(Jury present.)

THE COURT: The Court calls State of Wisconsin vs. Steven Avery, Case No. 05 CF 381. We're here this morning for the continuation of the trial in this matter. Will the parties state their appearances for the record, please.

ATTORNEY KRATZ: Good morning, Judge, the State appears by Calumet County D.A. Ken Kratz, Assistant Attorney General Tom Fallon, Assistant D.A. Norm Gahn, appearing as Special Prosecutors.

ATTORNEY BUTING: Good morning, your Honor, Attorney Jerome Buting and Dean Strang appearing with Mr. Avery today.

THE COURT: All right. I believe when we left yesterday the State had completed it's direct examination of Officer Tyson and the Defense will begin cross-examination today. Is the witness here?

THE CLERK: Please raise your right hand.

SERGEANT WILLIAM TYSON, called as a witness herein, having been first duly sworn, was examined and testified as follows:

THE CLERK: Please be seated. Please state your name and spell your last name for the record.

THE WITNESS: William Tyson, T-y-s-o-n.

CROSS-EXAMINATION

1 BY ATTORNEY BUTING:

2 Q. Good morning, Sergeant.

3 A. Good Morning.

4 Q. Let me start right off by directing your
5 attention to November 5th, first arrival at the
6 scene, okay, remember that?

7 A. Yes, sir.

8 Q. You testified yesterday that you arrived at, I
9 believe about 2:45. It was about five minutes to
10 three by the time you got up to where the RAV4
11 was located; does that fit with your
12 recollection?

13 A. Correct.

14 Q. All right. And I don't know if you need to
15 refresh your recollection with your report, just
16 let me know if you do, okay?

17 A. Okay.

18 Q. But from what I understand, it appears that you
19 left that area at 3:10 p.m., just 15 minutes
20 later?

21 A. Correct.

22 Q. You were called back to the command center to do
23 some other assignments?

24 A. Correct.

25 Q. And during that 15 minutes, when you first

1 arrived, was the RAV4 covered with a tarp or was
2 it uncovered?

3 A. It was uncovered.

4 Q. Okay. But during that 15 minutes is the period
5 of time when the tarps were put over the RAV;
6 isn't that right?

7 A. Yes, they were attempting to get that tarp in
8 place.

9 Q. Okay. And you testified about that and you were
10 actually one of the people who helped put it over
11 the RAV4?

12 A. I never physically touched the tarp. I did
13 assist with getting some objects, I believe, from
14 a vehicle that was right next to it.

15 Q. Okay.

16 A. To secure it down, to prevent it from blowing
17 away.

18 Q. Okay. So you were just helping as others were
19 building this, like, tent, like, object over the
20 RAV?

21 A. That would be accurate, yes.

22 Q. Okay. And you were taking extreme care,
23 everybody was taking extreme care so that it
24 wouldn't actually -- the tarp wouldn't actually
25 touch the RAV4 itself?

1 A. Yes, all the officers were very conscious of that
2 fact.

3 Q. So there was space around it, underneath the
4 tarp, right?

5 A. They were trying to do the best they could to
6 make sure that the top of the vehicle was not
7 touched by the tarp.

8 Q. Okay. And that was completed, that operation of
9 putting the tarp over it was completed by the
10 time you were called away to the command center,
11 right?

12 A. They were still working on it when I was relieved
13 of my duties. There were some issues, the winds
14 were picking up. I know they were trying their
15 best to get that situated. I don't believe, to
16 the best of my recollection, that that was
17 totally finished by the time I was released.

18 Q. Okay. But largely covered, being able to weigh
19 it down still; is that the gist of it?

20 A. I think that would be accurate.

21 Q. Making some adjustments, perhaps?

22 A. That would be accurate.

23 Q. Okay. So, if -- if we heard other testimony that
24 showed that the RAV4 was still completely covered
25 with the tarp at 4:16 p.m., then that would mean,

1 for at least one hour, that RAV4 was covered;
2 would that be right?

3 A. Yeah, it was, you know, like I said, I left at 10
4 minutes after three, they were still doing some
5 adjustments to it. So, yeah, if you heard
6 testimony at 10 after 4, I was not down there so
7 I don't know for sure.

8 Q. So you never went back to that site?

9 A. Correct.

10 Q. The rest of the night you never went back to see
11 the RAV4 yourself?

12 A. I believe later on in the evening, after the
13 canine dogs had searched the area, I was down in
14 that area, but not near the RAV4. I was down by
15 the pond area and through the lanes, but never
16 really directly by the RAV.

17 Q. By the way, did you see -- Can you -- can you
18 tell me when you first saw Lieutenant Lenk at the
19 Avery salvage that day?

20 A. My recollection, the first time I saw Lieutenant
21 Lenk would have been up at the command center on
22 the top of the hill.

23 Q. All right. Well, would that have been the first
24 time you got there, or would that have been
25 later, which time?

1 A. It would have been after I cleared from the
2 Toyota RAV. We were up at the command center.
3 There were officers who I did not know at that
4 time. I never met these officers, was introduced
5 to those officers.

6 Q. Okay. So around 3:15 or so is when you think you
7 were introduced to Lieutenant Lenk up at that
8 command center?

9 A. I can't be sure if he was on scene immediately
10 when I got there, or if he showed up a half hour
11 later. I really don't know for sure what time he
12 showed up on scene.

13 Q. Okay. What about Sergeant Colborn?

14 A. Same would apply to him, I never met Sergeant
15 Colborn before so I didn't know who he was. I
16 was introduced to him, but I can't be certain
17 what time they actually showed up at the scene.

18 Q. All right. Now, when you first arrived at the
19 RAV4 location at approximately 3:00, you were
20 actually the first Calumet officer to relieve any
21 Manitowoc officer from security in that immediate
22 area, right?

23 A. That's my understanding.

24 Q. All right. So that if the first officers --
25 Manitowoc officers arrived at about 11:00 a.m. to

1 3:00 p.m., that means the first four hours that
2 that vehicle was in that location Calumet was not
3 securing it, Manitowoc was securing it, right?

4 A. I don't know exactly who was securing it. All I
5 know is I believe the Manitowoc deputy, if there
6 were other DCI officers there, I really don't
7 know.

8 Q. So you don't know what happened before you came,
9 you just know as far as Calumet goes -- Calumet
10 officers, you were the first?

11 A. That's what I was told.

12 Q. All right. Now, when you went to the Command
13 Post, the first time, when you first checked in
14 at 2:45 or so, you had the -- were you introduced
15 to who was in charge at that point?

16 A. No, my recollection is, is when I arrived with
17 Deputy Bass, I was met by Investigator Wiegert
18 and Steier and they informed me to respond
19 directly down into the junkyard area. I don't
20 believe I got out and socialized with the group
21 at all. It was just, you need to go down there
22 and take care of whatever they need your
23 assistance with.

24 Q. So you weren't told at that time about this
25 decision to transfer authority away from

1 Manitowoc to Calumet County, or were you?

2 A. I was not.

3 Q. All right. That didn't come until later when you
4 went back to the Command Post and were given some
5 search assignments?

6 A. Yes.

7 Q. And you have been with Calumet for how long?

8 A. Approximately 15 years.

9 Q. So you are pretty familiar with the officers in
10 your -- the other deputies and sergeants and
11 detectives on your staff, right?

12 A. Right.

13 Q. And you know which ones are evidence collection
14 people and which ones aren't, right?

15 A. Yes.

16 Q. Some have training in that and some don't, right?

17 A. Correct.

18 Q. But in your department, you mentioned yourself,
19 that you had had some kind of training or
20 experience since 1994?

21 A. Yes.

22 Q. Let me go through a list of some people and see
23 if these aren't evidence collection qualified
24 members of your department. All right.

25 A. Okay.

1 Q. Deputy Kucharski?

2 A. Yes.

3 Q. Deputy Riemer?

4 A. Yes.

5 Q. Investigator Wiegert?

6 A. I don't believe Investigator Wiegert ever had any
7 evidence --

8 Q. Really?

9 A. -- technician class. He did some work with
10 arsons and things like that. He was an arson
11 investigator. He did collect all the evidence at
12 arson scenes.

13 Q. What about Detective Dederling?

14 A. I don't believe Detective Dederling ever had the
15 official evidence class. He may have had some
16 on-the-job training from other officers, but
17 officially I can't testify that he did.

18 Q. Okay. Gary Steier?

19 A. Yes.

20 Q. Jeremy Hawkins?

21 A. Yes.

22 Q. How about Wendy Baldwin?

23 A. I don't believe she had any evidence technician
24 training.

25 Q. Any other evidence technician training officers

1 that you can think of on your force?

2 A. Yes.

3 Q. Who?

4 A. Keith Ristow and Nick Sablich.

5 Q. Okay. So Ristow, Sablich, Hawkins, Steier,
6 Riemer, Kucharski, and yourself?

7 A. Maybe a correction on that, Deputy Sablich didn't
8 obtain his training until after the Avery case,
9 the initial time on scene. He first went through
10 the class after that.

11 Q. All right. So we'll take one away. Six, right?
12 Six evidence qualified technicians, just on the
13 Calumet Sheriff's Department, right?

14 A. That would be correct, with the exception that,
15 like, Investigator Steier, for example, when you
16 are promoted to, like, an investigator position,
17 you have different responsibilities, he doesn't
18 do -- not called out to things like that, for
19 crime scenes for that part. But he is more of an
20 investigator than an evidence collector.

21 Q. Well, hold on just one second there, sir. Let's
22 fast forward here to March 1st and 2nd here for a
23 second. Who was the officer who was collecting
24 evidence on those two days?

25 A. Inside the residence, it was myself.

1 Q. And inside the garage was Gary Steier, was it
2 not?

3 A. He was present. I'm not sure what his
4 responsibilities were in the garage.

5 Q. Well, we'll deal with him later. Anyway moving
6 back, so there's six officers on your force who
7 were evidence collection qualified on November
8 5th, right?

9 A. Correct.

10 Q. And we also know, the very next day, you went out
11 with a team of Manitowoc city police by the name
12 of Jeff Tech, T-e-c-h?

13 A. Correct.

14 Q. Brian Swetlik?

15 A. Correct.

16 Q. And Robert Block?

17 A. Correct.

18 Q. All of whom were evidence collection technicians
19 for that department, right?

20 A. I don't know what their qualifications were. It
21 was explained to me when I first was introduced
22 to them that Brian Swetlik was a detective
23 sergeant; and Jeff Tech was a detective; and Rob
24 Block was a patrol officer and evidence
25 collection --

1 Q. Right.

2 A. -- officer.

3 Q. And they were part of your team the very next
4 day?

5 A. Yes.

6 Q. And they were going around and they were
7 collecting evidence, right?

8 A. Yes.

9 Q. And you wouldn't let somebody collect evidence
10 who wasn't trained to do so, would you?

11 A. Well, I wasn't in charge of calling those people
12 to assist me. If the investigators felt
13 comfortable with them, they would have made that
14 decision. They would know better than I would at
15 that time what their qualifications were. I
16 trusted the decisions that were being made at the
17 command center.

18 Q. All right, sir. So you watched those three
19 officers all day when you were with them, right?

20 A. Which day?

21 Q. November 6th, that's the Manitowoc officers that
22 we're having a little dispute about here:
23 Mr. Tech, Swetlik and Block.

24 A. I was with them.

25 Q. You were them. You never had any concerns about

1 whether they were collecting evidence properly,
2 did you?

3 A. I had no concerns of their abilities.

4 Q. So those three were competent evidence collection
5 people, right?

6 A. They appeared to be, yes.

7 Q. Okay. So, in addition to those two departments,
8 there were numerous other law enforcement
9 officers on site on November 5th; isn't this
10 right?

11 ATTORNEY KRATZ: I'm going to object,
12 Judge. We're assuming a fact that's not in
13 evidence. Mr. Buting is assuming that those three
14 officers were there on the 5th, perhaps you should
15 ask that question before who else was on site on the
16 5th.

17 THE COURT: All right. Mr. Buting, I will
18 ask you to rephrase.

19 Q. (By Attorney Buting)~ All right. You don't know
20 who all was on site, but you know some of the
21 officers on site?

22 A. Yes.

23 Q. You know that there were numerous departments
24 represented on site on the 5th, right?

25 A. Yes, there were several.

1 Q. Okay. And you knew that there were Crime Lab
2 specialists on site on November 5th, right?

3 A. Yes.

4 Q. You didn't have any decision making
5 responsibility yourself as to how these teams
6 were put together?

7 A. That is correct.

8 Q. So, specifically, when you went back to the
9 Command Post at around 3:15 or 3:30 on
10 November 5th, that's the time when you were given
11 the assignment to go search places; you were
12 paired up with Lenk, Colborn, and Remiker?

13 A. No.

14 Q. That came later?

15 A. That was later.

16 Q. That's right, you went out with some dogs for
17 awhile, right?

18 A. Well, at 3:00, when I got back, they were
19 orchestrating teams to go do the initial entries
20 into the residences. My responsibility was to
21 find out who was going with who, document the
22 times as they reported back.

23 So when the deputies, our officers,
24 returned back to the command center, they would
25 check in with me, tell me the times that they did

1 entry, if it was forcible entry, non-forcible
2 entry and the time that they exited the
3 residence. So I was keeping a log for them and
4 their times were given to them.

5 Q. Okay. And those were what we heard earlier
6 described as the sweep searches?

7 A. Right.

8 Q. The brief entries?

9 A. Yes.

10 Q. Okay. Then after that, you had a brief period of
11 time where you were with some dog handlers,
12 right?

13 A. I met with the dog handlers, assigned officers to
14 go with the handlers, to take their dogs out,
15 yes.

16 Q. And then you came back and is that when you were
17 then assigned to go to with Lieutenant Lenk,
18 Colborn and Remiker?

19 A. Yes, it was after all that was done.

20 Q. Now, is that the first time that you -- Well, let
21 me ask you this, before November 5th even dawned,
22 did you know about Mr. Avery's lawsuit against
23 Manitowoc County and the sheriff's department?

24 A. Yes.

25 Q. And that -- Would it be fair to say that that was

1 fairly general knowledge among law enforcement
2 officers in the northeast Wisconsin area?

3 A. I don't know if law enforcement officers watch
4 the news like I do, but I was well aware of it.
5 I can't speak for any other officer --

6 Q. All right.

7 A. -- if they were following that story.

8 Q. So, at any rate, before you even got there, you
9 knew about that. And when were you first advised
10 that the -- because of that, the Manitowoc
11 sheriff had transferred authority over to
12 Calumet?

13 A. It was shortly after arriving back at the Command
14 Post around, 3:10. I know the district attorney
15 from Manitowoc County was there; I believe his
16 name is Mark Rohrer; and our district attorney
17 was there; sheriff; and I think there were some
18 high management people within the Manitowoc
19 County Sheriff's Department.

20 Q. All right. And then when you were given the
21 assignment to go into Mr. Avery's residence, this
22 was about 7:30 p.m. on Saturday evening,
23 November 5th?

24 A. Yes, we made entry at 7:30.

25 Q. Okay. So you were assigned shortly before that I

1 assume, right?

2 A. Correct.

3 Q. Who was making that assignment, Mr. Fassbender or
4 Mr. Wiegert?

5 A. To tell you the truth, I don't know which one
6 came up with that assignment. I don't know.

7 Q. Okay. Were they both present?

8 A. They were both in the command center area, yes.

9 Q. All right. And you said on direct that you were
10 advised to watch them, make sure that none of
11 Manitowoc officers were alone in the property?

12 A. That was the initial instruction from the
13 district attorney of Manitowoc County. He made
14 an announcement to all Manitowoc officers, that
15 you are not to be alone on the property, period.

16 Q. Were you there when that was made?

17 A. Yes.

18 Q. Okay. And so was there a discussion of that
19 again with Mr. Wiegert or Mr. Fassbender when you
20 were signed up, paired up with these three
21 Manitowoc officers?

22 A. I don't think that was reiterated; it was well
23 understood.

24 Q. Well, your assignment inside that trailer, the
25 residence, was to, as I recall, was to not

1 actually do the searching yourself, you were just
2 watching, making notes, documenting, right?

3 A. Yes.

4 Q. So of the four officers in that little trailer,
5 only the Manitowoc officers were the ones
6 actually doing the searching, right?

7 A. Right.

8 Q. You were doing the watching, right?

9 A. I was doing the documentation.

10 Q. And the watching, right?

11 A. Yes.

12 Q. You never let them out of your eye sight, did
13 you?

14 A. I cannot sit up here and look at you guys and
15 tell you that three hours inside that residence
16 that I didn't turn my back, walk away, glance
17 away; so I can't say that every second of the
18 close to three hours I was making direct eye
19 contact with them or watching every move they
20 made.

21 Q. Well, you did, I think at one point, describe an
22 incident or moment when --

23 ATTORNEY BUTING: Actually, let's put up --
24 Counsel, I am going to need your indulgence on this,
25 please, because I don't have the computer animated

1 diagram. Would you be able to put that up?

2 ATTORNEY STRANG: I do.

3 ATTORNEY BUTING: Do we? Let me figure out
4 the exhibit number.

5 ATTORNEY FALLON: What exhibit numbers,
6 counsel?

7 ATTORNEY BUTING: We're going to start with
8 102.

9 ATTORNEY FALLON: On the ELMO.

10 ATTORNEY BUTING: Yes.

11 Q. (By Attorney Buting)~ Okay. I'm showing you up
12 on the screen here Exhibit 101, previously
13 marked, does that look familiar to you, sir, at
14 least what it depicts?

15 A. Appears to be the Steve Avery residence.

16 Q. And if you could go look at the bedroom area --
17 Actually, I'm going to put up a different one to
18 show you that; 104 is next. Okay. Do you see
19 that?

20 A. Yes.

21 Q. And is that a representation of the bedroom, back
22 bedroom, Mr. Avery's bedroom, and the hallway
23 bathroom area?

24 A. Yes.

25 Q. All right. I apologize for that delay. But, I

1 believe you said that at one point you were
2 watching them so carefully that Mr. Lenk,
3 Lieutenant Lenk, excuse me, walked out of the
4 bedroom into the bathroom area, right?

5 A. Correct.

6 Q. Through this hallway. And you were standing
7 right here at the doorway while they were
8 searching, right?

9 A. Originally, yes.

10 Q. In other words, this bedroom really wasn't even
11 big enough for four grown men to be walking
12 around and doing things, was it?

13 A. With the bed, you know, as I previously had
14 testified, Detective Remiker and Lieutenant Lenk
15 were by the closet area. Sergeant Colborn was up
16 by the desk and bookcase area?

17 Q. All right. So you are indicating the lower part
18 of the --

19 A. Yes.

20 Q. -- is the closet; lower part of this screen here.
21 And the upper is the desk bookcase area?

22 A. Correct.

23 Q. And you were standing in the door?

24 A. Just inside the doorway.

25 Q. Just inside the doorway, right. Okay. But you

1 mentioned that when Lieutenant Lenk went out into
2 the bathroom, you repositioned yourself in the
3 doorway so you could see him in the bathroom and
4 those in the bedroom, right?

5 A. Yes.

6 Q. You were keeping an eye on what was going on with
7 Mr. Lenk and -- Lieutenant Lenk and the other
8 officers?

9 A. I would say I was positioning myself to see if
10 they had located any evidence.

11 Q. Well, and you were also trying to abide by the
12 directive that Manitowoc officers should not be
13 alone in any of this property, right?

14 A. It was more of a documentation type thing. I
15 mean, I did not treat these guys like I did not
16 trust them, okay.

17 Q. Well, let me ask you this, sir. You knew that
18 the district attorneys told those officers not to
19 be alone on any property, right?

20 ATTORNEY KRATZ: Mischaracterization,
21 Judge, he said the Manitowoc County district
22 attorney, if he could rephrase the question.

23 ATTORNEY BUTING: I don't particularly care
24 which district attorney, it's a district attorney.
25 All right.

1 Q. (By Attorney Buting)~ You knew that?
2 A. Yes.
3 Q. You knew that it was important to the
4 prosecution, or some attorneys on site, that
5 these officers not be alone anywhere on that
6 Avery property, right?
7 A. Yes.
8 Q. And you knew that this was Mr. Avery's trailer?
9 A. Yes.
10 Q. And that if anything, of all the places that they
11 should not be alone, it would be in Mr. Avery's
12 trailer, right?
13 A. We did not know that on that day.
14 Q. Mr. Avery was the one who was suing them, right?
15 You knew that?
16 A. I was aware of that fact, yes.
17 Q. You knew that, that's right. And you knew that's
18 why Manitowoc recused themselves, or transferred
19 authority over to Calumet, right?
20 A. Yes.
21 Q. It was because of this man right here, right?
22 A. I believe that's correct.
23 Q. And it was this man right here's trailer that you
24 were in?
25 A. Yes.

1 Q. And so that, of all places, you knew was
2 important that you make sure that these Manitowoc
3 officers not be alone?

4 A. Correct.

5 Q. And so you kept an eye on them, didn't you?

6 A. I was watching what they were doing, yes.

7 Q. Had you ever, in any other search in your entire
8 career, had to act like a babysitter, or a
9 watchdog, for the officers who were conducting a
10 search?

11 A. I did not treat this as if I was babysitting.

12 Q. Had you ever, in any of your years as an officer,
13 had to watch the officers who were searching
14 where you were, to make sure that they weren't
15 alone?

16 A. No.

17 Q. This was a first for you, wasn't it?

18 A. Yes.

19 Q. And you made sure, because you were the watchdog
20 here, you were the custodian, the representative
21 of Calumet, you made sure that none of those
22 officers could have planted anything, right?

23 A. I watched them to the best of my ability, within
24 those three hours.

25 Q. And to the best of your ability meant you did

1 everything you could to make sure that they knew
2 they were being watched and that they couldn't
3 plant any evidence if they wanted to?

4 A. They were told the same instructions that I were,
5 that I was going into that residence to document
6 and recover all evidence that was seized.

7 Q. Well, and you did a good job doing that, didn't
8 you?

9 A. I believe to the best of my ability, yes.

10 Q. All right. And would you agree with me that it
11 was -- would have been very difficult for
12 Lieutenant Lenk or Sergeant Colborn to have
13 planted a Toyota key in that residence, under
14 your watch?

15 A. I believe it would have been difficult.

16 Q. Extremely difficult, right?

17 A. It would have been difficult, yes.

18 Q. Because you were watching them?

19 A. To the best of my ability, yes.

20 Q. Did you ever suggest to Mr. Fassbender or
21 Mr. Wiegert that maybe you would like to have
22 some of your own officers in there doing this
23 search that night, to Mr. Avery's residence?

24 A. We didn't have all those officers that you
25 mentioned at the scene that day.

1 Q. You could call them in, right?

2 A. They were in charge of making those decisions. I
3 didn't know what information they were privy to.

4 Q. You were off duty, right? You weren't working
5 that day?

6 A. I don't recall if that was my scheduled day or
7 not.

8 Q. I believe that was your testimony.

9 A. I was at home when I got the phone call.

10 Q. So you were called in?

11 A. Yes.

12 Q. And there's no reason that other officers that we
13 went through that were evidence collection
14 officers on your force also couldn't have been
15 called in for this assignment, was there?

16 ATTORNEY KRATZ: Objection, both
17 argumentative and assuming a fact not in evidence.
18 This officer wouldn't know that.

19 ATTORNEY BUTING: I will withdraw it.

20 Q. (By Attorney Buting)~ So your testimony, then, is
21 that you never questioned Fassbender or Wiegert
22 about their decision --

23 A. Absolutely not.

24 Q. -- to send Manitowoc officers in.

25 A. I did not question them or doubt their judgments,

1 no.

2 Q. Of course, they out rank you, don't they? They
3 were the leaders of this entire investigation at
4 that time, right?

5 A. Yes.

6 Q. And you take orders from them?

7 A. That's the way I looked at it, yes.

8 ATTORNEY BUTING: I'm going to take this
9 down.

10 Q. (By Attorney Buting)~ You testified about a
11 number of these exhibits that you found, right?

12 A. Yes.

13 Q. And you mentioned that you found this bottle of
14 bleach, which is Exhibit 195, in the bathroom; is
15 that right?

16 A. I didn't find it, that was recovered by Deputy
17 Riemer.

18 Q. On a different search, then?

19 A. I believe so.

20 Q. Wasn't even recovered on November 5th?

21 A. I don't believe so.

22 Q. Okay. But your -- but your testimony was that it
23 was found in the bathroom?

24 A. I recalled seeing a bleach bottle in the
25 bathroom, if that's the very same exact one, I

1 believe it was.

2 Q. All right. Showing you Exhibit 206 and 207,
3 could you take a minute and just orient yourself
4 with that and tell me what those are?

5 A. Sure. Number 207 appears to be the washing
6 machine in the bathroom.

7 Q. In the bathroom, right? And what is 206?

8 A. 206 would be the sink in the bathroom.

9 Q. Okay. And this is the bathroom in Steven Avery's
10 residence, right?

11 A. Yes.

12 Q. Putting up Exhibit 207 in just a moment here.
13 That's what you have identified as Mr. Avery's
14 bathroom, right?

15 A. Yes.

16 Q. And you note the floor, the tiling -- linoleum on
17 the floor, the hamper. And does that appear to
18 be a shower in the background there?

19 A. Yes.

20 Q. So when you say that you found -- or that someone
21 found a bottle of bleach in the bathroom, it was
22 actually in the laundry room, right?

23 A. If you want to consider that front area to be a
24 laundry room, sure.

25 Q. Well, that's where the washer and dryer is,

1 right?

2 A. Yes, but it's part of the bathroom.

3 Q. Okay.

4 A. It's not in the hallway.

5 Q. Would it surprise you to find a bottle of

6 household bleach in someone's bathroom?

7 A. No.

8 Q. Do you have bleach in your bathroom?

9 A. I believe it's under the sink in the kitchen.

10 Q. Okay. But certainly bleach is where people --

11 The laundry room is where people use bleach,

12 isn't it --

13 A. Yes.

14 Q. -- typically?

15 A. Yes.

16 Q. And no bleach was found in the garage, was it?

17 A. I don't know, I never searched the garage.

18 Q. I'm putting up now, on the screen, 206, which is

19 the other side of Mr. Avery's bathroom, right?

20 A. Yes.

21 Q. You recognize the floor, the linoleum, and the

22 hamper sitting there?

23 A. Yes.

24 Q. I'm just going to zoom in on this for a minute.

25 You see a toothbrush?

1 A. Yes.

2 Q. Do you see more than one toothbrush?

3 A. I see the one.

4 Q. All right. And razor, looks like a razor?

5 A. Yeah.

6 Q. We'll get to this again in a minute. But you
7 mentioned buccal swabs. You know what buccals
8 are, right?

9 A. I didn't on that day. When I got to the hospital
10 it was explained.

11 Q. All right. So now you know what buccal swabs
12 are?

13 A. Yes.

14 Q. And buccal swabs are basically like a Q-tip that
15 you take and swab inside someone's mouth, their
16 cheeks?

17 A. Yes.

18 Q. And from that you get DNA samples, right?

19 A. Yes.

20 Q. And it's a very good way of collecting DNA,
21 correct?

22 A. That's what they tell me, yes.

23 Q. Much like a toothbrush would be, right?

24 A. I don't know what the capabilities are from a
25 toothbrush?

1 Q. Well, you know that people put toothbrushes in
2 their mouth all the time, right?

3 A. With toothpaste, yes.

4 Q. Okay. And so that it would be a fertile source
5 of one's DNA?

6 ATTORNEY KRATZ: Objection, Judge, beyond
7 the scope of this witness' expertise.

8 THE COURT: The objection is sustained.

9 Q. (By Attorney Buting)~ Did you ever work any
10 missing person cases besides this?

11 A. Yes.

12 Q. Did you ever have to go to the missing person's
13 house to try and get some personal items that
14 might have their DNA on it for future use?

15 A. I don't think it ever got to that level.

16 Q. Never got to, in your experience?

17 A. Yeah, they were located prior to a full-blown
18 investigation.

19 Q. Okay. Sure. All right. I'm showing you what I
20 believe is previously marked in your direct as
21 163; is that -- does that appear right?

22 A. Yes.

23 Q. And that's a photograph of Mr. Avery's bedroom
24 that was taken on the night of November 5th,
25 right?

1 A. I believe so.

2 Q. And you can see the gun rack that you just
3 identified, right?

4 A. Yes.

5 Q. And there's a -- some sort of a firearm in the
6 lower tier of that -- right -- in this photo,
7 right?

8 A. Yes.

9 Q. That's a black muzzleloader?

10 A. I never identified what type of firearm.

11 Q. Okay. Well, I don't know if you know guns and,
12 frankly, I don't know them that well, but this
13 thing that's hanging down here, do you know what
14 that is?

15 A. I believe they refer to that as a powder horn.

16 Q. A powder horn. So that's what you used,
17 presumably, with a powder rifle, to load it,
18 right?

19 A. I don't own one; I would assume that would
20 probably be correct.

21 Q. Okay. I just want to be clear, that's not some
22 sort of bizarre sexual device or anything, is it?

23 A. Not that I'm aware of.

24 Q. Or any kind of torture device, right?

25 A. I don't believe so.

1 Q. All right. Well, just in case not everybody
2 knows that, I wanted to make that clear. You did
3 mention finding some handcuffs and leg irons,
4 right?

5 A. Sergeant Colborn found those items, yes.

6 Q. But you were watching and taking note?

7 A. Yes.

8 Q. I believe on direct you testified that it was
9 found in the bookcase; in fact, it was found on a
10 night stand; isn't that right?

11 A. I believe it was the bookcase.

12 Q. You wrote a report of your investigation that
13 day, right?

14 A. Yes.

15 Q. Would that refresh your recollection, if you took
16 a moment to review that?

17 A. I think I know where you are going with this and
18 I don't think I need to see it. When I did my
19 report, what is now known as the bookcase, I
20 looked at it to be a night stand. I would use it
21 as a night stand myself. So in my report I did
22 refer to it as being a night stand.

23 Q. Okay. All right. So you cleared that up. At
24 any rate, these handcuffs and leg irons, these
25 are novelty items that are sold at places like

1 Intimate Treasures and things of that nature,
2 right?

3 A. Yes, you can get them from stores, I guess. I
4 never ...

5 Q. And they are meant for consenting adults, for
6 whatever kind of experimenting or play they may
7 do, right?

8 ATTORNEY KRATZ: Objection, Judge, I'm sure
9 they have a lot of uses.

10 THE COURT: Well, I think if he knows he
11 can testify as to what he understands their intended
12 use to be, if he knows.

13 ATTORNEY KRATZ: It's the term consenting
14 adults that I have objection with.

15 ATTORNEY BUTING: Well, I think he can tell
16 us, what is it?

17 ATTORNEY KRATZ: It could be unconsenting
18 adults, as well.

19 THE COURT: Well, that's something you can
20 take up on redirect.

21 Q. (By Attorney Buting)~ Isn't that right, I mean,
22 they are sold at these adult novelty type places
23 where their intended use is consenting adults
24 engaged in whatever kind of role playing, or
25 whatever, right?

1 A. Sure.

2 Q. Okay. And I'm going to put back up that
3 photograph from -- No. 163 again. There's a
4 headboard in that photograph, right?

5 A. Yes.

6 Q. And that headboard was later seized by somebody
7 and put into your department's property room,
8 right?

9 A. Yes.

10 Q. And there came a time when you and some other
11 officers took that headboard out from the
12 property room to examine it, right?

13 A. That would be myself and Deputy Hawkins.

14 Q. And also Mr. Fassbender, correct?

15 A. Not originally, I don't think.

16 Q. Well, did you do a report of that day?

17 A. Yes.

18 Q. Would it refresh your recollection if you
19 reviewed that?

20 A. Sure.

21 Q. Page 936. This report, by the way has --

22 A. Yes.

23 Q. -- Deputy Jeremy Hawkins name on it.

24 A. Right.

25 Q. It reads as if it was written by you.

1 A. It is written by me, it was a typo by the
2 secretarial staff.

3 Q. Okay. And it says -- Just take a minute and
4 review that, those first two paragraphs and then
5 we'll --

6 A. I know where you're going with this as well.

7 Q. Okay. So you don't need to review it?

8 A. I don't believe so.

9 Q. All right. Then I will put it aside and ask you
10 some questions. This is Monday, April 3rd,
11 right, 2006?

12 A. That would be the second day that we looked at
13 the headboard. The first day we looked at the
14 headboard would have been March 28.

15 Q. Okay. Well, we're talking about this day.

16 A. Okay. That was the confusion then, when you
17 mentioned --

18 Q. All right.

19 A. -- Fassbender.

20 Q. All right. I understand. So I apologize for
21 that. On this day, though, you did have a
22 meeting with, actually, Sheriff Pagel, right,
23 Mark Wiegert, John Dederling, and Mr. Fassbender?

24 A. Yes.

25 Q. Special Agent Fassbender?

1 A. Yes.

2 Q. And a decision was made for you and Deputy
3 Hawkins to take a very good look at the
4 headboard, right?

5 A. We had looked at it previously, which is why we
6 had consulted with those persons, to get further
7 direction.

8 Q. All right. And so you took it out and put it on
9 freezer paper, examined it like any other piece
10 of evidence, right?

11 A. Yes.

12 Q. And didn't you, in fact, note, from your
13 observations, that we could not see any
14 striations around the spindles of the headboard
15 consistent with that of having handcuffs or leg
16 irons secured to the spindles of the headboard?

17 A. That would be correct.

18 Q. Meaning, you looked very, very closely at these
19 spindles depicted in Exhibit 163, on the
20 headboard, and saw no scratches. When you say
21 striations you mean scratches, right?

22 A. Yes.

23 Q. Scratches you might see from somebody who is
24 chained, arms out, to that headboard, right?

25 A. Correct.

1 Q. Somebody struggling for their life, you would
2 expect to see some scratches?

3 A. I would think so.

4 Q. And you saw none, right?

5 A. Nothing consistent with that going around the --

6 Q. All right.

7 A. -- entire spindle.

8 Q. Going back, for just one moment. Sergeant
9 Colborn, you mentioned, was --

10 ATTORNEY BUTING: You can take that back,
11 please.

12 Q. (By Attorney Buting)~ Sergeant Colborn, you
13 mentioned, was searching the desk and bookcase
14 area?

15 A. Yes.

16 Q. And at no time did Sergeant Colborn ever say,
17 hey, look at this, this -- the back of this
18 bookcase is loose?

19 A. No.

20 Q. Well, there's a gap here, right?

21 A. No, I never saw him physically go behind and look
22 at it, he was going through the contents inside.

23 Q. And he never mentioned, and you never saw, the
24 back of that moving as he was going through,
25 right?

1 A. No.

2 Q. Okay. You mentioned some small blood drops or
3 bloodstains that were found in Mr. Avery's
4 bathroom; do you recall that?

5 A. Yes.

6 Q. Are you aware that none of those drops of blood
7 ever proved to be Ms Halbach's?

8 A. I was told that; I read a report.

9 Q. All right. In fact, that no blood anywhere, from
10 Teresa Halbach, was found on any of these
11 bloodstains you made note of that night?

12 A. I was told that, yes.

13 Q. Okay. So, do you know whose they did turn out to
14 be?

15 A. I can't testify --

16 Q. Well, we'll get to that. You testified about
17 this Exhibit 200, which is an envelope that was
18 found?

19 A. Yes.

20 Q. You saw this recovered?

21 A. I don't believe that was recovered on the 5th of
22 November during the initial search.

23 Q. Oh, okay. But you identified it, so you must
24 have recognized it as an identifier?

25 A. I saw it, yes.

1 Q. You saw it. Okay. And the letter is from --
2 ATTORNEY BUTING: Put the ELMO back on,
3 please.

4 Q. (By Attorney Buting)~ The letter is from UW
5 Madison Law School, right?

6 A. Yes.

7 Q. The envelope itself?

8 A. Yes.

9 Q. And it actually contained a letter from the law
10 school dated November 1, 2005, right?

11 A. Yes.

12 Q. And it's an invitation --

13 ATTORNEY KRATZ: Objection, hearsay, Judge.

14 ATTORNEY BUTING: Well, this has been
15 introduced as an exhibit.

16 ATTORNEY KRATZ: I don't care, it's
17 hearsay, Judge, it's being offered for the truth of
18 the matter.

19 THE COURT: I'm going to sustain the
20 objection.

21 ATTORNEY KRATZ: Thank you, Judge.

22 Q. (By Attorney Buting)~ You also introduced a
23 number of notebooks?

24 A. Yes.

25 Q. Just for the record, 199, 197, and 198, right?

1 A. Yes.

2 Q. And these are pocket notebooks, right?

3 A. Yes.

4 Q. We only talked about the one page here that had
5 Teresa Halbach's number on it, right?

6 A. Yes.

7 Q. But, in fact, all or most of these notebooks have
8 numerous other phone numbers on them too, don't
9 they? Need to look through them?

10 A. I never paged through them, so.

11 Q. Well, take just a moment. Tell me if you see
12 other people's phone numbers, names, things of
13 that nature jotted down.

14 A. I would like to also clarify something in
15 reference to my testimony yesterday as well.
16 These two notebooks right here, I did see them on
17 the night of the 5th. Detective Remiker was
18 looking at them. I'm not sure if my testimony
19 yesterday was that he collected them. But
20 reviewing my stuff, he didn't collect these on
21 the night of the 5th. A different officer would
22 have collected these on a day thereafter. I just
23 wanted to correct that.

24 Q. Okay. That's just fine. Thank you. And when
25 you say these, just so the record is clear, you

1 were holding up Exhibit 199, the red notebook?

2 A. And 197.

3 Q. And 197, the green notebook. Okay. Just take a
4 moment and see if there's other phone numbers and
5 names in some of these?

6 A. Okay.

7 Q. Is that a fair statement?

8 A. I see numerous different phone numbers, but it's
9 in somebody's handwriting.

10 Q. Well, are you a handwriting expert, sir?

11 A. Well, it's obviously not the one that had the
12 same writing as on there.

13 Q. Can you identify whose handwriting is it, back to
14 the door?

15 A. No.

16 Q. But there are different phone numbers so if --
17 these are as if someone was using these to keep
18 -- just jot down phone numbers and names, right?

19 ATTORNEY KRATZ: Objection, speculation.
20 I'm sure counsel doesn't want us to read everything
21 that's in that notebook. It's hearsay, Judge, and
22 it's speculation.

23 ATTORNEY BUTING: You can read everyone of
24 them if you want to.

25 THE COURT: It's a fair summary question

1 based on what he already testified to; I will allow
2 it.

3 Q. The exhibit that has the note that has Teresa
4 Halbach's phone number in it -- Well, first of
5 all, it's not torn out from the notebook, right?

6 A. Correct.

7 Q. Not as if this was posted on the door as a note
8 for somebody is it?

9 ATTORNEY KRATZ: Objection, speculation,
10 Judge.

11 Q. (By Attorney Buting)~ Do you see any tape on it,
12 scotch tape?

13 THE COURT: I'm going to allow the
14 question.

15 A. I don't see any tape.

16 Q. Okay. And there's two different colored inks,
17 too, correct?

18 A. Yes.

19 Q. Her phone number is in green ink and this
20 other -- whatever this other writing means, is in
21 a different color ink?

22 A. Back to patio door is in black.

23 Q. Okay. As if maybe it was even written at
24 different times?

25 ATTORNEY KRATZ: Objection, speculation,

1 Judge.

2 THE COURT: Sustained.

3 Q. (By Attorney Buting)~ You also introduced a sign,
4 a for sale sign, that -- I don't see the exhibit
5 number here, but I will just show it to you.

6 ATTORNEY STRANG: 194.

7 Q. (By Attorney Buting)~ All right, 194. This is --
8 On one side it has a for sale sign, like you
9 would buy at a hardware store or something,
10 right?

11 A. Yes.

12 Q. It's got 1995 Pontiac Grand Am listed, right?

13 A. Yes.

14 Q. And then, on the back it has got some other
15 writing, 3302 Zander Road, correct?

16 A. Correct.

17 Q. And then it's got the phone number here that
18 turns out to be Teresa Halbach's cell phone
19 number, right?

20 A. Yes.

21 Q. Are you aware that Teresa Halbach's never lived
22 at 3302 Zander Road.

23 A. I'm not aware of any significance to the address.

24 Q. So, as far as you know, there's no connection
25 whatsoever between this address and that phone

1 number, right?

2 A. I don't know that.

3 Q. You don't know that or you do know that?

4 A. I do not know that.

5 Q. Now, you do know, I assume, that Teresa Halbach
6 had seen Mr. Avery on several occasions before
7 October 31st?

8 A. I was told that by Investigator Wiegert in
9 advance.

10 Q. Okay. Part of your briefing, right?

11 A. Yes.

12 Q. They sit down and they explain some of the
13 background so you know what's going on, right?

14 A. Yes.

15 Q. Okay. And in fact, before October 31st,
16 Mr. Avery had Teresa Halbach's phone number
17 already because he had arranged a private sale
18 with her; do you recall that?

19 A. No, I don't recall him having her cell number,
20 what time he had it. I don't know that
21 information.

22 Q. So you didn't know that information, okay. But,
23 if that were the case, finding her phone number
24 in his house on November -- or trailer, on
25 November 5th, would have meant nothing, would it?

1 ATTORNEY KRATZ: Objection, Judge, calls
2 for a conclusion, that's probably what the jury --

3 THE COURT: The objection is sustained.

4 Q. Well, when you collected those pieces of
5 evidence, you didn't -- you don't know when those
6 notes -- phone numbers were written, right?

7 A. Detective Remiker collected them, but I did not
8 know when they were written.

9 Q. All right. They could have been written weeks
10 ago, for all you know?

11 A. True.

12 Q. By the way, you said you weren't collecting the
13 evidence, you were just standing their watching
14 and writing down notes as to the times that
15 things were collected?

16 A. Yes.

17 Q. But the actual collection itself was done by --
18 or the bagging was done by Lieutenant Lenk?

19 A. Yes.

20 Q. Did you watch him seal every single bag?

21 A. I can't say with 100 degree certainty every
22 single bag, but he was doing his duties, I was
23 there, yes.

24 Q. Okay. So when you say that you were --
25 ultimately you collected the evidence, it was at

1 the end of the night?

2 A. Yes.

3 Q. After all the bags were sealed and completed,
4 right?

5 A. Yes.

6 Q. Then it's turned over to you?

7 A. Yes.

8 Q. All right. And you never saw a Toyota key
9 anywhere in Mr. Avery's bedroom that night, did
10 you?

11 A. I did not, no.

12 Q. And if you had seen a Toyota key anywhere in that
13 bedroom that night, you would have made note of
14 that, wouldn't you?

15 A. Personally, I would not have known what a Toyota
16 key looked like. I'm not too familiar with
17 automobiles and their keys.

18 Q. Well, all right. Let me ask it this way, you
19 knew that Teresa Halbach's vehicle was a Toyota
20 RAV4?

21 A. Yes.

22 Q. You went and looked at it, right?

23 A. Yes.

24 Q. And so if you found -- if someone had located a
25 key, a car key, inside that residence, you would

1 have either seized it or at least made note of it
2 as possible evidence in the case, right?

3 A. Absolutely.

4 Q. Particularly if it was a Toyota key, because that
5 may be the key that would fit the victim's
6 vehicle?

7 A. Absolutely.

8 Q. And you made no such note, right?

9 A. Correct.

10 Q. And you stood in the doorway for at least a half
11 hour?

12 A. Yes.

13 Q. Of his bedroom?

14 A. Yes.

15 Q. All right. I just have one question about this
16 -- another exhibit here and then I will move off
17 of these exhibits. You identified Exhibit 205 as
18 a hood latch swab, right?

19 A. Yes.

20 Q. I just want to make it clear here, this is
21 actually a swab that's dated -- or a piece of
22 evidence that's dated April 3rd, 2006?

23 A. That's correct.

24 Q. And that it was -- it was collected not at the
25 Crime Lab?

1 A. Correct.

2 Q. So whatever is in this little package is not
3 something that the Crime Lab found when they went
4 over it very, very carefully on November 8th, or
5 7th, whatever day they had it, right?

6 A. I was just informed that they did request myself
7 and Deputy Hawkins to --

8 Q. Who requested?

9 A. Investigator Wiegert.

10 Q. Okay. So Investigator Wiegert told you to go do
11 this, right?

12 A. Yes.

13 Q. All right. Let's move to the next day,
14 November 6th, you are paired with a different
15 team on that day, right?

16 A. Yes.

17 Q. And we talked about that, those were the three
18 Manitowoc city police officers?

19 A. Right.

20 Q. And you weren't given any kind of instruction
21 that you had to watch those three officers like a
22 hawk while you were doing the search, did you?

23 A. Right.

24 Q. There was no concern about whether or not you had
25 to leave those officers alone in any part of the

1 buildings that we're looking at, right?

2 A. Right.

3 Q. Because Mr. Avery wasn't suing them, right?

4 A. To the best of my knowledge.

5 Q. All right. And then the next day, November 7th,
6 you were paired, again, with Lenk and Colborn,
7 right?

8 A. That's correct.

9 Q. But not Mr. -- not Detective Remiker on this
10 occasion?

11 A. His wife was having a baby, or had a baby.

12 Q. Okay. Good for him, good for her. So on that
13 occasion, though, you didn't do a thorough search
14 with Lenk and Colborn of Mr. Avery's residence,
15 right?

16 A. That's correct.

17 Q. They -- The two of them were only in that
18 residence briefly, with you, when you were trying
19 to get a serial number from a computer, right?

20 A. Yes.

21 Q. Just a few minutes I think you said?

22 A. Yes.

23 Q. So it would have been difficult for them to have
24 planted any evidence in front of you at that
25 occasion -- on that occasion, right?

1 A. Yes.

2 Q. And besides, they were with you, the watchdog,
3 right?

4 A. I wouldn't call myself a watchdog, but they were
5 with me, yes.

6 Q. Okay. And no key was discovered on that occasion
7 was it?

8 A. By the computer, no.

9 Q. Anywhere in the house?

10 A. We didn't search the house. We just got the
11 serial number from the computer.

12 Q. So no key -- no Toyota key was recovered on
13 November 7th when you were in there with
14 Mr. Colborn and Mr. Lenk, right?

15 A. No key was recovered by the computer, no.

16 Q. All right. November 8th, I believe you testified
17 that you weren't even at the Avery Salvage Yard
18 on that day, right?

19 A. Not until late in the day. I was at the Calumet
20 Sheriff's Department, logging evidence.

21 Q. So the watchdog wasn't there.

22 ATTORNEY KRATZ: Judge, I am going to
23 object. We hear that, Judge, one more time, we're
24 going to approach with a side bar.

25 THE COURT: The objection is sustained.

1 Q. (By Attorney Buting)~ In any event, you were not
2 with Mr. Lenk and Mr. Colborn when they reentered
3 Steven Avery's residence on November 8th, were
4 you?

5 A. That's correct.

6 Q. And that is the occasion when a key was found,
7 right?

8 A. That is my understanding.

9 Q. When you weren't with them?

10 A. That's my understanding.

11 Q. November 9th, you testified about having some
12 different duties and that was the DNA exemplars
13 were taken from people, right?

14 A. Yes.

15 Q. And fingerprints were taken?

16 A. Yes.

17 Q. And palm prints were taken?

18 A. Yes.

19 Q. And those items were taken for the purpose of
20 trying to see if they might match with some
21 fingerprints that the Crime Lab had found on the
22 RAV4; is that your understanding?

23 A. I had no information as to what the Crime Lab had
24 found at that time. We were just executing a
25 search warrant based on the specific information

1 within those search warrants.

2 Q. All right. And the search warrant included
3 taking those buccal swabs from each individual
4 that had been -- Well, let me just name them, the
5 ones you were involved with, okay. Mr. -- Was
6 Mr. Avery one of them; he was, wasn't he?

7 A. Yes.

8 Q. Yes. You testified about that?

9 A. Yes.

10 Q. Also Delores Avery, right?

11 A. Yes.

12 Q. Barb Janda?

13 A. Yes.

14 Q. Chuck Avery?

15 A. Yes.

16 Q. Earl Avery?

17 A. Yes.

18 Q. And Bobby Dassey?

19 A. Yes.

20 Q. And these are what are called elimination type
21 exemplars?

22 A. Yes.

23 Q. To see if you can eliminate somebody from
24 something that may be found in a crime scene?

25 A. Yes.

1 Q. Or match them?

2 A. Sure.

3 Q. Okay. And it included DNA fingerprints and palm
4 prints, for all of them, right?

5 A. Yes.

6 Q. But at the end of that day, though, you received
7 information from a special agent, Joseph
8 Kapitany, I believe is the way you pronounce his
9 name?

10 A. Yes.

11 Q. That the Crime Lab only wanted the palm prints
12 and fingerprints of Mr. Steven Avery right away?

13 A. Immediately, yes.

14 Q. And so efforts were made to transfer Steven
15 Avery's palm prints and fingerprints immediately
16 to the Crime Lab, right?

17 A. Agent Kapitany approached me and stated those
18 words, that the Crime Lab wanted those items
19 immediately. I did give them to him. He signed
20 off on the document --

21 Q. Okay.

22 A. -- for those items.

23 Q. So he went off to the Crime Lab as far as you
24 know, with those items?

25 A. He left the Aurora Clinic; I assume, yeah, he was

1 in route to Madison.

2 Q. But all the other ones you took and just booked
3 into the Calumet Sheriff's Department?

4 A. Yes.

5 Q. Do you know the results of any of the comparisons
6 of fingerprints; Mr. Avery's fingerprint
7 standards to any fingerprints found on the RAV4?

8 A. No.

9 ATTORNEY KRATZ: I'm also going to object
10 as beyond the scope of this witness' expertise.
11 Probably hearsay as well.

12 ATTORNEY BUTING: I wasn't asking for the
13 results, I just wondered if he knew it.

14 ATTORNEY KRATZ: It seemed like that was
15 the question, do you know the results.

16 THE COURT: As phrased, the objection is
17 overruled.

18 ATTORNEY BUTING: He's answered. That's
19 fine.

20 Q. (By Attorney Buting)~ All right. Just a few more
21 questions, sir. You talked about -- or we talked
22 about this April 3rd date, when you were -- I
23 think your report called it processing evidence,
24 right?

25 A. Yes.

1 Q. And there was actually a number of days, you
2 mentioned one in March, but there was a number of
3 days over the next several weeks, March, April,
4 May, when you were going through various items
5 that had been seized from Mr. Avery's residence,
6 or garage, on one of the searches, either
7 November or March, right?

8 A. Yes.

9 Q. And your purpose in going through these items of
10 evidence was to see if there was any way you
11 could determine if any of these items of evidence
12 had any link or importance to this crime, right?

13 A. Yes.

14 Q. And so you were doing things like testing,
15 examining it for blood, items for blood, right?

16 A. Yes.

17 Q. The bleach bottle, for instance, that's been
18 marked as whatever exhibit it was. This was one
19 of the things that you examined to see if there
20 might be any blood on it, right?

21 A. Yes.

22 Q. Just a little brown mark on the bottom somewhere
23 that you weren't sure about?

24 A. Right.

25 Q. This is Exhibit 195. And so you tested this with

1 these presumptive tests that are very sensitive
2 to blood, right?

3 A. Yes.

4 Q. And it proved negative, right?

5 A. Correct.

6 Q. No blood. All right. You also looked at foot
7 boards for the bed, right?

8 A. Yes.

9 Q. You looked at a number of pieces of brown
10 paneling, right?

11 A. Yes.

12 Q. Paneling marked number one, number two, number
13 three, and each of those was negative for any
14 kind of blood, right?

15 A. Correct.

16 Q. And it's your understanding this is -- these are
17 the panels taken off the walls of Mr. Avery's
18 bedroom, right?

19 A. Yes.

20 Q. No blood, correct?

21 A. We did not find any.

22 Q. And there's also some molding, wooden molding
23 also taken from his room somewhere?

24 A. Yes.

25 Q. Tested for blood, negative, right?

1 A. Right.

2 Q. There were also some paint thinner cans -- cans
3 that apparently were recovered from the garage;
4 do you recall that?

5 A. I recall examining them, yes.

6 Q. You weren't there when they were seized, but you
7 examined them?

8 A. Yes.

9 Q. And it was determined that those cans had no
10 evidentiary value whatsoever, right?

11 A. We did some presumptive tests on them, I believe,
12 and got negative results, correct.

13 Q. And there was also some gas tank -- or a number
14 of gas cans and I guess snowmobile gas tanks, or
15 things of that nature?

16 A. Correct.

17 Q. You tested all of those, right?

18 A. Yeah, we swabbed a lot of those gas cans,
19 anything that we saw that was suspicious, we
20 would do.

21 Q. And they were are all negative?

22 A. Yes.

23 Q. No blood, right. Then you also took -- and this
24 would have been on May 1st, a piece of carpeting
25 that was ripped out of the whole hallway of

1 Mr. Avery's residence, right?

2 A. It was a small piece of carpeting that was,
3 correct, cut from the entrance door by the
4 bathroom to the entrance to the bedroom.

5 Q. Okay. In that hallway right outside his bedroom?

6 A. Yes.

7 Q. Okay. And you actually did a luminol?

8 A. Yes.

9 Q. And we have heard testimony about luminol. I'm
10 not going to go over it in detail, but that's
11 something that can highlight anything that is
12 of -- could be blood, could be a lot of other
13 things, right?

14 A. Yes.

15 Q. And you found no heavy concentrations anywhere in
16 the carpet indicating any drops of blood had
17 fallen, right?

18 A. There was no pattern, nothing that was consistent
19 with what you were talking about, correct.

20 Q. All right. And you even looked at the back of
21 that carpet, right?

22 A. Yes.

23 Q. That was actually a later date, June 23rd, right?

24 A. I don't recall that.

25 Q. You were told to pull the carpeting out of -- I'm

1 sorry this was a different piece of carpeting?

2 A. Okay. That would be consistent.

3 Q. Okay. You pull the carpeting that was ripped out
4 of the bedroom of Mr. Avery, right?

5 A. Yes.

6 Q. And you actually looked at the very -- at the
7 back of it?

8 A. Yes.

9 Q. The backside. And you did presumptive tests for
10 blood?

11 A. Yes.

12 Q. And found nothing?

13 A. Correct.

14 Q. No blood?

15 A. Nothing consistent with blood, correct.

16 Q. You also, a number of times, I won't go into all
17 of them, but there were a number of knives,
18 kitchen knives, pocket knives, things like that,
19 that were seized either in the residence or the
20 garage, right?

21 A. Yes.

22 Q. And you looked at all of those, right?

23 A. Some were sent to the Crime Lab; some we kept at
24 the office and processed ourselves.

25 Q. All right. And the ones you processed you looked

1 for blood, right?

2 A. Yes.

3 Q. None, correct?

4 A. Correct.

5 ATTORNEY BUTING: All right. Thank you.

6 THE COURT: Mr. Kratz, are you going to be
7 doing redirect?

8 ATTORNEY KRATZ: I am.

9 THE COURT: How much time do you think?

10 ATTORNEY KRATZ: I just actually, I think I
11 have two questions, Judge, so.

12 THE COURT: All right. Go ahead.

13 **REDIRECT EXAMINATION**

14 BY ATTORNEY KRATZ:

15 Q. Sergeant Tyson, Mr. Buting asked you about
16 that -- that sign that mentioned a Zander Road
17 address; do you recall him showing you that?

18 A. Yes.

19 Q. Do you know where that Zander Road address is?

20 A. No.

21 Q. Do you even know if it's in Calumet County?

22 A. I heard Zander Road a couple of times on our
23 department radios, Manitowoc County either having
24 a crash or something like that, so I'm familiar
25 with Zander Road probably being in Manitowoc

1 County, I know it rang a bell, but I don't know
2 where it is.

3 Q. Something a Manitowoc officer might be better
4 able to answer?

5 A. Yes.

6 Q. And lastly, Mr. Buting asked you about somebody
7 relieving you from the scene security, that is,
8 from watching over the SUV; do you remember those
9 questions?

10 A. Yes.

11 Q. Do you remember what department relieved you; in
12 other words, the scene security from the point
13 that you took over, thereafter, do you know what
14 department was responsible?

15 A. Calumet County Sheriff's Department.

16 ATTORNEY KRATZ: I think that's all I have
17 for redirect.

18 ATTORNEY BUTING: No questions.

19 THE COURT: Very well, the witness is
20 excused, and at this time we'll take our morning
21 break. Members of the jury, again, do not discuss
22 this case among yourselves during the break. We'll
23 resume in about 15 minutes.

24 (Jury not present.)

25 ATTORNEY BUTING: Your Honor, could I move

1 206 and 207 into evidence?

2 THE COURT: Any objection?

3 ATTORNEY KRATZ: No.

4 THE COURT: They are admitted.

5 (Recess taken.)

6 (Jury present.)

7 THE COURT: Mr. Kratz, at this time you may
8 call your next witness.

9 ATTORNEY KRATZ: State will call Andrew
10 Colborn to the stand.

11 THE CLERK: Please raise your right hand.

12 **SERGEANT ANDREW L. COLBORN**, called as a
13 witness herein, having been first duly sworn, was
14 examined and testified as follows:

15 THE CLERK: Please be seated. Please state
16 your name and spell your last name for the record.

17 THE WITNESS: Andrew L. Colborn,
18 C-o-l-b-o-r-n.

19 ATTORNEY KRATZ: You don't have to be quite
20 so close.

21 **DIRECT EXAMINATION**

22 BY ATTORNEY KRATZ:

23 Q. Mr. Colborn, can you tell us, how are you
24 employed, please.

25 A. I'm a patrol sergeant with the Manitowoc County

1 Sheriff's Department.

2 Q. How long have you been a law enforcement officer?

3 A. Since 1996.

4 Q. Prior to 1996, what did you do?

5 A. I was a Corrections Officer from 1992 to 1994,
6 also with the Manitowoc County Sheriff's
7 Department.

8 Q. What does a Corrections Officer do?

9 A. A Corrections Officer is a non-sworn, non-law
10 enforcement officer, that is a responsibility for
11 security of the jail.

12 Q. All right. How was it that you became a sworn
13 law enforcement officer?

14 A. When a position opened up at the Manitowoc County
15 Sheriff's Department, I did perform the State
16 written test, performed an agility test, went on
17 an eligibility list, and eventually I was
18 selected.

19 Q. What are your current duties with the Manitowoc
20 County Sheriff's Department?

21 A. I'm a assistant shift commander for the noon to 8
22 shift so I have some administrative duties and
23 then I have some patrol duties.

24 Q. Prior to being selected as a law enforcement
25 officer, did you have any duties in your prior

1 life that in any way prepared you for being a law
2 enforcement officer?

3 A. No.

4 Q. Sergeant, you hold the rank of sergeant?

5 A. Yes, sir.

6 Q. And in early November of 2005, did you hold that
7 same rank?

8 A. Yes, sir.

9 Q. What were your duties back in early November of
10 '05?

11 A. Essentially the same duties that I hold today. I
12 was a patrol supervisor on -- I work a six day
13 on, three day off rotation. So on the days that
14 the lieutenant that's assigned to the shift is
15 off, I would be the shift commander.

16 Q. So you have supervisory responsibilities as well?

17 A. Yes, sir.

18 Q. I'm going to direct your attention to
19 November 3rd of 2005, ask if you were employed on
20 that evening?

21 A. Yes, sir.

22 Q. Do you recall what your duties were on
23 November 3rd?

24 A. I was the shift commander for the noon to 8
25 shift, that's the shift I'm assigned to.

1 Q. Sometime during that shift, Sergeant Colborn,
2 were you informed of a Calumet County missing
3 persons investigation that was ongoing?

4 A. Yes, sir.

5 Q. And being involved in that -- or excuse me, being
6 aware of that investigation, were you asked to
7 assist in any way?

8 A. Yes, sir.

9 Q. Tell the jury how you were asked to assist?

10 A. I was contacted by, I believe it was inspector or
11 Investigator Mark Wiegert from the Calumet County
12 Sheriff's Office, who contacted the dispatch
13 center by telephone, who then transferred the
14 call to my patrol car.

15 He asked if I could respond to, I
16 believe he gave me the address of 12928 Avery
17 Road. He asked if I knew where that was and I
18 told him, yes, I believe that that was the
19 address of Avery Auto Salvage. And he asked if I
20 could go there and check for a missing person
21 because they had a missing person report that had
22 generated in Calumet County and it had been
23 determined, through the course of their
24 investigation, that she had been out at the Avery
25 Salvage Yard, taking pictures of a vehicle that

1 was for sale.

2 Q. At the time that Investigator Wiegert asked for
3 your assistance, did Investigator Wiegert tell
4 you other places within Manitowoc County that Ms
5 Halbach had known to have been on the 31st of
6 October?

7 A. I don't believe in the -- in the initial phone
8 call that he did.

9 Q. All right. Some time later that evening you
10 heard?

11 A. Yes, sometime later that evening he gave me
12 another address on County Highway B and another
13 name and asked me to check there as well.

14 Q. What name was that, just so -- we're going to
15 eventually get there?

16 A. I believe the first name was George; I know the
17 last name was Zipperer.

18 Q. Sergeant Colborn, are you at all familiar with
19 the Avery salvage business itself?

20 A. Yes.

21 Q. Tell the jury how you are familiar with that
22 business.

23 A. I have been, personally, a customer of the Avery
24 Auto Salvage business; as well as, I have had
25 contacts there through with law enforcement. And

1 I have children that are the same age as some of
2 the owners of Avery Auto Salvage, so I had
3 contact with them through the course of school
4 events.

5 Q. All right. Let's take those -- Well, when we
6 discuss this, I'm going show you what's been
7 received as Exhibit 86, can you tell us what that
8 is, please.

9 A. That's an overhead, like an airplane view,
10 birds-eye view of the Avery Auto Salvage.

11 Q. Prior to the 3rd of November, 2005, had you been
12 to that property?

13 A. Prior to 2005?

14 Q. Prior to November 3rd of 2005, had you been to
15 that property?

16 A. Yes.

17 Q. And under what circumstances, can you tell the
18 jury about that?

19 A. Again, as a customer.

20 Q. Let's talk about that, first. What do you mean
21 as a customer.

22 A. I have several older vehicles, one, as a matter
23 of fact, is a 1950 Chevrolet pickup truck. And
24 I -- in the process of tinkering around with it,
25 I have gone to several auto salvage and I have

1 always been referred to the Avery Auto Salvage as
2 the place to go if you are looking for an older
3 model vehicle parts -- or parts for an older
4 model vehicle.

5 Q. Was there one person in particular that you would
6 normally have contact with at the Avery Auto
7 Salvage?

8 A. No, actually, usually there were two; either I
9 had contact with Charles Avery or Earl Avery.

10 Q. All right. They are brothers and, in fact, the
11 owners of the business; is that right?

12 A. Yes, sir.

13 Q. Let me ask you this, Sergeant Colborn, if you
14 know, prior to the 3rd of November, 2005, when
15 was the last time you were at the Avery Auto
16 Salvage business?

17 A. I think the last time I was at the Avery Auto
18 Salvage business would have been 1999.

19 Q. All right. So at least six years previously?

20 A. Yes, sir.

21 Q. But you knew where it was?

22 A. Yes, sir.

23 Q. Then, on November 3rd, after Mr. Wiegert asked
24 for your help; did you proceed to this scene?

25 A. Yes, sir.

1 Q. And that's 2005; is that right?

2 A. Yes, sir.

3 Q. Can you tell the jury, please, what happened when
4 you got there on November 3rd?

5 A. Again, I knew that Earl Avery, who was probably
6 the person that I have had the most contact with
7 or know the best, doesn't live on the Avery Auto
8 Salvage property, so my initial -- what I was
9 initially trying to do was to make contact with
10 Charles Avery, who does reside on there.

11 I knew Charles to -- I didn't know if he
12 owned the business, but I certainly knew that he
13 managed the business. So I was going to make
14 contact with him and ask him if he had seen
15 someone on the property taking pictures of a
16 vehicle that was for sale.

17 Q. In looking for Charles Avery, do you remember
18 what building you went to?

19 A. Well, initially, I was kind of surprised when I
20 drove in, because the shop area, a lot of --
21 there were new buildings and things had changed
22 since the last time I was there. But I was
23 attempting to make contact at his residence,
24 which I believe is right behind that large,
25 square shaped building.

1 Q. We're handing you a laser pointer to assist you
2 in your --

3 A. I believe that --

4 Q. -- testimony.

5 A. I thought that was his residence right there.

6 Q. And you were pointing actually to the residence
7 which would be just the south of the --

8 A. That one right there.

9 Q. You have to wait until I finish my question, sir.
10 You are pointing to a trailer or a residence just
11 south of the Avery business itself. And I think
12 counsel is willing to stipulate that is Charles
13 Avery's residence.

14 ATTORNEY STRANG: Certainly my
15 understanding.

16 THE COURT: All right. The record will
17 reflect the stipulation.

18 Q. (By Attorney Kratz)~ Did you drive or walk into
19 this property?

20 A. I drove.

21 Q. Can you tell the jury where you came in from,
22 please.

23 A. There is -- To my knowledge there is only one
24 entrance onto the property and that's off Avery
25 Road, which the whole of Avery Road isn't

1 pictured on that picture. But I ended up coming
2 down that dirt road there and parking almost
3 where there is a vehicle parked right now.

4 Q. Why don't you show us where you parked. If I
5 zoomed into that location would that help us?
6 All right. We have now zoomed in to Exhibit 86,
7 could you, again, show the jury about where it
8 was that you parked.

9 You are pointing which would be just to
10 the north of the large building, which is
11 something we have been calling the new office or
12 the new shop building; is that correct?

13 A. Yes, sir.

14 Q. All right. After parking at that location, tell
15 the jury what happened. By the way, about what
16 time was this that you got there?

17 A. I'm guessing around 7:00, between 6:30 and 7:30.

18 Q. Was it light out or was it dark?

19 A. It was dark.

20 Q. After parking there, Sergeant Colborn, what
21 happened?

22 A. I got -- I exited my squad car and I was going to
23 walk down the road, that road right there, in
24 order to access Charles' residence. Almost as
25 soon as I got out of my car I heard something

1 behind me. I turned and Steve Avery was walking
2 towards me and he had come out of that residence
3 right there.

4 Q. Do you know whose residence that is?

5 A. I believe that's Al and Delores Avery's
6 residence.

7 Q. Did you have any conversation with Steven Avery
8 at that time?

9 A. Yes, I did.

10 Q. And could you describe that conversation for the
11 jury, please?

12 A. I think Steve initiated the conversation with me
13 by asking me what I wanted, what I was doing
14 there.

15 Q. Were you dressed similar to what you are dressed
16 today?

17 A. Yes, I was in uniform.

18 Q. Did you have a marked squad car?

19 A. Yes, I did.

20 Q. What did you tell Mr. Avery?

21 A. I told Avery -- Mr. Avery, that there was -- I
22 had received a call from Calumet County and that
23 they had informed me that there was a girl
24 missing from Calumet County and asked him if she
25 had come out to their property to photograph a

1 vehicle that they were selling.

2 Q. Did Mr. Avery have a response for you?

3 A. Yes, he said that she had been there.

4 Q. Did he tell you what day she had been there?

5 A. I think I might have told him that, what day that
6 she should have been out there. I don't recall
7 if we mentioned a date, but I do remember asking
8 him what time she had been out there.

9 Q. Did Mr. Avery recall this young woman?

10 A. Yes.

11 Q. Did he name her for you?

12 A. No.

13 Q. Did he tell you what she had done at his property
14 that day?

15 A. He said that she was taking some pictures of a
16 van that his sister was selling.

17 Q. Mr. Avery tell you how long the woman had been on
18 his property?

19 A. He said 5 or 10 minutes.

20 Q. Did you inquire of Mr. Avery whether or not he
21 had personal contact with this woman on the date
22 she was out there?

23 A. I asked Mr. Avery if she had said where she was
24 going. And he said, I never talked to her. She
25 was only here 5 or 10 minutes and she left.

1 Q. But he never talked to her?

2 A. That's what he told me, he never talked to her.

3 Q. Did he describe that further, how he knew she was

4 there?

5 A. He said he saw her out the window taking the

6 pictures.

7 Q. Okay. Did you complete that conversation with

8 Steven Avery? Do you recall that conversation?

9 A. I told Mr. Avery that her parents and her family

10 were getting worried and was he sure that she

11 didn't mention where she might have been going

12 after she left. And he said, no, I didn't talk

13 to her. She was only here a few minutes and then

14 she left.

15 Q. What was Mr. Avery's demeanor like as he was

16 talking to you; was he cooperative?

17 A. Yes, he was very cordial.

18 Q. Mr. Avery indicate to you the time, that is, when

19 this young woman had been on his property?

20 A. He said he thought between 2:00 or 2:30.

21 Q. What did you do then?

22 A. I believe I thanked him for talking with me and I

23 started to get back in my car. And I believe

24 Mr. Avery told me that he hoped she turned up

25 soon.

1 Q. What did you do then?

2 A. I left. I left the property and I contacted --
3 he is the under sheriff of our department now,
4 but at the time he was the deputy inspector of
5 the operations division. I called him.

6 Q. What's his name?

7 A. Greg Schetter. And I let him know that Calumet
8 County was investigating a missing persons case
9 and that one of the places that it had been
10 mentioned that this party was at was on -- at the
11 Avery Salvage Yard and I just left there and made
12 contact and that I was unable to locate that
13 person. And he suggested that I probably contact
14 Lieutenant Lenk and see if he wanted -- if
15 Lieutenant Lenk wanted any of our detectives to
16 assist Calumet County in searching any place
17 else.

18 Q. Did you do that?

19 A. Yes, I did.

20 Q. And did you speak with Lieutenant Lenk that
21 evening?

22 A. Yes, by phone. And then when I got into the
23 department, because prior to going into the
24 department I went past the other residence. I
25 must have also contacted Investigator Wiegert and

1 let him know that I hadn't located.

2 And he, I believe, at that time told me
3 of the other address. So I purposely drove past
4 that residence. I saw it was dark, but that
5 there were cars in the driveway. But the
6 residence was dark. I didn't see any lights on
7 there. So I ended my tour of duty for patrol.

8 Q. Let me just stop you. Whose residence was this
9 that you drove past?

10 A. George Zipperer's.

11 Q. Go ahead. What did you do?

12 A. I ended my patrol tour of duty, but I remained on
13 duty to assist Calumet County Detective Dederling
14 and Detective Remiker in making contact at George
15 Zipperer's residence.

16 Q. Was that done at that time?

17 A. It was done, you know, within probably a half
18 hour or 45 minutes of my getting back to the
19 department.

20 Q. The question, Sergeant Colborn, did you assist in
21 that process?

22 A. Yes, sir.

23 Q. You mentioned that there was a Calumet detective
24 that was involved, as well as Manitowoc; is that
25 right?

1 A. Yes, sir.

2 Q. In meeting with the Zipperers?

3 A. Yes, sir.

4 Q. And, again, do you remember who they were?

5 A. I believe his name is John Dederling.

6 Q. All right. When you -- I'm just going to go back
7 just briefly to your contact with Mr. Avery. You
8 mentioned that he was cooperative; is that right?

9 A. Yes, sir.

10 Q. I want you to remember back, as best you can,
11 Sergeant Colborn, at that initial meeting with
12 Mr. Avery, you, Sergeant Andy Colborn, did you
13 have any feelings or any inclination that
14 Mr. Avery may have been involved in Ms Halbach's
15 disappearance?

16 A. Not at that time, no.

17 Q. Did you do anything on the 3rd of November to
18 further investigate Mr. Avery?

19 A. On November 3rd?

20 Q. Yes.

21 A. No, sir.

22 Q. Did you ever go back onto his property on the
23 3rd?

24 A. No, sir.

25 Q. After going to the Zipperers with Detective -- I

1 think it was Remiker and Dederling, what did you
2 do after that?

3 A. After we were done, completed at the Zipperers?

4 Q. Yes.

5 A. I went home. I was done with -- you know, I was
6 already on overtime. I checked out and went
7 home.

8 Q. Do you know about what time that was?

9 A. 10:30, 11:00 at night, maybe.

10 Q. All right. Do you remember what you did the rest
11 of that evening?

12 A. Just probably fell asleep on the couch. I went
13 to bed and, you know, fell asleep.

14 Q. The next day, on the forth of November, were you
15 working that day?

16 A. No, sir, I was off that day.

17 Q. It's a Friday; is that right?

18 A. Yes, sir.

19 Q. Do you remember what you did on the 4th? We'll
20 get back to that, but do you recall, generally,
21 your day on the 4th of November?

22 A. Yes, sir.

23 Q. Move your attention one day further, on the 5th,
24 Saturday, the 5th of November; do you recall what
25 you were doing that day or that morning?

1 A. That was also a regularly scheduled day off for
2 me. Yes, I recall what I did on that day.

3 Q. We'll get into the morning, but let me just jump
4 right to this investigation. Were you contacted
5 at all by any supervisors or superiors that day
6 and asked to participate in this case?

7 A. I was contacted by the noon to 8 shift commander
8 for that day, and he did ask me to come into work
9 and pick up a patrol vehicle and respond out to
10 the Avery Salvage Yard.

11 Q. Did you do that?

12 A. Yes.

13 Q. In a marked vehicle?

14 A. Yes, I did take a marked vehicle out there.

15 Q. And about what time was it that you arrived at
16 the Avery scene itself; do you recall?

17 A. I know I left my house between 4:00 and 4:30. I
18 probably got out to the Avery Salvage Yard
19 between 5:15, 5:30 maybe.

20 Q. To your best recollection?

21 A. Yes.

22 Q. What happened when you got to the Avery salvage
23 business?

24 A. I made contact with the same supervisor who had
25 called me and I asked him, what do you want me to

1 do. And he informed me that there was a deputy
2 there that had some personal business or matters
3 to attend to. She had been out there since
4 apparently earlier in the day. And he asked me
5 to transport that deputy back to the department
6 so that she could get her own private vehicle and
7 go home. And then come back out to the Avery
8 Salvage Yard and provide security.

9 Q. Did you do that?

10 A. Yes.

11 Q. What did you do when you got back to the Avery
12 business?

13 A. Tried to stay in the car as much as possible
14 because it was pouring rain. But they directed
15 my attention to a place way off in the salvage
16 yard where I could see some lights. And
17 somewhere up in this area here they just told me
18 to sit in the car and not let anyone go down any
19 of these roads.

20 Q. Providing scene security up near what would be
21 the business buildings?

22 A. Yes.

23 Q. Did you do that?

24 A. Yes.

25 Q. How long did you have that responsibility.

1 A. Maybe like an hour, hour and a half. And I was
2 then told that, actually, I could go home. So I
3 was preparing to do that. I was checking all my
4 equipment to make sure I had everything that I
5 got out there -- came out there with. And then I
6 was told that I was going to be needed in a
7 different capacity and not to go home.

8 Q. All right. Let me ask you this, Sergeant
9 Colborn, any time that day, any time on the 5th
10 of November, did you ever make your way down
11 towards the pond, or down towards the southeast
12 quadrant of the Avery salvage property?

13 A. No, sir.

14 Q. Could you point to that area for us, with the
15 laser pointer. Point to the northeast corner of
16 the property. I'll specifically ask you about
17 that area, did you go near that area at all on
18 the 5th of November?

19 A. No, sir.

20 Q. How about on the 3rd when you were there 2 days
21 earlier, talking to Steven Avery?

22 A. No, sir.

23 Q. And were you down there at all on the 4th of
24 November?

25 A. No, sir.

1 Q. When initially being told that you could leave,
2 or that you were in effect packing up to leave,
3 who was it that approached you with other duties?

4 A. Detective Remiker.

5 Q. Do you know what you were being asked to do then?

6 A. He just said, you may want to check in with
7 Inspector Wiegert -- Detective Wiegert, before
8 you go home, because you can see the huge area
9 here, it's going to have to be checked, and we
10 don't have a lot of people here to do that.

11 Q. Do you know how many sworn law enforcement
12 officers were on scene at that time, or is that
13 something that you wouldn't even have a guess on?

14 A. No, I didn't take a head count. I don't know. I
15 would ball park it at 50 or less, but I don't
16 know.

17 Q. All right. Now, 50 sounds like a lot of police
18 officers; do you think that's a lot for that size
19 scene?

20 ATTORNEY STRANG: Irrelevant.

21 THE COURT: Sustained.

22 Q. (By Attorney Kratz)~ Did you check in with
23 Investigator Wiegert before you left?

24 A. Yes.

25 Q. And can you tell the jury, please, what -- what

1 that conversation was?

2 A. I believe he asked me if I was an evidence
3 technician and I said, yes, I am. And --

4 Q. Let me stop you there. What all goes into being
5 an evidence technician?

6 A. It's an investigative portion, it's an
7 investigative duty some police officers are
8 trained to do and some who may not be interested
9 in that are not. Not every police officer is an
10 evidence technician. You do get special training
11 on how to do photographing, how to identify
12 evidence, how to collect evidence without
13 destroying it.

14 Q. All right. And you had been through that
15 training?

16 A. Yes, sir.

17 Q. With Manitowoc County, that is, with the
18 sheriff's department, had you performed evidence
19 collection duties prior to November 5th of 2005?

20 A. Yes, sir.

21 Q. How long had you been an evidence tech?

22 A. Since 1997.

23 Q. Have you ever executed a search warrant or
24 collected evidence in that capacity before?

25 A. Yes, sir.

1 Q. After Investigator Wiegert asked you if you were
2 an evidence tech, what were you told to do?

3 A. I was just told to stand by, not to go home. So
4 I went back out to my patrol car.

5 Q. And, again, where was that parked, if you can
6 show us?

7 A. I may, you know, have moved it closer to the
8 Command Post, but initially I was parked right in
9 this area here.

10 Q. Again, near the business buildings?

11 A. Yes, sir.

12 Q. How long did you wait for further assignment?

13 A. Maybe 5, 10 minutes.

14 Q. Now, Sergeant Colborn, did you know what
15 assignment you were going to be given; in other
16 words, did you know where you were going to be
17 directed that night?

18 A. No, sir.

19 Q. What's the next direction that you recall
20 receiving?

21 A. I believe the next person I made contact with was
22 Sergeant Bill Tyson from the Calumet County
23 Sheriff's Department. And he was with Lieutenant
24 Lenk and Detective Remiker. I believe he came
25 out of the Command Post. They kind of motioned

1 to me. So walked up to them and Sergeant Tyson
2 said, you are going to be working for me and we
3 are going to be going to Steve Avery's trailer.

4 Q. What did working for me mean, or what do you
5 believe it meant?

6 A. Well, I had been told by this time that the
7 Calumet County Sheriff's Department was leading
8 up this investigation. So I interpreted working
9 for me as, you are the boss and you are going to
10 tell me what to do.

11 Q. Okay. Were you okay with that?

12 A. Yes.

13 Q. Did you then proceed with Deputy Tyson to the
14 Steven Avery trailer?

15 A. Yes, sir.

16 Q. Do you remember how you got there, how you got
17 down there?

18 A. I believe we took two cars. I believe Sergeant
19 Tyson took his Calumet County patrol car and we
20 probably -- I don't think we took my marked unit,
21 I think I got in Detective Remiker's car, or
22 Lieutenant Lenk's car, whichever. It was an
23 unmarked Manitowoc County car.

24 Q. All right. Tell us again, if you can look at
25 Exhibit 86, now where did you drive, where did

1 you guys go then?

2 A. I had never been to Steve Avery's trailer before
3 so I really didn't know where it was. But we
4 drove down this road to that trailer right there.

5 Q. I will zoom in again on Exhibit 86; do you recall
6 where the cars were parked?

7 A. I believe we parked them in this driveway here
8 that goes up to that garage.

9 Q. Do you recall that particular search that
10 evening?

11 A. Yes, sir.

12 Q. How is it that you have a independent memory of
13 that first search of Steven Avery's trailer?

14 A. Because I was involved in it.

15 Q. Okay. Did each of the search team members have a
16 specific responsibility within that trailer, if
17 you know?

18 A. Not really. I did have the specific
19 responsibility of photographing. But as far as
20 collecting, I mean, we all worked as a team. It
21 wasn't like one person went here and one person
22 went there. We were always -- worked together as
23 a team, always within arm's length of one
24 another.

25 Q. Was that by design, do you know?

1 A. I don't know if it was by design, per se, but it
2 just seemed that this would be the best way for
3 things to work and that we could be the most
4 careful and concise, working together as a team.

5 Q. All right. Let me ask you, Sergeant Colborn, did
6 you know the kinds of things that you were
7 looking for in Steven Avery's trailer?

8 A. Not specific -- specifically, no.

9 Q. Was there generally a term of things that you
10 were looking for?

11 A. I was looking for any evidence that would
12 substantiate or eliminate her having been there.

13 Q. Who's her?

14 A. Teresa Halbach.

15 Q. What rooms were it that the four of you searched?

16 A. I believe that first night we did search the
17 entire trailer. We started in what I term to be
18 the master bedroom or the largest bedroom.

19 Q. All right. We have already heard from Sergeant
20 Tyson so what responsibilities -- I'm just
21 talking about you now, not the others -- but what
22 responsibilities did you have in the search of
23 that bedroom?

24 A. Again, initially, I did all the photographing
25 that night with a 35mm camera. And then I was

1 looking in -- there was a bookcase type piece of
2 furniture next to the bed and a desk next to
3 that.

4 And while I say it's the larger bedroom,
5 it's still kind of a small bedroom so those
6 pieces of furniture were almost tight together.
7 And there was very little distance between the
8 bed and those pieces of furniture, I mean, maybe
9 2 foot. And that's the area that I was
10 specifically searching --

11 Q. How many --

12 A. -- in that bedroom.

13 Q. I'm sorry. How many men were in that bedroom?

14 A. There was myself, Detective Remiker, Lieutenant
15 Lenk and Sergeant Tyson.

16 Q. I'm going to put on the screen an exhibit which
17 has already been received; it's Exhibit 103.
18 It's a computer generated exhibit. Zoom in,
19 specifically, into the bedroom; does that help
20 you better orient yourself to Steven Avery's
21 bedroom?

22 A. Yes.

23 Q. Take the laser pointer, please, and tell the
24 jurors in what area you had initial
25 responsibility to search on the 5th of November.

1 A. This cabinet right here, I guess we could call
2 that a bookcase, and this desk right here.

3 Q. All right. And did you -- Let's talk about the
4 cabinet first. Mr. Wiegert is going to hand you
5 what's been marked as Exhibit No. 203 and on 204,
6 ask if you found those items in Mr. Avery's
7 bedroom on the 5th of November?

8 A. Yes, sir.

9 Q. Tell the jury where you found them, please.

10 A. That's a shelf right there, there's a little
11 space between that shelf and the top of the
12 cabinet. I found them inside there, inside that
13 area.

14 Q. Now, after finding or locating a piece of
15 physical evidence during this search, that is, on
16 the 5th, what did you do with that evidence?

17 A. As soon as I located something that, in my
18 opinion, was of evidence, which doesn't
19 necessarily make it evidence, but if it was, in
20 my opinion, to be of evidentiary value, I stopped
21 what I was doing. I informed Sergeant Tyson,
22 hey, I found some leg irons and handcuffs in
23 here.

24 Then Sergeant Tyson would come over. I
25 would photograph them, then he collected them and

1 put them -- you know, went through the
2 administrative duties that the Calumet County
3 Sheriff's Department requires for logging
4 evidence.

5 Q. The actual seizure, or the collection of them,
6 was whose responsibility?

7 A. Calumet County's.

8 Q. Sergeant Tyson?

9 A. Well, on that evening, yes, Sergeant Tyson,
10 sorry.

11 Q. When you look at Exhibit 103, this computer
12 generated diagram, other than the roof being
13 ripped off, for obvious reasons, does that look
14 the same or similar as it did on the 5th of
15 November?

16 A. Yes, sir.

17 Q. You see on the wall above the bed, the headboard,
18 there is a gun rack; do you see that?

19 A. Yes.

20 Q. Is that how it looked on the 5th of November as
21 well?

22 A. Yes.

23 Q. Did you see any firearms on that gun rack that
24 aft -- that evening?

25 A. There were two firearms on that gun rack, just

1 pretty much like it is in the picture.

2 Q. Were you able, Sergeant Colborn, to identify
3 those guns, or at least what kind of guns they
4 were?

5 A. I know as soon as we walked into the room we
6 noticed the guns right away. I probably stood
7 right about here and I could see that one of the
8 guns, I believe it's this lower one, was a
9 muzzleloader, and it had a piece of masking tape
10 on the stock that said Steve.

11 Q. What about the gun on top; is that a long gun as
12 well?

13 A. It's a .22 caliber rifle.

14 Q. Now, let me ask you, to the best of your
15 recollection, Sergeant Colborn, were those guns,
16 were those firearms seized from Mr. Avery's
17 bedroom on the 5th of November?

18 A. I don't think we did take them on the 5th of
19 November, no.

20 Q. So the jury understands, at that time, that is,
21 that first day, that first night that you guys --
22 you guys meaning the law enforcement -- got
23 there, had Teresa Halbach's body or any of her
24 remains been located?

25 A. No, sir.

1 Q. Did you even know that you were dealing with a
2 crime at that time?

3 A. I -- Initially, we were still treating this more
4 or less as a missing person.

5 Q. All right. But you were looking for items that
6 had obvious evidentiary value; is that right?

7 A. Yes, sir.

8 Q. What were some of the other rooms that -- or let
9 me just -- let me just make this clear, while in
10 that room, while in that bedroom searching, did
11 you notice any -- anything on the floor;
12 specifically, did you notice any car key on the
13 floor?

14 A. No, sir.

15 Q. In looking at, or on top of, either the desk or
16 the bookcase, did you notice any car key or
17 something that may have had obvious evidentiary
18 value in that regard?

19 A. Not really, no.

20 Q. Okay. What other rooms were searched that night?

21 A. I believe we searched every -- every room in the
22 trailer that evening.

23 Q. Try to get to a overview here. This has been
24 received as Exhibit No. 102, does this appear to
25 be an overview of the Avery trailer, again, a

1 computer generated diagram?

2 A. Yes, sir.

3 Q. Lists both bedrooms, the bathroom, living room,
4 dining room and kitchen area; is that right?

5 A. Yes, sir.

6 Q. Each of those rooms searched that evening?

7 A. Yes, sir.

8 Q. You said you were taking 35mm photography in that
9 trailer; is that correct?

10 A. Yes, sir.

11 Q. Were there other photographs also being taken?

12 A. I believe Detective Remiker had brought a small
13 digital camera in as well and he was taking some
14 digital photos as well.

15 Q. I show you a photo that's been received as
16 evidence. This is Exhibit No. 163 and ask if you
17 recognize this particular photo.

18 A. That's a photograph of the master bedroom area I
19 was just talking about in Steve Avery's trailer.

20 Q. Is that how it looked on the 5th of November?

21 A. Yes, sir.

22 Q. Exhibit No. 175, again, which has been received,
23 could you tell us what this is, if you know.

24 A. That's in the living room area of that same
25 trailer, the same residence. And this is like a

1 corner of the living room that was set up as a
2 computer work area.

3 Q. Was that an area that you and your colleagues
4 searched that evening?

5 A. Detective Remiker was the primary officer that
6 looked at that area, but he did call me over a
7 couple times to have me take pictures of items
8 that he had found.

9 Q. You can't fit four grown men into that --

10 A. No, sir.

11 Q. -- corner; is that right? After the search was
12 completed, or when the search was wrapping up,
13 could you tell us how that search ended, how that
14 effort ended?

15 A. The items that we had decided were of evidentiary
16 value that night were placed in Sergeant Tyson's
17 patrol vehicle and he stayed with the evidence.
18 We all went back to the Command Post. And not
19 exactly sure which Calumet County officer told us
20 what time to be there the next day, but we were
21 instructed to return the next day; myself,
22 Lieutenant Lenk, and Detective Remiker. And we
23 all left at the same time.

24 Q. After leaving the residence on the 5th, can you
25 tell the jury where you went, please.

1 A. I would have gone back to the Manitowoc County
2 Sheriff's Department, which is in the city of
3 Manitowoc and to get my personal vehicle, so I
4 could go home.

5 Q. Do you know about what time you cleared the
6 scene; in other words, about what time you left,
7 if you remember?

8 A. I'm sorry, I don't. I know it was late, that's
9 all.

10 Q. The next day, that is, on the 6th of November,
11 were you asked to come back to the scene?

12 A. Yes, sir.

13 Q. And what were you asked to do on the 6th?

14 A. On the 6th, when I came out there, again, with
15 Detective Remiker and Lieutenant Lenk and I
16 believe just -- this time just Lieutenant Lenk
17 went into the Command Post to make contact with
18 who we would be working with with Cal County that
19 day.

20 And Detective Remiker and I just kind of
21 waited until he came back out. And we were
22 introduced to Deputy Kucharski. And then Deputy
23 Kucharski informed us what our assignment would
24 be for that day.

25 Q. Okay. Prior to arriving on the scene, once

1 again, did you know what your assignment was
2 going to be?

3 A. No, I had no idea.

4 Q. Was an evidence collection team formed or
5 developed that morning, on the 6th?

6 A. Yes, sir.

7 Q. Do you remember who was involved in that team?

8 A. It was myself, Lieutenant Lenk, Detective
9 Remiker, and Deputy Kucharski, who's a employee
10 of the Calumet County Sheriff's Department.

11 Q. Once again, was it determined who would be in
12 charge of that group of search individuals?

13 A. After the first day, we didn't, you know -- I
14 didn't need to be told who was in charge, I knew.
15 But Deputy Kucharski told me that he would be
16 responsible for collecting and maintaining
17 security on any evidence that was located that
18 day.

19 Q. All right. What areas, then, of search were you
20 involved with, if any, on the 6th of November?

21 A. Initially, we started at the garage, at Steve
22 Avery's residence.

23 Q. Tell me about this garage, please?

24 A. It's a wooden, frame structure, maybe like a car
25 and a half garage. Not -- Not attached to the

1 residence. It had a vehicle parked out in front
2 of it, a black Ford pickup truck.

3 Q. I show you what's been received in evidence as
4 Exhibit No. 38, can you tell us what we're
5 looking at here, please.

6 A. That's Steve Avery's residence. That's his
7 garage. That's his pickup truck.

8 Q. All right. And that garage was searched; is that
9 right?

10 A. Yes, sir.

11 Q. Who was that searched by?

12 A. The aforementioned team; myself, Lieutenant Lenk,
13 Detective Remiker, and Deputy Kucharski.

14 Q. Do you remember the interior of that garage on
15 the 5th of November?

16 A. Yes, sir.

17 Q. Can you briefly describe that for the jury?

18 A. There was a smaller sport utility vehicle parked
19 in one half of the garage. It was a Suzuki
20 Samurai. There was a snowmobile also parked in
21 there, a Skidoo snowmobile. And there were some
22 other benches and tools that kind of went all the
23 way around the garage. There wasn't a lot of
24 room in there, with all the other apparatus that
25 was in there.

1 Q. In this case, already, and I think the defense
2 had asked and has been admitted, Exhibit No. 119,
3 ask you to take a look at Exhibit No. 119. Tell
4 us what we're looking at here.

5 A. That would be the interior of Steve Avery's
6 garage.

7 Q. Fair to say there's a lot of stuff in there?

8 A. Yes, sir.

9 Q. What kind of search was performed of that garage?

10 A. Well, the same type of, you know, search that we
11 had performed the night before in his residence.
12 We were looking for anything that would lead us
13 to believe that there was a missing person in
14 there.

15 Q. Each of the items that we see, and we can even
16 zoom into some of these things, was each and
17 every one of those items removed from the garage
18 and thoroughly searched, or searched under each
19 and every one of these items?

20 A. No. No, sir.

21 Q. Wasn't that kind of search?

22 A. No.

23 Q. In a very broad way, that is, in a overview
24 fashion, because we're going to hear from Deputy
25 Kucharski, but in a very broad sense, can you

1 tell us the kinds of things that were recovered
2 or viewed while you were in that garage?

3 A. Almost as soon as we stepped in the garage I
4 noticed, as did everyone else, that there were
5 several spent shell casings lying on the floor of
6 the garage.

7 Q. What's a shell casing?

8 A. It's the brass portion of a bullet. After the
9 bullet has been expended or fired, the casing is
10 usually ejected through from the firearm and
11 lands in close proximity to the shooter, usually
12 on the ground.

13 Q. Let me ask you this, Sergeant Colborn, are you
14 familiar with shell casings for different kinds
15 of, or different calibers of firearms?

16 A. Yes.

17 Q. By visual inspection, that is, without picking
18 them up or without even taking a look at those
19 shell casings, were you able to determine what
20 caliber weapon was used to fire those bullets?

21 A. Yes.

22 Q. How were you are able to determine that?

23 A. The shell casings that were laying on the ground
24 were small, for one. They were brass and they
25 didn't have a center primer. They had been fired

1 on the corner of the bottom of the casing; in
2 other words, the rim of the casing. And a
3 .22 caliber weapon is one of the only weapons
4 that is a rim fire weapon. Most weapons have a
5 primer in the center of the bullet. This does
6 not; it's fired off the rim.

7 Q. How many, what you believed were .22 caliber
8 shell casings, were readily apparent or viewable
9 to the naked eye as you entered that garage?

10 A. There were quite a few, 12 maybe, 12 plus.

11 Q. Do you know for sure?

12 A. No, sir, I don't.

13 Q. During the course of that search, were the shell
14 casings that were at least out in plain view
15 seized by Deputy Kucharski?

16 A. Yes, we photographed them first, where they were
17 lying. Initially, Deputy Kucharski and I were
18 both doing photographs, but then we thought
19 perhaps that was a bit redundant. So I just
20 let -- Deputy Kucharski felt more than
21 comfortable taking the photographs so I just
22 stopped taking pictures and assisted with
23 locating.

24 Q. About how long did the search of this garage
25 take?

1 A. One hour, one and a half hours.

2 Q. Looking at the stuff, I will call it junk; I
3 don't know if I will get an objection about that,
4 but probably not. Looking at the junk that we
5 see here, in a one hour search, were you able to
6 thoroughly search this garage?

7 A. No. I mean, if we were looking for something
8 minute, you could spend easily an hour just in
9 this area right here.

10 Q. All right. Were you given other search
11 assignments that day?

12 A. Yes, sir.

13 Q. Can you tell us where you were next assigned to
14 search?

15 A. I believe the next assignment, I believe, was the
16 Ford pickup truck that was parked right in front
17 of the garage.

18 Q. And that was Steve's black truck that we had seen
19 before?

20 A. I do have to mention, there were several times,
21 and I believe this was one of them, where we
22 would be searching a specific area, somebody from
23 Cal County would come and say, I need your
24 assistance doing this. So we would stop what we
25 were doing and assist them with another project

1 and then go back. So I believe before we started
2 searching that Ford pickup truck, I was asked to
3 photograph some burning barrels and assist in
4 loading them up into a covered trailer.

5 Q. All right. Did you do that?

6 A. Yes, sir.

7 Q. Just as long as we have this picture up, first,
8 we're going to go back to Exhibit 38; was that
9 the truck that you assisted in searching?

10 A. Yes.

11 Q. Now, you talked about some burn barrels, where
12 were these located?

13 A. Behind or to the side of Steve's garage. There
14 was three or four of them.

15 Q. Did you know whose burn barrels those were?

16 A. No, I didn't.

17 Q. You said that there were others that were
18 assisting in the recovery of those; do you know
19 who those other individuals were?

20 A. I didn't know, you know, everyone's name from the
21 Calumet County Sheriff's Department, or the
22 Department of Criminal Investigations that was
23 working there. I just recognized that some of
24 the officers were not at all connected with
25 Manitowoc County, but they were uniformed. And I

1 saw Calumet County, you know, Sheriff's
2 Department patches on their uniforms, but I do
3 not know them by name.

4 Q. There were some Manitowoc officers also involved?

5 A. Yes.

6 Q. Those burn barrels, I think a picture of them has
7 been received as Exhibit 52, I'm going to show
8 you that picture; do you recognize that?

9 A. Yes, I took that picture.

10 Q. Who is that we see in the picture?

11 A. That's Detective Dave Remiker from the Manitowoc
12 Sheriff's Department.

13 Q. These are the four burn barrels that you assisted
14 in recovering and loading; is that right?

15 A. Yes, sir.

16 Q. Looks like it's raining here again; is that
17 right?

18 A. Yes. I wanted to get a picture to show that we
19 were trying our best to protect the contents of
20 the barrel; that's the reason that tarp is on
21 there.

22 Q. After those barrels were loaded, did you proceed
23 to complete the search of Steve's black truck?

24 A. Yes, sir.

25 Q. All right. After that effort, what did you do

1 then?

2 A. Again, this is going to be one of those times
3 that I was pulled away for another project. We
4 were almost completed with the search of Steve's
5 truck when I was -- again, another Calumet County
6 supervisor told me -- or asked me where the
7 Maribel Caves Park was. And I said, you know, I
8 described where it was, but not being from
9 Manitowoc County, he didn't really know where it
10 was. And he said, well, some searchers have
11 found some things at the Maribel Caves Park, can
12 you go out there; see what they have, if you
13 think it's evidence, pick it up. So myself and
14 Detective Remiker went out to Maribel Caves Park
15 where we made contact with a civilian search
16 party. And they showed us some things that they
17 had found and we ended up bagging them up and
18 turning them over to the Calumet County Sheriff's
19 Department.

20 Q. What did do you then?

21 A. When I got back, then, I believe, the search of
22 Steve's truck, I think, had been completed then.
23 You know, in my absence, Deputy Kucharski had
24 completed the search and then I would have to
25 take a look at his report to see what our next

1 assignment was. I believe we were sent to Chuck
2 Avery's residence -- no, either Chuck's or
3 Steve's sister. And I'm not positive which one
4 was next.

5 Q. Who's Steve's sister?

6 A. Her first name is Barb. I believe at that time
7 her last name was Janda.

8 Q. All right. Did you assist in the search of Barb
9 Janda's trailer?

10 A. Yes.

11 Q. And we're going to hear from Detective Remiker
12 later, but do you recall being present when a
13 telephone answering machine was located.

14 A. Yes.

15 Q. This has been received as Exhibit No. 55, can you
16 tell us what we're looking at, please.

17 A. I believe that's the answering machine that was
18 in Barb Janda's residence.

19 Q. Who else was present when this answering machine
20 was investigated or searched?

21 A. It was the same search team that had gone into
22 Steve Avery's garage; Lieutenant Lenk, myself,
23 Detective Remiker, and Deputy Kucharski.

24 Q. Were the messages on this machine examined?

25 A. When we -- When we found the answering machine, I

1 saw that there were messages on there. I said,
2 let's unplug it and take the answering machine.
3 And, of course, the conversation between all of
4 us, we said, well, what if somehow in the
5 unplugging process we lose the messages. So,
6 yes, we hit the play button and listened to the
7 messages and Detective Remiker recorded the
8 messages as they were being played.

9 Q. Did you have occasion that day to reenter Steven
10 Avery's trailer?

11 A. I believe that was the day that I was asked to --
12 our whole team was asked to go back into Steve's
13 trailer and obtain serial number -- I think that
14 was the day -- that we were asked to obtain a
15 serial number off Steve's computer, the tower
16 portion of his computer.

17 Q. Are you sure about that, or are you guessing?

18 A. I'm not positive if that was the day or not. I
19 know that was one of the assignments that I
20 completed. I thought it was that day, but I'm
21 not positive. I do know, also, that that day we
22 had to go back into Steve Avery's trailer and
23 collect his weapons.

24 Q. Can you, again, describe those weapons.

25 A. He had a, like a two place or gun rack over his

1 bed. There were two weapons on the gun rack; one
2 was a .22 caliber rifle, and the other was a --
3 if I remember correctly -- was a .50 caliber
4 muzzleloader.

5 Q. We're going to have these marked, actually.

6 ATTORNEY KRATZ: Mr. Fallon, if you could
7 have them marked.

8 ATTORNEY FALLON: They're marked.

9 ATTORNEY KRATZ: Oh, I'm sorry.

10 Q. (By Attorney Kratz)~ Do you see a picture of the
11 .22 caliber rifle?

12 A. Yes, sir.

13 Q. And what exhibit number is that?

14 A. It is Exhibit 164.

15 Q. See if I can find that here. Do you recognize
16 Exhibit No. 164?

17 A. Yes, it's a .22 caliber rifle that we located in
18 Steve Avery's bedroom.

19 Q. I have put up a photograph of Exhibit No. 164;
20 again, does that .22 caliber rifle look the same
21 or similar as it did when it was seized on the
22 6th of November?

23 A. Yes, sir.

24 Q. Did you, by the way, that day, on the 6th, have
25 occasion to, at all, inspect or further inspect,

1 that rifle?

2 A. When we collected the rifle, in order to manage
3 an evidence room, we first needed to make sure
4 that the weapon wasn't loaded. So I did pull the
5 action back to see if it was going to eject a
6 round. And I believe I pulled the tube out,
7 which is under the barrel there.

8 Q. Why don't you show you us with the laser pointer.

9 A. That portion of the weapon is the magazine. To
10 load it, you pull a tube out, I believe, an
11 insert rounds through that notch right there.

12 This is the action of the magazine; it's
13 a semi-automatic weapon. So I pulled this action
14 back to see if there was a round inside the
15 barrel. And I believe the safety is right there
16 on the weapon and I would have checked to make
17 sure that the safety was on, because if someone
18 handling the weapon, obviously, if it was loaded
19 with the safety off, it could fire.

20 Q. Sure. Are you familiar with a semi-automatic
21 rifle such as Exhibit No. 164?

22 A. Yes, sir.

23 Q. Now, a tube loaded or a tube fed magazine, for
24 those on the jury that aren't gun enthusiasts,
25 can you tell us just -- just generally how that

1 works?

2 A. This portion of the weapon right here is where
3 it's loaded. At the very end here, you can twist
4 a knob and you pull out like a plastic plunger
5 and you load -- you would have to turn the weapon
6 almost upside down. But if you can see that,
7 there's a little notch there, that's where you
8 put the rounds in and then you just slide this
9 tube back in until it locks.

10 And if it doesn't lock, you put too many
11 rounds in. You have to get it so that that
12 locks. As you fire the weapon, there's a spring
13 on there and it just keeps pushing the rounds
14 back to the chamber.

15 Q. After a .22, you mentioned a rim fire bullets,
16 but after the shell casings are ejected, where do
17 they come out of?

18 A. Out of that area right there, that silver area.

19 Q. And with a semi-automatic weapon, do you have to
20 reload it, or cock it, or do anything that any --
21 any action like that that we might hear with
22 other weapons?

23 A. No, sir. A semi-automatic weapon will continue
24 to fire as fast as you can pull the trigger. You
25 must release the trigger to its sear each time,

1 but it will continue to fire as fast as you can
2 pull the trigger, until all the shells are
3 expended.

4 Q. By the way, Sergeant Colborn, I don't know if you
5 know this, but do you know what kind of weapon
6 this is; what brand name weapon?

7 A. I know when we catalogued the weapon, when we
8 took it, and when Deputy Kucharski took it in as
9 evidence, I read the manufacturer name to him,
10 but I don't recall who manufactured that weapon.

11 Q. That's fine. Thank you. You said there was a
12 second weapon that was seized; is that right?

13 A. Yes, sir. You gave me a photograph that's marked
14 Exhibit 165.

15 Q. Why don't you tell us what that is?

16 A. That's a muzzleloading weapon, similar to like a
17 musket from the Revolutionary War or frontier
18 period. It's called muzzleloading because that's
19 where you load it, through the muzzle.

20 Q. Where were these items seized from?

21 A. Steve Avery's bedroom, on a gun rack that was
22 hanging above his bed.

23 Q. Is there anything else that was seized from
24 Mr. Avery's trailer that day, that is, on the 6th
25 of November, that you can recall?

1 A. Not that I recall, no, sir.

2 Q. Any other buildings that you were asked to search
3 that day?

4 A. Not that I specifically recall, no.

5 Q. All right.

6 ATTORNEY KRATZ: Judge, before going into
7 the next day's search for the 7th, this might be a
8 good time for a lunch break.

9 THE COURT: All right. The Court agrees.
10 Members of the jury, we're going to take our lunch
11 break at this time. Again, do not discuss the case
12 in any fashion and during the break and we'll resume
13 at 1:00.

14 (Jury not present.)

15 THE COURT: You may be seated. Go off the
16 record at this time.

17 (Off the record discussion.)

18 THE COURT: At this time we'll go back on
19 the record. Mr. Kratz.

20 ATTORNEY KRATZ: Judge, before we break for
21 lunch, Mr. Strang was kind enough to alert me that
22 this witness may be cross-examined with the
23 assistance of a audio CD. Mr. Strang gave me a CD
24 that has 24 tracks on it. I don't know if he
25 intends to play all 24 tracks in the

1 cross-examination, but it would certainly assist us
2 in orienting as to the time and the context of those
3 conversations, if those could be identified. If
4 they can't, that's fine, but if the tracks
5 themselves, rather than listen to all 24 during the
6 lunch hour, could be identified, we would appreciate
7 that.

8 THE COURT: Mr. Strang.

9 ATTORNEY STRANG: Well, I provided the CD
10 out of an abundance of caution. I think these --
11 these taped calls are all calls that the State, like
12 the defense, received during the hearing on
13 August 9, 2006, from the Manitowoc County Sheriff's
14 Department. We should probably excuse the witness.

15 THE COURT: I was just thinking about that
16 myself. Mr. Colborn, if you can step out of the
17 courtroom for a minute, we'll continue here. The
18 witness has now left the courtroom.

19 ATTORNEY STRANG: Right. As I say, I'm
20 quite confident that when we received the CD's from
21 the Manitowoc County Sheriff's Department on
22 August 9, 2006, the State also received the very
23 same recorded calls, both radio transmissions and
24 some land lines at the sheriff's department that are
25 answered by dispatchers. Out of an abundance of

1 caution, I gave Mr. Kratz another copy of the disc
2 I'm going to mark today. But I'm not interested in
3 disclosing my cross-examination over the lunch hour
4 while, you know, the State is free to prepare
5 including with the witness.

6 THE COURT: All right. If it's information
7 that the parties already have, I don't know what's
8 going to come in but, Mr. Kratz, if you need a break
9 before redirect, I will take up a request at that
10 time.

11 ATTORNEY KRATZ: That's fine and counsel
12 may hear the very same response later in the trial.
13 That's fine. Thank you, Judge.

14 THE COURT: Okay.

15 (Noon recess taken.)

16 THE COURT: Mr. Kratz, at this time you may
17 resume your direct examination of Mr. Colborn.

18 ATTORNEY KRATZ: Thank you, Judge.

19 **DIRECT EXAMINATION**

20 BY ATTORNEY KRATZ:

21 Q. Sergeant Colborn, we left off with the next day,
22 I believe, of your involvement with the -- on
23 Monday, the 7th of November; do you remember that
24 day?

25 A. Yes, sir.

1 Q. Were you asked to return to the Avery property?

2 A. Yes, I was.

3 Q. And, by the way, who were you asked to return
4 there by?

5 A. The Calumet County Sheriff's Office, or
6 Department of Criminal Investigation, one of
7 those officers.

8 Q. If you could speak up just a little bit,
9 Sergeant, I would appreciate it.

10 A. I was either asked to return by the Calumet
11 County Sheriff's Department, one of their
12 supervisors, or by the Department of
13 Corrections -- or Department of Criminal
14 Investigations, Agent Tom Fassbender.

15 Q. Were you, for lack of a better word, volunteering
16 for this service, or these duties?

17 A. No.

18 Q. On the 7th of November, then, do you recall about
19 what time you returned to the salvage yard?

20 A. Somewhere between 6:30 in the morning and 7:30 in
21 the morning, I believe.

22 Q. Sergeant Colborn, what were you asked to do on
23 the 7th, if you recall?

24 A. On the -- On Monday, I was informed that -- by
25 Sergeant Tice that I -- Tyson, that I would be

1 working with him, again. This would be the same
2 Sergeant Tyson that I had worked with on
3 Saturday.

4 And he informed us that our assignment
5 that day was to go into the Avery Salvage Yard
6 and open any trunks of vehicles that had not yet
7 been searched, because the trunks, apparently,
8 they couldn't find the keys for these vehicles
9 and we were to look inside the trunks of these
10 vehicles.

11 Q. Were there any other members of your team, other
12 than you and Sergeant Tyson?

13 A. Also Lieutenant Lenk was with me that day.

14 Q. And did you, in fact, assist in opening up or
15 searching trunks that hadn't yet been opened?

16 A. Yes, I did.

17 Q. What else happened on the 7th?

18 A. That took the better part of the morning. I
19 believe in the afternoon we were instructed to
20 start collecting -- you know, specifically
21 instructed to collect -- I take that back. At
22 some point we were also asked to get a -- I
23 believe this was the day that we were asked to
24 get the serial number off Steven Avery's
25 computer.

1 Q. Did you assist Sergeant Tyson in that regard?

2 A. Yes, I did.

3 Q. Can you tell the jury what you did, please.

4 A. The serial number is on the back of the computer.

5 And the portion of the computer that we needed

6 the serial number was underneath a desk that had

7 been shown earlier, the photograph that was shown

8 earlier. So I crawled underneath the desk and

9 used a flashlight to obtain the manufacturer and

10 the serial number of the computer, which Sergeant

11 Tyson wrote down.

12 Q. All right. How long did that process take?

13 A. At the most, 10 minutes.

14 Q. Did you go in any other part of the residence, or

15 did you confine yourself to the living room area?

16 A. I just confined myself to the area where the

17 computer was that day.

18 Q. What else did you do then?

19 A. I believe then we were instructed to -- I believe

20 we were instructed, then, to start collecting

21 some firearms from the other residences that were

22 on the Avery property. I believe, specifically,

23 Barb Janda's residence.

24 Q. And did you do that?

25 A. Yes, sir.

1 Q. All right. What's the next thing you did on the
2 7th?

3 A. I know at one point I was asked to take some
4 photographs, I believe, of a burning barrel that
5 was on Steve Avery's property. I did do that.

6 Q. Which -- Which burn barrel did you take
7 photographs of?

8 A. It was a burn barrel that was on, I would -- that
9 was in close proximity to Steve's trailer. And I
10 remember it had a car wheel by it.

11 Q. To orient us to that, there's an exhibit which
12 has been received, it's Exhibit 114. It's,
13 again, an exterior computer animation. If you
14 take your laser pointer up there, tell us what
15 we're looking at, and what burn barrel you were
16 asked to examine and photograph?

17 A. That burn barrel right there. I remember right
18 on one -- either this side or this side of it
19 there was a car wheel standing on its edge with a
20 tire missing.

21 Q. Did it appear to you, at least as you went to
22 that scene and as you look at Exhibit 114, who
23 that burn barrel is attached to?

24 A. Yes, it's the burn barrel for that residence,
25 right there, Steve Avery's residence.

1 Q. Now, Sergeant, you talked about some different
2 kinds of photography. I think you talked about
3 digital as well as 35mm photography; do you
4 remember that day, the 7th of November, what kind
5 of photography you were performing?

6 A. 35mm, I did not do any digital photography the
7 entire time I was out there, personally.

8 Q. That way you talked about a wheel next to the
9 burn barrel, I'm going to show you what's been
10 marked as Exhibit No. 158, in fact, Mr. Fallon is
11 going to hand it to you, but I would ask you if
12 you could tell us what this is an image of.

13 A. That is a car wheel, that's at the very edge of
14 Steve Avery's burn barrel. And those wires, I
15 believe, that are around the wheel are actually
16 part of the make up of the tire, probably like
17 portions of the steel belt.

18 Q. As we get closer, do a little bit of a close up,
19 can you see that better now on the screen?

20 A. Yes, sir.

21 Q. By the way, Exhibit 158, is that a photo that you
22 took or likely took?

23 A. Yes, sir.

24 ATTORNEY KRATZ: In all honesty, Judge, so
25 that I don't forget, I'm going to move the admission

1 of Exhibit 158 at this time.

2 THE COURT: Any objection?

3 ATTORNEY STRANG: None.

4 THE COURT: 158 is received.

5 Q. (By Attorney Kratz)~ Were you asked to do
6 anything else on the 7th, Sergeant?

7 A. I believe I was also -- At some point, apparently
8 the Command Post received word that some
9 searchers had located an area that -- it looked
10 suspicious, there was plastic poking up from the
11 ground and it looked like the ground had been
12 disturbed. So I was asked to go to that area
13 along with the Wisconsin State Crime Lab,
14 Sergeant Tyson, and Lieutenant Lenk and help the
15 Crime Lab, if they requested it, to excavate that
16 area.

17 Q. Do you know on what roadway this was?

18 A. I believe it was off Kuss, White Cedar Road.

19 Q. This is something that Mr. Ertl, yesterday,
20 talked about a potential burial site but what
21 wasn't; was that your understanding, that it
22 turned out not to be?

23 A. Yes, it turned out to be nothing.

24 Q. Did you do anything else on the 7th.

25 A. I think by the time we were down with that, that

1 consumed the rest of the day.

2 Q. Let's move on then to the 8th, which would be
3 Tuesday, the 8th of November, were you asked to
4 return to the property?

5 A. Yes, sir.

6 Q. Again, who were you asked to return there by?

7 A. By -- No, I didn't get the -- the -- wasn't told
8 to me directly. Usually Lieutenant Lenk met with
9 members of the Calumet County Sheriff's
10 Department and Department of Criminal
11 Investigations at the completion of each day and
12 then I would just check with Lieutenant Lenk, are
13 we needed tomorrow or no.

14 Q. I see.

15 A. And then he said, we're needed tomorrow.

16 Q. Did you show up then on the 8th?

17 A. Yes, sir.

18 Q. And who were you attached to, or who were you
19 assigned to that day?

20 A. I was assigned to Deputy Dan Kucharski from the
21 Calumet County Sheriff's Department.

22 Q. Do you know what you were asked to do on the 8th?

23 A. Yes, Deputy Kucharski, Lieutenant Lenk, and
24 myself were instructed, by Special Agent
25 Fassbender, to look for some specific printed

1 material inside Steven Avery's residence.

2 Q. Okay.

3 A. And to collect same.

4 Q. Did you have occasion to enter Steven Avery's
5 bedroom on the 8th of November?

6 A. Yes, sir.

7 Q. Who did you enter that bedroom with.

8 A. Deputy Kucharski and Lieutenant Lenk.

9 Q. How long did you spend in that bedroom on the
10 8th, if you recall?

11 A. An hour or so.

12 Q. Were you directed to perform any search of that
13 trailer, specifically of that bedroom?

14 A. Before -- Actually, before we started on the
15 bedroom, I was instructed to, with Deputy
16 Kucharski, to remove the computer and to wait
17 until the computer was picked up by another law
18 enforcement officer.

19 Q. Okay. Did you do that?

20 A. Yes, sir.

21 Q. Then, moving to the bedroom, my question is,
22 whether you were to perform a search that day?

23 A. Yes, sir.

24 Q. I'm showing you what's been marked for
25 identification as Exhibit No. 208; can you tell

1 us what that is, please.

2 A. These are photographs of a cabinet that's right
3 next to the desk in Steve Avery's bedroom, that
4 would be the same bedroom where the firearms were
5 that I described before and --

6 Q. We're just talking about the first one now,
7 Exhibit 208.

8 A. That's this photograph here. It's a picture
9 of -- this is a desk.

10 Q. I'm actually going to put a view up for the jury
11 so that we can -- Okay. If you want to use your
12 laser pointer where everybody can see what you
13 are talking about then.

14 A. This is a desk. There's an open area, that's the
15 picture. This is a cabinet, you can see how
16 closely it is positioned to the desk there.

17 Q. Let me just stop you, is this something that you
18 earlier called a bookcase.

19 A. This cabinet, I'm sorry, yes, I called it a
20 bookcase and that's actually, I guess, what it
21 is, a bookcase.

22 Q. Just so that the jury understands, was this the
23 item from which the handcuffs and the leg irons
24 were seized a couple days earlier?

25 A. Yes, sir. It's easier to see now, with this

1 picture, the leg irons and handcuffs were located
2 in this area here.

3 Q. Now, this particular photograph, you can see a
4 pair of slippers, bedroom slippers next to it; is
5 that right?

6 A. Yes, sir.

7 Q. You can see a electrical outlet or a socket; is
8 that right?

9 A. Yes, sir.

10 Q. Can you point to that, please. Were you asked,
11 or at least as part of your responsibilities of
12 searching the bedroom, were you asked to do a
13 thorough search of this piece of furniture?

14 A. Yes.

15 Q. And did you do that?

16 A. Yes.

17 Q. In performing that search, Sergeant Colborn, did
18 you move or manipulate this piece of furniture at
19 all?

20 A. Yes, sir.

21 Q. Can you describe that for the jury, please.

22 A. As I stated before, we were looking for specific
23 printed or photographs. There is a narrow area
24 between this bookcase and this desk, right there.
25 And in order to make sure that there was no

1 evidence or anything else that we needed lodged
2 between there, I actually tipped this to the side
3 and twisted it away from the wall.

4 Q. If you can describe that further, I don't know if
5 you can do it with your words, or show us with
6 your hands, how you did it?

7 A. I will be the first to admit, I wasn't any too
8 gentle, as we were, you know, getting
9 exasperated. I handled it rather roughly,
10 twisting it, shaking it, pulling it.

11 Q. And that's the bookcase that you are talking
12 about?

13 A. Yes, this piece of furniture right here, a
14 bookcase.

15 Q. I'm sorry. Sergeant, in shaking and twisting
16 that particular bookcase, did you pull it away
17 from the wall itself, that you can see behind
18 there?

19 A. Yes, I did.

20 Q. After that process was complete, were the
21 items -- The binder that we can see in the lower
22 left hand corner of the bookcase; can you point
23 to that, please. Was that, and the other items
24 within that bookcase, removed and examined by
25 yourself and your -- other members of your team?

1 A. Yes, sir.

2 Q. Did you have occasion to replace those items into
3 that bookcase after having pulled it from the
4 wall?

5 A. Yes, sir.

6 Q. What was done with the bookcase after that
7 thorough search of the -- of those materials was
8 completed?

9 A. The items that we didn't use -- or collect as
10 evidence, that binder and some of the other
11 things there were kind of stuffed, rather
12 forcefully, back in there. And other items that
13 we were going to collect as evidence were -- we
14 had so many that we didn't have a container in
15 the room large enough to hold them all. So
16 Lieutenant Lenk exited the bedroom to get a
17 larger container and I began to search this desk
18 here.

19 Q. By a larger container, what are you talking
20 about?

21 A. A box.

22 Q. Now, at this time, that is, as the search was
23 completed, what was done with that piece of
24 furniture; what was done with the bookcase
25 itself?

1 A. It was still kind of away from the wall, but it
2 was more or less stuffed back into its original
3 position.

4 Q. The next exhibit, Exhibit No. 209, describe what
5 that is, please.

6 A. That's just a different photograph of the same
7 bookcase.

8 Q. I'm going to allow the jury to see that as well.
9 Is this the photo that you are talking about
10 of -- of the bookcase?

11 A. Yes, sir.

12 Q. The next exhibit, No. 210, can you describe what
13 that is for us, please.

14 A. 210 is a picture, a photograph of the -- Well,
15 you can see that we have some materials there
16 stuffed in a bag. Then there's the bedroom
17 slippers. And now there is a key with a fob,
18 lying between the bedroom slippers.

19 Q. Sergeant Colborn, I'm going to direct your
20 attention, then, to the large screen. I would
21 like you to carefully take the laser pointer and
22 describe for the jury what it is that we're
23 looking at?

24 A. These were some items that we had bagged up. I
25 don't recall what that is. These were the same

1 bedroom slippers that were in the other
2 photograph, but you can see that they have been
3 jostled. That's the electrical outlet. And now
4 there is a key and with this connecting canvas or
5 nylon fob and a black plastic buckle, lying on
6 the floor.

7 Q. The piece of furniture, that is, the bookcase
8 that we see in Exhibit 210, has that been removed
9 or replaced to its original position?

10 A. I can't say we have got it exactly 100 percent
11 where it was, but it's very close to its original
12 position, yes.

13 Q. So the jury understands the timing of these,
14 Exhibit No. 208 shows the slippers right next to
15 the outlet. And this exhibit, 210, shows the
16 slippers pushed to what would be the left and
17 actually a little bit closer to the photographer;
18 is that fair?

19 A. That's correct.

20 Q. Do you recognize this image, that is, did you see
21 this image on the 8th of November?

22 A. Yes.

23 Q. Can you describe that moment, or that event, for
24 the jury, please.

25 A. As I had mentioned earlier, Lieutenant Lenk had

1 exited -- That is the door coming into the
2 bedroom; he had gone through that door to get a
3 bigger container. I was searching the desk here.
4 Deputy Kucharski was sitting on the bed, which
5 also isn't in the photograph, but is in very
6 close proximity to this piece of furniture, the
7 bookcase, filling out paperwork.

8 Lieutenant Lenk got about right here,
9 his feet would have been right here, so he was in
10 the room, and said something to the effect of,
11 there's a key on the floor here, or, look,
12 there's a key. I don't know what his exact
13 verbiage was but he identified that there was a
14 key on the floor.

15 I turned around, as I wasn't very far
16 away, I turned around and looked and I observed
17 this key, lying right where it is. And I
18 observed this key had this black rubberized or
19 plastic end on it, which they didn't -- you know,
20 that's a newer model car key, due to that plastic
21 or rubberized end. And I also observed that
22 embossed on there was a Toyota emblem.

23 And we told Deputy Kucharski, get a
24 photograph of this, right away, which he did,
25 which is this photograph. I did not take this

1 photograph.

2 Q. By the way, as you and Deputy Kucharski and
3 Lieutenant Lenk observed this, did any of the
4 three of you approach or touch this piece of
5 evidence at that time?

6 A. I may have been standing in this area here, you
7 know. This piece of furniture is only 2 and a
8 half, 3 feet tall, maybe. So I could easily see
9 over it to see the key.

10 I did not approach the key. Lieutenant
11 Lenk did not come into the room. Deputy
12 Kucharski photographed the key from, you know,
13 from whatever angle this picture was taken at.
14 That's as close as we got.

15 Q. My question, again, was, did either yourself,
16 Lieutenant Lenk, or Deputy Kucharski, prior to
17 this photo was taken, touch that key?

18 A. No, sir.

19 Q. Why not?

20 A. I think all three of us knew at the same time
21 that there was a very good chance, seeing a
22 Toyota emblem embossed on that key, knowing that
23 Teresa Halbach's vehicle was a Toyota, that this
24 was a very important piece of evidence. And, you
25 know, none of us were going to taint that.

1 Q. Let me ask you, Sergeant Colborn, you guys -- you
2 specifically, Lieutenant Lenk, and now Deputy
3 Kucharski, had been in this room for quite some
4 time before this key appears in this position;
5 isn't that right?

6 A. Yes, sir.

7 Q. Did this surprise you, that you saw this key
8 there?

9 A. Yes, I was very surprised.

10 Q. Did the three of you talk about that, we hadn't
11 seen it before, anything like that?

12 A. I -- I believe I said to myself, damn, how did I
13 miss that.

14 Q. Now, other than the bedroom slippers being pushed
15 to the side, had anything else changed, other
16 than the pulling out and the twisting and the
17 jostling of the cabinet?

18 A. As we looked at the cabinet, it appeared that in
19 the process of us stuffing everything back into
20 the cabinet, we had separated the back of the
21 cabinet, the small piece of paneling that would
22 be the back of the cabinet, from the frame of the
23 cabinet itself.

24 Q. Let me stop you there. Did you have occasion,
25 then, to go look at the back of this piece of

1 furniture, the back of the cabinet, after this
2 key was processed?

3 A. Yes.

4 Q. I know I'm jumping ahead just a little bit, but
5 could you describe what you saw; could you
6 describe the back panel of the cabinet?

7 A. It would be made out of a -- I'm trying to think
8 of the right word, like a piece of wood, the same
9 thickness maybe as a piece of paneling that one
10 would put on a wall. You know, it's a thin piece
11 of wood, it's not -- it's not like it's a quarter
12 inch piece of plywood nailed to the back of the
13 cabinet. It's a thin piece of wood.

14 The piece of furniture itself is old and
15 not in the best state of repair. And I believe
16 it was just very small, short brads or nails that
17 held the piece of paneling or the piece of wood
18 to the back of the cabinet. And I'm sure that
19 when we were putting things in we exercised more
20 than enough force to push it away. And there was
21 a gap now between the back of the -- the piece of
22 paneling on the back of the cabinet and the frame
23 of the cabinet itself.

24 Q. I'm going to show you an exhibit that's been
25 received as Exhibit No. 169; although taken on a

1 different day, we're all in agreement about that,
2 does Exhibit 169 look the same as when you
3 witnessed the back of this cabinet on the 8th of
4 November?

5 A. Yes, sir.

6 Q. What was done with the key, if you remember?

7 A. Initially, it was photographed and Lieutenant
8 Lenk and I both -- when I say told, it was not
9 like we were ordering him, but we just
10 communicated to Deputy Kucharski that he needed
11 to make sure he put on a fresh set of gloves;
12 pick up that key, put it in a separate container,
13 totally by itself; and we needed to contact the
14 Command Post right away and let them know that we
15 had located a key that could possibly be a key to
16 Teresa's vehicle.

17 Q. Did somebody from the Command Post come to your
18 location then?

19 A. Two people from the Command Post came to our
20 location. Special Agent Fassbender and
21 Investigator Wiegert.

22 Q. Were you present when the lead investigators were
23 shown this key that was discovered?

24 A. Yes. We packaged the key and we went into the
25 living room and that's where we remained until

1 the two investigators came and looked at the key.

2 ATTORNEY KRATZ: What exhibit number is
3 next, Madam Clerk?

4 THE CLERK: 211.

5 Q. (By Attorney Kratz)~ Sergeant Colborn --

6 ATTORNEY KRATZ: And, Judge, the record
7 should reflect that the evidence bag is being opened
8 with the assistance of Investigator Wiegert.

9 Q. (By Attorney Kratz)~ But Sergeant Colborn, you
10 are going to be shown the contents of what is
11 being marked as Exhibit No. 211.

12 (Exhibit No. 211 marked for identification.)

13 ATTORNEY KRATZ: Deputy Wiegert, if you
14 would be so kind as to show it to this witness.

15 Q. (By Attorney Kratz)~ Sergeant Colborn, please
16 don't -- don't touch this exhibit. But an
17 exhibit that has now been marked for
18 identification as Exhibit 211 is being shown to
19 you.

20 ATTORNEY KRATZ: If you stand to the side a
21 little bit, Investigator Wiegert, I would appreciate
22 it.

23 Q. (By Attorney Kratz)~ Tell the jury what that is,
24 please.

25 A. That appears to be the exact same key as pictured

1 right there on that photograph. It's a long key,
2 with a black plastic end, with a Toyota emblem on
3 the end of it. And that same nylon, actually, I
4 think corresponds to something that someone would
5 wear around their neck and clip to the other
6 plastic end.

7 ATTORNEY KRATZ: With permission, Judge,
8 may Investigator Wiegert post it or at least show
9 the jurors?

10 THE COURT: Any objection?

11 ATTORNEY STRANG: Nope.

12 THE COURT: Yes, you may do so.

13 ATTORNEY KRATZ: Hold it up by one end,
14 Investigator, and show the jurors, please.

15 THE COURT: The record should probably also
16 reflect he's wearing rubber gloves at this time, or
17 unless you can describe them more accurately.

18 ATTORNEY KRATZ: Latex gloves. And
19 although Mr. Kucharski will be testifying as well,
20 Judge, I don't believe there is any contest as to --
21 as to this exhibit and I will move its admission at
22 this time.

23 THE COURT: Any objection?

24 ATTORNEY STRANG: Well, there's plenty of
25 contest as to that exhibit, but not as to it having

1 been authenticated and identified. And I don't have
2 any objection to it being received.

3 ATTORNEY KRATZ: Thank you.

4 THE COURT: All right. The exhibit will be
5 received.

6 ATTORNEY KRATZ: Thank you.

7 Q. (By Attorney Kratz)~ After Special Agent
8 Fassbender and Investigator Wiegert were shown
9 that key, do you know what happened to that key?

10 A. Just -- excuse me, we decided, between the three
11 of us, just to wait in the living room. Special
12 Agent Fassbender and Investigator Wiegert said
13 that another law enforcement officer would be
14 coming down to take possession of the key.

15 So we all three just waited until he got
16 there. We turned the key over and I believe we
17 were told that it would be going to Madison, to
18 the Crime Lab, where Teresa's vehicle already
19 was.

20 Q. Sergeant Colborn, after this search, after this
21 thorough search of Mr. Avery's residence was
22 completed, were you asked to perform a similar
23 thorough search of somebody else's residence that
24 day?

25 A. Yes, I believe it was Charles Avery's residence.

1 Q. And was that search performed by the same team;
2 that is, yourself, Lieutenant Lenk and Deputy
3 Kucharski from Calumet County?

4 A. Yes, sir.

5 Q. Sergeant Colborn, we have heard some references
6 this week, and even last, to your involvement in
7 this case. And now that you are here, now that
8 you are in court, I have some questions regarding
9 your knowledge of Mr. Avery.

10 First of all, prior to November of 2005,
11 had you been involved at all in the
12 investigation, testifying against, or prosecution
13 of Steven Avery in any previous criminal
14 proceedings?

15 A. No, sir.

16 Q. Had you ever been personally named in any civil
17 lawsuits, or ever personally been accused of any
18 wrongdoing regarding Mr. Steven Avery?

19 A. No, sir.

20 Q. You were asked, as I understand, as part of a
21 civil lawsuit, to provide what's called a
22 deposition, to be questioned by some lawyers; is
23 that right?

24 A. Yes, sir.

25 Q. Do you recall when that occurred?

1 A. I believe it was in October of 2005.

2 Q. Do you remember how long that deposition, how
3 long that -- that process took?

4 A. I thought it was less than an hour, but an hour
5 or less.

6 Q. All right. You were asked some questions, is
7 that right, under oath?

8 A. Yes, sir.

9 Q. Did you answer those questions to the best of
10 your knowledge and ability?

11 A. Yes, I did.

12 Q. Do you recall the context in which you were asked
13 those questions; in other words, do you recall
14 what you were asked about?

15 A. Yes, sir.

16 Q. Can you tell the jury what you were asked about?

17 A. In 1994 or '95 I had received a telephone call
18 when I was working as my capacity as a
19 corrections officer in the Manitowoc County Jail.
20 Telephone call was from somebody who identified
21 himself as a detective. And I answered the
22 phone, Manitowoc County Jail, Officer Colborn.

23 Apparently this person's assumption was
24 that I was a police officer, not a corrections
25 officer, and began telling me that he had

1 received information that somebody who had
2 committed an assault, in Manitowoc County, was in
3 their custody, and we may have somebody in our
4 jail, on that assault charge, that may not have
5 done it.

6 I told this individual, you are probably
7 going to want to speak to a detective, and I
8 transferred the call to a detective, to the
9 Detective Division, at the Manitowoc County
10 Sheriff's Department. That's the extent of my
11 testimony.

12 Q. That's it? That's your connection to Mr. Avery?

13 A. Yes, sir.

14 Q. Well, did that cause you enough embarrassment and
15 enough angst in which to set up Mr. Avery for a
16 charge of murder?

17 A. No.

18 Q. Did that deposition cause you such problems from
19 within your department that you obtained and
20 planted blood, so that it would be found and
21 Mr. Avery would be wrongfully accused of a
22 homicide case?

23 A. No, sir.

24 Q. Have you ever planted any evidence against
25 Mr. Avery?

1 A. That's ridiculous, no, I have not.

2 Q. Have you ever planted any evidence against
3 anybody in the course of your law enforcement
4 career?

5 A. I have to say that this is the first time my
6 integrity has ever been questioned and, no, I
7 have not.

8 ATTORNEY KRATZ: That's all I have for
9 Sergeant Colborn, Judge.

10 THE COURT: Mr. Strang.

11 **CROSS-EXAMINATION**

12 BY ATTORNEY STRANG:

13 Q. This is the first time your integrity has been
14 questioned?

15 A. As it applies to being a police officer, yes.

16 Q. Okay. And it's not the first time Mr. Avery's
17 has been, so I have some questions for you. You
18 were, in November of 2005, in the Road Patrol
19 Division of the Manitowoc County Sheriff's
20 Department?

21 A. Yes, sir.

22 Q. You were a sergeant in that division?

23 A. Yes, sir.

24 Q. Were there other sergeants in that division?

25 A. Yes, sir.

1 Q. How many?

2 A. There's one lieutenant and two sergeants assigned
3 per shift; there's three shifts. We're looking
4 at six sergeants, three lieutenants.

5 Q. Your shift particularly was noon to 8:00 p.m.?

6 A. Yes, sir.

7 Q. That made you the assistant shift commander as
8 opposed to the other sergeant?

9 A. Yes, sir.

10 Q. And the shift commander, himself, when the
11 lieutenant had a day off?

12 A. Yes, sir.

13 Q. The Road Patrol Division does exactly that, it
14 patrols the roads of Manitowoc County?

15 A. Yes, sir.

16 Q. Typically in marked squad cars?

17 A. Yes, sir.

18 Q. Speeding and other traffic law enforcement?

19 A. Yes, sir.

20 Q. Calls for help from citizens, a variety of calls?

21 A. Yes, sir.

22 Q. You might be the first to respond to a domestic
23 violence call, let's say?

24 A. Yes, sir.

25 Q. You might respond to a flat tire on the side of

1 the road?

2 A. Yes, sir.

3 Q. This division, during the noon to 8:00 shift,
4 back in, let's say, November, 2005, had
5 approximately how many officers out on the road
6 during that noon to 8:00 shift?

7 A. Well, I believe that par -- four or five officers
8 counting the shift commander.

9 Q. Roughly?

10 A. Yes, sir.

11 Q. I understand. And the shift commander had some
12 administrative duties, but also had some road
13 patrol duties?

14 A. Yes, sir.

15 Q. Collection of evidence was not typically a duty
16 of the Road Patrol Division?

17 A. Yes, it is.

18 Q. That is, some members of the Road Patrol Division
19 may be trained in the collection of evidence,
20 correct?

21 A. Correct.

22 Q. Just as some members of the other divisions of
23 the Manitowoc County Sheriff's Department may
24 have special training as evidence technicians or
25 in evidence collection?

1 A. Correct.

2 Q. The Sheriff's Department includes as one of its
3 divisions, or bureaus, units, if you will, an
4 Investigative Unit?

5 A. Yes, sir. To make it easier, both patrol and
6 investigations are assigned to the Operations
7 Division of the Manitowoc County Sheriff's
8 Department.

9 Q. Very well. Thank you. But they are separate
10 units within the operations division?

11 A. Yes, sir.

12 Q. You had been trained in evidence collection as a
13 technician?

14 A. Yes, sir.

15 Q. That went back to, I think, 1997?

16 A. Yes, sir.

17 Q. That was something for which you volunteered?

18 A. Yes.

19 Q. You were accepted or someone accepted your offer
20 and you got some special training?

21 A. Yes, sir.

22 Q. One of the people from whom you got that special
23 training is seated right over there, second to my
24 right in the back, true?

25 A. Evidence tech training?

1 Q. Yes.

2 A. No, sir.

3 Q. Didn't get that kind of training from Special
4 Agent Fassbender?

5 A. No, I did not.

6 Q. What training did you get from Special Agent
7 Fassbender? I'm talking about well before
8 November, 2005 now.

9 A. Special Agent Fassbender was my DAT, which is
10 defense and arrest tactics, instructor during the
11 recruit academy at Fox Valley Tech.

12 Q. All right. Having nothing directly to do with
13 evidence collection?

14 A. That's correct, sir.

15 Q. But you went through a recruit academy?

16 A. Yes, sir.

17 Q. As do all police recruits or candidate officers?

18 A. Yes, sir.

19 Q. How long did that academy last?

20 A. It was 400 hours when I went through the academy.
21 Ten weeks, roughly.

22 Q. Roughly 10 weeks full-time?

23 A. Yes, sir.

24 Q. All right. We'll come back to that a little bit
25 later in a different context. Did you have any

1 training as an evidence technician from
2 Lieutenant James Lenk?

3 A. Yes.

4 Q. He, you know, to be a lieutenant in charge of the
5 Detective Unit within the Operations Division?

6 A. Yes, sir.

7 Q. Are there more than one lieutenant in the
8 Detective Unit?

9 A. No, sir.

10 Q. So he's the chief detective, in fact, of
11 Manitowoc County?

12 A. Yes, sir.

13 Q. Within the Sheriff's Department. He was involved
14 in training you as an evidence technician?

15 A. I am not exactly sure how to answer that without
16 elaborating somewhat.

17 Q. Well, let's start with a yes or a no.

18 A. Yes, he has given me training material during the
19 course of my career.

20 Q. Okay. And has he given you anything more formal
21 than that; in other words, I'm going to let you
22 elaborate here, but we'll do this in a question
23 and answer format.

24 A. Lieutenant Lenk personally hasn't trained me on
25 any specific issue. We would have semi-annual,

1 or sometimes quarterly meetings, of all the
2 evidence techs, where Lieutenant Lenk might
3 present some new information or somebody who had
4 recently gone to training might present some new
5 information. But Lieutenant Lenk never took me
6 one-on-one and trained me in any sort of specific
7 application of being an evidence technician.

8 Q. But you have sort of in house, in service,
9 programs --

10 A. Yes, sir.

11 Q. -- if you will? Sharing information on new
12 techniques or new teaching?

13 A. Yes, sir.

14 Q. Sometimes that comes from Lieutenant Lenk?

15 A. Yes, sir.

16 Q. Other times he may simply be involved in
17 overseeing the meeting?

18 A. Yes, sir.

19 Q. You have known Lieutenant Lenk, personally, how
20 long?

21 A. Since 1996, so 10, 11 years.

22 Q. Was it '96 that you actually became a sworn
23 officer?

24 A. Yes, sir.

25 Q. And if I understood you, the period as a

1 corrections officer in the Manitowoc County Jail
2 was '92 to '94?

3 A. '92 to '96.

4 Q. I'm sorry, then I misunderstood you. You went
5 directly from the jail to the recruit academy and
6 then as a sworn officer?

7 A. Yes, sir.

8 Q. It was 1996, then, when you joined the department
9 as a sworn officer, that you met the man who is
10 now Lieutenant Lenk?

11 A. Yes, sir.

12 Q. He, at that time, was also in the road unit or
13 the Road Patrol Unit?

14 A. Yes, sir.

15 Q. You became friendly with Lieutenant Lenk?

16 A. Yes.

17 Q. Let's call him James Lenk and not worry about his
18 rank, at any given time, all right. Do you call
19 him Jim?

20 A. Yes, I do.

21 Q. You worked closely with him for several years?

22 A. Yes. I have worked with him several times, yes.

23 Q. He is one of the people on the department to whom
24 you feel personally close?

25 A. We don't do anything together socially, but I

1 feel he is an experienced officer and if I have a
2 investigative type question, I feel comfortable
3 talking with him about it.

4 Q. All right. And the time came in 2005 or 2006
5 when you decided that you aspired to some rank
6 higher than sergeant within the department, true?

7 A. I'm sorry, could you repeat.

8 Q. The time came in 2005, or perhaps in 2006, I
9 don't know when, but at some point, certainly
10 before the elections in 2006, you began to aspire
11 to a rank higher than sergeant in your
12 department?

13 A. Yes.

14 Q. You decided to run for sheriff?

15 A. That's correct.

16 Q. Of Manitowoc County?

17 A. That is correct.

18 Q. Another officer, within the department, at the
19 same time, also was running for sheriff in the
20 same 2006 election?

21 A. Yes.

22 Q. That created a situation in which two officers
23 from the same department were running against
24 each other?

25 A. Yes.

1 Q. There was some tension, at least, in that
2 situation?

3 A. Are you talking about in 2006, last summer?

4 Q. Well, whenever the campaign began to heat up.

5 A. I don't really think the campaign ever got
6 heated, but I didn't really feel any tension.

7 Q. Okay. But, one of the things you both were
8 interested in doing, and the other gentleman is a
9 man named Robert Hermann, correct?

10 A. Yes.

11 Q. The brother of Todd Hermann?

12 A. Yes.

13 Q. One of the things that you and Robert Hermann
14 both did was sort of see who would support you
15 and who might support the other fellow in the
16 race for sheriff?

17 A. No.

18 Q. Weren't interested who was on your side?

19 A. No, I wasn't.

20 Q. Do you know whether Lieutenant Lenk was on your
21 side?

22 A. I have no idea how Lieutenant Lenk voted during
23 the sheriff's campaign. I would hope that he
24 supported me, but it wouldn't change my feeling
25 one iota if he didn't.

1 Q. I understand that. But how long was it between
2 the time you declared your candidacy publicly and
3 the time of the election?

4 A. I thought we had to have our nomination papers
5 filed in May of 2006 and the election was in
6 November of 2006.

7 Q. Okay. So let's call it five, six months,
8 roughly. I'm just trying to get a rough time
9 frame here, okay. Lieutenant Lenk's working
10 hours, you know, to overlap in part with your
11 own, on the days you are both at work?

12 A. Yes.

13 Q. That is, he would typically work something like
14 an 8 to 5 kind of shift?

15 A. I'm not sure what his duty hours are, but
16 somewhere in that time frame.

17 Q. In other words, in the afternoon, you two would
18 be on duty at the same time?

19 A. Yes, sir.

20 Q. And in all that time, he never approached you and
21 gave you an attaboy, or told you he was in his
22 corner -- in your corner, or that he couldn't be,
23 nothing?

24 ATTORNEY KRATZ: Judge, I'm going to object
25 as irrelevant. Is this sometime after November of

1 2005?

2 ATTORNEY STRANG: It is.

3 ATTORNEY KRATZ: I can't see the relevance,
4 then, to what happened at the Avery salvage
5 property; I will interpose that objection then.

6 THE COURT: Mr. Strang.

7 ATTORNEY STRANG: Well, I'm happy to be
8 heard out of the presence, if the Court wishes that.

9 THE COURT: All right. I think what I will
10 do at this time is excuse the jury for a few
11 minutes.

12 ATTORNEY STRANG: We can excuse the witness
13 as well.

14 THE COURT: Mr. Colborn, you are excused as
15 well.

16 (Jury not present.)

17 (Witness not present.)

18 THE COURT: Mr. Strang.

19 ATTORNEY STRANG: This isn't a long line of
20 inquiry, your Honor, but clearly this is relevant to
21 Sergeant Colborn's bias or potential for bias here.
22 Lieutenant Lenk was his partner through several days
23 of searching. Consistently, as the testimony has
24 shown, they were paired together, usually with
25 Detective Remiker as well.

1 Together they were deposed, within 48
2 hours, in Steven Avery's lawsuit. I expect to
3 elicit testimony that they discussed their
4 depositions. Now, together, it is the two of
5 them who, in Sergeant Colborn's words, had their
6 integrity questioned.

7 Whether these two stood together and had
8 each other's back during a race for a higher
9 office that well could have been affected by the
10 lawsuit that Steven Avery had filed, by further
11 developments in that lawsuit, I think is directly
12 relevant to this witness' credibility and bias.

13 THE COURT: Mr. Kratz.

14 ATTORNEY KRATZ: We're talking about two
15 different things, Judge. Testimonial bias, which
16 would be today, and is this witness prepared to
17 shade his testimony to the benefit that perhaps of
18 Lieutenant Lenk or somebody like that, Mr. Strang's
19 area of inquiry is appropriate, if in fact the Court
20 finds that to be relevant.

21 However, what Mr. Strang is really
22 talking about is having each other's back, or
23 motive, or being in partnership, for lack of a
24 better term, in planting evidence or being
25 involved in criminal behavior and activity. Then

1 that only becomes relevant if they had this
2 connection, if they had this friendship or this
3 bond, before November of 2005.

4 So, if that is in fact the dual purpose
5 of this, then I would ask Mr. Strang to confine
6 his bias inquiry, at least as it regards
7 Lieutenant Lenk and the election, and to that
8 which might affect his testimony today; it would
9 have no relevance as to what occurred in November
10 of 2005.

11 THE COURT: How do you propose that that be
12 conveyed to the jury, what the purpose of his
13 questioning is?

14 ATTORNEY KRATZ: Well, as asked, then,
15 Judge, it is -- it is irrelevant and should be
16 inadmissible. If we direct it more towards
17 testimonial, that is, if he wants to get into, would
18 you do something to help your buddy, Jim Lenk,
19 today, in testifying, I think that's -- that that's
20 appropriate, but that should be made clear.

21 And if we're getting into more than
22 that, that is, as Mr. Strang, using his words, I
23 have your back, if we're talking about back in
24 November of 2005, their previous friendship may,
25 in fact, be relevant and all those kind of

1 things, but not what happened in the 2006
2 election.

3 ATTORNEY STRANG: Let's bring us back to
4 the actual line of questioning, because I don't know
5 that we need to slice the salami that thin. What
6 I'm doing now is simply following up on and
7 exploring his claim that he has no idea whether Jim
8 Lenk supported him or not for sheriff. He hopes he
9 did, but if Mr. Lenk did not vote for him, it
10 wouldn't affect, by one iota, his view of Mr. Lenk.

11 And I'm following that up, since he's
12 already acknowledged that he thinks well of Mr.
13 Lenk and has worked with him and known him since
14 1996. I'm also going to ask him when it is that
15 becoming sheriff popped into his head, since
16 presumably that was some -- some day before the
17 day in May, 2006, when he had to file his
18 candidacy papers. And that's really,
19 essentially, all the farther I'm going with this.

20 THE COURT: All right. It seems to me of
21 marginal probative value, but if you are telling me
22 you are almost done, I will let you ask a few more
23 questions and then move on. All right. We can
24 bring the jurors back. And then if the
25 Victim/Witness Coordinator is here, she can bring

1 Mr. Colborn in.

2 (Jury present.)

3 THE COURT: You may be seated. And
4 Mr. Strang, you may resume your questioning.

5 ATTORNEY STRANG: Thank you.

6 Q. (By Attorney Strang)~ So the question was,
7 Sergeant Colborn, in the months leading up to
8 this election, are you telling this jury that
9 there wasn't any time when Lieutenant Lenk
10 approached you and told you either that he was in
11 your corner or couldn't support you, for sure?

12 A. No, I'm not saying that.

13 Q. Well, what did he tell you about whether he was
14 supporting you?

15 A. We did not have -- I tried my hardest not to have
16 any discussions about the election at work
17 because I didn't want it to distract from work.
18 Privately, Lieutenant Lenk gave me every
19 indication that he was supporting me.

20 Q. Privately, you took him to be in your corner?

21 A. Yes.

22 Q. You may want to get just a little bit closer to
23 the mike, the mike is sort of touchy. When was
24 it that you began to think seriously about
25 running for sheriff, yourself?

1 A. January or February of 2006.

2 Q. Had the idea occurred to you back in 2005?

3 A. I can't recall, specifically. I may have thought
4 about it, but ...

5 Q. But at least by January or February, 2006, you
6 had a building sense that, maybe I could do the
7 top job in this department?

8 A. Yes, sir.

9 Q. Maybe I could do some things a little bit
10 differently than I see them being done?

11 A. Yes, sir.

12 Q. Maybe I could bring something important to the
13 job of sheriff and serve the citizens of
14 Manitowoc County?

15 A. Yes, sir.

16 Q. By May that idea had become strong enough to
17 cause you to go through all the steps necessary
18 to declare a candidacy?

19 A. Yes, sir.

20 Q. You had not run for an elected office before?

21 A. Actually, yes, I had.

22 Q. Okay. At a countywide level?

23 A. Yes.

24 Q. All right. So at least that process you were
25 familiar with and willing to undergo again?

1 A. Yes.

2 Q. Knocking on doors, speaking at Lion's Club
3 dinners, that kind of thing?

4 A. Yes, sir.

5 Q. Now, it was, I think, October 13, 2005, in
6 specific, in which your deposition was taken in
7 Mr. Avery's lawsuit?

8 A. Yes, sir.

9 Q. Was this the first time you had ever had your
10 deposition taken?

11 A. Yes, sir.

12 Q. New experience for you?

13 A. Yes.

14 Q. You were not so much asked to attend a deposition
15 as you were the recipient of a subpoena to do so?

16 A. I believe so, yes, sir.

17 Q. That deposition process involved being sworn,
18 same oath you took today, essentially?

19 A. Yes, sir.

20 Q. But in a conference room or library of a lawyer's
21 office?

22 A. Yes, sir.

23 Q. You were questioned by Mr. Avery's lawyers at
24 that deposition?

25 A. Yes, sir.

1 Q. You sat across the table from Mr. Avery, himself,
2 that day, October 13, 2005?

3 A. I know Mr. Avery was in the room, I don't -- no,
4 it wasn't like I was directly across from him.

5 Q. No.

6 A. He was down at the end of the table.

7 Q. Yeah, and I didn't mean directly across, but the
8 two of you shared this conference room and the
9 table?

10 A. Yes, sir.

11 Q. Along with other people?

12 A. Yes, sir.

13 Q. Court reporter?

14 A. Yes, sir.

15 Q. Various lawyers?

16 A. Yes, sir.

17 Q. Some of the questions concerned a telephone call
18 that you had taken?

19 A. Yes.

20 Q. You understood the call, which today you can
21 place only as 1994 or 1995?

22 A. That's correct, sir.

23 Q. You understood the call to be coming from someone
24 who was a detective?

25 A. Yes, sir.

1 Q. Detective with a law enforcement agency?

2 A. Yes.

3 Q. In an adjoining or nearby county?

4 A. I believe so, yes, sir.

5 Q. You don't remember the details today?

6 A. No, I don't, sir.

7 Q. And, indeed, on October 13, 2005, you didn't

8 remember many of the details either?

9 A. No, sir.

10 Q. But the gist of it was, we have got somebody here

11 in custody who we think maybe did an assault in

12 Manitowoc County, that was part of it?

13 A. Yes, sir.

14 Q. And we further think that you may have someone in

15 jail for the assault?

16 A. That was the gist of the phone conversation, yes.

17 Q. Right. And I understand you don't remember the

18 exact words, but that was the gist?

19 A. Yes, sir.

20 Q. Now, as a corrections officer in the jail, this

21 was not directly your responsibility?

22 A. No, sir.

23 Q. You passed, or tried to pass the call, to the

24 Detective Unit?

25 A. Yes, sir.

1 Q. But you understood that you were being told, by a
2 law enforcement officer, that Manitowoc County
3 may have someone locked up, who didn't commit the
4 crime for which he was imprisoned; that much you
5 understood?

6 A. Yes, sir.

7 Q. Was that a matter to shrug off for you?

8 A. I didn't shrug it off, sir. I did what the
9 caller asked me to do, connect him to a
10 detective.

11 Q. I think, actually, you suggested that perhaps the
12 caller should talk to a detective?

13 A. No, he specifically asked for a detective.

14 Q. How he happened to call the jail and get to you,
15 you have no idea?

16 A. No, I don't, sir.

17 Q. Lieutenant Lenk, you were aware, also was
18 deposed, had his deposition taken, in this same
19 lawsuit?

20 A. Yes, sir.

21 Q. This was a federal lawsuit?

22 A. I don't even know enough about it to know whose
23 jurisdiction it was.

24 Q. Okay.

25 A. I know there was a lawsuit.

1 Q. All right. Do you know if it was down in
2 Milwaukee?

3 A. The deposition? My deposition?

4 Q. Or the lawsuit, either one?

5 A. My deposition was in the City of Manitowoc. I
6 don't know where the lawsuit -- I don't know.

7 Q. Fair enough. But you did -- you did have an
8 opportunity to talk to Lieutenant Lenk about the
9 fact that he, too, was having his deposition
10 taken?

11 A. I don't recall discussing the deposition portion
12 of it with Lieutenant Lenk.

13 Q. What did you discuss, about the civil lawsuit,
14 with Lieutenant Lenk?

15 THE COURT: Excuse me, Counsel, are you
16 referring to some time before the deposition or
17 after?

18 Q. I'm referring to the time immediately before the
19 deposition, after you would have gotten your
20 subpoena.

21 A. Okay. Yes, I knew that Lieutenant Lenk had a
22 subpoena for the same deposition that I did, yes.

23 Q. Okay. And I'm not interested in the content of
24 your conversation, which probably would be
25 hearsay, but the two of you established that one

1 another had subpoenas for depositions in that
2 lawsuit?

3 A. Yes, sir.

4 Q. And, again, without going into the content,
5 aft -- shortly after your depositions were taken,
6 the two of you talked about the fact that your
7 depositions had been taken?

8 A. Not really, not beyond the fact of, you know, did
9 you go on the day that you were supposed to, yes,
10 and that was pretty much it.

11 Q. Okay. Fair enough. Did you have any concern
12 that you would be added as a defendant in that
13 lawsuit?

14 A. I don't know if concern is the correct word, I
15 know I expressed that I didn't have any knowledge
16 of that case. I wasn't a Manitowoc County
17 resident at that time.

18 Q. My question, though, was whether you had concern,
19 the thought crossed your mind, that you might be
20 added as a defendant in that civil lawsuit?

21 A. Yes, the thought crossed my mind that I might be
22 added as the defendant.

23 Q. You had never been the defendant in a lawsuit
24 before?

25 A. Not that I recall, no.

1 Q. Do you think you would recall?

2 A. I would think, but ...

3 Q. This isn't something you were relishing?

4 A. No.

5 Q. How do you think having been a defendant in
6 Mr. Avery's lawsuit, for his wrongful conviction,
7 would have affected your prospects in the race
8 for sheriff?

9 ATTORNEY KRATZ: Objection, speculation.

10 Q. (By Attorney Strang)~ Did you consider that?

11 THE COURT: Just a second. I'm going to
12 sustain the objection.

13 Q. (By Attorney Strang)~ Did you consider the
14 prospect of an effect on your race for sheriff,
15 if you were added to that lawsuit?

16 A. No, I didn't, sir.

17 Q. I would like to shift off the lawsuit and talk to
18 you about reports, police reports, for a little
19 bit. And I promised you we were going to get
20 back to the recruit academy, and we will.

21 Reports are something that police
22 officers, and by that I mean broadly; sheriff's
23 deputies, municipal police officers, special
24 agents of the Division of Criminal Investigation,
25 just law enforcement officers generally. All

1 right. Reports are something that is common to
2 the work of policemen?

3 A. Is that a question?

4 Q. It is.

5 A. Yes, reports are common to policing.

6 Q. That is one of the things you learned to do in
7 the recruit academy, was to prepare a report?

8 A. That's correct, sir.

9 Q. It is a regular routine, in policing, to prepare
10 reports of your activities, as they bear on a
11 criminal investigation?

12 A. Yes, sir.

13 Q. You were taught in the academy the basics of how
14 to prepare such a report?

15 A. Yes, sir.

16 Q. Reports have several purposes, I guess, one would
17 be to assure accurate collection of facts; that
18 would be one purpose of a police report?

19 A. Yes, sir.

20 Q. Another purpose would be to set down, on paper,
21 your memories before they begin to fade?

22 A. Yes, sir.

23 Q. A third purpose would be to allow others in the
24 department to benefit from knowing what facts you
25 had learned or steps you had taken in an

1 investigation?

2 A. That I don't -- that I don't know. Sometimes
3 reports are confidential and no other officers
4 view them.

5 Q. Sometimes, but let expands on that. In any sort
6 of a larger jurisdiction, let's use Manitowoc
7 County, the sheriff's department, policing is a
8 24 hour a day business?

9 A. Yes, sir.

10 Q. 365 days a year?

11 A. Yes, sir.

12 Q. That is, there may be very small towns that have
13 only a part-time police officer, constable,
14 police department, correct?

15 A. Yes, sir.

16 Q. But with the Manitowoc County Sheriff's
17 Department, it's around the clock, 24/7, 365 days
18 a year?

19 A. Yes, sir.

20 Q. Obviously, no single officer can work 24 hours,
21 seven days a week, so you divide the day into
22 shifts.

23 A. That's correct, sir.

24 Q. A criminal investigation that happens to begin on
25 one shift, may be carried over on another?

1 A. Yes, that's possible.

2 Q. Officers who actually don't work the same shift,
3 may be working on the same investigation?

4 A. Yes, sir.

5 Q. Witnesses may have to be interviewed and their
6 working hours may require officers who work on
7 the late shift, or the overnight shift, to
8 conduct the interviews?

9 A. Correct.

10 Q. So by preparing reports, officers on one shift
11 can share their information with officers on the
12 other shifts?

13 A. Absolutely.

14 Q. And in this sense, there is a collective benefit
15 that allows the department to continue its
16 criminal investigative duties, around the clock?

17 A. Yes, sir.

18 Q. Yet another purpose of police reports is to
19 report upward, to supervisors, what it is you are
20 doing?

21 A. Yes, sir.

22 Q. Reports typically are reviewed by supervisors?

23 A. Yes, they are.

24 Q. For accuracy?

25 A. Yes.

1 Q. For thoroughness?

2 A. Yes.

3 Q. For completeness?

4 A. Yes.

5 Q. Preparing reports is something that a thorough
6 police officer does?

7 A. Yes.

8 Q. Preparing reports is something that a police
9 officer should do in a timely fashion, true?

10 A. Yes.

11 Q. Because, again, one of the first purposes is to
12 get the facts down on paper accurately while they
13 are fresh in your mind?

14 A. Yes, sir.

15 Q. And preparing reports in a timely and thorough
16 way is something that a fair police officer does,
17 isn't it?

18 A. I would imagine, yes, sir.

19 Q. That is, you want the report to be objective?

20 A. Yes.

21 Q. Accurate in the sense of fair and factually
22 correct?

23 A. Yes.

24 Q. Not tilted or biased in any fashion?

25 A. Correct.

1 Q. The idea is to lay out the facts and see where
2 they lead?

3 A. Yes, sir.

4 Q. You prepare reports, then, and as they go up the
5 stream, for a supervisors review, the supervisor
6 typically will sign off or indicate approval in
7 some fashion?

8 A. Yes, sir.

9 Q. Or may send the report back for further work?

10 A. Yes, sir.

11 Q. You are a supervisor, yourself, in the Road
12 Patrol Unit?

13 A. Yes, sir.

14 Q. You fill this function. That's one of your
15 administrative duties, is to review reports
16 prepared by deputies under you, in the Road
17 Patrol Unit?

18 A. Yes, sir.

19 Q. You encourage them to file timely reports?

20 A. Yes.

21 Q. Thorough reports?

22 A. Yes.

23 Q. And fair reports?

24 A. Yes, sir.

25 Q. The reports, you know, after now 10, going on 11

1 years as a sworn law enforcement officer, then
2 sometimes will go further, to a prosecutor?

3 A. Yes, sir.

4 Q. Prosecutors rely on those police reports in
5 making charging decisions?

6 A. Yes, sir.

7 Q. If they elect to charge a case, you know as well,
8 in your criminal justice system, that the
9 reports, then, go to the defense, once a case has
10 been charged in court?

11 A. Yes, sir.

12 Q. The defense lawyers then rely on the thoroughness
13 of those reports?

14 A. Yes, sir.

15 Q. The accuracy of those reports?

16 A. Yes, sir.

17 Q. The timeliness of those reports?

18 A. Yes, sir.

19 Q. And at a very practical level, if later, you, as
20 the officer involved in some activity, have
21 forgotten exactly what happened, you can turn
22 back to your report?

23 A. Yes.

24 Q. Use it to refresh your recollection?

25 A. Yes, sir.

1 Q. Sometimes use the report of other officers to
2 refresh your recollection?

3 A. Yes, sir.

4 Q. Which, again, is you relying on the accuracy and
5 the thoroughness and the timeliness of reports by
6 other officers?

7 A. Yes, sir.

8 Q. And if you were to change your explanation of
9 what happened, either the prosecution or the
10 defense might use the report to show that you had
11 said something different in the report?

12 A. Yes, sir.

13 Q. If you don't prepare a report, then you haven't
14 committed anything to paper, correct?

15 A. Correct.

16 Q. And someone who doesn't commit anything to paper,
17 then, can't be pinned down on the details as
18 would someone who had put the details on paper?

19 A. Okay. I mean, that makes sense.

20 Q. Makes sense to you?

21 A. Mm-hmm.

22 Q. Now, let's go to this investigation, the
23 activities concerning this investigation, are you
24 with me?

25 A. Yes, sir.

1 Q. November 3, 2005, when you learned from
2 Mr. Wiegert that Teresa Halbach was missing, was
3 just about exactly, to the day, three weeks after
4 your deposition in Steven Avery's lawsuit?

5 A. Yes, sir.

6 Q. You were the shift commander that day, as we have
7 established?

8 A. Yes, sir.

9 Q. You learned about Ms Halbach being missing at
10 about what time?

11 A. Somewhere between 6:30 and 7:30.

12 Q. You were scheduled to get off shift at eight?

13 A. Yes, sir.

14 Q. Nearing the end of your day?

15 A. Yes, sir.

16 Q. As shift commander, you could have assigned
17 anyone in road patrol to go out to the address on
18 Avery Road?

19 A. Yes.

20 Q. You chose to do it yourself?

21 A. Yes.

22 Q. Did you go alone?

23 A. Yes, I did.

24 Q. At that time, all you knew is that this address
25 on Avery Road was one of the appointments that Ms

1 Halbach evidently had the day she was last seen
2 by family or friends?

3 A. Yes, sir.

4 Q. You happened to meet Steve Avery -- or not meet
5 him for the first time, but run into him, so to
6 speak, when you went out there that evening?

7 A. Yes, sir.

8 Q. You talked with him?

9 A. Yes, I did.

10 Q. He was very cordial?

11 A. Yes, he was.

12 Q. And as you followed through, you saw events
13 unfold, eventually it was Steven Avery who was
14 charged with killing Teresa Halbach?

15 A. Yes, sir.

16 Q. That came a week, roughly, after your first
17 conversation with him on Thursday, November 3rd?

18 A. Yes, sir.

19 Q. Mr. Avery then was charged with the most serious
20 crime someone can commit in this state?

21 A. Yes, sir.

22 Q. When, sir, did you first make a written report of
23 anything having to do with the November 3, 2005,
24 meeting with Mr. Avery?

25 A. June of '06 I believe.

1 Q. Does June 29, 2006 sound correct?

2 A. Yes.

3 Q. A few days short of the 4th of July?

4 A. Yes, sir.

5 Q. Not quite 8 months after the conversation with
6 Mr. Avery?

7 A. Yes, sir.

8 Q. Was that a timely report?

9 A. I wasn't even aware that Manitowoc County had our
10 own report. I didn't find out about it till
11 then.

12 Q. You were aware that Manitowoc County sheriff's
13 deputies had played a substantial role at the
14 Avery property for a week, from November 5 to
15 November 12?

16 A. Yes.

17 Q. You saw literally dozens of fellow officers from
18 the Manitowoc County Sheriff's Department during
19 that week?

20 A. Yes.

21 Q. And your testimony today is you aren't aware that
22 any of them ever wrote any report?

23 A. No, I wasn't. I knew Calumet County Sheriff's
24 Department was handling the report portion of it.

25 Q. And somebody finally suggested to you, in June,

1 more than 7 months later, that maybe you ought to
2 write a report about that first interview with
3 Steven Avery?

4 A. They informed me that there was indeed a report
5 and that I should make an entry on it, yes.

6 Q. You made an entry on it?

7 A. Yes, I did.

8 Q. And that entry was all of about a page?

9 A. I guess it was a few paragraphs; I don't know how
10 many.

11 Q. Did you happen to notice when you were with
12 Mr. Avery on November 3, a big, fresh gash or cut
13 on his right middle finger?

14 A. No, I did not notice that.

15 Q. Didn't notice him bleeding?

16 A. No, sir, I didn't.

17 Q. Or notice anything that looked like it had been
18 recently bleeding or recently a fresh, open cut?

19 A. No, sir, I didn't notice any injury.

20 Q. That's why there is no mention of such an injury
21 in your report, true?

22 A. Correct.

23 ATTORNEY STRANG: What time does the Court
24 wish to take the afternoon break, for my purposes,
25 your Honor?

1 THE COURT: We'll go another 10 minutes.

2 ATTORNEY STRANG: Thank you.

3 Q. (By Attorney Strang)~ Now, did I understand you
4 correctly, in your testimony earlier today,
5 Sergeant Colborn, that today you remember what it
6 is you were doing on your day off, Friday,
7 November 4, 2005, the day after you first talked
8 to Steven Avery?

9 A. Yes.

10 Q. We were talking about timely and thorough and
11 accurate reports before. And I wonder if you
12 recall, oh, a little over a month ago, not quite
13 six weeks ago, in fact, January 11, 2007, being
14 interviewed by Investigator Steier of the Calumet
15 County Sheriff's Department; do you remember
16 that?

17 A. Yes.

18 Q. And you knew that Investigator Steier was
19 interviewing you in connection with this case?

20 A. Yes.

21 Q. You know, as a law enforcement officer, that it's
22 important, if one speaks to another -- to a
23 police officer, to give accurate information to
24 the officer?

25 A. Yes, sir.

1 Q. You know, in fact, that it's a crime in the state
2 of Wisconsin, intentionally to give false
3 information to a police officer?

4 A. Yes, sir.

5 Q. And on January 11, 2007, you recall Investigator
6 Steier asking you if you could recall what you
7 had done on Friday, November 4, 2005, your day
8 off; do you recall him asking you that?

9 A. Yes.

10 Q. And what you told him was, that you could not
11 recall what you had done on your off day; that's
12 what you told Investigator Steier?

13 A. Yes, at that precise second that he asked me, I
14 could not recall everything that I had done on
15 that day.

16 Q. You recalled later?

17 A. Yes.

18 Q. And when, sir, when did you call up Investigator
19 Steier and say, I'm sorry, I was wrong, I now
20 remember what I did on my day off, Friday,
21 November 4, 2005?

22 A. I didn't call Investigator Steier.

23 Q. One of the things the road patrol officers, under
24 your supervision, frequently do, is look for cars
25 that appear out of place?

1 A. Yes, sir.

2 Q. Or if they made a traffic stop, they will inquire
3 about the license plate or the registration
4 plates on an automobile?

5 A. Yes, sir.

6 Q. And they will call into dispatch and give the
7 dispatcher the license plate number of a car they
8 have stopped, or a car that looks out of place
9 for some reason, correct?

10 A. Yes, sir.

11 Q. And the dispatcher, very quickly these days, with
12 his or her computer screen, can get information
13 about who -- to whom a license plate is
14 registered?

15 A. Yes, sir.

16 Q. Also, the dispatcher can give you, right over the
17 phone or the radio, the information about what
18 car the license plate is registered to?

19 A. Yes, sir.

20 Q. This is useful so that you know who you may be
21 approaching, if there's a driver of the car
22 that's stopped?

23 A. Yes, sir.

24 Q. It's also useful to know whether the license
25 plate appears to be on the car for which it is

1 registered?

2 A. Yes, sir.

3 Q. If the car is abandoned or there's nobody in the
4 car, the registration tells you who the owner
5 presumably is?

6 A. Yes, sir.

7 Q. Are you the only Andy, to your knowledge, in the
8 Manitowoc County Sheriff's Department?

9 A. The only officer with the first name Andy?

10 Q. Yes.

11 A. No, I'm not.

12 Q. All right. I'm going to ask you to listen, if
13 you would, to a short phone call. And I will ask
14 you, first, if you are the Andy speaking. All
15 right?

16 A. Mm-hmm.

17 ATTORNEY KRATZ: Judge, before counsel does
18 this, could we have it identified as to the date and
19 time.

20 ATTORNEY STRANG: Absolutely, I will do the
21 best I can. In fact, I should mark it.

22 (Exhibit No. 212 marked for identification.)

23 ATTORNEY STRANG: This is a CD Rom that we
24 obtained from the -- or a copy of the CD Rom that we
25 obtained from the Manitowoc County Sheriff's

1 Department, Exhibit 212, counsel. Thank you.

2 For counsel's benefit this will be track
3 three. All I'm told by the sheriff's department
4 is that these are calls between November 3 and
5 November 12, 2005.

6 ATTORNEY KRATZ: Judge, we don't know
7 when -- what he is about to play them is within a 9
8 day period?

9 ATTORNEY STRANG: If the witness made the
10 call, I'm going to ask him when he made the call.

11 THE COURT: All right. Go ahead.

12 Manitowoc County Sheriff's Department.

13 This is Lynn.

14 Lynn.

15 Hi, Andy.

16 Can you run Sam William Henry 582. See
17 if it comes back to (Inaudible.)

18 Sam William Henry 582.

19 ATTORNEY STRANG: Let me just stop it right
20 there. In fact, I'm going to go back, because it
21 was so soft at the beginning.

22 Manitowoc County Sheriff's Department.

23 This is Lynn.

24 Lynn.

25 Hi Andy.

1 Can you run --

2 Q. (By Attorney Strang)~ Is that you?

3 A. It sounds like me. I believe it's me.

4 Q. Okay. I'll --

5 Sam William Henry 582. See if it comes
6 back to (Inaudible.)

7 Lynn.

8 Hi Andy.

9 Can you run Sam William Henry 582. See
10 if it comes back to (Inaudible.)

11 Sam William Henry 582. I (Inaudible.)
12 All righty. You speak any Spanish there, Andy?
13 I just a call at the top of the list, is my on
14 call didn't call me back. If I want to get in
15 trouble, Andy, I get in trouble. You know, what
16 am I supposed to do?

17 Well --

18 My favorite one is in the city of
19 Manitowoc. Okay. Shows that she's a missing
20 person. And it lists to Teresa Halbach.

21 All set.

22 Okay. Is that what you're looking for,
23 Andy?

24 '99 Toyota.

25 Yup.

1 Okay. Thank you.

2 You're so welcome. Bye, bye.

3 Q. Okay. That's the entire call. Hangs up. That's
4 your voice?

5 A. Yes, I believe that's my voice. Yes.

6 Q. When did you make that phone call inquiring about
7 a license plate?

8 A. I don't know.

9 Q. Do you have any recollection of making that phone
10 call?

11 A. It would have had to have been 11/03/05 or -- I'm
12 guessing 11/03/05.

13 Q. Okay. But let's -- let's ask -- establish this
14 first, do you remember making the call?

15 A. Not really, no.

16 Q. What you're asking the dispatcher, whose name is
17 Lynn, is to run a plate that's Sam William Henry
18 582; did I hear that correctly?

19 A. Yes, sir.

20 Q. Sam William Henry is a phonetic code that law
21 enforcement officers use, because sometimes it's
22 hard to tell just a letter over radio?

23 A. Yes, sir.

24 Q. Sam William Henry would be SWH-582.

25 A. Yes.

1 Q. This license plate?

2 A. Yes, sir.

3 Q. I'm showing, for the benefit of the record, this
4 is either Exhibit 152 or 153?

5 THE CLERK: It's on the plate itself.

6 ATTORNEY STRANG: This one happens to be
7 153.

8 Q. (By Attorney Strang)~ And the dispatcher tells
9 you that the plate comes back to a missing person
10 or woman?

11 A. Yes, sir.

12 Q. Teresa Halbach. Mispronounces the last name, but
13 you recognize the name?

14 A. Yes, sir.

15 Q. And then you tell the dispatcher, Oh, '99 Toyota?

16 A. No, I thought she told me that.

17 Manitowoc County Sheriff's Department.

18 This is Lynn.

19 Lynn.

20 Hi Andy.

21 Can you run Sam William Henry 582, see
22 if it comes back to (Inaudible.)

23 Sam William Henry 582. I (Inaudible.)

24 All righty. Do you speak any Spanish there,

25 Andy? I just got a call that the top of my list,

1 is my on call didn't call me back. If I want to
2 get in trouble, Andy, I get in trouble. You
3 know, what am I supposed to do?

4 Well --

5 My favorite one is in the city of
6 Manitowoc. Okay. Shows that she's a missing
7 person. And it lists to Teresa Halbach.

8 All set.

9 Okay. That's what you're looking for,
10 Andy?

11 '99 Toyota?

12 Yup.

13 Okay. Thank you.

14 You are so welcome. Bye, bye.

15 Q. Actually you who suggests this is a '99 Toyota?

16 A. I asked if it was a '99 Toyota, yes.

17 Q. And the dispatcher confirmed that?

18 A. Yes.

19 Q. Were you looking at these plates when you called
20 them in?

21 A. No, sir.

22 Q. And your best guess is that you called them in on
23 November 3, 2005?

24 A. Yes, probably after I received a phone call from
25 Investigator Wiegert letting me know that there

1 was a missing person.

2 Q. Investigator Wiegert, did he give you the license
3 plate number for Teresa Halbach when he called
4 you?

5 A. I don't remember the entire content of our
6 conversation but, obviously, he must have because
7 I was asking the dispatcher to run the plate for
8 me.

9 Q. Did you not trust that Investigator Wiegert got
10 the number right?

11 A. I don't -- That's just the way I would have done
12 it. I don't -- It's not a trust or distrust
13 issue.

14 ATTORNEY STRANG: I'm about to move to a
15 different area, your Honor.

16 THE COURT: All right. We'll take our
17 afternoon break at this time. Members of the jury,
18 do not discuss the case during break. And we'll
19 resume in about 15 minutes.

20 (Jury not present.)

21 THE COURT: Counsel, you should report back
22 a little before 3:00.

23 ATTORNEY STRANG: Thank you.

24 (Recess taken.)

25 THE COURT: Mr. Strang, you may resume your

1 cross-examination.

2 CROSS-EXAMINATION CONTD

3 BY ATTORNEY STRANG:

4 Q. So as you sit here today, Sergeant Colborn, you
5 don't recall whether Investigator Wiegert gave
6 you Ms Halbach's telephone number when he called
7 you that Thursday evening?

8 A. He never asked me anything about a telephone
9 number.

10 Q. But you think he must have given you her license
11 plate number? Did I say telephone number?

12 A. Yes, you did.

13 Q. I'm sorry. I apologize. What I meant is, you
14 don't recall, as you sit here today, whether
15 Mr. Weigert gave you Teresa Halbach's license
16 plate number when he called you on November 3?

17 A. No, I just don't remember the exact content of
18 our conversation then.

19 Q. But --

20 A. He had to have given it to me, because I wouldn't
21 have had the number any other way.

22 Q. Well, and you can understand how someone
23 listening to that might think that you were
24 calling in a license plate that you were looking
25 at on the back end of a 1999 Toyota; from

1 listening to that tape, you can understand why
2 someone might think that, can't you?

3 ATTORNEY KRATZ: It's a conclusion, Judge.
4 He's conveying the problems to the jury.

5 THE COURT: I agree, the objection is
6 sustained.

7 Q. This call sounded like hundreds of other license
8 plate or registration checks you have done
9 through dispatch before?

10 A. Yes.

11 Q. But there's no way you should have been looking
12 at Teresa Halbach's license plate on November 3,
13 on the back end of a 1999 Toyota?

14 ATTORNEY KRATZ: Asked and answer, your
15 Honor, he already said he didn't and was not looking
16 at the license plate.

17 THE COURT: Sustained.

18 Q. (By Attorney Strang)~ There's no way you should
19 have been, is there?

20 A. I shouldn't have been and I was not looking at
21 the license plate.

22 Q. Because you are aware now that the first time
23 that Toyota was reported found was two days later
24 on November 5?

25 A. Yes, sir.

1 Q. You were aware that it was found, without its
2 license plates?

3 A. Yes, sir.

4 Q. You are aware that the license plates weren't
5 reported found until November 8, 2005?

6 A. Yes, sir.

7 Q. Now, you spent a good bit of your time, your
8 working hours at least, between November 5 and
9 November 9, at the Avery salvage property.

10 A. Yes, sir.

11 Q. You were asked on direct examination if you
12 remembered when you first arrived on Saturday,
13 November 5, at that property; do you recall that?

14 A. Yes, sir.

15 Q. And if I heard you correctly, which you said is
16 you thought somewhere between 5 and 5:15?

17 A. That's what I thought, yes.

18 Q. Is that your recollection as you sit here now?

19 A. Yes.

20 Q. Okay. Now, that's a question that you have been
21 asked at a prior hearing in this case, correct?

22 A. Yes.

23 Q. Back on August 9, 2006, you testified at a
24 hearing?

25 A. Yes.

1 ATTORNEY STRANG: Page 42, counsel.

2 Q. (By Attorney Strang)~ And on August 9, 2006, you
3 were asked the following question and gave this
4 answer?

5 QUESTION: Okay. Now, moving onto
6 Saturday, November 5th, did you -- can you tell
7 me what time you arrived at the Avery property?

8 And your answer was:

9 ANSWER: Sometime between 6 and 6:30, in
10 the evening.

11 And I will show you the transcript. Is
12 that the question you were asked and the answer
13 you gave on August 9?

14 A. Yes, it is.

15 Q. Now, since then, you have had a chance to get
16 prepared to testify for this trial?

17 A. Yes, sir.

18 Q. One of the things you have had the benefit of
19 doing is sitting down with the gentleman to my
20 right, at the prosecution table?

21 A. Yes, sir.

22 Q. And they ran through some of the areas they
23 expected to cover with you in your testimony?

24 A. Yes, sir.

25 Q. You did not have the benefit of doing that on, or

1 shortly before, August 9, 2006?

2 A. Yes, I did. Actually, we did it on 6/29/06, the
3 date you previously mentioned.

4 Q. Okay. Five or six weeks earlier?

5 A. Yes, sir.

6 Q. Specifically, have you had a chance, though,
7 since August 9, to look at the log sheet for
8 November 5, 2005, at the Avery property?

9 A. I have not.

10 Q. How is it that your memory improved or changed
11 and that you now think it was between 5 and 5:15
12 that you arrived, not 6 or 6:30?

13 A. I -- I don't know. I did review my time cards
14 for that pay period and I saw what time I went on
15 duty, so I -- when I answered Mr. Kratz's
16 question, I didn't think it would have taken me
17 from 6 or 6:30 to get there.

18 Q. Okay. So it's not so much that you actually
19 remember now, it's just that you have spent some
20 time trying to reconstruct time from your house
21 and when you got the call and what your time
22 records show?

23 A. Yes.

24 Q. Okay. And we have got Exhibit 142 in evidence
25 and I would say today you did pretty well. I

1 will show you Exhibit 142. I have got it open to
2 the page where I think you will find yourself
3 signing in; is that right?

4 A. Yes, sir.

5 Q. 5:12 p.m.?

6 A. Yes, sir.

7 Q. That would be the sign in out by the Command
8 Post, true?

9 A. I don't know. I -- I have never seen this form
10 before today. That's what it looks like.

11 Q. Well, the question really is, where do you
12 remember logging in?

13 A. I thought we logged in out by Avery Road and 147,
14 but if you say it's by the Command Post, that
15 could be.

16 Q. No, no, no, I wasn't there. Avery Road and 147,
17 in other words, even farther out from the Command
18 Post?

19 A. Yes, sir.

20 Q. To get anywhere near the property you had to log
21 in?

22 A. Yes, sir.

23 Q. All right. 5:12 p.m. you log in?

24 A. Yes, sir.

25 Q. Do you recall, now, whether Lieutenant James Lenk

1 was there when you arrived, on November 5?

2 A. I don't know if he was there or came later. I
3 don't know.

4 Q. Okay. And you do know that you logged out with
5 him and with Detective Remiker that evening; do
6 you recall that?

7 A. Yes, sir.

8 Q. And, indeed, we can see that if you flip forward
9 a couple three pages, can you find where you have
10 logged out, on Exhibit 142?

11 A. Yes, sir.

12 Q. The three of you, Lenk, Colborn, Remiker log out
13 another 10:41 p.m.?

14 A. Yes, sir.

15 Q. Now, you were, as I say, spending most of your
16 working hours out there, somewhere on the Avery
17 property, from November 5 through at least
18 November 9?

19 A. Yes, sir.

20 Q. You -- As you told us already, you went into
21 Steven Avery's trailer a number of different
22 times during those several days?

23 A. Yes, sir.

24 Q. You said on direct examination that, you know, at
25 least initially, you still viewed this as a

1 missing persons case?

2 A. Yes, sir.

3 Q. You also knew that by the time you entered
4 Mr. Avery's trailer at 7:30 on Saturday,
5 November 5, you were doing so with a search
6 warrant?

7 A. Yes.

8 Q. A search warrant in which a fellow law
9 enforcement officer had sworn that you were
10 looking for evidence of murder, among other
11 things?

12 A. I didn't know what the content of the search
13 warrant was or how they obtained it.

14 Q. Search warrants, though, you do know, are used in
15 criminal investigations?

16 A. Yes, sir.

17 Q. Not in missing person investigations?

18 A. I can't really answer that. I could imagine the
19 Court would give a search warrant for a missing
20 person if we could prove probable cause that that
21 missing person was at a certain spot.

22 Q. Isn't a search warrant ordinarily used --

23 A. Yes, it is.

24 Q. -- when there is probable cause to believe you
25 will find evidence of a crime?

1 A. Yes, it is.

2 Q. All right. And you were looking for evidence of
3 a crime, beginning on the evening of November 5,
4 true?

5 A. Yes, sir.

6 Q. One of the things you do, as an evidence
7 technician, is you wear latex gloves, just like
8 those that Mr. Wiegert had on earlier, when you
9 searched someone's home, or garage, or whatever
10 it is?

11 A. Yes, sir.

12 Q. You wear those, everybody involved, every law
13 enforcement officer involved in the search wears
14 them?

15 A. Yes, sir.

16 Q. That way you can't leave your own fingerprints at
17 the scene or on evidence?

18 A. Yes, sir.

19 Q. And in theory, you shouldn't be leaving your own
20 DNA on the scene or on evidence?

21 A. Correct, sir.

22 Q. So you're in the house on November 5, November 6,
23 November 7, November 8, true?

24 A. Yes, sir.

25 Q. And, finally, on November 8, Mr. Kratz asked you,

1 were you doing a thorough search of the master
2 bedroom of Mr. Avery's trailer; do you remember
3 that?

4 A. Yes.

5 Q. Now, that thorough search, had you working on the
6 bookcase and on the desk?

7 A. Yes, sir.

8 Q. You described yourself as being, I think you said
9 none too gentle?

10 A. That's true.

11 Q. With the bookcase. And explained, I wasn't any
12 too gentle, as we were getting exasperated?

13 A. Yes, sir.

14 Q. What was exasperating you about the bookcase, or
15 that bedroom, on November 8, 2005?

16 A. The content of the material that we were
17 collecting.

18 Q. So you felt exasperated and that caused you to
19 take it out on the bookcase?

20 A. Didn't exactly take it out on the bookcase, it
21 just caused us to not be gentle in the handling
22 of the material.

23 Q. You were back in again on November 9, I don't
24 know that you covered that on direct, but you
25 actually were back into Mr. Avery's trailer,

1 briefly, on November 9, to look for a garage door
2 opener?

3 A. Yes, sir.

4 Q. That was also with Lieutenant Lenk, correct?

5 A. And a Calumet County deputy, yes, sir.

6 Q. Named Wendling, Deputy Wendling?

7 A. Yes, sir.

8 Q. From Calumet County? There was no time that you
9 went in Mr. Avery's home during November of 2005
10 when you were not also with Lieutenant Lenk?

11 A. Not that I recall.

12 Q. No time you went into Mr. Avery's garage when
13 Lieutenant Lenk was not also with you?

14 A. Not that I recall, no, sir.

15 Q. This case, you would describe as the largest
16 investigation in which you personally had
17 participated as a law enforcement officer?

18 A. Yes, sir.

19 Q. Some of the lengthiest searches, if we take
20 November 5 through November 9 as a whole, in
21 which you have participated?

22 A. Yes, sir.

23 Q. Led to very serious charges against Mr. Avery?

24 A. Yes, sir.

25 Q. You now know that the law enforcement agencies

1 involved, principally Calumet County Sheriff's
2 Department and the Division of Criminal
3 Investigation, have generated hundreds or
4 thousands of pages of police reports?

5 A. Yes, sir.

6 Q. Your total contribution to those reports, is
7 what, a little bit under half a page, as of
8 November 8, 2005?

9 A. That's correct, sir.

10 Q. And then about another page as of June 29, 2006?

11 A. Correct.

12 Q. The report that you filed on, or shortly after,
13 November 8, 2005, makes no mention of the Toyota
14 key?

15 A. That's correct, sir.

16 Q. Would you like to see it?

17 A. No, I believe you.

18 Q. In fact, the only thing you discuss in your
19 report is that on November 8, 2005, you were
20 using these cotton swabs, about which we have all
21 heard a lot, and distilled water, to collect some
22 blood spots in the bathroom and laundry room of
23 Mr. Avery's trailer?

24 A. Yes, sir.

25 Q. Were there things that you did not want to commit

1 to paper, in a report?

2 A. No, sir.

3 Q. And it all began, I guess, your involvement in
4 this investigation began, that Thursday night,
5 November 3, 2005?

6 A. Yes, sir.

7 Q. And that's the -- that's the report that we
8 established you wrote more than 7, nearly 8
9 months later?

10 A. Yes, sir.

11 Q. That is, it was almost 8 months after that
12 conversation with Steven Avery, the first
13 conversation with him in this investigation, that
14 you wrote down what you say he said to you, back
15 on November 3?

16 A. Yes, sir.

17 Q. Did you have any rough notes, note pad, anything
18 to work off when you wrote that report in the
19 heat of June, 2006?

20 A. No, I did not, sir.

21 Q. Well, about 8 months, but then, again, while
22 we're on Steven Avery and your reports about him,
23 that phone call, the phone call you took way back
24 in 1994 or 1995, when you were working in the
25 jail, the phone call where a detective from

1 another law enforcement agency told you you may
2 have the wrong guy in jail, that one?

3 A. Yes, sir.

4 Q. Did you ever write a report about that?

5 A. No, sir.

6 Q. Well, actually you did, didn't you? It was about
7 8 years later, wasn't it?

8 A. I wrote a statement on it, yes, sir.

9 Q. You wrote a statement after Sheriff Peterson
10 suggested that maybe you should?

11 A. Yes, sir.

12 Q. You wrote that statement in 2003, about the 1994
13 or 1995 telephone call?

14 A. Yes.

15 Q. You wrote that statement in 2003, the day after
16 Steven Avery finally walked out of prison, didn't
17 you?

18 A. I don't know what day Steve was released from
19 prison, but I wrote the statement in 2003.

20 Q. September 12, 2003 sound right?

21 A. I said, I don't know the date that I wrote the
22 statement, but I know it was in 2003.

23 Q. Well, I think I do know the date you wrote it and
24 I'm a happy to show it to you.

25 ATTORNEY STRANG: I will mark it for

1 identification.

2 (Exhibit No. 213 marked for identification.)

3 Q. (By Attorney Strang)~ What do you know as

4 Exhibit 213?

5 A. That's the statement I wrote after speaking with

6 Detect -- or Sheriff Peterson.

7 Q. What's the date of your statement?

8 A. September 12, 2003.

9 Q. Do you remember that now as the day after Steven

10 Avery finally walked out a free man?

11 A. Sir, I already said I didn't know what day he got

12 released.

13 ATTORNEY STRANG: That's all I have.

14 THE COURT: Mr. Kratz.

15 ATTORNEY KRATZ: I do have a issue outside

16 the presence of the jury, Judge. I ask that I be

17 able to be heard.

18 THE COURT: All right. At this time we'll

19 excuse the jurors for a few minutes.

20 (Jury not present.)

21 ATTORNEY KRATZ: I think the witness should

22 be excused as well.

23 THE COURT: All right. Mr. Colborn, you

24 may step outside. Mr. Kratz.

25 (Witness not present.)

1 ATTORNEY KRATZ: Thank you, Judge. As this
2 Court may know, this was a cross-examination which
3 was much anticipated. It was the subject of a great
4 deal of pre-trial litigation. It was the point in
5 the trial where the defense had represented to this
6 Court, in something that's called an offer of proof,
7 which is a lawyer's obligation, at least as this
8 Court presented it to the defense, to tell the Court
9 what the defense intended to show at trial.

10 When submitting the defense theory of
11 the case, in response to the State's motion to
12 exclude evidence of blood vial, of planting
13 evidence, the defense, in their offer of proof,
14 told this Court, promised this Court, that the
15 defense would -- with evidence, would show that
16 this witness, Mr. Colborn, or the next witness,
17 Mr. Lenk, somehow obtained a vial of blood from
18 the Clerk of Court's Office in Manitowoc County
19 and planted that evidence, or planted that blood
20 in Teresa Halbach's SUV.

21 Now, we have had heard Mr. Strang's
22 opening statement where planted evidence has been
23 eluded to. We have heard cross-examination of
24 other law enforcement witnesses, by Mr. Buting,
25 specifically, where he asked whether those

1 officers expected that their superiors would be
2 planting evidence in this case.

3 But now, when it would logically come up
4 in trial, now when evidence would logically be
5 presented, or when the very witness in the
6 defense offer of proof comes before this Court
7 and is able to be asked regarding sneaking into
8 the Clerk's Office, or stealing a vial of blood,
9 or planting evidence, we hear nothing.

10 And despite the contamination by the
11 defense throughout the entire jury selection
12 process, which this Court I think can take
13 judicial notice of, you heard all the questioning
14 about the vial of blood in the Clerk's Office in
15 jury selection, you heard the contamination in
16 press releases, you heard the contamination in
17 opening statements.

18 Now, for the first time, when evidence
19 should be placed into -- into the record, or at
20 least placed into this particular case, we hear
21 nothing. And so, Judge, I'm asking for
22 alternative direction, or rulings from the Court,
23 first, if the defense is abandoning their
24 planting evidence theory. The State needs to
25 know that and we need to know that now.

1 Because there shouldn't be any more --
2 any more questions of, are you friends with
3 Mr. Lenk, or any questions of any other witnesses
4 about a planting or about blood vials, if they
5 intend not to honor their offer of proof, if the
6 defense now intends not to, as they told this
7 Court in response to the State's motion to
8 exclude this very evidence, that they would prove
9 that evidence from the Clerk's Office, by way of
10 vial of blood would be brought into this case.

11 If they do, in fact, that is, if the
12 defense does in fact intend to abandon that
13 defense, then I will be asking for curative
14 instructions of this jury, at this time, that up
15 to this point in the trial they should disregard
16 Mr. Strang's opening statement, when he talked
17 about further evidence of planting evidence, of
18 any other witnesses that have been asked about
19 planting evidence, or any reference at all to
20 blood vial type evidence.

21 If, in fact, I'm mistaken, if I am
22 jumping the gun, if you will, if this is all
23 going to be Lieutenant Lenk now, rather than
24 Sergeant Colborn, then I am happy to be the first
25 one to stand corrected. But, if this defense is

1 going to be abandoned, before I redirect this
2 particular witness, the State is entitled to that
3 ruling and we're entitled to that information.

4 THE COURT: Mr. Strang.

5 ATTORNEY STRANG: I will stand on the
6 written materials we made, we tendered to the Court
7 and filed, with respect to a proffer of evidence and
8 reasonable inferences from evidence as to the blood
9 vial. I will stand on the transcript that our
10 capable court reporter has made of my opening
11 statement and simply note that, while he means no
12 inaccuracy and he is simply trying to give the Court
13 a summary, Mr. Kratz's description of our written
14 materials and my opening statement are not exactly
15 correct, and I will simply stand on them rather than
16 characterize them.

17 Second, just by the by, we haven't
18 gotten to the defense case-in-chief yet at all.
19 We're in the prosecution case-in-chief. So all
20 of this, at some level, would be wildly
21 premature. But, beyond that, to confront it most
22 directly, I'm idealistic. I'm certainly naive at
23 times. I am not so naive to think that someone
24 who may have planted blood evidence, who may have
25 been involved in planting a key, would come into

1 this courtroom, and simply, because asked under
2 oath, did you do it, say, oh, yes, I did it. We
3 are not going to have a *Perry Mason* moment here.

4 We will at some point have to establish
5 the existence of the blood vial in the Clerk's
6 Office and its state of being there so to speak.
7 And that could be done in the defense
8 case-in-chief; it could be done on
9 cross-examination in the State's case-in-chief,
10 if the opportunity should present itself with an
11 appropriate witness.

12 But I do not expect anyone, Lieutenant
13 Lenk, Sergeant Colborn, anyone else, to make an
14 admission, that you would see in the *Perry Mason*
15 show, on the witness stand. And the suggestion
16 that we should be held to getting one from such a
17 witness is preposterous. This jury will be
18 asked, in the end, by both sides, to rely on
19 reasonable inferences and common sense and on all
20 of the evidence.

21 So I don't think there's any relief to
22 be granted at the moment and there's no point in
23 discussing now what reasonable inferences may be
24 available at this point, since neither the jury
25 nor the parties know what the whole of the

1 evidence will be when the evidence is closed.

2 THE COURT: Mr. Kratz, anything else?

3 ATTORNEY KRATZ: Just -- I'm sure, Judge,
4 just one moment, if I could. I appreciate
5 Mr. Strang's response, Judge. And when Mr. Strang,
6 and I believe I wrote these words down correctly, we
7 will establish the blood vial in the Clerk's Office,
8 perhaps not through these witnesses; but it is, what
9 I have heard, that they are not abandoning that
10 defense.

11 That was my concern, because there's
12 nothing that requires Mr. Strang or Mr. Buting to
13 keep planting these little nuggets, if you will,
14 and then when the defense part comes, from them
15 saying, defense rests, or saying, now we have
16 abandoned it, when there is further contamination
17 of the jury.

18 That's our concern, Judge. We're able
19 to meet this defense and we intend to meet this
20 defense. But we have to do that in good faith
21 reliance, upon pre-trial rulings of this Court,
22 by pre-trial representations by the defense as to
23 where this trial is going, so that we don't
24 interrupt the flow of this case.

25 I don't want to object every time I hear

1 the word planting. I don't want to object every
2 time I hear the word, are you friends with
3 Lieutenant Lenk, or anything that might go down
4 that road. In fact, the defense intends to, as
5 their offer of proof, indicates to prove that up
6 at some point, or to embrace that as one of their
7 defenses.

8 And I know that's a clumsy term, and
9 with my apology to Mr. Strang, but I still
10 believe that we're entitled to know that. We're
11 entitled at some point, before there is further
12 contamination, if in fact this defense is going
13 to be abandoned at some point, the State is
14 entitled to know that. That was my point in
15 putting it on the record at this very moment,
16 before I proceed with my redirect examination.

17 THE COURT: I don't know that the defense
18 disagrees that if they should abandon that defense
19 that you would be entitled to some notice, but I
20 don't understand the defense to be saying that they
21 are abandoning that defense.

22 ATTORNEY STRANG: The Court is right on
23 both counts. And this is, you know, I would like to
24 know too whether the State is abandoning the false
25 imprisonment charge, but until we at least get to

1 the point where the State rests its case-in-chief,
2 that's all premature.

3 And I understand Mr. Kratz's concerns.
4 I don't know that if we were abandoning any
5 defense that I would have done the same
6 cross-examination, or for that matter, that
7 Mr. Colborn would have been called on direct at
8 all.

9 ATTORNEY KRATZ: What I would, just as a
10 final point, Judge, I would ask then, that before
11 the State rests, before the State concludes its part
12 of the case, that we be allowed a hearing, that we
13 be allowed an opportunity on an admissibility
14 hearing, or to meet what at least has been presented
15 to this point.

16 We have heard about vials of blood. We
17 have heard -- the jury has at least heard,
18 substantially during the voir dire process, about
19 a vial of blood in the Clerk's Office. We don't
20 have, obviously, any results from the FBI at this
21 particular point yet. But if and when we do get
22 those, I know that there is some disagreement as
23 to what's rebuttal evidence and can rebuttal, or
24 reply evidence, be put in even in the State's
25 case-in-chief.

1 Because if the defense, technically,
2 wouldn't call one single witness and the State
3 relied upon the defense representation that they
4 intended to put this in and the defense changed
5 their mind, we would be precluded from meeting
6 the challenges, or at least meeting the
7 assertions that have been made up to this point.

8 So, perhaps more by way of prediction
9 between now and the close of the State's case, we
10 will be asking for a hearing on this very issue.
11 I don't intend to have this conversation again.
12 Mr. Strang is right, we'll wait to see how the
13 case plays out.

14 But prior to the State being precluded
15 from meeting this defense, or at least from
16 presenting evidence relevant to this particular
17 topic, and before the State rests, we will be
18 asking for a more extensive opportunity to be
19 heard, even if it's just in writing, Judge. We
20 will submit something, but we will need some kind
21 of a ruling before the State does rest its case.

22 THE COURT: All right. If I'm reading your
23 comments correctly, you are not asking the Court to
24 do anything at this point in time, but you are
25 indicating that you may be asking for relief of some

1 kind at the close of the -- or before the close of
2 the State's case, pending whatever action the
3 defense takes between now and then.

4 ATTORNEY KRATZ: This was the earliest
5 opportunity and, in fact, the first obvious
6 opportunity to have heard that kind of evidence.
7 Since I didn't hear it, I'm putting the Court and
8 defense on notice of our position.

9 THE COURT: Mr. Strang.

10 ATTORNEY STRANG: Fair enough. And I -- I
11 think I should, you know, in the spirit of the
12 disclosure that Mr. Kratz has struck, add joining
13 part of what -- part of what he said. I mean,
14 clearly, because about half, I think, of the blood
15 vial sample has been sent off to the FBI for
16 testing, and we expect testing is ongoing, clearly
17 there will have to be a hearing. Mr. Kratz may have
18 one type of hearing in mind; we have another.
19 Certainly a **Walstad** hearing and there are a variety
20 of other issues that may arise with the FBI testing.

21 We are no closer to being able to
22 conduct any independent testing or to have an
23 expert to meet and assess the FBI's testing, than
24 we were when we first addressed this issue. We
25 have received a protocol from the FBI, thanks to

1 Mr. Gahn for that; we got that, I don't know, at
2 the end of last week, I think.

3 And we'll be filing a motion addressing,
4 in writing, the issues that this testing and the
5 denial of defense opportunity for independent
6 testing or even for a reasonable chance to find
7 an expert to meet and help us assess, possibly
8 contradict the FBI test results. It raises a
9 whole field of fair trial and due process issues
10 here. I will address those in writing.

11 I hope to file that before the end of
12 this week. I expect the State would want a
13 chance to respond in writing and, you know,
14 whatever I see as heading, is the Court needing
15 to schedule, conceivably. I mean, on Wednesday,
16 gets FBI results and what they are, the Court
17 needing to set a fair amount of time aside to
18 address the whole cluster of issues surrounding
19 that FBI testing.

20 THE COURT: All right. Anything else
21 before we bring the jury back in and allow the State
22 to redirect?

23 ATTORNEY KRATZ: No. And Mr. Strang's
24 comments are certainly well stated and we actually
25 join that, Judge; we will need a day and whether

1 it's going to be on a weekend or whether the Court
2 is going to allow a day or the better part of a day,
3 that the jury gets a probably much needed day off,
4 we'll need to schedule that within the trial. But I
5 am prepared with my redirect at this time, Judge.

6 THE COURT: Very well. We can bring the
7 witness back in and the jurors.

8 (Jury present.)

9 You may be seated. Mr. Kratz, at this
10 time you may begin your redirect.

11 ATTORNEY KRATZ: Thank you, Judge.

12 REDIRECT EXAMINATION

13 BY ATTORNEY KRATZ:

14 Q. Sergeant Colborn, just a very few follow-up
15 questions. Mr. Strang asked you if you had
16 written a report about that telephone call that
17 you had sometime in 1994 or '95; do you remember
18 that question?

19 A. Yes, sir.

20 Q. Do you remember your response?

21 A. My response was, no, that I did not write a
22 report about it.

23 Q. As you look back, back in 1994 or '95, if you
24 would have written a report, what would it have
25 been about?

1 A. That is why I didn't do one, I don't know what it
2 would have been about, that I received a call and
3 transferred it to the Detective Division. If I
4 wrote a report about every call that came in, I
5 would spend my whole day writing reports.

6 Q. Did this person ever identify the individual that
7 they were talking about?

8 A. No, sir. There were no names given.

9 Q. Let me ask you this, as you sit here today,
10 Sergeant Colborn, do you even know whether that
11 call was about Mr. Steven Avery?

12 A. No, I don't.

13 Q. Mr. Strang also played a telephone call for you,
14 a call to the dispatch center, wherein you asked
15 to verify a license plate; do you recall that?

16 A. Yes, sir.

17 Q. Do you know if you made that inquiry of the
18 dispatch center before or after you went to the
19 Avery property on the 3rd of November?

20 A. I did not, no, sir. I would think -- I don't
21 know.

22 Q. Mr. Strang asked whether or not it was common for
23 you to check up on other agencies, or perhaps
24 I'm -- I'm misphrasing that, but when you are
25 assisting another agency, do you commonly verify

1 information that's provided by another agency?

2 A. All the time. I'm just trying to get -- you
3 know, a lot of times when you are driving a car,
4 you can't stop and take notes, so I'm trying to
5 get things in my head. And by calling the
6 dispatch center and running that plate again, it
7 got it in my head who that vehicle belonged to
8 and what type of vehicle that plate is associated
9 with.

10 Q. All right. Mr. Strang also asked you about a
11 interview that you had with a Investigator Steier
12 from the Calumet County Sheriff's Department
13 sometime in January of this year; is that
14 correct?

15 A. Yes, sir.

16 Q. Mr. Strang asked you if, when Investigator Steier
17 asked if you were able to, at that time, back in
18 January, to recreate your day, if you will, on
19 your day off on the 4th of November; is that the
20 substance?

21 A. Yes, sir.

22 Q. And in January, were you able to do that?

23 A. No, sir.

24 Q. Have you since been asked to recreate or to
25 reexamine your comings and goings on the 4th of

1 November?

2 A. Yes, sir.

3 Q. And have you now been able to do that?

4 A. Yes, sir.

5 Q. At any time during the 4th of November, were you
6 anywhere near the Avery salvage property?

7 A. No, I was not.

8 Q. At any time other than what we have heard about
9 on the 3rd, were you anywhere near that salvage
10 property.

11 A. No, I was not.

12 Q. Again, before arriving there on the 5th of
13 November, had you gone near or approached
14 anywhere around the Avery salvage property
15 itself?

16 A. No, sir, I had not.

17 ATTORNEY KRATZ: That's all the redirect I
18 have of this witness. Thank you, very much, sir.

19 THE COURT: Mr. Strang.

20 **RE CROSS-EXAMINATION**

21 BY ATTORNEY STRANG:

22 Q. How many calls have you ever gotten in your law
23 enforcement career, from another police officer,
24 suggesting you had the wrong guy in jail?

25 A. I don't know. I can't recall any others.

1 ATTORNEY STRANG: That's all I have.

2 THE COURT: All right. You are excused.

3 Mr. Kratz, the State may call its next witness.

4 ATTORNEY KRATZ: The State would call
5 Lieutenant James Lenk, then.

6 THE CLERK: Please raise your right hand.

7 **LIEUTENANT JAMES M. LENK**, called as a
8 witness herein, having been first duly sworn, was
9 examined and testified as follows:

10 THE CLERK: Please be seated. Please state
11 your name and spell your last name for the record.

12 THE WITNESS: James M. Lenk, L-e-n-k.

13 **DIRECT EXAMINATION**

14 BY ATTORNEY KRATZ:

15 Q. Mr. Lenk, how are you employed?

16 A. I'm employed with the Manitowoc County Sheriff's
17 Department.

18 Q. In what capacity, sir?

19 A. I'm a lieutenant of detectives.

20 Q. What are your duties as lieutenant?

21 A. To distribute work amongst the other detectives,
22 to supervise other detectives, also to take cases
23 myself.

24 Q. So, together with the supervisory responsibility,
25 you have an active case load; is that right?

1 A. That's correct.

2 Q. How long have you been a law enforcement officer?

3 A. Total of approximately 24 years.

4 Q. And where did your law enforcement career begin?

5 A. At the Detroit Police Department in Detroit,

6 Michigan.

7 Q. How long were you employed in Detroit?

8 A. Just over four years.

9 Q. After your -- By the way, what did you do with

10 the Detroit Police Department?

11 A. I started out at as a patrol officer. I worked

12 undercover, vice unit. And I also worked

13 juvenile investigations.

14 Q. All right. What was the next law enforcement

15 position that you held?

16 A. I worked for Michigan Bell, Corporate Security,

17 Michigan Bell Telephone.

18 Q. How long was that?

19 A. Approximately two to three years; I don't recall

20 specifically.

21 Q. All right. Thereafter, what did you do?

22 A. I moved to Wisconsin and applied for the

23 Manitowoc County Sheriff's Department.

24 Q. And were you successful in obtaining that

25 position?

1 A. Yes, I was.

2 Q. When did that start?

3 A. It started December, 1988.

4 Q. Tell the jury, if you would, what your
5 responsibilities first were with the Manitowoc
6 Sheriff's Department?

7 A. When I first got hired on the Manitowoc County
8 Sheriff's Department, I worked as a jail officer
9 for a year.

10 Q. Did you move from that to something else?

11 A. Yes, I moved from that to patrol officer.

12 Q. How long were you a patrol officer?

13 A. I was a patrol officer for a short period of time
14 and then I went to the Metro Drug Unit.

15 Q. How long were you with the drug unit?

16 A. Approximately a year and a half.

17 Q. Could you describe your progression, then,
18 through the Manitowoc Sheriff's Department?

19 A. After the Metro Drug Unit, I became a sergeant
20 and I was assigned to the jail division; that
21 lasted a couple months. Then I was reassigned to
22 the Patrol Division as a sergeant.

23 Q. At some point, did you move out of the patrol
24 status?

25 A. Yes, I did.

1 Q. And did you move into investigations or into the
2 Detective Bureau?

3 A. Yes, I did.

4 Q. When did that happen, do you recall?

5 A. That was in February of '98, I believe.

6 Q. All right. At some point, Lieutenant Lenk, did
7 you move into a supervisory capacity within the
8 Detective Bureau?

9 A. Yes, I did.

10 Q. When was that; do you recall?

11 A. That was May of 2003.

12 Q. Lieutenant Lenk, I'm going to direct your
13 attention to November 3rd of 2005, ask if you
14 were first employed in the same capacity that you
15 hold now, at that time?

16 A. Yes, sir.

17 Q. And as the lieutenant in the Detective Bureau,
18 were you made aware of a missing persons
19 investigation that Calumet County had begun?

20 A. Yes, I was.

21 Q. How were you made aware of that?

22 A. I received a phone call from Investigator Wiegert
23 asking for assistance on a missing female.

24 Q. Is that something you worked on yourself on the
25 3rd, or assigned other officers?

1 A. I actually assigned the work to the other
2 officers. I stayed in the headquarters building
3 and did miscellaneous follow-up and paperwork.

4 Q. You did what, I'm sorry?

5 A. Miscellaneous follow- up and paperwork.

6 Q. Regarding this case or just other work?

7 A. This case and other work.

8 Q. All right. Is there an individual from the
9 Detective Bureau that you assigned to lead the
10 Manitowoc part of this investigation?

11 A. Yes, it would have been Detective Remiker.

12 Q. And does he have a first name?

13 A. Dave.

14 Q. If you can assist the jury, Lieutenant Lenk, that
15 first day, that is, the first day of the missing
16 persons investigation, the 3rd of November, what
17 was it that your agency, that Manitowoc, was
18 asked to assist with?

19 A. We were asked to assist with the missing female,
20 Teresa Halbach, to assist the Calumet County
21 officer that was coming to our county, to go to a
22 couple locations. I believe at least one
23 location, to see if they could gain information
24 to her possible whereabouts.

25 Q. As supervisor within the Detective Bureau, did

1 you speak directly with Detective Remiker
2 regarding those assignments?

3 A. Yes, I did.

4 Q. And were you informed. Were you briefed, I think
5 is the term, by Detective Remiker, regarding his
6 findings that day?

7 A. Yes, I believe I was.

8 Q. Did you have any conversation, direct
9 conversation, with Calumet County that first day?

10 A. Not direct conversation. I talked to Investigator
11 Dedering, who was also the one that came over to
12 our county.

13 Q. All right. Anything else happen on the 3rd,
14 other than what you have described regarding
15 the -- Manitowoc's limited role that day?

16 A. No, sir.

17 Q. All right. On the 4th, that would be on Friday,
18 the 4th of November, did you personally become
19 involved in the Manitowoc County portion of this
20 investigation?

21 A. Yes, sir.

22 Q. Could you tell the jury how you became involved?

23 A. Again, I received a telephone call from
24 Investigator Wiegert requesting that we go out
25 and reinterview Steven Avery.

1 Q. And did you proceed to Mr. Avery's property that
2 day?

3 A. Yes, I did.

4 Q. Who did you go with?

5 A. Detective Dave Remiker.

6 Q. Now, Lieutenant Lenk, had you ever been to the
7 Avery Salvage Yard as of the 4th of November?

8 A. No, I hadn't.

9 Q. Did you know where you were going on the
10 property?

11 A. No.

12 Q. When you got to -- Or did you proceed to that
13 scene?

14 A. Yes.

15 Q. When you got to the scene, where did you and
16 Detective Remiker go?

17 A. We turned to the right on Avery Lane, I guess it
18 is, towards Steven's trailer.

19 Q. To assist in your testimony, I'm going to show
20 you a much referred to exhibit, it's Exhibit No.
21 86; do you recognize that exhibit?

22 A. Yes, I do, sir.

23 Q. What is that?

24 A. That's the Avery Salvage Yard.

25 Q. And when you and Detective Remiker got to this

1 location, tell the jury where you went. There's
2 a laser pointer, if you need it, just to your
3 right, if that would assist you.

4 A. We came in -- It's hard to tell the area here.
5 We came in this road and we turned to the right.

6 Q. Why did you turn right?

7 A. Habit, I guess, just turned to the right.

8 Q. All right. Tell the jury where you went, please.

9 A. We went down to the -- almost to the end of the
10 road and we exited the vehicle. Detective
11 Remiker went up to the house trailer to knock on
12 the door, with no response; after which he went
13 to, I believe, the Janda trailer, again, knocked
14 on the door, no response.

15 As we were getting ready to leave, there
16 was a golf cart coming down the lane towards us.

17 Q. And who was on the golf cart?

18 A. Steven Avery and his mother.

19 Q. Did you have occasion to make contact with both
20 Steven and his mother at that time?

21 A. We talked to Steven, yes.

22 Q. Upon speaking to Mr. Avery, did you and Detective
23 Remiker ask for an opportunity to look in the
24 inside of his trailer?

25 A. Yes. Detective Remiker asked permission to look

1 inside his trailer.

2 Q. And was that done?

3 A. Yes, it was.

4 Q. How long did that take?

5 A. Approximately five minutes.

6 Q. Mr. Avery cooperative during that entire process?

7 A. Yes, he was.

8 Q. As you think back to that specific time,

9 Lieutenant Lenk, do you have an independent

10 memory of your sense of whether Mr. Avery may

11 have been involved in Ms Halbach's disappearance?

12 A. My memory at that point was that I did not think

13 there was any involvement with Mr. Avery.

14 Q. So you, Lieutenant James Lenk, the head of the

15 Detective Bureau, on the 4th of November, didn't

16 even think Steve was involved; is that what you

17 are telling us?

18 A. That's correct.

19 Q. Let me ask you this, Lieutenant Lenk, with that

20 having been said, did you take any steps from

21 that point forward to either plant evidence or to

22 ensure that Mr. Avery would be falsely accused of

23 that homicide?

24 A. No, sir, I definitely did not.

25 Q. Is that something that you have ever done in your

1 law enforcement career?

2 A. No, sir, I have never planted any evidence at any
3 time.

4 Q. Would you ever do something like that?

5 A. No, sir, I would not.

6 Q. The next day, on Saturday, the 5th of November;
7 do you remember that day?

8 A. Yes, sir.

9 Q. What were you doing that day, if you recall?

10 A. I was with my wife over near Menasha, looking for
11 a trailer for camping.

12 Q. Do you remember getting a call that day?

13 A. Yes, sir. I believe it was a page, initially.

14 Q. Did you speak with somebody?

15 A. Yes, I did.

16 Q. Who was that?

17 A. Detective Remiker.

18 Q. After getting the call from Detective Remiker,
19 did that affect your activities that morning?

20 A. Yes, sir. We stopped looking for the trailer and
21 I advised my wife, I have to get back, I have to
22 go to work.

23 Q. What did you do then?

24 A. We left the trailer sales, started to head home.
25 We got to Oneida and 441, my wife insisted that I

1 get something to eat because she knew that I
2 wouldn't eat the rest of the day, so we stopped
3 at Wendy's.

4 Q. Was that your idea?

5 A. No, it was not.

6 Q. But you stopped any way?

7 A. Yes, sir.

8 Q. All right. Where did you go then?

9 A. After we had a quick lunch at Wendy's, I went
10 directly home. And then from home, I went to the
11 department, to pick up my vehicle and my
12 supplies.

13 Q. And when you talk about picking up a vehicle, can
14 you describe that vehicle for us, please.

15 A. It's an unmarked police vehicle owned by
16 Manitowoc County Sheriff's Department.

17 Q. What kind of supplies did you pick up at the
18 Sheriff's Department?

19 A. Briefcase with various papers in it, radio, that
20 type of thing.

21 Q. Okay. Where did you go then?

22 A. I went from there to the Avery Salvage Yard.

23 Q. And, again, that's Exhibit No. 86; is that right?

24 A. That's correct.

25 Q. As you sit here today, Lieutenant Lenk, do you

1 recall about what time you arrived at that scene?

2 A. It was just shortly after 2:00, 2:05, somewhere
3 in there.

4 Q. Now, when you got to the scene, the Avery salvage
5 scene, had there been any kind of log in or check
6 in procedure put in place yet?

7 A. I don't recall a log in at that point.

8 Q. All right.

9 A. I just don't recall.

10 Q. What did you do when you got to the scene?

11 A. I met with the officers that were at the scene,
12 some from Manitowoc County, some from Calumet
13 County.

14 Q. Where did you meet with them?

15 A. Right at the beginning of the roadway where the
16 command center would have been set up.

17 Q. Can you show us on the diagram -- or excuse me,
18 the photo?

19 A. Would have been right in this area.

20 Q. Be an area just to the south of what we now know
21 are the business buildings; is that right?

22 A. That's correct, sir.

23 Q. I'm sorry, the north of. When you got there
24 Lieutenant Lenk, were there other members of your
25 department already on scene?

1 A. Yes, there were.

2 Q. Do you remember who you met with or who you saw
3 at that time?

4 A. I know I talked to Deputy Inspector Schetter.
5 I'm not real sure who else was there from our
6 department that I talked with, quite a few
7 officers there.

8 Q. From a hierarchy standpoint, or who's the boss
9 kind of a standpoint, is Deputy Inspector
10 Schetter, or was he at the time, ahead of you or
11 on top of you, regarding authority or rank within
12 the department?

13 A. Yes, sir, he was.

14 Q. Do you recall, Lieutenant Lenk, being involved,
15 or overhearing discussions regarding who should
16 lead up this investigation?

17 A. I believe, by the time I got there, that they had
18 already decided that Calumet County would lead
19 the investigation.

20 Q. All right. Were there Calumet County officers on
21 scene?

22 A. Yes, sir, I believe there were.

23 Q. At some point later that afternoon, do you recall
24 other officials arriving at the scene, including
25 myself, with the signed search warrant?

1 A. Yes, sir, I do.

2 Q. After D.A.'s and lead investigators got to the
3 scene, were you asked to perform any duties at
4 that scene?

5 A. Yes, sir. We were asked to assist Calumet
6 County.

7 Q. From Manitowoc County, other than Deputy
8 Inspector Schetter, was there any individual of
9 higher rank than you at the scene?

10 A. I'm not sure. You mean from the sheriff's
11 department?

12 Q. Yes.

13 A. No, sir. I don't think so.

14 Q. All right. Now, looking at Exhibit No. 86 and
15 remembering back to that first late afternoon; do
16 you remember whether manpower issues were a
17 factor that afternoon?

18 A. Yes, sir, they were a factor.

19 Q. Could you describe that for the jury. What does
20 that mean?

21 A. That means that there was a very large area. The
22 search warrants were already obtained and there
23 was limited manpower to search that area.

24 Q. I'm sure most, if not all of these potential --
25 or these jurors have not been to a crime scene;

1 is this a typical crime scene by way of size or
2 scope?

3 A. No, sir, it's not.

4 Q. Can you describe better or explain that for the
5 jury, please.

6 A. Most crime scenes are a smaller area, either a
7 house or a small yard, or a room, this area was
8 immense.

9 Q. When you arrived, did you appreciate the size or
10 the scope of this effort?

11 A. Yes. I also got a further appreciation the more
12 I looked around the property.

13 Q. All right. What did you believe Manitowoc County
14 Sheriff's Department involvement was going to be
15 at that scene?

16 A. Our involvement was to be part of the search
17 team, basically extra eyes and hands to do the
18 searching.

19 Q. Are you familiar with the term evidence tech?

20 A. Yes, sir.

21 Q. What is that?

22 A. It's an individual on the police department, or
23 sheriff's department, that has had some training
24 in how to gather evidence and package evidence,
25 at a crime scene.

1 Q. You talked about manpower before, was there an
2 abundance of evidence techs at that scene?

3 A. No, sir, there was not.

4 Q. Are you an evidence tech, or were you?

5 A. Yes, sir.

6 Q. Do you know, at that scene, what other members of
7 Manitowoc County Sheriff's Department would have
8 similar training or experience as an evidence
9 tech?

10 A. Yes, sir. Sergeant Andy Colborn and Detective
11 Dave Remiker.

12 Q. Now, Lieutenant Lenk, prior to your arrival at
13 the Avery Salvage Yard on the 5th, had you had
14 previous dealings or contact with Steven Avery?

15 A. Just the contact on the 4th of November.

16 Q. Do you recall being one of many individuals
17 involved in what's called a deposition, for
18 Mr. Avery?

19 A. Yes, sir.

20 Q. And can you tell the jury about that process,
21 please.

22 A. Well, the process was, I received a subpoena to
23 give a deposition in the Avery lawsuit case
24 against Manitowoc County.

25 Q. Did you respond to that subpoena, did you provide

1 testimony?

2 A. Yes, sir, I did.

3 Q. And so the jury understands, when Mr. Avery was
4 wrongfully convicted back in 1985, were you a
5 member of the Manitowoc County Sheriff's
6 Department?

7 A. No, I was not.

8 Q. Then, what involvement did you have; in other
9 words, what was your part of the deposition?

10 A. The part of the deposition was that I received a
11 statement from Sergeant Colborn, in 2003, I
12 believe, September, that he had taken a phone
13 call back in 1997, from another department, I
14 believe he said it was Brown County Sheriff's
15 Department, that they had in custody an
16 individual that had committed an assault in
17 Manitowoc County and that Manitowoc County had
18 someone in custody for that assault.

19 Q. Is that all?

20 A. That's all.

21 Q. Did you even receive that call back in the
22 mid-nineties?

23 A. No, sir, I did not.

24 Q. So your deposition was that you heard that Andy
25 Colborn got such a call; is that right?

1 A. Yes, sir, I received that information from Andy,
2 himself.

3 Q. Did that lawsuit cause you any personal or
4 professional embarrassment?

5 A. No, sir, it did not.

6 Q. Did that lawsuit create any angst or ill feelings
7 on your part?

8 A. No, sir, it did not.

9 Q. Did the fact of that lawsuit cause you any upset,
10 or aggravation, or anger?

11 A. No, sir, it did not.

12 Q. Did that lawsuit cause you or compel you to -- to
13 plant any evidence in this case?

14 A. No, sir, definitely not.

15 Q. What did you feel about that lawsuit; do you
16 remember?

17 A. I pretty much didn't care, one way or the other.

18 Q. All right. How were individuals assigned
19 responsibilities out at the Avery salvage
20 property?

21 A. I believe the assignments came through the two
22 officers in charge, Agent Fassbender and
23 Investigator Wiegert.

24 Q. Was this a situation where you volunteered for a
25 particular search or an area that you wanted to

1 become involved?

2 A. No, sir.

3 Q. Did you even know when you got your assignments
4 -- and we'll be talking about a couple later that
5 week -- but did you know where you were going to
6 be assigned?

7 A. No, sir.

8 Q. Lieutenant Lenk, were you made aware that search
9 teams were being assembled?

10 A. Yes, sir.

11 Q. And was there anything unique about the law
12 enforcement officers that were being selected for
13 those search teams, if you know?

14 A. I don't know, specifically, other than that they
15 were to have a Calumet officer in charge of the
16 team.

17 Q. What I'm asking, though, is the other -- other
18 than a Calumet County lead person involved, the
19 others that were chosen to be on that team, did
20 they have any unique or similar quality about
21 them?

22 A. Yes, sir. They were requesting anyone that had
23 evidence technician experience.

24 Q. As a supervisor and as a long time law
25 enforcement officer, do you have an opinion as to

1 why that was being done?

2 A. My opinion is they wanted the best people that
3 they could get, at the scene, to do the
4 searching.

5 Q. All right. That first night, were you made a
6 part of one of those teams?

7 A. Yes, sir.

8 Q. Who was in charge or who was the lead officer in
9 your search team?

10 A. Sergeant Bill Tyson.

11 Q. Now, you are a lieutenant and he was a sergeant;
12 is that right?

13 A. That's correct, sir.

14 Q. Did you have any concern or problem with taking
15 directional orders from Sergeant Tyson?

16 A. No, sir.

17 Q. Did you believe at that time, or actually
18 throughout this entire investigation, that rank
19 had anything to do with who was calling the
20 shots?

21 A. No, sir, I did not.

22 Q. Tell the jury, if you recall, when that first
23 team was assembled, if there were particular
24 responsibilities that each officer had?

25 A. Each officer was assigned a certain area of

1 searching. It was done as a team, but each
2 officer was assigned a certain particular area of
3 a room, or living room, or kitchen, of an area
4 that he was responsible for, or a team of
5 officers would be responsible for.

6 Q. All right. Was there direction that your team
7 received about items of evidentiary value and who
8 should take them into custody or who should seize
9 them?

10 A. Yes, we were told that all evidence would be
11 collected by Calumet County officers. All
12 reports would be done by Calumet County officers.
13 And basically we were there just to assist in the
14 searching process.

15 Q. Let's talk about reports for a minute. Wouldn't
16 it be typical for each individual officer at a
17 scene like this to do their own reports?

18 A. Normally, yes.

19 Q. Are you saying this was different or you were
20 given different direction?

21 A. We were given different directions, yes.

22 Q. The first area that you were involved personally,
23 in searching on the 5th, was what?

24 A. Steven Avery's trailer.

25 Q. Can you tell us who the other members of your

1 search team were?

2 A. Sergeant Tyson, Sergeant Colborn and Detective
3 Remiker.

4 Q. The jury has already heard this a couple of times
5 so we're not going to go piece by piece, I'm sure
6 thankfully; but could you just tell us the rooms
7 that were searched by the search team, please.

8 A. The rooms that were searched would be the
9 southernmost bedroom, that would be Steven
10 Avery's bedroom; the hallway; the bathroom that
11 is next to the bedroom; next to the bathroom area
12 is a second bedroom that was searched; next to
13 the bath -- or the second bedroom is the living
14 room area; followed by the kitchenette area; and
15 the kitchen.

16 Q. I'm not sure my math is that great, Lieutenant,
17 but how long have you been a police officer, just
18 total number of years?

19 A. Around 24 year.

20 Q. In 24 years of law enforcement experience, have
21 you been involved in searches of residences and
22 property before?

23 A. Yes, I have.

24 Q. Are there different kinds of searches?

25 A. I'm not sure what you mean.

1 Q. Well, if a property, a residence, as an example,
2 is to be searched by you or another law
3 enforcement officer; are you familiar with the
4 detail in which some of those searches are
5 performed in?

6 A. Yes, sir.

7 Q. Was this first search of the Avery property
8 intended to be a thorough, tear the place apart,
9 type search?

10 A. No, sir, it was not. It was more of a general
11 search.

12 Q. All right. I guess that's my question, maybe
13 tell the jury what you believed a general search
14 was?

15 A. At that time, a general search was looking for
16 any obvious signs for the missing Teresa Halbach,
17 in that trailer. It's pretty generalized at that
18 point.

19 Q. Do you know about how long you guys took in that
20 trailer?

21 A. I believe it was around two and a half hours.

22 Q. All right. During that initial search, did you
23 notice any firearms in Mr. Avery's bedroom?

24 A. Yes, sir.

25 Q. Can you describe what you saw, please.

1 A. There was a gun rack above the head of the bed,
2 in the bedroom area. There were two firearms in
3 there. I believe one was a .22 and one was a
4 muzzleloader firearm.

5 Q. You said that you searched the entire trailer.
6 After that first search was complete, of Steven's
7 trailer, can you tell the jury what you did,
8 please.

9 A. After that search was completed, I think we ended
10 for the day.

11 Q. Was there some meeting or something that occurred
12 before you left?

13 A. Yes, there was a meeting at the command center.

14 Q. What's the purpose of that?

15 A. To discuss what had been done and what needs to
16 be done the next day.

17 Q. Lieutenant Lenk, any time on the 5th of November,
18 did you have any contact with Teresa Halbach's
19 SUV?

20 A. No, sir, I did not.

21 Q. Did you have any contact with her SUV on the 4th
22 of November, or the 3rd of November, or in fact
23 any time there before?

24 A. No, sir, I did not.

25 Q. Were you asked to return to the property the next

1 day, the 6th?

2 A. Yes, sir, I was.

3 Q. And can you describe for the jury what your
4 responsibilities were on the 6th, please.

5 A. On the 6th we met at the command center. We were
6 assigned to Deputy Kucharski. And I believe we
7 were to search the garage on Steven Avery's
8 portion of the property.

9 Q. Describe the kind of search that was, please.

10 A. Again, that was a general search for any
11 indications of Teresa Halbach.

12 Q. Where did you go after that?

13 A. I believe we went -- got -- either went back to
14 the command center or received information from
15 them for the next place to search.

16 Q. Do you remember how long you were in the garage,
17 roughly?

18 A. Maybe an hour, hour and a half, I'm not exactly
19 sure.

20 Q. Now, the question, Lieutenant Lenk, is searching
21 that garage for an hour, or an hour and a half,
22 do you believe that you found, or would have
23 found everything of any evidentiary value in that
24 garage?

25 A. At that time we thought we found everything that

1 was of evidentiary value, yes.

2 Q. All right. Do you remember the interior of that
3 garage, as you think back?

4 A. Yes, I do.

5 Q. Was there a lot of things in that garage?

6 A. Yes, sir, it was full of things.

7 Q. All right. Were you informed, Lieutenant Lenk,
8 of how long, that is, the estimated time that law
9 enforcement was going to keep control of this
10 scene? Did you know that first day?

11 A. No, I didn't know that first day.

12 Q. Did you know whether you were going to do
13 additional searches of either residences, or
14 garages, or outbuildings, or anything like that?

15 A. Yes, we planned on doing additional searches of
16 the buildings.

17 Q. Let me ask you, Lieutenant Lenk, on the 6th, that
18 is, on that Sunday, did you have occasion to
19 assist other officers in a search of the
20 defendant's sister's home, that's Barb Janda?

21 A. Yes, sir.

22 Q. Could you describe that search, generally, for
23 us, please.

24 A. That was, again, a general search looking for
25 items that might relate to Teresa Halbach.

1 Q. Do you remember Detective Remiker noticing and
2 investigating an answering machine at that time?

3 A. Yes, sir.

4 Q. Were you asked to return to Steve Avery's trailer
5 at all?

6 A. Yes, sir, I think we were.

7 Q. And do you remember the scope of that?

8 A. I believe we were asked to go back, as a team, to
9 collect the firearms, a vacuum cleaner and the
10 bedding, I believe, off the spare bedroom.

11 Q. Again, who was in charge of seizing and taking
12 control of the evidence on that day?

13 A. Calumet County officer Deputy Kucharski.

14 ATTORNEY KRATZ: I just have two other
15 points, Judge, and then I will recommend that we
16 quit for the day, but let me finish this day, if I
17 may.

18 Q. On the 6th, Lieutenant Lenk, were there other
19 buildings that you were asked to search?

20 A. Yes, sir, there were.

21 Q. What were those buildings?

22 A. There was a large business office area building,
23 I believe they called it the office. And we also
24 searched, I believe it was Mr. Chuck Avery's
25 residence.

1 Q. All right. And the same search team that is
2 headed by Kucharski was involved in those
3 searches as well?

4 A. Yes, sir.

5 Q. All right.

6 ATTORNEY KRATZ: I do recommend, Judge, and
7 this may be a good time to break for the day and
8 call this witness tomorrow morning.

9 THE COURT: All right. Members of the
10 jury, I will remind you, again, that you are not to
11 discuss this case at all and make sure you don't
12 watch any news accounts about the case this evening.
13 We'll see you tomorrow morning.

14 ATTORNEY STRANG: Your Honor?

15 THE COURT: Yes.

16 ATTORNEY STRANG: While we still have the
17 jury, I forgot to move in Exhibit 212, Sergeant
18 Colborn; 213 was only marked and need not be moved
19 in.

20 ATTORNEY KRATZ: No objection.

21 THE COURT: 212, you are asking for
22 admission?

23 ATTORNEY STRANG: Yes.

24 THE COURT: Court will admit 212. Very
25 well, you are excused for the day.

(Reconvened at 9:03 a.m., Jurors present.)

THE COURT: At this time Court calls the case of State of Wisconsin vs. Steven Avery. Case No. 05 CF 381. Will the parties state their appearances for the record?

ATTORNEY KRATZ: Once again, Judge, the State appears by Calumet County District Attorney Ken Kratz. Assistant Attorney General Tom Fallon, Assistant District -- Excuse me -- Assistant District Attorney Norm Gahn appearing as special prosecutor.

ATTORNEY STRANG: And good morning. Steven Avery's in person. Jerome Buting represents him. Dean Strang as well.

THE COURT: All right. I believe when we left off yesterday the, uh, State was in the process of conducting direct examination of Mr. Lenk. Uh, Mr. Kratz, you may call your witness.

ATTORNEY KRATZ: We'll do that. Detective James Lenk.

THE CLERK: Please raise your right hand.

JAMES LENK,

called as a witness herein, having been first duly sworn, was examined and testified as follows:

THE CLERK: Please be seated. Please state

1 your name and spell your last name for the record.

2 THE WITNESS: James M. Lenk, L-e-n-k.

3 **DIRECT EXAMINATION**

4 BY ATTORNEY KRATZ:

5 Q Good morning, Lieutenant, and, uh -- and welcome
6 back. We left off yesterday having completed the
7 search efforts, um, that, uh, you and other law
8 enforcement officers did on the 6th of November,
9 which was Sunday. We're going to move to Monday,
10 now, the 7th of November, ask if you were asked
11 to return to the Avery salvage property?

12 A Yes, I was.

13 Q Upon your return on the 7th, uh, who were you
14 assigned to work with?

15 A On the 7th it was Sergeant Bill Tyson.

16 Q And can you describe for the jury, please, your
17 role on the 7th? That is, what, um,
18 responsibilities and duties were you given that
19 day?

20 A I believe Sergeant Tyson was given the information to
21 open all the trunks of the cars near the buildings or
22 in the buildings on the property that hadn't already
23 been opened, and to collect firearms from all the
24 buildings.

25 Q Did you assist Sergeant Tyson in that effort?

1 A Yes.

2 Q About how long did that take? At least your part
3 of the trunks of the vehicles that you were
4 searching through?

5 A My guess would probably be an hour-and-a-half to two
6 hours.

7 Q After that effort, uh, what did you do then?

8 A I believe Sergeant Tyson -- or we went back to the
9 command center to get another assignment.

10 Q Do you remember what your next assignment was?

11 A I think at some point we were told to go back to the
12 Avery trailer and get some, uh, numbers off a
13 computer, I believe.

14 Q All right. Did you do that with Sergeant Tyson?

15 A Yes.

16 Q Thereafter, were you asked to do something else?

17 A I'm sure. I don't recall right now.

18 Q All right. Nothing that sticks out in your mind?

19 At least nothing of a substantial evidentiary
20 nature; is that right?

21 A That's correct.

22 Q The next day, then, on Tuesday, the 8th, uh,
23 Lieutenant Lenk, did you once again return to the
24 Avery salvage property?

25 A Yes, sir, I did.

1 Q And on Tuesday, the 8th of November, who were you
2 assigned to assist?

3 A I was assigned to assist, uh, Deputy Kucharski.

4 Q And, again, for the jury's benefit, since they
5 haven't met Deputy Kucharski yet, who does he
6 work for?

7 A He works for the Calumet County Sheriff's Department.

8 Q Were there any other members of your search team
9 that day?

10 A Myself, Sergeant Colborn and Deputy Kucharski.

11 Q And where did you guys first go?

12 A We first went to a yellow vehicle that was parked in
13 front of the office area to retrieve a couple
14 firearms out of the trunk.

15 Q Now, once again, uh, Lieutenant, I asked you
16 this, uh, yesterday, but on the 8th of November,
17 and in every other day, did you know what your
18 responsibilities were going to be when you got to
19 the Avery salvage property?

20 A No, sir.

21 Q Did you know in which buildings you were going to
22 be assigned?

23 A No, sir.

24 Q Did you even know if you were going into any
25 buildings?

1 A No, sir.

2 Q What was the next assignment you received on the
3 8th?

4 A After we retrieved the firearms from that vehicle,
5 um, Deputy Kucharski received, uh, information to go
6 back to the Steven Avery trailer.

7 Q And what was the nature of this particular
8 assignment?

9 A That was to specifically collect, uh, magazines and
10 pictures, um -- Trying to think. The computer,
11 computer-related items. I'm not sure if there was
12 anything else, specifically, that --

13 Q Was there a -- a search to be performed of other
14 rooms within that home as well?

15 A That's correct.

16 Q Can you describe that kind of search and whether
17 or not that was different than one that was
18 performed earlier in the week?

19 A This would have been a much more specific search. We
20 were given items to look for. Uh, we were also told
21 to do a thorough search of the dwelling besides the
22 items that were given.

23 Q This thorough search, did it include the bedroom
24 of Steven Avery?

25 A Yes, sir, it did.

1 Q I'm going to show you what's been, um, received
2 as Exhibit No. 103. It's a computer animation.
3 I'm going to zoom into the bedroom area. Ask if
4 that's going to assist you in describing your
5 search of that bedroom that day?

6 A Yes, sir, it will.

7 Q Okay. Was this bedroom thoroughly searched by
8 yourself, uh, Sergeant Colborn, and Deputy
9 Kucharski from the Calumet County, uh, Sheriff's
10 Department?

11 A On 8th?

12 Q Yes.

13 A Yes, sir.

14 Q Sometime towards, uh -- Well, let me back up
15 just -- just a minute. Were you in close enough
16 proximity that you were able to see Sergeant
17 Colborn in that bedroom?

18 A Yes, sir.

19 Q Uh, referring to Exhibit 103, is this a large
20 bedroom?

21 A No, sir, it is not.

22 Q Were you able to see Deputy Kucharski?

23 A Yes, sir.

24 Q Do you recall, Lieutenant Lenk, a pair of bedroom
25 slippers being in this bedroom?

1 A Yes, sir, I do.

2 Q Could you just, using the laser pointer, and just
3 point to the, um -- for the jurors, about where
4 those were located?

5 A Approximately right in there.

6 Q Right next to what we now know as a bookcase?

7 A Yes, sir.

8 Q Did you have occasion to inspect or look at those
9 bedroom slippers?

10 A Yes, I did.

11 Q Describe that for the jury, please.

12 A When we first came into the bedroom, the slippers
13 were sitting there. I just picked them up, looked
14 inside, and put them back down.

15 Q Did you look underneath them?

16 A Yes, I did.

17 Q Did you notice anything underneath the slippers
18 when you looked under them?

19 A No, sir. There was nothing there.

20 Q Thereafter, or sometime during the search, uh,
21 were you aware of, and did you, uh, see, Sergeant
22 Colborn manipulating or moving a piece of
23 furniture now known as the bookcase?

24 A Yes, sir.

25 Q After replacing or pushing back the bookcase,

1 what did you do?

2 A After the magazines and a binder were pushed back
3 into the bookcase, I advised Deputy Kucharski that I
4 would go out into the living room and retrieve bags
5 or try to get boxes to put the items that we had
6 recovered.

7 Q Did you do that?

8 A Yes, I did.

9 Q On your return to the bedroom, tell the jury what
10 you saw?

11 A When I entered the bedroom, I caught my eye, I saw a
12 key laying in front of the slippers by the back
13 corner of that cabinet.

14 Q Now, before Sergeant Colborn's manipulation or,
15 um, banging around of that piece of furniture,
16 had that key been there?

17 A No, sir, it was not.

18 Q If you could use your laser pointer again, tell
19 the jury about where in that bedroom you were
20 standing when you saw the key and where was the
21 key?

22 A I was coming in that door, and the key was right at
23 the back corner of that cabinet on the floor.

24 Q There's been another exhibit which has been
25 admitted into evidence. It's Exhibit No. 210.

1 Actually a photograph. I'm going to show that to
2 you at this time and ask you to tell the jury
3 what we're looking at.

4 A You're looking at the cabinet with the slippers and
5 the key that was laying on the floor.

6 Q And that -- that image, that view, uh, is that
7 what you saw on the 8th of November?

8 A Yes, sir, it is.

9 Q After seeing that key, um, did you direct, um,
10 any activity or was any activity decided between
11 the three of you?

12 A I informed the other two officers that there's a key
13 laying on the floor and it was not there before.
14 They all looked at it. At that point Deputy
15 Kucharski photographed it and subsequently collected
16 it.

17 Q How did he collect it? Did you witness that?

18 A He had, uh, gloves on. He collected it. I believe
19 he put it into a evidence bag.

20 Q Now, Lieutenant Lenk, let me just ask you, were
21 you surprised to see that key?

22 A Yes, sir, I was.

23 Q Why?

24 A It wasn't there before.

25 Q At that time, and at that early time in observing

1 the key, did you believe that it had obvious
2 evidentiary value?

3 A When we looked at the key, it appeared to have a
4 Toyota emblem on the key itself. At that point we
5 thought it may have some significant value.

6 Q After Deputy Kucharski photographed and collected
7 the key, do you know what was done with it?

8 A Deputy Kucharski contacted the officers in charge of
9 the case, uh, Agent Fassbender and Investigator
10 Wiegert, told them what he had found, and they
11 subsequently came to the trailer.

12 Q Was the key provided to them if you know?

13 A I believe at that time it was shown to them and they
14 said they would send someone back to collect the key.

15 Q All right. Now, Lieutenant Lenk, at -- at that
16 moment, that is, after the collection of the key,
17 did you, Deputy Kucharski, and Sergeant Colborn
18 attempt to ascertain where the key had come from
19 or do some further investigation?

20 A Yes, we did.

21 Q Tell the jury what kind of investigation you did,
22 please.

23 A We looked at the cabinet, um, at the back corner of
24 the cabinet. We saw that there was an opening
25 between the back of the cabinet and the, um, side,

1 approximately a half to an inch, and we believed that
2 that's where the key had fallen from the cabinet.

3 Q Can you point on Exhibit No. 210 the back corner
4 where the cabinet had been pulled away?

5 A Right back in there.

6 Q Let me show you another exhibit. Exhibit 169.
7 It's already been admitted into evidence. Ask if
8 you recognize that exhibit?

9 A Yes, sir. That is the cabinet we're talking about.

10 Q Could you point to the area of, uh, the back
11 panel being pulled away that you've been
12 describing?

13 A Right there.

14 Q And, again, recognizing that this photo was taken
15 on a different day, uh, other than the, uh, 8th,
16 uh, does Exhibit No. 169 look the same as it did,
17 uh, that, uh -- that morning on the 8th of
18 November?

19 A Yes, sir, it does.

20 Q Lieutenant Lenk, after noting the, um -- the
21 defect or the abnor -- abnormality to the camera,
22 did you have any further discussion with your,
23 um, fellow searchers as to finding this key?

24 A Yes. We discussed the fact that it had to have come
25 from that cabinet and probably from all the jostling

1 and tipping of the cabinet.

2 Q After completing the search, uh, what you now
3 described a thorough search of the interior of
4 the Avery, um, trailer, what was your next
5 responsibility?

6 A I'm not exactly sure what we did after that.

7 Q Do you remember searching any other buildings
8 that day?

9 A Yeah. We had searched other buildings. I'm not
10 exactly sure which ones they were.

11 Q Um, let's talk about timing, or at least time
12 frames the, um, rest of your day. Um, do you
13 know what you did, at least generally, the rest
14 of your day. In other words, what general
15 responsibilities were you given?

16 A Whatever responsibilities were given to Deputy
17 Kucharski that day, we assisted him. Uh, our primary
18 responsibility were searching buildings.

19 Q I see. And just so that jury's not left to
20 wonder, was there anything, at least that you
21 believed, that was of substantial evidentiary
22 value found in the rest of your searches, uh,
23 that day or that afternoon?

24 A No, sir.

25 Q On the 9th, that is the day -- next day,

1 Wednesday, were you asked to return to the Avery
2 salvage property?

3 A Yes, sir, we were.

4 Q And what were your responsibilities that day?

5 A I was assigned with, also, Sergeant Colborn to Deputy
6 Wendling to assist him in searching.

7 Q Who's Deputy Wendling?

8 A He's an officer with the Calumet County Sheriff's
9 Department.

10 Q As part of Deputy Wendling's team on the 9th of
11 November, were you asked to perform any searches
12 that day?

13 A Yes, we were.

14 Q Do you remember where you searched that day?

15 A We went back to the Steven Avery trailer and we also
16 searched his garage.

17 Q Were you looking for something specific in the
18 trailer?

19 A We were looking for a garage door remote and a pair
20 of woman's gloves.

21 Q Did you find either of those items?

22 A There was a pair of woman's gloves found in a paper
23 bag underneath the desk.

24 Q The last area of inquiry, um, I have, uh,
25 Lieutenant Lenk, actually relates to other

1 connections or other, um, items that may be
2 located in Manitowoc County. Let me specifically
3 ask you, uh, whether you have ever seen, uh, any
4 vial of Mr. Steven Avery's blood in possession
5 anywhere in, Cal -- in, uh, Manitowoc County?

6 A No, sir, I have not.

7 Q Did you ever, before the 5th of November, have
8 knowledge of a vial of Mr. Avery's blood in the
9 Manitowoc County Clerk of Court's Office?

10 A No, sir, I did not.

11 Q Did you ever see a vial of blood in the clerk's
12 office?

13 A No, sir.

14 Q Between the 3rd and 5th of November, were you
15 ever in the Manitowoc County Clerk of Court's
16 Office?

17 A No, sir, I was not.

18 Q Lieutenant Lenk, did you ever, um, obtain any
19 blood from the clerk's office or did you obtain
20 any blood from any location and plant it anywhere
21 on the Avery salvage property?

22 A No, sir, absolutely not.

23 Q Did you ever plant it anywhere in Teresa
24 Halbach's vehicle or anywhere where it could be
25 found as part of this investigation?

1 A No, sir, definitely not.

2 Q Did you ever assist any other officer so that
3 another officer could either plant evidence, uh,
4 or try to in some way frame Mr. Avery for this
5 homicide?

6 A No, sir.

7 Q And, lastly, uh, had you ever heard from any
8 member of the, uh, Manitowoc County law
9 enforcement community, uh, that they had
10 participated in some frame-up or planting of
11 evidence?

12 A No, sir, there was not.

13 Q And just to make sure, since we've gone through
14 the, uh -- the key evidence, um, did you have any
15 occasion to plant the -- Teresa Halbach's key or
16 place her key in Mr. Avery's residence?

17 A Absolutely not.

18 ATTORNEY KRATZ: That's all the
19 questions I have of Lieutenant Lenk, Judge.
20 Thank you.

21 THE COURT: Mr. Strang?

22 ATTORNEY STRANG: Thank you, Your Honor.

23 **CROSS-EXAMINATION**

24 BY ATTORNEY STRANG:

25 Q Next year it will be quarter century that you've

1 been involved in policing in one department or
2 another, Lieutenant Lenk?

3 A Close to a quarter, yes.

4 Q You have, in the Manitowoc County Sheriff's
5 Department, obtained, what, the fourth highest
6 rank in that Department?

7 A Yes, sir.

8 Q Mr. Kratz, just a minute ago, asked you whether
9 you had ever heard from any member of the
10 Manitowoc County Sheriff's Department, any
11 member, that they had participated in a -- in a
12 frame-up or planting evidence, concocting a case
13 against Mr. Avery. Remember that question?

14 A Yes, sir.

15 Q And your answer was, no, you had not heard from
16 any member of the Manitowoc County Sheriff's
17 Department that they had done anything of the
18 sort?

19 A That's correct.

20 Q That includes about the 1985 case against
21 Mr. Avery, doesn't it?

22 A I'm not sure.

23 Q Not one of the officers of that Department has
24 ever told you that they had anything to do with
25 the wrongful conviction in 1985 either, have

1 they?

2 A No one's ever told me they had anything to do with
3 the wrongful conviction.

4 Q You worked with Sheriff Peterson for a number of
5 years?

6 A Yes, sir.

7 Q You knew him to be directly involved in that
8 earlier case?

9 A Yes, sir.

10 Q And no one ever admitted doing anything wrong in
11 connection with that earlier case to you, did
12 they?

13 A Not to me. No, sir.

14 Q Now, do you suppose, Lieutenant Lenk, that if an
15 officer -- let's use you -- do you suppose that
16 if you had taken a vial of blood from the Clerk
17 of Court's Office, planted it, or caused it to be
18 planted in Teresa Halbach's vehicle, and told no
19 one before today, do you suppose that if -- if a
20 defense lawyer stood up and asked you, did you
21 plant blood in Teresa Halbach's car, do you
22 suppose you'd tell me?

23 A Yes, sir.

24 Q You would?

25 A I did not.

1 Q And if you had done it, do you think you'd admit
2 it here under oath?

3 A I didn't do that. It's ridiculous.

4 Q Would you admit it under oath if --

5 A Under oath, I would admit it, yes.

6 Q I'm sorry?

7 A If I did it, I would admit it.

8 Q You would admit. Now, you know that planting
9 that blood would have at least been a crime under
10 Wisconsin law?

11 A Yes, sir.

12 Q It probably would have been a federal crime as
13 well; correct?

14 A I'm not positive to that. I don't know.

15 Q To the extent that you were seeking to deprive
16 someone, Mr. Avery, for example, of his civil
17 rights, it would have been a federal crime as
18 well?

19 A I wasn't trying to do anything to deprive him of his
20 civil rights.

21 Q I understand that's your testimony. If you or
22 someone else had planted evidence, you expect
23 that would have been a federal crime as well?

24 A If it had been planted, yes.

25 Q All right. And your testimony is that you'd come

1 in here, and because some defense lawyer asked
2 you, you'd confess this to 12 jurors had you done
3 it?

4 A I probably would if I had done it.

5 Q All right. Would you expect every member of the
6 Manitowoc County Sheriff's Department to do the
7 same thing?

8 ATTORNEY KRATZ: Objection. Speculation,
9 Judge.

10 THE COURT: Sustained.

11 Q (By Attorney Strang) You ran briefly through
12 your history with the Manitowoc County Sheriff's
13 Department. I think you started in the jail?

14 A Yes, that's correct.

15 Q Became a sworn officer?

16 A I was sworn when I started in the jail.

17 Q Oh, I'm sorry. Was that a sworn position, not an
18 unsworn position when you started in the jail?

19 A Yes, sir, at that time.

20 Q Okay. It changed later before Sergeant Colborn
21 started in the jail?

22 A Yes.

23 Q All right. Do you know a woman in the Clerk of
24 Court's Office by the name of Theresa Shebesta?

25 A No, I don't know that name.

1 Q Teresa in the Clerk of Court's Office. I'm
2 talking about the Manitowoc County Clerk of
3 Court's Office?

4 A No, sir.

5 Q All right. Did you at anytime during the course
6 of your, probably, early career, uh, serve, at
7 times, as a bailiff for the Manitowoc County
8 Circuit Court?

9 A No, sir, I don't think I've ever served as a bailiff.

10 Q All right. Uh, if -- if she says that you had,
11 she's simply mistaken?

12 A To my knowledge, I don't believe I served as a
13 bailiff.

14 Q Well, you would know, wouldn't --

15 A Right.

16 Q -- you? Okay. And you don't recall ever serving
17 as a bailiff --

18 A No. I don't recall.

19 Q -- at anytime? All right. Now, um, in 2002, uh,
20 you had moved into the Detective's Bureau about
21 four years before that?

22 A Yes, sir.

23 Q Okay. Uh, in 2002, while serving in the
24 Detective Bureau, you were, uh, something called
25 a designated evidence custodian for the entire

1 Department?

2 A I was an evidence custodian, yes.

3 Q And by evidence custodian, what that means, uh,
4 is that you had overall responsibility for
5 keeping custody or track of all evidence that the
6 Manitowoc County Sheriff's Department may have in
7 its possession?

8 A All evidence that was actually in the evidence room,
9 yes, sir.

10 Q Okay. And -- and we're going to explain that.
11 Your Department maintains an evidence room?

12 A Right.

13 Q Which is a locked area of the Sheriff's
14 Department?

15 A Yes, sir.

16 Q Only the custodian and probably the sheriff, or
17 somebody immediately under the sheriff, has a key
18 to that evidence room?

19 A Yes. There's actually, uh, myself, and another
20 officer, and the sheriff.

21 Q But it's -- it's a separate locked area within
22 the Department?

23 A That's correct.

24 Q You know, while any deputy may have a key to the
25 front door, so to speak, access to the evidence

1 room is closely limited?

2 A That's correct.

3 Q The custodian is one of a small number of people
4 with keys to that room?

5 A Correct.

6 Q There are also things called evidence lockers in
7 the Sheriff's Department?

8 A Yes, sir. They're called temporary evidence lockers.

9 Q And the way those are used is if somebody -- if
10 an evidence technician, or some other officer, is
11 out at a scene, collects one or more pieces of
12 evidence, for temporary safekeeping they will
13 bring those back and lock them in a temporary
14 evidence locker; correct?

15 A That's correct.

16 Q At the first reasonable opportunity to turn them
17 over to the evidence custodian, those items will
18 be turned over to the evidence custodian?

19 A Actually, those items are locked into the temporary
20 locker. That key is placed into a lock box which is
21 retrieved by the custodian who's able to do that.

22 Q And -- and the custodian actually, then, takes
23 the evidence out of the locker?

24 A That's correct.

25 Q All right. There's some paperwork completed to

1 document that chain of who's got their hands on
2 the evidence so to speak?

3 A That's correct.

4 Q Or who's responsible for it?

5 A Yes.

6 Q The evidence custodian prepares that paperwork to
7 document, you know, the evidence away from
8 tinkerers, to reverers, to chance?

9 A That's correct.

10 Q All right. And then the evidence goes into the
11 evidence room?

12 A Correct.

13 Q Where it's cataloged in some fashion, or some
14 record is kept of what shelf it's on, or its
15 location, and the door is locked?

16 A Correct.

17 Q That was your responsibility in 2002?

18 A Yes.

19 Q That's the year that a judge, uh, Judge
20 Hazlewood, of the Manitowoc County Circuit Court,
21 uh, signed an order that some evidence from the
22 1985 case against Mr. Avery should be transferred
23 to the State Crime Lab in Madison. Do you recall
24 that?

25 A Yes.

1 Q As part of that process, uh, evidence had to be
2 obtained from the 1985 file at the Clerk of
3 Court's Office?

4 A Correct.

5 Q Your best recollection is that you did not do
6 that directly?

7 A No, sir, I did not.

8 Q You think, perhaps, a deputy named Mike Shallue
9 was the person who went over to the Clerk's
10 Office to pick up the evidence?

11 A Yes, sir, he was.

12 Q You were the person who checked the evidence room
13 in the Sheriff's Department for any remaining
14 items from the 1985 case file against Mr. Avery?

15 A On that particular date?

16 Q In 2002.

17 A I think on that particular time I was -- just filled
18 out a transmittal form for the evidence that was in
19 the Clerk of Courts.

20 ATTORNEY KRATZ: Judge, I am going to
21 request a sidebar if we're going into this issue.
22 Or, perhaps, maybe a hearing outside the presence
23 of the jury might be more appropriate.

24 THE COURT: All right. Let's, uh, excuse
25 the jury for a few minutes.

1 (Jury out at 9:31 a.m.)

2 THE COURT: Mr. Kratz.

3 ATTORNEY KRATZ: Thank you, Judge. I am
4 going to interpose an objection. Uh, based upon
5 pretrial hearings, uh, this particular piece of
6 evidence, or the transmittal of this evidence, did
7 not include the blood vial. Mr. Strang knows that.

8 I believe that this is an intentional
9 attempt by Mr. Strang to mislead the jury. That
10 is to suggest that the blood vial was part of
11 this transmittal. It's not the blood vial. The
12 blood vial's not involved in this particular
13 transmittal, or if this witness had nothing to do
14 with the blood vial, it is irrelevant.

15 I'm asking for an offer of proof. I'm
16 asking that this Court make a ruling at this time
17 as to whether or not this is relevant. If it --
18 uh, if it is, and if Mr., uh, Strang has a good
19 faith belief as an officer of the court that, in
20 fact, the blood vial was part of any transmittal
21 or part of this witness', uh, connection to it,
22 uh, then I will happily withdraw my objection.
23 But --

24 THE COURT: Just a second.

25 ATTORNEY KRATZ: -- before --

1 THE COURT: Mr. Lenk, I'm going to ask
2 you to be excused from the courtroom as well.

3 ATTORNEY STRANG: That's fine. But it's
4 probably -- That's fine. It's not worth the
5 candle --

6 THE COURT: All right. I think the
7 victim/witness coordinator will --

8 THE WITNESS: Okay.

9 THE COURT: -- escort you out. Mr. --

10 ATTORNEY KRATZ: And --

11 THE COURT: -- Strang -- Oop, sorry.

12 ATTORNEY KRATZ: I'm sorry. And just --
13 just to conclude it, then, Judge, I am just
14 asking for, uh, that, uh -- that pretrial ruling.
15 And, if necessary, and before any, uh, further
16 contamination or infection of this jury, uh,
17 occurs, uh, with, uh, irrelevant evidence, uh,
18 I'm asking for a, uh -- a ruling by the Court.
19 An evidentiary ruling. That's all I have, Judge.
20 Thank you.

21 THE COURT: Are you -- are you referring to
22 the exhibit that I -- you just received a copy of?

23 ATTORNEY KRATZ: I suspect this is the
24 first of several, uh, exhibits where -- or at least
25 the first of, uh, a line of questioning where

1 Mr. Strang is going to ask, uh, about this
2 particular evidence which Mr. Strang knows, or
3 should know, uh, included some hair and some
4 fingernail clippings, and that was it.

5 Uh, if he has other information or
6 something that, uh, we haven't, uh, litigated ad
7 nauseum yet to this point, then I'd be, uh, very
8 happy to hear about that.

9 THE COURT: Mr. Strang?

10 ATTORNEY STRANG: I'm going to specifically
11 establish that the blood did not go to the Crime Lab
12 in 2002. That it's hair and fingernail cuttings
13 that went, and I'm going to explore, uh, Mr. Lenk --
14 I believe it would be Mr. Lenk's writing, he'll
15 acknowledge, that the items that were sent were
16 exhibits held by the court since the end of the
17 trial.

18 Not only I'm not going to suggest that
19 that blood went, I'm going to establish that the
20 blood was not sent to the Crime Lab because it
21 wasn't.

22 THE COURT: Uh, addressing the issue of
23 relevance, what is going to be the relevance of the
24 evidence?

25 ATTORNEY STRANG: In 2002, either Detective

1 Lenk, or someone working under his direction, went
2 to the court file, looked through it, extracted hair
3 and fingernail cuttings which were exhibits held by
4 the court since the end of the trial and were
5 contained in one box. These -- those were to be
6 tested for DNA procedures.

7 ATTORNEY KRATZ: Mr. Strang knows
8 District Attorney FitzGerald went through the
9 file and Mr. Shallue was nowhere there.

10 I want to know if there's going to be a
11 witness that connects the Manitowoc County
12 Sheriff's Department with that vial of blood.
13 That's my objection, Judge, because I think that
14 our pretrial hearings on this, the pleadings that
15 we have filed, uh, and the responses either by
16 Mr., uh, Strang, uh, admit exactly that chain of
17 events.

18 ATTORNEY STRANG: Well, I -- I don't know
19 at all, uh, that Mr. FitzGerald, to the exclusion of
20 Deputy Shallue, was there, um, in 2002. And,
21 indeed, um, I've got a report of Mr. Fassbender of
22 his interview with Lieutenant Lenk on December 8,
23 2006, where he tells Mr. Fassbender that from
24 looking at the documents and from his memory, Deputy
25 Shallue obtained the items from the Clerk of Court's

1 Office and brought them over to the Sheriff's
2 Department where Lieutenant Lenk prepared the
3 transmittal of criminal evidence.

4 So, in terms of a good faith basis, I've
5 got this witness saying the documents and his
6 memory suggest that's exactly what happened and
7 that, indeed, did former District Attorney
8 FitzGerald was not the only person in the clerk's
9 office or in that loop. If that's wrong, I guess
10 the witness can retract it.

11 THE COURT: Mr. Kratz?

12 ATTORNEY KRATZ: To retract what? A guess
13 as to what happened across the -- the street? This
14 witness can't clear up anything. Mr. Strang knows
15 that. If Mr. Strang interviewed Mr. Shallue, uh,
16 then, perhaps he can make that offer of proof. If
17 he didn't, I guess this Court might want to know
18 why. But not from this witness, Judge.

19 This witness cannot, by his own -- at
20 least where the state of the record is -- cannot
21 clear that up at all. My point in stopping it at
22 this point is I believe Mr. Strang knows that.

23 ATTORNEY STRANG: I -- I -- I know nothing
24 of the sort. And, indeed, relying on
25 Mr. Fassbender's report of his interview with

1 Mr. Lenk, Mr. Lenk is describing a memory that
2 Detec -- that Deputy Shallue obtained the items from
3 the Clerk of Court's Office.

4 THE COURT: All right. It's -- it's
5 actually Mr. Shallue, is the way you pronounce his
6 name.

7 ATTORNEY STRANG: Oh, thank you.

8 THE COURT: Um, all right. So the
9 testimony you're looking to elicit is that, uh,
10 Mr. Lenk was under the impression that Mr. Shallue
11 went to the clerk's office, picked up the items that
12 were transmitted for which Lenk signed, but they
13 didn't include the blood vial.

14 ATTORNEY STRANG: Correct. They included
15 hair and fingernail cuttings.

16 THE COURT: The question the Court has
17 is, um, the blood vial, I take it, is what's of
18 importance here. How does the -- how does the
19 evidence you're looking to elicit tie in,
20 somehow, to the blood vial?

21 ATTORNEY STRANG: One who goes through that
22 court file looking for boxes of physical evidence
23 should, or well may have seen, the box of physical
24 evidence that was marked Steven Avery's blood. You
25 know, I don't know whether Lieutenant Lenk himself

1 did or didn't go over to the clerk's office in 2002.
2 I expect he'll say he did not. But he's got Deputy
3 Shallue evidently doing that, going over and
4 examining this court file just four years ago, or
5 three years, before the relevant time.

6 THE COURT: Right. Um, I have some
7 notes of my own the last time this came up back
8 there in my chambers. I'm going to take just a
9 couple of minutes to go get them and then I'll
10 come back.

11 (Wherein the Court exits the courtroom)

12 THE COURT: As the Court, uh,
13 understands the line of questioning that the, uh,
14 defense wishes to undertake, uh, the defense is
15 hoping to establish that, uh, Mr. Lenk may have
16 gained knowledge of the existence of the blood
17 vial in the clerk's office through information he
18 may have received from Officer, uh, Shallue.

19 At this point, it's true, there's a lot
20 of unknowns as to whether the defense, uh, can
21 link that chain, uh, but, uh, the Court believes
22 that on cross-examination it's something that the
23 defense is entitled to attempt, and the, uh,
24 State can address it on, uh, redirect, uh, if it
25 wishes. So I'm going to allow the questioning.

1 ATTORNEY KRATZ: Judge, if -- if I may,
2 is -- is the Court, um -- is the Court allowing this
3 for the purpose of the existence itself of the vial
4 of blood in the clerk's office? In other words,
5 that this witness was aware that there was a vial of
6 blood in the clerk's office?

7 THE COURT: Well, if he says he was
8 aware of the existence of such vial -- vial, yes.
9 If he does not, then, no.

10 ATTORNEY STRANG: Well, it's a -- it's a --
11 it's a peculiar question, because Mr. Kratz's entire
12 last series of questions clearly implied the
13 existence of a vial of blood in the clerk's office.
14 Clearly im -- implied that it was available there,
15 and elicited from Mr. Lenk his denial that he ever
16 went to the clerk's office or obtained any blood
17 there. But --

18 THE COURT: I don't know that I would agree
19 with that characterization. The questions mentioned
20 a vial of blood and whether or not the witness was
21 aware of the existence of it. Uh, but at this point
22 in the trial, I don't think we've received any
23 evidence that there was such a vial.

24 Um, at any rate, I'm going to, uh, allow
25 the, uh, defense to, uh, pursue its line of

1 questioning. So at this point we can have the
2 witness brought in and the jurors can be brought
3 back in.

4 ATTORNEY KRATZ: Thank you, Judge.

5 (Jury in at 9:43 a.m.)

6 THE COURT: You may be seated. Mr. Strang
7 you may, uh, resume your cross-examination.

8 ATTORNEY STRANG: Thank you, Your Honor.
9 I, uh -- I will do that by marking, I think, Exhibit
10 214.

11 (Exhibit No. 214 marked for identification.)

12 Q (By Attorney Strang) Lieutenant Lenk, what is
13 Exhibit 214?

14 A It's a evidence transmittal form that goes to the
15 State Crime Lab.

16 Q Whose writing is on it?

17 A That is mine.

18 Q When did you prepare that evidence transmittal
19 form?

20 A September 19, 2002.

21 Q This relates to the 1985 case against Steven
22 Avery?

23 A Yes.

24 Q This is the, uh, evidence we were discussing just
25 before, uh, the break that Mr. Kratz requested?

1 A Yes.

2 Q All right. Now, uh, this is a form that you
3 would have prepared, or you did prepare, to
4 document, again, when a -- an item of evidence is
5 moving from place A to place B; correct?

6 A Correct.

7 Q And then if it comes back from place B to place
8 A, you would document that as well?

9 A If it came back to the evidence room, yes.

10 Q Correct. And this is part of something that you,
11 as an evidence custodian, or former evidence
12 custodian, know as maintaining the chain of
13 custody?

14 A Yes.

15 Q So, by chain, the -- the metaphor is that, uh,
16 from the moment you see or gather evidence, every
17 person who touches that evidence along the way is
18 a link in the chain and you want to make sure
19 that all the links are there?

20 A That's correct.

21 Q So that when the evidence comes to court, there's
22 an unbroken chain, if you will. All the links
23 are present, back to the time the evidence was
24 seized?

25 A That's correct.

1 Q This document, Exhibit 214, is a document
2 intended to establish one of those links,
3 essentially?

4 A That's correct.

5 Q Now, the items that were sent, uh, on or about
6 September 19, 2002, to the State Crime Lab, uh,
7 included hair and fingernail cuttings?

8 A That's correct.

9 Q It was one box of items containing those things;
10 correct?

11 A Correct.

12 Q To be tested by use of DNA procedures according
13 to a circuit court order; correct?

14 A Correct.

15 Q You did not transmit a vial of blood to the State
16 Crime Lab on September 19, 2002?

17 A I didn't transmit anything.

18 Q You didn't cause to be transmitted or document
19 the transmittal of a vial of blood on Exhibit
20 214?

21 A No, I had no knowledge of a vial of blood.

22 Q That is, sir, as evidence custodian, did you go
23 over to the Clerk of Court's Office to examine
24 that 1985 court file and take from it the things
25 that were to be sent to the State Crime Lab?

1 A No, sir, I did not.

2 Q You did not personally do that?

3 A No, sir.

4 Q Although you were the evidence custodian of the
5 Department?

6 A Correct.

7 Q But these items were exhibits held by the court
8 since the end of the trial?

9 A Yes, sir.

10 Q Which is exactly what you wrote on Exhibit 214;
11 correct?

12 A Correct.

13 Q So you were aware on September 19, 2002 that the
14 court was holding exhibits in Mr. Avery's earlier
15 case since the end of the trial?

16 A I was aware of this exhibit, yes.

17 Q Actually, you used the plural as exhibits;
18 correct? Presumably, you mean hair and
19 fingernail cuttings?

20 A Yes.

21 Q All right. When a, uh -- when a court pulls
22 evidence after a trial, where is that held?

23 A I don't know.

24 Q Suppose that's what the Clerk of Court does?

25 A I would -- Yes, I would guess so.

1 Q All right. Uh, who did you send over to the
2 Clerk of Court's Office to obtain the hair and
3 fingernail cuttings described in Exhibit 214?
4 A Sergeant Mike Shallue went over.
5 Q All right. I'm sorry, I -- I was calling him
6 deputy and I didn't mean to take him down a rank.
7 Uh, so to your knowledge, Sergeant Mike Shallue
8 went over to the Clerk of Court's Office;
9 correct?
10 A Correct.
11 Q Under your direction?
12 A Yes.
13 Q And then brought these items back to you in the
14 sheriff's office?
15 A No, sir, he did not.
16 Q How did you come to compare the form?
17 A The form was prepared and given to him before he went
18 to the Clerk of Court's Office.
19 Q So you didn't -- you were signing this form as a
20 transmittal of criminal evidence and didn't --
21 didn't document what he actually obtained or
22 sent?
23 A That's true.
24 Q Trusted -- entrusted him with the task?
25 A Him and the Court, yes.

1 Q And, then, presumably, that went off to the State
2 Crime Lab?

3 A Yes, sir.

4 Q Were you still the evidence custodian when it
5 came back?

6 A Yes. But I had no knowledge of when it came back.

7 Q Okay. Do -- do you even know that it did come
8 back?

9 A I don't know if it did come back.

10 Q You have no reason to doubt it?

11 A I would assume it came back. I don't know that.

12 Q So would I. I mean, but you just don't know one
13 way or the other. Um, in relation -- Well,
14 the -- the Sheriff's Department in Manitowoc
15 County, and let's use 2002 as our time reference,
16 September of 2002, uh, was located in the same
17 building that houses the jail?

18 A Correct.

19 Q Just south of -- What is it? Eighth and
20 Washington?

21 A Actually, it's on Ninth Street.

22 Q Or between Ninth and Eighth?

23 A Ninth and Eighth.

24 Q Okay. But south of Washington Street, if I have
25 my directions right?

1 A Yes, sir.

2 Q All right. And what's that -- what's that large
3 building that stands just to the north of the
4 Sheriff's Department and the jail, I don't know,
5 50 yards to the north or something?

6 A It's the courthouse.

7 Q Right across, sort of, a courtyard or a --
8 there's a -- some walkways or a monument there?

9 A Yes, sir.

10 Q And where is the Clerk of Court's Office?

11 A Would be on the first floor.

12 Q Of the courthouse?

13 A Yes, sir.

14 Q Now, you were interviewed by the gentleman over
15 farthest to the right in the back, uh, Special
16 Agent Tom Fassbender, uh, on December 8, 2006.
17 Does that sound right?

18 A Sounds about right, yes.

19 Q Uh, you knew that a question had been raised
20 about this vial of blood that Mr. Kratz referred
21 to?

22 A I was informed that day by Agent Fassbender that the
23 blood vial existed.

24 Q And he wanted to ask some questions of you about
25 that blood vial?

1 A Yes.

2 Q Explained to you that an issue had been -- had
3 been raised about integrity of this
4 investigation?

5 A Yes.

6 Q Uh, and you wanted to answer his questions?

7 A Yes.

8 Q You wanted to answer them truthfully?

9 A Yes.

10 Q To clear up any questions about the blood vial or
11 the integrity of the investigation?

12 A Correct.

13 Q You would be truthful, in any event, when
14 answering the law enforcement officer's
15 questions?

16 A Is that a question, sir?

17 Q Yes.

18 A Yes, I would.

19 Q Uh, lying to a law enforcement officer who's
20 performing his duties is, itself, a crime --

21 A Yes.

22 Q -- in the state of Wisconsin? Sir, you are --
23 you told Special Agent Fassbender on -- on
24 December 8 that, um -- that you had filled out
25 this Evidence Transmittal Form? Exhibit 214?

1 A Correct.

2 Q Just as you told us today, uh, that you wrote on
3 the transmittal form that, uh, the exhibits had
4 been held by the court since the end of the
5 trial?

6 A That's what I was told. Yes.

7 Q That's what you told Special Agent Fassbender?

8 A Correct.

9 Q And, uh, you -- you told him -- you told Special
10 Agent Fassbender, as well, that, uh, it was your
11 memory that -- that, uh, Sergeant Shallue had
12 obtained the items from the clerk's -- Clerk of
13 Court's Office and transmitted them from there?

14 A That's correct.

15 Q Were you interviewed just about a month later,
16 um, by an Investigator Steier from the Calumet
17 County Sheriff's Department?

18 A Could be. I don't -- I believe so. I'm not sure.

19 Q Which -- which part are you not sure about?

20 A I'm not sure of the date. I know I did talk to
21 Investigator Steier.

22 Q Fair enough. Um, I'll show you -- I guess I'll
23 mark this, but I'm just going to use this to try
24 to refresh your recollection.

25 (Exhibit No. 215 marked for identification.)

1 Q (By Attorney Strang) I suggest the date of that
2 interview may have been January 11, 2007, but I
3 will show you Exhibit 215 just to see whether or
4 not it refreshes your recollection about
5 Investigator Steier interviewing you?

6 A Yes, sir, it does.

7 Q Was that interview in person?

8 A Yes, sir.

9 Q Investigator Steier also, obviously, is a law
10 enforcement officer?

11 A Yes, sir, he is.

12 Q And on January 11, 2007, did you tell
13 Investigator Steier that you had no idea the
14 Steven Avery file was kept in the Manitowoc
15 County Clerk of Court's Office?

16 A I didn't know there was a file over there, no. All I
17 knew about is what I had sent out. I didn't know
18 there was a file there.

19 Q You didn't know there was a file, but you knew
20 that there were exhibits from the file?

21 A I didn't know there were other exhibits over there
22 other than the one that I had dealt with.

23 Q So you thought that perhaps the hair and
24 fingernail cuttings were the -- the only exhibits
25 that the court had held since the end of the

1 trial?

2 A I didn't know.

3 Q I mentioned earlier that you're, in terms of
4 rank, probably the fourth ranking person today in
5 the Sheriff's Department?

6 A I'm one of four lieutenants that is fourth ranking,
7 yes.

8 Q Okay. And -- and that's where I was going.
9 You're fourth in terms of rank, but some of the
10 positions above you or parallel with you have
11 more than one person filling or with that rank;
12 correct?

13 A Yes.

14 Q So that -- In other words, there may be two
15 deputy inspectors?

16 A Correct.

17 Q Both of whom outrank you?

18 A Correct.

19 Q You're one of four lieutenants?

20 A Yes, sir.

21 Q But are you part of the scene or management team
22 of the Sheriff's Department?

23 A I'm not sure I understand your question.

24 Q Okay. And I -- it may -- that may not be a term
25 you -- you folks use. So let's start with, are

1 you -- are you part of management, so to speak?

2 A Yes.

3 Q Uh, are you included in meetings about the
4 overall operation of the Department?

5 A Not most of the time, no, sir.

6 Q Simply responsible, most of the time, for the
7 operation of the Detective Bureau?

8 A That's correct.

9 Q You are the only lieutenant of detectives?

10 A Yes, sir.

11 Q Do you know, as you sit here today, Lieutenant
12 Lenk, uh, how many keys the Manitowoc County
13 Sheriff's Department has to the Clerk of Court's
14 Office?

15 A No, sir, I have no idea.

16 Q Do you know that the Sheriff's Department is
17 responsible for security in the Manitowoc County
18 Courthouse?

19 A Yes, sir.

20 Q That courthouse, of course, includes the Clerk of
21 Court's Office; right?

22 A Correct.

23 Q And a number of other offices in the courthouse?

24 A Correct.

25 Q The Sheriff's Department has overall

1 responsibility for security in that entire
2 building?

3 A Yes, sir.

4 Q And its offices?

5 A Correct.

6 Q To maintain security, or to discharge that duty,
7 the Sheriff's Department needs access to the
8 courthouse?

9 A Correct.

10 Q Needs access to all the offices in the
11 courthouse?

12 A Yes.

13 Q Has one or more master keys to your knowledge?

14 A I would assume so. I have no idea.

15 Q And, in any event, you don't know how many such
16 master keys your Department may have?

17 A That's correct.

18 Q I want to move to Mr. Avery's civil lawsuit, all
19 right? Uh, and the backdrop on that is -- is
20 Mr. Avery being released from prison. You
21 remember that?

22 A Yes, sir.

23 Q That made big news?

24 A Yes, it did.

25 Q 2003?

1 A Yeah, I believe it was 2003.

2 Q Uh, and by "big news" I mean, this was something
3 that was on the televisions?

4 A Yes, it was.

5 Q You recall it being in the newspapers?

6 A Yes, sir.

7 Q You recall the newspapers, uh, shining a light,
8 so to speak, on your Department?

9 A Yes, sir.

10 Q Examining the way that earlier conviction had
11 been handled?

12 A Correct.

13 Q You understood that your Department had been the
14 investigating agency in the 1985 case?

15 A Yes, sir.

16 Q You understood that that investigative process
17 led to serious charges being brought against
18 Mr. Avery?

19 A That's correct.

20 Q Ultimately, led to his conviction?

21 A Correct.

22 Q And that it turned out he hadn't committed the
23 crimes?

24 A According to the release, yes, apparently he had not.

25 Q Do you have any question about that?

1 A No, sir, I don't.

2 Q Any doubt in your mind about whether Mr. Avery
3 was innocent of the crimes for which he was
4 convicted?

5 A No, sir, I have no knowledge of the case. I would
6 not hazard a guess one way or the other.

7 Q Simply a matter on which you have no opinion?

8 A Pretty much.

9 Q Is this another one of these things that you
10 didn't care about one way or another?

11 A I would say other than the fact that it involved my
12 Department, I really didn't care one way or the
13 other.

14 Q Okay. And that was a phrase you -- you recall
15 using just yesterday when Mr. Kratz asked you how
16 you felt about or what you cared about
17 Mr. Avery's lawsuit?

18 A Correct.

19 Q Now, you remember -- not the exact time, of
20 course -- but you remember the general event of
21 Mr. Avery filing a civil lawsuit?

22 A Yes, sir.

23 Q Filed it against Manitowoc County?

24 A Yes.

25 Q Relating to the actions of the Manitowoc County

1 Sheriff's Department?

2 A Yes, sir, I believe that's what it was.

3 Q That is a sheriff's office in the state of
4 Wisconsin as a county office; correct?

5 A Yes.

6 Q Uh, so you understood that the lawsuit put in
7 issue the actions of your Department?

8 A Yes.

9 Q Did you care when that lawsuit was filed?

10 A I'm not exactly sure what you mean by that, sir.

11 Q Did you care about the lawsuit being filed?

12 A No, sir, I did not.

13 Q Didn't care at all that the county was being sued
14 over the actions of your Department?

15 A I didn't have any involvement in the case and I
16 really didn't have an opinion one way or the other.

17 Q And you didn't care one way or the other who won
18 the lawsuit, if I understood your testimony?

19 A I didn't say anything about caring who won or not, I
20 just said I didn't really care about the lawsuit.

21 Q Didn't care about the lawsuit. If you didn't
22 care about the lawsuit, then I guess you didn't
23 care one way or the other who won or lost?

24 A No, sir.

25 Q You didn't or -- or are you agreeing or --

1 A No, sir, I didn't care one way or the other.

2 Q All right. And do I understand you to be saying
3 that you didn't care one way or the other, then,
4 whether someone who had been wrongfully convicted
5 got some compensation for that?

6 A I felt if he was wrongly convicted then, yes, he
7 should have some compensation.

8 Q Then how is it that you didn't care one way or
9 the other?

10 A I didn't really have a strong opinion one way or the
11 other.

12 Q All right. But if he happened to get some
13 compensation, that would be all right for you?

14 A That would be fine.

15 Q All right. Uh, do you think somebody who goes to
16 prison for a long time for a crime he didn't
17 commit ought to get some compensation?

18 A I believe so.

19 Q But you didn't have a strong opinion about that
20 one way or the other?

21 A No, sir.

22 Q Uh, did you have a strong opinion one way or the
23 other about the fact that the man your Department
24 missed back in 1985 was out free on the streets
25 because Mr. Avery was doing his time?

1 ATTORNEY KRATZ: Objection, relevance, Your
2 Honor.

3 THE COURT: Uh, Mr., uh, Strang?

4 ATTORNEY STRANG: I'm -- I'm exploring
5 his attitudes about the lawsuit and its
6 consequences.

7 ATTORNEY KRATZ: This isn't a consequence
8 of the lawsuit at all, Judge.

9 THE COURT: Yeah. I'm going to sustain the
10 objection.

11 Q (By Attorney Strang) Do you care one way or the
12 other, Lieutenant Lenk, about whether your
13 Department gets the right guy in a criminal
14 investigation?

15 A Definitely.

16 Q That you do care about?

17 A Yes, sir.

18 Q And what's your preference?

19 A I'm not sure what your question is, sir.

20 Q Well, since you cared about whether they do or
21 don't get the right guy, what's your preference?

22 A My preference is you always try to get the right
23 person.

24 Q Now, this was the lawsuit that eventually led to
25 your deposition?

1 A Yes, sir.

2 Q Your deposition on, I think, October 11, 2005?

3 A I believe that's the date. I'm not positive.

4 Q I won't even bother to mark this, but I don't
5 want to have you have any questions about it.
6 I'm showing you the transcript of your
7 deposition. What's the date of that deposition?

8 A October 11, 2005.

9 Q That's you with your picture on the front?

10 A Yes, sir.

11 Q Lieutenant Lenk, was October 11, 2005, the first
12 time you had ever had your deposition taken?

13 A Regarding this lawsuit?

14 Q Regarding anything.

15 A No, sir. I believe I've had done it at least once
16 before.

17 Q Had -- had a deposition before. All right. Uh,
18 this was, though, something unusual for you?

19 A Yes.

20 Q You were subpoenaed?

21 A Is that a question, sir, or --

22 Q Yes.

23 A Yes, I was.

24 Q And, uh, you asked, uh -- or you were asked a
25 number of questions?

1 A That's correct.

2 Q You under -- you un -- you understand that this
3 process here that we're doing, I'm the one asking
4 questions? So I'm speaking to you. I'm asking
5 you a question?

6 A Yes, sir.

7 Q Okay. And you're providing answers?

8 A Yes, sir, I am.

9 Q Uh, you provided answers at the deposition in
10 much the same format, didn't you?

11 A Yes, sir, I did.

12 Q And I think you told us that one -- sort of the
13 major topic of this deposition was the telephone
14 call that Sergeant Colborn, in fact, when he was
15 in the jail, had received some years earlier?

16 A That's correct.

17 Q Sergeant Colborn told you about that telephone
18 call, didn't he?

19 A Yes, in 2003.

20 Q That is, he told you about it on the very day of
21 Steven Avery's release or the very next day,
22 didn't he?

23 A I don't recall. It could have been, yes.

24 Q But you all were having a conversation about
25 Mr. Avery being released from prison; right?

1 A I don't know if we were having a conversation about
2 that specifically, no.

3 Q But, in any event, uh, whether there was a
4 conversation or not, uh, Officer Colborn had
5 given you this information, uh, and you thought
6 it may or may not be relevant?

7 A That's correct.

8 Q And, uh, you should -- you -- you told Officer
9 Colborn he ought to pass it along to the sheriff?

10 A Yes, sir.

11 Q And the two of you went to Sheriff Peterson
12 together about it?

13 A Yes, sir, I believe we did.

14 Q And, uh, Sheriff Peterson suggested that maybe
15 the two of you ought to prepare a short report or
16 statement about that?

17 A That's correct.

18 Q You prepared that statement on September 12,
19 2003?

20 A I believe it was that same day, yes.

21 Q Do you recall that, or do you not, as being the
22 day after Steven Avery was released from prison?

23 A I don't specifically recall if that was the same day.

24 Q Did you consider the possibility that you might
25 be added as a defendant to that civil lawsuit?

1 A No, sir, I did not.

2 Q Never crossed your mind?

3 A No, sir.

4 Q Now, Teresa Halbach. It's November 3, 2005 when
5 you first learned that she is missing?

6 A That's correct, sir.

7 Q She's reported missing by another county? Not
8 Manitowoc County?

9 A Yes, it was Calumet County.

10 Q The adjoining county, but a different county
11 altogether?

12 A That's correct.

13 Q Uh, this is, at that point, their missing person
14 investigation?

15 A Yes, sir.

16 Q You at -- at the time, November 3, 2005, uh, were
17 then, as you are now, the chief detective, if you
18 will, for Manitowoc County?

19 A Lieutenant of detectives, yes, sir.

20 Q That is in charge of all of the other detectives
21 in the Manitowoc County Sheriff's Department?

22 A Correct.

23 Q You also have some duties as a detective yourself
24 in the field, so to speak?

25 A Yes, sir.

1 Q Is it true, sir, that within two hours after that
2 missing person report to Calumet County, you, on
3 your own, were calling Investigator Mark Wiegert
4 asking about it?

5 A No, sir, that's not true.

6 Q Well, how did you learn about it?

7 A Investigator Wiegert called me and told me that he
8 needed assistance.

9 Q I'm saying Investigator Wiegert --

10 (Exhibit No. 216 marked for identification.)

11 ATTORNEY KRATZ: I'm sorry. Could we
12 approach, please?

13 (Discussion off the record.)

14 Q (By Attorney Strang) When you say Investigator
15 Wiegert, you're -- you're referring to the
16 gentleman behind me with the neatly trimmed
17 goatee?

18 A Yes, sir.

19 Q You know him to be one of the two lead case
20 investigators on this investigation?

21 A Yes, sir.

22 Q Had you known Investigator Wiegert before, uh,
23 Ms. Halbach was reported missing?

24 A I had met him on a couple of occasions, yes, sir.

25 Q Professionally?

1 A Professionally, yes, sir.

2 Q Some collaboration between your two departments
3 is not unusual?

4 A That's right.

5 Q Because you're adjoining counties?

6 A Correct.

7 Q And you're quite sure that it was Investigator
8 Wiegert who called you, not the other way around?

9 A All I know is that I did talk to Investigator
10 Wiegert. I don't know who called who --

11 Q Oh.

12 A -- at this point.

13 Q All right. So if Investigator Wiegert says that
14 you were the one who called him, you're now
15 prepared to accept that?

16 A I would have had to had some reason to call him. Uh,
17 I may have been paged by dispatch or some other
18 reason, but that would have been the reason --

19 Q May have --

20 A -- I would have called him.

21 Q -- may have heard about this missing person from
22 Detective Remiker? Someone else under you?

23 A That's possible.

24 Q All right. It is possible, then, that you were
25 the one who placed the call to Investigator

1 Wiegert?

2 A That's possible.

3 Q You wouldn't disagree with him if that's the way
4 he put it on paper?

5 A If that's how he put it on paper, he's probably
6 right.

7 Q While we're on that subject, could -- did I
8 understand you correctly that -- I'm jumping
9 ahead here a couple of days to November 5 -- that
10 it was your understanding that Calumet County
11 Sheriff's Department would write all the reports
12 in this case?

13 A Yes, sir, that was my understanding.

14 Q How many Manitowoc County sheriff's officers were
15 involved in this investigation?

16 A There were a number of officers involved.

17 Q A number. Meaning over a dozen probably?

18 A I don't know. I don't know the exact number.

19 Q Well, you were out at the Avery property
20 yourself, weren't you, from November 5 through at
21 least November 9?

22 A Yes, sir.

23 Q During, essentially, all of your working hours?

24 A Yes, sir.

25 Q Did you see more than a dozen of your fellow

1 officers from Manitowoc there?

2 A I know there was a lot of them out there. I don't
3 know if it's more than a dozen, you know.

4 Q You've described working directly with at least
5 two of them; right?

6 A Correct.

7 Q Sergeant Colborn and Detective Remiker?

8 A Correct.

9 Q You -- you people were actively searching
10 buildings, cars, garages, all sorts of places on
11 that property?

12 A Yes, sir.

13 Q You were identifying evidence?

14 A Yes, sir, we were attempting to identify evidence.

15 Q You interviewed people?

16 A I think the only interview was on the fourth with
17 Mr. Avery.

18 Q That -- in which you personally participated?

19 A Yes, sir.

20 Q And it was your understanding that you weren't
21 going to prepare any reports as a -- as a
22 Department about any of that?

23 A We were told when we were assigned to do searching to
24 let them do the report writing, to take the evidence,
25 and, basically, we're -- we were just there as

1 support to do the searching.

2 Q Have you ever been involved in an investigation
3 before in which it was decided beforehand that
4 you would not write reports about what you were
5 doing?

6 A No, sir.

7 Q Have you been involved in one since when it was
8 decided you would not write reports about what
9 you were doing?

10 A No, sir.

11 Q You understand that when you write a report,
12 you're committing yourself to paper on what the
13 facts are that are described in the report? You
14 understand that, don't you?

15 A That's correct.

16 Q And if you don't write a report, I guess you're
17 not committed to any version of the facts, are
18 you?

19 A We're committed to the facts. We just didn't write
20 the reports.

21 Q Ah. But how would one know what it is that you
22 say the facts are if you haven't put them down on
23 paper? How would we learn that?

24 A From the officer that wrote the reports.

25 Q From the officer who wrote the reports or by

1 hearing you testify in court?

2 A That's correct.

3 Q Well, as it happens, you eventually did prepare
4 something of a report here, didn't you?

5 A Yes, sir, I did.

6 Q A page or two?

7 A I believe it was a page, yes.

8 Q Now, you mentioned just a moment ago the
9 November 4 interview with Mr. Avery?

10 A Yes, sir.

11 Q This is the morning after Ms. Halbach has been
12 reported missing?

13 A Yes, sir.

14 Q And you, personally, as the lieutenant of
15 detectives, took it upon yourself to go out and
16 interview Mr. Avery?

17 A As I had said before, we were requested by
18 Investigator Wiegert to go out and reinterview
19 Mr. Avery.

20 Q Did Mr. Wiegert request that you, personally, go
21 out and interview Mr. Avery?

22 A I don't recall. I don't -- I don't recall if it was
23 specific or just asked someone to go out and
24 interview him.

25 Q All right. And you decided that one of those

1 people would be you?

2 A Yes, sir.

3 Q And, then, you took Detective Remiker with you?

4 A Yes, sir.

5 Q He's a detective working under you, obviously?

6 A Yes.

7 Q Experienced detective?

8 A Yes.

9 Q Uh, number of years of service as a detective in
10 the Manitowoc County Sheriff's Department?

11 A I don't know how many years he's got. Probably three
12 or four.

13 Q Was he capable of, uh, interviewing somebody at
14 10:30 on a Friday morning?

15 A More than capable, yes, sir.

16 Q At that point, uh, Steven Avery was just a person
17 of interest?

18 A Yes, sir.

19 Q So the two of you went out to Mr. Avery's?

20 A Yes, sir.

21 Q He was cooperative?

22 A Yes, he was.

23 Q Uh, when Detective Remiker asked if you folks
24 could take a walk through his house, he said,
25 sure, or words to that effect?

1 A Correct.

2 Q Gave you his consent, as they say?

3 A Yes, sir.

4 Q You walked through the entire house quickly?

5 A Detective Remiker walked through the house, yes, sir.

6 Q You stayed outside?

7 A I stayed in the living room with Mr. Avery.

8 Q Did you have any information on the morning of

9 November 4 about the, uh -- the sort of car that

10 Ms. Halbach was driving when last seen at least?

11 A I believe, uh, we had the information that it was a

12 Toyota Rav 4.

13 Q Did you have a license plate number?

14 A I didn't. No, sir. I don't recall having a license

15 plate number.

16 Q All right. You don't know if anyone else did or

17 did not?

18 A No, sir.

19 Q You worked, though, a number of years in the road

20 patrol division yourself?

21 A Yes, sir, I did.

22 Q It was common, uh, in road patrol to call in a

23 license plate?

24 A Yes, sir.

25 Q That might be a traffic stop; correct?

1 A Correct.

2 Q Where -- where you would then call into dispatch
3 with the license plate that you were seeing and
4 dispatch could tell you to whom the plate was
5 registered?

6 A Correct.

7 Q Dispatch could also tell you what car the plate
8 ought to be on?

9 A Yes, sir.

10 Q And this would be done, typically, over the
11 radio?

12 A Yes, sir.

13 Q Road patrol officers have a radio unit in their
14 car? Their squad car?

15 A Correct.

16 Q And then, also, have a collar mike?

17 A Some wear the collar mike, yes.

18 Q Some do. Others have a portable?

19 A That's correct, sir.

20 Q But -- but all of the road patrol officers have
21 both a radio in the squad car and some sort of
22 portable radio that goes with them?

23 A That's correct.

24 Q Typically, when you're calling in a license
25 plate, you would use the radio when you're on

1 duty?

2 A Yes, sir.

3 Q A radio, uh, though, is something that citizens,
4 if they have a police scanner, can overhear?

5 A Yes, sir, if it's a regular frequency, yes.

6 Q Right. I mean, it's -- it's -- it's a -- a
7 broadcast frequency?

8 A Correct.

9 Q I want you to -- to listen to Exhibit 212.

10 ATTORNEY KRATZ: I'm sorry, Judge. Is
11 this -- is this witness involved in this call? If
12 not, it will be hearsay.

13 ATTORNEY STRANG: I -- I'm not offering it
14 for the truth.

15 ATTORNEY KRATZ: Then what's the relevance,
16 Judge?

17 THE COURT: Um --

18 ATTORNEY STRANG: First of all, I can't get
19 it to make noise at all.

20 THE COURT: All right. It's, uh, 10:30.
21 Let's do this; uh, we'll take our morning break at
22 this time. Uh, the jury can be excused. Uh,
23 members of the jury, do not discuss this case, uh,
24 during the break. Uh, we'll resume in approximately
25 15 minutes.

1 (Jurors out at 10:25 a.m.)

2 THE COURT: The record should reflect at
3 this time the court jury is outside of the courtroom
4 and I've ex -- excused the witness as well. Uh,
5 Mr. Kratz? Uh, just -- I -- I assume that what,
6 Mr. Strang, you're about to play is the, um, radio
7 transmission involving Mr. Colborn, uh, confirming a
8 plate number?

9 ATTORNEY STRANG: Well, um, yes and no.
10 I'm -- What I'm trying to establish here is that
11 this is not a radio transmission, but this is a
12 telephone call.

13 THE COURT: All right. And the purpose for
14 which you're offering it?

15 ATTORNEY STRANG: Um, the -- the purpose is
16 to show that the ordinary thing, if one is on duty,
17 would have been to use the radio, not a telephone,
18 for such an inquiry.

19 THE COURT: Okay. Are you going to ask the
20 witness whether it was standard practices or
21 something to that effect?

22 ATTORNEY STRANG: I al -- that I think I
23 already -- I just did, I believe.

24 THE COURT: Okay. Mr. Kratz?

25 ATTORNEY KRATZ: And I think he has. If

1 that's the only purpose, he can ask him: Isn't
2 it typical to, uh -- to use the radio? He
3 already played this for Mr. Colborn. With this
4 witness, it is, in fact, hearsay, uh, and we're
5 objecting.

6 ATTORNEY STRANG: I just need to identify
7 it as a -- as a phone call not a -- not a radio
8 call. Uh, that probably could be done without
9 playing the whole thing that is --

10 THE COURT: You're going to ask this
11 witness to confirm it was a -- was a telephone call
12 and not a radio call?

13 ATTORNEY STRANG: Correct.

14 THE COURT: How's he going to know that?

15 ATTORNEY STRANG: Oh, I can raise some
16 foundation on the taping system there and I
17 suppose he should know it because of the ringing
18 sound at the beginning.

19 THE COURT: Oh.

20 ATTORNEY STRANG: Or the way the dispatcher
21 answers the phone.

22 THE COURT: All right. Mr. Kratz?

23 ATTORNEY KRATZ: There's probably some
24 reason he didn't do this with Mr. Colborn when it
25 was played to him. I don't know what. So he can

1 play it again? I -- I don't understand, Judge. If
2 he has some specialized knowledge in listening to
3 telephone calls versus radio --

4 THE COURT: Well, we won't know until we
5 hear the witness' answer whether he knows it or not.
6 Um, so I -- um, may be that I -- I believe that
7 they're entitled to ask the question.

8 Uh, I also wanted to put on the record
9 that, uh, we did hold a brief, uh, sidebar, uh,
10 during the -- Mr. Lenk's testimony requested by
11 Mr. Kratz. That involved, uh, an anticipated
12 hearsay exception that I believe did not develop
13 because of the nature of the questioning which
14 followed.

15 Uh, that's the type of discussion that,
16 really, the appeals courts tell us we're not
17 supposed to have in a sidebar. So I'm going to
18 ask the attorneys at this point, if you've got
19 some short procedural matters that you want to
20 ask the Court to deal with, that doesn't require
21 excusing the jury, I'll entertain that during the
22 sidebar and make a record of it later. Uh, but
23 if it's going to be a substantive, uh, objection
24 of some kind or something, uh, even though it may
25 slow us down a bit, I'm going to ask that you ask

1 if we can excuse the jury, and then I'll hear you
2 outside the presence of the jury.

3 ATTORNEY KRATZ: We'll do that, Judge.

4 ATTORNEY STRANG: Agreed. Thank you.

5 THE COURT: All right. We'll resume at,
6 uh, 10 to 11 on that clock.

7 (Recess had at 10:29 a.m.)

8 (Reconvened at 10:52 a.m.; jurors present.)

9 THE COURT: Do we have, uh, Mr. Lenk
10 available? Mr. Strang, you may resume your
11 questioning.

12 ATTORNEY STRANG: Thank you, Your Honor.

13 Q (By Attorney Strang) Lieutenant Lenk, when we
14 took our break, I think you had just explained to
15 the jurors that, uh, certainly the typical
16 procedure in calling in a license plate check
17 would be for the road patrol officer to use the
18 radio?

19 A That's correct, sir.

20 Q Now, are you familiar with the -- the taping
21 system on telephone lines at the Sheriff's
22 Department?

23 A Vaguely familiar, yes.

24 Q Okay. You know that dispatch radio traffic is
25 tape recorded? All of it? The radio traffic?

1 A Yes, sir.

2 Q All right. Some of the telephone lines that the
3 dispatchers answer also are tape recorded?

4 A Yes, sir.

5 Q That's not something known by every officer in
6 the Department?

7 A I wouldn't know if they all know about it. I mean,
8 the majority probably know about it.

9 Q Okay. Something you've learned in your
10 management position?

11 A Yes.

12 Q Now, I'm going to -- I'm going to play Exhibit
13 212 for you. Uh, your voice is not on here.
14 We've heard testimony about this. But I -- I
15 want you to listen to whether you can identify,
16 uh, whether this appears to be a radio call or a
17 call on a telephone line. Okay?

18 A Yes, sir.

19 (Where in recording is played.)

20 "Manitowoc County Sheriff's Department.

21 This is Lynn."

22 "Lynn."

23 "Hi, Andy.

24 (Unintelligible) "Henry 582. See if it
25 comes back (unintelligible).

1 (Unintelligible) "Henry 582. I -- I
2 (unintelligible) All righty. Do you speak any
3 Spanish there, Andy?"

4 "No."

5 "I just got a call (unintelligible) call
6 me back. (Unintelligible) If I get in trouble,
7 Andy, I get in trouble. You know, what am I
8 supposed to do?"

9 "Well --

10 "My -- my favorite one is in the city of
11 Manitowoc. It is. Um, okay. Shows that she's a
12 missing person. And it was to Teresa Halbach."

13 "Okay."

14 "Okay. That's what you're looking for,
15 Andy?"

16 "'99 Toyota?"

17 "Yep."

18 "Okay. Thank you."

19 "You're very welcome. Bye-bye."

20 Q Okay. First of all, did you -- did you recognize
21 the voices?

22 A Yes, sir, I did.

23 Q Lynn is a dispatcher at the Sheriff's Department?

24 A That's correct.

25 Q Andy is Andy Colborn?

1 A Yes, it sounded like Andy Colborn.

2 Q Sergeant Andy Colborn?

3 A Yes.

4 Q And were you able to tell, in listening to

5 Exhibit 212, this -- this sounds like a -- a

6 routine license plate check?

7 A It sounds like a license plate check. Uh, it sounded

8 like it was over the telephone.

9 Q Okay. Not over the radio?

10 A No, sir.

11 Q Okay. Now, if -- if it's over the telephone,

12 this is, in a sense, private from anybody with a

13 police scanner?

14 A Yes, sir.

15 Q When you're off duty, uh, in the road patrol

16 division, I take it you do not carry a police

17 radio?

18 A I don't. No, sir.

19 Q Others don't either?

20 A I wouldn't know if everybody doesn't.

21 Q Okay. Well, the -- the -- the, uh, portable

22 radios are Sheriff's Department equipment?

23 A Yes, sir, they are.

24 Q They're not to be taken home ordinarily?

25 A Uh, they can be taken home. There's chargers that

1 are kept at home also.

2 Q In case you get called in from home?

3 A That's correct.

4 Q All right. Squad cars are not taken home?

5 A No, sir.

6 Q So, obviously, the radio in the squad car
7 wouldn't -- wouldn't be available to somebody,
8 uh, when he's off duty?

9 A No, sir.

10 Q Now, um, let's go back to November 5. You, um --
11 you get a call while you're off duty, uh,
12 sometime that morning?

13 A Yes, sir.

14 Q And, uh, you, uh, tell your wife you're sorry but
15 you got to go in to work?

16 A That's correct.

17 Q There's -- there's this stop at Wendy's, um, on
18 the way?

19 A Yes, sir.

20 Q And, um, from Wendy's, essentially, you go home
21 and then off to work?

22 A That is correct, sir.

23 Q Now, what you testified, uh, yesterday, as I
24 understood you, is that you arrived at the Avery
25 salvage property just shortly after 2:00, 2:05 or

1 something like that?

2 A That's correct, sir.

3 Q That was your testimony? That's your best
4 recollection?

5 A That was my recollection after reviewing some tapes
6 from dispatch.

7 Q I see. Uh, tapes like the ones we just listened
8 to?

9 A Yes. These would have been radio logs.

10 Q As opposed to telephone line tapes like this?

11 A Correct.

12 Q You can tell the difference between a -- a radio
13 tape and a telephone tape?

14 A I can't, but I -- it would be on the way it's handled
15 as far as, uh, calling you, using your call numbers
16 as opposed to --

17 Q Right. I mean, so, in effect, you can tell the
18 difference if you're listening to a tape?

19 A Right.

20 Q First of all, any number of people could be
21 calling in and conversing with the dispatcher?

22 A Correct.

23 Q You folks use your squad numbers?

24 A We use our employee numbers.

25 Q Or a -- a three-digit number?

1 A Correct.

2 Q Um, and in that radio traffic, you -- you -- we
3 sometimes hear the, uh, term "I'm in code." Are
4 you familiar with that term?

5 A Yes, sir.

6 Q What does that mean?

7 A It's a separate radio frequency that is not normally
8 monitored by the general public.

9 Q But what -- we're hearing it while the person's
10 in code, or is that telling the dispatcher to go
11 to a separate radio frequency?

12 A That's telling the dispatcher to go to a separate
13 frequency.

14 Q And is that frequency also taped?

15 A Yes, sir, I believe it is.

16 Q Now, so you -- you had a chance to review some of
17 this radio traffic on the tapes?

18 A No, sir, I didn't review it. I just -- times.

19 Q I'm sorry?

20 A I just didn't review the tapes. All I did review is
21 the time that I arrived.

22 Q All right. That -- that helped you decide that
23 probably 2 or 2:05, somewhere in there, you
24 arrived at the Avery property?

25 A Correct. The tape actually -- or the report actually

1 said 2:06.

2 Q The, uh, subject of when you arrived, uh, at the
3 Avery property that day has, uh -- has come up
4 before in this case, hasn't it?

5 A Yes, sir.

6 Q In fact, you've given testimony about that very
7 topic before?

8 A Yes, sir.

9 Q You gave testimony under oath back on August 9,
10 2006?

11 A I believe that was the date, yes.

12 Q In any event, you remember one event, a hearing
13 in which you were under oath?

14 A Correct, sir.

15 Q Now, the oath, of course, was the same you took
16 today?

17 A Correct.

18 Q And were you asked on that occasion, uh, the
19 follow questions and did you give these answers?

20 ATTORNEY STRANG: Page 197, Counsel.

21 Q (By Attorney Strang)

22 "And did you, in fact, arrive at the
23 Avery property?"

24 Your answer: "Yes."

25 "Question: Do you know what time?"

1 "Answer: I'm not sure of the exact
2 time. Somewhere, 6:30 or 7 that evening. I'm
3 not positive."

4 Were you asked those questions and did you give
5 those answers?

6 A Yes, sir, I did.

7 Q I'm sorry?

8 A Yes, sir, I did.

9 Q Uh, and, then, a few moments later, uh, in the
10 same hearing, were you asked, again, this time I
11 think by one of the prosecutors, uh --

12 "Question: All right."

13 ATTORNEY STRANG: Page 216, Counsel.

14 I'm sorry.

15 Q "All right. And when did you arrive at
16 the property, the morning or the afternoon?"

17 Your answer: "Late afternoon."

18 "Question: Late afternoon?"

19 "Answer: Yes."

20 Did you give that testimony?

21 A Yes, sir, I did.

22 Q Now, uh, you don't recall signing in on a log
23 when you arrived at the Avery property on
24 November 5, do you?

25 A No, sir, I don't recall signing in.

1 Q You do recall signing out?

2 A I believe by then there was an officer at the end of
3 the road, yes.

4 Q So if we were to look through the log sheets, we
5 would look in vain for any spot where you're
6 signed in that day?

7 A As far as I know. I -- I don't have access to the
8 loggings.

9 Q Right. I -- I'm just -- I do, and I don't see
10 your name. That's your understanding?

11 A Yes, sir, I understand.

12 Q I do see you signing out at 10:41 p.m. That
13 sound right?

14 A Sounds about right, yes.

15 Q Okay. We are -- we have this. I can offer you
16 the exhibit if you'd like.

17 ATTORNEY STRANG: One forty-two. Ms.
18 Bonin?

19 Q (By Attorney Strang) I show you Exhibit 142.
20 Let's see. We can probably take these away so
21 that -- got good housekeeping. That look like
22 the log from the Avery property from November 5,
23 2005?

24 A Yes. It looks like that, yes.

25 Q And if you flip through to 10:41 p.m.? I don't

1 remember if it's military, or a.m./p.m. time,
2 but --

3 A Yes, sir.

4 Q You, and Detective Remiker, and Sergeant Colborn
5 are signing out at the same time?

6 A That's correct, sir.

7 Q Now, you understand that, um, if you had arrived
8 at 6:30 or 7 at the Avery property, it would be a
9 little hard to explain why -- why you're not on
10 the log signing in; wouldn't it?

11 A Yes, it would.

12 Q If you arrived, though, uh, even in the late
13 afternoon, that would be hard to explain why you
14 hadn't signed in?

15 A That's correct.

16 Q But if you arrived at about 2, or 2:05, 2:06,
17 then that may have been before anyone started
18 keeping a log?

19 A That's correct.

20 Q Under those circumstances, the fact that you
21 didn't sign in, would not look strange or odd?

22 A No, sir.

23 Q Sometime shortly after you arrived at the Avery
24 property, uh, you did go down to the southeast
25 corner of that property?

1 A Yeah, I went -- Yes, sir, I went down to that area.

2 Q We've all seen the picture until we -- we're blue
3 in the face, and you -- but do you need it to
4 help you?

5 A I went down to the area where the squad cars were
6 sitting.

7 Q Okay. And there was a pond there and -- lying in
8 front of you?

9 A Yeah. I'm not sure if it was a pond, but there was a
10 depression of some sort.

11 Q Sure. And a car crusher off to the left
12 somewhere?

13 A Correct, sir.

14 Q And did you go up onto the ridge behind the
15 depression, uh, to get closer to the Toyota?

16 A No, sir, I did not.

17 Q How far -- how close to the Toyota did you go?

18 A Where those vehicles were parked. The, uh, squad
19 cars.

20 Q And your testimony is that you approached no
21 closer than that parking area sort of to the --
22 to the right of the, uh -- of the car crusher?

23 A That's correct, sir.

24 Q It was, uh, getting dark by the time you went
25 down to that area?

1 A I don't know exactly what time. I don't think it was
2 getting quite dark. I could still fairly see, but it
3 was getting dark.

4 Q Well, you were, uh, asked, again, at that -- at
5 that August 9 hearing, uh, pages 197 to 198:

6 "Did you go down to the area where it,
7 meaning the Toyota, had been located?"

8 And your answer was: "I went down there
9 with another officer. He showed me the location
10 where it was, but I didn't get -- I didn't really
11 see it. I mean, from what I seen, it was getting
12 dark, and it was hidden, but I didn't get a good
13 look at it."

14 Is that your testimony on August 9?

15 A Yes, it is.

16 Q I can show you the transcript if you have any
17 questions.

18 A No, that's fine.

19 Q Okay. Uh, now, later that evening, or afternoon,
20 you, um -- you volunteered to be one of the
21 officers who searched Steven Avery's residence?

22 A We were asked to assist in searching the residence,
23 yes.

24 Q Well, all right. Page 203. Do you recall being
25 asked this question and did you give this answer?

1 "So you volunteered to be one of the
2 officers who searched Steven Avery's residence?"

3 Your answer: "Yes, sir."

4 Was that your testimony?

5 A Yes, sir.

6 Q And, then, uh, as far as you know, Lieutenant
7 Lenk, Sergeant Colborn also volunteered to be one
8 of the searchers of Steven Avery's residence?

9 A Yes, sir, I believe so.

10 Q And, uh, Detective Remiker?

11 A Yes, sir. Correct.

12 Q Now, that first search on November 5, uh, started
13 about 7:30 in the evening?

14 A Yes.

15 Q When I say the first search, the first in which
16 you were involved under a search warrant?

17 A Correct.

18 Q Lasted a little over two-and-a-half hours?

19 A That's -- that's about right. Yes, sir.

20 Q And, um, actually were four of you in that search
21 party; isn't that right?

22 A That's correct, sir.

23 Q Lenk, Colborn, Remiker, and Mr. Tyson?

24 A Correct, sir.

25 Q Tyson was from Calumet County of course?

1 A Yes, sir.

2 Q The rest of you from Manitowoc County?

3 A Correct.

4 Q Now, you -- I guess as you described it here
5 today, that was -- or -- and yesterday, was -- I
6 don't know if these were your words exactly, but
7 that was more of a general search? Not as
8 thorough as a later search?

9 A It was a general search, yes.

10 Q But with four of you? Not just three as there
11 were on November 8?

12 A That's correct, sir.

13 Q And a full two-and-a-half hours? Not just about
14 an hour on November 8?

15 A I thought November 8 was a little longer.

16 Q A little longer than an hour?

17 A Yes.

18 Q All right. But you know that, uh, November 5 was
19 two-and-a-half hours or maybe a shade over?

20 A Correct.

21 Q And, uh, the fact is, when you -- when you left
22 on November 5, you did believe that you had
23 seized everything of evidentiary value at that
24 time?

25 A At that time, yes, sir.

1 Q Sergeant Tyson, uh, was there for the, um,
2 purpose of collecting evidence on November 5?

3 A Yes, sir.

4 Q He also kept an eye on all of the searchers?

5 A Yes, sir.

6 Q You understood that, uh, a Calumet officer was to
7 be with all searchers at all times on that
8 property?

9 A Yes, sir.

10 Q He stuck close to you as you searched on
11 November 5?

12 A We were all in the same trailer. We were close to
13 each other, yes, sir.

14 Q Were you ever out of Sergeant Tyson's eyeshot?
15 Eyesight?

16 A I don't believe so, no.

17 Q No. He stuck pretty close to all three of you at
18 all times, didn't he?

19 A Yes, sir.

20 Q It would have been hard for you to do anything
21 unobserved by Sergeant Tyson on November 5?

22 A I would believe so, yes, sir.

23 Q One of the things that, uh, he saw you doing was
24 bagging up some evidence near the end, wasn't it?

25 A Yes, sir, it was at his direction.

1 Q So he didn't actually collect everything? He
2 directed you to bag some of the evidence?

3 A The evidence was already bagged. I was directed on
4 putting numbers on the bags from his identification
5 numbers.

6 Q All right. Uh, if he described you as being the
7 one who bagged the evidence, you would disagree
8 with that?

9 A I would disagree. I think my function at that point
10 was recording numbers on the bags and identification.

11 Q Then, turning things, ultimately, over to
12 Sergeant Tyson?

13 A That's correct, sir.

14 Q Now, I won't go through all of the searches in
15 any great detail, but you're back in the house on
16 November 6; correct?

17 A Yes, sir.

18 Q Uh, you're in the -- Steven Avery's garage on
19 November 6?

20 A Yes.

21 Q You described that here today, if I recall right,
22 as being about an hour, maybe an hour-and-a-half,
23 you were in Steven's garage?

24 A I believe so.

25 Q Hour and 47 minutes sound more like it?

1 A That could be right, yes.

2 Q Uh, on the morning of the 6th, when you searched

3 Mr. Avery's garage, you also seized everything

4 that you saw that you thought had evidentiary

5 value that day, didn't you?

6 A Yes, sir, at that time.

7 Q The, uh, 7th, you're back in his house?

8 A Correct.

9 Q And, of course, the 8th. And, uh, this is the

10 one you say was the thorough search?

11 A Yes, sir.

12 Q The thorough search with three people, not four?

13 A Correct.

14 Q And, uh -- let's see. If you'll bear with me

15 while I change disks here. Let's see if we can

16 make this work good. That's a little

17 catty-wampus, but I don't know that we've seen

18 this before, but this is a -- a computer-

19 generated image?

20 A Yes, sir.

21 Q Okay. So not a photograph. It's a little bit of

22 make-believe as the computer has it, but do you

23 recognize the, uh -- the model or the -- the

24 image here?

25 A Yes, it looks like the, uh, bedroom for Steven Avery.

1 Q You, uh -- you told us, uh, when, uh, Mr. Kratz
2 was asking you questions that this is a pretty
3 small bedroom?

4 A Yes, sir, it is.

5 Q Other people have said that, too, and I'm
6 wondering, can you give me a rough approximation
7 of the -- of what small means? How big that
8 bedroom is?

9 A Nine by twelve. I don't know. It would be a guess.

10 Q Okay. Um, and that -- that's a guess. I
11 understand that. So, roughly 9 by 12. If that's
12 a standard size or queen bed, one or the other,
13 it fills up -- the bed fills up a good bit of the
14 room?

15 A Quite a bit, yes.

16 Q Now, this November 8, uh, search, was at least
17 your third time into Mr. Avery's bedroom?
18 Searching it; right?

19 A The third time searching his bedroom?

20 Q Yeah. Or is it just the second? There's
21 certainly November 5 --

22 A November 5, yes, sir.

23 Q -- November 6 and November 7. Maybe the 6th
24 you're just taking the guns?

25 A Yes, sir. I believe --

1 Q One of those two days you --

2 A Right.

3 Q So you go in the bedroom to take the guns?

4 A I didn't take them. I believe I was with whoever

5 took the guns, yes.

6 Q Fair enough. Um, so you may not have been in the

7 bedroom the day the guns were taken?

8 A I'm not sure if I was in there or not.

9 Q All right. In any event, you are back in the

10 bedroom on the 8th?

11 A Correct.

12 Q Now, um, you guys are in there almost an hour?

13 Something like that?

14 A I would think -- not sure of the time. I think

15 possibly an hour.

16 Q Okay. What you do know is that you left that

17 bedroom, uh, to go to the living room at some

18 point?

19 A That's correct.

20 Q To get boxes or bags for evidence?

21 A That's correct.

22 Q You see the key immediately after your return

23 from the living room?

24 A When I walked into the room, yes, sir.

25 Q That's when you first see the key?

1 A Correct, sir.

2 Q Another computer animation or computer image?

3 A Yes, sir.

4 Q You see that little, uh -- little item up in the
5 corner next to the bookcase there?

6 A Yes, sir.

7 Q That's supposed to be the key?

8 A Yes, sir.

9 Q That's about where you saw it?

10 A In that general area. Yes, sir.

11 Q Yeah. But when you saw it, there were a number
12 of things sort of cluttering the room that aren't
13 in the computer image?

14 A There was a pair of slippers there. Yes.

15 Q Pair of slippers, and some sort of a -- looks
16 like a -- a Fu Dog or little Ty lion sort of
17 figure as a doorstep?

18 A Something like that.

19 Q Something like that? Um, a notebook, some other
20 miscellaneous junk in the -- the little bookcase
21 there?

22 A Correct, sir.

23 Q And a number of other things that just aren't in
24 the computer pictures?

25 A Correct.

1 Q But the basic location of the key? That's
2 correct?

3 A Generally speaking, yes.

4 Q Now, that key had a -- had a blue -- part of a
5 blue (unintelligible) on it, didn't it?

6 A Yes.

7 COURT REPORTER: Excuse me. A blue
8 what, sir?

9 Q Lanyard, l-a-n-y-a-r-d, uh, attached to the ring
10 on the key?

11 A Yes, sir, I believe so.

12 Q And then, uh, at the end of that little lanyard
13 strap was a, uh -- maybe the male end of a -- a
14 black plastic clasp?

15 A I don't know if it was the male end or the female
16 end.

17 Q Neither do I. Maybe a male end, it could have
18 been the female end, but it was one or the other;
19 right?

20 A Correct.

21 Q The point is, there was some -- some sort of a
22 black chunky half of a clasp at the end of the
23 little lanyard?

24 A Yes, sir.

25 Q And, um --

1 ATTORNEY STRANG: Do we have Exhibit No.
2 169 handy?

3 Q (By Attorney Strang) See if we can find a
4 picture that you were shown on your direct
5 examination. A photograph this time. On
6 November 8 -- while we're waiting for the
7 computer to open these -- these things, um, on
8 November 8, did you have any reason to go into
9 Mr. Avery's bathroom? You know, the bathroom,
10 laundry room combination?

11 A I think there was a -- some items that had to be
12 collected there. I think it was some suspected blood
13 spatter or something.

14 Q Blood drops? Something --

15 A Yeah.

16 Q -- something like that? So you were involved in
17 that as well?

18 A No, sir, I did not collect that.

19 Q Uh, were you in the bathroom?

20 A I don't recall. I may have been in the bathroom.

21 Q Certainly, you know you were in there on
22 November 5, the night you did the full, general
23 search of the house?

24 A Correct.

25 Q The bathroom, uh, you recall as having Mr.

1 Avery's toothbrush?

2 A Could be. Yes, sir.

3 Q Or a toothbrush?

4 A Could be. Yes.

5 Q Razor? Those kinds of --

6 A Yes.

7 Q -- ordinary toiletry items?

8 A I'm -- I'm assuming if they were there, yes. I don't
9 recall that, but --

10 Q All right. Now, we've got Exhibit 169 up on the,
11 uh, screen. Let's see. That's not Exhibit 169.
12 That's something else. Um, but this is -- this
13 is the -- the key as you first observed it?

14 A Correct, sir.

15 Q If I may take the laser pointer here.

16 ATTORNEY KRATZ: It's No. 210, Counsel.

17 ATTORNEY STRANG: Two-ten. Thank you,
18 Mr. Kratz.

19 Q (By Attorney Strang) So I've got Exhibit 210 up
20 on the screen, and what we've got here is --
21 is -- is this -- what we're calling bookcase --
22 is that in the -- in the position it was when you
23 walk in from the living room and see the key
24 lying there?

25 A Yes, sir, I believe so.

1 Q Not quite flush against the wall, but close?

2 A Yes.

3 Q And, um, I don't know that we can get any better

4 angle on that, but, um, if -- it looks like the

5 cord running off the, uh, power pack for the

6 phone or whatever that is?

7 A Yes, sir.

8 Q Looks like the -- the cord is pressed up against

9 the wall?

10 A I don't know, sir. I can't tell.

11 Q Okay. What you do -- what you do see is the --

12 the -- the key there, uh, looks like it's, I

13 don't know, a few, two, three-something inches

14 away from the wall?

15 A Yes, sir.

16 Q Something like that; right?

17 A Yes, sir. That's correct.

18 Q And then maybe something like a similar distance

19 off to the side of the bookcase?

20 A Yes.

21 Q Now -- now that we have that zoomed in, Exhibit

22 210, tell me, um, there's a key ring; is that --

23 is that right?

24 A That looks like the key ring. Yes.

25 Q I mean, there was a key ring in other words?

1 A Yes, it's that blue whatever it is.

2 Q All right. Um, and then that -- the -- the

3 blue -- that -- that's blue fabric? The lanyard

4 we were talking about?

5 A Correct.

6 Q And the -- I guess it's the -- the female end of

7 the clasp?

8 A Right.

9 Q All right. Now, uh, you see a house key on

10 there?

11 A No, sir, I do not.

12 Q Garage key?

13 A No, sir.

14 Q Um, how about even one work key?

15 A No, sir.

16 Q Swipe card for a gym?

17 A No, sir.

18 Q Or athletic club?

19 A No, sir.

20 Q Just the long Toyota key?

21 A Yes, sir.

22 Q That's all that was on it when you saw it?

23 A Yes, sir.

24 Q Mr. Buting's going to go back to work and see if

25 he can find this Exhibit 169, which was the

1 picture of the -- the back panel -- the veneer
2 panel on the bookcase?

3 A Yes, sir.

4 ATTORNEY STRANG: We don't have that.
5 Um, Counsel, is -- is there a -- a regular
6 photograph of Exhibit 169?

7 ATTORNEY KRATZ: Sure. That's where the
8 exhibits are.

9 ATTORNEY STRANG: As opposed to just on the
10 screen?

11 ATTORNEY KRATZ: Yes.

12 Q (By Attorney Strang) One sixty-nine?

13 A Yes, sir.

14 Q You were shown that on direct?

15 A Yes, sir.

16 Q Okay. See if we can do it this way. All right.

17 ATTORNEY STRANG: Mr. Buting, we need
18 the gizmo. And then there's a second gizmo.
19 There we go. Lights, camera, action. All right.

20 Q (By Attorney Strang) How's that? Pretty good?
21 Can you see that?

22 A Yes, sir.

23 Q All right. Now, this photograph, whenever it's
24 taken, is taken after someone has pulled the
25 bookcase away from the wall a little bit?

1 A That's correct, sir.

2 Q That is, in -- in Exhibit 169, the bookcase, is
3 farther away from the wall than it was when you
4 first saw the Toyota key?

5 A Correct, sir.

6 Q And we can see that back veneer panel, or part of
7 the board, whatever the panel is on the back?

8 A Yes, sir.

9 Q All right. Did you -- did you touch this
10 bookcase at some point?

11 A I had been searching the front of the bookcase. Yes,
12 sir.

13 Q Okay. And, I mean, was it collected as evidence?

14 A The bookcase?

15 Q Yes.

16 A At this time, no, sir.

17 Q It wasn't?

18 A No, sir.

19 Q Uh, did -- did you, uh -- did you have a chance
20 to sort of touch the back panel there after --
21 after you noticed it sticking out like that?

22 A I don't believe so. No, sir.

23 Q So you -- you don't know whether it, uh -- it's
24 being held out there now and wanted to spring
25 back toward the frame or whether that's its sort

1 of resting position at this point?

2 A My estimate would be that's its resting position.

3 Q So it -- it -- it -- it's tendency there is to
4 spring open, not to spring shut?

5 A I wouldn't know. I would think so, but I wouldn't --

6 Q Well, okay. That's -- that's at least the way
7 you saw and perceived the bookcase after you
8 noticed the back panel loose like that?

9 A Yes, sir.

10 Q Now, you had been the first one to empty out that
11 bookcase?

12 A No, sir, I was not. Are we still talking about
13 November 8?

14 Q Uh, no, I'm just talking the first, uh --

15 A No, sir, I was not.

16 Q -- in general. On the 5th, you were not?

17 A No, sir.

18 Q All right. Did someone empty out that bookcase
19 in your sight?

20 A I believe -- yes, it was searched. I don't recall
21 watching them search it. I was on the other side of
22 the room.

23 Q Okay. But -- but you know that somebody searched
24 it on November 5?

25 A Yes, sir.

1 Q Took all the stuff out?

2 A I don't know if they took it all out. No, sir.

3 Q Or not. All right. Uh, how about on -- on

4 November 8? Do you know whether, uh, Mr. Colborn

5 took all of the stuff out of the bookcase?

6 A All the magazines, and the photos, and that type of

7 thing were taken out of the bookcase.

8 Q So that he could look in the bookcase?

9 A I suppose.

10 Q The bookcase doesn't have cabinet doors on it?

11 A No, sir.

12 Q It's a relatively small piece of furniture?

13 A Yes.

14 Q Maybe yea high?

15 A Yes, sir.

16 Q I don't know, 18 inches square on the top?

17 Something like that? Give or take?

18 A Approximately.

19 Q All right. Um, and, uh, did you get a chance to

20 look into the bookcase when it was empty of its

21 contents?

22 A I may -- I glanced in there. I didn't really take a

23 hard look in there. No, sir.

24 Q You didn't see a, uh -- a blue lanyard, and a

25 black clasp, and the Toyota key in the back in

1 that bookcase, did you?

2 A No, sir, I did not.

3 Q That's something you would have seen if the
4 bookcase was empty and you'd looked in it?

5 A Had I looked closely, yes, sir.

6 Q And, um, you're not -- you're not suggesting that
7 the key, and the lanyard, and the ring, and the
8 clasp were, uh -- were somehow wedged up into the
9 space where the back veneer separates from the
10 frame, are you?

11 A That's a possibility, yes.

12 Q And nobody saw a blue lanyard hanging down?

13 A Apparently not, sir.

14 Q Uh, and if that -- if that board tends to want to
15 rest at that position, how would somebody have
16 wedged something up in there and kept it there?

17 A I have no idea, sir.

18 Q Uh, did you look under the bookcase?

19 A I'm sure it was looked under when it was tilted to
20 the side. Yes, sir.

21 Q All right. You -- you didn't notice any -- any
22 tape or any secret compartment down there to hold
23 something?

24 A No, sir.

25 Q What you did notice is that the, um -- back to

1 the 210. What you did notice is that the, uh --
2 the key is found not behind the bookcase, is it?

3 A No, sir, it was not.

4 Q Uh, not flush with the wall, was it?

5 A No, sir.

6 Q But to the sides of the bookcase?

7 A Back by the corner to the side. Yes, sir.

8 Q And with -- with all of this which you've
9 described, and I won't even go to later
10 November 8 or November 9, but with all of this,
11 we've got a page or page-and-a-half of police
12 reports from you, didn't we?

13 A From myself, sir?

14 Q Yes.

15 A Yes, sir.

16 Q Now, November 5, when you, uh -- you volunteered
17 with Mr. Colborn and Mr. Remiker to search Steven
18 Avery's trailer, uh, as of that time you
19 previously had talked with Sergeant Colborn about
20 the depositions the two of you gave?

21 A I believe we did at some point. Yes, sir.

22 Q Talked before the depositions, didn't you?

23 A He asked me if I got a -- a deposition subpoena, and
24 I said, yes.

25 Q And the two of you had a little conversation

1 about that?

2 A Yes. I had no idea what I was getting subpoenaed
3 for, and he said it was because of a statement he had
4 made.

5 Q A statement -- you know, a phone call he had
6 gotten?

7 A Correct, sir.

8 Q From a Brown County law enforcement agency?

9 A That's what he said, sir.

10 Q From a detective?

11 A Yes, sir.

12 Q They had someone in custody?

13 A Yes, sir. I believe so.

14 Q Someone who had committed a Manitowoc assault
15 some years prior?

16 A It was a Manitowoc assault. I don't know if there
17 was a time attached to it. I'm not sure.

18 Q At least what Sergeant Colborn told you was there
19 was a few years prior. The detective from the
20 other Brown County agency was telling him.

21 A Yes, if that's what's on there.

22 Q And, uh, the detective also told Colborn that he
23 believed someone already was arrested for the
24 crime?

25 A That's correct, sir.

1 Q So Sergeant Colborn fills you in on what he
2 thinks the depositions are about and, uh, the two
3 of you don't talk about the depositions after
4 them?

5 A After the depositions?

6 Q Right.

7 A We may have mentioned it to each other.

8 Q Okay. But it's less than four weeks later,
9 November 5, and one thing you do know is that you
10 didn't mention that deposition to Special Agent
11 Fassbender?

12 A That's correct, sir.

13 Q You didn't mention it to Investigator Mark
14 Wiegert?

15 A That's correct.

16 Q Didn't hear Sergeant Colborn mention the
17 depositions to either of those two gentlemen
18 either?

19 A Not to my recollection. No, sir.

20 Q Didn't tell Sheriff Pagel that you'd been deposed
21 three, four weeks earlier?

22 A No, sir.

23 Q Had Steven Avery actually been sitting there
24 during your deposition?

25 A He came in after I had started giving my deposition.

1 Yes, sir.

2 Q And, um, without you telling Mr. Fassbender, and
3 Mr. Wiegert, Sheriff Pagel about the deposition,
4 there's really no way they would have known about
5 it, would they have?

6 A No, sir.

7 Q So that's not information they could consider in
8 deciding whether to accept your offer to
9 volunteer to search Mr. Avery's trailer?

10 A They didn't have that information, sir.

11 Q Because you didn't give it to them?

12 A No, sir, I did not.

13 Q In effect, you took the decision upon yourself
14 that this was information they didn't need to
15 have?

16 A At that time I didn't even think about the
17 deposition.

18 Q Would it have been a little bit fairer to
19 Mr. Fassbender if you had given him this
20 information so that he, as the lead -- one of the
21 two lead investigators, could have considered it?

22 A It would have been more information for him. I don't
23 know if it would have changed his decision.

24 Q I don't know either, but would it have been fair
25 to give him that information?

1 A Had I thought of it, yes, sir.

2 Q Would it have been fair to give that to

3 Mr. Wiegert or Sheriff Pagel?

4 A Same answer. Yes, sir.

5 Q And before you went rummaging through Steven

6 Avery's bedroom once, twice, three times,

7 whatever it was, for hours, would it have been

8 fairer to Steven Avery if someone other than a

9 person who had been deposed in his lawsuit had

10 done that search?

11 A No, sir, I don't think it would have been.

12 ATTORNEY STRANG: That's all I've got.

13 Oh. I'm -- I'm sorry.

14 Q (By Attorney Strang) You came back to

15 Mr. Avery's four months later? Not quite four

16 months later?

17 A Yes.

18 Q March 1 and March 2 of 2006?

19 A That's correct, sir.

20 Q Much smaller search this time, wasn't it?

21 A Yes, sir. I believe it was just the garage.

22 Q The entire rest of the property was not closed

23 off to the public?

24 A No, sir, it was not.

25 Q The rest of the property was not closed off to

1 the Avery family?

2 A I believe it was not. Yes, sir.

3 Q A search was going on in the garage?

4 A That's correct.

5 Q You came back?

6 A Yes, sir.

7 Q Did you participate in that search?

8 A No, sir, I did not.

9 Q Why were you back?

10 A I came back to see if they needed any, uh, food, any
11 assistance with supplies, see if I could help out.

12 Q Both days?

13 A I'm not -- I believe I was there both days. I'm not
14 sure.

15 ATTORNEY STRANG: That's all.

16 THE COURT: All right. Mr. Kratz?

17 **REDIRECT EXAMINATION**

18 BY ATTORNEY KRATZ:

19 Q Lieutenant Lenk, I'll start at the -- at the end
20 Mr. Strang's last line of questions. On March 1
21 or 2 did you ever enter any building on the Avery
22 property?

23 A No, sir, I did not.

24 Q Did you ever enter the trailer or the --
25 especially garage?

1 A No, sir, I did not.

2 Q Mr. Strang asked a series of interesting
3 questions about people that are wrongfully
4 accused of crimes and getting compensation for
5 that. Do you remember that?

6 A Yes, sir, I do.

7 Q When's the first time, Lieutenant Lenk, that you
8 learned in this case that you were being accused
9 of a crime?

10 A After I first observed the key and that came out into
11 the media.

12 Q Do you recall your name being on the front page
13 of the newspaper?

14 A I believe at some point it was. Yes, sir.

15 Q Do you recall being not so subtly suggested that
16 you committed a crime planting evidence in this
17 case?

18 A Yes, sir, I do.

19 Q How did you feel about that?

20 A I was upset, sir. Actually, I was mad.

21 Q Did you feel that Mr. Strang or Mr. Buting
22 wrongfully accused you of a crime?

23 A I did not commit a crime. If they said I did, then
24 they wrongfully accused me.

25 Q Mr. Strang asked you whether evidence that goes

1 to the Crime Lab, uh, comes back or how that
2 process works. Do you generally know how that
3 process works?

4 A Generally, the evidence that leaves the Manitowoc
5 County Evidence Room is sent to the Crime Lab. It
6 will come back from the Crime Lab to our Department
7 which will subsequently be put back into the evidence
8 room.

9 Q Well, the evidence sent in 2002 left the Clerk of
10 Court's Office; is that right?

11 A That's correct, sir.

12 Q Was that ever, to your knowledge, in the
13 Manitowoc County Sheriff's Department?

14 A Not to my knowledge.

15 Q Was it ever in your possession or under your
16 control?

17 A No, sir, it was not.

18 Q Do you ever recall seeing that evidence coming
19 back to your possession or control?

20 A No, sir, I did not.

21 Q Did you ever see a receipt for that evidence
22 coming back as one of the evidence custodians?

23 A No, sir.

24 Q Mr. Strang played a -- sounded like a telephone
25 call from Mr. Colborn. Do you know when that

1 call was made?

2 A No, sir, I do not.

3 Q Is there anything on that phone call that can
4 reflect whether it was before or after
5 Mr. Colborn went to Mr. Avery's house?

6 A I didn't hear anything on that call. No, sir.

7 Q You had mentioned that in the course of your
8 professional duties you've used a -- a cell phone
9 or some means to contact the Sheriff's Department
10 other than a radio; is that correct?

11 A That's correct, sir.

12 Q Just talking about you, personally, Lieutenant
13 Lenk, what are some of the reasons that you would
14 use a cell phone rather than an open air radio?

15 A One of the reasons would be, um, privacy of an issue
16 that we're working on. Uh, we wouldn't want it over
17 the general radio. Another reason would be it's
18 probably more of a -- a personal nature, um, get
19 information from the dispatcher. Um, it's not
20 unusual to use cell phones. They're becoming more
21 and more prevalent.

22 Q Mr. Strang suggested on cross-examination that
23 some citizens actually listen to radio traffic
24 that was called scanners. Remember that
25 question?

1 A Yes, sir, I do.

2 Q Do you know if Mr. Avery had a scanner in early
3 November of 2005?

4 A I know there was a scanner in the business area and
5 shop area. I don't know if Mr. Avery had a scanner.
6 (Exhibit No. 217 marked for identification.)

7 Q I show you what's been marked for identification
8 as Exhibit No. 2-1-7. Do you recognize that
9 location?

10 ATTORNEY BUTING: Sorry. What's the
11 exhibit number?

12 ATTORNEY KRATZ: Two-one-seven. Two
13 seventeen.

14 THE WITNESS: It looks like the living room
15 area of Mr. Avery's trailer.

16 Q (By Attorney Kratz) Do you see an item located on
17 the bar in Mr. Avery's living room?

18 A Yes, sir, I do.

19 Q Do you know what that item is?

20 A It looks like a scanner.

21 Q I'm going to show the jury what you've now
22 identified as Exhibit 217. That black item right
23 there, is that what you're talking about?

24 A Yes, sir, that's it.

25 Q Now, let me ask you, Lieutenant Lenk, if you were

1 doing a missing persons investigation and you had
2 some information that you wanted to verify, might
3 that be the kind of information that you'd use a
4 cell phone rather than open air radio?

5 A Yes, it could be.

6 Q Mr. Strang asked about the number of searches
7 that occurred inside of Mr. Avery's trailer.
8 Have you been involved in your career as a
9 detective in searches that, um, have required you
10 to go back and search some more for some other
11 items?

12 A Yes, sir.

13 Q Tell the jury, generally, what -- why that
14 happens? Why would you have to go back and
15 search a second time or a third time in -- in a
16 location?

17 A That would happen because you would get -- as you're
18 investigating, you come with more information that
19 would lead you to look for other items of evidence.

20 Q In those circumstances, would you think that your
21 first search was sloppy or unprofessionally done?

22 A No, sir.

23 Q You talk about additional information causing a
24 more detailed or directed search. Is that what
25 happened here?

1 A Yes, sir.

2 Q You think that there was any search that you
3 performed, any search that you individually were
4 involved in, that was unnecessary or was
5 frivolous?

6 A No, sir.

7 ATTORNEY STRANG: Actually, what he --
8 what he thinks about that is irrelevant, but we
9 can let the answer stand. That's fine.

10 THE COURT: Very well.

11 Q (By Attorney Kratz) Mr. Strang showed you Exhibit
12 No. 210 and asked whether or not you saw any,
13 um -- I wrote this down -- any house key, any
14 business key, or an athletic club or gym card,
15 you don't see any of that in Exhibit 210, do you?

16 A No, sir, I did not.

17 Q Assuming the evidence later in this case is going
18 to establish that this, in fact, was Ms.
19 Halbach's key, and, in fact, was found in
20 Mr. Avery's bedroom, do you know why Mr. Avery
21 kept Ms. Halbach's car key?

22 ATTORNEY STRANG: Object, Your Honor.
23 That's way beyond and speculative.

24 THE COURT: I'll sustain the objection.

25 Q (By Attorney Kratz) Well, let me ask you this:

1 Do you think Mr. Avery, uh, at any time had any
2 use for Ms. Halbach's athletic fitness card?

3 ATTORNEY STRANG: Speculation. Well beyond
4 his personal knowledge. And argument.

5 THE COURT: Sustained. I think that's a
6 question for the jury.

7 Q (By Attorney Kratz) Finally, Lieutenant Lenk,
8 the, um, defense attorneys have -- or excuse --
9 excuse me -- Mr. Strang has asked, um, how many
10 pages of reports you individually prepared in
11 this case. Do you remember that question?

12 A Yes, sir, I do.

13 Q Do you know how many pages of reports,
14 Lieutenant -- excuse me -- Sergeant Bill Tyson
15 prepared in this case?

16 A I'm not sure. I -- couple pages. I don't know.
17 More than that. He was there at least twice.

18 Q Mr. Tyson? Do you know how many pages of reports
19 he's prepared in this case?

20 A No, I don't.

21 Q Do you know how many pages of reports Deputy
22 Kucharski or Deputy Wendling has prepared?

23 A No, sir, I don't.

24 Q There was a -- a report that you were asked to
25 prepare; is that right?

1 A That's correct, sir.

2 Q And what, specifically, did that entail or
3 involve? Do you remember?

4 A It was -- involved the, uh, finding or locating of
5 that key. How that came about.

6 Q Okay.

7 ATTORNEY KRATZ: If I could have just one
8 moment, Judge, I'd appreciate it. I think that's
9 all for Lieutenant Lenk. Thank you, Judge. Thank
10 you very much.

11 THE COURT: Mr. Strang, anything on
12 recross?

13 ATTORNEY STRANG: I do. Just briefly.

14 **RECCROSS-EXAMINATION**

15 BY ATTORNEY STRANG:

16 Q Um, scanners are -- are things that all kinds of
17 people have, actually now, including Mr. Avery,
18 apparently; right?

19 A That's correct, sir.

20 Q Uh, the Averys, you know, are in the salvage
21 business?

22 A Yes, sir.

23 Q They run a wrecker or wreckers?

24 A That's correct, sir.

25 Q One would -- one reason to have a police scanner

1 would be to find out when there is a wreck on the
2 roads in the area; right?

3 A I believe that could be used for that, sir.

4 Q Sure. As -- nothing -- nothing unlawful about
5 having a scanner, is there?

6 A No, sir.

7 Q Here, um, in terms of radio calls being picked
8 up, Teresa Halbach's disappearance wasn't a
9 secret, was it?

10 A No, sir.

11 Q And we had Chop -- Chopper 4 and all kinds of
12 media coverage of this by the night of November 3
13 and November 4, didn't we?

14 A I believe so, yes.

15 Q Yeah. Uh, in fact, there were efforts to enlist
16 the public's help in finding her, weren't there?

17 A Yes, sir.

18 Q Uh, in any missing persons investigation, it
19 might be helpful to have the general public
20 involved?

21 A Yes, sir.

22 Q Would there have been any reason that her license
23 plate was something of a personal nature as you
24 say?

25 A No, sir. I would think not.

1 Q Any reason to keep that private?

2 A I don't know. I wasn't there when the call was made.

3 Q Any reason you can think of to keep it a secret?

4 A Other than to keep it from being too public.

5 Q Uh, the -- the stuff from the Clerk's Office, I
6 think this is clear, but regardless where it was,
7 or who got it, or who sent it, you're the guy who
8 filled out the evidence transmittal form, aren't
9 you?

10 A That was my job. Yes, sir.

11 Q A Manitowoc County Sheriff's Department Evidence
12 Transmittal Form.

13 A Correct, sir.

14 Q And, um, reports, as you've said, you got no idea
15 how many pages of reports, uh, Mr. Tyson, or
16 Mr. Wendling, or Mr. Kuchar -- Kucharski
17 prepared, do you?

18 A No, sir, I do not.

19 Q But, if they're witnesses, then we can -- we can
20 learn from them what they reported, and we'll
21 have the benefit of those reports when they
22 testify, won't we?

23 A Correct.

24 Q You don't have any idea how many pages of reports
25 Investigator Wiegert prepared either, do you?

1 A No, sir, I do not.

2 Q But he was one of the two lead investigators?

3 That you knew?

4 A Yes, sir.

5 Q So when we hear from him, we'll get to find out
6 about all of his reports?

7 ATTORNEY KRATZ: Objection, Judge, assuming
8 a fact not in evidence.

9 ATTORNEY STRANG: Um, I said when we
10 hear from him.

11 THE COURT: I'll sustain the objection.

12 Q (By Attorney Strang) Uh, finally, in, uh -- in
13 our system, uh, of criminal justice here in this
14 country, um, which side is it that brings
15 accusations of crime?

16 A Normally, the law enforcement, prosecutor side.

17 Q The -- the prosecution would be the lawyers, uh,
18 who are involved, formally, in accusing people of
19 crime?

20 A Yes, sir.

21 Q And, uh, what -- what do we do over here at the
22 defense table? What's our role in this system?

23 A Providing representation for the defendant.

24 Q We defend people accused of crimes, don't we?

25 A Yes, sir.

1 ATTORNEY STRANG: That's all I have.

2 THE COURT: Anything else?

3 ATTORNEY KRATZ: Not for this witness.

4 Thank you.

5 THE COURT: Very well. Mr. Lenk, you are
6 excused. Members of the jury, at this time we're
7 going to take our lunch break. I'll remind you not
8 to, uh, discuss the case among -- among yourselves
9 during the lunch break, and, uh, we'll resume at one
10 o'clock.

11 (Recess had at 11:57 a.m.)

12 (Reconvened at 1:01 p.m.)

13 THE COURT: Mr. Kratz, you may call your
14 next witness.

15 ATTORNEY STRANG: Your Honor, I wonder
16 before we do that, if I might just, uh, move in,
17 uh, exhibits from the last witness. Uh, I think
18 it's 214.

19 THE COURT: Any objection?

20 ATTORNEY KRATZ: Which is the -- Oh, no,
21 that's fine.

22 THE COURT: Very well. Exhibit 214 is
23 admitted.

24 ATTORNEY STRANG: And Mr. Kratz had 217,
25 and I won't have any objection to that either if

1 he wishes that in.

2 ATTORNEY KRATZ: Perhaps at the end of the
3 day, Judge, we can do a -- an accounting of what
4 hasn't been received yet, and we'll make that
5 motion, but we are prepared with our next witness.

6 THE COURT: All right. You may call
7 your next witness.

8 THE COURT: Dave Remiker.

9 **DAVE REMIKER,**

10 called as a witness herein, having been first duly
11 sworn, was examined and testified as follows:

12 THE CLERK: Please be seated. Please state
13 your name and spell your last name for the record.

14 THE WITNESS: Dave Remiker,
15 R-e-m-i-k-e-r.

16 **DIRECT EXAMINATION**

17 BY ATTORNEY KRATZ:

18 Q Mr. Remiker, how are you employed, sir?

19 A I'm a detective with the Manitowoc County Sheriff's
20 Department.

21 Q How long have you been involved in that kind of
22 work?

23 A Uh, since May 8 of 2003.

24 Q Prior to 2003, did you have other law enforcement
25 duties?

1 A Yes.

2 Q What was that?

3 A Um, January of, uh, 1993, I was hired as a, uh,
4 deputy jailer until October of 1993. Um, that lasted
5 until about January of 1999, which I was promoted to
6 the Narcotics Division, the Manitowoc County Metro
7 Drug Unit, and I was then promoted to detective in
8 May of 2003.

9 Q Who is your immediate supervisor?

10 A Uh, Lieutenant James Lenk.

11 Q Detective Remiker, um, do you also have, or have
12 you had in the past, responsibilities with the
13 Department as something called an evidence
14 custodian?

15 A Yes.

16 Q Could you tell the jury what that is, please?

17 A Uh, since about May of 2003, uh, as my assignment --
18 as I was given the assignment as a detective, I then
19 took on the, um, responsibility of being the evidence
20 custodian at the Sheriff's Department, which is, um,
21 a lot of evidence handling. Basically, handling all
22 the evidence that comes into and leaves, uh, the
23 Sheriff's Department, uh, which includes a temporary
24 evidence locker area and main evidence room area.

25 Q All right. We're going to talk about, uh, your

1 role, um, as a detective. What kinds of
2 responsibilities do you have as a detective?

3 A Uh, right now I work on, uh, property crimes, white
4 color crimes, fraud, sex assaults. I'm kind of the
5 individual that works on just about anything and
6 everything. Um, I really don't have any primary
7 focus in a certain type of investigation, uh, and a
8 lot of my focus is working in the evidence room also.

9 Q Um, normally, um, your investigative
10 responsibilities involve criminal behavior?

11 A Definitely. Yes.

12 Q Let me ask you, uh, Detective Remiker, on the 3rd
13 of November, 2005, uh, whether you were informed
14 of a Calumet County investigation that was
15 ongoing?

16 A Yes, I was.

17 Q And how were you informed of that investigation?

18 A I was off that day. Um, I believe I got paged, um,
19 probably by my supervisor, Lieu -- Lieutenant Lenk.
20 I responded to the Sheriff's Department and, uh, met
21 with, uh, some of our investigators, and Investigator
22 Dedering was at our Department, and he provided us
23 with -- with that information about, uh, the missing
24 female.

25 Q From what agency was, uh, Detective Dederling?

1 A Uh, Calumet County Sheriff's Department.

2 Q Let me ask you, that first day, the 3rd of
3 November, was your Department asked to provide
4 any insist -- any assistance in that
5 investigation?

6 A Yes.

7 Q And who was the person who had gone missing?

8 A Uh, Teresa Halbach.

9 Q What kind of investigation were you asked to
10 assist with?

11 A Um, we had received information that, uh, Teresa was
12 missing, and that there were some individuals that
13 they believed, uh, Teresa may have had contact with,
14 uh, and both of those, uh, locations were in
15 Manitowoc County.

16 Q And who were those individuals?

17 A I believe one of the residents was on County Trunk
18 Highway B, as in boy, um, and that was, uh, George
19 Zipperer residence, and the other residence or
20 location was the Avery property.

21 Q Were you personally involved that evening, that
22 is the 3rd of November, in visiting either one of
23 those residences?

24 A Yes. I went to the, uh, George Zipperer residence.

25 Q Do you know if anybody had gone to the Avery

1 residence?

2 A I believe Sergeant Colborn had gone to that location.

3 I was -- I was advised of that.

4 Q So it was somebody other than you?

5 A Yes.

6 Q But you were involved in visiting the Zipperer
7 residence?

8 A Yes.

9 Q Detective Remiker, in, uh, visiting the Zipperer
10 residence on the 3rd of November, um, just in
11 very broad terms, broad brush strokes, did you
12 perform somewhat of an investigation to see if
13 Ms. Halbach had been there on the 31st?

14 A Yes.

15 Q All right. After those events, that is, after
16 Sergeant Colborn was at Avery's, and after you
17 had gone to Zipperer's, um, did you, um, have
18 a -- a get-together or a meeting?

19 A After we made contact at the Zipperer residence, uh,
20 I recall I was driving my squad car, uh, Investigator
21 Dederling was in the passenger seat, and if I recall
22 correctly, I think it was about 10:30 at night.

23 It was getting a little bit late, and I
24 had some concerns about going out to the Avery
25 property at that time of the night and -- and

1 questioning people or start asking more
2 questions, so we made a decision that it was
3 getting a little late, we'll -- we'll re -- uh,
4 return, maybe, um, do some further investigation
5 the following day.

6 Q The next day, then, did you, together with
7 Calumet County, decide to do some further
8 investigating?

9 A Yes. We received a call from Calumet County, uh,
10 Sheriff's Department, Investigator Wiegert, and he
11 indicated that he wanted us to, uh, go make contact
12 with, uh, Steve to see if we could obtain any more
13 information.

14 Q By Steve, you mean the defendant, Steven Avery?

15 A Yes.

16 Q Did you do that on the 4th?

17 A Friday, the 4th, I did. Correct.

18 Q And could you describe that contact for us,
19 please?

20 A Uh, Lieutenant Lenk advised me that, uh, Investigator
21 Wiegert had contacted us and wanted us to go make
22 contact with Steve, um, and -- and see if we could
23 get consent to search his residence. See if Teresa
24 was there.

25 Um, Lieutenant Lenk drove the vehicle.

1 Uh, I was in the passenger seat. We drove out to
2 the Avery property. We turned onto Avery Road.
3 We had no idea where we were going. Uh, we had
4 no idea where Steve's residence was. Uh, we kind
5 of got to a fork in the road and we decided to
6 turn right.

7 Uh, we went down that roadway and we
8 came to, um, a red trailer house, and the numbers
9 on the house were 12932, and that was -- that was
10 the address of Steven Avery, so we figured that
11 was the residence.

12 Q All right. Did you exit your vehicle at that
13 time?

14 A Yes.

15 Q Eventually, Detective Remiker, you made contact
16 with Mr. Avery and his mother? Is that what --

17 A Yes.

18 Q Describe that, uh, encounter briefly, please?

19 A Uh, tried at Steve's residence. No answer. Then I
20 went over to the next residence. Um, found out later
21 that's Barb Janda's residence. I tried contact
22 there. Nobody answered.

23 We got back into our car. We started
24 driving down the driveway, and there was a golf
25 cart that started driving down the road towards

1 us, and we stopped our vehicle. Um, I got out,
2 Lieutenant Lenk got out, and, um, Steven was
3 seated in the passenger side of the golf cart,
4 and I think Delores was driving the golf cart,
5 and we -- we stopped and identified ourselves to
6 them, and we then began a conversation.

7 Q Did you ask for, uh, something called consent or
8 permission to enter Mr. Avery's residence,
9 itself?

10 A Yes.

11 Q And did Mr. Avery give you that consent?

12 A Yes.

13 Q Um, why don't -- Excuse me. Why don't you tell
14 the jury what you did then?

15 A After we received consent?

16 Q Yes.

17 A Um, uh, Steve, uh, told us that we could go into his
18 residence to take a look. I said, I want you to come
19 with me. I don't want to just go in there alone.
20 So, um, he followed us. Uh, we drove our vehicle up
21 to the residence, and I think Steve and Delores drove
22 up in the golf cart, and we went to the door, and
23 Steve opened the door and allowed us in.

24 Um, Lieutenant Lenk stayed kind of in
25 the living room area with Steve. I -- I don't

1 recall if Delores was in the residence or not.
2 And I went to the back bedroom. I was --
3 obviously, at that point, I'm looking for Teresa.
4 I'm looking for a body. I'm looking for a human
5 being. And I walked around, uh, the residence to
6 see if I could find a person.

7 Q Did you find any persons in that residence?

8 A No.

9 Q About how long did this entire encounter take, if
10 you recall?

11 A We arrived on the property, uh, my notes indicate,
12 1020 hours, and we were completed with the consent
13 search, being out of the residence, done searching,
14 at 10:35. I was in his residence for five minutes.

15 Q All right. At that time, Detective Remiker, did
16 you have any reason to believe that, uh,
17 Mr. Avery had been involved in this missing
18 persons case? In other words, other than
19 information that you'd received from Calumet
20 County?

21 A No. He -- he said he had contact with her. He said
22 that, um, she had been in his residence where he paid
23 her for the services, and said, hi, how are you
24 doing? Some small talk. Other than that, I had no
25 reason to believe that Steve had anything to do with

1 anything.

2 Q Did you and Lieutenant Lenk talk about that very
3 thing?

4 A Yes.

5 Q What did -- what did you two talk about?

6 A I think my comments were, I think Calumet County is
7 barking up the wrong tree. I don't remember my exact
8 words. Um, I -- I just -- at that time I didn't have
9 any reason to believe that Steve had anything to do
10 with it.

11 Q Did Lieutenant Lenk make any comments to you
12 about, well, we've got to make sure that Steve's
13 involved, or that he did it, or anything like
14 that?

15 A I think we both were in agreement at the time that
16 Steve had nothing to do with it. That was just our
17 feeling.

18 Q All right. My question, though, is, did you note
19 from Lieutenant Lenk any animosity towards
20 Mr. Avery? Just -- The defendant, Steven Avery?

21 A No.

22 Q Okay.

23 A None at all.

24 Q Where did you go then?

25 A On the way back to the Department, I called

1 Investigator Wiegert. Um, I told him that we made
2 contact with Steve. Uh, that he gave us consent to
3 search his residence. I went inside. I didn't find
4 Teresa, and he -- he thanked me for, uh -- for giving
5 him a hand, and I told him he could just recontact us
6 if he needed anything else.

7 Q Now, I think that at least by inference you've
8 answered this question already, but let's just
9 make sure. Prior to that date, had you ever been
10 to the Avery Salvage Yard?

11 A I have never been on Avery Road in my entire life.

12 Q And in asking Lieutenant Lenk, or in observing
13 his driving habits, did you note that he'd ever
14 been there before?

15 A We had no idea where we were going. We drove down
16 Avery Road, we got to that fork in the road, and
17 there's buildings, there's shops, there's all kinds
18 of things there, and we, um -- luckily we took the
19 right turn and went down the -- to the right and
20 located the trailer.

21 Q What's the next part of this case that you were
22 personally involved in?

23 A Um, that would have been Saturday, the 5th. That was
24 my, uh, weekend to work, uh, which meant I came in at
25 eight o'clock in the morning, and, um, at one point I

1 called Investigator Wiegert. I think that was about
2 9:03 a.m., and I just, uh, made contact with him.

3 We had received some information that
4 somebody seen a car, a Toyota Rav 4, driving
5 northbound on -- near De Pere. Very generic,
6 generalized, description, or tip, and I told him
7 about that, and then we just discussed what the
8 game plan was for -- for that day.

9 Q Why did you share that -- that vague tip with
10 Investigator Wiegert?

11 A I'm sure he asked me if we had received any
12 information at that time. I -- I think this was in
13 the media. It was broadcasted. People were looking
14 for that vehicle or that license plate. Just made
15 contact to see how things were going, see if they had
16 obtained any more information, and I just mentioned
17 to him that, uh, there was -- we got maybe this call,
18 or maybe somebody said this, or somebody said that.

19 Q Sometime later that morning, uh, specifically at
20 about 10:30 that morning, Saturday, the 5th, did
21 you receive some additional information?

22 A Yes.

23 Q Can you tell the jury what that was, please?

24 A Well, I got a -- a call from, uh, Investigator
25 Wiegert, and he said that he just got a call from a

1 female, or two females that, um, they were out on the
2 Avery property, and they found a car that may be
3 Teresa's, and the comments were, you -- you need to
4 get out there. That was the first phone call.

5 Q Since this was in Manitowoc County, that is, the
6 Avery salvage property, um, were you still at
7 this point actively involved in at least that
8 part of the investigation?

9 A Yes.

10 Q Okay. What did you do?

11 A Um, after I received the phone call, I grabbed a
12 bunch of my evidence bags and kits, and I, uh, ran
13 outside, went to my squad car, and I got in. Um, I
14 started, uh -- I let dispatch know, I let the shift
15 commander know, and I started responding to Mishicot.
16 That's about 10:49, 10 to 11 in the morning.

17 Q Did you proceed to the Avery salvage business
18 then?

19 A Yes.

20 Q About what time was it that, uh, you got to the
21 Avery salvage business, if you recall?

22 A 10:59 a.m.

23 Q Were you the first to arrive or were there other
24 people there?

25 A There were other people there.

1 Q Do you know from which department those were?

2 A They were from our Department, the Sheriff's
3 Department.

4 Q Who was there?

5 A On my way there, as I was getting more information, I
6 told -- I asked if somebody was in the vicinity, if
7 anybody was close to Avery Road. Uh, Deputy O'Connor
8 was close. And I was getting more information that
9 sounded like this may be her vehicle. I instructed
10 Deputy O'Connor to park at the end of Avery Road and
11 147, and I told him not to let anybody in and don't
12 let anybody out until we have some more information.

13 So he was parked at the end of the road.
14 Um, Sergeant Orth arrived just before me, and
15 Lieutenant Hermann arrived, um, right around the
16 same time I did.

17 Q On your arrival, where did you go?

18 A I wasn't sure where I was going to go. Uh, at one
19 point I called one of the Sturm -- I think Nikole or
20 Pam -- and she told me where to go. Just keep going
21 straight as you come in on Avery Road. And that's
22 what I did. And come in on Avery Road, and then you
23 go down into a gravel pit area. And I seen Pam and
24 Nikole standing, um, down in that area, and I parked
25 my squad right down there.

1 Q If you want to look at the, uh, exhibit, Exhibit
2 No. 86, as you're coming in, and when you get to
3 this fork --

4 A Yes.

5 Q -- instead of going right to Steven's, you were
6 instructed to go straight; is that right?

7 A Straight. Yes.

8 Q Did you do that?

9 A Yes.

10 Q And where did you go next?

11 A Um, if you continue to go straight, uh -- yeah, just
12 proceed a little -- There you go. Right there.

13 Right -- Good. The bottom left-hand corner, uh, is
14 where we drove in. And then you can kind of see the
15 light-colored, uh, gravel, um, between the mass of
16 cars. My car parked right about where, uh, the end
17 of the light-colored gravel is, towards -- towards
18 the top -- right -- right before that pond area.

19 Q Detective Remiker, we're going to provide you
20 with a laser pointer so that you can --

21 A That will help.

22 Q -- better explain your testimony.

23 A Yes. Thank you. I parked right about there.

24 Q So that would be north of the, um -- the pond
25 area; is that right?

1 A Yes.

2 Q Now, do you know where the -- uh, something
3 called the car crusher is?

4 A Yes.

5 Q Where's that?

6 A That is right there.

7 Q So orange --

8 A Yes.

9 Q -- piece of equipment?

10 A Correct.

11 Q And what's next to the car crusher along the --
12 that edge if you -- if you know?

13 A I believe there were crushed cars along that -- right
14 alongside that car crusher.

15 Q My question is: Did you see that at that time?

16 A Yes.

17 Q I'm just -- So that I don't forget, I'm going to
18 show you one exhibit that has yet to be
19 identified. Have you take a look at Exhibit No.
20 70 and tell us what we're looking at there?

21 A Those are crushed vehicles that are in the vicinity
22 of the car crusher on one side or the other.

23 Q Is that how they looked on the 5th of -- of
24 November?

25 A Yes.

1 ATTORNEY KRATZ: I move the admission of
2 Exhibit 70 so I won't forget to do that, Judge.

3 THE COURT: Any objection?

4 ATTORNEY STRANG: No objection.

5 THE COURT: All right. The exhibit is
6 admitted.

7 Q (By Attorney Kratz) All right. Who else was at
8 that location when you got there?

9 A Pam and Nikole Sturm were standing down there. Um,
10 eventually more people arrived. I don't know at what
11 point you're talking.

12 Q Well, that -- that's the point that I'm -- I'm --
13 I'm discussing. You had some contact with Pam
14 and Nikole Sturm; is that right?

15 A Yes.

16 Q Uh, did they point out for you the Rav 4 or its
17 location?

18 A Yes.

19 Q What did you do after they pointed that out to
20 you?

21 A I looked in that area. I couldn't really see the Rav
22 4, and I then began walking. Uh, there's kind of a
23 path here, and then I took a right and I walked in,
24 and Sergeant Orth had just arrived, and I went
25 towards him, and there was a vehicle, and it was all

1 covered up. It was a Toyota Rav 4, no license
2 plates.

3 Q All right. What were your responsibilities then?

4 What -- what did you do when you saw that Rav 4?

5 A Well, I -- The best way to first identify whether it
6 was Teresa's was -- it didn't have license plates, so
7 you couldn't identify it that way, so the next best
8 thing would be to, uh, look at the VIN number, and I
9 had -- I carried along a manila envelope, and in that
10 envelope I had, uh, a printout of the missing or
11 endangered, um -- printout that had Teresa's name on
12 it and the vehicle, and I had that with me, and I
13 walked up to the vehicle and started looking at the,
14 uh -- the VIN number.

15 Q The VIN number -- the VIN number is a Vehicle
16 Identification Number; is that right?

17 A Yes.

18 Q And where is it located on this vehicle?

19 A This was located, um, right by, um, the front
20 driver's side window. The lower left-hand corner, I
21 guess, if you're seated inside the driver's seat of
22 the vehicle.

23 Q All right. You said you had a flashlight with
24 you?

25 A Not at first.

1 Q Oh, I'm sorry. Uh, uh, I jumped ahead. Did you
2 come in possession of a flashlight?

3 A Yes. I couldn't read all the VIN numbers and I asked
4 either Lieutenant Hermann or Sergeant Orth for a
5 flashlight because I -- I thought that would help
6 with glares and different -- the lighting conditions
7 weren't the greatest to see, plus the VIN plate was
8 moved or tampered with.

9 Q All right. Were you then able to identify this
10 vehicle?

11 A Yes.

12 Q And whose vehicle was it?

13 A Um, all 17 numbers matched the VIN number of the
14 vehicle that was registered to Teresa Halbach.

15 Q Now, while you were there, we've heard from other
16 deputies that were on scene, but let me ask you,
17 specifically, did you, uh, touch or otherwise
18 disturb that vehicle?

19 A That vehicle wasn't touched at all. I looked at the
20 VIN number, glanced in the back window. That vehicle
21 was not touched.

22 Q How can you be so sure?

23 A Because I -- The way it was concealed, the suspicious
24 nature of it, I knew we had something on our hands
25 here. And I very specifically instructed nobody to

1 even touch the vehicle. Don't check the doors.

2 Nothing.

3 Q All right. That was important to you that nobody
4 touched the vehicle?

5 A That was very important.

6 Q Did you make that fact known to the other
7 deputies that were on the scene?

8 A Yes. In fact, I told Sergeant Orth that he should
9 watch the vehicle, but don't even get close to it.
10 In fact, he probably stood 10, 15 yards from the
11 vehicle just to make sure.

12 Q Being a detective, did you do some initial
13 investigative work around that vehicle or just
14 some cursory investigation?

15 A I checked the VIN number. Uh, I remember peeking
16 into the backseat. There was a, uh, digital camera,
17 photo card, like a memory card, that you put in a
18 digital camera. That was in the back area.

19 Um, I remember seeing the letters,
20 T-E-R-T-H-E-R-E-S. Looked like Teresa --

21 Q Okay.

22 A -- or Terese written on it. Um, I looked under the
23 vehicle real quickly to see if maybe Teresa was under
24 there and, um, that was it.

25 Q You didn't see any body?

1 A No.

2 Q Was your purpose, uh, Detective Remiker, to
3 verify anything other than that that was Teresa's
4 vehicle on the scene?

5 A That's all I felt was necessary at the time, and
6 then -- and I had contacted, Lieu -- uh, Investigator
7 Wiegert and told him the VIN was confirmed.

8 Q Okay. Make sure you speak up nice and loudly --

9 A I'm sorry.

10 Q -- so that we can all -- we can all hear you.
11 Um, other than Manitowoc County authorities being
12 on scene, was there anybody else that was either
13 there or en route?

14 A I called Investigator Wiegert on our radio on the
15 Sheriff's frequency. Uh, and I think he was
16 monitoring at that time, in fact, I know he was, and
17 I told him -- I think the word I used was
18 "confirmed." The VIN was confirmed.

19 Um, he was on his way with Sheriff
20 Pagel. Um, eventually some other investigators
21 showed up. Um, Earl Avery showed up on a
22 four-wheeler.

23 Q Did you speak to Earl Avery? One of the, uh,
24 Avery brothers?

25 A Yes.

1 Q About how long was it before Calumet County
2 authorities arrived, if you recall?

3 A I got there roughly 11 a.m. and I think they arrived
4 at 11:06 is what my notes say.

5 Q All right.

6 A Six minutes. Five. Within ten minutes.

7 Q Five or six minutes is what Manitowoc was there;
8 is that right? How long?

9 A Oh, yes. Very shortly. Yes.

10 Q Thereafter, it was Calumet County, to your
11 knowledge, continuously at that scene from that
12 point, actually, through the 12th of November?

13 A Yes.

14 Q In that five or six minutes that Manitowoc
15 County, uh, was there alone, would you have been
16 in a position to see if anybody either entered
17 that vehicle or tampered with that vehicle?

18 A Nobody entered that vehicle or did anything to that
19 vehicle other than watch it.

20 Q All right. Let me ask you, Detective, uh,
21 Remiker, at some point shortly thereafter, were
22 you joined by your district attorney, Mr. Rohrer,
23 and Mr. Griesbach, an Assistant D.A., from, uh,
24 Manitowoc County?

25 A Eventually, those individuals came to that location.

1 Yes.

2 Q After their arrival, do you recall a discussion
3 regarding who should head up both this
4 investigation and, if necessary, uh, any, um,
5 lawyer involvement, any D.A. involvement, in the
6 case?

7 A There was a lot of discussion about that, yes.

8 Q Can you recount that for the jury, please?

9 A Um, obviously, uh, there were Calumet County people
10 there. There were, um, Manitowoc County, uh,
11 investigators, administrative staff there. In fact,
12 um, at one point, uh, Deputy Inspector Schetter
13 arrived, and, um, he had, obviously, more knowledge
14 or -- or understanding of what was going -- his
15 perception of maybe a conflict of inter -- interest
16 in some ongoing litigation between, uh, Steven Avery
17 and Manitowoc County.

18 And there was a decision made and a
19 discussion made amongst Manitowoc County
20 individuals, Calumet County individuals, and
21 individuals from each District Attorney's Office
22 that it was probably in the best interest to have
23 Calumet County officers, um, work on the
24 investigation, and, uh, they would even also, uh,
25 ask the State of Wisconsin or DCI to assist also.

1 Q All right. That's from a law enforcement
2 standpoint. Did you also understand that
3 something called a search warrant had to be
4 applied for with a judge?

5 A Yes.

6 Q And were you informed as to, uh, which lawyers
7 might be involved in securing that search
8 warrant?

9 A Yes. Um, it was decided that the Calumet County, uh,
10 District Attorney's Office, in fact, yourself, would,
11 um, take over as, um, special prosecutor in the case
12 or -- or handle the case.

13 Q All right.

14 A And the search warrants would go through Calumet
15 County.

16 Q The search warrant application process, are you
17 familiar with that, generally?

18 A Yes.

19 Q Were you involved that day in applying for a
20 search warrant from, uh, Judge, uh, Fox, of, uh,
21 Manitowoc County?

22 A I was specifically given instructions to go get, um,
23 descriptions of different buildings or residences for
24 the application of a search warrant.

25 Q And did you assist in that process?

1 A Yes.

2 Q In fact, uh, Mr., uh, Remiker, did you accompany
3 some lawyers and some other law enforcement
4 officers to Judge Fox's house, to his residence,
5 in which to secure the search warrant?

6 A I did.

7 Q Was a search warrant obtained that morning? Or,
8 excuse me, that afternoon?

9 A Yes. Between, uh, probably 2 and 3:30, we had, uh,
10 obtained the search warrant signed by Judge Fox.

11 Q All right. After receiving the search warrant,
12 after receiving judicial, uh, authority --
13 authorization to search that premises, tell the
14 jury what you did, please?

15 A We returned -- We got back to the Avery property, uh,
16 about 3:25 in the afternoon. Uh, we all got
17 together. It was -- I believe it was starting to get
18 dark, and we then discussed amongst, um, Investigator
19 Wiegert and Agent Fassbender how we were going to
20 carry out the different tasks that we knew we needed
21 to carry out.

22 And we discussed that. We talked about
23 it. We tried to figure out who was going to do
24 what. Who was going where. What was I -- what
25 was our priority at that time, and, uh, at -- at

1 some point, based on our discussion, we decided
2 that certain individuals would go check certain
3 areas.

4 We -- we were very concerned that Teresa
5 was still out there and hopefully alive, uh, was
6 what we were hoping for. So we needed to do some
7 checks to see if she was somewhere on that
8 property.

9 Q Was there somewhat of a time crunch involved in
10 that decision?

11 A Obviously, if Teresa was out there, and she was
12 injured or hurt or something, we were urgent -- I
13 mean, we had that urgency to see if we could find
14 her. Um, I mean, we were all under the gun out
15 there. We had a lot of work to do.

16 Q All right. Let me ask you -- I -- I forgot to
17 ask. On your return with the search warrant, um,
18 do you recall that a system had been set up to
19 log officers in and out of that property?

20 A Yes.

21 Q And did you then log in when you came back with
22 the search warrant?

23 A Yeah. I don't know how many layers were -- there
24 were. I know there was a vehicle parked at the end
25 of Avery Road and 147 log -- uh, logging people in

1 and out. Um, and then I believe there were
2 additional checks at each portion of the driveway
3 where -- where it kind of forked out. I think there
4 were people there also.

5 Q Let me ask you this, uh, Detective Remiker, when
6 you got this information from Investigator
7 Wiegert, did you, um, keep your boss informed of
8 what was going on out there?

9 A Yes. Right -- right after I confirmed the VIN number
10 on her car, I contacted dispatch and told them to
11 page Lieutenant Lenk and Detective Jacobs.

12 Q When you left, that is, before the search warrant
13 was applied for, was Lieutenant Lenk there yet?

14 A No.

15 Q Upon your return with the ex -- or, excuse me,
16 with the actual search warrant having been signed
17 and authorized by Judge Fox, uh, was Lieutenant
18 Lenk then at the property?

19 A Yes.

20 Q Any question, Detective Remiker, who had command
21 or control authority over this scene?

22 A Uh, definitely Investigator Wiegert and Agent
23 Fassbender. Everything went through them.

24 Q In other words, there's no question in your mind
25 that this wasn't a Manitowoc County case anymore?

1 ATTORNEY STRANG: Leading, and asked and
2 answered.

3 ATTORNEY KRATZ: I -- I -- I can move on,
4 Judge. I just --

5 THE COURT: All right.

6 ATTORNEY KRATZ: This witness', uh,
7 perception is what I would ask, but I'll move --
8 I'll move on.

9 Q (By Attorney Kratz) Were you aware and, in fact,
10 did you provide services, assistance, to
11 Misters Fassbender and Wiegert?

12 A Yes.

13 Q And what, uh, role were you specifically going to
14 provide and, if you know, that of Manitowoc
15 County?

16 A Well, in a case like this, uh, probably the most
17 important people are evidence technicians. Those are
18 people who have specialized training in, um,
19 identifying, collecting, packaging, labeling,
20 sealing, securing, uh, evidence. So those are --
21 those people are very important.

22 And I'm an evidence tech, uh, Lieutenant
23 Lenk is an evidence tech, Sergeant Colborn is an
24 evidence tech. Two individuals that I -- I trust
25 and individuals that I felt would be very

1 thorough and very -- be very competent and
2 professional. So I offered them, um, the
3 services of myself, and Lieutenant Lenk, and
4 Sergeant Colborn to -- to give them a hand. Plus
5 we had all our equipment out there.

6 Q So it was you that volunteered those services?
7 Is that your testimony?

8 A Oh, yes. Definitely.

9 Q Let me ask you this, Detective Remiker, were you
10 familiar at that time that Lieutenant Lenk or
11 Sergeant Colborn had been involved or that
12 provided a deposition in some civil lawsuit by
13 Mr. Avery?

14 A I'll tell you this, when we were out there, and the
15 magnitude of what we all had to do, and the fact that
16 it was very overwhelming, that was never even thought
17 of.

18 ATTORNEY STRANG: That wasn't my
19 question, Your Honor, so I can't move to strike
20 as non-responsive, but it is a narrative.

21 THE COURT: Uh, I'm going to sustain the
22 objection. The answer is unresponsive.

23 ATTORNEY KRATZ: All right. We'll break
24 it into -- into specific, uh -- into specific
25 points.

1 Q (By Attorney Kratz) You talked about the size of
2 this undertaking. Can you put that into context
3 for the jury, please?

4 A Thirty, forty acres, thousands of cars, buildings,
5 outbuildings, residences, shops, garages, uh, there
6 was a lot of searching to do.

7 Q Did you recognize any resource allocation issues
8 or problems?

9 A I felt that myself and -- and the individuals that --
10 that, um, I asked to accompany me could carry out
11 certain tasks. There were other tasks that needed to
12 be done by a lot of other people.

13 Q No. Let me ask you this: The evidence techs, or
14 people that you knew had specialized training
15 in -- in collection, packaging, um, and, uh,
16 processing of evidence, were those individuals
17 put into search teams?

18 A Yes.

19 Q Were you made part of one of those search teams?

20 A Yes.

21 Q Who else was involved in your search team?

22 A Which search?

23 Q That very -- that -- that -- the first day. On
24 the 5th. Or were there more than one searches on
25 the -- on the 5th?

1 A Well, initially, myself and, um, Investigator Steier,
2 Gary Steier from Calumet County Sheriff's Department,
3 we initially went in to Steve's residence for the
4 very first time on that Saturday to see if Teresa was
5 in there. So it -- that was, I guess, in some terms
6 a search. A search for Teresa, and then there was
7 another search done in Steven's trailer a little bit
8 later.

9 Q Is there another term for that, uh, first kind of
10 search?

11 A It was -- I -- we were looking for Teresa. It was
12 a -- it was a -- I wouldn't say it was a forensic
13 search. It was a search rescue-type thing. See if
14 she was in there.

15 Q How long were you in the -- in the residence?

16 A Ten minutes.

17 Q After that initial walk-through of Steve's
18 trailer, were there other teams then that were
19 assembled?

20 A Yes.

21 Q Uh, just so the jury understands, were other
22 residences and outbuildings also gone through
23 quickly that very first time?

24 A Yes.

25 Q So it wasn't just Steve's trailer?

1 A No.

2 Q And thereafter, were you put into a search team?

3 A Yes.

4 Q And who was that search team comprised of?

5 A Myself, um, Lieutenant Lenk, Sergeant Colborn, and
6 Sergeant Bill Tyson from Calumet County Sheriff's
7 Department.

8 Q I don't intend, since we've had three other
9 witnesses talking about the searches, to go
10 through item by item, but I do want to go
11 through, uh, at least some of these things in --
12 in a broad sense. Did you accompany Sergeant
13 Tyson, uh, and those other two Manitowoc
14 individuals to Steve's trailer?

15 A Yes.

16 Q Could you describe that search effort that night,
17 please?

18 A Um, Sergeant Tyson was assigned to, uh, pretty much
19 document as much as he possibly could in that
20 trailer. And then once we, uh, went into the
21 trailer, we had decided that we were going to first
22 go to that back bedroom, uh, which we eventually
23 identified as being the bedroom of Steven Avery.

24 I discussed it with the other officers,
25 and we determined that each officer would take a

1 specific area of that bedroom. I had the closet,
2 the dresser area, which is on one side of the
3 bed, and, um, Sergeant Colborn kind of had the
4 other side of the bed where, um, there was some
5 cabinets and drawers and stuff like that. And,
6 then, uh, I think Lieutenant Lenk helped me, um,
7 in the closet area.

8 Q All right. Was each room of Steve's trailer
9 searched that night?

10 A Yes.

11 Q Were photographs taken?

12 A Yes.

13 Q Um, who was involved in the photography, if you
14 recall?

15 A Um, I took digital photographs and Sergeant Colborn
16 took 35mm photographs.

17 Q About how long did that first search take, if you
18 recall? The second search.

19 A I believe it was from about 7:30 until about
20 10:00 p.m.

21 Q In that two-and-a-half-hour time frame, um, were
22 you aware -- or was it decided whether your
23 search team had a -- a leader or who was
24 directing the search?

25 A Sergeant Tyson was documenting everything. Um, we

1 were -- You know, we discussed everything before we
2 did it. You know, let's now go to this room. You do
3 this, you do that. We all were in agreement. I
4 don't know if there was anybody who was really -- who
5 really stood out or was a commander, I guess.

6 Q Okay. Which individual or which agency took
7 control of the physical items that were seized?

8 A Uh, Calumet County Sheriff's Department took
9 everything.

10 Q By the way, do you remember the weather that
11 night?

12 A Cold. Um, Saturday. I know it was cold. I don't
13 remember if there was precipitation, or rain, or
14 snow. Sunday, there wasn't. I know that.

15 Q After the search was completed in Mr. Avery's
16 trailer with your search team, um, where did you
17 go?

18 A Um, we were done for the night after the, uh -- We
19 did -- we did Steven's trailer, and then, um, I think
20 we went back to the command post, and all the
21 evidence was given to Calumet County, and they --
22 they secured it.

23 Q Do you have any discussions at the end of the day
24 kind of thing?

25 A Yes. What all had -- what had to be done the next

1 day. Um, what our priority was. Um, who needed to
2 be back on the property the next day.

3 Q And who made that decision, if you recall?

4 A Um, Calumet County Investigator Wiegert and Agent
5 Fassbender.

6 Q Agent Fassbender's actually not Calumet County;
7 is that right?

8 A Correct.

9 Q The next day, then, on Sunday, the 6th, can you
10 tell the jury what you did?

11 A Uh, we arrived early in the morning. Our next
12 priority was to search the garage, which we believed
13 was Steven Avery's garage, and, uh, at that point,
14 um, we had a team that got together; myself, um,
15 Sergeant Colborn, Lieutenant Lenk, and Deputy
16 Kucharski from Calumet County Sheriff's Department.

17 And, again, we would designate who did
18 what, what each individual had to do and what
19 their duties were, and, um, I believe it was
20 right at eight o'clock in the morning we went
21 into the garage and started doing our search of
22 the garage.

23 Q Whose garage?

24 A Steven Avery's garage. The detached garage.

25 Q After completing that search, can you tell the

1 jurors where you went next?

2 A Uh, we were done with that about ten to ten with the
3 garage, and we had received some information that
4 there was -- there were some burning barrels. There
5 were four burning barrels behind Barb Janda's
6 trailer, and they wanted to, um, grab those barrels
7 and put them in a -- an enclosed trailer.

8 It was starting to rain, sleet. It
9 was -- it was pretty miserable out there at the
10 time, and I think we got some tarps on the
11 barrels, and then I had told them before we moved
12 them, before we load them out -- load them up,
13 we're going to have to itemize them or designate
14 a number, and then take photographs so we know
15 their exact position prior to them being moved.

16 Q Exhibit 52 that's now being shown in the
17 courtroom. Does that document that event?

18 A Yes.

19 Q And who is that in the orange jacket?

20 A That's myself.

21 Q What are you doing in this picture?

22 A It was windy. Um, to me it looks like I'm holding
23 the tarps down. Um, I may have been moving the tarps
24 so that photographs could be taken of the numbers
25 that I put on the side of the barrels.

1 Q All right. After securing those four burn
2 barrels, tell the jury where you went, please?

3 A After that, we went to Barb's trailer.

4 Q I show you what's been received as Exhibit No.
5 54. Tell the jury if you recognize this picture?

6 A That's, uh -- that's standing outside of Barb's
7 trailer. Uh, the front of -- of the trailer, 12930,
8 I believe, is the address on the house.

9 Q And did you enter this trailer?

10 A Yes.

11 Q What did you do upon entry of this trailer?

12 A Um, we identified ourselves. Um, verbally announced,
13 search warrant. Went into the residence. Um, right
14 when we walked into that side door on the left --
15 It's a linoleum floor. There was what looked to be,
16 um, um, dried, red liquid substance on the floor.
17 Um, so we -- we identified that spot, and then,
18 again, we designated each individual to go to certain
19 areas to, uh -- to search and take -- we took
20 photographs before, um, and then we did our search
21 after that.

22 Q Within the residence and upon completion, uh, of
23 the search, did you have occasion to come across
24 an item which is depicted in an exhibit, which
25 has been received, which is Exhibit No. 55?

1 A Yes.

2 Q Tell the jury what this is, please?

3 A That was, uh -- that was in the residence. Um, it
4 was, I would say, between the kitchen and the living
5 room area. It was on a table or a stand. It's a --
6 it's a digital answering machine.

7 Q Was this answering machine examined by you at
8 that time?

9 A Yes.

10 Q And how was it examined, if you recall?

11 A I was interested in what was on the answering
12 machine. I believe there was, uh, the number 12, or
13 indicated that there were 12 messages on the machine.
14 And I started going through the messages to see if
15 they were of any importance. And then I found, uh,
16 message No. 6 on the answering machine.

17 (Exhibit No. 218 marked for identification.)

18 Q There's a, um -- a -- a video clip, a -- a -- a
19 CD, that's in front of you, um, an exhibit
20 number. Can you tell us what exhibit number that
21 is, please?

22 A Uh, 218, 2-1-8.

23 Q Exhibit No. 218 -- and for the record and
24 Mr. Strang's benefit -- uh, is the video clip
25 of -- of this particular phone call? Is that

1 your understanding?

2 A Yes. This is recorded on my digital camera, which
3 also has the ability to record movies and audio.

4 Q Now, let me ask you this, uh, um, Detective,
5 Remiker, have you been asked to compare this
6 particular phone call that we're about to hear
7 with some, um, business records and determine the
8 date and time of this call?

9 A Yes.

10 Q And have you been able to do that?

11 A Yes.

12 Q What is the date and time of the call that we're
13 about to hear, if you -- if you know?

14 A That phone call, um, was placed on October 31, 2005
15 at 11:43 a.m., I believe.

16 Q All right. I'm going to play this, uh, video
17 clip, and then I'm going to ask if you can
18 identify it.

19 A Okay.

20 Q "Hello. This is Teresa with *Auto Trader*
21 *Magazine*. I'm the photographer, and just giving
22 you a call to let you know that I could come out
23 there today, um, in the afternoon. It would --
24 will probably be around two o'clock or even
25 longer, but, um, if you could please give me a

1 call back and let me know if that will work for
2 you, because I don't have your address or
3 anything, so I can't stop by without getting a
4 call back from you. And my cell phone is
5 737-4731. Again, it's Teresa, 920-737-4731.
6 Thank you."

7 "Monday, 12:25 a.m."

8 Detective Remiker, is that the, um, recording,
9 the answering machine message, that you heard at
10 that time?

11 A Yes.

12 Q From an individual identifying herself as Teresa
13 from *Auto Trader Magazine*. Uh, did you believe
14 that was important and did you, in fact, retain a
15 copy of that message?

16 A Yes.

17 ATTORNEY KRATZ: I will move the
18 admission of Exhibit 218, please.

19 THE COURT: Any objection?

20 ATTORNEY STRANG: None at all. And, um,
21 you know, we -- we consider that the voice of
22 Teresa Halbach to be established.

23 THE COURT: Very well. The exhibit is
24 admitted.

25 ATTORNEY KRATZ: Thank you, Judge.

1 Q (By Attorney Kratz) Detective Remiker, uh, how
2 long did the search of Barb Janda's -- and --
3 and -- and that's where this was found; is that
4 right? In Barb Janda's trailer?

5 A Yes.

6 Q How long did the search of Barb Janda's trailer
7 take?

8 A From about 10:15 until about 12:25, I believe.

9 Q Thereafter, that is, after this answering machine
10 message was recorded, uh, by you, uh, were you
11 asked to assist in other searches that day as
12 well?

13 A Yes.

14 Q And, just generally, since we've been through
15 this several times, and you don't know that but
16 we have, can you tell us the places that were
17 searched?

18 A Uh, we were asked to go back into Steve's trailer,
19 uh, to retrieve some additional items; including some
20 firearms, some bedding, um, I believe either vacuum
21 cleaner or -- or carpet shampooer. Um, so we went
22 back into Steve's -- this would be myself, Lieutenant
23 Lenk, Sergeant Colborn, and Deputy Kucharski -- went
24 back into Steve's trailer to specifically retrieve
25 those items. We were in there for about a half hour.

1 Q Where else did you go then?

2 A After that, we -- I believe the next search would
3 have been, um, the auto shop building.

4 Q All right. Was anything of significance found in
5 that -- in that building?

6 A No. There was a -- there was a car up on a hoist,
7 and we -- In fact, I, physically, I think, climbed up
8 there. We brought the hoist down a little bit to
9 check to see if maybe Teresa was in that car. We
10 searched the office area. Nothing in there.

11 Q Do you recall, was it the Crime Lab, uh, Response
12 Unit -- Field Response Unit, uh, there that day
13 as well? On Sunday, the 6th?

14 A I'm sure they were. I don't ever recall seeing them,
15 specifically.

16 Q Well, my question is, uh, were there other law
17 enforcement officials, not just from Manitowoc or
18 Calumet, but from other agencies, in different
19 parts of this 40-acre salvage yard?

20 A Yes.

21 Q Do you know what all of them were doing?

22 A I -- my focus was on what I had to do. I wasn't
23 really concerned about where everybody else was at
24 the time.

25 Q All right. Let's skip to the -- the end of that

1 day. Detective Remiker, at the conclusion of the
2 day on the 6th of November, um, were you asked to
3 return at all to the Avery salvage property to
4 complete searches in that November?

5 A On that Monday was I asked to return?

6 Q Yes.

7 A I was asked. I wasn't able to return.

8 Q Can you tell us why?

9 A Um, my wife was pregnant and, uh, she had some issues
10 overnight, so I called Lieutenant Lenk and told him
11 that it probably wasn't the best for me to come. She
12 was going to be induced on that Wednesday, so it was
13 best for me to just be done.

14 Q All right.

15 A I had a big day ahead of us.

16 Q And did you then, um, return at all those next
17 following days?

18 A No.

19 Q I'm going to direct your attention, however, to
20 March 1 and 2 of, uh, 2006 at about four months,
21 maybe, after, uh, these initial searches began,
22 ask if you assisted and would ask to assist in
23 some additional searches at the Avery salvage
24 property?

25 A I was.

1 Q And, um, where were you asked to assist? In
2 other words, in what building were you assigned
3 responsibilities for?

4 A On -- on March 1, that first day we got out there, my
5 assignment was to videotape, um, prior to the search
6 of Steven Avery's residence and after the completion
7 of the search. Um, as I was there, as we were, um,
8 standing by, as other people were doing their search,
9 I was asked numerous times about certain pieces of
10 equipment, or what they should do, or how they should
11 collect that, or if I had this, or if I had that and,
12 um, I would then just provide them with whatever they
13 needed.

14 Q You were inside of, uh, Mr. Avery's trailer then
15 on the 1st and 2nd of March?

16 A I believe -- Yes. Both days, yes.

17 Q Were you inside of Mr. Avery's garage on those
18 days?

19 A On the 1st, um, I wasn't in the garage. I may have
20 been near the garage to give them supplies. Um, on
21 the 2nd I was then asked if I could come into the
22 garage and help them.

23 Q All right. Well, it's on the 2nd that I -- I had
24 my next series of questions. Uh, did you, um,
25 assist other law enforcement officers in a

1 thorough search of Mr. Avery's garage on March 2?

2 A Yes.

3 Q And during that thorough search, do you recall
4 coming across any, uh, item of particular
5 interest?

6 A Well, we found some, uh -- some additional shell
7 casings. Um, we were searching on our hands and
8 knees. At one point I remember, um, DCI Agent Kevin
9 Heimerl located what looked to be a bullet fragment
10 near the -- the air compressor, kind of in the back
11 left corner of the garage. And, for the most part, I
12 was specifically -- once stuff was located, my job
13 was to specifically collect that item and make sure
14 it was collected properly.

15 Q Were there a lot of items in this garage at the
16 time?

17 A It was -- it was full. Um, I think every wall was
18 lined with stuff, and -- and this time we physically
19 moved everything from one location to the next.

20 Q During the course of this search, um, did, um --
21 and towards the back wall, which would be towards
22 the south wall of the garage, uh, was any item of
23 particular interest noted by you?

24 A There were -- there was a bullet fragment that was
25 located. Um, there was, um, some fibers, I think off

1 of a glove, or -- or some hair samples that we --
2 that we took off a glove.

3 Q Let me show you an exhibit which has been
4 received into evidence. Exhibit 108. It's a --
5 it's not a photograph, but it's a
6 computer-generated, um, exhibit. Will this help
7 you explain for the jury where that bullet
8 fragment was found?

9 A Yes.

10 Q Tell us what we're looking at, please?

11 A Um, Item No. 23-A, um, is -- right in between there
12 was a large, uh, tool box. Um, to the left of 23-A,
13 I believe, is a car creeper, is what I call it, and
14 that bullet fragment --

15 Q What's a car creeper, before we go any further?

16 A It's -- it's a device that you use -- that you lay
17 on. Usually lay on your back. It's got wheels on it
18 and you can roll yourself underneath a vehicle, um,
19 for whatever reason.

20 Q Was there an item, if you recall, that was
21 between those two -- uh, that is, between the
22 creeper and the tall tool box?

23 A Yes. There was a small, um, lead or a bullet
24 fragment that was located at that spot. That
25 location.

1 Q Now, we'll hear from, um, a gentleman by the name
2 of Kevin Heimerl. By the way, who is
3 Mr. Heimerl?

4 A He is a, uh, agent with, um, the Department of
5 Criminal Investigation. It's a state agency. A
6 state law enforcement investigative agency.

7 Q Was that bullet fragment, uh, photographed and
8 thereafter, uh, collected by state agents at that
9 time?

10 A It was photographed. It was collected by myself.

11 Q Okay. After you collected that bullet fragment,
12 what did you do with it?

13 A Um, I believe Investigator Gary Steier, from Calumet
14 County Sheriff's Department, was in the garage with
15 us. So after it was collected, labeled, sealed, and
16 packaged, then it would go over to, uh, Investigator
17 Steier and he would make his log entries.

18 Q All right. Now, you mentioned Mr. Heimerl. What
19 was his duties that night, if you recall?

20 A He was taking photography. Um, he was one of the
21 individuals on their hands and knees searching,
22 looking, um, identifying different stuff. Uh, we'd
23 find stuff and then we'd look at it to see if it had
24 any significance. So we were -- we were searchers, I
25 guess.

1 Q By the way, how long did the search of this
2 garage take? You said that you moved -- you
3 physically moving every item. How long did that
4 take you?

5 A March 2? Or --

6 Q Well, if you recall? If -- if -- You said you
7 weren't involved on March 1?

8 A Correct. Um, I was in the garage probably around
9 9:00 a.m. on the 2nd and we were done in the garage
10 maybe around 2:00 p.m. on the 2nd.

11 Q And we'll hear from these other individuals, or
12 at least some of them, but you understood that
13 the search had been occurring the day before as
14 well on the 1st?

15 A Definitely, yes.

16 Q I just wanted to, um, clarify one point before I,
17 uh -- I -- I allow Mr., well, Buting or Strang to
18 ask you some questions. The -- Exhibit 218,
19 the -- the, um, recording of the voice message,
20 uh, do you hear a -- a time at the end of it?

21 Uh, twelve-something a.m.?

22 A 12:25 a.m.

23 Q All right. Do you know how that got on there, or
24 can you explain for the jury? If you know.

25 A I don't know. I wasn't -- I wasn't able to determine

1 the exact date stamp on the answering machine at the
2 time. I didn't want to, obviously, erase that
3 message. So, um, how far off it was, uh, according
4 to the date stamp on the answering machine, I don't
5 know.

6 Q But you later come to know that it was 11:43?

7 A A.m., yes.

8 Q The last question. That Exhibit No. 20 -- or,
9 excuse me, Exhibit No. 108, where we now see
10 what's depicted as a -- a evidence tent, 23-A,
11 um, was there a, uh, piece of equipment or an
12 item there?

13 A I believe there was a air compressor in that general
14 vicinity also.

15 Q My question is: Did that have to be moved before
16 you found the bullet?

17 ATTORNEY STRANG: He -- he didn't find
18 the bullet.

19 ATTORNEY KRATZ: I can ask it a different
20 way, Judge.

21 Q (By Attorney Kratz) Before you saw the bullet,
22 did that air compressor have to be moved or --
23 What happened with the air compressor?

24 A I -- I don't know. I can't recall.

25 Q Let's do it this way. I'm showing you what's

1 been received as Exhibit 121, ask if you can tell
2 us what we're looking at here?

3 A That's the area where the bullet fragment was
4 located, and that should be between the, um -- the
5 car creeper that says Black Jack on it and the tool
6 box. It was under that air compressor.

7 Q Use the laser pointer, please. Tell me what --
8 For those of us that don't know what a air
9 compressor looks like ...

10 A It's the green object with the -- the yellow label on
11 it with the tire.

12 Q Where was the bullet fragment?

13 A Under that air compressor. I mean, to the left, to
14 the right, I'm not -- I don't recall. But under that
15 air compressor.

16 Q All right. Under that piece of equipment?

17 A Yes.

18 ATTORNEY KRATZ: That's all I have of
19 Detective Remiker, Judge.

20 THE COURT: All right. Mr. Strang?

21 ATTORNEY STRANG: Yes, Your Honor.

22 Actually, it would be very useful to take about,
23 oh, probably five minutes without the jury, um,
24 before I start my cross.

25 THE COURT: All right. Members of the

1 jury, we'll take a short break at this time.

2 (Jury out at 2:10 p.m.)

3 THE COURT: You may be seated.

4 ATTORNEY STRANG: Uh, why don't we
5 excuse the witness, too, just to be on the -- the
6 safe side.

7 THE COURT: All right. Mr. Remiker, if
8 you could step out in the hall for a few minutes?
9 Mr. Strang?

10 ATTORNEY STRANG: One thing I want to do
11 is make sure the sound works. But, there were --
12 there were also three -- I thought there were
13 three things to bring up, uh, out of the jury's
14 presence with Detective Remiker. Turns out I --
15 I -- I've already talked to Mr. Kratz and checked
16 one off that list.

17 I -- Mr. Remiker's report does not refer
18 to finding a hair, a glove, or a fiber, and I
19 just wanted to make sure that that -- that wasn't
20 going anywhere, and it's not. Um, that's a
21 non-issue I'm -- I'm informed by the State.

22 The two remaining issues -- I don't want
23 to make a big deal about this. It wasn't, uh,
24 worth interrupting the direct, but I -- I think
25 when I explain them, Your Honor will understand

1 why we need to do a little bit of, um, you know,
2 correcting here, for want of a better word.

3 Um, we have -- Detective Remiker wrote
4 reports. Fairly lengthy reports. And on
5 November 4, 2005 we have his report of his
6 meeting with Mr. Avery, and, uh, he recounts
7 Mr. Avery as stating then that the -- the female
8 subject has been on the property numerous times.

9 Now, today, it -- what we heard today
10 was Steve said that she had been in the
11 residence. That gets to be -- you know, the
12 witness wouldn't have known that necessarily, but
13 that gets to be a fairly significant difference
14 and, um, I -- I -- I expect he did not mean to
15 alter or deviate from his report, um, if -- if he
16 did, and that -- and that's an all together
17 different statement, um, than the one disclosed
18 to us.

19 Again, I'm assuming it's -- what he
20 meant was Mr. Avery said she'd been on the
21 property. Um, but, you know, the Court's -- the
22 Court's heard the evidence, under -- understands
23 the importance of the distinction of statements.

24 Um, and then, um, we have his report on
25 the November 6 search where he -- he's asked to

1 retrieve the guns and the vacuum cleaner. And
2 the report, in fact, says -- this is page 15 of
3 the 24-page Manitowoc County, uh, report. Re --
4 report says that they collected the entire vacuum
5 cleaner.

6 Today what he says is, I don't remember
7 if it's a vacuum cleaner, or a carpet cleaner, or
8 carpet shampooer. I don't remember if it's a
9 shampooer or cleaner. But he's, you know -- he's
10 now offering the possibility that this wasn't a
11 normal vacuum cleaner, but was a -- a carpet
12 cleaner, and I'm assuming in the sense of
13 suggesting something wet.

14 Um, the potential importance of that is
15 obvious and, you know, our belief is that this
16 was just a vacuum cleaner, and I thought maybe we
17 ought to take these two points up out of the
18 jury's presence and try to streamline, um, the
19 cross and not create any more problems than we
20 have to.

21 As I say, the third point I've already
22 cleared up with Mr. Kratz.

23 THE COURT: Mr. Strang?

24 ATTORNEY STRANG: That -- that --

25 THE COURT: Or that's Mr., uh, Kratz?

1 Sorry.

2 ATTORNEY KRATZ: Well, Judge, uh, if there
3 are any inconsistencies, obviously Mr., uh, Strang
4 can, uh -- can go into them. Certainly with the
5 vacuum cleaner issue.

6 Uh, regarding the, uh, defendant's
7 statement, if Mr. Strang wanted to take a -- a
8 minute or two with Mr. Remiker outside the
9 presence of the jury, I don't have any problem
10 with that. That may be the easiest way to do
11 that --

12 ATTORNEY STRANG: Yeah.

13 ATTORNEY KRATZ: -- so that there's no
14 question.

15 ATTORNEY STRANG: That's -- that's a
16 good suggestion. Or if it's a non-issue, then we
17 don't have to belabor it.

18 THE COURT: All right. Why don't we bring
19 Mr., uh --

20 ATTORNEY STRANG: Or I -- I can just go
21 to the wit -- witness room. However you want
22 to --

23 THE COURT: Oh.

24 ATTORNEY STRANG: -- do it, Your Honor.

25 ATTORNEY KRATZ: He's got some AV issue

1 as well, Judge, that we thought --

2 THE COURT: Oh.

3 ATTORNEY KRATZ: -- we could take a few
4 minutes here, so--

5 THE COURT: All right.

6 (Wherein Attorney Strang speaks to Detective Remiker.)

7 ATTORNEY STRANG: Your Honor, this is
8 going to wind up taking a few more minutes. Um,
9 sorry about that. I -- I didn't expect the --

10 THE COURT: All right.

11 ATTORNEY STRANG: -- the issue.

12 THE COURT: We'll take about another
13 five minutes then and come back.

14 (Recess had at 2:21 p.m.)

15 (Reconvened at 3:10 p.m.; jurors not present)

16 THE COURT: At this time we are on the
17 record outside the presence of the jury. Uh,
18 Mr. Strang?

19 ATTORNEY STRANG: Thank you, Your Honor.
20 Um, we -- we've addressed, um, a number of issues
21 here in the break, and I appreciate the Court's
22 consideration. The, um -- the witness, Detective
23 Remiker, testified on direct examination by the
24 State to a statement of the defendant that was
25 not disclosed, uh, in discovery materials to the

1 defense, uh, so created a problem of
2 non-compliance with Section 971.23 (1)(b).

3 However, um, the State -- the State,
4 meaning the prosecution team, also did not have
5 that statement. Uh, for whatever reason the
6 Manitowoc County Sheriff's Department did not
7 share with the prosecution this statement or the
8 report document.

9 Uh, we -- we now, uh, have been able to
10 obtain copies of that report. Both sides have
11 it. Um, taking the whole of Detective Remiker's
12 testimony in context, uh, the defense is not
13 moving for a mistrial. Um, we discussed that
14 with Mr. Avery. Uh, I believe he understands why
15 we're not seeking a mistrial and accepts that
16 decision.

17 Uh, collaboratively with the
18 prosecutors, uh, we have agreed on a curative
19 measure, uh, that we think will suffice here in
20 these circumstances, and, um, of course, that
21 handles today's issue.

22 If -- if, uh, an issue of an undisclosed
23 statement of the defendant elicited by the State
24 should arise again, we, of course, may be in a
25 position of seeking other relief. But, uh, I

1 think we've addressed today's issue, um, with the
2 time that we've had and I appreciate it.

3 THE COURT: Anything, uh, from the State?

4 ATTORNEY KRATZ: No, Judge. Just that
5 the inconsistency in, uh, Mr. Remiker's, uh,
6 testimony compared to the reports that the
7 defense did have, uh, as Mr. Strang indicates,
8 is, uh, minimal, uh, especially as, uh, related
9 to Mr. Remiker's statement as a whole.

10 Uh, the curative measure that, uh, we've
11 jointly, uh, come up with, uh, is, um, very
12 acceptable to, uh -- to the State, uh, and we are
13 prepared to have Mr. Strang commence his
14 cross-examination.

15 THE COURT: All right. Before we bring the
16 jury in, let me ask that the, uh, ELMO light be
17 turned off. I would imagine it's stronger to the
18 jurors sitting next to it than it is here and it's
19 got some glare.

20 All right. We'll bring in the jurors at
21 this time and, uh, Mr., uh, Remiker can be
22 brought back into the courtroom as well.

23 (Jury in at 3:15 p.m.)

24 THE COURT: You may be seated. At, uh,
25 this time, Mr. Strang, you may commence your

1 cross-examination of the witness.

2 ATTORNEY STRANG: Thank you, Your Honor.

3 **CROSS-EXAMINATION**

4 BY ATTORNEY STRANG:

5 Q Detective Remiker, when you, uh -- when you
6 explained to counsel, uh, at the prosecution
7 table on direct examination that, uh, Lieutenant
8 James Lenk is your -- is your boss or your
9 supervisor, I believe is the term you used, he
10 is, first of all? I understood you correctly?

11 A Yes.

12 Q All right. Uh, and what you mean by that is
13 that, uh, he's one of the people who reviews your
14 work performance?

15 A Yes.

16 Q Does an annual review? That type of thing?

17 A Annual evaluation.

18 Q Evaluation?

19 A Sure.

20 Q Has some input on whether you get a salary
21 increase and how much?

22 A I don't know about that.

23 Q You know one way or the other?

24 A No.

25 Q Okay. But, you know, I mean, he's your

1 supervisor. He's the one who -- who controls
2 your assignments or passes out assignments to
3 you?

4 A Correct.

5 Q You work with him on the same shift?

6 A Yes.

7 Q The, um -- the meeting on -- on the evening of
8 November 3, after you were paged, you first
9 learned about the missing person report from
10 Calumet County?

11 A Yes.

12 Q You get paged? You come in?

13 A Correct.

14 Q Uh, sometime in the evening?

15 A Yes.

16 Q That, uh -- you -- you told us, uh, that
17 Investigator John Dederling from Calumet County
18 Sheriff's Department was at the meeting?

19 A Yes.

20 Q As was Lieutenant Lenk?

21 A Yes.

22 Q Uh, Detective Dennis Jacobs from your Department?
23 Or no?

24 A Yes.

25 Q He was there. Obviously, you were there. Anyone

1 else you recall being present at that
2 November 3 -- the Thursday night meeting?

3 A At one point we, uh, got with, um, Sergeant Colborn,
4 also. That initial meeting Sergeant Colborn wasn't
5 there.

6 Q Okay. But he -- but Colborn comes back to the
7 Sheriff's Office at some point and you folks
8 touch base with him as well?

9 A Yes.

10 Q Um, the, um -- Detec -- Detective Dennis Jacobs
11 is someone who's a relatively new name here. Uh,
12 colleague of yours?

13 A Yes.

14 Q Was he in the Detective's Unit or Detective
15 Bureau before you joined in May, 2003?

16 A Yes.

17 Q You also worked same shift with him?

18 A Yes.

19 Q You -- you two, uh, frequently worked together?

20 A Yes.

21 Q That evening, then, you joined Investigator
22 Dederling in going out to the Zipperers?

23 A Correct.

24 Q And, um -- and what, uh, had caused me to chuckle
25 in reading the report of yours, which I thought

1 it might have been the understatement of the
2 year, you -- you, uh -- you found that initially
3 George Zipperer was not real cooperative?
4 A It took them a while to answer the door and not real
5 cooperative.
6 Q Yeah. I mean, that's -- that's the way you
7 described it, is it not, in your report?
8 A Uncooperative?
9 Q I think your, uh -- I think your exact words
10 were, uh, initially George was not real
11 cooperative?
12 A That's accurate.
13 Q Does this look like your report from November 3?
14 A Yes.
15 Q You can look at whatever you want to help refresh
16 your recollection, but I -- I highlighted that.
17 A That's what it says. George was not real
18 cooperative.
19 Q That's true, isn't it? Initially?
20 A Yes.
21 Q Took 15 or 20 minutes even to answer the door
22 with sheriff deputies outside?
23 A Yes.
24 Q Uh, wouldn't allow the police to enter the house
25 even then?

1 A Initially, no.

2 Q You had to do it out -- sort of a lengthy
3 interview with his wife, JoEllen, through a
4 window before anybody would let you in the house?

5 A Yes.

6 Q George was belligerent?

7 A I would say a good word to use probably would be a
8 little abrasive.

9 Q A little abrasive. Some hostility?

10 A I'm sure he wasn't real happy to have law enforcement
11 on his property at that time.

12 Q What time was it?

13 A I would say about -- between nine and ten, possibly.

14 Q All right. Uh, this -- this abrasive attitude,
15 and not real happy to have law enforcement on his
16 property, continued even after you told him that
17 a young woman was missing?

18 A He calmed down as we talked to him a little bit
19 further.

20 Q But at one point he told you that he wanted
21 Teresa Halbach arrested?

22 A I don't know if he said that.

23 Q Well --

24 ATTORNEY KRATZ: I'll just inter --
25 interpose a -- a relevance objection, Judge.

1 THE COURT: Um, Mr. Strang?

2 ATTORNEY STRANG: This was -- this was
3 the other person whom they knew -- or they had
4 been told that Teresa had appointments with, and
5 the cooperation, or lack of cooperation, I think,
6 goes to, uh, whether these people merited further
7 investigation, Your Honor.

8 THE COURT: I'll allow the question.

9 Q (By Attorney Strang) Did -- This statement about
10 wanting her arrested is not in your report so
11 that's -- I'm getting that from Detective
12 Dederling. You, in -- you, in any event, don't
13 necessarily remember that comment of George
14 Zipperer?

15 A I don't recall George Zipperer saying that he wanted
16 Teresa Halbach arrested.

17 Q You do not recall that? Or you do?

18 A No.

19 Q I'm sorry. Okay. Uh, you do recall Mr. Zipperer
20 denying that he had contacted *Auto Trader*?

21 A Yes, I believe so.

22 Q Although, you learned that it was his car or a
23 family member's car that she had come to
24 photograph?

25 A I believe it was his son, Jason's, vehicle.

1 Q Uh, Jason denied that he had called to have his
2 car photographed initially, too?

3 A I believe so, yes.

4 Q That was a false denial.

5 A Is that a question or a statement?

6 Q It's a question.

7 A Okay. Um, no, I don't recall that.

8 Q Well, you did talk to JoEllen Zipperer?

9 A Yes.

10 Q And she said, yes, of course, the young woman was
11 out here to photograph a car?

12 A Correct.

13 Q My son, Jason, owns the car?

14 A Yes.

15 Q And the best that JoEllen Zipperer could do is
16 say that Ms. Halbach -- she didn't have a name --
17 Ms. Halbach; right? Just the -- the female
18 photographer?

19 A Yes.

20 Q Uh, that the female photographer may have been on
21 the property some time between noon and 1500
22 hours? No precise time could be obtained from
23 JoEllen?

24 A Correct.

25 Q Fifteen hundred hours is three p.m.?

1 A Three p.m.

2 Q Now, the next morning you and Detective -- or,
3 I'm -- I'm sorry, Lieutenant Lenk go back out to
4 see Mr. Avery again?

5 A Again? That was the first time we seen --

6 Q I -- I --

7 A -- Steve Avery.

8 Q I understand, but -- and I -- I'm sorry.
9 Sergeant Colborn had testified that he saw
10 Mr. Avery the night of the 3rd?

11 A Yes.

12 Q So he had gone there. That's why you went to the
13 Zipperers?

14 A Yes.

15 Q The night of the 3rd?

16 A Correct.

17 Q You go out the 4th, and that's the first time you
18 see Steven Avery yourself?

19 A Yes.

20 Q With Lieutenant Lenk?

21 A Yes.

22 Q Uh, Mr. Avery, by comparison, was very
23 cooperative?

24 A Yes.

25 Q Uh, you had this conversation with him in which

1 he said, you know, she -- she was here a few
2 minutes. Some talk. Hi, how are you doing? I
3 paid her. She left.

4 A Correct.

5 Q He also told you that she'd been on the property
6 several times before?

7 A Yes.

8 Q Photographing vehicles?

9 A Yes.

10 Q Consented to the search of his house?

11 A Correct.

12 Q And that's all -- that -- that's -- that's the
13 sum -- you know, that's what happens November 4,
14 as I understand it?

15 A Yes.

16 Q With you?

17 A Yes.

18 Q Now, November 5, Saturday, um, you -- you may
19 have said this and I -- you know, and I didn't
20 hear it, I apologize, but my recollection is you
21 get out -- you actually arrive at the Avery
22 property right about 11 in the morning?

23 A Yes.

24 Q Give or take a minute?

25 A Correct.

1 Q Something like that. Um, had you met -- Between
2 the short discussion with Mr. Avery on the 4th
3 and 11:00 on the 5th, had you met with Detective
4 Jacobs, Dennis Jacobs, at anytime there? Between
5 those two?

6 A Not on Saturday, the 5th, until he came out there.
7 We may have been working on the 4th, that Friday. He
8 may have been working that same day.

9 Q On shift together, but...

10 A Yes.

11 Q Okay. Now, I'm going to play you, um, part of a
12 taped conversation from November 5. It's Exhibit
13 126. And it's here. And I think he's
14 actually -- you were -- you were the one who
15 physically gave us these CD-ROMs back in the
16 summer?

17 A Yes.

18 Q Okay. Uh, I'm going to play part of this and,
19 um, ask you if you recognize the voices? So I
20 may stop it.

21 A Definitely.

22 Q Okay.

23 (Wherein CD is played.)

24 "10-4." (Unintelligible) "4-0-5."

25 "Go ahead."

1 "I have warrant in hand."

2 "Body only; correct?"

3 (Unintelligible)

4 Q (By Attorney Strang) Now, do you recognize the
5 voices here?

6 A Yes.

7 Q 4-0-5 is Deputy Pete O'Connor?

8 A Correct.

9 Q Okay. And the dispatcher? Is this Katie?

10 A Correct.

11 Q Okay. Um, I -- I only know that because she says
12 her name at some point, but you recognize it as
13 Katie?

14 A Yes.

15 Q All right. Uh, Deputy O'Connor is talking about
16 a body warrant in hand?

17 A That's accurate.

18 Q We just heard him say that?

19 A Correct.

20 Q Uh, a body warrant is something where you have a
21 warrant to pick somebody up and they aren't going
22 to be released on bail until they physically see
23 a judge?

24 A Correct.

25 Q That's what a body warrant means?

1 A Body only warrant means you take that person in
2 custody.

3 Q And -- and a judge sets bail if at all?

4 A Correct.

5 Q Okay. So, typically, that might be something
6 like a missed court appearance where there's
7 what's called a bench warrant?

8 A That could very well be.

9 Q Could -- could be other reasons, but... And so
10 what -- what's happening here is Deputy O'Connor
11 is out at the intersection of Highway 147, Avery
12 Road, somewhere near there?

13 A He is, yes.

14 Q Yeah. I mean that -- that's where you saw him
15 when you -- or later?

16 A Correct.

17 Q Okay. And, in fact, you had told him to stop
18 people coming in and out?

19 A Correct.

20 Q So that's what he's doing, and he's running
21 checks on people, and he comes up with a body
22 only warrant?

23 A I believe so, yes.

24 Q Okay. That's what it will -- sounds like is
25 going on here?

1 A Yes.

2 Q All right. I was just going to continue playing
3 a little more.

4 (Continuation of CD being played.)

5 "409 dispatch."

6 "409."

7 "I'm now 76 to 147 Avery Road, pick up
8 that party."

9 Q (By Attorney Strang) Now, I'm now 76, which is a
10 10 Code?

11 A Uh-huh. Yes.

12 Q 1076?

13 A En route.

14 Q En route to Avery road to pick up the party with
15 the body warrant? Body only warrant?

16 A I believe he says to pick up the party.

17 Q Correct.

18 A Yes.

19 Q And that's -- were you on -- were you on the
20 radio at about this time?

21 A It's after 11 p.m.?

22 Q Um-hmm. Yeah, 11:00 a.m.

23 A A lot of things going on at that time.

24 Q Okay. No, I understand. I'm not asking if you
25 remember but --

1 A Yes.
2 Q -- this is -- this is generally familiar to you?

3 A That's the first time I've heard that.

4 Q Okay.

5 (Continuation of CD being played.)

6 "10-4."

7 "10-3-23, Manitowoc, you can put me
8 10-23."

9 "10-4."

10 "4-8-7-4-9-6?"

11 "Go ahead."

12 "When you get a chance, give me a 21 on
13 that 4-2-2-4."

14 (Unintelligible)

15 "2-7-8 dispatch code."

16 "Go ahead."

17 "You're going to need to get a hold of
18 the Crime Lab for their Evidence Response Team to
19 start responding at this location."

20 Q (By Attorney Strang) Okay. Now, that's you;
21 right?

22 A Absolutely.

23 Q Okay. You're -- you're 2-7-8?

24 A 2-7-8.

25 Q Uh, there's this reference to being in code?

1 A Yes.

2 Q Uh, which -- which means that you're on a
3 non-publicly monitored frequency?

4 A For the most part, yes.

5 Q Okay. Um, and what you're saying here is you're
6 telling the dispatcher she -- she'll need to get
7 a hold of the Crime Lab Evidence Response Team to
8 start responding to this location?

9 A Yes.

10 Q Okay. This, by the way, is -- is a radio tape;
11 correct?

12 A Correct.

13 Q We're listening to radio transmissions here?

14 A Correct.

15 (Continuation of CD being played.)

16 Q "10-4. Crime Lab out of Madison?
17 Milwaukee? Where?"

18 (Unintelligible) "Madison Response
19 Team."

20 "2-7-8. I'm in code. Anything you need
21 other than a portable for Schetter?"

22 "Not that I can think of right now,
23 Dennis."

24 Okay. That's -- that's Detective Dennis Jacobs
25 calling in?

1 A Yes.

2 Q And you're -- you're responding to him?

3 A He's asking me if I need anything besides a portable
4 radio for Deputy Inspector Schetter, and I say, right
5 now I can't think of anything.

6 Q Yeah. Exactly. The portable for Schetter is a
7 portable radio?

8 A Correct.

9 Q And deputy inspector. Okay.

10 (Continuation of CD being played.)

11 Q "Okay. Um, other than the car, do we
12 have anything else?"

13 "Not yet."

14 "Okay. Is he in custody?"

15 "Negative. Nothing yet."

16 "Okay. I'll gather my stuff and, uh,
17 head out."

18 Okay. Now, that's -- that's you and Jacobs going
19 back and forth again; right?

20 A Yes.

21 Q And, um, he asks you, okay, other than the car,
22 do we have anything else, and you tell him, not
23 yet.

24 A Nothing yet.

25 Q He's referring to the -- the Toyota is what he

1 means by the car?

2 A I'm assuming, yes.

3 Q That's how you understood him?

4 A Yes.

5 Q And then he says, okay, is he in custody; right?

6 A That's what he says.

7 Q And you say, negative, nothing yet?

8 A Yes.

9 Q You're not asking who is in custody? Did you
10 know who he meant by "he"?

11 A I'm assuming he meant -- I mean, based on listening
12 to that conversation, it sounds to me like he's
13 indicating Steve Avery, yes.

14 Q Okay. And this is -- this is shortly after
15 you've arrived on Saturday, November 5?

16 A I don't know what -- what time that radio
17 transmission is.

18 Q Okay. Um, I -- but this is -- this is when
19 you're first telling the dispatcher that she's
20 going to need to call the Crime Lab?

21 A Yeah. Crime Lab was probably contacted about 11:30,
22 somewhere around there. Yes.

23 Q Right. And I'll tell you, I think that's
24 actually very close to the time stamp --

25 A Yes.

1 Q -- on this. But somewhere in that ball park --

2 A Okay.

3 Q -- any way; right?

4 A That makes sense.

5 Q Because we do hear you saying you're going to
6 need to contact the Crime Lab?

7 A Correct. That would be about 11:30.

8 Q Okay. Now, track four on the, uh -- on the same
9 exhibit, 126.

10 (Continuation of CD being played.)

11 Q "Good morning, Manitowoc County
12 Sheriff's Department, Katie speaking."

13 "Katie, uh, just rolled into the parking
14 lot. Can you tell me..."

15 Now, this is not a radio call; is that right?

16 A Sounds like an incoming call into dispatch.

17 Q The -- the phone ringing sound at the beginning?

18 A Yes.

19 Q Okay. And do you recognize the -- the voice of
20 the man who says he just rolled into the parking
21 lot?

22 A Yes. That's Detective Jacobs.

23 Q Okay. I'm going to back it up just a little bit
24 here.

25 ATTORNEY KRATZ: Judge, once again, I'm

1 going to interpose a hearsay objection. I know I've
2 made the same objection before with a similar call,
3 but I'm interposing that again at this time.

4 ATTORNEY STRANG: And the -- the jury
5 should understand I'm not offering this for the
6 truth. Just that it was said.

7 ATTORNEY KRATZ: Then it has no relevance,
8 Judge.

9 THE COURT: I'm going to overrule the
10 objection.

11 Q "Good morning, Manitowoc County
12 Sheriff's Department, Katie speaking."

13 "Katie, uh, just rolled into the parking
14 lot. Can you tell me, uh, do we have a body or
15 anything yet?"

16 "I don't believe so."

17 "Do we have Steven Avery in custody,
18 though?"

19 "I have no idea."

20 "Oh, I've heard them say, pick up that
21 party. I --"

22 "Oh, no. We have -- Well, Pete is
23 sitting up there waiting and stopping people from
24 going in and that. He found somebody with a body
25 only warrant for --

-- our Department."

"Okay. Do we have a -- All right."

"I --"

"Do we have" (unintelligible)

"Yeah. Your best bet is to talk to --
Nothing has come through. We have the vehicle.
That I know."

"All right. Thank you."

"But what more, I don't know. All
right. Bye."

"Bye."

He's talking about Steven Avery? He's asking --

A That's what he says.

Q -- asking if Steven Avery's in custody? This is
when he's rolling into the parking lot before
he's called you on the -- the call we listened to
first?

A That's what the call says. I can't testify to what
he said.

Q The day before, you're thinking Calumet County is
barking up the wrong tree? And the next day, a
car's been found and you two are talking about,
is he in custody yet?

A Those questions are being asked of me. Yeah.

1 Q Okay. Now --

2 A I believe my responses were --

3 Q Negative.

4 A Negative. No.

5 Q I -- I -- I understand.

6 A I can tell by the tone of my voice it even sounds
7 like it's a silly question.

8 Q Okay. And -- and, indeed, I mean, when you got
9 out to the Avery property on November 5, there
10 were customers there?

11 A Yes.

12 Q People -- you know, customers in the pit or the
13 salvage yard part of the business?

14 A Correct.

15 Q Uh, Earl Avery was there?

16 A Yes.

17 Q Uh, you know, this was a -- a business that was
18 open?

19 A Yes.

20 Q Or had been until, you know, law enforcement
21 officers closed off the -- the property?

22 A Correct.

23 Q You knew that a number of Avery family members
24 lived on this roughly 40-acre parcel? And look,
25 I -- you may not have known that then?

1 A I can't say I -- I did.

2 Q But -- but you learned, during the course of the
3 next several days, that there were a number of
4 family members who lived on this property?

5 A I asked Earl when I talked to him down there who all
6 lived there, and where, and what house.

7 Q Right. And I'm not worried now so much about
8 November 5, but in the next several days, you
9 came to learn that Chuck Avery lived on the -- in
10 a trailer on the property?

11 A Yes.

12 Q Allen and Delores lived on the property?

13 A Yes.

14 Q Steven Avery's sister, Barb Janda, about whom you
15 testified, she lived on the property?

16 A Correct.

17 Q Her four sons? Or at least three of them at the
18 time?

19 A I don't know about the sons.

20 Q Okay.

21 A I can't testify to that.

22 Q All right. But there were a number of people,
23 other than Steven Avery, living on the property?

24 A Correct.

25 Q And your understanding was that Ms. Halbach had

1 been there sometime on a Monday, October 31?

2 A Yes.

3 Q Or had an appointment there?

4 A Yes.

5 Q Um, Monday would have been a business day on the
6 Avery salvage property?

7 A I have no idea.

8 Q Okay. But, I mean, in -- in general, Monday's a
9 commercial -- a commercial day?

10 A It was Halloween. I don't know if they close for
11 Halloween. I -- I don't know.

12 Q Okay. It's a business property in any event?

13 A Yes.

14 Q Little later in the morning of the 5th, you're
15 involved in this conversation that you described
16 about that ultimately results in the decision to
17 turn the investigation over to the Calumet County
18 Sheriff's Department?

19 A I was involved in some discussions. Yes.

20 Q This was -- Was this still a missing persons
21 investigation not withstanding the comment --
22 comment about whether we have a body yet?

23 A I wouldn't consider it a missing person, although
24 looking at that vehicle, and the fact that it was
25 concealed, the license plates removed, I was very

1 suspicious at that time. I obviously thought we had
2 something more.

3 Q Um-hmm. And, indeed, um, arrangements were made
4 at part of that conversation to appoint a special
5 prosecutor?

6 A Yes.

7 Q In a missing persons investigation, one wouldn't
8 ordinarily expect a prosecutor for a criminal
9 case if somebody's just gone away for a few days
10 and then shows up later?

11 A I think everybody's thought at that time, based on
12 the events that have tran -- that had transpired, and
13 the fact that we found that vehicle at that location
14 in that condition, I think everybody thought that
15 we -- we had a criminal investigation.

16 Q If there was a criminal investigation --

17 A Yes.

18 Q -- that wouldn't be -- there would be need for a
19 prosecutor?

20 A Yes.

21 Q And there would be a need for search warrants?

22 A Yes.

23 Q Which are used in criminal investigations?

24 A Yes.

25 Q You were part of the group that went to obtain

1 the initial search warrant for the Avery
2 property?

3 A Yes.

4 Q You obtained that about 3:10 in the afternoon?

5 A Yes.

6 Q You know that a search warrant is something
7 that's obtained, in part, by a sworn statement or
8 affidavit typically of a law enforcement officer?

9 A Yes.

10 Q You were present when the application for that
11 search warrant was sworn out?

12 A Yes.

13 Q By Mr. Wiegert?

14 A Yes.

15 Q The search warrant application declared -- and
16 you heard this -- under oath that you folks
17 expected to find evidence of a homicide?

18 A Yes.

19 Q Among other potential offenses?

20 A Correct.

21 Q At the time that search warrant was sworn out
22 before Judge Fox, what you had recovered was the
23 Toyota?

24 A Yes.

25 Q Your testimony is that no one had even opened a

1 door to the Toyota?

2 A I know the officers there did not open a door.

3 Correct.

4 Q As far as you knew, the doors had not been
5 opened?

6 A Correct.

7 Q All right. You had seen, or you and another
8 officer had seen, a white piece of paper with
9 something like the word or the name "Teresa" on
10 it?

11 A I think there was a digital camera photo card.

12 Q Later that evening, then, you acted on -- you and
13 others acted on the search warrant that had been
14 obtained at 3:10?

15 A Yes.

16 Q Two-and-a-half hours in Mr. Avery's house,
17 roughly, give or take? Seven-thirty to ten or
18 thereabout?

19 A Seven-thirty to ten-o-five. Correct. Yes.

20 Q I'm sorry. I didn't mean that to be a trick
21 question. Um, you -- you saw bedding and pillow
22 cases eventually seized, bagged, and removed from
23 Mr. Avery's house?

24 A Yes.

25 Q You saw no blood at all on that bedding or those

1 pillow cases?

2 A I don't -- I didn't observe any at the time we took
3 it. No.

4 Q Mr. Lenk -- Lieutenant Lenk and others searched
5 the bathroom?

6 A Myself, Sergeant Colborn searched the bathroom after
7 we were done with the bedroom. Um, Lieutenant Lenk
8 may have done some searches in the bathroom,
9 initially, too.

10 Q Was it you who found in the living room at the
11 computer desk area that -- the two documents with
12 Teresa Halbach's cell phone number on it? On
13 them?

14 A Yes.

15 Q Uh, I got Exhibit 198 and Exhibit 194 for you.
16 One ninety-eight is the little notebook?

17 A Yes.

18 Q Where -- where did you find that?

19 A There is a desk in the living room of the trailer and
20 that was on top of the desk. I think it was -- it
21 was actually closed, and I opened it up and paged
22 through it and seen it.

23 Q But just sitting on -- on top of the desk much as
24 it is now?

25 A I believe so. Yes.

1 Q Okay.

2 A I think it was like that, initially.

3 Q With the cover --

4 A Yes.

5 Q -- folded? All right. And this sign, that's a
6 "for sale" sign with writing on the back; is --

7 A Yes.

8 Q -- that right?

9 A Correct.

10 Q Where'd you find the "for sale" sign?

11 A That was also on the desk. Um, as I'm facing the
12 desk in the living room, the right side of the
13 fence -- right side of the desk. It was pushed into
14 a slot, or amongst other papers, pushed into an upper
15 portion of the desk area. I pulled it out.

16 Q It was sort of a mail slot --

17 A Yes.

18 Q -- kind of thing --

19 A That's accurate.

20 Q -- with a number of other papers --

21 A Yes.

22 Q -- in there? So you pulled all of them out --

23 A Yes.

24 Q -- looked at them --

25 A Um-hmm.

1 Q -- and decided that since this had Ms. Halbach's
2 cell phone number, it may be worth taking?

3 A Correct.

4 Q Both of those things, I suppose, could have been
5 relatively easily burned in a burn barrel, for
6 example?

7 A I suppose.

8 Q I mean, if somebody was looking to hide them or
9 get rid of them, there were better places than
10 lying out on top of the desk or in the mail slot
11 in the desk?

12 A I guess. Yes.

13 Q The -- the actual page with, uh -- in Exhibit 198
14 with, um, Ms. Halbach's -- Ms. Halbach's, uh,
15 telephone number, is written in two different
16 colors of ink?

17 A I believe so. Yes. Green and blue or black, I
18 believe, is the phone number. Or, I'm sorry, the --
19 the words.

20 Q Whatever. We'll -- we'll go back to it.

21 A Yes. Phone number is in a -- a green, and back to
22 patio doors --

23 Q The green looks to you -- to your eye like a fine
24 point felt sort of -- or rollerball kind of ink?

25 A Yes.

1 Q And the black looks like an -- an ordinary
2 ballpoint pen?

3 A I would say that's accurate.

4 Q No way to know, then, whether there's any
5 connection between the -- the two different
6 things and the two different inks written on the
7 same page?

8 A I have no idea.

9 Q The, uh, obvious that -- it's obvious the page
10 isn't torn out? No tape on the page, that kind
11 of thing?

12 A It looks like it got wet at one time and maybe dried.

13 Q But it's not -- it's not torn out of the --

14 A No.

15 Q And there's no -- as I say, no tape or other --
16 anything to hang it up?

17 A No.

18 Q The search of the garage on November 6, I think
19 that's the first time you actually searched the
20 garage, rather than simply sweeping through it to
21 look for Ms. Halbach?

22 A Correct.

23 Q Uh, you folks found some empty shell casings
24 for -- looked like .22 caliber rounds?

25 A Yes.

1 Q Uh, ten of these? Something like that?

2 A I think 11.

3 Q Eleven?

4 A I believe so.

5 Q On the floor?

6 A Yes.

7 Q Uh, where there are shell casings, there may be

8 bullets?

9 A We found shell casings.

10 Q Were you looking for bullets?

11 A We were looking for everything.

12 Q Found no bullets in the search on November 6 of

13 the garage?

14 A Correct.

15 Q Found no bullets any other time in Steven Avery's

16 garage anytime in November of 2005?

17 A Correct.

18 Q It was March 2, 2006, and you were present when

19 bullets or bullet fragments were found in that

20 garage?

21 A On March 2, yes.

22 Q I'm sorry.

23 A One --

24 Q I'm sorry.

25 A -- bullet fragment.

1 Q What did -- did I say March 6?

2 A I believe so.

3 Q Sorry. March 2, 2006?

4 A Correct.

5 Q One bullet fragment?

6 A Yes.

7 Q I think same name -- uh, same date, November 6,
8 back to November, is when you go into the Janda
9 trailer and you get the answering machine?

10 A Yes.

11 Q Could you tell -- and -- and I don't know, I
12 haven't seen the machine -- but could you tell
13 whether it appeared that those messages had been
14 listened to before you listened to them?

15 A My indication, if that was the case, is that the
16 number would have been blinking, and I don't remember
17 if it was or not. I -- I don't know.

18 Q And I'm not -- I'm not sure I understood what you
19 just said. If they had been listened to, the
20 number would be blinking?

21 A I'm making a comparison to my answering machine,
22 which is a digital answering machine. If there's a
23 mess -- a message on there that needs to be listened
24 to, it would probably blink a number. And once you
25 listen to it, the number stays on. I don't remember

1 if it was blinking or if it was on.

2 Q So you're not able to say whether anyone had

3 reviewed message No. 6?

4 A I don't know that.

5 Q What you do know is that -- is that the digital

6 display suggested there were 12 messages?

7 A Yes.

8 Q Uh, you listened to all 12 of them?

9 A Yes.

10 Q Number 6 was the one that you thought had

11 anything to do with anything?

12 A Correct.

13 Q Again, March 1 and 2 as -- as I move forward

14 there, you were physically present both days?

15 A Yes.

16 Q Did you see Lieutenant Lenk there on site at the

17 Avery's on either day?

18 A In March?

19 Q Yes. March 1 and March 2.

20 A Yeah, he was there. He was, um -- yeah, he was

21 there.

22 Q Both days?

23 A I believe so. Yes.

24 Q Sergeant Colborn?

25 A I don't believe Sergeant Colborn was out there. If

1 he was, it may have been for some security away from
2 the garage area, the residence.

3 Q You just don't know?

4 A I don't know.

5 Q I don't know if you're able to help with this
6 again?

7 A I'll try.

8 Q If you can't, you can't. Okay? Um, 3302 Zander
9 Road. Manitowoc County address? Any idea?

10 A Don't know.

11 Q Don't know of any connection between 3302 Zander
12 Road and Teresa Halbach?

13 A I do not know that.

14 Q Okay. That's all I've got. Thanks.

15 THE COURT: Uh, Mr. Kratz, any redirect?

16 ATTORNEY KRATZ: Yes, Judge. But I do have
17 one issue outside the presence of the jury that I
18 must raise.

19 THE COURT: Very well. We'll excuse the
20 jury here.

21 (Jurors out at 3:56 p.m.)

22 THE COURT: Mr. Kratz.

23 ATTORNEY KRATZ: Thank you, Judge. The
24 record should reflect that this witness has been
25 asked and has, in fact, left the -- the courtroom.

1 Mr. Strang, now, for, uh, at least the second time,
2 uh, and the, uh, first time with this witness, has
3 been allowed to introduce the subject of
4 investigative bias. That is, uh, been allowed with
5 this witness to suggest that there was better reason
6 for the law enforcement officials to be looking at
7 Mr. Zipperer rather than that of Mr. Avery.

8 Apparently, Mr. Strang's suggestion to
9 this witness was because Mr. Avery was seemingly
10 more polite, uh, that the officers, uh, still
11 focused on Mr. Avery. As this Court knows, uh,
12 the State had, uh, asked the Court to, um, reject
13 the notion of, uh, institutional bias, uh, and I
14 think, uh, with specific witnesses, that has been
15 addressed.

16 But this investigative bias, or the
17 distinction that Mr. Strang now makes, is
18 something that the State feels, uh, unable to
19 meet. Feels unable to address. Uh, I suspect
20 that this witness, if asked and if allowed to
21 testify truthfully, would give good reasons why
22 Mr. Avery was a suspect.

23 As between Mr. Zipperer and Mr. Avery,
24 only one of those two people was sent to prison
25 for a violent felony offense, pointing a firearm

1 at a woman. That seems relevant, Judge.

2 And with Mr. Strang and his suggestion
3 now that there was, uh, seemingly no reason to
4 look at Mr. Avery compared to Mr. Zipperer, I
5 want to ask this witness that question. I want
6 to be able, with Mr. Strang having opened that
7 door, uh, to be able to allow Mr., uh, Remiker,
8 on behalf of his Department, to suggest why they
9 might be asking is Mr. Avery in custody, or why
10 Mr. Avery was being, uh, uh, interviewed or
11 investigated. Uh, I think that's going to be the
12 answer.

13 If we ask the Court if I'm allowed, uh,
14 to ask that question, we certainly wouldn't have
15 done it, and I've abided by the Court's pretrial
16 ruling regarding the other acts evidence, but on
17 that specific count, that is, that specific
18 felony offense for which we know, uh, included,
19 uh, imprisonment for Mr. Avery, that now becomes
20 relevant, and the State should be allowed at this
21 time, uh, to inquire, in a limited fashion, as to
22 what these detectives knew of Mr. Avery's violent
23 history.

24 THE COURT: Mr. Strang?

25 ATTORNEY STRANG: Thank you, Your Honor.

1 Uh, and I -- I appreciate Mr. Kratz raising this,
2 uh, out of the jury's presence. Um, I still
3 don't think there's any linkage at all here in
4 this trial, uh, between the 1985 felony
5 conviction involving different people and
6 different conduct, or a different victim, if you
7 will, and different conduct all together, and
8 this investigation, particularly where the visit
9 to the Zipperers, and the evidence about the
10 Zipperers, is limited to November 3.

11 And we have both Detective Remiker and
12 Lieutenant Lenk going out of their way on direct
13 examination to testify that, boy, on November 4,
14 you know, we either thought Calumet County was
15 barking up the wrong tree, or we thought Mr.
16 Avery had nothing to do with -- with it, so I
17 don't think I've opened any back door to bringing
18 in, um, a 22-year-old felony conviction.

19 I -- I just -- I just don't think any
20 door to that has been opened at all. Um, I don't
21 anticipate there'll be further in evidence about
22 the Zipperers, but I don't know that it -- it
23 even matters.

24 THE COURT: Mr. Kratz?

25 ATTORNEY KRATZ: Well, Judge, uh, I -- I

1 can't -- and -- and with -- with apol -- apologies
2 to the Court in oversimplifying this term, uh, I
3 can't see how else to address the concept of poor
4 Steven Avery. Why would you be looking at poor
5 Steven Avery, uh, to have committed this offense?

6 There's very, very good reasons why law
7 enforcement, because of what they knew about his
8 prior violent felony history -- there my be other
9 reasons, Judge, and, perhaps, we'll need an offer
10 of proof for me to do that outside of the
11 presence of the jury, but we should at least be
12 allowed to inquire.

13 THE COURT: Well, maybe I'm missing
14 something here, but, um, seems to me, as I
15 understood the testimony of this witness, it may be
16 that, uh, Mr. Jacobs thought for some reason that
17 the State should be focusing on Mr. Avery. But as I
18 understood Detective Remiker's testimony, at least
19 at the time, he was not. He attempted to distance
20 himself from any, uh, suggestion that at the -- at
21 the time of the -- of the, um, conversation that was
22 from which we heard the audio today, that, um --
23 that, uh, Mr. Remiker had, uh, focused on Steven
24 Avery.

25 ATTORNEY KRATZ: I'm -- I'm heartened

1 that the Court may not have bought into
2 Mr. Strang's cross-examination. I'm not sure
3 that the jury's in the same position, though.
4 They -- they certainly may have, Judge, when
5 Mr. Strang was allowed on cross-examination to
6 continue to talk about, um, how uncooperative
7 Mr. Zipperer was, and why would you then be going
8 back to talk to Mr. Avery?

9 THE COURT: Well, you know, on redirect
10 you can heighten that if you wish. But that was
11 my understanding. Uh, uh, I don't remember the
12 exact quotes that Mr. Remiker gave, but I just --
13 at this point this witness didn't support the
14 premise that, uh, at least he, as a member of the
15 Manitowoc Sheriff's Department, was locked in on
16 Steven Avery.

17 Um, if there's nothing else, we'll bring
18 the jurors back in and bring, uh, the witness
19 back in for redirect.

20 ATTORNEY KRATZ: I -- I assume the Court's
21 denying my request, then, to go into those other
22 matters --

23 THE COURT: Yes, I am.

24 ATTORNEY KRATZ: -- what -- what they
25 knew about his history?

1 THE COURT: Yes.

2 ATTORNEY KRATZ: All right.

3 ATTORNEY STRANG: Um, maybe we could get
4 a sense of the timing of the rest of the day?

5 THE COURT: Mr. Kratz, how much time do you
6 think you'll be, uh, doing your redirect?

7 ATTORNEY KRATZ: Can't be any more than ten
8 minutes, Judge.

9 THE COURT: And, uh, who's the next
10 witness?

11 ATTORNEY KRATZ: Uh, Deputy Kucharski, who
12 has, um, lots of photos and evidence that's going to
13 be introduced. I don't know if the Court wants to
14 break at -- I don't know if there's going to be
15 any -- any recross, but...

16 THE COURT: Well, we'll see what time we
17 have left after, Mr., um, Remiker, but I don't know
18 that it will pay to start another witness by that
19 time.

20 ATTORNEY KRATZ: That's fine. Thank you,
21 Judge.

22 (Jurors in at 4:04 p.m.)

23 THE COURT: You may be seated. Uh,
24 Mr. Kratz, does the State have any redirect?

25 ATTORNEY KRATZ: Yes, Judge.

REDIRECT EXAMINATION

1
2 BY ATTORNEY KRATZ:

3 Q Detective Remiker, on the evening of the 4th of
4 November and the morning hours of the 5th of
5 November, that is, prior to the time that we
6 heard those calls from Detective Jacobs, was your
7 Department informed that Steven Avery was, uh, if
8 not the last, one of the last people to see
9 Teresa Halbach alive?

10 A Yes.

11 Q If this would have been your investigation at
12 that particular moment, would Steven Avery have
13 been a person of interest in your investigation?

14 A Absolutely.

15 Q And so when Detective Jacobs asks, uh, questions
16 about Steven Avery, and is he in custody, were
17 you surprised with Detective Jacobs' request
18 or -- or comments?

19 A Not really. Uh, I mean, he -- definitely, Steve was
20 a person that, um, um, could have been a suspect. He
21 saw her. Um, was the last person to see her.

22 Q Now, when we hear Detective Jacobs' call, and I
23 know that's not your call, and it's hard to ask
24 you, really unfair to ask you, to speak for
25 another person, but what I heard was that two

1 different things were going on, uh, and correct
2 me if I'm wrong, first, was that Teresa's car was
3 found on the Avery property; is that right?

4 A That's what's said. Yes.

5 Q What's going on, also, at almost the identical
6 time, is dispatch is announcing that some party
7 was taken into custody; is that right?

8 A Yes.

9 Q Now, those two things, as it so happens, are
10 unrelated; is that right?

11 A Correct.

12 Q Now, unless Detective Jacobs would have asked if
13 those two events were related or not, is there
14 any way he would have known if they were
15 unrelated?

16 A He wouldn't have known that. Based on the radio
17 traffic, it sounds like somebody was taken into
18 custody. Somebody was taken into custody.

19 Q And Dennis Jacobs asked if that was Steve Avery?

20 A That's what's said. Yes.

21 Q Mr. Strang asked you about Mr. Zipperer, uh, and
22 asked about, um, Mr. Avery, and that both of
23 those individuals were persons of interest to
24 you. That's fair, isn't it?

25 A Definitely.

1 Q On the 4th, that is, the night before Teresa's
2 vehicle is found, was one person -- that is,
3 Mr. Zipperer compared to Mr. Avery -- was one
4 person given more attention than the other
5 person?

6 A I would say it was fairly equal at that point.

7 Q Well, let me just ask by -- by time frame, who
8 did you guys spend more time with, Mr. Avery or
9 Mr. Zipperer?

10 A I spent a lot more time with Mr. Zipperer and
11 JoEllen.

12 Q Are you familiar with, uh, Sergeant Colborn's
13 contact with Mr. Avery earlier? Uh, that'd be on
14 the -- on the 3rd?

15 A Yes.

16 Q And then your contacts on the 4th with Mr. Avery;
17 is that right?

18 A Correct.

19 Q Uh, as between the two, are you able to ascertain
20 which was given more of your time or attention?

21 A We were at the Zipperer property longer than I was at
22 the Avery property on Friday. I think the Avery
23 property was a total of 15 minutes total. I know for
24 a fact we were at the Zipperer property longer than
25 that speaking with George, speaking with JoEllen,

1 speaking with Jason.

2 Q Okay. What was your goal on the 4th? What was
3 your investigative goal that night?

4 A That night? The day of the --

5 Q The -- I'm -- I'm sorry.

6 A The 4th during the --

7 Q Yeah.

8 A -- morning hours?

9 Q Yeah. Day of and -- and evening of the 4th?

10 A My goal was to find Teresa Halbach or to come up with
11 some answers as to where she was. Um, and,
12 obviously, we -- you know, we made contact with
13 Steve, and -- and Steve was cooperative, and at that
14 point I had no reason to believe that Steve was a
15 suspect based on what we had at the time. My goal,
16 entirely, from Thursday, Friday, Saturday, Sunday was
17 to find Teresa. Bottom line.

18 Q Thank you, Detective.

19 ATTORNEY KRATZ: That's all I have,
20 Judge.

21 ATTORNEY STRANG: Nothing more. Thanks.

22 THE COURT: All right. The witness is
23 excused.

24 ATTORNEY KRATZ: Call our next witness,
25 Judge?

1 THE COURT: I think we'll get started, yes.

2 ATTORNEY KRATZ: We'll call, uh, Deputy
3 Kucharski to the stand. Can we approach just for a
4 housekeeping matter, Judge?

5 THE COURT: Yes.

6 (Discussion off the record)

7 THE CLERK: Please raise your right hand.

8 **DANIEL KUCHARSKI,**

9 called as a witness herein, having been first duly
10 sworn, was examined and testified as follows:

11 THE CLERK: Please be seated. Please state
12 your name and spell your last name for the record.

13 THE WITNESS: Daniel Kucharski,
14 K-u-c-h-a-r-s-k-i.

15 **DIRECT EXAMINATION**

16 BY ATTORNEY KRATZ:

17 Q It's pronounced Kucharski?

18 A Yes, it is.

19 Q Mr. Kucharski, how are you employed?

20 A I work for the Calumet County Sheriff's Department.

21 Q What are your duties with the Sheriff's
22 Department?

23 A I work in the patrol division on routine patrol. I
24 also have, uh, additional duties of the armor for the
25 county and evidence tech for the county.

1 Q What kind of, uh, training goes into being an
2 evidence tech?

3 A It's a two-week course, I believe, um, concentrating
4 on the, um, identification of locating, preserving,
5 and collecting evidence.

6 Q How long have you been a evidence tech?

7 A I went through the school, um, August of 2005.

8 Q And could you tell us, Deputy, uh, Kucharski, how
9 long you've been a law enforcement officer?

10 A Approximately five years.

11 Q I'm going to direct your attention to November 5
12 of 2005 and ask if you were employed in the
13 capacity as a deputy sheriff on that day?

14 A Yes, I was.

15 Q On the 5th of November, 2005, do you recall
16 being, um, summoned into work?

17 A Yes. I was, uh, asked to respond to, uh,
18 intersection of Highway 147 and Avery Road to assist
19 in, uh, evidence collection and searching.

20 Q Did you proceed to that scene?

21 A Yes, I did.

22 Q And upon your arrival at the intersection of 147
23 and Avery Road, tell the jury what you first
24 found when you got there?

25 A The first thing was, uh, the command post. I went up

1 to the command post, met with Lieutenant Sippel. Um,
2 Lieutenant Sippel -- There were other officers on
3 scene already. Lieutenant Sippel directed me to, uh,
4 go with direct -- Detective Remiker, pick up a couple
5 of pieces of evidence, and then the remainder of my
6 evening was spent, uh, searching the, um, salvage
7 yard with a cadaver dog. I'm a dog handler.

8 Q All right. Now, the cadaver dog, or search and
9 rescue K-9 part of this case was a rather big
10 undertaking; is that right?

11 A Absolutely.

12 Q Can you describe that, uh, for the jury as I put
13 up Exhibit No. 86? Go ahead. Just -- just tell
14 us about that undertaking?

15 A Well, I -- I was paired up with a single handler and
16 a dog, and we, uh, started out in the, uh -- the
17 actual portion of the salvage yard that held the car.
18 It's kind of on a lower grade than the rest of the,
19 uh -- the rest of the property, and we proceeded to
20 go up and down the rows, um, with the dog, searching,
21 uh, for a body.

22 Q How long did that take you?

23 A The whole evening. I -- I think I cleared from there
24 somewhere around 11:00 that night.

25 Q Do you know about how many cars, uh, the Avery

1 salvage property, uh, holds?

2 A I would say thousands.

3 Q Okay. When you say it took you the whole evening
4 with these, uh -- with these dogs and their
5 handlers, uh, about what time did you complete
6 your duties that first evening?

7 A Uh, I think approximately about 11 o'clock.

8 Q The next day, then, on the 6th of November, were
9 you asked to return to the Avery salvage
10 property?

11 A Yes. I was scheduled to return early in the morning,
12 and, uh, again assist in, uh, searching for evidence.

13 Q What, uh -- what were your responsibilities, and
14 where and from whom did you receive these, um,
15 directions?

16 A Um, the chain of command for me is, uh -- Lieutenant
17 Bowe was my direct supervisor. Um, I knew -- I knew
18 Investigator Wiegert and a -- a agent from the DCI
19 were in charge of the investigation, but I would
20 always go to Lieutenant Bowe to get my assignments.
21 I believe he would get the assignments from the
22 investigators and would trickle down to me.

23 Um, and that morning -- uh, the first
24 morning I was, uh, set to -- we were searching
25 the garage, um, at the Steven Avery residence.

1 That was the first, uh, undertaking that we did.

2 Q Were you teamed up with anybody at that time?

3 A Yes. I was teamed up with, uh, Sergeant, uh,
4 Colborn, Detective Remiker, and Lieutenant Lenk from
5 the Manitowoc County Sheriff's Office.

6 Q Can you describe this garage for us, please?

7 A Two-car detached garage. Um, single side door,
8 service door. A single overhead, uh, car door.

9 (Exhibit Nos. 221-229 marked for identification.)

10 Q Okay. I'm going to show you -- I'm sorry about
11 that. I didn't know that was happening. I'm
12 going to show you an exhibit. It's Exhibit No.
13 227. Mr. Fallon's going to show that to you so
14 we can begin. Tell us what that is, please?

15 A That is a, uh, picture of the overhead garage door of
16 the garage that I searched that morning. It would
17 be, uh, from the, uh, north side of the garage facing
18 south.

19 Q There's a laser pointer, Deputy Kucharski, up,
20 uh, with you. If you can refer to the larger
21 exhibit that we have, uh, up here for the jury,
22 since this is the first view, at least, of the
23 interior from the 6th of November. Use the laser
24 pointer and tell us, uh -- tell us what we're
25 looking at?

1 A Well, this is the interior of the garage. Um, like I
2 said, we're facing south from the north. Um, we're
3 looking at, um -- This is after we had already been
4 searching for awhile. I think you can see down here,
5 uh, some circled spots we had been searching. Uh, we
6 took this photo after -- Um, I took this photo after
7 we removed a, uh, um -- a snowmobile that was parked
8 here.

9 Q We'll show that in just a minute. But what are
10 some of the other major items just so we can
11 orient ourselves to this garage?

12 A Items that we found or --

13 Q Just -- just items in the garage so that we --
14 when we, uh, refer to some areas that you found
15 things, we'll -- we'll be able to know where they
16 were found near.

17 A On the -- on the back wall, um, obviously, a -- a --
18 a tool chest, uh, miscellaneous other tools. There
19 was a lot of, uh -- a lot of clutter, especially
20 outside of this, uh -- this picture -- on this side
21 of the, uh, picture was several feet deep with
22 clutter.

23 Q Okay. Deputy Kucharski, could you, uh, tell us,
24 um, upon your search of this garage -- By the
25 way, whose garage is this?

1 A It's a garage at Steven Avery's residence.

2 Q Based upon your search of the garage, could you
3 tell us the, um -- the first series of items
4 that, uh -- that you found that were noteworthy?

5 A As we walked through the door, the door -- the
6 service door is on this side, and, uh, that's the
7 door we walked in, and we immed -- immediately
8 noticed, uh, several .22 long rifle shell casings
9 sitting on the, uh, concrete in this area.

10 Q Mr. Fallon is going to hand you some exhibits.
11 Actually, they are -- they begin with Exhibit No.
12 221. Tell us what's Exhibit 221?

13 A Two twenty-one is a, uh, empty .22 long rifle shell
14 casing.

15 Q I'm going to put that up for the -- for the jury
16 so they can follow along. There is a -- a
17 number, or a, I think, what's called an evidence
18 tent next to that. Uh, what number is that?

19 A That's No. 11.

20 Q What does No. 11 mean? Just so as we look at
21 some of these, um -- of these photos...

22 A As we're going along, um, identifying evidence, the
23 tents help us, uh, first of all, keep the evidence in
24 sight, meaning that there's a tent there. We know
25 there's ev -- evidence right next to it. Help us --

1 helps us in, uh, um, logging the numbers, also, so
2 that we know, as we're logging them onto the evidence
3 sheets, we can go by number.

4 Q I'm going to come up with a little closer or
5 zoomed-in view of, uh, Exhibit 221. You
6 mentioned for the jury that, uh, you believed
7 that to be a .22 caliber shell casing. Uh, how
8 did you know that?

9 A Through my training and ex -- experience. I'm the
10 armor for the county. I can recognize a .22 long
11 rifle shell casing.

12 Q And that's what this is?

13 A Yes, it is.

14 Q All right. Tell us what Exhibit 222 is, please?

15 A Two twenty-two is another .22 long rifle shell
16 casing. Uh, exhibit with the tent of 12 there.

17 Q Now that the jury can see Exhibit 222, is that
18 what, uh -- what that exhibit depicts?

19 A Yes.

20 Q All right. By the way, where were these items
21 found?

22 A On the floor in the garage.

23 Q Exhibit 223?

24 A Yes.

25 Q Can you tell me what that is, please?

1 A It's another .22 long rifle shell casing with a tent
2 number of 13, found on the floor in the garage.

3 Q And we'll show the jury 223. Is that a picture
4 of what you've just described?

5 A Yes, it is.

6 Q Two twenty-four?

7 A Two twenty-four is another picture of a, uh, .22 long
8 rifle shell casing, uh, found in the garage with tent
9 number of 14.

10 Q Seems to have a worm next to it; is that right?

11 A Yes. Yes.

12 Q You take these pictures kind of as you find them?

13 A Absolutely. As we find them, uh, if we can take a
14 photo of it, we, uh, try not to disturb it. We
15 circle where it was and -- and take a photo before we
16 collect it, so...

17 Q And so the -- the record reflects, that has tent
18 number 14 next to it?

19 A Yes.

20 Q All right. Next shell casing? Tent number 15.

21 What, uh, exhibit?

22 A Exhibit 225. Again, another .22 long rifle shell
23 casing found on the, uh, floor in the garage. Tent
24 number 15.

25 Q Okay. And, finally, Exhibit 226?

1 A Be tent number 16, another .22 long rifle shell
2 casing found on the, uh, floor in the garage.

3 Q Now, Deputy Kucharski, um, I think we've seen --
4 is it six photos of shell casings?

5 A Yes. Six photos.

6 Q How many .22 long rifle shell casings did you
7 find that morning?

8 A Um, 10 or 11 we found.

9 Q And could you tell the jury where they were
10 located? In other words, were they close to each
11 other, or spread around, or give us some kind of
12 a description of where they were?

13 A These were the ones that were out in the open that
14 were able to be photographed. They were spread all
15 over, um, in that portion of the garage. Um, some of
16 them were underneath things. Can't -- couldn't take
17 a picture of it underneath it once we collected it.
18 So these were the ones we could take photos of.

19 Q Mr. Kucharski, before we show you these -- these
20 next photos, I want to talk a little bit about,
21 um, the rest of your team. Who else was with
22 you, uh, at the time, and what responsibilities
23 each of you had? Can you --

24 A Sure.

25 Q -- describe that for us?

1 A Well, I was given the -- basically a team leader
2 position from, uh, Lieutenant Bowe, who said -- told
3 me to take control of the team and -- and give
4 assignments as needed. Uh, Lieutenant Lenk, Sergeant
5 Colborn, and Detective Remiker were on my team. So
6 came up with a plan, um, of what to do. They were
7 searching. Uh, I was photographing, and collecting,
8 and bagging, and tagging evidence.

9 As a piece of evidence would come into,
10 uh -- would be found, they would, uh, point it
11 out to me. Um, I would collect it, I would
12 photograph it, and -- and put it in the bags.

13 Q Okay. I'm going to show you Exhibit 227 again,
14 the open garage door, and I'm going to zoom in
15 and actually show you what appears to be some
16 wires hanging from the rafters. Do you see that?

17 A Yes. Uh, they appear to be some type of, uh -- some
18 type of electrical wires that were tied up there.

19 Q All right. And I'll direct your attention to
20 Exhibit No. 228. Tell the jury what that is,
21 please?

22 A Two twenty-eight, that's a closer up photo of the,
23 uh, um -- of the electrical wires tied there on the
24 rafter.

25 Q And by the way, do all of these photos accurately

1 depict how each of these items looked on the 6th
2 of November?

3 A Yes, they do.

4 Q What's Exhibit 229, please?

5 A Two twenty-nine is a, uh, picture of the, uh -- of
6 the electrical cords after they had been cut down.

7 Q So after they were, um, recovered, seized, put
8 into evidence, this, like all the other evidence,
9 was photographed by somebody; is that right?

10 A Yes.

11 Q And that's 229?

12 A Yes.

13 ATTORNEY KRATZ: Judge, I'm happy to
14 continue if you want me to. Otherwise, we can
15 take our break at this point.

16 THE COURT: No, I think they -- Or this
17 is probably a good time to break, uh, for today.
18 Um, members of the jury, uh, we're going to
19 conclude proceedings for today. I'm going to
20 remind you again not to discuss the case, uh,
21 with yourselves, with each other, any member
22 that's of your family, and, uh, make sure that
23 you're not exposed to any media coverage about
24 the case. Uh, we will resume at the normal time
25 tomorrow morning.

THE COURT: You may be seated, counsel. I do have a few matters to take up in chambers before you leave today. I'd like you to stop in.

ATTORNEY BUTING: Do you want to put any of the side bars on the record or...

ATTORNEY KRATZ: The last one was a -- a -- a court administration. I asked how long you wanted to go and --

THE COURT: Yeah. There was just one side bar, I think, we haven't accounted for, which was after four o'clock, and that was Mr. Kratz, uh, asking how far we were going to go today, basically.

ATTORNEY BUTING: Thank you.

I, Jennifer K. Hau, Official Court Reporter for Circuit Court Branch 3 and the State of Wisconsin, do hereby certify that I reported the foregoing matter and that the foregoing transcript has been carefully prepared by me with my computerized stenographic notes as taken by me in machine shorthand, and by computer-assisted transcription thereafter transcribed, and that it is a true and correct transcript of the proceedings had in said matter to the best of my knowledge and ability.

Dated this ___ day of _____, 2007.

Jennifer K. Hau, RPR
Official Court Reporter

1 THE COURT: At this time the Court calls
2 State of Wisconsin vs. Steven Avery, Case No. 05 CF
3 381. We're here this morning for a continuation of
4 the trial in this matter. Will the parties state
5 their appearances for the record, please.

6 ATTORNEY KRATZ: I will, Judge. Once
7 again -- Good morning, Judge. Once again, the State
8 appears by Special Prosecutors Kratz, Fallon and
9 Gahn.

10 ATTORNEY STRANG: Good morning, your Honor.
11 Attorney Jerome Buting and Dean Strang appearing
12 with Mr. Avery.

13 THE COURT: Thank you. I believe when we
14 left off yesterday the State was conducting direct
15 examination of Mr. Kucharski.

16 ATTORNEY KRATZ: We were, Judge, and we'll
17 recall him at this time.

18 THE COURT: You may do so.

19 **DEPUTY DANIEL KUCHARSKI**, called as a
20 witness herein, having been first duly sworn, was
21 examined and testified as follows:

22 THE CLERK: Please be seated. Please state
23 your name and spell your last name for the record.

24 THE WITNESS: Daniel Kucharski,
25 K-u-c-h-a-r-s-k-i.

1 DIRECT EXAMINATION CONTD

2 BY ATTORNEY KRATZ:

3 Q. Deputy Kucharski, good morning and welcome back.
4 We left off yesterday morning discussing a search
5 of Mr. Avery's garage on the sixth of November;
6 do you remember those conversations and
7 questions?

8 A. Yes, I do.

9 Q. Yesterday afternoon you described for the jury
10 the location and seizure of some .22 caliber
11 shell casings on the floor; do you recall that?

12 A. Yes.

13 Q. I have handed you what's been marked for
14 identification as Exhibit 220. I ask you to tell
15 the jury what that is, please.

16 A. That's a photo of the box and the shell casings
17 that I recovered from the scene. I put the shell
18 casings into the box; I brought the box into the
19 scene.

20 Q. After shell casings were found and recovered,
21 they are brought to the Sheriff's Department and
22 photographed; is that right?

23 A. Yes.

24 Q. And that's what Exhibit 220 is, it's a photograph
25 of those shell casings?

1 A. Yes.

2 Q. Now, Deputy Kucharski, you didn't perform any
3 kind of examination; in other words, you don't
4 have the qualifications to examine the shell
5 casings for distinctive markings, or tool marks,
6 or anything like that?

7 A. That's correct. I don't have that expertise.

8 Q. That happened by somebody else or somebody other
9 than you?

10 A. If it happened, yes.

11 Q. All right. Deputy Kucharski, the next area of
12 inquiry inside of the garage has to do with a
13 vehicle, or actually two vehicles, that were in
14 the garage when you got there on November 6th; do
15 you recall any vehicles being on the -- or in the
16 garage?

17 A. There was a Suzuki Samurai in the garage and also
18 a snowmobile.

19 Q. Exhibit 230, which I'm showing you and showing
20 the jury as well, tell the jury what it is that
21 we're looking at.

22 A. This is the rear of the Suzuki Samurai that was
23 inside the garage.

24 Q. And at least Exhibit No. 230, you can see the
25 garage door, that is, that it's backed in or

1 facing, if you will, what would be the main
2 garage door; is that right?

3 A. Correct. This picture is taken from the back of
4 the garage, on the south, facing north, towards
5 the large overhead door.

6 Q. Tell us what Exhibit 231 is, please.

7 A. 231 is a picture of the Suzuki. And also in the
8 foreground is the snowmobile, this would be taken
9 more from the northeast corner of the garage.

10 Q. And, once again, both the Suzuki Samurai and the
11 snowmobile seem to be facing outward, that is,
12 towards the main overhead garage door; is that
13 right?

14 A. That's correct.

15 Q. Once again, Deputy Kucharski, as with these other
16 photos that have been identified, does this
17 appear the same or similar as what you observed
18 on the 6th of November of 2005?

19 A. Yes, it does.

20 Q. You spoke yesterday about some other stuff being
21 in the garage. And so the jury can -- excuse
22 me -- so the jury can see a better depiction of
23 the rest of the inside of the garage as it looked
24 in November, we are going to be showing you some
25 other photographs.

1 ATTORNEY KRATZ: I do want to alert counsel
2 that Exhibit 236 is very similar to a photograph
3 which has already been received, which is
4 Exhibit 120. It looks a lot a like, I just wanted
5 to show you that. It's going to be the same type of
6 angle.

7 Q. (By Attorney Kratz)~ Nonetheless, let me show you
8 what is first marked as Exhibit 232. Tell us
9 what we're looking at, if you could.

10 A. This would be the rear of the garage, south side,
11 taken from looks like kind of the center of the
12 garage.

13 Q. The south side would be the back wall of the
14 garage; is that right?

15 A. Correct. Back wall, there's no doors or anything
16 on that wall.

17 Q. Now, those items that you see in the picture, not
18 only of the larger items, meaning the tool box or
19 the compressor or the refrigerator freezer or
20 other large items, but even the smaller items on
21 the workbench or on top of some of those other
22 things, on the 6th of November, were all of those
23 items removed, or taken out, or thoroughly
24 searched?

25 A. They weren't removed on the 6th, that wasn't the

1 depth of the search that we did on the 6th.
2 Things weren't taken out of place, or out of the
3 garage, or anything. It was more of a looking
4 into for obvious things.

5 Q. All right. What's Exhibit No. 232, please --
6 excuse me 233?

7 A. 233 would be another picture of the rear of the
8 garage, more towards the west corner of it.

9 Q. This looks more of a straight back view; is that
10 right?

11 A. Correct.

12 Q. You can see the John Deere tractor and still see
13 the upright toolbox in this shot; is that right?

14 A. Correct.

15 Q. What is Exhibit No. 234?

16 A. 234 would be a picture of the west side of the
17 garage. That would be the side with the service
18 door, all the way up towards the front.

19 Q. Now, that side of the garage and as we're looking
20 at Exhibit No. 234, appears to be the most
21 cluttered, for lack of a better term; is that a
22 fair representation?

23 A. Yes, it was actually -- it's hard to see the
24 depth, but it was actually several feet of
25 clutter there.

1 Q. And, once again, Deputy Kucharski, were all of
2 those items removed and thoroughly searched or
3 was this still more of a general search?
4 A. More of a general search. Those items weren't
5 all removed.
6 Q. What is Exhibit 235, please?
7 A. 235 is that west wall, again, to the north,
8 showing that service door.
9 Q. And what do you mean by service door?
10 A. You have got the main overhead door for the
11 garage. And then I would call it a service door,
12 just a regular turn the knob and open the door of
13 your garage.
14 Q. This would be, ostensibly, the front right corner
15 of the garage; is that right?
16 A. Correct.
17 Q. Finally, again, at an angle very similar to
18 Exhibit No. 120, but this is Exhibit 236; can you
19 tell us you what that is, please.
20 A. This is the east side of the garage, next to the
21 Suzuki, from the north facing the back of it.
22 Q. So we see the Suzuki facing us. On the very
23 right edge of this picture, you see the left
24 wall, or what would be the east wall of the
25 garage, and then the junk or stuff in between; is

1 that right?

2 A. Correct.

3 Q. Now, Deputy Kucharski, the garage itself, we saw
4 a picture yesterday of the interior of the
5 garage, or I guess what could best be described
6 as a picture from the threshold of the garage
7 looking at the floor and looking at some other
8 things that were inside; do you recall that
9 picture?

10 A. Yes.

11 Q. Did you also have occasion to take a look at and,
12 in fact, photograph some -- some of the floor,
13 some of the concrete floor of the garage?

14 A. Yes, as we entered the garage, the first things
15 we saw were the shell casings. And we also
16 immediately found, in that same general area, we
17 found reddish brown stains on the concrete, that
18 we believed to be possibly blood.

19 Q. All right. Before we get into what you thought
20 was blood and the collection of those items,
21 first just want you to describe the floor.

22 A. The floor was a concrete floor, dirty with normal
23 garage materials on it, that you would think,
24 miscellaneous fluid stains on it; scrape marks
25 from the snowmobile being pulled in and out, you

1 could tell that. The floor did have a -- The
2 concrete did have a crack in it, running north
3 and south, pretty much the full length of the
4 slab.

5 Q. Let's first look at Exhibit No. 237. Do you see
6 that picture in front of you?

7 A. Yes, I do.

8 Q. And as I place it on the large screen, tell the
9 jury what we are looking at here, please.

10 A. This is at the threshold of the overhead door.
11 We're looking at the, with the snowmobile
12 removed, that west bay of the garage.

13 Q. You described for us before a crack that
14 basically runs the entire length of the garage,
15 from generally a north to south direction, can
16 you point that out with the laser pointer,
17 please.

18 A. This would be the overhead door, where the
19 overhead door starts, you can see the crack here.
20 And it runs south, almost the whole slab of the
21 garage.

22 Q. All right. You talked about some fluids, or what
23 I guess on this exhibit looks like darker areas
24 on the floor, could you just describe those or
25 point those out for the jury, please.

1 A. Correct. There is a fluid stain here. Also over
2 on the west side, by the clutter, there's fluid
3 stains and older stains here that have been
4 dried, another stain here.

5 Q. What's photo number 238, please?

6 ATTORNEY BUTING: You want to just note for
7 the record what he is ...

8 ATTORNEY KRATZ: I'm sorry, Judge, the
9 record should reflect that with the laser pointer,
10 this witness had pointed out what looks like some
11 kind of fluid stains on the concrete floor. There
12 isn't a particular area of the floor; in other
13 words, it's both to the left and to the right and
14 actually to the center of this exhibit, but they are
15 markedly darker in color than what the other floor
16 might be, or what's at least depicted in this image.

17 ATTORNEY BUTING: Why don't you just point
18 to those again and I will note where it is on the
19 photo you are. You did one or two at a time, do the
20 first one.

21 THE WITNESS: Sure.

22 ATTORNEY BUTING: The record should reflect
23 he's pointing to a darker stain area which appears
24 to be near the left front wheel of the Suzuki
25 Samurai as it's parked. He's also pointing to

1 another one on the right side of the photograph,
2 upper right corner near a red cooler, with some
3 thermos type mugs or something. And a lighter
4 colored gray, more in the lower center of the
5 photograph.

6 ATTORNEY KRATZ: That's sounds accurate,
7 Judge.

8 THE COURT: All right. The Court will
9 accept that characterization.

10 Q. (By Attorney Kratz)~ What's photo 238, please?

11 A. 238 is another picture of the garage floor, more
12 towards the center of the floor.

13 Q. Now, these different angles, just so we are clear
14 for the jury, as you were taking these photos,
15 did you understand the significance of either
16 some of the items that were being depicted, or
17 some of the stains that you were taking photos
18 of?

19 A. Well, some of the stains, obviously, if it's
20 something that we believed was blood, that would
21 be something important. If it was something that
22 we thought was transmission fluid, we wouldn't
23 think that would be important.

24 Q. All right. But you took pictures of the whole
25 floor, basically; is that right?

1 A. Correct. Correct.

2 Q. What's Exhibit 239, please?

3 A. 239 is another picture of the floor, more towards
4 the rear of the Suzuki. I think in this one we
5 were really trying to get the scrape marks from
6 the sled.

7 Q. What's a sled?

8 A. I'm sorry, a snowmobile that was in there.

9 Q. On this photo, you can see visible scratch or
10 scrape marks right into the concrete itself; is
11 that right?

12 A. That's correct.

13 Q. What's Exhibit 240, please?

14 A. 240 is a photo from the -- would be the south
15 side of the garage facing out towards the
16 overhead door, again, of the floor in that area.
17 We get a better look at the cracks, actually
18 seeing cracks that are running east and west
19 also.

20 Q. This photo also depicts some of those
21 discolorations or stains as well as the scratch
22 and scrape marks?

23 A. Correct.

24 Q. Now, you mentioned, Deputy Kucharski, that there
25 were some items of interest that you wished to

1 take a closer look at and did some more
2 investigation or inspection of, can you describe
3 those for the jury, please.

4 A. Well, the blood spots that we -- probable blood
5 spots that we saw, we photographed those and
6 collected those with swabs.

7 Q. All right. Let's talk about the swabbing process
8 before we show you the photos. What does
9 swabbing blood spots mean?

10 A. It comes in a kit from the State. I open up the
11 kit, it's a sealed kit. We take the swab out of
12 the kit; the swab is in a sealed package. You
13 open up the swab and you have -- in the package
14 comes a small sealed bottle of distilled water.

15 You put a couple of drops of distilled
16 water onto the swab. And then you take the swab
17 and you rub it on the suspected spot. And you
18 have got a special container to dry it and house
19 it, put it back in there. Put everything back
20 together and everything back into the kit and
21 that kit gets put into evidence.

22 Q. What kind of stains did you swab, please. I want
23 to know what they visually looked like.

24 A. They were reddish brown in color. They were
25 dried at that time. They were circular in

1 pattern. They were smaller, I would say some
2 place from dime size up to quarter size.

3 Q. During this process, that is, during the
4 identification of what you thought were blood
5 spots, did you use some more of these evidence
6 tents that we saw yesterday?

7 A. That's correct. As we identified the spots that
8 we were going to take swabs of, we put the tents
9 by the spots.

10 Q. If you look at that first photograph,
11 Exhibit 241, tell us what that is, please.

12 A. This is an overall picture of the area where we
13 found the suspected blood spots showing the
14 tents.

15 Q. I will show the jury now Exhibit 241. And if you
16 could use your laser pointer, tell us what it is
17 that we're looking at, please.

18 A. These would be the blood spots here, pointed out
19 next to the tent.

20 Q. What I see are photo -- or tents, one through
21 eight; is that right?

22 A. That's correct.

23 Q. What does that mean, why did you use eight
24 different tents?

25 A. That was identifying eight separate areas that we

1 were going to swab.

2 Q. And, in fact, was that done?

3 A. Yes, it was.

4 Q. What's Exhibit 242?

5 A. 242 is a closer up photo of 4, 5, 6, 7, and 8
6 tents and the blood spots -- suspected blood
7 spots next to them.

8 Q. As we look at Exhibit No. 242, and actually since
9 it's a digital photo, I'm able to zoom in to tent
10 number six, as an example; do you remember this,
11 these spots and this image in particular and what
12 is it that we're looking at?

13 A. You can see a few spots here to the left of the
14 tent. And then also some type of pattern in the
15 suspected blood spot there.

16 Q. Now, those stains, whatever they were, these were
17 collected all by the same method, that is, by
18 using what's called swabs, or these -- it's a
19 large Q-tip is what it looks like; is that right?

20 A. Yes.

21 Q. What's Exhibit 243, please?

22 A. 243 is a closer up picture of tents 4, 5, and 6
23 and the corresponding blood spots, suspected
24 blood spots there.

25 Q. Again, these were all on the floor of what was

1 later to be determined to be Mr. Avery's garage;
2 is that right?

3 A. That's correct.

4 Q. What is Exhibit 244?

5 A. 244 is a closer up picture of tent 7 and 8 and
6 the suspected blood spots there.

7 Q. And we'll just take a look at that. In this
8 photo, you note a -- or I note, anyway, what
9 looks like a piece of paper, a chart indicating
10 some kind of a ruler or measuring device, as well
11 as a color pallet. Can you tell us what that is
12 and what it's used for.

13 A. That's something that we brought into the scene.
14 That's a scale, basically, something that if that
15 was going to be attempted to be processed,
16 that -- that transfer there, that pattern would
17 have been processed. They would have needed a
18 scale, so they can blow up the picture and
19 process it. That's why we added it on that
20 picture.

21 Q. On the 6th of November, did you have any -- This
22 is just the first full day of searching, did you
23 have any idea of the significance of any of these
24 spot or patterns?

25 A. No, we were just generally looking for items that

1 jumped out at us. No one sent us looking for .22
2 long rifle shell casings. They sent us looking
3 for patterns of anything. It was just a general
4 search.

5 Q. Deputy, we're not going to open these exhibits
6 since it contains biohazardous materials, but we
7 are going to show you --

8 ATTORNEY BUTING: Objection, to that
9 characterization. I don't believe one of these
10 is -- First of all, assumes facts not in evidence as
11 to whether there is any biohazard on any of these
12 items, but certainly not all of them.

13 THE COURT: The objection is sustained.
14 We'll do it item by item.

15 ATTORNEY KRATZ: All right. We have
16 Mr. Wiegert here to assist. I'm asking that
17 Exhibits 252, I think it's through 261, be showed
18 too, your Honor.

19 INVESTIGATOR WIEGERT: 252 through 261?

20 ATTORNEY KRATZ: Mm-hmm. I think so. The
21 swabs, if that's what they are. All right.
22 Mr. Wiegert, please, if Mr. Buting can see those
23 before you show them.

24 INVESTIGATOR WIEGERT: Sure.

25 Q. (By Attorney Kratz)~ While they are looking at

1 the exhibits, if I can ask you just a couple of
2 procedural questions. After obtaining samples of
3 these swabs, or any kind of evidence, can you
4 tell the jury what happens to that after you are
5 done with it.

6 A. Well, immediately after it's sealed, it's put in
7 a package. It's sealed. We close up packages
8 with evidence tape; it's a tamper resistance
9 tape. What it is, is a very thin tape; if you
10 try and open it, it tears very quickly, so you
11 can tell that it's been tampered with. We
12 initialed the tape so we know that someone didn't
13 pull the tape off and put a new piece on. It's
14 our initials on it. And depending on how -- what
15 the circumstances are, they stay in your
16 possession until you -- until we enter them into
17 the evidence storage at the sheriff's department.

18 Q. Mr. Kucharski, Mr. Buting has been kind enough to
19 allow me to refer to these as a group of
20 exhibits. We will show you now what are Exhibits
21 252 through 261; can you identify those?

22 A. Yes, these are the packages that we put the swabs
23 in for the suspected blood that we collected in
24 Steven Avery's garage.

25 Q. And you identify -- or can you identify those

1 packages themselves?

2 A. The evidence tags I filled out myself, the -- it
3 has been opened. It looks like by the State
4 Crime Lab.

5 Q. Let me just stop you, that's my next question.
6 You don't actually analyze the material or you
7 don't do any kind of forensic analysis on these
8 things, you just collect them; is that right?

9 A. Correct. Once we collect them, then, that's all
10 our expertise is in, collecting them.

11 Q. Exhibit 252, however, through 261 appears to not
12 only all bear your initials and evidence tape,
13 but what you believe are those 10 separate swabs
14 that were taken from Mr. Avery's floor?

15 A. Yes.

16 Q. Garage floor; is that right?

17 A. Yes.

18 Q. All right.

19 ATTORNEY KRATZ: You can put them back.

20 Thank you.

21 Q. (By Attorney Kratz)~ Yesterday, Deputy
22 Kucharski --

23 ATTORNEY KRATZ: If you could stay up there
24 Mr. Wiegert, I would appreciate it.

25 Q. (By Attorney Kratz)~ Yesterday, you saw a

1 exhibit, it was 228, an exhibit of some hanging
2 wires. We're showing that you to now; do you
3 remember that?

4 A. Yes, I do.

5 Q. You also saw a second exhibit, what we have now
6 come to know are evidence photos. This is
7 Exhibit No. 229; do you recognize that?

8 A. Yes, I do.

9 Q. All right. Mr. Wiegert is going to hand you an
10 exhibit which is identified as No. 249.

11 ATTORNEY KRATZ: If you can find that
12 Mr. Wiegert.

13 Q. (By Attorney Kratz)~ It is a tagged exhibit, if
14 you could tell the jury what Exhibit 249 is,
15 please.

16 A. These are the electrical wires that were hanging
17 on the rafters in Steven Avery's garage on the
18 6th when we were in their searching.

19 Q. The same questions as far as the collection and
20 the tagging of those, that was a process that you
21 yourself completed; is that correct? Or is that
22 something that other officers complete as the
23 week goes on?

24 A. We did not collect these out of the garage. They
25 stayed in the garage after we completed our

1 search.

2 Q. Okay. But the identification, at least you're
3 looking at those, those appear to be the same as
4 when you saw them; is that right?

5 A. That's correct.

6 ATTORNEY KRATZ: We'll deal with their
7 admissibility, just for the record, Judge, perhaps
8 during the break. But Mr. Wiegert you can put them
9 back on the cart.

10 Q. (By Attorney Kratz)~ Now, Investigator -- excuse
11 me -- Deputy Kucharski, how long did this search
12 take, if you recall?

13 A. I don't remember the exact times; it took several
14 hours.

15 Q. On the 6th of November, were there other law
16 enforcement officers, other than your search
17 team, on the Avery property?

18 A. Yes, there were other search teams.

19 Q. And do you know, or did you have an intimate
20 knowledge of what everybody else was doing?

21 A. No, not at all.

22 Q. I'm going to show you again, Exhibit No. 227.
23 You may have mentioned this yesterday, but you
24 said that this looks different, or at least
25 there's one thing missing from when you first saw

1 it?

2 A. Correct. This is a picture of after we removed
3 the snowmobile from next to the Suzuki.

4 Q. Will you tell the jury why you removed the
5 snowmobile?

6 A. We wanted to look underneath and get a better
7 look underneath the tracks and the skis to see if
8 there was any other possible evidence underneath
9 it.

10 Q. Let me ask you, Deputy Kucharski, and there's a
11 specific question for this, see this green
12 compressor on the back wall?

13 A. Yes, I do.

14 Q. On the 5th of -- excuse me -- the 6th of
15 November, was that compressor ever taken out?
16 Was it ever removed and was a thorough search of
17 that area ever completed?

18 A. It wasn't removed. It was just a general search.
19 It was never removed or looked behind, anything
20 like that.

21 Q. All right. After the search of this garage, can
22 you tell us where you went, please.

23 A. After the search of this garage, I was called
24 over behind the garage and to the east to assist
25 in the loading of some burn barrels and tagging

1 the burn barrels for evidence.

2 Q. After the processing or the loading of those burn
3 barrels, where did you guys go then?

4 A. After they were taken away and custody was turned
5 over, we went to -- we were assigned to search
6 Barb Janda's house, which would be the residence
7 due east of the garage.

8 Q. Mr. Wiegert is going to hand you, before we get
9 too far from the garage search, a one last
10 exhibit from the garage, Exhibit No. 250.

11 ATTORNEY KRATZ: Record should reflect,
12 Judge, that Mr. Wiegert is opening the evidence bag
13 with a cutting device.

14 Q. (By Attorney Kratz)~ Now, although the bag itself
15 is marked as the exhibit, I'm interested in
16 what's inside of it; if you could tell the jury
17 what that is.

18 A. These are the .22 long rifle shell casings that
19 we recovered.

20 Q. All right. And, again, you did not examine those
21 further; in other words, you weren't the one to
22 look for any markings, or scratches, or the
23 striations on those; is that correct?

24 A. That's correct.

25 ATTORNEY KRATZ: Thank you, Mr. Wiegert.

1 You can put them back on the cart.

2 ATTORNEY BUTING: Which exhibit is that,
3 again?

4 ATTORNEY KRATZ: 250.

5 ATTORNEY BUTING: Is that all 10 or 11
6 together?

7 ATTORNEY KRATZ: I think they are all in
8 there. You can look at them. It's the whole pill
9 box full of them.

10 ATTORNEY BUTING: We'll let the witness
11 tell us.

12 Q. (By Attorney Kratz)~ Would you count the number
13 of shell casings that's in the box, please.

14 A. These have been repackaged in there in and they
15 are in little glassine envelopes, presumably by
16 whomever processed them. There's three in one
17 package and eight in the another package.

18 Q. That's 11 shell casings?

19 A. Yes.

20 Q. All right. Thank you. I think you left off with
21 the burn barrels, after that was completed where
22 did you guys go?

23 A. I don't remember if it was after or before, we
24 did a search around the garage area. And
25 sometime in there we attempted to search a area

1 behind the garage, myself and Dep -- Investigator
2 Remiker attempted to search a burn pit, what was
3 later described as, but we were unable to because
4 there was a dog there.

5 Q. A dog where?

6 A. There was a dog tied up behind the garage and its
7 chain was long enough to get to us if we were
8 trying to search that area.

9 Q. And where was this area?

10 A. This was behind the garage, behind Steven Avery's
11 garage.

12 Q. I will orient the jury here. I will show you
13 what's been received as Exhibit No. 111; it's a
14 computer animated representation of that area; do
15 your recognize that?

16 A. Yes.

17 Q. What is it that we're looking at?

18 A. That's the rear of the garage that we searched
19 and that's the burn pit area that Detective
20 Remiker and myself attempted to search.

21 Q. Could you show the jurors where you walked and
22 how it was that you were unable to get to that
23 area?

24 A. Well, this was the area that we were attempting
25 to search and this is a doghouse here behind the

1 garage. And the dog pretty much had free rein of
2 this area. The dog was not letting us into that
3 area.

4 Q. All right. Why not, what was the dog acting
5 like?

6 A. Basically, the dog was vicious. It came at us,
7 barked. I actually stood by with my weapon drawn
8 as Detective Remiker attempted to get into there.

9 Q. To search that area with that behavior of that
10 dog, what were your options at that point?

11 A. We -- After our attempts, we pretty much seen, we
12 had to get the dog out of there some way if we
13 were going to search it. There was no way to
14 search it with that dog there.

15 Q. So you chose not to search it?

16 A. Correct.

17 Q. Did you destroy the dog or kill the dog?

18 A. No, we didn't want to do that.

19 Q. Where did you go then?

20 A. We -- I was sent to tag the burn barrels. And
21 then after the burn barrels, we were sent to
22 search Barb Janda's house.

23 Q. We heard from Detective Remiker yesterday about a
24 answering machine, or a message that was on an
25 answering machine; were you present while that

1 was played in the residence?

2 A. Yes, I listened to the tape as it was played.

3 Q. After completing the search of Barb Janda's
4 trailer, where did you go?

5 A. After that, searching that trailer, we were given
6 the assignment to pick up several items, specific
7 items, in Steven Avery's trailer.

8 Q. And what specific items were you asked to
9 retrieve from Mr. Avery's trailer?

10 A. We were sent there to retrieve two firearms;
11 bedding out of a middle bedroom, or spare
12 bedroom; a vacuum cleaner, I believe that's it.

13 Q. Mr. Wiegert is going to hand you what's been
14 marked as Exhibit 247, once he puts new gloves
15 on. Mr. Kucharski, when looking at Exhibit and
16 Tag No. 247 -- and as Mr. Wiegert holds it up and
17 shows us -- tell us, what is Exhibit 247?

18 A. This is the Glenfield Model 60, semi-automatic
19 rifle that we took out of Steven Avery's bedroom.

20 Q. Where was it found in his bedroom?

21 A. It was above his bed, hanging on a gun rack, that
22 would be the north wall of his bedroom, above
23 his -- above the headboard of the bed.

24 Q. Now, you pointed yesterday to a couple of areas
25 on the gun, I think one was the -- Was that you

1 or was that a different -- different witness?

2 A. This is the first I have seen the weapon in
3 court.

4 Q. Okay. I'm sorry, that was a different witness,
5 then, that's fine. Was there another firearm
6 that was retrieved?

7 ATTORNEY KRATZ: You can put that back,
8 Investigator. Thank you.

9 Q. (By Attorney Kratz)~ Was there another firearm
10 that was retrieved from the bedroom?

11 A. Yes, we also retrieved a Connecticut Valley Arms
12 Hawkin Model, .50 caliber muzzleloading rifle.

13 Q. Mr. Wiegert is going to show you what's been
14 marked for identification as Exhibit No. 248.
15 Tell us what that is, please.

16 A. That is the rifle that we took out of Steven
17 Avery's bedroom. Again, it was in the rifle rack
18 above the bed. Also noted in my report the
19 masking tape with the handwritten name on it, of
20 Steve, that was on the weapon when we found it.

21 Q. And the masking tape with the name Steve,
22 S-t-e-v-e; is that right?

23 A. That's correct.

24 Q. And that you left on. And do you recall that
25 being on that weapon when you first observed it

1 in the bedroom; is that right?

2 A. That's correct.

3 ATTORNEY KRATZ: You can put it back,
4 Investigator.

5 Q. (By Attorney Kratz)~ You told us that -- or maybe
6 you didn't. I apologize, I'm confusing you with
7 perhaps another witness. How long did this visit
8 to Mr. Avery's trailer take?

9 A. This didn't take very long. We were sent there
10 to specifically pick up these items. We just did
11 a quick sweep of the residence, located the
12 items, tagged the items, and returned to the
13 Command Post. Less than a half an hour, I would
14 think.

15 Q. You had a specific purpose to go in there?

16 A. Correct.

17 Q. Deputy Kucharski, do you recall where your next
18 search or visit was to the Avery property that
19 day?

20 A. We -- I don't remember if it was next, but we --
21 we searched the Ford F350 that was parked outside
22 of Steven Avery's garage. I believe we also went
23 into Charles Avery's trailer that day. I don't
24 remember which one was which.

25 Q. All right. Do you remember going into any other

1 buildings, any business buildings that day?

2 A. On the 6th, we also would have searched what I
3 would call the new shop building. It was a metal
4 building that was on the property had a type of
5 automotive shop in it and offices.

6 Q. Within this shop building -- By the way what kind
7 of -- what kind of a building did that appear to
8 be?

9 A. It was a metal building, kind of like you would
10 call a pole building, I guess; warehouse type.

11 Q. I have handed you what's been marked as Exhibit
12 No. 245 and ask if you found this within the shop
13 building?

14 A. Yes. In one of the offices, this was posted.

15 Q. On one of the walls, there appears to be a
16 missing persons poster; is that right?

17 A. That's correct.

18 Q. Appear to be Ms Halbach's missing persons poster?

19 A. That is correct.

20 Q. Deputy Kucharski, after the seizure of all of
21 these items, and after the packaging and whatever
22 processing that you might have done, what were
23 your duties later that day?

24 A. Well, after all the searching was concluded, all
25 the evidence that had been taken was brought back

1 to the sheriff's department and then entered into
2 evidence storage.

3 Q. Now, we have heard a little bit about that
4 process, but just generally, what does putting
5 something into evidence storage entail?

6 A. Normally, we have a evidence room in the basement
7 that we put -- we, as in the road deputies or
8 whomever collects the evidence, puts the evidence
9 into a locker. We take the key out of that
10 locker and we place it into a drop box. That's
11 the only key for that locker that I know of.

12 It goes into the drop box. And, then,
13 when the evidence custodian has time to enter
14 that into his storage, in the evidence room,
15 actual evidence room, he opens -- he has the key
16 to open the drop box. He takes the key for our
17 locker, takes the evidence out of there and
18 enters it into storage.

19 For this case, though, it was so many
20 things we were putting into evidence, we had too
21 many things for our locker. So the actual
22 evidence custodian was there and he was taking
23 things -- a lot of the things, directly into his
24 evidence storage.

25 Q. The next day, Deputy Kucharski, that would be on

1 Monday, the 7th of November, were you asked to
2 return to the property?

3 A. Yes, I was.

4 Q. And were you assigned a specific search team on
5 that day?

6 A. No, on the 7th I worked alone.

7 Q. Okay. Do you remember what you did on the 7th?

8 A. I was sent to specifically pick up a few items.
9 I remember a rifle out of Charles Avery's
10 residence. I took some more weapons out of a
11 vehicle that was parked near the new shop
12 building.

13 Q. The next day, on the 8th, Tuesday, the 8th of
14 November, did you return to the Avery salvage
15 property?

16 A. Yes, I did.

17 Q. And on that date, were you assigned a search
18 team?

19 A. Yes, on that date I was searching with Lieutenant
20 Lenk and Sergeant Colborn.

21 Q. Do you remember where the three of you went to
22 search that day?

23 A. We searched several places including we were sent
24 to Steven Avery's trailer to do a thorough
25 search.

1 Q. During that thorough search, did you have
2 occasion to search the bedroom of Mr. Avery's
3 trailer?

4 A. Yes, we did.

5 Q. And we have heard about a lot of that search, but
6 I'm specifically going to direct your attention
7 to the key and the finding of the key in that
8 bedroom. Do you recall how that occurred?

9 A. Yes, I do.

10 Q. Why don't you tell the jury how that occurred,
11 please.

12 A. We were concluding the search in the bedroom.
13 We, as Lieutenant Lenk, Sergeant Colborn and I.
14 I was mostly doing the photographing, and logging
15 in and packaging of evidence. However, I did
16 search the nightstand. I was sitting on the bed
17 and the nightstand was right there, so when I had
18 time between my duties, I would search the
19 nightstand. We were just wrapping up the search
20 and Lieutenant Lenk left the room to get some
21 more boxes for some of the things that we were
22 taking into evidence.

23 Sergeant Colborn was searching --
24 finishing up his search of an area on the east
25 wall, next to the bookcase. And I was sitting on

1 the bed near the nightstand. Lieutenant Lenk
2 came back into the room, stopped at the doorway,
3 pointed at the floor, just a couple of feet away
4 from where my feet were sitting on the floor, and
5 said there was a key there.

6 Q. I'm going to show you, just as you describe this,
7 Exhibit No. 210, ask if this image looks familiar
8 to you?

9 A. That's the key, that's where the key was sitting
10 when we found it.

11 Q. How far was this key away from you as you were
12 sitting on the bed?

13 A. Just a of couple feet.

14 Q. Had you seen that key, either before Lieutenant
15 Lenk left the room, or at any time actually prior
16 to Lieutenant Lenk's return?

17 A. No, I did not.

18 Q. Now, when Lieutenant Lenk said, there's a key,
19 where was he standing when he said that.

20 A. He was standing in the doorway.

21 Q. Had he gotten to that area yet when he said that?

22 A. No.

23 Q. I'm just going to ask you, Deputy Kucharski, were
24 you surprised to see that on the floor?

25 A. Yes.

1 Q. What happened after you saw that key on the
2 floor?

3 A. Lieutenant Lenk pointed out the key; we all
4 looked at it. We all decided it was a Toyota
5 emblem on it. Stopped all searching. I had
6 everybody stop the searching. Immediately took a
7 photograph of it. I had taken my gloves off to
8 finish up my -- tough to write and take pictures
9 with the rubber gloves on. So I had taken the
10 gloves off, so I put on a fresh pair of gloves. I
11 took out a new evidence bag out of the --

12 Q. Let me just stop you. A fresh pair of gloves,
13 does that mean that it had touched any other
14 pieces of evidence in that room?

15 A. No, it did not. It came directly out of the
16 package.

17 Q. All right. So you put fresh gloves on, what did
18 you do then?

19 A. I took a new evidence bag out of the stack of
20 bags, picked up the key with the -- with my
21 gloved hand, put it into the new evidence bag and
22 then I contacted the Command Post.

23 Q. Deputy Kucharski, the jury has already seen the
24 actual key, itself, but I'm going to show you
25 something that's been marked as Exhibit 219, can

1 you tell us what that is, please.

2 A. That's the key that we found on the 8th.

3 Q. Photograph, isn't it?

4 A. Sorry, that's a photograph of the key.

5 Q. Okay. As you look at No. 219, so we don't have
6 to pass the key itself around, is that one of
7 those evidence pictures that's taken after it's
8 received?

9 A. Correct.

10 Q. You said that you had contacted members of the
11 Command Post; do you recall who came to that
12 location?

13 A. Special Investigator Fassbender and Investigator
14 Wiegert came to the Avery trailer. I showed them
15 the key. They said that they would be sending a
16 special agent back to take custody of the key.

17 Q. All right. The next photo that I'm going to show
18 you, Deputy Kucharski, is photograph number 246;
19 I want you to tell us what that is, please.

20 A. This is a photo of some of the ammunition that we
21 took out of Steven Avery's bedroom.

22 Q. And now that the jury can see Exhibit 246, does
23 it say on the box of ammunition what caliber of
24 ammunition that is?

25 A. Yes, it does. It's .22 long rifle ammunition.

1 Q. And just -- you said, I think, that you are
2 familiar with firearms; is that right?

3 A. Yes, I am.

4 ATTORNEY KRATZ: Excuse me, just one
5 moment, Judge.

6 Q. (By Attorney Kratz)~ Is this the kind of bullet
7 that would fit into the .22 caliber rifle that
8 you previously identified as Exhibit 247?

9 A. Yes, it is.

10 Q. After completing the search of the Avery bedroom,
11 was the rest of the trailer thoroughly searched
12 as well?

13 A. Yes. We were -- We searched the rest of the
14 trailer thoroughly and then we -- also assigned
15 to specifically take into evidence some of the
16 computer and computer storage devices.

17 Q. All right. Deputy Kucharski, I'm going to ask
18 you, based upon your positioning a couple of feet
19 away from that key; did you believe that either
20 Lieutenant Lenk or Sergeant Colborn had an
21 opportunity, out of your eyesight to place, or
22 what's called plant, that key there?

23 A. No, they did not.

24 Q. How can you be so sure?

25 A. Well, first of all they would have had to have

1 the key. I think the only person that would have
2 had the key would be the person that killed
3 Teresa --

4 ATTORNEY BUTING: Objection, speculation.

5 THE COURT: Sustained.

6 ATTORNEY BUTING: Move to strike.

7 THE COURT: Court will order the answer
8 stricken.

9 Q. (By Attorney Kratz)~ I want you to limit your
10 comments to your observations. What about your
11 observations do you believe it was impossible or
12 improbable for them to plant that key?

13 A. My actual observations, I would have to say
14 that -- that it could be possible, as in I was
15 doing other things. I was taking photographs. I
16 was searching the nightstand. So, if we're just
17 limiting it to if it was possible that they could
18 do it without me seeing it, I would say, yes, I
19 guess it is possible.

20 Q. All right. And is that in the sense of anything
21 is possible?

22 A. That's in the sense of it's possible aliens put
23 it there, I guess.

24 Q. All right. And in that regard, though, Deputy
25 Kucharski, while you were working with these

1 gentlemen that week, in fact, you worked with
2 them more than one day, didn't you?

3 A. Yes.

4 Q. Is there anything that either led up to that
5 moment, or anything from that moment forward that
6 caused you any concern, either about their
7 integrity as law enforcement officers, or about
8 the performance of their duties out at the scene?

9 A. No.

10 Q. After that particular moment, that is, after the
11 key was found, were you continued to be assigned
12 to Lieutenant Lenk and Sergeant Colborn; in other
13 words, did you have further responsibilities that
14 day?

15 A. Yes.

16 Q. Did you perform any other of what you are now
17 calling thorough searches that day?

18 A. Yes. We made a thorough search of Charles
19 Avery's trailer.

20 Q. Now, the kind of search and, again, we have
21 talked about different kinds of searches, but
22 could you describe the search of Charles Avery's
23 trailer?

24 A. I would believe that would be the most thorough
25 search that we did. I think we attempted to look

1 in every place in Charles Avery's trailer. We
2 actually even went underneath the trailer. We
3 went into the -- I wouldn't call it an attic, but
4 on the top of the trailer there's a -- some type
5 of crawl space. Sergeant Colborn actually
6 crawled up in there.

7 Q. You weren't targeting or limiting your search
8 efforts to just Steven Avery's trailer; is that
9 right?

10 A. That's correct.

11 Q. At the conclusion of that day, Deputy, that is,
12 on the 8th, did you once again return to the
13 sheriff's department and enter or log in all of
14 this evidence?

15 A. Yes, I did.

16 ATTORNEY KRATZ: Judge, I will be moving at
17 this time to admit, not only the physical evidence
18 but the photographs that have been identified by
19 this witness. I can list those if --

20 ATTORNEY BUTING: I object to --

21 ATTORNEY KRATZ: -- Court or counsel want
22 me to.

23 ATTORNEY BUTING: The only one I object to
24 is the wire which this witness testified he did not
25 collect.

1 ATTORNEY KRATZ: I didn't intend to offer
2 that through this witness, Judge.

3 ATTORNEY BUTING: Just one moment, then.

4 THE COURT: Can we clarify what number that
5 particular exhibit is.

6 ATTORNEY KRATZ: Sure, that was Exhibit
7 No. 249. That was the only one that we haven't
8 offered, your Honor.

9 ATTORNEY BUTING: What is -- What are 251
10 and 236?

11 ATTORNEY KRATZ: 251 was not identified by
12 this witness.

13 ATTORNEY BUTING: Okay.

14 ATTORNEY KRATZ: That will be a different
15 -- different matter.

16 ATTORNEY BUTING: 236?

17 ATTORNEY KRATZ: 236 is a photograph, one
18 of the photos of the inside of the garage.

19 (Court reporter couldn't hear.)

20 ATTORNEY KRATZ: Photograph of the garage
21 is 236.

22 THE COURT: Mr. Kratz, can you list the
23 exhibit numbers of the exhibits that you are seeking
24 the admission of?

25 ATTORNEY BUTING: That's probably a good

1 way to do that.

2 ATTORNEY KRATZ: I can certainly try.

3 THE COURT: You can say, like 241 through
4 250, or whatever. You don't have to identify them
5 all individually, but specify the numbers.

6 ATTORNEY KRATZ: I think I'm able to do
7 that. I think it's Exhibit No. 221 is what I'm
8 starting with and it goes through -- goes through
9 261, with the exceptions, your Honor, of 251, and
10 249.

11 ATTORNEY BUTING: No objection to that,
12 then.

13 THE COURT: All right. Exhibits 221
14 through 261, with the exception of Exhibits 249 and
15 251 are admitted.

16 ATTORNEY KRATZ: Thank you, Judge.

17 THE COURT: Mr. Buting.

18 ATTORNEY BUTING: Yes.

19 **CROSS-EXAMINATION**

20 BY ATTORNEY BUTING:

21 Q. Good morning, Deputy.

22 A. Good morning.

23 Q. We have a lot to cover here. Let me maybe start
24 towards the end here. When you were asked by Mr.
25 Kratz if it was possible that Lenk or Colborn

1 could have planted, let's say the key, without
2 your seeing them, your answer was possible,
3 right?

4 A. That's correct.

5 Q. And it wasn't -- There weren't any aliens in the
6 room, right?

7 A. Not that I know of.

8 Q. So your later comment about it being possible in
9 the same way that aliens are possible, really
10 isn't a fair characterization of what you meant,
11 is it?

12 A. Are you asking my opinion on ...

13 Q. I'm asking you to characterize your answer. When
14 you said it's possible, you didn't mean that it
15 was possible in the same sense that aliens are
16 possible, did you?

17 A. I don't understand.

18 Q. All right. Let me try it this way. You were a
19 collections officer, evidence collections
20 officer?

21 A. Yes.

22 Q. That was part of your role?

23 A. Yes.

24 Q. You also were documenting?

25 A. Yes.

1 Q. And photographing?

2 A. Yes.

3 Q. Taking gloves off, putting gloves on?

4 A. Yes.

5 Q. And, in addition to that, you were a searcher?

6 A. Yes.

7 Q. You actually opened drawers or took things out

8 yourself?

9 A. Yes.

10 Q. And in the process of doing that, you looked at

11 the items that you would take out, right?

12 A. Yes.

13 Q. And your attention and your focus would be on

14 those items, right?

15 A. Yes.

16 Q. And you were not told at the beginning of that

17 shift, that your function was to be a watchdog

18 for Mr. Lenk and Mr. Colborn, were you?

19 A. That's correct.

20 Q. You were not told to keep your eyes on those two

21 officers at all times?

22 A. Correct.

23 Q. In fact, this was a lieutenant and a sergeant,

24 right?

25 A. Yes.

1 Q. Both of whom clearly out rank you, right?

2 A. No.

3 Q. You were a deputy?

4 A. They weren't in my chain of command; I work for
5 the Calumet County Sheriff's Department.

6 Q. Okay. In terms of officer rank, they out ranked
7 you though, right?

8 A. They held a higher rank in Manitowoc's --

9 Q. Okay.

10 A. -- Sheriff's Department, yes.

11 Q. And did you ever know them before?

12 A. Never met them before.

13 Q. Never met them before, okay. But you knew their
14 rank?

15 A. Yes.

16 ATTORNEY KRATZ: And I'm going to object as
17 irrelevant. And so does General Schwartzkopf, but
18 that has nothing to do with this witness.

19 ATTORNEY BUTING: This is
20 cross-examination.

21 THE COURT: This is cross, I will give him
22 a little latitude.

23 Q. You knew their rank?

24 A. Yes.

25 Q. Sergeant and lieutenant.

1 A. Yes.

2 Q. And I take it that it never occurred to you that
3 a fellow law enforcement officer would do
4 something like plant evidence, did it; on that
5 day, in that room?

6 A. No.

7 Q. That was not on your radar, was it?

8 A. No.

9 Q. You were not watching Lenk and Colborn to be sure
10 that they did not plant evidence, right?

11 A. That's correct.

12 Q. What we do know is, that when you came into that
13 bedroom the first time, there was no key on the
14 floor, was there?

15 A. That's correct.

16 Q. And you had been in that bedroom searching with
17 Lenk and Colborn for about an hour, close to an
18 hour, by the time that key was discovered, right?

19 A. Approximately, yes.

20 Q. Three people in that little bedroom, right?

21 A. Yes.

22 Q. And Colborn and Lenk were both searching the desk
23 and bookcase in that area, right?

24 A. Yes.

25 Q. The two of them --

1 ATTORNEY BUTING: I think I will put up
2 that ELMO photo again.

3 Q. (By Attorney Buting)~ I'm showing you Exhibit --
4 I'm sorry -- 104, which is now up on the screen;
5 do you recognize that?

6 A. Appears to be some type of model of the bedroom
7 in Steven Avery's residence.

8 Q. All right. And it's missing a lot of items
9 though, right?

10 A. Looks like just the furniture, and the walls and
11 windows and that type of thing is missing.

12 Q. But over in the -- what would be the top right
13 photo -- or corner of this photo, there's a desk
14 and a chair, right?

15 A. Yes.

16 Q. And a bookcase with some sort of vertical slots?

17 A. Yes.

18 Q. And there were lots of things on and in those
19 items, right, at that time?

20 A. Yes.

21 Q. We're talking November 8th?

22 A. Yes.

23 Q. And that's the area that both Lieutenant Lenk and
24 Sergeant Colborn were searching, among others?

25 A. Among others, yes.

1 Q. But during that one hour, they were searching in
2 that area, right?

3 A. Yes.

4 Q. (By Attorney Buting)~ Do you remember the key
5 picture, Exhibit No. -- Do you have the
6 photograph up here with the key on the floor?

7 A. Oh, on the floor, I don't think so.

8 ATTORNEY STRANG: It's 210.

9 ATTORNEY BUTING: 210.

10 Q. (By Attorney Buting)~ Showing you 210, again, up
11 on the screen, that's what you were looking at
12 earlier and that's -- you took this photo, didn't
13 you?

14 A. Yes, I did.

15 Q. And that's exactly the way the key looked when
16 you first saw it?

17 A. That's correct.

18 Q. And there's also an evidence -- some sort of like
19 an -- looks to me like a grocery bag, but a brown
20 corrugated sack or something like that, right?

21 A. Correct, in the foreground.

22 Q. And was that there when Lieutenant Lenk left the
23 room or did he bring that back in with him?

24 A. He didn't bring it back in with him. I don't
25 remember it's exact placement as he left the

1 room.

2 Q. All right. And you were actually very nearby
3 searching the nightstand?

4 A. Yes, my feet would have been just on the other
5 side of that -- that paper bag.

6 Q. And so bear with me for a minute, I don't know if
7 my shadow can be on here, but -- so you were
8 turned like this with your back to where the key
9 is, searching the nightstand, weren't you?

10 A. No.

11 Q. You were seated on the bed doing it then, right.

12 A. Yes.

13 Q. But your body is turned so that this key is
14 slightly behind you or over your shoulder?

15 A. No.

16 Q. Well, do you see the nightstand in there?

17 A. No.

18 Q. The nightstand is off -- off the screen
19 altogether, isn't it?

20 A. Yes.

21 Q. So if you are able to reach the nightstand, you
22 have got to be over here somewhere, to the left
23 side of this photo? Or were your feet hanging
24 over in top of the bag?

25 A. No, they were just on the other side of the bag.

1 My feet were actually pointing directly towards
2 the key. It was sitting there and the nightstand
3 would have been to my left hand, the key would
4 have been directly in front of me.

5 Q. Okay. Well, but you didn't see the key?

6 A. That's correct.

7 Q. The key was right, smack, dab in front of you and
8 you didn't see it until Lenk pointed it out to
9 you?

10 A. That's correct.

11 Q. And yet you immediately recognized this key as
12 something of importance, right?

13 A. As soon as we saw it was a Toyota key, yes.

14 Q. Now, sometime earlier than that --

15 ATTORNEY BUTING: I don't know, Judge, do
16 you want to take a break yet?

17 THE COURT: I was going to let you finish
18 this line of questioning, then take a break.

19 ATTORNEY BUTING: Why don't we take a
20 break, because I may want to do something; and I
21 would consider that before.

22 THE COURT: All right. Members of the
23 jury, we'll take our morning break at this time. I
24 will remind you, again, not to discuss the case in
25 any fashion during the break.

(Jury not present.)

THE COURT: You may be seated.

ATTORNEY BUTING: I don't have anything else for the record. I just want to look through the exhibits before I show them to this officer.

THE COURT: Very well, we'll report back in 15 minutes.

(Recess taken.)

(Jury present.)

THE COURT: At this time, Mr. Buting, you may resume your cross as soon as we get a witness.

CROSS-EXAMINATION CONTD

BY ATTORNEY BUTING:

Q. All right. Deputy, we were talking about this key when we left off. And if I understand -- and I'm not sure if it was in your testimony -- but if I understand your report, just before Lieutenant Lenk left the room, he and Sergeant Colborn were searching that cabinet that's displayed here on the screen, right next to the key, right?

A. Yes, before he left the room, they were searching -- Lieutenant Lenk was assisting Sergeant Colborn move it around and stuff.

Q. And Lieutenant Lenk was about one foot from you

1 when he was doing that, right?

2 A. Yes.

3 Q. So his body would have been between you and this
4 particular area?

5 A. Yes.

6 Q. All right. And you guys talked, after it was
7 found, like, geez, where did that come from,
8 right?

9 A. Yes.

10 Q. Did you examine the back of this bookcase cabinet
11 at that time?

12 A. Not directly after it was found. After it was
13 found, I was pretty much married to it and I
14 stayed with it until Special Agent Joy took it.
15 And then we went back into the bedroom and
16 completed a search. We took a look at that
17 cabinet and tried to figure out where it came
18 from.

19 Q. Did you seize the cabinet at that time?

20 A. No, we did not.

21 Q. You didn't do that for like another month, right?

22 A. I never did.

23 Q. You didn't have anything to do with that. Well,
24 let me show you a photo. I'm going to tell you
25 that it's not the same day. Apparently you

1 didn't take any photographs that same day of what
2 the back of this cabinet looked like, did you?

3 A. No, I did not.

4 Q. But you theorized, between you and Lenk and
5 Colborn, that perhaps the key had fallen out of
6 the rear panel of this cabinet?

7 A. Well, we had several theories.

8 Q. Let's talk one at a time.

9 A. Okay. Yes, one of the theories was it came out
10 of the back of the cabinet. That's what we
11 decided was the most likely.

12 Q. All right. You also theorized that maybe there
13 was a hidden compartment or something, in the
14 cabinet?

15 A. No, we didn't find any hidden compartment.

16 Q. Oh, you looked, right, you looked for any hidden
17 compartments?

18 A. Not me personally, no.

19 Q. Well, when you say, we didn't find any, how do
20 you know that you didn't find any?

21 A. Lieutenant Lenk and Sergeant Colborn looked.

22 Q. Okay.

23 A. While I was there.

24 Q. And while they were there, they didn't find any
25 hidden cabinets, or compartments in that cabinet?

1 A. Correct.

2 Q. And another theory was that perhaps it had been
3 underneath, somehow caught up underneath the
4 cabinet, right?

5 A. Yes.

6 Q. And that was ultimately discarded and you guys
7 settled on this theory, that somehow the key just
8 managed to get around, through that gap?

9 A. In my mind, it was a general, that it came from
10 this -- this cabinet. We also -- There was some
11 thought of in a door area, there was something on
12 the wall, that it possibly could have come from
13 there. But it was pretty quickly dismissed.

14 Q. Right. Because there is a outlet right next to
15 it and a electrical cord, right?

16 A. Right. That's not what I was talking about on
17 the wall. Something higher up on the wall.

18 Q. All right.

19 A. You know, several feet off the floor, there was,
20 but it was pretty obvious that it couldn't have
21 come from there.

22 Q. Okay. So then, your theory that you came up with
23 on that day, to explain why no one had found this
24 key, was that -- And, by the way, the cabinet was
25 up against -- pretty close to up against the

1 wall, right? Wasn't sitting out 3 inches or so,
2 was it?

3 A. It wasn't sitting out noticeably. I can't really
4 say as how close it was to the wall, but it
5 wasn't -- it wasn't a foot away from the wall?

6 Q. Okay. So, at any rate, I don't know if I need
7 these gloves, but since I saw Detective Wiegert
8 use them, I will use them as well. The theory
9 was, then, that this key and the cloth fob and
10 the plastic buckle, somehow managed to come out
11 that back corner, walk around the side, and lay
12 like that, right?

13 ATTORNEY KRATZ: Object, Judge, that's a
14 mischaracterization of the evidence.

15 THE COURT: Well, that's up to the witness
16 to answer. I will allow the question.

17 A. As we were searching that bookshelf, the
18 bookshelf was --

19 Q. Let me just -- Hold on.

20 A. -- pulled away --

21 ATTORNEY KRATZ: Objection. He asked for
22 an explanation.

23 ATTORNEY BUTING: I asked if that was his
24 theory; he can say yes or no. And then we'll go
25 from there. This is cross-examination.

1 THE COURT: No, I'm going to allow him to
2 give his answer.

3 ATTORNEY BUTING: Okay. Go ahead.

4 A. The bookcase was pulled away, turned, searched,
5 and it was reasonable that while it was turned
6 away it fell into that area.

7 Q. But this key --

8 ATTORNEY BUTING: Can I show this to the
9 jury?

10 THE COURT: Yes.

11 ATTORNEY BUTING: Is there some reason
12 we're keeping gloves on with this, that the jury
13 can't just handle it themselves or ...

14 THE COURT: From what my understanding is
15 there may be, but --

16 ATTORNEY BUTING: All right. We'll deal
17 with that if need be. I will hold it up so
18 everybody can see it. Okay.

19 Q. (By Attorney Buting)~ You didn't hear it hit the
20 floor, whenever it got there, right?

21 A. Correct, the floor is carpeted.

22 ATTORNEY BUTING: Well, can I drop it on
23 the floor here, or do we not want to do that?

24 ATTORNEY KRATZ: What are we doing, Judge?

25 ATTORNEY BUTING: We're testing --

1 ATTORNEY KRATZ: Is this an experiment in
2 front of the jury? If it is, then we need to
3 replicate the conditions. I object to any
4 experimentation at this time.

5 ATTORNEY BUTING: That's fine. We'll hold
6 off on that. The bookcase hasn't come in, so I
7 don't know if they intend to introduce it or not,
8 but it's not here.

9 Q. In any event, you did not hear it hit the floor,
10 carpet or otherwise?

11 A. Correct.

12 Q. And as you, not Lieutenant Lenk and Colborn, but
13 as you were sitting there, thinking, my gosh, how
14 did this key get here, one of the theories that
15 did not occur to you was that Lieutenant Lenk or
16 Colborn perhaps put it there, was it?

17 A. Did not occur to me, no.

18 Q. But as you testified before, because you were
19 busy and occupied with other duties, it is
20 possible that that might have happened without
21 you seeing it, isn't it?

22 A. Possible.

23 Q. Thank you. The electrical wire that we saw a
24 photograph of and that you saw a picture of as
25 well, right?

1 A. Yes, I saw a photograph.

2 Q. You know what we're talking about?

3 A. Yes.

4 Q. It was up on the rafters?

5 A. Yes.

6 Q. Are you a hunter?

7 A. Yes.

8 Q. Do you hunt for deer?

9 A. Yes.

10 Q. Are you familiar with what people do when they
11 catch a deer and bring it home.

12 ATTORNEY KRATZ: I'm going to object,
13 Judge, assuming a fact not in evidence. I suspect
14 Mr. Avery is not a deer hunter. If he is, we have
15 got some other issue.

16 THE COURT: Well, he may or may not be, but
17 I'm going to allow the question.

18 Q. (By Attorney Buting)~ Do you typically hang a
19 deer in a garage after you have done something to
20 it, dressed it, gutted it?

21 A. We hang it outside.

22 Q. Okay. But you know that some people do hang a
23 deer in the garage, right?

24 A. I would assume.

25 Q. In fact, there was a deer in the neighboring

1 garage that very day?

2 A. Yes.

3 ATTORNEY KRATZ: Objection, irrelevant.

4 ATTORNEY BUTING: It's completely relevant.

5 ATTORNEY KRATZ: Brendan Dassey can be a
6 deer hunter, Steven Avery can't.

7 ATTORNEY BUTING: If we're going to argue
8 this in front of the jury, I think that's a problem.

9 THE COURT: I'm overruling the objection.

10 Q. (By Attorney Buting)~ There was a deer hung from
11 the rafters in the garage right next door, right?

12 A. Yes.

13 Q. And so you don't know whether this wire was used
14 to hang deer in that garage, on some occasions,
15 either, do you?

16 A. I don't know what the wire was used for.

17 Q. Do you know whether wire was ever sent to the
18 Crime Lab for any kind of test?

19 A. I don't know.

20 Q. Okay. I suspect we'll hear, if it was.

21 ATTORNEY KRATZ: I ask that that be
22 stricken, Judge.

23 THE COURT: The Court will order that that
24 remark be stricken, the jury is instructed to
25 disregard it.

1 Q. (By Attorney Buting)~ Okay. We looked at a few
2 photographs of the garage. Let me move to the
3 garage for a minute. Were you taking the
4 photographs?

5 A. I took photographs.

6 Q. All right. Did you take any photographs before,
7 before anything had been moved out of that
8 garage, completely as is?

9 A. I took a lot of photographs, I would have to go
10 through my photo line up to see if I did.

11 Q. None come to mind, do they?

12 A. No.

13 Q. And so, we don't really have a complete
14 photographic record of what Mr. Avery's garage
15 actually looked like with all of the items in,
16 before anything was moved out, correct?

17 A. I'm not sure.

18 Q. You said it was pretty cluttered, right?

19 A. Yes.

20 Q. Not a whole lot of room in there even when you
21 got there, right? For instance, Exhibit 231
22 shows the snowmobile and the Suzuki Samurai?

23 A. Yes.

24 Q. Together. We can't see what's to the right of
25 the snowmobile, though, right, in this photo?

1 A. Correct.

2 Q. Do you know what an engine hoist is?

3 A. Yes.

4 Q. Have you ever seen one before?

5 A. Yes.

6 Q. I show you what's been marked --

7 ATTORNEY BUTING: Actually, I will show it
8 to counsel first, I'm sorry.

9 Q. (By Attorney Buting)~ I'm just going to show you,
10 I'm not going to have you identify these. I'm
11 just going to -- but for the record, I will say
12 it's Exhibit 262 and 263. You said you are
13 familiar with what an engine hoist looks like,
14 right?

15 A. Yes.

16 Q. Can you just tell me whether or not that large
17 black item is an engine hoist?

18 A. That is an engine hoist as I know it.

19 Q. Now, just so we're clear, this photograph was not
20 taken in November; this was taken later in March,
21 right?

22 A. I have no idea when this photo was taken.

23 Q. Does the garage look familiar to you, though?

24 A. It's Steven Avery's garage, yes.

25 Q. Okay. And in it is a large hoist?

1 A. Yes.

2 Q. Where in the garage was it on November? Right as
3 you walk in; do you recall it?

4 A. I don't recall.

5 Q. Do you recall that this was behind the tractor as
6 you walk into the garage?

7 A. No, I don't recall.

8 Q. Is it possible that it was?

9 A. Yes.

10 Q. All right. Because we don't have a picture of
11 that area to the immediate right, before items
12 start getting moved in and out of the garage,
13 correct?

14 A. Yes. Yes, we do.

15 Q. We do?

16 A. The only item we removed was the snowmobile.

17 Q. Okay.

18 A. Besides the items that we collected for evidence.

19 Q. We looked through these photographs of the
20 tent -- little tent things, a little quickly the
21 first time around. I just want to go through
22 them with you again for a moment. You mentioned
23 items one through eight, I think, along the right
24 side of the photo, right?

25 A. Yes.

1 Q. There's another item, No. 16 down here, a little
2 tent?

3 A. Yes.

4 Q. What was that?

5 A. I don't recall.

6 Q. And do you see that crack that begins from where
7 item 16 is and runs, what would be north/south,
8 along the left side of the photograph?

9 A. Yes.

10 Q. That's the crack that you were saying was the big
11 crack, that went the full length of the garage,
12 right?

13 A. Approximately.

14 Q. And you're down on your hands and knees, or
15 squatting or something, in order to find these
16 little bloodstains, aren't you?

17 A. The bloodstains were pretty evident. No one --

18 Q. Well, you get down --

19 A. -- was down on their hands and knees --

20 Q. You get down in a squat position --

21 COURT REPORTER: I'm sorry, you're going
22 to have to talk one at a time. No one was down
23 on their hands and knees?

24 A. Not that I saw, it was a dirty floor.

25 Q. Okay. But you would have to squat down, at least

1 squat down in order to make your circles and put
2 your tents and all that stuff, right?

3 A. Yes.

4 Q. So you are getting your face within just a couple
5 of feet or so from the floor?

6 A. Yes.

7 Q. And you are looking for any evidence, at that
8 time, of a possible homicide, aren't you?

9 A. We were -- There was a general search. We were
10 looking for evidence that stood out. Didn't have
11 anything specific at that time that we were
12 looking for.

13 Q. Well, Officer, you picked up some shells, right?

14 A. Yes.

15 Q. And you thought that maybe those were relevant,
16 right?

17 A. Yes.

18 Q. And that they may, in fact, be -- have possibly
19 been involved with a homicide, that's why you
20 took them, isn't it?

21 A. Yes.

22 Q. So you were looking for evidence of a homicide?

23 A. Yes.

24 Q. Including shells, right?

25 A. Yes.

1 Q. And any bullet's that you might come across,
2 right?

3 A. Yes.

4 Q. And you are also, at the same time, looking for
5 bloodstains on the floor, which can be very
6 small, dime or smaller, right?

7 A. Yes.

8 Q. And you are looking all along this crack,
9 virtually every area that is open floor in this
10 whole area, you are looking for bloodstains, or
11 anything that might be evidence of a homicide,
12 right?

13 A. Yes.

14 Q. Pointing now to the left lower side of this
15 photograph, where there's a crack; did you see a
16 bullet on November 6th, 2005?

17 A. No.

18 Q. Because if you had, you would have collected it,
19 wouldn't you?

20 A. Yes.

21 Q. That would have been extremely important
22 evidence, right?

23 A. Yes.

24 Q. And you did not?

25 A. I did not see it, a bullet there.

1 Q. Who else was searching with you?

2 A. On the 6th, in the garage, was Lieutenant Lenk,
3 Sergeant Colborn and Detective Remiker.

4 Q. So four of you, in that garage, right?

5 A. Yes.

6 Q. And none of you found a bullet, or bullet
7 fragment, did you?

8 A. That's correct.

9 Q. Now, let's look at Exhibit 243 for a moment.

10 A. Counsel, kind of zoomed in on it before, so let
11 me do that with the ELMO.

12 Q. Actually, looks to me like it may be slightly
13 different, but you mentioned that there were two
14 little areas that you thought might be
15 bloodstains there?

16 A. Correct, there's spots and then it appears to be
17 some type of pattern.

18 Q. Do you have the laser up there?

19 A. Yes.

20 Q. Could you point to where those two are exactly.

21 A. The two that the tent for six was identifying
22 were these spots and this is the pattern.

23 Q. So when you use your swab, did you swab them
24 separately or did you swab this one, put it in a
25 bag or whatever, swab, what, this one, put it in

1 a bag, what did you do?

2 A. I wasn't taking the swabs.

3 Q. Oh, you weren't?

4 A. No.

5 Q. Who was?

6 A. Detective Remiker, Lieutenant Lenk, and Sergeant
7 Colborn were taking the swabs, or giving them to
8 me, and I was packaging them.

9 Q. All right. You were watching, you were seeing
10 how it was done, right?

11 A. Yes.

12 Q. So you don't know, or do you, whether this swab
13 from No. 6 pertains to this spot, this spot, this
14 spot, or this big blotch, do you?

15 A. No.

16 Q. If they thought they were separate items, they
17 probably would have swabbed them separately;
18 would that be the procedure?

19 A. Well, the procedure that we decided -- that I
20 decided, we had several drops of blood and
21 patterns. You normally take several swabs of
22 them. And we decided to take many swabs of them,
23 pretty much as many as we could. I had a limited
24 amount of swabs in my kit, so we used what we
25 had, but we took many swabs from there.

1 Q. Okay. But just so we're clear here, when you
2 said, I think it was items one through eight that
3 were swabs of possible blood, you didn't know it
4 was blood, just possible?

5 A. Correct.

6 Q. And we entered a whole bunch of these exhibits
7 together, they all say -- I will let you look at
8 a couple of them. I think they are all pretty
9 much the same. Well, maybe not, let me look
10 here. I'm going to show you Exhibit 659, which
11 is one of these little paper bags, take a look at
12 that for a moment, would you, please?

13 A. Yes.

14 Q. And that says -- description of it is -- Well,
15 why don't you just read it?

16 A. Test/control, possible blood drop.

17 Q. Okay. So control, what does that mean; do you
18 know?

19 A. Yes. When we're trained, there is some debate
20 right now as to whether a control is even
21 necessary. When I was in school, they said that
22 it was basically up to us. A control would be --
23 You have the suspected spot, and then a control
24 would be a relatively uncontaminated area. The
25 reasoning behind it is -- I think the reasoning

1 behind it is to try and pick up any type of
2 contaminates that may be in that area besides
3 suspected blood, but, again, it was something
4 that they said was optional at this point in
5 time.

6 Q. Who was telling you it was optional?

7 A. The trainers at Fox Valley Technical College.

8 Q. When did they tell you it was optional, when you
9 were there, or since?

10 A. When I went to school in 2005.

11 Q. Okay. So, this exhibit in front of you, Exhibit
12 259, does that have more than one swab in it, or
13 should it?

14 A. Yes.

15 Q. Just what two, three, five, or do we have any way
16 of knowing?

17 A. Open it up.

18 Q. Well, I mean is it practice to put in more than
19 one swab in each little bag.

20 A. Inside the bag, they are in separate containers.

21 Q. Okay. So there could be more than one swab in
22 each one of these bags?

23 A. Yes.

24 Q. And the fact that there is a control taken, there
25 should be, right?

1 A. Correct.

2 Q. Looking at 651, read what that says, please.

3 A. It says test/control and then control is crossed
4 out, and then continues, possible blood drop.

5 Q. So, with control being crossed out, does that
6 mean there is no control, most likely, in this
7 one?

8 A. I would assume so.

9 ATTORNEY KRATZ: What exhibit was that, you
10 said 600 something?

11 ATTORNEY BUTING: 6 -- I'm sorry, it's 255,
12 the tag number is 651.

13 Q. (By Attorney Buting)~ And, actually, this is your
14 handwriting, isn't it?

15 A. No, that's not my handwriting.

16 Q. Doesn't it say Officer Kucharski on it?

17 A. Yes, it does.

18 Q. I'm sorry, Kucharski?

19 A. Yes.

20 Q. All right. You didn't fill this out, but it has
21 your name on it?

22 A. That's correct.

23 Q. Okay. Do you know who did?

24 A. No, I don't.

25 Q. Hmm. All right. You don't know who sealed it

1 either?

2 A. I would have to look at the package to see if
3 there's initials on it.

4 Q. Well, probably not important, so let's move on.
5 Let me just clear up a couple things here. When
6 you do these swabs and you're looking for
7 possible areas of blood, do you do a
8 phenolphthalein test? Do you know what that is?

9 A. I'm thinking that's some type of presumptive
10 test.

11 Q. Correct. And do you do those -- Did you do those
12 on this day?

13 A. I think we -- at the beginning we may have done
14 one, just to make sure that what we were looking
15 at was blood. I'm not positive on that, though.

16 Q. All right. So you may not have. But in any
17 event, you are picking out spots on the garage
18 floor that may or may not be blood, right?

19 A. Correct.

20 Q. Because you mentioned that there's a number of
21 big areas of fluid and that sort of thing, like
22 you often find on garage floors, right?

23 A. Correct.

24 Q. And like this exhibit right there -- I'm going to
25 put up a different one to show a little bit

1 more -- perhaps the untrained eye -- had a lot of
2 red spots just above the exhibit or the evidence
3 tent number six, correct?

4 A. Correct.

5 Q. But that's not blood is it?

6 A. I don't know.

7 Q. Well, did you swab it?

8 A. I don't know.

9 Q. Have you ever seen transmission fluid?

10 A. Yes.

11 Q. Have you ever seen it stain a floor?

12 A. Yes.

13 Q. Is transmission fluid red?

14 A. Reddish brown tinge if I remember, yes.

15 Q. Okay. And there were literally -- there's lots
16 of stains like this particular red one in that
17 garage; is that fair to say?

18 A. I didn't hear, a lot of scenes --

19 Q. A lot of stains like this, these reddish?

20 A. Yes.

21 Q. Sort of brighter red stains?

22 A. Yes.

23 Q. You're looking more for dark brownish red, right,
24 when you are looking for blood?

25 A. Yes.

1 Q. And this -- Let me just go back for one minute.
2 You mentioned right under the six, there's
3 almost, there's what's commonly called a contact
4 type of a stain, right there, right? Shows a
5 little bit of a pattern?

6 A. Yes, it's some type of pattern.

7 Q. Did you ever make a determination of what that
8 was?

9 A. I'm not trained in blood patterns.

10 Q. Well, did that look like a blood pattern to you?

11 A. It's a pattern.

12 Q. Looks like some sort of a -- something contacted
13 it with, circles, like a footprint perhaps?

14 A. Something like that.

15 Q. And, similarly, No. 8 -- I'm sorry, this is
16 Exhibit No. 244, by the tent. You have that
17 little measuring stick or whatever next to some
18 sort of a contact pattern there, right?

19 A. Some kind of pattern, yes.

20 Q. You never -- Do you have any information as to
21 whether that was ever identified as anything of
22 relevance?

23 A. I don't know.

24 Q. Okay. Could have been just, again, totally
25 unrelated to anything in this case, as far as you

1 know?

2 A. I don't know if it was related or unrelated.

3 Q. All right. Exhibit 245 is the missing poster for
4 Teresa Halbach that you found in the office of
5 the Avery property, right?

6 A. I found it -- We found it in one of the offices
7 of what I call the new shop building.

8 Q. Well, this isn't going to do what I want it to do
9 so I'm going to just show it to you instead.
10 Actually, I think we have one of these better.
11 Okay.

12 Okay. Again, I'm going to just show you
13 Exhibit 10, which has already been identified and
14 introduced as an exhibit. That's a color version
15 of the same thing we just saw on the prior
16 exhibit, right?

17 A. Yes.

18 Q. And it has information about the missing woman,
19 right?

20 A. Yes.

21 Q. And also about her vehicle, does it not?

22 A. Yes, it does.

23 Q. And does it have a license plate on there?

24 A. Yes, it does.

25 Q. SW William 582?

1 A. SWH-582.

2 Q. SWH, okay.

3 A. H as in Henry.

4 Q. And how would you say that if you are calling in
5 a license number; what's your code for those
6 letters?

7 A. S, Sam, W, William, H, Henry.

8 Q. Okay. And it also has the year of the vehicle,
9 does it not?

10 A. Yes, it does.

11 Q. 1999?

12 A. Yes.

13 Q. All right. So if you had this information ahead
14 of time, would there be any reason for you to
15 have to call into your department to ask them to
16 identify the owner of SWH-582?

17 ATTORNEY KRATZ: Objection, Judge, calls
18 for speculation, especially with this witness.

19 THE COURT: I'm going to sustain the
20 objection.

21 Q. (By Attorney Buting)~ Now, you said you are not a
22 blood pattern expert, right?

23 A. That's correct.

24 Q. But you have been to the academy and you have had
25 training, correct?

1 A. I don't think I have been to any academy.

2 Q. I'm sorry, Fox Valley, you mentioned?

3 A. I went to evidence school there, yes.

4 Q. Okay. And have you ever been at any -- you have
5 been at a number of crime scenes I assume,
6 correct?

7 A. Yes.

8 Q. Including ones where there are shootings?

9 A. No, I have not been to a shooting crime scene
10 that I can remember.

11 Q. Okay. But part of your evidence collection
12 training, were you taught about how to collect
13 evidence from the scene of a shooting?

14 A. I think it was more general. I don't think they
15 specifically said this is what you do at a
16 shooting scene.

17 Q. Well, for instance, we looked at a number of
18 these exhibits, No. 234 being -- First, I want to
19 direct your attention to -- this one you said was
20 of the west wall of the garage?

21 A. That's correct.

22 Q. The wall right as you come in the door, the
23 service door?

24 A. Correct. Coming in the service door, it would be
25 to your right.

1 Q. And you mentioned that there's even -- this is
2 even more cluttered with junk than it looks like
3 here because it's really quite deep.

4 A. It's hard to tell the depth in this photo, yes.

5 Q. It really fills up probably 4 feet from the wall,
6 or more?

7 A. I would approximate 4 feet, sure.

8 Q. Okay. Lots of items there. Also, Exhibit 233,
9 which shows kind of part of the right -- that
10 would be the southwest corner and then the
11 southern wall of the garage, right.

12 A. Yes.

13 Q. You can't actually see the corner, but you can
14 see stuff is piled all the way out that far?

15 A. Correct.

16 Q. And also the big John Deere tractor?

17 A. Yes.

18 Q. So there really was not very much open floor
19 space in that garage when you walked in; isn't
20 that true?

21 A. I guess approximately maybe -- do you want me to
22 approximate the size of this space?

23 Q. Well, we probably have it to the half inch on our
24 computer animation, but why don't you just tell
25 us what you think the overall interior size of

1 the garage is?

2 A. Of the entire garage, it's a typical two car
3 garage, you know. And then that west side is
4 like a storage area where you have got 4 or
5 5 feet of storage inside your 2 car garage.

6 Q. And the east bay of the garage was completely
7 filled except for maybe a couple of feet behind
8 the Suzuki Samurai, is that fair?

9 A. You could walk around the Suzuki on all sides.

10 Q. But the Suzuki largely filled up that west --
11 that east bay, correct?

12 A. Yes, it filled up the east bay.

13 Q. But the Suzuki, because it's a smaller SUV, there
14 is -- was some space behind it --

15 A. Yes.

16 Q. -- that was open?

17 A. Yes.

18 Q. And then there's a snowmobile next to it in the
19 west bay, right?

20 A. In the center portion of the west bay, yes.

21 Q. And then there's a tractor, so there's -- really,
22 the only open space in that whole garage was sort
23 of maybe 3 or 4 feet in the east bay, going back
24 towards the rear?

25 A. Yes, a portion of the east bay that wasn't taken

1 up by the snowmobile was open.

2 Q. And then right next to that open area is all of
3 this clutter, many, many items, right?

4 A. To the west of it, yes.

5 Q. Many, many items that would be difficult to wipe
6 clean of any blood spots, if there was any blood
7 spatter, isn't that right?

8 ATTORNEY KRATZ: Objection, calls for
9 speculation and he said he wasn't an expert in that
10 field?

11 THE COURT: Sustained.

12 Q. (By Attorney Buting)~ Did you see any little
13 spots of blood all over things?

14 A. Just on the floor.

15 Q. Just on the floor. And those looked like drops,
16 right, I mean, not like -- Well, strike that, you
17 are not a blood spatter, I won't ask you.

18 Of course, if you had seen anything that
19 looked like blood spots on any of the items
20 surrounding that confined open area, you
21 certainly would have made note of that, wouldn't
22 you?

23 A. Yes.

24 Q. And you did not make note of it?

25 A. Correct.

1 Q. Let me ask you just briefly, after you were done
2 with the garage, you went -- you and Remiker went
3 around to the -- attempted to go around to the
4 rear of the garage?

5 A. I'm not positive on when, exactly, we did that,
6 if it was before or after I take the burning
7 barrels.

8 Q. But it was sometime after the garage had been
9 searched; is that your recollection?

10 A. Correct, we were finishing up the garage and we
11 took a look around the outside along with the
12 inside.

13 Q. Okay. And you said that you were unable to
14 approach because this dog was barking?

15 A. Barking and coming at us, yes.

16 Q. Okay. And you knew the dog would have to be
17 removed in order to search that area?

18 A. Yes.

19 Q. And this is November 6th, right?

20 A. Yes.

21 Q. Let me move back to the prior day, November 5th.

22 A. Yes.

23 Q. One of your duties was actually working with dog
24 handlers, wasn't it?

25 A. Yes.

1 Q. In fact, you spent almost your entire duty at the
2 Avery property on November 5th, going around with
3 dog handlers?

4 A. Yes.

5 Q. And dogs?

6 A. Yes.

7 Q. And dog handlers are experts at handling dogs,
8 right, to your knowledge?

9 A. I would assume they are experts at handling their
10 dogs.

11 Q. All right. Did you ask any of those dog handlers
12 to come and remove that dog from behind the rear
13 of Mr. Avery's garage so you could search that
14 area?

15 A. We actually -- That night, we came up that berm
16 there, in the -- from the area that the cars were
17 stored, with the dog handler. And the dog was on
18 top and it was barking. And I don't remember if
19 I decided, or if she decided, that she didn't
20 want her dog being distracted by the other dog so
21 we stayed away from that area.

22 Q. You are talking about the previous night, now,
23 November 5th, right?

24 A. That was the 5th, yeah.

25 Q. Okay. So did you -- Knowing that and having seen

1 that dog, behind Mr. Avery's garage on the 5th,
2 did you make any effort to have one of these dog
3 handlers, or someone else, remove the dog?

4 A. No. No.

5 Q. How about the 6th, didn't do that either?

6 A. Absolutely not.

7 Q. Let me move to the firearm shells for a moment.

8 You testified here today that you, on November
9 6th, seized 10 or 11 shells, correct?

10 A. Yes.

11 Q. You testified before in this case, though,
12 haven't you, at a preliminary hearing?

13 A. Yes.

14 Q. You were under oath then, right?

15 A. Yes.

16 Q. Just as you are today?

17 A. Yes.

18 Q. Do you recall testifying on that occasion that
19 you seized 10 shells?

20 A. Yes.

21 Q. Never said 10 or 11, did you?

22 A. Correct.

23 Q. And, in fact, the item -- the exhibit that was
24 shown to you, which is marked as Exhibit 250,
25 this is the one that -- the bag that has the

1 little pill box with shells in it, right?

2 A. Yes.

3 Q. And we had you count how many shells were in
4 there, earlier, correct?

5 A. Yes.

6 Q. Eleven is what you came up with?

7 A. Yes.

8 Q. You don't know how they got in this bag, these
9 two glassine bags?

10 A. No, I don't.

11 Q. But one has three and one has eight?

12 A. Yes.

13 Q. If, in fact, you seized 10 shells from the garage
14 and we have 11 in this pill box, how do you
15 explain that, or can you?

16 A. In my report, I put that we took 10 shell casings
17 from the garage. On the evidence sheet, I put 10
18 shell casings from the garage. When I reviewed
19 the photos there were 11. I miscounted.

20 (Exhibit marked for identification.)

21 Q. You said you reviewed the photos and you counted
22 11.

23 A. Correct.

24 Q. You told us earlier that you didn't take photos
25 of all the shells; do you recall that?

1 A. Correct.

2 Q. Because some of them were under items and so you
3 couldn't photograph them in their location.

4 A. Correct.

5 Q. You actually moved -- lifted up items in the
6 garage, some of that junk in order to find some
7 of those shells?

8 A. I didn't lift anything up. It would have been
9 Lieutenant Lenk, Sergeant Remiker or -- Detective
10 Remiker or Sergeant Colborn.

11 Q. Okay. One of the four of you actually had to
12 move some of that junk in order to find the
13 shells; they were not all laying out in the open
14 somewhere?

15 A. They weren't all laying out in the open. I can't
16 really testify to what they did. I don't know if
17 it was inside of something or --

18 Q. Okay.

19 A. -- if it was underneath or what.

20 Q. All right. But in any event, you don't have
21 photographs that show 11 shells, do you?

22 A. Just this photo here, Exhibit 220.

23 Q. All right. Now, I'm showing you Exhibit 264, will
24 you look at that for a moment and identify that.

25 A. This is the evidence property document that I

1 filled out -- a copy of it that I filled out for,
2 among other things, the .22 long rifle casings
3 that we collected.

4 Q. All right. And it has got these swabs of these
5 garage stains, unknown stains, right?

6 A. Correct.

7 Q. And it has also got item No. 11, it says 10 .22
8 LR empty casings from garage floor, correct?

9 A. Yes.

10 Q. Now, underneath that is item 12?

11 A. Yes.

12 Q. That says 1 .22 empty case?

13 A. No.

14 Q. What does it say?

15 A. 223 empty case.

16 Q. Oh, so that's a completely different type of
17 bullet or --

18 A. Case.

19 Q. -- shell?

20 A. Yes.

21 Q. Okay.

22 A. That's a Remington 223.

23 Q. So that was -- that could not explain why there's
24 11; is that what you are telling me?

25 A. Right.

1 Q. Couldn't be that those were mixed up?

2 A. Not in the package, but I'm thinking that's where
3 it got -- that it was mixed up that it's between
4 10 and another one, the 11. I think that's where
5 it got mixed up, not the actual cases got mixed
6 up, just the number of count.

7 Q. Well, Exhibit 220, which you identified earlier
8 as a box that has some -- do you know when that
9 photograph was taken?

10 A. No, I don't.

11 Q. Do you know whether that was before or after it
12 went to the Crime Lab?

13 A. I don't know when it was taken.

14 Q. All right. So you didn't open it? I mean, this
15 used to be, if this was evidence that was seized
16 at the garage, I assume that it would have been
17 in one of these nice little bags all sealed up
18 with tape, right?

19 A. Yes. Well, it was in the box, for sure, sealed
20 -- the box was sealed. I don't remember if I put
21 it in another.

22 Q. Okay. So the box could have been a box like
23 this, that was inside the paper bag that has a
24 seal on it, right?

25 A. Correct.

1 Q. But there's no tape on that particular box, that
2 we can see, right?

3 A. No, it's been opened.

4 Q. That's what we're referring to, correct?

5 A. That's the picture, yes.

6 Q. And did you ever amend your report to indicate
7 that there were 11 casings instead of 10?

8 A. No, I didn't.

9 Q. Did you ever amend that property inventory sheet
10 which we just marked as exhibit --

11 A. 264.

12 Q. -- 264?

13 A. No, I did not.

14 Q. And, in fact, you came to the conclusion that,
15 oh, maybe there really were 11 instead of 10,
16 when somebody showed you this exhibit that's now
17 on the screen; isn't that right?

18 A. Yes.

19 Q. Somebody else who had opened the evidence after
20 you?

21 A. I don't know who opened the evidence.

22 Q. Who showed you this photograph?

23 A. District Attorney Kratz.

24 Q. And that's when you determined that you had
25 miscounted and that there were really 11 instead

1 of 10, right?

2 A. Yes.

3 Q. Okay. This rifle, you indicated that you have
4 some expertise of sorts because you are a -- work
5 for the armory?

6 A. I'm the armorer for the county.

7 Q. Okay. This item here that's the .22, marked as
8 Exhibit 247; it's a pretty common firearm,
9 wouldn't you say?

10 A. Yes.

11 Q. It's pretty cheap?

12 A. Yes, relatively, I don't think too many guns are
13 cheap any more.

14 Q. Well, maybe between 100 and \$200, something like
15 that.

16 A. I would have to look up what the price is.

17 Q. Buy it at Wal-Mart, or places like that?

18 A. I believe Wal-Mart stopped selling guns now. I
19 don't know what they used to carry or do carry.

20 Q. But it's the kind of gun that many people have?

21 A. Yes.

22 Q. Many. It's a standard cheap .22?

23 A. Yes.

24 Q. Used for hunting rabbits, things like that?

25 A. Used for a lot of things, yes.

1 Q. In fact, you found another one, very similar to
2 that, on the Avery property; did you not?

3 A. Yes, I did.

4 Q. And that one was also a Marlin Model 60SS .22
5 caliber, semi-automatic rifle, found in the --
6 you found a Marlin Model 60SS .22 caliber
7 semi-automatic rifle in another residence?

8 A. Yes.

9 Q. Sort of next to a refrigerator?

10 A. Yes, I thought I heard you, the exact rifle,
11 there are some differences between the rifles.

12 Q. But they are similar?

13 A. Yes.

14 Q. Same class, certainly?

15 A. Same model.

16 Q. Same model even. Okay. Do you remember where
17 you got that?

18 A. That was out of Charles Avery's residence.

19 Q. Also known as Chuck?

20 A. Chuck, yes.

21 Q. Did you test that rifle to see if it had been
22 recently fired?

23 A. That's beyond my scope of expertise.

24 Q. Did you test this rifle --

25 A. That's beyond my --

1 Q. -- from Mr. Avery's residence?

2 A. That's beyond my scope of expertise.

3 Q. Are you aware of whether anybody tested it, to

4 see if it had been recently fired?

5 A. No, I'm not aware.

6 Q. And you also found some .22 rifles in the Janda

7 trailer right next to Mr. Avery, didn't you?

8 A. We found weapons in the Janda trailer; I don't

9 remember exactly which ones were where. I seized

10 quite a few weapons out of Chuck Avery's, Steven

11 Avery's, the Janda's, shop building, vehicles

12 that were there. But placing all the other ones,

13 I don't know.

14 Q. When you say weapons, these are basically hunting

15 rifles?

16 A. Firearms.

17 Q. Basically rifles?

18 A. Rifles, shotguns, pistols.

19 Q. All right. But the majority appeared to be the

20 kind people would use to hunt?

21 A. Some, yes.

22 Q. Okay. And the ammunition that you identified --

23 Do you still have that photograph up there, or

24 did I take it away from you?

25 A. I have Exhibit 246 of the .22 long rifle

1 ammunition.

2 Q. That's also very common ammunition, right?

3 A. Yes.

4 Q. It fits in any .22?

5 A. No.

6 Q. Any .22 long rifle?

7 A. Yes.

8 Q. And would have fit in any of those other .22 long
9 rifles that you seized on the Avery general 40
10 acre property?

11 A. Yes.

12 Q. And the two rifles that are introduced here in
13 court that are sitting over on this evidence
14 table, the muzzleloader and the .22 long rifle;
15 those are the only two firearms that you found in
16 Mr. -- in the trailer in which Mr. Avery resided,
17 right?

18 A. Yes.

19 Q. Do you know who owns that trailer?

20 A. I don't know who owns the trailer.

21 Q. Do you know who owns those firearms?

22 ATTORNEY KRATZ: Objection, irrelevant,
23 your Honor, possession not ownership.

24 ATTORNEY BUTING: Ownership goes to
25 possession as well.

1 THE COURT: I will allow the question.

2 Q. (By Attorney Buting)~ Do you know who owns --

3 THE COURT: There's a difference between
4 determinative and relevance.

5 ATTORNEY KRATZ: Correct. Hearsay, Judge.

6 THE COURT: That's too early for that; the
7 question is, if he knows.

8 ATTORNEY BUTING: Yeah.

9 Q. (By Attorney Buting)~ Do you know who owns those
10 firearms?

11 A. I would have to assume; I don't know.

12 Q. You don't know?

13 A. Correct.

14 Q. You are assuming just because you found them in
15 that trailer?

16 A. I assume Steven Avery owns them because they were
17 found in his bedroom, because the one has tape on
18 it that says the name Steve.

19 Q. Tape on it, kind of like a neon sign, right here,
20 Steve, right?

21 A. Yes.

22 Q. Pretty obvious, isn't it?

23 A. Yes.

24 ATTORNEY BUTING: Thank you. That's all I
25 have.

1 THE COURT: Any redirect?

2 ATTORNEY KRATZ: Not of this witness,
3 Judge, thank you.

4 THE COURT: All right. The witness is
5 excused.

6 ATTORNEY BUTING: I would move -- No, I'm
7 not moving it yet, sorry.

8 THE COURT: Okay. It's 10 to 12, I don't
9 know if it pays to get into another witness at this
10 time.

11 ATTORNEY BUTING: I would -- I'm sorry,
12 your Honor, but the property inventory sheet up
13 there, I would move that into evidence; the other
14 two photographs, I'm withholding for the moment.

15 THE COURT: 264?

16 ATTORNEY BUTING: 264.

17 THE COURT: Any objection?

18 ATTORNEY KRATZ: No, Judge. But I -- I
19 wanted to remind the Court there was maybe something
20 before lunch that we might want to put on the record
21 unless we were going to do that after.

22 THE COURT: I don't remember if it was
23 before or after; I thought it was after. Maybe I'm
24 mistaken. Does either party have anything they wish
25 to put on the record, outside the presence of the

1 jury, before lunch.

2 ATTORNEY BUTING: No, your Honor.

3 THE COURT: I'm going to take that as a no
4 for now.

5 ATTORNEY KRATZ: Other than there would be
6 something right after lunch.

7 THE COURT: Yes. All right. Members of
8 the jury, we were going to take our lunch break a
9 few minutes early today. I will remind you not to
10 discuss the case among yourselves in any fashion
11 during the lunch break.

12 There may be an item we have to take up
13 outside of the jury's presence immediately after
14 lunch, so I can't promise you exactly when we'll
15 be resuming. But we'll let you know as soon as
16 we're ready. You are excused for lunch at this
17 time.

18 (Jury not present.)

19 THE COURT: You may be seated. Counsel,
20 I'm going to ask you to report back to chambers a
21 little before 1:00, to let me know what your plans
22 are after lunch.

23 ATTORNEY KRATZ: That's fine, thank you.

24 THE COURT: All right.

25 (Noon recess taken.)

(Jury not present.)

THE COURT: At this time we're on the record, outside the presence of the jury. We're going to begin by taking up a matter which was brought to the Court's attention yesterday; that is, the Court received a note from the jury bailiff that one of the jurors raised a question indicating that, after Deputy Remiker testified, the juror realized that the juror did not know him by name, but had been a juror in a jury trial some years ago in which Detective Remiker was involved, and conscientiously raised the question whether that was a problem in this case.

I presented the note to the attorneys. And at this time, before taking further action, the Court wishes to hear the position of the parties on this matter. Mr. Kratz, I will allow you to go first -- or excuse me -- Mr. Fallon.

ATTORNEY FALLON: Thank you. Good afternoon, Judge. The appearances of the State are Ken Kratz and Tom Fallon, Special Prosecutors. Our position on this, after having been made aware of this, is that the Court individually question the juror regarding her specific knowledge and recollection of the events involving that lawsuit.

1 Most notably, what, if anything, she
2 remembers of the suit; what, if anything, she
3 remembers of the length of the trial, the number
4 of witnesses; more importantly, what, if
5 anything, she remembers regarding Detective
6 Remiker's involvement in the suit, whether he
7 testified in the suit, whether she was called
8 upon, in her capacity as a juror, to evaluate his
9 credibility in that case, and if so, to what
10 extent and what circumstances.

11 Based on the information that we have,
12 it was a case that centered on damages received
13 by Mr. Remiker while in the performance of his
14 duties, apparently he was in a squad car and was
15 rear-ended by another driver. So the question of
16 liability was not prominent in that particular
17 case and rather was a question of damages.

18 So if that is in fact the case, I think
19 we should question the juror to see what, if
20 anything, she remembers; and what, if any,
21 conclusions or opinions that she reached then
22 that she may have now, in terms of being called
23 upon to evaluate the credibility of Detective
24 Remiker in this case.

25 And most importantly, whether or not any

1 information, or opinions, or knowledge that she
2 would have gained from the lawsuit filed in 1999
3 would have any impact in her ability to perform
4 her required duties as a juror in this particular
5 case.

6 I think it would be premature to excuse
7 her for cause at this particular point, without
8 more information being made available to the
9 Court and the parties to make an informed
10 assessment. And it may turn out that she has to
11 be excused, and that would be fine with the
12 State. But our position is that there should be
13 a more adequate record made before that measure
14 is indeed selected. Thank you.

15 THE COURT: Mr. Strang.

16 ATTORNEY STRANG: Thank you, your Honor. I
17 would like to start with the easiest points first.
18 First, the juror did the right thing in bringing
19 this to the Court's attention with a note to the
20 bailiff.

21 Second, I have no information that the
22 juror's mistake about knowing Detective Remiker
23 was anything other than an innocent mistake, that
24 she didn't recognize the name at the time,
25 recognize the face when she saw him here. Again,

1 I have no reason to question the good faith of
2 the juror through the voir dire process or
3 filling out the jury questionnaire.

4 Those two easier points made, I think
5 that the right thing for the Court to do is to
6 excuse Ms Temme, and I say that for several
7 reasons. One, again, the easiest point first,
8 we're almost two solid weeks of testimony into
9 the trial, probably somewhere near a halfway
10 point, certainly of the State's case, I would
11 think. And we have four alternate jurors, four
12 extra jurors.

13 So the cost to the parties or the Court
14 of discharging any one juror seems not very high,
15 at least if we play the probabilities on how many
16 alternates we really would need. We have got
17 four spare jurors at the moment.

18 Second, the problem this presents is a
19 first for me. And although we have not had a
20 chance to do any serious research on it, I would
21 be surprised if we found much in the reported
22 case law in Wisconsin, or in any other
23 jurisdiction, that gave a whole lot of guidance
24 here.

25 But the way I see it, is this. We have

1 a juror here who doesn't just know a witness in
2 the case from outside of the courtroom, we have a
3 juror who knows a witness in this case from
4 filling a very special role in an earlier case,
5 in which that witness also filled a special role.

6 And by that I mean, the juror here is,
7 in fact, and will be told, that she is a judge in
8 this case, a judge of the facts; as important a
9 judicial role as your Honor's, although in a
10 separate realm. She also filled that role in an
11 earlier case as a juror.

12 This is a role that many citizens go
13 their entire life and never get to fill. And
14 others, once, twice, maybe three times, in a
15 lifetime, serve as a juror in our system. So
16 it's an atypical role, and a serious one, and one
17 that involves some artificiality in weighing
18 evidence, in weighing the credibility of human
19 beings who testify in a courtroom.

20 One has to set aside what one knows, or
21 thinks she knows, about facts from outside the
22 courtroom. One has to follow specific
23 instructions in how to weigh credibility. And
24 one has to weigh credibility collaboratively with
25 11 other judges of the facts.

1 So it's a very specialized, as I say,
2 role that she's filled, as to Detective Remiker,
3 in the past. He too had a special role. He was
4 not just a witness, or a visitor to the courtroom
5 whom she may have met during the trial, he was
6 both witness and a party, as I understand, in the
7 earlier lawsuit. He probably testified.

8 In ordinary life, at the diner, or at a
9 dinner party, or at school, wherever we may meet
10 people, we don't put one another under oath to
11 engage in conversation and to decide what we
12 believe and what we don't, of what someone else
13 tells us.

14 And, of course, if you are a witness in
15 a trial, you are under oath. If you are a party,
16 as well, almost unavoidably your credibility is
17 at stake and you have an interest, certainly, in
18 the outcome of the litigation. That's why I say,
19 almost unavoidably, your credibility is at stake.

20 So both have had special roles. And
21 while in day-to-day discourse we might have a
22 positive initial impression of a casual
23 acquaintance and come to change our mind about
24 that when we get an incite or glimpse into
25 character that causes us to question the initial

1 good impression we had, or vice versa, this
2 happens in everyday life.

3 As a juror, or a judge of the facts,
4 this juror has committed her judgment to the
5 credibility, to assessing the credibility of a
6 witness here, based on his role as a sworn
7 witness and a party on an earlier proceeding. It
8 is human nature for any judge, including one, a
9 judge of the law who wears a black robe, to be
10 reluctant to reconsider or set aside judgments
11 one's made.

12 Wisconsin law recognizes this in a very,
13 I concede, a loosely analogous way when, for
14 example, if a case is reversed and remanded by an
15 appellate court, sent back to a trial court, my
16 recollection of Wisconsin law is that the parties
17 have a renewed or revived right to substitute
18 on the judge of the law who first heard that case
19 and now has had his or her judgment vacated or
20 reversed and remanded.

21 That has to be a tacit recognition that,
22 in the special role of judging, it is harder to
23 set aside a considered judgment drawn from sworn
24 testimony and under the well-crafted and
25 instructed rules by which judges of the facts

1 decide credibility of witnesses, and ultimately
2 decide facts in a case.

3 So I think that this is such an unlikely
4 task for a juror to be able to undertake; that
5 is, to set aside, not just what do I know
6 casually about this witness in this trial, but to
7 set aside my experience with that witness as a
8 sworn witness in an earlier lawsuit of which I
9 was a judge of the facts.

10 I think it's so unlikely that a juror
11 will do that successfully, excuse me, that this
12 presents a question of objective bias. The
13 closest case we have in Wisconsin clearly is
14 ***State v. Kiernan***, K-i-e-r-n-a-n, 227 Wis. 2d,
15 736, a Wisconsin Supreme Court decision of about
16 7 or 8 years vintage, 1999, affirming a Court of
17 Appeals decision which I think was reported at
18 226 -- or 221 Wis. 2d, 126.

19 It's not a perfect match, but there we
20 had jurors in trial number two who had rejected
21 the defense presented in trial number one, by the
22 same lawyer, and it was to be the very same
23 defense in the second trial, both of them being
24 operating while intoxicated cases.

25 As I understand ***Kiernan***, the trial judge

1 in trial number two refused to strike for cause
2 jurors who had served in trial number one and
3 rejected the same lawyer's presentation of the
4 same defense.

5 That was held to be a matter that made
6 the jurors objectively biased in trial number
7 two. And the judgment was set aside by the Court
8 of Appeals; and then the Court of Appeals, in
9 turn, affirmed by the Supreme Court, as I
10 understand the history of the case.

11 Again, not a perfect match. Trial
12 number one and trial number two were very close
13 in time, in **Kiernan**; here we have a period of
14 six, seven years between trials. But, in some
15 ways, this is a stronger case for objective bias
16 because we're talking about the same witness in
17 trial number one and in trial number two and a
18 witness whose credibility clearly was at stake in
19 trial number one and clearly will be at stake in
20 trial two, here.

21 Detective Remiker is a member of
22 Manitowoc County Sheriff's Department. He is a
23 detective. He was actively involved in this
24 investigation. He may have been the most
25 prolific report writer among the entire Manitowoc

1 County Sheriff's Department retinue.

2 He works directly for, and is supervised
3 by, Lieutenant James Lenk, a critical figure in
4 this case. And he was -- he, that is, Detective
5 Remiker -- was involved and testified to most of
6 the significant searches in which physical
7 evidence that the State has introduced, and will
8 continue to seek to introduce, was seized and
9 gathered.

10 Moreover, Detective Remiker was one of
11 just two law enforcement officers who have
12 testified to date, in this trial, to statements
13 of the accused. And indeed there were only three
14 witnesses who have offered any statements of the
15 accused, if my memory serves; one, a citizen,
16 Bobby Dassey, and then two law enforcement
17 officers, Sergeant Colborn and Detective Remiker.

18 So his credibility is important here,
19 probably quite important. Of the witnesses so
20 far, the voice of Detective Remiker is the only
21 witness voice these jurors heard in either
22 parties opening statement, and that was in mine,
23 when I played part of what is now Exhibit 126.

24 He's an important witness. Because I
25 think the issue primarily is objective bias, it

1 makes no sense, in the view of the defense, to
2 question the juror. If the issue were subjective
3 bias, then the juror's answers would be
4 dispositive, in all likelihood, unless the Court
5 had reason to question the voracity of the juror,
6 by demeanor or statements.

7 But when the question is objective bias,
8 as the scheme in Wisconsin for juror
9 qualification is broken down, then it really
10 doesn't matter if the juror denies a subjective
11 bias. With objective bias we say, no, from a
12 reasonable person's vantage point, this would not
13 be considered an unbiased juror.

14 So, while with an objective bias issue
15 we don't gain anything by questioning a juror, we
16 certainly do put something at risk if we do that
17 and the juror has not been excused. The things
18 at risk are this, as I see:

19 (A) Because we are mid-trial, we risk
20 meddling, in a subtle way, with the deliberate
21 process of this juror and potentially with the
22 entire jury. Because this juror specifically
23 will be instructed to set aside both her prior
24 experience with Detective Remiker, in a virtually
25 identical role, sworn as a witness, and that she

1 may not discuss with the other 11 jurors, if
2 she's among the 12 who deliberate in this case,
3 what she knows of, or brings to the courtroom of,
4 Detective Remiker.

5 Now, it's one thing to extract that kind
6 of a process in voir dire, before a jury is
7 sworn. It is quite another, I think, mid-trial,
8 with a sworn jury, and a member of that sworn
9 jury, to start parsing what can and cannot be
10 considered in deliberating on the credibility of
11 the witness.

12 Now, understand me clearly, if she were
13 to remain a member of this jury, she would have
14 to be told that she cannot consider Detective
15 Remiker's earlier role and that she cannot share
16 that with these jurors, in this case. She would
17 have to be told that.

18 But the likelihood that she understands
19 that and that that doesn't chill her deliberative
20 -- her proper deliberative process, or affect the
21 deliberative process of the jury as a whole, it
22 seems to me is low, or questionable. So there
23 is, at least, that risk, (A), as I say.

24 (B) The risk of doing this is that, the
25 fact that she's been pulled out, singled out,

1 will either be understood by the jury or
2 understood by her, and as being singled out, and
3 as an instance that resulted in her being put
4 under some special instructions that the other
5 jurors are not under, and that -- that presents
6 its own obvious problems, I think.

7 So, I think for -- for all of the
8 reasons I have explained, this is not something
9 the Court ought to undertake; that is,
10 questioning the juror is not something the Court
11 ought undertake. I also think that, on these
12 circumstances, there is, at this point, on the
13 information we have, reason to find objective
14 bias and that the juror ought to be relieved of
15 her further duties, with the thanks of the Court
16 and the parties because, again, she's done the
17 right thing by reporting to the Court the
18 problem. And that's -- that's the view of
19 counsel for Mr. Avery.

20 THE COURT: All right. Well, I'm going to
21 make a couple comments at this time. First of all,
22 with respect to the supply of alternate jurors we
23 have; it's true that we still have four jurors more
24 than we need to deliberate. But we also have a case
25 which is receiving a great deal of publicity.

1 Jurors can be inadvertently exposed to
2 things that they should not hear, that could
3 result in disqualification. And the Court does
4 not feel at this point, being less than halfway
5 through the trial, that we have so many extra
6 jurors that we can easily dispose of them.

7 With respect to the issue of
8 individually voir diring a juror in a situation
9 like this, I believe that's exactly what the
10 appeals courts expect a trial court to do in this
11 type of a situation.

12 For the Court to, at this time, say that
13 this juror should be disqualified on grounds of
14 objective bias, I would be having to make a lot
15 of assumptions about things that may or may not
16 exist. The only thing the Court knows at this
17 point is that the juror apparently was involved
18 in a civil case six to seven years ago, in which
19 the witness was a party.

20 I don't believe, based on the standards
21 of objective bias as they have developed in the
22 courts over recent years, that I can say on that
23 fact alone, no reasonable person in this juror's
24 position could be a fair and impartial juror in
25 this case. It may be, based on answers to

1 further questions, that that's the situation, but
2 I cannot find that at this point in the
3 proceedings.

4 The juror was conscientious enough to
5 raise the issue on the juror's own initiative and
6 I am very reluctant to, on what would amount
7 essentially to speculation, determine that
8 without questioning the juror, the juror should
9 be excused for cause on objective bias grounds at
10 this stage in the proceedings.

11 So I do believe it is necessary to
12 conduct an individual voir dire of this
13 particular juror. For that reason, the Court is
14 going to take a short break in the proceedings at
15 this time. I have alerted the news media,
16 through their representative, yesterday, of the
17 possibility that a portion of today's proceedings
18 would not be open to cameras and audio and video
19 coverage, for essentially the same reason as the
20 Court handled things that way when we went
21 through individual voir dire.

22 Where a juror's name can be known, where
23 a juror's voice can be heard, those things are
24 entitled not to be carried over the airways and
25 I'm going to, therefore, at this point, take a

1 short break to make sure that there's no audio
2 and video coverage of the proceedings going on.

3 I will indicate that the court
4 proceedings themselves will be open. The public
5 and members of the media are more than welcome to
6 be present in the courtroom. But the Court will
7 not be allowing camera coverage of the individual
8 voir dire, or any audio coverage in any fashion.
9 Mr. Fallon.

10 ATTORNEY FALLON: Yes. On behalf of the
11 State, I think it would be the Court's intention and
12 the defense as well, if you would kindly ask the
13 media not to reference the juror by name in their
14 reporting of this matter.

15 THE COURT: That is the next item that I'm
16 addressing and I'm making that request, that the
17 media -- and the media has been pretty good and
18 responsible in that regard in not identifying jurors
19 by name. I'm sure they will honor the request in
20 this case.

21 In order to give the media an
22 opportunity to be prepared for this short portion
23 of the trial, we'll take a short break at this
24 time and check with the media room to make sure
25 everything is in order. We will resume in

1 probably five minutes or less.

2 (Recess taken.)

3 THE COURT: At this time, we are back on
4 the record, outside the presence of the jury. I
5 will indicate that during the break I spoke to a
6 representative of the media to make sure that this
7 individual voir dire portion of the proceedings was
8 not being televised or the audio portion being
9 broadcast in any way.

10 I will indicate for the record that I
11 did speak to an attorney for one of the media
12 representatives over the noon hour to explain the
13 reason for this brief portion of the trial not
14 being accessible to audio and video coverage.
15 And I believe the explanation was to the
16 attorney's satisfaction, since I have not heard
17 anything back.

18 I also indicated to the media
19 representative that I would grant their request
20 to take a short break after the questioning of
21 the juror is completed so that the media can get
22 their equipment back up and ready to go again.

23 At this point, I will -- Oh, I should
24 also indicate for the record that I met with
25 counsel in chambers over the noon hour and

1 informed counsel of the questions the Court would
2 be asking of the juror and took suggestions from
3 counsel as to additional questions to ask. At
4 this point, we'll have the juror brought in.

5 (Juror present.)

6 THE COURT: You may be seated. I was going
7 to invite you to sit in the front row, but I see you
8 feel at home where you are.

9 Ms Temme, the Court has received a note
10 from the bailiff with the question that you
11 raised yesterday regarding Deputy Remiker. And,
12 first of all, I want to thank you for your
13 conscientiousness in raising this issue for the
14 Court.

15 And at this time I would like to ask you
16 a few questions in order to determine if the
17 issue that you raised poses a problem in your
18 service as a juror. At the outset, I want to let
19 you know that for this portion of the
20 proceedings, because I'm going to be questioning
21 you, the cameras have been turned off. This
22 portion of the proceedings is not being carried
23 on the air, or on the internet, or anywhere else;
24 although, the proceeding is, like all court
25 proceedings, open to the public.

1 As I understand the note I received from
2 the bailiff, you, before the start of the trial,
3 did not recall David Remiker by name, but when
4 you saw him testify, you recognized him as a
5 party in a civil trial for which you served as a
6 juror a number of years ago; is that correct?

7 MS TEMME: Correct.

8 THE COURT: And I did take the opportunity
9 to look up his name on CCAP, I believe the trial
10 involved was a civil trial that occurred in the year
11 2000; does that sound correct?

12 MS TEMME: Correct.

13 THE COURT: Okay. And it's also my
14 understanding that you brought this matter to the
15 bailiff's attention at the break we took during
16 Detective Remiker's testimony.

17 MS TEMME: Right.

18 THE COURT: Have you discussed your
19 concerns with any other members of the jury; that
20 is, this issue?

21 MS TEMME: No.

22 THE COURT: You have not. Okay. I'm going
23 to preface the next series of questions by making
24 clear that I am not going to be asking you for, and
25 I do not want you to say, anything about your

1 impressions of Mr. Remiker's testimony in this case.
2 I'm simply asking information about the previous
3 case that you referred to, in the note I received
4 from the bailiff.

5 Do you remember whether or not
6 Mr. Remiker testified in that case? Did he
7 testify as a witness?

8 MS TEMME: I don't remember.

9 THE COURT: Okay. As I understand it, he
10 was the plaintiff in the case, the person asking for
11 damages?

12 MS TEMME: Correct.

13 THE COURT: And the jury awarded him some
14 damages; is that correct?

15 MS TEMME: Correct.

16 THE COURT: Did you vote with the majority
17 in that jury verdict; do you remember?

18 MS TEMME: Yes.

19 THE COURT: Do you remember how long the
20 trial was, approximately?

21 MS TEMME: I believe it was one week.

22 THE COURT: One week?

23 MS TEMME: Approximately one week.

24 THE COURT: And do you recall anything, for
25 example, about the number of witnesses in the case?

1 MS TEMME: No, I don't.

2 THE COURT: Okay. And if I understand it
3 correctly, you can't say for sure whether or not
4 Mr. Remiker actually testified in the case?

5 MS TEMME: I can't remember. I can't
6 say for sure.

7 THE COURT: Would your experience as a
8 juror in that case cause you to give any more or
9 less weight to his testimony in this case?

10 MS TEMME: No.

11 THE COURT: You indicated that you have not
12 discussed this matter with any other members of the
13 jury; is that correct?

14 MS TEMME: Yes.

15 THE COURT: Will you be able, during the
16 remainder of this trial, including deliberations,
17 not to tell any other members of the jury about this
18 tie you have with Mr. Remiker?

19 MS TEMME: Of course.

20 THE COURT: Counsel, it's my understanding
21 that the parties may request a side bar at this
22 point.

23 (Side bar taken.)

24 THE COURT: Ms Temme, I would like to ask
25 you just a few follow-up questions. You have told

1 me some of the things that you didn't remember about
2 the case; can you tell me what you do remember about
3 it, other than the fact that Mr. Remiker was a
4 plaintiff?

5 MS TEMME: What I remember about it is a
6 lot of discussion about the lower left lumbar of
7 the back, and that it involved an accident down
8 on the I-system with a couple of other vehicles.
9 That's about it.

10 THE COURT: Do you remember anything about
11 the witnesses who testified at the trial?

12 MS TEMME: I don't.

13 THE COURT: Do you remember, at the
14 conclusion of the trial, how you felt about it?

15 MS TEMME: I felt that the plaintiff
16 should receive some monetary value for the
17 problems he was having.

18 THE COURT: Okay. Do you remember anything
19 about the amount of damages that was awarded?

20 MS TEMME: I'm guessing, but I think it
21 was medical bills and maybe like \$100,000.

22 THE COURT: Do you remember if you were in
23 agreement, or not, with the amount of damages that
24 were awarded?

25 MS TEMME: I was in agreement.

1 THE COURT: Is there anything else you can
2 tell us that you remember about your experience as a
3 juror in that case?

4 MS TEMME: I listened to the information
5 from both sides. I know there was a lot of
6 medical information provided. I think that's why
7 I remember the lower left lumbar of the back
8 information. But, it was a good experience.

9 THE COURT: Is there anything at all about
10 your experience as a juror in that case that you
11 feel could have any affect whatsoever on your
12 service as a juror in this case?

13 MS TEMME: No.

14 THE COURT: Okay. Thank you. I'm going to
15 excuse you at this time.

16 (Juror not present.)

17 THE COURT: I forgot one last thing I was
18 going to talk to her about, so I'm going to have the
19 bailiff bring her back out.

20 (Juror present.)

21 THE COURT: You may be seated. Ms Temme,
22 one thing I forgot, that I wanted to tell you, and
23 it sounds like you followed it so far, but I want to
24 make sure that you do not discuss either the fact
25 that you were on a juror (sic) in that case, or any

1 of the questions I asked you here, or any of the
2 answers you gave, with any other member of the jury
3 in this case.

4 MS TEMME: Of course.

5 THE COURT: Okay. Very well. You are
6 excused now.

7 (Juror not present.)

8 THE COURT: All right. Counsel, we're
9 going to take a very short break at this time for me
10 to give the media the break I promised them. And,
11 then, in five minutes, we'll go back on the record,
12 outside the presence of the jury.

13 (Recess taken.)

14 THE COURT: At this time, we are back on
15 the record, outside the presence of the jury. I
16 will hear from the parties at this time concerning
17 their position on the juror, following the voir
18 dire. Mr. Fallon.

19 ATTORNEY FALLON: Yes, thank you, Judge.
20 Quite frankly, we were not surprised by any of the
21 answers obtained from the juror here. I have
22 extensive notes from the jury selection process in
23 terms of the information that we obtained from her
24 and many notes regarding her demeanor.

25 She was questioned about her prior jury

1 experience. She said at that time it was a -- a
2 interesting, good experience, much like she
3 described it today. She just strikes me as an
4 individual who doesn't take things -- I should
5 say, she takes them as she sees them, or as she
6 finds them. And I think it's important to
7 highlight the fact that, here it is 2007 and this
8 trial was at least six years ago, perhaps close
9 to seven years ago, and when asked about what
10 does she remember about the case, I found it
11 rather telling that all she could focus and
12 clearly remember was the lower left lumbar, as
13 being a point of interest to the particular trial
14 at hand.

15 And, if she doesn't recall, equally
16 important, whether Mr. Remiker, in that case,
17 testified, I think that's also a telling fact.
18 Because ordinarily you would expect the plaintiff
19 in a civil case and, quite frankly, I wouldn't be
20 surprised if further review suggests that
21 Detective Remiker did testify.

22 But she doesn't have a clear
23 recollection of that particular incident or his
24 testimony, or any -- or anything else about the
25 case other than the injury to the lower left

1 lumbar and how significant or severe it was.

2 While some may argue that thousands of
3 dollars in special damages for medical bills and
4 perhaps \$100,000, or maybe she's thinking 100,000
5 total, for all the other injuries associated for
6 an accident like that, is not an overwhelming
7 amount of money.

8 She indicated she voted in favor,
9 thought the plaintiff carried the day. But there
10 was nothing about the particular process, or the
11 deliberation, or the evaluation of the testimony,
12 of the evidence and all of that, which is of
13 critical interest to us here today, that suggests
14 that she couldn't perform that same function
15 today.

16 And more importantly, there was no
17 indication in any of the information provided by
18 her that she would not be able to perform that
19 function today, in this case, in setting aside or
20 disregarding any of what occurred in 2000. And I
21 think that's the critical fact here, is there a
22 chance or a likelihood -- I don't mean a chance,
23 but I mean a realistic likelihood, a realistic
24 chance that something about that case would
25 interfere or cause her to unduly sway the

1 evaluation and the credib -- the evaluation of
2 the credibility of Detective Remiker. And we saw
3 no indication of that in this particular voir
4 dire of the juror.

5 So we're not bringing a motion for
6 cause. I don't think there's a sufficient basis
7 to strike for cause on objective bias, because
8 she happened to be a juror in a case six years
9 ago. And the fact that one of the witnesses in
10 this particular case was the plaintiff, again,
11 doesn't seem to be that significant a point or a
12 fact with this juror. Again, as I said, there's
13 nothing that we learned today that would
14 seriously cause us to suggest that she could not
15 perform the duties in this case. So we do not
16 have an objection.

17 THE COURT: Mr. Strang.

18 ATTORNEY STRANG: The defense moves to
19 strike the juror for cause. We adhere to all of my
20 earlier comments and I will add now, after hearing
21 the juror, something on subjective bias and
22 something more on objective bias. The Court, of
23 course, has the province of assessing the juror's
24 credibility and demeanor.

25 I thought it worthy of note that the

1 juror, who is middle-aged -- that's going to get
2 me in trouble with someone, but she certainly is
3 a young person, not an elderly person -- and is
4 describing a trial that, let's assume, happened
5 in 2000 -- if it happened in 2000, it's really
6 not so long ago, that's the year that President
7 Bush first was elected, that's not a long time
8 ago -- and professes here today not to remember,
9 one way or the other, whether the plaintiff in
10 the lawsuit was a witness at some point, during
11 what she's thinks was about a one week trial;
12 it's worth raising, just as a -- as a subjective
13 matter. But I continue to see this primarily as
14 a matter of objective bias.

15 And what I can add, to my comments
16 earlier, is just the exclamation point that, when
17 we have sitting in this jury, at a time when we
18 have ample extra jurors and opportunity to err on
19 the side of caution, when we have someone sitting
20 as a juror, who previously has voted to award
21 \$100,000 to a witness in this case, there is not
22 the reasonable appearance of impartiality and
23 fairness. That just simply doesn't look fair.

24 So, if the Court can -- concludes that
25 subjectively she's not biased, I think there's a

1 real objective bias concern here, and that she
2 ought to be relieved of further duty as a juror
3 in this case.

4 THE COURT: All right. First of all, with
5 respect to the Court's findings in this matter, I
6 find this particular juror to be very credible for a
7 number of reasons. Probably goes back to my
8 recollection of her answers during individual voir
9 dire, which I agree with the State, were similar to
10 what I heard today.

11 She certainly didn't have to alert the
12 Court to the fact that she had been on a jury
13 involving one of the witnesses, seven years ago.
14 I have given no instructions to the jurors that
15 would require them to report that type of
16 information, at least specifically.

17 I have instructed them that if they are
18 exposed to any reports or communications from
19 other parties they should report it, but she did
20 it on her own and I believe she did so
21 conscientiously. Given that fact, I find no
22 reason she would have to be untruthful when she
23 tells the Court today that she simply has no
24 recollection of remembering that Mr. Remiker
25 testified at the trial during which she served as

1 a juror.

2 That's not the same as saying that she
3 believes he did not testify, she simply doesn't
4 remember. If she doesn't remember that he
5 testified, there doesn't appear to be a serious
6 danger that somehow, because she found him
7 credible as a witness in that trial, she will be
8 more likely to find him credible as a witness in
9 this trial. She doesn't even have a recollection
10 of him testifying.

11 Her most vivid recollections of that
12 trial are related more to the injuries, the fact
13 she feels that the person, as a plaintiff, was
14 injured and was entitled to damages and she went
15 along with an award that was given by the rest of
16 the jurors in that case.

17 She indicated to the Court that she did
18 not believe her experience as a juror in that
19 case would have any impact on her ability to be
20 fair and impartial in this case and I'm not aware
21 of any information that would call that into
22 question.

23 In terms of objective bias, the question
24 boils down to whether a reasonable person, in the
25 individual juror's position, could be impartial.

1 That is, I have to ask, could somebody be
2 impartial in her position. The defense suggests
3 that the mere fact that she was on a jury that
4 awarded this witness, approximately seven years
5 ago, a verdict in a civil case, I mean, she can't
6 be partial in this case.

7 She didn't remember the individual's
8 name at the time of original individual voir
9 dire. And I saw nothing in her demeanor to
10 suggest that she was somehow favorably inclined
11 toward Detective Remiker because he was the
12 plaintiff in that prior suit. It appears she
13 simply participated in the award because she
14 thought the plaintiff in that case was entitled
15 to the award.

16 I just don't see anything nor any reason
17 why someone who was a juror in a case six or
18 seven years ago would, of necessity, be unable to
19 be fair and impartial in a case such as this.
20 She's an intelligent person, I think she can
21 separate and tell the difference between the two
22 and I don't think, more importantly, that there's
23 any particular motivation, simply because she
24 participated in a civil trial that long ago, any
25 objective reason why she should be more or less

1 inclined to believe him in his testimony in this
2 case. So the Court is going to deny the motion
3 to strike this juror for cause.

4 Counsel, is there anything else to take
5 up before we bring in the jury and resume with
6 the next witness?

7 ATTORNEY KRATZ: Just one matter, Judge.
8 The next witness, like some law enforcement officers
9 that come before the Court, is a member of a Metro
10 Drug Unit, as part of his responsibilities and is
11 actively involved in undercover narcotics
12 investigations. He has asked this Court, although
13 we believe that his audio poses no threat to either
14 himself or his investigations, that the Court direct
15 that video of this officer not be taken.

16 He is a relatively short officer. I
17 have spoken to Mr. Buting about that and,
18 obviously, audio of this officer will be
19 permitted, but pursuant to statute, Judge, I
20 believe the Court has the authority and I would
21 ask for this officer, and I think in the case,
22 this officer alone, that videotape not be taken
23 of his testimony.

24 THE COURT: Mr. Buting.

25 ATTORNEY BUTING: I have no problem with

1 that; that's fine.

2 THE COURT: I assume that it's sufficient
3 if I simply direct the camera man to just focus on
4 the attorneys, or the board, or something else, that
5 they just be instructed not to show the camera on
6 the witness.

7 ATTORNEY KRATZ: Anything else, Judge, that
8 would be just fine.

9 THE COURT: All right. I think that should
10 be sufficient to most narrowly meet the State's
11 request, while still allowing for the public
12 coverage of this trial. So, Mr. Camera Man, I
13 assume you can follow that directive. And although
14 I can't make eye contact with who is ever behind the
15 glass, I will ask the same of the camera man in the
16 media room. Is that you?

17 REPORTER: No, I'm a reporter, but I'm
18 standing up and I would like to make a record to
19 the Court. Our attorney from WISN-TV, Attorney
20 Flynn, has left a message in the back for the
21 Court, he would like to be heard on this issue.

22 THE COURT: On this issue here?

23 REPORTER: Yes, involving the DCI agent.

24 THE COURT: Oh. Okay. Well, we'll take a
25 short break and I will take the phone call in

1 chambers and see if anything further is necessary.

2 REPORTER: Thank you.

3 (Recess taken.)

4 (Jury not present.)

5 THE COURT: At this time, I will indicate
6 for the record, and we're outside the presence of
7 the jury, I spoke to Attorney Matthew Flynn, who
8 represents WISN in Milwaukee. I believe his call
9 was prompted in anticipation of the Court completely
10 prohibiting coverage of the trial during the
11 testimony of the next witness.

12 When I explained to him that I felt the
13 needs of the media and the needs of the Court
14 could be accommodated by allowing the proceedings
15 to continue to be televised during the testimony
16 of the next witness, but simply instructing the
17 camera man not to show his face, Mr. Flynn
18 indicated that was satisfactory to he and his
19 client. So that's what the Court will do.

20 I have received a nod from the camera
21 man that he understands the instructions. And
22 with that, we'll bring in the jury at this time
23 and then allow the State to call its next
24 witness.

25 ATTORNEY KRATZ: That's fine. Thank you,

1 Judge.

2 (Jury present.)

3 THE COURT: You may be seated. Members of
4 the jury, before we begin, I just want you to rest
5 assured that the attorneys and I did not take a
6 three hour lunch today. We had a number of matters
7 to address, that had to be addressed, outside the
8 presence of the jury. I believe we are ready to go
9 now and at this time we're going to have the State
10 call its next witness.

11 ATTORNEY KRATZ: Thank you, Judge. The
12 State will call Gary Steier to the stand. I have
13 two exhibits, Janet.

14 THE CLERK: Raise your right hand.

15 **SPECIAL INVESTIGATOR GARY STEIER**, called
16 as a witness herein, having been first duly
17 sworn, was examined and testified as follows:

18 THE CLERK: Please be seated. Please state
19 your name and spell your last name for the record.

20 THE WITNESS: Gary Steier, S-t-e-i-e-r.

21 **DIRECT EXAMINATION**

22 BY ATTORNEY KRATZ:

23 Q. Mr. Steier, how are you employed?

24 A. I'm a special investigator with the Calumet
25 County Sheriff's Department.

1 Q. Do you also have special responsibilities with a
2 multi-jurisdictional organization?

3 A. Yes, I do.

4 Q. Could you describe that just briefly, please.

5 A. I'm assigned to the four county drug unit, Lake
6 Winnebago Drug Unit.

7 Q. With Calumet County, what are your
8 responsibilities?

9 A. Special investigator position is 50 percent
10 investigations, 50 percent Lake Winnebago Area
11 Metropolitan Enforcement Drug Group Unit.
12 Investigations into the four counties around Lake
13 Winnebago, as far as drug investigations and then
14 50 percent other investigations pertaining (sic)
15 into Calumet County.

16 Q. Mr. Steier, in your general investigative
17 responsibilities, were you asked, on November 5th
18 of 2005, to proceed to the Avery Salvage Yard?

19 A. Yes, I was.

20 Q. And that first evening, that is, on the 5th of
21 November, did you actively participate in the
22 first search, what we have come to know as a
23 sweep of several residences on the property?

24 A. Yes.

25 Q. Can you describe that just briefly for us,

1 please.

2 A. Myself and Detective Remiker were assigned to
3 execute the search warrant on Steven Avery's
4 property, specifically looking for Teresa
5 Halbach. I believe we were the two investigators
6 that entered the residence and did an initial
7 sweep looking for Teresa Halbach.

8 Q. As I understand, Investigator Steier, that
9 through the rest of that week, that is, between
10 the 5th and the 12th of November, you were
11 actively involved in other search as well as
12 investigative efforts in this case?

13 A. Yes.

14 Q. In fact, Investigator Steier, after the
15 completion of that first weeks worth of
16 investigation, you continued to be asked to
17 perform investigative functions in this case; is
18 that true?

19 A. Yes.

20 Q. I will now direct your attention to March 1st and
21 2nd of 2006, ask if you were once again asked to
22 participate or cooperate in investigative
23 efforts.

24 A. Yes.

25 Q. Could you tell the jury, on March 1st and 2nd,

1 what you were asked to do.

2 A. On March 1st and 2nd, I was asked to be the
3 evidence custodian for the search warrant, when
4 it was executed; more particularly, to the garage
5 of the residence of Steven Avery.

6 Q. Directing your attention, first, to March 1st,
7 what were your responsibilities in searching
8 Steven Avery's garage?

9 A. My responsibilities were to collect -- or make
10 sure that the evidence collected in the garage
11 was packaged; had a officer who discovered the --
12 or who had collected the items and had dated
13 that, a date and time that that item was
14 collected; and that all the evidence was taken
15 out of the garage; and made sure that the chain
16 of custody was intact.

17 Q. Do you know a agent with the Division of Criminal
18 Investigation named Kevin Heimerl?

19 A. Yes.

20 Q. Was he also involved in both search and
21 collection efforts on March 1st and 2nd?

22 A. Yes, he was.

23 Q. On March 1st, Investigator Steier, upon a search
24 of the garage of Steven Avery, was any particular
25 item of interest located?

1 A. There were several items that were collected that
2 were of interest. Two of the items were bullet
3 fragments collected inside the garage.

4 Q. These are the bullet fragments that I'm going to
5 ask you, at least for the next several questions,
6 direct your attention on March 1st, that is, the
7 first day of a two day search project or
8 procedure. Could you tell us how that fragment
9 was located and what you personally did after
10 that fragment was located.

11 A. Day 1 of the search warrant, a bullet fragment
12 was located. The item was located by Agent
13 Heimerl and was collected by myself. Day 2 of
14 the search warrant, a second bullet fragment was
15 also located by Agent Heimerl and was collected
16 by Detective Remiker.

17 ATTORNEY BUTING: Judge, just so the record
18 is clear, as to the actions of Agent Heimerl, he's
19 going to be testifying. It would be hearsay, that's
20 why I'm not objecting, because he is coming.

21 THE COURT: All right. Thank you.

22 ATTORNEY KRATZ: He will be our next
23 witness. And thank you, counsel.

24 Q. (By Attorney Kratz)~ I'm showing you what has
25 been marked for identification as Exhibit No. 276

1 and 277, are you able to identify or recognize
2 those exhibits?

3 A. Yes, the exhibit with the plastic bag with
4 initials GS was collected by myself.

5 Q. That's 276?

6 A. That's correct.

7 Q. And was that found on the first day or the second
8 day?

9 A. It was found on March 1st.

10 Q. Okay. Do you remember, generally, within the
11 garage, where that bullet fragment was located?

12 A. Would be in the northwest corner of the garage.

13 Q. I'm going to show you, Investigator, what has
14 been previously received as Exhibit No. 108, ask
15 if this computer diagram assists you in
16 describing to the jury where this bullet fragment
17 was found?

18 A. The evidence photograph marker No. 9.

19 Q. As far as the collection, packaging, and then
20 taking control of that first bullet fragment,
21 could you explain once again, for the jury, who
22 it was that found the fragment, which I'm sure
23 we'll hear about, but, then, who both packaged
24 and took control of?

25 A. The bullet fragment, Exhibit 276, in the paper

1 bag, was located by Agent Heimerl and collected
2 by myself. All the photography, photographs
3 inside the trailer, were done by Agent Heimerl.

4 Q. You mean inside the garage?

5 A. I'm sorry, inside the garage, yes.

6 Q. Just so the jury knows, there was another search
7 going on inside of Mr. Avery's trailer at the
8 same time; is that right?

9 A. That's correct. We were divided into teams, a
10 team of five. We were assigned the garage and a
11 diff -- another team was assigned inside the
12 trailer at the same time.

13 Q. Okay. Now, the next day, that is, on March 2nd,
14 directing your attention to Exhibit No. 277,
15 where was that found?

16 A. That would have been located on the evidence
17 photograph, tent marker 23A.

18 Q. After it's detection, again, which we're going to
19 hear about in just a couple minutes, what
20 happened with that bullet fragment?

21 A. The bullet was turned over to me, from Detective
22 Remiker.

23 Q. After taking custody, I understand on two
24 separate days, but of each of these items of
25 evidence, could you describe for the jury what

1 was done with them; what happened after you
2 retained possession of them?

3 A. The items were packaged or were collected in a
4 package and turned over to me and then evidence
5 tape surrounding the package was placed on the
6 item collected. And then from there, the items
7 were transported to a trailer, which was housing
8 the other items that were collected from the
9 same.

10 ATTORNEY KRATZ: I think it's 125,
11 Mr. Fallon.

12 Q. (By Attorney Kratz)~ Finally, Investigator
13 Steier, were you familiar with a log, that is, a
14 check in and check out procedure or document that
15 was being utilized on those days?

16 A. I was aware that there was a log being taken of
17 our entry and exit times in and out of the garage
18 and the surrounding area.

19 Q. Now, the garage and the surrounding area, are
20 those the same logs or the same kind of place?

21 A. Day 1, the log reflected inside the trailer --
22 inside -- I'm sorry, inside the garage. Day 2,
23 reflected the garage and the evidence tape, which
24 was just outside the garage.

25 Q. All right. Either on March 1st or March 2nd, had

1 you witnessed either Lieutenant James Lenk or
2 Sergeant Andrew Colborn, come inside of the
3 garage itself?

4 A. No.

5 Q. If either Lieutenant Lenk or Sergeant Colborn had
6 come inside of the garage, is that something that
7 you would have noticed?

8 A. Probably, it was only five or six of us inside
9 the garage at that time.

10 Q. All right. And, Mr. Fallon, as soon as he finds
11 it, is going to show you the actual log.

12 ATTORNEY KRATZ: Is it 125, counsel; is
13 that the right log?

14 ATTORNEY FALLON: There's three
15 possibilities, counsel, 125, 147 and 146.

16 ATTORNEY KRATZ: Perhaps Mr. Buting can ...

17 Q. (By Attorney Kratz)~ We're going to show you what
18 has been marked as Exhibit 146 and 147. First of
19 all, I will ask if you recognize those documents?

20 A. I have not seen these particular documents, no.

21 Q. Well, then, what I'm going to do is go by your
22 independent recollection. Do you know if
23 Lieutenant Lenk had, on either day, come inside
24 of the outer perimeter, that is, the outer check
25 in area?

1 A. To answer your question, the Day 1, no Lieutenant
2 Lenk did not enter the garage area. I believe
3 these records are for the trailer not for the
4 garage.

5 Q. All right. But what I'm asking, though, is do
6 you know if, on either day, Lieutenant Lenk
7 entered the -- what would be the outer perimeter,
8 not the garage itself, but was he in the general
9 vicinity of those search efforts?

10 A. Yes. On Day 2, he was near the tape line of the
11 evidence, but not inside the garage.

12 Q. All right. And I guess that's the point that I'm
13 asking you. Although inside of the -- where the
14 general public couldn't get, he wasn't in the
15 garage itself; is that your testimony?

16 A. Yes.

17 Q. At any time, Investigator Steier, did you see
18 Lieutenant Lenk provide any other officer who may
19 have come into the garage with any kind of
20 evidence or anything to secrete, or to plant, or
21 to hide in there?

22 A. No.

23 Q. My last question is, if that would have happened,
24 is that something that you would have seen?

25 A. I probably would have noticed something unusual,

1 but to answer the question, I don't know if I
2 would have actually been able to determine that.

3 Q. We have now found Exhibit No. 125, which, in
4 fact, is that outer perimeter log. Is that
5 something that you do recognize?

6 A. Yes.

7 Q. And you notice Lieutenant Lenk's name on that
8 outer perimeter log; is that correct? It's on
9 page one.

10 A. Yes.

11 Q. All right.

12 A. For March 2nd.

13 ATTORNEY KRATZ: And recognizing, Judge,
14 that we are going to hear about the discovery and
15 photography of Exhibits No. 276 and 77, I still
16 will, at this time, move their admission.

17 THE COURT: Any objection?

18 ATTORNEY BUTING: No.

19 THE COURT: All right. Those exhibits are
20 admitted.

21 ATTORNEY KRATZ: That's all I have of this
22 witness. Thank you, Judge.

23 THE COURT: All right. You are excused,
24 sir.

25 ATTORNEY BUTING: No.

1 THE COURT: Oh, sorry, jumping the gun.

2 ATTORNEY BUTING: Not so fast.

3 THE COURT: Okay.

4 ATTORNEY BUTING: Okay.

5 **CROSS-EXAMINATION**

6 BY ATTORNEY BUTING:

7 Q. I'm sorry, is it detective or investigator?

8 A. Investigator.

9 Q. Okay. Investigator Steier, your involvement, you
10 had some involvement in this case, back in
11 November, November of '05?

12 A. Yes.

13 Q. During that week when it first started, right?

14 A. Yes.

15 Q. And you work for Calumet Sheriff's Department,
16 right?

17 A. Yes.

18 Q. And I'm sure that you were aware that on the
19 very, very first day, November 5th of 2005, the
20 Manitowoc County Sheriff's Department had decided
21 to turn over this investigation to Calumet,
22 right?

23 A. That's correct.

24 Q. Because of this possible conflict of interest
25 over the fact that Mr. Avery, here, was suing

1 Manitowoc County, right?

2 A. That's correct.

3 Q. And, then, after the property was held for that
4 week, November 5th to the 12th, Manitowoc didn't
5 really have much else to do in this case
6 investigation, to your knowledge, did they,
7 initially?

8 A. After that, no, not that I believe so.

9 Q. So, it was primarily Calumet, represented by
10 Mr. Wiegert, who's not here at the moment, and
11 DCI, led by Mr. Fassbender who were running the
12 investigation of the case, as far as you knew?

13 A. Yes.

14 Q. Okay. So four months go by, and now we're up to
15 March 1st, 4 months when Manitowoc County had
16 really had nothing to do with this case; would
17 that be fair?

18 A. Yes.

19 Q. Suddenly there's another search warrant at
20 Mr. Avery's trailer and garage and we see
21 Manitowoc back in the case; isn't that right?

22 A. As far as I know, yes.

23 Q. You have all the logs up there with you or just
24 one?

25 A. I just have the second, I believe.

1 ATTORNEY BUTING: Okay. Let me have that
2 one, please.

3 Q. (By Attorney Buting)~ Now, the first day, this
4 was actually sort of a two day search of those
5 properties, right, 1st and 2nd?

6 A. Yes, that's correct.

7 Q. And somebody with your department maintained
8 overall security of that scene, during that time?

9 A. Yes.

10 Q. 24 hours?

11 A. Mm-hmm.

12 Q. Sorry, we're talking over each other here. And
13 those people who maintained security of the
14 scene, do you know whether they were Manitowoc or
15 Calumet?

16 A. They were Calumet.

17 Q. All right. And they were maintaining a log of
18 people who would come and go from the property
19 during this two day search, right?

20 A. Yes.

21 Q. And that's what Exhibit 147 is, if you would take
22 a look at that. It appears to be a log that was
23 being kept by one of your colleagues, of
24 everybody that came and went, right?

25 A. Yes.

1 Q. Okay. And do you see Detective Lenk's name? To
2 make it easier for you, direct your attention to
3 the bottom of the page, Lieutenant Lenk, I
4 believe that ...

5 A. Yes, I do.

6 Q. It shows Lieutenant Lenk arriving at 1810, right?

7 A. That's correct.

8 Q. And there does not appear to be a similar log
9 like this other one that's Exhibit 125, that's
10 dated March 2nd; have you seen one like this for
11 March 1st?

12 A. Yes, there is a --

13 Q. Okay.

14 A. -- log like this for March 1st.

15 Q. Okay. So maybe we just haven't found it.
16 Exhibit 125 is a different kind of a log; it's
17 more specific to location on that property, would
18 that be fair?

19 A. Yes.

20 Q. It specifically says garage and roped off --
21 roped off area or something, right?

22 A. Yes.

23 Q. And do you see Lieutenant Lenk's name on that?

24 A. Yes.

25 Q. Do you actually remember him being there?

1 A. I do.

2 Q. Do you remember him passing out food and drinks?
3 Yes or no?

4 A. No.

5 Q. He wouldn't do that, he's a lieutenant, right?

6 A. He may have been passing out food or drinks, I
7 just can't recall at this time.

8 Q. Okay. Do you know who asked Manitowoc County to
9 rejoin this investigation on March 1st and 2nd?

10 ATTORNEY KRATZ: Objection, irrelevant,
11 Judge.

12 THE COURT: Mr. Buting.

13 ATTORNEY BUTING: I think it's directly
14 relevant; it's been a central part of this case.

15 ATTORNEY KRATZ: Is there still a conflict
16 on March 1st and 2nd, that's my objection, your
17 Honor.

18 THE COURT: Well, he can ask him if he
19 knows. I will allow it.

20 Q. Do you know?

21 A. Could you repeat the question?

22 Q. You may not know, that's fine. But I'm just
23 asking if you know who asked -- Well, let me ask
24 you this, who asked you to come and be the
25 evidence custodian?

1 A. Investigator Mark Wiegert.

2 Q. Okay. Do you know whether Mr. Wiegert or
3 Mr. Fassbender invited Manitowoc County back into
4 this investigation, so that they would be at the
5 scene of this search of Mr. Avery's trailer and
6 garage on March 1st and 2nd?

7 A. Do I know that they asked Manitowoc County?

8 Q. Do you know who asked them?

9 A. Do I know who specifically, no.

10 Q. Okay. But Mr. Wiegert and Mr. Fassbender, as far
11 as you know, were the leaders of the
12 investigation, still at that time?

13 A. That's correct.

14 Q. And Mr. Kratz asked if you were -- if you noted
15 Sergeant Colborn or Lieutenant Lenk in the garage
16 area itself. You didn't at that time have any
17 particular concern about the fairness or
18 objectivity of either of those two officers, did
19 you?

20 A. No, I did not.

21 Q. As of March 1st and 2nd, you didn't know, or did
22 you, that Lieutenant Lenk had been deposed as a
23 witness in the Avery lawsuit?

24 A. No, I did not know that at that time.

25 Q. So there was nothing about those two officers

1 that would have put you on guard, or to watch
2 out, make sure they don't do something like plant
3 evidence, right?

4 A. That's correct.

5 ATTORNEY BUTING: That's all I have of this
6 witness, thank you.

7 THE COURT: Mr. Kratz, any redirect?

8 ATTORNEY KRATZ: Not of this witness,
9 Judge.

10 THE COURT: All right. Very well, the
11 witness is now excused. Mr. Kratz, you may call
12 your next witness.

13 ATTORNEY KRATZ: Thank you, Judge. And
14 just for the record, we're not asking for any
15 special indulgence from this point forward from the
16 media and I will call Mr. Kevin Heimerl to the
17 stand.

18 THE COURT: Thank you.

19 THE CLERK: If you would raise your right
20 hand.

21 **SPECIAL AGENT KEVIN HEIMERL**, called as a
22 witness herein, having been first duly sworn, was
23 examined and testified as follows:

24 THE CLERK: Please be seated. Please state
25 your name and spell your last name for the record.

1 THE WITNESS: Kevin Heimerl, H-e-i-m-e-r-l.

2 DIRECT EXAMINATION

3 BY ATTORNEY KRATZ:

4 Q. Mr. Heimerl, how are you employed, sir?

5 A. I'm a special agent with the Wisconsin Department
6 of Justice, Division of Criminal Investigation.

7 Q. How long have been a special agent?

8 A. Three years.

9 Q. Prior to that employment responsibility, did you
10 have other law enforcement experience?

11 A. Yes, sir.

12 Q. Could you describe that for the jury, please.

13 A. I worked for the Columbia County Sheriff's
14 Department for approximately 14 years. I began
15 as a non-sworn jailer and dispatcher for
16 approximately one and a half years, then worked
17 in a uniform patrol deputy sworn position for
18 approximately one and a half years. And I, then,
19 was promoted to a detective investigator position
20 for the remainder of 11 to 12 years.

21 Q. During November of 2005, did you work for the
22 Division of Criminal Investigation?

23 A. Yes, I did.

24 Q. And is one of your colleagues, Special Agent
25 Fassbender?

1 A. Yes.

2 Q. Sometime after the 5th of November, 2005, were
3 you asked to participate in an investigation at
4 the Avery salvage property?

5 A. Yes, I was.

6 Q. And let's start with an overview, first of all,
7 what days were it that you were actually on that
8 property, if you recall, that week?

9 A. I was initially assigned to assist with the
10 investigation on Sunday, November 6th, I believe
11 it was. And I remained active and involved in
12 the initial investigation there at the scene for
13 approximately the first week.

14 Q. All right. Were there specific responsibilities
15 that you were given, and if so, who were those
16 directed to you by?

17 A. Yes, I was given assignments and responsibilities
18 by the lead investigator, Special Agent
19 Fassbender, or Detective Wiegert.

20 Q. The first day that you were there, I think you
21 said was Sunday, the 6th of November, could you
22 tell the jury what your responsibilities were
23 that day.

24 A. My first assignment was to follow up on an
25 investigative lead. And I traveled into the city

1 of Manitowoc to interview a citizen regarding a
2 previous contact that citizen had had with Teresa
3 Halbach.

4 Q. Now, I think you are the first law enforcement
5 officer that we have heard about that was
6 actually doing interviews of people off site; in
7 other words, off the Avery property. Was that a
8 responsibility, or series of responsibilities,
9 that you were aware that other law enforcement
10 officials had, as well as you?

11 A. Yes, I was aware that other investigators were
12 doing interviews elsewhere.

13 Q. Are you familiar with the term neighborhood
14 canvas?

15 A. Yes, I am.

16 Q. What does that mean?

17 A. Neighborhood canvas is something that is quite
18 often done in investigations of all magnitude, if
19 you will. And it essentially involves contacting
20 all individuals who reside in homes, or work in
21 businesses, within the immediate vicinity of the
22 crime. To make contact with all of those people
23 and interview them to see if they had information
24 that may be relevant to the investigation or may
25 assist in the investigation.

1 Q. During that first week of involvement in this
2 investigation, were many of your responsibilities
3 involving those kinds of interviews, the
4 neighborhood canvasses?

5 A. Yes, it was.

6 Q. Agent Heimerl, I am going to direct your
7 attention to Monday, the 7th of November, and ask
8 if you were on the Avery property on the 7th?

9 A. Yes, I was.

10 Q. On the 7th of November, do you recall having
11 contact with and actually taking control of a
12 burn barrel located outside of Mr. Avery's
13 trailer?

14 A. Yes, I do.

15 Q. Let me show you what's been received as Exhibit
16 51; can you tell us what we're looking at here,
17 please.

18 A. That is a steel burn barrel.

19 Q. Does this look familiar to you?

20 A. Yes, it does.

21 Q. What steel burn barrel is this?

22 A. This is a steel burn barrel that is essentially
23 in the front yard of Steven Avery's trailer.

24 Q. After initially being discovered, were you asked
25 to take control of, or begin, what's commonly

1 referred to as the processing of this piece of
2 evidence?

3 A. Yes.

4 Q. Describe what that entailed for the jury, please.

5 A. At the time, I was present at the Command Post
6 and was contacted by Agent Fassbender and
7 informed that a burn barrel in front of Steven
8 Avery's residence had been found to potentially
9 contain items of evidence. Myself and Special
10 Agent James Sielehr were assigned to walk down to
11 the trailer, meet with the law enforcement
12 officers that had discovered it, and to begin --
13 basically to secure it and to begin documenting.

14 Q. All right. Now, evidence this burn barrel
15 included eventually was taken off site or to a
16 central repository, or a central place where it
17 was held; is that your understanding?

18 A. Yes.

19 Q. Do you know where evidence in this case, after it
20 was taken off site, was retained?

21 A. I believe it was either transferred to the
22 Calumet County Sheriff's Department; in some
23 instances, I believe that some items went
24 directly to the State Crime Lab. I do not
25 specifically know where this one went.

1 Q. All right. Agent Heimerl, were you also, later
2 in the week, made aware of an area behind
3 Mr. Avery's garage, which has been referred to as
4 a burn area, or a burn pit?

5 A. I was told of it.

6 Q. The questions that I have of you, though, were
7 after processing, that is, after that burn area
8 was processed by agents of DCI Crime Lab and
9 others, in the weeks thereafter, were you asked
10 to assist in examination of the contents of that
11 particular burn area?

12 A. Yes, I was.

13 Q. So that the jury knows what we're talking about
14 and, although a little bit out of order, we'll be
15 hearing from witnesses about this, but do you
16 recognize Exhibit No. 47?

17 A. I have seen that photograph before, yes.

18 Q. Now, the items seized therefrom, in other words
19 the items that were recovered from this burn
20 area, you mentioned that you participated in
21 examination of; could you tell us where that
22 occurred, please.

23 A. Yes, it occurred on two separate occasions. The
24 first occasion was at the Wisconsin State Crime
25 Laboratory in Madison. And the second occasion,

1 that occurred here at the Calumet County
2 Sheriff's Department.

3 Q. Could you describe, just generally, and, again,
4 we're going to hear more specifically about this,
5 but to get your part of the case in, for lack of
6 a better term, can you describe, generally, what
7 you did or what you were asked to do, in that
8 examination?

9 A. Yes, myself and several other investigators were
10 given the assignment or the responsibility to
11 examine all of the debris that was removed from
12 the burn area or the burn pit. And that debris
13 was collected by other investigators and was
14 packaged and, ultimately, brought to the State
15 Crime Laboratory in Madison.

16 There we set up a processing station, if
17 you will, which simply involved table top
18 platforms that were covered with tarps. We had
19 all of this loose debris, material, that was a
20 mixture of soil and ash and burned items.

21 We would take a quantity of it and place
22 it on the table in front of you, on the tarp, and
23 using various instruments, begin sifting through
24 it and layering it out very thinly in front of
25 you and visually examining the material,

1 attempting to locate any items that you feel may
2 be items of evidence, such as human remains, bone
3 material, items of metal that you feel may, in
4 some way, shape, or form, be related as an item
5 of evidence.

6 Q. Let me ask you, Agent Heimerl, as part of your
7 law enforcement training, in addition to general
8 investigative training, do you have any specific
9 or specialized training in areas of arson or
10 arson investigations?

11 A. Yes, I do.

12 Q. Can you just, generally, tell us about that
13 training or experience, please.

14 A. My assignment at the Department of Justice, DCI,
15 is in the Arson Bureau. My primary assignment is
16 to conduct fire arson investigations. And I have
17 received rather extensive training through --
18 both at local, state, and national levels, in
19 fire investigation aspects and determining the
20 origin and cause of fire incidents.

21 But that also includes fatal fire
22 investigations. I believe that some of the --
23 probably the most important experience or
24 training that I have received has been on the job
25 training, if you will, in processing fire death

1 scenes, where people have perished in fires. Our
2 office is frequently called to fatal fire
3 investigations and we often have to recover human
4 remains from fire scenes.

5 Q. All right. So you are familiar with this
6 process, it's term I call sifting and sorting,
7 but that's a clumsy term, but is that, generally,
8 part of the process of what you engaged in in
9 this case?

10 A. Yes, it is. And you are exactly right, there are
11 different terms to use. And in some cases
12 sifting is actually done with sifting screens.
13 In this case, we did not use the sifting screens,
14 but it was more just a thin layering out and a
15 visual examination. If an item strikes you as
16 possibly being something that you may need to
17 collect. It's maybe brushed clean, or cleaner,
18 to remove some of the debris that's attached to
19 it, to allow for a better examination.

20 Q. During this examination process -- and by the
21 way, I would ask you to look at some of the
22 photographs that are in front of you. I want you
23 to first find Exhibit 273; it is one of the last
24 pictures, I think, that we have given you. Tell
25 me if you recognize that, please.

1 A. Yes, I do.

2 Q. What is that?

3 A. This is a photograph of several individuals, to
4 include Investigator Wiegert, myself; I recognize
5 Special Agent Rodney Pevytoe. And this was taken
6 in the basement of the State Crime Laboratory, as
7 we were going through this processing of this
8 debris.

9 Q. The processing, or the sifting or sorting
10 activity, is that a quick process, or does that
11 take a lot of time? Is it time intensive?

12 A. It is very time and labor intensive. It is a
13 very tedious process. It cannot be done quickly,
14 otherwise you miss things, because it's all being
15 done visually.

16 And in this instance, this task was
17 completed over the course of four full days.

18 Q. Do you know if that was under the direction or
19 supervision of any other professionals, any
20 degreed professionals?

21 A. Yes.

22 Q. Who is that, do you know?

23 A. Dr. Leslie Eisenberg, a forensic anthropologist
24 for the State of Wisconsin was present on two of
25 the days. And in my -- in my opinion, Special

1 Agent Pevytoe, is one of the leaders in this
2 field --

3 ATTORNEY BUTING: Objection to that.

4 A. -- who was present as well.

5 ATTORNEY KRATZ: We'll actually hear from
6 him and his qualifications, later in the trial,
7 Judge, but I appreciate the objection.

8 THE COURT: I'll sustain the objection with
9 respect to the comment about the individual's
10 qualifications.

11 ATTORNEY KRATZ: Thank you, Judge.

12 ATTORNEY BUTING: Move to strike.

13 THE COURT: And I move to strike that
14 portion of the answer.

15 ATTORNEY KRATZ: That's fine. Thank you.

16 Q. (By Attorney Kratz)~ I'm showing you Exhibit 274,
17 just another photo of the same event. What is
18 this that we're looking at here?

19 A. Again, this is a similar process occurring;
20 however, I believe this occasion is probably in
21 April of 2006 here at Calumet County Sheriff's
22 Department.

23 Q. All right. I will go back to the other exhibit
24 then, since it included you -- or at least a
25 photo of you. You said during this process you

1 look for not only items of human remains, bone
2 fragments, to be specific, but also non-human
3 items; is that correct?

4 A. Correct.

5 Q. During this sifting and sorting process, did you
6 individually detect and observe any of these
7 non-human items that were within those burn area
8 remains, or materials that were collected?

9 A. Yes, I did.

10 Q. Could you -- Do you have an independent
11 recollection of what it is that you found?

12 A. Yes.

13 Q. Could you tell the jury about that, please.

14 A. As I look at this photograph, if I could explain
15 further, I see an object, a black rectangular
16 object, which is a magnet. And one of the tools
17 that we used in this process as well was a
18 magnet, to move it through the debris, to pull
19 out all non-combustible metal objects. We would
20 then remove all of those items from the magnet
21 and visually examine those items, looking for
22 additional items that may be --

23 (Court reporter couldn't hear.)

24 THE WITNESS: I'm sorry.

25 INVESTIGATOR WIEGERT: I just got one

1 more bag to open and I'll be done with that
2 noise. Sorry.

3 THE COURT: Let's do the bag first and then
4 we'll continue.

5 INVESTIGATOR WIEGERT: Okay.

6 Q. Go ahead.

7 A. Yes, all of the metallic objects that stuck to
8 the magnet were then removed and they were
9 visually examined to determine if they were
10 potentially of evidentiary value.

11 Q. Now, these metallic items, or at least some of
12 the items that you found, were you able to
13 visually identify them; in other words, to
14 visually make a determination of what these items
15 were?

16 A. Yes.

17 Q. Could you describe the kinds of items that you
18 found, please.

19 A. Well, there were many different types and variety
20 of metal objects, but to include hardware:
21 Screws, nails, wires, many wires from what
22 appeared to be from tires. We found rivets,
23 clothing rivets, normally associated with denim
24 jeans.

25 I believe that we were able to find and

1 identify teeth from a zipper, ammunition casings,
2 shell casings, a large variety of different types
3 of objects.

4 Q. The items that were associated with clothing, the
5 clothing rivets and the zippers, or parts of the
6 zippers, were these metallic items mixed within
7 the human remains, or the other items that you
8 were examining?

9 A. Yes.

10 ATTORNEY KRATZ: Mr. Wiegert, have we
11 marked that exhibit?

12 (Exhibit No. 279 marked for identification.)

13 INVESTIGATOR WIEGERT: Just working on
14 it, it will take just two seconds here.

15 ATTORNEY KRATZ: Show it to Mr. Buting
16 first, please.

17 INVESTIGATOR WIEGERT: 279.

18 Q. (By Attorney Kratz)~ Mr. Wiegert is going to hand
19 you what's been marked for identification as
20 Exhibit No. 279. Tell us what that is, please.

21 A. That appears to be a clothing rivet, similar to
22 what I described that you would find on a pair of
23 denim pants, for instance.

24 Q. And was this clothing rivet that was identified,
25 easily identified, or at least identified with

1 writing right on the rivet?

2 A. Yes.

3 Q. And what does the rivet say?

4 A. The rivet is stamped Daisy Fuentes.

5 Q. I'm going to ask you to look at Exhibit No. 275,
6 ask if you recognize that photo?

7 A. Yes, I do.

8 Q. What is that?

9 A. This is a photograph of one of those very rivets
10 that has been cleaned and brushed to remove the
11 debris.

12 Q. Now that we're showing the jury, are you able to
13 read the inscription on that clothing rivet?

14 A. Yes.

15 Q. What does it say?

16 A. It says Daisey Fuentes.

17 Q. At least 275 actually shows the inscription, or
18 lettering, Daisy Fuentes, in two different
19 places, one on either side of the rivet; is that
20 a fair characterization?

21 A. Yes, sir.

22 Q. Now, Mr. Heimerl, these non-human remains, or
23 these metallic items, after they were sorted,
24 were they removed from the -- what were thought
25 to be human remains?

1 A. Yes.

2 Q. Do you know what was done with them then?

3 A. If I recall correctly, there were metallic
4 objects that would be found that investigators
5 felt relatively confident were not going to be
6 items of evidence, whether they were wires from a
7 tire, those would -- we would collect those
8 separately and place them back into a plastic bag
9 and it would then be returned into the original
10 container that the material was contained in.

11 Q. I see. Were some items that investigators
12 believed had specific evidentiary value removed
13 or separately packaged?

14 A. Yes, sir.

15 Q. And would something like Exhibit No. 275, or 274,
16 the actual item -- or excuse me, 279, the actual
17 item itself, the rivet, would be one of those
18 items that would be separately packaged?

19 A. Yes.

20 Q. How many law enforcement individuals do you
21 believe were involved in this sorting or sifting
22 process, that you were personally accompanied?

23 A. Over the course of the first two days, in
24 Madison, I believe there was approximately eight
25 or nine. On the second two days, here in

1 Chilton, I believe there was a similar number.

2 Q. All right.

3 ATTORNEY KRATZ: That's all for this
4 witness. I meant the investigator, and not you,
5 Judge. I'm sorry.

6 Q. (By Attorney Kratz)~ Mr. Heimerl, do you recall
7 also being asked to participate in investigative
8 efforts on March 1st and 2nd of 2006?

9 A. Yes, I do.

10 Q. And tell the -- tell the jurors, if you would,
11 what it was that you were asked to do on those
12 two days.

13 A. I was asked to assist with the search of Steven
14 Avery's garage.

15 Q. And did you, in fact, assist in that process?

16 A. Yes, I did.

17 Q. Could you tell the jury what your role in that
18 search project was, please.

19 A. I worked with several other investigators. We
20 worked as a team to search the garage -- I'm
21 sorry, initially to document the garage through
22 photographs and video; and to search the entire
23 garage and contents for any additional items of
24 potential evidence; to document the location of
25 those items through photography and measurements;

1 and to package, label and preserve those items of
2 evidence for ultimate retention by the Calumet
3 County Sheriff's Department.

4 Q. And did you do that on the 1st and 2nd?

5 A. Yes, we did.

6 Q. Steven Avery's property, or at least his
7 curtilage, includes a trailer and a garage; is
8 that your understanding?

9 A. Yes.

10 Q. And in which of those buildings did you have
11 responsibility?

12 A. In the detached garage.

13 Q. Let's talk about that search effort, or March 1st
14 and 2nd, the search of the garage. First of all,
15 could you describe the interior of the garage;
16 how did it look to you?

17 A. It was very cluttered, with a large amount of
18 miscellaneous property, a lot of it associated
19 with automobile repair and just general garage
20 storage items. It was not clean. It was quite
21 dusty.

22 Q. Who performed the photography on the inside of
23 the garage on that two day search?

24 A. I did.

25 Q. I'm going to have you take a look at an item in

1 front of you, Exhibit 265, tell the jury what
2 that is, please.

3 A. This is a photograph that I took on the evening
4 of March 1st, after certain items of evidence had
5 been found, or areas on the floor had been
6 documented with a grease pencil and then
7 subsequently labeled with these photo markers.
8 And this is a general overview photograph of the
9 interior of the garage, standing, which you can
10 see outside the open overhead garage door.

11 Q. And the very foreground, what is that we see
12 that's white?

13 A. A snow bank.

14 Q. All right. So this is actually taken outside the
15 threshold of the garage itself; is that fair?

16 A. Correct.

17 Q. Now, these yellow markers, again, what
18 significance, if any, do those have, at least in
19 this photo?

20 A. The yellow markers in the rear of the garage,
21 were placed near white circles that were on the
22 concrete floor when we entered the garage on that
23 day. I believe that they were as a result of a
24 previous search.

25 And additional -- some of those

1 additional markers were identifying areas that we
2 felt may be areas of potential further
3 examination, based on an evidence process that
4 was completed under dark.

5 And finally, one additional evidence
6 marker in the foreground was identifying the
7 location of a specific item of evidence. That
8 had already been found when this photograph was
9 taken.

10 Q. We will talk about that in just a minute. There
11 are some other photos I just want you to identify
12 and we will talk about them. What's Exhibit 266,
13 please.

14 A. That is a photograph of a Blackjack brand
15 creeper. A piece of equipment normally used by
16 someone who wants to work under a automobile.

17 Q. To the immediate right of the creeper, do you see
18 a piece of equipment?

19 A. Yes, I do.

20 Q. And do you know what that piece of equipment is?

21 A. The green cylindrical item with the wheel, I
22 assume you are referring to, is an air
23 compressor.

24 Q. We'll talk about that much more in just a moment,
25 but tell us what Exhibit 267 is, please.

1 A. That's a photograph of a plastic jug with the
2 label identifying it as paint thinner.

3 Q. As part of this search, were you asked to
4 identify either cleaning products or items of --
5 or having properties that could mask or destroy
6 evidence?

7 A. Yes.

8 Q. And were paint thinner and bleach and other
9 reagents like that the type of items that you
10 were asked to identify and photograph?

11 A. Yes.

12 Q. What's Exhibit 268? Oh, before we get to that --
13 I'm sorry. You had mentioned previously that
14 there was a tent, or an evidence tent number or a
15 marker that was closer in the foreground in
16 Exhibit 265, and I rudely interrupted you, but
17 let's go back to 265. What marker was it that
18 you were talking about?

19 A. Marker No. 9.

20 Q. Describe, if you will, for the jurors, what, if
21 anything, was found at or near marker No. 9?

22 A. In that location, we found a -- what appeared to
23 be a flattened or -- a flattened bullet.

24 Q. Could you tell the jury from where that was
25 found; do you recall how it was found?

1 A. Yes. This was on the evening of March 1st, after
2 we had made entry into the garage. The
3 videotaping had been completed, I believe. I had
4 -- I'm sorry -- done initial overall photography
5 in the interior of the garage. And we then spent
6 some time just kind of walking around the garage,
7 looking for anything that we saw that stood out,
8 things that we knew that we were going to collect
9 as evidence.

10 I was standing in the garage and I
11 looked down at the floor, in front of me there
12 was a crack in the concrete, and I observed this
13 round, gray object that resembled a -- like the
14 head of a roofing nail.

15 Q. I'm going to have you take a look at Exhibit No.
16 268; tell the jury what we're looking at here,
17 please.

18 A. That is the crack in the concrete with what
19 ultimately was found to be a bullet. It's the
20 round gray object directly in front of the front
21 edge of the photo marker.

22 Q. Is Exhibit No. 268 similar to how you found what
23 you believed to be a bullet fragment near tent
24 no. 9?

25 A. Yes.

1 Q. I assume tent no. 9 was placed there after you
2 found this?

3 A. Yes.

4 Q. In other words, you didn't just get lucky and put
5 the tent marker there, did you?

6 A. No.

7 Q. I'm going to show you a closer version of that
8 Exhibit 269; what are we looking at, please?

9 A. As you just stated, it's a close up view of the
10 same photograph from 268, it, again, depicts that
11 bullet fragment in that crack in the concrete.

12 Q. Using the laser pointer that you have with you,
13 Investigator Heimerl, could you show the jury
14 where the bullet fragment is at what we are
15 looking at?

16 A. That would be it right here.

17 Q. That fragment appears to be within a crack in the
18 concrete; am I viewing that correctly?

19 A. Yes.

20 Q. What was done, if you recall, to process or
21 collect that item of evidence?

22 A. We took measurements to document it's physical
23 location within the garage. And it was then
24 collected or packaged by Investigator Steier.

25 Q. I'm going to go back to Exhibit No. 266. We can

1 just look on the large screen, that's fine. This
2 green compressor that we're viewing here, on the
3 next day, that is, on March 2nd of 2006; did you
4 and other investigators begin or continue the
5 process of actually moving items within this
6 garage?

7 A. Yes.

8 Q. And so that I can allow you to completely explain
9 that process, describe this search, how thorough
10 was this search of this garage?

11 A. If you recall from the first photograph, the
12 overview photograph of the interior of the
13 garage, the majority of the contents of the
14 garage was around the exterior perimeter of the
15 garage, along the walls.

16 And that included a couple of
17 snowmobiles, which would then have multiple tools
18 and boxes and items just stacked on top of the
19 snowmobile. And there were chests, their were
20 containers, their were large items of equipment.

21 And basically started in the northeast
22 corner of the garage and began to remove items,
23 look at them, turn them over, look inside them,
24 examine them visually to see if there was any
25 obvious sign of some type of potential trace

1 evidence on them, or biological evidence.

2 And it would be set down, out of the
3 way. We would move to the next item, whether it
4 was large or small, whether it was a box. If it
5 was a box you would open the box and remove
6 everything from it. And it was a very slow
7 process. And we worked south along the east wall
8 and continued around until we finished the
9 garage, late in the day on the 2nd.

10 Q. Looking, again, at Exhibit No. 265, are you
11 telling this jury that every one of those items,
12 in fact, around the entire perimeter and, in
13 fact, in the middle of the garage, was handled by
14 law enforcement and examined?

15 A. Virtually every item, yes.

16 Q. Let's go back, then, to item 266. During this
17 process then and, specifically, on the second
18 day, the 2nd of March, you were again involved in
19 search of this garage?

20 A. Yes.

21 Q. And during those efforts, that is, on the second;
22 did you generally have the same searching
23 responsibilities that you did on the first?

24 A. What do you mean by searching responsibilities,
25 my responsibilities?

1 Q. Yeah. Were you still the guy taking the photos?

2 A. Yeah. Yes.

3 Q. All right. And, also, were you actively
4 searching, were you one of the investigators
5 who's actively searching for items of evidence?

6 A. Yes.

7 Q. On the 2nd of March, then, and specifically
8 looking at Exhibit No. 266, did you find any
9 items of evidence that was noteworthy?

10 A. I'm sorry, that was noteworthy?

11 Q. That you believed was noteworthy. As you look at
12 this picture, did you find anything near that
13 compressor that you thought was interesting?

14 A. Yes.

15 Q. Tell the jury about that.

16 A. We had been processing this garage, searching
17 this garage. As you look at this photograph, we
18 approached the compressor from its left. And it
19 was a large object. As we reached this area, I
20 had to get onto my hands and my knees in front of
21 the compressor and utilized a flashlight to look
22 under the compressor. And I found -- I saw what
23 appeared to be a bullet.

24 Q. What did you do then?

25 A. I told the other investigators that I may have

1 found a bullet.

2 Q. What happened then?

3 A. We then removed, basically from the top down, we
4 unstacked the things and items that were on top
5 of the air compressor, pulled the air compressor
6 out so that we could adequately document and
7 photograph what we found.

8 Q. Before I move on to other photos, I want to
9 orient the jury, that red item immediately to the
10 right and to the right edge of Exhibit 266; do
11 you know what that is?

12 A. Yes, I do.

13 Q. What is that?

14 A. That is the edge of a large upright tool chest.

15 Q. After the compressor was removed and all the
16 items thereon, was that tool chest moved at all?
17 That you recall.

18 A. I don't recall that we needed to move it.

19 Q. Okay. Let's look at Exhibit No. 270, please.
20 Tell us what we're looking at here.

21 A. This is generally a medium view photograph of
22 what was ultimately identified with marker no.
23 23, as the bullet that was found underneath the
24 air compressor.

25 Q. Can you identify the individuals in this

1 photograph, please.

2 A. The individual on the left is Detective Dave
3 Remiker, from Manitowoc County Sheriff's
4 Department.

5 Q. Do you know who is kneeling on the right?

6 A. I would have to guess, but I do not know
7 specifically.

8 Q. All right. Well, it can only be one of a couple
9 people; is that right?

10 A. Right.

11 Q. I mean, you don't have to -- You would still have
12 to guess who it was?

13 A. I believe that it's Investigator Dederling.

14 Q. We see a yellow tent, exhibit tent no. 23. I
15 have actually zoomed into that area. Tell the
16 jury what we're looking at here, please.

17 A. As I stated, this is after the air compressor has
18 been removed. The linear object here is a metal
19 photographic scale. And right in this area it's
20 very difficult to pick out in this photograph,
21 but the bullet was right between the tent and the
22 scale.

23 Q. Now, as the tent -- the evidence tent is placed
24 near the bullet, was the bullet moved at all?

25 A. No.

1 Q. This photography was done before any manipulation
2 or movement of the bullet?

3 A. That's correct.

4 Q. I'm going to show you a better photo,
5 Exhibit 271; tell me what that is, please.

6 A. That is a closer view of that bullet, in the same
7 location.

8 Q. Can you take your laser pointer and show the jury
9 what we're looking at.

10 A. The laser pointer is on the end of the bullet.

11 Q. Once again, Exhibit 271, that photograph, does
12 that depict the bullet in the same or similar
13 view as you saw it on the 2nd of March?

14 A. Yes.

15 Q. Actually, I'm going to leave that Exhibit up for
16 just a minute. When you observed this particular
17 item, did it appear to be a full, that is, an
18 intact bullet or a bullet fragment?

19 A. I guess that depends on what a person were to
20 consider a bullet fragment. That being, if a
21 very tiny part of that bullet has come off of the
22 main bullet, is the main bullet then a fragment.
23 I considered this -- When I recognized this and
24 looked at this, I recognized it as what appeared
25 to be a nearly intact bullet.

1 Q. So it was something other than just a little chip
2 of a bullet.

3 A. Exactly.

4 Q. Investigator, was care taken to process and
5 recover this bullet?

6 A. Yes.

7 Q. And tell the jury what care was taken to do that?

8 A. Well, it was handled only to the amount -- or to
9 the degree to which it needed to be handled. As
10 much as I myself wanted to pick it up and
11 visually examine it, it wasn't done. It was
12 picked up, I believe, with tweezers and placed
13 into a box and sealed.

14 Q. Now, are you familiar with a term called DNA?

15 A. Yes, sir.

16 Q. At that time, in processing of evidence, were you
17 familiar with the process by which DNA could be
18 extracted, especially from items such as bullet
19 fragments?

20 A. Yes.

21 Q. Was care taken not destroy or eliminate whatever
22 DNA might be on this bullet?

23 A. Yes.

24 Q. As I understand from the last witness, after this
25 bullet was packaged, it was provided to

1 Investigator Steier, from Calumet County, for
2 transport and receipt into evidence; is that your
3 understanding?

4 A. Yes, it is.

5 Q. I feel compelled to ask these next two questions
6 and so I will. At any time, inside of that
7 garage, on the 2nd, or even on the 1st, did you
8 see an individual by the name of James Lenk?

9 A. No.

10 Q. At any time on the 1st or on the 2nd, did you see
11 an individual by the name of Andrew Colborn?

12 A. No.

13 Q. By the way, do you know those people, and if they
14 were in that garage or rummaging around or
15 placing something in that garage, would you have
16 seen it?

17 A. Yes.

18 ATTORNEY KRATZ: I will move the admission,
19 Judge, of exhibits -- I will have to -- I will have
20 to identify them or ask the clerk, the photographs
21 and the physical evidence that has been marked and
22 identified by this witness and Investigator Steier.
23 And I will pass the witness to Mr. Buting.

24 THE COURT: All right.

25 ATTORNEY BUTING: Do we have 272 and 278?

1 You don't have that, do you?

2 THE CLERK: No.

3 ATTORNEY BUTING: Okay.

4 THE COURT: You're moving which exhibits,
5 Mr. Kratz?

6 ATTORNEY KRATZ: I'm moving everything
7 that's been identified. Let me just have this
8 witness look at 272, since he has that right in
9 front of him.

10 Q. (By Attorney Kratz)~ It's just a photograph; can
11 you tell us what 272 is.

12 A. By the tag, it's identified as number 19, a
13 bullet fragment.

14 Q. The actual item of that is actually, I think,
15 right in front of you; is that right? It's an
16 evidence tech photo; is that right?

17 A. Yes, it is.

18 Q. And do you have Exhibit 278?

19 ATTORNEY BUTING: Just so the record is
20 clear, your Honor, there's also a number FL or
21 identification in yellow, FL, in the center of that.
22 Would you agree?

23 ATTORNEY KRATZ: Yes, that's a Crime Lab
24 designation, Judge.

25 THE COURT: It is.

1 right?

2 A. Yes, on Sunday.

3 Q. Sunday.

4 A. November 6th.

5 Q. And I appreciate your professionalism, because
6 you must have done close to 50 reports, I would
7 say; does that sound about right?

8 A. I believe so.

9 Q. You were out investigating, doing this
10 canvassing, this neighborhood canvas, on the 6th,
11 7th, maybe even part of the 8th; does that sound
12 right?

13 A. Yes. And it continued for a few days afterwards.

14 Q. Okay. And in the process of doing that you
15 interviewed -- you are going around to all the
16 surrounding properties and interviewing door to
17 door, basically, everybody, to see if they heard
18 anything, saw anything, that kind of
19 investigation, right?

20 A. Correct.

21 Q. You did come to the scene, the Avery property
22 scene, though, on the 7th, as I recall your
23 testimony, right?

24 A. Yes.

25 Q. And that's when you took custody, or did you just

1 examine this burn barrel that we saw up on the
2 screen awhile ago?

3 A. I did not take custody -- custody of it; I
4 photographed it.

5 Q. All right. At any time on the 6th, 7th, 8th, or
6 any time after that, actually; did anyone ask you
7 to participate in a search of Mr. Avery's
8 residence?

9 A. No.

10 Q. Or garage?

11 A. No.

12 Q. You work for DCI?

13 A. Correct.

14 Q. Have you ever met Mr. Avery before that day?

15 A. I'm sorry?

16 Q. Did you ever meet Mr. Avery before November 6th?

17 A. Never.

18 Q. Have any contact with him at all?

19 A. Never.

20 Q. Not involved in his lawsuit?

21 A. No, sir.

22 Q. Completely independent and objective, right?

23 A. Correct.

24 Q. And you are very well trained in searches of
25 scenes, for evidence collection, correct?

1 A. Yes.

2 Q. All right. Now, I know that you -- if I
3 understood correctly, you did not actually see
4 the interior of Mr. Avery's garage on
5 November 5th, 6th, or any of those days when you
6 were there in November?

7 A. That's correct.

8 Q. I'm going to first have you identify Exhibit 262
9 and 263. These were kind of left hanging from
10 the prior witness. Do you recognize those?

11 A. Yes, I do.

12 Q. And are those photographs that you took on
13 March 1st or 2nd?

14 A. Yes, they are.

15 Q. And they show the -- the interior of the garage,
16 pretty much as you found it when you first got
17 there?

18 A. That's correct.

19 Q. Okay. These are interior shots that you are
20 already standing, looks like inside the garage,
21 and you don't have the full view, right?

22 A. Correct.

23 Q. I'm going to use the ELMO. I don't have as much
24 digital stuff, I'm afraid. All right. Thank
25 you, very much. We'll go through this quickly,

1 but I just want you to identify, so the jury can
2 see what it is you are identifying. This is a
3 photograph of Mr. Avery's -- or the detached
4 garage on March 1st or 2nd, probably March 1st,
5 right?

6 A. Yes.

7 Q. And there's a vehicle in there, some sort of an
8 automobile. And it's not in one of the later
9 photographs you were shown, right?

10 A. Correct.

11 Q. And, then, what's that large item in the front of
12 it.

13 A. That is an engine hoist.

14 Q. Okay. And that's something that you use to be
15 able to lift up a full engine, right out of a
16 car, or into it, right?

17 A. I believe so.

18 Q. That was 263. And now I'm showing you 262, just
19 a little bit of a different view, but the -- also
20 inside of his garage on March 1st, showing the
21 automobile and that large hoist, right?

22 A. Correct.

23 Q. Okay. Actually, I think I will just do it right
24 here from the ELMO, since you identified them
25 already. I want to show you some photographs

1 quickly, from November, that were taken by
2 somebody else, that are in evidence. So I just
3 want you to -- I don't know if you had an
4 opportunity to look at these before, but the
5 first one is Exhibit 232; do you recognize that
6 as the same garage?

7 A. It appears to be, yes.

8 Q. All right. Do you see an engine hoist anywhere
9 in this photograph? I should say, the same
10 engine hoist that we saw in those March
11 photographs; do you see one here?

12 A. No, but this photograph does not depict the
13 entire garage.

14 Q. I understand. Let's look through some more.
15 Does that appear to be the same garage?

16 A. Yes, sir.

17 Q. Now, there's a Suzuki Samurai that's been
18 identified that's in there and also a snowmobile,
19 right?

20 A. Yes.

21 Q. And neither one of those vehicles were in the
22 garage when you came on March 1st?

23 A. Correct.

24 Q. They were both gone and there was some kind of a
25 maroon sedan, right?

1 A. Correct.

2 Q. And, again, any engine hoist that you see?

3 A. Not in this photograph, no.

4 Q. How about in -- Oh, I showed you that one. How
5 about in 233? Look like the same garage?

6 A. Yes.

7 Q. No engine hoist?

8 A. Not in this photograph.

9 Q. How about this one?

10 A. Again, it appears to be the same garage.

11 Q. No engine hoist visible?

12 A. Not visible in this photograph.

13 Q. And that last one was 234. 235, do you recognize
14 the entrance service door there?

15 A. Yes, I do.

16 Q. No engine hoist in that one?

17 A. Not visible in the photograph.

18 Q. Or in 236, which appears to be the east wall?

19 A. That's correct, not visible.

20 Q. Okay. And just one more, 241, appear to be the
21 same garage, no engine hoist, would you agree?

22 A. Yes, I would agree. Little bit dark but.

23 Q. Okay. So from those pictures alone, would you
24 agree with me that the scene had been altered
25 between November and March 1st when you came.

1 A. Yes.

2 Q. Now, you did a very nice professional job of
3 taking measurements of everything that was found,
4 right, everything you had anything to do with?

5 A. Yes, we took measurements of the items of
6 evidence that were collected.

7 Q. All right. And very thorough measurements, for
8 instance, the tent 23, that marker there, 23, you
9 measured as 8' 9" west of the east wall; 12' --
10 actually later changed to 12", that was a typo --
11 12" north of the south wall, right?

12 A. Correct.

13 Q. So you did a very nice job of measuring where
14 every item was found by coordinating its distance
15 from one wall to the next, right?

16 A. That's what we did, yes.

17 Q. And that's how you have been trained to
18 investigate a crime scene, potential crime scene,
19 right?

20 A. Well, that's one of the methods to use.

21 Q. All right. Problem is, you came four months
22 later, after the scene had been altered, right?

23 A. I was there four months later, yes.

24 Q. So none of these measurements tell us where any
25 of these items were on November 5th, 2005; isn't

1 that right?

2 A. That's correct.

3 Q. Including the location of that bullet, number 23,
4 that you showed, right?

5 A. Correct. The measurements that we took were of
6 the location of the bullet on March 2nd.

7 Q. All right. You also were looking for, I believe,
8 Mr. Kratz said, any agents of -- reagents, I
9 guess was the term, that could in some way
10 destroy or damage that evidence, right?

11 A. Correct.

12 Q. And he mentioned specifically paint thinner or
13 bleach, right?

14 A. Correct.

15 Q. And there was a photograph of a bleach bottle,
16 which I don't see here. Do you still have that
17 up there?

18 A. I only have one photograph here.

19 Q. Oh, I have got it, sorry. I'm showing you 267.
20 This is actually a paint thinner bottle, I'm
21 sorry. So you found no bleach any where in the
22 garage?

23 A. At this time, I don't recall if we found bleach
24 or not.

25 Q. Well, do you need to refresh your recollection

1 with anything or ...

2 A. Yes, the report that was completed concerning the
3 garage search would refresh my memory.

4 Q. Okay. Now, you didn't actually prepare a report
5 of that search, right, of your own?

6 A. I did a very brief report regarding the fact that
7 I photographed the garage during the course of
8 this search.

9 Q. Okay. All right. But Investigator Steier was
10 the one who was documenting the times and, you
11 know, he was kind of following along with you
12 when you were doing those searches, right?

13 A. Correct.

14 Q. I'm not going to mark this, but it's page 702 and
15 708, through 708. If you would just take a
16 moment maybe this will refresh your recollection
17 as to whether there was any bleach in the garage.

18 A. I'm completed, sir.

19 Q. Did you see any entry of any recovery of bleach?

20 A. No, I did not.

21 Q. Okay. But you did find this paint thinner.

22 Would you agree with me that this paint thinner
23 appears to be an older bottle, not a brand newly
24 purchased item?

25 A. Well, that bottle is dirty; I guess I can't

1 comment as to its age.

2 Q. Nothing about it that looks like it was just
3 bought and used a few days before it was -- the
4 search?

5 A. I guess that would depend on what kind of
6 conditions it would be used in.

7 Q. All right.

8 A. It appears as though it's quite dirty.

9 Q. Okay. We'll stick with that. And, finally,
10 paint thinner, in someone's garage, is not at all
11 unusual, is it?

12 A. I would say that is not unusual.

13 Q. It's a very common item that many people have and
14 use around the house, especially in a garage;
15 wouldn't you agree?

16 A. Yes.

17 Q. Exhibit 265, this is a photograph that you took,
18 very helpful photograph, now that is taken after
19 the maroon automobile was removed?

20 A. Yes, sir.

21 Q. Were any other items moved before that photograph
22 was taken, to your knowledge?

23 A. Did you say moved or removed?

24 Q. I'm sorry. Were any other items moved on that
25 day, March 1st, before that photograph was taken,

1 other than just taking the car out?

2 A. Will you step to the side, please.

3 Q. I'm sorry.

4 A. In an early photograph, specifically the previous
5 photograph of the paint thinner, I know in the
6 foreground of that photograph, the yellow
7 stepladder was present and that is in the back
8 right corner directly in front of the ceiling
9 mounted furnace. But I don't see it in this
10 photograph. So it may have been moved out of the
11 way or collapsed and leaned somewhere so that we
12 could collect the paint thinner.

13 Q. All right. But I guess my point is, this
14 photograph was -- was taken largely before you --
15 you altered the scene as you saw it. And other
16 than putting these items, these markers there,
17 for -- for items already found, or were these
18 some of the ones that you found? Perhaps I have
19 this wrong. Was this taken later, during the
20 search?

21 A. This was taken on the evening of March 1st.

22 Q. Okay.

23 A. Obviously after the vehicle was removed. And it
24 was taken after, I believe, the first initial few
25 items of evidence had been found.

1 Q. I see. Yeah, there's a 9, a 10, and an 11 in
2 there that wasn't there before?

3 A. Correct.

4 Q. Okay. I'm going to show you that right now.
5 Exhibit 284 and 282. I'm sorry, 283, can you
6 identify those?

7 A. Yes, I can.

8 Q. And what are they?

9 A. I believe that's 283.

10 Q. It is, yes.

11 A. It's a photograph of evidence -- or I'm sorry
12 photographic marker No. 10, in the crack in the
13 concrete in front of it is what was later found
14 to be a shell casing.

15 Q. All right.

16 A. 284 is photo marker No. 11. And directly in
17 front of the front edge of that, again, is a
18 shell casing.

19 Q. All right. Now, I'm going to put these up here
20 for a moment, but if you could, first, use your
21 laser pointer and show us, on the exhibit that's
22 on the screen, where 9, 10, and 11 are.

23 A. There's 9, 10, and 11.

24 Q. Showing you 283, that is a close up view of where
25 No. 10 is -- or what you found in No. 10?

1 A. Correct.

2 Q. Pretty obvious shell casing, empty shell casings
3 laying right there in the open, in the crack?

4 A. I don't know if I would say it's obvious.

5 Q. Well --

6 A. It's a relatively small shell casing as far as
7 shell casings go and ...

8 Q. Let me ask you this, if you searched this garage
9 before and found 11, or 10, shell casings, do you
10 think you would have found this one, given its
11 location?

12 ATTORNEY KRATZ: Objection, speculation,
13 Judge. And I would ask him to show the picture of
14 how it looked on the 5th, so we can see the Suzuki
15 Samurai right over this location.

16 THE COURT: I will sustain the objection.

17 Q. (By Attorney Buting)~ So Exhibit No. 265, counsel
18 is correct, we haven't had any testimony about
19 whether the Samurai was ever moved during their
20 search so we'll move on. That is No. 10, it
21 appears to be in the eastern bay of the garage,
22 correct?

23 A. Marker No. 10?

24 Q. Yes.

25 A. Yes.

1 Q. Now, let's move over to marker No. 11; do you see
2 where that is?

3 A. Yes, I do.

4 Q. Pretty much right in your pathway as you walk
5 into -- through the service door; would you
6 agree?

7 A. Well, it's at the edge of the pathway.

8 Q. Okay. Let's look at a close up of that one.
9 Now, there's another shell, empty shell, right?

10 A. Yes, sir.

11 Q. Just laying right out in the open, not in a
12 crack, just sitting right on the surface of the
13 concrete, right?

14 A. Yes.

15 Q. Now, that was either not there on November 5th,
16 or somebody completely missed a shell sitting
17 right out in the open, because it's not in any of
18 the other photographs?

19 ATTORNEY KRATZ: Objection, speculation,
20 and there would be other explanations.

21 THE COURT: Sustained, I think that's a
22 question for the jury.

23 Q. (By Attorney Buting)~ Well, would this be an
24 indication that perhaps -- another indication
25 that the scene had been altered from November, if

1 you're finding a shell casing pretty much right
2 out in the open of this garage?

3 A. I don't know if I can draw that conclusion
4 because I don't know the condition of the scene
5 in November; I was never in the garage, so.

6 Q. No. 9, that snow bank is kind of hiding it, but
7 would you agree with me that it's pretty much
8 right in the middle of the opening to the -- to
9 that bay of the garage, right? Do you want me to
10 zoom back out?

11 A. No, that's okay. What are you referring to as
12 that bay?

13 Q. Well, this is a two car garage, we would be
14 referring to an east bay and a west bay. This
15 would be the west bay of the garage. And it's
16 really just a couple feet or so inside the big
17 overhead garage door?

18 A. Correct.

19 Q. And the close up that you showed of this, I will
20 do the not the close up one, 268. This isn't so
21 good on the ELMO. This is the other bullet that
22 you found, in the garage, the only other bullet,
23 correct?

24 A. Correct.

25 Q. You found just these two bullets, No. 9 and No.

1 23?

2 A. Correct.

3 Q. And this one you found just walking around, but
4 still in the early stages of the search, after
5 you had taken photographs of everything, just
6 kind of walking around and looking down and there
7 you see this, right?

8 A. Yes.

9 Q. You weren't on your hands and knees?

10 A. No, I was not.

11 Q. Okay. Now, this very thorough search also
12 included a jackhammer, didn't it?

13 A. I don't understand your question, sir.

14 Q. The search of the garage, on March 1st or 2nd,
15 included the use of a jackhammer?

16 A. Yes, the use of a jackhammer, correct.

17 Q. I'm sorry I was maybe not clear. And what they
18 actually did with that jackhammer was to remove
19 an entire area, 15 feet or so, where the crack
20 runs north and south down the middle of that
21 eastern most bay of the garage, right?

22 A. Correct.

23 Q. And all of those pieces of concrete were broken
24 into sort of chunks all the way down the line,
25 right?

1 A. Correct.

2 Q. They were all collected?

3 A. Correct.

4 Q. And they were all preserved?

5 A. Correct.

6 Q. For testing, if possible?

7 A. Yes.

8 Q. To your knowledge, were they sent to the Crime
9 Lab?

10 A. I do not know.

11 Q. Okay. All right. Just a couple of other quick
12 things. You showed us the rivet that you had
13 found through the processing, not the sifting,
14 but the stirring up of materials on -- you
15 mentioned two occasions, right?

16 A. Correct.

17 Q. Do you remember those dates? I don't know that
18 we ever established that.

19 A. Yes, December 19 and 20, of 2000 --

20 Q. Five?

21 A. Five. Thank you. Occurred in Madison. And the
22 Chilton dates were April 10 and 11, of 2006.

23 Q. Okay. And the materials that you were going
24 through on both days were -- was debris that had
25 been removed from the so-called burn pit area; is

1 that right?

2 A. Yes. And, actually, I believe it was the burn
3 pit as well as other areas from around the
4 property where burned debris had been found.

5 Q. Okay. But all in that same general area and not
6 a burn barrel or anything; you weren't mixing the
7 two together?

8 A. No, the burn barrel was searched on those
9 dates -- or on one of those dates in Madison, but
10 I was not involved in the search of the burn
11 barrel.

12 Q. Okay. But as far as the burn pit area goes and
13 the immediate surrounding vicinity, all that
14 debris that you went through, you said you found
15 a rivet?

16 A. I'm sorry?

17 Q. You say you found a clothing rivet; how many?

18 A. I believe there were five rivets found.

19 Q. Okay. You did not find a button, the clasp of a
20 big button that you use to button your jeans at
21 the waist, did you?

22 A. I know from reviewing evidence documents and
23 reports regarding that, that there were items
24 found that were described as close snaps, but I
25 don't specifically recall that they were --

1 Q. Right.

2 A. -- what you were referring to.

3 Q. Okay. Well, for instance, you mentioned the
4 rivet that says Daisy Fuentes, sort of stamped
5 into it, a brand name of some sort, right?

6 A. Yes, sir.

7 Q. You have never seen a button that would be used
8 to clasp the waist of a pair of jeans or denim
9 that says Daisy Fuentes on it, did you?

10 A. I don't recall seeing that, no.

11 Q. And that's through your entire search of the burn
12 pit area, right?

13 A. Well, the material that came from that burn pit
14 area.

15 Q. That's what I mean, yes. Okay. And, finally,
16 you mentioned that investigators basically
17 handled, picked up, looked at, and moved every
18 single -- almost every single item in that
19 garage, if not every single item?

20 A. Yes, almost every item there.

21 Q. March 1st and March 2nd, right?

22 A. Yes, sir.

23 Q. And though not one single piece of those items,
24 not one single item, showed any evidence of any
25 blood spatter, did it? Or did they?

1 A. To my knowledge, as to what conclusions could be
2 drawn at the end of March 2nd, no. But I know
3 that additional items of evidence removed from
4 that garage were sent to the laboratory and I may
5 not be privy to that.

6 Q. You may not be privy to that.

7 A. Correct.

8 Q. But, as far as you know, no physical items showed
9 evidence of blood spatter; do you know what blood
10 spatter is?

11 A. Yes, I do.

12 Q. Do you know what high velocity blood spatter is?

13 A. Yes.

14 Q. That's what we get when someone is shot with a
15 bullet?

16 A. Correct.

17 Q. And you saw no evidence of it at this scene at
18 all, did you?

19 A. No.

20 ATTORNEY BUTING: Thank you, very much,
21 sir.

22 THE COURT: Mr. Kratz?

23 ATTORNEY KRATZ: Just one area of
24 follow-up.

25 **REDIRECT EXAMINATION**

1 BY ATTORNEY KRATZ:

2 Q. Because we have heard that this was a two day
3 search, do you know if that garage had been
4 secured between Day 1, that is, the 1st of March
5 and Day 2, the 2nd of March?

6 A. Are you saying over the evening hours between our
7 two day search?

8 Q. Yes.

9 A. Yes, I do.

10 Q. And how was that secured, do you remember?

11 A. It was secured with a padlock.

12 Q. Is that a picture of the padlock, the locked
13 garage, between the 1st and 2nd of March?

14 A. Well, that's either the picture of the padlock on
15 the morning that we arrived, on March 2nd, or
16 it's a picture of the padlock that we found on
17 the garage on March 1st, when we arrived to do
18 the search.

19 Q. In any event, the garage was secured; in other
20 words, people couldn't just walk in and out of
21 the garage in between those two days; is that
22 right?

23 A. That's correct.

24 ATTORNEY KRATZ: That's all I have of Mr.
25 Heimerl for today, Judge.

1 ATTORNEY BUTING: Just one last follow-up,
2 then.

3 **RECROSS-EXAMINATION**

4 BY ATTORNEY BUTING:

5 Q. With regard to the security of the garage and who
6 could have come and gone, Mr. Avery certainly
7 couldn't have been one of those who came and went
8 into that garage, right?

9 A. When, sir?

10 Q. Well, let's just -- we'll just talk about it.
11 Mr. Avery was arrested in November of 2005,
12 right?

13 A. That's my understanding and that's why I asked
14 you to clarify the dates.

15 Q. And you understand that he was in jail
16 continuously from that date, at least through
17 March 1st and 2nd, right?

18 A. That's my understanding.

19 Q. So anybody who may have been in and out of that
20 garage during that time period, could not have
21 been Steven Avery?

22 A. That's what I would conclude.

23 ATTORNEY BUTING: Thank you.

24 THE COURT: All right. The witness is
25 excused for the day. Members of the jury, that

1 concludes our proceedings today. I will remind you
2 again at this time that you are not to discuss the
3 case with anyone, watch any news media accounts
4 about it, or discuss it with anyone in any way. You
5 are excused for today. We'll see you tomorrow
6 morning.

7 ATTORNEY BUTING: Your Honor, I always
8 forget to move the exhibits. Could I move in the
9 last two exhibits?

10 THE COURT: Any objection?

11 ATTORNEY KRATZ: No. That's fine.

12 THE COURT: Those exhibits are admitted.
13 They are numbers ...

14 ATTORNEY BUTING: 283 and 284.

15 THE COURT: Very well.

16 ATTORNEY BUTING: Thank you.

17 ATTORNEY KRATZ: I keep promising, Judge,
18 to ask for an accounting of what exhibits aren't in
19 yet. Perhaps the Clerk, then tomorrow morning,
20 first thing, we can discuss that, make sure that
21 they're all in.

22 THE COURT: All right. We'll do that then.

23 ATTORNEY BUTING: Judge, as long as
24 everybody is still here, could we -- I guess 262 and
25 263 were marked and not admitted earlier. I had

this witness identify them. Now I would like to
move them as well.

THE COURT: 262 and 263?

ATTORNEY BUTING: Those are photographs
with the engine hoist, that he took in March.

ATTORNEY KRATZ: That's fine.

THE COURT: Okay. Those two exhibits are
admitted.

1 STATE OF WISCONSIN : CIRCUIT COURT : MANITOWOC COUNTY
2 BRANCH 1

3 STATE OF WISCONSIN,

4 PLAINTIFF,

JURY TRIAL

TRIAL - DAY 10

5 vs.

Case No. 05 CF 381

6 STEVEN A. AVERY,

7 DEFENDANT.

8 **DATE:** FEBRUARY 23, 2007

9 **BEFORE:** Hon. Patrick L. Willis
10 Circuit Court Judge

11 **APPEARANCES:** KENNETH R. KRATZ
Special Prosecutor
12 On behalf of the State of Wisconsin.

13 THOMAS J. FALLON
Special Prosecutor
14 On behalf of the State of Wisconsin.

15 NORMAN A. GAHN
Special Prosecutor
16 On behalf of the State of Wisconsin.

17 DEAN A. STRANG
Attorney at Law
18 On behalf of the Defendant.

19 JEROME F. BUTING
Attorney at Law
20 On behalf of the Defendant.

21 STEVEN A. AVERY
Defendant
22 Appeared in person.

1 THE COURT: At this time the Court calls
2 State of Wisconsin vs. Steven Avery, Case No. 05 CF
3 381. We are here this morning, outside the presence
4 of the jury, for the continuation of the trial in
5 this matter. Will the parties state their
6 appearances for the record, please.

7 ATTORNEY KRATZ: Good morning, Judge. The
8 State appears by Calumet County District Attorney
9 Ken Kratz, Assistant Attorney General Tom Fallon,
10 Assistant D.A. Norm Gahn, appearing as Special
11 Prosecutors.

12 ATTORNEY STRANG: Good morning. Steven
13 Avery is here in person, and Jerome Buting
14 immediately to his right, and Dean Strang.

15 THE COURT: All right. I met with counsel
16 in chambers this morning before beginning. There
17 are a few matters to take up before we bring in the
18 jury. First of all, during yesterday afternoon's
19 proceedings, in which the Court conducted individual
20 voir dire of a juror, there was a side bar
21 conference during the questioning of the juror and
22 nothing has been put on the record yet about that
23 conference.

24 The Court had previously met with the
25 parties in chambers and the parties asked, before

1 the Court excused the juror, for a chance for a
2 side bar conference in order to request that
3 additional questions be posed to the juror. That
4 conference did, in fact, take place and each of
5 the parties requested that the Court ask some
6 additional open-ended follow-up questions, which
7 I did. Counsel, is that an accurate
8 representation of the side bar conference?
9 Mr. Kratz?

10 ATTORNEY KRATZ: Yes.

11 THE COURT: Mr. Strang?

12 ATTORNEY STRANG: Yes, it is.

13 THE COURT: I also noted, in announcing the
14 Court's decision denying the defense motion to
15 strike the juror, I did not recall, as I went home
16 last evening, whether I expressed the Court's
17 opinion specifically under the criteria of
18 subjective bias and objective bias, as Court's are
19 now required to do. So I wanted to add some points
20 of clarification to the Court's decision.

21 On the question of subjective bias, the
22 Court, first, was satisfied that all of the
23 answers given by the juror during the individual
24 voir dire were credible. The juror indicated
25 that she did not recognize Detective Remiker by

1 name; in fact, his name was listed on the
2 original jury questionnaire that all of the
3 jurors completed. She did not indicate on that
4 questionnaire that she recognized Detective
5 Remiker by his name. She only realized, when she
6 saw him testify that, in fact, he had been the
7 plaintiff in a civil trial in which she sat as a
8 juror approximately seven years ago. She could
9 not recall whether or not he testified in that
10 trial, which the Court does not find to be that
11 unusual, given the passage of time.

12 And what that indicates to the Court is
13 that she could not -- or she did not have a
14 recollection as to whether or not she made any
15 judgments of his credibility because she could
16 not even remember if he testified.

17 The negligence of Detective Remiker was
18 not an issue in that case; apparently it was a
19 rear end collision case involving a couple of
20 other vehicles. So the juror was not required,
21 as part of her duties, to assess negligence that
22 would have involved Detective Remiker. The sole
23 issue with respect to Detective Remiker would
24 have been damages.

25 There was nothing presented to the Court

1 to suggest that the case involved any unusually
2 emotional issues; that is, there does not appear
3 to be any traumatic injuries involved. The
4 juror's most vivid memory of the trial was that
5 it involved an injury to the lower left lumbar
6 region. She seemed to remember that more than a
7 lot of other details.

8 And, in conclusion, the juror said
9 nothing about the case would cause her to give
10 Detective Remiker's testimony any more or less
11 weight in this case. She expressed no doubts
12 about that fact and the Court finds her
13 explanation to be credible and reasonable.

14 On the issue of objective bias, the law
15 is that the focus of the inquiry into objective
16 bias is not upon the individual prospective
17 jurors, or in this case, the individual juror's
18 state of mind, but rather upon whether a
19 reasonable person, in the individual juror's
20 position, could be impartial. That is, even if
21 the juror says she can be impartial, there can be
22 situations in which a reasonable person would
23 have trouble doing that, and the court system
24 does not ask it.

25 In this case, the Court is satisfied

1 that there's nothing about the facts that have
2 been presented to the Court to suggest that a
3 reasonable person could not be objectively
4 biased. There's been a significant passage of
5 time since the last trial. As the Court has
6 already indicated, the juror knew Detective
7 Remiker only as a party in the case, not in any
8 other capacity.

9 And the passage of time had been such
10 that she did not even remember his name when
11 filling out the questionnaire. She has no
12 recollection as to whether or not he testified,
13 and that tells the Court that while he may or may
14 not have testified in the case, there's no
15 indications that any recollection of his
16 credibility is present in her mind.

17 As I indicated earlier, his negligence
18 was not an issue in the case and the injuries
19 were not particularly traumatic or emotional,
20 such that a juror in this juror's position could
21 not be expected to be able to put aside any
22 opinions from the case. For those reasons, the
23 Court is satisfied that the juror should be
24 permitted to stay on the jury.

25 There's one last item for the Court to

1 take up before we proceed to hear from the
2 parties, and that is, I have informed the
3 attorneys earlier this morning that the Court was
4 notified earlier this morning that a close family
5 member of one of the jurors apparently died
6 overnight. The family member resides in another
7 state and the juror has requested permission to
8 leave the State to attend the funeral.

9 The Court finds that that is a very
10 reasonable request. I'm not going to give the
11 name of the juror on the record, because I don't
12 even know if all the immediate family members
13 have yet been notified. But given the fact that
14 travel is required to a state in a far part of
15 the country, the juror could not reasonably be
16 expected to come back with even a one day absence
17 for postponing the trial and the Court has
18 decided that it's necessary that the juror be
19 excused. Counsel, does either party disagree
20 with that determination?

21 ATTORNEY KRATZ: Not by the State, Judge.

22 THE COURT: Mr. Strang.

23 ATTORNEY STRANG: No, we agree that the
24 juror with the family tragedy ought to be excused
25 and we continue to believe that the juror who served

1 on Detective Remiker's jury also should be excused
2 for the reasons we explained yesterday.

3 THE COURT: And your objection is duly
4 noted for the record.

5 Before we bring in the jury, then, the
6 Court has also been informed that I believe the
7 defense has a matter it wishes to take up before
8 we bring the jurors in.

9 ATTORNEY STRANG: We do. Thank you, your
10 Honor. I renew at this time the earlier motions to
11 suppress that Mr. Avery pursued with respect to
12 execution of the search warrants as -- in so far as
13 they affected his privacy interests.

14 And I'm particularly concerned here this
15 morning with his own trailer, his residence, the
16 detached garage that consistently has been
17 identified in this trial as Steven Avery's
18 garage, and the area behind it described as the
19 burn area, as well as the burn barrel in the
20 front, again, consistently described in this
21 trial as associated with Steven Avery's house.
22 All of these areas were what -- or within what
23 Mr. Kratz rightly described yesterday, in
24 passing, as the curtilage of Steven Avery's
25 residence.

1 And I renew the motion on both Fourth
2 Amendment grounds under the United States
3 Constitution and on State Constitutional grounds,
4 reliance specifically on Article 1, Section 11,
5 of the Wisconsin Constitution. Because the
6 evidence adduced to date in the trial casts a new
7 light, or adds some additional relevant fact --
8 relevant facts on the reasonableness of the
9 searches between November 5 and November 12th,
10 2005.

11 The protective sweeps, or the initial
12 two entries, very brief entries on November 5,
13 are not at issue. We aren't challenging those,
14 neither have we ever challenged the consent
15 search on November 4 and, again, don't challenge
16 that today.

17 But the search of Mr. Avery's private
18 areas beginning at about 7:30 p.m. on Saturday,
19 November 5, 2005, and then every search after
20 that time appear unreasonable, not just for the
21 reasons we explored at length this summer in the
22 evidentiary hearings, but for additional reasons
23 developed here at trial.

24 The State's witnesses, first, have
25 described the searches of the house trailer and

1 the garage, in specific, as starting with sort of
2 general searches -- I'm making no effort to
3 repeat verbatim any particular witness'
4 testimony, but I'm synthesizing the testimony as
5 I have heard it. Sort of general or quicker,
6 less thorough searches, initially, and then
7 proceeding a matter of days later to what's been
8 described here repeatedly has a thorough search.

9 Typically, I think the witnesses have
10 ascribed the thorough search of the house trailer
11 and the garage to November 8, although, there may
12 be some disagreement among the witnesses on
13 whether November 6 or November 7, November 8, or
14 November 9 are the thorough search of the house
15 trailer and the garage.

16 Now that's, of course, in some conflict
17 with the testimony that the Court took in July
18 and August, 2006, where searchers testified that,
19 with each search they seized all of the relevant
20 items and searched the entire area to be
21 searched.

22 But, you know, moving past the
23 inconsistency, if we accept on its face the
24 testimony adduced here in trial, we have an
25 approach to searching a citizen's most private

1 places, his home, his garage, his yard, within
2 the curtilage, and excluding him for many days
3 from his home. We have an approach that suggests
4 that somehow the Fourth Amendment and the
5 correlative provision of the Wisconsin
6 Constitution allow sort of warm up searches,
7 calisthenics, dry runs.

8 And I -- You know, we're at the right
9 time of the year for Cactus League exhibition
10 games, if this were baseball, but it's not. It's
11 searching and seizing people's private effects
12 and people's private places. And I know of no
13 theory of reasonableness of a search under either
14 the Federal or State Constitutional provisions
15 that allows for this sort of warm-up exercise, or
16 moving from the general to the thorough with
17 repeated entries over a span of days.

18 This gets to sound, as a matter of fact,
19 if we just look at the reasonableness
20 requirement, just the touchstone, as I understand
21 it, of the Fourth Amendment, this gets to sound
22 and awful lot like the Writs of Assistance of the
23 18th Century, that caused people living over here
24 in the New World to resent and ultimately rise up
25 against the British Monarch and his agents in

1 what was then the American Colonies. Sort of a
2 roving, we'll get around to it when we're good
3 and ready or when we feel like it, approach to
4 rummaging through someone's private places and
5 private effects.

6 I don't think it's reasonable. And the
7 record here, at great length, has laid out why.
8 So, in addition to the reasons we argued earlier,
9 this is a first further reason on which I ask the
10 Court to suppress everything taken from
11 Mr. Avery's house, his garage, the burn area or
12 the burn barrel, beginning at about 7:30 p.m. on
13 Saturday November 5, 2005. And suppressing as
14 well the visual impressions of searching agents
15 in those places, testimony about that, and
16 evidence derived from observations, or from items
17 seized, during the searches I have described.

18 Second, we have further testimony that I
19 think sheds light on the motion earlier heard and
20 communicated under *Franks* against *Delaware*. It
21 is now clear, from a fuller record at this trial,
22 that search warrants were obtained from Judge Fox
23 at about 3:10 in the afternoon on November 5,
24 2005. And maybe I shouldn't be using plural, at
25 least a search warrant relevant to here.

1 With the application, saying that the
2 affiant believed there was probable cause to
3 believe that evidence of several crimes would be
4 found, murder, sexual assault, I think false
5 imprisonment was on the list, I think theft was
6 on the list. There may have been a fifth crime,
7 I don't know.

8 But what I do know is that the evidence
9 we have heard here is that the State's witnesses,
10 at least, insist that nobody knew of any blood in
11 the Toyota, nobody had opened the Toyota, nobody
12 had found anything more than the Toyota concealed
13 under trees and branches and rubbish, old car
14 parts.

15 And that's where the factual knowledge
16 related to Ms Halbach's disappearance or fate
17 stood at the time the State applied for that
18 search warrant and Judge Fox issued it on
19 November 5, 2005; at least the factual basis as
20 it relates to the places on the Avery property as
21 to which Mr. Avery really has a privacy interest.

22 So I think the fuller record here adds
23 to the record the Court has before it on the
24 **Franks** issue, and that's the second additional
25 basis for the motion to suppress that I'm now

1 renewing. I have described before the relief
2 that we seek here, just a few moments ago, and
3 it's the same specific items, impressions, and
4 derivative evidence that I wish suppressed on
5 that second basis.

6 Third, and finally, there's newly
7 adduced evidence that bears on the search of the
8 burn area. Here, let me concede,
9 parenthetically, that we have not heard all of
10 the testimony yet about the search of the burn
11 area and seizure of items in that area. I think
12 as to the other searches that I have discussed
13 here this morning, I think we have heard all, or
14 almost all, of the testimony that the State will
15 present bearing on Fourth Amendment or search and
16 seizure issues.

17 But we heard enough about the dog and
18 the burn area to say this, the reason given for
19 not searching the burn area, pursuant to this
20 search warrant, earlier than November 8, which I
21 think is when the evidence will show, or has
22 shown, that a search of the burn area finally
23 began, is that there was a dog, on a chain, and
24 that the dog -- the dog's chain allowed it to
25 roam the entire burn area and to -- presumably to

1 scare off searchers.

2 Now, the record is replete with evidence
3 about how successful a whole group of law
4 enforcement agencies were in excluding the public
5 from the metes and bounds of this roughly 40 acre
6 parcel for about a week, a week or eight days.
7 We have security people at the four corners. We
8 have got a, you know, a command -- two command
9 stations. We have got a check in point out at
10 Avery Road and Highway 147.

11 We have complete law enforcement control
12 over this property, on this record, for that
13 time. We have people on the property who are
14 trained to handle dogs. And it's not reasonable,
15 as a matter of searching and seizing, with that
16 kind of law enforcement control of the property,
17 to say that one dog kept us from searching an
18 area covered by the warrant.

19 Presumably the dog was fed during the
20 three days that passed, under law enforcement
21 control, before the burn area was searched.
22 Presumably the dog was given water during that
23 time. And indeed, even if none of the people
24 there were capable of handling one dog and
25 getting the dog out of the area, we have got

1 testimony here that a family member, namely Bobby
2 Dassey, who lived on the property, from which the
3 public and all family members were excluded, was
4 able to retrieve his dog, with the assistance of
5 law enforcement officers.

6 So it was feasible to get a dog to a
7 family member, or to someone, presumably, was
8 familiar to the dog and could handle the dog.
9 This was something that the police demonstrated
10 they could do, before November 8.

11 They were in contact with the Averys, as
12 the record shows, the Jandas, the Dasseys, during
13 that time. Indeed, Mr. Avery himself was
14 interviewed, up in Crivitz, by law enforcement
15 officials, at some length on November 5 and
16 November 6.

17 Earl Avery was on the property for at
18 least some time while law enforcement officers
19 were there, shortly after 11 o'clock. I don't
20 know when Earl Avery was removed from the
21 property, but we know from the record at trial
22 that he was there at least for a time.

23 So it's really just not reasonable to
24 say that one dog kept this army of law
25 enforcement officers from searching the burn area

1 for three days or more. And that's the third
2 plank upon which I renew the suppression motion.
3 There, the relief I seek is the suppression of
4 observations made upon a search or examination of
5 the burn area and items seized in the burn area,
6 or within the area that fell within the range of
7 the dogs reach.

8 THE COURT: All right. Before I hear from
9 the State, the one question I had was, I thought at
10 the time of the original motion the defense conceded
11 that the search, which started at 7:30 on the 5th,
12 would have been the execution of the warrant, that
13 the initial sweep searches were just cursory
14 searches that were not the execution of the warrant,
15 but I understand from what you have said today that
16 that position has changed.

17 ATTORNEY STRANG: I didn't -- I don't mean
18 to change the position, and I'm sorry if I did that.
19 And I -- Let me sort of get back to trying to recall
20 how we argued this sequence. I think there are -- I
21 think there are two initial sweeps of Mr. Avery's
22 home, the first without a dog, and the second even
23 shorter and with a dog. So, yes, I think the Court
24 is right, the 7:30 search would be the first
25 execution of the search warrant. And that was not

1 unreasonably delayed from, you know, in terms of the
2 passage of time between the execution of the warrant
3 and beginning that search.

4 So, I do -- I don't mean to change my
5 position, and I think the Court is right that
6 this squares up better as the first search --
7 well, the 7:30 p.m. to 10:05 p.m. search on
8 November 5 being an execution of the warrant.

9 Now, the second plank that I raised,
10 **Franks**, of course, would affect even that search.
11 But the first point that I made here, the warm up
12 or Cactus League exhibition searches, would not
13 affect that first search of the home.

14 And the third argument I made, about the
15 dog, has no bearing on the trailer that was
16 searched on Saturday night, between 7:30 and 10,
17 because nobody -- nobody has said the dog
18 affected that search.

19 THE COURT: All right. The **Franks** argument
20 you mentioned, clarify again for me briefly what --
21 or how that argument has been affected by the course
22 of the trial, as supplementing your original
23 argument.

24 ATTORNEY STRANG: Sure. I explained what
25 we now have as a matter of testimony as the

1 collective knowledge of law enforcement about the
2 Toyota. We also have law enforcement people saying
3 that, you know, at about the time the Toyota was
4 discovered and the hours immediately after, they had
5 dark suspicions. They suspected the worst. You
6 know, they were gearing up for a criminal
7 investigation. But they still viewed this as a
8 missing persons investigation and still hoped to
9 find Ms Halbach alive.

10 And, indeed, it's that hope, or that
11 expectation, that makes reasonable at all, the
12 protective sweeps. At least on an emergency
13 doctrine argument, which I understand the State
14 to rely on as justification for, for example,
15 taking dogs through places after an initial sweep
16 through.

17 So the testimony here is consistent with
18 the actions of the officers in that they are
19 pursuing a missing persons investigation, at
20 least through the first two quick searches of
21 Mr. Avery's house and garage on November 5.
22 That's really -- That's inconsistent with the
23 claim that, you know, you ought to give us a
24 warrant and let us go search, because we are
25 going to find evidence of a murder, and a sexual

1 assault, and theft, false imprisonment, if that
2 was the other crime. The search warrant
3 applications and search warrant, of course, are a
4 matter of record and the Court can take notice of
5 those.

6 THE COURT: All right. Who will be
7 responding for the State? Mr. Fallon.

8 ATTORNEY FALLON: Good morning. Thank you,
9 I will be responding for the State. Naturally, we
10 have a different view of the evidence adduced to
11 this point in the trial. And quite frankly, would
12 offer the opinion at the outset that the arguments
13 made during the July and August hearing, in
14 particular the August argument on the 10th, followed
15 up with the brief, has not necessarily been
16 substantiated, but I would say overwhelmingly
17 supported, and the reasonableness of the searches
18 engaged has been demonstrated to a degree that
19 should remove not only a reasonable doubt but any
20 doubt.

21 I begin with this point, I have heard
22 nothing in the record so far that establishes the
23 defendant's right of standing to challenge the
24 search of anything on that 40 acre parcel,
25 outside of his trailer or garage, that includes

1 the burn barrel and the burn pit.

2 Case law clearly says that although
3 items such as the burn pit and its location may
4 well be within the curtilage, which is a somewhat
5 arcane term from the common law which has
6 relatively fallen out of use in Fourth Amendment
7 analysis these days, but it still has some
8 benefit for purposes of claiming an argument.

9 The law is quite clear that while
10 something may be within what had traditionally
11 been perceived as a curtilage, does not
12 automatically establish that one has standing to
13 object to a search of that particular item. So
14 nothing in the record has changed that.

15 Secondly, there's been no evidence
16 whatsoever that there was any joint venture or
17 agency relationship established between the
18 volunteer searchers and law enforcement. It was
19 their entry into the property that commenced the
20 investigation.

21 Third, it's quite clear, and there's
22 been no evidence to the contrary, in fact, even
23 more evidence now, that there was consent for the
24 original entry by the searchers as well.

25 Fourth, the theory upon which the State

1 proceeded at the time of the motion, and
2 continues until this very day, is that this was
3 one continuous search. There was no violation of
4 the one warrant, one search principle originally
5 argued, and continued to be argued today.

6 In that context, a warrant was in fact
7 obtained, as counsel notes, at approximately
8 3:10, Saturday, November 5th. They returned to
9 the property at 3:25 to commence execution of the
10 warrant. And as counsel has conceded under the
11 Court's questioning, there were two original
12 entries in the concept of a sweep, actually just
13 looking for a person or a body of Teresa Halbach,
14 and/or any other civilian or family member who
15 ought not to be present, should be located. So
16 that was the dual purpose of those searches. I
17 think that's conceded.

18 And as the Court notes, there was an
19 execution of the -- The commencement of the
20 execution of the full search at 7:30 that
21 evening. But before we get into the details, let
22 us not lose sight of several critical facts
23 omitted from counsel's argument.

24 And this is where the testimony at the
25 trial does nothing but enhance, not detract, from

1 the findings the Court made in August, and the
2 arguments the State made then and in its written
3 submission thereafter. The area to be searched
4 was a 40 acre crime scene. It had 3800 to 4,000
5 cars. I believe the testimony is there was 11 to
6 15 buildings. Included in that number were four
7 residences.

8 We heard from one witness in this case,
9 admittedly through lengthy cross-examination by
10 the defense, which only highlighted the testimony
11 of Special Agent Fassbender back in August and
12 again during this trial, that there was an awful
13 lot going on, not only within the 40 acre parcel,
14 but within the surrounding areas, most notably
15 the two or three gravel pits owned by the
16 Radandts.

17 As Mr. Ertl explained, they had a number
18 of sites to investigate, both on the property --
19 the 40 acre site and other, including this
20 potential burial site, other areas in the gravel
21 pits, and the surrounding, which admittedly took
22 resources away from the attempted search, or from
23 the ongoing search at the property. So those
24 facts must be kept clearly in perspective.

25 Again, there's a safety issue, there was

1 a weather issue that delayed the onset of the
2 search. There were limited number of officers
3 that first day. More and more officers arrived
4 to assist in executing the search warrant signed
5 by Judge Fox.

6 So it's within that backdrop that we now
7 begin to clearly scrutinize and examine both the
8 evidence introduced then, during this trial, and
9 the arguments of counsel.

10 As reflected by the testimony of the
11 officers and those who supported him -- and when
12 I say the officers, I'm talking specifically of
13 Special Agent Fassbender, who was coordinating,
14 along with Investigator Wiegert, this
15 investigation. It's quite clear that there were
16 a number of teams, in a number of places, being
17 searched simultaneously.

18 This wasn't just four guys who were
19 going from one place to the next. There were
20 several search teams involving the Crime Lab,
21 involving Manitowoc Police Department, involving
22 some members of the Manitowoc Sheriff's Office,
23 the Calumet County Sheriff's Office, the
24 Department of Justice, Division of Criminal
25 Investigation.

1 As indicating, the search started out in
2 a funneling effort, a sweep looking for persons
3 and bodies on the property, and then slowly
4 funneled down into more specific evidentiary
5 searches, in support of a missing person/criminal
6 investigation. And I will elaborate on that in a
7 moment.

8 But I did want to make this particular
9 point first, again, as a legal backdrop to the
10 factual backdrop just provided. Article 1,
11 Section 11 of the Wisconsin Constitution, has
12 been and continues until this very day, to be
13 interpreted the same way as any attack or as any
14 interpretation of the Fourth Amendment to the
15 United States Constitution. And our case law has
16 consistently held that.

17 And while I compliment counsel on his
18 argument of raising a State Constitutional basis
19 or challenge, for now, the law in terms of
20 interpreting, applying, and assessing that
21 challenge, the analysis is the same under the
22 Fourth Amendment to the United States
23 Constitution and under Article 1, Section 11, of
24 the Wisconsin Constitution.

25 As such, the touchtone for the Court's

1 analysis is reasonableness. So within those two,
2 that factual backdrop and the legal backdrop, we
3 examine the searches.

4 Now, counsel seeks to suppress a number
5 of items, conveniently not designating those
6 items. But let's look at the evidence that was
7 taken during that first search. First search is
8 conceded, so there's nothing that was taken out
9 of her (sic) home on Saturday night, which is
10 subject to the suppression motion in the first
11 place. So in effect, with respect to the home,
12 the only items of evidentiary -- that jump in my
13 head right now, based on the testimony, are the
14 weapons seized on Sunday, and the key, and a few
15 other miscellaneous items on Tuesday.

16 Now, in examining the searches on those
17 particular days, what do we have. We have a
18 specific description, those weapons were observed
19 on Saturday night during the search, they were
20 looking for other biological trace evidence to
21 show the existence, or non-existence, of Teresa
22 Halbach within that residence, anything that
23 would show or connect her to the particular case.

24 The weapons were observed. They were
25 seized the next day, hey, go get those weapons,

1 after all, we do have an individual with a felony
2 record. They are in constructive possession,
3 that's evidence of a crime, take that. So they
4 were sent back in, as part. They were observed
5 there, but they had other duties that night. It
6 was 7:30. There was a torrential rainfall going
7 on. And they were looking, at that time, for
8 evidence of a missing person/criminal
9 investigation. In other words, her missing
10 person could very well be the result of a crime.

11 And while we're on that point, let's
12 make this abundantly clear, nowhere is it said,
13 and counsel cites no case, because there is no
14 case for the proposition that on the one hand we
15 have a missing person, and then you draw a line
16 in the sand and say, oh, well, you crossed the
17 line, now you are in a crime.

18 Probable cause is defined as something
19 that would excite an honest belief in the minds
20 of an officer that perhaps a crime or criminal
21 activity is afoot. That's the basis to get a
22 probable cause determination.

23 Now, it's quite clear that many missing
24 person cases may very well fall into that
25 category. Missing person concepts and probable

1 cause for a crime overlap, frequently overlap.
2 And there is a large difference between probable
3 cause in a missing person case and proof beyond a
4 reasonable doubt that the missing person is
5 missing because of a crime.

6 So let's not confuse the concepts. They
7 overlap. They are clear. Sometimes they have
8 two operating different spheres entirely, but
9 frequently they overlap. And in the analysis of
10 the searches underway here, there was nothing
11 that was unreasonable in the steps taken by
12 Investigators Wiegert and Fassbender in directing
13 the searches here.

14 With respect to the garage, the first
15 entry to the garage was on Sunday. So I'm still
16 waiting for the argument as to why anything that
17 was taken, including the shell casings and the
18 other material on the search of the garage on
19 Sunday morning, is subject to the search, subject
20 to suppression.

21 It's their first enter, other than the
22 sweep that occurred the day before looking to see
23 if there is the person or the body of Teresa
24 Halbach, or the person or a body of somebody else
25 who shouldn't be there.

1 Now, let's further examine, again,
2 returning briefly to the burn pit and the burn
3 barrel argument. I can think of no other act
4 that is quite so clearly supportive of the
5 concept of abandoned property than the act of
6 throwing something in a fire and burning it.

7 The burn barrel is clearly -- anything
8 in that barrel is subject to search by any person
9 driving up and down that driveway. That's
10 clearly evidence of property discarded, unwanted,
11 and thrown away.

12 The quintessential act of abandonment is
13 burning it, consuming it, chopping it up, what
14 have you. The same can be said for the burn pit
15 as well. Anything in there is abandoned
16 property. It is burned. It's evidence of the
17 owner or the possessor, the constructive
18 possessor of that property has shown his intent
19 to discard it and not care about it. It burned.

20 With respect, again, to the searches of
21 this particular property, I would also point out
22 that the original warrant signed by Judge Fox on
23 Saturday, November 5th, was renewed on Wednesday,
24 the 9th, I believe, as the evidence in the motion
25 hearing was, some time late that afternoon,

1
2
3
4
5
6
7

memory strikes me, about 4:00.

And the warrant was reused for the follow-up entries on Thursday, Friday, and Saturday, most notably by Mr. Austin of the State Patrol, Agent Fassbender, and one or two others as they were doing their final go through the premises, and Mr. Austin was taking his copious measurements that we have heard quite a bit about. So, clearly, there's nothing to undermine the inevitable discovery argument that the State made as a fall or drop back position.

Finally, there's one argument that we didn't make earlier that we could make now since the motion is renewed, and that is, I think you also have a good faith belief, as exhibited by the officers, in reliance on a warrant that was issued by Judge Fox, that probable cause was established and then the warrant was reissued. And I would submit to the Court that they had no obligation to reissue that warrant, but just as a safety precaution, they went back to the judge, renewed the warrant, with additional information that had been discovered during those days.

And that takes me, by the way, to another analysis on the reasonableness component,

1 is that each day, each hour, additional
2 information became available to the officers that
3 justified continuous operations here that say,
4 well, we have got to go back in. Let's look at
5 that. We just got this call from the Crime Lab,
6 we have got presumptive positive for blood here
7 in the SUV, better go back and look for that.
8 Better go back in there and luminol Mr. Avery's
9 trailer and Charles Avery's trailer, and the
10 other places, to see if there is any blood
11 evidence there.

12 Each hour passed, more information
13 became, probable cause was not only enhanced, it
14 was increased, justifying continued searches and
15 continued investigation by law enforcement
16 officers, further support of the one warrant and
17 one continuous search, which was under way.

18 Now, with respect to this **Franks**
19 argument, again, I find that rather disingenuous.
20 Again, nothing has been shown here to show a
21 false or material statement that was false that
22 was introduced or established by virtue of the
23 testimony, that hadn't already previously been
24 discussed.

25 The only argument is the concept of

1 while the missing crime and missing person and a
2 missing -- missing person and a criminal
3 investigation analysis. And I think we have
4 already discussed how they overlap.

5 But there's nothing that has been
6 introduced, to this point in the trial, that
7 suggests that there was any material or false
8 statement or any reckless disregard for the truth
9 by the affiants of that warrant or the
10 information provided them, that being Detective
11 Remiker and Investigator Wiegert.

12 Again, I'm still waiting for the
13 standing to be established by the defense as to
14 how they are going to search or complain about
15 searching the SUV of Teresa Halbach. Again,
16 there is no basis upon which the defense can
17 challenge the search, the seizure of that SUV, or
18 any of the evidence obtained therein.

19 Next, again, returning to the burn area
20 and the interesting analysis for the dog
21 argument. While one may be trained to handle a
22 bloodhound, one may be trained to handle a human
23 remains detection dog, commonly referred to as a
24 cadaver dog, doesn't mean that one is established
25 and trained to handle all kinds of situations.

1 And we all know, from our common sense, that
2 there are many people who are good with animals,
3 some are very professional, some do it for a
4 living, many of us are casual pet owners, some
5 are not.

6 Well, regardless of that, there are
7 animals out there who have such character and
8 demeanor that it doesn't really matter much, for
9 the professional. And the fact that one may be
10 well trained to handle a bloodhound, or human
11 scent detection, or human remains detection, is
12 of no consequence and of no meaning here, doesn't
13 help us at all.

14 Finally, I think it's very important to
15 note that the -- that the evidentiary
16 significance, as it were, to this burn pit area,
17 wasn't determined at all until Tuesday afternoon.
18 There was no need to remove or do anything with
19 the dog. In fact, we credit Deputy Kucharski for
20 exercising common sense in not shooting the dog
21 when they wanted to search it. They waited.
22 They finally did have somebody remove the dog
23 when the evidentiary significance of the burn pit
24 became clear.

25 The fact that Bobby Dassey was allowed

1 to return to get his puppy is an entirely
2 different concept than the junkyard dog in the
3 back of the yard, who lives outside, and a fully
4 grown adult animal and a puppy, in terms of their
5 care, and responsibility, and their needs,
6 etcetera. That's an argument without any merit
7 whatsoever. I don't even need to go further.

8 So, again, what is it that they are
9 asking to suppress. The guns were seized, as I
10 said, on Sunday. There was the shell casings and
11 some blood spatter on the first search of the
12 garage. Where's the challenge to the
13 significance of that? How is that in violation
14 of the warrant? It was their first entry.
15 Again, there's not much at issue. And what is at
16 issue, there is no basis whatsoever, in fact or
17 law, to suppress that evidence. So we would ask
18 the Court to affirm its previous ruling. Thank
19 you.

20 THE COURT: All right. I'm not going to
21 hear further from the parties on the issue at this
22 time. As Mr. Strang indicated, I think we haven't
23 heard all the evidence that may come in yet with
24 respect to the burn pit. I will give the parties an
25 opportunity to argue further later. I'm not going

1 to decide it from the bench at this time.

2 Before we bring the jury in I'm going to
3 take a quick five minute break, and I mean no
4 more than five minutes. I'm going to ask the
5 bailiffs to keep Mr. Avery here. We'll be back
6 out in a few minutes and bring in the jury.

7 (Recess taken.)

8 (Jury present.)

9 THE COURT: Mr. Kratz, at this time you may
10 call the State's first witness this morning.

11 ATTORNEY KRATZ: Thank you, Judge, the
12 State will call Katie Halbach to the stand.

13 ATTORNEY STRANG: Your Honor, may we just
14 take a procedural moment at side bar.

15 THE COURT: Yes.

16 THE CLERK: Raise your right hand.

17 **KATIE HALBACH**, called as a witness
18 herein, having been first duly sworn, was
19 examined and testified as follows:

20 THE CLERK: Please be seated. Please state
21 your name and spell your last name for the record.

22 THE WITNESS: Katie Halbach, H-a-l-b-a-c-h.

23 **DIRECT EXAMINATION**

24 BY ATTORNEY KRATZ:

25 Q. Katie, how old are you?

1 A. I'm 15.

2 Q. I'm sorry?

3 A. 15.

4 Q. And do you go to school?

5 A. Yup.

6 Q. What grade are you in?

7 A. I'm a sophomore.

8 Q. In what community do you live? What city do you
9 live in?

10 A. I live in Hilbert, Wisconsin.

11 Q. And who do you live with, Katie?

12 A. I live with my family, Tom and Karen Halbach, and
13 my sister, Kelly Halbach.

14 Q. All right. Before October 31st of 2005, did you
15 have another sister?

16 A. Yes.

17 Q. Tell the jury who that was, please?

18 A. It was Teresa Halbach.

19 Q. Let me show you a picture of what has been
20 received as Exhibit #1, tell us who that is?

21 A. That would be my sister, Teresa Halbach.

22 Q. Katie, can you describe your relationship with
23 your sister? Where did she live, first of all?

24 A. Um, first, she lived in Green Bay, when she went
25 to college. Then, later, she moved next door to

1 us.

2 Q. Okay. When she lived next door to you, did you
3 have occasion to meet with her, or see her a lot?

4 A. Yeah, she would come over sometimes and hang out
5 with us, or sometimes on the weekend, me and
6 Kelly would go over to her house.

7 Q. All right. Who's Kelly?

8 A. She's my little sister.

9 Q. How much younger is Kelly than you?

10 A. She's two years younger than me.

11 Q. And how much older was Teresa than you?

12 A. She was 11 years older than me.

13 Q. As sisters, and especially as sisters who lived
14 literally next door to each other, what kind of
15 things would you guys do when you hung out
16 together?

17 A. We would watch movies, or watch TV, or like play
18 card games, or just hang out.

19 Q. All right. Let me ask you, Katie, like most
20 sisters, would you ever talk about shopping, or
21 clothes, or things like that?

22 A. Yes.

23 Q. Did you ever go shopping with your sister,
24 Teresa?

25 A. Yes.

1 Q. And were you aware of the clothes that Teresa
2 wore?

3 A. Yes.

4 Q. I'm going to specifically ask you about Teresa's
5 blue jeans, okay? Let me first ask you, Katie,
6 if you were aware of any specific pairs of blue
7 jeans that Teresa owned that she had at her
8 house?

9 A. Well, she had a lot of Weatherly (phonetic) jeans
10 just because she really liked their jeans and I
11 know she had a pair of Daisy Fuentes jeans.

12 Q. Let me stop you there. How do you know that she
13 had a pair of Daisy Fuentes jeans?

14 A. Well, one day she showed me a new pair of jeans
15 she had. And I noticed that the brand was Daisy
16 Fuentes. And I knew that Daisy Fuentes was an
17 older person, so I told Teresa that she has old
18 person jeans.

19 Q. As those of us that are my age, do you think
20 Daisy Fuentes is a older person; is that what you
21 told her?

22 A. Well, she's not old, but she's not young.

23 Q. But you commented, in fact, you teased your
24 sister about wearing an old person's jeans; isn't
25 that right?

1 A. Yes.

2 Q. After your sister's disappearance, and after you
3 learned that your sister had died, did you have
4 occasion to go back to her house and look through
5 some of her stuff?

6 A. Yes, we did.

7 Q. When you looked through her stuff, Katie, did you
8 find her Daisy Fuentes jeans?

9 A. We did not.

10 Q. Sometime during this investigation, were you
11 asked to join, or accompany, a police officer, I
12 think it was Officer Fassbender, in trying to
13 find that pair of jeans, or trying to find a pair
14 that was just like those jeans?

15 A. I did.

16 Q. Where did you go to get those?

17 A. We went to Kohls.

18 Q. And do you know if Kohl's Department Store is a
19 place that carries Daisy Fuentes jeans?

20 A. Yes, they do.

21 Q. Do you know if Daisy Fuentes jeans are carried
22 anywhere other than Kohl's?

23 A. I do not know.

24 Q. Katie, I have handed you what's been marked as
25 Exhibit No. 288. Can you tell the jury what that

1 is, please?

2 A. They are a pair of Daisy Fuentes jeans.

3 Q. And have you seen those before?

4 A. Yes, I have.

5 Q. Tell the jury how you have seen those before?

6 A. I went with Mr. Fassbender to Kohl's one day and

7 he asked me to pick out a pair of Daisy Fuentes

8 jeans that I thought Teresa would have worn.

9 Q. The same style, the same brand; is that right?

10 A. Yes.

11 Q. Did you try to also pick out the same size that

12 she would have worn?

13 A. Yes, I did.

14 Q. Why don't you hold those up and show the jury. I

15 want you to hold up and show the jury the front

16 and the back of those jeans, if you would, okay.

17 Now, on the back pocket of those jeans, there's

18 some stitching; do you see that?

19 A. Yes.

20 Q. Do you know what that stitching is called on the

21 back pocket?

22 A. No, I don't.

23 Q. Okay. Katie, let me ask you, do you know what

24 holds a pair of jeans together?

25 A. Rivets maybe.

1 Q. Okay. When looking at Exhibit No. 288, does --
2 do those jeans have rivets?

3 A. Yes, they do.

4 Q. And on those jeans, do those rivets say anything?

5 A. They say Daisy Fuentes.

6 Q. Mr. Wiegert is going to grab those from you, as I
7 ask you one or two other questions. Do you know
8 when the last time when you saw Teresa wearing
9 her Daisy Fuentes jeans was?

10 A. I don't remember.

11 Q. Do you remember what size jeans your sister,
12 Teresa, wore?

13 A. She probably would have worn anywhere between
14 like a five or an eight.

15 Q. Some clothes, I don't know much about girls
16 clothes, but they run different sizes; is that
17 right?

18 A. Yeah, depends on like the store, whatever.

19 Q. I'm going to have Mr. Wiegert turn on a machine
20 which is called an ELMO machine. Mr. Fallon is
21 going to help him as well.

22 ATTORNEY KRATZ: You can probably zoom in a
23 little bit more, too.

24 Q. (By Attorney Kratz)~ Katie, is that one of those
25 rivets that you saw?

1 A. Yes, it is.

2 Q. What does it say on it?

3 A. Daisy Fuentes.

4 ATTORNEY KRATZ: Thank you, Mr. Wiegert.

5 Q. (By Attorney Kratz)~ Katie, the other thing that
6 I want to talk to you about is an exhibit that I
7 have handed you. It's blue, in front of you. I
8 think it's Exhibit No. 287. Have you ever seen
9 that before?

10 A. Yes, I have.

11 Q. And unwrap that, please, and show it to the jury
12 and tell the jury what it is.

13 A. It's a blue lanyard.

14 Q. Does it say anything on it?

15 A. It says Air National Guard.

16 Q. Katie, does that look familiar to you?

17 A. Yes, it does.

18 Q. And how does that look familiar?

19 A. I was at the EAA convention two summers ago, and
20 I was at an exhibition building. And it was the
21 Air National Guard had like a little stand, and
22 they had free lanyards and I picked it up.

23 Q. Now, a lanyard -- or at least that part of the
24 lanyard, and I'm going to show you a picture of
25 it here, there are two pictures in front of you,

1 let's just identify those real quickly. Do you
2 see those pictures in front of you?

3 A. Yes.

4 Q. Can you look at Exhibit No. 285, and tell me if
5 that's what we're looking at up on the big
6 screen?

7 A. Yes, it is.

8 Q. That lanyard that you got at the Air National
9 Guard, was there another part that went with it?

10 A. Yes, there was a little clip that clipped on, on
11 the end.

12 Q. Do you know what went on that little clip?

13 A. A key chain.

14 Q. Now, a couple summers ago, Katie, when you picked
15 up that -- that lanyard and that key chain, did
16 you give that to anybody?

17 A. I gave it to my older sister, Teresa.

18 Q. Let's look at the next picture. Okay. That's
19 Exhibit No. 286, do you see that picture?

20 A. Yes.

21 Q. Tell the jury what that is, please?

22 A. It is a picture of the lanyard and the connecting
23 piece that was with it.

24 Q. I'm going to show the jury, now, Exhibit No. 286.
25 Do you recognize the piece -- or the other piece

1 of the lanyard, the thing that's called the fob?

2 Do you know that that's called a fob?

3 A. Yeah.

4 Q. All right. Do you recognize that?

5 A. Yes, I do.

6 Q. And what is that?

7 A. It's the little connecting piece with the key
8 chain and a key on it.

9 Q. All right. Mr. Wiegert is finally going to hand
10 you an exhibit.

11 ATTORNEY KRATZ: What's the exhibit number,
12 Mr. Wiegert?

13 DETECTIVE WIEGERT: 211.

14 ATTORNEY KRATZ: All right. I'm going to
15 ask Mr. Wiegert if he would be so kind as to, if it
16 will, if those items could be placed together.

17 Q. (By Attorney Kratz)~ Now, Katie, just touching
18 the lanyard; that is, just touching the blue
19 area, which would be to your left, could you hold
20 up that entire key for us, please. Hold it up
21 nice and high so we can see it. Is that
22 lanyard -- or does that fob fit into that
23 lanyard?

24 A. Yes, it does.

25 Q. And does that look the same as when you gave it

1 to your big sister, Teresa?

2 A. It does.

3 ATTORNEY KRATZ: I would move the admission
4 of Exhibits 287, 288, 285 and 286 at this time. And
5 I have no further questions.

6 THE COURT: Any objection?

7 ATTORNEY STRANG: I don't think so. I
8 missed 285, though.

9 THE COURT: That is a photo, I believe, of
10 the lanyard, without the key fob.

11 ATTORNEY STRANG: Thank you, no objection
12 to any of those four.

13 THE COURT: Very well, those exhibits are
14 admitted. Mr. Strang, are you going to be doing the
15 questioning?

16 ATTORNEY STRANG: I am. Thank you.

17 **CROSS-EXAMINATION**

18 BY ATTORNEY STRANG:

19 Q. And good morning. I'm going to call you Ms
20 Halbach.

21 A. Okay.

22 Q. Because we don't know each other and we're in a
23 formal sort of place, okay? And I'm Mr. Strang,
24 you probably figured that out long ago.

25 The jeans, Exhibit 288, now when guys

1 buy jeans, typically, it's by waist size and then
2 an inseam -- yeah, an inseam length. And --
3 Okay. And these things look like they just have
4 a Size 6.

5 A. Yeah.

6 Q. Okay. When -- I don't know if you can answer
7 this, give it a whirl. When women, or for that
8 matter, girls, buy blue jeans like these Daisy
9 Fuentes jeans, does the leg always just come in
10 one length?

11 A. Sometimes there could be a 6 short, 6 regular,
12 and a 6 long.

13 Q. Okay. And do you know what your sister, Teresa,
14 wore in terms of a short, regular, or long?

15 A. Probably a regular.

16 Q. Okay. And, then, sometimes, then, you know, if
17 it's you, or another woman, or girl, do you have
18 to hem the pants or change the length of them?

19 A. Sure.

20 Q. Because there's just the three sizes,
21 basically --

22 A. Yeah.

23 Q. -- of length, in the leg?

24 A. Yeah.

25 Q. Okay. And you don't know whether on the Daisy

1 Fuentes jeans Teresa had to either roll up the
2 pants leg, or hem it, or something?

3 A. No, I don't know.

4 Q. Okay. So, you showed us the rivets. What --
5 What do you close the waist with on these jeans?

6 A. A button.

7 Q. Does that kind of look like -- more or less, like
8 the rivet, except a little bit bigger.

9 A. Yeah.

10 Q. Okay. It seems to be metal; does that seem
11 right?

12 A. Yeah.

13 Q. Is that the button you just described?

14 A. Yeah.

15 Q. Okay. What -- Did you ever see Teresa use the
16 lanyard you bought her?

17 A. Yes, I did.

18 Q. Did she keep any other keys on there?

19 A. I'm not sure.

20 Q. One way or the other?

21 A. She might have, I don't know.

22 Q. Do you know, did she -- did your sister, Teresa,
23 typically carry a purse when she was going
24 somewhere in her car?

25 A. I believe she did.

1 Q. But you don't know where she carried keys or other
2 things that might go on a key chain?

3 A. No, I don't.

4 Q. Ms Halbach, do you have any -- any memory at all
5 of about how long ago you would have seen this
6 pair of old person's jeans, you know, the pair of
7 Daisy Fuentes jeans that you actually saw Teresa
8 have?

9 A. Um, it was probably more recent because it was
10 fresh in my memory.

11 Q. Mm-hmm. But you didn't -- I mean, you don't
12 remember now what year, or what time of year,
13 that kind of thing.

14 A. No, I don't.

15 Q. I assume at the time it didn't make a big
16 impression on you, this was just a new pair of
17 jeans or something?

18 A. Yeah.

19 Q. Okay. You weren't with Teresa when she bought
20 them?

21 A. I wasn't.

22 ATTORNEY STRANG: Okay. That's all the
23 questions I'm going to ask you. Thanks.

24 ATTORNEY KRATZ: I have got nothing
25 further, Judge. Thank you.

1 THE COURT: Very well, you are excused.

2 And, Mr. Kratz, you may call your next witness.

3 ATTORNEY KRATZ: Actually, it's Mr. Gahn.

4 THE COURT: Sorry, Mr. Gahn.

5 ATTORNEY GAHN: Thank you, your Honor.

6 State would call Ron Groffy to the stand.

7 THE CLERK: Raise your right hand.

8 **RONALD L. GROFFY**, called as a witness

9 herein, having been first duly sworn, was

10 examined and testified as follows:

11 THE CLERK: Please be seated. Please state

12 your name and spell your last name for the record.

13 THE WITNESS: My name is Ronald, middle

14 initial L. Groffy, G-r-o-f-f-y.

15 **DIRECT EXAMINATION**

16 BY ATTORNEY GAHN:

17 Q. Are you how employed, sir?

18 A. I'm employed as a forensic scientist with the
19 Wisconsin Department of Justice, Crime Laboratory
20 Bureau, stationed in Madison, Wisconsin. My
21 working title is Forensic Imaging Specialist.

22 Q. And how long have you been employed at the
23 Wisconsin State Crime Lab?

24 A. I have been with the Crime Lab for about 32
25 years.

1 Q. And what are your duties, currently, at the Crime
2 Lab?

3 A. My primary duty is the technical unit leader for
4 the Forensic Imaging Unit and responsibility
5 includes administration of the unit,
6 photographing evidence that may be brought into
7 the laboratory, and also doing whatever imaging
8 analysis might be requested of our unit.

9 Q. And could you explain, or describe for the jury,
10 exactly what is a Forensic Scientist Imaging
11 Specialist.

12 A. Again, as I previously stated, my duty is to
13 examine photographic evidence, take pictures of
14 evidence that is submitted to the laboratory,
15 evidence that may be used as part of analysis.
16 There might be things on evidence that needs to
17 be imaged before other analysts, also, or
18 scientists can look at it. That's our primary
19 duty.

20 THE COURT: Excuse me, Mr. Groffy, can you
21 move the microphone over closer?

22 THE WITNESS: Sorry, your Honor.

23 THE COURT: That's good.

24 THE WITNESS: Okay. I don't think it likes
25 me.

1 Q. (By Attorney Gahn)~ Mr. Groffy, on November 6 of
2 2005, did you take photographs of a 1999 Toyota
3 RAV4 that belonged to Teresa Halbach?

4 A. Yes, I did.

5 Q. And where did you take those photographs?

6 A. That would have been at the Wisconsin State --

7 THE COURT: Mr. Groffy, you can move it
8 over closer. The feedback was because I had the
9 volume turned up to high.

10 THE WITNESS: Is this better, your Honor?

11 THE COURT: Go ahead.

12 A. That would have been at the Wisconsin State Crime
13 Lab located in Madison, Wisconsin.

14 Q. And also on November 8, 2005, did you take
15 photographs of a blue 1993 Pontiac Grand Am that
16 belonged to Steven Avery?

17 A. That is correct, I did.

18 Q. And what I'm going to ask now is for Mr. Fallon
19 to bring up to you a pack of photographs.
20 Mr. Groffy, if you would just quickly look
21 through those photographs and tell me when you
22 are finished looking at each one of them.

23 A. I'm done, sir.

24 Q. And did you take those photographs?

25 A. Yes, I did.

1 Q. And as you look at those photographs today, do
2 they accurately portray the condition of both of
3 those vehicles as you photographed them back in
4 November of 2005?

5 A. Yes, they do.

6 Q. Mr. Groffy, on the back of each of those
7 photographs, there's an exhibit number. They are
8 sequentially numbered Exhibit 289 through 305. I
9 would like you to take the top photograph, which
10 would be Exhibit 289. And I'm going to ask you
11 to describe what that photograph is of. And
12 please tell the jury that, and then we're going
13 to show that -- well, here it is up on the
14 screen. Describe what that photograph is,
15 please.

16 A. State's Exhibit 289 is the exterior view of the
17 RAV4 from the driver's side of the vehicle.

18 Q. And that photograph that you have in your hand,
19 that's the same photograph that is up on this big
20 screen?

21 A. That is correct.

22 Q. Sir, will you please take the next photograph and
23 describe that. Tell us what the exhibit number
24 is and describe it for the jury.

25 A. That's State's Exhibit 290. That is the front

1 interior portion of the RAV4 looking from the
2 driver's side of the vehicle.

3 Q. And is that photograph the same photograph that
4 we have up on the big screen?

5 A. Yes, it is.

6 Q. And please continue.

7 A. State's Exhibit 291 is a photograph of the
8 interior of the RAV4 looking at part of the
9 driver's side, I guess you would call it,
10 instrument panel, near the ignition switch.

11 Q. And is this photograph -- is that photograph
12 represented up on the big screen?

13 A. Yes, it is.

14 Q. Mr. Groffy, I would like to ask you, is there
15 anything about this photograph that you did any
16 further processing of this vehicle with?

17 A. Yes, the area that shows the red stain, I did a
18 presumptive test on that area.

19 Q. And what is a presumptive test?

20 A. This is a presumptive test for the presence of
21 blood. It's known as phenolphthalein.

22 Q. Could you describe a little more for the jurors
23 just how that stain appeared to you.

24 A. It was a reddish color stain on the dash.

25 Q. You did the presumptive test for blood?

1 A. Yes, I did.

2 Q. I'm sorry, sir, what were the results for that?

3 A. It was positive.

4 Q. Next exhibit, please.

5 A. State's Exhibit 292, that is some items that were
6 discovered on the front passenger seat of the
7 RAV4.

8 Q. And is that photograph represented on the big
9 screen?

10 A. Yes. It is.

11 Q. Next exhibit, sir.

12 A. State's Exhibit 293, that is a view, again, of
13 the front passenger area, looking through the
14 front passenger door, of the seat and the floor
15 area and part of the dash.

16 Q. And, again, where were these photographs taken?

17 A. At the Wisconsin State Crime Lab in Madison.

18 Q. And is the photograph that you just described
19 accurately represented up here on the big screen?

20 A. Yes, it is.

21 Q. The next exhibit, please.

22 A. This would be State's Exhibit 294. This is the
23 frame area of the RAV4 toward the passenger side,
24 backseat.

25 Q. And what was the purpose of taking this

1 photograph?

2 A. This was to show a reddish stain that was on that
3 frame area.

4 Q. When you were taking these photographs, was
5 anyone suggesting areas of the RAV4 for you to
6 take photographs of?

7 A. Yes, in this particular area, I was actually
8 directed to make this photograph by our blood
9 stain pattern analyst, Nick Stahlke.

10 Q. Mr. Groffy, I'm going to ask Mr. Fallon here or
11 Mr. Kratz perhaps, to bring up a laser pointer.
12 I would like you to just point out to the jury
13 this area that the blood spatter expert,
14 Mr. Stahlke, wanted you to photograph.

15 A. It would have been approximately in this area
16 right here.

17 Q. And, again, could you just describe for the
18 jurors where exactly is that located?

19 A. That was on the passenger side of the vehicle,
20 toward the rear seat.

21 Q. Okay. And the next line, please?

22 A. That would be State's Exhibit 295, that's a view
23 looking into the cargo area of the RAV4, toward
24 the passenger side of the cargo area.

25 Q. And did anyone direct you to take this

1 photograph.

2 A. This particular photograph would have been taken
3 as part of our standard overall photographs of
4 the vehicle. At a later time, I was also told by
5 Nick Stahlke, again, to get some medium -- what
6 we call medium using and close up extra
7 photographs of those areas also.

8 Q. Why, what was in the back of this cargo area of
9 the RAV4 that you wanted photographed?

10 A. There appeared to be stain patterns that
11 contained blood and he was interested in
12 recording the pattern information.

13 Q. Could you take the laser point and point out
14 those areas.

15 A. That would have been approximately in this area
16 here. And then later on, there was also some
17 area in here that he had me photograph.

18 Q. Did you do any presumptive testing in this area
19 of the vehicle?

20 A. Yes, I also did a presumptive test in
21 approximately this area and the test was
22 positive.

23 Q. And positive for what, sir?

24 A. For blood.

25 Q. Next exhibit.

1 A. This would be State's Exhibit 296. This is a
2 closer view of that stained area in the back
3 cargo portion of the RAV4, behind the passenger
4 seat, passenger's rear seat, excuse me.

5 Q. And is this the area that you stated that you did
6 a presumptive test for blood?

7 A. Yes, that's correct, sir.

8 Q. Next photograph, please.

9 A. This would be State's Exhibit 297. This, again,
10 is another -- a closer view of that stained area
11 within the cargo portion area of the RAV4, behind
12 the rear seat.

13 Q. And could you just describe for the jurors, when
14 you looked at this stain, what did you observe?
15 What was the condition of the stain?

16 A. It was pretty much what you see on the
17 photograph. It was reddish in color, it appeared
18 to be over a -- an area of that particular rear
19 quarter panel.

20 Q. Next exhibit, please.

21 A. This would be Exhibit 298. This is the molding
22 and the metal frame area as you opened the cargo
23 door of the RAV4. Where the carpeting ends
24 toward the back of the cargo area, that's the
25 molding. And, again, the metal trim area and we

1 were documenting some reddish stains that are on
2 that molding.

3 Q. Could you take the laser pointer, and just point
4 out to the jurors these reddish stains that you
5 were documenting in this photograph.

6 A. I believe the areas of interest were right about
7 in here.

8 Q. Next exhibit, please.

9 A. This would be State's Exhibit 299. This is the
10 interior portion of the rear cargo door. Okay.
11 The panel that's on that cargo door. And, again,
12 we were photographing this to show stain
13 patterns.

14 Q. And, again, could you take the laser pointer and
15 just point out those stained areas that you were
16 trying to document?

17 A. Yes, there's some over here, and I believe there
18 were a few over here.

19 Q. Next exhibit, please.

20 A. This would be Exhibit 300. This is a more of
21 what we would consider an overall view of the
22 whole cargo area of the RAV4.

23 Q. And could you point out for the jurors, again,
24 that area that you did your presumptive test for
25 blood?

1 A. Yes, it would have been approximately in this
2 area here.

3 Q. Next exhibit, please.

4 A. This would be State's Exhibit 301. This would be
5 the driver's side of the cargo area of the panel
6 and the portion of the floor and the rear seat.

7 Q. Next exhibit, please?

8 A. State's Exhibit 302, this is showing that the
9 battery cable was disconnected from the battery.

10 Q. And on which vehicle is this photograph?

11 A. This is on the RAV4.

12 Q. Next exhibit.

13 A. This would be State's Exhibit 303. This is of
14 the Grand Am, which was our Item B. This is the
15 front of the Grand Am, showing the condition of
16 the vehicle.

17 Q. And this is the vehicle that belongs to Steven
18 Avery?

19 A. That is correct.

20 Q. And the next slide, please.

21 A. This would be State's Exhibit 304, this is a view
22 from the passenger side of that Grand Am showing
23 the passenger seat, the front dash, the floor,
24 and part of the counsel area.

25 Q. And would you go on to the final exhibit.

1 A. Yes, sir. And that would be State's Exhibit 305.
2 This is just a closer view of that middle console
3 area in the front seat. The gear shift knob and
4 some of the surfaces of that console area.

5 Q. Was there any particular reason to take this
6 photograph?

7 A. If I remember correctly, I believe Nick Stahlke
8 wanted me to show some stains that were located
9 near or on, that -- or that he perceived to be
10 stains.

11 Q. All right.

12 ATTORNEY GAHN: Thank you. That's all I
13 have.

14 THE COURT: Mr. Buting.

15 ATTORNEY BUTING: Thank you, Judge.

16 **CROSS-EXAMINATION**

17 BY ATTORNEY BUTING:

18 Q. Good morning, Mr. Groffy.

19 A. Good morning, sir.

20 Q. I won't be very long with you, but just bear with
21 me one moment. We'll mark a few other exhibits.
22 I will put these up here for the moment and then
23 I'll get right back to them. Let me just start,
24 though, you said that your -- these photographs
25 were taken on November 6th, right?

1 A. Some of them were, that's correct, sir.

2 Q. And that was a Sunday, correct?

3 A. That is correct, sir.

4 Q. Now, you actually were called in some time early
5 on Sunday, right?

6 A. My supervisor called me approximately mid-morning
7 and asked if I could come in and assist --

8 Q. Okay.

9 A. -- that's correct.

10 Q. You don't normally work on Sundays?

11 A. Normally, no. No, I do not.

12 Q. Okay. It was your understanding, though, that
13 this Toyota RAV4 had arrived at your Wisconsin --
14 I'm sorry -- Madison Lab sometime very, very late
15 the night before, Saturday night, early morning,
16 Sunday?

17 A. I don't know that for sure, sir.

18 Q. Okay. Well, when she called you in, your
19 supervisor, would that be Lucy Meier?

20 A. That's correct.

21 Q. Did she tell you that this had just arrived and
22 that you were going to be one of the first people
23 to see it?

24 A. She had conveyed to me that they had received a
25 vehicle at the laboratory for processing. And

1 she was wondering if I could come in and assist
2 and do the photography on the vehicle.

3 Q. Okay. And when you arrived, it was parked in the
4 garage that was displayed in that first
5 photograph.

6 A. That's correct.

7 Q. And when you approached, the -- were the doors
8 standing open or were they closed?

9 A. The doors to the vehicle, sir?

10 Q. Yes.

11 A. The doors to the vehicle were closed.

12 Q. Okay. Did you have gloves on as you approached
13 the vehicle?

14 A. As I approached the vehicle?

15 Q. Yes.

16 A. Not as I approached the vehicle, no. There's a
17 large area around the vehicle.

18 Q. Okay. At some point you touched portions of the
19 vehicle, though, right?

20 A. That is correct, I did.

21 Q. And before you did that, you put gloves on?

22 A. I put a laboratory coat on and gloves, that's
23 correct, sir.

24 Q. Okay. And did you, with your gloved hands, try
25 the driver's door handle?

1 A. Yes, I did.

2 Q. It was locked or unlocked?

3 A. The driver's door was unlocked when I got there.

4 Q. Okay. The other doors were locked?

5 A. Yes, the other doors were locked.

6 Q. And that would be actually four more doors,
7 correct, including the rear?

8 A. That's correct, four doors.

9 Q. Now, if I understand, what you did was, by
10 opening the driver's side door, you were able to
11 sort of reach over and, with your gloves, unlock
12 the front passenger side door first, right?

13 A. That's correct, I did that.

14 Q. And then from that location, that position on
15 either side, front and passenger, you were able
16 to easily reach around and unlock the rear driver
17 and passenger side doors.

18 A. That's correct, I unlocked those doors.

19 Q. And then you were able to open all four of those
20 doors, wide open, for taking pictures and what
21 not?

22 A. That is absolutely correct.

23 Q. And that's how it got to the appearance that we
24 see in those photographs that you showed earlier,
25 taking pictures of the side, the front, and the

1 rear side passenger and driver's side doors?

2 A. That's correct.

3 Q. And then you, and another individual by the name
4 of Steve Harrington, he was also there.

5 A. That's correct, Steve was also there at that
6 time.

7 Q. He's another forensic scientist with the Crime
8 Lab?

9 A. He is currently retired.

10 Q. Okay. But was he employed then?

11 A. At that time he was employed, yes, sir.

12 Q. Okay. And the two of you then did this
13 presumptive test for blood?

14 A. That is not correct. I did the presumptive test
15 for the blood.

16 Q. Okay. Was that a phenolphthalein test or was
17 that some other test?

18 A. That is what we called a phenolphthalein test.

19 Q. Okay. So is it specific for human and animal, or
20 just any kind of blood?

21 A. I do not have that knowledge, sir.

22 Q. Okay. But, you did get a positive on the
23 ignition stain and that larger area that you
24 mentioned over in the cargo area, kind of on the
25 passenger side?

1 A. That's correct I had a positive test for those
2 two areas.

3 Q. Those are the only two areas that you tested,
4 though?

5 A. That is correct.

6 Q. Did you do any other tests that day or take any
7 other pictures?

8 A. My activities were limited to photographing the
9 exterior portions of the RAV4. And then the
10 interior portions that we could get photographs
11 of without actually having to go inside the
12 vehicle and get those pictures before other
13 analysts could have a chance at processing the
14 vehicle.

15 Q. Okay. And then a decision was made with you and
16 your supervisor, Lucy Meier, not to process the
17 Toyota any more that day and that you would
18 instead wait until morning when the forensic DNA
19 analyst and other types of people would be
20 normally working; is that right?

21 A. That is correct.

22 Q. Okay. The photographs that you displayed,
23 though, do you still have those up in front of
24 you?

25 A. Which ones are you referring to sir?

1 Q. All the ones that you introduced --

2 A. Yes, I do.

3 Q. -- on direct. Okay. With the exception of the
4 ones of the Pontiac Grand Am; I'm not directing
5 your attention to those right now at all. But
6 with respect to the RAV4 pictures, do you know,
7 were all of those taken on November 6th, or were
8 some of them also taken on the 8th? And if so,
9 do you know which ones were on the 6th and which
10 ones were on the 8th? That's my question.

11 A. This may take a moment.

12 Q. That's fine.

13 A. I believe I'm ready.

14 Q. Okay. Could you just tell us which ones, if any,
15 were taken on the 6th?

16 A. That would be State's Exhibit 289, 290, 292, and
17 293, of the ones that I have.

18 Q. Okay. With Mr. Gahn's indulgence, I'm going to
19 use -- I have got duplicates of those exhibits,
20 they are just larger. So I'm going to use those
21 on the ELMO. So this is 290, right?

22 A. I believe --

23 Q. 289?

24 A. 289, that's correct.

25 Q. 290 is that picture of the -- sort of looking in

1 the driver's door, across to the passenger side,
2 with the passenger door open?

3 A. That's correct.

4 Q. 291 was not one of them you said, right?

5 A. That's not one that I have here with me. Hang on
6 a second, sir. That's correct that is not one of
7 them.

8 Q. So what was the next one you mentioned?

9 A. 292.

10 Q. Okay. That's this one here?

11 A. That's correct.

12 Q. And that's looking in at the front passenger
13 seat, right?

14 A. That is correct.

15 Q. Shows a black case of some sort, a Aquafina
16 bottle and some other nail polish or something,
17 right?

18 A. Yes.

19 Q. Okay. And then, I'm sorry, was there just one
20 more?

21 A. 293.

22 Q. That's really the same direction, it's just
23 farther back, right?

24 A. That's also correct.

25 Q. Looking through the passenger door, front

1 passenger door. Is that it?

2 A. That would be it for that date, of these pictures
3 that I have, sir.

4 Q. Okay. So then, I just want to clarify something
5 here. Turning your attention to No. 300, which
6 is this kind of overall view of the cargo area?

7 A. Yes, sir.

8 Q. This shows very little in there, in the --
9 basically shows an empty cargo area, with the
10 exception of a crumpled piece of paper of some
11 sort and what looks like a parking light lens
12 assembly or something?

13 A. That could be, yes.

14 Q. Did you notice whether there were ever more items
15 in the rear of this area, or was it always, when
16 you first saw it, did it look like this?

17 A. When I opened up the cargo door and took this
18 photograph, that was what was in the back of that
19 vehicle, sir.

20 Q. Okay. Did you ever see any other items in this
21 -- or maybe let's turn to the rear seat. Do you
22 have a picture of that looking in? I don't know
23 if you do. Do you ever recall finding other
24 stuff in the interior of this RAV4, other than
25 the few items, loose items that we seem to see

1 here in this photograph and in Exhibit 293?

2 A. I did not physically process the vehicle, sir.

3 All I did was photograph it. Other analysts

4 might have, but I did not.

5 Q. Okay. So you don't know whether, for instance,

6 there was any cardboard boxes, or other soda

7 bottles, or clothing items, or anything like that

8 found in the vehicle?

9 A. If I saw them, I don't recall it.

10 Q. And would you have -- would you have been asked

11 to take photographs of any of those kinds of

12 items before they had been removed or touched in

13 anyway?

14 A. I may or may not have been, it would have been at

15 the discretion of the analyst processing the

16 vehicle whether or not they wanted that

17 photographed.

18 Q. Okay. And to your recollection today, do you

19 recall seeing any other pictures that you may

20 have, that you didn't bring with you today, that

21 would show those items?

22 A. I have contact sheets of all the photographs that

23 I took of the vehicle, but I would have to look

24 at those.

25 Q. Okay. You don't have any recollection right now

1 of that, though?

2 A. No, I do not.

3 Q. All right. Just a couple more things. There's
4 three new exhibits that I have given you; would
5 you take a look at those. Oh, by the way, just
6 so we're clear, all of the other photographs that
7 we didn't discuss as having been taken on
8 November 6; were those taken on November 8th?

9 A. They would have been taken on November 7th and
10 8th.

11 Q. Okay. Two days.

12 A. Yes.

13 Q. All right. Can you identify Exhibit 306, 7 and
14 8.

15 A. State's Exhibit 3-0-6, 306, is the front of the
16 vehicle, the bumper area where there is the
17 headlight and it appears to be a missing light
18 fixture.

19 Q. Okay. I will put these up in a moment. Go ahead
20 and identify all three of those. And you took
21 these photographs?

22 A. That is correct, sir. This is State's Exhibit
23 307. This is an overall photograph of the back of
24 the RAV4.

25 Q. Okay.

1 A. This is State's Exhibit 308. This is a view
2 primarily of, I guess you would call it the wheel
3 cover of the spare tire that's on the back of the
4 RAV4.

5 Q. Okay. Let me just quickly put this up on the
6 screen. The first one you mentioned was, this
7 would be the driver's side bumper, front bumper,
8 appears to have some damage to it?

9 A. That is correct, sir.

10 Q. And that's the parking, running light assembly
11 that's missing?

12 A. If that's the correct terminology, yes.

13 Q. Okay. And do you know if that item that we saw
14 in the rear cargo area is from here or not?

15 A. I do not know that, sir.

16 Q. Okay. And then this was the -- No. 307 is the
17 sort of wide shot of the rear of the vehicle?

18 A. That is correct.

19 Q. Would you just please indicate with the pointer
20 where the cargo -- rear cargo door handle is to
21 open the door. If you can use that laser
22 pointer.

23 A. If I remember correctly, I believe it's right in
24 this area here.

25 Q. Let the witness reflect -- or the record should

1 indicate that the witness is pointing to what
2 looks to be the far left side of the cargo door,
3 over by the taillight assembly.

4 THE COURT: The record will so reflect.

5 Q. (By Attorney Buting)~ And we'll zoom in on that
6 just so it's a little clearer. It's also next to
7 what looks like a dealer sticker that says
8 LeMieux Green Bay?

9 A. That's correct, sir.

10 Q. And does that look like that's where the key goes
11 in, as well?

12 A. I believe that's the position where the key was
13 put in, yes.

14 Q. Okay. Now, showing you the last one, 308, this
15 is a closer up view of what we were just looking
16 at, so I don't have to have it zoomed as much.
17 That's the wheel cover you are talking about?

18 A. That is correct.

19 Q. I notice it looks kind of dusty; is that because
20 it had already been fingerprinted by the
21 fingerprint people?

22 A. No, this is the condition that we received the
23 vehicle in. It is -- One of my duties is to
24 photographically document this before it is
25 processed. So that would have been the condition

1 that the RAV4 was received at the laboratory.

2 Q. Are you entirely sure about that? Let me just
3 direct your attention to the far left side there,
4 above the RAV4. Do you see, isn't that some sort
5 of a sticker, oblong white sticker up there?

6 A. Yes, that appears to be one of the scales that we
7 used for denoting where fingerprints are.

8 Q. Okay. So, it appears, then, that perhaps the
9 fingerprint people had already been through here,
10 or at least looked at some of the vehicles?

11 A. When this particular photograph was taken, yes.

12 Q. Okay. So that looks -- Is that the sort of thing
13 that people -- the fingerprint people put on when
14 they find what they think might be a usable or a
15 latent print, fingerprint or palm print?

16 A. They usually use those stickers to identify areas
17 that they want us to photograph.

18 Q. Okay. Do you know if you took a closer up
19 picture of that particular area?

20 A. I did take some photographs of fingerprints that
21 were on the RAV4, at the direction of forensic
22 scientist, Michael Riddle. So those negatives
23 would probably be in his possession.

24 Q. Okay. And when you take those, those are just
25 negatives, you don't print them out like this?

1 A. No, our common procedure is that we put them on
2 photographic film and then we also supply a
3 negative to the examiner to work off of.

4 Q. Okay. And on the wheel cover, this -- do you see
5 some markings that almost look like fingers,
6 there and there, that is, on the upper surface of
7 that wheel cover of the RAV4?

8 A. One of reasons I took a photograph similar to
9 that before it was dusted for fingerprints was
10 because I did observe what looked like to be two
11 handprints on that wheel cover.

12 Q. Okay. And then a little bit lower on that, there
13 also appears to be some other sort of markings.
14 I don't know if you can describe what those are
15 at all. Do those appear to be handprints to you
16 as well or no?

17 A. That I don't know, sir.

18 Q. Okay. But you don't believe -- I mean, you
19 believe this is the way it actually looked
20 without adding any kind of fingerprint dust to
21 it?

22 A. That is correct, sir.

23 Q. That being the wheel cover, right?

24 A. That is correct.

25 Q. Okay. Did you happen to notice, as you were

1 taking photographs of this portion of the cargo
2 door where the door handle is and the key goes
3 in, it looks like on this prior photograph I
4 don't see that little scale you mentioned?

5 A. It doesn't appear to be in that photograph, no,
6 sir.

7 Q. Okay. Did you happen to notice, though, as you
8 were taking those close up photos of the
9 negatives that you said you gave to Mr. Riddle;
10 did you happen to notice whether there was
11 anything that appeared to be a blood stain in
12 that area?

13 A. I don't recall.

14 Q. Okay. Do you recall Mr. Riddle directing your
15 attention to anything, saying, hey, let's take a
16 picture of this, this looks like this might be a
17 blood stain of some sort or a dark reddish type
18 stain?

19 A. I don't recall that conversation. No, I don't.

20 Q. Okay. All right. Now, last area of questioning
21 is, you also took some measurements of the
22 vehicle, correct?

23 A. That is correct, I did.

24 Q. And those measurements were done at the request
25 of Mr. Fassbender, who is sitting in court today,

1 right?

2 A. That is also correct.

3 Q. You were in phone contact with him when he was
4 out at the scene, up in the Mishicot area?

5 A. I don't know if he was at the scene when he
6 contacted me, but ...

7 Q. Okay.

8 A. But he did contact me by phone.

9 Q. Okay. And he suggested that you take some seat
10 measurements of the, I guess the front driver's
11 seat, right?

12 A. That's correct.

13 Q. Let's just see if those -- if that area -- maybe
14 I have it up there. And those seat measurements
15 are done sometimes just to -- just to document
16 before anybody touches -- touches it, to see just
17 how close up or how far back that driver's seat
18 is, right?

19 A. That is correct, sir.

20 Q. All right. Showing Exhibit 290 to you, I believe
21 it's up on the screen. As I understand it, you
22 take -- you don't actually see the break pedal
23 here, but what you do is, you measure from the
24 break pedal up to the front curvature of the
25 driver's seat?

1 A. Yes. In this particular case, that is one of the
2 measurements that I took.

3 Q. And you came up with 18 inches, right?

4 A. Yes, I did.

5 Q. You also measure from the floor, directly down
6 underneath the front of the seat, right up to the
7 top curvature of the seat and take that
8 measurement as well?

9 A. I wouldn't say underneath the seat, but it would
10 have been on the same plain as the front of the
11 seat to the floor.

12 Q. Okay. And so that would give you the seat height
13 off of the floor?

14 A. The approximate height, yes.

15 Q. And in this instance you got 12 and a half
16 inches, right?

17 A. That's correct.

18 Q. And then you also measure from the center of the
19 steering wheel to the back of the driver's seat,
20 the seat back?

21 A. That's correct, I also did that.

22 Q. And in this instance, you got 23 and a quarter
23 inches?

24 A. That is correct.

25 Q. And that's without adjusting the angle of the

1 seat back, tilting it forward or ... That's
2 leaving it the way it was, right?

3 A. That's with the seat in the position as we
4 received it; that is correct.

5 Q. Okay. And then you also, in addition to taking
6 those measurements, at some point, I guess just
7 so I'm clear, this was actually on November 8th,
8 right?

9 A. Yes.

10 Q. So this was after the vehicle had been processed
11 for DNA, right?

12 A. I believe Ms Culhane had finished her
13 examinations at that point.

14 Q. So it was okay for you to lean inside of it and,
15 you know, touch things at that point, right?

16 A. Yes, but we still wore the appropriate clothing.

17 Q. Okay. But then you actually sat inside, in the
18 driver's seat, in the position that it was,
19 correct?

20 A. Yes, we did that.

21 Q. And you did that and you are 5 foot 11, right?

22 A. Yes, that's pretty close.

23 Q. And you found that it was very uncomfortable,
24 cramped, for you, with the seat in that position,
25 right?

1 A. That's correct, it was a very tight fit for me.

2 Q. Your knees hit the console when you tried to
3 break, for instance?

4 A. Yes.

5 Q. And you also had Mr. Nick Stahlke, your blood
6 spatter guy, do that?

7 A. Yes, Nick also did that because he's smaller in
8 stature than I am.

9 Q. He's about five-seven?

10 A. About five-seven and a half, round it off,
11 five-seven.

12 Q. And -- just one moment. I won't ask you for
13 Mr. Stahlke's characterization of whether he
14 could fit or not, but did you see him sit in?

15 A. Yes, I did.

16 Q. Did it look like his foot or his knee was also
17 hitting the console at all?

18 A. He conveyed to me --

19 Q. No, don't.

20 A. Oh, I'm sorry.

21 Q. Don't tell me what he conveyed, that would be
22 hearsay, we'll deal with that, just what you
23 could observe.

24 A. It appeared to me that it was also a close fit
25 for Mr. Stahlke.

1 Q. All right.

2 ATTORNEY BUTING: That's all I have. Thank
3 you.

4 THE WITNESS: You're welcome.

5 THE COURT: Mr. Gahn, any redirect?

6 ATTORNEY GAHN: No, your Honor.

7 THE COURT: Very well, the witness is
8 excused. We started with the witnesses a little
9 late this morning, so we'll take our morning break
10 at this time and try to make it about 10 minutes.

11 ATTORNEY GAHN: Your Honor, before the jury
12 leaves, I would like to move in the Exhibits 289 to
13 305, photographs.

14 THE COURT: Any objection?

15 ATTORNEY BUTING: No, objection. I also
16 would like to move in exhibits 306, 7, and 8, which
17 I'm returning.

18 THE COURT: Any objection from the State?

19 ATTORNEY GAHN: No, your Honor.

20 THE COURT: Very well, all of those
21 exhibits are admitted. Members of the jury, I will
22 remind you again not to discuss this matter with
23 yourselves during the break and we'll see you in
24 about 10 minutes.

25 (Recess taken.)

(Jury present.)

THE COURT: Who will be calling the next witness for the State?

ATTORNEY GAHN: I will, your Honor.

THE COURT: Mr. Gahn, you may call your next witness.

ATTORNEY GAHN: State would call Sherry Culhane.

SHERRY CULHANE, called as a witness herein, having been first duly sworn, was examined and testified as follows:

THE CLERK: Please be seated. Please state your name and spell your last name for the record.

THE WITNESS: Sherry Culhane, last name, C-u-l-h-a-n-e.

DIRECT EXAMINATION

BY ATTORNEY GAHN:

Q. Ms Culhane, what is your occupation?

A. I work as a Forensic Scientist in the DNA Unit, a Technical Unit Leader in the DNA Unit at the Wisconsin State Crime Laboratory in Madison.

Q. And how long have you been employed with the State Crime Laboratory in Madison?

A. 23 years.

Q. And could you expand a little bit more on what

1 your duties and responsibilities are at the Crime
2 Lab.

3 A. As a Forensic Scientist in the DNA Section, I'm
4 primarily responsible for the examination of
5 physical evidence for the presence of biological
6 material. We examine these items of evidence and
7 try and identify the biological material and
8 develop DNA profiles from those samples.

9 We're also submitted reference samples
10 from specific individuals. And, again, we
11 attempt to develop DNA profiles from those
12 samples and simply compare the two to see if a
13 specific person could or could not be the source
14 of the evidence sample.

15 In addition to those duties, I also have
16 technical leader responsibilities. And those
17 include things like training new analysts,
18 monitoring our quality control procedures,
19 monitoring proficiency tests of the analyst. I'm
20 also responsible for any new techniques, new
21 equipment that is brought on line at the
22 laboratory, for signing off on those procedures
23 and making sure that they are tested properly.

24 And I'm also responsible for case flow,
25 making sure that we meet court dates, our cases

1 are prioritized, and we get them out in a timely
2 fashion.

3 Q. And how many people work in the DNA Unit at the
4 Madison Crime Lab?

5 A. Currently we have 10 trained analysts.

6 Q. And how long have you been conducting DNA
7 testing?

8 A. Since 1996.

9 Q. And is your full workday solely devoted to DNA
10 analysis?

11 A. Yes, it is.

12 Q. And can you tell us approximately how many DNA
13 tests have you, yourself, run?

14 A. Since 1996, a conservative estimate would be
15 around 5,000.

16 Q. And what education do you have that qualifies you
17 to perform DNA testing?

18 A. I have a bachelor of science degree in biology.
19 My training program in 1996, the original
20 training program, consisted of a series of
21 lectures, written tests, written exams, that were
22 all specifically related to the DNA typing
23 process.

24 I have also had course work in molecular
25 biology, statistics and biochemistry class at the

1 UW Madison. I have also attended numerous
2 schools and work shops that are specifically
3 related to DNA typing methods and interpretation
4 of those results.

5 Q. How long does it take to become qualified to
6 become a DNA analyst?

7 A. It depends on the experience of the person
8 training, but anywhere from nine months to a
9 year.

10 Q. And do you have hands-on training during this
11 training period?

12 A. Yes.

13 Q. And could you describe that a little bit for the
14 jurors.

15 A. Part of the training process is to run many,
16 many, many samples through the system from start
17 to finish. Those samples are processed exactly
18 as you do case work. And those samples are
19 interpreted by the trainee in exactly the same
20 way.

21 Q. Who makes the decision when you are capable to
22 perform case work analysis?

23 A. In my case, it was the person who trained me,
24 which was my supervisor, Marie Verielle. I make
25 that decision in training new analysts.

1 Q. And what role do professional societies and
2 organizations play in the science of DNA
3 technology?

4 A. The primary reason for those organizations is for
5 scientists to get together and basically exchange
6 information. All of those professional meetings
7 are -- there's an agenda, there are people who
8 present information about new technologies, about
9 new instrumentation. It's also a place for
10 scientists to get together and discuss problems
11 that they have had, how they solved those
12 problems. So it's a really good forum for
13 exchange of information.

14 Q. And on a regular basis, do you read scientific
15 literature in the area of DNA typing?

16 A. Yes, I do.

17 Q. And why do you do that?

18 A. For basically the same reason we go to
19 professional meetings, to keep up with new
20 technologies that are coming along, and to find
21 out any new information that we need.

22 Q. Ms Culhane, have you testified before in court?

23 A. Yes, I have.

24 Q. How many times?

25 A. Ninety-one times.

1 Q. And have you ever qualified in court as an expert
2 in DNA identification testing?

3 A. Yes, I have.

4 Q. And how many times?

5 A. Thirty-one.

6 Q. Has the court ever rejected you as an expert in
7 DNA identification testing?

8 A. No.

9 ATTORNEY GAHN: I'm going to ask if --
10 Mr. Wiegert, would you please obtain Exhibit No. 309
11 and hand that to Ms Culhane.

12 Q. Would you identify that document, please.

13 A. This is a copy of my curriculum vitae, which has
14 all of the classes and educational background
15 that I have.

16 Q. And, basically, does that summarize the
17 qualifications that we have talked about thus
18 far?

19 A. Yes.

20 Q. At this point, I would like to talk a little bit
21 about DNA itself and just what it stands for. We
22 have prepared a power point presentation, a
23 number of slides. Have you seen them before?

24 A. Yes, I have.

25 Q. And will they assist you in your testimony today

1 in front of this jury?

2 A. Yes.

3 Q. Okay. Ms Culhane, will you just take a moment
4 and explain to the jurors what DNA stands for and
5 what it is?

6 A. DNA stands for deoxyribonucleic acid. And,
7 basically, it's the information storage system of
8 the cell. It's the way the cells in your body
9 store information. This slide is a short segment
10 of DNA. And it illustrates the fact that DNA is
11 composed of smaller units that are strung
12 together in a specific order. The order of those
13 units is what determines the information and how
14 that information is stored.

15 Q. Could you tell us about some of the
16 characteristics of DNA and how it is inherited?

17 A. The easiest way to think of DNA is to compare it
18 to a blueprint. Just like when you are building
19 a house or a building, you have a blueprint that
20 gives you all the information that you need, all
21 the components that are necessary to build that
22 house or that building.

23 DNA is exactly the same way except it's
24 on a cellular level. All the information that
25 your cells need to function, to produce proteins,

1 and enzymes, all the things that make your body
2 work, that information is contained in the DNA.

3 And you can see here, this structure is
4 referred to as a gene. That information is
5 stored in these structures referred to as genes.
6 From the time of conception, all the way through
7 your life, your DNA is responsible for the
8 cellular development. It's responsible for how
9 your cells develop. And many of our physical
10 characteristics such as eye color, hair color,
11 predisposition to certain diseases, all of those
12 things are controlled by the information in your
13 DNA.

14 Forensically, we are more interested in
15 the portions of DNA that really do not function
16 as a gene. They don't really do anything.
17 Scientists aren't sure why they are there. And
18 in the forensic application, there's a huge
19 amount of variation within those portions of DNA.
20 And so that's what we're really interested in.

21 DNA is inherited from your biological
22 parents. You receive 50 percent from your mother
23 and 50 percent from your father. And you,
24 consequently, pass on 50 percent of your DNA to
25 your offspring. And these regions of DNA that

1 we're interested in forensically are inherited in
2 exactly the same way.

3 Q. Now, Ms Culhane, you have used the word
4 forensically a number of times, and in a forensic
5 context. Would you explain to the jurors what
6 you mean when you say in a forensic science
7 capacity.

8 A. The word forensic is simply applying science to
9 matters of law. So it's applying scientific
10 principles to matters of law.

11 Q. And is it fair to say that the scientific
12 underpinnings that you have just described are
13 the reason why you can make DNA comparisons in
14 your laboratory?

15 A. Yes, it is.

16 Q. I would like to just return now to what goes on
17 in your laboratory and ask you, when you are
18 performing DNA testing, is there a specific or
19 particular protocol that you follow?

20 A. Yes, it is.

21 Q. And what is a protocol, please explain that?

22 A. A protocol is a detailed description of every
23 step in the process of DNA testing. The protocol
24 has all the components that you need for the
25 reactions to work properly, all of the parameters

1 for your instrumentation. All of that
2 information is contained in the protocol. In our
3 protocols, we also have interpretation guidelines
4 that set up parameters and rules by which we
5 interpret our results.

6 Q. Does your protocol cover every step from the
7 receipt of evidence, through the testing process,
8 to the writing of reports in a DNA case?

9 A. Yes, it does.

10 Q. And has your protocol been approved by any
11 outside agency or organization?

12 A. Our protocols are reviewed during the process of
13 accreditation. Our laboratory is an accredited
14 lab and during that process our protocols are
15 reviewed and examined by the auditors.

16 ATTORNEY GAHN: And I'm going to ask,
17 Detective Wiegert, if you would just obtain
18 Exhibit 310 and would you, please, hand that to Ms
19 Culhane.

20 Q. And you have now, in your hand, what has been
21 marked as Exhibit 310. Would you please tell the
22 jurors what that is?

23 A. This is a copy of the protocols that we're
24 currently using in the laboratory.

25 Q. And is it that protocol that you follow in

1 performing the tests in this case that you are
2 about to testify about today?

3 A. Yes.

4 Q. Do you and other members in your lab undergo
5 what's called proficiency testing?

6 A. Yes, we do.

7 Q. Would you describe that for the jurors and tell
8 them what proficiency testing is.

9 A. A proficiency test is designed to evaluate a
10 laboratory system as well as individual analysts.
11 The proficiency tests are designed to mimic
12 actual case work samples. We purchase our
13 proficiency tests from an outside company called
14 Collaborative. And we're required to perform
15 those tests, each analyst, twice a year.

16 Most of the proficiency tests come to
17 the laboratory, we treat them just like case
18 samples. We take notes on them, we make
19 documentation, and treat them just like a case.
20 And most of them consist of two reference
21 standards from a victim and a suspect, and two
22 samples that are designed to mimic forensic
23 samples. So they may be blood samples, they may
24 be semen samples, they may be saliva samples, or
25 they may be a combination, a mixture of those

1 samples.

2 When we look at those samples, we do
3 preliminary tests and presumptive tests on them,
4 to determine what type of fluid they are. And we
5 develop DNA profiles from them. We also develop
6 DNA profiles from our reference standards and
7 compare the two just like we would in an actual
8 case, and we make interpretations.

9 All of those types are recorded and sent
10 back to the company. And then, after a period of
11 time, we receive documentation back from the
12 company whether we passed or whether we got all
13 the types correct or not.

14 Q. Now, I believe you stated that -- you said the
15 company name is Collaborative?

16 A. That is correct.

17 Q. And is that an outside agency, outside the State
18 of Wisconsin?

19 A. Yes, it's a company that provides proficiency
20 tests to many labs all across the country.

21 Q. And they have no affiliation with the Madison
22 Crime Lab except to provide tests for you?

23 A. That's correct.

24 Q. And have you -- Well, let me ask you this, what
25 are the results of all the proficiency tests that

1 you have taken?

2 A. They have all been correct.

3 Q. In other words, you passed all of your
4 proficiency tests?

5 A. Yes.

6 Q. And what does it mean to say that a laboratory is
7 accredited?

8 A. The specific type of accreditation that we have
9 in the forensic lab is a certificate of
10 accreditation by the laboratory accreditation
11 board of ASCLD. ASCLD stands for the American
12 Society of Crime Lab Directors. And it's a group
13 of Crime Lab directors from all over the country
14 that come into your laboratory and audit that
15 laboratory once a year. I'm sorry, once every
16 five years.

17 This is a voluntary program. And it's
18 available to forensic labs who are doing case
19 work. So the laboratory agrees to go through
20 this accreditation process and these individuals
21 come in and audit every aspect of your
22 laboratory.

23 They look at -- Before they get to our
24 laboratory they have all of our protocols and all
25 of our procedures. So before they get there,

1 they know what we should be doing. So when they
2 come into the lab, they check everything from
3 security, to the physical layout of the lab, to
4 evidence handling, sealing of evidence, and how
5 the evidence is tracked through the system.

6 And then, anywhere from one to two
7 auditors are assigned to each section in the lab.
8 And they look through things like proficiency
9 tests, quality control documentation. They pull
10 case -- actual case files, and look through, make
11 sure we're documenting everything correctly and
12 that we're interpreting things according to our
13 protocol.

14 Q. Has the Madison Crime Lab undergone this
15 accreditation process?

16 A. Yes.

17 Q. How long ago was that?

18 A. The last time we went through accreditation was
19 in May of 2006.

20 Q. And did this ASCLD or outside organization, did
21 they accredit the Madison Crime Lab?

22 A. Yes.

23 Q. And when you say that you are accredited, is
24 accreditation -- is that an indicator of the
25 quality of work that a laboratory does?

1 A. In my opinion, it is. What it does is, when
2 these auditors come in, they use an audit
3 document that is authored by the FBI. And that
4 document contains specific standards that a
5 forensic lab must adhere to if they are going to
6 do case work.

7 So it ensures the quality of the work.
8 It ensures that you are following accepted
9 protocols in the community, and that your
10 interpretations are correct. So, yes, in my
11 opinion, I believe it does.

12 Q. And besides the five year accreditation process,
13 are there any other inspections, shall we say, or
14 audits, that happen at your Crime Lab?

15 A. Yes, and as part of the accreditation, DNA
16 Section is required to be accredited by an
17 outside individual from another Crime Lab once
18 every two years. And it's usually a team of
19 anywhere from two to three individuals from other
20 crime labs that come into the lab and really
21 audit many of the same things as the ASCLD
22 auditors.

23 They look at case jackets. They look at
24 all of our documentation. They look at our
25 interpretations and our protocols and make sure

1 we're doing everything like we should. In
2 addition to that, we do an internal audit. The
3 Madison Lab goes -- sends people to the Milwaukee
4 Lab, and they send people to our lab, to do an
5 internal audit of many of the same things. So
6 the DNA Section is essentially audited by
7 someone, once a year.

8 Q. Does the Madison Crime Lab do DNA testing solely
9 for law enforcement and for the prosecution?

10 A. By state statute we are required to provide
11 services for authorized submitters. Authorized
12 submitters are defined as law enforcement
13 agencies, or District Attorney's Offices.
14 However, defendants can request testing to be
15 done that has to go through the District
16 Attorney's Office, or it has to be through a
17 court order.

18 Q. When you use the words, defendants can request
19 this, are you referring to convicted offenders,
20 perhaps people who are serving time in prison,
21 can they request DNA testing?

22 A. Anyone can request DNA testing as long as they go
23 through the proper channels and as long as they
24 have a court order that tells us we have to do
25 it.

1 Q. Are you familiar with the Innocence Project --

2 A. Yes, I am.

3 Q. -- which is run out of the University of

4 Wisconsin Law School in Madison?

5 A. Yes, I am.

6 Q. Can you tell the jurors about that a little bit.

7 A. The Innocence Project, as I understand it, is a
8 group of law students at the UW Law School in
9 Madison and they review post-conviction cases for
10 the possibility of reexamining evidence, or
11 perhaps it's new evidence that's come along, or
12 it is evidence that technology wasn't available
13 at the original conviction and now technology of
14 some sort is available and that evidence can be
15 retested.

16 Q. And do they ever request testing from the Madison
17 Crime Lab?

18 A. Yes.

19 Q. Have you, yourself, ever performed any DNA
20 testing for the Innocence Project on behalf of a
21 convicted person?

22 A. Yes.

23 Q. The jury has been informed that Mr. Steven Avery
24 was convicted of an offense in 1985, and he went
25 to prison for that offense; are you aware of

1 that?

2 A. Yes.

3 Q. Did some time come in the year 2003 when you were
4 asked to review that case and look at the
5 evidence again?

6 A. Yes, it was.

7 Q. And were you asked to perform any type of DNA
8 testing in that case?

9 A. Yes.

10 Q. And it was your -- Was it your understanding that
11 Mr. Avery had maintained his innocence in that
12 1985 case?

13 A. Yes.

14 Q. Do you remember exactly what were the evidentiary
15 items that you examined in that case?

16 A. Yes, I do.

17 Q. Could you tell the jury about those?

18 A. In that case I examined 11 pubic hairs that were
19 taken from a victim's pubic hair combings. Those
20 were taken in a sexual assault case to recover
21 any hairs that had been transferred during
22 contact.

23 There were 11 pubic hairs -- yeah, 11
24 pubic hairs. And I attempted DNA analysis on all
25 11. Only two of those hairs gave me a DNA

1 profile. In a hair sample, we're actually
2 looking at the root portion of the hair with
3 cells attached to it.

4 Two of those hairs gave me results. One
5 hair was from a male, one hair was from a female.
6 The hair from the male was entered into the CODIS
7 System and hit on an individual.

8 Q. Now, you are going to have to explain for the
9 jurors a little bit. What do you mean by the
10 CODIS System and what do you mean by hit on an
11 individual?

12 A. The CODIS System is a data base of DNA profiles
13 that is maintained by the FBI. Forensic labs
14 contribute samples, evidence samples, to these
15 data bases. They are also a data base of
16 convicted offenders. And anyone who has been
17 convicted of a felony, it's different rules in
18 different states, has to submit samples to this
19 data base.

20 So, when we have an evidence sample,
21 it's entered into the data base, and it's
22 searched against this index. And in this case,
23 that male profile was entered into that system
24 and searched.

25 Q. And what was the result of that search?

1 A. It hit on another individual.

2 Q. When you say another individual, you mean someone
3 other than Steven Avery?

4 A. That's correct.

5 Q. And you, yourself, performed this testing?

6 A. Yes, I did.

7 Q. And because of the testing that you performed,
8 and because of the search of the CODIS data bank,
9 what happened to Mr. Avery?

10 A. I believe he was freed from prison.

11 Q. And that was because of the testing that you did?

12 A. Correct.

13 Q. Basically, did you follow the same protocol that
14 you did in testing that case, testing the 1985
15 case, that you followed in this case?

16 A. Yes, I did.

17 Q. Did you basically follow the same steps and
18 procedures in the DNA testing?

19 A. Yes.

20 Q. What is it meant in terms -- the terms called
21 quality control and quality assurance in a
22 laboratory?

23 A. The term quality assurance refers to system-wide
24 or lab-wide measures that are in place to assure
25 the quality of the work that's put out. Quality

1 control refers to everyday routine checks that we
2 do on things like our equipment, our balances,
3 our instrumentation, our reagents.

4 Everything that is used that is critical
5 to the process of DNA typing, we do quality
6 control checks to make sure that they are working
7 properly, that they are calibrated, and that they
8 are performing the way that the manufacturers
9 tell us they are going to perform. That's what
10 is referred to as quality control.

11 Q. And are quality control measures, as you just
12 described, in place and implemented in the
13 Madison State Crime Lab?

14 A. Yes, they are.

15 Q. And are they described in the protocol that you
16 just identified?

17 A. Yes.

18 Q. Now, I would like to shift out of the laboratory
19 just for a moment. And I would like to ask you
20 to describe for the jury where DNA is found in
21 the human body. And we'll put up this slide.

22 A. This slide illustrates many of the sources that
23 we find biological evidence. When we're
24 developing a profile, any cell in the body that
25 has a nucleus, the center portion of the cell,

1 has DNA in it. So, what we're looking for is
2 nucleated cells to develop a profile. Blood,
3 semen, and saliva are probably our most common
4 types of biological evidence.

5 If we're looking at a blood sample,
6 we're looking at the white blood cells, because
7 that's where the nucleus is.

8 If we're looking at a semen sample,
9 we're trying to determine whether the DNA is in a
10 sperm cell.

11 In a saliva sample, there is really
12 nothing in saliva except the cells that are in
13 your mouth that are sloughed off in your saliva.
14 And that's where the source of DNA is in a saliva
15 sample.

16 The same with urine, cells that are
17 sloughed in the process of urination, those would
18 be our source of DNA in that sample.

19 Hair, the type of DNA testing that we're
20 doing is referred to as nuclear DNA. And it's --
21 again, it's only present in cells with a nucleus.
22 In the hair, the only place we can find that are
23 cells that may be attached to the root of the
24 hair.

25 Teeth, the portion of the tooth that you

1 would find DNA would be in the pulp, the soft
2 portion of the tooth.

3 And the last two, bone and tissue, both
4 of those, what you are looking for is cells. In
5 a bone, it's usually the center portion of the
6 bone, and any part of the tissue that has
7 nucleated cells would be a very good source of
8 DNA.

9 Q. You talked about cells that are sloughed off, I
10 believe you said. Can skin cells be sloughed off
11 and can you obtain DNA from them?

12 A. Yes.

13 Q. Could you just talk about that a bit and tell the
14 jurors how those profiles can be determined.

15 A. During the process of the day, usually when you
16 are touching things, you are sloughing off cells
17 and your body is making new cells all the time.
18 Some individuals slough off or shed more cells
19 than other individuals.

20 So, in the process of touching things
21 you are, in some instances, leaving your DNA
22 behind. We can develop profiles from that DNA if
23 the quantity is sufficient and the levels are
24 high enough for our systems to detect.

25 Q. In a person's body, is the DNA the same from

1 whatever biological fluid or tissue it comes
2 from?

3 A. Yes, it is.

4 Q. Now, the jurors have heard testimony about buccal
5 swabs being taken. Can you just briefly remind
6 them what a buccal swab is?

7 A. A buccal swab, we use as a standard. And it's
8 the swabbing of the inside of the cheek. So, you
9 take a cotton swab and swab the inside of the
10 cheek. And those cells are a source of DNA. And
11 that's what we use as a standard in some cases.

12 Q. And when a buccal swab is obtained, you can get,
13 through the testing process, a DNA profile from
14 that, correct?

15 A. Correct.

16 Q. The DNA profile that you would get from a buccal
17 swab, can you compare that profile to a DNA
18 profile that perhaps you obtained from a
19 biological substance at a crime scene?

20 A. Yes.

21 Q. And does the technology allow you to make
22 comparisons?

23 A. Yes, it does.

24 Q. And does the technology allow you to determine
25 whether a particular person was the source of the

1 DNA that was at that crime scene?

2 A. Yes.

3 Q. And is there a typing process that you use at the
4 Madison Crime Lab to make those determinations
5 and comparisons that we just talked about?

6 A. Yes. The current technology that we're using is
7 referred to as STR typing.

8 Q. And could you tell the jurors a little bit about
9 the DNA STR testing technique and the
10 characteristics involved?

11 A. STR typing is a PCR based system that allows us
12 to specifically amplify, or make a lot of copies,
13 of specific target regions of DNA. These target
14 regions of DNA are referred to as STR markers, or
15 genetic markers. And they are interspersed
16 throughout all of your DNA.

17 The actual process that we use to make
18 all these copies that I'm talking about, is
19 referred to as PCR. And that's the basis for
20 this entire system. It allows us to copy these
21 specific pieces of DNA to get a profile. When we
22 develop a final profile that characterizes our
23 stain, we look at 15 different target regions
24 like this all throughout your DNA. So the final
25 profile reflects the types at all 15 different

1 locations on the DNA.

2 Q. Now, this technology that you used to date, this
3 PCR STR typing, how long have you been using that
4 at the Madison Crime Lab?

5 A. Since 1999.

6 Q. And before using this technology, or going online
7 with it, did you do anything to make sure that
8 you can do this technology in your laboratory?

9 A. Yes, we did.

10 Q. And what did you do?

11 A. We go through a process referred to as
12 validation. And that simply means that any time
13 we are adding a new technology or new procedure,
14 we have to make sure that it performs like we
15 think it will.

16 So we -- Same goes for a new piece of
17 equipment. We always have to validate and prove
18 that it performs like we think it does. So it
19 goes through a very lengthy testing process. We
20 test the sensitivity. We test the reagents, all
21 the components that are used in the reaction.

22 We test whether it is appropriate for
23 forensic use, whether -- A lot of our samples are
24 very small samples and very compromised samples.
25 They may be degraded. And those types of samples

1 are what we use in the forensic -- or what we
2 have in the forensic setting. So we have to make
3 sure that all of these techniques we're using are
4 appropriate for those types of samples.

5 Q. This DNA testing that you do at the Madison Crime
6 Lab, is this used in other fields besides
7 criminal cases?

8 A. Yes, it is.

9 Q. Could you explain some of those for the jurors.

10 A. The basis of STR typing, like I said, is the PCR
11 reaction. And PCR is used in many, many
12 different applications. It's used in the medical
13 community to diagnose diseases. It's used for
14 medical research. It is used to detect genetic
15 diseases or predisposition to certain diseases.

16 It's also used in anthropology to type
17 very old remains or old artifacts.

18 It's also used for mass disasters such
19 as Katrina, 911, all of those types of disasters.
20 It's used to identify individuals that may have
21 been involved in that.

22 So it has many, many applications. The
23 basic reaction, the system we're working with,
24 has many different other applications besides
25 forensics.

1 ATTORNEY GAHN: Your Honor, I don't know
2 what your preference would be, but I'm about to
3 enter an area that I would not like to break up.
4 And it probably would go about 20 minutes. And
5 we're getting close to the results in this case. We
6 could do that and take a late lunch or would you
7 prefer to break now?

8 THE COURT: Well, is there a consensus on
9 the jury? Would you like to break now or continue.
10 Continue? All right. Seems to be a consensus to
11 continue.

12 ATTORNEY GAHN: Thank you.

13 Q. All right. Ms Culhane, are there -- there are
14 certain procedures or steps in the DNA STR typing
15 process?

16 A. Yes, there are.

17 Q. Would you explain these to the jurors.

18 A. This shows all of the different steps that are
19 involved from start to finish, how we come up
20 with a DNA profile. The first thing we need to
21 do -- and all of these steps are -- each sample
22 is treated to all these steps. So, in other
23 words, our evidence samples and our reference
24 samples that are taken from specific individuals,
25 are processed in exactly the same way.

1 The first step we need to do is extract
2 DNA. We need to remove DNA from the sample,
3 whether it's a reference sample, or an evidence
4 sample. We need to get it out, extract it, and
5 remove it. And then we need to find out how much
6 DNA we have. And the next step is what does
7 that.

8 And that's referred to as quantitation.
9 We need to quantitate, or find out what the
10 concentration of DNA is in our sample. Some
11 samples have lots of DNA. Some samples have very
12 small amounts of DNA. And that's important
13 information for us to have.

14 The next step of the process is known as
15 amplification. And remember, I was talking about
16 all of these different target regions that we
17 make copies of and that we amplify. This is the
18 process by which we do that. We take our sample
19 and we subject it to amplification. And all of
20 these different fragments of DNA are amplified so
21 that in the end we have a sample with all of our
22 fragments and lots of DNA to look at.

23 The next step is to develop a DNA
24 profile and to interpret that. When we interpret
25 DNA profiles, we have an evidence sample and we

1 have a reference sample. And our interpretation
2 involves deciding whether the person who the
3 reference sample is from could or could not be
4 the source of the evidence sample. And that's
5 the basis of our interpretation.

6 If that person -- If the DNA profile
7 from the evidence sample is different from the
8 reference sample, that would be considered an
9 exclusion and that person is excluded as the
10 source of that evidence DNA. If the evidence
11 profile matches or is consistent with the
12 reference sample from a person, then we can say
13 that person could be the source of that DNA. So
14 that's what we refer to as interpretation.

15 If we have an exclusion, we're finished,
16 that's the end of it. But if we have an
17 inclusion, if we include someone as the source of
18 the DNA, then we have to determine how common or
19 how rare that type is in the population. And
20 that's the last part of our process, is a
21 statistical analysis to tell us how common or how
22 rare that evidence profile is in the general
23 population.

24 Q. Now, you have talked about a reference sample and
25 an evidence sample. When you are talking about a

1 reference sample, is that like the buccal swabs
2 you described that they take from the cheek of an
3 individual?

4 A. Yes, it is.

5 Q. And it would be that reference sample that you
6 would make comparisons with the crime scene
7 samples?

8 A. That's correct.

9 Q. Now, suppose that you have, in the laboratory, a
10 suspect's reference sample, say this buccal swab,
11 and you have an evidentiary sample. Will you --
12 and I'm going to look here now at the extraction
13 step, the first step, do you extract them at the
14 same time?

15 A. No, we don't.

16 Q. And why not?

17 A. We always try to keep those samples separate
18 during extraction. And the primary reason is to
19 avoid contamination, or switching of samples, the
20 contamination of the evidence sample with the
21 reference sample.

22 Q. And after you have completed a sampling, or the
23 extraction, or one case, is there anything you do
24 to your work area in between cases or the
25 instruments that you use in the DNA process?

1 A. Yes, we clean down all of our instruments, our
2 bench tops, all of the scissors, the forceps,
3 pipettes, everything we use, with bleach. And we
4 do that several times a day. We do that in
5 between cases. We clean our forceps and our
6 instruments, our scissors.

7 Anything we're touching the items of
8 evidence with is done between each item of
9 evidence. That way it allows us to make sure
10 that we're not cross-contaminating samples, one
11 with the other. So all of our scissors, and our
12 forceps, everything that touches the evidence is
13 cleaned in between each piece of evidence.

14 Q. And do you wear any special type of clothing to
15 protect against any type of contamination of
16 samples?

17 A. Well, we always wear gloves. Any time we're
18 touching anything, we wear gloves. And we wear
19 lab coats and safety goggles.

20 Q. And when you perform -- Let me ask you, and I
21 want to look at the extraction and the
22 amplification, those two steps, step one, the
23 extraction, step three, the amplification, are
24 those steps performed in the same area or
25 location?

1 A. No, they are not.

2 Q. And would you explain to the jurors why you keep
3 those steps separate.

4 A. Our extraction procedures are set up and done at
5 our lab bench. The amplification process is done
6 in a completely different room. The reason is
7 because once you amplify those target regions of
8 DNA, there's a lot of DNA in that sample. And
9 it's a perfect template to amplify more DNA. So
10 it's very important to keep that DNA confined
11 into your amplification rooms and not let it get
12 out into the general lab space.

13 So everything that goes into that
14 amplification room, stays in there. All the test
15 tubes, and all the equipment, everything stays in
16 there. If it has to be brought out, it's cleaned
17 down with bleach. So, once it goes into that
18 room, it stays in there.

19 Q. Now, you say you cleaned down these rooms, or
20 your work station with bleach; why do you use
21 bleach?

22 A. Because it basically chews up the DNA and it
23 destroys the DNA into a form where we can't get a
24 type from it.

25 Q. When you perform these steps, are any type of

1 controls used with the performance of each step?

2 A. Yes.

3 Q. Would you describe what -- First of all, what is
4 a control?

5 A. Controls are samples that we run along with our
6 evidence samples and our reference samples. And
7 we have several different kinds of controls. And
8 each one of these controls serves a different
9 purpose.

10 The purpose of the controls, depending
11 on what they are, is to, one, make sure that our
12 system is working correctly. And, two, to make
13 sure that we can monitor any contamination that
14 might be introduced into the sample or into the
15 evidence, during the process.

16 Q. Would you describe for the jury what you in the
17 forensic community, the science community, refer
18 to as contamination. What is contamination?

19 A. In the laboratory, obviously we can't control any
20 evidence until it comes into the lab. Once it's
21 into the laboratory, we have many steps that try
22 and minimize the chance of contamination. When
23 we use the word contamination, we are referring
24 to the unintentional introduction of DNA into a
25 sample or into a control.

1 Q. And what steps do you take to deal with the
2 possibility of contamination?

3 A. As you mentioned earlier, separating standards
4 from evidence samples is one. We make sure that
5 when we are opening the top -- opening our tubes
6 that have DNA in them, we spin them down first in
7 a centrifuge so that all the liquid on the top of
8 the tube goes to the bottom. We use special
9 sterilized tips when we're pipetting and removing
10 liquid to make sure it's clean. We autoclave all
11 of our reagents to make sure our reagents are
12 clean and free of DNA. All of these steps are
13 taken in order to minimize that risk.

14 Q. If contamination were to occur, does that
15 necessarily mean you cannot interpret a DNA
16 profile?

17 A. Not necessarily, it depends on what it is.

18 Q. Do you maintain a log of instances of
19 contamination in your laboratory.

20 A. Yes, we do.

21 Q. And why do you maintain that log?

22 A. We maintain that log to -- it helps us
23 troubleshoot in a lot of instances to find out
24 where the contamination came from, where it was
25 introduced, and what we can do to solve the

1 problem.

2 We have a data -- We have a list of
3 everybody's DNA type in the laboratory so all the
4 analysts know what their DNA type is. So it
5 allows us, if we see any contamination, to see
6 what the source of it is. Sometimes we can't
7 determine the source of it. Sometimes it's very
8 easy to see the source of the contamination.

9 We can also tell if we have DNA that may
10 have been introduced from the manufacturer, may
11 have been introduced into our reagents. So the
12 contamination log is a learning tool. And it
13 helps us determine where that contamination may
14 have come from.

15 Q. Do you know, do all laboratories maintain
16 contamination logs?

17 A. All accredited laboratories are required to
18 maintain a contamination log. As far as -- And
19 like I said, yes, we have one. And ours is
20 because of as a learning tool and also because
21 we're required by accreditation.

22 Q. Ms Culhane, do you know -- and I'm going to give
23 you the date of January 1st of 2001 -- since
24 January 1st of 2001, how many instances of
25 contamination have you logged at the Madison

1 Crime Laboratory?

2 A. I believe it was 89.

3 Q. And that's been since January 1st of 2001?

4 A. Correct.

5 Q. I would like to also ask you, do you know how
6 many samples of DNA you have processed at the
7 Madison Crime Lab during that same period of
8 time, January 1st, 2001, to the present?

9 A. A conservative estimate would be a little over
10 50,000.

11 Q. And of those 50 -- over 50,000 cases, samples,
12 that you have analyzed, you have documented 89
13 instances of contamination?

14 A. Correct.

15 Q. And how many analysts do you have working at any
16 given time in the DNA unit?

17 A. Anywhere from 8 to 12.

18 Q. And are those 89 instances of contamination over
19 the past five years spread out among those
20 analysts?

21 A. Yes, they are.

22 Q. I would like to go back just a little bit before
23 the date of January 1st of 2001. I think you
24 stated that you went online with this DNA STR
25 testing methodology in 1999, did you say?

1 A. Yes.

2 Q. Can you tell the jurors how many samples of DNA,
3 using this technology, that you have tested at
4 the Madison Crime Lab, since going online?

5 A. Again, this is an estimate, but a conservative
6 estimate would be a little over 60,000.

7 Q. And the last step in your DNA STR typing steps is
8 the statistical analysis. How do you go about
9 determining this statistic to determine how rare
10 or how common a particular profile would be in
11 the population?

12 A. We use a data base that is maintained by the FBI.
13 And that data base tells us the frequency of each
14 one of these types in the entire DNA profile.
15 So, by looking at that data base, we can
16 determine the frequency of the entire profile in
17 the general population.

18 Q. And why is this important?

19 A. Because this -- If you have a match between an
20 individual and an evidence sample, and it occurs
21 in 50 percent of the population, that's not very
22 discriminating. That includes a lot of people.
23 But if you have a match between an evidence
24 sample and a reference sample, and it occurs one
25 out of a trillion people, that's a very

1 discriminating match. And the statistical
2 analysis allows us to do that, to tell whether we
3 have a very common match, or whether we have a
4 very rare match.

5 ATTORNEY GAHN: Your Honor, we're sort of
6 on the cusp here of getting into the results of this
7 case. And this may be a good time to break for
8 lunch.

9 ATTORNEY BUTING: Your Honor?

10 THE COURT: Yes.

11 ATTORNEY BUTING: Why don't we do something
12 else. I don't believe Mr. Gahn has actually offered
13 Ms Culhane as an expert yet. And I have no
14 objection to that, subject to my cross of her
15 qualifications, perhaps doing that now, if you like.

16 THE COURT: Mr. Gahn.

17 ATTORNEY GAHN: I have no objection.

18 THE COURT: All right. So you don't object
19 to her being qualified as a witness.

20 ATTORNEY BUTING: I don't, no. She's been
21 testifying at length already. I think it's just an
22 oversight probably.

23 THE COURT: All right. I did make a note,
24 I was wondering when that was going to be asked.
25 But I will, then, based on the representations of

1 the parties, accept this witness as an expert in the
2 field of DNA testing.

3 ATTORNEY BUTING: Thank you, Judge.

4 THE COURT: All right. Members of the
5 jury, at this time we'll take our lunch break.
6 Let's plan on resuming at 1:15. Again, do not
7 discuss the case or anything about it during your
8 lunch break.

9 (Jury not present.)

10 THE COURT: You may be seated. Counsel, I
11 don't think we have anything else to take up before
12 resuming this witness at 1:15, correct?

13 ATTORNEY BUTING: Correct.

14 THE COURT: Very well, we'll see you at
15 1:15.

16 (Noon recess taken.)

17 THE COURT: Mr. Gahn, at this point you may
18 resume your direct examination.

19 ATTORNEY GAHN: Thank you, your Honor.

20 **DIRECT EXAMINATION CONTD.**

21 BY ATTORNEY GAHN:

22 Q. Ms Culhane, would you describe for the jury what
23 procedures your Crime Lab has in place for the
24 documentation and processing of evidence that is
25 brought to your lab for analysis?

1 A. When evidence is brought into the lab for
2 analysis, whether it's through the mail or
3 directly from an officer, we have individuals
4 known as evidence specialists who take that
5 evidence into the lab. They check to make sure
6 it is packaged properly, that it's sealed
7 properly. And then they give an item designation
8 and a case designation to each piece of evidence.

9 We have a computerized tracking system
10 in the laboratory that works on a bar code system
11 and a bar code is printed that identifies that
12 piece of evidence as belonging to a specific case
13 with a number and it also gives it a item
14 designation.

15 Q. When you perform testing on items or evidence
16 that is brought to you by the law enforcement
17 agency, do you create some type of case file?

18 A. Yes, we do.

19 Q. And do you have that file with you today?

20 A. Yes.

21 Q. Do you need it with you to testify today in this
22 matter?

23 A. Yes, I do.

24 Q. And does that file indicate whether you received
25 evidence in the case of State of Wisconsin vs.

1 Steven Avery?

2 A. Yes.

3 Q. And does your file indicate what items and how
4 many items of evidence were brought to the State
5 Crime Lab for testing?

6 A. Yes, it does.

7 Q. Can you tell the jury approximately how many
8 submissions of evidence came to the Crime Lab as
9 a whole, not just specific to the DNA Unit but to
10 the whole Crime Lab, for examination and
11 analysis?

12 A. I believe there was around 345.

13 Q. And what other units are there at the Crime Lab
14 besides DNA that would be examining this type of
15 evidence?

16 A. We have a full service lab in the Madison Lab and
17 we have a section that does fingerprints for
18 identification. We have an imaging unit that
19 takes photographs. We have a firearms section.
20 We have a trace section. We have a drug analysis
21 section, and a document section.

22 Q. And, specifically, for the DNA Unit, how many
23 items, how many submissions were sent to you in
24 this case at the DNA Unit?

25 A. 180.

1 Q. Is that normal for a case?

2 A. No, that's very large.

3 Q. For you, yourself, is this the largest number of
4 submissions you have ever encountered in a case?

5 A. Yes, it is.

6 Q. And how about for the Crime Lab as a whole, were
7 the submissions of 345 or 46 items the largest
8 number of submissions the crime lab has received
9 for one case?

10 A. I believe so.

11 Q. Now, did you perform DNA testing on all 180 of
12 those submissions to you?

13 A. No, I did not.

14 Q. Tell the jurors what you do when an item of
15 evidence is submitted to you; what's the first
16 thing you do?

17 A. The first thing we do is a visual examination of
18 the item. We're looking, as I stated earlier,
19 for a biological material. And a lot depends on
20 what type of case it is. So, we basically make a
21 visual examination of the item.

22 We take notes and we document the
23 packaging of the item, what the item looked like,
24 and exactly what we did. Depending on what
25 biological material we're looking for, we have

1 what's referred to as a presumptive test, or
2 preliminary test.

3 And these tests give us a good
4 indication of what kind of biological fluid that
5 we're looking for. We perform these preliminary
6 or presumptive tests on the evidence, or on the
7 stain. And from that point we make decisions as
8 to which direction we should go, whether we
9 should continue with the analysis to take it to
10 the final step, which is DNA, or do we stop.

11 If we do a visual exam and there is no
12 indication of a biological material, and it's not
13 an item that was submitted specifically to be
14 examined for touch, DNA that's left by touching,
15 then that's the end of our analysis. If the
16 presumptive test that we do for whatever
17 biological fluid we're looking for is negative,
18 then that's also the end of our analysis.

19 Q. Did you conduct presumptive tests on any of these
20 180 submissions to you?

21 A. Yes, I did.

22 Q. Basically, Ms Culhane, what were you looking for
23 in this case?

24 A. The bulk of the evidence in this case I was
25 looking for bloodstains.

1 Q. Do you know how many submissions of this evidence
2 that you submitted to presumptive tests for
3 blood?

4 A. Yes.

5 Q. Tell me.

6 A. 41.

7 Q. And did you get positives in those presumptive
8 tests?

9 A. Yes, they were all positives.

10 Q. What -- How do you decide what to test and how to
11 test it?

12 A. A lot depends on the piece of evidence it is, the
13 results of our presumptive testing and, also, we
14 have information as to what the alleged incidents
15 are. Police officers and law enforcement that
16 submit items of evidence will request certain
17 testing based on whether they believe the item
18 we're looking for is probative, whether it's
19 going to provide information or not. So that
20 plays into the decision that we make as to what
21 type of analysis and how far to go.

22 Q. So you rely upon the investigators in the field
23 and what they are finding; is that correct?

24 A. Correct.

25 Q. And they will make recommendations to you on the

1 probative value of a particular piece of
2 evidence?

3 A. Yes.

4 Q. Do they ever ask you to prioritize an item of
5 evidence and put it at the top of the list for
6 testing?

7 A. Yes.

8 Q. And why does that happen?

9 A. A lot of times we're not really sure. That's
10 information that they have. They may want
11 results on a particular item of evidence sooner
12 than the additional items of evidence. Usually
13 it's prioritized based on what is the most
14 probative and what is most important to their
15 investigation.

16 Q. Now, you have spoken a number of times about
17 standards and about reference samples. And once
18 again, so the jury is clear, what is a standard?

19 A. A standard is a known sample from a specific
20 individual. And in most cases we request buccal
21 swabs, which is the swabbing of the inside of the
22 cheek, because that's a rich source of DNA. So
23 the inside of someone's cheek is swabbed and that
24 sample is used as a reference for their DNA
25 types.

1 Q. Now, these are called, also, reference samples?

2 A. Yes.

3 Q. Are they sometimes called exemplars?

4 A. Yes.

5 Q. Did you receive standards in this case for
6 testing?

7 A. Yes, I did.

8 ATTORNEY GAHN: I'm going to ask Detective
9 Wiegert if he would bring up to you standards that
10 were received and I'm going to ask you to identify
11 them for the jury.

12 DETECTIVE WIEGERT: Which number?

13 ATTORNEY GAHN: Exhibits 317 through 325,
14 please.

15 Q. Ms Culhane, I'm going to ask you to look at those
16 exhibits and tell the jury what the exhibit
17 number is, and if you can, identify from whom the
18 standard is from.

19 A. The first one is Exhibit No. 319, item --
20 laboratory item designation KL. It's buccal
21 swabs from Barb Janda. And I received this in
22 the laboratory. I have markings, my initials and
23 dates, that I received this.

24 Q. Thank you.

25 A. Exhibit No. 320, item designation -- lab item

1 designation KM, buccal swabs from Bobby Dassey.
2 And, again, these have markings, my initials, and
3 the date. My markings are on this packaging.

4 Exhibit 321, Crime Lab number -- or item
5 designation KN, buccal swabs from Earl Avery.
6 And, again, my markings are on here with my
7 initials.

8 Exhibit 322, Crime Lab item designation
9 KO. These are buccal swabs from Charles Avery.
10 And, again, my markings and initials are on the
11 -- this is the bar code that we put on it when it
12 comes into the laboratory, with the case number
13 and the item designation.

14 ATTORNEY BUTING: The record should reflect
15 the witness was pointing to -- it's a yellow label,
16 is it not?

17 THE WITNESS: Yes.

18 ATTORNEY BUTING: Bar code.

19 THE WITNESS: Yes.

20 A. Exhibit 323, Crime Lab item designation KP, and
21 these are buccal swabs from Delores Avery.

22 Exhibit No. 324, item designation BU,
23 and these are buccal swabs from Steven Avery.
24 And, again, my initials and markings are on the
25 packaging.

1 Exhibit No. 251, Crime Lab item
2 designation EM. And, again, my initials and
3 markings are on the packaging.

4 ATTORNEY GAHN: And, Detective Wiegert, if
5 you could find Exhibits 317 and 318. These would be
6 the buccal swabs of Allen and Brian Dassey -- I'm
7 sorry, Allen Avery and Brian Dassey.

8 THE COURT: I'm sorry, did we hear what 251
9 was?

10 ATTORNEY BUTING: She didn't finish
11 identifying 251. You just said the designation EM.

12 THE WITNESS: Oh, I'm sorry, I apologize.
13 These are buccal swabs from Brendan Dassey.

14 DETECTIVE WIEGERT: This is 318, you
15 want 317 as well?

16 ATTORNEY GAHN: Correct.

17 Q. Would you identify what's been handed to you as
18 Exhibit 318?

19 A. These are buccal swabs, item designation BS, from
20 Brian Dassey.

21 ATTORNEY GAHN: We're also looking,
22 Detective Wiegert, for Exhibit 325.

23 Q. While he is looking for that, Ms Culhane, you
24 state that they contain what's called a item
25 designation number; what is that number?

1 A. That's a number that we assign to that item when
2 it comes into the laboratory. We start with a
3 case with item designation A and then we go
4 through the alphabet. And so that is the item
5 designation that we assign the item.

6 Q. And would you please identify that exhibit.

7 A. This is Exhibit 317, Crime Lab item designation
8 AY, and these are buccal swabs from Allen Avery.
9 And, again, my markings and initials are on the
10 packaging.

11 This is marked as Exhibit 325, item
12 designation from the Crime Lab as EF. And this
13 is a slide holder that contains Pap smear from
14 Teresa Halbach. And, again, my initials are on
15 the packaging.

16 ATTORNEY GAHN: And, your Honor, I might
17 add that I believe there is a stipulation as to the
18 Pap smear for Teresa Halbach, that that was taken at
19 the Bellin Hospital in Green Bay, Wisconsin, in the
20 year 2002.

21 THE COURT: Is that correct, Mr. Buting?

22 ATTORNEY BUTING: That is correct.

23 THE COURT: Very well. The Court will
24 accept that stipulation.

25 Q. Now, Ms Culhane, did you develop DNA profiles

1 from each of these standards that you just
2 identified?

3 A. Yes, I did.

4 Q. And did you compare the DNA profiles from the
5 standards with DNA profiles that you developed
6 from evidentiary samples in this case?

7 A. Yes.

8 Q. Now, did you issue reports in this case?

9 A. Yes, I did.

10 Q. How many reports did you issue?

11 A. Five.

12 ATTORNEY GAHN: I would ask Detective
13 Wiegert to bring you Exhibits 311 through 315.

14 Q. I would ask you to identify each of those
15 exhibits and tell the jury what they contain.

16 A. Exhibit 311 is a copy of the first report that I
17 wrote in the Crime Lab and the findings as of
18 that point in time. Exhibit 312 --

19 Q. I'm sorry, could you please -- did you give the
20 date of that?

21 A. I'm sorry, no, that was issued on November 14,
22 2005.

23 The second report is listed as
24 Exhibit 312, that was issued on December 5th,
25 2005. And that was additional testing and my

1 results of that testing.

2 Third report is a marked as Exhibit 313,
3 it was issued on March 31st, 2006. And, again,
4 it contains the findings in this group of
5 analysis.

6 The fourth report is marked as Exhibit
7 314. It was issued May 8th of 2006. And this is
8 a copy of my report.

9 The final report is marked as Exhibit
10 315, and it was issued December 4th, 2006.

11 Q. Now, do each of those reports have your findings
12 and conclusions that you came to after completing
13 your DNA testing?

14 A. Yes. Yes, they do.

15 Q. And do those reports describe the comparisons
16 that you made between the DNA profiles developed
17 from the standards compared to the DNA profiles
18 developed from the crime scene samples?

19 A. Yes, they do.

20 Q. I'm going to show you what has been marked as
21 Exhibit 298 -- I'm sorry -- 289, and previously
22 identified as the 1999 Toyota RAV4 of Teresa
23 Halbach. Do you recognize that?

24 A. Yes, I do.

25 Q. When was the first time you saw that vehicle?

1 A. On November 7th of 2005. And when I first saw
2 the vehicle it was in the garage bay at the
3 Wisconsin State Crime Laboratory.

4 Q. And what action did you take at that time?

5 A. I was assigned to this case to process the case,
6 to process the car for biological materials.

7 Q. How did you go about processing the vehicle and
8 tell the jurors, like what did you do first and
9 then next in your process?

10 A. The first step processing a vehicle, or any item
11 of evidence, is like I said before, is to do a
12 visual examination. When I saw the vehicle, it
13 had already been photographed, the doors were
14 open. I looked inside the car and it was obvious
15 there were numerous reddish brown stains that
16 were consistent with the appearance of blood.

17 I began to go through and sample each
18 one of these areas of staining and take notes and
19 document where the stains were, and what my
20 preliminary tests indicated. I performed
21 preliminary tests of all the stains that were --
22 the appearance of bloodstains, reddish-brown
23 stains. And, again, I sub-designated each one of
24 these stains. The item designation of the
25 vehicle was item A. And as I recovered stains

1 from that, I numbered them A-1, A-2, until I
2 recovered the number of stains.

3 ATTORNEY GAHN: I'm also going to ask that
4 Detective Wiegert bring you what has been marked as
5 Exhibit 326. I'm also going to ask Detective
6 Wiegert if he would open that envelope and remove
7 the contents and hand that to Ms Culhane, or show it
8 to her.

9 A. It's marked as Exhibit 326. This is the first
10 thing that I recovered from the vehicle and it's
11 my item designation A-1.

12 Q. And how can you tell that?

13 A. I have -- This is the coin envelope that I placed
14 the swabbing of the stain into. And my markings,
15 my initials and date is on it.

16 Q. And that envelope contains the actual swab that
17 you took?

18 A. Yes.

19 Q. And you state that you gave that Crime Lab item
20 designation number A-1; is that correct?

21 A. Yes.

22 ATTORNEY GAHN: And I'm going to ask
23 Mr. Fallon if he would bring you what has been
24 marked as Exhibit 296.

25 Q. And ask you if you recognize that photograph?

1 A. Yes, I do.

2 Q. And what is it?

3 A. This is a large reddish-brown stain in the rear
4 cargo area of the vehicle. And this is where I
5 sampled for presumptive test, which was positive
6 for blood. And then I sampled additional
7 staining to continue with DNA typing.

8 Q. Do you have the laser pointer up there?

9 A. Yes, I do.

10 Q. Just point to the area of where you did your
11 presumptive test for blood?

12 A. The presumptive test, and then very close to
13 that, I sampled my actual sample that I tested
14 for DNA.

15 Q. And would you describe for the jurors exactly how
16 you did the presumptive test?

17 A. Presumptive test is a color test. And it
18 basically reacts positively with blood. I took a
19 cotton swab, moistened it with sterile water. I
20 swabbed just a tiny bit of the stain and I put
21 reagents on it. If it's blood, it turns bright
22 red -- or pink, bright pink. And a negative
23 reaction is no color change. So that I performed
24 on this stain.

25 Because it was positive, it gave me a

1 good indication that this was probably a
2 bloodstain. So from that point I sampled the
3 stain that I was actually going to do my typing
4 from.

5 Q. And tell the jurors how you sampled that.

6 A. I took another clean cotton swab, put sterile
7 water on it, and basically just removed some of
8 the stain onto the cotton swab and then allowed
9 it to air dry.

10 Q. And then what did you do with that cotton swab?

11 A. I put it in -- I had a -- In the space where I
12 was working, I have a test tube rack. And I had
13 a test tube and I put the swab in there and
14 allowed it to air dry.

15 ATTORNEY GAHN: I would ask Detective
16 Wiegert, if you would remove the standards from the
17 desk in front of Ms Culhane, and also you can bring
18 back item A-1 exhibit.

19 Q. And could you also describe for the jurors as how
20 this stain appeared to you and the general size
21 of the stain. Can you do that?

22 A. It was a reddish-brown stain, probably about that
23 big.

24 Q. And you are -- May the record reflect --

25 A. Six inches.

1 Q. -- you're holding your hands about 6 inches --

2 A. Six inches.

3 Q. -- apart? Was this a large stain that you
4 sampled?

5 A. Comparatively speaking, most of the other
6 reddish-brown stains were much smaller than that.

7 ATTORNEY GAHN: Now, I would ask Detective
8 Wiegert to bring you what has been marked as Exhibit
9 327.

10 Your Honor, I had a talk with defense
11 counsel, Mr. Buting, before we resumed this
12 afternoon, and I have opened up the first
13 exhibit, which was Exhibit 326, and Ms Culhane
14 identified the coin envelope that had her swab in
15 it. We have a number of swabs for her to
16 identify. And Mr. Buting is not going to require
17 us to open every envelope and pull it out and
18 identify it with her initials. If something
19 comes up, they are here, we can open them. But I
20 believe that's the understanding that we have.

21 ATTORNEY BUTING: That is correct, your
22 Honor.

23 THE COURT: Very well.

24 Q. (By Attorney Gahn)~ Ms Culhane, you have in front
25 of you what has been marked as Exhibit 327. And

1 does that envelope contain -- can you tell what
2 item designation number is contained in that
3 envelope?

4 A. Yes, Item A-2.

5 Q. A-2. And can you tell the jurors where it was
6 that you collected the swab in A-2 from.

7 A. It was collected from the plastic panel across
8 the back cargo area of the vehicle. Like when
9 you are stepping up into the cargo area, there is
10 a plastic strip there. And A-2 was collected
11 from that plastic strip?

12 ATTORNEY GAHN: Mr. Fallon is going to show
13 you an exhibit which has been marked as Exhibit 298.

14 Q. I would like you to examine that. And also tell
15 the jurors whether that photograph is depicted on
16 the large screen as well.

17 A. Yes, this is a photograph of the swabbing I took,
18 A-2. And it was actually located in this area
19 here.

20 ATTORNEY GAHN: I would ask if Detective
21 Wiegert would bring to you what has been marked as
22 Exhibit 328.

23 Q. I will ask you, Ms, Culhane if you can identify
24 Exhibit 328?

25 A. Yes, the item designation is A-4.

1 Q. And what is A-4?

2 A. That's a swabbing that was recovered from this
3 area here, this metal around the frame of the
4 opening of the cargo door area.

5 Q. And prior to swabbing those areas, did you also
6 do presumptive tests?

7 A. Yes, I did.

8 Q. And what were the results of your presumptive
9 tests on those two stains?

10 A. Both A-2 and A-4 were positive.

11 Q. For what?

12 A. For blood.

13 ATTORNEY GAHN: I'm going to ask Detective
14 Wiegert if he would bring you Exhibit 329.

15 Q. Could you identify that exhibit, please.

16 A. This is item designation A-3.

17 Q. What is that?

18 A. This is a cotton swab from a reddish-brown stain
19 that was taken from the inside surface of the
20 rear cargo door.

21 ATTORNEY GAHN: Mr. Fallon is going to
22 bring you a photograph marked as Exhibit 209.

23 Q. And I will ask if you can -- if you recognize
24 that. And tell the jurors whether that
25 photograph is depicted on the large screen.

1 A. Yes, I do. This is the photograph I'm holding
2 here, A-3, was recovered from this area here.

3 Q. And did you also perform a presumptive test on
4 A-3?

5 A. Yes, I did.

6 Q. And what were the results of that test?

7 A. It was positive for blood.

8 Q. And similar to item designation No. A-1, did you
9 take additional swabbings from A-2, A-4, and A-3?

10 A. Yes, I did.

11 Q. And what did you do with those?

12 A. Those were taken in exactly the same manner that
13 I took A-1. I took a cotton swab and moistened
14 it with sterile water, and I swabbed a portion of
15 the stain and put it in a rack so it could dry,
16 air dry.

17 Q. And what was the purpose of taking the swabs;
18 were you going to be conducting any further
19 testing?

20 A. Yes. My intention was to attempt to develop a
21 DNA profile from those samples.

22 ATTORNEY GAHN: I'm going to ask Detective
23 Wiegert if he would bring you Exhibit 330. I'm also
24 going to ask, Detective Wiegert, if you will open
25 that bag.

1 Q. Ms Culhane, I'm going to ask you to handle this
2 item. Would you like some gloves for that?

3 A. Yes, please.

4 ATTORNEY GAHN: I'm sorry, Detective
5 Wiegert.

6 DETECTIVE WIEGERT: That's all right.

7 Q. Can you identify that item?

8 A. This is item designation A-14. And this was a
9 Pepsi can that was recovered from the cup holder
10 by the front driver's side of the RAV4.

11 ATTORNEY GAHN: I'm going to ask Mr. Fallon
12 if he would bring you a photograph that has been
13 marked as Exhibit 293.

14 Q. And I'm going to ask you to tell the jury whether
15 that photograph is depicted on the large screen.

16 A. Yes, it is.

17 Q. And can you use the laser pointer and show the
18 jurors where you found that Pepsi can.

19 A. Right here.

20 Q. And you, yourself, found this Pepsi can there,
21 correct?

22 A. That's correct.

23 Q. And what did you do to process that can? Will
24 you explain that and show the jurors.

25 A. I collected this can with the intention of

1 developing a profile, to see if I could determine
2 who may have drank out of the can. There is no
3 visible staining on the can, so what I did was, I
4 took a cotton swab, a sterile cotton swab, just
5 like I did in all the other stains, except in
6 this particular case I was only swabbing a
7 particular area, not necessarily a stain. And I
8 swabbed around the opening here where your mouth
9 would touch if you drank out of this can.

10 Q. And just for the record, that exhibit is more
11 properly described as a Wild Cherry Pepsi can?

12 A. Yes, sir.

13 Q. And you didn't do any presumptive tests on that?

14 A. No, I didn't.

15 Q. And why not?

16 A. There were no visual indications that there were
17 blood stains of any kind.

18 Q. And what did do with the swabs that you took from
19 the Wild Cherry Pepsi can?

20 A. I also put them in a rack, and allowed them to
21 air dry, and eventually developed a DNA profile
22 from that.

23 ATTORNEY GAHN: I would ask, Detective
24 Wiegert, if you could remove those items from that
25 area. Detective Wiegert, I would ask you if you

1 would please take to Ms Culhane Exhibit 331 and
2 Exhibit 332. And I'm also going to ask Mr. Fallon
3 if he will bring you a photograph which has been
4 marked as Exhibit 292.

5 Q. Firstly, can you tell us what Exhibit 331 is?

6 A. Yes, it's a -- my item designation A-9.

7 Q. And what is A-9?

8 A. It's a cutting that was taken from this area of
9 the front passenger seat, of a reddish-brown
10 stain.

11 Q. And did you tell us what Exhibit 332 is?

12 A. 332 is my item designation A-10 and that was a
13 reddish-brown stain that I recovered here from a
14 CD case in the front passenger seat.

15 Q. Now, you stated that A-9 was a cutting; how does
16 a cutting differ from a swab?

17 A. Any time we have a biological material on a hard
18 surface like glass, or wood, or that can, the
19 best way to recover the most amount of DNA is to
20 swab it with a cotton swab. If we have a stain
21 that appears to be a reddish-brown stain like
22 blood, or any biological material that's on
23 fabric, we simply cut that stain completely out.

24 Q. And what did you do with the cutting and the
25 swab? I'm sorry, back up. Referring now to Item

1 A-10, which is Exhibit 332; what is that?

2 A. That was the swab from the CD case, right here.

3 Q. And describe for the jurors what you observed on
4 that CD case?

5 A. There was a reddish-brown stain on the case. I
6 performed a presumptive positive, or presumptive
7 test and got positive results. And, therefore, I
8 sampled a portion of that stain to be further
9 tested for DNA.

10 ATTORNEY GAHN: I would ask that Detective
11 Wiegert would bring you Exhibits 333 and 335.

12 Q. And can you identify what Exhibit 333 is.

13 A. Yes, this is my item designation A-6.

14 Q. And can you identify 335?

15 A. It's my item designation as A-7.

16 ATTORNEY GAHN: And I'm going to ask
17 Mr. Fallon to bring you a photograph that has been
18 marked Exhibit 290.

19 Q. And ask you if this photograph is depicted on the
20 large screen?

21 A. Yes, it is.

22 Q. And would you tell the jurors what Item A-6 is,
23 which is Exhibit 333?

24 A. That's a cutting of a stain that was taken from
25 this area. It's a stain on -- actually the

1 fabric of the front driver's seat.

2 Q. And can you show the jurors what A-7 is and where
3 you obtained it.

4 A. A-7 were some reddish-brown crust that I found
5 here on the floor beside the console.

6 Q. And did you perform any presumptive test on each
7 of those samples?

8 A. Yes, I did.

9 Q. And what test did you perform?

10 A. I performed a preliminary test for blood. Both
11 of them were positive. So, therefore, I took the
12 cutting of A-6 from here and I removed the blood
13 crust of A-7 from this area.

14 Q. And what did you do with those?

15 A. The cutting I put in a coin envelope and sealed
16 it up. And the blood crust I put into a tube, a
17 small plastic tube and sealed that and put that
18 in a coin envelope.

19 ATTORNEY GAHN: I'm going to ask Detective
20 Wiegert if he would bring you Exhibit 334. And I'm
21 going to ask Mr. Fallon to bring you a photograph
22 that has been marked as Exhibit 294.

23 Q. And I ask you if Exhibit 294 is the photograph
24 that is depicted on the large screen?

25 A. Yes, it is.

1 Q. And can you identify what Exhibit 334 is?

2 A. It's my item designation A-12 and that was this
3 reddish-brown stain here that I sampled. It's on
4 the metal door frame between -- on the passenger
5 side, between the backseat and the cargo area.

6 Q. And did you conduct any presumptive tests on that
7 stain?

8 A. Yes, I did. I tested -- preliminary test for
9 blood and it was positive.

10 Q. And then what did you do?

11 A. I, again, sampled that in a clean cotton swab
12 with sterile water. And I took another portion
13 of the stain, I let it air dry. And that's what
14 I used for my DNA analysis.

15 ATTORNEY GAHN: I'm going to ask Detective
16 Wiegert to bring you Exhibit 336. And I'm going to
17 ask Mr. Fallon to bring you a photograph that has
18 been marked as Exhibit 291.

19 Q. And I ask you if Exhibit 291 is the photograph
20 that is depicted on the large screen?

21 A. Yes, it is.

22 Q. And will you identify for the jurors what exhibit
23 336 is?

24 A. It's my item designation A-8. And it was a
25 sample that I recovered from this reddish-brown

1 stain here, right by the ignition.

2 Q. Did you conduct a presumptive test for blood on
3 that stain?

4 A. Yes, I did, and it was positive.

5 Q. Then, after you conducted your presumptive test,
6 what did you do?

7 A. I sampled another portion of that stain on
8 another cotton swab and that's what I retained
9 for my DNA testing.

10 Q. And after you collected all these stains, then
11 what did you do with them?

12 A. I processed the car down in the garage area of
13 our laboratory. We have like a work space, a
14 work bench there. And that's where I had all of
15 my samples set up. When I was completed
16 processing the car, those were taken to my work
17 bench and the cotton swabs were put into small
18 coin envelopes to keep them until I began my
19 analysis on them.

20 Q. And when you say begin your analysis, are you
21 talking about the DNA testing procedures?

22 A. Yes, I am.

23 Q. In other words, you are going to begin those five
24 steps that you described to the jurors before
25 lunch?

1 A. Correct.

2 ATTORNEY GAHN: I would ask if Detective
3 Wiegert would bring you Exhibit 325. It's the Pap
4 smear of Teresa Halbach.

5 Q. Now, we have already identified that exhibit as
6 the Pap smear of Teresa Halbach; is that correct?

7 A. Yes.

8 Q. What is a Pap smear?

9 A. As I understand it, it is a sample of cells from
10 a woman's cervix. It is used for medical testing
11 to check for abnormal cells.

12 Q. And where would the DNA come from in a Pap smear?

13 A. As I stated earlier, any cell that -- any
14 nucleated cell is going to have DNA. So any of
15 the cells from the Pap smear, cervical area,
16 tissue cells, it will come from the nucleus of
17 those epithelial cells that are on that smear.

18 Q. Now, using the DNA technology that you described
19 before lunch time, did you develop a DNA profile
20 for Teresa Halbach, from that Pap smear?

21 A. Yes, I did.

22 Q. And I'm going to ask you, if according to your
23 reports, does the slide we will put up next
24 display your results?

25 A. Yes, it does.

1 Q. I would like you to take the laser pointer and at
2 this point explain to the jurors exactly what
3 they are looking at.

4 A. This series of numbers and letters on this side
5 are referred to as genetic markers. And all of
6 this information pinpoints where those genetic
7 markers are found throughout your DNA. Earlier I
8 talked about the target regions of DNA that are
9 amplified, and we make a whole lot of copies of
10 them.

11 This is what I was referring to. We
12 looked at 15 different target areas of DNA that
13 are amplified. These numbers on the right side
14 are the types at each one of those locations. So
15 for instance, at D3S1358, Teresa Halbach's type
16 is a 16 18.

17 Q. Are there other possible types at that genetic
18 location of D3S1358?

19 A. Yes.

20 Q. Do you know how many different types there are at
21 that location?

22 A. Not exactly, but probably something like 11 to
23 20.

24 Q. Can you compare, for the jurors, when you talk
25 about types, how these would be like ABO types?

1 A. These types are actually the different fragment
2 sizes, those different target sizes that we
3 amplified. The ABO system is a type of genetic
4 marker, but the discriminating power of ABO
5 systems, which is what we used many years ago, is
6 much less than the discriminating power of the
7 combined -- all of these combined types.

8 Q. Now, you previously testified that you collected
9 your swab A-1 from the rear cargo area --

10 A. Yes.

11 Q. -- of the RAV4; is that correct?

12 A. Yes.

13 Q. Can we go to the next one, please. And, again,
14 please show the jurors where you collected your
15 A-1 from.

16 A. In this area right here.

17 Q. And that was a blood stain that tested positive
18 in this presumptive test, correct?

19 A. Right.

20 Q. You also testified that you collected swab A-2
21 from across the panel of the rear cargo area.
22 Show the jurors, again, where that was.

23 A. Yes, that was right in this area here.

24 Q. And you also testified that you collected your
25 swab A-4 from the metal frame. Show the jurors

1 where that was.

2 A. Right along here.

3 Q. And you also testified that you collected A-3
4 from the cargo door itself; is that correct?

5 A. Yes.

6 Q. And can you show the jurors where that is?

7 A. Right here.

8 Q. And, again, all of these stains, you had a
9 presumptive positive test for blood?

10 A. That's correct.

11 Q. And you also testified that you collected a swab
12 from the Wild Cherry Pepsi can which you labeled
13 at A-14; is that correct?

14 A. Yes, right here.

15 Q. And, again, show the jurors. Thank you. Now,
16 did you develop DNA profiles from each of these
17 swabs?

18 A. Yes, I did.

19 Q. And according to the reports that you have, does
20 the following slide correctly depict your
21 results?

22 A. Yes, it does.

23 Q. And, again, would you explain to the jurors what
24 this slide shows.

25 A. Again, these are the genetic markers, these are

1 the 15 different markers we're looking at. And
2 these are the types that were developed from each
3 one of these evidence samples.

4 Q. And each one of those evidence samples came from
5 the RAV4 of Teresa Halbach, correct?

6 A. Correct.

7 Q. Now, can you tell whether this particular DNA
8 profile is from a male or a female?

9 A. Yes.

10 Q. How can you do that?

11 A. This marker here, referred to as amylogen, is a
12 gender marker. If you are female, you are only
13 going to have an X chromosome. If you are a
14 male, you will have a X and a Y chromosome.

15 Q. So this profile is from a female?

16 A. Correct.

17 Q. I notice that after genetic marker D7SA20 there
18 is an 11?

19 A. Correct.

20 Q. Why is there only one number there?

21 A. As I stated earlier, these genetic markers are
22 independently inherited, just like genes. So you
23 inherit 50 percent from your mom and 50 percent
24 from your dad. Now, the fact that this is an 11
25 means that she is a homozygote at this marker.

1 And that means she got the same type from her mom
2 and the same type from her dad. At D-3 there are
3 two markers. This is referred to as a
4 heterozygote. And she received one from her mom
5 and one from her dad.

6 Q. And this DNA profile that you developed from the
7 cuttings and the swabs from the RAV4, did you
8 compare that profile to the DNA profile that you
9 developed from Teresa Halbach's Pap smear?

10 A. Yes, I did.

11 Q. And according to your reports, does this slide
12 correctly display your findings?

13 A. Yes, sir, it does.

14 Q. Would you please point out to the jurors your
15 findings and conclusions?

16 A. Again, these are all the genetic markers. And
17 you can see that the types from the evidence
18 samples are consistent with the types from the
19 Pap smear of Teresa Halbach. So at this genetic
20 marker, the evidence sample is 16 18, Teresa is
21 16 18. At this marker it's 69.3, Teresa is a
22 69.3. And all of these markers are consistent
23 with the ones from Teresa Halbach.

24 Q. And did you calculate a statistic to determine
25 how rare or how common this particular DNA

1 profile would be in the population?

2 A. Yes, I did.

3 Q. And I'm going to show you a slide and ask you if
4 this correctly depicts the statistical analysis
5 that you performed?

6 A. Yes, it does.

7 Q. And would you explain to the jurors what this
8 slide means.

9 A. Remember earlier I said that we do a statistical
10 analysis when we have a match between an evidence
11 sample and a reference sample. If we have an
12 exclusion, we're finished, that's the end of it.
13 But if you have a match between an evidence
14 sample and a reference sample, then you have to
15 determine how common or how rare that match -- or
16 I mean that profile from the evidence sample is
17 in the population.

18 This first number here tells me that the
19 probability of finding someone in the Caucasian
20 population, some unrelated, random person that
21 has the same profile as the evidence sample, the
22 probability of that is 1 person in 416
23 quadrillion in the Caucasian population, 1 person
24 in 642 quadrillion in the African-American
25 population, 1 person in 641 quadrillion in the

1 southeastern Hispanic population, and 1 person in
2 1 quintillion in the southwestern Hispanic
3 population.

4 Q. And why do you look at these different
5 populations when you are estimating the frequency
6 of these genetic markers?

7 A. When we are calculating and estimating these
8 frequencies, we use a data base that's maintained
9 by the FBI. And that data base has samples from
10 individuals in these four different population
11 groups. This slide illustrates that even though
12 the rarity of the profile is different, in these
13 four population groups, there's not a lot of
14 difference between population groups. There are
15 some differences, but this profile is extremely
16 rare across all four populations.

17 Q. What does this number -- What do these numbers
18 mean, Ms Culhane?

19 A. This number means that the probability of finding
20 a person, random person, unrelated, in the
21 population, that has the same profile as the
22 evidence sample, is 1 person in 416 quadrillion.

23 Q. Do you have an opinion, to a reasonable degree of
24 scientific certainty, whether Teresa Halbach is
25 the source of the blood that you found on A-1,

1 A-2, A-3 and A-4, and the source of the
2 biological fluid on the Wild Cherry Pepsi can?

3 A. Yes, I do.

4 Q. And what is that opinion?

5 A. That Teresa Halbach is the source of the DNA from
6 those items.

7 ATTORNEY GAHN: I'm going to ask Detective
8 Wiegert to bring you what has been marked as Exhibit
9 337.

10 Q. Again, I have spoken with defense counsel before
11 we began this afternoon and, Ms Culhane, does
12 that container, which is Exhibit 337, contain
13 some charred remains that you examined in this
14 case?

15 A. Yes, it does.

16 Q. And did you assign a Crime Lab designation number
17 to that?

18 A. Yes, I did.

19 Q. What is that?

20 A. Item BZ.

21 Q. And I'm going to ask you to look on the slide on
22 the big screen. And what is contained in that
23 box there in front of you, which is Exhibit 337,
24 is this the piece of charred remains that you
25 examined?

1 A. Yes, it is.

2 Q. And when did you receive this; do you know?

3 A. I can refer to my notes.

4 Q. Please.

5 THE COURT: Do we have a number for the
6 photo exhibit?

7 ATTORNEY GAHN: Your Honor, we don't have
8 that with us, but you will get one.

9 A. Item BZ was taken into the laboratory on November
10 11th, 2005.

11 Q. And was this -- When you examined this, was this
12 a combination of bone and tissue?

13 A. It appeared to be, yes.

14 Q. And what is shown on the big screen here, which
15 we will later get an exhibit for and mark it, is
16 that the bone and tissue fragment sample that you
17 examined?

18 A. Yes, it is.

19 Q. How did you go about processing this for DNA?

20 A. Because this sample was compromised, it had been
21 subjected to -- appeared to be subjected to
22 intense heat, I needed to find an area that I
23 felt was the least damaged. So I chose a portion
24 of the tissue, which I believe was in this area
25 here, close to the bone. And sampled a portion

1 of that to continue my extractions and to
2 continue my typing.

3 Q. Were you able to develop a DNA profile from this
4 piece of charred remains?

5 A. Yes, I was.

6 Q. And according to your reports, does the next
7 slide correctly display your findings of your
8 test?

9 A. Yes, it does.

10 Q. Would you explain to the jurors what this is.

11 A. Again, these are the genetic markers that we're
12 looking at. And these are the types. You will
13 notice here there are no numbers at these
14 positions, these markers. And the reason is
15 because this was a fairly degraded sample of DNA.
16 DNA is a very stable molecule; however, it breaks
17 down and is degraded and broken up into pieces by
18 several things, heat being one, sunlight,
19 nucleases in the environment that chew it up.

20 But this was obviously a sample that had
21 been subjected to intense heat. And so,
22 therefore, on these fragments, these STR markers,
23 which are fairly large, the fragments -- there
24 was not enough DNA at those positions to develop
25 a type.

1 Q. Did you compare this partial profile with the DNA
2 profile that you obtained from the Pap smear of
3 Teresa Halbach?

4 A. Yes, I did.

5 Q. And does this slide accurately depict your
6 findings?

7 A. Yes.

8 Q. And would you please explain what your findings
9 were, to the jury?

10 A. In the -- At the marker positions where I did get
11 results, these types are consistent with Teresa.
12 Obviously, I don't know what the types are here
13 because there were no results. But for
14 everything else, all the types that I actually
15 developed, they were consistent with Teresa
16 Halbach.

17 Q. Now, you stated previously, when you made your
18 comparisons to Teresa Halbach's DNA profile with
19 the samples of blood that you found in the RAV4,
20 you were able to determine that Teresa Halbach
21 was the source of that blood; is that correct?

22 A. Yes.

23 Q. Can you say that in this case?

24 A. No.

25 Q. Why not?

1 A. This was a partial profile. When we have a
2 partial profile, we can only do a statistical
3 interpretation on the markers that we have
4 results for. In order to get very large numbers
5 and very rare profiles, what gives us those large
6 numbers is results, at all 15 different markers.
7 When we have less than that, then the frequency
8 of that profile becomes a little more common than
9 it would if it was a complete profile.

10 Q. Were you able to develop a statistic to tell you
11 how rare or how common the DNA profile on Item
12 BZ, the charred remains, would be in the
13 population?

14 A. Yes, I was.

15 Q. And does the next slide depict the frequency in
16 the population of the DNA profile on the charred
17 remains?

18 A. Yes.

19 Q. And would you explain to the jury these numbers
20 and what they mean.

21 A. This calculation was done exactly like the
22 calculation from the blood stains. The
23 difference is, this was not a full profile, it
24 was only a partial profile. So if you do a
25 statistical analysis of the types that you got,

1 and calculated the frequency of those types, the
2 probability of another random, unrelated person,
3 in the population, having the profile, the
4 partial profile of the remains, is 1 person in
5 1 billion in the Caucasian population, 1 person
6 in 2 billion in the African/American population,
7 1 person in 2 billion in the southeastern
8 Hispanic population; and 1 person in 3 billion in
9 the southwestern Hispanic population.

10 Q. And, again, can you break this down for the
11 jurors, exactly what that number, one billion,
12 would mean, as it relates to this DNA profile
13 from the charred remains?

14 A. That is the frequency that that partial profile,
15 those results at just the markers that I got
16 results from, the frequency of that partial
17 profile, that is the frequency that it occurs in
18 the population.

19 Q. Are there a billion people in the State of
20 Wisconsin?

21 A. I don't believe so.

22 ATTORNEY GAHN: Your Honor, I have now what
23 has been a photograph that has been marked as
24 Exhibit 338. I will ask Mr. Fallon if he will give
25 that to Ms Culhane.

1 Q. And Ms Culhane, would you look at that
2 photograph, and is that a photograph of the piece
3 of charred remains that we previously put up on
4 the large screen.

5 A. Yes, it is.

6 ATTORNEY GAHN: I would ask if Detective
7 Wiegert would bring you Exhibit 237 -- I'm sorry,
8 277. This would be the bullet fragment.

9 Q. And can you identify that exhibit that's in front
10 of you, Ms Culhane?

11 A. Yes, this is Crime Lab item designation FL. And
12 it is a lead bullet fragment. My initials and
13 markings are on the packaging.

14 Q. And can you tell when you received that exhibit?

15 A. That came into the laboratory on May 16 -- I'm
16 sorry, March 16th, 2006, and I took custody on
17 March 28th, 2006.

18 Q. And how did you process that bullet?

19 A. The first thing I did was, just like every item
20 of evidence, it was a visual examination. There
21 was nothing visual on the fragment. There didn't
22 appear to be any stain. So in order to remove
23 any residual DNA that might have been on the
24 bullet, I washed it. I put it in a test tube and
25 washed it with some buffer that we use to extract

1 the DNA. And the washing of that bullet, the
2 washing liquid is what I performed the rest of my
3 procedure on.

4 Q. And were you able to develop a DNA profile from
5 that washing on Item FL, the bullet?

6 A. Yes.

7 Q. And according to your reports, does the next
8 slide correctly display your findings?

9 A. Yes, it does.

10 Q. And would you please explain your results to the
11 jurors?

12 A. Again, I was looking at all of these. These are
13 the different markers. And these are the types
14 at each one of these markers. You will notice at
15 D-16 and at TPOX I am -- there's an asterisk
16 there. That indicates that there was a visible
17 peak there which represents a type. But it was
18 below our parameters for including that in the
19 final analysis. So it -- I'm missing a peak here
20 and a peak at TPOX.

21 Q. And did you compare this profile that you
22 obtained from the bullet fragment with the DNA
23 profile you obtained from the Pap smear of Teresa
24 Halbach?

25 A. Yes, I did.

1 Q. And according to your reports, does this slide
2 correctly display your findings?

3 A. Yes, it does.

4 Q. And would you explain them to the jury.

5 A. The profile from the bullet is consistent with
6 all of the types from Teresa Halbach. You will
7 notice at D16 she's missing the 13 type, and at
8 TPOX she is missing the 10 type. And, again,
9 those peaks were visible, but they were below our
10 threshold for calling those types.

11 Q. Did that have any impact on your match criteria
12 in this interpretation?

13 A. The impact is that I cannot use the information,
14 the frequencies at this marker, and at this
15 marker, to figure out my final frequency. In
16 other words, I had to calculate the frequencies
17 at all of the other markers except D16 and TPOX.

18 Q. But nothing about those two asterisks that you
19 have on your -- on the chart here excluded Teresa
20 Halbach as being on the bullet?

21 A. That's correct.

22 Q. Did this match differ in any way from the
23 previous matches that you called?

24 A. Yes, it did.

25 Q. And could you explain to the jury what happened.

1 A. During the extraction of this item of evidence,
2 as I talked about earlier, we set up controls
3 that we run with all of our samples. When we
4 begin an extraction, whether it is an evidence
5 sample or a reference sample, when we begin the
6 extraction, we begin what's called a manipulation
7 control. And it's, basically, a negative blank
8 control. And it helps us monitor if any
9 unintentional DNA is introduced into the sample
10 or into the process.

11 In this particular case, there was a
12 trace amount of -- a trace amount of DNA showed
13 up in the quantitation portion where I had to
14 quantitate and find out how much DNA I had.
15 There was a trace amount of DNA in the negative
16 control. I took the profile to completion and I
17 developed the profile on it. And the profile in
18 the negative control turned out to be consistent
19 with my own DNA type.

20 Q. What did that mean?

21 A. That means that during the extraction procedure I
22 inadvertently introduced my own DNA into the
23 negative control.

24 Q. Did that have any impact on your interpretation
25 of your results?

1 A. It did not have any impact as far as the profile
2 from the evidence sample. It's just the fact
3 that I introduced my own DNA into the
4 manipulation control.

5 Q. Were there any other profiles developed on the
6 bullet besides Teresa Halbach?

7 A. No.

8 Q. Was Teresa Halbach's profile the only profile
9 that you found on that bullet?

10 A. Yes.

11 Q. Were there any mixtures?

12 A. No.

13 Q. And your profile was found where?

14 A. In the negative control, which should have had
15 just reagents in it. It should not have had any
16 DNA at all in it.

17 Q. And how do you think your DNA profile got into
18 that control?

19 A. I believe my DNA profile was introduced during
20 the extraction procedure when I was talking. At
21 the time when I was setting up these samples, I
22 was training two analysts, newer analysts, in the
23 lab. And they were watching me. This sample was
24 not an average sample, simply because we handled
25 it a little different. It wasn't a swabbing and

1 it wasn't a cutting. The washing part of it was
2 a little bit different than what we usually do.

3 So I was explaining to them what I was
4 doing and as I was setting it up. And
5 apparently -- I felt as if I was far enough away
6 from my workbench not to introduce my DNA, but
7 apparently I was incorrect.

8 Q. Now, your DNA did not come up on the bullet, did
9 it?

10 A. No.

11 Q. It only was in the control?

12 A. That's correct.

13 Q. Do you have an opinion, to a reasonable degree of
14 scientific certainty, whether Teresa Halbach is
15 the source of the DNA on Item FL, the bullet?

16 A. Yes.

17 Q. And what is that opinion?

18 A. I believe she is the source of the DNA on that
19 bullet.

20 ATTORNEY GAHN: I would ask if Detective
21 Wiegert would, please, bring to Ms Culhane what's
22 been marked as Exhibit 324, and this would be the
23 buccal swab of Steven Avery.

24 Your Honor, before I go any further, I
25 think we have some considerable more testimony

1 for the rest of these samples. Would you like to
2 break now?

3 THE COURT: I think we'll go another 15
4 minutes to kind of split the afternoon equally in
5 two.

6 ATTORNEY GAHN: Okay.

7 Q. (By Attorney Gahn)~ Detective Wiegert has brought
8 you what has been marked as Exhibit 324, and that
9 is what you identified as the buccal swab of
10 Steven Avery?

11 A. Yes.

12 Q. And once again, that's what's called a standard,
13 correct?

14 A. Correct.

15 Q. And what are standards used for?

16 A. As reference samples to compare to the evidence
17 samples.

18 Q. Using the DNA testing procedures that you
19 described this morning, did you develop a DNA
20 profile from the buccal swab of Steven Avery?

21 A. Yes, I did.

22 Q. And does the next slide correctly depict the DNA
23 profile that you developed from Steven Avery's
24 buccal swab?

25 A. Yes, it does.

1 Q. And would you describe for the jurors your
2 findings?

3 A. These are the same genetic markers that I
4 examined when I looked at the evidence samples
5 and the standard from Teresa Halbach. And,
6 again, at each one of these markers, Steven
7 Avery's sample had a specific type. The
8 amelogenin marker is XY, which is different from
9 Teresa because this is a male individual. And he
10 has the X and Y chromosome.

11 Q. We heard testimony yesterday that a number of
12 swabs were taken from the garage floor of Steven
13 Avery. And did you receive, at the Crime Lab,
14 swabs that were taken from the garage floor of
15 Steven Avery's garage?

16 A. Yes, I did.

17 Q. And did you assign Crime Lab designation numbers
18 G, I1, J, K, O, and P to six of the swabs from
19 the stains on the garage floor of Steven Avery's
20 garage?

21 A. Yes, I did.

22 Q. And did you test those swabs from Steven Avery's
23 garage floor --

24 A. Yes.

25 Q. -- for a DNA profile? And did you obtain a DNA

1 profile?

2 A. Yes, I did.

3 Q. And does the next slide correctly show the DNA
4 profile that you obtained from the six swabs of
5 blood from the garage floor?

6 A. Yes, it does. And, again, you can see that the
7 types are consistent throughout all of the
8 markers that we looked at.

9 Q. Now, did you receive other items? We have had
10 testimony in this case that blood stains from the
11 sink or the vanity in the residence of Steven
12 Avery were taken and sent to the Crime Lab; do
13 you recall that?

14 A. Yes.

15 Q. And do you recall submitting those to DNA
16 testing?

17 A. Yes.

18 Q. And did you develop a profile from those
19 submissions?

20 A. Yes, I did.

21 Q. And what was the profile you developed?

22 A. It was consistent with Steven Avery's profile.

23 Q. And I'm going to show you the next slide. And
24 this has been identified as the Grand Am, the
25 1993 Grand Am owned by Steven Avery. Did you

1 also examine this at your Crime Lab?

2 A. Yes, I did.

3 Q. And on the next slide, can you point out to the
4 jurors, did you locate any bloodstains in that
5 vehicle?

6 A. Yes, there were bloodstains on the gear shaft
7 here and along the console.

8 Q. And did you do presumptive tests on those
9 bloodstains?

10 A. Yes, I did.

11 Q. And did you eventually do DNA testing on those
12 bloodstains?

13 A. Yes.

14 Q. And what were your results?

15 A. The types were consistent with Steven Avery.

16 Q. We had testimony a few days ago that there was a
17 swab taken of the release lever of the hood latch
18 of Teresa Halbach's RAV4. That was identified as
19 Exhibit 205.

20 ATTORNEY GAHN: Will you find that exhibit,
21 please, Detective Wiegert.

22 Q. Can you identify that exhibit, Ms Culhane?

23 A. Yes, this is our item designation ID, and it has
24 our laboratory bar code item designation and my
25 initial and date on it.

1 Q. And that contains a swab from the hood latch of
2 Teresa Halbach's RAV4?

3 A. Yes.

4 Q. And did you perform DNA testing on that hood
5 latch --

6 A. Yes.

7 Q. -- swab? Do you recall, when you looked at the
8 swab, did you notice any condition to it, as far
9 as color?

10 A. It was discolored, but it did not have the
11 appearance -- it was not a reddish-brown
12 discoloration consistent with blood.

13 Q. So it did not appear to have blood on the swab?

14 A. Correct.

15 Q. But you proceeded with DNA testing on the swab,
16 nevertheless?

17 A. Yes.

18 Q. And did you develop a profile from the swab of
19 the hood latch of Teresa Halbach's RAV4?

20 A. Yes, I did.

21 Q. And I'm going to show you the next slide and ask
22 you, do your notes and your records reflect these
23 as your findings?

24 A. Yes, they do.

25 Q. Could you explain what your findings were to the

1 jury.

2 A. Looking at the same genetic markers, these are
3 the types that were developed from the swab that
4 was reportedly taken from the hood latch of the
5 RAV4.

6 Q. And this is what you would call a full profile;
7 is that correct?

8 A. Yes.

9 Q. What does that mean when you say it is a full,
10 complete profile?

11 A. A full profile indicates that you have gotten
12 results at all 15 different markers that we look
13 at. If this was a partial profile, such as in
14 the charred remains, I would be missing types at
15 some of these markers.

16 Q. Did you compare this profile that you found on
17 the swab of the hood latch of Teresa Halbach's
18 RAV4 with the DNA profile that you developed from
19 the buccal swab of Steven Avery?

20 A. Yes, I did.

21 Q. And does this next slide correctly display your
22 findings?

23 A. Yes, it does.

24 Q. And would you please describe your findings to
25 the jurors?

1 A. At each one of the markers, the types from the
2 swabbing on the hood latch were consistent with
3 the types from Steven Avery's buccal swab. If
4 you look at all the numbers for all of the
5 markers, they are consistent with the entire
6 profile.

7 Q. Now, you testified before that you received a
8 number of standards at the Crime Lab, did you?

9 A. Yes.

10 Q. In other words, you received buccal swabs from
11 Allen Avery, Brian Dassey, Brendan Dassey, Barb
12 Janda, Bobby Dassey, Earl Avery, Chuck Avery and
13 Delores; is that correct?

14 A. Yes.

15 THE COURT: Mr. Gahn, excuse me, after you
16 wrap up this portion of the hood latch, I think
17 we'll take our break.

18 ATTORNEY GAHN: Yes, your Honor. Fine.
19 Thank you.

20 Q. (By Attorney Gahn)~ Did you develop DNA profiles
21 from all those standards of reference samples?

22 A. Yes, I did.

23 Q. When you would come up with a profile from an
24 evidentiary item like the hood latch, did you
25 compare the profile from the hood latch with all

1 the other standards?

2 A. Yes, I did.

3 Q. And what were the results?

4 A. They were inconsistent. The profile from the
5 hood latch was not consistent with any of the
6 other standards that I examined.

7 Q. But the profile from the hood latch matches
8 Steven Avery?

9 A. That's correct.

10 Q. And do you have an opinion, to a reasonable
11 degree of scientific certainty, whether the DNA
12 profile that you developed from the swab of the
13 hood latch of Teresa Halbach's RAV4, that Steven
14 Avery is the source of that profile?

15 A. Yes.

16 Q. And what is that opinion?

17 A. That he is the source of that profile.

18 ATTORNEY GAHN: Thank you.

19 THE COURT: All right. Thank you. Members
20 of the jury, we're going to take our afternoon break
21 at this time. We'll resume a little before 3:00. I
22 will remind you, again, not to discuss the case at
23 any time during the break.

24 (Jury not present.)

25 THE COURT: Counsel, let's report back a

1 little before 3:00.

2 (Recess taken.)

3 THE COURT: Counsel, before we bring the
4 jury back in, I just wanted to get some idea of the
5 agenda for the rest of the day. Mr. Gahn, how long
6 do you think you will be with direct?

7 ATTORNEY GAHN: I think at least a half
8 hour, possibly 40, 45 minutes. But I don't think
9 not before a half hour, I don't believe.

10 THE COURT: All right. And, Mr. Buting, I
11 take it you may well not complete your
12 cross-examination, but you wish to get started?

13 ATTORNEY BUTING: I wouldn't even come
14 close to completing the examination. Normally, I
15 guess I wouldn't mind starting and finishing it if
16 it was the next day, but I think with a whole break
17 of a weekend, it might be easier, if the Court
18 didn't mind ending a little early today, if we would
19 just start fresh with cross on Monday morning.

20 THE COURT: Okay. Before I answer that,
21 does the State have any shorter, quicker witnesses.

22 ATTORNEY KRATZ: I'm finding out right now,
23 Judge. We have some examination with Mrs. Halbach,
24 Karen Halbach, that we would be happy to put in
25 today.

1 ATTORNEY BUTING: Could we approach for a
2 moment, please.

3 THE COURT: Go ahead.

4 (Side bar taken.)

5 THE COURT: All right. Before we go back,
6 I should announce we just had a side bar conference
7 and I think the feeling is that if the direct
8 examination ends a little early today, we'll
9 probably simply let the jury go home a little early.

10 There was a side bar earlier this
11 morning where counsel asked the Court if the
12 other jurors knew why one of the jurors was
13 missing today. And the answer to that is, yes,
14 they learned that this morning when they were
15 leaving on the bus. And that was the purpose for
16 that brief side bar we had earlier today. All
17 right. At this point we'll bring in the jury.

18 (Jury present.)

19 THE COURT: You may be seated. And,
20 Mr. Gahn, you may resume your direct examination of
21 the witness.

22 ATTORNEY GAHN: Thank you, your Honor.

23 **DIRECT EXAMINATION CONTD.**

24 ATTORNEY GAHN: I would ask if Detective
25 Wiegert could retrieve Exhibit 211, which is the

1 Toyota key. Please take that to Ms Culhane.

2 BY ATTORNEY GAHN:

3 Q. We have presented you with an exhibit that has
4 previously been marked as Exhibit 211, and
5 previously identified as a Toyota key that was
6 found in Steven Avery's residence. And I ask
7 you, do you recognize that key?

8 A. Yes, I do.

9 Q. And how do you recognize that key?

10 A. It's the Toyota key that I examined. There was a
11 -- This is the same keyring that it was attached
12 to.

13 Q. We also have, on the next slide, a photograph
14 that -- is that key that you have in front of
15 you, Exhibit 211, the key that is in this
16 photograph?

17 A. Yes, it is.

18 Q. There is also another item in that photograph,
19 and does that help you identify the key?

20 A. Yes, it does.

21 Q. And, please, explain that to the jury.

22 A. This is the packaging that the key was brought to
23 the laboratory in. Again, this is our bar code
24 tracking system in the laboratory. And this is
25 our item designation C, and my initials, and the

1 date.

2 Q. I'm going to show you what has been marked as
3 Exhibit 316 and ask you if this photograph, which
4 you are being shown, is the photograph that is
5 depicted on the large screen?

6 A. Yes, it is.

7 Q. And now, I would like to go to the next slide.
8 And this is a slide of the key that you have in
9 front of you; is that correct?

10 A. It appears to be, yes.

11 Q. When you received this key, how did you process
12 it, Ms Culhane?

13 A. I received the key. It was in a sealed brown
14 paper bag. I opened it up. I had gloves on.
15 And I held the metal part of the key in one hand
16 and I swabbed the black -- I should show you up
17 here -- this black rubberized part of the key,
18 with a sterile cotton swab. And I did it in very
19 much the same way that I swabbed the Pepsi can
20 that we looked at earlier.

21 At this point, there were no visible
22 indications of any staining, so I was primarily
23 interested to see if I could recover DNA that had
24 been left behind by possibly touching. So I
25 swabbed all of the surfaces, the front and back,

1 and the edges of the key, and that's what I did
2 my analysis on.

3 Q. After you did the swabbing of the key, did you do
4 anything else with the key?

5 A. Yes, I did.

6 Q. Please explain to the jurors what you do with the
7 key.

8 A. I took the key to see if it fit the vehicle. So
9 I put the key into the ignition. I still had, of
10 course, gloves on, during this entire process. I
11 put the key into the ignition and turned the
12 ignition. It did turn the ignition, but it did
13 not crank the car. And I later learned that that
14 was because, I believe, the battery had been
15 disconnected. But it did actually turn
16 completely over. I also locked, I believe it was
17 the front driver's side door, and used the key to
18 unlock the door.

19 Q. The buccal swab that you took of this key, did
20 you submit that to DNA testing?

21 A. Yes, I did.

22 Q. And were you able to develop a profile from the
23 swabbing of Item C, the key to Teresa Halbach's
24 car?

25 A. Yes.

1 Q. And does this slide clearly and correctly show
2 your findings?

3 A. Yes, it does.

4 Q. Would you explain to the jury your findings.

5 A. Again, we looked at the same 15 markers. And at
6 each one of these markers I developed a type.
7 And that is the profile that characterizes the
8 swabbing that I took from the key.

9 Q. And, again, this profile that you developed from
10 the key, is that a profile that came from a male
11 individual?

12 A. Yes, it is. And that's -- We have an X and a Y
13 chromosome which indicate the male individual.

14 Q. And did you compare the profile that you
15 developed from your swabbing of this key with the
16 DNA profile that you developed from the buccal
17 swab of Steven Avery?

18 A. Yes, I did.

19 Q. And does this next slide correctly show your
20 findings?

21 A. Yes, it does.

22 Q. And, again, would you explain your findings to
23 the jury.

24 A. The same 15 markers, these are the types at each
25 one of these markers. And you can see at every

1 type, the type from the evidence -- or the
2 profile from the evidence sample is consistent
3 with the profile from Steven Avery.

4 Q. And, again, Ms Culhane, the profile that you
5 developed from Item C, the key, is that what you
6 refer to as a full, complete DNA profile?

7 A. Yes.

8 Q. And why is that, again?

9 A. Because we have types at each one of these
10 markers. There are types present at each one of
11 the markers.

12 Q. And, again, did you compare this profile with the
13 DNA profiles that you developed from all the
14 standards that were submitted in this case?

15 A. Yes, I did.

16 Q. In other words, did you compare the DNA profile
17 that you found on Item C with the DNA profile
18 from the buccal swab of Allen Avery?

19 A. Yes.

20 Q. And Brian Dassey?

21 A. Yes.

22 Q. And Brendan Dassey?

23 A. Yes.

24 Q. And Barb Janda?

25 A. Yes.

1 Q. And Bobby Dassey?

2 A. Yes.

3 Q. And Earl Avery?

4 A. Yes.

5 Q. And Chuck Avery?

6 A. Yes.

7 Q. And Delores Avery?

8 A. Yes, I did.

9 Q. And did the DNA profile that you developed from
10 Item C, the key, match any of those standards?

11 A. No, it did not.

12 ATTORNEY GAHN: At this time, I'm going to
13 ask Detective Wiegert if he can, please, retrieve
14 for me the photograph of the RAV4 -- I'm looking for
15 the photograph, I'll give you a exhibit number in
16 just one second -- Exhibit 290, 294, 291, and 292,
17 please.

18 Q. Ms Culhane, would you find Exhibit 290.

19 A. 290?

20 Q. 290.

21 A. No, I have 291, 292 and 294.

22 Q. Do you have that?

23 A. Yes, I do.

24 Q. And I apologize for the delay here. Is that
25 photograph depicted on the large screen here?

1 A. Yes, it is.

2 Q. Now, you previously testified that you took
3 cuttings which you identified as Item A-6 from
4 the RAV4?

5 A. Correct.

6 Q. Can you show the jurors where it was you took the
7 cuttings?

8 A. In the front driver's seat, right about here.

9 Q. And those were the cuttings of a stain that you
10 had tested for blood with the presumptive test?

11 A. Yes.

12 Q. And I also believe that you testified earlier
13 that you collected your Item No. A-7 from the
14 center console area of the RAV for, would you
15 point that out to where that was for the jurors.

16 A. Right along the floor here by the console.

17 Q. Okay. And did you perform DNA testing on those
18 two evidentiary samples?

19 A. Yes, I did.

20 Q. And did you develop a DNA profile for the blood
21 stain on Item A-6?

22 A. Yes, I did.

23 Q. And according to your reports, does the next
24 slide correctly depict the DNA findings?

25 A. Yes, it does.

1 Q. And, again, would you explain those to the
2 jurors.

3 A. Again, these are the same 15 markers and these
4 are the types at each one of these markers that
5 were developed from the cutting of the stain in
6 the driver's seat of the RAV4.

7 Q. And, again, is this what you consider to be a
8 complete full DNA profile?

9 A. Yes.

10 Q. And did you also compare this profile to the DNA
11 profile that you developed from the buccal swab
12 of Steven Avery?

13 A. Yes, I did.

14 Q. And does this slide correctly display your
15 findings?

16 A. Yes, it does.

17 Q. And would you explain your findings to the jury?

18 A. Again, this is the profile developed from the
19 evidence sample. You can tell it's from a male
20 individual. All of the types are consistent with
21 each one of the types, at each marker, from the
22 reference standard of Steven Avery.

23 Q. And the DNA profile that you found in Item A-6,
24 the bloodstain, did you compare that to the other
25 standards that you received at the lab?

1 A. Yes, I did.

2 Q. And how did this profile compare to the other
3 standards?

4 A. It was not consistent with any of the other
5 standards that I examined.

6 Q. It was only consistent with the DNA profile of
7 Mr. Steven Avery?

8 A. That's correct.

9 Q. Did you develop a DNA profile from your Item No.
10 A-7, which were the blood crusts by the center
11 console?

12 A. Yes.

13 Q. And does the following slide show your findings?

14 A. Yes, it does.

15 Q. And would you explain those to the jurors.

16 A. Again, at each genetic marker, these are the
17 types. At D-5, this asterisk here indicates that
18 there was a peak there, a visible peak, but it
19 was below the parameters of our system. So that
20 would not be included in the statistical
21 interpretation of this sample -- of this profile.

22 Q. Now, that's only not included in the statistical
23 analysis, correct?

24 A. Correct.

25 Q. Now, the fact that that asterisk was there, did

1 not have any impact in your interpretation of
2 this profile as it compared to Steven Avery, did
3 it?

4 A. No.

5 Q. And did you compare this profile to Steven
6 Avery's profile?

7 A. Yes, I did.

8 Q. And does this slide correctly show your findings?

9 A. Yes, it does. And, again, you can see that the
10 profile is consistent with Steven Avery at every
11 genetic marker.

12 Q. Do you have an opinion, to a reasonable degree of
13 scientific certainty, whether Steven Avery is the
14 source of the blood stain on Item A-6, which was
15 the stain found on the driver's passenger seat?

16 A. Yes, I do.

17 Q. And what is that opinion?

18 A. That Steven Avery is the source of that profile.

19 Q. And do you have an opinion, to a reasonable
20 degree of scientific certainty, whether Steven
21 Avery is the source of the DNA profile that you
22 found on Item A-7, the blood crusts by the center
23 console?

24 A. Yes, I do.

25 Q. And what is that opinion?

1 A. That Steven Avery is consistent with that
2 profile.

3 Q. Do you have Exhibit 293 in front of you?

4 A. No, I'm sorry, I don't.

5 Q. I'm sorry. Do you have that now?

6 A. Yes.

7 Q. Is that photograph the same photograph that is up
8 on the big screen?

9 A. Yes, it is.

10 Q. Now, you previously testified that you collected
11 a cutting which you identified as Item A-9 of a
12 bloodstain from the front passenger seat of
13 Teresa Halbach's RAV4. Can you show the jurors
14 where that cutting was, once more.

15 A. Yes, right in this area here.

16 Q. And did you perform a DNA test on that cutting?

17 A. Yes, I did.

18 Q. And according to your reports, does the following
19 slide correctly display your results?

20 A. Yes, it does.

21 Q. Could you explain them to the jurors.

22 A. These are the exact same markers that we looked
23 at in each sample. And, again, there are types
24 at each one of these markers, and XY depicting a
25 male individual.

1 Q. And, again, is this what you call a complete full
2 profile?

3 A. Yes, it is.

4 Q. And did you compare the profile that you
5 developed from the bloodstain from the front
6 passenger seat of Teresa Halbach's car with the
7 DNA profile that you obtained from the buccal
8 swab of Steven Avery?

9 A. Yes, I did.

10 Q. And does this next slide show your findings?

11 A. Yes, it does.

12 Q. And would you explain them to the jury, too,
13 please.

14 A. This is the profile developed from the cutting in
15 the passenger -- the front passenger seat. And
16 this is the profile from Steven Avery's buccal
17 swab. And you can see it's consistent at all of
18 the 15 genetic markers.

19 Q. Do you have an opinion, to a reasonable degree of
20 scientific certainty, whether Steven Avery is the
21 source of the bloodstain that was found on Item 9
22 on the front passenger seat of Teresa Halbach's
23 RAV4?

24 A. Yes, I do.

25 Q. And what is that opinion?

1 A. That Steven Avery is the source of that stain,
2 A-9.

3 Q. All right. Now, you also previously testified
4 that you collected the swab from what was Item
5 A-10, that is the CD case that was on the front
6 seat of Teresa Halbach's car, correct?

7 A. Yes.

8 Q. And did you develop a DNA profile from the blood
9 stain on the CD case?

10 A. Yes, I did.

11 Q. And does the next slide correctly show your
12 findings?

13 A. Yes, it does.

14 Q. Did you compare this profile with the profile
15 that you developed from the buccal swab of Steven
16 Avery?

17 A. Yes, I did.

18 Q. And does this next slide correctly show your
19 findings according to your reports?

20 A. Yes, it does. Again, you can see all of the
21 types are exactly the same through all the
22 genetic markers.

23 Q. And do you have an opinion, to a reasonable
24 degree of scientific certainty, whether Steven
25 Avery is the source of the blood that you found

1 on the CD case in Teresa Halbach's SUV?

2 A. Yes, I believe he is the source of the blood
3 stain, Item A-10.

4 Q. Ms Culhane, do you have Exhibit 294 in front of
5 you?

6 A. Yes, I do.

7 Q. And does that photograph -- is that depicted on
8 the large screen here?

9 A. Yes, it is.

10 Q. Now, you previously testified that you collected
11 a bloodstain from the paneling of the rear
12 passenger door. And would you point out to the
13 jurors, one more time, where that bloodstain was?

14 A. This area right here.

15 Q. Yes. And you designated that as Crime Lab
16 designation Item A-12; is that correct?

17 A. Yes.

18 Q. And did you perform DNA testing on Item A-12?

19 A. Yes, I did.

20 Q. And did you develop a DNA profile from the
21 testing of that bloodstain?

22 A. Yes, I did.

23 Q. And does the next slide correctly show your
24 findings?

25 A. Yes, it does.

1 Q. And, again, did you compare the profile, the DNA
2 profile that you developed from the bloodstain on
3 the rear passenger door of Teresa Halbach's RAV4,
4 with the DNA profile that you obtained from the
5 buccal swab of Steven Avery?

6 A. Yes, I did.

7 Q. And does this slide correctly show your findings?

8 A. Yes, it does. And, again, you can see, at each
9 one of the markers, the types are consistent.

10 Q. I would ask you if you have in front of you
11 Exhibit 291.

12 A. Yes, I do.

13 Q. And is that photograph shown on the big screen
14 now?

15 A. Yes, it is.

16 Q. Now, you previously testified that you collected
17 this bloodstain on the dashboard of Teresa
18 Halbach's RAV4, by the ignition switch; is that
19 correct?

20 A. Yes.

21 Q. And this -- you did a presumptive test for blood
22 on that stain?

23 A. Yes, I did.

24 Q. And did you perform DNA testing on this
25 bloodstain in Teresa Halbach's vehicle?

1 A. Yes.

2 Q. And did you develop a DNA profile from that
3 bloodstain?

4 A. Yes, I did.

5 Q. And does this next slide correctly show your
6 findings?

7 A. Yes, it does.

8 Q. And did you compare the DNA profile from that
9 bloodstain with the DNA profile of Steven Avery?

10 A. Yes, I did.

11 Q. And does this next slide show your results?

12 A. Yes, it does.

13 Q. And, again, would you explain what those were to
14 the jury.

15 A. This is the profile from A-8, which is the stain
16 by the ignition. And this is the profile from
17 Steven Avery's buccal swab. And you can see at
18 each one of the markers, the types are
19 consistent.

20 Q. And, once again, is this what you consider a full
21 complete DNA profile?

22 A. Yes, it is.

23 Q. And the DNA profile that you developed from Item
24 A-8, the blood stain found near the ignition of
25 Teresa Halbach's SUV, did you compare that

1 profile with the profiles that you developed from
2 all the other standards in this case?

3 A. Yes, I did.

4 Q. And what were your results?

5 A. It was not consistent with any of the other
6 standards.

7 Q. It was only consistent with the DNA profile of
8 Steven Avery?

9 A. Correct.

10 Q. Did you arrive at a statistical number for this
11 profile that would reflect how often, or how
12 rare, or how common, this profile would be in the
13 population?

14 A. Yes, I did.

15 Q. And I would ask if this slide correctly displays
16 that statistic?

17 A. Yes, it does.

18 Q. And could you explain to the jurors what that
19 statistic is?

20 A. This number tells me that the probability of
21 another unrelated, random person in the
22 population, having the same profile as the
23 evidence samples that we just talked about, is 1
24 person in 4 quintillion in the Caucasian
25 population, 1 person in 898 quintillion in the

1 African/American population, 1 person in 25
2 quintillion in the southeastern Hispanic
3 population, and 1 person in 123 quintillion in
4 the southwestern Hispanic population.

5 Q. And does that statistic also apply to the other
6 bloodstains that you found in the RAV4 that were
7 attributable to Steven Avery?

8 A. Yes, it does.

9 Q. Do you have an opinion, to a reasonable degree of
10 scientific certainty, whether Steven Avery is the
11 source of the bloodstain found on the dashboard
12 by the ignition in Teresa Halbach's RAV4?

13 A. Yes.

14 Q. And what is that opinion?

15 A. My opinion is that Steven Avery is the source of
16 that stain.

17 ATTORNEY GAHN: That's all I have. Thank
18 you, your Honor.

19 THE COURT: Counsel, will you approach,
20 please.

21 ATTORNEY BUTING: Sure.

22 (Side bar taken.)

23 THE COURT: All right. Members of the
24 jury, at this time, since we kept you late
25 yesterday, we're going to give you a break today.

1 The cross-examination is going to take more time
2 than we have left today, so we're going to adjourn.
3 I do have a notice, the weekend notice, to read to
4 you. It's going to be a repetition of some
5 information you have heard thus far, and also some
6 new information.

7 As I previously informed you, the
8 Court's decision not to sequester the jury during
9 the trial is dependent on the jurors not
10 listening to, watching, or reading any news
11 accounts of the case, nor discussing it with
12 anyone, including members of your family, or
13 other jurors.

14 For these reasons, it is vital that you
15 continue not to listen to any conversation about
16 this case. Do not read any newspaper or internet
17 reports, or listen to any news accounts on the
18 radio or television about the trial.

19 To assure that you are not exposed to
20 any improper media coverage, the Court has
21 ordered that, for the duration of the trial, you
22 do not watch the local news on television, do not
23 listen to the local news on the radio, and do not
24 read the newspaper, unless you first have someone
25 remove articles about the case.

1 In addition, do not visit any internet
2 websites or web logs, which include any
3 information about the case. The Court
4 understands that some of you may be working at
5 places of employment during the weekend. Do not
6 discuss the case with any employers, employees,
7 or patrons. Do not volunteer your status as a
8 juror to anyone.

9 If anyone attempts to discuss this case
10 with you, politely but firmly notify them that
11 you are prohibited from discussing the case in
12 any way. If you are involuntarily exposed to any
13 information about the case, from any source, take
14 steps to immediately avoid any further exposure.

15 Should you be exposed to any reports or
16 communications from any source concerning the
17 case during the trial, or should you become aware
18 of anything you believe may affect your ability
19 to serve as a juror, you should not discuss your
20 concerns with any other jurors, or anyone else,
21 but should report any such concerns to the jury
22 bailiff immediately.

23 Now, we have received some reports of
24 stormy winter weather this weekend. Based on the
25 latest information the Court has, whatever we get

1 should be over by Sunday. But in the event that
2 weather would cause a postponement of Monday's
3 proceedings, you will be called by the jury clerk
4 sometime before 8:00 p.m. on Sunday evening. If
5 you do not receive a call, it means that Court is
6 scheduled to go on as normal on Monday.

7 Finally, I wanted to let you know that
8 since the Court is prohibiting you from watching
9 any news accounts, or learning anything about the
10 case through the news media, at the conclusion of
11 the trial, each of you will receive a DVD that
12 has a summary of news accounts of the trial as
13 it's gone on. I do that so in the event you are
14 curious about that type of thing, you are not
15 tempted to violate the order I have issued now,
16 but you will have a chance to see it when the
17 trial is over.

18 And with those admonitions and
19 information about Monday's proceedings, you are
20 excused for the weekend.

21 (Jury not present.)

22 THE COURT: You may be seated. Ms Culhane,
23 you may step down, if you wish.

24 ATTORNEY BUTING: Before she does --

25 THE COURT: Oh.

1 ATTORNEY BUTING: I'm sorry. Before she
2 does, maybe we could just -- since she testified
3 about the contamination log that goes back to 2001,
4 I don't know if she -- if you brought it with you
5 today, but if she could be instructed to bring that
6 with her Monday, or if Mr. Gahn has a copy already,
7 he could give it to me. I only have one that goes
8 back to 2004.

9 THE COURT: Mr. Gahn.

10 ATTORNEY GAHN: That is fine. We'll
11 produce that, yes.

12 THE COURT: That's something that can be
13 produced, very well.

14 ATTORNEY BUTING: And you have the rest of
15 the file, I think, with you and you would bring it
16 on Monday?

17 MS CULHANE: Yes.

18 ATTORNEY BUTING: All the bench sheets and
19 what not.

20 THE COURT: All right. I believe there
21 were a couple other matters the parties wanted to
22 address before we adjourn today.

23 ATTORNEY GAHN: At this time, your Honor,
24 the State would like to move in some exhibits. I
25 would like to move in Exhibit 309, which is the CV

1 of Sherry Culhane; Exhibit 310, the protocol for the
2 Crime Lab; Exhibits 311, 312, 313, 314, and 315,
3 which are the five Crime Lab reports.

4 Also, I move in Exhibit 316, which is
5 the photograph of the key. And I would move in
6 Exhibits -- Exhibit 317, buccal swab of Allen
7 Avery; 318, buccal swab of Brian Dassey; 251, if
8 it's not moved in already, buccal swab of Brendan
9 Dassey; 319, buccal swab of Barb Janda; 320,
10 buccal swab of Bobby Dassey; 321, buccal swab of
11 Earl Avery; 322, buccal swab of Chuck Avery, 323,
12 buccal swab of Delores Avery; 324, buccal swab of
13 Steven Avery; and 325, the Pap smear for Teresa
14 Halbach.

15 I would also move in Exhibit 326, which
16 is the bloodstain A-1; 327, blood stain A-2; 328,
17 bloodstain A-4; 329, bloodstain A-3; and 330,
18 bloodstain -- I'm sorry, 330 is A-14, the Wild
19 Cherry Pepsi can; Exhibit 331, which is
20 bloodstain A-9; 332, bloodstain A-10; 333,
21 bloodstain A-6; 335, bloodstain A-7; 334,
22 bloodstain A-12; 336, bloodstain A-8; Exhibit 337
23 the bone and tissue material; Exhibit 277 -- I'm
24 sorry, that is already in, that's the bullet
25 fragment. And I think -- Exhibit 338, which is a

1 photograph of the bone and tissue.

2 I would like to move in Exhibit 339,
3 which is a CD Rom of the power point presentation
4 that we used during the testimony. And also a
5 printout, which is Exhibit 340, of the power
6 point -- the slides in the power point
7 demonstration. I would move those into evidence
8 at this time.

9 And I would further ask that
10 Exhibit 337, which is the bone and tissue, that
11 we be allowed to remove that from the courtroom
12 and allow Deputy Wiegert to return that to the
13 Sheriff's Department to be kept in the freezer.

14 ATTORNEY BUTING: Couple of things, 316,
15 did we have that one? Did you miss that one?

16 ATTORNEY GAHN: If not, I would move in
17 316, which is the photograph -- which is the
18 photograph of the key with the bag.

19 ATTORNEY BUTING: Okay. I have no
20 objection to any of those exhibits coming into the
21 record. I have no objection to the 337, charred
22 remains, bone and tissue, being withdrawn to be
23 properly stored.

24 I do want to make clear, though, as to
25 the five reports, 311 through 315, that I'm

1 not -- by not objecting to them going into the
2 record, I'm not suggesting that I think they
3 should be sent to the jury for any part of their
4 deliberations. So, with that limitation, I have
5 no objection to their admission.

6 THE COURT: Very well. The Court will
7 order those exhibits admitted. As long as we have
8 got some time left today, do we have an inventory of
9 the exhibits that have been marked but not admitted,
10 and is everyone in agreement?

11 ATTORNEY KRATZ: Yes, I would like us to do
12 that, Judge. And those that have been identified
13 and not offered, the State intends to do that at
14 this time. Janet, are you able to tell us which
15 ones have not been offered?

16 THE CLERK: There was an Exhibit 187 that I
17 don't think has been even offered at this point. I
18 don't know what it even is. It was by the State.

19 ATTORNEY KRATZ: That has not been offered
20 yet?

21 THE CLERK: Right.

22 ATTORNEY KRATZ: That's some bloodstains on
23 a door. It's a photograph that has not yet been
24 offered, and I don't offer it at this time.

25 THE CLERK: For the defense, Exhibits 206,

1 207, which are two photos.

2 ATTORNEY BUTING: I thought those were
3 received and offered at the end of the day; if not,
4 I would move them in.

5 ATTORNEY KRATZ: We have no objection, it's
6 of the vanity and of the washing machine. We have
7 no objection to those photos.

8 THE COURT: All right. 206 and 207 will
9 then be admitted.

10 THE CLERK: For the State, 208, 209, 210.

11 ATTORNEY KRATZ: Those are the three photos
12 of the cabinet, the bookcase. Those have been
13 referred to numerous occasions, identified by
14 several witnesses, I would offer 208, 209, and 210.

15 ATTORNEY BUTING: No objection.

16 THE COURT: Those exhibits are admitted.

17 THE CLERK: Defense, a copy of the
18 statement of Sergeant Colborn, 213.

19 ATTORNEY KRATZ: 213?

20 ATTORNEY BUTING: No, we don't offer that,
21 that was simply to be identified for refreshing his
22 recollection, I believe.

23 THE CLERK: And I think that's the same
24 thing with 216, copy of the report of Investigator
25 Wiegert.

1 ATTORNEY BUTING: Yes, same for that.

2 THE CLERK: Then 219 and 220, two
3 photographs, one of the key.

4 ATTORNEY KRATZ: Yes, we'll offer both.
5 219 is a photograph of the key, 220 is a photograph
6 of shell casings in a box, both of which were
7 identified by Deputy Kucharski. We would offer
8 both.

9 THE COURT: Any objection?

10 ATTORNEY BUTING: As the photographs of the
11 box, I'm not sure he identified them, but I guess
12 maybe he did, but he qualified it as he wasn't sure
13 when it was taken. So with that limitation, yes,
14 they can be received.

15 THE COURT: All right. Those exhibits are
16 received.

17 ATTORNEY BUTING: Could we just go back,
18 though, for a minute, to 214 and 15; were those
19 admitted already?

20 THE CLERK: I have -- Oh, I have 214
21 admitted, the transmittal.

22 ATTORNEY BUTING: Yes.

23 THE CLERK: 215, I don't have.

24 ATTORNEY BUTING: Okay. 215, we did not
25 offer, so it should not be admitted. 217, I don't

1 have marked on here either way.

2 THE CLERK: That one also has not been
3 offered.

4 ATTORNEY KRATZ: We did have that
5 identified by Mr. Lenk, that was a picture of the
6 scanner on top of Mr. Avery's bar in his living
7 room. That was identified and we would ask that it
8 be received.

9 ATTORNEY BUTING: No objection.

10 THE COURT: All right. That exhibit is
11 received.

12 THE CLERK: 249, I go to next, but I don't
13 believe that's been offered, that's the electrical
14 cord.

15 ATTORNEY KRATZ: 249, that's correct, and
16 that has not been offered yet, Judge, nor is it
17 going to be at this time.

18 THE COURT: All right.

19 THE CLERK: Then Exhibits 278, 280, 81 and
20 82 have all been marked and not referred to yet.

21 ATTORNEY KRATZ: I don't even know what
22 they are.

23 THE CLERK: They were in the paper bags. I
24 don't know what they were either.

25 ATTORNEY KRATZ: 278, 280, and 281?

1 THE CLERK: And 282. They were marked
2 yesterday.

3 ATTORNEY KRATZ: And I have blanks in my
4 list. So I don't know what they are. We can check
5 before the next session, Judge. That's fine.

6 THE CLERK: 279 was the rivet.

7 ATTORNEY KRATZ: 279?

8 THE CLERK: I have a series of photographs
9 starting at 289 through probably 309, that have not
10 been -- 308 -- have not the been offered or
11 received.

12 ATTORNEY KRATZ: Mr. Gahn just did that.
13 Those are the photos that were referred to by Ms
14 Culhane, identified by Mr. Groffy this morning, up
15 through 305 at least.

16 THE COURT: Have those been offered?

17 ATTORNEY KRATZ: Yes.

18 ATTORNEY BUTING: I believe they were.
19 That was the photographs with Mr. Groffy this
20 morning, right before lunch.

21 THE CLERK: Okay.

22 ATTORNEY BUTING: Certainly, if we
23 haven't--

24 THE COURT: So those are received?

25 ATTORNEY BUTING: I think right before

1 lunch we did move them in.

2 THE COURT: All right. Those are in.

3 ATTORNEY KRATZ: That should be it, Judge,
4 that's my list.

5 ATTORNEY BUTING: Counsel, is there a
6 photograph associated with those electrical wires.
7 I believe that there was something.

8 ATTORNEY KRATZ: There's two.

9 ATTORNEY BUTING: Two?

10 ATTORNEY KRATZ: One is what Mr. Kucharski
11 identified that he saw at the scene, that's been
12 received. And one is what we have been referring to
13 as an evidence photo. And although that was
14 identified and received, I have no objection should
15 counsel want that withdrawn at this time. And until
16 and unless we put in the actual exhibit, that that
17 can be withdrawn at this time. That seems to make
18 the most sense, Judge.

19 ATTORNEY BUTING: Do you know which photo,
20 227 and 228?

21 THE CLERK: I have 228 and 229.

22 ATTORNEY BUTING: 228 and 229. All right.
23 Let's leave them as is for now. I will probably
24 refer to them with Ms Culhane, and then as I
25 anticipate, when she's unable to link them up in any

1 way, then we'll probably move to have them
2 withdrawn.

3 ATTORNEY KRATZ: I'm not suggesting another
4 witness isn't going to eventually get those in. We
5 haven't offered them.

6 THE COURT: So at this point they have been
7 marked. They are not in.

8 ATTORNEY KRATZ: That's right.

9 ATTORNEY BUTING: Okay.

10 THE COURT: Is there anything else that
11 either party wishes to take up today?

12 ATTORNEY BUTING: I don't think so.

13 ATTORNEY KRATZ: Judge, just a moment.

14 ATTORNEY BUTING: Is there a phone number
15 we could call on Sunday evening? We don't have to
16 say it on the record, I'm just saying ...

17 THE COURT: We have a number we can give
18 you before you leave today that you can call.

19 ATTORNEY BUTING: Okay. Great. Thank you.

20 THE COURT: Actually, let's do this. I
21 think I have an email list for all of you. If I
22 just emailed it to you, will that do it?

23 ATTORNEY BUTING: That would be great.

24 ATTORNEY KRATZ: Sure.

25 THE COURT: Let's do that.

1 THE COURT: At this time the Court calls
2 the State of Wisconsin vs. Steven Avery, Case No. 05
3 CF 381. We're here this morning for a continuation
4 of the trial in this matter. Will the parties state
5 their appearances for the record, please.

6 ATTORNEY KRATZ: Good morning, Judge. The
7 State appears by Special Prosecutors Ken Kratz, Norm
8 Gahn and Tom Fallon.

9 ATTORNEY STRANG: Good morning. As well,
10 Steven Avery is in person and Dean Strang and Jerome
11 Buting representing.

12 THE COURT: All right. Before we begin, I
13 would like to commend the jurors for all getting
14 here on time this morning. When I called the Clerk
15 to notify you last night that we would be having
16 court today, I didn't expect as much snow as I found
17 when I got up this morning. I appreciate the fact,
18 I'm sure you made an effort to get to the bus stop
19 on time.

20 When we left off on Friday, I believe
21 the defense was about to begin its
22 cross-examination of Ms Culhane; is that correct?

23 ATTORNEY BUTING: That is correct, your
24 Honor.

25 THE COURT: All right. You can have the

1 witness brought in and begin.

2 **SHERRY CULHANE**, called as a witness
3 herein, having been first duly sworn, was
4 examined and testified as follows:

5 THE CLERK: Please be seated. Please state
6 your name and spell your last name for the record.

7 THE WITNESS: Sherry Culhane,
8 C-u-l-h-a-n-e.

9 THE COURT: All right. Mr. Buting, you may
10 begin.

11 ATTORNEY BUTING: Thank you, Judge.

12 **CROSS-EXAMINATION**

13 BY ATTORNEY BUTING:

14 Q. Good morning, ma'am.

15 A. Good morning.

16 Q. I want to pick up on where you left off on
17 Friday, and that is your opinions, series of
18 opinions about the stains that you found in the
19 RAV4. Okay, are you with me?

20 A. Mm-hmm.

21 Q. Your opinion, over and over to Mr. Gahn was, do
22 you have an opinion to a reasonable degree of
23 scientific certainty as to whether Mr. Avery is
24 the source of the DNA found in stains one, two,
25 three, whatever it was, right?

1 A. Right.

2 Q. And what you are really saying is, that as far as
3 you can tell, Mr. Avery is the original source of
4 the DNA that you find in those stains, correct?

5 A. I'm saying that his profile was consistent with
6 what I found in the stains.

7 Q. Right. But what you are not saying is anything
8 about how his DNA found its way inside the RAV4,
9 are you?

10 A. No.

11 Q. Your tests aren't designed to tell us how his DNA
12 found it's way into the location where you
13 ultimately swabbed, are they?

14 A. No.

15 Q. What you are looking for is a DNA profile, and if
16 you find it, then you compare it to a known
17 reference sample, in this case, Mr. Avery, right?

18 A. Right.

19 Q. But if someone else planted Mr. Avery's DNA, or
20 blood, or both, inside that vehicle, you wouldn't
21 know that from these tests, would you?

22 A. No.

23 Q. So you cannot tell this jury, with any degree of
24 certainty, scientific or otherwise, that Steven
25 Avery was, himself, ever inside that vehicle, can

1 you?

2 A. No.

3 Q. No meaning correct?

4 A. That's correct.

5 Q. All right. You also talked about contamination,
6 and I think you used the word unintentional
7 contamination; do you recall a discussion about
8 that?

9 A. Yes, I do.

10 Q. All of the quality controls that you set up
11 inside the Wisconsin Crime Lab are designed to
12 deal with evidence after it arrives at your lab,
13 correct?

14 A. That's correct.

15 Q. You can't do anything about contamination that
16 might occur to evidence before it gets to your
17 lab, right?

18 A. That's correct.

19 Q. And that would be true for unintentional
20 contamination such as an officer who's sloppy at
21 the scene when he's picking up whatever evidence
22 it may be?

23 A. That's correct.

24 Q. Your tests and your quality control doesn't --
25 can't account for that, right?

1 A. Right.

2 Q. And that also would be true as to intentional
3 contamination that occurred before it gets to
4 your lab as well, right?

5 A. Correct.

6 Q. Once again, so you have no way, through your
7 quality control tests, controlling whether or not
8 there's some intentional, deliberate tampering
9 with the evidence that goes -- that takes place
10 before it gets to your lab?

11 A. That's correct.

12 Q. So if the evidence had been intentionally
13 contaminated or tampered with, before it got to
14 your lab, your tests will not show that; isn't
15 that right?

16 A. That's correct.

17 Q. Now, I'm assuming that you would agree with me on
18 this, that normally evidence that you receive
19 from a -- an agency that is police is -- you are
20 assuming that when you get it that the -- that
21 there's good integrity with that evidence, right?

22 A. Correct.

23 Q. That is, you trust the police to be honest and
24 fair in an investigation, generally, right?

25 A. Correct.

1 Q. Just as we and the jury would trust you and other
2 members of the Wisconsin Crime Lab to be honest
3 and fair in your investigation?

4 A. That's correct.

5 Q. And the reason that we can normally be
6 comfortable with that assumption, with regard to
7 your Crime Lab, is that you would never knowingly
8 assign an analyst to examine case evidence who
9 had some connection to a suspect, would you?

10 A. No.

11 Q. And I'm sure, for instance, you, yourself, if you
12 had been deposed as a witness in a lawsuit
13 brought by a suspect, you would not volunteer to
14 be the person who runs the tests in that case,
15 would you?

16 A. No.

17 Q. And you would -- If you knew that one of your
18 other analysts was also similarly situated with
19 regard to a suspect, you would not assign that
20 analyst to be handling the evidence and making
21 the tests that are done in the case, would you?

22 A. Not if they had a personal attachment to anyone
23 in the case, no.

24 Q. Sure. Because it's important for you that your
25 lab be objective in its results, correct?

1 A. Correct.

2 Q. And you are aware -- you said that you go to
3 meetings, forensic scientists test meetings and
4 that sort of thing, right?

5 A. Correct.

6 Q. You are aware that some labs in other parts of
7 the country have had trouble with that, right,
8 where analysts have been actually accused of
9 falsifying results?

10 ATTORNEY GAHN: Your Honor, I will object
11 at this time to the relevancy of other labs.

12 ATTORNEY BUTING: Well, I think it goes to
13 her procedures here.

14 THE COURT: I'm going to sustain the
15 objection. I think the point has been made.

16 Q. (By Attorney Buting)~ Well, would you agree with
17 me that if somebody in your lab was so
18 predisposed, it would be very easily -- very easy
19 for that person to frame a suspect?

20 ATTORNEY GAHN: Objection, your Honor, to
21 the form of the question and it calls for
22 speculation.

23 THE COURT: I'm going to sustain the
24 objection. I will allow this line of questioning,
25 but the hypothetical fact scenario will have to be a

1 little bit more specific.

2 Q. (By Attorney Buting)~ If somebody in your lab
3 wanted to monkey with the evidence and plant it
4 in a way that deliberately framed a suspect, that
5 could be done, couldn't it?

6 ATTORNEY GAHN: Objection, your Honor, as
7 to what he means by monkeying with the evidence.

8 THE COURT: It's sustained.

9 Q. (By Attorney Buting)~ If somebody wanted to take
10 and deliberately contaminate evidence, once it
11 got to your lab, deliberately contaminate
12 evidence, and let's say, put or mix a reference
13 sample from the suspect, with actual evidence in
14 the case, that could be done, couldn't it?

15 A. It's possible that that could be done, but --

16 Q. Sure.

17 A. -- in my opinion that wouldn't happen.

18 Q. Of course not. Because you take steps to be sure
19 that the person assigned to the case would have
20 no such inclination to do so; isn't that right?

21 A. That's correct.

22 Q. And you take steps to be sure that the person
23 assigned to the case has no stake in the outcome
24 of the testing itself or the case?

25 ATTORNEY GAHN: Objection, your Honor,

1 vague question.

2 ATTORNEY BUTING: If she needs
3 clarification she can ask.

4 THE COURT: Yeah, she can answer that.

5 THE WITNESS: I'm sorry, could you repeat
6 that.

7 Q. You take steps to be sure that the person
8 assigned to a case has no stake in the outcome of
9 the case or the test?

10 A. That's correct.

11 Q. All right. And, indeed, it's your assumption
12 that when evidence comes to you from a police
13 agency, it's your assumption that the police have
14 also taken similar stakes -- or similar steps to
15 make sure that nobody connected with the suspect
16 has been involved in the collection of the
17 evidence, isn't it?

18 ATTORNEY GAHN: Objection, your Honor,
19 speculation.

20 ATTORNEY BUTING: Asking for her
21 assumption.

22 THE COURT: She can answer.

23 A. Okay. Obviously, I don't know any of this for a
24 fact, but I would make the assumption that
25 evidence came in from the police agency was --

1 maintained integrity.

2 Q. And collected from somebody who had no connection
3 to the case, you would hope?

4 A. Yes.

5 Q. Okay. Now, in this case, I believe you said that
6 some of your duties involve case flow and case
7 management, right?

8 A. Correct.

9 Q. Does that also involve assigning particular
10 analysts to a particular case?

11 A. Yes.

12 Q. But in this case, you assigned yourself?

13 A. Correct.

14 Q. All right. And that's a decision that you make,
15 and yours alone?

16 A. Most of the time, sometimes my supervisor makes
17 that decision but, in this case, I made the
18 decision.

19 Q. All right. Mr. Gahn pointed out that you were
20 actually the analyst who did the tests that
21 resulted in exoneration of Mr. Avery in 2003,
22 right?

23 A. Correct.

24 Q. And you did that because -- in part, because
25 newer, more accurate DNA results -- or tests had

1 been developed that actually excluded Mr. Avery
2 as the source of a pubic hair?

3 A. Correct, at the time the original case was
4 worked, DNA was not available.

5 Q. Okay. But I want to get into just a little bit
6 about what that involved. What you tested were
7 pubic hairs that were found, essentially, on --
8 in the area of the victim's privates, right?

9 A. From her pubic area, yes.

10 Q. These are combings that are done to find any
11 possible pubic hairs from the assailant?

12 A. Correct.

13 Q. And your test in 2003 absolutely, positively,
14 excluded Mr. Avery as the source of one of those
15 hairs, right?

16 A. Correct.

17 Q. There was no question about that, right?

18 A. Correct.

19 Q. And it included -- or matched, a fellow by the
20 name of Gregory Allen, right?

21 A. Yes.

22 Q. And you knew that Allen was no friend of the
23 victim, so that his pubic hair shouldn't be found
24 where they were, right?

25 A. I really didn't have any knowledge of whether she

1 knew him or not, no.

2 Q. Okay. But you knew that his hairs -- or that his
3 DNA profile was registered in CODIS.

4 A. That's correct.

5 Q. And that, in fact, he was already in prison at
6 the time of 2003 when you did this test?

7 A. That's correct.

8 Q. In prison for a rape that he committed after, or
9 while Mr. Avery sat in prison for Mr. Allen's
10 crime.

11 A. That's correct.

12 Q. Now, what Mr. Gahn didn't have you point out,
13 though, let's get into a few other things;
14 although you were the one who exonerated -- or
15 whose test exonerated Mr. Avery, the evidence sat
16 at your lab for more than a year before you got
17 around to doing the test that did exonerate him,
18 right?

19 A. That's correct.

20 Q. And one of the things that you in fact said you
21 do is control priorities and case flow of what
22 gets tested when, right?

23 A. Correct.

24 Q. So, had you done that test as soon as it came in,
25 the evidence being in September of 2002, I

1 believe, Mr. Avery would have been exonerated
2 then, wouldn't he?

3 A. Correct.

4 Q. So Mr. Avery sat for another year, in prison,
5 because of the delays that resulted in your Crime
6 Lab; isn't that right?

7 A. Correct.

8 Q. Another thing Mr. Gahn didn't point out is
9 another irony in this case. Not only were you
10 involved in the 2003 exoneration of Mr. Avery,
11 but you were also involved in the 1985 conviction
12 of Mr. Avery, weren't you?

13 A. I worked evidence on that case, yes.

14 Q. And you testified as a witness for the
15 prosecution at trial in that case, didn't you?

16 A. Yes, I testified.

17 Q. In fact, the trial where he had 16 alibi
18 witnesses and was convicted included your expert
19 opinion regarding some hairs that had been found
20 and were offered by the prosecution to somehow
21 link Mr. Avery to that crime; isn't that right?

22 A. To be perfectly honest, I do not remember my
23 entire testimony from 1985.

24 Q. Well, I have it here, if you need to refer to it.
25 But I don't know that we'll get into that much

1 detail.

2 A. Okay.

3 Q. I just want the jury to understand a little
4 background, okay?

5 A. Sure.

6 Q. You do recall that you testified, generally, in
7 those terms, right?

8 A. Yes.

9 Q. Okay. And just so we understand, there were no
10 DNA tests back in 1985?

11 A. Correct.

12 Q. You were testifying about a type of so-called
13 science known as microscopic hair comparison
14 analysis, right?

15 A. Correct.

16 Q. And the theory behind that science, in 1985, was
17 that you could take a microscope with two fields
18 and that you could put one hair underneath one
19 microscope field and another hair under the
20 other, and you could examine the two of them
21 together, correct?

22 A. Correct.

23 Q. And the theory being that you could -- you
24 present this to the jury anyway, that you could
25 make some conclusions about how similar,

1 dissimilar, or consistent one hair was to the
2 other?

3 A. Correct.

4 Q. And I don't mean to be jumping all over you, you
5 were not the only person in the country doing
6 this kind of testimony in 1985, right?

7 A. That's correct.

8 Q. Forensic labs all over the country were bringing
9 in experts to testify to juries about this kind
10 of science, right?

11 A. Correct.

12 Q. Including the FBI, right?

13 A. Yes.

14 Q. Now, with the advent of DNA, the forensic
15 community discovered something about those tests,
16 right?

17 A. Correct.

18 Q. They discovered that those conclusions or
19 opinions that were being drawn by the experts,
20 such as yourself, were really not all that
21 reliable, didn't they?

22 A. Correct. They have been proven to be much less
23 specific than DNA analysis.

24 Q. All right. And even wrong on occasions, right?

25 A. Correct.

1 Q. So, for instance, in the 1985 trial of Mr. Avery,
2 there were some hairs found, head hairs I think,
3 found on a T-shirt that he was wearing on the day
4 of this poor woman's rape, right?

5 A. I don't recall exactly.

6 Q. Well, okay. Do you recall giving an opinion that
7 one hair found on Mr. Avery's T-shirt appeared to
8 be similar to or consistent with a head hair
9 standard of the victim in that case?

10 A. No, I don't recall exactly. I'm assuming it's in
11 my report, but I don't have independent
12 recollection of that.

13 Q. Would you like to take a moment to review --

14 A. Yes, sir.

15 Q. -- a portion of your transcript?

16 A. Yes, sir, I can.

17 ATTORNEY GAHN: Your Honor, at this time I
18 just question the relevancy of this to the testimony
19 that Ms Culhane gave in this case, the relevancy in
20 this 1985 case.

21 THE COURT: Mr. Buting.

22 ATTORNEY BUTING: Mr. Gahn tried to present
23 her as a totally unbiased witness for them, in the
24 event that because she -- her test in 2003 resulted
25 in the exoneration, I think the jury needs to hear

1 that she's also testified the other way for the
2 prosecution at the beginning of the trial.

3 THE COURT: As I understand your line of
4 questioning, it's an attack on the methodology that
5 was used at the time, not on her credibility.

6 ATTORNEY BUTING: Also a question on her
7 opinion and the validity of her opinions.

8 THE COURT: No, I'm going to sustain the
9 objection.

10 ATTORNEY BUTING: All right.

11 Q. (By Attorney Buting)~ Let's do it this way.
12 Would you agree with me that at least -- that
13 hair comparison, microscopic hair comparison,
14 so-called forensic science, is one example of how
15 science is not necessarily or -- or our
16 understanding of science is not necessarily
17 infallible, is it?

18 A. No. With respect to hair analysis, that was a
19 much less objective criteria than what we use
20 today. That was more subjective and open to
21 interpretation -- personal interpretation. The
22 science that we use now, today, with DNA, is much
23 more objective and much more reliable.

24 Q. Okay. But at the time you were presenting
25 testimony you expressed it in terms of a

1 reasonable degree of scientific certainty, didn't
2 you?

3 A. In 1985, I do not remember how I stated that.

4 Q. Well, in general, whether in Mr. Avery's case or
5 any of the other cases where you presented this
6 kind of hair comparison testimony, you presented
7 opinions to juries or to Courts, to a reasonable
8 degree of scientific certainty, didn't you?

9 ATTORNEY GAHN: Objection, your Honor,
10 relevancy and asked and answered.

11 THE COURT: Sustained.

12 ATTORNEY BUTING: As to which, asked and
13 answered or relevance?

14 THE COURT: To relevancy.

15 ATTORNEY BUTING: All right.

16 Q. (By Attorney Buting)~ When you talked about DNA
17 and what it is and how it's examined, you
18 mentioned -- Oh, by the way, before I leave that,
19 to your knowledge, your lab isn't going around
20 doing those kind of -- providing that kind of
21 testimony anymore, hair comparison testimony
22 anymore, are you?

23 A. No.

24 Q. And neither is the FBI, right?

25 A. I'm not sure about that.

1 Q. Okay. But going back to DNA, you said that --
2 and I don't have your -- the power point slides,
3 but I think the jury can probably recall them --
4 you showed this double helix kind of spiral thing
5 being unwound and bracketing off certain areas of
6 it, right?

7 A. Correct.

8 Q. And you talked about a part that was considered a
9 gene and a part that is not a gene, or something
10 like that?

11 A. I referred to the parts that do not function as
12 genes, and they are referred to as genetic
13 markers.

14 Q. Okay. And -- Well, I don't know if you got into
15 this or not, but let's just briefly touch on
16 this. When we're talking about genetics, you
17 recognize that certain genes are inherited by
18 everybody, right? The genes, for instance, that
19 make humans have two eyes instead of one, right?

20 A. Correct.

21 Q. Two arms instead of one?

22 A. Correct.

23 Q. Or two legs, right?

24 A. Yes.

25 Q. There were certain genes that are common to

1 everybody, unless there is some sort of birth
2 defect or genetic mutation, right?

3 A. Correct.

4 Q. And so, if you find a gene that says -- that
5 determines that this individual should have two
6 eyes, or two legs, or two arms, that's kind of
7 meaningless in terms of identifying a suspect,
8 isn't it?

9 A. Well, first of all, we don't even look at those
10 portions at all.

11 Q. I understand.

12 A. So it's irrelevant.

13 Q. But if you were to look at genes that everybody
14 has and find them in a profile, that would be
15 meaningless?

16 A. Correct.

17 Q. For your purposes?

18 A. Yes.

19 Q. As you would say, that would have zero
20 discriminating power?

21 A. Correct.

22 Q. Okay. And other more common types of genes,
23 however, are sort of individually inherited.
24 Like the gene that would say what color your hair
25 should be, may be different from what someone

1 else has, right?

2 A. Yes.

3 Q. Or what your eye color may be, right?

4 A. Correct.

5 Q. Or how tall or how short you are, ultimately,

6 going to be when you grow up?

7 A. Correct.

8 Q. Those are sort of more individual genetic

9 characteristics that are inherited at different

10 rates in the population?

11 A. Correct.

12 Q. Same thing with whether you are Type A, or Type B

13 blood, or Type O positive, or whatever?

14 A. Correct.

15 Q. And there are data banks, then, statistics that

16 can say, you know, what are the odds, or what are

17 the chances of finding, you know, a random man

18 population, somebody with blue eyes?

19 A. I don't know about that. I don't know if there's

20 a --

21 Q. You are a serologist, so let me focus on that.

22 There are statistics that talk about -- that tell

23 you what percentage of the population is Type A

24 blood?

25 A. Correct.

1 Q. And type B and so forth, right?

2 A. Yes.

3 Q. And those are well-known statistics that have
4 been developed over years of study?

5 A. Yes.

6 Q. Now, in fact, we know, or we're learning, what
7 genes actually determine someone to be -- to have
8 certain characteristics, physical or biological
9 characteristics, right?

10 A. Yes.

11 Q. Some diseases we're finding are based on a
12 particular gene someone may have, for instance?

13 A. Yes.

14 Q. Now, with DNA tests, you talked about this area
15 that's not really what you call a gene, but you
16 called it a genetic marker, right?

17 A. Correct.

18 Q. And it's an area of the DNA that's -- appears to
19 be, I think you used the term hyper variable; do
20 you recall that?

21 A. I don't recall using that term, but it is -- it's
22 extremely variable in those regions, that's
23 correct.

24 Q. Okay. But you also said that we don't know what
25 those -- what that portion of the DNA is even

1 about, why it's there, do we?

2 A. No.

3 Q. We don't know what it does, why we would have a
4 marker that would be the D21, blah, blah, blah,
5 number that you come up with in these tests?

6 A. That's correct.

7 Q. These are just things that we think, at our
8 current level of scientific knowledge, are rather
9 unique from one person to the next, when you put
10 them altogether?

11 A. Well, they are variable and that's the important
12 part of them, they vary from individual to
13 individual. Scientists don't know what their
14 function is, but for forensics, the important
15 part is that they are different from person to
16 person.

17 Q. Okay. But if science later determines that they
18 are not completely, independently inherited, that
19 they are linked together, that would really make
20 a difference for you, wouldn't it?

21 A. Yes.

22 Q. Because all of these 1 in a quintillion, or 1 in
23 a billion numbers you come up with are based on
24 the assumption that each one of those 16 numbers
25 on your power point slides are inherited

1 completely independent of each other?

2 A. That's correct.

3 Q. That is, if someone has a D21 16, they are not
4 necessarily going to be -- also have a VWA 12?

5 A. That's correct.

6 Q. All right. Let's talk about the testing process
7 just a little bit first, then we'll get into it
8 in more detail. The jury, I think, needs to
9 understand that the tests that you do in your
10 lab, or anyone does in your lab, are not what we
11 would call double blind tests?

12 A. Could you define what you mean by that.

13 Q. Or even blind tests, you never heard that term?

14 A. I have heard the term before, I'm not exactly
15 sure how you are using the term. If you could
16 define that for me.

17 Q. Well, okay. Let's say, on a proficiency test
18 that you get, that's sent to you from some lab,
19 outside lab, you have no idea what you are
20 testing, right?

21 A. Correct.

22 Q. You have no idea what's the suspect sample,
23 what's the elimination sample. You don't know
24 any of that when you do the tests, right?

25 A. Well, on a proficiency test, we know what the

1 suspect and we know what the victim are.

2 Q. Okay. So, those aren't completely blind either.

3 Let me give you an example what I mean by blind.

4 Someone gives you a sample, two reference

5 standards. And you have no idea who the suspect

6 is and who the extremely unlikely elimination

7 sample is?

8 A. Okay.

9 Q. All right. And then you get an evidence sample,

10 that's also unknown at that time?

11 A. Correct.

12 Q. If you just got those three samples and you are

13 just testing them, you have no idea which is

14 which, that's what I mean by blind testing?

15 A. Okay.

16 Q. All right. That's not what you do in your lab?

17 A. No.

18 Q. In your lab, when you get a reference sample, you

19 know -- in fact, you usually know the name of the

20 person whose reference sample you are dealing

21 with?

22 A. Yes.

23 Q. So when you test Mr. Avery's DNA sample, you knew

24 it was Mr. Avery who you were testing?

25 A. Yes.

1 Q. Or Delores Avery in her case?

2 A. Yes.

3 Q. Or Allen Avery in his case, right?

4 A. Correct.

5 Q. And you know that, and not only do you know who

6 it is you are testing, but you have some idea

7 whether they are considered a suspect in the case

8 or not?

9 A. That's correct.

10 Q. You know that because you talk with police and

11 prosecutors?

12 A. That in part and it comes into the laboratory

13 with a suspect and a victim's name.

14 Q. Oh, okay. So when you get it, you already know

15 who the suspect is?

16 A. If there is a suspect, yes.

17 Q. And in this case, there was a suspect and the

18 name given to that person was Steven Avery, when

19 it came to your lab; isn't that right?

20 A. Yes.

21 Q. Not only that, you get messages, phone messages

22 and phone conversations, in this case with

23 Mr. Fassbender, right?

24 A. Yes.

25 Q. And he kind of gives you a heads up on what to

1 look for and, you know, what happened, what they
2 think happened in the case, or at the scene?

3 A. Correct.

4 Q. And in this case, you got a number of phone calls
5 and messages from Mr. Fassbender, kind of early
6 on in the testing, right?

7 A. Yes.

8 (Exhibit No. 341 marked for identification.)

9 Q. I'm showing you Exhibit 341, does that look --
10 does that form look familiar to you?

11 A. Yes.

12 Q. This is something that's called a case
13 communication record?

14 A. Yes.

15 Q. Something that you use in your lab?

16 A. Correct.

17 Q. And what you do is, when you get a phone call
18 from somebody, you will keep jotting notes as to
19 the gist of the conversation?

20 A. That's correct.

21 Q. And did you do that in this case?

22 A. Yes.

23 Q. Is that your initials at the top?

24 A. Yes.

25 Q. Let me put this up on the ELMO. There we go.

1 All right. I apologize for the delay. Up on the
2 screen, now, is Exhibit 341. And this is one of
3 those phone messages that you got from, in this
4 case, Mr. Fassbender, correct?

5 A. Yes.

6 Q. You've got a place to indicate that, where it
7 says you check incoming, Fassbender's name, and
8 the date of this is November 11th of 2005,
9 correct?

10 A. Yes.

11 Q. And the very first thing that is indicated on
12 here is, he is telling you that there's some
13 evidence that is going to be coming or is already
14 here, right?

15 A. Yes.

16 Q. Here meaning at your lab?

17 A. Correct.

18 Q. And he says there's going to be a couple of items
19 from the house and the garage, right?

20 A. Right.

21 Q. And then he says -- or you wrote down, I assume
22 that's him telling you -- try to put her in his
23 house or garage, correct?

24 A. Correct.

25 Q. So you are being told, before you do any of these

1 tests, that Mr. Fassbender wants you to come up
2 with results that put Teresa Halbach in
3 Mr. Avery's house or garage; isn't that right?

4 A. I had that information, but that had no bearing
5 on my analysis at all.

6 Q. Of course not, but that's what you are being told
7 to do?

8 A. That was information in the investigation.

9 Q. That's what Mr. Fassbender told you he hoped you
10 would be able to do with your tests; isn't that
11 right?

12 A. Yeah, I assume so.

13 Q. Okay. You also had some emails with Mr. Kratz,
14 correct?

15 A. Yes.

16 Q. Actually, before we get to that, let me do one
17 more here.

18 (Exhibit No. 342 marked for identification.)

19 Q. I'm showing you Exhibit 342, would you be able to
20 identify that for us?

21 A. Yes.

22 Q. That's another one of those case communication
23 records?

24 A. Yes.

25 Q. But this one, though, is dated December 15th?

1 A. Correct.

2 Q. Concerns another phone conversation with
3 Mr. Fassbender?

4 A. Yes.

5 Q. Mind if I put it up on the ELMO now?

6 A. No.

7 Q. This is, again, an incoming call where
8 Mr. Fassbender is calling you, right?

9 A. Yes.

10 Q. Now, the first entry we should clarify a little
11 bit, it says swab keys and collect swabs, no need
12 to analyze at this time, right?

13 A. Correct.

14 Q. Just so we're not confused, the jury is not
15 confused, that is not in reference to this Toyota
16 key that was brought to you earlier, right?

17 A. Correct.

18 Q. That was a completely separate test that was
19 done. This is some other keys that they brought
20 to you?

21 A. Yes, this was referencing some additional keys.

22 Q. It also says, like a couple days later, four days
23 later, that Mr. Fassbender wants you to swab
24 handcuffs and leg irons, right?

25 A. Yes.

1 Q. As well as the license plates from the RAV 4 and
2 to check the .22 caliber gun, Item DD, for any
3 indication of the victim's blood on the barrel,
4 right?

5 A. Yes.

6 Q. And also to swab the trigger guard area to
7 compare with Steve Avery?

8 A. Correct.

9 Q. And we'll get into this with a little more detail
10 with some of the other things first, but as long
11 as we're at these phone messages, let me just
12 clear this up. You did do that in this case,
13 right?

14 A. Yes.

15 Q. You swabbed the handcuffs and the leg irons?

16 A. Yes.

17 Q. And you found no DNA of Teresa Halbach on those
18 items, did you?

19 A. No.

20 Q. And you swabbed the license plates and you found
21 no usable DNA that you could draw any conclusions
22 from, right?

23 A. Right.

24 Q. And you checked the Item DD, .22 caliber gun,
25 that's a rifle, right?

1 A. Yes.

2 Q. You looked for any blood of the victim on the
3 barrel, right?

4 A. Correct.

5 Q. You found no DNA of Teresa Halbach on that
6 barrel?

7 A. Correct.

8 Q. You looked at the trigger guard as well, not just
9 the trigger guard, but the trigger itself?

10 A. Yes.

11 Q. You swabbed both, right?

12 A. Yes.

13 Q. And you found no DNA of Mr. Avery, right?

14 A. Correct.

15 Q. Okay. And as to the handcuffs and leg irons, you
16 did find some DNA on it, though, didn't you?

17 A. Yes, I did.

18 Q. You found Mr. Avery's own DNA?

19 A. In a mixture sample, yes.

20 Q. In a mixture with some other male, right?

21 A. I can't tell for sure whether it was a male or a
22 female.

23 Q. Well, it wasn't a mixture with Teresa Halbach?

24 A. Correct.

25 Q. And the fact that you found DNA of any kind on

1 the handcuffs, is an indication to you that they
2 hadn't been wiped down with bleach, isn't it?

3 A. That would be correct.

4 Q. Okay. And you, of course, had no idea, way of
5 knowing how old that DNA that you did find, from
6 Mr. Avery, on those handcuffs or leg irons was,
7 right?

8 A. Right.

9 Q. That's one thing about DNA, when you find a
10 profile, you can't tell when it is -- or when it
11 was originally deposited, correct?

12 A. Yes, that's correct.

13 Q. You find DNA sometimes in mummies thousands of
14 years old.

15 A. That's correct.

16 Q. Okay. Now, I have used the term elimination
17 samples today. I don't believe you used that
18 term yesterday -- or Friday; do you recall?

19 A. I don't recall.

20 Q. With Mr. Gahn, you referred to samples as
21 exemplars or reference samples, correct?

22 A. Correct.

23 Q. That's because the term elimination samples has a
24 meaning behind it, that the others don't?

25 A. That's correct.

1 Q. Elimination sample is something that you refer to
2 when you are just trying to eliminate somebody as
3 a source?

4 A. Correct. That would be -- excuse me -- that
5 would be a situation where it was a case and
6 perhaps you knew that someone's DNA was there
7 ahead of time, and the elimination sample, for
8 instance in a sexual assault case, and someone
9 had consensual sex, then you would have an
10 elimination standard from that consensual sex
11 partner.

12 Q. Right. So in that circumstance, there would
13 be -- it's just sort of assumed, there's really
14 no question or doubt, that the sample that you
15 are looking at has nothing to do with the case?

16 A. It just helps us sort that out if we find a
17 mixture of DNA. An elimination sample would help
18 us sort out who the possible contributors are.

19 Q. Right. With the understanding that that person
20 you are trying to eliminate is not a suspect?

21 A. Correct.

22 Q. Okay.

23 ATTORNEY GAHN: Your Honor, the State would
24 like to be heard on this outside the presence of the
25 jury.

1 THE COURT: Very well, at this time we'll
2 excuse the members of the jury for the Court to hear
3 argument. Again, members of the jury do not discuss
4 the case or any portion of the testimony you heard
5 today, on your break. You are excused.

6 (Jury not present.).

7 THE COURT: You may be seated.

8 ATTORNEY BUTING: May I go ahead and mark
9 this so we know what we're talking about. I will
10 mark this one because it's not highlighted.

11 (Exhibit No. 343 marked for identification.)

12 ATTORNEY BUTING: Just by way of
13 explanation, what I'm attempting to do at this point
14 is show Ms Culhane an email that she received. I
15 guess it's from Mr. Kratz. I do not intend to
16 actually offer this into -- Well, I don't intend all
17 the content of this email to come into this case, or
18 to be sent to the jury, but I do wish one particular
19 line of it where Mr. Kratz is telling the witness
20 certain samples that he refers to as elimination
21 samples. That's my only purpose. I don't know if
22 counsel objects to that limited use.

23 THE COURT: Mr. Gahn.

24 ATTORNEY GAHN: Can I see that again,
25 please.

1 ATTORNEY BUTING: I don't know if we need
2 to send the witness out at this point. If there's
3 any lengthy argument, we will otherwise.

4 THE COURT: I guess I'm anticipating the
5 objection, if it's what I'm thinking it's going to
6 be I don't know that it's necessary to send the
7 witness out, but I will defer to the attorneys on
8 that one.

9 ATTORNEY GAHN: Our position, your Honor,
10 is that this email is dated February 7, 2006, and
11 this is well after charges being brought in the
12 Criminal Complaint against Mr. Avery. This is
13 clearly work product on the part of Mr. Kratz. He's
14 talking to his witness, Ms Culhane, and basically
15 talking trial strategy, how to go about the case,
16 testing certain exemplars, or items of evidence, and
17 it's just clearly a work product.

18 ATTORNEY BUTING: Judge, first of all, if
19 it is work product, that privilege is waived by
20 turning it over in discovery, in my view. But I'm
21 not really getting into work product. And I'm
22 sensitive to that concern and I don't usually like
23 to use emails in court at all. But here, I'm simply
24 using it for one limited purpose, and that is her
25 understanding of the characterization of specific

1 samples as being elimination samples.

2 Those are Chuck, Earl, and Bobby. And
3 that's really all I want to get into with this
4 particular document.

5 THE COURT: Seems to me that point can be
6 made without reference to this document.

7 ATTORNEY BUTING: If she can recall it and
8 if she can say she's aware that they were described
9 in those terms, sure, we can do that.

10 THE COURT: Does the State have any
11 objection of letting the witness take a look at the
12 email before she testifies and then we can bring the
13 jury back in without introducing the email?

14 ATTORNEY GAHN: That's fine.

15 THE COURT: All right.

16 ATTORNEY GAHN: As long as Mr. Kratz is not
17 going to be mentioned in your question that Chuck,
18 Earl, and Earl's samples were -- could be considered
19 elimination samples. That's all you want to say?

20 ATTORNEY BUTING: We could just say
21 submitted by the State, whether it's police or
22 prosecution is -- is not disclosed.

23 THE COURT: I may be wrong, but I thought
24 there's been evidence already about elimination
25 samples taken from other members of the Avery

1 family. So I don't think the subject matter is a
2 problem. And I don't see a need to phrase the
3 question such that it would involve any
4 attorney/client work product. So let's have the
5 witness take a look at the email, if she needs it to
6 refresh her memory, and I then think the question
7 can be asked without suggesting that it involves a
8 conversation with the attorneys.

9 All right. Mr. Buting, I think you can
10 retrieve the document now, I believe the witness
11 has reviewed it.

12 ATTORNEY BUTING: Okay. Are we ready to
13 go?

14 ATTORNEY GAHN: Are there additional emails
15 that you intend --

16 ATTORNEY BUTING: No, this is all.

17 ATTORNEY GAHN: Could I just look at that
18 one more time?

19 ATTORNEY BUTING: Sure. There are other
20 items that I'm not going to introduce.

21 ATTORNEY GAHN: We're ready to proceed,
22 your Honor.

23 THE COURT: All right. Mr. Buting, do you
24 want to retrieve the document you gave the witness.

25 ATTORNEY BUTING: Yes. And just so the

1 record is clear, I'm not going to offer this as an
2 exhibit. It's been marked, for the record, but this
3 will be one of those where it's just part of the
4 record, but it's not evidence in this trial.

5 THE COURT: Very well.

6 ATTORNEY BUTING: Is that fair? Okay.

7 (Jury present.)

8 THE COURT: You may be seated. Mr. Buting,
9 you may continue.

10 ATTORNEY BUTING: Thank you, your Honor.

11 Q. (By Attorney Buting)~ Now, Ms Culhane, you
12 received a number of samples, not just
13 Mr. Avery's, to compare the various pieces of
14 possible evidence in the case, right?

15 A. Correct.

16 Q. And when you received a sample -- that is a DNA
17 standard of Chuck Avery -- first let me establish
18 that you did. You received an exemplar standard
19 of Chuck Avery, Earl Avery, and Bobby Dassey,
20 right?

21 A. Yes.

22 Q. Among some others?

23 A. Yes.

24 Q. Like the parents, Mr. and Mrs. Avery --

25 A. Yes.

1 Q. -- right? And when you received those samples,
2 you were asked to do a profile for each of them,
3 right?

4 A. Yes.

5 Q. And when you were asked to do a profile for each
6 of them, those samples were referred to you as
7 elimination standards, correct?

8 A. Yes.

9 Q. Which to your mind, and your understanding, would
10 seem to indicate that you were not to consider
11 any one of those three, Chuck, Earl, or Bobby, as
12 suspects?

13 A. That's not entirely correct. When I'm submitted
14 a standard, it doesn't really matter if you call
15 it an elimination standard, or a reference
16 sample, if it fits the profile, the evidence
17 sample, then it's reported on. If it's a match,
18 it's reported on. Whether it's submitted as an
19 elimination sample or as a reference standard,
20 it's interpreted in exactly the same way.

21 So, if any of those elimination samples,
22 or reference samples, are excluded, no matter
23 what the evidence is, and no matter what you call
24 them, then that's how it would be reported.

25 Q. Sure. So if you get something that is told to

1 you by the police as an elimination standard, and
2 it hits, it matches some kind of crime scene
3 evidence, you are going to report that, of
4 course, right?

5 A. Yes.

6 Q. But the very fact that the items come to you with
7 that designation, elimination standard, tells you
8 something about what the police theory, or what
9 they believe those samples relate to, whether
10 they are a suspect or not?

11 A. Correct.

12 Q. Okay. Let me go back for a minute and talk about
13 your background. I don't recall what exhibit it
14 is that is your curriculum vitae, but I just want
15 to clarify a few things. You have got a
16 bachelor's degree in biological science; is that
17 right?

18 A. Yes.

19 Q. And you actually went to two colleges, though.
20 Your first college was Millsaps, M-i-l-l-s-a-p-s,
21 College in Jackson, Mississippi?

22 A. Yes.

23 Q. You went there for just two years?

24 A. Yes.

25 Q. And then you transferred to Mississippi College

1 to complete your undergraduate education, right?

2 A. Correct.

3 Q. Are you originally from that area, is that why
4 you were going to school down there?

5 A. Yes, I'm from Jackson.

6 Q. Okay. And then you got your bachelor of science
7 in 1978?

8 A. Yes.

9 Q. You did not go on and get a master's degree,
10 right?

11 A. Correct.

12 Q. Never in all your years since, have you gone back
13 to try and get a master's?

14 A. That's correct.

15 Q. I don't see anything in your CV that shows that
16 you worked as a research scientist, right?

17 A. No, I didn't.

18 Q. You have little or no publications in the field?

19 A. No, I have no publications.

20 Q. Okay. And I don't see in here that you do any
21 kind of public speaking, or teaching to other
22 forensic scientists, outside of your own lab, in
23 Wisconsin?

24 A. Actually, I did present a paper at one of the
25 Promega User's Meetings, because we were involved

1 in the original validation of the Power Point 16
2 Kit. And I did present a paper at that meeting.

3 Q. Okay. But that's the only time?

4 A. That's correct.

5 Q. And we'll talk a little bit more about validation
6 in a few minutes. It's not really clear to me
7 what jobs you had before you came to Wisconsin.
8 Was it just working at the Jefferson Parish
9 Sheriff's Office Crime Lab, or did you have some
10 other employment between 1978 and 1984?

11 A. No, I worked at the Jefferson Parish Crime Lab
12 for two and a half, three years, I don't remember
13 exactly, then I came to Wisconsin. And then
14 after a year I was in Wisconsin, I was hired by
15 the Crime Lab.

16 Q. Okay. And now it's been 23 years that you have
17 been on the job at the Wisconsin Crime Lab?

18 A. That's correct.

19 Q. And your current title is DNA Technical Unit
20 Leader?

21 A. Yes.

22 Q. A position that you were appointed to in 1997?

23 A. Yes.

24 Q. Now, is that a position that requires -- Well,
25 obviously, doesn't require a master's degree,

1 right?

2 A. Actually, it does. At the time -- time frame
3 when I was appointed to this position, the DNA
4 Advisory Board offered, was referred to as a
5 waiver for individuals who had a certain amount
6 of experience in forensics. In order to get that
7 waiver, I had to go back to school and take
8 molecular biology, statistics, and bio-chemistry
9 classes, which were all at UW Madison or online.

10 Q. Okay.

11 A. So those requirements were filled. Now, anyone
12 after a certain period of time, it does require a
13 masters.

14 Q. Okay. So you were sort of grandfathered in with
15 this other way of getting some additional
16 educational miles, right?

17 A. Right. And because of my experience.

18 Q. Okay. So it's kind of a seniority thing, too,
19 because you have been there longer than most
20 people?

21 A. Because I have experience, that's correct.

22 Q. Okay. Now, this current position as technical
23 leader, you discussed as having some
24 administrative duties, right?

25 A. Yes.

1 Q. And also some training duties?

2 A. Yes.

3 Q. And then, also, some actual DNA testing?

4 A. Correct.

5 Q. Can you tell me what percentage of your job
6 involves each?

7 A. Probably 70 percent is actual case work. The
8 duties with training varies according to how many
9 people we have in training. When everyone is
10 trained and there are no new analysts, then I
11 don't have any training responsibilities. But
12 when we hire a new analyst, then I do spend a
13 considerable amount of time training them.
14 Overall, I would guess 70 percent is spent on
15 case work.

16 Q. So about 30 percent less case load, generally,
17 than the other analysts?

18 A. That's correct.

19 Q. Okay. Let's talk about quality control, what you
20 know about it in your lab, and just in general.
21 You talked a lot about accreditation, right?

22 A. Yes.

23 Q. How important that is?

24 A. Yes.

25 Q. How rigorous the process is, right?

1 A. Yes.

2 Q. And one part of that is -- in fact, a big part of
3 it, is these outside auditors, whatever you want
4 to call them, outside overseers, look at the
5 protocols that you are using to do certain tests,
6 right?

7 A. Yes.

8 Q. And the -- there's various, I assume, accrediting
9 type boards in different forensic fields?

10 A. I believe there are several different accrediting
11 institutions depending on what type of work.
12 There's one for paternity testing. Most forensic
13 labs have an ASCLD accreditation.

14 Q. Okay. And certainly part of that is DNA
15 protocols, right?

16 A. Yes.

17 Q. But more than that, it's also what other kind of
18 test protocols your lab is following?

19 A. Are you referring to other sections?

20 Q. Yes, other sections.

21 A. Yes, each section has their own protocols. And
22 then we have lab-wide quality control standards
23 that everyone follows, basically the same.

24 Q. Okay. So, for instance, fingerprints, whatever
25 that's called, identification division?

1 A. Yes.

2 Q. They have a specific protocol or number of steps
3 they follow in order to come to a conclusion,
4 right?

5 A. Correct.

6 Q. Ballistics the same way?

7 A. Yes.

8 Q. DNA, the same way?

9 A. Yes.

10 Q. And like trace -- let's say, one subsection of
11 the trace division seems to be like volatile
12 chemicals?

13 A. I believe so.

14 Q. So, in other words, there's -- in order for --
15 let's say someone comes -- brings in evidence
16 from an arson, and the Crime Lab is asked to do
17 these chemicals tests to determine whether there
18 might be volatile chemicals like gasoline or
19 something like that?

20 A. I believe so.

21 Q. Okay. And there's a protocol that they have to
22 follow in order to do that test?

23 A. Yes.

24 Q. And these protocols are developed after a lengthy
25 process, right?

1 A. Correct.

2 Q. They are peer reviewed?

3 A. Yes.

4 Q. And peer reviewed means that they are published
5 so that other scientists, even in other parts of
6 the country or world, can also try the same
7 protocol and see if they get the same result?

8 A. Yes.

9 Q. They want to replicate, they want to be able to
10 do the very same tests elsewhere and find that
11 the results are valid and reliable?

12 A. That's correct. And it also allows laboratories
13 to compare results and exchange information.

14 Q. Okay. And that's really -- that's part of the
15 scientific process?

16 A. Right.

17 Q. Just in general, the whole idea that someone
18 comes up with a theory, until it can be tested
19 and repeated by others, it's just a theory,
20 right?

21 A. Yes.

22 Q. And it becomes science after others have been
23 able to test the theory over and over and
24 replicate it, right?

25 A. Yes.

1 Q. And sometimes that can take years before
2 something rises to the level where it's
3 considered science in the community, right?

4 A. That would be correct.

5 Q. And that's true of protocols, a protocol is a
6 plan, basically, a plan or method in which to
7 test some item to get to a particular end result;
8 would that be fair?

9 A. Yes.

10 Q. And those can take years, certainly months,
11 sometimes years, to test over, and over, and
12 over, to be sure that others can get the same
13 results?

14 A. Well, most of the time, when we're introducing a
15 new protocol, it has been tested by -- like if
16 the company that would provide the reagents and
17 the equipment that we use to test it. And that
18 would be a development validation.

19 In our laboratory, we don't necessarily
20 go through a developmental validation, which
21 would be more like research. We basically test
22 it to make sure that it works in our laboratory.
23 And that doesn't really take years.

24 Q. Sure. But the development by the -- in your
25 example was a reagent, or use of a reagent. But

1 development by that chemical lab can take quite a
2 while?

3 A. Yes.

4 Q. And you don't pick it up as something to use in
5 your lab until it's already been -- until you are
6 satisfied that it's been tested, retested, and
7 it's a valid reagent.

8 A. Correct.

9 Q. Now, these audits you mention, these audits are
10 something that are done for government labs as
11 well as private labs, right?

12 A. I believe so.

13 Q. So, it's not like government labs are somehow
14 exempt from the usual examination of auditors
15 just because they are government, right?

16 A. Right.

17 Q. We don't just say, you know, we're the
18 government, trust us?

19 A. That's correct.

20 Q. You guys have to prove your validity, your
21 reliability, scientifically, like any other lab?

22 A. Correct.

23 Q. That's true of the Wisconsin State Crime Lab,
24 right?

25 A. Yes.

1 Q. It's true of all government labs that you are
2 aware of?

3 A. If you're accredited -- We all have to follow the
4 same rules if you are accredited by ASCLD.

5 Q. Okay. And this whole accreditation process
6 involves auditors at the very beginning getting
7 the protocols, the test plans, and reviewing
8 those before they ever get to your lab, right?

9 A. That's correct.

10 Q. And only then, if those protocols pass the peer
11 review, at least that level of peer review from
12 outside auditors, do they even take the next step
13 of coming to your lab?

14 A. Well, our protocols are set in place and they are
15 given to the auditors so that they are familiar
16 with our procedures before they come to the lab.
17 And then, when they come to the lab, they verify
18 that we're following our protocols.

19 Q. So if you came up with a brand new protocol,
20 never before done anywhere in the country, and
21 you sent it off to these auditors and it had
22 never been peer reviewed, what do you think they
23 would say?

24 ATTORNEY GAHN: Very speculative, no
25 foundation.

1 THE COURT: I'm going to sustain the
2 objection. I think this might be more related to
3 some other issue that doesn't involve this witness.

4 ATTORNEY BUTING: Well, I think this
5 witness can testify, she's a scientist that was
6 involved with quality control in her lab. I think I
7 should be allowed to explore her understanding and
8 knowledge of the development of protocols.

9 THE COURT: I don't think it's specifically
10 related enough for the topic for which it's being
11 introduced to be relevant, so I'm sustaining the
12 objection.

13 Q. (By Attorney Buting)~ Okay. Have you ever, in
14 your lab, submitted a brand new protocol for a
15 test that had never been done anywhere else in
16 the country?

17 A. I can only speak to what's been done in DNA. I
18 don't have knowledge of any of the other sections
19 or what they have done. In DNA, the protocols
20 that we use have been peer reviewed and
21 validated, developmental as well as the internal
22 validation.

23 Q. All right. And so you are comfortable with the
24 protocols because of that.

25 A. Yes.

1 Q. And you would not submit a brand new protocol,
2 never done before, for your DNA test, and expect
3 to pass accreditation with that, would you?

4 ATTORNEY GAHN: Objection, your Honor, to
5 the form of the question.

6 THE COURT: Sustained.

7 Q. (By Attorney Buting)~ All right. So let me move
8 on a little bit. Your auditors come after they
9 get the protocols and they check out the lab,
10 right?

11 A. Yes.

12 Q. They check out the analysts, by way of
13 proficiency tests?

14 A. Correct.

15 Q. And they also check out security and that whole
16 process?

17 A. Yes.

18 Q. Like chain of custody?

19 A. Correct.

20 Q. Let's talk about that for a moment. Wisconsin's
21 Crime Lab's chain of custody procedure, I believe
22 you testified the agency submits it, usually
23 police, bring it into your lab, some central
24 gathering person, right?

25 A. Yes.

1 Q. What do you call them?

2 A. We have three evidence specialists.

3 Q. And what they do is, they look at the evidence.

4 You said they make sure it's sealed, right?

5 A. Yes.

6 Q. They give it one of these numbers, or you call

7 them numbers but they are often letters, right?

8 A. Well, a lab number refers to the whole case, and

9 then an item designation and a letter.

10 Q. Okay. So the lab number in this case is -- well,

11 I don't expect you to have it memorized, but it's

12 M05-2467.

13 A. Yes.

14 Q. Okay. Then you do have it memorized. And then

15 as the items come in they get named, or

16 designated, item A, B, C, all the way through the

17 alphabet?

18 A. Right.

19 Q. Then they start getting called AA, AB, AC all the

20 way through the alphabet that way?

21 A. Yes.

22 Q. Where do they go after that, B?

23 A. BA.

24 Q. BB, BC, BD, and you keep on going.

25 A. Right.

1 Q. And in this case, probably you got higher
2 designations than any other case that's ever come
3 to your lab?

4 A. I believe that's correct.

5 Q. Three hundred fifty you said, right?

6 A. About that, yes.

7 Q. And when that happens, when it first comes in,
8 this evidence specialist not only gives it a
9 designation, but then fills out some kind of form
10 that verifies the evidence has come into the lab,
11 right?

12 A. Yes.

13 Q. And at the end of the case, or whatever, at
14 whatever point your lab decides to send the
15 evidence back to the submitting agency, they
16 submit another -- or fill out another form,
17 right?

18 A. Yes.

19 Q. And that form is called an Evidence Release
20 Return Form?

21 A. Yes.

22 ATTORNEY GAHN: Again, your Honor, we're
23 going to have to be heard on this.

24 THE COURT: All right. Members of the
25 jury, I think what I will do at this time is excuse

1 you for your morning break. And we'll resume with
2 testimony after the break is complete. I will
3 remind you, again, not to discuss this matter during
4 the break. Jury is excused.

5 (Jury not present.)

6 THE COURT: You may be seated.

7 ATTORNEY BUTING: Excuse the witness,
8 please.

9 THE COURT: I'm going to excuse the witness
10 right now. You are excused. Mr. Gahn.

11 ATTORNEY GAHN: Your Honor, Mr. Buting has
12 presented a form here from the -- used by the Crime
13 Lab. It's an Evidence Release Return Form. But,
14 again, I guess I would like to see an offer of proof
15 of where are we going with this 1985 case. This had
16 to do with the 1985 case, when that evidence was
17 returned, to whom it was returned, and I just fail
18 to see the relevancy of going down this road at this
19 point.

20 THE COURT: Can somebody give me a copy of
21 the offered exhibit?

22 ATTORNEY BUTING: Should I mark it?

23 THE COURT: I think we should mark it.

24 ATTORNEY GAHN: My understanding, your
25 Honor, is they have stated their defense, it's this

1 planting of the blood vial. And this has nothing to
2 do with the blood vial, or anything remotely
3 connected.

4 ATTORNEY BUTING: Judge, what it is is a
5 record regularly kept in the course of her business.
6 She's going to be able to easily identify it. She's
7 talked about the 2003 exoneration. It shows that
8 Mr. Avery's buccal swabs --

9 THE COURT: Is your microphone on?

10 ATTORNEY BUTING: Yes. It shows that
11 Mr. Avery's buccal swabs, that used to be in the
12 custody of the Crime Lab, were sent back to the
13 Manitowoc County Sheriff's Department in 2003.

14 THE COURT: All right. I had understood
15 that the blood that was in the Clerk's Office was
16 going to be the subject of the defense. How does
17 this exhibit relate to that defense?

18 ATTORNEY BUTING: Well, this witness has
19 testified that there's DNA found on items that she
20 said she didn't see any blood, which could have come
21 from buccal swabs. So she's already testified to
22 that, so it's in play, whether or not the Manitowoc
23 Sheriff's Department had any of Mr. Avery's DNA in
24 another form, which they did.

25 THE COURT: Do we know if these items,

1 which on their face at least, say they are sealed,
2 are still sealed somewhere in the Sheriff's
3 Department Office?

4 ATTORNEY BUTING: That would be the subject
5 of testimony later, I suspect. But at this point,
6 all I'm doing is showing that they are not still at
7 the Crime Lab, that they were sent back to the
8 submitting agency, in this case, Detective Remiker.

9 THE COURT: Mr. Gahn.

10 ATTORNEY GAHN: Well, your Honor, I guess I
11 don't understand what's happening here. Is -- Now,
12 are we switching that the planting did not come from
13 the blood, but the planting now came from the buccal
14 swabs of Steven Avery? Is that what the defense is
15 stating now? Are they switching and changing their
16 theory of defense, that it's no longer from the
17 blood vial that's in the Clerk's Office, but now the
18 planting took place with buccal swabs of Steven
19 Avery? Now this is new --

20 ATTORNEY BUTING: Judge, this is not new.
21 We have alleged -- Look, they brought up, on direct,
22 that there was DNA that she discovered that she said
23 did not appear to come from blood. So it had to
24 come from another source. This is another source,
25 that according to this record at least, was sent

1 back to Manitowoc County Sheriff's Department. And
2 we will tie it up later when we establish that it is
3 in fact still in the Manitowoc Sheriff's Department,
4 or at least it was as of October -- or November 5th,
5 whatever, 2005.

6 ATTORNEY GAHN: Your Honor, I guess their
7 offer of proof in this case, which the Court
8 required, and in their offer of proof, it was the
9 planting was done by the blood vial. Simple as
10 that. That was it. Now they are going off on this
11 buccal swab now, that the planting may have come
12 from there. And I don't --

13 ATTORNEY BUTING: Judge, I don't mean to
14 cut counsel off, but it is in response to testimony
15 they elicited here, that some of it, some of the DNA
16 apparently did not come from blood. Now, we have a
17 right to respond to that and this is a response. It
18 is not an explanation for the blood in the RAV 4.

19 THE COURT: Right.

20 ATTORNEY BUTING: Maybe an explanation for
21 some of the other.

22 THE COURT: My recollection is that the
23 previous contested hearing involved the blood vial.
24 I don't know that I was asked to rule on anything
25 other than the vial. I believe the evidence first

1 came up at that point, that there was some DNA
2 evidence of Mr. Avery, apparently not from blood,
3 that was found, if I recall correctly, on the Toyota
4 key and on the hood latch.

5 And so I don't think I can say that this
6 exhibit would not be relevant. The State is free
7 to show in rebuttal or as part of it's
8 case-in-chief that these samples are still sealed
9 somewhere in the Sheriff's Office. I think it is
10 relevant. So after we get back from our break, I
11 will allow the defense to pursue this matter.

12 ATTORNEY BUTING: Thank you. What time did
13 you say?

14 THE COURT: Let's come back in 15 minutes.

15 ATTORNEY BUTING: All right. Thank you.

16 (Recess taken.)

17 (Jury present.)

18 THE COURT: At this time the witness can be
19 brought back into the courtroom. Attorney Buting,
20 you may resume.

21 ATTORNEY BUTING: Thank you, your Honor.

22 **CROSS-EXAMINATION CONTD.**

23 BY ATTORNEY BUTING:

24 Q. Now, Ms Culhane, we were talking about, before
25 the break, about this process that you go through

1 when -- your lab goes through when evidence is
2 brought in from the agency and, actually, also,
3 when it's returned to the agency, correct?

4 A. Yes.

5 Q. I'm showing you Exhibit 344, can you identify
6 that?

7 A. Yes, this is a copy of our -- the forms that we
8 fill out when we send evidence back to the
9 agency.

10 Q. Okay. And this is a regular record that's used
11 by your lab in the course of business,
12 day-to-day?

13 A. Yes.

14 Q. Okay. And it's meant, as part of a chain of
15 custody, to document where evidence goes, who has
16 it at any given time?

17 A. Right.

18 Q. When you're done with it, you want to make sure
19 it's clear you are done with it, it is no longer
20 your responsibility, from that point on?

21 A. Right.

22 Q. All right. I'm just going to put up here, on the
23 ELMO, Exhibit 344. And this has a case number on
24 it, rather old case number, right?

25 A. Yes, that's actually the agency number. I would

1 recognize it by our lab number, which is on the
2 other side.

3 Q. I'm sorry, let's move over here.

4 A. There you go.

5 Q. And the 85 -- M85, 85 refers to the year of the
6 case that it's submitted to you?

7 A. Yes.

8 Q. So that would be 1985?

9 A. Yes.

10 Q. So this is actually an Evidence Release Form
11 relating to Mr. Avery's 1985 conviction, right?

12 A. Correct.

13 Q. And the last item number, W, designated W, at the
14 bottom there, says one sealed envelope
15 containing -- I always call it buccal, is it
16 buccal?

17 A. Buccal.

18 Q. Buccal. Containing buccal swabs reportedly
19 recovered from Steven Avery, right?

20 A. Yes.

21 Q. And by this form, what you are saying is that --
22 moving it to show the date here -- the date is
23 October 13th of 2003, right.

24 A. Could you slide it over just a little bit?

25 Q. Sure. Let me zoom out of it, maybe we can see.

1 Does that help?

2 A. Yeah. It was released from our lab on September
3 25th, 2003.

4 Q. Okay.

5 A. And it was signed for at Manitowoc Sheriff's
6 Department on 10/13/03?

7 Q. And the name of the person who is signing it is
8 Detective Remiker, or Dave Remiker?

9 A. It appears to be.

10 Q. Manitowoc Sheriff's Department, right?

11 A. Yes.

12 Q. That's the printed name and then there's a
13 signature next to it, which I assume you can't
14 identify yourself?

15 A. No.

16 Q. Do you know Mr. Remiker?

17 A. No.

18 Q. Okay. So, what this document tells you, then, is
19 that on -- in September of 2003, you returned
20 Mr. Avery's buccal swab reference sample to the
21 Manitowoc County Sheriff's Department?

22 A. Yes.

23 Q. Okay. Now, back to the internal chain of
24 custody. When the evidence first comes in to
25 this evidence specialist; we saw a name up there,

1 Sue Glitchel, I think it was?

2 A. Gitchel, yes.

3 Q. G-l-i --

4 A. G-i-t-c-h-e-l.

5 Q. G-i-t-c-h-e-l. Fran Lutz is another one?

6 A. Mm-hmm.

7 Q. L-u-t-z?

8 A. Yes.

9 Q. Anyway, they take it and they put it in some sort
10 of communal storage room; is that what happens?

11 A. Yes.

12 Q. And that's a locked room?

13 A. Yes.

14 Q. That only certain people can come and go?

15 A. That's correct.

16 Q. Those people include the individual DNA analysts,
17 right?

18 A. No.

19 Q. No?

20 A. No, it's only evidence specialists, the
21 supervisors, and our director.

22 Q. So when you need to go work on something that's a
23 part of evidence that's been brought in, you have
24 to go check in with the evidence custodian?

25 A. Yes. And we request evidence and then they bring

1 it to -- there's a window there, they bring it to
2 us, and then we take custody of it.

3 Q. Okay. And somewhere it's marked that you now
4 have custody of it, rather than the central
5 storage?

6 A. Yes.

7 Q. Okay. And then when you take it, you or any of
8 the analysts take it into your possession, you
9 bring it over to your lab bench?

10 A. Yes.

11 Q. Do you have some sort of storage lockers there?

12 A. Yes, in the front part of our lab bench.

13 Q. And can you just describe what those are, what
14 they look like?

15 A. The front of our lab bench, they are probably
16 about this deep and maybe, I don't know, 3,
17 6 feet long. And they have shelves in them.

18 Q. The lab benches are about 6 feet long?

19 A. Well, I don't remember. There's shelving inside
20 there and they are on the front of our lab bench
21 where we do our work space. And then on the
22 front we have cabinets that we can put evidence
23 in.

24 Q. Okay. And is there more than one on each bench?

25 A. The benches in the lab are T-shaped. There's one

1 analyst on each side. I have -- Each analyst has
2 two cupboards for storage.

3 Q. Okay. When you say cupboards for storage, these
4 are like drawers?

5 A. No, you just open the door and there's shelving.

6 Q. Okay. There's shelves underneath the bench you
7 are actually working on?

8 A. Yes.

9 Q. That's the lab bench where you are doing certain
10 tests?

11 A. Yes.

12 Q. Extractions usually?

13 A. Yes.

14 Q. Okay. And are these cupboards or these shelves
15 you are talking about, are they -- they have
16 doors on them?

17 A. Yes.

18 Q. Are they like open wire mesh kind of doors?

19 A. No, they are regular locked wooden doors.

20 Q. Solid doors?

21 A. Yes.

22 Q. And they have locks on them?

23 A. Yes.

24 Q. And there's two separate shelves, or two separate
25 cupboards?

1 A. There's two shelves in each cupboard and there's
2 two separate cupboards.

3 Q. Okay. And each analyst has two of those?

4 A. Yes.

5 Q. And that's so that if you are working on one big
6 case, you don't mix up the items from that case
7 with some other case you are working on?

8 A. Yes, it's just storage space for evidence that's
9 being worked.

10 Q. So you wouldn't mix one case -- evidence from one
11 case that you are working and put it in the same
12 cupboard with another?

13 A. No. We do store several cases, but the cases
14 are -- the items of evidence within the case are
15 packaged and sealed.

16 Q. Sure. All right. So you -- you do try and keep
17 the evidence from one case all together?

18 A. We try, yes. But we have several cases in that
19 area at the same time.

20 Q. Okay. And so in this case, when you would be
21 working on any of the evidence in this case, you
22 would try and keep all of the evidence that's not
23 up on the bench, you would try and keep it all in
24 one cupboard?

25 A. Yes.

1 Q. All right. And is the key that only you have to
2 the cupboard, or do all the analysts keys work on
3 the same cupboard?

4 A. All the analysts have a key.

5 Q. And the key works for all of these cupboards?

6 A. Yes.

7 Q. So you could open up someone else's cupboard?

8 A. Yes.

9 Q. Or they could open up yours?

10 A. Yes.

11 Q. Okay. Not that you would want to, but I'm just
12 trying to establish that for the record?

13 A. Right.

14 Q. Now, when you take evidence out of your cupboard
15 and start working it on your bench, is it always
16 put back at the end of the day and locked in the
17 cupboard?

18 A. No.

19 Q. Sometimes you have tests and things that work
20 overnight, right?

21 A. Yes.

22 Q. All right. Now, in this case, you worked a
23 little bit differently with regard to the RAV 4
24 stains, because you are the one who actually took
25 them in?

1 A. That's correct.

2 Q. So instead of the police department delivering
3 swabs of these stains, that you would then check
4 out from the evidence custodian, it didn't work
5 that way?

6 A. Right.

7 Q. What happened was, on November 7th, I believe?

8 A. Yes.

9 Q. Monday, you come down to the garage and you see
10 there's this RAV 4 there, Toyota RAV 4?

11 A. Right.

12 Q. And you are there after Mr. Groffy, right?

13 A. Yes.

14 Q. He's already done his photographs and processing
15 before you ever touch it?

16 A. Right.

17 Q. And you testified that you took a number of those
18 swabs, a number of stain swabs. You mentioned a
19 -- I forget what the last number -- actually the
20 last number was A-23, right?

21 A. I believe so, yeah.

22 Q. So you actually took 23 swabs in different areas,
23 some of them the same areas?

24 A. No. I only took -- someone else was processing
25 it for ident, I believe. And that's where the

1 23, I didn't take 23 swabs.

2 Q. I see what you are saying. So what you are
3 saying is, you took A-1, A-2, A-3, A-4, up to
4 where, 12?

5 A. A-12, I believe.

6 Q. Okay. And then Mr. Riddle, Michael Riddle?

7 A. Yes.

8 Q. He's the fingerprint guy?

9 A. Right.

10 Q. He examined it. And when he would find
11 fingerprints on it, he would give those a
12 designation like A-13 or A-14.

13 A. Right. Actually, I worked up through A-14.

14 Q. Okay. And then there is a stain, a swab that you
15 took, though, that's designated A-23?

16 A. Correct.

17 Q. And that's because Mr. Riddle found something he
18 thought maybe you should take a look at and swab.

19 A. Yes.

20 Q. So Mr. Riddle found something, fingerprints or
21 whatever, that he designated A-15 through A-22?

22 A. I assume so.

23 Q. Okay. And you came in and did this last one?

24 A. Yes.

25 Q. Okay. And then you took all these swabs, you

1 said they were in like a test tube holder, to
2 dry?

3 A. Yes.

4 Q. Did you package them there at the bench in the
5 garage, or did you take it back to your
6 department, your bench, to package?

7 A. I believe I packaged them in the garage.

8 Q. So they were dry already?

9 A. No, I put them in the coin envelope and I left
10 the envelope open.

11 Q. Okay. And these swabs, just so we're clear,
12 they're like Q-tips?

13 A. Yes.

14 Q. Longer?

15 A. Essentially, yes.

16 Q. Okay. So then you took the swabs that you found
17 from the RAV 4, the 14, and you brought them
18 directly to your lab bench?

19 A. Yes.

20 Q. And then into your storage locker?

21 A. Actually, they were on my lab bench while they
22 air dried -- or they were in the coin envelopes
23 on my lab bench, overnight, while they air dried.

24 Q. Okay. And, then, once they were dried and you
25 were -- Well, you did some tests with them, I'm

1 sure. But once you were done with doing those
2 first round of tests in November, you put them in
3 your storage locker?

4 A. Yes, they were sealed up and put away.

5 Q. You didn't return them or place them in central
6 storage?

7 A. I can look. I don't recall exactly when I --

8 Q. Why don't you look. Why don't you look at -- you
9 have the Chain of Custody Report?

10 A. Yes.

11 Q. Look at Page 1 of 50?

12 A. I'm sorry, what items?

13 Q. It's the Chain of Custody Report, just look at
14 the first page.

15 A. Okay.

16 Q. First page lists A, A-1, 2, 3, 4, 5 -- I'm sorry,
17 4-A.

18 A. Yes.

19 Q. Right?

20 A. Right.

21 Q. And A-1, A-2, A-3, were all determined to be
22 Teresa Halbach's DNA, if you recall?

23 A. That's correct.

24 Q. Those were the swabs from the blood in the back,
25 and the rear of the cargo?

1 A. And four.

2 Q. And four as well. Okay.

3 A. Yes.

4 Q. And those were in your custody until when?

5 A. April 3rd, 2006.

6 Q. Okay. And so, then, on that date, you returned

7 them to the central storage area with the

8 evidence specialist?

9 A. Correct.

10 Q. But from November up to April 3rd, they were

11 sitting in your storage area of your lab bench?

12 A. Sealed, yes.

13 Q. Yes. But in that same compartment all together?

14 A. That's correct.

15 Q. With whatever other evidence you had on the Avery

16 case, all in that same cupboard, right?

17 A. Correct.

18 Q. Okay. Then, if you look ahead maybe to Page 38

19 of your Chain of Custody Report, directing your

20 attention to Item FL as in Larry, FL?

21 A. Yes.

22 Q. Now, you previously testified about that, that's

23 the bullet fragment?

24 A. Yes.

25 Q. Right?

1 A. Yes.

2 Q. That's the one that you say you found Teresa
3 Halbach's DNA on?

4 A. Correct.

5 Q. That came into your lab on what date?

6 A. March 16, 2006.

7 Q. And it came into your custody from that central
8 room on what date?

9 A. March 28, 2006.

10 Q. Okay. And then you actually started working on
11 it the next day, March 29th; isn't that right?
12 Do you need to refer to your case notes?

13 A. Yes, I do.

14 Q. That's fine.

15 A. I began -- I began -- I screened the evidence on
16 March 29th, '06.

17 Q. Okay. And, then, one of the things you do in
18 that -- first thing is you open it up and take a
19 look at it, right?

20 A. Yes.

21 Q. You unseal the -- whatever it is, and in this
22 case it was like a little plastic bag, right?

23 A. Right.

24 Q. And you then began -- we'll talk about it more
25 later, but at that point you began the process of

1 extraction amplification and, ultimately,
2 figuring out a profile?

3 A. Yes.

4 Q. And that's the test that we later -- we heard
5 later, at some point in the process, was
6 contaminated with your DNA?

7 A. That's correct.

8 Q. Proficiency tests are something that you take
9 about every year or so?

10 A. Twice a year.

11 Q. Twice a year. And they involve you doing --
12 testing a sample that's sent to you by some
13 outside private company?

14 A. Yes.

15 Q. And those are just pass/fail, right?

16 A. No.

17 Q. You get a grade, A, B, C?

18 A. Well, you -- I suppose they are pass/fail, but
19 it's not -- you are required to put the types
20 down and they are -- also you are required to
21 actually record the types that you develop and
22 then there are several interpretation questions
23 on there. Could the sample contribute to this
24 evidence sample? Could the sample from the
25 victim contribute to the evidence sample? So we

1 actually have to record our types and do some
2 interpretation.

3 (Exhibit No. 345 marked for identification.)

4 Q. I'm showing you now Exhibit 345, can you identify
5 that for the record?

6 A. Yes. This is a copy of the -- Once we sent our
7 answers back to the company, then they send us
8 documentation as to whether our types are
9 consistent with the types that should be on the
10 case --

11 Q. All right.

12 A. -- test.

13 Q. And, then, this actual report that you have in
14 your hand is something that's filled out by
15 supervisors in your lab?

16 A. Well, yes.

17 Q. Okay. That report isn't prepared by this outside
18 company, that's prepared by someone in your lab,
19 right?

20 A. Yes.

21 Q. And on this particular one, it has a number of
22 boxes -- in fact, they all have a number of boxes
23 where they say -- well, let's look at the main
24 ones. Technical performance on this one was
25 accepted, right?

1 A. Right.

2 Q. But on this particular one, it also has some
3 comments. What does that mean? What are the
4 comments on this?

5 A. I'm not sure. I don't recall that test, so I
6 really -- I'm not sure what is meant by that.

7 Q. Let's look at the date for a minute. The date is
8 April 7th of '06?

9 A. Correct.

10 Q. Actually, if you look up here, the test is --
11 looks like you completed the test on March 1st?

12 A. Yes.

13 Q. And then it was received -- compilation received
14 by the a lab or something on --

15 A. Yes.

16 Q. -- on April 4th?

17 A. Yes.

18 Q. So this is really right about the time that you
19 are doing this test on the alleged bullet
20 fragment in Mr. Avery's case, right?

21 A. Yes.

22 Q. And often these results or comment sections are
23 blank. They don't say anything. They just check
24 acceptable or not acceptable, right?

25 A. Sometimes. Sometimes there's a comment.

1 Q. And this one indicates some what, a mistake that
2 you made?

3 A. I don't believe so, no.

4 Q. It's referring to a non-sperm fraction with a
5 mixture of victim and semen donor is what that
6 says.

7 A. Like I said, I can't really comment because I
8 don't remember the specific proficiency test.

9 Q. And that's not your handwriting?

10 A. No.

11 Q. But it is your -- also your supervisor's
12 signature at the bottom?

13 A. Yes.

14 Q. And your signature on April 10th of '06?

15 A. Right.

16 Q. Okay. But you don't ever recall seeing this?

17 A. Well, obviously I saw it, because I signed it.

18 Q. Sure.

19 A. But, no, I don't independently recall.

20 Q. Okay. Would it be fair to say that the Wisconsin
21 Crime Lab has a pretty heavy case load of DNA,
22 your section, the DNA unit?

23 A. Yes.

24 Q. You have gotten a lot of publicity about it
25 lately?

1 A. Yes.

2 Q. Became an issue in the last election for the
3 Attorney General for the State of Wisconsin,
4 right?

5 A. Apparently.

6 Q. Well, you were in the lab and you are part of
7 management to some degree, right?

8 A. Not really. I'm not really part of management.
9 I have some management duties, but I'm not really
10 considered management.

11 Q. Okay. But part of those duties are case work,
12 case flow, and case management?

13 A. Right.

14 Q. And priority, right?

15 A. Yes.

16 Q. So you are certainly aware that the case load has
17 been going up, and up, and up, at the Crime Lab?

18 A. Yes.

19 Q. And that you are getting calls from prosecutors
20 and police all the time, asking you to, please,
21 do these -- get these results in yesterday?

22 A. Correct.

23 Q. They want them fast?

24 A. Yes.

25 Q. And so there's some pressure on the analyst to

1 get the job done?

2 A. Of course.

3 Q. Okay. And that's important for a number of
4 reasons, for instance, you don't want a suspect
5 in a case, who's DNA has already been sent to
6 you, to be out running around committing new
7 crimes, when if you can get to your tests
8 quicker, you might be able to link him to
9 something and get him off the streets?

10 A. That's correct.

11 Q. It's also important, because you do some
12 post-conviction tests as well?

13 A. Yes.

14 Q. And you don't want an innocent man sitting in
15 prison longer than necessary, while his DNA
16 sample sits in your office, unanalyzed, because
17 of backlog?

18 A. Correct.

19 Q. And just to give the jury some estimate or some
20 understanding of the numbers here, correct me if
21 I'm wrong, but my understanding is that your --
22 the DNA Unit's backlog of work, approximately
23 tripled between 2003 and 2005; would that be
24 about right?

25 A. I believe that's right.

1 Q. If I gave you the number that your backlog of
2 cases that you were working on in 2003 was 478,
3 and as of 2005 it had gone to 1,375; does that
4 sound about right?

5 A. I don't remember the exact numbers, but when you
6 are talking about DNA cases, you are talking
7 about the Madison Lab and the Milwaukee Lab.

8 Q. Sure.

9 A. So, we're not just talking about one laboratory.
10 And if those numbers were what was quoted, I
11 assume that's correct. I don't recall exactly.

12 Q. So when Mr. Avery's case came to your lab, it
13 came to your lab at a time when there was already
14 this huge backlog that had just ballooned or
15 exploded over the last two years, or tripled?

16 A. That's correct.

17 Q. This case, then, put an enormous demand on your
18 resources, right?

19 A. Yes.

20 Q. Three hundred and fifty submissions to the
21 overall Crime Lab, all the different sections,
22 right?

23 A. Correct.

24 Q. One hundred eighty just to the DNA Unit?

25 A. That's correct.

1 Q. And so while all these -- while these 180 pieces
2 of evidence were in your lab to be analyzed in
3 the Avery case, your analysts were also working
4 very hard to reduce that backlog and deal with
5 all the other submissions that kept coming in?

6 A. That's correct.

7 Q. Would you agree that there was, given the case
8 load, there was a shortage of analysts, in 2005,
9 in your lab?

10 A. Yes.

11 Q. The Madison Lab?

12 A. Yes.

13 Q. And that you were trying to bring new ones on
14 board, that's part of the idea was to -- your
15 function, was to help train new people?

16 A. That's correct.

17 Q. But you said that takes some time, nearly a year,
18 to train somebody new, right?

19 A. Right.

20 Q. And the way you trained them, let's talk about
21 2005 and 2006, you had a number of new analysts
22 that were sort of under your wings, right?

23 A. Yes.

24 Q. And you would train them by -- kind of like you
25 see on doctor shows, where you have the main

1 doctor and the interns following along, right,
2 like ducklings?

3 A. Sure.

4 Q. They follow you around to wherever you go?

5 A. Part of their training --

6 Q. Okay.

7 A. -- involved that.

8 Q. And part of that training would mean they would
9 follow you when you went up to your lab bench to
10 do something?

11 A. Sometimes.

12 Q. Okay.

13 A. Not that often. Most -- A lot of their training
14 revolves around lectures, and reading, and
15 running their own samples. And some of the
16 trainees in this case were coming from other
17 laboratories, so they had quite a bit of training
18 already. So it wasn't totally following me
19 around.

20 Q. All right. But there were some -- certainly some
21 aspects of the training that required them, these
22 trainees, to be with you when you are actually
23 doing tests at your lab bench?

24 A. Yes.

25 Q. And so you could demonstrate for them how to do

1 it, right?

2 A. Yes.

3 Q. Okay. Now, that means, however, that there were
4 more people than usual surrounded around a lab
5 bench when you are doing your tests?

6 A. Yes, on a limited basis.

7 Q. Sure. You try and limit it, and you are not
8 trying to contaminate anything, of course, right?

9 A. Right.

10 Q. But the more people around an evidence bench, or
11 lab bench with evidence on it, the greater the
12 risk of contamination, right?

13 A. Yes.

14 Q. Did you ever have any trainee actually do a hands
15 on test in this case?

16 A. No.

17 Q. Even under your supervision?

18 A. No.

19 Q. You did it all?

20 A. Yes.

21 Q. And they just watched?

22 A. Yes.

23 Q. And that was especially true on the day that you
24 were testing the bullet?

25 A. Yes.

1 Q. Item FL?

2 A. Yes.

3 Q. The trainee's were around you.

4 A. Well, there were two -- two trainees sitting by
5 my work space watching the beginning portion of
6 the extraction.

7 Q. Okay. We'll talk more about that in a moment.
8 All right. I apologize for the delay. I'm going
9 to show you what's marked Exhibit 308 and 307.
10 Just take a moment to orient yourself.

11 A. Okay.

12 Q. Okay.

13 A. Mm-hmm.

14 Q. Let me put these up on the screen. Tell me what
15 these are pictures of. Can you tell me what this
16 Item 307 is a picture of?

17 A. That's the rear of the RAV 4, our item A.

18 Q. Okay. And that is in the Crime Lab garage?

19 A. Yes.

20 Q. And you recognize the location?

21 A. Yes.

22 Q. And this particular photograph shows the rear of
23 the RAV 4, with the wheel cover and the cargo
24 door, right?

25 A. Yes.

1 Q. And if I zoom in on this a little bit, does this
2 depict the door handle for the tailgate, or
3 whatever you want to call it, the rear door?

4 A. Yes.

5 Q. Cargo door. That's the area that Mr. Riddle was
6 working on for fingerprints, correct?

7 A. I believe so, yes.

8 Q. And that's the area where he said, hey, maybe --
9 there's something here maybe you want to take a
10 look at that?

11 A. Yes.

12 Q. That's the item, then, that became A-23?

13 A. Yes.

14 Q. And you tested that, with a swab, for DNA, right?

15 A. Yes.

16 Q. And you did not find Mr. Avery's DNA on that
17 swab, did you?

18 A. No.

19 Q. And, so, if Mr. Kratz, in his opening statement,
20 told this jury, with a power point slide, right
21 up here showing that, with the circle around that
22 rear door, and said that that would -- there
23 would be evidence that Mr. Avery's DNA was on
24 that door handle, that would be wrong, wouldn't
25 it?

1 A. Based on my results, I didn't find Steven Avery's
2 DNA on that sample.

3 Q. In fact, you found Mr. Avery's DNA nowhere on the
4 rear of that vehicle at all, correct?

5 A. Correct.

6 Q. Even more so, you never found Mr. Avery's DNA
7 anywhere around the outside of any of the door
8 handles of that vehicle, did you?

9 A. No. But I -- I didn't test any of the exterior
10 doors.

11 Q. And you later received some swabs of the interior
12 door handles, didn't you?

13 A. Yes.

14 Q. And you did not find Mr. Avery's DNA on that, did
15 you?

16 A. No.

17 Q. You found Teresa Halbach's DNA on at least one of
18 them, right?

19 A. Right.

20 Q. You testified, though, to finding six apparent
21 blood stains, and all of them were, essentially,
22 in the passenger compartment area. This is in
23 November we're talking about. Okay.

24 A. Mm-hmm.

25 Q. All of those were in that passenger compartment

1 area of the RAV 4, right?

2 A. Exactly which ones are you referring to, because
3 there were several -- there were stains
4 throughout the car.

5 Q. Sure. And that's why I want to get clear.

6 A. Okay.

7 Q. Would you go to your -- Do you have some
8 handwritten notes of --

9 A. Yes, I do.

10 Q. -- where you found those stains on November 7th?

11 A. Yes.

12 Q. You want to take a moment and refresh your
13 recollection on those.

14 A. Are we talking about stains throughout the car,
15 or stains consistent with each individual, or --
16 I'm not sure what your question is.

17 Q. Let's talk about the stains that you say your
18 tests showed were Mr. Avery's DNA, or had Mr.
19 Avery's DNA on them?

20 A. Okay.

21 Q. You found them several places in the driver's
22 seat?

23 A. Yes.

24 Q. And the ignition on the dash?

25 A. Yes.

1 Q. And the seat right next to the driver's seat, the
2 front passenger seat, right?

3 A. Yes.

4 Q. And then you found one in the rear passenger
5 door, on the right side, as you open the door.
6 There's a little ledge.

7 A. Panel, yes.

8 Q. Okay. But you found none of Mr. Avery's DNA on
9 any stains in the rear cargo area of that
10 vehicle, did you?

11 A. No.

12 Q. None on the outside handle of the cargo door?

13 A. That's correct.

14 Q. None on the inside handle of the cargo door?

15 A. Correct.

16 Q. And, in fact, where you found those six stains in
17 November, of 2005, November 7th --

18 A. Yes.

19 Q. -- the ones that were attributed later, to
20 Mr. Avery's DNA, one could have planted simply by
21 opening two doors in that vehicle?

22 A. I really can't comment on that.

23 Q. Okay. You have got -- if someone was to plant
24 Mr. Avery's blood in that vehicle, to get to
25 those six stains, they would need to open the

1 driver's door, right?

2 A. Yes.

3 Q. Likely, or the passenger door on the front?

4 A. Yes.

5 Q. From either one, but more likely the driver's
6 door, you could reach the location where all of
7 the stains were found in that front seat area?

8 A. Except for the rear passenger door.

9 Q. I'm getting to that. Okay? The first five that
10 you found were all in that front compartment?

11 A. Yes.

12 Q. Front seat compartment?

13 A. Yes.

14 Q. Reachable by opening one door, right?

15 A. Yes.

16 Q. And, then, the only other stain that you found
17 there was in the rear passenger door that could
18 also be accessed simply by opening that one door?

19 A. Yes.

20 Q. So if somebody was to plant Mr. Avery's blood in
21 that vehicle, before you got it on November -- in
22 November, all of those stains you found could
23 have been done by simply opening two doors?

24 A. Yes.

25 Q. Now, many months later, April I believe it was,

1 you got a swab that was told to you was a hood
2 latch swab?

3 A. Correct.

4 Q. That was not tested, or did not come from your
5 test in November?

6 A. Right.

7 Q. And you weren't present when it was taken, by
8 whomever, sometime before it arrived at your lab?

9 A. No, I was not.

10 Q. And you didn't do a presumptive test for blood,
11 right?

12 A. Correct.

13 Q. You didn't see any blood particularly visible on
14 the swab, right?

15 A. Right.

16 Q. But it was discolored?

17 A. Yes.

18 Q. Dirty, might possibly have had some residue of
19 blood mixed in with the dirt and grime and
20 whatever else was on the swab, right?

21 A. It's possible, but there was no visual
22 indication.

23 Q. And you often -- well, not often, but you do
24 sometimes find blood without visibly seeing it,
25 right?

1 A. Yes.

2 Q. And your presumptive tests will usually indicate
3 that?

4 A. Correct.

5 Q. But you didn't actually do one here, on this hood
6 swab, right?

7 A. Correct.

8 Q. So you can't rule out the source of that DNA
9 being a blood drop or a blood smudge of some
10 sort, can you?

11 A. No. I can --

12 Q. That's fine.

13 A. I can say that it wasn't a visible --

14 Q. Sure. But you can't rule out that blood may have
15 been the source?

16 A. A very trace amount, yes.

17 Q. Because this was a low amount, you say, right?

18 A. Well, the entire swab was a low amount of DNA and
19 that's why I didn't test it for presumptive,
20 because I didn't want to waste any of the sample
21 on a presumptive test.

22 Q. Okay. We'll get to that in just a moment here.
23 You also testified very, very briefly, I think,
24 about Item B, which is Mr. Avery's own Pontiac
25 Grand Am --

1 A. Yes.

2 Q. -- right?

3 A. Yeah.

4 Q. And you did test a number of stains or swabs that
5 came to you, or did you actually get them
6 yourself?

7 A. I collected them.

8 Q. You collected them, okay. And overall you found
9 Mr. Avery's DNA on those swabs, right?

10 A. Yes.

11 Q. Not at all unusual to find one's own DNA on one's
12 own possessions?

13 A. Correct.

14 Q. You didn't find Teresa Halbach's DNA on any of
15 those items, or anywhere in Item B, the Pontiac
16 Grand AM, did you?

17 A. No.

18 Q. And you certainly were looking for that if that
19 was -- right, that was part of your test, part of
20 your examination?

21 A. Well, I just processed the blood samples and they
22 were what they were.

23 Q. And they were not Teresa's?

24 A. Correct.

25 Q. Okay. Let's turn to the key. Would this be

1 something that you would consider that had trace
2 levels of DNA?

3 A. I guess it depends on how you define trace.

4 Q. Let's say a relatively low amount of DNA in this
5 particular instance?

6 A. Yes.

7 Q. If you could look at your notes maybe, refresh
8 your recollection. I'm going to ask you in a
9 moment about that. If you can give me some
10 estimate, from your records, about just what the
11 volume or level of DNA you found on that key was?
12 Okay?

13 A. Yes.

14 Q. Now, I believe you testified that there was no
15 blood visible on this item either?

16 A. Correct.

17 Q. But, again, you didn't do a presumptive test?

18 A. No, I did not.

19 Q. What you did was, you took a swab, a Q-tip,
20 moistened with this distilled water, right?

21 A. Yes.

22 Q. And you rubbed it all the way around, both sides,
23 top, bottom, whatever, of the black plastic part
24 of the key?

25 A. Correct.

1 Q. And the swab, I think in this instance you said
2 was not discolored?

3 A. That's correct.

4 Q. Now, when you tested this swab from the key, you
5 used the entire amount. You used the entire
6 swab, didn't you?

7 A. Yes.

8 Q. Normally, you will try and just cut a swab in
9 half, use half, save half?

10 A. Yes, if there's enough, yes.

11 Q. But this particular test, just by looking at it,
12 looking at the item you were dealing with, you
13 thought you couldn't do that.

14 A. Well, I felt that being what we refer to as a
15 touched item, and there being no visible
16 indication of a biological fluid like blood,
17 that, yes, I would probably have a low amount to
18 start with.

19 Q. Okay. So when I call something trace, I'm
20 talking about this small amount of DNA that may
21 be transferred by something less than the usual
22 bodily fluids of blood, or -- well, let's just
23 stick with blood.

24 A. Yes. I mean, it all depends on the stain. There
25 are touched items that have lots and lots of DNA

1 present. Some touched items don't have that
2 much. It just depends on who touches them and
3 what the item is. So to generalize all touched
4 items with the term trace amounts, I'm not sure
5 that's accurate.

6 Q. All right. You said you keep up with the
7 literature in your field, right?

8 A. I try.

9 Q. And I take it, then, that you have read a report,
10 a study by Ray Wickenheiser?

11 A. I don't remember the name, may I see it.

12 Q. Sure. I'm not going to actually mark it, but
13 take a moment and look at it and see if you maybe
14 recognize this article, or the study it refers
15 to.

16 A. Yes, I believe I have read this.

17 Q. Okay. And this -- basically, this is an article
18 published in 2002, says at the bottom, right?

19 A. Yes.

20 Q. And the title is, Trace DNA: A Review Discussion
21 of Theory and Application of the Transfer of
22 Trace Quantities of DNA Through Skin Contact,
23 right?

24 A. Yes.

25 Q. This article, among other things, talks about

1 some of the different theories about how one
2 actually transfers DNA by touch or by skin.

3 A. Yes.

4 Q. And there's different theories. Some people
5 think that it's really just a transfer of some
6 bodily fluids, somebody who rubs their eyes, like
7 this, maybe gets some tears on it, then picks
8 something up, right?

9 A. Well, anytime you touch your body and you have
10 cells on your hands, then that would be a way to
11 transfer it.

12 Q. Sure. Or if you touch your mouth, you know,
13 something like that, you have got your fingers to
14 your mouth and then you touch something, you may
15 be transferring DA (sic) through little bits of
16 saliva, right?

17 A. Well, again, you are talking about skin. I mean,
18 even just your hands are going to slough off
19 skin, so you don't have to really touch your
20 face, you just touch something with your hands
21 you will leave --

22 Q. But you are aware, though, that there is kind of
23 a dispute in the field of people that are
24 studying this, as to whether or not the cells,
25 just the epithelial cells that you are shedding

1 from your fingers alone is enough to produce a
2 DNA result or profile, or whether, in fact, what
3 really is happening is you are transferring some
4 bodily fluid to your fingers and then touching it
5 and transferring it that way?

6 A. I understand there's probably different opinions,
7 but the bottom line is, if you touch something
8 with your hand, or any part of your body, and you
9 leave cells, it has the potential for our DNA
10 profile.

11 Q. Okay. And I don't know if you had a chance to
12 look at your notes yet?

13 A. Yes.

14 Q. Can you tell me approximately -- if I told you
15 that the amount recovered in that swab of the key
16 was somewhere between -- somewhere around 20
17 nanograms of DNA, would that be a ballpark?

18 A. No.

19 Q. What do you come up with?

20 A. Well, actually, in the whole sample, you may be
21 right. My quantitation is .17 for one
22 microliter.

23 Q. Sure. But you have to add volume to it and --

24 A. And the total amount of the extract was probably
25 around 30 to 35 microliters.

1 Q. Okay. So a little bit more than what I said.

2 A. Yes.

3 Q. You are familiar with tests of liquid blood would
4 have DNA in the amount of over 20,000 nanograms,
5 something like that?

6 A. I don't recall exact numbers, no.

7 Q. And how about buccal or buccal swabs, are you
8 aware that they have, generally, anywhere from
9 couple thousand maybe, 2,000, 3,000?

10 A. Again, I don't recall exact numbers.

11 Q. Let me show you another study, see if you
12 recognize that. It's a study by Henry Lee
13 (phonetic), Karl Ladd (phonetic), does that look
14 at all familiar?

15 A. No, I have never read this.

16 Q. Okay. Have you read anything that tells you, or
17 that's made some kind of determination of what
18 the volume of -- or in terms of nanograms, what
19 the amount of DNA one would typically find in a
20 buccal swab.

21 A. Sure. I just don't recall the exact number.

22 Q. Okay.

23 A. But it's obviously much more DNA in a buccal swab
24 or a blood sample. Those are rich sources of
25 DNA, so there's going to be a lot of DNA there.

1 Q. Sure. And if one was to take a buccal swab and
2 rub it on the key in this case, it might transfer
3 30, 35 nanograms of DNA?

4 A. I have no idea.

5 Q. Well, would that be an unreasonable amount, or
6 reasonable?

7 A. I really -- There's no way for me to comment on
8 that. And there's no -- you may transfer a lot
9 of DNA, you may not transfer very much at all.

10 Q. Okay.

11 A. There's really no way to answer that.

12 Q. Would it be fair to say that the DNA volume or
13 amount that you found on that key was not very
14 much?

15 A. No, it was a low level, yes. That's correct.

16 Q. Low level. If one was to rub a toothbrush up
17 against a key, that might also transfer some low
18 level amount of DNA to the key, right?

19 A. That would be possible, however, in my experience
20 toothbrushes are not a real good source of DNA.
21 It's very difficult to get a profile from a
22 toothbrush.

23 Q. That's when you test the toothbrush itself. But
24 in terms of transferring just 30 to 35 nanograms
25 of DNA, that could be done by rubbing a

1 toothbrush on it, potentially?

2 A. Like I said, it's possible but.

3 Q. And it's also possible to get that amount by
4 rubbing a buccal swab against the key as well,
5 right?

6 A. Yes.

7 Q. There are many ways, many personal items that
8 someone might rub against a key that might also
9 shed and deposit a low amount of DNA like such as
10 you found on this key?

11 A. Yes, it's possible.

12 Q. Okay. And from looking at this key, and your
13 swab, and the evidence you found, you cannot tell
14 whether the DNA that was found on that key was
15 planted there by somebody or not, can you?

16 A. No.

17 Q. And, indeed, if somebody did plant the DNA on
18 that key that you determined -- that you found in
19 your tests, it would look much like what you
20 found?

21 A. Yes.

22 Q. Okay. Now, you found no mixture of DNA on that
23 key, right?

24 A. Right.

25 Q. You did not find any DNA of Teresa Halbach on

1 that key, did you?

2 A. That's correct.

3 Q. A car key that presumably she handled and used
4 daily, right?

5 A. Correct.

6 Q. And you did swab all the way around the key?

7 A. Yes.

8 Q. Now, there are some studies in the Wickenheiser
9 report, for instance, that talk about how the
10 last person who touches an item may leave the
11 major portion of DNA that's left on there?

12 A. Yes.

13 Q. But most often when that happens, there's still a
14 mixture and there's a minor contributor as well,
15 right?

16 A. No, I -- I would disagree with that. In some
17 cases, yes. It's very difficult. There's no way
18 to really predict that. If you have someone
19 who's a good shedder and sheds a lot of DNA, when
20 they touch something, a lot of studies show that
21 that is going to be --the last person is going to
22 be the DNA you pick up. If you don't shed a lot
23 of DNA, then you may not find any at all.

24 Q. What you found on this key was not a lot of DNA,
25 right?

1 A. Correct.

2 Q. Turn to page 448 of that article, I'm going to
3 ask you to agree or disagree with this.

4 A. Yes.

5 Q. Paragraph begins, as the sensitivity, do you see
6 that?

7 A. Yes.

8 Q. About half way down?

9 A. Mm-hmm.

10 Q. Do you agree or disagree with this statement:
11 Although case experience has found that the
12 handled object bears the profile of the most
13 recent handler, many more mixed profiles will be
14 recovered if commonly handled objects are
15 examined, doorknobs, handles, light switches,
16 ignition switches, and doorbells have all yielded
17 DNA profiles. And then there's a table that's
18 referred to.

19 A. Yes.

20 Q. You agree with that?

21 A. In many of the cases, yes, but not all the time.

22 Q. Okay. Let's go to the bullet for a minute, just
23 to clear up a couple of things. The bullet that
24 you, tested you didn't get it until April, or
25 March actually. right?

1 A. Yes, that's correct.

2 Q. And to the eye, you didn't see any blood visible?

3 A. That's correct.

4 Q. But you didn't do a presumptive test?

5 A. Right.

6 Q. And, in fact, did you do a swab at all?

7 A. No.

8 Q. This is one where you put it into a buffer and
9 sort of dissolved the amount, right?

10 A. Yes, I washed it.

11 Q. So you can't really say whether the DNA on that
12 bullet came from blood or some other source, can
13 you?

14 A. All that I can say is it was nucleated cells.

15 Q. Which could mean blood or any other sources?

16 A. Right.

17 Q. Let's talk about some specific results that you
18 did get and we haven't heard. Out of all the
19 tests that you did, 180 items that you looked at,
20 came into your lab, right?

21 A. Yes.

22 Q. No DNA of Teresa Halbach's was ever found on any
23 item that was indicated it came from Mr. Avery's
24 house, correct?

25 A. That's correct.

1 Q. No DNA of Teresa Halbach was ever found on any
2 swabs of Mr. Avery's car?

3 A. Correct.

4 Q. No DNA of Teresa Halbach was ever found on any
5 item, or on the surface inside his Ford F350
6 pickup?

7 A. I don't believe I examined the pickup.

8 Q. Okay. And no DNA was found of Teresa Halbach's
9 on any item, any item in that garage, detached
10 garage next to Steven Avery, with the exception
11 of that one bullet, FL?

12 A. Correct.

13 Q. In a test that you admit showed contamination,
14 correct?

15 A. In the control, not the evidence.

16 Q. In the test, correct?

17 A. As I said, in the control, not the evidence.

18 Q. All right. We'll pursue that later, but it will
19 probably have to be after lunch. But let's go
20 through some of the items. You never found any
21 of Teresa Halbach's DNA on any kind of mattress
22 or bedding, did you?

23 A. I don't believe I examined any mattress or
24 bedding.

25 Q. Okay. So none of that was even sent to you,

1 right?

2 A. Correct.

3 Q. You never found any DNA of Teresa Halbach's on
4 any carpet in his house, did you?

5 A. No.

6 Q. There were some stains that were sent to you that
7 I want to make clear the jury isn't confused
8 about, though. There was a stain that was found
9 that appeared to be a blood drop on the bathroom
10 floor, right?

11 A. There were several items on the bathroom floor.
12 I don't know which one you are referring to.

13 Q. Let's put them all together. All the bathroom
14 items, the floor, the vanity, the sink, whatever,
15 right?

16 A. Mm-hmm.

17 Q. You tested all of those?

18 A. Correct.

19 Q. None of them had Teresa Halbach's blood on them,
20 did they?

21 A. No.

22 Q. You also tested, there were some drops that were
23 found on a molding of a door near the bathroom or
24 bedroom, right?

25 A. Yes.

1 Q. No DNA of Teresa Halbach, right?

2 A. Correct.

3 Q. You tested the headboard of a bed, right?

4 A. Yes.

5 Q. You tested the footboard of a bed?

6 A. Just the headboard, I believe.

7 Q. Do you have your reports with you?

8 A. Yes, I do.

9 Q. All right. I stand corrected, looks like you

10 tested several items, several areas of the

11 headboard, right?

12 A. Yes.

13 Q. The legs, the spindle things, right?

14 A. Yes.

15 Q. No DNA of Teresa Halbach?

16 A. Correct.

17 Q. You tested stains that were recovered from the

18 nightstand in Mr. Avery's bedroom, right?

19 A. I don't recall if I looked at stains from a

20 nightstand.

21 Q. May 8th report, second page, Item HX and Z.

22 A. That's correct, you're right.

23 Q. No DNA from Teresa Halbach?

24 A. Correct.

25 Q. You also tested outlet covers, and light

1 switches, from Mr. Avery's house?

2 A. Yes.

3 Q. No DNA from Teresa Halbach?

4 A. That's correct.

5 Q. And you tested the handcuffs and leg irons?

6 A. That's correct.

7 Q. None of Teresa Halbach's DNA found on either of
8 those items?

9 A. That's correct.

10 Q. Which we decided -- which you said earlier,
11 clearly had not been cleaned off with bleach or
12 something because they had a mixture of other
13 people's DNA on it?

14 A. That's correct.

15 Q. Then you examined many knives that were sent to
16 you, right?

17 A. Yes.

18 Q. I see at least seven just in the May 8th report,
19 right?

20 A. Yes.

21 Q. No DNA of Teresa Halbach's?

22 A. Correct.

23 Q. In the garage -- Actually, Judge, I don't know
24 what time you want to break for lunch. I may
25 have yet another 10 or 15 minutes on this part of

1 it before I move so.

2 THE COURT: All right. I didn't know how
3 long this part was going to go. If that's the case,
4 we'll take our lunch break at this time. Members of
5 the jury, do not discuss the case or any of this
6 morning's testimony during your lunch break.

7 (Jury not present.)

8 THE COURT: You may be seated. Counsel,
9 let's report back about 1:00 then.

10 ATTORNEY BUTING: Okay. Thank you.

11 (Noon recess taken.)

12 (Jury present.)

13 THE COURT: Mr. Buting, you may resume your
14 cross-examination.

15 ATTORNEY BUTING: Thank you, your Honor.

16 **CROSS-EXAMINATION CONTD.**

17 BY ATTORNEY BUTING:

18 Q. All right. Ms Culhane, you were talking about
19 all of the items in the house that you looked at.
20 And would it be fair to say that you were not
21 able to -- as Mr. Fassbender requested -- put her
22 in his house?

23 A. That's correct.

24 Q. So then you looked at the garage as well, not
25 sequentially, but at some point you were looking

1 at the garage?

2 A. Yes.

3 Q. And they sent you a number of stains. I'm going
4 to show you a couple of exhibits that were
5 introduced earlier, take a look at them and then
6 I will put them up on the screen.

7 A. Okay.

8 Q. Okay. I'm showing you Exhibit 247 first, a
9 number of evidence markers there. We had
10 testimony that -- where all those one, two,
11 three, up to eight, I believe, swabs were taken?
12 Okay?

13 A. Yes.

14 Q. And you tested those swabs, right?

15 A. I assume so.

16 Q. Well, if you need to refer to your notes, you did
17 find some DNA on garage floor stains in this
18 case, right?

19 A. Yes, I was submitted a number of swabs and I gave
20 them my item designations when they came in. I
21 was not -- I didn't actually collect them.

22 Q. Okay. I understand. But you did indicate,
23 looking now at your March 31st report -- if you
24 need to refer to it that's fine -- a number of
25 items, question stain, reportedly recovered from

1 the garage floor, right?

2 A. Yes.

3 Q. You have got Item G through P described that way?

4 A. Yes.

5 Q. And they have different tag numbers associated
6 with them. Those are the tag numbers from the --
7 presumably the law enforcement people who
8 submitted them?

9 A. Correct.

10 Q. And when you tested those, you found out that six
11 of them had DNA -- had Mr. Avery's own DNA?

12 A. Yes, that's correct.

13 Q. Now, if you are getting a DNA reading off of
14 swabs, that must mean -- or correct me if I'm
15 wrong -- that no one had tried to clean that area
16 with bleach before the swabs were taken, right?

17 A. I really -- I don't know.

18 Q. Okay. Let me ask it this way, that was poorly
19 phrased. Looking at this exhibit on the screen
20 right now, which is a photograph of the garage,
21 if somebody had cleaned that garage floor with
22 bleach before the police came, you would not
23 expect to find any DNA would you?

24 A. If it was cleaned thoroughly enough and the
25 bleach destroyed all the DNA, no, I wouldn't.

1 Q. Okay. But in this case, you did find DNA. You
2 found Mr. Avery's own DNA?

3 A. That's correct.

4 Q. And, again, it's not unusual, nothing sinister
5 about finding one's own DNA in one's own
6 property, is it?

7 A. No.

8 Q. And then later in the case, return to your
9 December report, and, actually, you can see part
10 of it in this exhibit up there, you see that
11 crack that runs along the left side?

12 A. Yes.

13 Q. I will put on Exhibit 237 right now, to show it a
14 little better. See that crack that sort of runs
15 north/south in this garage?

16 A. Yes.

17 Q. It's your understanding that law enforcement
18 actually took a jackhammer into this garage and
19 tore up concrete chunks, right?

20 A. That was my understanding.

21 Q. And they did that because they thought, well, if
22 the victim had been killed here, perhaps her
23 blood would have soaked into those cracks, right?

24 A. I assume so.

25 Q. And so this crack was divided into a bunch of

1 different concrete chunks, that were later sent
2 to you?

3 A. The swabs from the chunks were, yes.

4 Q. Okay. I apologize, the swabs from the chunks.
5 And in your December report, there was actually
6 -- my gosh, almost three full pages of swabs,
7 right?

8 A. Correct.

9 Q. Did you find Teresa Halbach's DNA on any of those
10 swabs?

11 A. No, I did not.

12 Q. You did find Mr. Avery's DNA on one of them
13 though, right?

14 A. Correct.

15 Q. Now, you also looked, or asked to look, we saw
16 that message earlier, at the -- at .22 rifle
17 swabs that were taken from it, right?

18 A. Yes.

19 Q. And the purpose there was not to see if you would
20 find Teresa Halbach's DNA, but to see if you
21 would find Mr. Avery's DNA, right?

22 A. Was that item DD?

23 Q. Yes.

24 A. I believe I was requested to look for possible
25 blood on the barrel part and DNA from the trigger

1 area.

2 Q. And you found neither, correct?

3 A. That's correct.

4 Q. You did not find Mr. Avery's DNA on that weapon
5 anywhere, did you?

6 A. On the trigger guard is the only place I swabbed,
7 but, no, I didn't.

8 Q. And you did not find Teresa Halbach's DNA
9 anywhere on the barrel either?

10 A. Correct.

11 Q. Are you familiar with close -- close, almost
12 contact-type shootings?

13 A. I don't know what you mean by that.

14 Q. Are you familiar with the term blow back?

15 A. Yes.

16 Q. You know that if someone shoots another human
17 being with a gun, that's very close to them,
18 there may be blow back spatter of blood onto that
19 weapon?

20 A. I assume that's possible.

21 Q. Well, that's what you were looking for?

22 A. I was simply looking for blood stains, yes.

23 Q. On the barrel?

24 A. Correct.

25 Q. And you found none?

1 A. Correct.

2 Q. You also were asked to look at license plates
3 that were recovered?

4 A. Yes.

5 Q. Two of them, right?

6 A. Yes.

7 Q. Two of them that, at least your understanding
8 was, were the license plates originally on that
9 RAV 4?

10 A. That was my understanding, yes.

11 Q. And you didn't find Mr. Avery's DNA on that, did
12 you?

13 A. No, I did not.

14 Q. By the way, in all of this evidence that you have
15 tested, all of it, some of it we heard you found
16 Mr. Avery's DNA, things in his own garage or his
17 own house, right?

18 A. Yes.

19 Q. Did you ever find any DNA of a gentleman named
20 Brendan Dassey, anywhere, in all of your tests?

21 A. No, I did not.

22 Q. Not one shred, right?

23 A. No, I did not find his DNA.

24 Q. And you had his profile?

25 A. Yes, I did.

1 Q. All right. I want to talk about contamination.
2 All right?
3 A. Yes, sir.
4 Q. You are aware it can happen?
5 A. Yes.
6 Q. In a lab. It's happened in your lab, you know
7 that?
8 A. Yes.
9 Q. And we talked about contamination that may occur
10 before it ever gets to your lab, intentional or
11 otherwise, right?
12 A. Right.
13 Q. But you are involved in quality control at your
14 own lab?
15 A. That's correct.
16 Q. Are you like the head honcho there, in charge of
17 quality control?
18 A. No, I just monitor the quality control in our
19 unit.
20 Q. The DNA unit?
21 A. Correct.
22 Q. So, you are responsible for making sure that the
23 quality that comes out of your DNA unit is good?
24 A. Correct.
25 Q. And because DNA is very small, and relatively

1 easily contaminated, you take steps to try and
2 prevent that, right?

3 A. Yes.

4 Q. You mentioned a couple of them, but, for
5 instance, you have seen instances where, during a
6 test, material from one case may end up getting
7 contaminated into another case?

8 A. Yes, that's happened.

9 Q. Okay. You try to minimize that. That last one,
10 idea or example I gave you, would be called
11 cross-contamination, right?

12 A. Yes.

13 Q. Okay. So the analysts wear, you mentioned,
14 gloves?

15 A. Yes.

16 Q. Um, lab coats?

17 A. Yes.

18 Q. Glasses?

19 A. Yes.

20 Q. And you said you bleach down the instruments in
21 the test areas before -- in between tests?

22 A. That's correct.

23 Q. At least you try to. And you try and -- You
24 mentioned this amplification room, you try and
25 stay out of that, or you know, or when you are

1 working in there, stay in there, and do your
2 test, and be done, right?

3 A. Correct.

4 Q. And despite all this, all these precautions, the
5 Wisconsin Crime Lab still experiences the
6 phenomena of contamination, does it not?

7 A. Correct.

8 Q. Now, there's some things -- other things you
9 could do. For instance, you could wear masks,
10 like surgeons do, right?

11 A. Correct.

12 Q. You don't?

13 A. No.

14 Q. You could use disposable lab coats that you throw
15 out once you move from one room to the next,
16 right?

17 A. We do have different lab coats that we use from
18 one room to the next. We have a different lab
19 coat for the amplification room than our work
20 area.

21 Q. Okay. All right. But you don't change lab coats
22 when you work from one case to the next?

23 A. No, we don't.

24 Q. And you don't use -- are you familiar with
25 something called biological containment hood?

1 A. Yes.

2 Q. They're like a -- almost like a range that you --
3 that someone would see in their home, with a hood
4 bent over it?

5 A. Yes.

6 Q. And it's got a work space inside of it?

7 A. Yes.

8 Q. And it has filtered air circulating through it?

9 A. Yes.

10 Q. And it's designed to prevent outside contaminants
11 from coming in?

12 A. Yes, and we have two of those hoods that we use
13 to set up our amplification. After our samples
14 were processed, we set those up in a hood very
15 much like that.

16 Q. Okay. But when you are working on extractions
17 and that sort of thing you don't --

18 A. Correct.

19 Q. -- use those kinds of hoods, right?

20 A. Correct.

21 Q. It's just out on your table or your bench as you
22 are working, right?

23 A. Right.

24 Q. And right next to you in this T, at the other
25 end, may be one more analyst or two more

1 analysts?

2 A. One more analyst.

3 Q. Okay. Now, since you know that there's a
4 potential for contamination, you use what's
5 called controls, to try and minimize that, or
6 catch it if it happens, right?

7 A. Right.

8 Q. These are internal controls, right?

9 A. Well, yes, they are controls that we set up with
10 each -- with different phases of the examination.

11 Q. Okay. And just want to take a moment to explain
12 to the jury how this works. You actually have,
13 when you run any kind of a DNA test, start to
14 finish, you run what's called a positive control
15 at the same time, goes through the whole
16 sequence?

17 A. No, sir. We have -- The positive control that
18 you may be referring to is our amplification
19 control. And that's only introduced in the
20 amplification part of the process.

21 Q. Okay. I stand corrected. But that positive
22 control, basically, is a known DNA profile that
23 you expect to get as it goes through the test,
24 right?

25 A. Yes.

1 Q. And you go through the test and you don't get
2 that profile, you know something is wrong?

3 A. Correct.

4 Q. And then you also have what is called a negative
5 control, which is supposed to go through and do
6 what?

7 A. Well, we have two samples that could be
8 considered negative controls. We call the first
9 one a manipulation control. And that's the one
10 we set up with the extraction. And that is
11 carried through the entire procedure. We have an
12 additional negative control that is introduced in
13 the amplification process. And that's carried
14 through the last part of the procedure.

15 Q. Okay. Well, let's talk about that one just for
16 the moment, just to get rid of it. That negative
17 control you introduced in the amplification
18 process only?

19 A. Yes.

20 Q. And if it goes all the way through and comes up
21 with something other than zero, you know
22 something is wrong?

23 A. Correct.

24 Q. But back at the extraction part, you motioned
25 with your hands, there's sort of like an item

1 that's about the size of a brick maybe, that you
2 put these samples in and run it through?

3 A. Well, we set our samples up in a test tube rack,
4 and they are different sizes.

5 Q. Okay. And so they are altogether sitting in a
6 rack, and go through some machine, is that it,
7 when you extract them?

8 A. No, these extractions are all done manually, by
9 the analyst. And you set them up, your evidence
10 samples, one in each tube, and then at the end of
11 the process you add a tube that is a negative
12 control with all of the reagents that you added
13 into your sample.

14 Q. Okay. And that negative control you are talking
15 about is what you call manipulation control?

16 A. Yes.

17 Q. But what I'm getting at is, when you run this
18 whole block of samples through, whatever machine
19 it is you do, there's more than one case in it,
20 right? Often?

21 A. In the extraction procedure, no. When we amplify
22 -- or I mean, I'm sorry, when we quantitate,
23 there can be more cases batched together. And
24 then when we amplify, we amplify them singly in a
25 set, and then it's put on the instrument in

1 batches.

2 Q. Okay. So the first thing, this extraction thing
3 that you do by -- manually, you then get a
4 reading and it tells you whether there's any DNA
5 that's worth even pursuing, right?

6 A. That's part of the quantitation, yes.

7 Q. Okay. Well, if there is enough, then you
8 quantify it, do that test, and then go into
9 amplification?

10 A. The quantitation part tells us if there is
11 enough. If there is enough, then we continue.
12 If not, we stop there.

13 Q. Okay. So this manipulation control that you are
14 talking about is supposed to be zero, right?

15 A. Yes.

16 Q. It's supposed to be -- When you go through the
17 test, it is supposed to show no human DNA
18 whatsoever, correct?

19 A. Correct.

20 Q. And the reason you call it a control is because
21 if you do the test, and at the end you find out,
22 hey, there's something in here, then that's a
23 clue that there is contamination, right?

24 A. Yes.

25 Q. Okay. Now, contamination of evidence samples is

1 harder to detect than these contaminations of the
2 controls, right?

3 A. Not necessarily, depends.

4 Q. Well, with the control, if it comes back anything
5 other than zero, you know there's something
6 contaminating it, right?

7 A. Right.

8 Q. With an evidence sample, if it comes back with
9 DNA, if that DNA had been contaminated, you
10 wouldn't necessarily know that?

11 A. Correct. If it had been contaminated with the
12 same type of DNA, that's correct. However, if
13 it's been contaminated with another type, or the
14 analyst, or another source of the DNA, it would
15 show up as a mixture of DNA and we would be able
16 to separate that out.

17 Q. Well, it would show up as a mixture if the
18 original piece of evidence had any DNA that was
19 testable -- detectable, right?

20 A. Yes.

21 Q. A lot of these samples you will test and you
22 don't find any DNA on them, right?

23 A. Right. And at that point, we wouldn't go any
24 further.

25 Q. Sure. But if that sample that has really no DNA

1 on it, gets contaminated in this process, with
2 some other DNA, from it's own case or another
3 case, you wouldn't necessarily know it when you
4 go through this test, would you?

5 A. No.

6 Q. Meaning correct?

7 A. Yeah, that's correct.

8 Q. Because at the end, you would get a profile, on
9 the piece of evidence, and you would assume that
10 that profile must be from the suspect, or must
11 somehow be related to the case, right?

12 A. Correct.

13 Q. You wouldn't know that it had been contaminated
14 before it even went through?

15 A. Correct.

16 Q. Okay. Now, you keep a log of these kinds of
17 contamination incidents, correct?

18 A. Yes.

19 ATTORNEY BUTING: I'm going to mark this.

20 I have already shown counsel.

21 (Exhibit No. 346 marked for identification.)

22 Q. We'll call this Wisconsin Crime Lab's
23 Contamination Log. I think you changed the names
24 a couple times, but that's Exhibit 346. Can you
25 identify that.

1 A. Yes, these are copies from the logs that we keep
2 in the lab.

3 Q. Okay. And the first few pages are in a different
4 format. They are like a full page, each deals
5 with one incident, correct?

6 A. Yes.

7 Q. But as you get back a little bit farther, really,
8 just before August of this past year, August '06,
9 it's more of a log with numerous incidents on
10 each page --

11 A. Yes.

12 Q. -- right?

13 A. Yes, we changed our forms.

14 Q. Okay. You will need this with you so you can
15 refer to it. Did you bring a copy of that with
16 you, by the way, in your own file?

17 A. No.

18 Q. Okay. You don't normally keep that in your files
19 when you come to court?

20 A. No.

21 Q. Now, what your policy at the lab is, whenever you
22 run through these tests and you find a
23 contamination such as a manipulation control
24 contamination, you make a note of it in this log?

25 A. Yes.

1 Q. And you put the date, the case number, the type
2 of error detected, the analyst, and then there's
3 some corrective action that's taken?

4 A. Yes.

5 Q. But, again, that, of course, is only in those
6 manipulation or those control cases where you can
7 see clearly that there's contamination because
8 it's something other than zero?

9 A. Correct.

10 Q. Now, despite the best efforts of the analysts and
11 their supervisors, sometimes no explanation can
12 be found for the contamination; is that fair?

13 A. Yes.

14 Q. Sometimes it's rather obvious, like in your case
15 in this instance, that your DNA is found in a
16 control and then it's assumed that somehow you
17 contaminated it yourself, the analyst, right?

18 A. Right.

19 Q. But other times it's baffling, somehow or
20 another, something was contaminated and no one
21 can figure out how or why?

22 A. Correct.

23 Q. I want you to take a minute and look at this
24 exhibit that's in front of you. It's a 24 month
25 period, basically, from November of '04 --

1 actually, December of '04 to December of '06.

2 Could you count the number of errors -- You said
3 earlier that you believe there were 89 errors
4 since 2001.

5 A. Right.

6 Q. Do you remember that?

7 A. Yes.

8 Q. Would you count how many contamination incidents
9 are recorded in that 24 month period from 2004 to
10 2006.

11 A. Fifty.

12 Q. All right. Take a minute and count how many you
13 have, how many errors, contamination errors, you
14 report, yourself, in that 2 month period -- 24
15 month period? I believe I counted 44 errors, but
16 you must have found some more.

17 A. Seven.

18 Q. Actually, if you look at the third to the last
19 page, begins, it has three there, starting March
20 of '04. That's all right, never mind. So you
21 count 7, 7 out of 50.

22 A. Yes.

23 Q. I counted 8, but maybe I miscounted. You said
24 there's about 10 analysts?

25 A. Anywhere from 10 to 12.

1 Q. Okay. So, if there's 50 errors, the average, if
2 spread evenly, should be five errors a person,
3 right?

4 A. That depends on how many cases each analyst
5 works.

6 Q. That's true. You, though, have 7 out of 50,
7 which is more than the average, if you divide it
8 evenly, correct?

9 A. But not all those analysts work the same number
10 of cases.

11 Q. That's true. However, some of them are
12 full-time --

13 A. They are all full-time.

14 Q. -- doing nothing but DNA. All of them.

15 A. They are all full-time.

16 Q. They are all full-time, and you are not. You are
17 70 percent; 70 percent of your time is doing DNA
18 testing, that's what you told us, right?

19 A. That's correct.

20 Q. So we have all these other analysts who are
21 working full-time, more cases than you, and yet
22 you have a higher error rate than anyone.

23 A. No, actually, I believe if you look at the
24 numbers, I'm one of the higher producing analysts
25 as far as number of cases.

1 Q. Well, I don't see those numbers, but I do see
2 that you are the highest producing contamination
3 person in this log; isn't that right?

4 ATTORNEY GAHN: Objection, your Honor, this
5 is argumentative.

6 THE COURT: Sustained. I will ask that you
7 rephrase the question.

8 Q. (By Attorney Buting)~ Isn't it true that for this
9 two month -- two year period, you have one of the
10 highest contamination records of anybody at the
11 Wisconsin Crime Lab in Madison?

12 A. I don't know, I haven't counted up all the other
13 instances of other people. So I really don't
14 know how many each analyst has.

15 Q. Well, take a moment and look if you like.

16 A. Do you want me to count up for each analyst?

17 Q. I want you to see if there's anybody who has more
18 errors in that 20 more -- 24 month period than
19 you?

20 ATTORNEY GAHN: Your Honor, I'm going to
21 object at this point to the relevancy of this,
22 number one. But, also, I think, foundationally,
23 what the other analysts -- I don't know how this
24 witness can testify to the causes or why there was
25 contamination in other analyst's cases.

1 THE COURT: I think that's a matter for
2 redirect. I'm going to allow the question.

3 Q. (By Attorney Buting)~ Would you agree with me
4 that you have more errors in that 20 month -- 24
5 month period than anybody?

6 A. If you counted them up and your numbers are
7 correct, then I agree with you.

8 Q. Now, let's look at -- Why don't you look at just
9 the months of September and August of 2006, count
10 how many errors there are total and how many of
11 them are yours?

12 A. September and August?

13 Q. Yes.

14 A. 2006.

15 Q. These are all the big sheets, right, full page
16 ones?

17 A. Yes, there's only one.

18 Q. There's eight errors in September and August
19 total for the lab, right?

20 A. Oh, I thought you said for me.

21 Q. Well, let's just talk about first for the lab?

22 A. Oh, for the lab. Five.

23 Q. Go to the next page that has a log of several,
24 August 1st, August 3rd --

25 A. I'm sorry, you're at five, okay.

1 Q. August 1st, August 3rd, August 28th, 29th,
2 September 6th, September 14th. And on the second
3 page, another on August 3rd and another on
4 August 29th.

5 A. Seven.

6 Q. Okay. You come up with seven, two of which are
7 yours. Look at September 6th.

8 A. Yes.

9 Q. And look at August 1st?

10 A. I don't have that.

11 Q. I'm sorry. You're right, there's a page missing
12 from this exhibit. I'll correct that, but here's
13 a photocopy of apparently a page I didn't have in
14 this exhibit, shows an August 1st entry.

15 A. Okay.

16 Q. With an error from you, right?

17 A. Yes.

18 Q. So in that two month period, two of the seven
19 errors were made by you?

20 A. Yes.

21 Q. And in October and November of 2006, I count
22 eight of these sheets, eight errors?

23 A. Total.

24 Q. Total, right? So in the lab, in the four month
25 period of October, November, September, and

1 August, you have got 15 errors already, just in
2 that one little period of time, right?

3 A. Yes.

4 Q. Would you agree with me that the contamination
5 error rate has been going up in the Crime Lab
6 over the last few years?

7 A. Yes.

8 Q. Okay. Now, look, just for a moment, at some of
9 these contaminations so we can talk about what
10 kind of contaminations there are. Would you turn
11 to one that's entered on October 18th of 2006.
12 Do you see the October 18th?

13 A. Yes.

14 Q. Case No. W06-1209?

15 A. Yes.

16 Q. Okay. Now, this is not a mistake or an error
17 contamination by you, but you did sign off at the
18 bottom of it as the DNA Technical Unit leader,
19 right?

20 A. Correct.

21 Q. So you are familiar with what happens here when
22 your analysts make -- do a test; they find
23 contamination; they have to do one of these
24 reports; you review it and the supervisor reviews
25 it, right?

1 A. Correct.

2 Q. And this is an instance of cross-contamination
3 between two completely different cases, is it
4 not?

5 A. Yes.

6 Q. And the corrective measure for this particular
7 analyst is that she or he, I don't know who it
8 is, is going to try not to extract high level DNA
9 samples near in space in time to low level DNA
10 samples?

11 A. Correct.

12 Q. So that one was apparently explained. Now, if
13 you look at the very next page, different case
14 W05-1876?

15 A. Yes.

16 Q. Do you see that one?

17 A. Yes.

18 Q. Description of the contamination here is believed
19 to have been a problem with labeling. Hold on,
20 I'm sorry, it's the next page, W05-140?

21 A. Yes.

22 Q. This is a contamination where it was concluded
23 that it's possible the samples were actually
24 switched or mislabeled during the test process?

25 A. Yes, it's possible.

1 Q. And the corrective measure is specifically to
2 limit distractions and to limit cases working at
3 one time in order to prevent errors, correct?

4 A. Yes.

5 Q. Distractions like you faced when you tested that
6 bullet with trainees around you?

7 A. No, I believe she was referring to distractions
8 like phone calls and questions and.

9 Q. Okay. There's also something called carryover,
10 as another kind of contamination, right?

11 A. Yes.

12 Q. And that's referred to in the very next incident.
13 And that's where it's possible for DNA from a
14 prior test, to actually carryover into the one
15 you are doing, through the instruments somehow,
16 right?

17 A. No. Are you talking about the one dated 10/8?

18 Q. Well, yeah, but there's a number that talk about
19 carryover. I'm just asking in general.

20 A. Carryover in this instance would be to carryover
21 in the same case, not case to case, into the
22 control, from one sample to another into the
23 control.

24 Q. Okay. Let's turn to your error noted on
25 September 6 of '06?

1 A. Yes.

2 Q. This is another one where you developed your
3 profile from a swabbing of evidence, Item A?

4 A. Yes.

5 Q. This was evidence, not a control?

6 A. That's correct.

7 Q. You contaminated evidence in this instance, did
8 you not?

9 A. With my own DNA.

10 Q. With your own DNA?

11 A. Correct.

12 Q. And you even entered it into CODIS, which is the
13 big national data base?

14 A. Right.

15 Q. As a female DNA that somebody could hit on?

16 A. Right. And because we have a system in the lab
17 to catch this, we have profiles of everybody in
18 the lab, my profile included. So this was
19 resolved because it obviously hit on myself and
20 it was removed.

21 Q. But it wasn't even detected until you ran your
22 own profile through CODIS, as if you were some
23 suspect, right?

24 A. It was detected when we ran it through the
25 system, yes.

1 Q. That's right. And so you had to then remove it
2 from the whole CODIS system, otherwise you would
3 look like you are some suspect?

4 A. That's correct.

5 Q. Let's turn to two pages further down,
6 August 28th, analyst is K.W., right?

7 A. Yes.

8 Q. This is an example where a partial female profile
9 was developed in a control and the analyst was
10 completely unable to determine the origin of that
11 profile, right?

12 A. Correct.

13 Q. It wasn't her -- I'm sorry, I'm assuming it's a
14 her, looks like, do you know K.W.?

15 A. Right.

16 Q. Okay. It was not her DNA, right?

17 A. Correct.

18 Q. And it was not carryover, right?

19 A. Correct.

20 Q. It was determined as contamination that simply is
21 unexplainable?

22 A. That's correct.

23 Q. The very one right before that, I believe it's
24 Karen Daily; is that right? August 29th?

25 A. Yes.

1 Q. This one is actually a duplicate. If you look at
2 the page, the first page of the running log.
3 A. Okay.
4 Q. I'm sorry, it's the second page of the running
5 log that starts June 6th?
6 A. Yes.
7 Q. See, at the very bottom there, it says
8 August 29th?
9 A. Yes.
10 Q. It says K.D.D., that's Karen Daily?
11 A. Yes.
12 Q. Another contamination in which she's finding
13 alleles, some of which are similar to her and
14 some of which are not?
15 A. Correct.
16 Q. A source that is completely unknown?
17 A. That's correct.
18 Q. And, finally, turn to March 16th of '06; do you
19 see this page?
20 A. Yes.
21 Q. This is not you, right?
22 A. Correct.
23 Q. It's initialed M.R.S., it's a completely
24 different case, right?
25 A. Yes.

1 Q. You weren't involved in the testing of that -- in
2 that experiment at all?

3 A. Not that I recall, no.

4 Q. And yet this analyst found a partial profile in
5 the control that was consistent with you?

6 A. That's correct.

7 Q. You ended up contaminating someone else's test?

8 A. That's correct. My profile, partial profile,
9 wasn't complete, so I'm assuming it was
10 consistent with mine throughout.

11 Q. All right. Now, your big profile, I'm sorry,
12 protocol, that I think was entered even, as an
13 exhibit, it recognizes that there may be some
14 contamination in these tests, right?

15 A. Yes.

16 Q. And it says, it's got specific rules about what
17 you can do, when you get a contamination?

18 A. Yes.

19 Q. And one of those rules in the protocol is, if you
20 get a contaminated control, it forbids you from
21 making a call to include somebody as the person
22 in that DNA, right?

23 A. Yes.

24 Q. It tells you, that if you go through these tests
25 and the manipulation control is contaminated,

1 that you are to report it as inconclusive for
2 matched purposes?

3 A. Correct.

4 Q. Now, here, you ran this test on the bullet and
5 you got a result that shows the manipulation
6 control was contaminated, right?

7 A. Correct.

8 Q. And according to protocol, you should have not
9 said that that was Teresa Halbach's DNA on the
10 bullet, your protocol told you that you were to
11 report it as inconclusive; isn't that right?

12 A. Yes.

13 Q. But if that happens, usually what you do is you
14 try and re-extract it and run it again?

15 A. Yes.

16 Q. But in this case, it was a one time deal, you put
17 that bullet into a buffer and you took whatever
18 sample there was and you ran it off?

19 A. Yes.

20 Q. So you could not redo the test?

21 A. That's correct.

22 Q. And if the test came back inconclusive, you would
23 not be able to put Teresa Halbach in Mr. Avery's
24 garage at any time, right, like Mr. Fassbender
25 asked?

1 A. There were reasons why --

2 Q. I will get to that.

3 A. There were reasons why this profile was reported
4 on.

5 Q. We'll talk about that. But my point is this, out
6 of all these tests that you have done --

7 A. Right.

8 Q. -- not one single test put Teresa Halbach in Mr.
9 Avery's garage?

10 A. That's correct.

11 Q. Except for this bullet.

12 A. That's correct.

13 Q. And this is the only one, right?

14 A. Yes.

15 Q. And you couldn't retest it, so you either had to
16 call it inconclusive or else deviate from your
17 protocol.

18 A. That's correct.

19 ATTORNEY BUTING: Let's mark this exhibit.

20 (Exhibit No. 347 marked for identification.)

21 Q. I now show you Exhibit 347, can you identify
22 that?

23 A. Yes.

24 Q. And what is it?

25 A. It's a copy of our deviation request form in our

1 laboratory.

2 Q. Okay. And this is a form that, if you want to
3 deviate from your protocol in any way, you have
4 to -- or any analyst has to fill out this form
5 and it's to be reviewed by two people, right?

6 A. It's to be reviewed by the Technical Unit Leader
7 and approved by the supervisor.

8 Q. Okay. And the Technical Unit person is who?

9 A. Myself, in our lab, and Gretchen DeGroot in the
10 Milwaukee lab.

11 Q. Okay. So you had one person sign this, one
12 person review this, and that is Gretchen DeGroot,
13 right?

14 A. That's correct.

15 Q. You went all the way to the Milwaukee Lab to get
16 approval to deviate from your protocol in order
17 to make a call that says Teresa Halbach's DNA is
18 on that bullet, right?

19 A. No, sir. I discussed this with my supervisor in
20 the laboratory. In fact, I discussed it with
21 numerous analysts in the laboratory. And, yes, I
22 did talk to Gretchen about it. Since this was a
23 technical matter, and Gretchen and I are more in
24 tune to the technical issues, she is the one I
25 would have, as well as the peer reviewer who

1 reviewed my case, that I would have talked to
2 first, and I did talk to Marie, my supervisor.

3 Q. You are familiar with the protocol?

4 A. Yes, I am.

5 Q. Record should reflect you are looking at Exhibit
6 310, right?

7 A. Yes.

8 Q. There you go. All right. In this section of
9 your protocol, it says interpretation of STR
10 results, right?

11 A. Yes.

12 Q. That's the heading and it talks about how it's a
13 matter of professional judgment and expertise,
14 right?

15 A. Yes.

16 Q. And it recognizes that maybe some situations may
17 not fit a preset rule?

18 A. Correct.

19 Q. Gives some latitude for that, right?

20 A. Right.

21 Q. But it also says, any deviations must be
22 documented in written form, prior to peer review;
23 in those situations any deviations must be
24 approved by the technical leader and the
25 supervisor, right?

1 A. Correct.

2 Q. The exhibit in front of you, which is the unit
3 deviation form, does not have any approval from
4 the supervisor, does it?

5 A. It has no signature, but I did discuss it with
6 her and she did approve it.

7 Q. But she didn't sign anything, is that what you
8 are saying?

9 A. Apparently it was an oversight.

10 Q. Okay. All right. Thank you. Now, this kind of
11 a deviation from protocol is a pretty unusual
12 thing in your lab, right?

13 A. Yes.

14 Q. You don't do it very often?

15 A. Right.

16 Q. Twenty-three years you have been there, right?

17 A. Yes.

18 Q. This is the only time in your entire career you
19 have ever filed a deviation of protocol so that
20 you could make a call and include somebody, isn't
21 it?

22 A. Yes.

23 Q. This case is the only time, right?

24 A. Yes.

25 Q. So, when Mr. Gahn asked you on direct whether --

1 when you did the exclusion of Mr. Avery in 2003,
2 whether you followed the same steps there that
3 you followed here, that's not entirely true, is
4 it?

5 A. I don't understand what you mean.

6 Q. When you did the test that excluded Mr. Avery,
7 proved he was wrongly convicted in 2003, you did
8 not have to deviate from any protocol to make
9 that call, did you?

10 A. No, because our protocol doesn't require any
11 deviation for an exclusion --

12 Q. That's right.

13 A. -- no matter what.

14 Q. I'm sorry?

15 A. No matter what.

16 Q. Right. But there was no -- you didn't have to
17 deviate anyway, you had no contamination in his
18 test?

19 A. Right. The protocols that I followed were all in
20 the same -- I mean, they were all in place. That
21 deviation was available if I had needed it. The
22 request to make it was available.

23 Q. But you didn't need to?

24 A. No, I didn't.

25 Q. But in this case you did?

1 A. That's correct.

2 Q. The one and only case in 23 years you did, right?

3 A. This kind of deviation, first of all, in this
4 context, we're talking about DNA evidence. And
5 we haven't been doing DNA evidence for 23 years.
6 So --

7 Q. Well, you have been doing it since 1997?

8 A. No. 19 -- Yeah, 1996, you are right.

9 Q. Okay. Ten years, then, 50,000 -- 60,000 tests is
10 what you have told Mr. Gahn, in your lab?

11 A. Yes.

12 Q. And whatever portion of that is yours, you have
13 never filed a request to deviate from the
14 protocol in order to make a call and say that's
15 her DNA, until this case?

16 A. That's correct, because we have never -- I have
17 never had this situation before.

18 Q. Turn to your reports, please. Do you have those
19 in front of you?

20 A. Yes.

21 Q. I'm showing you Exhibit 314. Let's talk about it
22 in terms of exhibit numbers, okay. Is that your
23 report that's dated May 8, 2006?

24 A. Yes, it is.

25 Q. And that is the report that says -- gives a

1 result of this test of the bullet?

2 A. Correct.

3 Q. Correct?

4 A. Yes.

5 Q. Now, these reports are very important, right?

6 A. Yes.

7 Q. These are your final reports?

8 A. Yes.

9 Q. For that test? They are signed by yourself?

10 A. Correct.

11 Q. And by Marie Beth Varriale?

12 A. Correct.

13 Q. Who's the supervisor of the lab, your unit?

14 A. Yes.

15 Q. And she's signing it as the designee for the

16 Attorney General of the State of Wisconsin,

17 correct?

18 A. Yes.

19 Q. That's how important these reports are. They are

20 from the Attorney General.

21 A. That's correct.

22 Q. And you know how these reports are used, correct?

23 A. Yes.

24 Q. Courts rely on them?

25 A. Yes.

1 Q. Juries rely on them?

2 A. Yes.

3 Q. Prosecutors and police rely on them?

4 A. Yes.

5 Q. Defense attorneys rely on them?

6 A. That's correct.

7 Q. Now, on Page 2 of your report -- I'm sorry, it's
8 page 4, you have a sentence in there, at the end
9 of the first paragraph, that says -- Actually,
10 the first paragraph says the profile is developed
11 from the bullet fragment --

12 (Court reporter asked the attorney to repeat.)

13 ATTORNEY BUTING: I'm sorry.

14 Q. The profiles developed from the bullet fragment,
15 Item FL, in the interior driver's door handle,
16 Item IG, are consistent with the profile
17 developed from the Pap smear, Item EF, reportedly
18 collected from Teresa Halbach. And then it
19 refers to a prior report.

20 And then the last sentence, the
21 manipulation control extracted with the bullet
22 fragment, Item FL, contains DNA that is
23 consistent with this analyst?

24 A. Correct.

25 Q. All right. At no time, in this report, do you

1 ever disclose, that in order to make that
2 finding, you had to deviate from a protocol, did
3 you?

4 A. No.

5 Q. Anyone reading this report would never know that,
6 in order for you to make that call and say that
7 that's Teresa Halbach's DNA, you had to do
8 something you have never done in your career as a
9 Crime Lab analyst, right?

10 A. Without discovery, no.

11 Q. So, if a defense attorney, or Court, didn't dig
12 through all of those mass of papers that you have
13 there and find this unit one page report, no one
14 would ever know that, in order for you to make
15 that call in this case, you had to do something
16 you have never done before?

17 A. The deviation that I requested was appropriate
18 for this situation. And the results that I
19 reported were correct. And that's why the
20 deviation was requested. All my data supported
21 the deviation, it was okayed --

22 Q. But --

23 A. -- and it was reported.

24 Q. -- ma'am, you did not disclose, in that report,
25 that official report, that Courts, and juries,

1 and judges, and lawyers, and everybody else
2 relies on, you did not disclose that in order to
3 make that call you had to do something so rare
4 you have never done it before, did you?

5 A. No, I did not.

6 Q. And you didn't put that in there because if you
7 did, you wouldn't be able to satisfy
8 Mr. Fassbender's request that you put Teresa
9 Halbach in Steven Avery's garage, right?

10 A. That's not correct.

11 Q. Let's close with this. Other than that bullet,
12 all your other tests, none of them put Teresa
13 Halbach, ever, in his garage, or his house, or
14 any of his vehicles, right?

15 A. Correct.

16 Q. Thank you.

17 THE COURT: We're going to take a 10 minute
18 break at this time. And then we'll resume.

19 (Jury not present.)

20 THE COURT: You may be seated. All right.
21 Counsel, I will see you in 10 minutes.

22 ATTORNEY BUTING: Ten, you said?

23 THE COURT: Yes, I'm giving the court
24 reporter a break. We'll take another one before the
25 afternoon is over.

THE COURT: Mr. Gahn, do you have any questions on redirect?

ATTORNEY GAHN: Yes, your Honor.

THE COURT: You may begin.

ATTORNEY GAHN: Thank you, sir.

REDIRECT EXAMINATION

BY ATTORNEY GAHN:

Q. Ms Culhane, will you explain to the jurors exactly what it is that goes into a report, a final report that you file in a case?

A. The content of the report is usually everything that we examined, of all the items submitted, exactly what we examined; a description of the technology that we're using; the types -- sometimes, not always -- the actual types go into the report; and then our results, with reference to our profiles we developed, whether they are inconsistent or consistent; and a final conclusion.

Q. You indicated in your report when you read about the bullet, Item FL, that Teresa Halbach's profile was contained on that bullet, correct?

A. That's correct.

Q. And you also indicated in your report that your

1 profile was contained in the control; is that
2 correct?

3 A. Yes.

4 Q. And your request for deviation, was that in all
5 of your notes?

6 A. Yes.

7 Q. Were you hiding anything from anyone?

8 A. No.

9 Q. And anyone reading your report would have seen
10 that your profile was in the control, correct?

11 A. Yes.

12 Q. And wouldn't that cause them to ask further
13 questions about that?

14 ATTORNEY BUTING: Objection, speculation.

15 THE COURT: Sustained.

16 Q. (By Attorney Gahn)~ But further information about
17 your profile in the control was contained in all
18 of your notes?

19 A. That's correct.

20 Q. And did you turn your notes over to the defense
21 in this case?

22 A. Yes.

23 Q. Similarly, with the contamination log that
24 Mr. Buting showed you, you turned your
25 contamination log over to the defense, correct?

1 A. Correct.

2 Q. And, again, what is the purpose of the
3 contamination log?

4 A. Several different purposes, actually. We use it
5 to troubleshoot, to find out if we're having a
6 systemic problem in the lab, to make sure that
7 our reagents are clean, to make sure that we
8 haven't inadvertently contaminated our reagents
9 or something and that way we would be introducing
10 DNA into our samples. That's one function.

11 The other function is to troubleshoot
12 each situation as it happens. If you further
13 look at that contamination log, I would guess
14 99 percent of the instances that we had were
15 resolved, either by reworking the case, or by the
16 fact that the evidence was actually an
17 elimination or it excluded someone. So it,
18 basically, provides us with the information to,
19 if we have those instances, to troubleshoot and
20 try and find out what happened in that particular
21 case.

22 Q. Do the inspectors see the contamination log?

23 A. Yes.

24 Q. And I think you testified that every five years
25 you are up for your accreditation?

1 A. Yes.

2 Q. And when was the last time you received your
3 accreditation?

4 A. May of 2006.

5 Q. And did the accrediting board members see your
6 contamination log?

7 A. Yes.

8 Q. And did they express any concerns about it?

9 A. No.

10 Q. Every two years you have an audit?

11 A. Yes.

12 Q. And did the auditors see your contamination log?

13 A. Yes.

14 Q. Did anyone express any concerns at that point?

15 A. Not to my knowledge.

16 Q. Why is it good practice to keep a contamination
17 log?

18 A. Because it happens. Any type of lab work where
19 you have human beings doing the work, the
20 possibility for these types of contamination are
21 going to happen. It's unavoidable.

22 The techniques that we're working with
23 are extremely sensitive. And, actually, that's
24 why they are so useful. They are very sensitive
25 because they do pick up on small amounts of DNA.

1 But taking that into account, you also
2 have to realize that contamination is going to
3 happen. And it's interpreted and dealt with on a
4 case by case basis.

5 Q. Does the scientific community recognize that
6 contamination is a possibility or a risk in the
7 DNA PCR testing process?

8 A. Yes.

9 Q. And have studies been conducted about the
10 contamination risks using this type of
11 methodology?

12 A. Yes.

13 Q. Is it well documented that there are risks of
14 contamination with this type of technology?

15 A. Yes.

16 Q. Do the manufacturers of the kits and the
17 equipment that you have in your laboratory
18 recognize contamination?

19 A. Yes, they do.

20 Q. Have they conducted validation studies about
21 this?

22 A. I assume so, I'm not 100 percent familiar with
23 that.

24 ATTORNEY BUTING: Objection, I move to
25 strike the answer.

1 THE COURT: Court will order the answer
2 stricken.

3 Q. (By Attorney Gahn)~ And, again, would you explain
4 to the jurors why this testing methodology is so
5 sensitive and the ability to -- the ability it
6 has to pick up trace amounts of DNA?

7 A. The PCR reaction that we use to copy all of these
8 genetic markers that I'm talking about works on
9 very small pieces of DNA. So, if you have DNA
10 that has been compromised by environmental
11 factors such as heat, UV light; if you have
12 substrates like soil, or wood, or things like
13 that that may compromise the sample; PCR is very
14 good for that. Because even though the DNA is
15 chewed up a little bit, there's still usually
16 enough there to amplify or make a whole lot of
17 copies. So this amplification process gives us a
18 lot of material, after it's completed, to work
19 with.

20 Because of that fact, it also amplifies
21 very, very small amounts of DNA, so, such as in
22 this case, my DNA -- my DNA being introduced into
23 the negative control, even though it was a very,
24 very small amount, the technique was sensitive
25 enough to pick that up.

1 Q. Would you explain to the jurors the exact set up
2 of your evidence and your control during an
3 extraction?

4 A. I have a test tube rack in front of me. And say,
5 for instance, I'm doing three evidence samples,
6 so I'm going to have three separate tubes labeled
7 with the number and the item designation for each
8 item of evidence. And then I'm going to have a
9 fourth tube that's referred to as the
10 manipulation control.

11 As I sample each one of my samples,
12 depending on whether it's a cutting or what the
13 evidence is, if it's a cutting, I will cut a
14 portion of the swab or material off, put it into
15 the tube and close the cap; clean my scissors and
16 forceps off; go to the next item, put it in the
17 tube, close the cap. I do that for all the
18 evidence items.

19 And, then, the control, I actually just
20 add to the liquid the buffers that cause the
21 reaction to happen. And that all takes place on
22 my bench top, in a test tube rack; I have a piece
23 of white paper down on my desk.

24 Q. Now, while you were performing this extraction
25 what else were you doing? Were you training

1 anyone?

2 A. Concerning the bullet, right?

3 Q. Yes, concerning the bullet.

4 A. Concerning the bullet, this was a little bit
5 unusual, because there was nothing to cut. And
6 there was nothing -- I didn't feel like, by
7 swabbing it, that I would get enough DNA off of
8 the item, so I actually put the entire bullet
9 into the tube, with my reagents, and washed all
10 the DNA off that was on that tube.

11 Because this was a little unusual, most
12 of our samples are swabbings or cuttings, I had
13 two of our newer analysts sit next to my
14 workbench and watch me. And as I was doing it, I
15 was explaining what I was doing and why I was
16 doing it. And I felt like I was far enough away
17 from my workbench so that my talking wouldn't
18 interfere; but, obviously, that was incorrect.

19 Q. If when -- If your DNA profile had been on the
20 bullet, would that have changed anything?

21 A. Yes.

22 Q. Please explain that to the jurors?

23 A. If my DNA had been on the evidence sample, I
24 would have reported that as a mixture of DNA from
25 myself and Teresa Halbach and I would have done a

1 statistical analysis referred to as a likelihood
2 ratio. That type of contamination is different
3 than what actually happened.

4 Q. If your -- If the control in this case had
5 contained a DNA profile that was unrecognizable
6 to you, would that have changed anything?

7 A. Yes.

8 Q. Please explain that to the jury.

9 A. I would not have requested a deviation because it
10 would not have been appropriate; it would have
11 been inconclusive, just like our protocol calls
12 for.

13 Q. Explain to the jurors why you felt that deviation
14 was appropriate in this situation.

15 A. First of all, there were a couple of reasons, my
16 DNA was in the control, not the evidence sample.
17 And because I was the analyst using it --
18 processing it, I knew what the source of the DNA
19 was. And I felt this was probative evidence, and
20 I felt it was appropriate simply -- primarily
21 because it was my own DNA and it was in the
22 evidence sample.

23 Had it been any other profile, had it
24 been mixed with the sample, again, I would have
25 reported it, but I would have reported it as a

1 mixture, and all the information would have been
2 in my report just like it was in this report.

3 All the information was there, but I
4 felt it was appropriate because I could not go
5 back and re-extract. I was stuck with what I
6 had; I couldn't redo anything to remedy the
7 situation. And I felt it was probative evidence,
8 so I reported it.

9 Q. Did the presence of your DNA profile in the
10 control, in any way, cause the presence of Teresa
11 Halbach's DNA profile on the bullet?

12 A. No.

13 Q. Was there any mixture on the bullet?

14 A. No.

15 Q. Who's profile did you find on the bullet?

16 A. It was a single source of DNA, meaning from one
17 person, and it was consistent with Teresa
18 Halbach.

19 Q. And the control in this case contained your
20 profile?

21 A. Correct.

22 Q. I believe you testified on direct examination
23 that since January 1st of 2001, the Crime Lab has
24 analyzed -- was it over 50,000 samples?

25 A. Correct.

1 Q. And did you also testify that you have logged,
2 since that time, 89 instances of contamination?

3 A. That's correct.

4 Q. Mr. Buting asked you about the work that you did
5 on the exoneration of Steven Avery?

6 A. Yes.

7 Q. Explain, again, to the jurors, what samples you
8 were analyzing for that exoneration?

9 A. I was examining pubic hairs that were originally
10 submitted back in '85. In 1985 we did a
11 microscopic comparison of hairs. That was
12 state-of-the-art, that's what every crime lab
13 did.

14 At the time, I made no statement about
15 the pubic hair combings because, microscopically,
16 I could not tell the difference between the
17 victim and the suspect's pubic hairs. So if I
18 couldn't tell the difference I certainly couldn't
19 tell if any of these pubic hairs were foreign, so
20 that was inconclusive.

21 When I was asked by Project Innocence to
22 go back and look at these hairs, they were all
23 mounted on microscope slides that I had
24 originally mounted them on in 1985. I removed
25 the cover slip; I took the hairs off; I washed

1 the hairs; and I attempted to extract DNA from
2 them.

3 You probably remember me telling you
4 that the type of DNA testing that we're doing is
5 only appropriate if you have nucleated cells. So
6 the hair shaft, we couldn't get DNA from, it had
7 to be the root of the hair, if there was some
8 skin attached to it.

9 And in this case I extracted 11 hairs,
10 two of them did have cellular material; one was
11 consistent with a woman and one was consistent
12 with a male.

13 Q. In 2003, were you qualified to do DNA testing?

14 A. Yes.

15 Q. Tell the jurors about the potential for getting a
16 DNA profile from the root of a single hair?

17 A. Traditionally --

18 ATTORNEY BUTING: Objection, this is
19 irrelevant, I think.

20 THE COURT: Well, there were some questions
21 on cross about it, I will allow her to explain what
22 she did.

23 A. In most cases, again, unless there is cellular
24 material attached to the root of the hair, we
25 don't have a lot of success with nuclear hair --

1 I mean nuclear DNA off of -- which is the type of
2 DNA we're doing, off of hair, in general. To get
3 DNA off of a hair that old, that was mounted on a
4 microscope slide, was pretty unusual.

5 Q. And is this sort of a one shot chance when you
6 are doing one hair?

7 A. Yes.

8 Q. There are no second chances going back?

9 A. No.

10 Q. And you developed a DNA profile from that one
11 single hair didn't you?

12 A. Yes.

13 Q. Mr. Buting stated that the profile you developed
14 from that one single hair was responsible to free
15 Mr. Avery; is that correct?

16 A. Yes.

17 Q. And you ran that profile through the data bank
18 and it hit on an individual by the name of
19 Gregory Allen; is that correct?

20 A. Yes.

21 Q. Ms Culhane, if by chance your DNA profile had
22 been in the control of that case, would you have
23 not reported Gregory Allen as the person with the
24 profile on the hair?

25 A. No, I would have requested a deviation from our

1 protocol because --

2 ATTORNEY BUTING: Objection, speculation
3 here.

4 THE COURT: No, I think there actually were
5 some questions about this on cross, so I'm going to
6 allow it.

7 A. I would have requested a deviation in that
8 particular case too because I couldn't go back
9 and redo that hair. I had one shot, and if I got
10 contamination, and it would have been my DNA in
11 the manipulation control, I would have requested
12 a deviation.

13 Q. So requesting deviations are very rare, aren't
14 they?

15 A. Yes.

16 Q. But the circumstances of this case required you
17 to request a deviation, correct?

18 A. Yes.

19 Q. There was no going back, a second chance, was
20 there?

21 A. No.

22 Q. Just like when you analyzed the one hair in 2003,
23 that resulted in Steven Avery's freedom?

24 ATTORNEY BUTING: Objection, no comparison.

25 THE COURT: It's been asked and answered.

1 Sustained.

2 Q. (By Attorney Gahn)~ Now, Ms Culhane, Mr. Buting
3 handed you, before, Exhibit 344, and I will have
4 it brought up to you in just a moment. But this
5 was an exhibit that listed the buccal swab of
6 Steven Avery being returned to the Manitowoc
7 County Sheriff's Department; is that correct?

8 A. Yes.

9 Q. I would like you to take another look at that.

10 A. Yes, this is a copy of our receipt.

11 Q. And first off, did you ever have a vial of Steven
12 Avery's blood in your laboratory?

13 A. No.

14 Q. So what did you use to make your comparisons, the
15 standard that you used in 2003?

16 A. A buccal swab.

17 Q. Of Steven Avery?

18 A. Yes.

19 Q. And it's listed on that exhibit?

20 A. Yes.

21 Q. And what happens when you are finished with a
22 case, explain to the jurors how it's packaged up
23 and how it is sent back to the submitting agency?

24 A. When I finish with a case, it's put pack in the
25 original container and it's sealed with evidence

1 tape, or whatever tape we have in the laboratory,
2 usually evidence tape. And our initial -- my
3 initials are across the seal.

4 Q. And if that envelope that you returned the buccal
5 swabs in was still in that condition today, would
6 you be able to recognize it?

7 A. I believe so.

8 (Exhibit No. 348, marked for identification.)

9 Q. By looking at the envelope, will you be able to
10 tell whether your initials are on it?

11 A. If my initials are on there, I will recognize
12 them.

13 ATTORNEY BUTING: Can I see it, please?

14 ATTORNEY GAHN: What's the exhibit number?

15 DETECTIVE WIEGERT: 348.

16 Q. (By Attorney Gahn)~ Detective Wiegert is going to
17 hand you what has been marked as Exhibit 348 and
18 ask if that has any markings on the outside of
19 the envelope that you recognize?

20 A. Yes, it does.

21 Q. Explain what the markings are for the jury.

22 A. This is the evidence tape we use in the
23 laboratory. Those are my initials. And this is
24 also the label for our case number.

25 Q. May the record reflect that she's pointing to the

1 blue label on the exhibit.

2 THE COURT: Mr. Buting, I'm going to have
3 to ask you if you agree, since I really can't see
4 very well.

5 ATTORNEY BUTING: Point to it.

6 THE COURT: It is a blue label. Looks like
7 a blue label.

8 ATTORNEY BUTING: Sure.

9 THE COURT: All right. The record will so
10 reflect.

11 A. And my initials are also across that label.

12 Q. Would you open up that envelope?

13 ATTORNEY BUTING: Objection, hold on, I
14 don't want --

15 THE COURT: I'm going to sustain the
16 objection. The defense may have the right to ask
17 questions on recross that might pertain to the
18 current state of the envelope. I will let you
19 address opening it after recross is finished. Fair
20 enough?

21 ATTORNEY BUTING: Sure.

22 THE COURT: Okay.

23 Q. (By Attorney Gahn)~ Does the case number on that
24 exhibit correspond to the case number on the --
25 on Exhibit, is it 344, the transmittal evidence

1 form?

2 A. Yes, it does.

3 ATTORNEY GAHN: Your Honor, at this point,
4 I will turn Ms Culhane over to Mr. Buting, if he
5 wishes to voir dire the witness on this point. And
6 I would like to have the opportunity to resume this
7 line of questioning.

8 ATTORNEY BUTING: No, I think he can finish
9 his cross (sic) and if there's any --

10 THE COURT: Stop. I'm going to excuse the
11 jury for a couple minutes here. We'll bring you
12 back in a few minutes.

13 (Jury not present.)

14 THE COURT: All right. You may be seated.

15 ATTORNEY BUTING: Can I take a look at this
16 a little bit closer?

17 THE COURT: By all means.

18 ATTORNEY BUTING: Okay. Do you want me to
19 discuss this now?

20 THE COURT: Well --

21 ATTORNEY BUTING: I can --

22 THE COURT: The reason I excused the jury
23 was, I assume that this is the envelope that the
24 buccal swabs were sent back to the sheriff's
25 department, you are asking to open it so she can say

1 that, presumably, yes, these are the buccal swabs,
2 they are in the same condition they were when I sent
3 them back?

4 ATTORNEY GAHN: No, there will be inside
5 this, the envelope that she packaged them in, which
6 will be all completely sealed with her initials on
7 it from the Crime Lab and show that it has not been
8 opened or tampered with.

9 THE COURT: Okay. So her initials aren't
10 on the --

11 ATTORNEY BUTING: They are.

12 THE COURT: -- Federal express?

13 ATTORNEY GAHN: They are.

14 THE COURT: There was testimony earlier
15 about her sealing something, putting her initials on
16 it. I guess what I'm getting at is, is this the
17 document she sealed, or is there another document
18 inside that's the document that's sealed?

19 ATTORNEY GAHN: Yes, inside.

20 ATTORNEY BUTING: Well, Judge, let me just
21 make a point, for the record. I don't know what's
22 inside, I haven't opened this document. But I can
23 tell that as you face the -- as you are looking at
24 the front with the label on it, the left edge of it
25 has been slit open at some point. The cardboard you

1 can see is cut and there is a piece of tape.

2 I don't know if we should excuse the
3 witness at this point. Well, I think -- that's
4 okay. There is a piece of larger tape sealing
5 it, but if you look closely, there's also just
6 another little piece of scotch tape that could
7 very easily be peeled back without any damage
8 noted and potentially gain access to the inside
9 of that.

10 I don't know what's inside, but that
11 left hand seal, or left hand side of the
12 envelope, does not appear to be sealed with any
13 kind of evidence tape. Do you see the little
14 piece of scotch tape I'm referring to?

15 THE COURT: I see a piece of scotch tape on
16 there.

17 ATTORNEY GAHN: Your Honor, we could open
18 this outside the presence of the jury. Open it right
19 now, see what's inside there.

20 ATTORNEY BUTING: I want the jury to see
21 that it's just sealed with a piece of scotch tape,
22 just like what they are going to see a little later.
23 When does scotch tape become proper evidence sealing
24 material? To me this looks like yet another exhibit
25 with Mr. Avery's DNA in it, that has a seal of

1
2
3
4
5
6
7
8
9
10
11
12
13
14
15
16
17
18
19
20
21
22
23
24
25

nothing more than scotch tape.

ATTORNEY GAHN: Your Honor, what's happening here is what we tried to work out, I think, in our pre-trial motions. We're getting back into this **Richardson** frame-up, the defense initially gives an offer of proof that the planting was done by the blood vial in the Manitowoc County Clerk of Court's Office. And that changes today and now the implication is the buccal swab of Steven Avery was used to do the planting of the evidence.

This causes us to have to respond to this. This is outside the scope of what his offer of proof was. I believe it all was outside the scope of what the Court ruled would be the parameters in this case under **Richardson** and under **Denny**. And we have to respond to this.

THE COURT: All right.

ATTORNEY BUTING: With regard to that. Can I just quickly respond. The difference here is that this witness has testified that some of the DNA appears to have come from a non-blood source. Now, given that, we have a right to respond and show what other sources might be, that's what this is.

THE COURT: I have already allowed you to pursue that. I'm looking at the address label on

1 this document and this is from the Department of
2 Corrections, Stanley Correctional Institution, to
3 Marie Beth Varriale at the Crime Lab. You know, if
4 that's the case, it's not very surprising that it
5 was opened. I thought, initially, that this was the
6 envelope from which it was sent from the Crime Lab
7 back to the Sheriff's Department.

8 ATTORNEY BUTING: It is.

9 THE COURT: Before I rule on whether or not
10 the jury should see it in its current condition or
11 make any conclusions about it, I think we have to
12 know what it is, if it came from -- if this is the
13 original label, and it came from the crime lab.
14 It's not going be too surprising that it's been
15 opened and closed again.

16 ATTORNEY GAHN: Correct. The critical
17 piece of evidence is what is going to be inside that
18 envelope and that will be the buccal swabs that Ms
19 Culhane used to do the exoneration testing for the
20 Innocence Project in 2003. And what we want to
21 show, your Honor, is that these were not reopened
22 and used to wipe on a key or a hood latch.

23 THE COURT: Is this -- So this isn't the
24 envelope that you're attempting to show to the jury
25 was sealed with her initials on it and has never

1 been opened since?

2 ATTORNEY GAHN: No, your Honor.

3 THE COURT: Does that change anything for
4 the defense, Mr. Buting?

5 ATTORNEY BUTING: Well, in order to get to
6 whatever is inside, one would have to first open
7 that envelope, as I understand it. And what I'm
8 saying, as I look at it right now, is that that
9 envelope appears, yeah, it's been opened. And I
10 understand that what happened is that probably came
11 from the Crime Lab -- I'm sorry, from the prison, to
12 the Crime Lab, they tested it, put it back in the
13 same envelope, and returned it to Mr. Remiker.

14 THE COURT: All right. Let's do this. Let
15 me suggest this, what if you present this to the
16 witness, as is, ask her questions, and have her
17 explain anything about its condition. And before it
18 gets opened, I will give Mr. Buting an opportunity
19 to provide a description to the jury of its current
20 condition, including the scotch tape, and you can
21 be -- the State can be asked if you agree with that
22 description.

23 ATTORNEY BUTING: Okay.

24 THE COURT: Fair enough, Mr. Buting?

25 ATTORNEY BUTING: Sure, no problem.

1 THE COURT: All right. Someone can come
2 back up and pick up the envelope. We'll bring the
3 jurors back in. Mr. Wiegert.

4 DETECTIVE WIEGERT: Would you like me to
5 give it to the witness, Judge?

6 THE COURT: Sure.

7 (Jury present.)

8 THE COURT: You may be seated. And,
9 Mr. Gahn, you may resume your redirect.

10 Q. (By Attorney Gahn)~ Ms Culhane, could you explain
11 and describe to the jurors exactly what is on
12 that envelope and how it is packaged and what
13 information will be helpful in determining its
14 basic chain of custody?

15 A. It's an express mail package that was sent to the
16 Crime Lab. Again, when it came into the
17 laboratory, it got a case number and our bar
18 coding system, and it was signed by whoever
19 receipted the case. And, then, at some point was
20 opened and I believe resealed with my initials
21 and evidence tape.

22 Q. And when that arrived at the Crime Lab and you
23 opened it, it contained evidence to be analyzed
24 in the case of the exoneration of Steven Avery?

25 A. Yes.

1 Q. Do you know what that evidence was?

2 A. No, I don't. I would have to open this.

3 Q. Can you tell by your seal whether it has an item
4 number?

5 A. No, it doesn't have an item number; I have a case
6 number.

7 Q. But contained inside that envelope, you believe,
8 is the exhibit that you examined?

9 A. Yes, I believe so.

10 ATTORNEY GAHN: If Mr. Buting has any
11 questions.

12 THE COURT: Are you about to ask the
13 witness to open the envelope?

14 ATTORNEY GAHN: Yes, I would like her to
15 open the envelope.

16 THE COURT: All right. I think before she
17 does that, I believe Mr. Buting wanted some
18 information placed on the record about its
19 condition. And after he gives that description, I
20 will ask if the State agrees.

21 ATTORNEY BUTING: All right.

22 THE COURT: Perhaps, Mr. Buting, you can
23 take it to the prosecution table, so as you are
24 describing it, all attorneys will have a chance to
25 look at it.

1 ATTORNEY BUTING: Well, I think -- isn't
2 the witness going to -- can't I ask her to explain
3 what it is, so I'm not the witness who is
4 testifying.

5 THE COURT: If you wish to ask some
6 questions now, I believe that was the State's
7 original request. I thought you objected to it, but
8 if you want to and the State agrees, go right ahead.

9 ATTORNEY BUTING: Sure, I mean, I would
10 rather do it that way so that --

11 THE COURT: Counsel, is that correct?
12 Mr. Gahn?

13 ATTORNEY GAHN: That's fine, your Honor.

14 THE COURT: All right. Mr. Buting, go
15 ahead.

16 ATTORNEY BUTING: Okay. Just, we don't
17 know what's inside at this point, but on the left
18 side of the envelope, as you are facing the label.

19 THE WITNESS: Mm-hmm.

20 ATTORNEY BUTING: Does it appear at some
21 point it was opened?

22 THE WITNESS: Yes.

23 ATTORNEY BUTING: And then there's a piece
24 of tape, sort of a wide piece of tape that says
25 State Crime Lab?

1 THE WITNESS: Yes.

2 ATTORNEY BUTING: And it has an initial
3 over it?

4 THE WITNESS: Yes.

5 ATTORNEY BUTING: Would you look on top of
6 that -- By the way, this tape that says State Crime
7 Lab, it's a clear tape?

8 THE WITNESS: Yes.

9 ATTORNEY BUTING: But it has your label in
10 red?

11 THE WITNESS: Yes.

12 ATTORNEY BUTING: And that's your little
13 initials?

14 THE WITNESS: Yes.

15 ATTORNEY BUTING: That little black thing
16 right there?

17 THE WITNESS: Yes.

18 ATTORNEY BUTING: If you look on top of
19 that, doesn't it appear that there's a piece of
20 small scotch tape that appears to be closing it?

21 THE WITNESS: Yes, it does.

22 ATTORNEY BUTING: And, your Honor, I would
23 ask, if she's going to open it, rather than cut it
24 with a knife, I would ask that she peel off that
25 piece of scotch tape and see if its accessible that

1 way.

2 THE COURT: Any objection?

3 ATTORNEY GAHN: No, your Honor.

4 THE COURT: All right. Do you understand
5 the request?

6 THE WITNESS: I think so.

7 THE COURT: All right. If you can peel
8 off --

9 THE WITNESS: Peel this tape off?

10 THE COURT: Just the thin piece of
11 scotch --

12 ATTORNEY BUTING: Just the scotch tape, not
13 your evidence tape.

14 THE WITNESS: All right. I can't really
15 get it all off.

16 THE COURT: Do you prefer it peeled off or
17 use a letter opener that would leave the scotch tape
18 on, in two pieces, one on each side?

19 ATTORNEY BUTING: Well, what I would rather
20 see is, is if by taking the scotch tape off one can
21 open it. It looks like -- Is that what you have
22 done.

23 THE WITNESS: That's what I just took off.

24 ATTORNEY BUTING: Okay. And if you peel
25 off this last little bit, does it appear to -- I

1 don't know if we're going to be able to tell if this
2 is torn off. Just go ahead and open it. I would
3 just slit it along that edge.

4 THE WITNESS: Should I cut it along this
5 opening here?

6 THE COURT: Do you want us to use a letter
7 opener or something?

8 ATTORNEY BUTING: She has a little knife.

9 THE WITNESS: I do have this.

10 THE COURT: All right. Sounds like both
11 parties are agreeable, so go ahead.

12 ATTORNEY BUTING: Record should reflect
13 inside of the postal envelope is another manila
14 envelope that appeared to be unsealed. And now you
15 have pulled out something that was inside of that.

16 THE WITNESS: Would you like for me to
17 describe it?

18 THE COURT: Mr. Gahn?

19 Q. (By Attorney Gahn)~ Yes, if you would describe
20 what's in the envelope.

21 THE COURT: Go ahead.

22 A. This is a manila envelope, says Marie Beth
23 Varriale. These are my markings, my initials,
24 the lab number and the item designation. This is
25 actually samples that are used to collect data

1 bank samples. It's just a kit that we have.

2 Inside the kit is a sealed white
3 envelope with the laboratory case label and item
4 designation, W, my initials. And then this is
5 the -- this is a cut that I made when I took the
6 sample out and it's been resealed with my
7 initials across it.

8 Q. Explain a little more to the jury exactly what
9 that contains and when you sealed it and how you
10 sealed it.

11 A. When samples are collected for the Wisconsin
12 State -- the CODIS System, the data base,
13 convicted offender samples, these preprinted kits
14 are used. It says Wisconsin DNA Data Bank. and
15 sometimes there are also other police agencies
16 will sometimes use these to collect standards
17 from individuals.

18 So there's some paper -- there's some
19 documentation here as to where this kit came from
20 and there's some instructions here if you were
21 going to submit this to the data bank. There is
22 a place for a fingerprint on here, which I really
23 don't know anything about.

24 But I received it in this condition,
25 with this -- this was completely sealed. And we

1 placed our bar code from the lab across the top
2 here and I signed and initialed and dated it.
3 And, then, when I took my sample out, I cut along
4 the top edge here.

5 The swabs are actually inside this white
6 envelope here. This is just a piece of paper
7 that's stuck to the envelope. So the swabs are
8 inside this envelope.

9 When I took my sample, I split the top
10 and pulled out the swabs, sampled the swabs, put
11 it back, and sealed -- resealed it, this is the
12 evidence tape in the lab, and initialed it.

13 Q. And can you tell if that is the buccal swab that
14 corresponds to, I believe, Exhibit 344, where the
15 evidence was turned over, signed for by Detective
16 Remiker?

17 A. Yes. They both have the same Lab No. M85-1051,
18 and they both have the item designation of W.

19 Q. I would like you to describe the condition of
20 those buccal -- of the buccal swabs, right now.

21 A. I can feel in here, there appears to be one swab
22 in here. And all the edges are sealed and this
23 is the seal -- this was cut open at one time when
24 I took my sample and then I resealed it back.
25 And this is the seal that I placed on it. And

1 appears to be exactly the way it was when I put
2 it on there.

3 Q. Has that been -- Does it appear to be tampered
4 with in any way?

5 A. No.

6 Q. Are there any seals broken that where someone
7 could remove that buccal swab and use it to rub
8 on a key and plant evidence of Steven Avery?

9 A. None of the seals are broken.

10 Q. And can you tell on what date you sealed that
11 envelope and sent it back to the Manitowoc County
12 Sheriff's Department?

13 A. Not by the markings on here, no.

14 Q. Can you tell when you sealed it yourself?

15 A. Not by these markings, no.

16 Q. Does Exhibit, is it 344, tell you when you sent
17 it back -- or 348, I'm sorry?

18 A. 344 is the evidentiary release form and it was
19 returned on September 25, 2003.

20 Q. And it would have been returned on September 25,
21 2003, in the condition that you just described
22 for the jurors?

23 A. Yes.

24 Q. And today, as you look at that, does it appear to
25 have been tampered or opened in any way?

1 A. No.

2 ATTORNEY GAHN: Thank you, that's all I
3 have.

4 THE COURT: Mr. Buting, any recross?

5 ATTORNEY BUTING: Sure. There's always
6 something.

7 **RECROSS-EXAMINATION**

8 BY ATTORNEY BUTING:

9 Q. Back to this deviation request form for a moment,
10 you said -- you didn't go through the
11 contamination log, but you just said you would
12 guess that maybe 90 percent get resolved, meaning
13 90 percent of the contamination errors can be
14 determined?

15 A. Actually I said, or I meant to say, everything is
16 resolved somehow. Probably 99 percent are
17 resolved by re-extracting. There are several
18 instances that samples were not re-extracted,
19 simply because they were exclusions; in other
20 words, the evidence sample excluded the alleged
21 suspect, so if it's an exclusion then that's the
22 end of it.

23 Q. Yes. As a matter of fact, the protocol does
24 specifically allow, when there's a contamination
25 in a manipulation control, it does still allow

1 you to make a exclusion?

2 A. Correct.

3 Q. But not an inclusion?

4 A. Right.

5 Q. Explain the difference between an inclusion and
6 exclusion?

7 A. When you are excluding someone, like if I have a
8 evidence sample and I have a reference sample,
9 and the profiles do not match, they are not the
10 same, then, that reference sample is excluded.
11 That person is not the source of the evidence
12 sample. An inclusion is, if I have an evidence
13 sample and a reference sample, and the profiles
14 are the same, they are consistent with one
15 another, that's referred to as an inclusion.

16 Q. All right. And the reason why you can still use
17 these contaminated tests to exclude somebody is
18 because an exclusion is the absence of something,
19 that is lacking, the evidence does not have the
20 profile that the defendant or the suspect would
21 be, right?

22 A. Right.

23 Q. Whereas, an inclusion, when there is a
24 contamination, there's concern that there's
25 something may be added to it that shouldn't be

1 there, and that it may be because it's added that
2 it includes somebody?

3 A. Correct.

4 Q. So they are treated differently in the protocol?

5 A. Correct.

6 Q. And page, the very next page from where we were
7 looking before in the protocol, the E2 -- for
8 some reason my pages aren't numbered. Starts on
9 the top of evaluation of controls?

10 A. Yeah.

11 Q. Okay.

12 A. This page, right.

13 Q. Yeah, okay. Very first paragraph says that -- it
14 talks about how manipulation controls may reveal
15 the presence of contamination, right?

16 A. Correct.

17 Q. And what it specifically says is if -- if you're
18 -- if this control -- manipulation control
19 exhibits identifiable allele peaks, that means,
20 basically, a DNA profile, right?

21 A. Right.

22 Q. Then the DNA specimens that are extracted along
23 with that control, in other words, the evidence
24 sample that's being done, along with your
25 control?

1 A. Correct.

2 Q. The DNA specimen will be considered inconclusive
3 for match purposes, right?

4 A. Correct.

5 Q. That's the rule that your lab has?

6 A. Right.

7 Q. And you said about 99 percent of the time they
8 are re-extracted. In fact, do you know whether
9 you might be the only lab analyst ever, at the
10 Crime Lab, to ask for a deviation from the
11 protocol in order to include somebody?

12 A. No, I'm not.

13 Q. Do you see any in that control -- in that
14 contamination log?

15 A. No, but this was before that. We did have a
16 deviation before the instances in the
17 contamination log.

18 Q. Okay. Before you started keeping track?

19 A. Yes.

20 Q. From your memory you recall that?

21 A. Yes, I do.

22 Q. Okay. But there's no record of it.

23 A. Not in this documentation, no.

24 Q. Okay. And you said that you felt that it was
25 appropriate to deviate because you felt this was

1 probative evidence, right?

2 A. Correct.

3 Q. That means you make a judgment -- a value
4 judgment about whether this evidence is important
5 in this case, right?

6 A. We do that every piece of evidence we look at, on
7 every case.

8 Q. That's right, because it's not a blind test, like
9 we talked about earlier, right?

10 A. That's the way we work. That's the way any Crime
11 Lab works cases.

12 Q. That's the way you work. And in this case
13 Mr. Fassbender asked you to try to put Teresa
14 Halbach in the defendant's garage or house,
15 right?

16 A. As I said before, in your request from the
17 investigator, had no bearing whatsoever on my
18 examination or my results.

19 Q. No bearing whatsoever?

20 A. That's correct.

21 Q. And yet, for the first time in your career, you
22 deviate from a protocol to include -- to find one
23 piece of evidence, the only piece of evidence in
24 this entire case that links Teresa Halbach to
25 Mr. Avery's garage or house, you deviated from

1 the protocol so that you could call her on that
2 one piece of evidence, right?

3 ATTORNEY GAHN: Your Honor, argumentative.

4 THE COURT: The objection is sustained.

5 Q. (By Attorney Buting)~ You contaminated -- Your
6 results showing that you contaminated this
7 bullet, you got the results on April 3rd; is that
8 right?

9 A. I would have to check. Actually, April 6th.

10 Q. Okay. April 6th. And you were aware, I believe,
11 because your lab objected to it, that the defense
12 filed a motion to assure fair forensic testing to
13 allow the defense to have a witness there when
14 you do any tests that would result in using up
15 all the evidence?

16 ATTORNEY GAHN: Objection, your Honor,
17 relevancy.

18 THE COURT: I'm sustaining the objection,
19 not on relevancy, but on the grounds it's beyond the
20 scope of recross.

21 Q. (By Attorney Buting)~ Well, in any event, because
22 you used up all of the sample, not only could you
23 not re-extract it, the defense had no opportunity
24 to retest that, did we?

25 A. You didn't have any opportunity to test the

1 original item, but my extracts are available for
2 retesting.

3 Q. Did you retest them?

4 A. No.

5 Q. Why not?

6 A. Because my results from my quantitation show that
7 there was DNA in the manipulation control --

8 Q. You're telling me --

9 A. I would have gotten the same thing.

10 Q. You are telling me that you get a test that
11 requires that you go to so far as to deviate from
12 the protocol when you could have simply retested
13 the same extract?

14 A. There was nothing different about it. Retesting
15 it would not have changed anything.

16 Q. Because it was contaminated already.

17 A. Because the DNA was introduced during the
18 extraction process.

19 Q. Because it was -- That's right, therefore, the
20 extract was contaminated already; isn't that
21 right?

22 A. The control was contaminated with the my DNA, not
23 the extract.

24 Q. So, rather than retest, you went out on a limb
25 and made this request, that you have never made

1 before in your life, so that you could give
2 Mr. Fassbender what he wanted, some evidence that
3 would link Teresa Halbach to that --

4 ATTORNEY GAHN: Objection, your Honor, to
5 the form of the question.

6 THE COURT: Objection is sustained.

7 Q. (By Attorney Buting)~ You talked about 50,000
8 samples, I think you brought that up again. The
9 thing about contamination is, once you find a
10 contaminated sample, it doesn't matter what the
11 percentage of other cases that you -- where you
12 have contamination, does it?

13 A. Yes.

14 Q. Well, it doesn't matter whether this is one in
15 50,000, or whether this is the 89th in 50,000,
16 it's a test that you know is contaminated, right?

17 A. Are you referring to the bullet?

18 Q. Yeah.

19 A. Yes, I know it's contaminated with my DNA.

20 Q. So whether it is a unusual or rare circumstance
21 in the big picture or not, doesn't matter because
22 you have a case where you know there was
23 contamination; it's one of the incidents that
24 need to be reported?

25 A. Correct.

1 Q. The 2003 case, just so nobody is confused, the
2 pubic hair that you found comingled with the
3 victim's pubic hairs was not just a man, it was
4 Gregory Allen, right?

5 A. Correct.

6 Q. And you knew, from discussions with the police,
7 that Gregory Allen, in fact, was a suspect in
8 that very case, from the very beginning?

9 A. No, I did not.

10 ATTORNEY GAHN: Your Honor, this is
11 beyond -- far beyond the scope of our redirect.

12 THE COURT: Mr. Buting?

13 ATTORNEY BUTING: It's not beyond the
14 scope, he just brought it up, he talked about it.

15 THE COURT: He did bring it up, but the
16 question about whether he's a suspect is beyond the
17 scope, so I'm going to sustain the objection on that
18 basis.

19 Q. (By Attorney Buting)~ In any event, he was in the
20 data bank and it hit on him, right?

21 A. Correct.

22 Q. And it excluded Mr. Avery, right?

23 A. Yes.

24 Q. Without any kind of deviation from protocols,
25 right?

1 A. Yes, that's correct.

2 Q. It was a standard test that proved he was
3 excluded?

4 A. That's correct.

5 Q. The bottom line is, in this case, if you had
6 followed the protocol of your own lab, and you
7 would have had to file a report that says any DNA
8 tests on that bullet were inconclusive, right?

9 A. Without a deviation, which our protocol does
10 allow for, yes.

11 Q. Ma'am, the question is, if you had followed the
12 protocol and not requested a deviation, your
13 report would have said, the DNA on that bullet
14 was inconclusive?

15 A. Correct.

16 ATTORNEY BUTING: That's all your Honor.

17 THE COURT: Anything else Mr. Gahn?

18 ATTORNEY GAHN: Just a couple questions,
19 your Honor.

20 **FURTHER REDIRECT EXAMINATION**

21 BY ATTORNEY GAHN:

22 Q. Ms Culhane, why do scientists allow for deviation
23 in protocols?

24 A. Because every situation, each case that we work
25 and every situation, is different. And sometimes

1 there are circumstances that warrant deviating
2 from the stated protocol.

3 Q. And did this situation with the bullet warrant
4 deviation from the protocol?

5 A. In my opinion, yes.

6 Q. And why?

7 A. Because my DNA was not in the evidence sample, it
8 was only in the control, and it was a source that
9 I could track. It was me. It was introduced
10 when I was handling the tubes. It had no
11 bearing, no scientific bearing on the type of the
12 evidence sample at all. It was no mixture. It
13 was a single source sample that was consistent
14 with Teresa Halbach, and for those reasons I felt
15 it was appropriate.

16 Q. And did the fact of your profile being in the
17 control in this case have any impact whatsoever
18 on Teresa Halbach's DNA being on the bullet?

19 ATTORNEY BUTING: Objection, been asked and
20 answered.

21 THE COURT: Sustained.

22 ATTORNEY GAHN: I have no further
23 questions.

24 ATTORNEY BUTING: Just one quick response
25 here.

FURTHER RECROSS-EXAMINATION

1
2 BY ATTORNEY BUTING:

3 Q. So, now we understand that you know how that
4 bullet -- how that control test was contaminated,
5 because it was you handling the tubes; is that
6 your testimony? Didn't you say earlier that you
7 were training and talking and were too close to
8 the bench?

9 A. That's correct. And I believe that's why it was
10 introduced.

11 Q. You just said --

12 A. By handling --

13 Q. -- a moment ago --

14 A. -- I meant handling the evidence, and that
15 includes everything I did in reference to that
16 evidence.

17 Q. And that includes the bullet sample too, right?
18 Handling that, the evidence you are talking about
19 is the sample with the bullet in it -- DNA in it,
20 right?

21 A. Of course I had to handle it --

22 Q. Of course.

23 A. -- to extract it.

24 Q. Of course. So when you say you know where this
25 came from, you don't know where this came from.

1 You don't know whether it came because you were
2 spitting too close as you were talking, or
3 whether you were handling it and got it off on
4 your hands; you don't know how that control was
5 contaminated, do you?

6 A. The fact is, it was my DNA.

7 Q. Ma'am, you don't know how that control became
8 contaminated, do you?

9 A. Not 100 percent for sure, no.

10 Q. Just like many other incidents reported in the
11 log, where it is undetermined how contamination
12 occurred --

13 ATTORNEY GAHN: Objection, argumentative.

14 THE COURT: Court is going to sustain the
15 objection. And we're just plowing the same ground
16 here so I'm going to excuse the witness.

17 ATTORNEY BUTING: I'm done anyway. Thank
18 you, Judge.

19 THE COURT: Members of the jury, we'll take
20 our afternoon break at this time. Again, I will
21 remind you not to discuss the case during the break.

22 (Jury not present.)

23 ATTORNEY BUTING: Judge, I would move the
24 introduction of all the exhibits that we filed.

25 THE COURT: All right. I think there were

1 some exhibits produced by both sides; do -- are both
2 parties asking for their exhibits to be admitted?

3 ATTORNEY GAHN: Yes, your Honor.

4 THE COURT: All right. Everything that was
5 introduced today, then, is admitted.

6 ATTORNEY BUTING: With the exception of
7 343, which I think we just marked.

8 THE COURT: That's right there was one that
9 was specifically requested not to be admitted.
10 Okay.

11 (Recess taken.)

12 THE COURT: At this time the State may call
13 its next witness.

14 ATTORNEY GAHN: The State will call Nick
15 Stahlke to the stand.

16 THE COURT: All right.

17 THE CLERK: Please raise your right hand.

18 **NICK STAHLKE**, called as a witness
19 herein, having been first duly sworn, was
20 examined and testified as follows:

21 THE CLERK: Please be seated. Please state
22 your name and spell your last name for the record.

23 THE WITNESS: Nick Stahlke, Stahlke is
24 spelled, S-t-a-h-l-k-e.

25 **DIRECT EXAMINATION**

1 BY ATTORNEY GAHN:

2 Q. Mr. Stahlke, how are you employed?

3 A. I'm a forensic scientist with the State of
4 Wisconsin Crime Laboratory?

5 Q. Which Crime Laboratory is this?

6 A. Madison.

7 Q. And what is your position there?

8 A. Currently I'm the forensic science training
9 coordinator.

10 Q. And could you tell the jurors a little bit about
11 your formal educational background, please.

12 A. Yes, I have a bachelor's in science degree and
13 medical technology, with a minor in chemistry.

14 Q. And what are your current duties and
15 responsibilities at the Crime Lab?

16 A. As a forensic science training coordinator, I'm
17 responsible for a course that the Crime Lab puts
18 on, which is the evidence -- basic evidence
19 technician course. It -- I also then am
20 responsible for coordinating the instructors, the
21 curriculum, and I critique those particulars,
22 those particular trainers.

23 I also am responsible for the Field
24 Response Training Program within the State of
25 Wisconsin. I make sure that we have an on call

1 roster to cover the statewide program for -- on a
2 24 hour basis.

3 I also examine bloodstains for -- for
4 the interpretation of those stains and I am a
5 team leader with the field response program where
6 we trans -- or we will respond to crime scenes.

7 Q. As to the bloodstain patterns that you said was
8 one of your duties and responsibilities, have you
9 attended any specialized schools dealing with
10 bloodstain pattern analysis?

11 A. Yes, it's a requirement that anybody that does
12 any bloodstain pattern analysis has a minimum of
13 40 years -- 40 hour course. And in 1988, I
14 attended a 40 hour course. I, again, attended a
15 course that was entitled Advance Crime Scene
16 Examination; however, it was also a bloodstain
17 course, or ultimately was a bloodstain course.
18 So, I have attended two 40 hour bloodstain
19 courses.

20 Q. And what experience do you have in the area of
21 bloodstain pattern analysis?

22 A. Well, I got my first training -- or 40 hour
23 course in '88, so I have had 19 years of
24 experience looking at stains and interpreting
25 those stains.

1 Q. Have you given lectures or taught on subjects
2 related to bloodstain pattern interpretation?

3 A. Yes, I have.

4 Q. And have you conducted workshops related to that
5 field?

6 A. Yes, I have.

7 Q. Could you explain some of those to the jurors?

8 A. There was a Wisconsin Association of
9 Identification, asked me to present a lecture on
10 that subject and I also had a workshop associated
11 with that lecture. I also gave a -- taught at
12 the North Idaho College, which was a program for
13 incoming or new recruits as far as law
14 enforcement recruits. It was a Criminal Justice
15 Program there in the North Idaho College.

16 I routinely monitor or -- crime scenes,
17 then, also at the Death Investigation School,
18 which is put on by the Department of Justice's
19 Division of Criminal Investigation.

20 Q. I believe you stated that you had been involved
21 in the interpretation of blood stain patterns for
22 19 years; is that correct?

23 A. Yes.

24 Q. Have you testified in courts of law in Wisconsin
25 as an expert in interpreting bloodstain patterns?

1 A. Yes, I have.

2 Q. And how many times have you done so?

3 A. About 10 times.

4 Q. Have you ever been rejected as an expert in
5 bloodstain pattern analysis?

6 A. No, I have not.

7 Q. What I would like you to do is, could you just
8 describe to the jurors the different types of
9 determinations that can be made from bloodstain
10 patterns.

11 A. Bloodstains, when they are present at a scene,
12 basically freezes that scene on that particular
13 moment in time when blood is shed. You can
14 determine the position of the bleeding victim, if
15 the victim is bleeding.

16 You can possibly determine the movement
17 of that victim. You can determine the possible
18 position of the assailant or the attacker. You
19 might possibly be able to determine movement of
20 the attacker as well.

21 In some cases, you can determine the
22 type of weapon that was used. If it was a
23 bludgeoning or a beating, you may be able to
24 determine the minimum number of blows that was
25 inflicted to the victim.

1 Some of the reasons for looking at
2 stains is not only to determine those positions,
3 or those things that I already described, but you
4 might be able to confirm or refute statements
5 given by witnesses, using the analysis of
6 bloodstain patterns. Or you can determine the
7 difference between, and distinguish the
8 difference between, suicide or homicide,
9 possibly.

10 Q. Are there different types of bloodstain patterns?

11 A. Yes, there is.

12 Q. Will you please explain to the jury what they
13 are?

14 A. Well, basically there's three categories of
15 bloodstains. There are the passive stains. You
16 have the projected stains. And you also have
17 the -- I forget the third category. Passive
18 contact -- oh, excuse me -- contact type transfer
19 stains.

20 Q. And can you determine by looking at a bloodstain
21 pattern how it was deposited?

22 A. Yes, you can.

23 Q. And what specific experiments or tests have you
24 yourself conducted and performed in bloodstain
25 pattern analysis?

1 A. Well, in the 40 hour course, it's very heavy in
2 practical exercise, because the whole idea of the
3 course is to give you experience in seeing these
4 types of stains. And so the practical experience
5 is, then, you use different types of weapons; you
6 put victims in different positions; and you try
7 all the possible scenarios you can imagine or
8 think of that you might run into or encounter at
9 a crime scene.

10 Q. And by performing these tests or experiments
11 yourself, how do these help you perform your job?

12 A. Well, obviously, if you have seen these types of
13 stains before and you know how they were
14 constructed, or how they were manufactured,
15 through practical experience, you can then relate
16 those same experiences to a crime scene itself.

17 Q. I'm going to show you what has been marked
18 previously as Exhibit 289 and ask if you -- it's
19 a photograph -- recognize that photograph?

20 A. Yes, I recognize this.

21 Q. And how do you recognize that?

22 A. This is the '99 -- blue '99 RAV4 that was in our
23 second bay, or middle bay, in our Crime
24 Laboratory in Madison.

25 Q. When did you first observe it?

1 A. Monday, November 7th, 2005.

2 Q. And what involvement did you have with the
3 examination of this RAV4?

4 A. I was asked to analyze the bloodstain patterns
5 that may have been present in this vehicle.

6 Q. What was the first thing you did, when you saw
7 the vehicle and began your processing?

8 A. Well, the first thing I do is an external -- on a
9 vehicle such as this, I do an external
10 examination of the vehicle. So, I typically will
11 find a point on a car. It may be the front, left
12 corner, or the driver's door and I do a walk
13 around, typically in a counter clockwise pattern,
14 looking for any possible stains that are on --
15 present on the exterior. And what I look for is
16 anything that appears to be a bloodstain. But if
17 it's the proper color and shape, then I have a
18 presumptive test done to determine that it
19 probably is blood, then.

20 Q. And did you make any observations during your
21 external view and examination of the RAV4?

22 A. I did not observe any stains on the exterior.

23 Q. Then after the exterior examination, what would
24 you do next?

25 A. Then we move to the interior of the vehicle.

1 Q. And did you make any observations in the interior
2 of the vehicle?

3 A. Yes. I typically will start at the driver's
4 compartment. And inside a driver's compartment,
5 I saw what appeared to be three contact stains.

6 Q. Mr. Stahlke, Mr. Fallon is going to bring you a
7 pile of photographs that have already been marked
8 as exhibits in this case. And if you could keep
9 them in that order and I would ask you to take
10 the first photograph and read off what exhibit
11 number it is, please.

12 A. Exhibit No. 290.

13 Q. And is that photograph that you have being shown
14 on the big screen here that the jurors are
15 looking at?

16 A. Yes, it is.

17 Q. Could you describe for the jurors what you
18 observed in this photograph?

19 A. This is an intermediate view of the passenger's
20 compartment. On this particular photograph, you
21 can see a red brown stain on the driver's seat.

22 Q. Would it be helpful if we were to zoom in on that
23 for you?

24 A. Sure.

25 Q. And do you have a laser pointer up there?

1 A. No, I do not.

2 Q. We'll have one in a moment. And could you point
3 out to the jurors where you observed this
4 particular stain. Is there anything else that
5 you observed in the -- this compartment of the
6 vehicle?

7 A. Yes. Well, this particular stain, however, it is
8 a bit of a thick stain, so it's a little thicker
9 than your normal contact transfer stain. There
10 were two other areas in this passenger
11 compartment that I saw stains.

12 Q. Before we go to those, could you describe the
13 type of stain this is?

14 A. This is -- I would call this a contact transfer
15 type stain; however, it was thicker than your
16 average transfer stain. So I'm kind of bordering
17 on that being a passive drop, which is a drop
18 that falls to that surface. And it's thicker
19 because it's -- it's -- it has fallen there, as
20 opposed to a bloody surface contacting that
21 particular unstained surface.

22 Q. Is this what you call an individual stain, did
23 you say?

24 A. It can be, yes.

25 Q. And could you explain, just amplify a bit more

1 for the jurors what you mean by contact transfer
2 stain?

3 A. A contact transfer stain is the transfer of blood
4 from a bloody object, or bloody item, or blood
5 source, onto an unstained surface.

6 Q. Would you look at the next exhibit that we have
7 and just read the exhibit number and describe
8 what that is for the jurors.

9 A. Exhibit 292, this is the -- yes, there's a --
10 this is the passenger's front seat or the front
11 seat on the passenger side of the vehicle. And
12 in this seat, or on this seat is a water bottle,
13 a cassette -- or excuse me -- a CD holder, hard
14 plastic, and I believe that's a perfume bottle, I
15 can't tell you for sure.

16 Q. Did you observe any bloodstain patterns in this
17 area of the RAV4?

18 A. Yes, I did.

19 Q. And could you describe them for the jurors and
20 where they are?

21 A. The CD box or container would have had
22 bloodstains on the surface of it.

23 Q. Would it be helpful for you if we were to zoom in
24 on this for you to identify it?

25 A. Sure.

1 Q. Can you use your laser pointer to point out the
2 area that you observed these bloodstains.

3 A. Well, you can see some here, but there were
4 stains throughout, basically covering 50 percent
5 of the surface of this CD box, but you can see
6 this is the most obvious stain on this photo.

7 Q. Was there anywhere else that you observed
8 bloodstain patterns?

9 A. In the vehicle, yes.

10 Q. No, in this photograph. Let's zoom back out now,
11 please.

12 A. There was another stain on the front, left
13 portion of that seat cushion.

14 Q. And can you point out where that was located?

15 A. Yes.

16 Q. And we could zoom up to that area?

17 A. If you can, it's right in this area here.

18 Q. You may not --

19 A. More to the right, yeah, right there.

20 Q. And could you describe for the jurors what type
21 of stain that was that you observed?

22 A. Contact transfer.

23 Q. Again, what do you mean by a contact transfer
24 stain?

25 A. Again, a bloody source, a bloody item, a bloody

1 object coming in contact with an unstained
2 surface.

3 Q. I would like you to look at the next exhibit and
4 identify it and describe it for the jurors.

5 A. This is Exhibit 291.

6 Q. And did you observe any -- Sorry, let me back up
7 here. Is the photograph on the large screen a
8 photograph that you have in your hand?

9 A. Yes, it is.

10 Q. Could you describe -- point out, on the large
11 screen, the bloodstain pattern that you observed
12 here?

13 A. Right here.

14 Q. And would you describe that for the jurors and
15 tell what type of stain that is.

16 A. And this is a contact transfer stain; again, a
17 bloody object, or item, coming in contact with an
18 unstained surface.

19 Q. We'll zoom in on this so the jurors can get a
20 good look at that. And, again -- Once again,
21 what do you mean by a bloody contact transfer?

22 A. It would be an object that has blood on it, that
23 transferred that blood from that surface onto a
24 non-stained or unstained surface.

25 Q. I would like you to look at the next photograph

1 and identify the exhibit number?

2 A. Exhibit 193.

3 Q. And I would like you to tell the jurors whether
4 this -- the photograph you have in your hand is
5 being shown on the big screen?

6 A. Yes, it is.

7 Q. And this -- I would like to ask you whether you
8 have an opinion, to a reasonable degree of
9 scientific certainty, whether this cut to the
10 hand is consistent with being the bloody object
11 that came in contact with the dashboard, by the
12 ignition switch of the RAV4?

13 ATTORNEY STRANG: Objection, foundation,
14 personal knowledge, and entirely speculative. He
15 has no idea on the timing of this.

16 THE COURT: I'm going to sustain the
17 objection. I think at this point the witness has
18 testified about expertise in blood transfer, but I
19 don't think anything has been established about this
20 photo.

21 Q. (By Attorney Gahn)~ Could the bloodstain that you
22 observed on the dashboard of Teresa Halbach's
23 RAV4, have come from a cut to a finger?

24 A. Yes.

25 ATTORNEY STRANG: Objection, this is beyond

1 the scope of the disclosure under 971.03 as well,
2 your Honor.

3 THE COURT: I'm going to have to ask you to
4 elaborate on that, Mr. Strang.

5 ATTORNEY STRANG: This is -- the opinion he
6 is being asked to express is not one included in the
7 report or otherwise disclosed pursuant to discovery
8 request.

9 ATTORNEY GAHN: Your Honor, I believe that
10 the witness has testified what a contact transfer
11 bloodstain pattern is, that being a bloody source
12 coming into contact with a surface that doesn't have
13 blood on it. I'm simply asking if a cut such as
14 this is consistent with being the bloody source
15 coming in contact with the dashboard.

16 ATTORNEY STRANG: Well, your Honor, I mean,
17 to the extent that if someone is bleeding they can
18 drop blood or brush it, we don't need an expert to
19 tell the jury that; that's entirely within the canon
20 of ordinary experience and nothing from an expert is
21 helpful on that point.

22 THE COURT: I guess I would like to hear a
23 few more questions about his experience in this
24 area. So far we have heard something about three
25 kinds of blood transfers, but that's about when you

1 observe a transfer on another surface. But I think
2 that's all I heard.

3 Q. (By Attorney Gahn)~ Mr. Stahlke, could you
4 explain, what is your experience with examining
5 contact transfer bloodstains.

6 A. Contact transfer bloodstains is a -- it can be a
7 transfer of a pattern. You can see in some
8 stains the outline of a particular -- of the
9 particular item that is bloody contacting a --
10 the unstained surface. And in some cases, you
11 can see the pattern or detail from the bloodied
12 item that has been transferred, then, onto an
13 unstained surface.

14 Q. And have you been to crime scenes and examined
15 contact transfer stains?

16 A. Yes, I have.

17 Q. Do you know how many you have been to?

18 A. Well, I have been to approximately 200 field
19 responses. Of those, then, over 100 crime
20 scenes. And in every scene that has blood
21 present, I examine the stains to determine
22 whether or not there would be any additional
23 information that would be gained from those
24 stains that would be helpful in this
25 investigation.

1 Q. Do you also examine photographs of bloodstains?

2 A. Yes.

3 Q. And do those help, are you able to interpret
4 bloodstain patterns from the photographs?

5 A. Yes. Many times we're asked by agencies that
6 have processed their own scenes and taken their
7 photographs and then realized that maybe they
8 could gain some knowledge or some valuable
9 information from those stains. And this would be
10 after the fact and we have been often asked to
11 look at photographs to analyze this bloodstain.

12 Q. And will those photographs include contact
13 transfer stains?

14 A. Yes, they do.

15 ATTORNEY STRANG: Your Honor, this may be a
16 good time to take up a subject out of the jury's
17 presence.

18 THE COURT: All right. The Court is going
19 to excuse the jury for a few minutes.

20 (Jury not present.)

21 THE COURT: Are you asking for the witness
22 to be excused? You can step outside. Mr. Strang.

23 ATTORNEY STRANG: Your Honor, I will tender
24 the Court a copy of the report that we received from
25 Mr. Stahlke and a copy of his resume as well. It's

1 a two page report. Nothing in that report suggests
2 that the State intended to elicit from this proposed
3 expert an opinion tying any particular injury to the
4 blood patterns that he's testifying he observed.

5 I don't know how he possibly could do
6 that either without knowing personally, A, when
7 this photograph was taken and, B, the likelihood
8 that it was actively bleeding at any relevant
9 time, which I think is probably well beyond his
10 expertise. So, this goes beyond disclosure that
11 the State has provided and gets into something
12 both of which we don't have notice and of which
13 his own expertise or even personal knowledge is
14 questionable.

15 And, finally, the point is simply that,
16 you could get a cut and may drop -- you may be
17 dripping blood, or you may leave a bloodstain if
18 you brush your cut against something. Again,
19 that's -- that's not a subject requiring expert
20 testimony at all.

21 THE COURT: Mr. Gahn.

22 ATTORNEY GAHN: Well, your Honor, I think
23 the report speaks for itself. If you look under
24 observations on page one of Mr. Stahlke's report.
25 States that on the second -- beginning with the

1 second sentence, contact transfer stains were
2 present on the driver's seat cushion, the passenger
3 seat cushion, and on the dashboard near the ignition
4 switch.

5 ATTORNEY STRANG: And that's fine, nobody
6 questions his ability to describe what a contact
7 transfer stain or, you know, a passive stain, or
8 swipe, or any other type of pattern looks like. The
9 issue is tying it to any particular source.

10 ATTORNEY GAHN: If I may finish, the next
11 sentence states that these stains are the result of
12 a bloody source coming into direct contact with
13 those surfaces. That's what I asked him in his
14 opinion. Is this cut consistent with the bloody
15 source coming in contact with it. That's all I
16 asked.

17 ATTORNEY STRANG: Not when that photo taken
18 it's not.

19 THE COURT: Yeah, I think the -- reading
20 the report, the conclusion is that the bloodstains,
21 or at least a couple of them, were consistent with
22 an individual who was actively bleeding. I haven't
23 heard the answer yet, from the witness, so I wasn't
24 sure where you were going. But if the witness was
25 going to say that the particular pattern of the

1 stain near the ignition matched this particular cut,
2 it appears to me that would be going beyond what I
3 see here in the report.

4 If you want to ask the witness if
5 whoever this is, if this person had been sitting
6 in the vehicle and had that cut at a time when it
7 was actively bleeding, could that have caused the
8 bloodstains, I think that's something that's
9 within his expertise, that is contained -- or
10 that is within the conclusions that he drew in
11 the report. But I think that's about as far as
12 he can go.

13 ATTORNEY GAHN: We did not intend to go any
14 further, your Honor.

15 THE COURT: And, Mr. Strang, I don't know
16 if you object to that, or if that's inconsistent
17 with what you are saying or not.

18 ATTORNEY STRANG: No, if he is trying to
19 link the blood patterns he saw, to this photograph,
20 we don't have notice of that and he is not qualified
21 to do it. Neither does he have the foundation,
22 since that doesn't appear to be something that's
23 bleeding. And, you know, he has no idea when the
24 photo was taken or when the cut may have been
25 actively bleeding, none that I know of. And that

1 would have been the purpose of notice.

2 THE COURT: What exactly are you proposing
3 to ask him, Mr. Gahn?

4 ATTORNEY GAHN: Just when I asked him the
5 questions, whether he has an opinion, to a
6 reasonable degree of scientific certainty whether
7 this cut is consistent with being the bloody object
8 that came in contact with the dashboard by the
9 ignition switch. And I can add, if it were actively
10 bleeding, if this cut were actively bleeding, could
11 this be the source, the bloody source, coming in
12 contact with the dashboard.

13 THE COURT: Mr. Strang.

14 ATTORNEY STRANG: Again, there's just
15 nothing in the report that suggests that this
16 witness was going to try to link a stain to any
17 possible injury on Steven Avery or anyone else. And
18 I -- Again, I don't know how he would possibly do
19 that, other than a hypothetical, if it were actively
20 bleeding. Sure, but he doesn't know. Beyond -- I
21 can't -- What hand is this, this looks to me like a
22 left hand. Is that what that is?

23 ATTORNEY GAHN: Sergeant Bill Tyson
24 testified that this was the right hand of Steven
25 Avery.

1 ATTORNEY STRANG: Where's the thumb. Maybe
2 if it's being held like this, I suppose if the cuts
3 on the outside of the right finger. Sure looks like
4 a left hand from here. The point is, your Honor, we
5 don't have any foundation for any of this, from this
6 witness let alone notice.

7 THE COURT: All right. As I think about
8 it, I think I agree with the defense on this one.
9 He can testify -- he's already testified that it
10 came from a cut that was actively bleeding, the jury
11 has already seen this photo. They can determine if
12 it looks like a cut that was at one time actively
13 bleeding.

14 I just don't think for the witness'
15 level of expertise there is really much he can
16 add to that so I'm going to sustain the defense's
17 objection. Anything else before we bring the
18 jury back in? If not, if someone can bring the
19 witness back in, we'll bring in the jurors.

20 THE COURT: Mr. Gahn, before they come in,
21 any idea how long your direct is likely to go? Are
22 you hoping to finish it today?

23 ATTORNEY GAHN: Yes. We would also like
24 to -- hopefully we can finish the cross today too
25 because Mr. Stahlke has a appointment tomorrow

1 morning.

2 ATTORNEY STRANG: I don't know -- I don't
3 know where this is --

4 THE COURT: Well, we'll wait and see.

5 ATTORNEY STRANG: -- this is going, so.

6 (Jury present.)

7 THE COURT: You may be seated. And
8 Mr. Gahn you may continue.

9 **DIRECT EXAMINATION CONTD**

10 BY ATTORNEY GAHN:

11 Q. Mr. Stahlke, this pattern that you observed on
12 the dashboard of Teresa Halbach's RAV4, is this
13 pattern consistent with someone who could be
14 actively bleeding on their right hand?

15 A. Yes, it's consistent with that.

16 Q. I would ask if you could pick up the next
17 exhibit, please, and identify it for the jurors?

18 A. Exhibit 294.

19 Q. And what does that show, please?

20 A. This is the passenger side, rear entry, or the
21 threshold of the door frame.

22 Q. And does the photograph on the big screen
23 accurately reflect that photograph?

24 A. Yes, it does.

25 Q. And did you observe any bloodstain patterns to

1 this area?

2 A. Yes, I did.

3 Q. Would it be helpful if we zoom in?

4 A. Sure.

5 Q. Could you describe for the jurors what type of
6 bloodstain this is?

7 A. This is a stain that is indicative of passive
8 bleeding; it's a passive drop.

9 Q. And what do you mean by passive drop?

10 A. Passive drop is a particle of blood, or a drop of
11 blood that is only influenced by the gravity, or
12 the force of gravity.

13 Q. And is this type of drop consistent with being
14 left by a person who is actively bleeding?

15 A. Yes, it is.

16 Q. I'm going to ask you to look at the next exhibit,
17 identify the exhibit number.

18 A. Exhibit 295.

19 Q. And does the photo on the big screen reflect that
20 exhibit?

21 A. Yes, it does.

22 Q. Describe for the jurors what you observed here?

23 A. This is the rear cargo area of the Toyota RAV4.
24 This would be a view looking through the back
25 entry door and looking at the passenger side just

1 behind the right rear seat. In this area, there
2 are numerous stains and they all are basically
3 described as contact transfer stains.

4 Q. Would you look at the next exhibit, please,
5 identify it.

6 A. Exhibit 296?

7 Q. Yes.

8 A. This view is a close up view depicting the same
9 stains that we saw on the previous exhibit,
10 Exhibit 295.

11 Q. And describe these stains that you observed to
12 this portion of the vehicle.

13 A. These are contact transfer stains, a bloody
14 object coming in contact with an unstained
15 surface. And there is a stain in this grouping
16 of stains that is a classic stain for as far as a
17 transfer contact stain.

18 Q. Would you describe that for the jurors.

19 A. This stain right here has a wave like appearance
20 to it. It is indicative of bloody hair
21 transferring the blood from those -- from that
22 head here onto this surface.

23 Q. And how can you tell that?

24 A. Well, it has this crescent shaped or wavy
25 appearance to it. And this is just a classic

1 example of bloody hair transferring onto an
2 unstained surface. It is -- has enough blood
3 there that it also shows a bit of a flow pattern
4 off of the bottom of that. But you can see that
5 it is thicker here and it -- as it -- the length
6 draws out, it comes to a point. This is -- is
7 indicative of blood hair -- bloody hair transfer.

8 Q. Would you look at the next exhibit, please?

9 A. Exhibit 297.

10 Q. And does this photograph show what you're -- the
11 exhibit that you have in your hand?

12 A. Yes, it is.

13 Q. And, again, did you observe any other bloodstain
14 patterns?

15 A. Yes, I did.

16 Q. Would you please describe those for the jurors.

17 A. These stains here, as well, are all contact
18 transfer variety of stains. And along the base
19 of this is a flow patterns which is indicative of
20 a passive stain -- or type of a passive stain,
21 whereas gravity is the only thing that is
22 influencing it.

23 So there's enough blood that has
24 contacted this surface that it will drain on its
25 own, with the gravity, only gravity influencing

1 that stain. Along the base of this is pretty
2 heavily stained and it appears that it's all
3 contact transfer.

4 Q. Based upon the combination of these stains, that
5 you observed in the rear cargo area, are they
6 consistent with a body with bloody hair being
7 present?

8 A. Yes, they are.

9 Q. Did you examine the threshold area of the RAV4?

10 A. Yes, I did.

11 Q. And when I ask you to pick up the next exhibit,
12 next photograph, identify the exhibit, please.

13 A. Exhibit 298.

14 Q. And is that the exhibit that is being shown on
15 the big screen?

16 A. Yes, it is.

17 Q. Would you describe for the jurors your
18 observations of the threshold area of the RAV4?

19 ATTORNEY STRANG: Maybe we can -- Where are
20 we? What threshold area? I wonder if we can orient
21 it.

22 A. I can explain that. It's the cargo door, or the
23 rear door of the RAV4. So, if this is the cargo
24 area at the top of the -- this photograph, this
25 would be the opening to the rear -- rear end of

1 this vehicle. And this being the threshold, and
2 I will use this as the general term, as far as
3 the threshold, but this -- this threshold had not
4 only transfer contact stains, but it also had
5 impact stains.

6 Q. Could you point out for the jurors the -- we can
7 even zoom in here for you -- where you observed
8 the different stains and describe them again,
9 please.

10 A. This is an example of an impact stain.
11 There's -- this is transfer. If you want to
12 rotate more to the right. More staining right in
13 here that would be indicative of a transfer. And
14 then right -- as -- right there, more contact
15 transfer. And these stains actually are -- this
16 stain right here can be caused by -- as a swipe
17 pattern, which is a bloody object that has come
18 in contact with an unstained surface that is
19 showing motion. So a swipe will show motion of
20 that bloody source.

21 Q. Just for the record, Mr. Stahlke, I would like
22 you to identify each of these stains. Could you
23 point out the impact stain that you observed?

24 A. The most obvious impact stain would be this stain
25 right here. Impact stains are generally circular

1 or elliptical. They show that a particle of
2 blood or a drop of blood that has been in flight,
3 has been airborne, and when it contacts a surface
4 or impacts that surface, it leaves a stain that's
5 either circular or elliptical indicating the
6 angle of impact. This is a transfer stain.

7 Q. Just stop for one moment. May the record reflect
8 that when Mr. Stahlke pointed to the impact
9 stain, it was a bloodstain that was at the top of
10 what he referred to as the threshold area and to
11 the left of what appears to be a screw or a bolt
12 in that threshold area.

13 THE COURT: Does the defense agree?

14 ATTORNEY STRANG: Sure. But, you know,
15 really all of this is for the jury.

16 THE COURT: All right. All right. The
17 record will so reflect.

18 A. Additional stains are present are contact
19 transfer variety. Here to the left of that bolt
20 and to the right of the bolt here.

21 Q. And I think you also indicated that you observed
22 what were swipe patterns?

23 A. Yes. And that's down and to the right, in
24 relationship to that bolt.

25 Q. Thank you. Did you also -- Would you look at the

1 next exhibit, identify it, please.

2 A. Exhibit 299.

3 Q. And does the photograph you have in your hand,
4 that exhibit, is that being displayed on the big
5 screen?

6 A. Yes, it is.

7 Q. And did you observe any bloodstain patterns to --
8 I'm sorry, please, describe what this photograph
9 shows.

10 A. This is the rear door of the RAV4. And when --
11 This is the type of door that has a hinge on its
12 side so it opens like a regular car door, but on
13 the rear end of the vehicle. This is the
14 interior panel of that door.

15 Q. And did you observe any bloodstain patterns on
16 the interior panel of the rear cargo area?

17 A. Yes, I did.

18 Q. And could you explain those for the jurors and we
19 would be more than happy to zoom in on any stains
20 you would like.

21 A. There were a number of impact stains on the rear
22 panel of this door and some of the stains had
23 associated flow patterns.

24 Q. Could you use the laser pointer and point these
25 out for the jurors and describe them.

1 A. If you want to zoom in right here. This is some
2 of the better stains as far as groupings. Okay.
3 That's good. You can see here, these are impact
4 stains; they are circular or near circular. And,
5 then, some of these stains have a flow pattern,
6 meaning they had enough quantity or volume that
7 once they impacted the surface, gravity
8 influenced them and drew that blood down -- down
9 toward the ground. So this is an example of a
10 impact stain with an associated flow pattern and
11 this one as well and these are all impact stains.

12 Q. Were there any other type of stains on the door
13 area that you observed?

14 A. No.

15 Q. And are you able -- Were you able to determine
16 how those would be deposited, the ones that you
17 observed, the impact stains with the flow
18 pattern?

19 A. Yes, I have seen these stains at other scenes
20 where -- where we assume that a bloody object was
21 being handled and that these stains -- or this
22 blood was -- was -- appeared to have been flung
23 off or released from a bloody object.

24 Q. Would that be consistent with a body with bloody
25 hair being put into the back of this vehicle?

1 A. Yes, it would. And in this particular case,
2 this -- these stains don't necessarily require
3 the -- the bloody hair component; however, it is
4 consistent with a bloody object such as a body
5 being comploded (phonetic) into the rear end of
6 this vehicle.

7 Q. If you would look at your next exhibit, please,
8 and identify that.

9 A. Exhibit 300.

10 Q. And is the photograph on the big screen, is that
11 the same one you have with you?

12 A. Yes, it is.

13 Q. Could you describe what this is?

14 A. This is an overall view of the rear cargo area or
15 storage area of this RAV4.

16 Q. Did you make any measurements to this rear cargo
17 area?

18 A. Yes, I did.

19 Q. What area did you measure and could you give
20 those dimensions to the jury.

21 A. I measured from door frame to door frame. And it
22 was 42 inches.

23 Q. And would a five-foot-six slender woman fit in
24 the back in the cargo area?

25 A. Yes, it would.

1 Q. Did you do any other examination or processing of
2 this vehicle, besides the bloodstains?

3 A. We were asked to give the odometer reading on the
4 vehicle.

5 Q. And what did you do to obtain the odometer
6 reading?

7 A. Well, looking at the instrument panel, we
8 couldn't determine what the odometer reading was,
9 since there appeared to have been a dead battery.

10 Q. And what -- Did you check any further as to
11 whether there was a dead battery?

12 A. Yes. We thought we needed to charge the battery
13 so we opened up the hood of the vehicle and
14 discovered that the battery cables had been
15 disconnected.

16 Q. Would you look at the next exhibit that you have,
17 identify it, please.

18 A. Exhibit 302.

19 Q. And what does that exhibit show?

20 A. This is the disconnected battery cable.

21 Q. Is that how you observed it when you opened up
22 the hood?

23 A. Yes, it is.

24 Q. It was you who opened up the hood, correct?

25 A. That's correct.

1 Q. How did you do that?

2 A. Released the interior latch on the vehicle and
3 then opened up the hood, releasing the latch on
4 the hood, or the front of the vehicle. And
5 propped it open with its -- its a -- with a prop,
6 I guess, on the hood itself and saw this battery.

7 Q. And what did you determine by looking at the
8 battery?

9 A. Well, that -- that was the reason for the problem
10 with no power to the instrument panel, is that
11 the battery was disconnected.

12 Q. And when you opened up the hood of the RAV4, were
13 you wearing gloves?

14 A. Yes.

15 Q. What type of gloves were you wearing?

16 A. Latex.

17 Q. I would like you to look at the next exhibit,
18 please, identify it.

19 A. Exhibit 303.

20 Q. And is this the exhibit that you have in your
21 hand, being shown on the big screen?

22 A. Yes, it is.

23 Q. And has this been identified to you as the
24 vehicle owned by Steven Avery, a 1993 Grand Am?

25 A. Yes.

1 Q. Did you process this vehicle for any blood stain
2 pattern analysis?

3 A. Yes, I did.

4 Q. And did you find any bloodstains in it?

5 A. Yes, I did.

6 Q. Will you look at the next exhibit, please,
7 identify it.

8 A. Exhibit 305.

9 Q. And is Exhibit 305 reflected on the big screen?

10 A. Yes, it is.

11 Q. And could you point out for the jurors any
12 bloodstain patterns that you observed in this
13 vehicle?

14 A. This seems to be zoomed in a bit, can we zoom
15 out. Yes, there's stains present in this
16 particular photograph. There's some stains on
17 the backside of this gear shift here. And two
18 circular stains, one here and one here. Now, off
19 this photo, that you can't see, are additional
20 stains, right along here, on the passenger side
21 of the center console.

22 Q. Do the blood stain patterns that you observed in
23 this 1993 Grand Am, are they consistent with the
24 operation of this Grand Am by a person who was
25 actively bleeding?

1 A. Yes, they are.

2 Q. And the bloodstain patterns that you observed in
3 Teresa Halbach's RAV4, are those consistent with
4 the operation of the RAV4 by a person who is
5 actively bleeding?

6 A. Yes, they are.

7 ATTORNEY GAHN: That's all I have. Thank
8 you, Judge.

9 THE COURT: All right. Members of the
10 jury, it's almost 4:30, since I'm sure you got up a
11 little early this morning, it's a good enough reason
12 to let you go a little early today. I will remind
13 you not to discuss this matter among yourselves or
14 with anyone else and we'll see you tomorrow morning.

15 (Jury not present.)

16 THE COURT: You may be seated. Counsel, I
17 will ask you to see me in chambers a little after
18 8:30 again tomorrow morning to let me know what we
19 will be doing.

20 ATTORNEY FALLON: Yes, Judge, could we put
21 another matter on the record at this time.

22 THE COURT: Sure.

23 ATTORNEY FALLON: In light of this
24 afternoon, or should I say this morning's
25 developments, the State would like to renew a motion

1 previously made and ruled upon by the Court. And
2 that is, again, we would renew our **Richardson** motion
3 for disclosure and evidence, if there is to be any
4 more frame-up allegations, or should we say wild
5 speculation, that we at least be given notice and a
6 new offer of proof with respect to that type of
7 evidence.

8 This morning's example, the buccal swabs
9 or buccal swabs, is a perfect example of evidence
10 not covered by the original offer of proof and
11 the Court had already noted that any such
12 evidence should be the subject of at least
13 pre-trial notice. Obviously, that's not possible
14 since we're in trial at the moment. But the
15 existence of those swabs and those conditions was
16 well known to the defense and disclosed.

17 So if there was to be any more
18 **Richardson** evidence, then we would demand a
19 notice, and an offer of proof, and a ruling
20 outside the presence of the jury, before it is
21 presented to the jury. We have that ruling from
22 the Court. It did not include the buccal swabs,
23 it included only the blood vial. We will be
24 certainly hearing more about that in the next
25 couple of days.

1 But any other evidence, we renew our
2 motion to exclude and prohibit that evidence. As
3 this morning's example demonstrated, there was no
4 basis and no reason to present that evidence
5 today. It's entirely irrelevant. Conjecture,
6 speculation, and wild accusation, that's all it
7 was. We object.

8 THE COURT: Mr. Buting.

9 ATTORNEY BUTING: Judge, then the State has
10 to give advance notice of any of their theories and
11 any type of evidence that their expert will testify
12 ahead of time. And in this instance they elicited
13 an opinion from an expert, that was not in the
14 report, in which she was saying -- they had her try
15 to say that this DNA on the key, for instance,
16 was -- she didn't like my use of the word trace, I
17 can't remember what word she used -- but they tried
18 to raise an issue that somehow it could not have
19 come from a blood source.

20 So they brought into the trial a
21 completely different issue. We were simply
22 responding to that, and that's going to happen,
23 if they bring in, you know, additional opinions
24 like this one. You know, this is not irrelevant
25 the jury can draw from it what they want, but it

1 was a relatively minor point, given the length of
2 the whole cross-examination, so I don't see that
3 it's worth arguing too much about.

4 I don't know that there's going to be
5 anything else at this point, that I'm aware of,
6 but if some other witness comes up here and
7 presents some kind of testimony that may require
8 it, then I think it's fair game.

9 THE COURT: All right. Mr. Fallon, I'm not
10 going to hear from you, because you are going to win
11 this one. I know from conferences in chambers
12 before that the State had already made the point
13 when the blood vial thing came up first, that the
14 key, and I believe the hood latch, were alleged to
15 involve DNA that did not consist of blood.

16 I let the defense evidence in today
17 about the buccal swabs, but I agree with the
18 State that although -- although I would have
19 determined it was relevant had we had a
20 **Richardson** hearing about it, that if there is any
21 other **Richardson** type evidence that the defense
22 intends to introduce, I'm going to require from
23 this point forward that the State get advance
24 notice of it. And that if the State objects, the
25 Court has a chance to evaluate it for whether or

not it is admissible as frame-up evidence.

I think that the defense had notice ahead of time that the State was claiming that there was some DNA evidence which the State could not say didn't come from blood, as we heard from the expert witness today, but didn't appear to be. I assume that was the reason why the defense sought to introduce the buccal swab evidence, which I did let in.

But I think the State's point is well taken, they are entitled to notice if there's any other evidence like that that the defense will be seeking to introduce. Anything else before we adjourn today?

ATTORNEY KRATZ: You wanted us in chambers, Judge, is that what you said?

THE COURT: Before trial tomorrow morning.

ATTORNEY KRATZ: Oh, I'm sorry. That's fine. Thank you.

THE COURT: All right. We'll see you tomorrow morning.

(Proceedings concluded.)

1 STATE OF WISCONSIN : CIRCUIT COURT : MANITOWOC COUNTY
2 BRANCH 1

3 STATE OF WISCONSIN,

4 PLAINTIFF,

JURY TRIAL

TRIAL - DAY 12

5 vs.

Case No. 05 CF 381

6 STEVEN A. AVERY,

7 DEFENDANT.

8 **DATE:** FEBRUARY 27, 2007

9 **BEFORE:** Hon. Patrick L. Willis
10 Circuit Court Judge

11 **APPEARANCES:** KENNETH R. KRATZ
Special Prosecutor
12 On behalf of the State of Wisconsin.

13 THOMAS J. FALLON
Special Prosecutor
14 On behalf of the State of Wisconsin.

15 NORMAN A. GAHN
Special Prosecutor
16 On behalf of the State of Wisconsin.

17 DEAN A. STRANG
Attorney at Law
18 On behalf of the Defendant.

19 JEROME F. BUTING
Attorney at Law
20 On behalf of the Defendant.

21 STEVEN A. AVERY
Defendant
22 Appeared in person.

23 **TRANSCRIPT OF PROCEEDINGS**

1 THE COURT: At this time the Court calls
2 State of Wisconsin vs. Steven Avery, Case No. 05 CF
3 381. We're here this morning, outside the presence
4 of the jury at this time, for a continuation of the
5 trial in this matter. Will the parties state their
6 appearances for the record, please.

7 ATTORNEY KRATZ: State appears by Special
8 Prosecutors Ken Kratz, Norm Gahn, and Tom Fallon,
9 your Honor.

10 ATTORNEY BUTING: Good morning, your Honor.
11 Attorneys Jerome Buting and Dean Strang appearing on
12 behalf of Mr. Avery, who is present.

13 THE COURT: All right. And I understand,
14 Mr. Buting, that you wish to be heard outside the
15 presence of the jury before we commence
16 cross-examination of the State's last witness.

17 ATTORNEY BUTING: I do, Judge. At this
18 time I'm making a motion to suppress and to move to
19 strike any of the testimony and evidence regarding
20 the results of the bullet fragment FL that was
21 testified to about yesterday. The reasons are, I'm
22 renewing the motion that I filed in this court
23 entitled Defendant's Motion to Assure Fair Forensic
24 Testing, which was filed on March 6 of 2006.

25 In that motion I, ironically, or maybe

1 not so ironically, predicted that there would be
2 potential of contamination and complete
3 consumption of evidence that would potentially
4 hamper the defense ability to get a fair trial
5 and to be able to meet the State's evidence.

6 The motion was filed on March 9th. The
7 State replied, ironically, arguing that the State
8 Crime Lab was unlike other Crime Labs that I had
9 cited from other parts of the country that had
10 had problems with contamination or outright
11 fraud. The State replied arguing that there's no
12 evidence of any contamination history or record
13 in the State of Wisconsin's Crime Lab and that
14 having a defense expert present, again
15 ironically, would make a -- would increase the
16 risk for contamination.

17 Now, here we hear that the State Crime
18 Lab brought in new trainees, which increased the
19 risk of contamination, during that critical test.
20 When we could have very easily had a defense
21 expert also there and observing, at a minimum, if
22 she was going to use up all the sample and
23 thereby prevent the defense from retesting it
24 itself.

25 The motion was heard on March 17th,

1 2006, and that's before that bullet even arrived
2 at the Crime Lab. Now we hear, two weeks later,
3 two to three weeks later, Ms Culhane does this
4 extraction on the bullet, uses it all up,
5 contaminates the testing process, and we have no
6 recourse other than relying on cross-examination
7 to try and point out those mistakes.

8 The -- In the motion hearing, which we
9 heard on -- which was heard on March 17th,
10 Mr. Gahn made a point of saying -- one of the
11 things we had talked about is that our expert had
12 in prior cases been able -- particularly in
13 Illinois Crime Lab -- been able to be present
14 when there is an instance of sort of a one time
15 test where there is not going to be enough for
16 both sides to later test.

17 And Mr. Gahn says, in all candor -- I'm
18 quoting from the transcript -- In all candor, I
19 will admit to the Court I have heard of cases
20 where that is done, or there is an agreement
21 between the defense and the prosecution to send
22 the item for independent testing. But those
23 generally are cases where there's one critical
24 piece of evidence and there will be total
25 consumption of that evidence.

1 Skipping down a little bit. Where it's
2 just one piece of evidence that could be
3 inculpatory or exculpatory and the defendant has
4 no other comparable means of getting that
5 evidence analyzed.

6 Clearly, Mr. Gahn was on notice that if
7 that situation arise -- arose in this case, and
8 that a critical piece of evidence was going to be
9 completely consumed by the State's tests, that
10 some effort should have been made to assure fair
11 forensic testing, which is what we ask for in our
12 motion. Instead, we heard what happened
13 yesterday. The Crime Lab analyst consumed the
14 entire sample and denied us the opportunity for a
15 retest, which all along Mr. Gahn has been arguing
16 is the solution, you know, just retest. We're
17 happy to have you retest.

18 But we can't retest when there's been an
19 extraction that's contaminated and that was made
20 clear yesterday. So, the Court, by the way,
21 also, in its decision, made a point of noting
22 that the Court was not aware that our State Crime
23 Lab has been involved in incidents of mistakes,
24 and contamination, things of that sort, unlike
25 other crime labs.

1 Now, it turns out that the State knew,
2 back then, that the Crime Lab was keeping a
3 contamination log. And they knew that, at least
4 by then, there was probably 75 incidents that
5 they had recorded of contamination. And that
6 wasn't disclosed to the Court or to the defense.
7 It was only -- In fact that wasn't disclosed even
8 in our original discovery request for the bench
9 notes and lab sheets and all of that stuff. We
10 had to make a separate independent request for a
11 contamination log, if one existed, before we got
12 that information.

13 So I think the decision that the Court
14 made in March was based on faulty information. I
15 think the State should bear the penalty for that.
16 I think that shows bad faith, both in the failure
17 to disclose that there was a history of
18 contamination at the time we made this motion and
19 argument, and bad faith in that, even after it
20 was made clear to the Court that the defense had
21 concerns about a single one shot test that would
22 consume everything, the State, nevertheless, went
23 ahead and did that and did it while training
24 somebody, resulting in a contamination.

25 So, for all those reasons, I think the

1 Court doesn't have to decide this today, but I
2 want to put it on the record today. For all
3 those reasons I am renewing my motion and asking
4 that the test results be suppressed, that the
5 jury be instructed accordingly, and we can decide
6 this at a later date, but certainly, obviously,
7 before the case is sent to the jury.

8 THE COURT: Who's going to be responding
9 for the State?

10 ATTORNEY GAHN: I will, your Honor. I
11 would ask to be given some time to reply to this.
12 Just hearing this now, I need to review the
13 transcripts and review the motions that were filed.

14 THE COURT: All right. Very well. The
15 Court will then take the renewal of the motion under
16 advisement at this time and give the State a chance
17 to reply later. I will just make some notes here.

18 Anything else before we bring out the
19 jury? If not, we can bring the jurors at this
20 time.

21 (Jury present.)

22 THE COURT: You may be seated. Members of
23 the jury, we did have a matter to take up on the
24 record outside the presence of the jury before
25 starting today. That has now been completed. At

1 this point, we'll have Mr. Stahlke return to the
2 witness stand and the defense may begin its cross.

3 THE CLERK: Please raise your right hand.

4 **NICK STAHLKE**, called as a witness
5 herein, having been first duly sworn, was
6 examined and testified as follows:

7 THE CLERK: Please be seated. Please state
8 your name and spell your last name for the record.

9 THE WITNESS: Nick Stahlke, Stahlke is
10 spelled, S-t-a-h-l-k-e.

11 **CROSS-EXAMINATION**

12 BY ATTORNEY STRANG:

13 Q. Good morning, Mr. Stahlke.

14 A. Good morning.

15 Q. I have got your curriculum vitae, fancy word for
16 resume, with me and it looks to me that you have
17 had what we might agree is broad experience as a
18 forensic analyst?

19 A. That's correct.

20 Q. Before you went into work at crime laboratories
21 or forensic analysis, you spent several years as
22 a pharmacy technician?

23 A. Correct.

24 Q. Got a basic familiarity with pharmaceuticals and
25 controlled substances?

1 A. Yes.

2 Q. Your first job as a forensic analyst was for the
3 State of Idaho?

4 A. That's correct.

5 Q. Hence, the work you described doing teaching at
6 the Northern Idaho college.

7 A. That's correct.

8 Q. You did a broad range of forensic analysis with
9 the State of Idaho?

10 A. The State of Idaho has criminalists and
11 criminalists are basically generalists, they have
12 more than one specific duty in a crime lab.

13 Q. Maybe not quite close enough to the mike there,
14 but the word is criminalist?

15 A. Correct.

16 Q. Okay. So, and as you say, sort of a general
17 range of forensic analytic tasks that would be
18 assigned to a criminalist, generally?

19 A. Correct.

20 Q. Wisconsin specializes a little bit more than
21 that, correct?

22 A. That's true.

23 Q. But you became what is called a principal
24 criminalist for the State of Idaho?

25 A. Yes, I did.

1 Q. Meaning you had obtained some experience across a
2 range of forensic topics.

3 A. Yes.

4 Q. And got a promotion, in effect?

5 A. That's correct.

6 Q. When you joined the Wisconsin State Crime
7 Laboratory, drug identification was your first
8 area of work?

9 A. Yes, that's true.

10 Q. Drug identification, we don't need to do a lot on
11 this, but what -- what that means is that in
12 cases where someone is charged with possessing or
13 distributing illegal drugs, what we call
14 controlled substances, you would be the one who
15 would analyze an unknown white powder, let's say,
16 and give an opinion on whether that contained,
17 for example, cocaine?

18 A. That's correct.

19 Q. Or whether a leafy green material contained
20 marijuana or the active chemical in marijuana?

21 A. Also correct.

22 Q. And after a stint doing that sort of drug
23 identification work, you moved in to what are
24 called questioned documents in your line of work?

25 A. That's correct.

1 Q. A questioned document would be what we might
2 think of sort of in every day life as handwriting
3 analysis?

4 A. That's right.

5 Q. So in a case where someone was alleged to have
6 forged a check, let's say, you might compare the
7 handwriting on the allegedly forged check to some
8 known handwriting of the checking account holder?

9 A. Or a suspect in the case, yes, that's correct.

10 Q. And or a suspect in the case, correct. And
11 render an opinion on whether the handwriting
12 looked to be more like the suspects or more like
13 the innocent account holder, for example?

14 A. Correct.

15 Q. That's been -- That sort of examination of
16 questioned documents has been the largest or
17 longest area of your work for the Wisconsin State
18 Crime Laboratory?

19 A. On a full-time basis, yes, that's true.

20 Q. Something like oh, gosh, what are you going on,
21 13 years now of that?

22 A. Just under 12, I believe.

23 Q. Okay. 1994, thereabouts?

24 A. '94 is when I started my two year training. It's
25 basically an apprenticeship program. So, it was

1 two years of that before I could actually examine
2 the actual cases and questioned documents. So I
3 have been working cases independently since '96,
4 under 12 years.

5 Q. And then somewhere along the line you picked up
6 some training and experience in blood spatter?

7 A. Yes, I did.

8 Q. Or blood patterns, bloodstain patterns?

9 A. Correct.

10 Q. Now, here in this case, you weren't called on to
11 look at questioned documents, I assume, right?

12 A. No, that's correct.

13 Q. You weren't called on to look at drug
14 identification?

15 A. That's correct.

16 Q. But your bloodstain experience and knowledge was
17 called upon?

18 A. Yes, it was.

19 Q. Now, in approaching potential bloodstain and
20 bloodstain pattern evidence, this is closeup,
21 eyeball sort of examination, as a starting point?

22 A. Yes, it does take some close examination.

23 Q. You don't do this, in other words, typically from
24 photographs, if you have access to the actual
25 object to be examined?

1 A. Look -- We look at photographs only when we do
2 not have the item to actually examine.

3 Q. Right. And this will require, as I say, sort of
4 close work, at least at times, getting up
5 literally close to a stain or suspected stain?

6 A. Yes.

7 Q. Now, in doing that, you have a concern, not
8 specific to any case, but in general, good
9 practice would suggest a concern that you not
10 contaminate the bloodstain, or suspected
11 bloodstain, you may be examining?

12 A. Yes, that's true.

13 Q. Further, on any given object, blood staining the
14 object may be only one of the possible trace
15 types of evidence available on the object,
16 correct?

17 A. Sure.

18 Q. All right. There may be fingerprints, on some
19 objects, true?

20 A. Yes, that's true.

21 Q. Or may be DNA?

22 A. Also true.

23 Q. Any number of possible things that could be on
24 the object as well as the stains that are of
25 interest to you?

1 A. Yes.

2 Q. So you take precautions to try to reduce the risk
3 that you would accidentally, unintentionally,
4 contaminate the surface or the object, the area
5 you are examining?

6 A. Our goal is not to contaminate the scene, no.

7 Q. Among the precautions you take are wearing the
8 latex gloves you described?

9 A. Correct.

10 Q. And this sort of thing over here?

11 A. Yes.

12 Q. Surgical type gloves. You also wear a lab coat
13 or smock?

14 A. Correct.

15 Q. Do you wear a face mask?

16 A. Not always, no.

17 Q. All right. Booties?

18 A. When in a scene, yes.

19 Q. When at an actual suspected crime scene?

20 A. Correct.

21 Q. Okay. And these things, then, tend to keep you
22 from inadvertently transferring anything from
23 your body, so to speak, to the scene or the
24 surface you are examining up close?

25 A. That, as well as transferring something from the

1 scene onto our bodies, correct.

2 Q. That's exactly where I was going, actually.

3 A. Correct.

4 Q. And I'm glad you brought that up, because the
5 second purpose, then, is that you don't want to
6 be contaminated either.

7 A. Correct.

8 Q. Correct? And it would not be uncommon, at a
9 crime scene, for you to be walking into an area
10 where there may be unknown hazards?

11 A. Correct.

12 Q. I'm not talking about hazards from an armed
13 person, presumably law enforcement officers sweep
14 and secure a crime scene before you would arrive?

15 A. Yes, they do.

16 Q. But there maybe what you could call biohazards?

17 A. Correct.

18 Q. Viruses, conceivably?

19 A. Yes.

20 Q. I mean, you, in particular, are working in close
21 proximity to blood?

22 A. Correct.

23 Q. Blood from unknown sources?

24 A. Correct.

25 Q. So things like Hepatitis C, or HIV, you know, any

1 number of possible biohazards are something you
2 have to be aware of?

3 A. Yes.

4 Q. There may be other dangerous chemicals or what
5 have you at a given scene?

6 A. That's possible.

7 Q. And one of the things that is true about your
8 work is, you are coming in dealing with a range
9 of possible unknowns and trying to make some of
10 them known?

11 A. Yes.

12 Q. You are trying to recover evidence and assign
13 some meaning to it, if you can?

14 A. Yes.

15 Q. So the protective clothing and gear you wear is
16 designed both to reduce the likelihood that you
17 would contaminate the scene and to reduce the
18 likelihood that you would be contaminated by the
19 scene?

20 A. That's correct.

21 Q. Now, blood in specific, sometimes is present in
22 very minute quantities?

23 A. Yes, it is.

24 Q. For example, you described yesterday, and I
25 don't -- I don't have these available to show you

1 on the screen, unless I really need to bother
2 Mr. Kratz, I won't, but you showed us what you
3 described as some impact staining on the rear
4 cargo door of the Toyota RAV4 here?

5 A. Correct.

6 Q. Some of those spots, of course, were visible to
7 the eye, particularly when we zoom in on the
8 photograph, correct?

9 A. Yes.

10 Q. But -- but even those, many of them are just very
11 small, sort of pinpoint specks of blood, correct?

12 A. Many of them were, yes.

13 Q. And when you have blood being flung, or cast off,
14 so that it has an impact with a surface, these
15 can be very small droplets, some of them?

16 A. Yes, they may.

17 Q. Some are larger?

18 A. Absolutely.

19 Q. But in looking at a surface like the cargo door,
20 you are aware of the quite real possibility that
21 there actually are small specks of blood, too
22 small for you to see?

23 A. The stains that are not visible to the eye would
24 not necessarily have any significance to the
25 pattern.

1 Q. But they may be there?

2 A. There may be.

3 Q. Particularly, let's again talk about these sort
4 of impact stains. Your experience, or from your
5 experience, you know that if, for example, a
6 bloody head, somebody with blood in their hair,
7 if the hair is being flung and droplets are being
8 cast off, you may get a range of size of those
9 droplets?

10 A. Yes.

11 Q. Right down to droplets so small that you wouldn't
12 see them unaided with the human eye?

13 A. We would look at any stains with magnification,
14 if necessary. But I don't know of any, I have no
15 experience with the stains that are not visible,
16 unless they are -- they have been -- there have
17 been removed, either through washing, or wiping,
18 and then those would be considered latent stains
19 and those stains, then we can visualize through
20 the use of other chemicals.

21 Q. Well, let's, before we get to other chemicals,
22 and I will, let's go back, remember the CD case?

23 A. Yes.

24 Q. I don't have an exhibit number on the CD case.

25 ATTORNEY STRANG: Is that something you

1 have here, Mr. Kratz?

2 ATTORNEY KRATZ: Yes, 92.

3 ATTORNEY STRANG: Terrific. Is that
4 something you could pop up there?

5 Q. (By Attorney Strang)~ Let's go back to Exhibit
6 292, with Mr. Kratz's help. What you told us
7 about yesterday is that we could see part of the
8 stain there?

9 A. Correct.

10 Q. You still have your laser pointer?

11 A. No, I do not.

12 Q. I don't know that you will need it. But you told
13 the ladies and gentlemen in the jury box to your
14 left, yesterday, that something like 50 percent
15 of the surface area of that CD case was covered
16 in blood?

17 A. My recollection is that a large portion of this
18 CD case had a light coat of what appeared to be
19 red brown stains.

20 Q. All right. Now, if we don't see those, we don't
21 see 50 percent of that CD case covered in a light
22 coat of red brown stains, that's because the
23 stains are very small?

24 A. No, in fact, in this particular case, it was more
25 of a wipe pattern or a smearing of that -- of

1 blood on that -- the rest of that CD case. That
2 is not observable on this photo. So, in other
3 words, it's a very light coat of what appeared to
4 be a red brown stain.

5 Q. And if that were not observable to the naked eye,
6 but you suspected it, or wondered about it for
7 some reason, you have at least one chemical that
8 will assist you in seeing something you otherwise
9 might not see, true?

10 A. Correct.

11 Q. Luminol would be the typical chemical?

12 A. Yes.

13 Q. That's just something you spray on and then
14 observe under ultraviolet light?

15 A. No, it's a chemu -- chemalum -- chemiluminescence
16 that gives a light, faint, yellowish-green glow
17 in complete darkness, so you don't need
18 additional mechanical help.

19 Q. Okay. But you do need darkness?

20 A. That's correct.

21 Q. And then you will see this glowing where the
22 naked eye may not pick up blood?

23 A. Correct.

24 Q. Luminol, of course, is not specific for blood?

25 A. No, it is not.

1 Q. Bird droppings and a number of other things will
2 luminesce with luminol, correct?

3 A. Yes, there are other things that will give it a
4 false positive, yes.

5 Q. But what it does is, it signals you to look
6 harder, or do a little bit more examination of
7 the surface?

8 A. Typically we use luminol only as a last resort
9 when we feel that there was some attempt to clean
10 up some blood. So, in a particular examination,
11 when we're initially looking for bloodstains, we
12 won't use luminol as long as we can visibly see
13 them.

14 Q. You did not use luminol in examining the Toyota?

15 A. That's correct.

16 Q. At any time?

17 A. Not that I know of, no.

18 Q. That you know, or on any part of the Toyota?

19 A. Correct.

20 Q. That is, you saw no indication that anybody had
21 tried to clean up, or wipe away, bloodstains?

22 A. Well, there was enough visible blood that
23 wouldn't require that we use the luminol in
24 this -- for the examination of this vehicle.

25 Q. You also saw no evidence that anyone tried to

1 clean up or wipe away bloodstains?

2 A. I can't say that that's necessarily true. The
3 amount of blood that was on the molding, or the
4 side of that back storage area would indicate
5 that there should have been additional stains on
6 the carpeting that I did not see.

7 Q. And are you here telling us that someone cleaned
8 up the carpet in the rear cargo area?

9 A. There's a possibility of that, but I have no --
10 there's nothing that indicates that occurred.

11 Q. Nothing at all that indicates that occurred, is
12 there?

13 A. Only the fact that there -- the lack of a lot of
14 staining on the carpeting area would indicate
15 there is a possibility that there may have been
16 some attempts to clean up the blood.

17 Q. All right. And do you think it would have been
18 easier to clean up carpeting in the rear cargo
19 area, so that no blood was visible, than it would
20 have been to wipe plainly visible blood off the
21 plastic wheel well?

22 A. That would make sense, yes.

23 Q. Easier to clean the carpet?

24 A. No, I would say that if you are making attempts
25 to clean all the blood in a particular scene, or

1 a vehicle, you would -- you would try to clean up
2 all the blood and not just those areas that are
3 on carpeting.

4 Q. You mean, the plastic -- That was sort of a
5 plastic composite, the wheel well cover on the
6 inside of the cargo area --

7 A. Correct.

8 Q. -- correct? That presumably could have been
9 wiped off, with a rag, a towel, a paper towel,
10 something?

11 A. Right, it could have.

12 Q. The carpet would have taken something that would
13 get into an absorptive surface, like carpet?

14 A. I don't understand your question.

15 Q. Some sort of cleaning solvent or something to get
16 in -- I mean the carpet was an absorptive
17 surface.

18 A. Yes, it was.

19 Q. All right. And, in any event, you have no idea
20 at all whether anyone tried to clean blood off
21 the carpet in the cargo area or not?

22 A. No, I do not.

23 Q. No idea whether anyone tried to clean blood from
24 any other surface in the car?

25 A. No obvious evidence of that.

1 Q. What you do know is that the total blood you saw
2 inside the car, forward of the rear cargo area --
3 okay, so I'm talking about the passenger
4 compartment of the car, if you will?

5 A. Okay.

6 Q. The total blood you saw there was, you know, if
7 we could somehow put it in a little jar, was a
8 tiny quantity of blood?

9 A. If you try to quantitate the amount of -- the
10 number of stains you could get from a small
11 amount of blood, it can be a large number of
12 actual stains.

13 Q. From a very small amount of blood?

14 A. That's correct.

15 Q. And you have no way to give us an accurate
16 quantity of the blood that made the stains you
17 observed in the passenger compartment of the car?

18 A. About the only thing I can tell you is that a
19 natural stain would -- or a drop of blood
20 contains about a .05 milliliters.

21 Q. And do you think .05 milliliters could have made
22 every stain you observed in the passenger
23 compartment of that car?

24 A. No.

25 Q. Twice that?

1 A. It would have been much more than that.

2 Q. And what do you mean by much more?

3 A. It probably would have been -- If you want me to
4 quantitate the amount of blood that was required
5 to use those -- or produce those stains, I would
6 have to guess between one and two milliliters.

7 Q. One and two milliliters?

8 A. Correct.

9 Q. Okay. That's a guess?

10 A. That's a guess.

11 Q. But based on your experience?

12 A. Yes.

13 Q. And your training?

14 A. Right.

15 Q. You -- You did, at various places in the
16 passenger compartment --

17 ATTORNEY STRANG: We can take that down
18 now. We can probably take that photo, Exhibit 292
19 down now, if you want.

20 Q. (By Attorney Strang)~ Just to be clear here,
21 Mr. Buting reminds me, when you say one to
22 two milliliters of blood, you are not including
23 the blood staining in the cargo area?

24 A. That's correct.

25 Q. So just the passenger seats forward to the

1 ignition area?

2 A. That's correct.

3 Q. All right. Now, you did do some phenolphthalein
4 testing?

5 A. I did not, no.

6 Q. Did you see that done by someone?

7 A. Yes.

8 Q. All right. Done in your presence?

9 A. Correct.

10 Q. And what does phenolphthalein testing involve,
11 physically, what is one doing when testing with
12 phenolphthalein?

13 A. Physically, you use a -- typically a cotton tip
14 applicator and collect a small portion of what
15 you think is a probable blood stain. You then
16 add a drop of phenolphthalein and a drop of
17 hydrogen peroxide within the oxidation process,
18 or reduction process, and with that, then, the
19 combination of those chemicals you see a color
20 change, a pinkish purple color.

21 Q. Right, on the head of the swab?

22 A. Correct, for positives -- probable positives.

23 Q. And you are adding the phenolphthalein and the
24 peroxide with an eye dropper or something like
25 that?

1 A. Correct.

2 Q. So this process, again, requires actually getting
3 up to the stain and swabbing part of it with a
4 swab?

5 A. Yes.

6 Q. Did you physically have to get into the car here
7 to examine the bloodstains you have described;
8 and let's start, again, with the passenger
9 compartment, forward of the rear cargo area?

10 A. I did not have to crawl into the vehicle; I had
11 to lean into the vehicle in order to see some of
12 the stains, yes.

13 Q. All right. For example, which stains did you
14 have to lean in to see?

15 A. The stains on the front of the passenger
16 driver -- excuse me -- the driver's front seat
17 and the passenger's front seat and also to get a
18 good look at the stain just underneath the
19 ignition, I had to lean in and look around the
20 steering wheel in order to see it.

21 Q. In leaning in, you took care to prop yourself at
22 places where you did not see any bloodstain?

23 A. That's correct.

24 Q. And, of course, you had the latex gloves on?

25 A. And coveralls, yes.

1 Q. Now, eventually, you discovered that either one
2 or both battery cables were disconnected?

3 A. Correct.

4 Q. Under the hood?

5 A. That's true.

6 Q. You were the one who opened the hood?

7 A. Yes.

8 Q. Which required releasing a lever inside, near the
9 driver's left leg?

10 A. Yes.

11 Q. And then popping the hood latch when that
12 appeared through the grill, at the front of the
13 car?

14 A. Correct.

15 Q. Lifted the hood, propped it up with the metal
16 rod, and looked at the battery posts?

17 A. Correct.

18 Q. One or both of those was disconnected?

19 A. If I recall, they both were disconnected, but I
20 know for sure one was.

21 Q. And the one that we saw in the photo yesterday, I
22 saw some reddish or reddish brown discoloration
23 on or near the battery post?

24 A. Correct.

25 Q. Was that something you tested?

1 A. No.

2 Q. That, you decided, was not suspected blood?

3 A. Well, I believe there was actually a

4 phenolphthalein test done on that, but there was

5 no -- it was not positive.

6 Q. Okay. So whatever that was, wasn't blood.

7 A. Correct.

8 Q. Now, you were still wearing the same latex gloves

9 when you opened the hood?

10 A. The same latex gloves that I put on prior to

11 opening the hood?

12 Q. Yes.

13 A. Yes.

14 Q. Okay. One of the things -- You know, in going

15 back now, when you are doing your visual

16 examination of the car, okay; one of the things

17 you were aware of was the possibility of latent

18 fingerprints?

19 A. Correct.

20 Q. A latent fingerprint is a fingerprint that is

21 left on a surface?

22 A. It's a fingerprint that is not visible to the

23 naked eye until after it's been actually raised

24 through some type of a process.

25 Q. And you were aware that this car was processed

1 for fingerprints?

2 A. It was in the process of being examined for
3 fingerprints, as I was looking at it, yes.

4 Q. And this was Mr. Riddle?

5 A. Correct.

6 Q. Mike Riddle --

7 A. From our lab.

8 Q. -- from your lab?

9 A. Yes.

10 Q. So he and you are working on the Toyota
11 simultaneously?

12 A. That's my recollection, yes.

13 Q. And what he does is examine the car and treat it
14 with some substance to try to make, as you say,
15 these latent or invisible fingerprints appear to
16 the naked eye?

17 A. There's a number of processes that the
18 identification uses to do that, yes.

19 Q. And you may have had some experience with that as
20 a criminalist in Idaho, but that's not your field
21 today?

22 A. That's correct.

23 Q. Did you -- Were you able to see, though, as you
24 did your walk around of the car, or spent your
25 time around that car, whether Mr. Riddle raised

1 latent fingerprints on the top of the spare tire
2 wheel cover, outside the rear cargo door?

3 A. I don't recall.

4 Q. One way or the other?

5 A. No.

6 Q. You do remember him, in circling the car and
7 processing it for latent prints?

8 A. I know that he was present while I was working on
9 the vehicle.

10 Q. One of the things that -- One of the limitations
11 on what you do is, in assessing a bloodstain, if
12 the blood is dry, at least, you ordinarily cannot
13 give an opinion on when the bloodstain was left?

14 A. Not absolutely, no.

15 Q. Can't give an age of the bloodstain?

16 A. I can give a feeling, as far as the age of the
17 bloodstains, because the bloodstains change in
18 color after a period of time.

19 Q. But that's, as you say, a feeling?

20 A. Well, there's some basis for it, as far as -- I
21 don't have any examples of it, but the longer a
22 stain is exposed to the atmosphere, the darker
23 that stain becomes. So, if you have a bright red
24 stain you are examining, you can have a good
25 assurance that that stain is rather fresh.

1 Q. At some point, the darkening stops?

2 A. At some point, yes, it does.

3 Q. And beyond that point?

4 A. Then you have no feel for the time.

5 Q. Right.

6 A. Correct.

7 Q. And when -- when, approximately, does the

8 darkening of a bloodstain stop?

9 A. I don't know the exact absolutes on that.

10 Q. Are we talking days?

11 A. Probably more like weeks -- weeks. It has a lot

12 to do with the environmental conditions as well.

13 Q. You, here, made no effort to determine the age of

14 any stain that you saw in the Toyota?

15 A. There was no requirement for that.

16 Q. You made no effort to determine the age of the

17 stain you saw in the Pontiac Grand Am, for that

18 matter?

19 A. No, there was no requirement. These stains were

20 rather fresh looking.

21 Q. You say rather fresh looking, they were dry?

22 A. Correct.

23 Q. They were reddish brown?

24 A. Reddish, yes. And we use reddish brown as a

25 general term. They were probably more red than

1 brown.

2 Q. None of them bright red?

3 A. That's correct.

4 Q. The other -- I guess another thing that you can't
5 say in examining a bloodstain is, when it's a
6 contact or transfer stain, you are not able to
7 say what surface with blood touched the clean
8 surface without blood, with any reliability?

9 A. Without any reliability. There's rare occasions
10 that you may be able to determine that, a fabric
11 impression would leave an impression that appears
12 to have the -- the weave of the fabric that
13 touched that surface. But, otherwise, you might
14 be able to get the transfer, or the -- of a -- or
15 the outline of a weapon, like on a -- if somebody
16 is wiping the blood off of a knife blade, you
17 might be able to see the outline of that knife
18 blade. But it is only consistent with that
19 object coming in contact, because you can't
20 necessarily identify it completely.

21 Q. Right. And let's use an even better example.
22 When you get it, every once in awhile, at a crime
23 scene, you will actually get a fingerprint or a
24 thumbprint that's left in blood?

25 A. You will have some ridge detail in blood, yes.

1 Q. All right. So, in that circumstance, you either
2 can tell that it was the bleeding finger, or at
3 least that somebody put a finger in fresh, wet
4 blood?

5 A. It would be the surface of a -- the ridge -- the
6 area that contains ridge detail has contacted the
7 surface, yes.

8 Q. So, again, either that finger, thumb, whatever,
9 is bleeding, or it's not, but it contacts the
10 fresh blood?

11 A. I guess I don't understand your question.

12 Q. If there's a bloody fingerprint, okay?

13 A. Mm-hmm.

14 Q. Either the finger that left it is itself
15 bleeding --

16 A. Oh.

17 Q. -- right? Or the finger is not, but the finger
18 is put into wet, fresh blood?

19 A. It would be the blood transferred from that
20 particular finger. So that finger either is
21 bleeding, in your case, or it has contacted blood
22 and then transferred it onto another surface.

23 Q. You didn't see any bloody fingerprints here?

24 A. I don't recall seeing any, no.

25 Q. No. And if what you see is a -- what you called

1 a passive drop, passive stain, that could be a
2 drop of blood from some part of a person's body
3 that's bleeding?

4 A. Correct.

5 Q. It could be a drop of blood from sort of eye
6 dropper that's used for phenolphthalein?

7 A. It could be, yes.

8 Q. It could be a drop of blood from a pipette?

9 A. Well, yes, it could be.

10 Q. Could be a drop of blood from anything that's
11 capable of producing a drop that gravity will
12 call -- cause to fall to the surface?

13 A. Yes.

14 Q. Likewise, when you see a swipe, that could be
15 from a bloody elbow, a bloody finger, correct?

16 A. It's a bloody object, anyway, that has blood on
17 its surface and is moving across an unstained
18 surface.

19 Q. So, again, whether that's part of a person's
20 body, or a Q-tip, or a stick of wood, or anything
21 else that's a bloody surface and moves across the
22 clean surface, you can't say?

23 A. Well, if it was the difference -- if you are
24 trying to distinguish between a Q-tip and a -- an
25 elbow, let's say, there's a -- you are looking at

1 a much difference in surface area that would have
2 caused such a stain.

3 Q. Sure. But, by the same token, if it's the tip of
4 a pinkey and it's about the same as the tip of a
5 swab, you wouldn't necessarily be able to tell
6 the difference between what left the contact or
7 the swipe?

8 A. Not necessarily.

9 Q. Now, if a person were actively bleeding, the term
10 you used yesterday, a person were actively
11 bleeding, from a hand, okay, and had contact with
12 this car in various places; ignition, door
13 threshold, whatever, you might well see
14 fingerprints, wouldn't you?

15 A. No, not necessarily.

16 Q. Not necessarily, but you might expect to see
17 fingerprints?

18 A. I wouldn't -- I have no expectation to see
19 fingerprints from somebody that is just actively
20 bleeding. In fact --

21 Q. Including if there's --

22 A. I don't know that I have ever seen -- been to a
23 scene where there's been active bleeding or
24 passive drops in the same scene, seeing bloody
25 foot -- bloody fingerprints.

1 Q. All right. But you described more than passive
2 bleeding, haven't you, in that passenger
3 compartment of this car?

4 A. Oh, there's contact stains and passive bleeding
5 as well, yes.

6 Q. Right. The contact stain, which is what you
7 called it, over the ignition area, for example?

8 A. Below the ignition, yes.

9 Q. That was not what you called passive bleeding?

10 A. No. No.

11 Q. That was actual contact?

12 A. Correct.

13 Q. And if someone was actively bleeding enough so
14 that the surface of his skin rubbed against the
15 surface of the car and left that contact stain,
16 then you might be at risk of leaving a
17 fingerprint in the car as well?

18 A. I would not have any expectations of a
19 fingerprint left there, depending on the
20 orientation of the cut. If the cut is on the
21 backside of a hand, or on the elbow, I wouldn't
22 expect that that person that is, then, actively
23 bleeding, leaving bloody fingerprints.

24 Q. Sure, understood. But, when you see -- If you
25 assume that a contact stain is left by someone

1 who is actively bleeding, one of the things you
2 can say, is that the person may not have had a
3 glove on, or something covering the active source
4 of bleeding, correct?

5 A. That's probably true.

6 Q. All right. So there may not have been a bandaid?

7 A. Correct.

8 Q. Or a bandage?

9 A. Correct.

10 Q. There may not have been a glove?

11 A. Probably not.

12 Q. All right. There also could have been a glove,
13 correct?

14 A. If he is bleeding profusely, there is a
15 possibility that the glove has a hole in it or a
16 cut in it and they are bleeding through the
17 glove.

18 Q. Or just soaks through the glove?

19 A. Sure.

20 Q. But now we're talking about probably profuse
21 bleeding, as you say?

22 A. More than likely.

23 Q. Now, tell us what blood you found on the exterior
24 door handles of the Toyota?

25 A. I did not find any blood on the exterior door

1 handles.

2 Q. Tell us about the blood you found on the interior
3 door handles?

4 A. I did not find any blood on the interior door
5 handles.

6 Q. How about the blood you found on the steering
7 wheel?

8 A. I did not observe any blood on the steering
9 wheel.

10 Q. Did you look?

11 A. Yes.

12 Q. No blood at all on that steering wheel?

13 A. I didn't see any visible blood on there, no.

14 Q. See any blood on the gear shift lever?

15 A. I don't recall that I did, no.

16 Q. This was an automatic transmission Toyota, as you
17 remember?

18 A. Right.

19 Q. So there's a lever somewhere in the center
20 console?

21 A. Yes.

22 Q. With something that one has to squeeze to take
23 the vehicle out of park?

24 A. Correct.

25 Q. You examined that closely?

1 A. Yes.

2 Q. Saw no sign of blood?

3 A. Not that I recall, nothing observable or visible.

4 Q. When you're examining a pattern of blood

5 staining, this is -- this is something that

6 requires some judgment; is that fair?

7 A. Yes.

8 Q. Because it's a matter of interpretation?

9 A. Correct.

10 Q. I mean, you are typically not fortunate enough to

11 have a videotape of what actually happened to

12 leave bloodstain patterns at a scene?

13 A. Not at a scene, no.

14 Q. So one is sort of reconstructing, based on

15 judgment?

16 A. Based on training and experience, yes.

17 Q. Right, training, experience, judgment?

18 A. Right.

19 Q. And trying, then, to interpret what you are

20 seeing or may be seeing?

21 A. That's true.

22 Q. There is a subjective quality to this in the end?

23 A. The subjectivity of the examination of

24 bloodstains is only from -- from -- based on --

25 based upon your experience and training.

1 Q. One has to start with examining bloodstains
2 somewhere; you described a 40 hour course
3 required?

4 A. Right.

5 Q. So, if for example, I were to enroll in a 40 hour
6 course in bloodstain analysis, that might be one
7 full week out of my life?

8 A. Yes.

9 Q. Eight hours of classroom time for five days?

10 A. Correct.

11 Q. And after that I, conceivably, could be
12 accredited as a bloodstain examiner?

13 A. Yes, that's true.

14 Q. But you wouldn't -- As someone in a supervisory
15 position at the State Crime Lab, wouldn't
16 necessarily send me out to a crime scene, alone,
17 to do bloodstain analysis the following Monday,
18 would you?

19 A. That's correct.

20 Q. You would want me to get some on-the-job
21 experience?

22 A. Yes.

23 Q. Tagging along behind more experienced bloodstain
24 pattern analysts?

25 A. Yes.

1 Q. And that would go on for some period of time
2 before I was flying solo?

3 A. Correct.

4 Q. And if -- if after a year, if I was an apt pupil,
5 I was able to be out on my own, examining
6 bloodstain patterns, would that seem about a
7 reasonable sort of progression in, let's say, the
8 Wisconsin State Crime Laboratory?

9 A. I suppose that's an adequate amount of time.

10 Q. Okay. But then if we checked in with me five
11 years later, and I had been doing bloodstain
12 pattern analysis all five years, you would expect
13 me to have more experience at the end of five
14 years?

15 A. True.

16 Q. And perhaps, then, better interpretive skills?

17 A. True.

18 Q. More experience with seeing a wider variety of
19 staining?

20 A. Yes.

21 Q. So, you know, we could go on, but it's --
22 experience plays a large part in the judgments or
23 interpretations that you ultimately reach?

24 A. Correct.

25 Q. Now, even there, you -- you were very careful on

1 direct examination to use the term "consistent
2 with"; did I recall that correctly?

3 A. When it comes to the contact stains?

4 Q. Yes.

5 A. And also the paths of stains.

6 Q. Yes. And the patterns that you see?

7 A. That's correct.

8 Q. So, for example, although the -- one of the
9 stains in the cargo area, now, on the wheel well,
10 you describe as sort of a classic hair contact or
11 transfer stain?

12 A. Yes.

13 Q. Again, what you are telling us is, that's
14 consistent, what you saw was consistent with a
15 hair contact or transfer stain?

16 A. That's correct.

17 Q. When something is consistent with something else,
18 it's a possibility that cannot be excluded?

19 A. That's right.

20 Q. And some of these things, like for example a hair
21 transfer stain, you personally have enough
22 experience to say, I'm quite confident that this
23 was bloody hair that left that transfer stain?

24 A. Yes.

25 Q. Other transfer stains may be -- what's the word I

1 want -- more generic, if you will?

2 A. That's a good term.

3 Q. Less classic?

4 A. Right.

5 Q. And what you can say there is, well, that would
6 be consistent with, for example, a bloody finger
7 being swiped acrossed a surface just, I mean,
8 just to pick an example?

9 A. That's a possibility, yes.

10 Q. But you could not, and would not, say that it is
11 consistent only with a bloody finger being swiped
12 across --

13 A. No --

14 Q. -- a surface?

15 A. -- I would not.

16 Q. There are other explanations that also may be
17 consistent with the appearance of such a contact
18 stain?

19 A. There can be, yes.

20 Q. You, in your line of work, avoid assigning
21 probabilities to the one, or two, or three, or
22 more different consistent explanations with the
23 source of a stain?

24 A. I don't know that you can establish a
25 probability.

1 Q. So you don't try?

2 A. Correct.

3 Q. Now --

4 A. The only thing I can say, is when I use

5 consistent, it's probably more likely that that

6 stain was caused by a certain action.

7 Q. All right. But, again, you can't get into

8 specifics often, whether it's an elbow, whether

9 it's a finger, whether it's whatever?

10 A. Correct.

11 Q. Okay.

12 A. I mean you can exclude certain things. If you're

13 talking about a very small stain, you can see

14 that the pattern goes from left to right and it

15 doesn't get any larger, then you can narrow it

16 down to a smaller item rather than a larger item.

17 Q. Right. All right. And that's -- And that's --

18 Some of this gets to be fairly common sense?

19 A. Absolutely.

20 Q. If it's the sort of stain you have described,

21 this is probably not someone who's had their

22 jugular vein cut?

23 A. Correct.

24 Q. There are, though -- You can, though, sort of

25 rule out some stain patterns and say that a stain

1 pattern you see is inconsistent with something,
2 correct?

3 A. You certainly may be able to do that, yes.

4 Q. You're familiar with something called high
5 velocity spatter?

6 A. Yes, I am.

7 Q. High velocity spatter typically would be the
8 spatter you get from a bullet passing through a
9 human being, an animal, something that has blood?

10 A. High velocity impact spatter is consistent with
11 gunshot wounds.

12 Q. There are also things called low velocity
13 spatter?

14 A. Correct.

15 Q. And give us the classic example with which that
16 would be consistent.

17 A. Passive drop falling to the surface.

18 Q. Okay.

19 A. Generated only -- Only caused -- Only influenced
20 by gravity. So it would be a drop separating
21 from the end of a finger and impacting the
22 surface, that would be a low velocity stain.

23 Q. What would you -- What would you typically
24 describe a stain as if you had, let's say, a
25 knife stabbing someone in the back and being

1 taken out and struck into the back over and over
2 again?

3 A. Stabbings are -- I have seen between medium to
4 high velocity impact stains caused from a
5 stabbing and it really has a lot to do with the
6 vigorous stabbing of that victim.

7 Q. In this Toyota, and I will include the rear cargo
8 area, you saw nothing that you would describe as
9 high velocity spatter?

10 A. No, that's correct.

11 Q. Did you see any medium velocity spatter?

12 A. Yes, I would say the stains that were on the rear
13 door, cargo door, surface would be defined as
14 medium velocity spatter.

15 Q. Again, from maybe a body in motion and blood sort
16 of splaying off the body?

17 A. That's correct.

18 Q. All right. As to the stains against the
19 passenger side wheel well in the cargo
20 compartment?

21 A. Okay.

22 Q. Which included the classic hair transfer that you
23 described?

24 A. Yes.

25 Q. That's probably the stain area where you have the

1 greatest confidence about the probable source of
2 the pattern?

3 A. As far as the pattern that -- yes, that's -- I
4 would have a better, or a good feel for the
5 source of that stain, yes.

6 Q. Right. Even there, you are not able to venture
7 an opinion on whether the person who left that,
8 with the bloody hair, was alive or dead at the
9 time?

10 A. No, I could not determine whether or not that
11 person was alive or dead.

12 Q. Are you -- Are you actually part of the Field
13 Response Team, or do you just coordinate it? I
14 wasn't clear at the beginning of your testimony
15 yesterday.

16 A. No, I'm the coordinator, but I also serve as a
17 team leader as well.

18 Q. So you will go out into the field and respond if
19 asked?

20 A. Yes, that's true.

21 Q. You were not asked to respond to the Avery Auto
22 Salvage property?

23 A. No, I was not on call at that particular time.

24 Q. Never went to that property yourself?

25 A. No, I did not.

1 Q. Your first work on this case was on Monday,
2 November 7th?

3 A. Yes.

4 Q. Right in the garage at the Crime Lab in Madison?

5 A. That's correct.

6 Q. Had you come -- Had you been asked, you would
7 have come to the Avery Salvage scene?

8 A. I don't know that I would have been allowed to,
9 no.

10 Q. Because you weren't on call then?

11 A. Correct.

12 Q. All right. But as you come here now, you have no
13 way of knowing, for example, where on the Avery
14 property this Toyota supposedly first was seen?

15 A. No clue.

16 Q. No clue how far away from where the Toyota was
17 supposed to have been, any bone fragments may
18 have been found?

19 A. No, I do not.

20 Q. You do know enough to say that, once those
21 battery cables were disconnected, the key to the
22 Toyota wouldn't have done you any good in
23 starting the car?

24 A. That's true.

25 Q. Unless you reconnected the battery cables?

1 A. Correct.

2 ATTORNEY STRANG: That's all I have. Thank
3 you.

4 THE WITNESS: You're welcome.

5 THE COURT: Mr. Gahn, any redirect.

6 ATTORNEY GAHN: Just one moment, your
7 Honor. No questions, your Honor.

8 THE COURT: All right. The witness is
9 excused. And the State may call it's next witness.

10 ATTORNEY KRATZ: State would call Blaine
11 Dassey to the stand, Judge.

12 THE CLERK: Please raise your right hand.

13 **BLAINE DASSEY**, called as a witness
14 herein, having been first duly sworn, was
15 examined and testified as follows:

16 THE CLERK: Please be seated. Please state
17 your name and spell your last name for the record.

18 THE WITNESS: My name is Blaine Dassey.

19 ATTORNEY KRATZ: Blaine, you don't have to
20 be quite as close to the microphone as you are, so
21 just sit back and relax and testify from there.

22 **DIRECT EXAMINATION**

23 BY ATTORNEY KRATZ:

24 Q. How old are you Blaine?

25 A. 18.

1 Q. Do you go to school?

2 A. Yes.

3 Q. Could you tell the jury where you go to school,
4 please.

5 A. Mishicot High School.

6 Q. Have you gone to Mishicot High School your entire
7 high school career?

8 A. No.

9 Q. Last year, that is, in 2005, can you tell the
10 jury what school you went to then?

11 A. Reedsville.

12 Q. Blaine, I'm going to direct your attention to
13 October 31st, Halloween of 2005, ask if you
14 remember that day?

15 A. Yes.

16 Q. Can you tell the jury where you were living then?

17 A. Avery Road.

18 Q. Okay. You don't have to give me the exact
19 address, but who did you live there with?

20 A. My mom and my step-dad.

21 Q. Okay. Now, this Avery Road property, can you
22 kind of describe this property for us?

23 A. It's a salvage yard.

24 Q. All right. I'm going to put on the screen to
25 help you, an exhibit that's already been

1 received. It's called Exhibit No. 25. When you
2 look at that exhibit, Blaine, does that help you?
3 Do you recognize that exhibit?

4 A. Yes.

5 Q. Tell the jury what that is, please.

6 A. That's a salvage yard.

7 Q. And is that the salvage yard that you lived at on
8 October 31st of 2005?

9 A. Yes.

10 Q. All right. Now, Blaine, do you recognize, when
11 you look at that picture, and I know that it's
12 from an airplane, but do you recognize what house
13 you live in?

14 A. Yes.

15 Q. I'm going to give you something called a laser
16 pointer; have you ever held one of these before?

17 A. Yeah.

18 Q. Just push that button right there, okay.

19 A. Okay.

20 Q. Blaine, I want you to take the laser pointer and
21 I want you to circle or point on the exhibit, for
22 the jury, what your house is; if you can -- if
23 you can tell us?

24 A. Right there.

25 Q. All right. And you are pointing to a property,

1 and I think it is uncontested that that's the
2 Barb Janda trailer; is that right?

3 A. Yes.

4 Q. All right. Now, Blaine, on the 31st of October,
5 did you go to school that day?

6 A. Yes.

7 Q. And could you tell the jury how you get to, and
8 how you get home, from school?

9 A. The bus.

10 Q. What kind of bus is this?

11 A. School bus.

12 Q. And looking, again, at Exhibit No. 25, can you
13 tell me where the school bus picks you up?

14 A. At the end of the road, right there.

15 Q. You are pointing to an intersection, or the end
16 of what would be Avery Road, just up near the
17 office building and your grandparents trailer; is
18 that right?

19 A. Yes.

20 Q. In the afternoon, after school is over, how do
21 you get home?

22 A. The school bus.

23 Q. And can you tell me where the school bus drops
24 you off, please?

25 A. At the intersection, at the end of the road, by

1 my grandma's house, right there.

2 Q. Same place?

3 A. Mm-hmm.

4 Q. You have to say yes or no.

5 A. Yes.

6 Q. Now, your trailer is a little bit west, or a
7 little bit further down from that intersection;
8 do you know why the bus picks you up and drops
9 you off up near your grandma's trailer?

10 A. I'm not sure.

11 Q. They just do?

12 A. Yeah.

13 Q. Blaine, how do you get to and from the bus from
14 your house?

15 A. I walk down the road.

16 Q. Okay. Now, back in October of 2005, was there
17 somebody else in your house who also went to
18 school with you?

19 A. Yes.

20 Q. Who was that?

21 A. Brendan.

22 Q. And who's Brendan?

23 A. My brother.

24 Q. At Mishicot School, Blaine, do you know about
25 what time school lets out?

1 A. 3:05.

2 Q. And after school lets out, and I'm going to
3 specifically ask you about October 31st of 2005;
4 do you remember what time you came home that day?

5 A. 3:40.

6 Q. 3:40? That's 20 to 4 in the afternoon; is that
7 right?

8 A. Yup.

9 Q. You have to answer out loud?

10 A. Yes.

11 Q. Do you remember coming home that day, Blaine?

12 A. Yes.

13 Q. And could you tell the jury how you got home that
14 day?

15 A. The school bus.

16 Q. And did anybody come home on the school bus with
17 you?

18 A. Yes, Brendan.

19 Q. After you and Brendan got home, at about 3:40,
20 can you tell the jury what you did, please?

21 A. We walked down the road.

22 Q. And why don't you use your laser pointer again
23 and tell the jury, when you walked down the road,
24 where did you walk?

25 A. Down here, right there.

1 Q. Okay. Just so the record is clear, you are
2 pointing that you are walking in what would be a
3 westerly direction from where the bus dropped you
4 off down to your trailer; is that right, Blaine?

5 A. Yes.

6 Q. Blaine, as you were -- Let me just stop, let me
7 go back and ask a couple of follow-up questions
8 first. First of all, is there anybody else, any
9 other people that live on this property, or that
10 did, at the end of October of 2005?

11 A. No.

12 Q. There's nobody else that lived on this property?

13 A. Oh, yeah. Yeah.

14 Q. Are you a little nervous this morning?

15 A. Yeah, I am.

16 Q. That's fine. Tell me who lived on -- Who lived
17 on this property -- Who else, other than you,
18 lived on this property at that time?

19 A. On our property?

20 Q. Well, anywhere on the Avery property itself,
21 anywhere on the salvage yard?

22 A. Me, my brother, Bobby, Brian, Brendan.

23 Q. Let me just stop you right there. Bobby, and
24 Brian, and Brendan, who are they?

25 A. Those are my brothers.

1 Q. And are any of them older than you, or any of
2 them younger than you?

3 A. Yes, Bobby and Brian are older and Brendan
4 younger.

5 Q. Okay. And at that time, you know the day I'm
6 talking about, don't you?

7 A. Yes.

8 Q. At that time, you said that Brendan went to
9 school?

10 A. Yes.

11 Q. Do you know what Bobby did at that time?

12 A. No.

13 Q. Do you know if he was working, or if he was going
14 to school, or something like that?

15 A. I'm not sure.

16 Q. How about your other brother, Brian; do you know
17 what he was doing at the time?

18 A. No.

19 Q. Okay. Did anybody else -- And in that trailer
20 that you pointed to, you talked about your mom,
21 what's her name?

22 A. Barb Janda.

23 Q. Barb Janda?

24 A. Tadych, now.

25 Q. I'm going to show you an exhibit. It's a

1 photograph. It's No. 354, that's in front of you
2 right now. Can you tell us what that is, please?

3 A. That's my mom.

4 Q. First of all, is that a photograph?

5 A. Yes.

6 Q. And who's it a photograph of?

7 A. Barb Janda, or Tadych.

8 Q. I'm going to let the jury look at that picture.

9 ATTORNEY BUTING: What's the exhibit
10 number?

11 ATTORNEY KRATZ: 354.

12 Q. If you want to look on the back of the exhibit,
13 you can see the number on it. Why don't you do
14 that. Do you see that that's Exhibit 354?

15 A. Yup.

16 Q. All right. And the picture on the big screen, is
17 that a picture of your mom, Barb?

18 A. Yes.

19 Q. Now, you were starting to tell us that there were
20 other people who lived at the Avery salvage
21 property at that time?

22 A. Yes.

23 Q. Who else lived there then?

24 A. My grandpa and my grandma.

25 Q. Okay. Let's talk about them. Do you know their

1 names?

2 A. Yes.

3 Q. What are their names?

4 A. Allen Avery and Delores Avery.

5 Q. The exhibit on your right is Exhibit 350, 3-5-0,

6 can you tell the jury who that is, please?

7 A. That's my grandpa, Allen Avery.

8 Q. I'm going to show the jury a larger picture of

9 that; that's your grandpa Allen; is that right?

10 A. Yes.

11 Q. And who lives with Allen?

12 A. Delores.

13 Q. And who's Delores?

14 A. That's my grandma.

15 Q. And Exhibit 351 that's next to you, do you see

16 her picture, too?

17 A. Yes.

18 Q. And I'm going to show you Exhibit 351; is that a

19 picture of your grandma?

20 A. Yes.

21 Q. Now, Blaine, before we finish the description of

22 your family, do you have any uncles?

23 A. Yes.

24 Q. And who are your uncles?

25 A. Earl Avery, Chuck Avery, and Steven Avery.

1 Q. I'm going to, first, hand you a picture that's
2 Exhibit 353. You mentioned your uncle, Earl, is
3 that a picture of your Uncle Earl?

4 A. Yes.

5 Q. And I'm showing the jury that big picture; is
6 that the picture in front of you?

7 A. Yes.

8 Q. Okay.

9 ATTORNEY STRANG: Your Honor, I have no
10 objection to the photos of the other family members,
11 but as Steven Avery is sitting right here, I don't
12 know if we need a photograph of him.

13 THE COURT: Mr. Kratz.

14 ATTORNEY KRATZ: I need a photo of him for
15 later in the trial, Judge. And so this is the best
16 witness to identify that photo.

17 THE COURT: All right. I will allow it.

18 ATTORNEY KRATZ: Thank you, Judge.

19 Q. (By Attorney Kratz)~ Who's -- Who's the next
20 picture that you have in front of you?

21 A. Chuckie.

22 Q. Chuckie, who's Chuckie?

23 A. He's my uncle.

24 Q. And that is Exhibit No. 352; is that right?

25 A. Yes.

1 Q. I'm showing the jury and is that a picture of
2 your Uncle Chuck?

3 A. Yes.

4 Q. The last picture in front of you is Exhibit No.
5 349. Tell us what that is, please.

6 A. That's Steven Avery.

7 Q. Now that the jury sees that picture; is that your
8 Uncle Steve?

9 A. Yes.

10 Q. That's also the person, as Mr. Strang pointed
11 out, that is sitting at counsel table, who is
12 sitting in the courtroom today; is that right?

13 A. Yes.

14 Q. Now, Blaine, you talked about getting home at
15 about 3:40 p.m.; do you get home at the same time
16 every day?

17 A. Yes.

18 Q. That day, that is, Halloween of 2005, did you
19 have some plans that night?

20 A. Yes.

21 Q. Could you tell the jury what your plans were that
22 night?

23 A. My plans were to go trick or treating with my
24 friend.

25 Q. And who is your friend?

1 A. Jason Crisco (phonetic).
2 (Court reporter couldn't hear.)
3 A. Jason Crisco.
4 Q. Jason. Did you go trick or treating with your
5 friend Jason that night?
6 A. Yes.
7 Q. And do you remember, after you got home sometime
8 after 3:40 p.m., do you remember what time you
9 left the house to go trick or treating?
10 A. Yes.
11 Q. What time was that?
12 A. About 5:25, 5:30.
13 Q. 5:25 p.m.?
14 A. Yes.
15 Q. How did you leave the house, or how did you leave
16 the property; do you remember?
17 A. I walked up the road.
18 Q. Did somebody pick you up?
19 A. Yes.
20 Q. Who was that?
21 A. Carmen Weinsch.
22 Q. Who is that?
23 A. She's my friend's mom.
24 Q. Okay. And did you go trick or treating that
25 night?

1 A. Yes.

2 Q. And so from 5:25 p.m. until some other time, were
3 you gone; that is, were you off the property?

4 A. Yes.

5 Q. Do you remember what time you got home that
6 night?

7 A. 11.

8 Q. I'm sorry?

9 A. 11.

10 Q. 11:00 p.m.?

11 A. Yes.

12 Q. Let me back up a little bit. And I apologize for
13 kind of jumping around. But you talked about
14 your Uncle Steve; do you know if he lives on that
15 property as well?

16 A. Yes.

17 Q. Can you tell me, on October 31st, that is, on
18 Halloween of 2005, where he lived?

19 A. He lived in that trailer house.

20 Q. How close to your house did he live?

21 A. Like, right next to us.

22 Q. All right. I will give you a picture that's
23 going to help, I think. You already looked at
24 this, it's Exhibit No. 25. Can you show us,
25 again, where you live, show us your trailer?

1 A. Right there.

2 Q. And the laser pointer is pointing at the Janda
3 trailer. And where does your Uncle Steve live?

4 A. Right there.

5 Q. Be the trailer that would be directly to the west
6 of you; is that right?

7 A. Yes.

8 Q. Now, on the 31st of October, as you were
9 approaching your house, as you got off the bus,
10 and you said you were walking down towards your
11 house; did you see anything as you were walking
12 towards your house?

13 A. Yes.

14 Q. Can you tell the jury what you saw, please.

15 A. I seen Steven Avery bringing a plastic bag to the
16 burning barrel.

17 Q. What burn barrel are you talking about?

18 A. The one, the burn barrel.

19 Q. Whose burn barrel?

20 A. Steven's.

21 Q. I'm going to show you what's been admitted in
22 evidence as Exhibit No. 114, which is a computer
23 drawing. It's a view that -- or a angle that
24 might help you. Do you think this will help you
25 explain to the jury what you saw?

1 A. Yes.

2 Q. Okay. As you are walking towards your house, use
3 the laser pointer, tell the jury what you saw,
4 please.

5 A. Okay. I seen Steven walking this way and he
6 threw the plastic bag into there, the burn
7 barrel.

8 Q. Okay. Did you see what kind of plastic bag he
9 threw into the burning barrel?

10 A. No.

11 Q. Did you see how big the bag was?

12 A. No.

13 Q. Did you see what was going on inside the burning
14 barrel; in other words, did you see that it was
15 burning in there.

16 A. Yes.

17 Q. Tell the jury what you saw about it that it was
18 burning. Describe that for them.

19 A. There was smoke and flames coming out of the
20 burning barrel.

21 Q. About what time was this that you saw that?

22 A. About 3:46, 7.

23 Q. Okay. It was right after you got off the bus; is
24 that right?

25 A. Yes.

1 Q. Now, when your Uncle Steve put a bag, or put
2 something into that burning barrel, that was
3 actively burning at the time; did you have any
4 conversation with him?

5 A. No.

6 Q. Now, I'm going to have you look at this
7 particular drawing or this particular exhibit,
8 114; did you see anything else as you were at,
9 about quarter to 4, walking towards your house?

10 A. No.

11 Q. About what time do you think that you got into
12 your house?

13 A. Roughly 3:50.

14 Q. Okay. From 3:50, until you left to go trick or
15 treating, sometime a little after 5:00, can you
16 tell the jury what you did that day?

17 A. I was on the computer.

18 Q. Did you leave your trailer at all that day?

19 A. No.

20 Q. I mean, until you went trick or treating?

21 A. No.

22 Q. Do you remember who else was home that day?

23 A. Yes.

24 Q. Who is that?

25 A. Brendan.

1 Q. Were you doing anything with Brendan that
2 afternoon?

3 A. No.

4 Q. Do you know what Brendan was doing while you were
5 home, between 10 to 4 and a little after 5:00
6 that day?

7 A. Yes, he was playing video games.

8 Q. Okay. So at least until 5:00, Brendan was still
9 at home; is that right?

10 A. Yes.

11 Q. Now, when you saw your Uncle Steve burning in his
12 burning barrel; did you see what kind of smoke
13 was coming out of there, or did you know what he
14 was burning in his burning barrel?

15 A. No.

16 Q. All right. You told this jury that you went
17 trick or treating with your friend and his mom
18 picked you up; is that right?

19 A. Yes.

20 Q. How did you get home from your mom's (sic) that
21 day?

22 A. His mom's?

23 Q. How did you get home from your friend's house
24 that day?

25 A. Oh, Carmen drove me.

1 Q. Carmen?

2 A. Yeah.

3 Q. Is that your friend's mom, still?

4 A. Yes.

5 Q. And can you remind us, again, about what time you
6 got home?

7 A. About 11.

8 Q. Okay. Now at 11:00, when you got home, Blaine;
9 do you remember walking to your house?

10 A. Yes.

11 Q. And when you walked to your house, did you see
12 anything over by your Uncle Steve's house?

13 A. Yes.

14 Q. Tell the jury what you saw at your Uncle Steve's
15 house, at about 11:00 that night?

16 A. I seen Steven Avery sitting there watching the
17 fire.

18 Q. Watching what?

19 A. Watching the fire, the bonfire.

20 Q. There was a bonfire at your Uncle Steve's?

21 A. Yes.

22 Q. Can you tell the jury where that bonfire was,
23 please.

24 A. Behind the garage.

25 Q. Why don't you look at Exhibit No. 114. Can you

1 point on Exhibit 114 where you saw that fire that
2 night?

3 A. Right there.

4 ATTORNEY KRATZ: We'll have the record
5 reflect, Judge, that the defendant -- excuse me --
6 that the witness is pointing directly to the south,
7 or just behind the garage area of the diagram in
8 Exhibit 114?

9 THE COURT: The record will so reflect.

10 Q. (By Attorney Kratz)~ Blaine, tell the jury how
11 big that fire was.

12 A. It was about 4 or 5 feet.

13 Q. What was 4 to 5 feet?

14 A. The flames.

15 Q. So 5 foot flames you could see at 11:00 at night;
16 is that right?

17 A. Yes.

18 Q. Now, how did you know that it was your Uncle
19 Steve out there; did you see him?

20 A. No.

21 Q. Okay. What did you see out there?

22 A. I just seen a person.

23 Q. Did you know who that person was?

24 A. No.

25 Q. How many people did you see back by that fire?

1 A. Just one.

2 Q. Blaine, the friend that you went with, his name
3 is what, Jason?

4 A. Yes.

5 Q. Is that right? His mom's name was Carmen?

6 A. Yes.

7 Q. Do you know where she dropped you off that night
8 to come home?

9 A. Yes.

10 Q. Where did she drop you off?

11 A. At the end of the driveway.

12 Q. Same place that the bus drops you off?

13 A. Yes.

14 Q. When you started walking, or when you walked
15 toward your house that night, at about 11:00,
16 when was the first time that you saw these
17 flames, or when you saw what you described as a
18 bonfire behind Steve's garage?

19 A. I seen the flames when I left, to go trick or
20 treating.

21 Q. Okay. That's two different times, let me just
22 stop you there. I'm talking about when you came
23 home?

24 A. Oh.

25 Q. When -- How close were you before you could see

1 the flames?

2 A. I don't know.

3 Q. Let's go back to just before you left, or as you
4 were leaving to go trick or treating, I think you
5 are now going to tell the jury that you saw
6 something else; is that what you are saying to
7 us?

8 A. No. What?

9 Q. Before you left, or as you left to go trick or
10 treating --

11 A. Yeah.

12 Q. -- did you see anything else by your uncle
13 Steve's?

14 A. No.

15 Q. All right. When was the first time that you saw
16 that fire?

17 A. When I came home.

18 Q. So you didn't see it before you left?

19 A. No.

20 Q. The first time you saw it was at about 11:00; is
21 that right?

22 A. Yes.

23 Q. I just want you to be sure about your testimony;
24 is that true?

25 A. Yes.

1 Q. Okay. Good. Now, the flames, or what was
2 creating these 5 foot high flames; could you see
3 them clearly? I mean, could you see them behind
4 the garage?

5 A. Yes.

6 Q. Could you see anything that was on the fire, or
7 that -- what was in the bonfire?

8 A. No.

9 Q. Did you go back behind your Uncle Steve's garage
10 and see what the bonfire was all about that
11 night?

12 A. No.

13 Q. Blaine, I have a couple other questions. Before
14 testifying in here, in court today, before being
15 asked to come to court, do you remember being
16 interviewed by members of police, that is a law
17 enforcement officer?

18 A. Yes.

19 Q. And when you were interviewed by the police; do
20 you remember the police asking you who you saw
21 back by the fire?

22 A. Yes.

23 Q. Do you remember what you told the police?

24 A. Yes.

25 Q. What did you tell them?

1 A. I said Steven Avery.

2 Q. Now, you know your Uncle Steven; is that right?

3 A. Yes.

4 Q. Let me ask you, Blaine, are you a little nervous
5 testifying in front of your Uncle Steven today?

6 A. Not really.

7 Q. All right. The next day -- Well, let me go back,
8 just before that night ends, when you got home at
9 about 11:00; what did you do?

10 A. I went into the house and I fell asleep.

11 Q. Okay. Do you have a bedroom inside of this
12 house?

13 A. Yes.

14 Q. And does anybody stay with you in your bedroom?

15 A. Yes.

16 Q. Who is that?

17 A. Brendan. Brendan, my brother.

18 Q. All right. About what time did you go to bed
19 that night?

20 A. At 11.

21 Q. Okay. So, right when you got home?

22 A. Yes.

23 Q. When you got home that night, at 11:00; do you
24 remember talking to anybody that night?

25 A. No.

1 Q. Do you remember seeing your brother, Brendan,
2 that night?

3 A. No.

4 Q. If Brendan would have been in your bedroom with
5 you; do you think you would have seen him?

6 A. Yes.

7 Q. And did you see him in the bedroom?

8 A. I don't remember.

9 Q. Okay. Blaine, I'm going to show you a couple
10 other pictures here.

11 THE COURT: Mr. Kratz, can you tell me
12 about how much time you have got left?

13 ATTORNEY KRATZ: Five minutes, Judge.

14 THE COURT: I think we're going to take our
15 break at this time. Members of the jury, I'm going
16 to remind you not to discuss the case at all during
17 the break. And we'll resume in about 15 minutes.

18 (Jury not present.)

19 THE COURT: All right. Counsel, let's be
20 back at 11:00.

21 ATTORNEY KRATZ: Thank you, Judge.

22 (Recess taken.)

23 THE COURT: Mr. Kratz, you may resume.

24 **DIRECT EXAMINATION CONTD**

25 BY ATTORNEY KRATZ:

1 Q. Blaine, when you got home that day, on
2 October 31st, on Halloween night, and you walked
3 with your brother to your house, was there
4 anybody else that was with you, anybody else that
5 walked with you?

6 A. No.

7 Q. I'm going to show you what's been marked for
8 identification -- excuse me -- has been received
9 as Exhibit No. 230, ask if you recognize that
10 vehicle at all?

11 A. Yes.

12 Q. What is that vehicle?

13 A. A Suzuki.

14 Q. A what?

15 A. A Suzuki.

16 Q. A Suzuki. Do you know whose vehicle that is?

17 A. My grandpa's. I think that is.

18 Q. Now, as you look at this picture, do you know
19 where this picture is taken? Do you know where
20 the Suzuki is being stored here?

21 A. In Steven's garage.

22 Q. All right. Let me ask you something, Blaine.
23 When you walked home on the 31st of October,
24 towards your house, did you see where your Uncle
25 Steve had the Suzuki parked that day?

1 ATTORNEY STRANG: Could we get a time
2 frame?

3 ATTORNEY KRATZ: I can do that, Judge.

4 THE COURT: Okay.

5 Q. (By Attorney Kratz)~ At about 3:45 p.m., did you
6 see where this Suzuki was parked that day?

7 A. Yes.

8 Q. Tell the jury where that was, please?

9 A. It was on the right side, outside of the garage.

10 Q. On the outside of the garage?

11 A. Yes.

12 Q. I'm going to show you now what's been received as
13 another exhibit, to help you. It's Exhibit No.
14 98, it's a diagram, kind of a diagram with both
15 residences. Do you see where it says Steven
16 Avery's residence?

17 A. Yes.

18 Q. And the Janda/Dassey residence; do you see that?

19 A. Yes.

20 Q. Will this diagram -- Well, first of all, do you
21 recognize these two properties?

22 A. Yes.

23 Q. And, again, show the jury where it is that you
24 lived?

25 A. Right there.

1 Q. You are pointing to the Dassey/Janda residence;
2 is that right?

3 A. Yes.

4 Q. And show the jury where Steven Avery lived at the
5 time?

6 A. Right there.

7 Q. You are pointing to a trailer which is called the
8 Steven Avery residence; is that right?

9 A. Yes.

10 Q. Now, when you walked home, or walked from the bus
11 to your house, you told the jury that you saw the
12 Suzuki parked outside; is that right?

13 A. Yes.

14 Q. Can you point to the diagram and tell the jury
15 where you saw that Suzuki parked that day?

16 A. Right there.

17 Q. And you are pointing to the outside of what would
18 be Steven Avery's garage, just to the left side,
19 as you look at the diagram; is that right?

20 A. Yes.

21 Q. Did you notice any other things, or any other
22 vehicles, out there, when you walked home that
23 day?

24 A. There was a snowmobile.

25 Q. Do you know whose snowmobile was outside?

1 A. Yes, Steven's.

2 Q. Where was the snowmobile parked, if you remember?

3 A. In back -- In the back of the -- or behind the

4 Suzuki.

5 Q. Can you show us where that would be, please.

6 A. Like, right there.

7 Q. So, near or right next to the Suzuki, on the left

8 side, or on the outside, of the garage; is that

9 right?

10 A. Yes.

11 Q. Now, I'm just asking you about your observations,

12 Blaine, I don't know -- I don't care who you

13 talked to, or what somebody might have said, but

14 just what you saw with your own eyes, okay?

15 A. Okay.

16 Q. Do you remember seeing, with your own eyes, or

17 remembering your own observations, whether or not

18 that Suzuki and that snowmobile were moved

19 somewhere else, at some point after the 31st of

20 October?

21 A. I'm not sure, no.

22 Q. Okay. You just remember the 31st, that they were

23 next to the garage; is that right?

24 A. Yes.

25 Q. Let me finally go back to one other diagram that

1 we have been looking at, Exhibit 114, kind of
2 shows us an overview. Can you, again, point to
3 the burn barrel of Steve Avery, where you saw him
4 burning?

5 A. Right there.

6 Q. Now, can you describe for the jury the smoke or
7 anything else that you saw coming out of that
8 burn barrel when you got home that day?

9 ATTORNEY STRANG: Asked and answered,
10 twice.

11 ATTORNEY KRATZ: I want him to describe, if
12 he can, I want to know if he can describe the color,
13 or if there were flames, or more descriptive of what
14 he saw, Judge. That has not been answered.

15 ATTORNEY STRANG: It's been asked and
16 answered, twice.

17 THE COURT: I know the question has been
18 answered if there was something coming out of it. I
19 don't remember if there was a request for a
20 description, so I will allow the question.

21 Q. (By Attorney Kratz)~ If you remember, Blaine, do
22 you remember anything coming out of that burn
23 barrel?

24 A. Yeah, white smoke.

25 ATTORNEY KRATZ: All right. Judge, I will

1 move the admission of Exhibits 349 through 354. And
2 I don't have any further questions of Blaine at this
3 time.

4 THE COURT: Any objection to the exhibits?

5 ATTORNEY STRANG: Ask the Court to reserve
6 on 350. No objection to the others.

7 THE COURT: All right. The Court will
8 receive the others, reserve ruling on Exhibit 350.
9 Which exhibit was 350?

10 ATTORNEY STRANG: I'm sorry, 349.

11 THE COURT: 349.

12 ATTORNEY STRANG: My mistake.

13 THE COURT: That's the photo of Steven
14 Avery.

15 ATTORNEY STRANG: Yes.

16 THE COURT: All right. The Court will
17 allow the rest of them and reserve ruling on 349.

18 **CROSS-EXAMINATION**

19 BY ATTORNEY STRANG:

20 Q. Good morning.

21 A. Good morning.

22 Q. I'm going to call you Mr. Dassey, even though you
23 -- I guess you are 18 now, you turned 18?

24 A. Yes.

25 Q. Since this is a little bit of a formal place; do

1 you mind if I address you as Mr. Dassey?

2 A. Yes.

3 Q. Yes, you do mind?

4 A. Or no.

5 Q. All right. Mr. Dassey, you have been approached
6 by the police a number of times, I think, since
7 October 31, 2005, haven't you?

8 A. Yes.

9 Q. Started probably a week later, on November 7?

10 A. Yes.

11 Q. And on November 11?

12 A. Yes.

13 Q. November 15?

14 A. Yes.

15 Q. And times after that, right?

16 A. Yes.

17 Q. Right up through today, when you talked to
18 Mr. Fassbender during the break?

19 A. Yes.

20 Q. And the police have asked you the same questions
21 over, and over, and over, about October 31,
22 haven't they?

23 A. Yes.

24 Q. You give them an answer?

25 A. Yes.

1 Q. And if they don't like the answer, they ask you
2 again?

3 A. Yes.

4 Q. Now, at the time, on Halloween, 2005, there was
5 nothing really special about that day, to you,
6 other than that it was Halloween, right?

7 A. Yes.

8 Q. I mean, you had plans to go trick or treating?

9 A. Mm-hmm.

10 Q. But no big deal about October 31, 2005, other
11 than that, right?

12 A. No.

13 Q. All right. It was another school day, was a
14 Monday?

15 A. Yes.

16 Q. Every day you get picked up by the bus at about
17 the same time in the morning, for school?

18 A. Yes.

19 Q. In fact, probably like any other kid in high
20 school, you know just how long you can stall
21 before going out the door?

22 A. Yes.

23 Q. All right. So you know that the bus comes
24 between 7:08 and 7:13 in the morning, right?

25 A. Yes.

1 Q. All right. And the school -- The bell letting
2 you out of school happens at the same time every
3 day?

4 A. Yes.

5 Q. 3:05 in the afternoon?

6 A. Yes.

7 Q. School bus is there?

8 A. Yes.

9 Q. Back -- Back in October, 2005, you had sort of a
10 nice female bus driver?

11 A. Yes.

12 Q. She was the same bus driver every day?

13 A. Yes.

14 Q. And then every day she takes the same route home,
15 dropping kids off?

16 A. Yes.

17 Q. So you know that -- you know, almost to the
18 minute, roughly, when you get off the bus every
19 day, right?

20 A. Yes.

21 Q. You get off the bus every day with Brendan,
22 assuming he's not sick or something?

23 A. Yeah.

24 Q. Now, that's why you are really pretty sure that
25 you got off this bus at about 3:40, something

1 like that?

2 A. Yes.

3 Q. On Halloween, 2005?

4 A. Yes.

5 Q. You and Brendan walked down the road together and
6 you both go into your house?

7 A. Yes.

8 Q. You remember, because you were asked just a week
9 later, that when you walked in, Bobby was home?

10 A. Yes.

11 Q. Bobby was sleeping.

12 A. Yes.

13 Q. Bobby was not out deer hunting?

14 A. Yes.

15 Q. You and Brendan woke Bobby up?

16 A. Yes.

17 Q. You remember doing that?

18 A. Yeah.

19 Q. And then you kind of hung out and you were on the
20 computer until it was time to go trick or
21 treating?

22 A. Yes.

23 Q. Brendan was there?

24 A. Yes.

25 Q. He stayed in the house playing video games?

1 A. Yes.

2 Q. The whole time you were there working on the
3 computer, he was playing video games?

4 A. Yeah.

5 Q. You guys have the computer and the video games in
6 the same room?

7 A. Yes.

8 Q. Bobby, at some point, left, or do you remember?

9 A. I'm not sure. I don't remember.

10 Q. Okay. But he wasn't out deer hunting; he was in
11 bed sleeping, when you got home?

12 A. Yes.

13 Q. Now, you, then, go off trick or treating at, you
14 said 5:25 or 5:30, you thought, something like
15 that?

16 A. Yes.

17 Q. But before then, Brendan hasn't left to go get
18 mail for anybody?

19 A. No.

20 Q. You go trick or treating, Brendan does not go
21 with you?

22 A. No.

23 Q. So -- But when you went trick or treating, 5:25,
24 5:30, whatever it was; it's getting dark?

25 A. Yes.

1 Q. Or dark already?

2 A. Yes.

3 Q. Okay. You are going into Two Rivers, I think?

4 A. Yes.

5 Q. I'm pronouncing that wrong, I know. It's more

6 like Two Rivers?

7 A. Two Rivers.

8 Q. All right. And so you are walking all the way up

9 that driveway to where Carmen is going to pick

10 you up, where the bus turns around?

11 A. Yes.

12 Q. Now, whether it was when you were walking down

13 that driveway from the bus, or when you are

14 walking back up to get in the car with Carmen and

15 go trick or treating; did you hear any woman, any

16 young woman's voice screaming for her life?

17 A. No.

18 Q. Do you hear any gunshots?

19 A. No.

20 Q. If you had heard gunshots, or someone screaming

21 for their life, that's something you would

22 remember?

23 A. Yes.

24 Q. All right. And one thing that the police asked

25 you over and over, if you did remember, is

1 whether you saw a fire that day?

2 A. Yes.

3 Q. Do you remember that?

4 A. Yes.

5 Q. They asked you that the first time they talked to
6 you on November 7, didn't they?

7 A. Yes.

8 Q. Which was the next Monday, right?

9 A. Yes.

10 Q. And you told them there was no fire, you didn't
11 see a fire, that's what you told them on
12 November 7, isn't it?

13 A. No.

14 Q. Well --

15 ATTORNEY KRATZ: I will need to be heard
16 outside the presence of the jury, Judge.

17 THE COURT: All right. Members of the
18 jury, we'll take a short break at this time.

19 (Jury not present.)

20 ATTORNEY STRANG: We also should excuse the
21 witness.

22 THE COURT: You may be seated. And the
23 witness will be excused out in the hallway.
24 Mr. Kratz.

25 ATTORNEY KRATZ: This is at least the

1 second time, and probably more than that, that a
2 witness in this case is going to be impeached with
3 somebody else's exhibit; that is, to be shown a
4 police report or an exhibit from somebody other than
5 the witness themselves, other than the declarant,
6 and that is hearsay.

7 If the attempt here is to refresh
8 recollection, then you can do that with the
9 witness' own statement. If the attempt is to
10 impeach the witness, then you can ask, did you
11 tell Investigator Fassbender, or whoever, such
12 and such. If they say no, then the procedure is
13 to call Investigator Fassbender to impeach, with
14 a prior inconsistent statement.

15 But using this procedure, to show a
16 witness a police report, a document that this
17 witness did not author and presumably has no
18 ability to determine its reliability or
19 authenticity, I think is improper. I have made
20 this objection before in this trial, Judge, and I
21 raise it again, because it appears that the same
22 procedure is being attempted at this time.

23 THE COURT: Mr. Strang.

24 ATTORNEY STRANG: Well, first of all, if I
25 understand the objection, the document I'm intending

1 to show him is an interview of Blaine Dassey. It is
2 not an interview of someone else. And I intend to
3 show it to him and ask him if that refreshes his
4 recollection.

5 If it does not refresh his recollection
6 about what he said, then I intend to ask him, and
7 I can read it verbatim, did you tell, you know,
8 two agents of the Division of Criminal
9 Investigation, on November 7, that there was not
10 any bonfire.

11 If he denies it and, you know, if at
12 first doesn't have his recollection refreshed and
13 then if he denies saying it, yes, you know,
14 eventually, I suppose, we would have to perfect
15 the impeachment by calling one of the reporting
16 agents or one of the agents present. But there
17 is nothing in the world wrong with showing this
18 to him to refresh his recollection, or ask him to
19 tell me whether the agent's got it wrong.

20 THE COURT: Mr. Kratz.

21 ATTORNEY KRATZ: I disagree, Judge. I
22 think he can be shown his statement. If there's a
23 written statement that this witness generated,
24 perfectly -- perfectly reasonable to show him his
25 own statement.

1 That happened with Ms Zipperer, show her
2 her statement, does that refresh your
3 recollection, she can say yes or no. But to show
4 a police report from a collateral source, from a
5 third party, and asking if this refreshes a
6 person's recollection, when they didn't create
7 it, is absolutely improper and is hearsay.

8 ATTORNEY STRANG: 906.12 allows the use of
9 anything that may refresh recollection. And
10 certainly a report of a law enforcement interview
11 with the very person falls well within the term of
12 anything.

13 THE COURT: Well, doesn't the first step
14 have to be to ask the witness if looking at the
15 document would refresh the witness' recollection.

16 ATTORNEY STRANG: I can do that, sure.

17 THE COURT: And what if he says no?

18 ATTORNEY STRANG: Well, then, I will --
19 then, I will ask him if he said it.

20 THE COURT: Do we know whether or not the
21 witness has ever seen this document before?

22 ATTORNEY STRANG: I have -- I have no idea.
23 Now, if Mr. Kratz is suggesting that there's a
24 handwritten statement from Blaine Dassey, then I
25 should look again.

1 ATTORNEY KRATZ: No, I said if there was,
2 he could use it as in Mrs. Zipperer's refreshing
3 recollection.

4 THE COURT: So there's not a statement of
5 this witness.

6 ATTORNEY KRATZ: That's correct. No
7 handwritten statement.

8 THE COURT: What is the State's authority
9 for the proposition that a witness' recollection can
10 only be refreshed by looking at a statement of the
11 witness, him or herself.

12 ATTORNEY STRANG: Well, 906.12 starts with,
13 if a witness uses a writing to refresh the memory
14 for the purpose of testifying, an adverse party is
15 entitled to have it produced at the hearing. That's
16 not what we're talking about here, Judge.

17 This witness hasn't said, there's some
18 writing that can refresh my recollection, there's
19 some business records, there's some document that
20 I know of that exists in the world that can
21 refresh my recollection. That's 906.12.

22 THE COURT: Maybe I'm missing something
23 here, but I'm not sure the parties disagree.
24 Mr. Strang asked the witness if looking at a police
25 report, a police interview with the witness, would

1 refresh the witness' recollection. The witness may
2 say yes or no.

3 It's possible the witness may remember
4 that somebody was taking notes and maybe looking
5 at the document would refresh the recollection,
6 in which case the document doesn't get introduced
7 as evidence, but the witness can look at it. If
8 the witness says, no, I don't think that would
9 refresh my recollection, then Mr. Strang doesn't
10 get to show it to the witness and moves on to the
11 next question.

12 ATTORNEY STRANG: Well, then we go to
13 906.13 and I ask him -- he gets an opportunity to
14 admit or deny that he made the statement, and then
15 impeachment would be perfected by calling someone
16 else who was present or heard it.

17 THE COURT: You mean you would call
18 Mr. Fassbender or someone else later?

19 ATTORNEY STRANG: It wasn't Mr. Fassbender,
20 but --

21 THE COURT: Whoever.

22 ATTORNEY STRANG: Right. Someone who was
23 present, one of the two authors of the report,
24 hopefully.

25 THE COURT: All right. Well, let's -- If

1 there is an objection to that, it's an objection for
2 a later time, I believe. All right. It seems to me
3 that Mr. Strang can ask the witness whether or not
4 reviewing the report, if he knows of its existence,
5 would refresh his recollection.

6 If it does, the witness can look at it.
7 Doesn't mean the report becomes evidence. If
8 not, then, Mr. Strang moves on to the next
9 question. Let's bring the jurors back in.

10 (Jury present.)

11 THE COURT: You may be seated. Mr. Strang,
12 you may proceed.

13 ATTORNEY STRANG: Thank you.

14 Q. (By Attorney Strang)~ Let's go back where we were
15 when we left off. Do you suppose that if you
16 looked at a police report from your November 7,
17 that first interview with some agents, that it
18 might help you remember today, what you told them
19 then?

20 A. Yes.

21 Q. I have marked this with an exhibit number for
22 you; it's Exhibit 355. It's a DCI report. The
23 only page numbers here are ones that I have
24 added, but I'm going to show you the sixth page.

25 THE COURT: Mr. Strang, I'm going to ask

1 that you show Mr. Kratz which page you are going to
2 be looking at.

3 ATTORNEY STRANG: Sure. Absolutely. All
4 the pages are unnumbered, it's the sixth page of the
5 report. And specifically, counsel, I'm going to be
6 inviting him to look at the second paragraph on page
7 six.

8 Q. (By Attorney Strang)~ So now I will show it to
9 you. You can look at anything you want in here,
10 but I thought that that second paragraph right
11 there might help refresh your recollection. Now,
12 don't read it out loud, just read it to yourself
13 and see if that helps you remember. Is that any
14 help?

15 A. Yeah.

16 Q. Okay. Now, on Monday, November 7, 2005, when the
17 officers asked you --

18 THE COURT: Just a second, Mr. Strang, can
19 you pick up the document.

20 ATTORNEY STRANG: I would be happy to,
21 sure.

22 Q. So, Monday, November 7, Monday after Halloween,
23 when the officers asked you if there was any
24 bonfires last week, you told them there was not;
25 is that right?

1 A. Yeah.

2 Q. And you said you would know if there was a
3 bonfire because you always like to have bonfires.

4 A. Yes.

5 Q. Steve would have bonfires back in that burn area,
6 occasionally?

7 A. No.

8 Q. Didn't Steve have fires in his burn area once in
9 a while?

10 A. Which burn area?

11 Q. Behind the garage that you were telling Mr. Kratz
12 about?

13 A. No.

14 Q. Never any bonfires back there? No?

15 A. No.

16 Q. Just this one time?

17 A. Yes.

18 Q. Didn't Steve invite you later that week to bring
19 some friends over for a bonfire?

20 A. Yes.

21 Q. But that never happened?

22 A. No.

23 Q. Your friends didn't want to come?

24 A. No.

25 Q. But Steve, when I say Steve, your Uncle Steve,

1 made the invitation to you to bring other kids,
2 other high school students over, right?

3 A. Yes.

4 Q. Invitation that, had it been accepted, would have
5 had a bunch of kids standing around that burn
6 area?

7 A. Yes.

8 Q. Maybe poking around in the fire?

9 A. Yes.

10 Q. Or watching it for some hours?

11 A. Yes.

12 Q. And you didn't tell the police on November 7
13 anything about any fire in this burn barrel
14 either, did you?

15 A. Yes.

16 Q. Yes, you did tell them about a fire in the burn
17 barrel?

18 A. Yes.

19 Q. Do you think that would be in the report or maybe
20 they forgot that?

21 A. I don't know.

22 Q. Okay. You do remember eventually telling the
23 police about a fire in the burn barrel, right?

24 A. Yes.

25 Q. Was that the second or third time they asked you

1 about it?

2 A. Yes.

3 Q. Not the first time they asked you?

4 A. No.

5 Q. Now, sometimes when Steve has a fire, he burns
6 wood, you know that?

7 A. Yes.

8 Q. Sometimes he burns tires?

9 A. Yes.

10 Q. And you guys all have burn barrels out by your
11 houses?

12 A. Yes.

13 Q. When you were interviewed on November 7, 2005,
14 you told the police that you actually hadn't seen
15 Steve, your Uncle Steve, at all when you walked
16 down the lane from the school bus to your house,
17 didn't you?

18 A. No.

19 Q. We'll go back to Exhibit 355 again. And now I'm
20 going to be going to page four. And I will show
21 you that again; do you think that might refresh
22 your recollection, again, about whether you were
23 asked if you saw Steve at all when you were
24 walking home from school and what you told the
25 police on November 7?

1 A. Yes.

2 Q. Now, Mr. Dassey, around page four of that same
3 exhibit, 355, look at anything you like but,
4 again, the second paragraph on the page is the
5 one that I thought might help refresh your
6 recollection. Does that help?

7 A. Yes.

8 Q. I will take it back from you, no cheat sheets.
9 Now that you have had a chance to refresh your
10 recollection about what you told the police, it's
11 true that they had asked you if anything happened
12 between 3:30 and 5 on that Halloween afternoon
13 and you said that nothing happened, right?

14 A. Yes.

15 Q. And they asked you specifically if you saw Steve
16 during that time period and you said that you did
17 not?

18 A. Yes.

19 Q. And you also were asked if Steve had asked you to
20 help move this Suzuki or the snowmobile and you
21 said, no, he hadn't asked you to help move the
22 Suzuki or the snowmobile, right?

23 A. Yes.

24 Q. And you told them that was something you would
25 remember if Steve had asked you?

1 A. Yes.

2 Q. So, same thing happened again on Friday,
3 November 11, same sort of questions from the
4 police, weren't there?

5 A. Yes.

6 Q. And, again, you told them that you did not see a
7 fire in a burn barrel, or Steve with a white
8 plastic bag; that's what you told the police that
9 Friday, November 11, right?

10 A. Yes.

11 Q. And finally, then, on the 15th of November, they
12 came back and they asked you again and that's --
13 that's when you said you saw Steve putting a
14 white plastic bag in the burn barrel; is that
15 right?

16 A. Yes.

17 Q. Now, if you saw Steve put a white plastic bag in
18 his burn barrel on Halloween, as you told the
19 police, then, on November 15, that's what 15, 16
20 days later?

21 A. Yes.

22 Q. Something -- something memorable about seeing
23 your uncle put trash out in the burn barrel?

24 A. Yeah.

25 Q. Really?

1 A. Yes.

2 Q. He doesn't put trash in the burn barrel?

3 A. Yes, he does.

4 Q. Okay. No special reason you would have been
5 paying attention to that on Halloween, is there?

6 A. No.

7 Q. No. And when you were asked by Mr. Kratz, you
8 said, yeah, I think that was at 3:46 or 3:47
9 p.m.; do you remember saying that?

10 A. Yes.

11 Q. No special reason you would have remembered today
12 whether Mr. Avery put a white bag of trash in his
13 burn barrel at 3:46 or 3:47 p.m., is there?

14 A. No.

15 Q. Now, this -- this Suzuki, you were not asked to
16 help move the Suzuki or the snowmobile around?

17 A. No.

18 Q. No. And that Suzuki actually had been outside
19 Steve's garage for a week or two before
20 Halloween, right?

21 A. Yes.

22 Q. Do you remember, Mr. Dassey, being interviewed by
23 the police, oh, I don't know, I guess the third
24 time, that November 15 interview; do you remember
25 that interview taking place in a restaurant?

1 A. Yes.

2 Q. The Cedar Ridge Restaurant?

3 A. Yes.

4 Q. Over in Maribel, near you?

5 A. Yes.

6 Q. Okay. Was your mom there for that?

7 A. Yes.

8 Q. Just you and your mom?

9 A. Yup.

10 Q. And then a couple of officers or agents?

11 A. Yes.

12 Q. And did you guys sit across the table from the

13 agents, in the restaurant?

14 A. Yes.

15 Q. Did there come a time in that discussion between

16 you and your mom and the agents, when the agents

17 sort of got in your face a little bit?

18 A. Yes.

19 Q. What were they doing to get in your face?

20 A. They were arguing.

21 Q. They were arguing?

22 A. Yes.

23 Q. They raised their voices?

24 A. Yes.

25 Q. They got angry?

1 A. Yes.

2 Q. They accused you guys of not accepting that Steve
3 was guilty, didn't they?

4 A. Yes.

5 Q. They accused you of embarrassing yourselves by
6 believing in your uncle, didn't they?

7 A. Yes.

8 Q. They tried to convince you that Steven Avery was
9 guilty, didn't they?

10 A. Yes.

11 Q. And they got loud about it, at the restaurant?

12 A. Yes.

13 Q. And then they stomped off and left you there,
14 when you wouldn't turn on your uncle, didn't
15 they?

16 A. Yes.

17 Q. And that was back in November 15 of 2005.

18 A. Yes.

19 ATTORNEY STRANG: That's all I have.

20 **REDIRECT EXAMINATION**

21 BY ATTORNEY KRATZ:

22 Q. Blaine, at that November 15 meeting, before they
23 stomped off, did they tell you to tell the truth?

24 A. Yes.

25 Q. Were they upset at you because they thought that

1 you weren't being honest with them and telling
2 the truth?

3 A. No.

4 Q. During that day, during the 15th, as Mr. Strang
5 has mentioned, do you recall telling the police
6 officers that, in fact, you did see your Uncle
7 Steven burning in his burn barrel, putting this
8 white plastic bag in there?

9 A. Yes.

10 Q. Do you recall at that same interview, telling
11 these same officers, that you saw a fire, a
12 bonfire the night of the 31st of October?

13 A. Yes.

14 Q. And is that the time that you identified that it
15 was your Uncle Steven, and Steven alone, that you
16 saw standing by the fire?

17 A. Yes.

18 Q. How old were you at the time, Blaine?

19 A. 17.

20 Q. And as a 17 year old young boy, was there a lot
21 going on in your household at the time?

22 A. Yes.

23 Q. Was there a lot of pressure being put on you by
24 family members on what to say or what not to say?

25 A. No.

1 Q. Was there any pressure, or did you have any
2 concerns about your Uncle Steven at that time?

3 A. No.

4 Q. Do you recall telling investigators that you were
5 scared of your Uncle Steven, that's the word you
6 used, scared; do you remember saying that?

7 A. Yes.

8 Q. Yes?

9 A. Yes.

10 Q. What were you scared about with your Uncle
11 Steven; why were you afraid to tell the truth
12 about your Uncle Steven?

13 ATTORNEY STRANG: Object to the State's
14 testimony, argumentative.

15 ATTORNEY KRATZ: I can rephrase, Judge.

16 Q. (By Attorney Kratz)~ What were you scared about
17 with your Uncle Steven?

18 A. Because he used to boss us around.

19 Q. Who's us?

20 A. Me and my brothers.

21 Q. Were you afraid what your Uncle Steven might do
22 to you if you told the statement or testified
23 against him?

24 A. No.

25 Q. You were just generally scared of him?

1 A. Yes.

2 Q. All right, Blaine, that's all I have for you.

3 ATTORNEY KRATZ: Thank you, Judge.

4 THE COURT: Mr. Strang.

5 **RECROSS-EXAMINATION**

6 BY ATTORNEY STRANG:

7 Q. Well, Mr. Dassey, when you -- when you finally
8 told the police on November 15 that there was
9 this bonfire going and you saw it when you came
10 home from trick or treating?

11 A. Yes.

12 Q. As Mr. Kratz said, you said you saw only one
13 person there?

14 A. Yes.

15 Q. You went in your house?

16 A. Yes.

17 Q. And you told them, too, that you remembered
18 seeing Brendan and that you talked with Brendan
19 about trick or treating, in your house, when you
20 got home, didn't you?

21 A. Yes.

22 Q. And then you went to bed?

23 A. Yes.

24 ATTORNEY STRANG: That's all I have.

25 THE COURT: All right. This witness is

1 excused.

2 ATTORNEY KRATZ: State will call Bob Fabian
3 to the stand, your Honor.

4 THE CLERK: Raise your right hand.

5 **ROBERT FABIAN**, called as a witness
6 herein, having been first duly sworn, was
7 examined and testified as follows:

8 THE CLERK: Please be seated. Please state
9 your name and spell your last name for the record.

10 THE WITNESS: Robert Fabian, F-a-b-i-a-n.

11 **DIRECT EXAMINATION**

12 BY ATTORNEY KRATZ:

13 Q. Mr. Fabian, do you know the defendant, Steven
14 Avery?

15 A. Yes, I do.

16 Q. He's the gentleman seated in the courtroom next
17 to his lawyers; is that right?

18 A. That's correct.

19 Q. On October 31st of 2005, do you remember seeing
20 Mr. Avery?

21 A. Yes, I do.

22 Q. Now, do you know any of the other members of the
23 Avery family?

24 A. Yes, I do.

25 Q. And is there one of the Avery's that you know

1 better than the others?

2 A. Probably Earl.

3 Q. Who is Earl Avery?

4 A. Would be Steven's brother.

5 Q. On October 31st of 2005, do you recall being with
6 Earl Avery that day?

7 A. Yes, I do.

8 Q. Now, are Earl and you friends?

9 A. Yes.

10 Q. On the 31st of October, that would be Halloween;
11 is that right?

12 A. That's correct.

13 Q. On that date, were you and Earl doing something
14 together?

15 A. Yes, we went rabbit hunting.

16 Q. And where did you go rabbit hunting?

17 A. In the junkyard.

18 Q. By the junkyard, are you referring to the Avery
19 Salvage Yard?

20 A. That's correct.

21 Q. And was there a mode of transportation or a way
22 that you were getting around the junkyard while
23 you and Earl were rabbit hunting?

24 A. Yes, we were using a golf cart.

25 Q. Do you know whose golf cart that was?

1 A. I believe Mrs. Avery.

2 Q. You mean Delores?

3 A. Yes, correct.

4 Q. Earl's mom?

5 A. Yes.

6 Q. When did you begin rabbit hunting that day; do
7 you remember?

8 A. I believe I got there, it was about 10 to 5
9 quarter to 5, something like that.

10 Q. All right. Do you know about what time it gets
11 dark or got dark around the 31st of October?

12 A. I do remember when I got home it was like quarter
13 to 6.

14 Q. Was it getting dark or was it dark by about
15 quarter to 6?

16 A. I believe it was, yes.

17 Q. Just before getting dark, or just before your
18 rabbit hunt was completed, did you find your way
19 up towards Steven Avery's trailer?

20 A. Yes, we did.

21 Q. I'm going to show you an exhibit which has been
22 received. It's No. 114. It's a computer
23 animation, a drawing, but will this exhibit help
24 you describe or explain the rest of your
25 testimony?

1 A. I believe so.

2 Q. Do you recognize that general area?

3 A. Yes, I do.

4 Q. What is that area, generally?

5 A. Steven Avery's residence.

6 Q. All right. Now, do you see both a burn barrel

7 there, a garage, a trailer, and a reddish maroon

8 either Voyager or Caravan?

9 A. Yes, I do.

10 Q. All right. Now, on the 31st, that is, on

11 October 31st of '05, did that area generally look

12 like that?

13 A. Somewhat, yes.

14 Q. Were there some differences on the 31st of

15 October?

16 A. Yes, I believe there was a snowmobile trailer

17 hooked up to the truck. And I don't believe the

18 garage doors were open. And I don't remember the

19 van sitting there.

20 Q. All right. Let's talk about each of those things

21 individually. First of all, let me talk about

22 the garage door itself. About what time -- If

23 you can place, as best you can recall, about what

24 time were you in that general vicinity?

25 A. I would say maybe 20 after 5.

1 Q. This is p.m.?

2 A. Correct.

3 Q. And at 5:20 p.m., did you have occasion to look
4 at Mr. Avery's garage door?

5 A. I didn't specifically look at it, but it was
6 closed, I believe, at the time.

7 Q. All right. With the garage door being closed,
8 were you able to see what was in the garage door
9 at the time?

10 A. No.

11 Q. There's some other things on this diagram,
12 specifically the burn barrel; do you remember
13 that barrel on the 31st of October?

14 A. Yes, I do.

15 Q. Tell the jury what you remember about that burn
16 barrel at about 5:20 p.m. on the 31st of October?

17 A. When me and Earl had pulled up on the golf cart,
18 we had stopped in between the house and the
19 garage. And the smoke from the burn barrel was
20 blowing right in my face. So I told Earl to move
21 ahead.

22 Q. You have got a laser pointer right in front of
23 you. I don't know if you know how to work that
24 thing. There's a button on it. If you can point
25 that at the exhibit. First of all, point out the

1 burn barrel; what are you talking about?

2 A. Right there.

3 Q. All right. You and Earl were both on the golf
4 cart?

5 A. That's correct.

6 Q. Where were you parked at first with the golf
7 cart?

8 A. When we had pulled up, we had come from this
9 direction, and we had pulled up in here,
10 somewhere up in here.

11 Q. You are pointing to an area which is still on
12 what would be the driveway area, but just south
13 of, or south-ish, of the burn barrel; is that an
14 accurate description?

15 A. That is correct.

16 ATTORNEY STRANG: From the east to the
17 west, I think the witness was showing.

18 ATTORNEY KRATZ: Yes, I'm sorry.

19 Q. (By Attorney Kratz)~ You were pointing from the
20 east to the west?

21 A. Yes.

22 Q. Towards Steven's trailer?

23 A. Correct.

24 Q. Did you actually stop in the golf cart? Did you
25 have -- Did the golf cart come to a complete

1 stop?

2 A. Yes, we had stopped. And that's when the smoke
3 was blowing in my face.

4 Q. Okay. Let's talk about the smoke and where was
5 it coming from?

6 A. It was coming from the burn barrel.

7 Q. Can you show us again where that was coming from?

8 A. Over there, it was coming from there and coming
9 this way.

10 Q. All right. Describe for the jury, as best that
11 you can remember, if you can remember, at about
12 5:20 p.m.; what was the smoke like?

13 A. It was kind of a heavier smoke. And it smelled
14 like plastic. It didn't smell like regular
15 garbage.

16 Q. Well, let's talk about that a little bit. Have
17 you smelled plastic, or plastic components being
18 burned before?

19 A. As a kid growing up in the country, yes, I burned
20 a lot of garbage.

21 Q. All right. Is it your testimony that burning
22 plastic smells different than just regular
23 burning garbage?

24 A. That's correct.

25 Q. And what did you smell that day?

1 A. It was plastic.

2 Q. Now, did you ever get out of the golf cart and
3 look in the burn barrel and see what kind of
4 plastic things were burning in there?

5 A. No, I did not.

6 Q. When you stopped the golf cart up towards
7 Steven's trailer, did you actually have occasion
8 to see Steven Avery?

9 A. Yes, we did.

10 Q. And can you describe where you saw him, or where
11 he was coming from?

12 A. The first we had seen him is, we were pulling up
13 here, on the golf cart, we were not stopped yet.
14 And he had came out of the door of the house, and
15 come down the steps, and was headed towards the
16 garage.

17 Q. All right. Did he make it all the way to the
18 garage?

19 A. No, he did not.

20 Q. What happened then?

21 A. I believe Earl asked him what he was doing, and
22 he came walking over to the golf cart.

23 Q. Did you have a conversation with him at that
24 time?

25 A. Yes.

1 Q. All right. How long were you in the golf cart?
2 How long was this smoke coming toward you at the
3 time?

4 A. The smoke was only bothering me for a few seconds
5 or so, and I had told Earl to pull ahead, made
6 him pull ahead so it wouldn't bother me. So
7 that's when he had pulled ahead.

8 Q. Mr. Fabian, could you describe, I know you said
9 it was 20 after 5, but could you describe the
10 lighting conditions; what time of day was it?
11 How close was it getting towards dusk?

12 A. It was getting towards dark, getting relatively
13 hard to kind of see already.

14 Q. All right.

15 ATTORNEY KRATZ: Good enough. That's all I
16 have for this witness, Judge. Thank you.

17 THE COURT: I think at this point we'll
18 take our lunch break and start back with
19 cross-examination after lunch. We'll resume at
20 1:00. Members of the jury, I will remind you again
21 not to discuss the case in any fashion over the
22 lunch break. You are excused at this time.

23 (Jury not present.)

24 THE COURT: You may be seated. Counsel, I
25 just want to check the agenda for this afternoon.

1 Mr. Kratz.

2 ATTORNEY KRATZ: Yes.

3 THE COURT: Who's on your witness list for
4 this afternoon?

5 ATTORNEY KRATZ: After Mr. Tadych, Judge,
6 we do have the two telephone records custodians.
7 Excuse me. We also have available two law
8 enforcement officials who searched what we now know
9 as the burn area. So we can proceed with any of
10 those. Because the records custodians are
11 relatively short. And they have come here today, I
12 would like to put in those records and their
13 testimony. And so if I had a preference in order, I
14 would call Mr. Tadych, the two records custodians,
15 and then we would move on to the burn area search.

16 THE COURT: Mr. Strang.

17 ATTORNEY STRANG: Probably we would be
18 better off discussing scheduling off the record.
19 Would that make sense?

20 THE COURT: All right. We'll go off the
21 record at this time.

22 (Noon recess taken.)

23 (Jury present.)

24 THE COURT: Mr. Strang, you may begin your
25 cross-examination of the witness.

1 CROSS-EXAMINATION

2 BY ATTORNEY STRANG:

3 Q. The following afternoon, you get to the Avery
4 Salvage property to see your friend, Earl, at
5 about 4:45, 4:50?

6 A. That's correct.

7 Q. Quarter to 5, 10 to 5, something like that?

8 A. Yeah.

9 Q. The two of you are planning in advance to do some
10 rabbit hunting?

11 A. I think I showed up unannounced.

12 Q. Showed up with a rifle though, to do some
13 hunting?

14 A. Correct.

15 Q. Earl had a rifle to do some hunting?

16 A. I believe he was working at the time when I
17 arrived.

18 Q. I'm sorry?

19 A. He was working at the time I arrived.

20 Q. Mm-hmm.

21 A. Which would have been at closing time.

22 Q. But he also participated in the rabbit hunt?

23 A. Correct.

24 Q. That required a rifle?

25 A. Yes, I believe.

1 Q. You weren't snaring rabbits?

2 A. No.

3 Q. Or trying to shoot them with a bow and arrow?

4 A. No.

5 Q. Okay. The two of you then do that, and I take it

6 you have to break off rabbit hunting before it's

7 dark out?

8 A. Correct.

9 Q. You have to be able to see the rabbit?

10 A. Correct.

11 Q. The time over at -- near Steven Avery's trailer,

12 then, is as darkness is approaching?

13 A. That's correct.

14 Q. You are nearing the end of your hunt?

15 A. That is correct.

16 Q. It has taken you about 15 minutes to drive from

17 your house to the Avery Salvage Yard?

18 A. Approximately 15.

19 Q. It will take you about 15 minutes to get back,

20 give or take?

21 A. That's correct.

22 Q. And you think you are back by quarter to 6?

23 A. That's correct.

24 Q. That is, back at your house?

25 A. At my house, yes.

1 Q. What's your -- What's your rabbit gun?

2 A. I have a .22.

3 Q. Okay. Standard sort of small game gun?

4 A. Yes.

5 Q. Did you guys get any rabbits that day?

6 A. No, we did not.

7 Q. The smoke that you smell near the burn barrel,

8 you are in the path of it for a few seconds?

9 A. That's correct.

10 Q. You get out of the path of it?

11 A. That's correct.

12 Q. You know that from living in the country

13 yourself, that burn barrels are for burning

14 garbage, typically?

15 A. Yes.

16 Q. Garbage may include plastic milk cartons?

17 A. That's correct.

18 Q. Plastic cartons from other things from the

19 grocery store?

20 A. That's correct?

21 Q. Maybe a plastic garbage bag itself?

22 A. That's correct.

23 Q. All kinds of plastic items that may be in

24 garbage, when you are burning it?

25 A. Yes.

1 Q. You didn't look in the burn barrel?
2 A. No, I did not.
3 Q. You noticed that the barrel was already burning,
4 obviously?
5 A. Yes.
6 Q. Didn't see anybody put anything in the burn
7 barrel?
8 A. No, I didn't.
9 Q. Saw at the side that there was -- Well, let me
10 ask you, you didn't smell a tire burning?
11 A. No.
12 Q. You know the smell of a burning rubber tire?
13 A. Yes.
14 Q. Didn't see heavy black smoke coming out?
15 A. No.
16 Q. All right. Didn't see a tire or a rim assembly
17 lying next to the burn barrel either?
18 A. No, not that I recall.
19 Q. You certainly saw no larger fire going in a burn
20 area?
21 A. No, I did not.
22 Q. Didn't hear any screaming?
23 A. No, I did not.
24 Q. Didn't hear any gunshots coming from that area?
25 A. No, I did not.

1 ATTORNEY STRANG: That's all I have. Thank
2 you.

3 THE COURT: Any redirect?

4 ATTORNEY KRATZ: Not of this witness,
5 Judge.

6 THE COURT: Very well. You are excused.

7 THE WITNESS: Thank you.

8 ATTORNEY KRATZ: State would call Scott
9 Tadych to the stand.

10 THE CLERK: Please raise your right hand.

11 **SCOTT TADYCH**, called as a witness
12 herein, having been first duly sworn, was
13 examined and testified as follows:

14 THE CLERK: Please be seated. Please state
15 your name and spell your last name for the record.

16 THE WITNESS: Scott Tadych, T-a-d-y-c-h.

17 **DIRECT EXAMINATION**

18 BY ATTORNEY KRATZ:

19 Q. Mr. Tadych, I'm going to ask you some questions
20 regarding October, 2005. Let me first ask if you
21 remember that particular day?

22 A. Yes.

23 Q. And can you tell the jury how is it that you
24 remember that day, how that day sticks out in
25 your mind?

1 A. Um, it was the fire that I remember the most of
2 that day.

3 Q. You said the fire that you remember most, can you
4 tell the jury what fire you are talking about?

5 A. The fire by Steven's trailer.

6 Q. Let's back up just a little bit. Sometime on the
7 31st, that afternoon of the 31st of October,
8 2005, do you remember what you were doing?

9 A. Yes.

10 Q. Could you tell the jury what you did that
11 afternoon, please.

12 A. That afternoon -- or that morning, I was up by my
13 mother, she had surgery. Then I left her and I
14 went to the woods hunting. I went to my trailer
15 and then I went to the woods hunting.

16 Q. What kind of hunting did you do that day, Mr.
17 Tadych?

18 A. Archery hunting. Bow hunting, archery.

19 Q. About what time was it that you got out into the
20 woods, or that you got to your deer hunting
21 stand?

22 A. About 3:00.

23 Q. On your way to deer hunting, that would be just
24 before 3:00 p.m., did you observe anybody on the
25 roadway?

1 A. Yes, I did.

2 Q. Could you tell the jury who you saw on the
3 roadway before 3:00 that afternoon?

4 A. I saw Bobby Dassey on Highway 147.

5 Q. Which way were you going and which way was Bobby
6 going, if you recall?

7 A. I was going west and he was going east.

8 Q. Where is it, Mr. Tadych, that you hunt, or at
9 least that day, where was it that you were going
10 hunting?

11 A. In Kewaunee.

12 Q. Now, at that time, that is on the 31st of
13 October, of 2005, did you know anybody who lived
14 on what is known as the Avery Salvage Property?

15 A. Yes, I did.

16 Q. Who did you know on that property?

17 A. Everybody that lived there.

18 Q. Okay. Is there anybody there that you knew
19 better than somebody else?

20 A. Barb Janda, I guess.

21 Q. All right. Well, who is Barb Janda now to you?

22 A. My wife.

23 Q. I suspect you weren't married to anybody else on
24 that property?

25 A. No.

1 Q. All right. I'm going to show you what's been
2 marked for and received as Exhibit No. 98. It's
3 a computer generated diagram; do you recognize
4 this area of the Avery Salvage Property?

5 A. Yes.

6 Q. And will this diagram assist you in describing
7 for the jury what you saw that afternoon and
8 early that evening?

9 A. Yes.

10 Q. Mr. Tadych, after your hunt was completed, about
11 what time was that?

12 A. About 5, 10 after 5 or so, 5:00, whenever dark
13 was.

14 Q. Do you remember if you had gotten anything that
15 day?

16 A. No.

17 Q. At 10 after 5, or sometime after 5:00 p.m., tell
18 the jury where you went, please.

19 A. I went back to the Janda's residence, the Dassey
20 residence, to pick up Barb to go back to Green
21 Bay to see my mother.

22 Q. All right. Do you remember what kind of surgery
23 your mother had that day?

24 A. She had back surgery.

25 Q. Barb, at that time, Barb Janda, what was your

1 relationship with her?

2 A. We were friends, I guess.

3 Q. All right. Were you dating at the time?

4 A. Yes.

5 Q. Do you remember about what time you got to Barb

6 Janda's house to pick her up that night?

7 A. Which time? What do you mean, after 5:00?

8 Q. Well, after you went hunting; did you stop?

9 A. Yes, I did.

10 Q. Was Barb home?

11 A. Yup.

12 Q. Do you remember, did she have work at that time?

13 Was she employed?

14 A. Yes, she was working.

15 Q. About what time was it that you got to her house,

16 if you remember?

17 A. Between 5 and quarter after, quarter after 5, 5,

18 something like that, around in there.

19 Q. Sometime around 5:15 then, when you got to her

20 house -- By the way, what kind of a vehicle were

21 you driving; do you recall?

22 A. A green Ford Ranger.

23 Q. When you got to her vehicle in the green Ford

24 Ranger, can you tell us where you parked?

25 A. When I got to her home?

1 Q. Yeah. Mr. Fassbender is going to give you a
2 laser pointer to help you describe for the jury
3 where you parked.

4 A. Right about there.

5 Q. And you are pointing which would be just to the
6 west --

7 A. Yup.

8 Q. -- of a purplish vehicle in what would be a
9 circle driveway; is that right?

10 A. Yup.

11 Q. And that's on Exhibit No. 98. Mr. Tadych, when
12 you parked that vehicle there sometime at about
13 5:15 p.m.; did you notice anything, or observe
14 anything unusual around that property? If you
15 recall, if not, we'll move on.

16 A. I don't recall at that time.

17 Q. Did you pick up Barb then?

18 A. Yes, I did.

19 Q. And where did you guys go?

20 A. Back to Green Bay.

21 Q. Did you visit your mother in the hospital?

22 A. Yes.

23 Q. How long did that visit last; do you recall?

24 A. I was up there until probably -- I don't know,
25 7:30, quarter after 7, 7:30.

1 Q. Sometime after 7:30 p.m., then, did you return to
2 the Janda property?

3 A. Yes, I did.

4 Q. And were you still with Barb at the time?

5 A. Yes, I was.

6 Q. When you got back to the Janda property, was it
7 light out or dark out --

8 A. It was dark.

9 Q. -- at the time? Okay. Mr. Tadych, I'm going to
10 have to remind you to wait until my questions are
11 done so that the court reporter can write it all
12 down; is that okay?

13 A. Fine.

14 Q. All right. When you got back -- By the way, why
15 did you go back to the Janda property at that
16 time?

17 A. To drop Barb off at her house.

18 Q. And can you tell the jury why, please.

19 A. Drop her off at the house?

20 Q. Yes.

21 A. That's where she lived, I was going home.

22 Q. Were you going to see her later that night?

23 A. Yes, I was.

24 Q. So why did you stop at Barb's house?

25 A. To drop her off so she can get her vehicle.

1 Q. All right. In dropping Barb off so she could get
2 her vehicle, can you tell us where you parked at
3 that time?

4 A. Right about -- I come in and I parked right about
5 there.

6 Q. And if you can just use the laser point and tell
7 us from which way did you come in; do you
8 remember?

9 A. (Witness demonstrating.)

10 Q. All right. There's a purplish vehicle in front
11 of the residence; was that purple vehicle in that
12 circle driveway when you got there on the 31st?

13 A. I don't remember.

14 Q. But you came in from what would be a generally
15 easterly direction, you were generally going
16 west; is that right?

17 A. Yes.

18 Q. Did you park your vehicle?

19 A. Just long enough for her to get out of my
20 vehicle.

21 Q. And who is her?

22 A. Barb Janda.

23 Q. Did Barb get out of your vehicle?

24 A. Yes, she did.

25 Q. Where did Barb go, if you saw her?

1 A. She went towards the house.

2 Q. Towards whose house?

3 A. To her house.

4 Q. All right. At the time that you dropped Barb
5 off, do you know about what time it was?

6 A. 7:30, quarter to 8, something like that.

7 Q. About 7:30 to 7:45 p.m., did you notice anything
8 unusual around the property at that time?

9 A. Yes, I did.

10 Q. Could you tell the jury what you saw at that
11 time, please.

12 A. I saw a big fire.

13 Q. Can you tell the jury where you saw the fire,
14 please.

15 A. Right there.

16 Q. You are pointing to an area just south of the
17 garage known as the Steven Avery garage; is that
18 right?

19 A. Yeah.

20 Q. Could you describe that fire for us, Mr. Tadych.

21 A. It was a big fire. It was bigger than normal.

22 Q. That's got a couple aspects to it. I'm going to
23 go one at time. First of all, you said that it
24 was a fire; did you see flames?

25 A. Yes, I did see flames.

1 Q. Did you notice if anybody was standing in the
2 area or around the fire? Did you notice somebody
3 back there?

4 A. Yes, I did.

5 Q. Do you know the defendant, Steven Avery?

6 A. Yes, I do.

7 Q. And did you see Steven Avery standing next to or
8 near that fire?

9 A. Yes, I did.

10 Q. Did you see what Steven Avery was doing at the
11 time?

12 A. Standing there, standing by the fire.

13 Q. All right. Are you able to estimate, from your
14 observations, how high or how tall the flames
15 were as you were watching there about 7:45?

16 A. They were almost as tall as the garage.

17 Q. All right. So --

18 A. Eight, ten feet. I don't know, ten feet maybe,
19 ten feet tall the flames were.

20 Q. It was a big fire?

21 A. It was a big fire.

22 Q. All right. Did you ever get out of your vehicle
23 at that time?

24 A. No, I did not.

25 Q. Did you ever approach the fire, or approach

1 Mr. Avery at that time?

2 A. No, I didn't.

3 Q. Where did you go then, Mr. Tadych?

4 A. I went back to where I was living at the time,
5 the trailer house on 147.

6 Q. I'm sorry, could you tell us what community that
7 was.

8 A. Mishicot.

9 Q. About how far away was your trailer from your
10 girlfriend Barb's trailer?

11 A. About 2-miles, 2 miles away.

12 Q. Sometime shortly after you got to your house,
13 that is sometime -- By the way, when did you get
14 to your house?

15 A. About quarter to 8.

16 Q. Okay. Do you know if it was before 8:00 or --

17 A. Before 8:00.

18 Q. -- how do you remember that?

19 A. Because I wanted to go home and watch a TV show.

20 Q. Which show did you want to go watch?

21 A. It was *Prison Break*, actually.

22 Q. Started at 8:00?

23 A. Yeah, it did.

24 Q. Did you get home before the show started?

25 A. Yes, I did.

1 Q. Sometime shortly after you got home, Mr. Tadych,
2 were you joined at your house by anybody?

3 A. Barb Janda.

4 Q. Do you know about what time Barb got to your
5 house?

6 A. I don't recall what time she got there, but it
7 was shortly after.

8 Q. Do you remember that night how long Barb stayed
9 at your house or how long she visited?

10 A. A couple hours, she was there.

11 Q. Did she spend the evening or did she leave to go
12 home at some point?

13 A. She left and went home.

14 Q. And do you have an estimate, as you think back,
15 as to when she left?

16 A. About 10:30, 11:00.

17 Q. That's your best estimate as you sit here today?

18 A. Yes.

19 ATTORNEY KRATZ: I think that's all I have,
20 Mr. Tadych. Thank you, sir.

21 THE COURT: Mr. Strang.

22 **CROSS-EXAMINATION**

23 BY ATTORNEY STRANG:

24 Q. Mr. Tadych, you remember October 31, 2005,
25 because you skipped work entirely that day?

1 A. I did not skip work, I took vacation that day to
2 go be with my mother.

3 Q. That is, you were not at work.

4 A. Right, I wasn't at work.

5 Q. I didn't mean to suggest it was unexcused, but
6 you did not go to work on October 31?

7 A. No, I didn't.

8 Q. You went to Green Bay to see your mother?

9 A. Yes, I did.

10 Q. She had recently had surgery, you say?

11 A. Yes.

12 Q. Other than your mother, who would have seen you
13 on October 31st before you say Bobby Dassey saw
14 you as the two of you drive past one another on
15 Highway 147?

16 A. Nobody, just -- I went from the hospital to my
17 trailer.

18 Q. Now, you got home from the hospital at about 3:15
19 that afternoon, you say, to your home?

20 A. No.

21 Q. When do you tell us today you got home from the
22 hospital?

23 A. I got home from the hospital -- for the first
24 time I got home from the hospital was between
25 2:30 and quarter to 3.

1 Q. And that's your recollection today, oh, 15, 16
2 months after the events?

3 A. Yes.

4 Q. All right. You remember talking to a couple of
5 law enforcement officers about this back on
6 November 29, 2005?

7 A. Yes.

8 Q. And do you remember what you told them then about
9 when you got home from the hospital?

10 A. Which time are you asking me, first time or
11 second time?

12 Q. November 29, the first time you talked to them.

13 A. No, I don't recall.

14 Q. Do you suppose that reviewing a report one of
15 them prepared might help refresh your
16 recollection about that?

17 A. It might.

18 (Exhibit No. 356 marked for identification.)

19 Q. I show you Exhibit 356, which is a Division of
20 Criminal Investigation Report, and invite you to
21 look at Page 3. The second paragraph may be the
22 most helpful in refreshing your recollection, but
23 you are welcome to read to yourself any or all of
24 that report.

25 THE COURT: I think the witness is done,

1 Mr. Strang.

2 ATTORNEY STRANG: Very well.

3 Q. (By Attorney Strang)~ Did that help refresh your
4 recollection?

5 A. Yeah, it did.

6 Q. Did you tell the police on November 29 that you
7 arrived home at 3:15.

8 A. I may have.

9 Q. Well, do you remember telling them that or not?

10 A. No, I don't remember telling them that. It's
11 been such a long time.

12 Q. Do you think that maybe back on November 29 your
13 recollection was a little better than it is
14 today --

15 A. Yup.

16 Q. -- about events happening at that point, just one
17 month earlier?

18 A. What was that, sir?

19 Q. Do you think maybe your recollection back on
20 November 29, 2005, was maybe a little better than
21 it is today?

22 A. Yes.

23 Q. It was just one month after the events in
24 question at that point?

25 A. Right.

1 Q. Now, you then -- you get home, you very quickly
2 get ready to go off deer hunting?
3 A. Yes.
4 Q. You are going to drive west from your home to go
5 deer hunting?
6 A. Yes.
7 Q. Down Highway 147?
8 A. Yes.
9 Q. It's a 15 minute drive or something like that to
10 your hunting spot?
11 A. Approximately, yeah.
12 Q. And this is when, on your way to hunting is when
13 you see Bobby Dassey?
14 A. Correct.
15 Q. He's going east in the other direction on Highway
16 147?
17 A. Correct.
18 Q. Now, Highway 147 at that point, if you know,
19 is -- what's the speed limit?
20 A. Speed limit on 147?
21 Q. Yeah, if you know?
22 A. 55.
23 Q. 55. All right. And the two of you, obviously,
24 are going in different directions?
25 A. Yes.

1 Q. And so you pass each other and you are later able
2 to tell the police that Bobby was going deer
3 hunting?

4 A. Yes.

5 Q. How did you know that?

6 A. How do I know that is because Bobby Dassey was
7 going to the trailer where I live to hunt behind
8 it.

9 Q. Let me understand, he's going to hunt deer right
10 behind your trailer?

11 A. Yes.

12 Q. But you don't hunt deer right behind your
13 trailer?

14 A. Occasionally, yes.

15 Q. And when did he tell you about this hunting trip
16 that he planned right behind your trailer?

17 A. I don't recall him telling me. He had permission
18 from the landlord to hunt there.

19 Q. So you figured since you saw him driving east on
20 Highway 147 he must be going hunting?

21 A. Yes.

22 Q. Anybody else see you going west on 147 to go
23 hunting, so far as you know?

24 A. Bobby Dassey.

25 Q. Uh-huh, and had you told him that you were going

1 hunting?

2 A. No.

3 Q. How would he have known that you were going
4 hunting?

5 A. Because I was in my camouflage clothes.

6 ATTORNEY KRATZ: Objection, irrelevant,
7 Judge.

8 THE COURT: I'm going to overrule the
9 objection.

10 Q. (By Attorney Strang)~ You were in your camouflage
11 coat?

12 A. Yes.

13 Q. In your green Ford Ranger?

14 A. Yup.

15 Q. Passing one another at 55 miles an hour?

16 A. Nope. Where I passed Bobby I probably was only
17 doing maybe 25 miles an hour tops. He was
18 slowing down to turn in my driveway and I was
19 driving up 147.

20 Q. I see. And so you surmise that he would have
21 known you were going deer hunting because he
22 would have seen you in your camouflage clothing?

23 A. Yes.

24 Q. Did you go hunting with anybody that day?

25 A. No.

1 Q. I want to go back just a moment, because this was
2 my mistake, November 29, 2005, was not the first
3 time you spoke to law enforcement officers about
4 Halloween, was it?

5 A. I don't recall.

6 Q. Does November 10 sound more like the first time?

7 A. Yeah, that sounds more like it.

8 Q. Okay. About 10 days, 11 days after Halloween?

9 A. Yes.

10 Q. Correct? And on that occasion, you also told the
11 police that you arrived home from seeing your
12 mother in Green Bay at 3:15, true?

13 A. True.

14 Q. Now, if I understood your testimony here today,
15 you get back to Barb Janda's home at about 5:15,
16 something like that?

17 A. Yes.

18 Q. This is a home that she, at that point, shares
19 with her four sons?

20 A. Yes.

21 Q. You see, at that point, Steven Avery, and Barb
22 Janda, and one of the Dassey boys, standing
23 outside talking?

24 A. I don't recall them standing outside. I don't
25 recall seeing anybody at that time besides Barb.

1 Q. All right. And is it your testimony today that
2 you don't recall seeing a fire in that burn area
3 there behind --

4 A. Oh, I seen a fire there.

5 Q. Oh, you did see the fire there?

6 A. Oh, yeah.

7 Q. At 5:15?

8 A. I don't recall seeing a fire at 5:15.

9 Q. All right. When do you tell us today you first
10 recall seeing the fire --

11 A. I first --

12 Q. -- in the burn area --

13 A. I first remember seeing the fire --

14 THE COURT: Mr. Tadych, let Mr. Strang
15 finish his question first.

16 Q. (By Attorney Strang)~ Fire, burn area, behind
17 garage. Today, when did you tell us you first
18 saw that fire?

19 A. I really remember first seeing it the second time
20 I was there.

21 Q. Well, would it help to look at Exhibit 356 again
22 to see what you told the police on November 29th?

23 ATTORNEY KRATZ: Objection, your Honor, he
24 hasn't claimed any lack of memory.

25 Q. Do you recall telling the police, on November 29,

1 that you saw a fire burning in the area behind
2 Steve's garage between 5:15 and 5:30 --

3 THE COURT: Just a minute, you can ask him
4 the question, but let's pull the exhibit away.

5 ATTORNEY STRANG: Okay.

6 Q. Do you recall telling the police, the officers,
7 that between 5:15 and 5:30, on October 31, 2005,
8 you saw two people standing around a fire that
9 was burning in the area behind Steven's garage.

10 A. That was the second time I seen him standing,
11 when I came back. I don't recall --

12 Q. You don't recall telling the police you saw that
13 between 5:15 and 5:30?

14 A. Not that -- No, I don't recall.

15 Q. All right.

16 A. I seen it the second time.

17 Q. Well, take a look, again, at Exhibit 356. That's
18 not the one I want.

19 (Exhibit No. 357 marked for identification.)

20 Q. I show you Exhibit 357, a DCI report, interview
21 with you that occurred on November 29, 2005.
22 Again, look at any part of it you like. The
23 third paragraph on that page may be the most
24 helpful in refreshing your recollection. All
25 done? Having looked at that, does that refresh

1 your recollection about what you told the police
2 on November 29?

3 A. Yes, it does.

4 Q. Did you tell the police on November 29, that
5 between 5:15 and 5:30 p.m. you saw two people
6 standing around a fire burning in the area behind
7 Steven's garage?

8 A. Yes, I did.

9 Q. Memory fresher then than it is today?

10 A. What was that, sir?

11 Q. Is your memory fresher today or was it fresher
12 back on November 29, 2005?

13 A. Fresher back on the 29th of November.

14 Q. And is that the -- If I understood you today, you
15 are telling us that when you see the fire later,
16 sometime after 7:30, you think the flames were
17 almost as high as the garage, maybe 8 to 10 feet?

18 A. Yeah.

19 Q. Was November 29 also the day that you told the
20 police that the flames were at least 3 feet high,
21 at least that high?

22 A. Must have.

23 Q. Whenever you saw this fire, and however many
24 times you saw it, you smelled nothing strange
25 coming from the fire?

1 A. No.

2 Q. You heard no one screaming?

3 A. No.

4 Q. You heard no gunshots?

5 A. No.

6 Q. You didn't see Mr. Avery trying to conceal
7 himself in any way?

8 A. No.

9 Q. Especially at 7:15, 7:30, when you drove up, you
10 would have driven up the driveway, with your
11 headlights on?

12 A. Yes.

13 Q. After dark, right?

14 A. Yes.

15 Q. And as you drove west down this lane, as I
16 understand your testimony, then you swung into
17 the driveway this way?

18 A. No, the other way.

19 Q. Came in this way?

20 A. Yes.

21 Q. But parked over here?

22 A. Yes.

23 Q. All right. So you would have had your headlights
24 on until you parked the car and turned it off?

25 A. I didn't shut my car off.

1 Q. Had the headlights on the entire time?

2 A. Yes.

3 Q. Now, if I understood you as well, today, you have

4 told us that Barb came to your house a little

5 later that evening?

6 A. Correct.

7 Q. You dropped her off, right, she goes in the

8 house?

9 A. I don't know what she did.

10 Q. You dropped her off, you presume she went in the

11 house?

12 A. Yes.

13 Q. And then shortly later, she appears at your

14 house?

15 A. Correct.

16 Q. Barb, by the way, at that time, was married to

17 your cousin, Tom Janda?

18 A. Correct.

19 Q. You know, separated or whatever?

20 A. Yes.

21 Q. But the name Janda comes from your cousin, Tom

22 Janda?

23 A. You are absolutely right.

24 Q. Okay. And so she comes to your house and the two

25 of you are going to watch television?

1 A. Correct.

2 Q. You remember specifically that you wanted to
3 watch a show called "Prison Break"?

4 A. Correct.

5 Q. Is that something you were recording on the VCR?

6 A. No.

7 Q. Or TiVo, something like that?

8 A. No.

9 Q. You were going to actually watch it as it was
10 broadcast?

11 A. Yes.

12 Q. Which is why you think you got home at 8:00?

13 A. That's exactly why I wanted to be home.

14 Q. Now, she stays, the two of you watch that show?

15 A. Correct.

16 Q. You have a memory of watching that show?

17 A. Yup.

18 Q. And then your recollection, as you told us today,
19 is that she leaves somewhere around 10:30 or 11?

20 A. Correct.

21 Q. You are quite sure that she leaves and goes home?

22 A. Yes.

23 Q. Well, you talked with the police yet a third
24 time, I guess at least, didn't you, after
25 November 29?

1 A. I may have.

2 Q. March 30, 2006, does that sound about right?

3 A. Could be.

4 Q. And Investigator John Dederer from the Calumet
5 County Sheriff's Department?

6 A. Could be.

7 Q. Do you recall telling Investigator Dederer that
8 Barb spent the night at your residence and did
9 not go home, and that you knew she did go
10 directly to work, from your residence, to your
11 knowledge?

12 A. I don't recall that.

13 Q. You don't recall that. Okay. Do you think
14 reviewing Investigator Dederer's report might
15 help refresh your recollection about that?

16 A. I'm sure it will.

17 (Exhibit No. 358 marked for identification.)

18 Q. It is -- I will show you Exhibit 358,
19 Investigator Dederer's report of his interview
20 with you on March 30, 2006. Read to yourself any
21 part of it you like. The very bottom on the
22 first page may be most helpful.

23 THE COURT: Are you done, Mr. Tadych?

24 THE WITNESS: Yes.

25 THE COURT: I believe he's ready.

1 Q. (By Attorney Strang)~ All done? Does that help
2 refresh your recollection?

3 A. Yeah, I guess.

4 Q. About what you told Investigator Dederling?

5 A. Yes.

6 Q. Did you tell Investigator Dederling, on March 30,
7 that Barb spent the night at your residence and
8 did not go home; Barb did go directly to work
9 from your residence to your knowledge?

10 A. Yes, I did.

11 Q. Barb works an early morning shift, at least at
12 that time?

13 A. Yes.

14 Q. Until sometime in the mid afternoon?

15 A. Yes.

16 Q. Sometime around the time that you talked to
17 Investigator Dederling, on the occasion you just
18 described, were you trying to sell one of the
19 Dassey boy's .22's to a man named Jay Mathison
20 (phonetic) at work?

21 A. No.

22 Q. You weren't? And you are sure, though, that you
23 watched the show *Prison Break* starting at
24 8:00 p.m. on Monday, October 31, 2005?

25 A. Am I sure?

1 Q. Yeah.

2 A. Yup.

3 Q. Are as you sure of that --

4 A. Maybe not.

5 Q. --as you are of anything you testified --

6 A. Maybe not.

7 Q. -- here?

8 A. But I'm sure that's what I went home to watch.

9 Q. Okay. You are sure it was 8:00?

10 A. Yeah.

11 Q. As sure as you are --

12 A. I'm sure it's 8:00.

13 Q. Are you as sure of that as you are of anything
14 you testified to here today?

15 A. I guess not. I don't know.

16 ATTORNEY STRANG: That's all I have.

17 THE COURT: Mr. Kratz, anything else?

18 **REDIRECT EXAMINATION**

19 BY ATTORNEY KRATZ:

20 Q. Mr. Tadych, Mr. Strang asked if your recollection
21 was clearer earlier --

22 A. It was clearer earlier.

23 Q. You really are going to have to wait until I --

24 A. Sorry.

25 Q. -- finish the question. Whether your

1 recollection was clearer, that is, as you got
2 closer or were earlier in time, specifically
3 November of 2005.

4 A. Yes.

5 Q. Do you remember both of your first two interviews
6 with law enforcement?

7 A. I remember the first two.

8 Q. And do you remember in both of those interviews
9 telling law enforcement officers that Barb left
10 your house sometime between 11:00 p.m. or
11 midnight and went home those nights?

12 A. Yes, I assumed she went home. I thought she did.

13 ATTORNEY KRATZ: That's all I have of
14 Mr. Tadych. Thank you.

15 THE COURT: All right. The witness is
16 excused. You may call your next witness, Mr. Kratz.

17 ATTORNEY KRATZ: Call Bobbie Dohrwardt to
18 the stand. Could I have just a minute with
19 Mr. Strang, Judge?

20 THE COURT: Sure. Excuse me, counsel, I
21 think the witness is standing right behind you.

22 THE CLERK: Raise your right hand.

23 **BOBBIE DOHRWARDT**, called as a witness
24 herein, having been first duly sworn, was
25 examined and testified as follows:

1 THE CLERK: Please be seated. Please state
2 your name and spell your last name for the record.

3 THE WITNESS: My name is Bobbie Dohrwardt,
4 D-o-h-r-w-a-r-d-t.

5 (Exhibit No. 359 and 360 marked for identification.)

6 **DIRECT EXAMINATION**

7 BY ATTORNEY KRATZ:

8 Q. I'm sorry for the delay, Ms Dohrwardt. Can you
9 tell the jury, please, how are you employed?

10 A. I work for Cellcom.

11 Q. And what is Cellcom?

12 A. Cellcom is a wireless carrier, local to northeast
13 Wisconsin.

14 Q. Ms Dohrwardt, have you been asked and have you
15 reviewed cellular telephone records for a
16 subscriber by the name of Steven Avery, or
17 Avery's Salvage -- Auto Salvage for the dates on
18 and around October 31st, 2005?

19 A. Yes, sir.

20 Q. Let me ask you, Ms Dohrwardt, are -- in your
21 employment with Cellcom, are you what is known as
22 one of the custodians of the business records for
23 that business?

24 A. Yes, I am.

25 Q. Generally, what do you do for Cellcom?

1 A. I am the team leader for Technical Support
2 Department.

3 Q. And as team leader, are you able to review, and
4 to the extent that, at least in general terms,
5 we're going to ask you questions; are you able to
6 interpret cellular telephone records that you
7 have been asked to look at?

8 A. Yes, sir.

9 ATTORNEY KRATZ: The Court has asked,
10 Judge, and I think Mr. Strang will agree, that we
11 not use telephone records in this instance -- excuse
12 me -- telephone numbers in this instance. And Ms
13 Dohrwardt will be referring, then, to subscriber
14 names rather than numbers. And, please, Mr. Strang,
15 if there's an issue, stop and we can either approach
