The Oklahoma City Police Department is pleased with the jury's decision regarding the Daniel [Holtzclaw](#) trial. It was a long and difficult trial and deliberation process for all involved. It is obvious the jury took their responsibilities very seriously and considered every piece of evidence presented to them.

We are proud of our detectives and prosecutors for a job well done.

To the jury, we thank you for your service.

We are satisfied with the jury's decision and firmly believe justice was served.

Termination of Officer Daniel Holtzclaw

Date: January 8, 2015

On June 18, 2014, the Oklahoma City Police Department became aware of acts of criminal misconduct believed to have been committed by an officer of this department. Investigators soon identified Officer Daniel Holtzclaw as the person accused of sexual acts against a member of our community. Hours after receiving this information from the victim, an initial interview was conducted and Holtzclaw was placed on administrative leave pending a full investigation of the allegations.

In August of 2014, Daniel Holtzclaw was arrested and formally charged by members of our department for various criminal charges including forcible oral sodomy, indecent exposure, stalking, sexual battery, and rape. These charges were filed after detectives from this department were able to find multiple additional victims who had also come in contact with Holtzclaw.

After the criminal investigation was concluded the Oklahoma City Police Department began an internal investigation into the various alleged incidents. After all formal protocol was followed, the result of the internal investigation is the termination of Daniel Holtzclaw from employment with the Oklahoma City Police Department. (See attached letter.)

Chief William Citty said in the termination letter to Holtzclaw "Your offenses committed against women in our community constitute the greatest abuse of police authority I have witnessed in my 37 years as a member of this agency. These violations more than warrant your termination from the Oklahoma City Police Department."

We believe these incidents were the criminal and malicious acts of a lone person and in no way represent the professionalism, courage and compassion exemplified by our officers to our community on a daily basis. The solid trust we have with our community can only be maintained by continued transparency, professionalism and the just and fair policing of our own employees. We hope this incident, although, appalling, embarrassing and unfortunate, serves as an example that we will hold our officers accountable to the same laws to which we hold the citizens to.
