATTORNEY STRANG:

19 Q. Let's go back to, how about Exhibit 86, just for
20 old times sake, I guess. I'm going to show you
21 an aerial -- show you a aerial view of a property
22 Mr. Brandes.

23 A. All right.

24 Q. Now, yeah, I will take the laser printer -- or
25 pointer. Could we -- Well, do you recognize

1 Exhibit 86?

2 A. Yes.

3 Q. Aerial view of the Avery property, south is up?

4 A. Yes.

5 Q. Okay. And the area you are describing is
6 somewhere down here?

7 A. Yes.

8 Q. I'm probably blocking people, but at least I'm
9 not blocking you.

10 ATTORNEY KRATZ: Mr. Strang, do you want me
11 to zoom in at all?

12 ATTORNEY STRANG: I will.

13 Q. (By Attorney Strang)~ Can you see this?

14 A. Well, I have to look around you, but I can make
15 it out.

16 Q. Like my dad said, I would make a better door than
17 a window. How's that?

18 A. Sure.

19 Q. Okay. Now we both can see. So, that's the
20 little blue building that we saw in the two
21 photos you have, or in the first photo that you
22 have; does that seem right or is it actually down
23 like that?

24 A. I think the one you have, yeah, that's the
25 building.

1 Q. So that station wagon is somewhere right there?

2 A. Yes.

3 Q. Okay.

4 ATTORNEY STRANG: And why don't we zoom in
5 on that, if we can, Mr. Kratz.

6 Q. (By Attorney Strang)~ Is it possible to pick the
7 station wagon out from here or no?

8 A. I believe so. I believe it's next to.

9 Q. I will let you do that.

10 A. I think that's it right there.

11 Q. Okay.

12 A. Shaking it.

13 Q. Everybody does. And what we have got, running --

14 ATTORNEY STRANG: If we go back to -- let's
15 do 139 and then we'll go to 140, if you don't mind,
16 Mr. Kratz. These are the two you just had.

17 Q. What you have got there is a barbed wire fence --

18 A. Yes.

19 Q. -- is that right? And the fence is between the
20 road or the little gravel road. The photography
21 appears to be on the station wagon in which you
22 found the license plates.

23 A. Yes.

24 Q. And then 140 --

25 ATTORNEY STRANG: Any chance of 140 or are

1 you on strike? Thank you.

2 Q. (By Attorney Strang)~ We have got the barbed wire
3 fence, again?

4 A. Yes.

5 Q. So you actually, to get to the station wagon, you
6 would go in the entrance to the building, or the
7 business, I'm sorry.

8 A. Yeah, we would have gone around the building.

9 Q. And come around. You didn't come at this from
10 that roadway?

11 A. No.

12 Q. Okay. Have you ever seen a -- ever seen a men's
13 wallet called a tri-fold wallet?

14 A. Yes.

15 Q. Was that sort of how the license plates --

16 A. Exactly.

17 Q. -- were? And you were saying on direct that, you
18 know, probably as you looked at these license
19 plates, the most likely way to do that would be
20 to take your thumb and bend it over from one end
21 and then bend it over from the other again --

22 A. I guess.

23 Q. -- with your hands?

24 A. Yes.

25 Q. That's what it looked like to you?

1 A. Yeah.

2 Q. Okay. And maybe you don't remember the license
3 plate number, but so there's no mystery; did you
4 recall the license plate number being the one
5 that you were told was on Teresa Halbach's car?

6 A. I didn't have it written down. I had to ask the
7 State trooper. And she had it written in a book.
8 And when she looked, that's when I confirmed it
9 was it.

10 Q. Maybe Trooper Cindy Paine?

11 A. I believe that was her name.

12 Q. Okay.

13 ATTORNEY STRANG: That's all I have for
14 you.

15 THE COURT: Anything else, Mr. Kratz?

16 ATTORNEY KRATZ: No. We'll call Trooper
17 Cindy Paine next.

18 THE COURT: All right. The witness is
19 excused. Counsel, how much time are we anticipating
20 for the next witness?

21 ATTORNEY KRATZ: How much do I anticipate
22 or Mr. Strang? I will be five minutes, Judge.

23 THE COURT: I'm going to be asking each of
24 you.

25 ATTORNEY STRANG: I can't imagine I would

1 be any longer than I was.

2 THE COURT: All right. We'll take the
3 trooper.

4 THE CLERK: Please raise your right hand.

5 **TROOPER CINDY PAINE**, called as a witness
6 herein, having been first duly sworn, was
7 examined and testified as follows:

8 THE CLERK: Please be seated. Please state
9 your name and spell your last name for the record.

10 THE WITNESS: It's Cindy Paine, P-a-i-n-e.

11 **DIRECT EXAMINATION**

12 BY ATTORNEY KRATZ:

13 Q. Ms Paine, how are you employed?

14 A. I'm with the Wisconsin State Patrol.

15 Q. And what do you do with the State Patrol?

16 A. I'm a trooper with the patrol.

17 Q. What do troopers do?

18 A. We're -- Generally do traffic and traffic
19 enforcement and we enforce the state laws of
20 Wisconsin, the traffic laws.

21 Q. Do you on occasion assist with and are you asked
22 sometimes to assist in other general criminal
23 investigative matters?

24 A. Yes, we are asked by other agencies to assist
25 with either perimeter searches, perimeter -- we

1 secure perimeter or we do searches.

2 Q. Trooper Paine, were you employed as a State
3 Trooper on the 8th of November, 2005?

4 A. Yes, I was.

5 Q. And on the 8th of November, were you asked to
6 participate and assist in some search efforts at
7 a property that you have come to know as the
8 Avery Salvage Yard?

9 A. Yes, I have.

10 Q. Could you describe what your duties were at that
11 Avery Salvage Yard that day.

12 A. We were divided into several groups. And each
13 individual group had an area to search. And I
14 remained with this group and I had searched the
15 area.

16 Q. Do you recall what your group was comprised of;
17 in other words, how many people were in your
18 little group?

19 A. I don't remember how many people, but I know
20 there were troopers, there were deputies, there
21 were firefighters, citizen volunteers. It wasn't
22 one particular group.

23 Q. What kind of searches were you doing?

24 A. We were searching -- We were looking for,
25 specifically, a license plate, jewelry and camera

1 equipment.

2 Q. Okay. A more directed, a more specific kind of
3 search; is that ...

4 A. Correct.

5 Q. All right. And in part of that search, do you
6 remember how many vehicles you, individually, or
7 your group searched?

8 A. I would guess around 20.

9 Q. Do you remember how many volunteers and law
10 enforcement officials were there to help in that
11 effort that day?

12 A. The whole day?

13 Q. That day.

14 A. I mean -- I mean, the whole --

15 Q. The whole search?

16 A. No, I don't.

17 Q. How many people were involved in the search
18 effort; do you remember?

19 A. I would guess over 90 troopers --

20 Q. Okay.

21 A. -- and inspectors.

22 Q. A lot of people?

23 A. A lot of people.

24 Q. Were there a lot of cars?

25 A. A lot of cars.

1 Q. All right. As part of this search, Trooper
2 Paine, do you recall a person in your group being
3 a gentleman by the name of William Brandes?

4 A. Yes, I do.

5 Q. At some time during that search, do you recall
6 being summoned by Mr. Brandes to a specific car?

7 A. Yes, I was.

8 Q. Tell the jury what you saw, please.

9 A. He had pointed out that he had found a license
10 plate and he said that it had -- it was the
11 license plate we were looking for and he had
12 pointed it out to me.

13 Q. Did you look at the license plates?

14 A. Yes, I did.

15 Q. We're going to have those marked, in fact, right
16 now. Mr. Wiegert has been kind enough to put on
17 a pair of gloves for us and we're going to have
18 these exhibits marked.

19 (Exhibit No. 141 marked for identification.)

20 Q. But while he's doing that, tell me what you saw.

21 A. I saw a license plate that had a bend in it and
22 it was in the back of a station wagon. You have
23 got the driver compartment and then where it
24 would be from the driver's seat back is where the
25 license plate was found.

1 Q. Did Mr. Brandes tell you what condition those
2 plates were in when he found them?

3 A. He told me that they were folded; he had to
4 unfold them to verify -- to see the plate number.

5 Q. Were you told and did you know, specifically, the
6 license plate number for Teresa Halbach's vehicle
7 that you were looking for?

8 A. Yes.

9 Q. And did the license plates that you saw match the
10 tag number or license plates of Teresa Halbach?

11 A. Yes.

12 Q. I'm just going to show you a photo; it's
13 Exhibit 141. Tell the jury what that is, please.

14 A. This is a photograph of the license plate the way
15 I saw it when it was pointed out to me.

16 Q. Who took that photo?

17 A. I did.

18 Q. Showing the jury, now, what's been identified by
19 you as No. 141; what are we looking at?

20 A. We're looking at the license plate as it sat in
21 the back part of that station wagon, in the
22 condition that Bill had left it at.

23 Q. Bill Brandes?

24 A. Yes.

25 Q. Who took this photo?

1 A. I did.

2 Q. And so do you know that to be what you saw that
3 day?

4 A. Yes.

5 Q. The license plate, SWH-582, is that depicted in
6 Exhibit No. 141?

7 A. Yes, it is.

8 Q. And, in fact, are those -- was that a match with
9 the license plates that you were told you were
10 looking for?

11 A. Yes.

12 Q. Mr. Wiegert is going to hand you and show you two
13 exhibit numbers now. I will bet they are 142 and
14 143.

15 DETECTIVE WIEGERT: I wouldn't touch
16 them, though.

17 ATTORNEY KRATZ: I'm wrong again.

18 THE CLERK: 152 and 153.

19 Q. (By Attorney Kratz)~ 152 and 153. I'll first
20 show you what is marked 152 and ask you to
21 identify that, if you can and tell the jury what
22 it is?

23 A. That would be the license plate that we were
24 looking for, the registration number.

25 Q. All right.

1 ATTORNEY KRATZ: Mr. Wiegert, could you
2 show us and show the jury, please.

3 Q. (By Attorney Kratz)~ Now, the differentiation
4 between these two, this 152, that actually has a
5 expiration tag on it; is that correct?

6 A. That is correct.

7 Q. That would usually be the back plate or the front
8 plate?

9 A. That would be the rear plate, yes.

10 Q. Show you No. 153 now, tell us what that is.

11 A. And that would also be the license plate for --
12 the license plates we were looking for.

13 Q. Would that be the front plate or the back plate?

14 A. That would be the front plate.

15 Q. And you are able to identify those and they look
16 the same or similar, other than being separated,
17 as they did on the 8th of November; is that
18 correct?

19 A. That is correct.

20 ATTORNEY KRATZ: Judge, we will move the
21 admission of the photos and the two license plates
22 at this time.

23 (Exhibits 139, 140, 141, 152 & 153.)

24 THE COURT: Any objection?

25 ATTORNEY STRANG: No objection.

1 THE COURT: Very well. The exhibits are
2 received.

3 ATTORNEY KRATZ: That's all I have. Thank
4 you.

5 THE COURT: Mr. Strang.

6 ATTORNEY STRANG: Ma'am, I don't mean to
7 make you feel left out, but I'm not going to ask you
8 any questions.

9 THE WITNESS: Okay. Thank you.

10 THE COURT: All right. The witness is
11 excused. And I think with that witness, we're going
12 to adjourn for today.

13 Members of the jury, since you are
14 leaving for the weekend, I'm going to read the
15 usual admonishment to you, but in a little more
16 detail. As I have previously informed you, the
17 Court's decision not to sequester the jury in
18 this case is dependent on the jurors not
19 listening to, watching, or reading any news
20 accounts of the case, nor discussing it with
21 anyone including members of your family or other
22 jurors.

23 For these reasons, it is vital that you
24 do not listen to any conversation about this
25 case. Do not read any newspaper or internet

1 reports, or listen to any news reports on the
2 radio or television, about this case.

3 To assure that you are not exposed to
4 improper media coverage, the Court has ordered
5 that for the duration of the trial you do not
6 watch the local news on television. Do not
7 listen to the local news on radio. And do not
8 read the newspaper unless you first have someone
9 remove any articles about this case. In
10 addition, do not visit any internet websites or
11 web logs which may include any information about
12 the case.

13 The Court understands that some of you
14 may be working at places of employment during the
15 weekend; do not discuss the case with any
16 employers, employees, or patrons.

17 Do not volunteer your status as a juror
18 to anyone. If anyone attempts to discuss the
19 case with you, politely but firmly notify them
20 that you are prohibited from discussing this
21 case.

22 If you are involuntarily exposed to
23 information about the case from any source, take
24 steps to immediately avoid any further exposure.
25 Should you be exposed to any reports or

1 communications from any source concerning the
2 case during the trial, you should report that
3 fact to the jury bailiff.

4 With that, you are excused at this time
5 and we will see you Monday morning.

6 (Jury not present.)

7 THE COURT: Counsel, I would like you to
8 stop very briefly in chambers before leaving today.

9 ATTORNEY KRATZ: We'll do that.

10 THE COURT: Just a second, the Clerk has a
11 few questions.

12 THE CLERK: Clerk, I think this was --

13 ATTORNEY BUTING: This was not marked,
14 right?

15 THE CLERK: And I am --

16 THE COURT: All right. Just a minute, if
17 you're going to say this is not marked and we're on
18 the record, let's identify it.

19 ATTORNEY BUTING: This being DCI Report
20 No. 180, which was Special Agent Fassbender's report
21 that he refreshed his recollection on. It's not
22 been admitted -- or not offered as an exhibit. It
23 just got mixed in here.

24 THE COURT: So you -- you do not wish it --
25 not only do you not want it admitted, you do not

1 want it marked?

2 ATTORNEY BUTING: At this time, I don't see
3 any need to.

4 THE COURT: Any objection?

5 ATTORNEY KRATZ: No, it was just used to
6 refresh recollection, doesn't have to be an exhibit.

7 ATTORNEY BUTING: 145 was marked and not
8 able to be identified. I guess we leave that.

9 THE COURT: It will stay marked.

10 ATTORNEY BUTING: We'll see if another
11 witness identifies it or not.

12 THE CLERK: And my own question is, I know
13 Attorney Strang is making a copy of that CD for one
14 of the exhibits and the other exhibit, 127, I think
15 a copy of -- let me find that one -- it was a photo
16 of the aerial view of Avery Road and that I'm
17 waiting for.

18 ATTORNEY KRATZ: That you could not find
19 from the previous hearing and that's the one that
20 you wanted us to make another copy of.

21 THE CLERK: That's right.

22 ATTORNEY KRATZ: We promise to do that,
23 Judge.

24 THE CLERK: And then one the 148, 149, 151,
25 which were all photographs, am I getting copies of

those too?

ATTORNEY KRATZ: Yes.

ATTORNEY STRANG: I burned a copy of the CD which is Exhibit 126. And then when I opened it to make sure that the computer duped it as it said, it had all of about three seconds on it. So I'm going to do that again this weekend. So that's why we don't have that yet.

THE COURT: All right. We're adjourned for today.

ATTORNEY KRATZ: Thank you.

(Proceedings concluded.)

1 STATE OF WISCONSIN : CIRCUIT COURT : MANITOWOC COUNTY
2 BRANCH 1

3 STATE OF WISCONSIN,

4 PLAINTIFF,

JURY TRIAL

TRIAL - DAY 6

5 vs.

Case No. 05 CF 381

6 STEVEN A. AVERY,

7 DEFENDANT.

8 **DATE:** FEBRUARY 19, 2007

9 **BEFORE:** Hon. Patrick L. Willis
10 Circuit Court Judge

11 **APPEARANCES:** KENNETH R. KRATZ
Special Prosecutor
12 On behalf of the State of Wisconsin.

13 THOMAS J. FALLON
Special Prosecutor
14 On behalf of the State of Wisconsin.

15 NORMAN A. GAHN
Special Prosecutor
16 On behalf of the State of Wisconsin.

17 DEAN A. STRANG
Attorney at Law
18 On behalf of the Defendant.

19 JEROME F. BUTING
Attorney at Law
20 On behalf of the Defendant.

21 STEVEN A. AVERY
Defendant
22 Appeared in person.

1 THE COURT: At this time the Court calls
2 State of Wisconsin vs. Steven Avery, Case No. 05 CF
3 381. Will the parties state their appearances for
4 the record.

5 ATTORNEY KRATZ: Your Honor, the State once
6 again appears by Calumet County District Attorney
7 Ken Kratz, Assistant Attorney General Tom Fallon and
8 Assistant District Attorney Norm Gahn, appearing as
9 special prosecutors.

10 ATTORNEY BUTING: Good morning, your Honor.
11 Attorney Jerome Buting and Dean Strang appearing
12 with Mr. Steven Avery this morning.

13 THE COURT: Very well. At this time the
14 State may resume the presentation of its case.
15 Mr. Fallon.

16 ATTORNEY FALLON: Yes, good morning. Thank
17 you.

18 THE COURT: You may call your first
19 witness.

20 ATTORNEY FALLON: State at this time would
21 call John Ertl.

22 THE CLERK: Please raise your right hand.

23 **JOHN ERTL**, called as a witness herein,
24 having been first duly sworn, was examined and
25 testified as follows:

1 THE CLERK: You may be seated. Please
2 state your name and spell your last name for the
3 record.

4 THE WITNESS: My name is John Ertl. Last
5 name is spelled E-r-t-l.

6 **DIRECT EXAMINATION**

7 BY ATTORNEY FALLON:

8 Q. How are you employed?

9 A. I work for the State Crime Laboratory in Madison.
10 I'm a forensic scientist. I work for the DNA
11 Analysis Unit and I also do crime scene evidence
12 location, recovery, and collection.

13 Q. How long have you been employed with the
14 Wisconsin State Crime Lab in Madison?

15 A. I began there in January of 2000.

16 Q. Had you had any previous employment as a Crime
17 Lab analyst prior to that?

18 A. My first job as a forensic scientist was with the
19 State Crime Laboratory in Milwaukee. I started
20 there in '97. I moved from there, after about a
21 year and a half, to the State Laboratory in
22 Austin, Texas. And then I moved to the Madison
23 Laboratory in 2000.

24 Q. As a DNA analyst, what do you do for them,
25 generally?

1 A. I examine evidence collected at crime scenes.
2 And whether we have collected it or the police
3 agency has collected it, it's brought to the
4 laboratory for analysis. So I will look for
5 biological materials and I will attempt to
6 extract DNA from them and type the DNA, get a
7 genetic profile.

8 Then we take samples from known
9 individuals; it's usually a blood sample or a
10 swab from inside your cheek. Extract the DNA
11 from that; get the genetic profile; match up the
12 profiles, if I can; determine whether or not the
13 DNA from the crime scene item stains is the same
14 as, or different than, the DNA from known
15 individuals.

16 Q. Mr. Ertl, what other roles or duties have you
17 been assigned or volunteered to perform for the
18 Crime Lab?

19 A. Well, in addition to my -- my major role as a DNA
20 analyst at the laboratory, we have a volunteer
21 system where we do crime scene -- process crime
22 scenes. So if any agency in the State feels
23 uncomfortable or needs help or assistance that we
24 can offer, whether it's just a phone call, get
25 some advice, or whether we actually go to the

1 scene and help them, we'll go. We'll document
2 the scene, photographs. We'll do sketches. But
3 our main job is to find the evidence and collect
4 it and bring it back to the laboratory.

5 Q. Is there a name for that particular unit or task
6 that you perform?

7 A. That's the Field Response Team.

8 Q. How long have you been a member of the Field
9 Response Unit?

10 A. About six months after I arrived at the
11 laboratory. So, it was about June of 2000, I
12 began going out with them on field responses.
13 Prior to that, I had also done field response
14 work in the Texas lab.

15 I began training as a crime scene
16 photographer at the Madison Laboratory and I
17 completed that training in about December of
18 2000. But during that whole time, since about
19 June of 2000, I have been going out to crime
20 scenes with the Madison teams.

21 Q. Let's talk a little bit about your education,
22 Mr. Ertl. Do you have --I take it you have an
23 undergraduate degree.

24 A. Undergraduate degree in chemistry from the
25 University of Wisconsin, Parkside. That's in

1 Kenosha.

2 Q. Do you have any graduate degrees?

3 A. Graduate degree from the same institution; that's
4 in molecular biology.

5 Q. All right. When did you receive that degree?

6 A. The undergraduate degree, I completed in '84 and
7 the master's degree I completed in '92.

8 Q. Now, generally, again, returning to your work
9 with the Field Response Unit; what kinds of cases
10 does the Field Response Unit become involved in?

11 A. Generally, it's any case where the agency is
12 uncomfortable, number one, whether they don't
13 have the experience or whatever. Generally
14 involved in some sort of homicide. Could be
15 bones found in the woods, you know. Might not be
16 a homicide, may be a missing person. Might be an
17 accidental shooting, hunter shooting, that sort
18 of thing. We get involved. But it's at the
19 request of the agency where it's happening and
20 that they would request us to come and help.

21 Q. Well, that was my next question. Generally,
22 then, how does one request the services of the
23 Field Response Unit from the Crime Laboratory?

24 A. The agency just calls the laboratory and requests
25 that the Field Response Unit come and help. And

1 that's basically how we get involved.

2 Q. All right. So assuming there is a request and it
3 involves some type of death?

4 A. Generally, yes.

5 Q. All right. Are there any other types of cases
6 that the Field Response Unit may become involved
7 in?

8 A. I have done several where it was just -- it was a
9 missing persons case, the person had gone
10 missing. And they didn't know whether they were
11 dead or alive, but they had some reason to
12 believe there might be some evidence in a
13 particular place.

14 And in both of those instances I'm
15 thinking about, one was in Milwaukee and one was
16 in Menasha, they were quite old, the person had
17 gone missing. And then much later, years later
18 even, you know, they get some idea, well, he was
19 in the basement and I saw him shot, somebody
20 telling him this; or the landlord remembers there
21 being blood on the wall when a tenant moved out
22 25 years prior. So we go and look under the
23 paint, see if we can find any blood.

24 But, generally, there's a body involved.
25 They know someone has been killed. It's more --

1 more immediate than a missing person.

2 Q. All right. All right. Mr. Ertl, I would like to
3 direct your attention to Saturday, November 5th,
4 2005, and ask, how did you become involved in
5 this particular case?

6 A. It was a Saturday, so I wasn't at work, but I was
7 on call. So the Manitowoc County Sheriff's
8 Department called the laboratory number and our
9 answering service forwarded the call to me. And
10 it was Detective Dave Remiker, asked that --

11 Well, he explained to me that he had a
12 missing persons case out of Calumet County they
13 were getting involved with, but the vehicle
14 belonging to that person had been located in
15 Manitowoc County. And he would like for the lab
16 to come and look at the area around the vehicle
17 and to recover the vehicle and bring it back to
18 the laboratory.

19 Q. About what time did you receive that call or did
20 you make contact with Detective Remiker?

21 A. That was around noon on Saturday.

22 Q. All right. Did you subsequently respond?

23 A. Yes.

24 Q. About what time did you leave Madison?

25 A. It was about 1:15 p.m. I had contacted the

1 photographer to take with me and we have a field
2 response vehicle, looks like a ugly colored
3 yellow ambulance, and we headed for Manitowoc
4 County.

5 Q. Who, if anyone, assisted you in this initial
6 response?

7 A. My photographer for that was Guang Zhang?

8 Q. And for the benefit of everyone, could you spell
9 Mr. Guang Zhang's name?

10 A. It's G-u-a-n-g Z-h-a-n-g.

11 Q. Thank you. Approximately what time did you
12 arrive at the location?

13 A. It was about 4:00 p.m.

14 Q. And who did you meet at that location?

15 A. I was looking for a Detective Remiker and that he
16 escorted me to an area near a fire truck where
17 they had a canopy out --

18 (Court reporter couldn't hear.)

19 A. A canopy off the side of a fire truck. And it
20 was a kind of a stormy day and it was windy and
21 loud. And I was introduced to Investigator Mark
22 Wiegert, Calumet County Sheriff's Department; and
23 also, Special Agent Tom Fassbender of the
24 Wisconsin Department of Criminal Investigation.
25 And those two were my main contact people

1 throughout the rest of my involvement at the
2 scene.

3 Q. Did you at all, briefly, meet Detective Remiker?

4 A. I believe I did.

5 Q. All right. But your direction came from
6 Investigator Wiegert and Agent Fassbender?

7 A. Yes.

8 Q. All right. After you checked in with them, what
9 did you do?

10 A. They were at the end of the road leading into the
11 salvage yard. And the -- that RAV4 vehicle, the
12 victim's vehicle, had been located maybe a
13 quarter mile into the salvage yard, down an
14 embankment.

15 And so they got somebody to lead us down
16 to a flattened area that was just in front of a
17 pond and there was a car crusher nearby. But it
18 was quite an open gravelly area and we were able
19 to park there. And then we proceeded on foot.

20 Q. I'm going to stop you right there, if I may, and
21 this might assist. I would like to direct your
22 attention to the screen and show you what has
23 been received as Exhibit 86.

24 A. That's an aerial view.

25 Q. All right. I'm going to have my colleague hand

1 you a laser pointer here. And that may be of
2 some assistance to you. And if you could, then,
3 briefly describe, first of all, where the fire
4 truck with the canopy was and then your general
5 direction.

6 A. I don't want to get the court reporter. Okay.
7 So, right there is where the fire truck was.

8 Q. Let the record reflect the witness is directing a
9 laser pointer to the lower left hand corner of
10 Exhibit 86.

11 ATTORNEY BUTING: No, objection.

12 THE COURT: Record will so reflect.

13 ATTORNEY FALLON: Thank you.

14 Q. (By Attorney Fallon)~ And from there, sir, where
15 did you proceed?

16 A. Down this road. And this is the flat area where
17 we parked.

18 Q. All right.

19 ATTORNEY FALLON: May the record reflect
20 the witness has directed the laser pointer to the
21 area immediately to the right of the area previously
22 identified as the car crusher.

23 ATTORNEY BUTING: No objection.

24 THE COURT: The record will reflect that as
25 well.

1 Q. (By Attorney Fallon)~ All right. Now, when you
2 went to that area you described as the flat area,
3 Mr. Ertl, what did you do from there?

4 A. We then proceeded on foot down this kind of
5 grassy, overgrown gravel and dirt road. And this
6 is the pond. Goes around the pond and you can
7 sort of see cars lined up along the edge of the
8 road that goes around the pond. Right about
9 there, a little more than half way down to the
10 pond there was a --

11 Q. I'm going to show you a close up there. Just so
12 you know, sir, this exhibit, as previously
13 identified, was taken after the car was removed.

14 A. All right.

15 Q. But for purposes of illustrating the area and the
16 path you took, if you would now demonstrate with
17 the pointer what you did?

18 A. All right. So this is the flat level area.
19 That's the car crusher. We proceeded down this
20 road to right there.

21 Q. All right. Thank you.

22 A. There's a red vehicle and two white vehicles.
23 The RAV4 was a blue vehicle, was parked parallel
24 to the red vehicle. Its nose was facing this
25 direction.

1 ATTORNEY FALLON: And the record should
2 reflect he directly pointed to a westerly direction.

3 THE COURT: The record will so reflect.

4 Q. (By Attorney Fallon)~ All right. Very well.
5 Thank you, Mr. Ertl. If you would please, then,
6 describe further the line of cars and the
7 particular Toyota RAV4 that you examined or first
8 observed.

9 A. Okay. These cars parked along here were kind of
10 older looking, the paint was faded; they looked
11 like they belonged there in the salvage yard.
12 The RAV4 looked a little different, it was shiny.
13 And it had an old Rambler hood leaned up against
14 the back panel. It had a piece of plywood up
15 against the front end, on the side.

16 It had several tree branches up against
17 the back. Had a cardboard box sitting on the
18 hood. And had quite a large 12 to 15 foot tall
19 tree that kind of looked like it had been ripped
20 out of the ground, still had roots attached, was
21 leaning up against and over the hood. The other
22 vehicles there had been parked there and there
23 were saplings growing up around them. But this
24 one had detached tree limbs and things around it.

25 The Rambler hood and some fence posts

1 were leaned up against the car. The other cars
2 didn't have that sort of stuff around them; the
3 car was sitting there and there was vegetation
4 growing up around them. So it looked a little
5 odd.

6 Q. All right. And before we go further, tell us
7 about the weather conditions upon your arrival.

8 A. When I first got the call at noon, I was informed
9 that the weather was threatening. It was early
10 November. It was kind of cold, but it was rain
11 that we were having. It had rained and they were
12 afraid that it was going to rain on the vehicle.
13 I advised them they should cover it in some way,
14 if they could, because of the rain if there were
15 fingerprints or anything, handprints in the dust
16 on the car, that would get rinsed away by the
17 rain water.

18 So I believe they had put a tarp over
19 the vehicle when it did begin to rain and they
20 had removed the tarp just as we arrived. It
21 wasn't raining when we arrived, but it was still
22 dark and cloudy. And during my course of my stay
23 there that evening, at times it did. We had an
24 actual thunderstorm. And that flat area, then, I
25 talked about, I can remember stepping out of the

1 van at one point into a puddle. Not just a
2 puddle, but the general area where the water was
3 pretty deep and we had quite a torrent of rain.

4 ATTORNEY FALLON: Let the record reflect
5 the witness put his hands together and gave us an
6 apparent estimate of what looked like about 4 to 6
7 inches of water?

8 A. Two to three.

9 Q. Two to three?

10 A. Inches of standing water.

11 Q. Now, as you arrived to examine this vehicle, was
12 it raining at that particular point?

13 A. Maybe misting, wasn't really raining.

14 Q. How long before it began to rain, relative to
15 daylight, darkness?

16 A. I believe it was just after dark that it really
17 started to pour. The lightening was very
18 dramatic.

19 Q. All right. Now, directing your attention more
20 specifically to the Toyota RAV4, what was the
21 condition of the vehicle itself? Describe it's
22 appearance. In addition to the camouflage
23 materials you already talked about, but what else
24 about the vehicle can you tell us?

25 A. Well, it was newer looking. I examined all the

1 items that were around it. The thought there, if
2 somebody put them there, they had to have touched
3 them somehow. You know, the tree branches, there
4 may have been places where something would snag
5 on it, might be some clothing fibers.

6 If there was any blood involved, there
7 might be bloodstains on them. I looked at them
8 for that sort of material. I didn't find any.
9 The cardboard box and the Rambler hood, I
10 thought, had surfaces that maybe would hold
11 fingerprints if you had touched it with your
12 fingers. It was a smooth enough surface that it
13 would hold a latent print. So I decided to
14 collect those and return those to the laboratory.
15 And we were going to return the RAV4 to the
16 laboratory.

17 We couldn't get into the vehicle, all
18 the doors were locked. So the extent of my
19 examination of the inside was shining a
20 flashlight through the windows and just looking
21 inside.

22 Q. All right. And how much time did you say you
23 spent looking inside the vehicle with a
24 flashlight?

25 A. Oh, there were several of us around the vehicle

1 at that time looking inside. Once all the
2 materials had been removed from around it, that
3 was pretty much the first time anyone could get,
4 you know, close enough to peer inside.

5 Q. All right. Let me ask you then, what were you
6 looking for or attempting to see when you
7 examined inside the vehicle?

8 A. Well, it was a missing persons case, so the first
9 thing I wanted to know, was the missing person
10 inside the missing person's car. And I didn't
11 see any evidence of that.

12 Q. All right. Now, before we go any further, I
13 would like to direct your attention to the
14 screen, again, showing you Exhibit 130 and ask,
15 does -- does that scene strike any memories with
16 you?

17 A. Yes, that's me standing there, right there.
18 That's the RAV4. And that's a bit of a fence
19 post. That's the Rambler hood. That's a piece
20 of plywood. This is part of the tree that was
21 against the front end. And those are bits of the
22 branches that were against the back end.

23 Q. And who is that in the red coat?

24 A. That's Special Agent Tom Fassbender.

25 Q. And what does he have under his arm?

1 A. I can't quite make that out, kind of looks like
2 he is holding a tarp?

3 Q. A tarp.

4 ATTORNEY BUTING: What exhibit is that,
5 counsel?

6 ATTORNEY FALLON: 130.

7 Q. (By Attorney Fallon)~ And the gentleman
8 immediately behind Investigator Fassbender is
9 whom?

10 A. That's Guang Zhang. That's my photographer.

11 Q. All right. Thank you. The vehicle, you said you
12 saw -- you were looking for evidence of a person;
13 was there anything else you were looking for?

14 A. At that point, not really.

15 Q. Could you describe the ease or difficulty it was
16 to see in the vehicle when you were working with
17 the flashlight?

18 A. Well, at that point the glass was wet from the
19 rain. There was a lot of glare, so you kind of
20 had to, you know, get the light and not have it
21 bounce right back in your face. You can see the
22 front windows are clear, but the back windows
23 were all tinted, so it was kind of hard to see
24 through that, to see what was in the back end.

25 Q. How many people were flashing flashlights into

1 the back of that car?

2 A. I think there were at least two of us, because I
3 was looking through the side and I could see
4 another light moving around inside the vehicle.
5 And there was somebody standing on the opposite
6 side of the car.

7 Q. Now, as you were -- How much time would you say
8 you spent looking into the vehicle?

9 A. Oh, probably not more than 5 or 10 minutes.

10 Q. During that time, did you see any evidence of any
11 blood in the vehicle?

12 A. No, I didn't.

13 Q. All right. Were there any license plates affixed
14 to the vehicle?

15 A. No, the license plates had been removed.

16 Q. Did you notice whether there was any damage to
17 the vehicle at all?

18 A. Yes, once we got the debris away from it, there
19 was a scratch behind the Rambler hood. And then
20 this front end had a little bit of collision
21 damage, the lens on the light was cracked or
22 broken and there was some denting to the window.

23 Q. Did you examine the debris that was on the car
24 for the presence of any trace or biological
25 evidence?

1 A. Yes, I did.

2 Q. And what did you find?

3 A. I didn't see anything that I felt was unusual. I
4 didn't see any bloodstain. I didn't see any
5 hairs affixed to anything. I didn't see any
6 fibers attached to any of it.

7 Q. And for the benefit of all here, could you
8 briefly explain, what do we mean when we use the
9 phrase trace evidence?

10 A. Well, trace is a different unit than I worked in.
11 They are pretty all encompassing. Trace gives
12 you the idea that it's just a tiny bit of
13 something.

14 When any two objects are in contact, a
15 little bit of one transfers to the other. If you
16 back into a car with your car, you may get a
17 little bit of the paint from that car onto your
18 car, and vice versa. That would be trace
19 evidence, scratch the paint off the car and
20 collect that.

21 If you're wearing clothes and you are
22 handling these tree branches, you may snag your
23 clothes and some of the fibers may get lodged on
24 the tree branch. That would be trace evidence.

25 Or if one of my hairs comes out, lands

1 on the tree branch, or I get my hair caught in
2 the tree branch and it pulls some of it out, that
3 would be trace evidence.

4 Q. Were any efforts undertaken at that time to
5 process the vehicle?

6 A. No.

7 Q. Why not?

8 A. No. Well, the weather was threatening and the
9 best thing we could do is protect it from the
10 weather at that point and then to get it back to
11 the laboratory where we could put it in the
12 garage and we would have all the experts in trace
13 evidence and blood collection at the lab to do
14 their jobs.

15 Q. All right. What efforts did you make to protect
16 the integrity of this evidence?

17 A. At that point, I suggested that we get it back to
18 the laboratory and that we use a covered trailer
19 to put the vehicle in. The trip to Madison in a
20 rainstorm traveling at highway speeds would
21 pretty much scour anything off the outside of the
22 car. We wanted to put it inside of a trailer, so
23 I asked for that to be brought to the scene.

24 Q. And did that, in fact, occur?

25 A. Yes, it did.

1 Q. Approximately how long did you wait before making
2 the request for that type of equipment and its
3 arrival on the scene?

4 A. I believe I made that request pretty early on.
5 I'm not exactly sure how long it took to get that
6 to the scene. There was a wrecker truck was
7 called and that was a separate company, I
8 believe, that had the trailer. In the meantime,
9 I got involved with other areas at the salvage
10 yard.

11 Q. All right. Let's talk about those. While you
12 waited for the wrecker service to arrive with the
13 enclosed trailer, what was the first thing that
14 you did after leaving the SUV?

15 A. There was a team working with a cadaver dog. And
16 I kind of wanted to get a bigger feel for where I
17 was. So I kind of hooked up with them. We
18 proceeded down the road, around the pond, and
19 then down a steep embankment into, like, a gravel
20 pit.

21 Q. I'm going to direct your attention again to
22 Exhibit 86; does that assist you in explaining
23 what you did?

24 A. Sure. The RAV4 was parked here. We walked down
25 this way a ways and then down this embankment

1 into this gravel pit area.

2 Q. How much of a pitch, or a bank, or embankment was
3 that; in other words, what's the difference in
4 the terrain as best you can describe.

5 A. Oh, it was kind of loose footing. So it was kind
6 of step and slide to get down. Once we were
7 down, you couldn't see up out the top. It was
8 maybe a 20 foot embankment.

9 Q. All right. Was steep or ...

10 A. It was pretty steep, yeah. It took some effort
11 to come back up, too.

12 Q. All right. And after -- So approximately -- At
13 this particular point, was it still daylight or
14 had dark set upon the scene?

15 A. It was getting to be twilight. While we were --
16 While we were down in here, we could still see
17 each other pretty well; and the dog, you could
18 see it working.

19 We didn't stay down here for a real long
20 time. I came back up, met back up with my
21 photographer. And then, I believe, we proceeded
22 back to our van. And then, at some point we were
23 escorted back up to the command base.

24 Q. Where was your van parked?

25 A. In this flat area here.

1 ATTORNEY FALLON: Let the record reflect,
2 he's again pointing to the area to the right of the
3 car crusher and somewhat south of that between the
4 crusher and the pond.

5 THE COURT: The record will so reflect.

6 ATTORNEY FALLON: Thank you.

7 Q. (By Attorney Fallon)~ Then what did you do, sir?

8 A. Well, from there we were escorted up to a place
9 where there were four burn barrels behind a
10 residence.

11 Q. All right.

12 A. So back up to the command area and then down this
13 road, behind this residence here.

14 ATTORNEY FALLON: I'm going to ask the
15 record reflect that the witness is pointing to the
16 area behind the residence previously identified as
17 the Janda residence.

18 ATTORNEY BUTING: No objection.

19 THE COURT: Very well, the record will
20 reflect that.

21 Q. All right. And --

22 A. Somewhere back here -- And at this point it was
23 completely dark and it was raining.

24 Q. All right. How much rain or how hard was it
25 raining?

1 A. At that point, I think it was a pretty steady,
2 moderate rain.

3 Q. What happened at that particular location?

4 A. I watched the cadaver dog work around the
5 barrels. And it had interest in the two of them
6 to the south. Then there were two more next to
7 it. I advised, with the rain, you probably want
8 to cover those with a tarp, prevent whatever is
9 inside from getting soaked.

10 Q. All right. What occurred next?

11 A. From here, we went back to the command station
12 and we worked inside of a -- one of the large
13 shed garages from the salvage yard. It was a
14 golf cart type vehicle in there and the dogs were
15 working in there and one of them had hit on the
16 back end of that.

17 Q. Could you describe that golf cart for us, please.

18 A. It was kind of a cross between an all terrain
19 vehicle and a golf cart; kind of had -- was more
20 truck like than a golf cart. Had a canopy over
21 the top. And sort of like a little pick up truck
22 bed in the back. There were some stains on the
23 back. I tested those for the presence of blood.
24 We have a presumptive test for blood; it doesn't
25 discriminate human from animal. And it's called

1 phenolphthalein.

2 Q. And for the benefit of our reporter here, can you
3 spell phenolphthalein, please.

4 A. P-H-E-N-Y-L-T-H-A-L-E-I-N (sic).

5 (Witness corrected the spelling off the record.)

6 Q. And what result, if any, did that testing yield?

7 A. There were a couple of dark colored stains on the
8 back end and up on the canopy. And they all
9 tested negative, indicating it was not blood. We
10 had the photographer with us and he photographed
11 that.

12 Q. And where -- where did you go next?

13 A. I'm not sure which of those large service garages
14 it was that we were in, where the golf cart was.
15 At that point I believe we went back down,
16 informed that the wrecker had arrived. And we
17 proceeded back down to the flat area and then
18 back to the RAV4.

19 Q. And prior to stopping at the RAV4, had anything
20 changed in the area, specifically with respect to
21 the car crusher?

22 A. At some point, and I'm not sure whether it was
23 while the wrecker -- before the wrecker -- before
24 we arrived at the scene where the wrecker was, or
25 after we had secured the RAV4, but at some point

1 there was talk about a car in the car crusher and
2 how that was quite unusual. The crusher was
3 operated by a different outfit, sort of a
4 portable unit. They bring it into a salvage
5 yard, crush some cars, kind of like a
6 subcontractor, but they operated it.

7 ATTORNEY BUTING: Objection to that; that's
8 beyond the scope of his knowledge.

9 A. That was just what I had heard.

10 ATTORNEY BUTING: He's not going to know
11 who operates it.

12 THE COURT: The objection is sustained.

13 Q. (By Attorney Fallon)~ What -- My point for you,
14 sir, is what did you do when you examined the
15 crusher at this particular point?

16 A. There was a car crushed in the crusher. And the
17 ramp of the crusher was still on top of the car,
18 so you could just see the side of a crushed car.
19 And you could sort of see into where the windows
20 had been, but you couldn't see much.

21 So somebody made contact with the people
22 who knew how to operate the crusher to raise up
23 the ramp so we could get in and look -- try to
24 get a better look at the car that was in the
25 crusher.

1 Q. And did you get a better look?

2 A. Yes, at some point people came and started it up
3 and raised the ramp. Then we were able to climb
4 up on top of the car. Still couldn't get a real
5 good look because the roof of the car was down --
6 crushed down on top of it too. So I advised if
7 you want to get inside, you will have to get the
8 roof and the metal off of there, then you could
9 see what was actually in the car before it was
10 crushed.

11 Q. Showing you on the screen what has been received
12 as Exhibit 66; is that the crusher vehicle that
13 you have been talking about?

14 A. Yes.

15 Q. And there was a vehicle in that when you arrived?

16 A. Yes.

17 Q. All right. Returning, again, to the RAV4, the
18 SUV, when the wrecker arrived, what did you do?

19 A. The person with the covered trailer, he had
20 attached to a pickup truck, he helped direct the
21 wrecker truck. It was a really large one, looked
22 like you could probably pull a semi.

23 He backed it down along that road
24 between the row of cars and the pond. I waited
25 for them down at the RAV4. The wrecker operator

1 then examined the vehicle, trying to determine
2 how he was going to best get it of there, because
3 there was no way they were going to get the
4 pickup with the trailer in there and along that
5 narrow road with the pond. So the plan was to
6 pull the RAV4 out into that flat area near the
7 crusher and then put it into the trailer there,
8 where they had room to maneuver.

9 So the wrecker operator determined that
10 the RAV4 wasn't just going to roll; it was either
11 in gear, or it had a parking break on. For
12 whatever reason, it wouldn't roll on its own
13 wheels. So he wanted to try to put the vehicle
14 in neutral and it was locked; he couldn't get in.

15 So he crawled underneath and tried to
16 reach the linkage for the transmission; he
17 couldn't reach that. Then he tried to access
18 that from under the hood, but the hood release
19 and everything was also inside. Couldn't pop the
20 hood.

21 So what he ended up doing was crawling
22 underneath and unbolting one of the drive shafts.
23 It was a four wheel drive vehicle. He unbolted
24 the drive shaft to the front end.

25 He then used his lifter from the wrecker

1 to pick up the back wheels and then rolled it on
2 the front wheels and he pulled it out from around
3 the pond, into that flattened area where the
4 trailer was waiting. And then he rolled it up
5 into the trailer and then we strapped it down
6 into the trailer.

7 Q. And who was involved in this project?

8 A. I was there, the wrecker operator, and the person
9 that brought the trailer.

10 Q. Once the vehicle was secured, what did you do?

11 A. We then prepared -- and I'm not sure if this is
12 the point where they actually had the ramp raised
13 now and we then looked at the crushed vehicle in
14 the crusher, or if that had occurred right prior
15 to moving the RAV4 out. But at any point, at
16 some point Tom Fassbender said that we don't need
17 you any more right now, get the RAV4 back to the
18 lab.

19 Q. All right. During your exposure to the SUV, how
20 many law enforcement officers were in the
21 immediate vicinity of that vehicle?

22 A. When I first arrived, I would guess three to
23 four. There was always one standing away from
24 it. And the person was there just to make sure
25 that no one who didn't belong there was there.

1 That was like the security guy. When I first
2 arrived, they were removing the tarp; I think
3 there were three or four there. Tom was there
4 with me; my photographer; there was another --
5 Q. You mentioned Tom?
6 A. Tom Fassbender.
7 Q. Agent Fassbender who is seated here?
8 A. Yes.
9 Q. All right.
10 A. And I don't know all the people involved.
11 Q. All right. And how about after your tour of the
12 general area. You came back to the area where
13 the SUV was; were there officers, then, present
14 as well?
15 A. The one on guard was still there.
16 Q. Same person?
17 A. That I don't know.
18 Q. Okay. Approximately what time did you leave the
19 scene that Saturday night?
20 A. I believe it was about quarter to nine.
21 Q. What time did you arrive in Madison?
22 A. It was about 1:15 a.m.
23 Q. And what time did you finish securing the RAV4?
24 A. It was about 2:00 a.m.
25 Q. All right. And where was the vehicle secured?

1 A. In the garage at the Crime Laboratory in Madison.

2 Q. Did you need the assistance of any other
3 professional help to secure the vehicle?

4 A. Yes.

5 Q. Tell us about that?

6 A. When we arrived in Madison, I called the local
7 wrecker company to come and do the opposite of
8 what the wrecker had done at the scene in
9 Manitowoc, to lift up the back end, pull the
10 vehicle out of the trailer, and then put it into
11 the garage, because the back wheels were still
12 locked.

13 Q. Directing your attention to Sunday, November 6,
14 were your services again requested in this
15 investigation?

16 A. Yes. About 9:00 a.m., Special Agent Tom
17 Fassbender called me and requested that we come
18 up to the salvage yard again. And at that point
19 they hadn't any specific area they wanted our
20 assistance, they just wanted our general
21 assistance to be available in case they came
22 acrossed anything.

23 Q. Okay. Did you then make plans to travel to the
24 salvage yard?

25 A. Yes.

1 Q. And what time did you, in fact, go to the salvage
2 yard?

3 A. We left Madison, I think it was just before noon.

4 Q. And what time did you arrive at the salvage yard?

5 A. I believe it was around 3:30.

6 Q. When you arrived at the scene, with whom did you
7 meet?

8 A. Investigator Wiegert and Special Agent
9 Fassbender.

10 Q. What assignments were you asked to perform?

11 A. Well, we were told of three areas where cadaver
12 dogs had been interested. One of them was on the
13 east side of Avery Road, at the corner with 147;
14 there was a gravel yard, gravel quarry. And
15 there was a maybe 30 foot tall mound of gravel
16 and sand. And about 6 to 8 feet up the pile, the
17 dog got excited about something. They said they
18 would put an orange flag there. And they had
19 seen a pinkish substance. So that was one place.

20 The dogs were also interested in two
21 wrecked vehicles that were parked on the
22 perimeter of that pond, near where the RAV 4 had
23 been.

24 And then they talked about the burning
25 barrels that I had seen the night before. The

1 dogs were interested in those. We began working
2 at the gravel yard.

3 Q. All right. And was anything of significance, in
4 your determination, found at that gravel yard
5 location?

6 A. We found some reddish staining on some pieces of
7 gravel. They tested presumptive positive for the
8 presence of blood. We located a pinkish
9 substance, perhaps three quarters of an inch in
10 largest dimension, looked like flesh.

11 We found another piece of material about
12 the same size; it was reddish and white in color.
13 Both of those items also tested presumptive
14 positive for the presence of blood.

15 We collected those. And then we
16 proceeded to excavate that area under where those
17 materials had been. So we dug 4 to 6 feet of
18 gravel out of that area and placed it on a tarp,
19 shovel by shovel, looking to see if we could find
20 anything more. And we worked until dark; it was
21 about 5:00.

22 Q. And did you find anything else?

23 A. We didn't find anything more.

24 Q. Was there any evidence whatsoever that that was
25 any kind of burial site, or any wrongdoing had

1 occurred there?

2 A. Other than the presence of possibly blood and
3 some flesh. And at that point we didn't know if
4 it was animal or human. And collected it and
5 didn't find any more. That was the extent of it.

6 Q. And that's because the test does not distinguish
7 between human or animal?

8 A. That's correct.

9 Q. Okay. And after completing that particular task,
10 what was your next assignment or task on the
11 agenda?

12 A. At that point we were asked to go in and look at
13 Steven Avery's residence. It had previously been
14 examined by others and things had been taken. So
15 at that point we just went in and we were asked
16 to look for any evidence of blood spatter
17 patterns.

18 It's one thing to find blood, a blood
19 stain, that can tell you some information. But
20 we were looking more for patterns of bloodstain.
21 If you cut your finger and do this, the blood
22 will come off your finger and leave little specks
23 in a line and you can tell something about how
24 that blood came to be in little specks in a line.

25 ATTORNEY BUTING: Can the record reflect

1 when he said, do this, he was moving his index
2 finger sort of out to the side and kind of flicking
3 it?

4 ATTORNEY FALLON: That's fine.

5 THE COURT: That's an accurate reflection
6 of the actions he took.

7 Q. (By Attorney Fallon)~ Did you find any evidence
8 of bloodstain pattern?

9 A. No, we didn't.

10 Q. Now, what, if anything, did you find in your
11 examination of the residence that Sunday evening?

12 A. We found some bloodstains on both entry doors and
13 on the floor of the vanity and in the sink in the
14 bathroom.

15 Q. What equipment were you utilizing as you examined
16 his residence that evening?

17 A. We used flashlights with white light and blue
18 light. The blue light helps to give contrast to
19 the blood, makes it turn black so it helps to see
20 blood. And we used white light to see the
21 reddish color of blood.

22 Q. Who was assisting you in this task?

23 A. I was with Guang Zhang, the photographer. And
24 also Chuck Cates. When we returned on Sunday,
25 there were three of us.

1 Q. What was the next -- Approximately what time did
2 you wrap up your examination of the defendant's
3 residence?

4 A. I believe we were in there until about 5:30.

5 Q. When you start at the residence, was it dark or
6 still light out?

7 A. We were losing light. When we left the gravel
8 yard, it was not productive to be looking for
9 things without supplemental lighting. And
10 flashlights and a large gravel pile and
11 shoveling, that wasn't productive anymore. By
12 the time we left the residence, it was completely
13 dark, 5:30.

14 Q. After -- Just so that we're clear, you mentioned
15 Mr. Zhang's name before. Mr. Cates accompanied
16 you on this trip?

17 A. Yes.

18 Q. Just so that we're clear, who was Mr. Cates
19 again?

20 A. He is another member of the field response crew.
21 His normal duties involve fingerprint work.
22 That's his specialty. He was also, at that time,
23 the field response training coordinator.

24 Q. After examining the defendant's residence, what
25 was the next task you performed that Sunday

1 evening?

2 A. May I look at my notes to refresh my memory
3 there?

4 Q. If need be, sure.

5 A. Okay. After we looked at the residence, then we
6 moved on to the two vehicles that the cadaver
7 dogs were interested in, down near the pond. One
8 of the agencies had set up some very impressive
9 lighting down there, so we were able to examine
10 those vehicles even though it was dark outside.

11 We found apparent blood staining in both
12 vehicles. We collected those bloodstains. We
13 did not do fingerprint analysis -- or we did not
14 process the vehicles for latent prints at that
15 time because it was starting to form dew on them.
16 And the way we look for fingerprints is to take a
17 fine powder with a feather brush and dust
18 acrossed. And if it's wet, that just does not
19 work. So we just left that for a later time
20 after it dried off again.

21 Q. And these vehicles, what were they?

22 A. One was a gold colored Honda and one was a silver
23 colored Renault.

24 Q. Do you know if they had any prominent roll in
25 this case after your examination?

1 A. I do not know.

2 Q. Very well. Directing your attention, then, to
3 Monday, November 7th, 2005, did you again
4 participate in processing of the salvage yard?

5 A. Arrangements on Sunday evening were that we would
6 meet up with a Jeremy Hawkins here in Chilton at
7 the Calumet County Sheriff's service garage. The
8 four burn barrels had been transported to the
9 service garage and we were to examine those.

10 Q. And did you start examining the burn barrels?

11 A. Yes. Approximately 8:00 a.m., we met with Jeremy
12 Hawkins. He let us into the garage, got us into
13 the trailer where the burn barrels were. Got
14 them out into the garage. Set up our sifting
15 equipment and bit by bit went through the
16 contents of the barrels, sifting, looking for any
17 kind of bones, teeth, hair, any metallic type
18 items.

19 Q. Did you find any of that evidence?

20 A. There was. In each barrel examined we collected
21 a box full of that sort of material.

22 Q. All right. Now, was that task at all interrupted
23 on Monday?

24 A. Yes. Just after we had our lunch break and we
25 had just started sifting the barrels again,

1 around 12:30, we were requested to return to the
2 area near the scene. Some volunteer searchers
3 had discovered in some area -- a forested area
4 with some disturbed soil. They were thinking
5 this could be a potential burial site. So we
6 proceeded to that location. It's just west of
7 the salvage yard, at the end of Kuss road.

8 Q. What did you find when you arrived at that
9 location?

10 A. We were taken out into the woods a little bit and
11 was indeed an area with disturbed soil. To me it
12 didn't look like a grave site. It looked more
13 like a rotten stump to me, where the wood had
14 just turned into like humus. There were no
15 plants growing up through it really. So it was a
16 barren spot. So it kind of looked like it was
17 disturbed.

18 The normal grasses and moss and stuff
19 growing in the area around it weren't here, so it
20 did look odd. There was some whitish colored
21 plastic sticking up out of the ground in sort of
22 a perimeter, maybe 3 feet in diameter. The
23 plastic to me looked like it was decomposing,
24 getting brittle and just flaking off on to the
25 ground, on its own. Those little flakes were

1 still there right under the plastic.

2 Q. What does that signify with respect to the age of
3 that plastic and that particular site?

4 A. Well, the fact that little bits were directly
5 below the plastic that was sticking out of the
6 ground indicated to me that it hadn't been
7 disturbed recently and that that plastic had been
8 there for quite some time.

9 Q. Perhaps years?

10 A. Perhaps.

11 Q. So your conclusion, with respect to the
12 possibility of any type of burial site, was what?

13 A. Well, at that point I was also informed that they
14 had been working a blood hound with a scent
15 from --

16 ATTORNEY BUTING: Objection as to hearsay
17 at this point.

18 ATTORNEY FALLON: That's fine.

19 Q. (By Attorney Fallon)~ Mr. Ertl, just in terms of
20 based on all the knowledge you had available to
21 you, and in particular your examination of this
22 location; what did you conclude regarding the
23 possibility, or no possibility, of a burial site?

24 A. My preliminary indication was that this was not a
25 burial site.

1 Q. Approximately how long did your examination of
2 that particular site take?

3 A. Well, the first thing, they wanted to get
4 permission from whoever owned that property.
5 They needed to figure out who owned that
6 property. They got written permission from that
7 person. Guang and I, then, went in and
8 photographed the area.

9 We sent Chuck back, then, to the salvage
10 yard, to do the latent fingerprint processing on
11 the two vehicles from the night before. This is
12 about 3:00 in the afternoon. So it was dry,
13 wasn't raining at that point. So we sent him out
14 to do that.

15 A warrant was then obtained for the
16 burial area, to search that. And then I began
17 the excavate this humus like material, moving it
18 on to a tarp, digging down. I dug down a little
19 ways and the white plastic perimeter was actually
20 underneath all of that humus material on the flip
21 side of the white plastic, was the label peat
22 moss. It was an old bail of peat moss.

23 Under that plastic was the remnants of
24 an old wooden pallet that was decomposing into
25 the soil. I picked the pieces of wood out, dug

1 down into the soil a little bit and ran into
2 roots, fine root mat from the surrounding plants
3 was well under the entire peat bag.

4 And where there were little slits, small
5 perforations in the peat bag, there were little
6 shoots starting to come up through it. So,
7 again, indicating to me that this area had not
8 recently been disturbed.

9 I then dug down past the roots and
10 looked at the soil layering. It looked like it,
11 again, had not been disturbed. But at that point
12 I concluded this was not a burial site.

13 Q. I'm going to have the screen project Exhibit 84
14 for us and ask if you recognize that general
15 vicinity, and in particular drawing your
16 attention to the top of the photograph displayed
17 there; does that look familiar to you?

18 A. I can't orient to that.

19 Q. Okay.

20 A. I know there were some ponds, but I had never
21 gotten to the ponds.

22 ATTORNEY BUTING: I have no objection if
23 counsel points out the locations that you are
24 referring to and see if he can identify it that way.

25 ATTORNEY FALLON: It's not necessary.

1 Thanks for the offer.

2 ATTORNEY BUTING: Okay.

3 A. Okay. I see something I recognize.

4 Q. What do you recognize? Take your pointer and
5 tell us what you recognize.

6 A. This is the residence of Steven Avery.

7 Q. Right.

8 A. This is the garage. And this is the road to the
9 command center. And this is a field. And I
10 didn't walk that field myself, but I was informed
11 somebody had.

12 ATTORNEY BUTING: Objection, hearsay.

13 A. Looks like that's the --

14 THE COURT: Hold on a second.

15 ATTORNEY BUTING: "I was informed", he
16 should avoid that.

17 A. Okay.

18 ATTORNEY FALLON: It's just his way of
19 explaining how he got from point A to point B. It's
20 not offered for the truth of the matter. It's just
21 the effect on the listener as he investigated, did
22 his job.

23 THE COURT: Based on what he said, I can't
24 tell if it's hearsay or not because I don't know the
25 purpose for which it's being offered. So I reserve

1 ruling at this point. Mr. Fallon, you may proceed.

2 Q. (By Attorney Fallon)~ All right. Mr. Ertl, if
3 you would just confine your opinions and -- or
4 your observations to what you saw and what you
5 did. Again, you were explaining your orientation
6 to Exhibit 84.

7 A. I had been here, Steven Avery's residence, and I
8 was here, if that is the end of Kuss Road.

9 Q. All right.

10 A. I was not in this area here.

11 Q. Okay.

12 A. We drove around on the highway to get here.

13 Q. So that the top of the exhibit that you pointed
14 to, the end of Kuss Road, is that where this
15 examination took place, generally?

16 A. Yeah. The suspected burial site was in this
17 wooded area just to the left.

18 Q. So the record should reflect that he's directing
19 a laser pointer to the area immediately to the
20 left of the cul-de-sac identified as Kuss Road?

21 ATTORNEY BUTING: No objection.

22 THE COURT: Record will so reflect.

23 ATTORNEY FALLON: Thank you.

24 Q. (By Attorney Fallon)~ When you finished the
25 examination of that particular area, did you

1 still have daylight or was it dark?

2 A. No, it was about 4 -- or 5:45 and it was dark at
3 that point.

4 Q. And when you completed the examination of that
5 area; what did you do?

6 A. We went back to the Calumet County Sheriff's
7 Department and continued the sifting of the burn
8 barrels. We worked on that until about 9:30 that
9 night.

10 Q. Okay. And directing your attention, again, then,
11 to Tuesday, November 8, did you resume work with
12 respect to the burn barrels?

13 A. Yes.

14 Q. What time did you start that day?

15 A. 8:00 a.m.

16 Q. All right.

17 A. We finished up with the burn barrels about
18 quarter to 11.

19 Q. And how many barrels did you, in fact, examine
20 that day?

21 A. Three. There were two from the original four.
22 And then there was a fifth barrel that had been
23 recovered and brought to the garage.

24 Q. Tell us about the fifth barrel, would you please.

25 A. We were informed that it had come from --

1 ATTORNEY BUTING: Objection again, hearsay.

2 ATTORNEY FALLON: One second.

3 Q. (By Attorney Fallon)~ Mr. Ertl, all I want you to
4 do is describe the fifth barrel?

5 A. Okay.

6 Q. Don't tell us what you know about the barrel,
7 just what you saw and what you did with the
8 barrel. All right.

9 A. It looked very much like the first four barrels.
10 It was a steel 55 gallon drum, with the top cut
11 off, apparently to burn things in. The fifth
12 barrel didn't have much in the way of unburned
13 material in it, where as the other ones had.

14 This one had a car wheel and what looked
15 to be the remnants of a tire; the steel cords
16 wrapped around the wheel on top of the barrel,
17 inside the barrel. We took that out and there
18 was mostly just ash and debris.

19 We began sifting that and we recovered
20 what looked like electronic components, little
21 circuit boards, a couple of which had the
22 Motorola M emblem on them, that we could see
23 that. And several of those type of things were
24 found in the sifting. There was also what looked
25 like to be remnants of batteries, that sort of

1 thing. We collected all that material.

2 Q. And what did you do with it?

3 A. Well, as with all the materials we collected,
4 they were eventually turned over to Calumet
5 County Sheriff's Department.

6 Q. I will have my colleague show you exhibit marked,
7 I believe, 156; do you recognize that?

8 A. It looks like the fifth burn barrel, based on the
9 lack of any other materials, besides mostly burnt
10 materials. And you can sort of identify the
11 square corners of what looked like the circuit
12 boards being recovered from there.

13 Q. Okay. I'm showing you the exhibit on the screen
14 right now. In terms of the contents, as you
15 began to sift the barrel; did those contents look
16 very similar to that?

17 A. Yeah.

18 Q. And with respect to those contents, can you
19 identify anything in the exhibit that you
20 recognize?

21 A. From the photograph, I can't really identify
22 anything they look like.

23 Q. All right.

24 A. But they have square corners, but -- like the
25 things we collected out of the barrel.

1 Q. Okay.

2 A. The right shape and size.

3 Q. There's another close up there, in terms of this
4 particular photograph. And, again, just for the
5 general idea, is that how the barrel looked when
6 you began the sifting process that you just told
7 us about?

8 A. Yes.

9 Q. All right. Very well. Thank you. After you
10 finished examining the barrel, the fifth barrel,
11 what did you do next?

12 A. We then returned to the salvage yard.

13 Q. What did you do when you returned to the salvage
14 yard?

15 A. At that point we were directed to one of the
16 wrecked vehicles in the yard. We were told that
17 one of the searchers had found vehicle license
18 plates within the vehicle. They had taken them
19 out. They had been folded or rolled in such a
20 way that he couldn't read the number on the
21 plate. So he unrolled it or unfolded it and was
22 able to read the plate. And it was the license
23 plate number for the RAV4 vehicle.

24 Q. So what did you and the rest of your team do with
25 respect to the vehicle?

1 A. We went over and photographed the position of the
2 vehicle, the surrounding area. We examined the
3 inside of the vehicle, we processed it for latent
4 prints. And we collected the license plates.

5 Q. All right. And what was the next task that you
6 were asked to perform that day?

7 A. Well, Guang Zhang and I left that immediate area
8 to take some general overall photographs of the
9 salvage yard, while Chuck was doing the latent
10 print processing on that vehicle. When we
11 arrived back, we were requested -- We had the
12 request for the use of our sifting equipment.
13 There was a burn pit behind the garage that they
14 wanted to use our sifting equipment on.

15 Q. And who was asking for your assistance, and in
16 particular, your sifting equipment?

17 A. That was Special Agent Tom Sturdivant.

18 Q. Can you describe this sifting equipment for us?

19 A. It's three aluminum poles to hook together to
20 form a tripod, stands about 6 feet tall. There
21 are chains coming down from the center top of the
22 tripod to which we attach an aluminum frame, so
23 it kind of can swing within the tripod. And on
24 that aluminum frame, we can put different size
25 mesh. You put the materials on top of the mesh

1 and you can use a trowel, or a broom, or just
2 shaking, whatever works best for the material.

3 And then the particles or bits that
4 won't fall through the screen, you can collect
5 and examine. The bits that fell through the
6 screen, we put a tarp under there and saved those
7 for later analysis, if needed.

8 Q. Do you use different types of screens?

9 A. In this case, I believe we used two different
10 types of screens.

11 Q. And approximately what time did you begin to
12 assist with the sifting of the material from the
13 burn pit.

14 A. That was about 3:00 p.m.

15 Q. All right. And generally, would you describe for
16 us how you worked the particular scene there?

17 A. There were -- In addition to Tom Sturdivant there
18 were some other uniformed officers present at the
19 scene. Our team got our sifting equipment, set
20 it up. And I have had some experience with
21 excavating grave sites before so I knew how to
22 dig into the material we wanted to sift without
23 bashing it up and ruining it.

24 So we have a small square nosed, flat
25 shovel. And the ground under the ash in this

1 area was very hard and packed. And so I moved
2 material onto the shovel, onto the sifter. The
3 other officers and Chuck Cates were there picking
4 through the materials. Quite often they would
5 ask me, does this look like a bone. I said, if
6 there's any question, put it in the box. So we
7 collected a lot of material from that --

8 Q. All right.

9 A. -- sifting.

10 Q. Tell us about your experience, in terms of
11 excavating a particular site like this?

12 A. Earlier that summer, we had had a case where it
13 was a homicide and the body had been attempted to
14 be burned in a fire ring. It wasn't a complete
15 destruction of the body and then pieces of it had
16 been buried. So I had, earlier that summer, been
17 involved with excavating the ash material in that
18 pit and also with the excavation of the burial
19 site. And I had previously done at least two
20 other just straight burial sites, without burning
21 involved. Tom Sturdivant indicated to me that he
22 had been also involved in some burn where victims
23 had been burned.

24 Q. In terms of your experience, then, how --
25 describe for us how the material was actually

1 taken from the pit and what efforts you made so
2 as not to unduly disturb the site or to damage
3 any of the material that you were removing. Tell
4 us how you managed that.

5 A. Well, we used the flat shovel to slide underneath
6 it on the hard ground to collect things. We also
7 used a mason's trowel to gently excavate --
8 excavate and loosen the material and then place
9 it onto the screen. And at that point we had
10 additional mason's trowels and whisk brooms
11 available to move the material to let the smaller
12 materials fall through the screen and then you
13 could examine the material that remained on top
14 of the screen.

15 Q. All right. Who actually did the shovel work, as
16 it were, and who did the actual picking through
17 what was placed in the sifter?

18 A. I believe I did most of the shovel work. My
19 photographer also did some shoveling. I don't
20 recall anyone else doing shovel work.

21 Q. And did you have -- or were you aided with lights
22 to conduct this task on that?

23 A. No, we didn't have any lights.

24 Q. What time did you --

25 A. We used flashlights.

1 Q. Thank you. What time did you cease that work?

2 A. It was about 5 p.m.

3 Q. I would like to show you Exhibit No. 50. With
4 the exception of the presence of the dog, I think
5 previously identified as Bear, is that a true and
6 accurate portrayal of the pit?

7 A. Yeah. This is the area where we excavated that
8 grayish colored material and sifted it.

9 Q. May the record reflect the witness has identified
10 a darkened gray area he used, which is depicted
11 in the bottom part of Exhibit 50.

12 THE COURT: Does the defense agree?

13 ATTORNEY BUTING: Yes.

14 THE COURT: Very well, the record will so
15 reflect.

16 Q. (By Attorney Fallon)~ To whom were the items
17 given that were recovered from this sifting
18 process on Tuesday evening?

19 A. To the Calumet County Sheriff's Department
20 evidence technicians.

21 Q. Do you recall any non-biological material of
22 interest that you may have seen that Tuesday
23 evening during the process?

24 A. There were some metallic items present also.
25 Maybe -- I don't recall specifically, but things

1 like zipper pulls, snaps, rivets. Certainly
2 there was a lot of the cording from tires
3 present. There was a large -- looked like this
4 bench seat from a vehicle that had been burned.

5 Q. We're going to zoom out on Exhibit 50 here. When
6 it became dark and you ceased operations on the
7 burn pit; what did you do next?

8 A. At that point, we turned over all the evidence
9 that we had collected thus far to the Calumet
10 County Sheriff's Department. We were preparing
11 to leave the scene. But before we left, it was
12 requested that we do a luminol treatment of a
13 couple of residences on the property. Luminol is
14 a --

15 Q. Let me stop you there and ask those questions, if
16 I may. First of all, what is luminol?

17 A. Like phenolphthalein, luminol is a chemical test
18 that reacts with blood. It's more sensitive than
19 phenolphthalein. It can detect blood that you
20 can't see, if it's been washed or diluted, or if
21 the specks are so small you can't really notice
22 them, Luminol will allow you to see them.

23 Q. How do you spell luminol, please?

24 A. L-u-m-i-n-o-l.

25 Q. And how did it work?

1 A. You need to have the area you are treating dark.
2 When luminol is sprayed onto a bloodstain, it
3 gives off light so it glows. Anything that's
4 glowing here in the dark, we circle with a piece
5 of chalk and then go back with the lights on;
6 look at the areas we have circled, to see if we
7 can see anything. And then attempt to swab that
8 area and test it again with phenolphthalein.

9 Phenolphthalein is also presumptive for
10 blood. It's more specific than luminol. Some
11 things will react with luminol such as a copper
12 penny, the lead seals we use. Bleach reacts very
13 strongly with luminol. Those sorts of things,
14 cleaning reagents, chemicals.

15 Q. What types of cleaning -- Did you say reagents?

16 A. I did say reagents.

17 Q. What type of -- First of all, what is a reagent?

18 A. You buy a bottle of Bo Peep Ammonia -- Reagent is
19 a word that we use in the laboratory to mean some
20 sort of concoction that you come up with for some
21 specific use.

22 Q. Okay.

23 A. Something you put on your sink to clean with.

24 Q. I was going to say, can you give us a common
25 every day example of a reagent.

1 A. Clorox Bleach.

2 Q. Okay. You were saying -- You were about to
3 explain more on the reagents.

4 A. So luminol is more sensitive, but it's less
5 specific than phenolphthalein. So if it glows
6 with luminol, then we would want to go back and
7 retest that area with phenolphthalein, it's more
8 specific. To be useful for later analysis, we
9 would want it to be phenolphthalein positive.

10 Q. Now, which residences were you asked to conduct
11 this luminol process?

12 A. Steven Avery's and Charles Avery's.

13 Q. And this was Tuesday evening?

14 A. Yes.

15 Q. All right. And let's start with Steven Avery's
16 residence, what if anything did you find there
17 that had previously not been examined, or
18 determined, or observed?

19 A. There were some visible bloodstains on the couch
20 that we had previously not found, that we found
21 with luminol. Other than that, there was nothing
22 that we hadn't already seen.

23 Q. And when you found these stains on the couch
24 react to the luminol, what did you do?

25 A. Circled them with chalk, then we looked at them.

1 They were obviously red brown color, but within
2 the pattern of the couch material, we hadn't seen
3 them previously. So we took cuttings of the
4 couch material and collected the stains.

5 Q. And how about with respect to Charles Avery's
6 residence, what if anything did you find there?

7 A. Again, we found bloodstains on the couch.

8 Q. And what did you do?

9 A. We cut the fabric to collect the stain.

10 Q. Approximately what time did you conclude your
11 investigative work that evening?

12 A. Well, the luminoling went on from about 5:30 till
13 9:30, but in between Steven's residence and
14 Charles' residence, we also did the garage next
15 to Steven's residence.

16 Q. I was going to ask about that. So what did you
17 do inside the garage?

18 A. We had been informed that others had been there
19 before us; there were chalk circles on the floor
20 already. We luminoled, made our own chalk
21 circles, found one spot that was confirmed
22 positive with phenolphthalein, but we were
23 informed that that had already been collected.

24 There was another area that wasn't just a spot on
25 the floor, it was more of a smear.

1 Q. Can you describe this smear in greater detail.

2 A. Roughly 3 to 4 foot diameter area. Faintly
3 glowing under the luminol. No specific spots or
4 stains. Couldn't see anything with the lights
5 on. Just swabbed several places where the
6 luminol had been reacting, tested with
7 phenolphthalein and did not get a reaction with
8 the phenolphthalein.

9 Q. All right. So this is that large area you were
10 talking about?

11 A. Yes.

12 Q. So what did that tell you, as a forensic
13 scientist, about that large area and its reaction
14 to luminol but did not react to the more specific
15 phenolphthalein test?

16 A. Well, there was something that had been spread
17 out in a large area that was reacting. I don't
18 know what. And what cross reacts, cleaning
19 chemicals dilute blood, would react, but it may
20 not show up with phenolphthalein if it was
21 diluted enough. So there was really nothing for
22 us to collect from there.

23 Q. All right. Now, as you think about that
24 particular garage examination, do you have a
25 picture in your mind as to approximately where in

1 the garage this larger spot which reacted to the
2 luminol was?

3 A. Yes, I do.

4 Q. And tell us about that.

5 A. As you face the garage, there was a large
6 overhead door. There was a smaller entry door to
7 the right of that. We went in through that door.
8 Immediately in front of you was an inaccessible
9 area because of the amount of stuff that was in
10 the garage, you know, parts of whatever, I don't
11 know what. And the first stall to the left of
12 the main door was a snowmobile. And then in the
13 further stall away from that door was a small SUV
14 type vehicle.

15 This smeared area was, if you walk in
16 the door, move a little bit to the left around
17 that material, between the material that's on the
18 floor and the snowmobile and then walk straight
19 back toward the back wall until you run into the
20 clutter. It was right in that area in the corner
21 of the clutter, at the rear of the snowmobile.

22 Q. All right. I'm going to have my colleague show
23 you what has been received as Exhibit 107. Is
24 Exhibit 107, would that be of some assistance to
25 you in pointing out the general location of this

1 larger spot?

2 A. There's less clutter than I remember there being
3 but, yes, the vehicle, the snowmobile and some
4 amount of clutter is there.

5 Q. All right. Is it sufficient for purposes of
6 giving you -- giving all of us here a general
7 location of that?

8 A. Yes.

9 Q. All right. I will have that projected on the
10 screen then. Showing Exhibit 107, you have the
11 laser pointer.

12 A. To the rear of this tractor, to the rear of the
13 snowmobile.

14 Q. So you are pointing -- the record will reflect
15 the witness is taking the laser pointer and
16 pointing to the area immediately in front of the
17 green tractor and to the right and behind the
18 snowmobile. Would that be accurate, Mr. Ertl?

19 ATTORNEY BUTING: I would not agree with
20 that.

21 THE COURT: Is that to the front or the
22 rear of the tractor?

23 ATTORNEY BUTING: You are pointing to the
24 rear of the tractor?

25 Q. (By Attorney Fallon)~ The rear of the tractor?

1 A. Right.

2 ATTORNEY BUTING: Okay. An area just to
3 the rear of the green tractor would be accurate.

4 THE COURT: All right. The record will so
5 reflect.

6 ATTORNEY FALLON: Very well.

7 Q. (By Attorney Fallon)~ And, again, would you give
8 us an approximate size of this box?

9 A. Three to four foot diameter.

10 Q. Was it circular in shape or oddly shaped?

11 A. It was irregularly shaped.

12 THE COURT: Excuse me. For clarification,
13 when you say 3 to 4 feet do you mean 3 to 4 feet in
14 diameter, or radius, or what?

15 ATTORNEY FALLON: I think he said 3 to 4
16 foot diameter.

17 THE COURT: Okay.

18 THE WITNESS: Edge to edge.

19 THE COURT: Okay.

20 Q. (By Attorney Fallon)~ Now, is there -- is there a
21 longer measurement that you could somehow use; I
22 know you said a diameter suggests to us across of
23 3 to 4 feet. Is there a general length
24 measurement that you can estimate for us, or not?

25 A. No, I didn't use a measuring tape to measure this

1 area.

2 Q. All right. After completing your examination of
3 the two residences and the garage with the
4 luminol process, what did you do then?

5 THE COURT: Excuse me, Mr. Fallon.

6 ATTORNEY FALLON: Two questions and I'm
7 done.

8 THE COURT: Very well.

9 Q. (By Attorney Fallon)~ What did you do?

10 A. We had collected the cuttings from the couches in
11 both residences, turned those over to Calumet
12 County. And then talked with Investigator
13 Wiegert and Special Agent Fassbender and were
14 released from the scene.

15 Q. About what time did you clear the scene?

16 A. It was about 9:30 p.m.

17 Q. Very well. Were you called back at all or was
18 that your last trip?

19 A. That was the last.

20 ATTORNEY FALLON: Thank you. We have no
21 further questions for the witness.

22 THE COURT: Very well. Members of the
23 jury, at this time we'll take our morning break. I
24 will remind you as usual that you are not to discuss
25 the case or this morning's testimony during the

1 break. Thank you.

2 (Jury not present.)

3 THE COURT: Counsel, then, please report
4 back at 10 minutes to 11.

5 ATTORNEY KRATZ: Thank you.

6 (Recess taken.)

7 THE COURT: At this time we're back on the
8 record, Mr. Buting, you may commence your
9 cross-examination.

10 ATTORNEY BUTING: Thank you, your Honor.

11 **CROSS-EXAMINATION**

12 BY ATTORNEY BUTING:

13 Q. Good morning, Mr. Ertl.

14 A. Good morning.

15 Q. You have an interesting background and what I
16 would like to do is introduce your curriculum
17 vitae or -- I'm not sure exactly what you call
18 it, statement of qualifications. See if you can
19 identify that for us.

20 A. Yes.

21 Q. That's Exhibit 159 and that is a statement of
22 your qualifications, your training and
23 experience; is that right?

24 A. That's right.

25 Q. Okay. I will leave it here in case you need to

1 refresh your recollection on it. And by the way,
2 you were referring to some notes --

3 A. Yes.

4 Q. -- you mentioned that you -- Could I see those
5 please so that I may -- Just show me what it was
6 you were refreshing your recollection with.

7 A. I have my case notes, I believe you have those,
8 my reports. And this is a sheet I just wrote up
9 last night while I was --

10 Q. Okay. Thank you. If I can just take these with
11 me for a few minutes and I will leave that with
12 you there. Now, in terms of education, I'm not
13 sure that we got the degree out; you are actually
14 -- you have a bachelor of science in ...

15 A. Chemistry.

16 Q. Chemistry, okay. And then you also have a
17 master's in applied molecular biology, right?

18 A. Correct.

19 Q. So it seems like you were on your way to a career
20 as a -- in fact, some of your articles in there
21 look like you were on a career to be a plant
22 biologist of some sort, career path originally?

23 A. I spent a lot of time doing that, yes.

24 Q. In fact, you were a researcher for 10 years with
25 UW Parkside, right?

1 A. Yes.

2 Q. And then you worked at Abbott Labs for a period
3 of time?

4 A. Yes.

5 Q. How long was that?

6 A. About a year.

7 Q. And why did you leave that job?

8 A. I got a call from the Crime Laboratory in
9 Milwaukee; they had an opening and wanted to know
10 if I was interested, and I was.

11 Q. Okay.

12 A. I had applied for a Milwaukee job at the same
13 time as Abbott, but didn't hear back from them.

14 Q. Okay. So you at some point decided to change
15 from being a researcher to being an actual
16 forensic scientist?

17 A. Correct.

18 Q. Okay. And so, in essence, with your field
19 response kind of duties -- I'm sure I'm
20 oversimplifying this, but you are sort of like
21 those guys on CSI who come to the scene and look
22 for evidence, right?

23 A. Yeah, those guys are portraying what -- some of
24 what I do.

25 Q. Some of what you do?

1 A. Yes.

2 Q. You are the guy that goes there and finds
3 whatever?

4 A. Right.

5 Q. Okay. Now, I do want to ask about a couple of
6 things, though. Apparently your forensic science
7 career got interrupted when you went to Texas for
8 a period of time?

9 A. Right.

10 Q. You went from the Milwaukee Crime Lab to M.D.
11 Anderson, which is a world renowned cancer
12 treatment and research facility?

13 A. Yes.

14 Q. And you kind of got back into that field for a
15 short while?

16 A. Yes.

17 Q. Why is that, you just didn't like the forensics
18 field in Milwaukee?

19 A. No, I had got engaged to a woman who dearly
20 wanted to move to Texas and I went along with
21 that.

22 Q. I see. I see.

23 A. The M.D. Anderson job was the job -- first job I
24 could get that I was qualified for down there.

25 Q. Sure.

1 A. The Crime Laboratory job then came about three
2 months thereafter.

3 Q. And you are talking about the Texas Crime
4 Laboratory?

5 A. Texas Crime Laboratory.

6 Q. And you were there for about -- what, not quite a
7 year, 10 months, or something?

8 A. Right.

9 Q. And then you moved back to Milwaukee?

10 A. Yes.

11 Q. Or to Madison, or where?

12 A. To Madison.

13 Q. Okay. And that's when you got your job -- your
14 current job with the Crime Lab in the Madison
15 unit?

16 A. Yes.

17 Q. Okay. Now, during that period of time when you
18 have been a forensic scientist, did you have
19 training in how to go to a scene, properly
20 collect, mark, preserve evidence?

21 A. We had on-the-job training in Texas.

22 Q. All right.

23 A. I attended scenes in Texas. When I got back to
24 Madison, I again attended scenes. I went through
25 the State Crime Laboratory's Evidence Technician

1 School where the fleet put on a school to train
2 law enforcement officers how to collect evidence
3 at the scene, properly process the scene, collect
4 the evidence. And then let them know what we're
5 interested in as far as getting it back to the
6 laboratory, how to properly package it and seal
7 it.

8 Q. So would it be fair to say, then, that you view
9 yourself and your employer, the Wisconsin Crime
10 Lab, view yourself as a highly skilled,
11 competent, evidence collector at the scene?

12 A. Yes.

13 Q. All right. One of the things I noticed on your
14 qualifications, a course you took was called
15 courtroom testimony techniques?

16 A. Yes.

17 Q. And that's where you are taught how to properly
18 present yourself, right?

19 A. Yes.

20 Q. How to look at the jury when you are giving
21 answers?

22 A. Yes.

23 Q. I'm not saying anything is wrong with that, it's
24 just specialized, that's training that you get as
25 part of your job?

1 A. Right. Coming to court is part of my job. I
2 have had training at that -- on that.

3 Q. Training that ordinary people, citizens who get
4 up here, usually wouldn't know, to turn and look
5 at the jury and answer questions and stuff like
6 that?

7 A. That's correct.

8 Q. Unless they are coached to do so by somebody,
9 right?

10 ATTORNEY FALLON: Objection to the term,
11 coached to do so.

12 THE COURT: Sustained.

13 ATTORNEY FALLON: Ask that it be stricken.

14 THE COURT: Court will order that it be
15 stricken from the document.

16 Q. (By Attorney Buting)~ Your current title is
17 senior forensic scientist; is that right?

18 A. Yes.

19 Q. Okay. And you do a lot of DNA testing?

20 A. Yes.

21 Q. The unit you are attached to is a serology unit?

22 A. That's an historical name, yes.

23 Q. Okay. Serology, meaning a broader range of
24 bodily fluid testings, right?

25 A. Correct.

1 Q. Include blood, semen, saliva?

2 A. Yes.

3 Q. And in the old days, before DNA, that's where

4 people would do ADO typing of blood and that sort

5 of thing?

6 A. That's correct.

7 Q. That's not done so much any more in your lab?

8 A. That's also correct.

9 Q. All right. But it does include some training to

10 be able to use these presumptive tests for blood?

11 A. Yes.

12 Q. Like phenolphthalein, right?

13 A. Yes.

14 Q. Or luminol?

15 A. Yes.

16 Q. And, actually, luminol is not what you would

17 consider a presumptive test for blood?

18 A. It's an aid in identifying the location of blood.

19 Q. Okay. But it also identifies so many other

20 agents that its not specific to blood?

21 A. That's correct.

22 Q. It's really just something to help you visualize

23 some areas so that you can then later go and do

24 the real presumptive tests for blood?

25 A. That's correct.

1 Q. Okay. Now, in your training and your experience
2 with evidence collection, would you agree that
3 it's important that -- that if you are collecting
4 evidence at the scene that you have an objective,
5 disinterested status with regard to that crime
6 scene?

7 A. Yeah. As a scientist, that's typically the way
8 we like to think of ourselves.

9 Q. Sure. So you wouldn't want somebody who has got
10 some personal involvement with the suspect even,
11 to be going to the suspect's house, that could
12 taint whatever objectivity you might otherwise
13 have when you collect evidence; is that right?

14 ATTORNEY FALLON: Objection, speculation
15 and relevance.

16 THE COURT: I'm going to sustain the
17 objection.

18 Q. (By Attorney Buting)~ Let me ask it this way, as
19 part of your training and your experience with
20 the Crime Lab collecting evidence, are there any
21 kind of rules that say only disinterested parties
22 should collect evidence at a scene?

23 A. I think there are -- I don't know if there are
24 formal rules, but there are sort of informal
25 rules. I have not ever had it come up with, in

1 regards to a scene, but cases that are submitted
2 to the laboratory, if an analyst happens to know
3 the suspect, or the victim, or even their
4 relatives, they will excuse themselves and ask
5 not to be involved in that case.

6 Q. Sure. And that's just -- that's just common
7 practice, custom and practice in your lab, right?

8 A. Yes.

9 Q. And with regard to collection of scene material,
10 biological type material, that may have DNA in
11 them, there's a very specialized -- well, I
12 shouldn't say that -- but there is a specialized
13 training to go through -- that people go through
14 in order to collect that kind of evidence?

15 A. Yes, there is.

16 Q. DNA evidence, although it's very helpful to
17 scientists, it also has the drawback that it's
18 very sensitive and potentially contamination can
19 affect the results, right?

20 A. I believe that's a possibility.

21 Q. Okay. And, for instance, you know how DNA
22 processing works, but one of the things that's so
23 good about DNA is that you can get profiles from
24 very tiny, little amounts of DNA that may be left
25 at a scene, right?

1 A. That's true.

2 Q. And the way that's done is, you take what
3 otherwise would be a very tiny amount and then
4 it's amplified, it's multiplied, through this
5 process in the lab, to the point where it's
6 testable, correct?

7 A. That's true.

8 Q. And so when it's in that very small stage, or
9 status, if it's contaminated in some way, then
10 the contaminate is multiplied along with it,
11 right?

12 A. Yes, it is.

13 Q. So that has a great potential, then, to give you
14 unreliable results if that would happen?

15 A. I would agree.

16 Q. And should that happen, should some evidence come
17 to your lab that's been contaminated at the
18 scene, you wouldn't necessarily know that when
19 you do the test, right?

20 A. That's correct.

21 Q. And so, have you heard of a phrase, garbage in,
22 garbage out, from a science perspective?

23 A. In regards to computers usually.

24 Q. Okay.

25 A. I guess.

1 Q. But in your field that would also apply to
2 whatever is brought to your lab for DNA testing;
3 if it's contaminated at the beginning, the
4 results will also be contaminated, or I should
5 say, unreliable?

6 A. Yes. Nothing that we do at the lab is going to
7 decontaminate it.

8 Q. All right. Thank you. And, in fact, in your
9 lab, then, there is another risk, items may be
10 contaminated at the scene when they are
11 collected, if they are not collected properly,
12 right?

13 A. Right.

14 Q. They may be contaminated at some point from that
15 -- from the scene until they reach your lab,
16 conceivably?

17 A. Possibly.

18 Q. And then there is also the risk of contamination
19 of an item once it gets to your lab, right?

20 A. That's also possible.

21 Q. In fact, during the test process, contamination
22 may occur in your lab?

23 A. Yes.

24 Q. And, in fact, does occur in your lab?

25 A. Yes.

1 Q. Any lab?

2 A. Yup.

3 Q. All crime labs have that risk and reality that
4 materials, test materials, do sometimes become
5 contaminated, correct?

6 A. That's correct.

7 Q. And, in fact, that's something that's of such
8 concern to your lab that you -- you keep a record
9 of such contamination incident, whenever it's
10 discovered?

11 A. Yes.

12 Q. What's that called?

13 A. Contamination log.

14 Q. Okay. And that relates to incidents where the
15 contamination has been able to be discovered by
16 the scientist who's working on it, right?

17 A. That's right.

18 Q. If some contamination occurs in your lab, though,
19 and it's not discovered by the analyst, there is
20 no record of that, right?

21 A. There's no knowledge and no record, right.

22 Q. All right. Now, sir, you mentioned that you
23 were, on November 4th or 5th, I'm going to direct
24 your attention to that, the first day, you said
25 your answering service got a call; did you

1 actually speak directly, yourself, with Detective
2 Remiker?

3 A. Yes, I called him back.

4 Q. Okay. And he gave you what information at that
5 point?

6 ATTORNEY FALLON: Objection, hearsay.

7 ATTORNEY BUTING: Not for the truth of the
8 matter, simply to establish what his perspective
9 was.

10 THE COURT: I think before I can rule on
11 the objection, I have to hear the answer to know the
12 nature for which it's being offered.

13 A. He told me his name, what agency he was with,
14 that he was working in conjunction with another
15 agency and with the state agency and that he was
16 requesting our assistance with regard to a
17 missing persons case. And he told me the
18 location of the place and he told me who owned
19 the property.

20 Q. And then you said you -- by the time you arrived,
21 it was about 4:00?

22 A. I believe so.

23 Q. Are you sure of that?

24 A. I'm not real good at keeping track of time in my
25 head and you now have my notes on times at the --

1 Q. I will give those back to you, sir.

2 A. -- at the scene.

3 Q. I'm sorry.

4 A. I will make notations as I do things throughout
5 the day and I will note the time.

6 Q. Sure. Take your time and refresh your
7 recollection, if you will, please.

8 A. Yes. Arrived at the scene at 4:00 p.m.

9 Q. All right. And the first place you went, though,
10 was to the Command Post. I think you described
11 it as a firetruck with a canopy over it.

12 A. Yeah.

13 Q. And was that down at sort of the entrance to this
14 salvage yard area where there were some -- some
15 business buildings and that sort of thing?

16 A. It was just before that.

17 Q. Before you even got to that you said?

18 A. Yes.

19 Q. Right down along Avery Road?

20 A. I would say where Avery Road first forked.

21 Q. Okay. And you spoke with Mr. Wiegert and
22 Mr. Fassbender, right?

23 A. Yes.

24 Q. Was anybody else briefing you at that point?

25 A. Not really briefing me, but when we first

1 arrived, you know, you go through a checkpoint,
2 tell them who you are, who's in the vehicle with
3 you. And they record that. And then you are
4 directed to go down the road to where you see the
5 firetruck.

6 And then someone met us there. I don't
7 know who. I told them who I was with, who I was
8 looking for at that point, Detective Remiker.
9 And then I was directed to under the canopy, next
10 to the firetruck. I was introduced to
11 Investigator Wiegert and Tom Fassbender at that
12 point, but there were many other people present.

13 Q. Sure. And then did you go down from that point,
14 directly to where the RAV4 had been located?

15 A. Yes.

16 Q. So how long would you say you spend -- how long
17 would it take from when you got there at 4:00,
18 until you got to the spot where the RAV4 was, 15
19 minutes maybe.

20 A. Fifteen minutes to a half an hour.

21 Q. Okay. And when you got there, the RAV4 was no
22 longer covered with a tarp?

23 A. That's correct.

24 ATTORNEY BUTING: Counsel, could you please
25 put up that photograph?

1 ATTORNEY KRATZ: I have been unplugged.

2 ATTORNEY BUTING: We're still not set up,
3 right?

4 ATTORNEY KRATZ: Can you use the ELMO?

5 ATTORNEY BUTING: No, I would like to use
6 this, please.

7 Q. (By Attorney Buting)~ You are sure, though, that
8 the vehicle was not covered with a tarp when you
9 first arrived?

10 A. They were in the process of removing the tarp.
11 The tarp was present. I was told that some of
12 the branches that were now lying on the ground
13 had been on top of the vehicle, but fell off when
14 they had pulled the tarp.

15 Q. Okay.

16 A. But I don't believe I was present for the
17 unveiling.

18 Q. You don't recall ever seeing the vehicle
19 completely enclosed, covered with this tinted
20 tarp thing?

21 A. No, I don't.

22 Q. All right.

23 THE COURT: Members of the jury, at this
24 time I should let you know that the technical
25 problems we have been experiencing are not the

1 result of any actions by either party to this action
2 and I'm told that, hopefully over the noon hour,
3 they are going to be addressed and things will be
4 cleaned up.

5 ATTORNEY BUTING: We hope. I believe 144
6 exhibit. I don't know if you have it marked yet, 80
7 or 81 would do fine.

8 Q. (By Attorney Buting)~ All right. We'll come back
9 to this in a minute. He's going to have to
10 reboot the thing and get us in a position where
11 you can to look at this photo. So I will move
12 on. We'll come right back to that in a few
13 minutes.

14 You, I believe, said that you took some
15 photographs that we saw, right, one of the first
16 things you did was take photographs?

17 A. Yes.

18 Q. And looked at the debris and things that were
19 piled up against it, to see if there might be any
20 biological evidence you could collect?

21 A. Yes.

22 Q. And did you remove those -- that debris at that
23 point?

24 A. Yes.

25 Q. So you actually moved the Rambler hood away

1 completely?

2 A. Yes.

3 Q. And that fence post, we'll show you in just a
4 moment, but we have seen it many times already,
5 that sort of fence post that's leaning up against
6 the right of the car, that was pulled away?

7 A. Yes.

8 Q. The branches were uncovered?

9 A. (No verbal response.)

10 ATTORNEY BUTING: Could we have a quick
11 side bar, your Honor?

12 THE COURT: Sure.

13 Q. (By Attorney Buting)~ All right. Mr. Ertl,
14 during the break we were able to get this exhibit
15 that we saw yesterday, Exhibit 143, up on the
16 screen for you. Do you see this area in the
17 center of the screen where there appears to be
18 something covered by a tarp?

19 A. Yes, I do.

20 Q. Did the RAV4 look like that to you when you first
21 arrived?

22 A. No.

23 Q. You never saw it in that condition at all?

24 A. No.

25 ATTORNEY BUTING: Counsel, could you just

1 minimize it back to the desktop and then show us,
2 again, the electronic signature for that, please.

3 Q. Can you see that counsel has put his cursor over
4 this photograph now. I don't know if you can
5 read that, it says date picture taken, 11/5/2005,
6 at 4:16 p.m.?

7 A. Yes.

8 Q. All right. Now, it's your testimony that you got
9 to the scene of this RAV4 right around 4:16 or
10 4:15 p.m., right?

11 A. I arrived on the scene around 4 p.m., 15 minutes
12 to a half hour later we were escorted down to the
13 RAV4.

14 Q. Well, if it was 4:15 when you got to the RAV4,
15 then the date or the time stamp on this
16 particular photograph is either an error or your
17 memory is an error, right, because it wasn't like
18 that when you got there?

19 A. Well, I gave you a window of time. I'm not
20 saying I arrived at 4:15; I do not know that. I
21 estimated, roughly 15 minutes to a half an hour,
22 talking with the investigators under the canopy.
23 I don't have a record of exactly when we
24 proceeded to the RAV 4.

25 Q. All right. And you -- you mentioned that it was

1 sort of misting at that point, but it wasn't
2 really raining very hard, or at all?

3 A. Yes.

4 Q. Had it -- Did it appear that it had been raining
5 before you got there?

6 A. It seemed to have been; there were puddles.

7 Q. All right. So you -- Tell me for a minute, maybe
8 I misunderstood the sequence here. At some point
9 you talked about it being lightening and very
10 dramatic, I think were your terms?

11 A. Right.

12 Q. When was that?

13 A. That was near the time we were leaving.

14 Q. So more like 8:00 or 8:30, something like that?

15 A. Yes.

16 Q. But at some point before that, was it also
17 raining while you were there?

18 A. Yes.

19 Q. Do you know when that started?

20 A. I didn't keep track of the weather.

21 Q. I think you said just after dark it began to
22 pour?

23 A. I remember it was raining pretty steady while we
24 were looking at the burn barrels. It was dark
25 out.

1 Q. All right. And just after dark at that time of
2 year would have been 5:30?

3 A. Yeah.

4 Q. All right. So when that was going on and it was
5 raining, the tarp -- I'm sorry -- the vehicle was
6 untented, uncovered?

7 A. Yes.

8 Q. And you didn't stay, you testified you did not
9 stay with the RAV4 that entire time you were at
10 the scene, you moved around to different
11 locations, right?

12 A. That is correct.

13 Q. Your partner, Mr. Zhang, is that how it's
14 pronounced?

15 A. It's pronounced many ways. I say Zhang. He says
16 more like Zhang.

17 Q. Zhang, okay. Does Mr. Zhang also have field
18 response training?

19 A. Yes, he does.

20 Q. Does he also have training in collection of
21 evidence?

22 A. I believe he does. He's been at the lab much
23 longer than I have. He's been on field response
24 much longer than I have.

25 Q. All right.

1 A. I don't know the extent of his training.

2 Q. In fact, his responsibilities are more field
3 response than yours typically are, right?

4 A. No, he's a toxicologist normally.

5 Q. Oh, I see. So the way it works for field
6 response is, they take different people from
7 different units who are ...

8 A. Willing.

9 Q. Willing. All right. Anybody ask you to go in
10 Steven Avery's residence that first night,
11 November 5th?

12 A. I don't believe so.

13 Q. You and your partner, Mr. Zhang, would certainly
14 have been a qualified evidence collection team to
15 go into Mr. Avery's residence, wouldn't you, that
16 night?

17 A. Yes.

18 Q. This is Saturday, November 5th, correct?

19 A. Yes.

20 Q. And so there's no reason why Mr. Fassbender
21 couldn't have used you and Mr. Zhang to search
22 Mr. Avery's residence on Saturday night instead
23 of the people that he did use, right?

24 A. He could have.

25 Q. And you actually have a master's degree, right?

1 A. In molecular biology.

2 Q. Okay. And years of experience as a Crime Lab
3 field response analyst, right?

4 A. Yes.

5 Q. And instead, Mr. Fassbender had you going around
6 and taking photographs and looking through
7 garbage; isn't that right?

8 ATTORNEY FALLON: Objection, argumentative.

9 THE COURT: Sustained, to the form of the
10 question.

11 Q. (By Attorney Buting)~ In any event, no one asked
12 you to go into Mr. Avery's house or garage that
13 first night, November 5, 2005?

14 A. That's true.

15 Q. And while it was raining very hard, you obviously
16 couldn't do much outside?

17 A. Right. We were basically waiting for the wrecker
18 crew and trailer to arrive.

19 Q. So you had time to kill. And rather than use you
20 to search Mr. Avery's residence, they directed
21 you to a golf cart, right?

22 A. Yes.

23 Q. And I think there was something -- oh, there were
24 some burn barrels, right?

25 A. Correct.

1 Q. And by the way, that golf cart, I just want to
2 make it clear, you -- that was in a completely
3 different building, you mentioned a shed or
4 something?

5 A. Yes.

6 Q. Business building?

7 A. Yes.

8 Q. And these dark stains that you found, you did
9 test, and they proved not to be blood, right?

10 A. Correct.

11 Q. Sometimes on something that may be reddish brown
12 in color, may look to the human eye as possible
13 blood, but when you later test it with one of
14 your presumptive tests, you find out otherwise,
15 right?

16 A. That's correct.

17 Q. And that happened a number of times in this
18 particular case?

19 A. Yes, it did.

20 Q. And when you went back to the scene with the
21 wrecker, after that was completed, around 8:30 I
22 think you said?

23 A. Yes.

24 Q. Mr. Fassbender told you that your services
25 weren't needed any more, for that night, right?

1 A. It wasn't immediately thereafter but, yes,
2 eventually around 8:45.

3 Q. He didn't tell you that there was a search
4 ongoing right that moment in Mr. Avery's
5 residence, did he?

6 A. I didn't know that.

7 Q. Didn't ask you to go assist the people that he
8 selected to do the search of Mr. Avery's
9 residence, did he?

10 A. No, he didn't ask that.

11 Q. Okay. And you certainly would have been
12 available, right, you testified to that?

13 A. Yes.

14 Q. You also mentioned that when you got to the area
15 of the RAV, there were some other officers or
16 other people around?

17 A. Yes.

18 Q. But you don't know what the circumstances of the
19 access to that RAV was before you arrived on the
20 scene, right?

21 A. No, I don't.

22 Q. That's not something in your knowledge, so you
23 don't know, really, what if anything happened to
24 that RAV before you arrived, at 4:15 or so?

25 A. That's correct.

1 Q. Okay. Now, Sunday, November 6th, is when you
2 arrived -- you went all the way back to Madison
3 the prior night, and it's about a four hour
4 drive; is that right?

5 A. It's about a three and a half hour drive, but the
6 drive back, due to the reaction of the trailer,
7 we weren't able to go over 50 miles per hour.

8 Q. Okay.

9 A. So took closer to four and a half hours to get
10 back.

11 Q. All right. But, actually, I'm -- I'm on Sunday
12 now, when you are coming back.

13 A. Okay.

14 Q. So you drove up and you got back to the Avery
15 Salvage yard about 3:15 or 3:30 you said?

16 A. Yes.

17 Q. And there were three areas that they wanted you
18 to look at when you first got there, right?

19 A. That's correct.

20 Q. And none of those three, when you first arrived,
21 included Mr. Avery's residence, or the detached
22 garage next to Mr. Avery's residence, did it?

23 A. No.

24 Q. Instead they sent you off to this quarry, a
25 gravel -- I don't know what you want to call it

1 -- to the east of Avery Road, right?

2 A. Yes.

3 ATTORNEY BUTING: I don't know if we have a
4 photograph of that layout, maybe we could identify
5 where this is. Counsel, do you know if you have one
6 of those areas?

7 ATTORNEY KRATZ: I don't know what you are
8 asking for.

9 ATTORNEY BUTING: An aerial photograph far
10 enough out to show this east of the Avery Road area.
11 Actually, let me see the book.

12 ATTORNEY KRATZ: Maybe 86, counsel.

13 ATTORNEY BUTING: I don't think 86 goes out
14 far enough, but we could try that. Let's see. How
15 about 85, put that one up. Or even better, 91, 91
16 shows it I think.

17 ATTORNEY KRATZ: 91 is a diagram.

18 ATTORNEY BUTING: 92. 91 is a -- I will
19 show you.

20 Q. (By Attorney Buting)~ All right. We have got
21 Exhibit 91 on the screen. If you could just
22 orient yourself for a moment, with that, if you
23 can.

24 A. Okay. I have got it.

25 Q. Is this the gravel area that you were first sent

1 to on this photograph?

2 A. Yes.

3 Q. Could you please point at it with the pointer?

4 A. It was right about in there.

5 Q. Okay. Record should reflect left side -- upper
6 left quarter of the screen is being pointed at.
7 And it's a -- looks like a whole excavated block
8 almost?

9 A. Yes, it was a quarry.

10 ATTORNEY FALLON: Your Honor, if counsel is
11 willing, I believe it will be or we could stipulate
12 that it will be identified as Michels' Quarry.

13 ATTORNEY BUTING: Michels, M-i-c-h-e-l-s.

14 ATTORNEY FALLON: I believe that's correct.

15 ATTORNEY BUTING: That's fine.

16 THE COURT: Parties agree?

17 ATTORNEY KRATZ: Yes.

18 THE COURT: Very well.

19 Q. (By Attorney Buting)~ All right. And then at
20 this -- there was some searcher had apparently
21 been there before because there was a -- was it
22 an orange flag or something?

23 A. Right.

24 Q. And you began working that and you found
25 something did test positive for blood of some

1 sort, right?

2 A. Yes.

3 Q. Again, you didn't know whether it was animal or
4 human?

5 A. Right.

6 Q. And to your knowledge, did that, whatever you
7 found over there, eventually have anything at all
8 to do with this case?

9 A. I don't know what happened to that sample after I
10 collected it.

11 Q. Okay. So you don't know whether that turned out
12 to be flesh and blood that had anything to do
13 with this case or not?

14 A. No, I don't.

15 Q. Okay. Well, we'll deal with it later, then.
16 Then you also, then, after you had finished those
17 three tasks, the other two being searching two
18 other vehicles nearby where the RAV was; is that
19 right?

20 A. Well, the three tasks they had in mind for us
21 when we arrived weren't the three tasks we
22 actually completed that day.

23 Q. Okay. So you didn't actually do the vehicles
24 that day?

25 A. We did do the vehicles.

1 Q. All right.

2 A. We did the gravel quarry, then we went into
3 Steven Avery's residence, and then we did the
4 vehicles.

5 Q. So the third task, being the burn barrels, you
6 didn't get to that day?

7 A. Right.

8 Q. So instead they called you into Mr. Avery's
9 residence for some sort of blood spatter
10 examination, right?

11 A. Correct.

12 Q. Now, I notice on your statement of
13 qualifications, you actually had some blood
14 spatter analysis training, right?

15 A. Yes.

16 Q. Are you one of the people that's presented by the
17 lab, to courts and juries, to testify about blood
18 spatter analysis?

19 A. No, I'm not.

20 Q. Someone else in your lab does that?

21 A. Yes.

22 Q. But you have general knowledge that -- that there
23 -- as you demonstrated before, that if someone
24 has a cut and they flip their finger, the drops
25 will fly off, right?

1 A. Yes.

2 Q. And, likewise, you have been to a number of
3 homicide scenes, right?

4 A. Yes.

5 Q. And often times blood spatter is present at the
6 scene?

7 A. Correct.

8 Q. And there's such a thing as high velocity blood
9 spatter, right?

10 A. Correct.

11 Q. And that's something that's often found when
12 someone is shot, with a gun --

13 A. Correct.

14 Q. -- right? The speed of the bullet, without being
15 too graphic here, but causes blood to fly off at
16 a high velocity when it hits a wall, or ceiling,
17 or whatever, an object, it leaves a pattern that
18 can be distinguished from other types of spatter,
19 right?

20 A. Correct.

21 Q. And when you went to Mr. Avery's residence, you
22 saw no such high velocity spatter, right?

23 A. Correct.

24 Q. And when you looked in his garage, you saw no
25 high velocity blood spatter, right?

1 A. Correct.

2 Q. And, then, there's also other types of spatter,
3 lower velocity, like if someone -- if there's a
4 beating and someone is bleeding, you know, head
5 jerking back and forth, something like that,
6 right?

7 A. Correct.

8 Q. And then there's also something called cast off
9 spatter, right?

10 A. Correct.

11 Q. And that would occur if somebody is taking a
12 knife, if someone is, let's say, laying on a
13 mattress, a victim is laying on a mattress, a
14 victim is laying on a mattress and being stabbed
15 repeatedly with a knife, as they come up and
16 down, the knife may cast off blood spatter,
17 right?

18 A. Yes.

19 Q. And you saw no evidence of that in Mr. Avery's
20 residence, did you?

21 A. No, I did not.

22 Q. And you saw no evidence of that in Mr. Avery's
23 garage either, did you?

24 A. That's correct.

25 Q. And none of this low velocity stuff that I talked

1 about that can be from when someone is being
2 beaten either?

3 A. Right.

4 Q. No blood spatter at all in Mr. Avery's residence,
5 of any kind?

6 A. Just bloodstains. No recognizable patterns.

7 Q. Right. And those bloodstains were scattered,
8 more isolated, right?

9 A. There were a grouping in the bathroom and then
10 the entry door directly across the hallway from
11 the bathroom.

12 Q. Okay. One spot?

13 A. I would say the other one on the other door would
14 have been more isolated from those.

15 Q. Okay.

16 A. And the ones on the couch were near the second
17 entry.

18 Q. But, for instance, the ones in the bathroom,
19 there's one on the floor, right?

20 A. Not just one, but several.

21 Q. Okay. And also one on the sink?

22 A. Some in the sink, some on the vanity.

23 Q. All right. Consistent with somebody who may have
24 cut their finger or cut themselves shaving in a
25 bathroom?

1 A. Possibly. The ones on the floor and the vanity
2 looked like they had been diluted down with
3 water. So, yeah, cut yourself and then cleaned
4 up.

5 Q. Okay. But still there, where you could see them?

6 A. Yes.

7 Q. In fact, it was obvious to you that somehow you
8 were informed that all of those had been sampled
9 prior to your arrival on Sunday evening,
10 November 6th?

11 A. No, not all of them.

12 Q. Okay. Some of them had apparently, though,
13 right?

14 A. The ones on the entry door in the bathroom had.

15 Q. The one on the floor?

16 A. None in the bathroom had been sampled yet.

17 Q. Okay. All right. So you identified the ones in
18 the bathroom that had not yet been identified,
19 but the other ones had been identified and
20 sampled before?

21 A. Except for the ones on the couch and the second
22 entry door.

23 Q. Well, the ones on the couch you didn't notice
24 that night, I thought it was ...

25 A. That was later.

1 Q. We're just talking about Sunday night for now,
2 okay.

3 A. Okay. So the ones on the entry door across from
4 the bathroom had been sampled previously. The
5 one on the other entry door and the ones in the
6 bathroom had not.

7 Q. Okay. So you went to the entry door of
8 Mr. Avery's bedroom and looked at that --

9 A. Yes.

10 Q. -- that area? Did you actually go inside of his
11 bedroom?

12 A. Yes.

13 Q. Did you see a Toyota key sitting on the floor in
14 plain view?

15 A. No, I didn't.

16 Q. Did you see a key anywhere in that bedroom on the
17 night of November 6th?

18 A. I don't recall seeing any keys. I wasn't looking
19 for keys.

20 Q. You talked about trace evidence as being things
21 like fibers and hairs and those sorts of things,
22 right?

23 A. That's correct.

24 Q. Trace evidence can also, occasionally, be left
25 just by handling something, correct?

1 A. Sure.

2 Q. If you know? If you are not -- if it's beyond
3 your qualifications just please tell me.

4 A. Well, you could consider DNA as trace evidence
5 and that can be left by just handling items.

6 Q. And, particularly, if somebody uses an item
7 daily, one would expect handling something daily
8 that there would be their DNA left on there,
9 right?

10 A. Yes.

11 Q. Such as a car key?

12 A. Sure.

13 Q. Somebody who had had a car key for five or six
14 years, handling it every single day, if you were
15 to test that in your lab, you would likely find
16 their DNA, wouldn't you?

17 A. I would think that would be a good possibility.

18 Q. Unless somebody had wiped it off, cleaned it up
19 in some way, before you got to it, right?

20 A. Yeah.

21 Q. Okay. Now, you mentioned that Mr. Cates was with
22 you, also on Sunday evening, correct?

23 A. Correct.

24 Q. And his specialty is fingerprints?

25 A. Yes.

1 Q. Was he asked to look in Mr. Avery's residence to
2 see if there were any fingerprints of note?

3 A. No, we were sent in mostly to look for blood
4 spatter pattern. But as a fingerprint analyst,
5 when he sees a fingerprint, he will look at it.

6 Q. If someone is wearing gloves, they may not leave
7 fingerprints, right?

8 A. Correct.

9 Q. But if someone is wearing -- is not wearing
10 gloves, they might very well leave fingerprints
11 when they touch items, right?

12 A. Yes.

13 Q. And for instance, let's go to the RAV4 a minute
14 and imagine that this is the hood, this desk
15 right in front of you. All right.

16 A. Okay.

17 Q. To open a hood such as the RAV4, which you know
18 how to do that, right?

19 A. Well, if it's like my car, you have to pull a
20 lever inside the vehicle --

21 Q. Right. Okay.

22 A. -- that releases it a little bit. Then you have
23 to reach in under the hood --

24 Q. Sure.

25 A. -- and release another lever.

1 Q. So then you release another lever and then your
2 fingers in some way come in contact with the hood
3 as you lift it, right?

4 A. Right.

5 Q. And let's talk about the tailgate of this RAV4 a
6 moment, okay? You looked at that carefully?

7 ATTORNEY BUTING: Do you want to put up
8 that exhibit for me for a moment, please. It's
9 Exhibit 29.

10 ATTORNEY KRATZ: You want the one Mr. Ertl
11 looked at, or you want the one Ms Sturm looked at?

12 ATTORNEY BUTING: Twenty-nine, I think, is
13 Sturm's.

14 ATTORNEY KRATZ: Not the Crime Lab one?

15 ATTORNEY BUTING: Is there a rear view one?

16 ATTORNEY KRATZ: Absolutely, 135.

17 ATTORNEY BUTING: That's fine. That would
18 do.

19 Q. (By Attorney Buting)~ Can you locate the handle
20 or the lever that one would use to open that rear
21 tailgate door?

22 A. I'm not real familiar with that vehicle, I would
23 assume ...

24 Q. All right.

25 ATTORNEY BUTING: This one is taken at

1 night, if we might look at 29, please, counsel.

2 Q. (By Attorney Buting)~ Does that give you a little
3 bit better view?

4 A. I can see the lock there. I would imagine it's
5 built into that area.

6 Q. And so if somebody is going to open that tailgate
7 door, they have to put their hands right near the
8 lock lever and in some way pull it open with
9 their fingers, right?

10 A. That would be the way I would do it.

11 Q. And if they are not wearing gloves, they might
12 leave fingerprints, correct?

13 A. Correct.

14 Q. If they are wearing gloves, they might not leave
15 fingerprints, or would not, right?

16 A. Depending on the type of glove, you can get some
17 surgical gloves where fingerprints do pass
18 through.

19 Q. All right. But if you are wearing gloves, you
20 are also not bleeding all over the place, are
21 you, if the bleeding -- If you have got a cut on
22 your finger and you are wearing gloves inside of
23 that vehicle, you are not going to be dripping
24 blood into the vehicle, are you?

25 A. If the -- If you are not bleeding enough to soak

1 the glove and then seep through the glove.

2 Q. Sure. If you're bleeding that much, it would be
3 obvious, you would have blood on the steering
4 wheel and everything, right?

5 A. It's hard to say. I don't know the extent of the
6 bleeding. It would depend what you would touch.

7 Q. Well, if you were bleeding and not wearing
8 gloves, inside the vehicle, you would also be
9 touching and operating things like the steering
10 wheel and the -- whatever else you might be
11 touching, the door, the door handle, that sort of
12 thing, right?

13 ATTORNEY FALLON: Objection, highly
14 speculative. There's just too many variables
15 unaccounted for in that hypothetical.

16 THE COURT: Sustained.

17 Q. (By Attorney Buting)~ You have seen cases where
18 people do leave fingerprints, right?

19 A. Yes.

20 Q. And you take photographs of those?

21 A. Yes.

22 Q. Did you take any photographs, or see any
23 fingerprints anywhere inside this vehicle?

24 A. I only looked inside the vehicle, through the
25 glass, with a flashlight, at night. I did not

1 see any fingerprints.

2 Q. And did Mr. Cates process the vehicle at all for
3 any kind of fingerprints?

4 A. Mr. Cates wasn't at the scene when the vehicle
5 was at the scene.

6 Q. Okay. So there was no fingerprint processing
7 done of the vehicle at the scene, right?

8 A. That's correct.

9 Q. That would have occurred later, at the Crime Lab?

10 A. Correct.

11 Q. All right. Well, we'll talk with those people
12 later. Going back to Sunday, you mentioned that
13 Mr. Cates was with you and you said something
14 about these two other vehicles, near the pond,
15 that he processed the fingerprints; do you recall
16 that?

17 A. He did not process them on Sunday; he processed
18 them later.

19 Q. Oh, that's right, you said there was dew on it?

20 A. There was dew on it.

21 Q. Okay. But there was some bloodstains in the
22 other two vehicles?

23 A. Yes.

24 Q. And these are the two vehicles that were junk
25 salvage vehicles, right?

1 A. Yes.

2 Q. Many of which get there because they have been in
3 automobile accidents, right?

4 A. I assume so, yes.

5 Q. Where sometimes people are injured and bleeding,
6 right?

7 A. That's correct.

8 Q. So that might, in fact, account for the blood
9 that was in those other two vehicles, right?

10 A. Yeah. I got that impression when -- just
11 thinking about the number of sites the cadaver
12 dogs were interested in and then thinking about
13 this as a salvage yard and some of these vehicles
14 were probably in accidents and they have may have
15 been -- blood put in them at that point.

16 Q. Totally unrelated to this case?

17 A. Correct.

18 Q. And to your knowledge, did the -- did anything
19 that Mr. Cates found, either blood or
20 fingerprints, on those other two vehicles, have
21 anything at all to do with this case?

22 A. To my knowledge, I do not know.

23 Q. Okay. Now, November 7th, that's a Monday, right?

24 A. Yes.

25 Q. Did you stay overnight in the area, I assume?

1 A. Yes.

2 Q. So you weren't back at the lab, you don't know
3 what was going on with the RAV4 that was at the
4 lab?

5 A. That's right.

6 Q. Okay. You started doing -- Did you actually
7 complete the burn barrels? No, you started them,
8 then got interrupted?

9 A. Right.

10 Q. And then you went off to this -- turned out to be
11 nothing, but at the time you thought might be a
12 possible burial site, right?

13 A. Right.

14 Q. And that took up a good part of your day, sounds
15 like?

16 A. Correct, from about 12:30 to quarter to 6.

17 Q. Okay. So did you do anything else later that
18 evening, then?

19 A. We went back to the garage in Chilton and
20 continued sifting the barrels.

21 Q. Now, by sifting the barrels, are you talking
22 about using that same contraption you mentioned
23 earlier?

24 A. Yes.

25 Q. Is that something you always have with you, in

1 your van?

2 A. Yes.

3 Q. Yes?

4 A. Yes.

5 Q. Okay. Not something you brought specifically for
6 this case?

7 A. No.

8 Q. And then the next day, November 8th, you started
9 off back at the sheriff's department, right?

10 A. Yes.

11 Q. We're talking about here in Chilton?

12 A. Yes.

13 Q. These barrels, where were they kept?

14 A. In the service garage behind the sheriff's
15 department.

16 Q. And when you got there, was there -- were they in
17 any kind of container or were they just sitting
18 out in the garage?

19 A. When we first arrived they were in an enclosed
20 trailer.

21 Q. That's the day before?

22 A. Right.

23 Q. And was that sealed with any kind of evidence
24 tape?

25 A. I believe the door to the garage had been sealed

1 with evidence tape. And the trailer had a
2 padlock on it. I don't recall if that had
3 evidence tape on it or not.

4 Q. And there's no other door to the garage from the
5 interior; this is a detached garage?

6 A. Detached garage.

7 Q. Okay. And the gentleman that you said was
8 helping you was Jeremy Hawkins; is that right?

9 A. (No verbal response.)

10 Q. And to your knowledge is -- he is employed with
11 Calumet County Sheriff's Department, right?

12 A. Yes.

13 Q. And to your knowledge, he is certainly qualified
14 to be evidence collection specialist, right?

15 A. I believe he presented himself as their evidence
16 caretaker.

17 Q. He is the main guy, right?

18 A. I believe so.

19 Q. Did you see him out at the scene on November 5th?

20 A. No, I did not.

21 Q. Or 6th?

22 A. No.

23 Q. All right. This fifth barrel that you examined
24 was on the morning of Tuesday, November 8,
25 correct?

1 A. Correct.

2 Q. And the photograph, I think is still in front of
3 you, that you discussed before, that's the --
4 that's a photograph you took before searching it?

5 A. No, we didn't take that photograph.

6 Q. Who took that photograph; do you know?

7 A. I don't know.

8 Q. Did you take photographs of it before you started
9 searching?

10 A. No.

11 Q. Why not?

12 A. Because it had been removed from where it had
13 been, transported, and then our goal was to sift
14 it and recover what --

15 (Court reporter couldn't hear.)

16 A. Our goal there was to sift the contents. Any
17 documentation of the barrels at the scene, that's
18 -- that was done by somebody else.

19 Q. It may or may not be the way it looked, you don't
20 know?

21 A. No, I don't know. I was presented this this
22 morning and asked if that looked like the fifth
23 barrel, and it does to me.

24 Q. All right. But in terms of it -- it's -- what it
25 looked like out there on the scene; have you seen

1 -- have you ever seen a photograph that shows
2 that?

3 A. He showed me several photographs, one of them was
4 further away and it had the wheel that was in the
5 barrel when I saw it, because this photograph
6 doesn't have the wheel in it.

7 Q. Right.

8 A. So I asked about the wheel. He said, oh, yeah,
9 there's another photograph that shows the wheel.
10 They took the wheel, out looked inside.

11 Q. And that photograph shows the wheel on the
12 ground, next to it, right?

13 A. Right.

14 Q. All right. So you were never brought to the
15 scene of wherever that burn barrel was, yourself?

16 A. No.

17 Q. So, you never actually saw it, you know, in situ,
18 so to speak, wherever it was located, and that's
19 why you didn't take photographs of it?

20 A. Well, they -- I recall that there was a burn
21 barrel on the driveway and that's where I was
22 told this one had been.

23 Q. But you didn't go up and examine it?

24 A. No, did not examine it.

25 Q. The -- One of the things you say that you do is

1 scene photography, right?

2 A. Yes.

3 Q. And, generally, that's supposed to be one of the
4 first things that's done at the scene before
5 anybody starts searching, right?

6 A. Right.

7 Q. So, for instance, had you been asked to go into
8 Mr. Avery's residence on the night of
9 November 5th, very first thing you would have
10 done, before anybody looks anywhere, is take
11 photographs, right?

12 A. Correct.

13 Q. And had you been asked to go into Mr. Avery's
14 garage first, the very first thing you would have
15 done would be to take photographs showing exactly
16 what it looked like, right?

17 A. Correct.

18 Q. Before there's any kind of markings, or chalk
19 circles, or anything like that, right?

20 A. Sure.

21 Q. You want to get a nice good photograph that
22 really captures everything that's in there, all
23 the junk that you mentioned?

24 A. Yes.

25 Q. And the location of all the items, right?

1 A. Correct.

2 Q. And only then, after you photographed and
3 documented the scene, do you start moving things
4 around, collecting, whatever?

5 A. Correct.

6 Q. Because once you do that, you have altered the
7 scene?

8 A. That's correct.

9 Q. And when you were called over to this burn area,
10 behind the garage, you didn't take any
11 photographs then either, did you? And that's
12 because the scene had been altered before you
13 arrived; isn't that right?

14 A. Yes.

15 Q. And, in fact, you expressed concern at one point,
16 to the investigators in this case, that you had
17 been unable to make a more thorough record
18 because you were not used for the complete scene
19 processing; isn't that right?

20 ATTORNEY FALLON: Objection to the term
21 concern; it's speculation.

22 ATTORNEY BUTING: All right. We'll get
23 more specific then.

24 THE COURT: All right.

25 Q. (By Attorney Buting)~ Mr. Ertl, showing you

1 Exhibit No. 160, can you identify that, please.

2 A. It's an email to and from Tom Fassbender and
3 myself. He emailed me and I replied to him.

4 Q. All right. And in this email, I don't know that
5 we need to put it up on the ELMO, you are
6 explaining why you did not take photographs of
7 either the burn pit area or where the license
8 plate vehicle was; is that right?

9 A. Correct.

10 Q. And in that you -- you state, in regards to the
11 burn pit, our involvement began with a request to
12 use our sifting equipment; the scene had
13 obviously been altered at that point; is that
14 right?

15 A. Correct.

16 Q. And, then, would you go on and read the next
17 sentence, please. Read it out loud.

18 A. I'm trying to find it; I was not following along,
19 I was recollecting.

20 Q. Second paragraph on the top there, had we.

21 A. Had we been working any of these scenes from
22 start to finish, there would likely have been
23 more thorough photo records, done by us.
24 However, under the circumstances, we were merely
25 able to provide technical assistance rather than

1 complete scene processing.

2 Q. Okay. So, more typically, if you are called to
3 the scene to process ev -- potential evidence,
4 you are able to do so from start to finish,
5 right?

6 A. I would say the majority of cases, when we arrive
7 at the scene, we are given over control and we
8 take the lead.

9 Q. Okay.

10 A. And process it according to the way we would
11 normally process.

12 Q. Okay. And Mr. Fassbender didn't let you do that
13 in this case, did he?

14 A. In this case, I don't believe that would have
15 been possible, due to the size of the scene.

16 Q. Sure, but -- Because of the 40 acres or whatever?

17 A. Yes.

18 Q. But with regard to this, Mr. Avery's residence,
19 Mr. Fassbender didn't let you do that, right?

20 A. He didn't request that we do that?

21 Q. By the time you went into Mr. Avery's residence,
22 it was clear someone else had already been
23 through it, right?

24 A. Yes.

25 Q. And with regard to Mr. Avery's garage, or

1 detached garage next to his residence,
2 Mr. Fassbender didn't allow you to do that
3 complete scene processing there either, did he?

4 ATTORNEY FALLON: Objection to the use of
5 didn't allow. The question is -- it's improper as
6 to --

7 ATTORNEY BUTING: I will rephrase.

8 THE COURT: Thank you.

9 Q. (By Attorney Buting)~ He didn't ask you to do
10 that?

11 A. He did not.

12 Q. Okay. And, likewise, with this burn area, by the
13 time you arrived, it was impossible for you to do
14 a complete scene processing because someone else
15 had been altering it, right?

16 A. Correct.

17 ATTORNEY BUTING: Judge, I have a lot to go
18 yet; we may want to take a break?

19 THE COURT: All right. We'll take our
20 lunch break at this time. Members of the jury,
21 again, do not discuss this case during your lunch
22 hour and we'll see you after lunch.

23 (Jury not present.)

24 THE COURT: We're now outside the presence
25 of the jury. You may be seated. I will indicate,

1 for the record, there was a request by the defense
2 for a side bar earlier and that was for the purpose
3 of raising an issue as to whether or not the defense
4 had all of the pages from this witness' report.
5 It's my understanding the parties are going to
6 explore that issue over the noon hour?

7 ATTORNEY STRANG: It's not really even an
8 issue your Honor. I suspect that the State doesn't
9 have the last 14 pages either, because otherwise we
10 would. If it turns out that we both have them
11 already, that's fine. There is no issue. I don't
12 expect these will affect the cross-examination or
13 that there's been any tendency to hamper the
14 cross-examination if, in fact, we don't have -- it's
15 just the last 14 pages of the Crime Lab evidence log
16 form.

17 THE COURT: All right. And I also asked if
18 -- I had Exhibit 89 as I was coming back in here.
19 Along those lines, counsel, there was a question
20 raised late last week as to whether Exhibit 89 had
21 been admitted, I checked with the court reporter
22 from Wednesday and he indicated toward the end of
23 the day, I think the Court asked if all the exhibits
24 that had been marked were to be admitted and there
25 was no objection from the parties.

1 But it's -- My recollection is that this
2 may not be the only exhibit that's been marked,
3 but was not intended by the parties to be
4 admitted. So I would ask, over the noon hour, if
5 you could go over your list of exhibits and make
6 sure we determine whether or not there were any
7 other exhibits that had been listed as admitted
8 but were not intended by the parties to be
9 admitted. I think Exhibit 89 here may be one of
10 those. We'll deal with that at the end of the
11 day. Anything else before we break for lunch?

12 ATTORNEY STRANG: I think the State
13 prepared an order for your Honor's signature on
14 personnel records that we have requested. That
15 order is in acceptable form to the defense.

16 THE COURT: All right. Let's resume at
17 1:15.

18 (Noon recess taken.)

19 (Jury present.)

20 THE COURT: At this time, Mr. Buting, you
21 may resume your cross-examination.

22 ATTORNEY BUTING: Thank you, your Honor.

23 **CROSS-EXAMINATION CONTD**

24 BY ATTORNEY BUTING:

25 Q. All right. Mr. Ertl, I'm not exactly sure where

1 we left off, but let's talk about luminol for a
2 minute?

3 A. All right.

4 Q. Luminol is this substance that reacts to a number
5 of different things besides just blood, right?

6 A. That's correct.

7 Q. Other kinds of chemicals, you mentioned cleaning
8 agents, bleach reacts real highly to that, very
9 strong?

10 A. Yes.

11 Q. Which means very bright?

12 A. Bright and fast, yes.

13 Q. Okay. What about other kinds of things,
14 transmission fluid perhaps, oils, things of that
15 nature?

16 A. I know it reacts with some metals, copper and
17 lead in particular. Transmission fluid might
18 have some metals ground into it, so it's
19 possible.

20 Q. Okay. Maybe it would not be as strong a
21 reaction, maybe some -- a faint reaction,
22 something like that?

23 A. Perhaps.

24 Q. Okay.

25 A. I'm not sure.

1 Q. And this is a garage -- Let's go to the garage
2 floor for a minute, where you said you had a
3 faint reaction in this little area, 3 X 4 area.
4 A. Right.
5 Q. Not a real bright, quick reaction like you get
6 with bleach, for instance?
7 A. Right.
8 Q. And the area, then, you then sampled and tested
9 with phenolphthalein, after that, right?
10 A. That's correct.
11 Q. You turn the lights and then you used these very
12 sensitive phenolphthalein tests to see if there's
13 any possible blood?
14 A. Correct.
15 Q. And that would be human or animal, right?
16 A. That's correct.
17 Q. And that particular area, you didn't find any --
18 any kind of blood reaction at all?
19 A. That's correct.
20 Q. But there were some other samples of blood that
21 had been recovered earlier, as far as you could
22 tell?
23 A. That's what I was told.
24 Q. And do you know, did you ever find out what the
25 results of those blood -- whose blood it was or

1 wasn't?

2 A. No.

3 Q. That comes later, not part of your
4 responsibilities; is that right?

5 A. That's correct.

6 Q. Okay. All right. Let me switch and talk with
7 you for a few minutes about the burn pit, okay.
8 You talked about some experience that you had
9 being called out to the woods to look at bones or
10 something of that nature?

11 A. There had been a couple of burial sites and one
12 in particular earlier that year that it involved
13 burning.

14 Q. Okay. And so you're -- you have enough
15 experience to be able to recognize bones?

16 A. Yes.

17 Q. Not necessarily distinguish human bone from
18 animal bone, but you can kind of tell what's bone
19 and what's rock and that sort of thing?

20 A. Yeah, I could -- maybe not all kinds of rock, but
21 bone from say plant materials, piece of bark.

22 Q. Bone from -- you mean you can distinguish bone
23 from plant materials or bark?

24 A. I have a -- as you pointed out, I have a
25 background in plant biology, so I feel

1 comfortable with plant materials versus bone, but
2 not so comfortable distinguishing, say, some
3 limestone versus a piece of bone.

4 Q. Okay. And, you know, you are not actually a
5 forensic anthropologist?

6 A. No, I'm not.

7 Q. Did -- To your knowledge, did Mr. Fassbender call
8 a forensic anthropologist out to the scene of the
9 burn pit?

10 A. Not to my knowledge.

11 Q. Or Mr. Wiegert?

12 A. No, not to my knowledge.

13 Q. Okay. Now, you talked about excavating this site
14 a little bit. Do you know how a possible bone
15 site is supposed to be searched by, you know,
16 what an archaeologist or forensic archaeologist
17 or anthropologist would do?

18 ATTORNEY FALLON: Objection, compound
19 question, which is it?

20 Q. (By Attorney Buting)~ Archeologist.

21 A. I have no training in archaeology. We do
22 excavate burial sites differently than we
23 excavated this ash pile.

24 Q. Okay. And when you do that, one of the very
25 first things you do is make sure that you

1 documented, with photographs, before the site has
2 been altered, right?

3 A. That would be the first step.

4 Q. And that, in fact, you take numerous photographs,
5 throughout the process, documenting it before,
6 during and after, right?

7 A. Quite often, yes.

8 Q. And that you -- The proper way is to sort of
9 establish a contamination path, let's call it, an
10 area outside of the area that you think might be
11 worthy of excavation, where you are allowed to
12 walk back and forth and back and forth and not
13 worry about contaminating anything; is that
14 right?

15 A. Well, that's generally true with most crime scene
16 items.

17 Q. All right.

18 A. You want to limit the access to the site in some
19 way.

20 Q. Okay. But when it comes to excavating one of
21 these sites where there might be a burial site,
22 for instance?

23 A. Yes.

24 Q. You divide it up into -- either with string, or
25 something, you ideally would have four posts

1 outlining the area with strings and then dividing
2 it up into various squares or quadrants; are you
3 familiar with that?

4 A. I'm familiar with that, in my little knowledge of
5 archaeology, I have seen that done. I have
6 worked with forensic anthropologists at burial
7 sites and they have not done that.

8 Q. All right. But one of the things, when you do
9 that is, you work from the outside in. In other
10 words, from where the outer edge is, where your
11 path is, you work your way -- the outer edges
12 first and then you work your way into the center
13 so that you can do the entire area?

14 A. Well, usually with a burial site, your first goal
15 is to define the extent of the hole. So, once
16 you have defined the perimeter, then you work
17 outside of that and dig down alongside of where
18 you think the burial site actually is. And then
19 you excavate from down and sides and underneath
20 to the core --

21 Q. Okay.

22 A. -- to where the body would be.

23 Q. Sort of outside, into the middle, right?

24 A. Correct.

25 Q. Generally. And when you do recover an item, in

1 the course of that excavation, it's important
2 that you make note of exactly where in that --
3 within that perimeter area you find that bone or
4 that item, right?

5 A. In my past experience, we would, if the body is
6 intact, we would locate where the head is, where
7 the shoulders, the joint, and the hands would be,
8 where the hips are, the knees, and the feet, just
9 to get the orientation of the body in the grave.

10 Q. Okay. Now, at this site, you didn't have a
11 perimeter with a containment path around it,
12 right? I mean, it was being worked on by the
13 time you got there, right?

14 A. Well, it wasn't a burial, per se, so it wasn't a
15 great perimeter; there was a scooped out area of
16 dirt with ashes.

17 Q. Right.

18 A. So the ashes was our perimeter.

19 Q. Okay. But somebody would use the shovel -- you
20 said mostly you, but sometimes others -- and dig
21 up a portion, then bring it over to be sifted,
22 right?

23 A. Right.

24 Q. And this area, the whole area that was excavated,
25 was about how big?

1 A. Probably roughly the size of this table I'm
2 sitting at.

3 Q. And nobody -- When you would bring over a shovel
4 here or shovel there, nobody made or kept track
5 of where exactly in that -- I guess we should
6 identify it for the record. The area is what,
7 maybe 5 X 4?

8 A. 5 X 4 feet, yeah.

9 Q. Okay. Nobody made or kept track of where, within
10 that area, any particular suspected bone may have
11 been, right?

12 A. No.

13 Q. And if any -- any suspected bone was found
14 outside of that area, nobody made specific note
15 of just where, outside of that area, that came
16 from either, did they?

17 ATTORNEY FALLON: Objection, calls for
18 hearsay knowledge. And it's non-specific as well in
19 term of who, what, and where.

20 THE COURT: Well, as far as hearsay, I
21 understand you to be questioning this witness -- I'm
22 assuming he's asking the witness, based on his own
23 knowledge. What was the remainder of your
24 objection?

25 ATTORNEY FALLON: It's non-specific in

1 terms of what was found where, when, by whom. If
2 he's asking the witness what he may have done and
3 what he may have documented, that's certainly
4 appropriate. But what anyone else may have found,
5 done, or documented is ...

6 THE COURT: I will ask you to rephrase the
7 question for clarification.

8 Q. (By Attorney Buting)~ All right. I guess the
9 point here is that various items of suspected
10 bone were brought to you to be sifted. I mean
11 various areas of dirt, or whatever, were brought
12 to you to be sifted, and then suspected bone
13 fragments were found, right?

14 A. Correct.

15 Q. But to your knowledge, neither you nor anyone
16 else would specifically identify where in this
17 area that particular piece of bone came from?

18 A. No. Everything that was collected in this area
19 was placed together in a box.

20 Q. This area being that 4 X 5 feet ...

21 A. 4 X 5 foot ash pile was placed together in a box,
22 just as we had done with the burn barrels.

23 Q. And did you find anything -- Did you sift
24 anything outside of that pit area, on the grass,
25 or farther over above where the dog was in that

1 picture, on the mound, or anything like that?

2 A. No, we were restricted to the ash pile.

3 Q. Okay. And you just worked on it that one
4 evening?

5 A. Yes.

6 Q. You didn't come back the next day to do any
7 further work?

8 A. No, that was the last day I was there.

9 Q. And that was done, actually, at night, you said?

10 A. Well, we worked up until it got dark.

11 Q. Was it daylight when you got there?

12 A. It was approximately from 3:00 p.m. to 5:00 p.m.

13 Q. Okay. So it was daylight for part of it and then
14 you kept working until it got too dark?

15 A. Got too dark.

16 Q. And you went walking around the -- during your --
17 your -- how many days was it there, three days,
18 four days?

19 A. Saturday, and came back for Sunday, Monday,
20 Tuesday.

21 Q. Okay. So during your four days there, you walked
22 around different areas and looked at different
23 buildings on the 40 acre property, right?

24 A. Yes.

25 Q. Testified to that. Did Mr. Fassbender or

1 Mr. Wiegert ever escort you to a aluminum smelter
2 on the property?

3 A. No.

4 Q. You never saw the smelter on the property at all,
5 did you?

6 A. No, I didn't.

7 Q. And you are the one who has the experience
8 finding bones, right?

9 A. I have some, yes.

10 Q. So if somebody had brought you over to the
11 smelter, you would have been able to look
12 carefully, with your experience, to see whether
13 there was any evidence, fragments of bones, or
14 whatever, in or around that smelter area,
15 couldn't you?

16 A. I don't know much about aluminum smelters. If
17 there were something to look at, I could have
18 looked at it.

19 Q. Okay. But you did not, because no one escorted
20 you there, no one showed you the smelter?

21 A. I didn't know anything about an aluminum smelter.

22 Q. What about a big wood furnace?

23 A. No, I don't know anything about that.

24 Q. Never looked inside of a wood furnace that was on
25 the property, to see if there was evidence of

1 bone, or --

2 A. No, I did not.

3 Q. -- zippers, pulls, anything like that?

4 A. No.

5 ATTORNEY BUTING: All right. Thank you
6 very much, sir.

7 THE COURT: Any redirect?

8 ATTORNEY FALLON: Yes, Judge. Thank you.

9 **REDIRECT EXAMINATION**

10 BY ATTORNEY FALLON:

11 Q. Couple of points, Mr. Ertl. First of off --
12 First all -- First of all, I would like to ask
13 you about this question, relative to the
14 transportation of the SUV. Counsel asked you if
15 you could have remained and helped with other
16 searches, instead of going with the vehicle to
17 Madison. What is the protocol, what is the
18 recommended procedure for the Crime Lab analyst
19 when there are two of you there with a critical
20 piece of evidence like the SUV?

21 A. Well, I was asked if we could get the vehicle
22 back to the laboratory and asked to see if I
23 could expedite getting work done on it, prior to
24 Monday morning.

25 Q. Who asked you to do that?

1 A. It was either Investigator Wiegert or Special
2 Agent Fassbender.

3 Q. All right. Now, in terms of transportation of a
4 key piece of evidence like that, is there a
5 concern on the part of the analyst that the
6 evidence be transported safely?

7 A. Well, definitely. I wanted it enclosed. It is
8 now in my custody. We could have turned it over
9 to Calumet County and they could have taken
10 custody and dealt with getting to it to the
11 laboratory.

12 Q. But you took control of the SUV, correct?

13 A. Correct.

14 Q. All right. And to ensure that it was safely
15 transported to the Crime Lab, without incident,
16 took two of you to do it?

17 A. Correct.

18 Q. All right. Now, counsel asked you a couple of
19 hypotheticals about the presence of a certain
20 Toyota key and the possibility of DNA on that
21 key. Well, Mr. Ertl, we have person number one
22 who's the owner of the key; person number two who
23 does not own the key, but at some point obtains
24 possession of the key. And during the course of
25 obtaining possession of the key, actively bleeds

1 on the key, wipes the bleed off the key.

2 It's not entirely unexpected that you
3 would find the DNA profile of the person who
4 possessed the key and who wiped the blood off the
5 key, that's not an unusual finding, would it not?

6 A. Well, in that situation, you would have two
7 activities promoting finding the second person
8 rather than the first person. If you bleed on
9 the key, now you are supplying a large quantity
10 of your own DNA. And even if the other person's
11 DNA is there, you may mask them because now you
12 have actual bodily fluids rather than stray skin
13 cells.

14 So there's more DNA in blood than I
15 would expect to find from something that had been
16 touched. So you could cover over the other DNA.
17 And if you then wiped it off, now you are
18 physically removing potentially all the DNA
19 that's present, the first person and the second
20 person.

21 Q. And if the second person, not the original owner
22 of the key, had possession of that key for four
23 days, one would expect that you are most likely
24 going to find the profile of the person who last
25 possessed the key; isn't that true?

1 A. As you explained it, I would expect, yes, to find
2 the second persons.

3 Q. And it would not be unusual at all to find no
4 other DNA profile on that key, would it?

5 A. No, that would be not unusual.

6 Q. In fact, the likelihood of that occurring is
7 enhanced by the fact that person number two
8 actually had possession of the key for say four
9 days at a minimum?

10 A. The longer the time you would expect more contact
11 more possibility for DNA being deposited.

12 Q. Now, let's talk a little bit about this
13 contamination issue. The fact that certain bits
14 of evidence can become "contaminated", is not all
15 that unusual is it?

16 A. The fact that it can happen?

17 Q. Yes.

18 A. It is not unusual and it is expected and we take
19 precautions to prevent that.

20 Q. And, as a matter fact, contamination can occur,
21 as counsel said, during the collection of the
22 evidence, during the transport of the evidence,
23 and during the analysis of the evidence, as I
24 understood your answer; is that correct?

25 A. Yes.

1 Q. All right. Well, it's also possible that
2 contamination of a crime scene could occur before
3 law enforcement even arrives?

4 A. Correct.

5 Q. And, as a matter of fact, in your experience,
6 it's not unusual at all for perpetrators of
7 crimes to take efforts to alter crime scenes, is
8 it?

9 A. That's quite common to -- to see attempts being
10 made to clean up.

11 Q. All right. And what types of efforts have you
12 seen certain suspects undertake to clean up, as
13 you say, a crime scene?

14 ATTORNEY BUTING: Objection, now we're
15 getting too far afield of this case.

16 ATTORNEY FALLON: I disagree heartily,
17 counsel went down this road, we're entitled to
18 respond.

19 THE COURT: I'll give you a little
20 latitude.

21 Q. (By Attorney Fallon)~ Continue.

22 A. I have seen cases where it was a shooting in a
23 carpeted area, we saw some of the blood spatter
24 pattern we talked about previously, up on the
25 ceiling, on some of the furniture. And there was

1 absolutely no apparent blood on the carpeting.
2 So we saw a fine, hard to see mist of blood. And
3 you would expect to see, then, something on the
4 carpeting, if someone had been shot there. There
5 was a Rug Doctor sitting next to it, this area.
6 They had rented the Rug Doctor and shampooed the
7 carpet. When we ripped up the carpet, a large
8 blood pool, on the floor under the carpeting, had
9 soaked into the padding. So they had obviously
10 attempted to clean the blood pool from the
11 shooting.

12 Q. And is it possible to clean up blood with certain
13 reagents such as bleach?

14 A. Yes. Bleach is very effective. We use bleach in
15 the laboratory to clean our work areas. It
16 actually destroys DNA. Destroys the blood. It
17 decontaminates it. It's very useful for that.

18 Q. All right. Now, another thing about this
19 contamination issue, just so we're clear; does
20 contamination transform one person's DNA profile
21 into that of another?

22 A. It cannot change a DNA profile. It can hide a
23 DNA profile, though.

24 Q. So what you would have, then, is a mixture?

25 A. You could have a mixture, or you could fail to

1 see the first person, if the second person
2 deposited a much greater quantity of DNA.

3 Q. But it's still interpretable, is it not?

4 A. Yeah, you would see DNA types and you would be
5 able to interpret them.

6 Q. So, I take it it's still possible, then, to have
7 reliable findings, notwithstanding that type of
8 contamination?

9 A. It's possible.

10 Q. Now, returning, again, to the question counsel
11 asked about actively bleeding; if a suspect was
12 actively bleeding and entered a vehicle, you
13 would expect to find an impact bloodstain, would
14 you not; that would not be uncommon?

15 A. If they were actively bleeding and blood was
16 dripping from them, then an impact stain would be
17 the blood falling off of the person and gravity
18 pulling it to the floor and hitting, that would
19 be the impact.

20 Q. All right. And what is a contact stain?

21 A. That's where I'm bleeding, have blood on an item,
22 and the item touches another item. And now I
23 leave some blood on the second item.

24 Q. And you would expect to find that as well, if a
25 person was actively bleeding and had been in a

1 particular vehicle that was -- that is now
2 undergoing an examination?

3 A. If they had touched something with a bloodied up
4 hand or whatever, then you would expect some
5 transfer of blood.

6 Q. Even if it was just a cut on the finger?

7 A. Sure.

8 Q. Is it possible -- Well, before I get there, what
9 is -- are you familiar with a phrase called a
10 transfer stain?

11 A. Well, that's a transfer of blood from one item to
12 another --

13 Q. So --

14 A. -- by contact.

15 Q. -- you are thinking that contact and transfer is
16 one in the same concept?

17 A. Yes. And I am not a blood spatter pattern
18 expert. I have just -- I have been to some
19 training. I am able to recognize it when I see
20 it, but I don't interpret it. So I don't know
21 all the specific jargon about swipes and wipes;
22 and contacts and transfers; high impact,
23 immediate impact, and low impact castoff. I'm
24 familiar with the terms, but I couldn't
25 necessarily tell you that that's a transfer not a

1 contact, or a swipe not a wipe.

2 Q. Well, returning, again, to our example of the
3 person one and person number two and person one
4 being the owner of the key and person two being
5 the last one to possess the key. Well, if person
6 number two had been actively bleeding, entered a
7 vehicle holding the ignition key in their right
8 hand and then attempted to start the vehicle, it
9 would not be unusual at all to find a contact
10 stain near the ignition in that vehicle?

11 ATTORNEY BUTING: Objection to the
12 characterization of not unusual. There's no factual
13 distinction as to how that would occur.

14 THE COURT: I will sustain the objection
15 based on the form of the question.

16 Q. (By Attorney Fallon)~ Would you expect to find a
17 contact stain on the ignition?

18 A. If the person were bleeding with their right
19 hand --

20 Q. A cut on the --

21 A. -- operating a key with the right hand and trying
22 to start the ignition, I wouldn't think it would
23 be unusual at all to find blood on the key and on
24 the ignition.

25 (Court reporter couldn't hear.)

1 A. And on the ignition.

2 Q. Now, counsel asked you a series of questions and
3 I want to talk a little bit more about this blood
4 spatter issue. You can have a crime scene, and
5 let's just take something like a stabbing, in
6 which there was blood at the scene; are you
7 always going to find evidence of a blood spatter
8 stain?

9 A. No, it would depend on circumstances?

10 Q. What types of circumstances?

11 A. I can think of a case, not too long ago, where a
12 woman had been stabbed in her bed and there was,
13 you know, the blankets and the comforter over her
14 and was stabbed through that, repeatedly, and yet
15 there was no evidence of blood in the room, other
16 than bleeding out of her.

17 And the idea was that the knife going
18 through the bedding and then being pulled out
19 again, it wiped off the blood. It went in, came
20 out, came out clean. And so there was no chance
21 for the blood to fly off the knife and end up on
22 the ceiling or on the floor. So it was a very
23 clean scene. All the blood was contained just to
24 the bedding and to the victim and under the
25 sheets.

1 Q. And if you wanted to further cover up the crime,
2 then you could certainly burn all the bedding,
3 couldn't you?

4 A. Certainly.

5 Q. So in effect, then, it is possible to clean up a
6 crime scene?

7 A. Most certainly. Most crime scenes do get cleaned
8 up and people continue to live in them, the
9 houses or whatever.

10 Q. But it would be -- Is it possible, based on your
11 training and experience, for instance, to have a
12 pool of blood and, say, on a garage floor, have
13 it cleaned up to such an extent that you would
14 not get a reaction to a phenolphthalein test?

15 A. Well, knowing what I know, I could probably do
16 it. Bleach would be a good thing, some sort of
17 peroxide would be a good way to get rid of the
18 red color. The bleach would destroy the blood
19 and the DNA.

20 Q. So it's possible?

21 A. It's possible, yes.

22 ATTORNEY FALLON: Your witness.

23 THE COURT: Mr. Buting.

24 ATTORNEY BUTING: Sure.

25 **RE-CROSS-EXAMINATION**

1 BY ATTORNEY BUTING:

2 Q. This other case you mentioned, where the
3 gentleman -- find it on my notes for a second,
4 please. Yeah, where there was a shooting, body
5 on the carpet or something and you were surprised
6 that there was no evidence of blood on the
7 carpet?

8 A. Correct.

9 Q. But that was explained because the Rug Doctor Was
10 there, right?

11 A. Right.

12 Q. But there was blood on the ceiling.

13 A. Correct.

14 Q. And blood on the wall?

15 A. Yes.

16 Q. And when you rip up the carpet, there's a pool of
17 blood underneath the carpet, right?

18 A. That's right.

19 Q. So cleaning a carpet, blood soaks through fabrics
20 pretty well, doesn't it?

21 A. Yes.

22 Q. So, in that instance, whatever the gentleman or
23 defendant did, was not good enough. He didn't
24 rip up the carpet and clean the pad underneath
25 it, right?

1 A. Right.

2 Q. Now, in this case, are you aware that they ripped
3 all the carpet out and the pad out of Mr. Avery's
4 house?

5 A. I didn't know that.

6 Q. Okay. So you don't know what's -- whether the
7 carpet and the pad and all that was tested for
8 blood in his house or not?

9 A. I don't know.

10 Q. Okay. Well, we'll get to that later. But in any
11 event, you did not see any blood spatter on his
12 ceiling, right?

13 A. That's correct.

14 Q. Or on the walls of the bedroom?

15 A. That's correct.

16 Q. And the walls are paneling, right?

17 A. I believe so.

18 Q. Are you aware that they ripped the paneling out
19 of -- off the walls and took all that out to the
20 Crime Lab too?

21 A. No, I wasn't aware of that either.

22 Q. That came later in the case and you weren't
23 involved in that; is that right?

24 A. Right.

25 Q. Okay. You also told us a story about the guy who

1 apparently stabbed some woman on the mattress and
2 there was no cast off because he was stabbing her
3 through the bedding, right?

4 A. Correct.

5 Q. In other words blankets and comforter on top of
6 the body as it's being stabbed --

7 A. Correct.

8 Q. -- right? But -- And so in that instance, there
9 wasn't cast off blood that would hit the ceiling,
10 or walls, or other objects in the room; is that
11 what you are saying?

12 A. That's correct.

13 Q. But, I assume the person did bleed down into the
14 mattress, right?

15 A. Yes.

16 Q. And there was a blood soaked mattress in that
17 case, wasn't there?

18 A. Yes.

19 Q. And Mr. Fallon asked you if someone would be able
20 to get rid of that evidence in that instance by
21 burning the bedding, right?

22 A. That's correct.

23 Q. Any evidence that a mattress was burned in this
24 case?

25 A. Not that I recall.

1 Q. Did you see any bed springs in the burn pit?
2 A. No.
3 Q. Or in the burn barrel?
4 A. No.
5 Q. In fact, when you went to the Avery's bedroom
6 there was a mattress there, wasn't there?
7 A. There was.
8 Q. And a box spring?
9 A. Yes.
10 Q. And there was no bloodstain on it was there?
11 A. No, there wasn't.
12 Q. Are you familiar with any of the studies of the
13 transfer of trace DNA from one's fingers to
14 objects they pick up?
15 A. Yes.
16 Q. Are you familiar with Dr. Lee's reports, study?
17 A. Not in particular.
18 Q. Okay. Trace isn't really your specialty?
19 A. No.
20 Q. So you are not aware of whether they have done
21 tests that have -- that have determined what the
22 likelihood is of the person number one's DNA
23 still being on it when person number two handles
24 it; is that right?
25 A. I do know that it varies from person to person,

1 how much DNA you deposit on things.

2 Q. Okay. But, in fact, when using the hypothetical
3 Mr. Fallon had, person number two is handling the
4 key after person number one, the more common
5 finding would be two people's DNA, wouldn't it?

6 A. If they were each just handling.

7 Q. Okay. Any evidence of blood on the key in this
8 case, that you are aware of?

9 A. I know nothing of the key; I didn't ever see the
10 key.

11 Q. Okay. And you said you were looking for blood,
12 but you knew this was -- by then, by the time you
13 went into the house, you knew that there was a
14 Toyota RAV4 that had been seized and taken to the
15 Crime Lab, right?

16 A. Yes.

17 Q. So if you had walked in that bedroom and seen,
18 right in plain view, a car key that looked like a
19 Toyota car key, you would have made note of that,
20 wouldn't you?

21 ATTORNEY FALLON: Objection, beyond the
22 scope of redirect.

23 ATTORNEY BUTING: You talked about the key.

24 ATTORNEY FALLON: Not in that context.

25 THE COURT: I'm going to sustain the

1 objection.

2 ATTORNEY BUTING: All right.

3 THE COURT: I think that question has
4 already been asked and answered, as well.

5 ATTORNEY BUTING: Okay. That's all I have.
6 Thank you, sir.

7 THE COURT: All right. The witness is
8 excused. Mr. Fallon, you can call the next witness.

9 ATTORNEY FALLON: We will move Exhibit 156
10 into evidence, please.

11 THE COURT: Any objection?

12 ATTORNEY BUTING: I'm sorry, which one is
13 that -- I have no objection to that. And I would
14 move Exhibit 159, 160 in as well.

15 ATTORNEY FALLON: 159 is the statement of
16 qualifications.

17 ATTORNEY BUTING: Correct.

18 ATTORNEY FALLON: And 160 was the emails.
19 I don't have any objection.

20 THE COURT: All right. Those exhibits are
21 all admitted.

22 Jurors, if you want to stand up and
23 stretch a minute before we hear our next witness,
24 you may. And those of you in the audience, if
25 you wish, you may.

1 County Sheriff's Department on the 7th of
2 November, 2005?

3 A. Yes, I was.

4 Q. Could you tell us, please, what your areas of
5 responsibility were that day?

6 A. Myself, along with Sergeant Scott Senglaub,
7 Deputy Mike Bushman, and Sergeant Jason Jost
8 responded to 12930 Avery Road, would be the Avery
9 Salvage Yard, to assist Calumet County Sheriff's
10 Department searching the property.

11 Q. I'm guessing our court reporter would like you to
12 slow down a little bit too.

13 A. Okay.

14 Q. If you could do that, I would appreciate that.
15 What were your responsibilities upon arrival at
16 that scene?

17 A. We were to make contact with the officer in
18 charge at the scene to get the daily duties.

19 Q. Okay. Were you given a specific job that day?

20 A. Yes.

21 Q. What was that?

22 A. We were informed by the OIC to get in search
23 groups.

24 Q. By the what?

25 A. Officer in charge.

1 Q. All right.

2 A. To get into a search group. The search group I
3 was in was search group A. Our team leader of
4 that search group was Deputy Mike Bushman of the
5 Manitowoc County Sheriff's Department.

6 We were to search the property west of
7 the Avery residence along White Cedar Road and
8 property north of the Avery residence, this would
9 be a corn field just north of Avery property.

10 Q. It's that open field that I'm most concerned
11 about today, Deputy. I'm going to direct your
12 attention to the large screen.

13 ATTORNEY KRATZ: This is Exhibit No. 85,
14 counsel.

15 Q. (By Attorney Kratz)~ Are you able to orient
16 yourself as you look at that location?

17 A. Yes.

18 Q. There's a laser pointer that's right in front of
19 you, Deputy Siders. If you take that laser
20 pointer, please, and first tell me whether or not
21 you and other search team members, on the 7th of
22 November, did, in fact, search that open field
23 north of the Avery salvage property?

24 A. Yes, the team I was in, we searched starting here
25 and worked our way across.

1 Q. All right. And you are pointing, what would be
2 just north of the road that travels basically
3 east and west, which would be on the north edge
4 of the Avery salvage property itself; is that
5 accurate?

6 A. Correct.

7 Q. Let me ask you, Deputy Siders, were you given
8 specific instruction as to what you were looking
9 for?

10 A. Yes, we were basically looking for any type of
11 clothing, whether it be a shirt, pants, shoes,
12 any kind of object such as a cell phone, a
13 camera, or even possibly a body.

14 Q. So at that time, that is, as of the 7th of
15 November, a body or any human remains had not yet
16 been found; is that correct?

17 A. That's correct.

18 Q. While searching in the area north of the Avery
19 property, had you, yourself, made any discovery?

20 A. Yes, I did.

21 Q. And can you tell the jury what that was, please?

22 A. When we started to search the corn field or the
23 field north of that property, I came across a
24 burning barrel which was in my section of
25 searching. I walked up to the burning barrel and

1 I looked inside, at which time I saw a metal rim
2 with wires wrapped around it. It appeared to be
3 a vehicle rim with the remains of a -- steel
4 belts from a rubber tire.

5 Q. Deputy Siders, Exhibit No. 37, which has already
6 been introduced into evidence in this case, it is
7 now being shown on the screen, can you tell us
8 what we're looking at here, please?

9 A. Yeah, this burning barrel right there is the one
10 that I approached. And I looked inside and saw
11 the metal rim inside.

12 Q. All right. As we look at Exhibit No. 37, as we
13 look at that burn barrel, can you describe for
14 the jury a little bit more specifically where
15 your team had been searching?

16 A. Okay. My team had been searching starting from
17 -- there's a road here, starting from back behind
18 here and was working toward the burning barrel.
19 I was positioned right along this area here. And
20 the rest of the team was in a line, going across
21 to the north.

22 Q. Now, you told the jury that upon approach of this
23 burning barrel, that you looked inside; is that
24 right?

25 A. Correct.

1 Q. And I think you mentioned something about a rim;
2 what -- what is that?

3 A. It appeared to me to be like a vehicle rim, or
4 like maybe a trailer rim to some type of vehicle.

5 Q. I'm going to show you what's already been
6 introduced as Exhibit No. 51; can you tell us
7 what we're looking at here?

8 A. This object here is what I observed lying on top,
9 inside the burning barrel.

10 Q. All right. I see that the rim is outside of the
11 burn barrel in this photograph; can you tell me,
12 if you know, who removed the rim from inside the
13 burn barrel?

14 A. Yes. I removed the rim from inside the barrel.

15 Q. Okay. And when you looked inside of that burn
16 barrel, can you tell us what you saw, please.

17 A. Inside the burn barrel I saw a lot of ashes and I
18 saw a lot of burnt, melted plastic parts. As I
19 looked closer at these plastic parts, it appeared
20 to be parts of a cell phone that were actually
21 melted inside the burning barrel.

22 Q. Before I show the rest of those pictures, there's
23 one other photo, just to orient us a little bit
24 better. In the back of Exhibit No. 51, and now
25 what we're looking at is Exhibit 59; do you see a

1 maroon S -- or excuse me, a maroon van?

2 A. Yes.

3 Q. Was that van there when you found the burn barrel
4 and removed the rim from inside of it?

5 A. I can't recall if it was or not.

6 Q. Okay. Your observations were directed towards
7 the inside; is that right?

8 A. Yes.

9 THE COURT: Deputy, actually, you can stay
10 that distance from the microphone, I will just turn
11 your volume down --

12 THE WITNESS: Okay.

13 THE COURT: -- if it's too loud.

14 Q. (By Attorney Kratz)~ The first exhibit that I
15 placed in front of you has already been
16 introduced as an exhibit. Can you tell us what
17 number that is, please.

18 A. It's Exhibit 156.

19 Q. I'm sorry?

20 A. 156.

21 Q. Tell us what that is.

22 A. This here is the inside of the burn barrel. This
23 is what I would actually have been looking at
24 when I lifted the rim out of the burn barrel.

25 Q. Okay. You talked about seeing some items inside

1 of there, does Exhibit 156 look the same, or
2 similar, as it did on the 7th of November as you
3 looked inside that burn barrel?

4 A. Yes, it does.

5 Q. There's three other exhibits in front of you.
6 Why don't you grab them, one at a time, tell me
7 what exhibit number they are and what it is that
8 you are looking at.

9 A. Next exhibit would be 154; again, this would be
10 the plastic remains I was looking at inside the
11 burning barrel. Parts to a cell phone.

12 Q. All right. Deputy Sider, take a look at the
13 large screen; is that Exhibit 154?

14 A. Yes, it is.

15 Q. And, again, that's the same exhibit that's in
16 front of you; is that correct?

17 A. Yes, it is.

18 Q. Tell me what the next exhibit in front of you is,
19 please.

20 A. Exhibit 155.

21 Q. And what is that?

22 A. Again, that's looking inside the burning barrel
23 at the parts that I located belonging to a cell
24 phone.

25 Q. We're now going to show the jury Exhibit 155;

1 again, is that the same as the exhibit that's in
2 front of you?

3 A. Yes, it is.

4 Q. Now, Deputy Siders, you mentioned that you could
5 tell, just on your observation, that at least one
6 of the electronic components that you were
7 looking at in the bottom of this burn barrel, you
8 believed to be a cell phone; is that right?

9 A. Yes.

10 Q. How did you know that?

11 A. Closer look at the piece of plastic, I note -- I
12 notice an M emblem on the cell phone. This M
13 emblem as known to me to be a Motorola emblem for
14 the company of Motorola.

15 Q. All right. There's one more exhibit in front of
16 you, tell me what that is, please.

17 A. Exhibit 157.

18 Q. And what is that?

19 A. That's also looking inside of the burning barrel,
20 looking at parts -- parts of a camera.

21 Q. All right.

22 A. Excuse me, cell phone.

23 Q. These four exhibits, and now that the jury is
24 looking at 157, these four exhibits are really
25 pretty much the same, different degrees of

1 magnification or angle, but is that fair?

2 A. That's correct.

3 Q. Now, Deputy Siders, after witnessing or
4 discovering this burn barrel, were other law
5 enforcement officers summoned to that location?

6 A. Yes, they were.

7 Q. Do you know if -- or let me just ask you this, do
8 you know agents from what's known as the Division
9 of Criminal Investigation?

10 A. Yes.

11 Q. The scene, that is, the burn barrel itself, was
12 that scene maintained by you; in other words, did
13 you make sure that, at least while you were
14 there, nobody fooled around with the stuff that
15 was inside of it, or tampered with the evidence?

16 A. That's correct, I maintained custody of the
17 barrel.

18 Q. And was there anybody from the Division of
19 Criminal Investigation that you turned over
20 custody of that burn barrel to?

21 A. Yes, there was.

22 Q. Who was that?

23 A. Kevin Heimerl.

24 Q. Kevin Heimerl?

25 A. Correct.

1 Q. Now, were you in charge of either seizing, that
2 is, securing the burn barrel, or later searching
3 its contents?

4 A. No, I was not.

5 Q. That was turned over to somebody else; is that
6 right?

7 A. Correct.

8 Q. All right.

9 ATTORNEY KRATZ: With the offer of those
10 four photographs, Judge, that's all the questions I
11 have of this witness. Thank you.

12 ATTORNEY STRANG: I have no objection to, I
13 think they were 154, 155, 156 already is in, and
14 then 157.

15 THE COURT: All right. The remaining
16 exhibits, then, will be admitted.

17 **CROSS-EXAMINATION**

18 BY ATTORNEY STRANG:

19 Q. Good afternoon.

20 A. Good afternoon.

21 Q. Let's go back, if we could, to Exhibit 51. When
22 you folks were assigned to start looking through
23 the farm field north of the Avery property your
24 assignment also included part of the Avery
25 property?

1 A. Yes.

2 Q. So this was, really, the very beginning of the
3 search of the field to the north?

4 A. Yes, this would be at the beginning of the search
5 of the field.

6 ATTORNEY STRANG: Now, that's actually not
7 the one I thought. Where was the picture right
8 before, which had the burning barrel from a greater
9 distance, with the trailer in the background. I'm
10 sorry. What is the one you showed right before?

11 ATTORNEY BUTING: Thirty-seven.

12 ATTORNEY STRANG: Thirty seven, that's it.
13 There it is.

14 Q. (By Attorney Strang)~ Now, that red trailer in
15 the back, that's Steven Avery's house?

16 A. Correct.

17 Q. This burn barrel, it's a little hard to tell from
18 here, but the burn barrel looks like it's sort of
19 sitting right out in the open, in a grassy area?

20 A. Correct.

21 Q. But -- Although we can't see the blue, doublewide
22 that would be to the left off this photo, there
23 is another house there; do you remember that?

24 A. Yes. Correct.

25 Q. House trailer. The burn barrel would be closer

1 to the red trailer than to the other trailer?

2 A. I don't know the distance. I didn't measure the
3 burning barrel from either trailer; I couldn't
4 answer that.

5 Q. You know, I know you didn't measure it, but no
6 recollection of which one, to the eyeball, it
7 looked closer to?

8 A. I couldn't tell.

9 Q. Okay. But in any event, it's sort of sitting
10 right off the gravel road, essentially becomes a
11 driveway into the garage.

12 A. Correct.

13 Q. When you walked up and you looked down and you
14 see this rim in there, you were able to just
15 reach in and pull the rim out?

16 A. Yes.

17 Q. That's a heavy enough item, you -- even you had
18 to use two hands?

19 A. Yes.

20 Q. What looked to you like maybe the remains of a
21 steel belted radial, was that intertwined with the
22 rim?

23 A. Yes.

24 Q. So that came out with the rim?

25 A. Yes.

1 Q. You set that down, did the whole assembly look to
2 you like somebody might simply have burned an
3 entire tire and wheel assembly?

4 A. Yes.

5 Q. Once you then had the rim and the belt out, you
6 noticed that these things were rusty?

7 A. What was rusty, the rim or --

8 Q. The rim.

9 A. Yes.

10 Q. If there was a steel belted radial, whatever the
11 wiring was?

12 A. Yes.

13 Q. That was rusty?

14 A. Yes.

15 Q. All right. And then looked in there, and one
16 thing we can't tell from -- or I can't tell, at
17 least from Exhibits 154 through 157 in front of
18 you, is how -- about how deep does it look like
19 the ash and crud at the bottom of that can was?

20 A. If you could bring up a closer view of that
21 burning barrel.

22 Q. Sure, we'll go back to the one I thought I
23 wanted, 51; how is that?

24 A. Okay. It's not an exact measurement; my
25 estimation would have been that the top of the

1 rim would have been sitting right around there.

2 Q. So -- So maybe, roughly, two thirds of that
3 barrel would have been full of ash and other
4 material?

5 A. Correct.

6 Q. You were able to reach in easily, had -- had you
7 wanted to, and you could have touched these
8 melted cell phone parts that you saw?

9 A. You would have to actually lean -- probably lean
10 over to touch the ...

11 Q. Okay. But they were probably above the -- my
12 vocabulary is going to fail me now, but the
13 crease -- ridge or crease, the higher ridge or
14 crease on the barrel?

15 A. I would say that the parts were probably -- give
16 you another estimation -- right around this area
17 there.

18 Q. Okay.

19 A. They weren't at the bottom, they were more,
20 somewhere right in here.

21 Q. All right. So if those -- those ridges roughly
22 divide this barrel into thirds, give or take, the
23 barrel was about two thirds full of this junk and
24 ash?

25 A. Correct.

1 Q. But the cell phone parts you saw, were lying on
2 top --

3 A. Correct.

4 Q. -- of the other junk and ash? In looking in
5 there, did it look to you as if a sort of crust
6 had formed over the ash in the barrel?

7 A. The ash was more -- It had rained heavily, so it
8 was kind of like a muck --

9 Q. Mm-hmm.

10 A. -- type of ash. I couldn't say that there was
11 actually a film, I just noted that it was all wet
12 and damp.

13 Q. It had the look of ashes after they had been
14 rained on --

15 A. Correct.

16 Q. -- and then begun to dry?

17 A. Yes.

18 Q. I mean, they still would have been mucky --

19 A. Yeah.

20 Q. -- but you know the look I'm talking about, where
21 eventually, as it dries, appear almost a crust on
22 the ash?

23 A. Correct.

24 Q. The cell phone pieces were atop that?

25 A. Kind of not -- or kind of mixed in with the ash,

1 they weren't just, like, laying on top. They
2 were kind of mixed in.

3 Q. Because it still looked mucky to you?

4 A. Correct.

5 Q. The entire time you spent at that barrel before,
6 let's say -- say, boy, that looks like the
7 Motorola emblem, or the insignia for Motorola,
8 the entire time was give or take, roughly, how
9 long?

10 A. That I stood there to observe that?

11 Q. Yeah, before you said, boy, I think I see the
12 Motorola emblem.

13 A. I don't know, approximately four to five minutes,
14 just looking at it.

15 Q. Just looking at it?

16 A. Yes.

17 Q. But not touching things?

18 A. I didn't touch anything in there.

19 Q. But 4 to 5 minutes is a long time, actually, if
20 you just -- I mean, if we were to stand silent
21 for 4 to 5 minutes, it would seem like an
22 eternity, but you think it may have been that
23 long?

24 A. Give or take.

25 Q. And then you called somebody else over?

1 A. Yes, I did.

2 Q. Was there anything -- other than being burned,
3 was there anything obscured about the Motorola
4 emblem?

5 A. Other than that it was melted plastic.

6 Q. Right. And all of this, as the photos showed,
7 sort of takes on a -- various shades of gray.

8 A. Correct.

9 Q. Maybe we could go back to -- Was there one in
10 particular there where you can see that Motorola
11 emblem?

12 A. I'm not going to be able to tell with these
13 photographs here; it's just not that clear.

14 Q. So, the photographs, you cannot see a Motorola
15 emblem?

16 A. No, I can't.

17 Q. But you were able to, with the naked eye,
18 standing over this?

19 A. Correct.

20 Q. The six, now going on seven years, I guess, that
21 you have been with the Manitowoc County Sheriff's
22 Department, have you been on the Dive Team the
23 entire time?

24 A. I have been on the Dive Team for the last three
25 years.

1 Q. Did you do any diving here?

2 A. No, I did not.

3 Q. Weren't asked to participate in any of the dives?

4 A. No, we were not.

5 Q. Do you know who did the dives?

6 A. I believe it was Outagamie Sheriff's Department
7 Dive Team.

8 Q. Did you say, gosh, you know, I'm -- I'm a member
9 of a dive team and my department has one; did you
10 volunteer to do that?

11 A. No, I did not.

12 Q. Why not?

13 A. We weren't asked to. Our dive team was usually
14 requested by either our sheriff or another
15 outside agency to assist with a dive; if we're
16 not asked, we don't dive.

17 Q. And in this situation, the people running the
18 search looked over across Lake Winnebago, to the
19 top of Lake Winnebago, to the Outagamie County
20 Sheriff's Department?

21 A. That's what I can guess. They were the ones that
22 contacted them.

23 ATTORNEY STRANG: That's all I have.

24 THE COURT: Any redirect?

25 ATTORNEY KRATZ: Not of this witness,

1 Judge, no.

2 THE COURT: Very well, the witness is
3 excused.

4 ATTORNEY KRATZ: Could we approach just
5 briefly, Judge.

6 THE COURT: Sure.

7 (Side bar taken.)

8 ATTORNEY KRATZ: I'm going to call Bill
9 Tyson to the stand.

10 THE CLERK: Please raise your right hand.

11 **SERGEANT WILLIAM TYSON**, called as a
12 witness herein, having been first duly sworn, was
13 examined and testified as follows:

14 THE CLERK: Please be seated. Please state
15 your name and spell your last name for the record.

16 THE WITNESS: William Tyson, T-y-s-o-n.

17 **DIRECT EXAMINATION**

18 BY ATTORNEY KRATZ:

19 Q. Mr. Tyson, how are you employed?

20 A. I am a sergeant with the patrol staff with the
21 Calumet County Sheriff's Department.

22 Q. As a sergeant with Calumet County, were you asked
23 to assist in search efforts at what's now called
24 the Avery Salvage Yard?

25 A. Yes.

1 Q. How was it that you were called out in this case?

2 A. It was on November 5th. It was approximately 20
3 after 1 in the afternoon. I received a telephone
4 call at my residence from the Calumet County
5 Dispatch Center. They informed me that Teresa
6 Halbach's vehicle was located at the Avery
7 property and that my assistance was needed at the
8 property.

9 Q. I'm sorry, Sergeant Tyson, you said that you were
10 called out at your home. Let me ask you, as a
11 member of the Calumet County Sheriff's
12 Department, had you been made aware, before that
13 date, of Ms Halbach's disappearance?

14 A. Yes, being the patrol sergeant, I do the shift
15 brief things and things like that. I know our
16 department did take a phone call, I believe it
17 was early days of November, where the information
18 was that Corporal Leslie Lemieux had taken a
19 complaint of a missing person, that being Teresa
20 Halbach.

21 So we were told to look for her, also
22 her vehicle, and the plate number that belonged
23 on her vehicle. Prior to me getting that call on
24 Saturday, the 5th, yes, I was aware of the fact
25 that our agency, as well as other agencies, were

1 looking for her and her vehicle.

2 Q. Sergeant Tyson, after getting the call at home,
3 where did you proceed to?

4 A. I responded to the Sheriff's Department. I was
5 standing by at the Sheriff's Department waiting
6 for another deputy that was in route, also, to
7 the Sheriff's Department, to arrive. I waited at
8 the Sheriff's Department until she arrived. Upon
9 her arrival, we did proceed over to the Avery
10 property.

11 Q. Now, together with being a patrol sergeant, do
12 have any other areas of specialization within the
13 Calumet County Sheriff's Department?

14 A. Yes, back in 1994 I was promoted from a
15 corrections officer to a patrolman; along with
16 that I was sent to an evidence technician school
17 in 1994. So throughout the years of 1994 until
18 March of 2005, I would respond to crime scenes in
19 the county, to process the crime scenes. Those
20 were, you know, some of my responsibilities.

21 Q. Okay. About what time did you arrive at the
22 Avery salvage property, if you remember?

23 A. If I recall correctly, I think it was quarter to
24 3 in the afternoon.

25 Q. Upon arrival at the Avery salvage property, do

1 you recall what your first duty was?

2 A. I was met by Investigator Wiegert and Steier.
3 They directed me to go down into the junkyard
4 area and made contact with officers down in that
5 area.

6 I proceeded down into the junkyard area
7 where I met with several law enforcement officers
8 that were down there. And they were keeping a
9 crime scene log. I did introduce myself and I
10 was talking with them briefly and was instructed
11 to relieve a deputy that was standing by Teresa
12 Halbach's vehicle.

13 Q. All right. We have heard testimony from several
14 Manitowoc County Sheriff's deputies as to being
15 first on the scene. Do you recall what
16 department, that is, from what agency you were
17 asked to relieve what's now known as the scene
18 security?

19 A. It was a Manitowoc County sheriff's deputy that
20 was standing by the vehicle when I arrived.

21 Q. All right. To your knowledge, Deputy Tyson, were
22 you the first Calumet County officer -- I guess,
23 to state it more succinctly, were you the
24 individual who relieved Manitowoc County from
25 scene security responsibilities?

1 A. Yeah, my understanding is, I was the first
2 Calumet County deputy to take custody of the
3 vehicle.

4 Q. All right. At some point -- and I don't expect
5 you were involved in this decision, but at some
6 point were you made aware that security for the
7 RAV4 and for that general area of the Avery
8 property was to be either coordinated or taken
9 over by Calumet County?

10 A. Yes.

11 Q. I'm going to show you what's been received as
12 Exhibit No. 86. There is a laser pointer in
13 front of you. Could you tell the jurors, if you
14 remember, about what time it was that you took
15 over security of the RAV4, or security of that
16 area of the scene?

17 A. According to the crime scene log, when I checked
18 in with them, it was 5 minutes to 3, I believe.

19 Q. Can you show us about where this transition took
20 place and where were you standing that you took
21 over security of this area?

22 A. On the display over here?

23 Q. Sure.

24 A. All right.

25 Q. Do you need me to zoom in a little?

1 A. Maybe just a little bit, I'm sorry.

2 Q. I'm sorry. Let me -- I think -- I think even
3 defense counsel would agree that the lower left
4 hand corner now of this exhibit is what we have
5 now known as the car crusher. There's a pond
6 that's just about in the middle of the exhibit.
7 Does that orient you to the scene?

8 A. If the car crusher is right down there --

9 Q. Yes.

10 A. -- I think that would be going down the hill.
11 And it would be right about in this area over
12 here, I believe, is where I was requested to
13 stand by with the vehicle.

14 Q. How close to the vehicle were you standing; do
15 you recall?

16 A. Within a foot or two, just that I was not
17 touching it, brushing up against it, but standing
18 right there.

19 Q. Now, I'm going to fast forward just a minute and
20 I think you will see why, but later on that day,
21 were you given other responsibilities at that
22 crime scene location?

23 A. Yes.

24 Q. Any time between taking over security of the RAV4
25 and the time that you were relieved to perform

1 other duties, did you see any individuals, any
2 police officers, or any citizens, either tamper
3 with or enter this RAV4?

4 A. No. Several officers did come close to it,
5 because of the weather conditions; it had gotten
6 really dark, there was a mist in the area. Our
7 concern was, any evidence that could be on the
8 exterior of the vehicle. An agent, later
9 identified as Agent Fassbender, was concerned
10 about that as well. A tarp was located in an
11 attempt to protect it from the elements, from the
12 incoming storm. But extreme care -- and I mean
13 extreme care -- was used to make sure no officer
14 touched it, or even the tarp touched the vehicle.

15 Q. And that was one of your responsibilities?

16 A. Yes.

17 Q. Sergeant Tyson, do you know what a search warrant
18 is?

19 A. Yes.

20 Q. And sometime that afternoon, were you made
21 aware that a search warrant for the Avery
22 property itself, for the vehicles there on, the
23 residences, and the outbuildings, had been
24 obtained by a Manitowoc County judge?

25 A. Yes.

1 Q. Were you made aware that the search warrant
2 needed to be executed, that is, that searches had
3 to be performed that day?

4 A. Yes.

5 Q. In that regard, Sergeant Tyson, were you asked to
6 assist in any of those searches?

7 A. Yes.

8 Q. Who asked you or directed you to assist in those
9 searches?

10 A. The decisions were being made by Investigator
11 Wiegert from the Sheriff's Department in Calumet
12 and DCI Agent Fassbender. They informed me,
13 after everything was sorted through, and figured
14 out which teams were going to go where, they told
15 me I should go with Manitowoc County Sheriff's
16 Department over to Steven Avery's residence.

17 Q. Now, Sergeant Tyson, prior to being assigned to
18 this team, this search team, had anybody on the
19 scene asked you or discussed with you your levels
20 of expertise in evidence collection or
21 processing?

22 A. Investigator Wiegert is fully aware of, I guess,
23 my experience. He just informed me that I would
24 be requested to go with them to execute the
25 search warrant.

1 Q. All right. Now, you said that you were teamed up
2 with, or that you joined other officers; do you
3 remember who was in your team?

4 A. Yes, it was Lieutenant Jim Lenk, from the
5 Manitowoc County Sheriff's Department; Sergeant
6 Andy Colborn, from the Manitowoc County Sheriff's
7 Department; and Detective Dave Remiker, from the
8 Manitowoc County Sheriff's Department.

9 Q. Was there any discussion about what each of your
10 responsibilities were going to be and, I guess,
11 more specifically, was there a discussion about
12 who was in charge of this team?

13 A. It was told to me that no Manitowoc County deputy
14 should be alone on the property. Investigator
15 Wiegert told me my responsibility would be to go
16 with them into the Steve Avery trailer and to
17 document what they were doing, take notes, and if
18 evidence was seized by them, to take custody of
19 all the evidence at the end of the search
20 warrant.

21 Q. Do you know why a Calumet County deputy was put
22 in charge of the custody of any physical evidence
23 that might be obtained.

24 A. It was told to me that Investigator Wiegert would
25 be the lead investigator and that the

1 investigation was turned over to Calumet County
2 versus Manitowoc County.

3 Q. All right. Going into that scene, that is, going
4 into that first search effort that you did, was
5 that made clear to you?

6 A. Yes.

7 Q. And from your knowledge, or were you present, was
8 that made clear to the other members of your
9 team?

10 A. Yeah, there was no misunderstanding as far as who
11 was taking custody. There was no discussions, no
12 arguments, I should say, from anybody that I was
13 with. It was clear understanding of what was to
14 happen.

15 Q. All right. Were there other search efforts going
16 on, or were you made aware of other search
17 efforts in this entire location at the same time
18 that you and this team had been developed?

19 A. My understanding was there was a number of things
20 that were going on at the same time. You know,
21 our team was just designated to go down to
22 Steven's trailer, but there were other officers
23 being assigned different duties as well. What
24 those were, I really don't know. My
25 responsibility was my team and where we were

1 going to be going.

2 Q. Now, the kind of search that you were asked to
3 perform, were you given direction about that?

4 A. I guess I wouldn't really say direction; we were
5 to execute the search warrant. And talking with
6 the Manitowoc officers, it was more of a quick,
7 anything in the obvious, let's go through the
8 residence, see if we can find Teresa; anything to
9 do with Teresa, anything at all. But that's kind
10 of how the first search, I would classify it as.

11 Q. Let me ask you this, Sergeant Tyson, did you have
12 an understanding that either you or other police
13 officers would be reentering this residence?

14 A. Yes, it was commonly known that this was a scene
15 that was going to be held. And, you know, it was
16 7, I think 7:30 when we went through the front
17 door of Steven's residence and --

18 (Court reporter couldn't hear.)

19 A. I guess I'm not sure what was I -- where was I
20 going. I started with we were heading down to
21 the Steve Avery trailer.

22 Q. Right.

23 A. Right. It was raining out. It was pouring. We
24 were all drenched. But we got inside the
25 trailer. You know, it was 7:30 in the afternoon.

1 And, you know, the search had started at quarter
2 to 8. And it was a quick search, you know. We
3 were out of there within three hours.

4 Q. Now, for 16 people that have never probably done
5 a search, or excuse me, search warrant, you just
6 called a three hour search a quick search. Could
7 you explain that to the jury, what -- what's
8 quick about a three hour search?

9 A. Not knowing a lot of the information that was
10 later learned, you know, we're looking at this
11 whole area. Where is the crime scene? What
12 is -- is there a location exactly on the
13 property.

14 So when we're going through the house,
15 we're looking for things that are obvious to us,
16 any blood or anything like that. So to say that
17 you can search someone's bedroom within 30
18 minutes, okay, well, that's a quick search. And
19 you are talking the closet areas; you are talking
20 desk draws; you are talking under the bed. You
21 are talking a whole area.

22 And if you are looking for things in
23 specific, you know, that would mean, basically,
24 you would have to go through the closet, every
25 article of clothing removed, through the pockets.

1 It's going to take you a whole lot longer than
2 that to say that you thoroughly -- did a thorough
3 search.

4 Q. Let me ask you then, Sergeant Tyson, have you
5 been involved in thorough searches, searches that
6 you were looking for smaller items of evidence,
7 or trace evidence, or things like that before in
8 your career?

9 A. Yes. Working in the drug unit, you know, execute
10 search warrants, you are looking for a small pipe
11 or something, you have to be very thorough. You
12 have to go into areas where something like that
13 small could be. So it's a very detailed, very
14 thorough search when you are dealing with like
15 drug materials and things like that.

16 Q. And that first search, that is, the first search
17 that you and Lieutenant Lenk and Sergeant Colborn
18 and Detective Remiker did, would you have
19 considered that a thorough search, one of these
20 thorough searches that you are describing?

21 A. No. Like I said, half hour to go through a
22 bedroom and be out of that whole residence within
23 two and a half to three hours, that's a quick
24 search.

25 Q. All right. We're going to go through each of the

1 specific rooms that were searched by you that
2 evening.

3 ATTORNEY KRATZ: Judge, if you would like
4 me to do that I can, otherwise this might be a good
5 time to break.

6 THE COURT: Sounds like this might be a
7 good time to take our afternoon break, so we will do
8 so. Members of the jury, again, do not discuss the
9 case while you are on your break. We'll resume at 5
10 minutes to 3.

11 ATTORNEY KRATZ: Thank you.

12 (Jury not present.)

13 THE COURT: Counsel, you are going to get
14 some exhibits marked during the break?

15 ATTORNEY KRATZ: Yes, I would like to do
16 that, so it works a little quicker.

17 THE COURT: If it takes a little longer, it
18 takes a little longer, but I told the clerk you
19 would be doing it.

20 ATTORNEY KRATZ: Thank you.

21 (Recess taken.)

22 THE COURT: Mr. Kratz, you may continue
23 with your direct examination.

24 ATTORNEY KRATZ: Thank you, Judge.

25 DIRECT EXAMINATION CONTD

1 Q. Sergeant Tyson, you mentioned that you had gone
2 into the Avery trailer to commence a search of
3 that property; did all four team members enter
4 the residence at the same time.

5 A. Yes.

6 Q. Now, you mentioned that you were in charge of
7 both documentation as well as seizure or
8 collection of property; is that a fair
9 representation?

10 A. Yes. After it was collected, it would be turned
11 over to me for transport back to our facility.

12 Q. Before an item was recovered, were you called to
13 the location where it may have been found.

14 A. Yes, for example, when they were searching the
15 bedroom, if Sergeant Colborn located something,
16 he would immediately draw my attention, I'm
17 standing right there. So I could see what they
18 were doing. If he found something, I could see
19 that he found it. And I would document the exact
20 time that he found it and, you know, and then it
21 was seized.

22 Q. What was the first room that you searched?

23 A. After the photography of the inside of the
24 residence was complete, the decision was made to
25 start in the south bedroom. And that was later

1 identified as Steven Avery's bedroom.

2 Q. You mentioned after the photography was complete,
3 it sounds like something first happened before
4 the search; is that right?

5 A. Yeah. Upon entry into the residence, Sergeant
6 Colborn had a 35 mm camera and Detective Remiker
7 had a digital camera. And they just -- once we
8 got in there, they just began photographing each
9 of the rooms. And every room inside the trailer
10 was photographed. After that was finished, then
11 the decision was made to start the search in
12 Steven's bedroom.

13 Q. Did you accompany them through that search?

14 A. Yes.

15 Q. Did you enter the bedroom as well?

16 A. Yes.

17 Q. Could you describe this bedroom for us, please.

18 A. Sure. You walk in through the doorway.
19 Immediately to the right there was a night stand
20 and then the bed. Straight ahead of that, to the
21 left, there was a small bookcase, a desk. There
22 was windows on the back wall. You go along the
23 bed, there was a dresser in the corner and the
24 closets were up against the opposite wall from
25 where the door was.

1 Q. How large was this bedroom?

2 A. Rather small bedroom, actually.

3 Q. Four grown men were in this room; is that right?

4 A. Yes.

5 Q. Describe that for the jury, if you can.

6 A. Well, as we walked in, Detective Remiker and
7 Lieutenant Lenk, they said, well, because it was
8 a small confined area, we're going to start over
9 on the side where the closet sat. We will start
10 going through that stuff.

11 Sergeant Colborn concentrated his search
12 on the book shelf and the desk on the opposite
13 side of the room. So the bed was in the middle,
14 two on that side, two on this side. I'm standing
15 directly inside the doorway, watching what they
16 were doing.

17 Q. Were they in constant view of you?

18 A. Yes.

19 Q. All right. Let's talk about some of the things
20 that were observed in the bed -- excuse me -- in
21 the bedroom. First exhibit I'm going to ask you
22 to take a look at is Exhibit No. 163. Can you
23 tell us what that is, please.

24 A. The very first picture here?

25 Q. Yes.

1 A. Okay. This would be a view of Steven Avery's
2 bed.

3 Q. Go ahead.

4 A. This is a view of Steven Avery's bed and the
5 night stand directly next to the bed.

6 ATTORNEY KRATZ: And just so the -- the
7 record is clear, unless something unusual occurs or
8 is alerted, your Honor, by counsel, so that this
9 witness doesn't have to talk about evidence twice,
10 Mr. Strang has been kind enough to allow the item to
11 be projected at the same time as the witness
12 testifies about it, so I appreciate that very much.

13 THE COURT: All right. Is that correct,
14 Mr. Strang?

15 ATTORNEY STRANG: Yes, it's actually
16 Mr. Buting.

17 THE COURT: Mr. Buting.

18 ATTORNEY BUTING: That's correct.

19 ATTORNEY KRATZ: Oh, I'm sorry.

20 Q. (By Attorney Kratz)~ Sergeant Tyson, the bed in
21 Steven Avery's bedroom, the exhibit that is 163,
22 looks like it has some bedding on it; is that
23 correct?

24 A. Yes.

25 Q. And there seems to be something above the bed,

1 can you tell what you that is.

2 A. Directly above the bed was a gun rack, and it did
3 house two long barreled firearms inside the
4 mounting brackets.

5 Q. Can you describe those firearms for us, please.

6 A. They were long guns. They weren't hand guns.
7 They were long guns. I didn't walk up and remove
8 them or physically check them out or anything,
9 but I could see that they were firearms up on the
10 wall.

11 Q. All right. Did you later come to have either a
12 closer inspection, or to become familiar with
13 those guns?

14 A. I never personally looked at the firearms after
15 they were collected. They weren't collected that
16 evening with the officers that I was with. There
17 was a different officer, I believe, that
18 collected those firearms.

19 Q. What were the guns on?

20 A. The gun rack, they were hanging on the wall.

21 Q. And Exhibit No. 166, which is actually a little
22 bit of a gap, if you would set 164 and 5 to the
23 side, I would appreciate it; 166 is being
24 projected, can you tell us what that is, please.

25 A. That was the gun rack that was hanging directly

1 above the bed.

2 Q. Also going to have Investigator Wiegert help me
3 through this process since there's lots of
4 evidence to show the jury. Investigator Wiegert
5 is going to hand you what's been marked for
6 identification as Exhibit 196; can you show that
7 and tell the jury what that is, please.

8 A. This is the gun rack that was mounted on the wall
9 directly above the headboard of Steven's bed.

10 Q. And, again, were those the -- was that the rack
11 in which those two long guns were located?

12 A. Yes.

13 Q. And the last photo I want you to look at is
14 Exhibit 167. It's in front of you and now the
15 jury can see that. Can you tell us what 167 is?

16 A. Looks like it's the same gun rack that's in front
17 of me right now.

18 Q. Just an evidence photo that is taken here at the
19 sheriff's department?

20 A. Yes.

21 ATTORNEY KRATZ: Set that over there.

22 Thank you, Investigator.

23 Q. (By Attorney Kratz)~ In this bedroom, did you
24 notice other pieces of furniture?

25 A. There was the bookcase; there was the desk; there

1 was a dresser.

2 Q. Okay. Let's do these one at time. First, the
3 bookcase, and I'm going to do this in two
4 different areas of inquiry. As an evidence
5 technician, were you not only responsible to
6 observe items on the 5th of November, but did you
7 later return to Mr. Avery's residence with the --
8 with a search warrant to seize this very item.

9 A. Yeah, I believe that was December 9th.

10 Q. The first thing I'm going to have you do is look
11 at Exhibit 166, which is on the board -- I'm
12 sorry, 168, which is on the wall here, tell the
13 jury what that is, please.

14 A. That's the bookcase that was up against the wall
15 as you walked into the bedroom. It was the very
16 first piece of furniture, I believe, on the
17 floor. It was sitting right next to the desk,
18 which was in the corner.

19 Q. You said that was seized at some time?

20 A. Yes.

21 Q. When was that?

22 A. That particular piece, I believe, was seized on
23 December 9th.

24 Q. All right. And were you involved in the seizure
25 of it; in other words, did you go to the Avery

1 residence and take possession of this piece of
2 furniture?

3 A. Yes, C.I. Agent Fassbender, myself, and there
4 was, I think, two more agents from the Department
5 of Criminal Investigations. We did go out there
6 on the 9th and did seize that particular piece of
7 evidence.

8 Q. Now, Sergeant Tyson, there's going to be some
9 testimony, I expect, in the next couple of days
10 about this but, did you have occasion to make
11 observations at Mr. Avery's bedroom of the back
12 panel or the rear of this particular piece of
13 furniture?

14 ATTORNEY BUTING: Objection as to time of
15 these observations, it's unclear.

16 ATTORNEY KRATZ: I can -- I can ask
17 specifically when, Judge.

18 THE COURT: Very well.

19 Q. (By Attorney Kratz)~ On the 9th of December, did
20 you have occasion to observe the back panel of
21 this piece of evidence?

22 A. Yes. We got into the bedroom to seize it. I did
23 photograph it prior to seizing it. I did a side
24 view, front view. And the side view, you can see
25 the backing of it was coming out, the nails were

1 protruding from the backing of the cabinet.

2 Q. You said that you took a photo of that. In fact,
3 Exhibit 169, is that a photo of that back panel?

4 A. It appears to be that, yes.

5 Q. If you take your laser pointer, please, and tell
6 the jury what it is that we're looking at.

7 A. This here would be the backing to the bookcase.
8 And you can see the distance here where it's
9 pulled away from the back of the bookcase.

10 Q. Now prior to taking this particular photo and
11 prior to making that observation, in fact, did
12 you in any way manipulate this piece of
13 furniture, or pull the panel out, or anything
14 like that?

15 A. No, we didn't touch the back of it at all, didn't
16 even move it. I just started photographing it
17 prior to collecting it.

18 Q. I notice in the bedroom that there was a night
19 stand. I'm showing you Exhibit No. 170, does
20 that show a picture of the night stand?

21 A. Yes, it's right there.

22 Q. And after having been seized, was an evidence
23 photo taken; in other words, at the sheriff's
24 department of that night stand, Exhibit 171?

25 ATTORNEY BUTING: Objection, as to the

1 timing of all this. If he could maybe -- if we're
2 going back and forth with those from November, to
3 December, or later, I think we should identify when
4 these are taken.

5 THE COURT: I agree.

6 Q. (By Attorney Kratz)~ Do you know when this photo
7 was taken, No. 171?

8 A. I don't know the exact date. The person that
9 assisted me with the evidence, his name is Deputy
10 Jeremy Hawkins, he was responsible for all the
11 photography. So I did assist him, but the exact
12 date, I would have to refer back to my report.

13 ATTORNEY KRATZ: I think, Judge, this is
14 the only item that wasn't seized on that day, from
15 what I see after that. Let me just see if there's
16 going to be an objection to this one.

17 Q. (By Attorney Kratz)~ Sergeant Tyson, do you know
18 when the night stand -- when this piece of
19 furniture was seized?

20 A. I believe that was after the search warrant on
21 March 1st or 2nd.

22 Q. Of 2006?

23 A. Correct.

24 Q. This bedroom of Steven Avery --

25 ATTORNEY BUTING: Counsel, could we just --

1 the prior photograph, could we, please, just get a
2 date as to when that was taken. You showed the
3 night stand in the room.

4 ATTORNEY KRATZ: Sure.

5 Q. (By Attorney Kratz)~ The night stand in the room,
6 did that look the same or similar as it did on
7 the 5th of November? The prior picture, that
8 would be Exhibit No. 170?

9 ATTORNEY BUTING: Can you put that up?

10 ATTORNEY KRATZ: If I could, I would.
11 There you go.

12 Q. (By Attorney Kratz)~ That's Exhibit 170, does
13 that look the same or similar as it did when you
14 first searched it on the 5th of November?

15 A. Yes, it's in the same location, looks about the
16 same.

17 Q. All right. Mr. Avery's bedroom carpeted, or have
18 a rug, or hardwood floors, or what kind of
19 flooring was that?

20 A. It was carpeted.

21 Q. I'm going to show you Exhibit No. 172, ask you to
22 take a look at the carpeting. Does that look the
23 same or similar as the carpeting did on
24 November 5th?

25 A. Yes.

1 Q. Sergeant Tyson, Exhibit 172, do you know when
2 that picture was taken?

3 A. That picture would have had to have been taken
4 after December 9th, because the bookcase is not
5 there. So that would have had to have been
6 March 1st.

7 Q. And as far as law enforcement involvement, that
8 was, as far as you were concerned, December 9th,
9 you folks were there; is that right?

10 A. Yes.

11 Q. And March 1st, were you also the individual that
12 was in charge of the evidence collection and
13 technician responsibility inside of Mr. Avery's
14 trailer?

15 A. Yes.

16 Q. So it's your understanding that this photo, that
17 is 172, was taken on March 1st?

18 A. I said it would have to be after December 9th,
19 so, yeah, next time we were there was, I believe,
20 March 1st.

21 Q. And the question, at least for this photo is, did
22 the carpet look the same on November 5th and
23 December 9th and March 1st?

24 A. Yeah, looks to be the same carpeting that was in
25 the room in November of 2005 as it was March of

1 2006.

2 Q. While searching Mr. Avery's bedroom, were there
3 any items of restraint that were found?

4 A. Yes. Sergeant Colborn located leg shackles and
5 handcuffs.

6 Q. Did -- Were those items seized?

7 A. Yes.

8 Q. Let me first show you what's been marked as
9 Exhibit No. 204. Tell the jury what that is,
10 please.

11 A. Appears to be the handcuffs that would have been
12 seized by Sergeant Colborn on November 5th, 2005.

13 Q. Did you see where these items were seized from?

14 A. If I recall correctly, Sergeant Colborn found
15 them in the bookcase in Steven's bedroom.

16 Q. All right. You said that there was another item
17 of restraint that was found as well?

18 A. Yes, leg irons.

19 Q. Let me show you what's been marked for
20 identification as Exhibit No. 203; tell the jury
21 what that is, please.

22 A. That would be the leg irons that were also found
23 by Sergeant Colborn. And I believe they were
24 found in the same location as the handcuffs, in
25 this bookcase in his bedroom.

1 Q. All right. Sergeant Tyson, after their seizure,
2 and so that we don't have to bring these items
3 into court, do you know if photographs were
4 taken, that is, evidence photographs were taken
5 of these two items?

6 A. Yes.

7 Q. I show you Exhibit No. 173, ask if you recognize
8 that photograph.

9 A. It would be an evidence photograph. I know that
10 because of the white paper in the background.
11 All the evidence that we took care of at the
12 sheriff's department we used freezer paper and
13 that would be consistent with what I see.

14 Q. Of the handcuffs?

15 A. Yes.

16 Q. And 174, what is that?

17 A. That would be the leg irons.

18 Q. Anything else seized that first evening from
19 Mr. Avery's bedroom, as far as you recall?

20 A. Yes.

21 Q. Well, let -- let me just -- let me just
22 specifically ask about -- about something called
23 identifiers. This is more of a search term and
24 please bear with my clumsy question. But are
25 efforts made to identify whether or not a certain

1 person lives in a particular residence when you
2 search it?

3 A. Yes. When we search residences, you have to show
4 that a person lives in that residence. So we
5 look for any piece of mail that would have the
6 person's name, along with their mailing address;
7 could be a magazine, could be a phone bill, could
8 be any kind of correspondence you get through the
9 mail with your address on it.

10 Q. Investigator Wiegert is going to hand you what's
11 been marked Exhibit No. 200, I need you to tell
12 the jury what Exhibit 200 is, please.

13 A. It's a University of Wisconsin Law School
14 envelope addressed to Steven Avery at 12390 Avery
15 Road, Two Rivers, Wisconsin.

16 Q. Was that the residence that you were searching on
17 the 5th of November?

18 A. Yes.

19 ATTORNEY BUTING: I'm sorry, what's the
20 number, exhibit number?

21 INVESTIGATOR WIEGERT: The exhibit
22 number is 200.

23 ATTORNEY KRATZ: Oh, 200?

24 ATTORNEY BUTING: Is that just an envelope?

25 A. That would be the correct address for Steven,

1 12932, or something like that. So that envelope
2 right there, I think would have the Avery --
3 maybe his mother and father's address on it, but
4 it was found inside the trailer.

5 Q. All right. But it had Steven's name on it and
6 found inside the trailer?

7 A. Yes.

8 Q. After searching the bedroom, what was the next
9 room that the four of you searched?

10 A. The bathroom.

11 Q. And could you tell the jury what, if anything,
12 was found in the bathroom?

13 A. Sure. There was a blood -- possible bloodstain
14 on the linoleum floor that Sergeant Colborn had
15 located. Just back up a little bit here, because
16 as they were working in Steven's bedroom,
17 Lieutenant Lenk and Detective Remiker were
18 finishing up with what they had to do. Sergeant
19 Colborn was finding all the stuff that we have
20 just seen.

21 Lieutenant Lenk told me he was going to
22 leave the bedroom and go into the bathroom, just
23 to see what was in the bathroom. So I
24 repositioned myself into the hallway. I could
25 see Detective Remiker and Sergeant Colborn; I

1 could also see Investigator Lenk in the bathroom.

2 Q. As the individual documenting what was now a
3 transition from one room to the other, you were
4 in a position to see both; is that right?

5 A. Yes.

6 Q. The bathroom, can you tell us where it is
7 located, compared to the bedroom.

8 A. The very next room. If you were to walk out of
9 the bedroom, go out in the hallway a couple feet,
10 if that, and it's right there.

11 Q. The hallway that you positioned yourself in,
12 would you be able to see both rooms?

13 A. Yes.

14 Q. Tell me what, if anything, was found in the
15 bathroom?

16 A. The possible blood spot on the linoleum floor, as
17 I said, was found by Sergeant Colborn. He
18 photographed it and it was collected with a swab.

19 Q. Collected with a swab, well, let's talk about
20 that a little bit. As an evidence tech, what
21 does collection of something like a blood spot
22 entail?

23 A. Because it's dried, and it's on the floor, what
24 you do is you can use distilled water and use a
25 sterile swab, which is evidence material that we

1 get. You know, they are sealed, you open them
2 up, take the distilled water, you drop two to
3 three drops on the cotton applicator at the end
4 of the swab. And then you take that swab and you
5 go into the blood stain itself and you are able
6 to pick up the bloodstain by just dampening the
7 end of the sterile swab.

8 Q. Was that done once or more than once in the
9 trailer?

10 A. There were several swabs that we took inside the
11 trailer.

12 Q. By the way, Sergeant Tyson, does that process,
13 that is, the collection of blood or other fluids,
14 does that take some training or experience on an
15 evidence tech's part?

16 A. Yes. You have to know certain things. For
17 example, if you have got the distilled water
18 applicator, it cannot touch the cotton swab. You
19 cannot make contact with it. If so, the swab is
20 no good, your bottle of distilled, throw it in
21 the garbage. It's useless at that point. So you
22 have to have a little bit of training and know
23 exactly what you are doing to avoid possibly
24 tainting the swab.

25 Q. All right. After searching the bathroom, where

1 did you folks go?

2 A. The bathroom was being searched by Lieutenant
3 Lenk and the bedroom was being completed by
4 Sergeant Colborn and Detective Remiker. I had
5 noticed some spots on the door directly behind
6 me, which was an interior/exterior door to go out
7 of the residence. So I drew the attention to
8 Detective Remiker and Sergeant Colborn,
9 Investigator Lenk, to that area. And they did
10 concentrate their efforts, then, photographing
11 the door. And swabs were taken of some of the
12 stains that were on that door as well.

13 Q. What did you do then?

14 A. After that was done, the search then continued
15 and they entered the bedroom, which was the only
16 other bedroom in the residence. And that would
17 be located between the living room and the
18 bathroom.

19 Q. That would be called the -- what bedroom did you
20 call that?

21 A. We referred to it as the spare bedroom. It was
22 used more for -- wasn't being slept in, I guess
23 you could say, more of a storage room, but there
24 was a bed in the room.

25 Q. All right. After that room was searched and

1 processed, what room was next?

2 A. Then it was the living room.

3 Q. Were there any items, prominent items of

4 furniture in the living room?

5 A. You got your couch and then there was a computer

6 desk in the room.

7 Q. I'm going to direct your attention to Exhibit

8 No. 175, can you tell us what that is, please.

9 A. That's the computer desk area in the living room.

10 Q. Now, there's a lot to look at in Exhibit 175, can

11 you just generally orient us to what we are

12 looking at, please, using the laser pointer.

13 A. Sure. He's got his television, box on top of

14 there, and here you got your computer, printer.

15 Q. Speak up a little bit.

16 A. I'm sorry. You have got the television right

17 here. Then you got your computer monitor,

18 printer. Okay. I think the tower was down

19 underneath it on the floor.

20 Q. All right. I'm going to hand you what's been

21 marked for identification as Exhibit No. 198;

22 show that to the jury and tell them what that is.

23 A. That's a pocket size notebook. Detective Remiker

24 had located this item, was in one of the drawers

25 inside the desk. He had pulled it out, opened it

1 up to the second page and this is what he saw.

2 Q. This has already been introduced as Exhibit 148,
3 let me just get to that. Tell us what that
4 reads.

5 A. It's 920-737-4731.

6 Q. And that's in what color ink, if you know?

7 A. Green.

8 Q. And black ink, is there something else written on
9 there?

10 A. Right below that, in black ink, are the words,
11 back to patio door.

12 Q. Did you become aware of whose phone number that
13 was?

14 A. Yes. Detective Remiker stated he immediately
15 recognized that number to be the cell number for
16 Teresa Halbach. After he told me that, I said,
17 yeah, that does look familiar. It is, that is
18 the number.

19 Q. And then a photograph of that having been taken
20 at the sheriff's department, that's Exhibit
21 No. 176, I believe; can you tell us what that is,
22 please.

23 A. That's exactly what you saw. That's an evidence
24 photo taken at the sheriff's department.

25 Q. I'm going to hand you now what's been -- Well, we

1 might as well get these two out of the way,
2 Exhibit 197 and 199. Tell the jury what those
3 are, please.

4 A. Two pocket notebooks.

5 Q. Also seized from the computer desk area?

6 A. I believe that would be correct.

7 Q. Sergeant Tyson --

8 ATTORNEY BUTING: Wait, slow down, can you
9 identify that?

10 ATTORNEY KRATZ: I'm sorry.

11 Q. (By Attorney Kratz)~ They are two different
12 colors, which color is 199?

13 A. The red one would be 199, the green one being
14 197.

15 Q. All right. Thank you, very much. I will have
16 Investigator Wiegert hand you what's been marked
17 as Exhibit 194; can you tell us what that is,
18 please.

19 A. That's a for sale sign that was found by
20 Detective Remiker in the desk that was located in
21 the living room.

22 Q. Can you show us the for sale sign. Is there
23 something written on the back?

24 A. On the back there is an address of 3302 Zander
25 Road. And directly underneath it, once again,

1 shows telephone number 920-737-4731, which
2 Detective Remiker once again said, that's Teresa
3 Halbach's number.

4 Q. Exhibit 149, which I'm showing now, is already
5 part of the case and has been admitted into
6 evidence. I'm now showing you what's Exhibit
7 177; what is that?

8 A. Looks like a scene photograph taken by either
9 Colborn or Remiker. And, obviously, I think it
10 was pulled out a little bit so you can see what
11 it was, but I think it was in further. I think
12 it was just pulled out and photographed it, to
13 show that it was found there.

14 Q. And Exhibit 178, is that a picture of what we saw
15 was the front of the for sale sign?

16 A. Yes.

17 Q. And 179, would be the back; is that right?

18 A. That's correct.

19 Q. Once again, 737-4731 was Teresa Halbach's
20 telephone number; is that right?

21 A. Yes.

22 Q. Now, without going into any details at all, was
23 it readily apparent to you what the address 3302
24 Zander Road was?

25 A. No.

1 Q. Sergeant, I'm now going to hand you what's been
2 marked for identification as Exhibit 202, ask if
3 you can tell us what that is, please.

4 A. It's an Auto Trader Magazine.

5 Q. Where was that found?

6 A. Detective Remiker located this on top of the
7 computer desk in the living room.

8 Q. Is it opened to a particular page?

9 A. Yes, page 114.

10 Q. And does that have any significance or does it
11 just happened to be open to that page?

12 A. I guess I'm not exactly sure what the
13 significance is.

14 Q. That's fine. The -- Exhibit No. 150, this is
15 already in evidence, is this how that particular
16 Auto Trader looked on the computer desk?

17 A. I believe that's -- yeah, that's the scene
18 photograph.

19 Q. And Exhibit 180 -- By the way was there more than
20 one Auto Trader Magazine on that desk?

21 A. I believe there were a couple.

22 Q. All right. Is Exhibit 180 one of those pictures?

23 A. Yes.

24 Q. And, finally, Exhibit 181, we talked about some
25 scene -- or excuse me, evidence photos; is that

1 181?

2 A. Yes, that would be an evidence photo.

3 Q. And I'll have Investigator Wiegert hand you
4 Exhibit No. 201, tell us what this was and where
5 was it found, please.

6 A. Number 201 is a bill of sale for Auto Trader
7 Magazine. I believe this was found by Detective
8 Remiker and this was also either on or in the
9 computer desk. I'm not exactly sure.

10 Q. I'm going to show you Exhibit No. 182, is that a
11 photo of that bill of sale on the desk?

12 A. Yes.

13 Q. Exhibit 151, already in evidence, does that look
14 like one of those evidence photos, again?

15 A. Yes.

16 Q. Sergeant Tyson, about what time of night was it
17 that this is getting to be; in other words, when
18 you got through the bedroom and the bathroom, and
19 through the living room, about what time were
20 those rooms all completed?

21 A. It was approaching the 10:00 hour at night.

22 Q. Investigator Wiegert is now going to hand you
23 what's been marked as Exhibit No. 195; and ask
24 you to identify that, if you can.

25 A. It's a bleach bottle.

1 Q. And have you seen that before?

2 A. Looks like possibly the one that was in the
3 bathroom up on a shelf.

4 Q. Whose bathroom and whose shelf?

5 A. I'm sorry, Steve Avery's bathroom, on a shelf.

6 Q. All right. We'll talk about evidence photos
7 again so we don't have to lug these things into
8 the courtroom. I'm showing you what's been
9 marked as Exhibit 183. Tell us what that is,
10 please.

11 A. It's a evidence photo of the bleach bottle.

12 Q. What's Exhibit No. 184?

13 A. The carpet cleaner.

14 Q. Have you seen that before?

15 A. I did. I believe this was in that spare bedroom
16 in Steven's residence.

17 Q. And after being seized, was a photo taken of that
18 at the sheriff's department?

19 A. Yes, that would be an evidence photo right here.

20 Q. 184; is that right?

21 A. Yes.

22 Q. Just to complete the next six pictures, although
23 we talked about them, these photos were a little
24 bit out of order. We talked about some blood
25 spots in the bathroom. I just want to show the

1 jury some pictures of those, tell them about
2 Exhibit 185, please.

3 A. Exhibit 185 appeared to be the linoleum floor in
4 the bathroom. And see a dried stain on the
5 floor, right there.

6 Q. Was that one of those spots that was swabbed or
7 collected from what you talked about?

8 A. Yeah, I believe Detective Remiker did swab that
9 stain.

10 Q. We'll hear from him later in this case, but you
11 were present when all that processing was going
12 on?

13 A. Yes.

14 Q. What's Exhibit 186?

15 A. 186 looks like it's a close up of the same stain.

16 Q. All right. And 187?

17 A. Looks like there's some stains on the -- if
18 that's the door? I'm not exactly sure. Looks
19 like some stains on a dark colored surface.

20 Q. I tell you what I'll do, I will save that for
21 Detective Remiker. Does that sound like a good
22 idea?

23 A. Yeah.

24 Q. All right. And you talked about those
25 identifiers before. I show you Exhibit 188, tell

1 us what that is, please.

2 A. This would be the letter that was inside of the
3 envelope that you saw, which wears the
4 identifiers from the University of Wisconsin Law
5 School, addressed to Steven Avery.

6 Q. Exhibit 189?

7 A. Also an envelope showing the address of
8 Mr. Avery, but being 12930.

9 Q. Does that look like it's taken at the scene?

10 A. Yes.

11 Q. Now, looks like somebody is wearing gloves in
12 that scene, maybe describe that for the jury.
13 What's that for?

14 A. All of us that were inside the residence, before
15 you even make entry, you put gloves on your hands
16 as to try not to leave any of your stuff behind,
17 is what it's called. You don't want to be
18 touching things with, you know, your bare hands.
19 So you wear gloves to make sure you are not
20 tainting the scene.

21 Q. And, finally, we have been talking about evidence
22 photos, Exhibit No. 190, what is that?

23 A. This would be the envelope from the University of
24 Wisconsin Madison Law School, addressed to Steven
25 Avery.

1 Q. All right. Now, at any time during the search,
2 at least when you entered the search sometime --
3 about what time was it that you entered, I'm
4 sorry?

5 A. We entered his residence, it was 7:30 p.m.

6 Q. And from 7:30 p.m. until you left the
7 residence -- What time did you leave?

8 A. We left at 10:05 p.m.

9 Q. Any time between 7:30 and 10:05, did either you,
10 Detective Remiker, Lieutenant Lenk, or Sergeant
11 Colborn ever leave that residence?

12 A. No.

13 Q. At any time during the search of the residence on
14 the 5th of November, did Lieutenant Lenk,
15 Sergeant Colborn, or Detective Remiker, ever take
16 any items of property from that location?

17 A. No, they may have assisted carrying the stuff out
18 at the end of the evening to place it in
19 Detective Remiker's squad; I was with them. So
20 they may have assisted carrying stuff out,
21 putting it in the backseat, but it was with me.
22 And they did give me a ride back up to the
23 Command Post and I personally unloaded all the
24 objects and put them in my squad car.

25 Q. What the record hasn't reflected and what the

1 jury hasn't seen, each one of these evidence
2 items were in a sealed bag; is that right?

3 A. Yes. Lieutenant Lenk had -- was in charge of
4 putting everything inside the bags, so they were
5 secured, each individual piece. Those items were
6 then taken out to the squad and turned over to me
7 to be taken to the sheriff's department.

8 Q. All right. Sergeant Tyson, I'm going to direct
9 your attention -- this is a little bit out of
10 order, but since it's next on my photo list,
11 that's where I'm going. On April 3rd of 2006,
12 were you asked to make contact with Teresa
13 Halbach's RAV4 vehicle?

14 A. Yes.

15 Q. Can you tell the jury the purpose of that
16 contact, please.

17 A. Sure. Investigator Wiegert and Agent Fassbender
18 requested that Deputy Hawkins and myself go out
19 to where Teresa's vehicle was. They wished for
20 us to do DNA swabs of the driver's door, the
21 passenger door. They wanted a swab done of the
22 hood latch to the vehicle, as well as the battery
23 cables under the hood.

24 Q. All right. And DNA swabs, what exactly is that;
25 what are you talking about?

1 A. Pretty much the same as swabbing for blood, only
2 you can't see anything. You are looking for any
3 type of DNA, be it skin cells, or any kind of
4 sweat, you know, anything that's DNA.

5 So what we're doing is kind of the same
6 procedure. We're taking distilled water,
7 dropping it on the end of the cotton swabs. And
8 you just swab the area to hopefully pick up DNA,
9 if it's there.

10 Q. Okay. We're going to hear from the analyst that
11 is on the other side of that process, but did
12 you, in fact, do that on the 3rd of April?

13 A. Yes.

14 Q. We're going to have Investigator Wiegert have
15 marked, actually, a package. I'm not going to
16 have it opened, but we'll have the package
17 marked.

18 (Exhibit No. 205 marked for identification.)

19 ATTORNEY KRATZ: What's the number?

20 INVESTIGATOR WIEGERT: 205.

21 Q. (By Attorney Kratz)~ He's going to hand you
22 Exhibit No. 205, can you tell us what that is,
23 please.

24 A. Number 205 is the actual swab containing possible
25 DNA evidence that was taken from the hood latch

1 of Teresa Halbach's vehicle on April 3rd.

2 Q. Can you tell us where a hood latch is, especially
3 on a RAV4?

4 A. It's right underneath the hood itself. You pop
5 the hood latch thing inside and you have to undo
6 it.

7 Q. Pop the hood latch thing inside, that sounds like
8 a law enforcement term. What are talking about?

9 A. You have to go inside the vehicle to release the
10 hood latch so you can get in to manipulate the
11 actual hood latch lever to get the hood open.

12 Q. I'm going to show you Exhibit No. 191; tell us
13 what we're looking at here.

14 A. Looks like the front of Teresa Halbach's vehicle.

15 Q. And 192 is a close up of something; what is that?

16 A. The hood latch.

17 Q. And using your laser pointer, can you tell the
18 jury what you did on April 3rd with exhibit -- or
19 what's depicted on Exhibit 192.

20 A. Sure. This area right here would be the
21 releasing mechanism for the hood latch. So what
22 I had done is took my swab, placed some distilled
23 water on it, and I swabbed the front and back of
24 this piece right here.

25 Q. Now, to get at that particular release lever or

1 that latch, how do you do that?

2 A. You had to go into the vehicle, pull the release.

3 And once the hood goes up a little bit, you are

4 able to get in there and make the hood go up.

5 Q. To get in where?

6 A. To that area.

7 Q. Do you have to reach inside of something?

8 A. Yes, you have to go in between the hood and the

9 frame to release the lever and make the hood go

10 up.

11 Q. What time did you finish your search

12 of Mr. Avery's trailer?

13 A. On November 5th?

14 Q. Yes, I'm sorry?

15 A. 10:05 p.m.

16 Q. And after 10:05 p.m., then, were you given any

17 further responsibilities at the Avery salvage

18 property?

19 A. After I cleared, we went back to the command

20 center. I off loaded all the evidence that was

21 seized out of Steven's trailer, secured it into

22 my squad car, made contact with Agent Fassbender

23 and Investigator Wiegert, and told to transport

24 it back to the sheriff's department and to be

25 back at the scene the next morning for further

1 instructions.

2 Q. Kind of a long day?

3 A. Yes.

4 Q. The next day, that is, Sunday, the 6th of
5 November, Sergeant Tyson, did you return to that
6 scene?

7 A. Yes.

8 Q. And what were your duties on the 6th of November?

9 A. On the 6th of November, I made contact with
10 Investigator Wiegert and Agent Fassbender. My
11 responsibilities on the 6th, I was teamed up with
12 Detective Sergeant Brian Swetlik, Detective Jeff
13 Tech, and Patrol Officer Rob Block from the city
14 of Manitowoc Police Department. Our duties that
15 day were to search a trailer that had not been
16 searched yet. They didn't believe anybody lived
17 in it, it was more for housing vehicle -- vehicle
18 parts and things like that, so.

19 Q. I'm sorry to interrupt you, Sergeant, but these
20 three city of Manitowoc officers, did they have
21 any specialized training that you knew?

22 A. Yes. Rob Block was a patrol officer with the
23 city of Manitowoc. He was an evidence technician
24 and Jeff Tech was a detective and Brian Swetlik
25 was also a sergeant detective.

1 Q. By the way, I don't think we mentioned this, but
2 do lieutenant Lenk, Sergeant Colborn and
3 Detective Remiker have any specialized training
4 that you know of?

5 A. Detective Remiker I know for sure did; he had all
6 the evidence supplies consistent with being an
7 evidence technician.

8 Q. And the others, we'll wait till they testify to
9 their qualifications; is that right?

10 A. (No verbal response.)

11 Q. Okay. On the 6th, then, matched up with these
12 other evidence techs, what were you asked to
13 search on the 6th?

14 A. Was the trailer that was situated between Barb
15 Janda's residence and Steven's parents'
16 residence. We did go into that trailer. It was
17 relatively quick because there was nothing of
18 evidentiary value that we could see inside the
19 trailer.

20 We were then requested to concentrate
21 our efforts in the fenced in areas of the Avery
22 property; check the outbuildings, there were I
23 think three different buildings; look for any
24 possible evidence in those outbuildings. And,
25 then, the final thing was -- to do was to execute

1 the search warrant in Delores and Al Avery, their
2 residence.

3 Q. Did you do anything else on the 6th?

4 A. I believe it was the outbuildings and the search
5 warrant at Steven's mother and father's
6 residence.

7 Q. And although we hear about a lot of people doing
8 a lot of things in a lot of different places, is
9 there anything that you can note for the jury
10 that had any substantial evidentiary value found
11 in any of those searches?

12 A. There was nothing -- nothing that was found to be
13 of evidentiary value.

14 ATTORNEY BUTING: Objection as to the form
15 of the question, is he talking about searches that
16 he was involved in?

17 ATTORNEY KRATZ: Yes, just him, sorry.

18 ATTORNEY BUTING: Okay.

19 Q. (By Attorney Kratz)~ And we're not going to waste
20 any more time on the 6th, let's move to the 7th,
21 ask what your responsibilities were that day?

22 A. The morning of the 7th, I was paired back up
23 again with Sergeant Colborn and Lieutenant Lenk.
24 We were originally assigned, first thing was to
25 go down to a maroon colored van, which was parked

1 outside of Barb Janda's residence.

2 I was informed that that van was the van
3 that Teresa Halbach had come onto the property to
4 photograph. What was requested of us was to take
5 a look inside the van to see if we could find
6 anything of evidentiary value inside the van or
7 outside the van.

8 We did search the van, found nothing of
9 evidentiary value. I did collect a belt and that
10 was seized as possible evidence. And so, the van
11 itself didn't provide nothing of evidentiary
12 value.

13 Q. Before we leave that topic, I'm going to show you
14 a photograph, already been admitted, Exhibit
15 No. 59. Tell us what we're looking at here,
16 please.

17 A. Here we have got Steven's trailer, the garage.
18 Here is the van that I was just talking about.
19 And Barb Janda's residence, this would be her
20 driveway right here.

21 Q. We talked about searching a van with Lieutenant
22 Lenk, does Exhibit No. 59 document that exact
23 activity, or don't you know?

24 A. I'm sorry, what was the question.

25 Q. You talked about searching this van with

1 Lieutenant Lenk, does Exhibit 59 document that?

2 A. Yes, this shows the van, shows the door being
3 open; there's me and there's Mr. Lenk.

4 Q. All right. What were your next duties on the
5 7th?

6 A. After we were finished with that, it was my
7 understanding, although I didn't see it,
8 apparently the fire departments had been called
9 out to the scene. They were going through the
10 junkyard, I think the day before, using their
11 equipment to pry open all the trunks on all the
12 vehicles in the junkyard.

13 So on the morning of the 7th, our
14 responsibility was to find any remaining vehicles
15 that did not have the trunk popped by the fire
16 department. And if we located those vehicles,
17 our responsibility was to open the trunk areas of
18 all those vehicles.

19 Q. Who did you do that with?

20 A. Lieutenant Lenk and Sergeant Colborn.

21 Q. Did you do all those things?

22 A. Yes. We found numerous vehicles that were not
23 taken care of, so we did use crowbars, wherever
24 necessary, to get them trunk lids open.

25 Q. Did you find anything in any of those vehicles?

1 A. No.

2 Q. By the way, the three of you didn't plant any
3 blood while you were doing that, did you?

4 A. No.

5 Q. All right. What else did the three of you do
6 that day?

7 A. I'm trying to think. After, I think we did all
8 the trunks, we were then requested to go through
9 the houses and collect firearms from any of the
10 houses that still had firearms in them. So we
11 started -- I think I was told that Steven's
12 firearms were collected already, so we started at
13 Barb Janda's residence and we just started
14 collecting all the firearms that were inside the
15 residence.

16 Q. Do you know about how long that project took?

17 A. There were quite a few firearms. It took a long
18 time to document all the different firearms
19 inside the bedroom area.

20 Q. In whose residences did you go to collect the
21 firearms?

22 A. We were in Barb Janda's residence pretty much the
23 whole day.

24 Q. All right. Were you asked, on the 7th, to
25 perform any duties with Mr. Avery's computer?

1 A. Yeah, I believe it was the morning hours,
2 Investigator Wiegert telephoned me and asked me
3 to make entry into Steven Avery's residence. He
4 told me that he did need the serial numbers, make
5 and model off of the computer that was sitting on
6 the computer desk in the living room.

7 Sergeant Colborn, myself, and Lieutenant
8 Lenk did make entry and we were in there for all
9 of about 3 or 4 minutes, I believe. I telephoned
10 Investigator Wiegert with the information he
11 needed and we immediately left the residence.

12 Q. Lieutenant Lenk and Colborn -- I'm sorry, did you
13 say that they were both with you?

14 A. I believe all three of us were together.

15 Q. Did they leave your location at all at that time?

16 A. No.

17 Q. And then you left?

18 A. Yes, went back to, I believe, Barb Janda's to
19 finish with the firearms.

20 Q. I'm going to hurry just a little bit with you
21 Sergeant Tyson so that we can get through, at
22 least your direct testimony for the day. Let me
23 just move forward to the 8th of November, that
24 would be on Tuesday, were you on site at all that
25 day?

1 A. I didn't go out to the scene on the morning hours
2 of the 8th. My responsibilities were at the
3 Calumet County Sheriff's Department, taking care
4 of all the evidence that had been collected over
5 the course of the past two days. Forms had to be
6 filled out, property tags assigned, that evidence
7 to be secured for the evidence custodian, so he
8 could move them to his location and free up some
9 of the lockers that I was currently taking up
10 with all the stuff that I had downstairs. So
11 that was a lot of my day.

12 I did clear from there and did respond
13 back out to, I think the Avery property, just to
14 see if I was needed in some other capacity. I
15 think there were some officers that were
16 collecting burn barrels. I know I probably
17 assisted with picking up one or two, helping them
18 get them on trailers and things like that. But
19 that was the extent of my involvement on the 8th.

20 Q. All right. Are you familiar with something
21 called a buccal swab?

22 A. Yes.

23 Q. What is that?

24 A. It's a swab that's taken by a medical
25 professional. And how it's taken is, it's a long

1 cotton applicator and it's put inside the
2 person's cheek and rubbed back and forth
3 collecting skin cells, I believe, off of the
4 inside of that person's mouth.

5 Q. Do you know what a buccal swab is used for?

6 A. DNA identification.

7 Q. Do you know what an exemplar is, a DNA exemplar?

8 A. Probably a known DNA substance.

9 Q. All right. On the Wednesday, the 9th of
10 November, were you asked to assist medical
11 professionals in obtaining what are called DNA
12 exemplars, or known DNA samples, from Steven
13 Avery and some other Avery family members?

14 A. Yes.

15 Q. Did you do that on that day?

16 A. Yes.

17 Q. Now, were you just asked, and were there search
18 warrants just for Steven Avery's DNA, or were
19 there others that were involved as well?

20 A. There were others. In the morning of the 9th, I
21 think Agent Fassbender and Investigator Wiegert,
22 they told me that they needed me to go up to the
23 Aurora Medical Clinic in Two Rivers. They
24 explained that there were search warrants for
25 Steven Avery, Bobby Dassey, Chuck Avery, Earl

1 Avery, Delores Avery, Barb Janda.

2 They said each would be transported to
3 the Aurora Clinic in Two Rivers and then my
4 responsibility would be to photograph any
5 injuries that they may have had and to collect
6 all buccal swabs taken by the registered nurse.

7 Q. Did you do that?

8 A. Yes.

9 Q. Regarding Steven Avery, the defendant, do you see
10 him seated in the courtroom here today?

11 A. Yes.

12 Q. Were you present, Sergeant Tyson, when a physical
13 examination was performed of Steven Avery on the
14 9th of November?

15 A. Yes.

16 Q. And were you able to observe any injuries,
17 specifically any injuries to Mr. Avery's right
18 hand?

19 A. Yes.

20 Q. I'm going to show you what's been marked for
21 identification as Exhibit No. 193, tell us what
22 that is, please.

23 A. We were measuring the cut here to his finger,
24 right there. That's just a close up.

25 Q. Was this photo taken by you; is that right?

1 A. Yes.

2 Q. Who was assisting you in that process?

3 A. Fay Fritsch, she would be the registered nurse at
4 Aurora Medical Clinic; and the Medical Director
5 Dr. Laura Vogel-Schwartz, was also present in the
6 room, and I think the two investigators assigned
7 to Mr. Avery were also present.

8 Q. I'm sure we'll hear from Ms Fritsch, but do you
9 recall where this cut, that is, that we're seeing
10 on Exhibit 193, was located?

11 A. Looks like it's his middle finger.

12 Q. Okay. We see it here in the photos, but was it
13 visible to you to the naked eye?

14 A. Yes.

15 Q. Sergeant Tyson, the next day, that is, on the
16 10th of November, do you recall if you had any
17 responsibilities in this investigation?

18 A. On the 10th, I believe I responded out to the
19 Avery property. State patrol, I think, had
20 hundreds of state patrol officers canvassing the
21 quarries and the surrounding area. I was sent
22 out when they found something, down in the quarry
23 areas, just to see if I could identify what it
24 was. Nothing of evidentiary value was found.

25 Q. All right. On the 12th, then, that would be

1 Saturday, were you asked to perform one final
2 responsibility at that location?

3 A. Yeah. Sheriff Jerry Pagel instructed me to grab
4 a camcorner -- camcorder and to go through every
5 single residence on the property to show the
6 condition of which we were leaving the property
7 before we released the scene back to the family.

8 Q. Did you do that?

9 A. Yes, I was with corrections officer Larry
10 Schroeder at that time.

11 Q. Very briefly, Sergeant Tyson, we talked about the
12 9th of December and the execution of a search
13 warrant where you seized a bookcase; did you also
14 return to the Avery property on March 1st and 2nd
15 of 2006?

16 A. Yes.

17 Q. Did you participate in the execution of yet
18 another search warrant at the Avery residence,
19 that is, his trailer?

20 A. Yes.

21 Q. During March 1st and 2nd who was in charge of the
22 evidence documentation and seizure inside of
23 Mr. Avery's trailer?

24 A. We had Investigator Wendy Baldwin taking notes
25 and Patrolman Rick Reimer was an evidence

1 technician in our department, him and myself were
2 doing most of the searching. She was documenting
3 all evidence that was recovered by Deputy Reimer
4 and taken out to the secured trailer, which was
5 parked in the driveway.

6 Q. All right. My last area of inquiry, Sergeant
7 Tyson, has to do with human remains or other
8 kinds of materials; were you asked to
9 participate, not only with other law enforcement
10 officers, but with a forensic anthropologist in
11 sifting and sorting some ashes and remains?

12 A. Yes. On December 20th of 2005, I did go down to
13 the Wisconsin Crime Lab with Investigator
14 Dederling to assist numerous Department Of
15 Correction -- or Department of Criminal
16 Investigation agents there. Deputy Reimer was
17 there and we sorted through contents of burn
18 barrels. And I think later in April, the
19 following year, I think we had -- April 11th, I
20 believe it was, I did assist at the sheriff's
21 department and the Wisconsin Crime Lab was at our
22 facility. We had stations out in the garage
23 behind our department and we had gone through a
24 lot of materials, burnt.

25 Q. Sergeant Tyson, on November 5th of 2005, and in

1 fact, that entire week that you worked
2 specifically with Lieutenant Lenk and Sergeant
3 Colborn, did you witness anything, from either
4 one of those law enforcement professionals, that
5 in any way questioned either their reliability or
6 their ability to perform their law enforcement
7 duties on that scene?

8 A. No.

9 ATTORNEY KRATZ: Judge, I am going to move
10 for the admissions of Exhibit 163 through 205, with
11 the exceptions of Exhibit 164, 165, 187, and I think
12 that's it. Those were the three that this officer
13 was unable to identify. The rest I believe he has
14 and would move their admission at this time.

15 THE COURT: Any objection to the admission
16 of those exhibits?

17 ATTORNEY BUTING: No objection.

18 THE COURT: All right. The exhibits
19 listed, then, by Mr. Kratz will be admitted.
20 Mr. Kratz, do you have any further questions of the
21 witness?

22 ATTORNEY KRATZ: No.

23 THE COURT: Members of the jury, we have
24 got a few things to take up with counsel before
25 leaving today, so I think given that, it's probably

1 a little late to get into cross-examination. So at
2 this time I'm going to excuse you for today. I will
3 remind you not to discuss this case with anyone else
4 at any point during the trial and do not watch any
5 news accounts of the case. You are excused for
6 today. We'll see you tomorrow morning.

7 (Jury not present.)

8 THE COURT: You may be seated. Officer
9 Tyson you are excused.

10 Counsel, I had mentioned earlier this
11 morning that there was at least one exhibit,
12 Exhibit 89, that I believe the parties both felt
13 had not been admitted but the clerk's records
14 show that it had been and based on the
15 information I got from the court reporter, it
16 appears it may have been inadvertently marked as
17 admitted in conjunction with a number of other
18 exhibits at the end of the day back on the 14th.
19 First of all, let's address Exhibit 89; do I
20 understand that -- am I correct that both parties
21 feel that this exhibit was introduced but not
22 admitted?

23 ATTORNEY STRANG: Is that pages 515 and 516
24 of the --

25 THE COURT: Correct.

1 ATTORNEY STRANG: -- Calumet county
2 Sheriff's --

3 THE COURT: Yes.

4 ATTORNEY STRANG: -- Department report?
5 Yes, that was intended only as a Court's exhibit,
6 not -- not for evidentiary consideration of the
7 jury.

8 THE COURT: Mr. Kratz.

9 ATTORNEY KRATZ: It would certainly never
10 be considered by the jury, Judge, and was meant, as
11 I understood, to complete the record.

12 THE COURT: All right. The Court will
13 treat it as such and direct that the record shows
14 that it has not been admitted into evidence.

15 Counsel, are there any other exhibits
16 that either party believes fall into this
17 category, that is, that they have been shown as
18 being admitted but parties -- neither party
19 requested there admission.

20 ATTORNEY KRATZ: I have one that's just --
21 or two that are just the opposite, Judge. If I may,
22 I'm showing the Court now Exhibit 161. There were
23 two photographs that Agent Fassbender identified.
24 One is Exhibit 161 and the next is Exhibit 162, that
25 I asked the Clerk to please mark, and for whatever

1 reason that didn't occur.

2 I assured the Court that I would have
3 them marked and put into evidence. I had moved
4 them at the time, but these are the two
5 photographs that go along with Mr. Buting's
6 submissions. They have now been marked and I now
7 show them once again to remind the Court and
8 counsel, Exhibits 161, 162. I will tender them
9 and offer them at this time.

10 THE COURT: Mr. Strang.

11 ATTORNEY STRANG: These we think were the
12 two photographs used by Mr. Kratz on his redirect
13 examination of Special Agent Fassbender. I believe
14 we recreated that as best we can. They are out of
15 order. I don't know how they were described, if at
16 all, by exhibit number on redirect examination. But
17 we just -- when we talked about this, Nos. 161 and
18 162 were the next two available exhibit numbers, so
19 we agreed to give them those numbers. And as we
20 recall, they relate back to the redirect examination
21 of Mr. Fassbender.

22 ATTORNEY KRATZ: That's correct, Judge.

23 THE COURT: All right. And are these a
24 couple of -- they were slides for which photos
25 weren't readily available at the time?

1 ATTORNEY KRATZ: That's exactly correct,
2 Judge.

3 THE COURT: I believe I recall those. All
4 right. Any objection to their admission today?

5 ATTORNEY STRANG: No.

6 THE COURT: Very well. 161 and 162 will be
7 deemed admitted. Are there any other items that
8 need clarification?

9 ATTORNEY STRANG: Well, maybe. The only
10 two I came up with and I don't know if they are
11 received or not received, but Exhibit No. 70, I
12 think, was tendered to a witness. It's a photo of
13 crushed cars, but as I recall the witness must not
14 have been able to identify it, or there was a
15 foundation objection. I don't think that one was,
16 or has been, admitted yet.

17 ATTORNEY KRATZ: I think that's No. 70.

18 THE CLERK: We have that one as denied.

19 ATTORNEY KRATZ: That one, Mr. -- Bobby
20 Dassey could not identify that. We're going to put
21 that in through another officer later on in the
22 trial, Judge.

23 THE COURT: All right. So as of this point
24 it's been marked and neither party is asking for its
25 admission at this time?

ATTORNEY KRATZ: Not yet.

THE COURT: The State is anticipating asking that it be admitted at a later date.

ATTORNEY KRATZ: Yes.

ATTORNEY STRANG: Right.

THE COURT: All right.

ATTORNEY STRANG: And then, Exhibit 28, which is a written statement of JoEllen Zipperer, I have labeled as used only to refresh recollection, so that -- that would not be -- it would be marked, but not offered and received.

THE COURT: That one is shown as being received.

ATTORNEY STRANG: Should have been marked only.

THE COURT: My recollection is that that was marked but not received.

ATTORNEY FALLON: I'm not sure that's the case, your Honor.

THE COURT: That was a statement of Mrs. Zipperer?

ATTORNEY KRATZ: It was, Judge, if you remember, it had to do with the time that Teresa was out there.

THE COURT: Okay.

1 ATTORNEY KRATZ: The statement had said
2 between 2:00 and 2:30, as she in fact read from
3 that. She said that now refreshes -- that's a
4 better estimate of the time that she was out there.
5 In fact, it is a much more recorded recollection
6 than that, that was just used to refresh
7 recollection. And it undoubtedly is not going to go
8 back to the jury, because I'm sure you are not going
9 to send written statements back, but it was offered
10 and it should be received.

11 ATTORNEY STRANG: I don't think so, whether
12 it's a -- something used to refresh recollection
13 under Section 906.12, or whether it's actually a
14 past recollection recorded, under 908.03 (5) maybe,
15 if memory serves. I think either way it doesn't --
16 the document doesn't come into evidence. What does
17 is the testimony either refreshed recollection, or
18 the reading of the past recollection recorded.

19 THE COURT: I think it can only get in if
20 she's unable to refresh her memory from it. But
21 which is not what I understood her testimony to be.

22 ATTORNEY STRANG: Correct. If she was
23 unable to, it could come in as a prior inconsistent
24 statement under 906.13, or conceivably --

25 THE COURT: Yeah, 908.03 (5) says a record

1 concerning a matter about which a witness once had
2 knowledge but now has insufficient recollection to
3 enable the witness to testify fully and accurately,
4 but if it refreshed her memory, then it doesn't fall
5 into that one.

6 ATTORNEY STRANG: Right.

7 ATTORNEY KRATZ: I'm never going to ask
8 that it go to the jury, so this is just fine.

9 ATTORNEY STRANG: That's fine, from this
10 standpoint.

11 ATTORNEY KRATZ: That's just fine.

12 THE COURT: My recollection is that it was
13 marked, but I don't remember it being admitted. And
14 my suspicion is that it may have been marked as
15 admitted under one of these globals, does anybody
16 have any objection to admitting a whole bunch of
17 exhibits.

18 ATTORNEY STRANG: And the real issue is it
19 oughtn't go to the jury. And since the State has
20 conceded that, you know, again, this becomes a bit
21 academic.

22 ATTORNEY KRATZ: Marked, but not received,
23 is just fine.

24 THE COURT: Yeah, at this point, I don't
25 think it should be received.

1 ATTORNEY KRATZ: That's fine.

2 THE COURT: Is that it for the exhibits?

3 THE CLERK: I have just a couple more.

4 This is a day when I wasn't here, but there was --
5 there were two photos, 87 and 88, that were marked
6 but nothing was ever said about them.

7 ATTORNEY STRANG: And I don't even have
8 those written down. So I'm wondering if they were
9 ever even identified by a witness.

10 THE CLERK: I think they were regarding the
11 Avery property. There was a whole line of photos
12 marked. Janet just has a big arrow drawn through
13 them.

14 ATTORNEY STRANG: Certainly was a series of
15 aerial shots from 79 on.

16 ATTORNEY KRATZ: Eighty-seven and
17 eighty-eight, Judge, were two that Lieutenant Bowe
18 was unable to identify. And like other exhibits in
19 that category, I intend to show them to another
20 witness who's actually in those pictures and I will
21 be putting them in through them. So they are marked
22 but not received.

23 THE COURT: So they are properly noted as
24 not received at this point.

25 THE CLERK: And then there's just one --

1 I'm sorry -- there's just one other section, 142
2 through 151, which were from Friday. And I know a
3 lot of those were duplicates from today. There's a
4 sign in sign out log, car crusher check point,
5 photos of the RAV4, the aluminum smelter photo, some
6 more sign in sheets.

7 THE COURT: Those have been marked but not
8 yet admitted.

9 THE CLERK: Right.

10 THE COURT: And I believe the State still
11 has witnesses to come that will identify those?

12 ATTORNEY KRATZ: I offered 148, 149, 150
13 and 151 at the time. And if you haven't, Mr. Tyson
14 just looked at those and they are the same.

15 ATTORNEY STRANG: There's no objection to
16 the admission of Exhibits 142 through 151 inclusive.

17 THE COURT: All right. So the Court will
18 order those admitted then?

19 ATTORNEY KRATZ: Yes, we don't have any
20 objection.

21 THE CLERK: I just have one more photo
22 marked as 158, that was ...

23 ATTORNEY KRATZ: That will get in through
24 Mr. Heimerl, actually, who is yet to come.

25 THE CLERK: That's it.

THE COURT: Marked but not admitted.

I also want to note for the record that this afternoon there were two side bar conferences. The first one was at about 2:19. Mr. Kratz asked the Court at that time, I think, to take a break in order to permit the marking of a series of exhibits that were introduced through Officer Tyson and I indicated I preferred to proceed with more testimony before the break. That was the extent of what happened then. Counsel, is that your understanding, or recollection of what the side bar was?

ATTORNEY KRATZ: Yes.

ATTORNEY STRANG: That's mine too.

THE COURT: And then there was a second one after the break this afternoon when counsel approached and raised some issues with the Court concerning some objections Mr. Buting had made before that about photos being discussed without dates attributed to them. And I indicated to the parties that if there was any dispute about the date a photo was taken, that the defense had a right to have that information presented to the jury so that the jury could fully assess the probative value of whatever was in the photo. And I believe that was

1 the extent of that side bar.

2 ATTORNEY KRATZ: That's right, Judge, and
3 -- and I think from that point forward I did that
4 and it was a legitimate point and I hope I covered
5 it from that point.

6 THE COURT: Mr. Buting, is that your
7 recollection?

8 ATTORNEY BUTING: That is correct, Judge.

9 THE COURT: Very well. Is there anything
10 else that either party wishes to take up today
11 outside the presence of the jury before we resume
12 tomorrow?

13 ATTORNEY BUTING: Has the Court had any
14 response to the other matter that was ...

15 THE COURT: Oh, not yet.

16 ATTORNEY STRANG: I'm looking for one
17 exhibit, 189, your Honor.

18 ATTORNEY KRATZ: It's a photo of an
19 envelope. That should be in here.

20 ATTORNEY STRANG: Is the envelope itself
21 something?

22 ATTORNEY KRATZ: That's on the desk, that's
23 two something.

24 ATTORNEY STRANG: That's a different
25 envelope.

1 ATTORNEY FALLON: 189 was the envelope.

2 ATTORNEY KRATZ: It's a photo of an
3 envelope.

4 ATTORNEY STRANG: The photo I'm talking
5 about is Federal Defender Services of Wisconsin.

6 ATTORNEY KRATZ: I understand that. It's a
7 photo of the envelope.

8 ATTORNEY BUTING: So the actual envelope is
9 not here.

10 ATTORNEY KRATZ: We aren't offering --

11 THE COURT: Just a second. Diane.

12 COURT REPORTER: Yes.

13 THE COURT: We're off the record right now.
14 I'm not going to ask you to try to follow that.

15 (Off record discussion.)

16 THE COURT: All right. Let's go back on
17 the record. Mr. Strang, you raised a question about
18 Exhibit 189.

19 ATTORNEY STRANG: I did. And I just was
20 curious about the postmark date of that letter,
21 because it's from Federal Defender Services of
22 Wisconsin, which I had run for five years, was one
23 of the three offices that I ran. But I don't know
24 why it would be an issue in any event, but the
25 postmark is about two months after I left that

1 office. So I just can't imagine that there's any --
2 any issue.

3 THE COURT: All right. Anything further
4 today?

5 ATTORNEY KRATZ: Just that I think,
6 briefly, we need to meet in chambers. We may have
7 something in our office.

8 THE COURT: All right. We'll see you in a
9 few minutes.

10 ATTORNEY KRATZ: Thank you.

11 (Proceedings concluded.)
