SUBJECT: Early Intervention Report, First Quarter of 2014

On September 9, 2014, fourteen officers were identified for review under the guidelines of the Early Intervention Program for the period January 1 through March 31, 2014. Identification of these officers is based on records in Tracker and completed investigations submitted to Internal Affairs as of September, 2014.

In accordance with the procedures set forth in the EIP guidelines, a review and analysis was completed by each officer's chain of command.

Bureau Commanders recommended no necessary intervention on the fourteen officers that were identified as exceeding threshold limits for the First Quarter, 2014.

On November 4, 2014, all completed findings and recommendations were returned to the Office of Professional Standards.

I have reviewed the enclosed reports and found no significant trends or patterns that warrant further action at this time.

The enclosed reports and accompanying analysis are submitted for your review and disposition.
