1 (Reconvened at 8:34 a.m.) 2 THE COURT: Morning counsel. 3 ATTORNEY KRATZ: Morning. THE COURT: We're going to resume State vs. 4 Dassey, 06 CF 88. Uh, Mr. Kratz. 5 6 ATTORNEY KRATZ: Thank you, Judge. The 7 State appears by Calumet County District Attorney Ken Kratz. The, um, uh, State also appears by 8 9 Assistant District Attorney -- Excuse me. 10 Assistant, uh, Attorney General Tom Fallon, 11 Assistant District Attorney Norm Gahn also 12 appearing as special prosecutors. 13 ATTORNEY FREMGEN: Attorney Mark Fremgen 14 appears with Attorney Ray Edelstein, and the 15 defendant appears personally. 16 THE COURT: You may call your first 17 witness. 18 ATTORNEY KRATZ: Thank you, Judge. The 19 State will call Bill Tyson to the stand. 20 THE CLERK: Please raise your right hand. 21 WILLIAM TYSON, 22 called as a witness herein, having been first duly 23 sworn, was examined and testified as follows: 24 THE CLERK: Please be seated. Please state 25 your name and spell your last name for the record.

	1	THE WITNESS: William Tyson, T-y-s-o-n.
çî.	2	DIRECT EXAMINATION
	3	BY ATTORNEY KRATZ:
	4	Q Mr. Tyson, please tell the jury how you're
	5	employed?
	6	A I am a patrol sergeant with the Calumet County
	7	Sheriff's Department.
	8	Q If you'd speak up just a little bit, we'd
	9	appreciate it. How long have you been employed
	10	with the Calumet County Sheriff's Department?
	11	A I've been employed with the Sheriff's Department for
	12	15 years approximately.
1. 1. 1. J. 1. J. 1. J.	13	Q And could you describe, please, for the jury your
£1	14	general duties with the Sheriff's Department?
	15	A Currently, like I said, I'm a patrol sergeant, so I
	1.6	supervise I'm the immediate supervisor for the
	17	patrol_staffUm, prior_to_that_I_was_a_road
	18	officer.
	19	Q Um
	20	A My responsibilities as road officer were to respond
	21	to call to service, things like that. I did have
	22	specialized training as an evidence technician, um,
	23	back in 1994, which I processed crime scenes, things
	24	of that nature.
	25	Q The specialized training, and I assume your
ć		

1		experience in, um, being an evidence tech, um,			
2		what more, specifically, does that entail, if you			
3		could tell the jury?			
4	A	The specialized training, um, re respond to a			
5		crime scene. You know, certain officers can do that			
6		if they have this specialized training. You take			
7		you look for pieces of evidence. Um, you can collect			
8		the evidence, take it back, process the evidence			
9		looking for fingerprints, DNA evidence, things of			
10		that nature.			
11	Q	Were you employed in that capacity on the 5th of			
12		November, 2005?			
13	А	Yes.			
14	Q	And on the 5th of November, 2005, were you asked			
15		to, uh, respond to a scene known as the Avery			
16		Salvage Yard?			
	A	Yes.			
18	Q	Could you tell the jury, please, what were your			
19		first duties upon your arrival at that scene?			
20		COURT REPORTER: Mr. Kratz, one moment			
21		please.			
22		(Wherein break was taken to fix a			
23		technical problem.)			
24		COURT REPORTER: Let's try it again.			
25		You can continue where you left off.			
		7			

1		ATTORNEY KRATZ: If I can remember.
2	Q	(By Attorney Kratz) Uh, your first duties on
3		your arrival at the scene, if you could describe
4		that for the jury?
5	A	Sure. Um, upon arriving at the scene, I was directed
6		to the lower portion of the junkyard area where
7		Teresa's vehicle was located. Uh, my
8		responsibilities were to maintain security around the
9		area where her vehicle was located.
10	Q	Thereafter, um, Sergeant Tyson, because of your
11		evidence technician training, were you assigned
12		with other officers and put into what's called a
13		search team?
14	A	Yes. Um, upon arriving at the command center, after
15		clearing from Teresa's vehicle, I was assigned with
16		three deputies from the Manitowoc County Sheriff's
17		Department, um, Andrew Colborn, Detective Dave
18		Remiker, and, uh, Investigator or Detective Jim Lenk.
19	Q	And that first, uh, evening, that is, the 5th of
20		November, were you assigned to search a
21		particular building or residence upon that
22		property?
23	A	We were instructed to execute the search warrant at
24		Steven Avery's trailer.
25	Q	And did you do so?

	1	
1	A	Yes.
2	Q	Now, the trailer, itself, uh, Sergeant Tyson,
3		has, um, several rooms as I understand. Uh, if
4		you could just briefly describe the layout of the
5		trailer for us, I'd appreciate it?
6	А	Um, when you walk into the main entrance, you're
7		walking into the living room area. Um, directly off
8		of the living room would be the kitchen. You go down
9		a hallway, uh, there's a bedroom, and there's a
10		bathroom, and then there's the the final bedroom
11		at the end of the trailer.
12	Q	Sergeant, I'm going to have you look at an
13		exhibit that's already been received. This is
14		Exhibit No. 72 in this case. Um, be so kind,
15		please, as to take, uh, the laser pointer, which
1-6		has_been_provided, and a little bit_more_in
17		-detail describe the layout of Mr. Avery's
18		trailer?
19	A	This area right here would be the kitchen area. And
20		this area here was the living room area. And this
21		would be the hallway. We got the first bedroom here.
22		The bathroom would be right about here. And this
23		would be Steve's bedroom back in the corner.
24	Q	And on the 5th of November, were you asked to
25		complete a search of the entire residence?

9

1	A	Yes.		
2	Q	Can you describe the, uh, thoroughness or the		
3		scope of that particular search, if you can		
4		recall?		
5	A	Um, the first search that was conducted was a quick		
6		search of the the residence looking for anything		
7		obvious. Any signs of Teresa, anything that would		
8		lead us in any direction, um, to go on. At that time		
9		we were unsure of what we had exactly.		
10	Q	I'm going to hand you, uh, several photos that		
11		will assist in describing your search efforts.		
12		Um, we're going to start with the living room,		
13		uh, area of, um, Mr. Avery's residence. You've		
14		been handed Exhibit No. 79. Can you tell us what		
15		that is, please?		
1-6	A A	This would be a photograph of the computer area in		
17		the corner of the living room.		
18	Q	And did you, with the assistance of other search		
19		team members, um, search this particular area of		
20		Mr. Avery's living room?		
21	A	Yes.		
22	Q	Have you look at the next Exhibit, please.		
23		Exhibit No. 80. Tell us what we're looking at		
24		here?		
25	А	Be a photograph of the AutoTrader Magazine.		

1	Q	And, if you recall, could you tell the jury where
2		this particular exhibit or this particular
3		item was found on that computer desk?
4	A	This one, I believe, Detective Dave Remiker located
5		and it was sitting on top of the desk. The computer
6		desk in the living room.
7	Q	Exhibit No. 81, also from AutoTrader, can you
8		tell us what that is, please?
9	А	This would be a photograph of a bill of sale through
10		AutoTrader Magazine.
11	Q	And as we look at the large screen, in the lower
12		left-hand corner of this document, actually has
13		the AutoTrader Magazine logo; isn't that, uh,
14		correct?
15	А	Yes.
16	Q	Now, Sergeant Tyson, so that the jury has a
		better understanding of the, um, methodology, or
18		how law enforcement performs these searches, uh,
19		do different officers have different
20		responsibilities when, um, a a search, not
21		only of a residence, but any kind of search is
22		undertaken?
23	A	Yes. For example, on this evening my
24		responsibilities were to document what the officers
25		were doing. Um, taking notes after the evidence was

i

11

collected, take custody of the evidence, and, you 1 2 know, secure it. So that was my responsibilities. 3 The other officers were searching different areas. You know, I was keeping a -- a watch on them to see 4 5 what they were finding, documenting the exact minute 6 when something was located, where it was located, 7 things of that nature. 8 When these searches, uh, occur, because of the Q 9 possibility of DNA, or other kinds of trace 10 evidence, uh, do searching officers wear some 11 kind of protective items or gloves? 12 А Yes. All the officers that were in the trailer that 13 I was with had gloves on. Um, and they would change 14 the gloves routinely with, um, each new item that we 15 were looking at, or whatever, so nothing would be 16 contaminated. 17 If you could explain that? Just -- just take a 0-----18 moment and explain that a little bit more. Ιf 19 something is handled, you said that, uh, you 20 would then change into a different pair of 21 gloves. Um, why does that occur? Why are you 22 trained that that occurs? 23 Well, for example, uh, you find a piece of evidence, Α 24 you may not know exactly what's on it, be it any type 25 of DNA, blood, or anything like that, you pick it up,

1		um, if you don't, you pick up something else, you're
2		going to transfer what you've just had on that item
3		onto a different piece of evidence, and it's
4		contaminated at that point, because now you can no
5		longer say that that did that item have the blood
6		on it already or did not? Um, and if you didn't
7		change your gloves, you can't say, um, because you've
8		now transferred it and you contaminated new evidence.
9	Q	I don't know if I asked you, and perhaps it's
10		obvious by this particular picture, uh, but where
11		was this bill of sale found within the residence?
12	А	Uh, this one, I believe, was found on the or in a
13		drawer on in the computer desk.
14	Q	All right. In the same living room area near the
15		AutoTrader Magazine that we've, uh, previously
16-		seen; is that right?
—17—	A	Yes.
18	Q	Let's move, if we can, to the bedroom area. That
19		is, the master bedroom. Bedroom of Steven Avery.
20		Could you describe, first, um, the size of that
21		bedroom? Then describe the search efforts that
22		occurred in there?
23	A	It's a rather small bedroom. Um, you got the queen
24		size bed, I believe, is in the middle of the room.
25		Uh, he had a walkway just to walk around and get to

.

ł

1		the other side. Then there was closets up against
2		the wall. So it was a smaller room.
3		Um, and when we entered that room, we
4		had, um like Sergeant Colborn, he concentrated
5		his efforts on one side, Detective Remiker and,
6		uh, Detective Lenk searched the other area, and I
7		stood pretty much in the doorway watching what
8		was going on, documenting, uh, what was located.
9	Q	Now, this is the very first night of the search.
10		Uh, is it fair to say that, uh, you and other law
11		enforcement officers were unaware of what had
12		happened to Teresa Halbach at that time?
13	А	That's correct. We didn't know exactly what we had
14		at that time.
15	Q	Did you specifically know what you were looking
1.6		for?
<u>17</u>	_A	No. We were looking for anything that might lead us
18		in a direction, any clue, any type of evidence.
19	Q	All right. I'm showing you now what's been
20		marked as Exhibit No. 82. Describe what that is
21		for the jury, please?
22	A	This would be a photograph of, um, the headboard area
23		of Steven Avery's bed.
24	Q	Now, a bed or on top of, or above, uh,
25		Mr. Avery's bed, uh, could you tell the jury what
		14

1		you observed on the 5th of November?
2	A	It's kind of cut off on the photo, but up on top
3		there is a right above the bed there was a gun
4		rack, um, which housed two firearms, and there were
5		two long, um, barreled firearms in the gun rack
6		directly above the bed.
7	Q	All right. I think we have a better picture of
8		the gun rack, itself, which is Exhibit No. 83.
9		We will move to that. Tell us what we're looking
10		at here?
11	А	That is the photo of the gun rack that was, um,
12		directly above the bed.
13	Q	All right. Now, at this early search, at this
14		early stage, were those firearms, um, confiscated
15		or seized by you and other officers?
1-6	- A	On the night of the 5th, those firearms were not
		seized. We knew we had opportunity to come back. So
18		those firearms were not taken at that time.
19	Q	All right. And that concept, the concept of
20		knowing that you were going to be able to come
21		back or that other law enforcement officers were
22		going to be able to come back, could you describe
23		that a little bit more for the jury?
24	А	Well, the scene, itself, um, you know, the whole
25		area, the junkyard, we didn't know exactly where we

15

(1) (1,2)

1		would be directing our resources. Um, so we knew we
2		had a lot of work to do. This is a very large area.
3		We could not humanly get this done within one
4		evening. Um, so we knew we were going to be there
5		how long, exactly, we didn't know. But, um, we we
6		knew we would be back the next day for sure.
7	Q	It turned out to be almost eight days; is that
8		right?
9	A	Correct.
10	Q	On this particular gun rack, that is, the gun
11		rack in Mr. Avery's, uh, bedroom, how many long
12		guns, that is, how many rifles, were located on
13		that gun rack, if you recall?
14	А	There were two.
15	Q	The rifle on top, uh I'm going to show you a
 1-6		photograph that is Exhibit No. 86. Do you
 		recognize that?
18	А	Okay. It appears to be one of the firearms that was
19		located in the gun rack in the bedroom.
20	Q	And just so this jury understands, and they'll
21		hear from another witness, but, uh, it wasn't
22		you, but a different officer, actually, on the
23		next day, that seized this weapon; is that right?
24	А	That's correct.
25	Q	The other, um, weapon, uh, Exhibit No. 87? Tell
		16

1 us what that is, please? 2 Α Be a photograph of a muzzleloader. I believe this 3 was the other firearm that was in the gun rack. All right. Mr. Tyson, um, within the bedroom, 4 Q 5 uh, itself, uh, did you, during the search, and 6 your fellow law enforcement officers, uh, locate 7 any items or obvious items that would be capable 8 of restraint? That is, uh, capable of 9 restraining another person? 10 Α Yes. Um, Sergeant Colborn located a set of handcuffs 11 and a set of leg irons. 12 0 I'm going to show you what's been, uh, marked as 13 Exhibit No. 84. Tell us what we're looking at, 14 please? 15 Α Be a photograph of the handcuffs that were found in 16 Steven Avery's bedroom. 17 -Q--Do you remember, and can you describe for the 18 jury, from what location those handcuffs were 19 recovered? 20 А I have in my report that it was taken from a 21 nightstand, which was directly next to the desk. Uh, 22 that nightstand has now become known as the bookcase. 23 Um, Sergeant Colborn located the handcuffs and the 24 leg irons in that bookcase, which was right next to 25 the desk.

	1	
1	Q	All right. You had mentioned some leg irons as
2		well. I'll have you look at Exhibit No. 85.
3		Tell us what, uh what this is, please?
4	A	It'd be a photograph of those leg irons.
5	Q	Do you know what, uh, the handcuffs and leg irons
6		found in Mr. Avery's bedroom were made of?
7	A	They're your standard, uh, steel, um, handcuffs and
8		leg irons.
9	Q	I show you what's been, uh, marked as Exhibit No.
10		91. The item, itself. Uh, tell the jury what it
11		is we're looking at?
12	A	It's a standard set of, um, the iron handcuffs.
13	Q	And, uh, are those the handcuffs? And do they
14		look the same and similar today as when they were
15		recovered and seized from Mr. Avery's bedroom on
16-		the 5th of November?
17	-A	Yes.
18	Q	I show you Exhibit No. 92. Tell the jury what
19		those are, please?
20	А	Set of, um, iron leg irons.
21	Q	Once again, uh, Exhibit No. 92, do those look the
22		same or similar, uh, as the day that they were
23		received and recovered from Mr. Avery's bedroom?
24	A	Yes.
25		ATTORNEY KRATZ: Thank you, Mr. Wiegert.

A DESCRIPTION OF A DESC

18

2. 27. } 22.

। <u>दि</u>द्धे क

1	Q	(By Attorney Kratz) Now, Mr. Tyson, the, um,
2		search effort, you said, lasted several days?
3		Were you involved, uh, throughout the entire week
4		in these search efforts?
5	A	For most of the days, I was on the property. Um, we
6		were searching other residences, uh, outbuildings,
7		um, areas of land, junked cars, automobiles that were
8		parked in certain areas. Um, so my responsibilities
9		were with other officers throughout the week, but we
10		were doing searches of different residences and areas
11		on the property.
12	Q	I'm going to show you I think in front of you,
13		you have an exhibit, uh, Exhibit No. 88. Could
14		you look at that, uh, exhibit, please, and tell
15		us what it is?
- 16 -	A	Evidence photograph of a bleach bottle.
-17	_Q	And do you recognize this particular piece of
18		evidence?
19	A	Yes.
20	Q	How is it that you recognize it?
21	A	This evidence was collected, I believe, on March 1.
22		Um, we were executing another search warrant on the
23		property, and this bottle was taken out of the
24		bathroom/laundry area of Steven Avery's, uh,
25		residence.
	: •	

1	Q	I know that we're jumping ahead a little bit to
2		March 1. Do you understand that search warrant
3		to have been authorized by a judge, uh, after a
4		statement was given by this defendant, Brendan
5		Dassey?
6	A	Yes.
7	Q	Were you, specifically, looking for a bleach
8		bottle at that time?
9	A	Yes. We were given numerous specific items to be
10		looking for. Um, we did the search warrant looking
11		for specifics this time, compared to the time prior.
12	Q	Mr. Wiegert's going to hand you Exhibit No. 93.
13		The Perhaps, uh, tell the jury what that is,
14		please?
15	А	That would be the bleach bottle taken from the
16		bathroom/laundry area of Steven Avery's residence.
17	_Q	So it was within his trailer, that is, within his
18		bathroom, that this bleach bottle was found; is
19		that right?
20	А	That's my understanding. Yes.
21	Q	Do you recall, Sergeant Tyson, whether the bleach
22		bottle, uh, was full at the time that you
23		recovered it? Or is or that it was recovered?
24	A	Okay. Like I said, um, Deputy Riemer collected it.
25		My understanding was is that it was empty at the time

100 A302 L

20

.

of collection.

2	Q	All right. Just to go back for just a moment
3		about the concept of search teams on the 1st of
4		March, uh, that is, after, uh, Mr. Dassey's
5		statement was made, after a search warrant was
6		authorized, was a search team put together for
7		the trailer of Mr. Avery again?
8	А	Yes. I was assigned with Deputy Rick Riemer and
9	ſ	Investigator Wendy Baldwin. Uh, we were sent back
10		into the trailer to execute that warrant.
11	Q	All right. Move ahead just a couple of days to
12		the, um, 9th Wednesday, the 9th of November,
13		um, you were employed on that day?
14	А	Yes.
14 15	A Q	Yes. And could you tell the jury, please, what your
15		And could you tell the jury, please, what your
15 16		And could you tell the jury, please, what your duties were on the 9th of November? This is
15 16 17	Q	And could you tell the jury, please, what your duties were on the 9th of November? This is 2005. I'm sorry.
15 16 17 18	Q A	And could you tell the jury, please, what your duties were on the 9th of November? This is 2005. I'm sorry. Okay. I'm trying to think back. Um
15 16 17 18 19	Q A	And could you tell the jury, please, what your duties were on the 9th of November? This is 2005. I'm sorry. Okay. I'm trying to think back. Um If I ask you a more specific question, would
15 16 17 18 19 20	Q A Q	And could you tell the jury, please, what your duties were on the 9th of November? This is 2005. I'm sorry. Okay. I'm trying to think back. Um If I ask you a more specific question, would that
15 16 17 18 19 20 21	Q A Q A	And could you tell the jury, please, what your duties were on the 9th of November? This is 2005. I'm sorry. Okay. I'm trying to think back. Um If I ask you a more specific question, would that Could you, please?

15 16 17 18 19 20 21 22 23	Q A Q A	And could you tell the jury, please, what your duties were on the 9th of November? This is 2005. I'm sorry. Okay. I'm trying to think back. Um If I ask you a more specific question, would that Could you, please? help you? Sure. Uh, were you involved at all in this case in, um, collecting what are called

1	Q	And could you tell us, uh, how you were involved
2		in that process?
3	A	On the 9th, I was directed by, um, Agent Fassbender
4		and Investigator Wiegert, was told my responsibility
5		would be to go to the Aurora Medical Clinic in Two
6		Rivers. Uh, I was informed that search warrants were
7	-	going to be executed on members of the Avery family,
8		and that they'd be brought to the Aurora Clinic where
9		a physical examination would be done, DNA exemplars
10		would be taken, and my responsibility was to
11		document, photograph, and collect any of the
12		exemplars that were taken by the medical
13		professionals.
14	Q	Were one of the individuals brought to the Aurora
15		medical facility, uh, Steven Avery?
	A	Yes.
17	- Q	Did you have occasion to participate in and
18		document a physical examination of Mr. Avery on
19		the 9th of November?
20	А	Yes.
21	Q	And during that physical examination, did you
22		note any, um, specific, uh, uh, uh, injury or the
23		remnants of any injury at that time?
24	А	Yes. Um, his it was his middle finger on the
25		right hand. He had a deep laceration.

1	Q	I'm showing you what's been, uh, marked as
2		Exhibit No. 89. Tell us what we're looking at,
3		please?
4	A	Yeah. That would be the finger, uh, showing the
5		the cut to the finger with a scale, uh, for
6		measurement purposes.
7	Q	This was a photograph that you took?
8	А	Yes.
9	Q	Recognizing that you are not a, uh, uh a
10		medical professional I assume you're not
11	A	Correct.
12	Q	from what I know of you Sergeant Tyson, but
13		the, uh, observations that you made, uh, and the
14		photograph that is a depiction of that injury,
15		that appear to be a significant or a deep cut to
1-6		you?
	A	Yes.
18	Q	Later that week, in just general terms, could you
19		describe for the jury what your responsibilities
20		were at the Avery salvage property?
21	A	At the end of the week we were completing our
22		searches, and, um, my responsibilities were to assist
23		where needed. I was also requested to videotape the
24		entire property. Um, inside the residences, the
25		whole area, to show exactly how we were leaving the

1		property, and to give an idea of what this crime
2		scene all entailed.
3	Q	The last series of inquiry I believe I have for
4		you, Sergeant Tyson, is after, um, a statement
5		was received by Mr. Dassey
6		ATTORNEY FREMGEN: Objection, Judge. At
7		this point there's been no evidence of any
8		statement in the record.
9		THE COURT: Response?
10		ATTORNEY KRATZ: I could ask him if he
11		knows of the statement by Mr. Dassey. It isn't
12		for isn't the statement, itself. It's just is
13		to establish what this, uh, writer did. It
14		certainly isn't hearsay, Judge.
15		THE COURT: Well, why don't you try to lay
16		a foundation, then, for the question.
17		ATTORNEY KRATZ: All right.
18	Q	(By Attorney Kratz) Sergeant Tyson, have you
19		been involved in this investigation, that is, the
20		investigation which included Mr. Avery and
21		Mr. Dassey, throughout the entire process?
22	А	Yes.
23	Q	Uh, were you aware that Mr. Brendan Dassey
24		provided a statement to law enforcement
25	:	officials? Specifically, Investigator Wiegert
		24

-		
1		and Special Agent Fassbender?
2	A	Yes.
3	Q	Did you know the date on which that statement was
4		given?
5	А	I know it was at the end of February. Maybe the
6		28th. March 1. In that area.
7	Q	Thereafter Sometime thereafter, were you asked
8		to, um, attempt to obtain, uh, some evidence from
9		a area of, uh, Teresa Halbach's SUV?
10	А	Yes.
11	Q	Could you describe that process for the jury,
12		please?
13	A	Sure. Deputy Jeremy Hawkins is also an evidence
14		technician within the Department. He assisted in the
15		processing of a lot of the evidence that we did
1-6		collect. On April 3 we were requested to go to where
		we had stored Teresa's vehicle. Uh, Investigator
18		Wiegert and Agent Fassbender had requested that we do
19		DNA swabs of both door handles, interior and
20		exterior, as well as the hood latch to the vehicle,
21		and the battery cables, um, under the hood.
22	Q	Directing your attention to the hood latch, and
23		now I'm going to have you look at, uh, Exhibit
24		No. 90, tell us what it is that we're looking at,
25		please?

.

1	A	This would be a photograph of the hood latch to
2		Teresa's vehicle.
3	Q	And so a jury, um, member, or all jury members
4		understand, uh, what is a hood latch?
5	A	It secures the hood to the vehicle. Locks it in.
6	Q	All right. Um, on my vehicle, or at least on
7		most vehicles, there's a a release or a button
8		on the inside of the the vehicle. Are you
9		familiar with those?
10	А	Yes.
11	Q	But is there another safety feature or an
12		additional latch that's usually on a hood?
13	А	Yes. And that would be the hood latch.
14	Q	All right. Did you, again, personally swab, uh,
15		or, uh, collect possible DNA material from Teresa
16		Halbach's hood latch?
17	A	Yes, I did.
18	Q	Would you describe for the jury that process
19		please? How was that done?
20	A	Sure. When you swab for any type of DNA evidence,
21		you have a cotton tip applicator, kind of like a big
22		Q-tip. Um, you have distilled water. And the tip is
23		sterile as well. So you're taking it from a fresh
24		package.
25		Um, you take your distilled water, you

5 5 6 G G G

.

1		would not touching the cotton tip applicator,
2		but you would drop two to three drops of this
3		water onto the cotton tip applicator. You then
4		take that applicator and swab the area in which
5		you were interested in.
6	Q	Could you point to the large screen, please, and
7		tell the jury where it was that you swabbed?
8		That is, what area of the hood latch was, um,
9		swabbed by this applicator?
10	A	Sure. This area right in here.
11	Q	I'm going to have Mr. Wiegert show you, uh,
12		what's been marked for identification as Exhibit
13		No. 94. Because it contains biological material,
14		I'm not going to have you open it, but I would
15		ask you, if you're able to, identify Exhibit No.
16	_	94?
17	A	Yes. It's got, um, the evidence tag on that I
18		personally wrote out, and it states it contains the
19		swab containing possible DNA evidence.
20	Q	From?
21	A	From the hood latch of Teresa's vehicle.
22		ATTORNEY KRATZ: If I could have just a
23		moment, Judge? Judge, I would move the admission
24		of exhibits, I think it's 79 through 94, at this
25		time, and I have no further questions of Sergeant

.

1 Tyson. Thank you. 2 THE COURT: Any objection, Counsel? ATTORNEY FREMGEN: What was No. 90? 3 THE COURT: Number 90 is a photo of a hood 4 5 latch of the, uh, Halbach vehicle. 6 ATTORNEY FREMGEN: No objection. 7 THE COURT: All right. They're received. 8 Cross? 9 CROSS-EXAMINATION 10 BY ATTORNEY FREMGEN: 11 Officer, you indicated that you are currently in 0 12 a position of -- like a supervisory role with the 13 Sheriff's Department? That's correct. 14 А 15 Q And you indicated that you had been trained back 16 in 1984 as an evidence tech? 17 Α Nineteen ninety-four. Correct. 18 Nineteen ninety-four? 0 19 Α Yes. 20 0 Okay. Have you had any, uh, follow-up training 21 or primers since 1994? 22 Maybe in 1995, '96, '97, in the early stages, um, Α 23 some updates. Photography, things like that. But, 24 no, most of my training now would consist of 25 supervisory training.

1	Q	Between 1994 and now, did the, uh was the
2		majority of your duties or your responsibilities
3		involving evidence tech, or evidence collecting,
4		or was it general police duties?
5	A	The majority of my responsibilities are general
6		police duties. Uh, if we have a crime that occurred
7		in the county, um, I could be dispatched to that.
8		You know, there's five officers in our Department at
9		that time that were evidence technicians. If I was
10		on duty, or even if I was not on duty, I could get a
11		call at my house to come out to process that scene.
12		So if we had a crime, yeah, we would have to respond
13		to it.
14	Q	Did this training consist of a couple of classes
15		at the Fox Valley Tech, or like a week-long
16		training somewhere?
17	-A	It was a week-long training class held by Mike
18		Campbell. He was an officer to the Milwaukee Police
19		Department. He put on the training. I think it was
20		at Lakeshore Technical College, and it was I
21		believe it was one full week.
22	Q	So something locally?
23	A	Yes.
24	Q	Now, your first duty involved in this
25		investigation was, uh, my understanding, um, to

ŀ

1		secure the RAV 4; is that correct?
2	A	Correct.
3	Q	Did you do any processing of any evidence at the
4		scene of the RAV 4?
5	A	No, I did not.
6	Q	I I don't want minimize your role, it's
7		but, essentially, you just stood watch of the
8		vehicle?
9	A	Correct. Initially, I was you know, make sure
10		nobody got near the vehicle, nobody touched the
11		vehicle. Uh, due to inclement weather We had a
12		storm that was approaching. Um, Agent Fassbender was
13		on location with, I think, other DCI officers, and,
14		you know, we were taking measures to make sure that
15		no evidence that was possibly on the exterior of the
16		vehicle would be destroyed with the incoming storm.
17		So they had, um, gone and gotten a tarp
18		and very carefully, uh, tried to protect the
19		vehicle from the elements that were approaching
20		as there was a mist in the air, rain was coming.
21		Um, so they were doing that type of stuff.
22	Q	Once your role as security or securing the, uh
23		the vehicle was completed, were you involved in
24		processing any of that scene?
25	A	With the RAV 4?

I

1	Q	Correct.			
2	A	No, I was not.			
3	Q	So so the next role or duty within this			
4		investigation would have been when you were			
5		assigned to a search team to search the trailer			
6		of Steven Avery?			
7	A	There were a few things I did prior to the execution			
8		of the search warrant at Steve's trailer. Um, you			
9		know, we had K-9s on the property that were searching			
10		the area. So when the K-9 handler showed up, I			
11		directed officers to go with the K-9 officers that			
12		were there with their dogs, and, um, documented times			
13		of arriving on scene, time they completed, who they			
14		were with, what areas they searched, things like			
15		that.			
16	Q	You didn't just sit around? You're doing work?			
17	A	Yes.			
18	Q	Okay. But your next specialized task would have			
19		been to assist in the search of the Steven Avery			
20		trailer?			
21	A	That'd be correct.			
22	Q	How many searches of that trailer were you			
23		involved in?			
24	A	One search that night. I was sent back in, I			
25		believe, on the 7th of November, um, to get a serial			
		21			

N(p) dy

1		number and a model number off of a computer.			
2		Technically, that would be a search. So But that			
3		was our only responsibilities that day was to get the			
4		serial number off the computer and the model number			
5		for Investigator Wiegert.			
6	Q	Prior to entering the, uh, trailer when you did			
7		the initial search, not not the second one			
8		when you went through it to get some model			
9		numbers, did you you indicated that your role			
10		was essentially to oversee, watch, and take			
11		notes?			
12	A	Yes.			
13	Q	Did you first go through, videotape or photograph			
14		the entire residence, to memorialize what it			
15		looked like prior to the scene? To to the			
		-search?			
	—A	Yes. Um, for example, um, Detective Remiker had a			
18		digital camera and Sergeant Colborn had a 35mm			
19		evidence camera. Both of them, before we even			
20		started anything, photographed the entire interior of			
21		the residence before any searching had begun.			
22	Q	Now, you indicated this is kind of a small			
23		trailer?			
24	А	Yes.			
25	Q	Would it be fair to say that it would be best in			

32

.

1		the small setting to have as few people in there?				
2	А	Yes.				
3	Q	And and do you think that you had too many,				
4		not enough, just enough searchers of the				
5		residence?				
6	A	I found it to be adequate. You know, it was hard in				
7		certain areas because it was small and confined. Um,				
8		but we were, you know, in hallways, in in rooms,				
9		and, um, it was adequate, I would say.				
10	Q	When they did the search, since your were,				
11		obviously, you indicated, trying to monitor or				
12		take notes of each individual other three				
13		individuals searching, did they did you				
14		basically go through it methodically one room at				
15		a time, or did everyone just go off on their own				
-16		and you'd tried to follow them around?				
-17		Well, we started out in Steve's bedroom. Um, after a				
18		period of time, you know, like, Lieutenant Lenk had				
19		told me, he said, I'm going to start just looking in				
20		the bathroom for anything obvious. So I relocated my				
21		position into the hallway. I could see, um,				
22		Investigator Lenk, I could see Sergeant Colborn, um,				
23		on this side of the the bedroom. I would could				
24		watch Lieutenant Lenk. He was in the bathroom. But				
25		it was confined to that area. Nobody was allowed to				

12 - 13

1		just wander about the residence, you know.			
2	Q	So there were times when they were in two			
3		different rooms? A bathroom and a bedroom			
4	А	Yes.			
5	Q	for instance? You commented, um, that it's			
6		important to change the gloves as items are			
7		handled?			
8	A	Yes.			
9	Q	Q Is it just any item or just items that have			
10		evidentiary value?			
11	А	We look at it, you know, on scene. Um, we're looking			
12		for major evidence, things like that. We're not			
13		going to touch one thing and then change gloves every			
14		single time we touch something. But if it's			
15		evidentiary in nature, we suspect it might be			
16		evidentiary in nature, yes.			
17	Q	Is is it possible for DNA to be transferred,			
18		though, from touching some items that might have			
19		DNA that maybe you didn't find to have			
20		evidentiary value, and then touching something			
21		that you end up seizing?			
22	A	Sure.			
23	Q	And that could have happened? You don't know			
24		that?			
25	A	In something specific?			
		34			

1	Q	I'm just asking in general.			
2	A	Oh, sure.			
3	Q	If you're not changing your gloves every time you			
4		touch something, that could happen?			
5	A	Right.			
6	Q	If			
7	A	Right. It's not something that you're looking at to			
8		be evidentiary, you move onto the next item. Sure.			
9	Q	But each time you found a an important item,			
10		you would change your gloves?			
11	А	The officers would, yeah. I wasn't specifically			
12		handling the evidence that night.			
13	Q	I'm sorry. I meant I guess I meant			
14		colloquially with you			
14 15	A	colloquially with you Yes.			
	А —Q				
15		Yes.			
15 16	-Q	Yes. all.			
15 16 17	-Q	Yes. all. Yes.			
15 <u>16</u> <u>17</u> 18	-Q	Yes. all. Yes. The other three?			
15 16 17 18 19	-Q	Yes. all. Yes. The other three? Sure.			
15 16 17 18 19 20	-Q	Yes. all. Yes. The other three? Sure. Okay. Now And, again, you're testifying about			
15 16 17 18 19 20 21	-Q	Yes. all. Yes. The other three? Sure. Okay. Now And, again, you're testifying about what some of the other officers found. One of			
15 16 17 18 19 20 21 22	-Q	Yes. all. Yes. The other three? Sure. Okay. Now And, again, you're testifying about what some of the other officers found. One of the officers found the handcuffs, and I'm I'm			
15 16 17 18 19 20 21 22 23	-Q	Yes. all. Yes. The other three? Sure. Okay. Now And, again, you're testifying about what some of the other officers found. One of the officers found the handcuffs, and I'm I'm going to imagine that maybe I'm didn't hear			

I

1	A	Yes.
2	Q	Okay. Were they just lying on the bookshelf?
3	A	I did not see the location inside the shelf. I was
4		standing to the side. He pulled them out and was
5		showing me what he was locating. I was documenting.
6		So where, exactly? Um, they were they were on top
7		of each other? Or right next to each other? That I
8		do not know.
9	Q	Let me ask you this, if you know the answer, why
10		did you take the handcuffs and the leg irons?
11	А	The deputies at that time thought it was potentially
12		something that could be evidentiary.
13	Q	But you left the guns?
14	А	The guns were left in the gun rack.
15	Q	You didn't think that guns might be evidentiary?
 16	A	We figured they probably would, but looking at the
 17		circumference of what we were supposed to do, um,
18		they left them.
19	Q	When the bleach bottle was Now, this was in a
20		separate search; correct? When
21	A	Yes.
22	Q	you found that bleach bottle?
23	А	Yes.
24	Q	Excuse me. Did you Again, your role at that
25		time was the same as before? To document and

1.14

	1		monitor?
	2	A	That warrant I was more involved with the actual
	3		searching. Investigator Baldwin was more the one
	4		assigned to documenting and note taking.
	5	Q	So you would have been the one who actually
	6		physically collected the bot bleach bottle?
	7	А	I was not. Um, Officer Riemer was the one who
	8		actually seized it.
	9	Q	And, again, you're wearing gloves
	10	A	Yes.
	11	Q	at this time? Um, did you process that to
	12		determine if there were any fingerprints on it?
	13		Or is that somebody else's job?
1÷	14	А	That was also my responsibility at a later time.
	15		Deputy Hawkins and myself were assigned to the duties
	16		of processing what we had collected from the scene.
	17		So, yes, that bottle was processed.
	18	Q	Okay. So when you process it and try to extract
	19		fingerprints, then is that sent off to the Crime
	20		Lab for, uh, some sort of, uh, review to
	21		determine whether or not it matches anyone?
	22	A	Our focus for the bleach bottle was not so much
	23		fingerprints. Because it was in, uh, Steve's
	24		trailer, uh, we assumed his fingerprints would be on
i Bi Bi	25		it. We were looking more for any type of DNA

1		evidence, um, blood, or anything like that.
2	Q	But you didn't check to see if someone else's
3		fingerprints were on it?
4	A	We did not check it for fingerprints. We were
5		specifically looking for DNA.
6	Q	When you were You were involved, you
7		indicated, with the second time the RAV 4 was
8		processed. And I guess I shouldn't say second.
9		It may have been processed a number of times. As
10		far as your involvement, you were involved the
11		first time with securing the RAV 4
12	A	Yes.
13	Q	correct? And the second time with obtaining
14		some, uh, uh, swabs of the hood latch?
15	A	Correct.
16	Q	Do you know how many times the vehicle had been
17		opened and closed in between those two times?
18	A	It came from the Crime Lab. Um, it was secured in
19		the storage facility. I don't know exactly the
20		answer to that question, no.
21	Q	So you don't know what the Crime Lab did to the
22		vehicle?
23	A	I have no idea what the Crime Lab did to that
24		vehicle.
25	Q	And when you swabbed the latch, the only you
		38

	1		indicated you swabbed the looks like it the
	2		hood was down, the part that you would would
	3		be facing towards the ground; correct?
	4	A	Yeah. The part that you would commonly use your
	5		finger to pull up on to unlatch the hood the hood.
	6	Q	Did you swab just above the the latch as well?
	7		Or just that lower portion of the latch?
	8	А	I believe I did the lower part and I did all the way
	9		around that. Just did the entire latch, itself.
	10	Q	Okay. So the entire latch?
	11	А	Yeah.
	12	Q	Did you, uh, swab the interior release? Hood
ł	13		release.
	14	А	No, I did not.
	15	Q	Was it because you weren't told to or didn't
			think about doing it?
		- A	Um, we weren't instructed to do that. I don't know
	18		what was done before that. Um, our focus was the
	19		hood latch and other specific areas.
	20	Q	Was it just one swab that you
	21	А	Yes.
	22	Q	Okay. So you didn't have to change your gloves
	23		then?
	24	A	I changed gloves from the time that I swabbed the
	25		door handles to the time that I went and did the hood

E

1 latch. 2 0 When you opened the -- the hood latch, did you 3 change gloves before you swabbed or you used the 4 same gloves that you, uh, opened the hood latch? 5 I think it was one process. You know, I probably Α 6 released it, had the cotton applicator, and 7 immediately did the swabbing of the hood latch. 8 Thank you. Q 9 Nothing else, Judge. ATTORNEY FREMGEN: 10 THE COURT: Any redirect, Counsel? 11 ATTORNEY KRATZ: That's all for this 12 witness. Thank you. 13 THE COURT: You may step down. 14 ATTORNEY KRATZ: State would call Agent 15 Kevin Heimerl to the stand. 16 THE CLERK: Please raise your right hand. 17 KEVIN HEIMERL, 18 called as a witness herein, having been first duly 19 sworn, was examined and testified as follows: 20 Please be seated. Please state THE CLERK: your name and spell your last name for the record. 21 22 THE WITNESS: Kevin Heimerl, H-e-i-m-e-r-l. 23 DIRECT EXAMINATION 24 BY ATTORNEY KRATZ: 25 Good morning, Mr. Heimerl. Could you tell the 0 40

1		jury, please, how you're employed?
2	A	I'm employed with the Wisconsin Department of
3		Justice, Division of Criminal Investigation.
4	Q	And what are your duties with the Department of
5		Justice?
6	A	I'm assigned to the Arson Bureau. It's My primary
7		assignment is to investigate fires. Um, but my
8		duties also include assisting other bureaus within
9		our agency in other types of investigations.
10	Q	In that second regard, that is, assisting other
11		agencies, were you asked on, um, November 5 and,
12		uh, times after November 5, 2005 to assist in the
13		investigation surrounding the death of Teresa
14		Halbach?
15	A	Yes, I was.
16	_Q	Tell the jury, please, how you first became
17		involved in this investigation?
18	A	On, uh, Sunday, I believe it was November 6, I was
19		contacted at my residence, um, by Special Agent
20		Fassbender, I believe, and was asked to respond to
21		Manitowoc County to assist with the investigation,
22		which I did. And I arrived in the early morning
23		hours.
24	Q	How was it that you first assisted in the
25		investigation?

. .

.....

I responded to the command post on Avery Road, uh, 1 А 2 and met with Special Agent Fassbender, and 3 Investigator Wiegert, and other investigators. Uh, received a briefing, um, as to what information had 4 5 been obtained at that point, what some of the goals 6 of the investigation were, and some of the activities 7 that were taking place at the scene. I was then --8 My initial assignment was to respond into the city of 9 Manitowoc to conduct an interview with a citizen. 10 0 Agent Heimerl, of the seven or eight days of 11 that, officers were involved in the, uh, search 12 of -- at least the initial search of the Avery 13 salvage property, how many of those days were you 14 involved in those efforts? 15 I was involved in the, uh, initial investigation at А 16 the scene for approximately the first week. Um, the 17 majority of my time was spent conducting a 18 neighborhood canvass, uh, of the area. 19 0 What is a neighborhood canvass? 20 A neighborhood canvass is simply, um, going out and Α 21 trying to make personal face to face contact with all 22 individuals that reside in the immediate vicinity of 23 the crime, um, or people that may work at businesses 24 or locations in the immediate vicinity, um, and 25 interviewing them and asking them if they have made

42

. . .

1		any observations, seen or heard anything that they
2		feel, or that investigators feel, may be somehow
3		related to the investigation.
4	Q	Directing your attention, then, to, um, the 7th,
5		that would be Monday, the 7th of November, were
6		you involved in, and did you participate in,
7		search efforts of the Avery salvage property?
8	A	Yes. I was assigned to, um, assist with the recovery
9		of some evidence.
10	Q	Describe for the Well, I'm going to have you
11		look at, uh, a photograph, Exhibit No. 95. Tell
12		the jury what it is that Exhibit No. 95 is?
13	А	It's a photograph of a steel burn barrel. It was
14		found in the, uh, front yard area of Steven Avery's
15		residence.
16	Q	And could you tell me where the burn barrel was
		located, please?
18	А	The gravel driveway that you, um, see in the
19		background behind the barrel, uh, is the access
20		roadway, or a driveway to provide access to Steven
21		Avery's trailer and his detached garage. This barrel
22		is north of that driveway, um, and Steven Avery's
23		trailer and garage are south of the driveway and to
24		the right of the barrel as you're looking at the
25	I	
2.5		photograph.

. .

1	Q	Before you're completed, uh, Agent Heimerl, we'll
2		look at some, um, computer-generated images. But
3		as long as we're on, uh, this photo, uh, could
4		you tell us, uh, what it is that we're looking at
5		and what's located outside of, uh, this
6		particular barrel? You might have a laser
7		pointer up there if that's going to help you.
8	А	Is it most convenient if I use the pointer?
9	Q	I think Yeah.
10	A	Uh, to the right of the barrel is, uh, a steel rim
11		from a motor vehicle tire or wheel.
12	[°] Q	Did you have occasion, after, um, this particular
13		burn barrel was turned over for your processing,
14		to view the interior of the barrel?
. 15	A	Yes, I did.
16	Q	Okay. I'm-going to show you what's been marked
17		as Exhibit No. 96. Tell us what, uh, we're
18		looking at, please?
19	А	It's a photograph of the interior of the barrel, um,
20		obviously looking down through the open top of it,
21		um, and burned debris and so forth inside the barrel.
22	Q	Now, when you looked into the interior of the
23		burn barrel, uh, just through your training and
24		experience as a law enforcement officer, and
25		especially with your arson, um, training and

1 experience, were you able to, uh, make any 2 conclusions or identifications at that time? 3 Α When I looked into the barrel, um, and without 4 disturbing anything, I -- it was a -- apparent that, 5 um, all of the material in the barrel had been 6 involved in a fire. That a fired had occurred in the 7 barrel. Um, but I did recognize, um, non-combustible 8 items, metal objects, and what appeared to be 9 possibly glass objects inside the barrel within this 10 debris. 11 In particular, um, I observed one item 12 that appeared to be, um, a panel or a cover for a 13 Motorola electronic device. 14 0 After making these observations, uh, Agent 15 Heimerl, what did you do? 16 Α I fully documented, uh, this scene through 17 photographs, um, and, ultimately, the barrel and its 18 contents were turned over to the custody of evidence 19 technicians that were assisting with the 20 investigation. 21 Um, sometime later, that is, uh, sometime after Q 22 the 7th of November, were you involved in further 23 processing of this barrel? Or was, in fact, 24 that, um, assignment given to somebody else? 25 Α Uh, that assignment was given to others, um, besides

45

1 myself. I was not involved in that process. 2 You are familiar, are you not, with the Q 3 processing of the barrel and what was found 4 inside of it? 5 А Yes, I am. 6 I'm going to have you look at Exhibit No. 97. Q 7 Show that to the jury. Tell us what it is that 8 we're looking at, please? 9 А This is a photograph of, uh, components for three 10 electronic devices that were ultimately recovered 11 from that burn barrel, um, either by, uh, Crime Lab 12 analysts with the Wisconsin State Crime Lab, or, um, 13 the Federal Bureau of Investigation. 14 So these items were examined by, not only our Q 15 State Crime Lab, but also were sent to Virginia 16 to the FBI; is that right? 17 -A-That's my understanding, yes. 18 Q And Exhibit No. 97 is the totality, that is, all 19 of the, uh, electronics as laid out on a table 20 from your understanding; is that right? 21 Α That's correct. 22 0 I'm going to jump ahead, uh, just a minute and 23 hand you what's been marked as Exhibit No. 115. 24 Tell us what Exhibit No. 115 is, please? 25 Α This is a report, a two-page report, of examination

46

ŝ

1		completed by, uh, Mr. Curtis Thomas of the Federal
2		Bureau of Investigation's laboratory. He is in a
3		unit assigned to the Cryptographic and Electronic
4		Analysis.
5	Q	All right. Do you know what that means?
6	A	Well, from the title, I, uh, can surmise that it
7		involves the analysis of electronic devices and, uh,
8		other things.
9	Q	All right.
10	A	That's not my specialty.
11	Q	In that regard, though, and, um, in, uh, your
12		review of Exhibit No. 115, the FBI report, was
13		Mr. Thomas able to positively identify these
14		electronic components that are, um, uh, shown in
15		the photograph in Exhibit No. 97?
16	A	Yes, he was.
17	Q	Uh, we'll talk about the individual, um, uh,
18		findings through some other photos, but, uh, if
19		you could tell the jury, uh, what Mr. Thomas'
20		findings were?
21	A	Mr. Thomas was able to conclude that the components,
22		um, depicted in the photograph, all came from the
23		three electronic devices, which he was able to
24		identify as a Canon A310 PowerShot digital camera, a
25		Motorola RAZR cellular telephone, and a Palm Zire 31

ł

1		PDA.
2	Q	Let's go through those, uh, one at a time then.
3		I'm going to show you Exhibit No. 98. Tell us
4		what we're looking at, please?
5	A	This is a closer photograph of one of those
6		components, which happens to be the front cover plate
7		for a Motorola cellular telephone.
8	Q	And just so the jury understands, these are
9		close-up photographs of the items that were
10		recovered, processed, and eventually identified
11		from that burn barrel outside of Mr. Avery's, uh,
12		trailer; is that correct?
13	А	That is correct.
14	Q	Uh, the FBI was able to compare some of these
15		components to what a new, or a, uh, identical
16		model Motorola V3 RAZR phone looked like? Is
17		that your understanding?
18	А	Yes.
19	Q	I show you what's been received excuse me
20		marked as Exhibit No., um, 99. Tell us what that
21		is, please?
22	A	This is a photograph of two components. The one on
23		the left being the same component we saw in the
24		previous exhibit, the front cover plate for that
25		Motorola RAZR cellular telephone, and it's next to an

1		exemplar telephone of the same, uh, brand and model.
2	Q	All right. Basically, to show the jury where
3		that component comes from on a, uh, a a
4		non-damaged or non-burned phone; is that right?
5	A	Correct.
6	Q	Exhibit 100?
7	A	Again, this is another comparison photograph, um, of
8		the damaged component that was recovered from the
9		burn barrel next to an exemplar of the Motorola RAZR
10		phone.
11	Q	These were To your understanding, they're
12		prepared by the FBI; is that right?
13	A	Correct.
14	Q	And, finally, uh, Exhibit No. 101?
15	А	Again, this is a demon a demonstration photo with
 16		the, uh, component on the left being the fire
 17		-damaged, um, keypad plate, if you will, for the
18		corresponding, um, Motorola cellular phone. Again,
19		the object on the left was recovered from the burn
20		barrel.
21	Q	This same process, that is, the identification
22		process, occurred with the, um, camera that was
23		recovered from Mr. Avery's burn barrel? That is,
24		the Canon, uh, PowerShot A310? I think you
25		testified to that. But I'm going to show you

- 1

2011年1日、1月1日の日本に設置した。1月1日には1日本に設置した。1月1日の日本には、1月1日の日本には、1月1日には1日本には1日本

		,
1		Exhibit No. 102. Tell us what we're looking at,
2		please?
3	А	That is a photograph of one of the components for
4		that Canon A310 PowerShot digital camera, and, uh,
5		the etched or, um, embossed wording, uh, is visible
6		and ides identifies it as a PowerShot A310.
7	Q	As I zoom in, you probably don't have to be an
8		expert to do this, but you can see it says
9	-	PowerShot A310; is that right?
10	А	That's correct.
11	Q	Agent Heimerl, throughout the, um, search of this
12		property, um, and throughout, uh, the
13		investigation, were you asked on occasion to
14		assist in post-recovery analysis? That is,
15		analysis of items that had been recovered from
16		the Avery property?
	- A	Yes, I was.
18	Q	Specifically, the what's been, um, referred to
19		as the burn area or the burn pit behind
20		Mr. Avery's garage, were you at some point asked
21		to assist in the sorting or sifting process, uh,
22		of those items?
23	А	Yes, I was.
24	Q	Could you describe that process for the jury,
25		please?
		50

1 During the initial week of the on-scene Α 2 investigation, other investigators recovered a large amount of burned debris and material from locations 3 4 on the Avery property. Specifically, um, a large 5 burn pit or burn area directly behind Steven Avery's 6 residence, um, and, it's my understanding, as well as 7 other areas where burned debris had been found. 8 Um, in addition to that, several burn 9 barrels, to include the one from the front yard 10 of Steven Avery's residence, were recovered from 11 the scene, and removed from the scene, and all of 12 this material was initially taken to the Calumet 13 County Sheriff's Department. 14 Subsequent to that, the burned debris 15 and material, um, underwent a very detailed 16 examination to attempt to recover any other 17 potential evidence from that material. 18 Q What kind of evidence was, uh, law enforcement 19 looking for at that time? 20 Α We, myself and other investigators, were looking for, 21 number one, any, um, items that we readily recognized 22 or believed could be human remains. Uh, other 23 materials that we felt may have, um, been related to 24 clothing or electronic devices. Um, we were looking 25 for potential weapons, um, bullet fragments, bullet

51

	1		casings, any items that we felt may be relevant to
	2		the death of Teresa Halbach.
	3	Q	This process, this sifting and sorting process,
	4		um, I'm just going to show you Exhibit, uh, No.
-	5		103. First of all, tell us what it is that we're
	6		looking at?
	7	А	This is a photograph that was taken in the basement
	8		of the Wisconsin State Crime Lab in Madison.
	9	Q	And what, uh what does it depict? And if you
1	.0	- -	need to use the laser pointer, go ahead.
1	.1	A	This de depicts, um, basically, the process or the
1	.2		system, um, that we implemented to begin examining
1	.3		this debris. And this examination occurred over the
1	.4		course of four days. The first two days in Madison
1	.5		at this location, and the following two days in April
1	.6		of 2006 at the Sheriff's Department in Calumet
1	7		County.
1	.8		And, uh, what we had, um The the
1	9		individuals in this photograph include
2	0		Investigator Wiegert, myself, Special Agent
2	1		Pevytoe, and, I believe, uh, the individual in
2	2		the back may be, uh, Special Agent Holmes or
2	3		Special Agent Sielehr with DCI, but on this
2	4		occasion in Madison what we did was we happened
2	5		to utilize, um, sections of scaffolding, that

happened to be in the basement, because of 1 certain rem -- remodeling that was occurring, and 2 3 they proved to be very suitable for our process. 4 We would raise the scaffold planking or table, if you will, to approximately waist to 5 6 chet -- chest height, so it made it, uh, more 7 conducive to standing and working, um, in close 8 eyesight. They were covered with tarps. We had 9 supplemental lighting. 10 And the process included bringing a 11 small quantity of debris onto the table in front 12 of you, and utilizing a variety of tools or 13 instruments, such as wooden skewers, or wooden 14 picks, um, maybe putty knives or brushes. We 15 would very thinly and finely layer out the -- the 16 debris, and this debris includes soil, um, and 17 sand, and burned ash and non-burned, or, um, 18 burned non-combustible items. 19 We would layer it out and sift it, if --20 if you will, but not with sifting screens, but, 21 visually, examine it very closely and pick out 22 items that we felt may be human remains, bone 23 material, uh, potentially dental remains, and 24 other non-cumbustible items, metal items that 25 were left behind in attempt to determine what

53

e de la compañía de l

1		they were, and if they were relevant to what we
2		were looking for.
3	Q	Do you know an individual by the name of
4		Dr. Leslie Eisenberg?
5	A	Yes, I do.
6	Q	Who is that?
7	A	Dr. Eisenberg is a forensic anthropologist with the
8		state of Wisconsin.
9	Q	Is Dr. Eisenberg involved in this process?
10	A	Yes, she was.
11	Q	Could you describe and we'll hear from
12		Dr. Eisenberg later this week but can you
13		describe how she may have been involved in
14		overseeing this process with law enforcement?
15	A	She was present with us on the first day in December
16		of 2005 in Madison at the Crime Laboratory, and was
		involved in, uh, the planning, if you will, and the
18		im implementation of this process and assisted
19		alongside of us in going through the same procedure.
20		Um, and if an investigator were to
21		recover an item that they felt was potentially,
22		uh, bone fragments, she was there and available
23		to make a better determination if it was or if it
24		was not.
25	Q	You talked about, uh, bone and other items of

gid.

evidentiary value. Did those include any metal 1 2 items? 3 Α Yes. 4 Q And could you describe that for the jury, please? 5 Α There were numerous metal items that were found among 6 this debris, and that included, uh, ammunition 7 casings, um, miscellaneous items of steel, um, steel 8 belting from tires. Um, in particular, I recall 9 there was a zipper pull recovered. There were 10 clothing rivets recovered. Batteries. Um, guite a 11 wide variety of materials. 12 The clothing rivets, uh, specifically -- I'm 0 13 going to show you Exhibit No. 104. Ask you to 14 tell the jury what it is that we're looking at? 15 Α This is a close-up photograph of a clothing rivet, 16 which is identified, um, through stamping on the head 17 of the rivet with the name Daisy Fuentes. 18 Q Were you involved in the recovery of any of these 19 Daisy Fuentes clothing rivets from, uh, this 20 sifting process? Yes, I was. 21 А 22 Are you aware of how many Daisy Fuentes rivets 0 23 were recovered throughout the entire process? 24 Α There were five of these same rivets recovered. 25 Q I'm going to have Mr. Wiegert show you, uh, just

	1		as an example, what's been marked as Exhibit No.
	2		112. Ask you to tell the jury what that is,
	3		please?
	4	A	This is one of those rivets, as identified in this
	5		photograph, that was recovered from that burned
	6		debris.
Y	7	Q	Repackage it. Thank you. Mr., uh Or Agent
	8		Heimerl, on March 1 of 2006, were you made aware
	9		of the application and receipt of a search
	10		warrant for not only the residence, but the
	11		garage of Steven Avery?
	12	A	Yes, I was.
1	13	Q	Tell the jury how, if at all, you were involved
	14		in the execution of that search warrant?
	15	A	On the afternoon of March 1, or in the morning hours,
	16		I was contacted by Special Agent Fassbender, and
			informed that additional information had been
	18		gathered or gained through the ongoing investigation,
	19		uh, which included statements from Brendan Dassey,
	20		and as a result of those statements, investigators,
	21		um, sought and received a search warrant to return to
	22		Steven Avery's residence and garage to look for and
	23		potentially collect any additional evidence that
	24		investigators felt may be present as a result of this
	25		new information.

l P

ſ

Could you first describe for the jury an overview 1 0 2 of the garage? What was it that you saw upon 3 your arrival on the 1st of March? And, by the, 4 way, this was, uh, later -- uh, later on? Early 5 evening? That is, after Mr. Dassey made his 6 statement? Is that your understanding? 7 That's correct. Uh, investigators arrived at the Α 8 property in the late afternoon hours. I believe 9 approximately 4 to 4:30 p.m. Um, the investigators 10 were divided into two separate teams, if you will. 11 Uh, one team was responsible for 12 conducting the search of Steven Avery's 13 residence. The second team, which I was a part 14 of, was assigned to conduct the search of the 15 detached garage. 16 When we arrived, um, initially, I 17 photographed the exterior of the garage. I noted 18 that the personnel door, um, the walk-through 19 door on the north side of the garage, was locked 20 with a padlock. We made arrangements to make 21 entry into the garage by cutting that padlock. 22 When that was completed, uh, the first 23 thing that was done was the interior of the 24 garage was videotaped. Um, on that day there 25 was, uh, snow on the ground. A relatively good

1 quantity of snow. The overhead garage door was 2 ultimately opened. Um, there was a passenger 3 vehicle that was found parked inside the garage. 4 And after the videotaping was completed, 5 I then, um, conducted photography of the entire 6 interior of the garage, uh, just documenting in 7 an overview fashion of the -- what the interior 8 of the garage looked like. 9 We then, basically, um -- four 10 investigators that were present, uh, which 11 included myself, Investigator John Dedering from 12 Calumet County, Investigator Gary Steier of 13 Calumet County, um, and, eventually, Detective 14 Dave Remiker of Manitowoc County, assumed, um, 15 general responsibilities as working as this -- as 16 this team, and came up with a -- a plan, if you will, uh, or objectives as to how we were going 17 18 to go about searching the garage. 19 Q I'm going to show you Exhibit No. 105, and ask 20 you if you can describe what it is that we're 21 looking at here? 22 Α This is a photograph of the interior of Steven 23 Avery's garage, obviously with the overhead garage 24 door open. Uh, as I took this photograph, I was 25 standing north of the front of the garage in front of

the overhead garage door. This was taken at a point in the evening in which we had done a cursory search, if you will, of the interior of the garage, looking for any readily recognizable items of evidence that we knew, based on Brendan Dassey's statements, that we should be looking for.

1

2

3

4

5

6

7 Some of those had been ad -- identified. 8 Um, the vehicle has been removed at the, uh, time 9 of this photograph, and we have identified with 10 some of these yellow photographic markers, 11 numbered markers, um, the location of some items 12 of evidence that had been found to that point. 13 Q Had you been informed, and was one of the items 14 that you were looking for in this, uh, garage, 15 uh, a item of, uh, paint thinner? 16 Α Yes. 17 Đ-Let me show you what's been marked as Exhibit No. 18 106. Ask you if you can tell me what we're 19 looking at here, please? 20 А This is a photograph of a plastic bottle or jug of 21 paint thinner that was found on the workbench at the 22 rear or south side of the garage in a central area of 23 the south wall. 24 Q Was another specific item that you were looking 25 for and, uh, included, um, in Mr. Dassey's

statement, something called a roller creeper? 1 2 Α Yes. 3 0 And can you tell the jury, and those jurors that 4 may not know what that is, what is a roller 5 creeper? 6 Α I don't have much experience in the automotive work, 7 but I understand a roller creeper is a piece of 8 equipment that, um, if you will, is a bench, a padded 9 bench often, um, that rests on wheels to allow a 10 person to lay on their back on this bench and roll 11 themselves underneath a motor vehicle so they can 12 conduct work on the under -- underside of the 13 vehicle. 14 Were you able to locate a roller creeper within Q 15 Mr. Avery's garage? 16 Α Yes, we did. 17 0-Let me show you what has been marked as Exhibit 18 No. 107. Tell us what we're looking at, please? 19 Α That is a photograph of a roller creeper with the 20 name, uh, labeled on the face of it as a Black Jack 21 brand creeper. This was found in this location which 22 is, um, in the central area of the south wall, 23 basically in the middle of the garage, all the way at 24 the rear of the garage. 25 0 Just so that before I leave this photo, just to

1		the right of the roller creeper is a green object
2		that has some wheels on it. Do you know what
3		that is?
4	A	Yes, I do.
5	Q	What is that?
6	A	The green cylindrical object, uh, behind and to the
7		right of the creeper is an air compressor, and it has
8		numerous additional miscellaneous items stacked on
9		top of it.
10	Q	Now, the I'm going to go back to Exhibit No.
11		105. When we look at the stuff in that garage
12		during the 1st and 2nd of March, were each of
13		those items removed and thoroughly searched?
14	A	Yes, but not I don't know if re removed is, um,
15		a term I would use. We did not physically remove
16		them from the garage. But
17	-Q	They They are moved?
18	A	Yes. Our course of action, uh, beginning on March 1,
19		um, was to physically, visually examine virtually
20		every item within that garage, um, looking for any
21		potential relevance to the investigation based on the
22		statements we had received from Brendan Dassey. Um,
23		examining these items to determine if we could see
24		any visible biological evidence or other forms of
25		trace evidence.

61

.

And in doing so, we began at the -- in this photograph, the front left corner, which would have been in the, uh, northeast corner of the garage, and we proceeded south along the east wall picking up and moving every object. And in most cases, there were multiple objects stacked on top of, say, a snowmobile or a shelf. Each item was picked up, moved, turned over, examined, and set aside. And we'd move onto the next object.

1

2

3

4

5

6

7

8

9

10

11 We proceeded south along the east wall 12 to the corner, and then along the south wall, um, 13 from left to right in this photograph, and, 14 ultimately, finishing on the following day, 15 March 2, coming up along the west wall. 16 Agent Heimerl, once again, based upon statements 0 17of Mr. Dassey, uh, were you looking for, and did 18 the search warrant authorize, a search for 19 bullets or bullet fragments? 20 Α Yes, it did, and we were looking for those items. 21 I'm going to have you, before I leave this, uh --Q 22 this photograph, point out for the jury, uh, 23 what's called Evidence Tent No. 9. Could you 24 tell the jury where that's located? 25 Α No. 9 is located just behind -- The white is the

1		snowbank on the outside of the garage. And just
2		behind there, in the right half of the photograph, is
3		Marker No. 9.
4	Q	I show you, now, what has been marked as Exhibit
5		No. 108. Tell the jury what we're looking at,
6		please?
7	A	This is a photograph, again, of, uh, evidence, or
8		Photo Identification Marker No. 9, taken from
9		standing above it. You can see a crack in the
10		concrete traveling right underneath the marker. Just
11		in front of that marker edge, right where the cursor
12		is now, there's a small, cylindrical, gray object
13		that was ultimately recovered and found to be a
14		bullet, or a portion of a bullet.
15	Q	Mr. Wiegert just handed you, also, uh, what's now
16		been, uh, marked as Exhibit No. 114. It's a a
17		package, and although it, uh, contains, um, an
18		item of evidentiary value with a biological, or
19		potentially biological, material on it, and I'm
20		not going to ask you to open it, can you tell us
21		what Exhibit 114 is?
22	А	This is identified as a bullet fragment, and the date
23		for the recovery is 3/1/06.
24	Q	Is this the bullet fragment that is depicted in
25		Exhibit No. 108, uh, next to, uh, Exhibit Tent

No. 9?

1

2 A I believe it to be, yes.

3 Q Agent Heimerl, I'm now going to show you what has 4 been marked for identification as Exhibit No. 5 109. Tell us what that is, please? 6 This is a photograph that was taken on March 2, the Α 7 second day of our search. From the previous 8 photograph of the overview of the garage that we 9 looked at, um, directly at the back of the garage in 10 the central area of that south wall, we saw the Black 11 Jack creeper and the green air compressor. 12 In that previous photograph, the green 13 air compressor was directly adjacent to the left 14 side of a large rolling tool chest, which we see 15 in the upper right corner of this photograph. 16 The air compressor, and all of the materials were 17 stacked on top, have obviously been removed for 18 this photograph, and Marker No. 23 identifies a 19 bullet which was found under that air compressor 20 near that back wall in the garage. 21 I show you, now, Exhibit No. 110. Tell us what 0 22 we're looking at here, please? 23 Α This is a close-up photograph of that same Marker No. 24 23. Also, in the photograph, is a -- a scale or a 25 ruler. Between the number four and number five on

. 1		the ruler, just above the edge of the ruler, is a
2		round object which is the bullet that was located
3		underneath the air compressor.
4	Q	By the way, this bullet, uh, that it was next to
5		Tent No. 23, and also the bullet next to Tent No.
6		9, uh, were those recovered by your, um, evidence
7		recovery team and, thereafter, sent to the
8		Wisconsin State Crime Laboratory for further
9		analysis?
10	A	Yes, they were.
11	Q	Just to complete the discussion of this
12		particular bullet, um, I'm going to show you
13		photograph 111, ask if you're able to identify
14		that? And Mr. Wiegert's going to also hand you
15		Exhibit No. 113 to assist you in describing
16		photograph 111 as well.
17	A	The photograph is a a photograph of the same
18		object, evidence bag that I'm holding, uh, Evidence
19		Tag No. 8623, which identifies the contents as a
20		bullet fragment that was collected on March 2, 2006.
21	Q	And so that the record is clear, the photo, uh,
	1	
22		of the bullet fragment, what the jury is looking
22 23		of the bullet fragment, what the jury is looking at on their screen, is, uh, Exhibit No. 111. The
23		at on their screen, is, uh, Exhibit No. 111. The

- L

È

-)

1	A	Yes.
2	Q	I'm just going to take a moment to show you a
3	-	couple of exhibits. This is Exhibit 77 that has
4		already been received. It's a computer-generated
5		image created by Trooper Tim Austin. Um, does
6		this exhibit assist you, or will it assist you,
7		in describing for the jury where those two
8		bullets were found?
9	A	Yes.
10	Q	Why don't you take your laser pointer and tell
11		the jury?
12	A	The first bullet that I described, which was in the
13		crack of the concrete, is in the area of the No. 9
14		marker in the foreground of the garage. The second
15		bullet bullet that we just discussed, No. 23
16		marker, was found at the rear, or south side of the
17		garage, directly next to the tool chest. Um, I
18		believe the black rectangular object here is meant to
19		depict the location of the creeper. What is not
20		identified in that photograph is the location or the
21		presence of the green air compressor.
22	Q	And the last, uh, exhibit that I want to show you
23		has been received as Exhibit No. 67. Does this
24		contain the, um, burn barrel, and will this
25		assist you in describing where that was recovered

...,

	1		and processed by you?
· · ·	2	A	Yes.
	3	Q	Would you just describe that for us, please?
	4	A	This is, uh, Steven Avery's trailer. His detached
	5		garage. Here's the gravel roadway that I described
	6		earlier. And this is the burn barrel that was
	7		ultimately recovered that contained the burned
	8		electronic components.
i e	9	Q	Contained the, um, Motorola, um, V3 RAZR phone,
	10		the Canon PowerShot A310 camera, and the Palm
	11		Zire 31 PDA. Is that your understanding?
	12	А	That's correct.
	13	Q ·	And, again, that is verified and, um, positively
	14		identified by FBI and also Mr. Thomas; is that
	·15		right?
	16	A	Correct.
	17		ATTORNEY KRATZ: With that, Judge, I'm
	18		going to move the admissions of Exhibits 95
	19		through 114, and I have no further questions of
	20		Agent Heimerl.
	21		THE COURT: All right. Is there any
	22		objection to these exhibits?
·	23		ATTORNEY FREMGEN: No, Judge.
	24		THE COURT: Since there are none, the
	25		exhibits will be received. I think, uh, this is an
			67

· · ·

....

1 appropriate time to take a morning break. We'll 2 take a 15-minute recess. 3 (Recess had at 10:04 a.m.) (Reconvened at 10:29 a.m.) 4 5 THE COURT: I think we've reached the point 6 where this witness is set for cross-examination. 7 Mr. Fremgen? 8 ATTORNEY FREMGEN: Judge, I think the 9 State wanted to -- Did -- Didn't you want to 10 include 115 in that offer? 11 ATTORNEY KRATZ: We did. THE COURT: Right. Uh, no objection to 12 13 115? 14 ATTORNEY FREMGEN: No. 15 THE COURT: Received. Go ahead, 16 Mr. Fremgen. 17 ATTORNEY FREMGEN: Thank you. 18 CROSS-EXAMINATION 19 BY ATTORNEY FREMGEN: 20 Q Agent Heimerl; correct? 21 Α That's correct. Yes. Thank you. 22 0 Okay. You were testifying about the burn barrel 23 in your direct, and I have what's up -- Uh, 24 well -- I have up on the screen, again, uh, 25 what's been marked as State's Exhibit No. 80 --

68

3.)

1		or 95? It's a photograph of that burn barrel; is
2		that correct?
3	A	That's correct.
4	Q	You can see it from there?
5	A	Yes, sir.
6	Q	Okay. Now this is the barrel you indicated that
7		you first did a visual observation without going
8		into the barrel, itself, and noted metal and
9		glass within the debris?
10	A	Yes, I did.
11	Q	And you I think you indicated you also,
12		visually, identified the Motorola cell phone?
13	A	I could see that component. That cover piece with
14		the very distinctive Motorola "M" on it. And that
15		was on top of the debris. I could see that.
16	Q	Okay. Now, looking at that burn barrel, the
17		location is approximately in front of the Avery
18		trailer? Or, I guess, if you want to say, kind
19		of a triangular, uh, angle from the trailer and
20		the garage; correct?
21	A	That's correct. It's almost, um, due north of the
22		garage and northeast of the trailer.
23	Q	So that would be that opening the gar the
24		actual main entrance of the garage?
25	A	Correct.

1	Q	On the barrel, did Can you see from where
2		you're at, or do you have the picture in front of
3		you?
4	A	Both. Correct.
5	Q	Okay. Does it appear to have bullet holes in the
6		barrel? I know you're not an expert on I'm
7		not asking about your expertise in the area of
8		of, uh, firearms or ammunition, but you're an
9		off you're an agent; correct?
10	A	Yes, I am.
11	Q	You've fired a firearm?
12	A	Yes, I have.
13	Q	Familiar with what a bullet hole might look like?
14	A	Yes.
15	Q	Does it appear that like it has bullet holes
16		in the barrel?
17	A	All I can say is that there are circular penetrations
18		in the barrel.
19	Q	Okay. And I don't need you to go any further if
20		you don't have ability to tell whether or not
21		that's from a bullet or something else. It's
22		a but appears to have some sort of circular
23		indentation in the side?
24	A	Yes.
25	Q	Now, in the burn area, you actually found shell

. .

70

.....

1		casings; correct?
2	A	In the material that came from the burn pit to the
3		burn area, yes, there were ammunition
4	Q	Did you find I'm sorry.
5	А	There were am ammunition casings found.
6	Q	Did you find the same in when you sifted
7		through the barrel?
8	А	I did not, um, examine the debris from the barrel.
9		From this barrel.
10	Q	So someone else sifted through the burn barrel?
11	А	That's correct.
12	Q	Your observations were just visual?
13	А	Of what?
14	Q	The burn barrel.
15	А	That's correct.
16	_Q	When you sifted, did you through the burn
17		area, now. We're beyond the burn barrel. Did
18		you actually set up the procedure for sifting
19		through that burn area?
20	А	I did not. It was, uh, um Special Agent Pevytoe
21		had an idea in his mind as to what procedure he
22		wanted to follow. He presented that to those of us
23		that were there, and we all agreed that that was a
24		appeared to be a sound and good procedure to follow.
25	Q	Now, you indicate that your primary expertise

~ 4

C.C.C.

1		with the with the DCI would be in arson
2		investigations?
3	A	That's correct.
4	Q	So you're familiar with going through, um,
5		charred remains like, for instance, buildings?
6	А	Correct.
7	Q	Um, would a burn area like this be unusual for
8		you in your investigation experti or, uh,
9		experience?
10	А	Uh, no, it wouldn't. In fact, I've participated in
11		examinations of, um, burn areas or burn pit areas, if
12		you will, on at least one other occasion looking for,
13		um, similar types of evidence.
14	Q	When you set up the investigation, or the actual
15		sifting, then, through this burn area, did you
16		set it up where you, uh, indicated some sort of
17		grid-like, um, procedure so you could identify
18		what location items had been taken out of, or
19		boxed, when you were digging out and putting it
20		into something to take back to the Crime Lab?
21	A	You maybe misunderstood, only because it was not I
22		don't think I was asked earlier, but to clarify, when
23		the material, and burn debris, and soil, and material
24		was removed from the burn pit, and initial
25		examinations were conducted at the burn pit, I was

1 not present and involved in it. I was -- at that 2 time, during that first week, was involved in the 3 neighborhood canvass aspect. 4 Q Okay. 5 А The examination of the debris that I testified under 6 direct exam, um, was conducted after all of the 7 material had been removed from the Avery property in, 8 um, various containers and brought to the Crime 9 Laboratory. That's where that examination was 10 completed. 11 So your in -- sifting involvement would have been Q 12 at the Crime Lab? 13 At the Crime Lab and at Calumet County Sheriff's Α 14 Department. Yes. 15 0 In regards to your involvement with this 16 investigation, were you aware of what type of 17 sifting or -- or the procedure that went on 18 actually at the burn area? 19 Α No, I was not. 20 Q When you went through the items that were taken 21 to the Crime Lab, were they in separate boxes? 22 Or how -- Actu -- How were they stored and -- and 23 transported to the Crime Lab? 24 Α When we examined the debris at the Crime Lab, it was, 25 um -- on the first two dates, December 19 and 20 of

2005, the majority of that material I -- I recall 1 2 came out of large tarps. Um, the material had been 3 placed on large tarps, and then secured or taped If you'd take, say, a bedsheet and bring the 4 closed. 5 corners up, twist it, and turn it, and secure it with 6 tape, that's how it was brought to the Crime Lab. 7 Um, on the second occasion, in April of 8 2006, the majority of the debris that we examined 9 on that occasion was in individual five-gallon 10 plastic buckets. 11 Okay. Were they labeled as to where they were Q 12 taken from the -- from the burn area or the burn 13 pit? 14 А I know that they were labeled. The -- the buckets, 15 in particular, and the tarps, for that matter, I 16 believe, were labeled as to where they were collected 17 from, but I was not involved in the actual collection 18 of that material. 19 0 Were you involved later in the process of 20 organizing that in some sort of a -- a diagram of 21 where each items were found within the burn pit, 22 itself? 23 Α No. 24 Q So you wouldn't have no idea where items might 25 have been located in the burn pit?

1	A	No.
2	Q	Are you aware of whether every item that was in
3		that burn pit was brought to the Crime Lab and
4		and reviewed by you or your your crew of of
5		techs?
6	A	I believe that It's my understanding that all of
7		the material that was removed, all burned and soil
8		material that was removed from the Avery property,
9		was examined by an investigator over the course of
10		those four days, as well as prior to that.
11		I believe, uh, Special Agent Pevytoe had
12		done some examinations with other agents. I say
13		that because I know that it was our goal to
14		visually examine and go through all of the debris
15		that came out of the burn pit, as well as other
16		areas, as I alluded to, stated was in the
17		buckets. And when that was finished, when we
18		went through all of that material, it was my
19		understanding everything had been done.
20	Q	Did you receive, or do you recall, as one item
21		that was brought to the Crime Lab, uh, the, uh
22		a burned out van seat?
23	A	I I was not involved in the examination of that.
24	Q	Okay. So you didn't personally investigate or
25		review that, uh, van seat?

. 1

. .

75

nais.

.

1 A No, I did not.

2	Q	Do you recall, though, if it was actually at the
3		Crime Lab when your, um your team was
4		reviewing the going through the sift or
5		sifting through the burn area buckets to
6		determine if there were bones or, I think you
7		mentioned, metal objects?
8	A	I don't know if it was there or not.
9	Q	When you were sifting through You You
10		You indicated that at some times there were a
11		forensic anthropologist there to assist in
12		determining whether something might be a suspect
13		bone fragment or or something that she might
14		be interested in looking at; correct?
15	А	Correct.
16	Q	As the, uh, Crime Lab technicians, including
1.7		yourself, went through and sifted, you're going
18 ·		through dirt; correct?
19	А	It's dirt and then ash.
20	Q	Were you using anything like a brush or a water
21		bottle to clean off items that you thought were
22		suspected evidence?
23	А	I'm sorry, you said a brush and a what?
24	Q	A brush or some sort of a like a water, uh,
25		jar, squeeze water to squee to clean the

1 item off? 2 Α No, we did not use any water rinsing. Um, and, 3 basically, it came down to the preference of the 4 investigator as to if they preferred to use it 5 just -- uh, do this process just with their hands, or 6 if they preferred to use a -- a wooden skewer, or a 7 pick, um, or if they wished to use a brush, or a 8 putty knife. It's personal preference, but some of 9 those instruments were used. 10 Q Okay. No one -- You know, this may sound silly, 11 no one was told, go ahead, blow on it, get rid of 12 the -- the dust or the dirt? 13 No. Α 14 That could potentially contaminate that Q Okay. 15 with that investigator's saliva; correct? 16 Α I believe that's a potential. 17 0-So you guys sat down and talked about what 18 procedures you're going to take in sifting 19 through these, um, buckets and -- and the bags of 20 debris taken from the area before you actually 21 started, uh -- the, uh, sifting? 22 Α Correct. 23 Q You mentioned that you were involved on the team 24 on approximately March 1, or maybe it was on 25 March 1, 2006, in the Avery garage?

1	A	Yes, it was March 1 and 2.
2	Q	And 2nd. And I believe you indicated that you
3		the search, itself, was somewhat methodical? One
4		person went in and videotaped the garage first?
5	A	Correct.
6	Q	Um, and then How many were on your team
7		searching?
8	A	On March 1 it was, uh, four. Four individuals. And
9		on March 2, uh, one additional, Agent Roswell, joined
10		us.
11	Q	Did you videotape the actual search, itself?
12	A	No.
13	Q	Just the before and after?
14	А	Correct.
15	Q	When you went through the search, you indicated
16		that you started from one corner of the garage
17		and worked your way in a horseshoe around to the
18		other; correct?
19	A	That's correct.
20	`Q	When you When you first went through the
21		garage
22		ATTORNEY FREMGEN: And if I could ask
23		the State to put up I believe it's Exhibit
24		105. The photo of the garage.
25	Q	(By Attorney Fremgen) Do you have State's
		78
	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23 24	2 Q 3 4 4 4 5 A Q 7 4 7 4 9 7 10 7 11 Q 11 Q 12 A 13 Q 14 A 13 Q 14 A 13 Q 14 A 15 Q 16 7 17 8 18 0 16 7 17 18 18 1 19 A 20 Q 21 2 23 2 23 2 24

14.	1		Exhibit 105 before you?
	2	A	Yes, I do.
	3	Q	And, again, this is, uh, Steven Avery's garage;
	4		correct? On March 1, 2006?
	5	A	Correct.
	6	Q	And this a view after you have opened the garage
	7		door? The the main overhead door?
	8	A	Correct.
	9	Q	Was there a vehicle in the garage when you first
	10		arrived there to search the garage?
	11	A	Yes, there was.
	12	Q	And you had to remove the the vehicle?
4	13	A	Yes.
	14	Q	How did you get it Did you drive it? Push it
	15		out?
		A	A tow truck.
		-0	Okay. When Was there someone in the garage
	18	~	watching in case car knocked over a shell casing
	19		or moved some item of debris within the garage?
	20		Just to make note of that?
	21	А	Yes. We were present in the garage as it was being
	22		removed, but, um, vehicle was parked in the garage
	23		similar to the way any of us parked a vehicle in the
	24		garage. It did not come into contact with anything
	25		else as it's being moved.

	1	Q	Okay.
1.22-1	2	A	And removed from the garage. So I don't believe that
	3		was a concern.
	4	Q	You You noticed on the picture Again,
	5	}	it's I believe it's Exhibit is 1-0 105.
	6		You refer to them as tents or evidence tents?
	7		Those are those little cones or numbered cones?
	8	A	They Various terms. They could be marking
	9		evidence, or they could just be, uh, for for
	10		photographic ref uh, reference.
	11	Q	Okay. Some of those don't Well, let me ask
	12		you this: When the when the car was in the
	13		garage, you can you can see in the picture
	14		there seems to be a tire track?
	15	А	Yes, I see that.
	16	_Q	Like a white tire track in the middle?
	17		Yes.
	18	Q	That's where the the that, uh, Suzuki was?
	19	A	I I don't know that because the vehicle that we
	20		removed was not a Suzuki.
	21	Q	Oh. I'm sorry. Whatever the vehicle was that
	22		was in the garage, that's where that was?
	23	A	It was in that area. In the large open area. If you
	24		see the if I can point to the
	25	Q	Sure.

1 2 3 4	A	black object right here, this is an engine hoist.
3 4		
4	1	The vehicle was here to the left of it in the open
		bay.
E	Q	Okay. So there was some items that you located
5		and marked with those yellow tags that weren't
6		covered by the vehicle; correct?
7	A	I don't know if I understand your question, sir.
8	Q	They weren't concealed. The vehicle wasn't on
9		top of any some of the items that you you
10		note in this picture; correct?
11	A	I I still don't know if I can answer that. And
12		I I
13	Q	Let me ask it a third way. Maybe that will
14		I'll try a third way. Could you see some of the
15		items when you walked into the garage originally?
16		The videotape? The items I mean would be the
-17		ones that you've marked with these yellow cones
18		or tents?
19	А	Some of these yellow markers, specifically the ones
20		around the back of the garage, are next to circles
21		that are drawn on the concrete floor, and the reason
22		some of these, in particular No. 10, appears to be
23		where the car would have been, if I can explain how
24		this occurred, after we entered the garage and
25		videotaped the interior, did a cursory search, we had

identified the presence of the Black Jack creeper, we had identified the presence of some paint thinner jugs, and other things that we believed were items that we were going to collect.

18

We also became aware of some of these circles that were on the floor. It was my understanding, I was informed, that those had been placed on the floor by Crime Lab personnel during a previous search, and identified areas that may have, uh, luminesced from luminol.

So we identified those just for identification purposes that they are here. At that point, um, we then removed the vehicle, and I felt as long as the vehicle was out of the way, let's take a photograph of where our markers are. And that's why some of these markers, in particular, as I said, No. 10, is under the vehicle.

19 0 Okay. Thank you. That clarifies that. So when 20 you did your search on March 1 and into March 2, 21 the only two items, I think -- well, that you 22 testified -- correct me if I'm wrong -- that you 23 would have -- would have been new, would be No. 9 24 and No. 23, the one underneath the compressor 25 that, as of yet, in this picture, isn't marked?

1	A	I'm sorry? That would have been new?
2	Q	Would have been new items that came to your
3		You know, you said you mentioned that someone
4		else came through and searched previously;
5		correct?
6	A	In November of 2005.
7	Q	And they circled some areas on the ground and on
8		the pavement in the driveway in the garage;
9		correct?
10	А	Correct.
11	Q	And you noted those circles; correct?
12	А	Correct.
13	Q	And you put the little marking next to those
14		little white circles?
15	А	Correct.
16	_Q	That wasn't something that you just found;
17		correct? It was some some subject or some
18		item that previous search team thought was of
19		interest; correct?
20	A	Well, to answer your question the way you you
21		stated it, it was something that, yes, I did just
22		find, because this is the first occasion I had been
23		in the garage. I saw that there were circles, and I
24		was informed that those circles had been placed by
25		Crime Lab personnel to identify areas that had

.....

TRUE WIT

83

1 reacted through luminol. So for the sake of 2 photographic documentation, we placed markers next to 3 those. That does not mean that we specifically 4 collected an item of evidence from, say, Marker No. 3 5 or Marker No. 4. 6 Which items did you actually, specifically, 0 7 remove an item of, uh, evidentiary value then? 8 Well, this photograph was taken in the early evening А 9 hours of March 1, and there was a great deal of 10 searching that took place after this photograph was 11 taken, and many items of evidence were collected 12 after this photograph was taken. 13 As each individual item of evidence was 14 found, or something was identified that we felt 15 was going to be an item of evidence and we were 16 going to collect it, we would place an -- an 17 evidence photographic marker next to it, 18 photograph it, measure it, and collect it. So 19 there are many numbers that come after the 20 highest number in this photograph. 21 Q You mentioned there was a prior Crime Lab taper, 22 or Crime Lab technician, that came through, made 23 those circles, where you noted had been positive 24 for the luminol testing; correct? 25 That's what I was told. А

1	Q	What you were told? So someone else went through
2		the garage before you'd gone through the garage
3		on March 1?
4	A	That's correct.
5	Q	And No. 9 on the picture, uh, notes, apparently,
6		a bullet fragment that you found; correct?
7	А	Correct.
8	Q	And it's in a crack in the pavement of the the
9		garage floor?
10	А	Correct.
11	Q	Okay. So so I would assume, correct me if I'm
12		wrong, that someone missed that the first time?
13	A	I don't know as if I I can assume that. All I can
14		say is that on March 1 I happened to be walking in
15		the garage, and I stopped, and I looked down, and I
16		saw the gray object that struck me as being similar
-17		in color to the lead from a bullet, which which
18		caused me to examine it closer.
19	Q	Just walking into the garage you saw it and made
20		note of it?
21	А	Yes. In fact, several other investigators had
22		already been into the garage. I happened to be in
23		this front corner of the garage looking with a
24		flashlight at the floor in the early stage of the
25		search, and looked down, and, as I said, I saw a

,

1 light gray-colored object that -- I knew in my mind 2 that we need to be looking for bullets. That looks 3 to be the color of lead from a bullet. 4 Did you process -- And what I mean by that is, Q 5 did you take uh, uh, swabs of -- of the bullet, 6 for instance, and the creeper, while you were in 7 the garage? 8 А No, we did not. 9 Did -- So no one in your team actually swabbed 0 10 any of those items to determine if there was any 11 potential DNA evidence? 12 А Not on the items as stated, no. 13 I'm sorry. I didn't hear. 0 14 Not on the items that you just stated, no. Α 15 0 Okay. Any item -- any items in the -- the garage 16 that you did that to? 17 А The swabs were collected on the 2nd, yes. 18 0 What were the swabs collected? What -- what 19 items were swabbed? 20 Α The red tool chest at the back of the garage was 21 swabbed. 22 Q Any reason why you didn't swab the creeper? 23 Α Uh, we -- we need to make a decision. Are we going 24 to try and collect any visible stains here in the 25 field? Or is it more practical to collect this

object in its entirety as a whole, if it is portable, 1 2 can we package it sufficiently and protect any 3 evidence that may be on it, and transfer it to the Crime Lab? And that's what we chose to do. 4 5 So you actually did transport the entire creeper 0 6 to the Crime Lab? 7 А I did not. It was collected and packaged and removed 8 from the garage. And any further analysis or testing 9 at the Crime Lab became someone else's 10 responsibility. 11 0 Someone in your team packaged the creeper; 12 correct? 13 Α Yes. It was removed from the garage, and it was 14 collected and packaged for transport away from there. 15 ATTORNEY FREMGEN: I have nothing else. 1-6 THE COURT: Redirect? 17 REDIRECT EXAMINATION 18 BY ATTORNEY KRATZ: 19 Mr. Fremgen suggests that law enforcement Q 20 officers may have missed something before March 21 1. Isn't it true that it wasn't until March 1 22 that law enforcement was even told that Teresa 23 Halbach was shot in the garage --24 А That's correct. 25 -- that you (inaudible.) Q

That's correct. 1 Ά 2 Q And that was by the defendant, Mr. Dassey; is 3 that right? 4 Α Correct. 5 ATTORNEY KRATZ: That's all I've got, 6 Judge. Thank you. 7 ATTORNEY FREMGEN: Just --8 THE COURT: You may step down. 9 ATTORNEY FREMGEN: -- one moment, Judge. 10 Nothing more, Judge. Thank you. 11 THE COURT: You may step down. 12 ATTORNEY KRATZ: State would call Dan 13 Kucharski to the stand, please. 14 THE CLERK: Please raise your right 15 hand. 16 DANIEL KUCHARSKI, 17 called as a witness herein, having been first duly 18 sworn, was examined and testified as follows: 19 THE CLERK: Please be seated. Please state 20 your name and spell your last name for the record. 21 THE WITNESS: Daniel J. Kucharski, 22 K-u-c-h-a-r-s-k-i. 23 DIRECT EXAMINATION 24 BY ATTORNEY KRATZ: 25 Mr. Kucharski, how are you employed? Q 88

la Sa Balaiste	1	А	I'm employed by the Calumet County Sheriff's Office.
	2	Q	How long have you been on the a police
	3	×	officer?
	4	A	I've been with Calumet County for about four years,
	5		and two years before that with another agency.
	6	Q	What are your current duties with Calumet County?
	7	A	I'm a patrol deputy with the additional duties as an
	8		evidence tech and armor for the county.
	9	Q	Were you asked, Deputy Kucharski, to assist in,
	10		uh, search and other investigative efforts
	11		regarding the death of Teresa Halbach?
	12	A	Yes, I was.
	13	Q	I'm going to move, um, right ahead to your
	14		specific areas of, uh, involvement, specifically,
	15		to Sunday, the 6th of November. Were you asked
	16		to proceed to what's now known as the Avery
	17		salvage property?
	18	А	Yes, I was.
	19	Q	What were your duties on the 6th of, uh,
	20		November?
	21	А	I was assigned a a search team that included, uh,
	22		Lieutenant Lenk, Sergeant Colborn, and Detective
	23		Remiker. We were given, uh, several areas on the
	24		property to search different times of the day.
	25	Q	Speak up just a little bit. I'm sure we would

1		appreciate it. Uh, do you have, and did you
2		have, prior to the 6th of November, any specific
3		training and experience as an evidence
4		technician?
5	A	Yes. I went through the two-week evidence technician
6		school at Fox Valley Technical College.
7	Q	On the 6th of November, uh, were you asked, and
8		did you, in fact, perform a search of the, uh,
9		detached garage of Steven Avery?
10	А	Yes, I did.
11	Q	Could you describe on that early stage, that is,
12		just in the first full day of searching of that
13		property, describe what it was that you were
14		looking for in that garage?
15	А	Basically, myself and my team were sent to the, uh,
16		garage for a general search. We were looking for
17		general, um, items that made a point as to a crime
18		that had been committed. Um, nothing specific at
19		that time were we looking for.
20	Q	And, in fact, on that, uh, early date, uh, did
21		you have, um, a detailed or a solid understanding
22		what it was you were looking for?
23	A	Not at all. There was very little guidance. Um, as
24		the facts would roll in, we would get, uh, more
25		specific things. As the days went past, we'd get

-

more specific things to search for and to collect. 1 2 Uh, that was my first day of actual evidence 3 collecting and searching, um, very general. 4 All right. I've got some photographs that will Q 5 assist. I show you what's marked as Exhibit 116. 6 Tell the jury what this is, please? 7 Α This is a photo of the inside of the garage that, uh, 8 we searched on that Sunday. So it would be towards 9 the, um -- the front or overhead door looking back 10 towards the, um, southeast corner of the garage. 11 Q There are two large objects, two vehicles, if you 12 will, that are depicted in this particular 13 photograph. Could you describe those for the 14 jury, please? 15 Α It's a Suzuki Samurai automobile and a, um, Ski-doo 16 Mach 1, um, snowmobile. 17 Q And is this photograph taken and does it 18 accurately depict how Mr. Avery's garage looked, 19 uh, on the 6th of November? 20 Α Yes, it does. 21 Q The back of this photograph you see a, uh -- a 22 Black Jack creeper? 23 Α Yes. 24 Q And I've zoomed in a little bit, uh, to that. 25 You can see it on the -- the large screen. Um,

1		on the 6th of November, did you have any
2		indication that that Black Jack creeper may, in
3		fact, have any evidentiary value?
4	A	No. Nothing stood out.
5	Q	Did you have a general impression of this garage
6		when you first walked into it? Can you give the,
7		uh, jury kind of a flavor of it?
8	A	I would say it was a typical garage on the messy
9		side. Um, the west side of the garage was piled up
10		with types of, um, uh, machinery, junk, um, things
11		like that, several feet deep on that west side.
12		Um, along the back of the garage, that
13		would be the south side of the garage, was
14		also had equipment and junk on it. Not quite as
15		deep as that that west side.
16		Then on the east side of the garage,
		into the garage, there's also a pile of junk.
18		Um, the floor was a typical garage floor with,
19		uh, stains on it, dirt.
20	Q	At some point was that snowmobile removed from
21	:	the garage?
22	A	Yes. At one point, uh, towards the end of our
23		searching, we wanted to see look underneath the
24		snowmobile, so we removed it from the garage.
25	Q	All right. And, again, since this was a a

E

relatively cursory search, did you believe that 1 2 you or other law enforcement officers would have 3 an opportunity to go back into this garage and re-search it if you need -- needed today? 4 5 Yes. As -- as more information came in, more А 6 specific information came in, we would go back to 7 places that we had -- had already searched looking 8 for specific things. I'm showing you Exhibit No. 117 now. 9 0 It's on the 10 large screen. Is this a photograph after the 11 snowmobile's been removed? 12 Α Yes. 13 Could you, uh, describe some -- And I think you 0 14 have a laser pointer up there. Describe some, 15 um, landmarks or specific, uh, areas that you 16 observed on the 6th of November? 17 Α Well, after we, um, removed the snowmobile, we could see more clearly, um, the -- a crack running, uh --18 19 be north and south, and one east and west. Uh, these 20 are the scratches made by the, uh, snowmobile pulling 21 in and out of the, uh, um, um, garage. There were 22 scratches already on the floor before we pulled it 23 out, because they obviously had to get it in there 24 Um, that's what we saw when we pulled the somehow. 25 snowmobile out.

1	Q	All right. There's a riding, uh, lawnmower?
2		Looks like a John Deere lawnmower to the right;
3		is that right?
4	A	Towards the back here in this area. Riding
5		lawnmower.
6	Q	Large red tool chest? Show us that?
7	А	Stand-up tool chest in the center area here towards
8		the back wall.
9	Q	Next to that tool chest, on the 6th, I can see a,
10		uh a green air compressor. Do you see that in
11		the photograph?
12	A	It's dark, but it's right here, the green air
13		compressor on the floor next to the tool chest.
14	Q	Now, for the jury's benefit, were, um, many or,
15		in fact, any of those items removed? And did you
16		search behind or under them? Or was it that
17		thorough of a search on the 6th?
18	А	It was a general search. We You know, on the most
19		detailed search, we would have pulled everything out
20		of the garage. We, obviously, didn't do that. Um,
21		the only thing we pulled out was the the sled, um,
22		because we couldn't see underneath it, uh, readily,
23		and it was out in the open anyways. We didn't take
24		out any of the things along the back wall or the side
25		walls.

,

1	Q	All right. The floor of this, uh, garage you had
2		described briefly, but I'm going to show you
3		Exhibit No. 118. Tell us what we're looking at
4		here, please?
5	A	It's little bit closer view of the, uh, floor after
6		the snowmobile had been pulled out.
7	Q	During your search of the garage, did you have
8		occasion to, uh, find any, um, what are referred
9		to as shell casings?
10	A	Yes. We found, located and collected several .22
11		caliber long rifle shell casings.
12	Q	I'm showing you what's been marked as Exhibit No.
13		119. Tell the jury what we're looking at here,
14		please?
15	А	This is one of the shell casings that we found in
1.6		place on the floor of the garage on the date we
17		searched it.
18	Q	All right. Did you take a photograph of more
19		than one shell casing?
20	A	We photographed more than one shell casing. We took
21		as many photographs of the shell casings that we
22		could. Some were behind things that we couldn't
23		readily photograph. We collected those and, uh, put
24		them altogether into a box.
25	Q	If you remember, Deputy Kucharski, on the 6th of

1		November, uh, can you remember, and can you tell
2		the jury, how many shell casings were recovered
3		from that garage?
4	A	There were either 10 or 11 shell casings recovered.
5	Q	In fact, now I'm going to show you Exhibit No.
6		120, I believe. Tell us what we're looking at
7		here, please?
8	A	This is the pill box that I put the, um, shell
9	27	casings in, photographed, um, after it had been
10	-	entered into evidence.
11	Q	And as you sit here, are you able to tell the
12		jury, and can you count, how many shell casings
13		are in that pill box?
14	A	I count 10 uh, I count 11 in this photograph.
15	Q	All right. And, again, those were recovered from
 16	[inside the garage on the garage floor; is that
 17		right?
18	A	That's correct.
19	Q	What exhibit, uh, was that that you were just
20		handed?
21	А	(No verbal response.)
22		THE CLERK: One twenty-eight.
23		ATTORNEY KRATZ: One twenty-eight?
24	Q	(By Attorney Kratz) I'm sorry. We've handed you
25	1	what's been marked as, uh, Exhibit 128. Tell us
		96

1	1		what that is, please?
	2	А	It appears to be the the box with the $.22$ shell
	3		casings.
	4	Q	All right. After you recovered those shell
	5		casings, do you know what happened to them?
	6	А	After I sealed them in the package and put them into
	7		the, uh, paper bag and enter those into evidence at
	8		the Calumet County Sheriff's Department, and I left
	9	-	it in the care and custody of the, uh, evidence
	10		custodian.
	11	Q	Now, you didn't perform any analysis on those
	12		shell casings? In other words, you aren't
2	13		qualified to compare, uh, shell casings to
	14		specific firearms, are you?
	15	А	Correct. I just collected them. I didn't do any
	16		analysis on them.
	17	Q	Is it fair to say that that is a a discipline
	18		or a science that is left to somebody with
	19	1	greater expertise than you have?
	20	А	Yes.
	21	Q	Deputy Kucharski, after the, uh, garage was
	22		searched in relatively general fashion, do you
	23		recall, um, what other searches were performed on
	24		the 6th of November?
	25	A	Only the searches that my team did. Um, directly

þ

ł

1 after we finished up with the, uh, search of the 2 garage, I was called over to a area behind the, uh, 3 Janda residence to take some burn barrels, um, that 4 were waiting to be loaded up and taken -- entered 5 into evidence. 6 Um, after that, I was given the 7 assignment --8 Q Let me just stop you there. I'm going to show 9 you what's been marked as Exhibit No. 121. Tell 10 us what we're looking at here, please? 11 Α Those are the burn barrels that I tagged, and they 12 were lowered onto a trailer that you can see the ramp 13 on there, and they were taken. 14 Q After the search of the, um, burn barrels or --15 excuse me -- the recovery of, uh, the Janda and, 16 uh -- That's Mr. Dassey's residence as well? Is 1.7that your understanding? I -- I don't know. 18 Α 19 Q Okay. You knew that it was Barb Janda's --20 А Yes. 21 -- trailer? 0 22 А That's how it was referred to. 23 Q After the recovery of those burn barrels, um, 24 what were you asked to do? 25 А We were sent to the, uh, Janda residence to, um,

. 1

search it.

2	Q	And did you, in fact, search that residence?
3	A	Yes, we did. Uh, again, this was a general search.
4		Um, not looking for anything in specific.
5	Q	During the search of, uh, the Janda trailer, did
6		you have occasion to observe and recover a, um
7		a phone message that was found on, um, the
8		answering machine of the Janda residence?
9	A	Yes. One of the first things that we did when we
10	· ·	entered the residence is, uh, Detective Remiker
11		played the phone message while we were all standing
12		around. Uh, he recorded it. Um, and then we
13		commenced searching the rest of the, uh, residence.
14	Q	Direct your attention to the photos in front of
15		you. Exhibit No. 123, and now being shown on the
_16	··	large_screen_for_the_jurors, what are we looking
_17		at?
18	А	This is a photo of the phone and answering machine
19		that was in the, uh, Janda residence.
20	Q	Did And you indicated that you had occasion to
21		listen to, uh, at least one of those phone
22		messages; is that correct?
23	A	Yes.
24	Q	Did an individual on that phone message identify
25		herself?

1	A Yes. We listened to the message that, uh, the female
2	caller, uh, identified herself as Teresa.
3	ATTORNEY KRATZ: At this time, Judge,
4	assuming this works, I will ask the Court for
5	permission to play that particular phone message.
6	We do have the, uh, phone message, uh, reduced to
7	a an audio CD as well that I will then ask to
8	have marked, and then I'll place into evidence at
9	that time.
10	THE COURT: Any objection, Counsel?
11	ATTORNEY FREMGEN: No, Judge.
12	THE COURT: All right. Go ahead.
13	(Wherein attempt is made to play phone
14	message.)
15	ATTORNEY KRATZ: We should try this
16	maybe one more time. Apologize. Do it the old
17	fashioned way, Judge. See how this works. Let's
18	try it again.
19	THE COURT: Counsel, do you have other
20	questions to ask of Mr. Kuchar Kucharski?
21	Maybe you'll want to
22	ATTORNEY KRATZ: Thank you, Judge. We
23	will
24	THE COURT: give another shot at this
25	later on.
	100

1		ATTORNEY KRATZ: We will come back to
2		this a little bit later.
3	Q	(By Attorney Kratz) Investigator Kucharski
4		or, excuse me Deputy Kucharski, after the, um,
5		phone call was, um, recovered from you, uh, what
6		were your other search efforts that day?
7	А	After we finished with the, uh, Janda house, we were
8		also assigned to, uh, search, um, the shop buildings,
9		um, and then, ultimately, assigned to search the, um,
10		pickup truck that was parked outside of Steven
11		Avery's garage.
12	Q	Deputy Kucharski, did you have occasion to, um,
13		recover any firearms that day?
14	А	Yes. We were also sent to the, uh, Steven Avery
15		trailer to specifically pick up, um, firearms that
 16	,	were in the trailer, a, uh, vacuum cleaner that was
 17		in the trailer, and bedding from a spare bedroom that
18		was in the trailer.
19	Q	And could you tell the jury, please, uh, what
20		firearm, if any or firearms, if any, were
21		recovered from Mr. Avery's trailer?
22	A	Inside of, uh, Steven Avery's bedroom, we found,
23		above the bed in a, um, gun rack, two rifles. One
24		was a Connecticut Valley Arms Hawkin-type .50 caliber
25		muzzleloader. Um, the other was a .22 caliber

.

1		Glenfield Model 60 semi-automatic rifle.
2	Q	I'm showing you a, uh, photo that has already
3		been received, uh, into evidence in this case as
4		Exhibit No. 86. Do you recognize that
5		photograph?
6	А	Yes. It's a photo of the rifle. The .22 caliber
7		semi-automatic rifle.
8	Q	We're going to actually have marked, uh, Deputy
9		Kucharski, and show you It's Exhibit I'm
10		showing you what's been marked as Exhibit No.
11		129. Tell the jury what that is, please?
12	A	This is the rifle that, uh, I collected out of Steven
13		Avery's bedroom. The .22 caliber semi-automatic
14		rifle.
15	Q	Now, are you familiar with a firearm
16	=	Specifically, do you have some working
17		familiarity with this particular firearm?
18	A	I am the armor for the, uh, county, so I have been to
19		several schools, uh, trained in maintenance and
20		identification of weapons. Yes, I know how this
21		rifle works.
22	Q	All right. When you describe a rifle as a
23		semi-automatic rifle, and, specifically, Exhibit
24		No. 129, can you tell us what that means, please?
25	А	A semi-automatic is referring to the action of the
	1	

	1		rifle. This rifle is has a tubular magazine.
	2		Below the magazine with the, uh the the
	3		ammunition for it. After it's loaded, every time you
	4		pull the trigger, one round will be fired. The next
	5	-	round will be automatically cycled into the chamber,
	6		and then with every successing pull of the trigger
	7		you get one round.
	8	Q	I don't know if you know this answer, uh, Deputy
	9		Kucharski, but does this particular weapon, this
	10		.22 caliber semi-automatic rifle, uh, contain
	11		several, um, bullets within its, what's called,
	12		magazine?
	13	А	Inside the magazine to this particular model,
n eestann	14		depending on when it was made, is somewhere between
	15		14 and 17 rounds you can put in the tubular magazine.
	16	Q	All right. So before stopping to reload, an
	17		individual_could_shoot,_uh,_14_to_17_rounds_of
	18		ammunition through it? Is that what your
	19		testimony is?
	20	А	Yes.
	21	Q	Where was that, uh, rifle seized from,
	22		specifically?
	23	A	This was in Steven Avery's bedroom inside the trailer
	24		on the wall in a gun rack above his bed.
	25		ATTORNEY KRATZ: Could you

1		Investigator Wiegert, thank you.
2	Q	(By Attorney Kratz) Deputy Kucharski, upon a,
3		um, search of Mr. Avery's residence, do you have
4		occasion to, uh, seize or remove any cleaning,
5		uh, equipment?
6	A	On the 6th, we were specifically sent in to, um, take
7		a vacuum, and, then, on the 8th, when we went back to
. 8		do a thorough search of the residence, we, um,
9		collected as evidence a Bissell carpet cleaner.
10	Q	I'm going to show you a photograph, Exhibit No.
11		124. It's on the large screen. Can you tell us
12		what that is, please?
13	A	That is the Bissell carpet cleaner that we, um, took
14		into evidence on the 8th.
15	Q	Do you remember where that was received from?
1_6	A	I think it was in the hallway, um, living room
<u>1</u> 7		-portion
18	Q	Investigator Wiegert is actually going to show
19		you that item.
20		ATTORNEY KRATZ: Roberta, what number is
21		that?
22		THE CLERK: Exhibit 130.
23	Q	(By Attorney Kratz) I'm showing you what's been
24		marked as Exhibit No. 130. Tell the jury what
25		that is, please?
		104

1	A	That is the Bissell carpet cleaner that, uh, we took
2		from the residence on the 8th.
3	Q	All right. Thank you. If I can just go back.
4		Uh, I believe it was on the 6th you talked about,
5		a maybe it was the 7th a searching an
6		office area or another building within the, uh,
7		Avery compound; is that right?
8	A	On the 6th and the 7th, um On the 6th was more
9		more of a general search of the office buildings, on
10		the, uh, property there. On the 7th, I also went
11		into some of the buildings to specifically take some
12		items.
13	Q	I'm going to show you Exhibit No. 122. It's a
14		photograph. Can you tell us what we're looking
15		at, please?
16	A	This is a photograph of on the inside of one of
<u> </u>		the office buildings. That's kind of like a, uh a
18		customer counter, I believe. And that's, uh, with a
19		endangered/missing poster for Teresa Halbach.
20	Q	Directing your attention, now, to the 8th of
21		November, were you asked to perform a more
22		thorough search of the residence of Steven Avery?
23	A	On the 8th, um, myself, Lieutenant Lenk, and Sergeant
24		Colborn were sent back to the Steven Avery residence
25		to, uh, specifically take several items, and then

~

105

•

1		complete a thorough search of the residence.
2	Q	On the 8th, uh, did you have occasion to find any
3		ammunition? Specifically, any .22 caliber long
4		rifle ammunition from the bedroom of Steven
5		Avery?
6	A	Yes, we did. We located and collected .22 caliber
7		long rifle ammunition from the bedroom.
8	Q	An evidence photograph of that was taken. I'm
9		going to direct your attention to Exhibit 125.
10		Could you tell us what that is, please?
11	А	That is a photo of the .22 caliber ammunition that
12		was taken from the bedroom.
13	Q	Also, on the 8th, did you have occasion to find
14		and recover, uh, a key?
15	А	Yes. On the 8th we recovered a Toyota key in the
16		bedroom_of_Steven_Avery.
<u> </u>	Q	I show you what's been marked as Exhibit No. 127.
18		Excuse me, 126. Could you tell us what Exhibit
19		No. 126 is, please?
20	А	It's a photograph that I took of the key as it was
21		found in the bedroom.
22	Q	Who collected this key?
23	A	I did.
24	Q	And how was it collected, please?
25	A	I collected the key by taking new gloves out of a
		106

1 package that I brought into the residence to do the 2 searching with. Put the key into a new paper bag, 3 sealed the paper bag, and it was in my possession 4 until it left with Special Agent Joy to the Crime 5 Lab. 6 0 A photograph of that key was, uh, later taken by, 7 um, evidence technicians at the Sheriff's 8 Department. I'm showing you Exhibit No. 127. 9 Can you tell us what that is, please? 10 А That's another photograph of the key that we located 11 and took into evidence out of Steven's Avery's, uh, 12 bedroom. 13 Just so the jury's clear, this is what's commonly 0 14 referred to as a -- an evidence photo? That is, 15 after it's been collected; is that right? 16 Α That's correct. 17 0_ And the last thing we're going to show you, 18 Exhibit No. 131, and tell the jury what that is, 19 please? 20 Α That is the key that we found in the -- Steven 21 Avery's bedroom. 22 Q Now, on the end of the key is a blue, um, what's 23 called a key fob. Something that would be 24 attached or go into a -- a lanyard. Is that your 25 understanding?

A	Yes. A female end of the key fob is attached to the
	key.
Q	As depicted, that is, the key it, itself, with
	the fob, um, and the key chain, is that how it
	was recovered? And does it look the same or
	similar, uh, as Mr. Wiegert is holding it, as it
	did when you recovered it on the 8th of November
	from Mr. Avery's bedroom?
А	Yes, it looks the same.
	ATTORNEY KRATZ: With, uh, my
	reservation, Judge, for, uh, replaying that
	exhibit, once a and probably after lunch when
	the, uh, technical, uh, problems are resolved
	and moving the admission of Exhibits 116 through
	131, I have no further questions of this witness.
	Thank-you.
	THE COURT: Any objections to the exhibits,
	Counsel?
	ATTORNEY FREMGEN: One thirty-one?
	THE COURT: Yes.
	ATTORNEY KRATZ: One thirty-one.
	ATTORNEY FREMGEN: One thirty-one was
	ATTORNEY KRATZ: The key, itself.
	THE COURT: The actual key.
	ATTORNEY FREMGEN: No. That's fine.
	108
	Q

1		That's fine, Judge.
2		THE COURT: All right. They're received.
3		You may cross.
4		CROSS-EXAMINATION
5	BY A	ATTORNEY EDELSTEIN:
6	Q	Deputy, good morning.
7	А	Good morning.
8	Q	I'm sorry. Is that better?
9	A	Yes.
10	Q	Okay. All right. So you you work for Cal
11		County? You've been over there four years;
12		right?
13	А	Yes.
14	Q	And where were you, specifically, before that?
15	А	Oconto Police Department.
16	_Q	Okay. Do you have a, uh, four-year degree in
		Police Science?
18	А	I have a two-year degree in Police Science.
19	Q	From?
20	A	Um, Green Bay. From, uh, uh, Northeast Wisconsin
21		Technical College.
22	Q	Okay. Other than the training you described, uh,
23		the two-week training at Fox Valley, do you have
24		any other formal training, uh, through
25		educational entities for purposes of, uh, being
		100

- N - True	1		qualified on evidence collection?	
	2	A	No.	
	3	Q	Now, I noticed in response to Mr. Kratz, when you	
	4		were questioned about firearms collected, you	
	5		were very quick to state that you took that .22	
	6		out of Steven Avery's trailer; correct?	
	7	A	I took the .22 out of the trailer, yes.	
	8	Q	Okay. I think the question he asked you, though,	
	9		with your involvement, um, was a little broader	
	10		than that. And the truth of the matter is you	
	11		picked up a lot of firearms from the Avery	
	12		property; didn't you?	
	13	А	Two firearms out of the Steven Avery trailer, and	
¢.	14		many other firearms off the property.	
	15	Q	Okay. So the two from the trailer certainly	
	16		weren't the only firearms that were picked up?	
	17	A	That's correct.	
	18	Q	As a matter of fact, there was at least one other	
	19		.22; right?	
	20	A	Yes.	
	21	Q	Any particular reason you can think of, when	
	22		Mr. Kratz asked you about firearms you picked up,	
	23		you didn't mention the others?	
	24	A	We were speaking about the Steven Avery trailer. I	
	25		don't think we went into the searches, uh, on the	

tina Nationalista	1		other pieces of property and weapons.
	2	Q	Deputy, I may have misunderstood Mr. Kratz's
	3		question, but I understood him to ask you about
	4		any firearms. But now that you've cleared that
	5		up, you acknowledge that there there were
	6		other firearms and there was at least one other
	7		.22?
	8	A	Yes.
	9	Q	Okay. The .22 Glenfield, you indicated that it
	10		holds between 14 and 17 rounds; correct?
	11	A	I believe so, yes.
	12	Q	Well, upon what do you believe that?
	13	A	Um, records, um, from the Marlin Company. They
饔 /	14		changed the, uh, configuration of the magazine at a
	15		certain period during the manufacture. Um, the only
	16		real way to tell exactly how many it holds is to
	17		actually_load_itI_don't_know_if_it's_been_modified
	18		or anything like that.
	19	Q	You didn't Well, you you looked at it I
	20		assume?
	21	A	Yes.
	22	Q	You're fairly adept with firearms?
	23	A	I didn't examine it. I didn't take it apart at all.
	24	Q	Well, certainly by way of appearance, there
	25		wasn't anything obvious that would indicate that
lan () News			
			1 1 1

1		the magazine had been modified, was there?
Ż	A	Nothing overly, no.
3	Q	So your 14 to 17, this a guesstimate?
4	A	Yes.
5	Q	You never actually checked it?
6	A	No.
7	Q	Okay. In order to load that particular firearm,
8		the individual cartridges, the shells,
9		themselves, have to be individually handled;
10		correct?
11	А	Yes.
12	Q	Okay. And, basically, they slide down the tube
13		and then it's fed via a spring?
14	А	Well, there is a there is a speed loading device
15		that they have on the market you can put into another
16		device, and then that fits into the tube, and then
17		they all drop in there, so I guess, individually, it
18		depends if you had that extra device or not.
19	Q	Well, not to quibble with you, Deputy, but in
20		order to load the speed loader, you're going to
21		still have to handle each one of them separately,
22		aren't you?
23	А	To put them into the speed loader, yes.
24	Q	So whether you load the thing directly, without
25		the benefit of a speed loader, or you utilize a

1		speed loader, someone is going to have to handle
2		each and every shell that ultimately ends up in
3		the tubular magazine of the rifle?
4	А	Yes.
5	Q	All right. Now, you recovered, I believe you
6		said, uh, 11 shell casings from the garage?
7	A	Yes.
8	Q	In various states of condition? Is that a fair
9		statement?
10	A	Yes.
11	Q	Okay. Did you personally pick each and every one
12		of them up?
13	А	No, I did not.
14	Q	So you can't tell us how they were handled prior
15		to you getting your hands on them, so to speak?
1.6	A	Everyone_was_wearing_gloves_as_we_were_searching.
17		-Um, that's about the only thing that I could tell you
18		about how they were handled.
19	Q	But you didn't sit there and observe each and
20	<i>.</i>	every casing being picked up?
21	A	Correct.
22	Q	All right. So you don't know if they were picked
23		up using any type of device, or they were picked
24		up using, um, uh, hands or gloved hands, or
25		anything like that?

1.000 2001

1 A That's correct.

2	Q	Prior to the shell casings being removed from the
3		garage I assume you were in the garage, and,
4	-	essentially, everybody said, well, gee, I found
5		one, they bring them over to you. Is that what
6		happened?
7	А	I found one, we'd, um, attempt to photograph it if it
8		was out in the open. Circle it. Put a tent there.
9		Um, after, um, the point reached there where we
10		didn't find any more, okay, collect them all up.
11	Q	At some point did you remove each and every item
12		from the garage?
13	А	No, I did not.
14	Q	Did you or anyone else document the precise
15		location within the garage of each of the shell
16		casings_you_did_leave_the_garage_with?
<u> </u>	A	Only the photographs.
18	Q	Okay. So there were no measurements, for
19		example, that a shell casing was "X" distance
20		from the rear wall, or so many feet from another
21		wall?
22	А	That's correct.
23	Q	Deputy, you testified about, uh, finding what's
24		depicted in the photograph on display and for
25		the record it's the described as the CCI, uh,

• -	1		.22s; correct?
	2	A	Yes.
	3	Q	When you Are you the individual who located
	4	-	that?
	5	А	Um, that was located in in Steven Avery's bedroom.
	6		Um, Sergeant Colborn was searching that area of the,
	7		uh, bedroom. That would be the desk area.
	8	Q	So I guess the answer to my question is, no, you
	9		were not the one who actually located it?
	10	A	Correct.
	11	Q	You took the picture?
	12	A	No.
्रो दो द	13	Q	Did you become, uh, the custodian of that box?
	14	А	Yes.
	15	Q	And that was on which day?
	16	A	The 8th.
	<u> </u>	Q	Of November?
	18	А	Yes.
	19	Q	When it was Who Who gave it to you? Who
	20	•	gave you the box?
	21	А	I don't know.
	22	Q	When it was given to you, was the top open or
	23		closed?
	24	A	I don't remember If it was given to me, if it was
ţ.	25		pointed out to me and I picked it up, I don't
			115

	1		remember if the box was open or closed.
	2	Q	Did you ever The the top of that will slide
	3		in order to open; correct?
	4	A	Yes.
	5	Q	Did you at anytime open it or close it to your
	6		memory?
	7	A	No.
	8	Q	When you received it, how did if at all did
	9		you package it?
	10	А	We took the ammunition out of that, um, bedroom and
	11		placed it all into one bag. A grocery bag.
	12	Q.	Okay. Are you telling us that you removed each
	13		and every cartridge from that particular
	14		container and put it in a grocery sack?
	15	A	No.
	16	Q	You left the thing in one piece with them in
	17		-place; correct?
	18	А	Yes.
	19	Q	And then put it in the sack?
	20	А	Yes.
	21	Q	All right. So you didn't handle, or to your
	22		knowledge nobody else handled, the individual
	23		shells?
	24	A	Correct.
e de la Constant Constant Constant	25	Q	What about the outside? How was the outside of
			116

1		
1		that preserved for purposes of, um, testing or
2		trying to lift any fingerprints off that?
3	A	It wasn't preserved for fingerprint evidence.
4	Q	You're a trained evidence technician, are you
5		not?
6	А	Yes.
7	Q	You've already seized a firearm, including a .22,
8		from that residence; correct?
9	А	Yes.
10	Q	Don't you think it would be important to try to
11		determine who, if anybody, has handled that
12		particular box?
13	A	Not at the time.
14	Q	Didn't Agent Fassbender specifically tell you, go
15		back into Steven Avery's trailer and get that
16		.22?
17	A	Among other things, yes.
18	Q	Well, now, as an officer, particularly one who's
19		trained in evidence collection, can you explain
20		to me why you did not think it was critical, in
21		light of the fact that Fassbender instructed you,
22		specifically, to go get that .22 rifle, and
23		you've come across a box of .22s, not to preserve
24		it in such a fashion as would allow for
25		fingerprint processing?

1	A	Out of all the items that, uh, myself and my team
2		collected, probably into the hundreds of items, I
3		only remember one item that we preserved for
4		fingerprint evidence.
5	Q	That doesn't really answer my question. I didn't
6		ask you how many items you picked up. I just
7		want to know why you didn't think it was
8		important, particularly in light of the fact that
9		the lead investigator, Fassbender, tells you to
10		go get the .22 rifle, and you come across .22
11		shells in a plastic case, that you didn't think
12		it was important to preserve it in a fashion
13		which would allow the processing for
14		fingerprints?
15	А	I don't have an answer.
16	Q	Did you not think that was important to be
17		preserved in such a fashion as to allow the
18		lifting of prints?
19		ATTORNEY KRATZ: Objection. Both
20		argumentative and irrelevant. If Mr. Edelstein
21		is saying somebody other than Steven Avery
22		handled this, it becomes relevant. Otherwise,
23	5 1 2	it's not relevant, Judge.
24		THE COURT: I agree. Move on,
25		Mr. Edelstein. And, for the record, we're talking

ALC: N.L.

118

\

- -

1		here, I believe, about Exhibit 125.
2	Q	(By Attorney Edelstein) You didn't examine
3		Did you examine any of the individual cartridges
4		in there to determine what type of bullet was
5		contained in the box?
6	A	No.
7	Q	Did you, or any member of your search team, while
8		you were in the garage, or anytime after you
9		collected the 11 shell casings, um, perform any
10		swabbing on there so as to allow for the
11		processing of DNA evidence?
12	А	On the shell casings?
13	Q	Correct.
14	А	No.
15	Q	Do you know if that was ever done by anybody
16		involved in the investigation?
<u> </u>	A	I don't know.
18	Q	Did you, or any member of your search team
19		assigned to perform the search in the garage,
20		following the receipt of the shell casings, do
21		anything in an attempt to, um, preserve them in
22		such a fashion as would allow the lifting of
23		fingerprints?
24	A	No.
25	Q	Now, you were there first in the garage on the
		119

1		6th; is that right?
2	A	That's correct.
3	Q	You didn't find any bullets in any cracks on that
4		day?
5	A	No, I did not.
6	Q	You didn't find any on the 8th; correct?
7	A	That's correct.
8	Q	What about underneath the compressor? Did you
9		find any bullets or bullet fragments on the 6th
10		or the 8th?
11	А	No, I did not.
12	Q	You first testified that when you went in, when
13		you You characterize it as a general search
14		and that you weren't looking for anything
15		specific?
1-6	_A	Yes.
17	_Q	What are you searching for un under what you
18		describe as a general search?
19	A	Anything that stood out. Um, any type of evidence
20		that stood out.
21	Q	Prior to going in there on the 6th, were you
22		advised by Fassbender or anyone else to look for
23		any spec particular items?
24	A	Not that I recall, no.
25	Q	Before you went in there with the search team,
		120

	1		uh, were you briefed by the agent in charge at
and a	2		the command center?
	3	A	No. I was getting most of my orders from, uh,
	4		Lieutenant Bowe or Lieutenant Sippel, and they were
	5		getting it from the, uh, investigators in charge or
	6		someone else.
	7	Q	So before you went in on the 6th, did you even go
	8		down there? To the command center?
	9	А	Yes. I would check in at the command center, um,
	10		before each assignment to get the or after each
	11		assignment and at the beginning of each day to get
	12		the next assignment.
	13	Q	Now, the bedding that you picked up that you
	14		testified about on direct, that was from Steve
	15		Avery's trailer; correct?
	16	A	Yes.
	17	_Q	Specifically, what did the bedding consist of?
	18		Let Let me do it this way. Was there a
	19		pillowcase?
	20	A	I don't remember.
	21	Q	Was there a, um, quilt or any sort of blanket you
	22		took?
	23	А	I took several sets of bedding off of the property
	24		and I don't remember exactly what was in each set.
	25	Q	Do you recall, specifically, what you took off of
			121

1		the bed at the time you were there?
2	A	No. That's what I'm referring to.
3	Q	Well, did all the bedding that you took come off
4		of the bed? Or did it come from for example,
5		from a closet or some sort of storage container?
6	A	All of the bedding that I took came off of a bed.
7	Q	Are you aware of any other bedding that was
8		removed that you did not take or that somebody
9		else took?
10	А	I'm not aware of.
11	Q	As to any of the bedding that you may have
12		taken Well, first of all, let's establish the
13		date. What date did you do that?
14	A	I took bedding on the 6th of November. I took
15		bedding on the 8th of November.
· 16. · · ·	Q ¹	From the same bed?
_17	A	No.
18	Q	How many beds were in the trailer?
19	А	Two.
20	Q	On the 6th, which bed did you take it from?
21	А	On the 6th, I took the bedding from the spare bedroom
22		in Steven Avery's trailer.
23	Q	I take it, then, on the 8th, you took it from the
24		bed in the what's been described as Steve's
25		bedroom?

1	A	Yes.
2	Q	And you don't have a specific recollection of the
3		individual items on either date?
4	A	Correct.
5	Q	Just generally described as bedding?
6	A	Correct.
7	Q	On the 8th, you took the Bissell carpet cleaner?
8	А	Yes.
9	Q	On the 6th, you took the vacuum cleaner?
10	А	Yes.
11	Q	Did you take the vacuum, itself, or did you just
12		take the bag?
13	А	The vacuum, itself.
14	Q	And you understood that to be important because
15		of the potential for obtaining evidentiary clues?
		For example, hair?
7	—A——	No. At that time I was instructed to pick it up.
18	Q	Did you have an Again, you're try During
19		the course of your training as an evidence tech,
20		in addition to the techniques that you're taught
21		about preserving the integrity of the object, I
22		assume you learn a little something about why the
23		object might have some relevancy in a criminal
24		investigation? Is that a fair statement?
25	A	Yes.

1	Q	And you're not going to argue with me if I say
2		taking the vacuum cleaner would be important,
3		because sometimes fiber evidence is contained in
4		those bags? You know that, don't you?
5	A	Why it was taken you'd have to ask the person that
6		instructed me to take it.
7	Q	So you have no opinion as to why it would be
8		important to take it?
9	A	My opinion would be, yes, probably for some type of,
10		uh, um, trace evidence.
11	Q	Okay. Did you Were you instructed to remove
12		any carpeting from Steve Avery's trailer?
13	А	No, I wasn't.
14	Q	Did you remove any?
15	А	No, I wasn't didn't.
-16	Q P	Did you remove any carpet from any of the the
		other locations you visited during the course of
18		your participation in the investigation?
19	A	Not that I remember.
20	Q	Well, that's something you would remember, isn't
21		that? If you cut out a piece of carpet and
22		turned it over to somebody for evidentiary
23		purposes, isn't it?
24	A	I didn't cut out any carpet.
25	Q	Well, you you just said you didn't remember.

1		But now you remember that you didn't; right?
2	A	I remember I didn't cut out any carpet. Um, if I
3		picked up carpet, um, slim possibility, but I I
4		don't remember it.
5	Q	As to the items you did collect, did you
6		regularly turn them over to the same individual
7		from the lab?
8	А	I never turned over any items to any lab personnel.
9	Q	Did you turn over the items you did collect to
10		the same individual?
11	А	Yes.
12	Q	And who was that?
13	А	Deputy Hawkins.
14	Q	So everything you picked up, from bedding, the
15		shell casings, carpet stuff, the cleaner stuff,
16		the bullets, all of that went over to Hawkins?
17	A	Yes.
18	Q	All right. That's all. Thank you.
19		THE COURT: Any redirect, Counsel?
20		ATTORNEY KRATZ: Just, uh, one question.
21		REDIRECT EXAMINATION
22	вү А	TTORNEY KRATZ:
23	Q	Mr. Edelstein asked you what you knew, and who
24		told you, or why you might have, uh, searched the
25		garage. On the 6th, the day that you did search
		105

1 the garage, the 6th of November, were you told 2 that anybody had yet made any statements about 3 Teresa Halbach being shot in that garage? 4 ATTORNEY EDELSTEIN: And I object. And 5 call for a hearsay answer. 6 THE COURT: I think it's a fair 7 question. Overruled. 8 THE WITNESS: No, I did not. 9 Q (By Attorney Kratz) If you would have been told 10 that Brendan Dassey, or Steven Avery, or somebody 11 else would have made a statement that Teresa 12 Halbach would have been shot in that garage, 13 would you have done a different kind of search on 14the 6th? 15 А Absolutely. Uh, when information like that comes in, 16 that helps to direct your search. 17 ATTORNEY KRATZ: With the indulgence of 18 the Court, Judge, I'm going to try this again. 19 If it doesn't work, we'll have to wait until 20 after lunch. I think Mr. Fremgen's helped me, 21 Judge. 22 ATTORNEY FREMGEN: Can you say that for 23 the record? 24 (Wherein phone message is played.) 25 This is Teresa with AutoTrader "Hello. 126

1		Magazine. I'm the photographer, and just giving
2		you a call to let you know that I could come out
3		there today, um, in the afternoon. It would
4		will probably be around two o'clock or even a
5		little later. But, um, if you could please give
6		me a call back and let me know if that will work
7		for you, because I don't have your address or
8		anything, so I can't stop by without getting
9		the a call back from you. And my cell phone
10		is 737-4731. Again, it's Teresa, 920-737-4731.
11		Thank you."
12		ATTORNEY KRATZ: Once again, Judge, we
13		will have that marked as an exhibit. Uh, I will
14		offer that, uh, to the Court.
15	Q	(By Attorney Kratz) My last question, is that,
16		in fact, uh, Deputy Kucharski, the message that
7		you heard from the Janda residence when you
18		searched it on the 6th of November?
19	A	Yes, it is.
20		ATTORNEY KRATZ: That's all I've got,
21		Judge. Thank you.
22		THE COURT: All right. Any cross related
23		to that?
24		ATTORNEY EDELSTEIN: Uh, just very
25		briefly, Your Honor. Uh, this is not,
		127

`	
1	necessarily, as to this last item that Mr. Kratz
2	just dealt with, but, uh, in response to his
3	other question.
4	RECROSS-EXAMINATION
5	BY ATTORNEY EDELSTEIN:
6	Q Officer, if you did not know that Brendan
7	Dassidly Dassey had allegedly given
8	information that Ms. Halbach had been shot in
9	that garage, can you explain to me why you took
10	the .22 shells from the trailer, as well as the
11	.22 rifle?
12	A The .22 rifle was taken from the trailer on
13	instructions from supervisor. The ammunition was
14	taken from the trailer on a different date from
15	instructions by a supervisor.
16	ATTORNEY EDELSTEIN: - That's-all
17	ATTORNEY KRATZ: One other question.
18	RE-REDIRECT EXAMINATION
19	BY ATTORNEY KRATZ:
20	Q Steven Avery was a convicted felon at the time
21	and couldn't possess a weapon. That's true;
22	isn't it?
23	A Yes, it is.
24	Q And it's another reason to take the gun to
25	take the weapon that
	128

-

`

1 ATTORNEY EDELSTEIN: Your Honor, I 2 It's leading. Suggestive. object. 3 THE COURT: It's leading. Suggestive. 4 ATTORNEY EDELSTEIN: It's irrelevant. 5 THE COURT: It's -- it's --6 ATTORNEY KRATZ: It's not irrelevant at 7 all, Judge. 8 THE COURT: I -- Counsel? 9 ATTORNEY KRATZ: He said it was 10 irrelevant, Judge. It was cer -- certainly not. 11 THE COURT: I -- It was leading and 12 suggestive. It was not irrelevant. 13 ATTORNEY KRATZ: That's all I have. 14 Thank you, Judge. 15 THE COURT: All right. You may step down. We will adjourn for the lunch hour. Um, Mr. Kratz, 17 you have more witnesses today? What time do you 18 expect your first witness to be here for this 19 afternoon? 20 ATTORNEY KRATZ: We can certainly begin, 21 uh, anytime after 1:00 if the Court wants to. 22 THE COURT: How about 1:00? 23 ATTORNEY KRATZ: That sounds perfect. 24 THE COURT: All right. We'll be back, 25 then, at 1:00. Again, I remind you, ladies and

1	gentlemen, not to speak about this case or anything
2	connected with it.
3	(Recess had at 11:54 a.m.)
4	(Reconvened at 1:01 p.m.)
5	THE COURT: Good afternoon. I think we're
6	ready to proceed. Mr. Kratz.
7	ATTORNEY FALLON: Good afternoon. Um,
8	I'll be handling this afternoon's witnesses.
9	State will commence, uh, testimony this afternoon
10	with, uh, Dr. John Ertl.
11	THE COURT: All right.
12	THE CLERK: Please raise your right hand.
13	JOHN ERTL,
14	called as a witness herein, having been first duly
15	sworn, was examined and testified as follows:
16	THE CLERK: Please be seated. Please state
17	your name and spell your last name for the record.
18	THE WITNESS: My name is John Ertl,
19	J-o-h-n E-r-t-l.
20	DIRECT EXAMINATION
21	BY ATTORNEY FALLON:
22	Q How are you employed, sir?
23	A I work for the State Crime Laboratory in Madison.
24	Q And how long have you worked for the State Crime
25	Laboratory in Madison?
	130

1	A	Since January of 2000.
2	Q	What do you do for them?
3	A	I am chiefly a DNA analyst in the DNA Analysis Unit.
4		I'm also involved with the Crime Scene Response Team.
5	Q	What does the Crime, uh, Lab Response Team do?
6	A	Uh, we offer assistance to, uh, law enforcement
7		agencies in the processing and collecting of evidence
8		at crime scenes. And, typically, it would it will
9		involve a homicide.
10	Q	Typically, what does a team consist of? This
11		response team?
12	А	Um, well, it can it can be as little as answering
13		a phone call and answering some questions that you
14		might have. Um, if if we actually respond to the
15		scene, we typically take two people. One person to
16	-	take notes and interact with the agency, the other
17		one is chiefly a photographer.
18	Q	And do the, uh is this, uh, response team also
19		known as a Field Response Unit?
20	А	Uh, that's what it says on the side of the van that
21		we drive around, yes.
22	Q	All right. And, uh, typically, do some of these
23		response teams, uh do they include more than
24	:	two people on occasion?
25	А	Uh, yes. Typically typically, the minimum would

h

1		be two. Uh, three is more usual. Um, for very
2		involved cases, sometimes will take as many as four.
3	Q	Now, you indicated your role, typically, when
4		you're not doing field response, is that as an
5		analyst?
6	A	Right. In the DNA Unit.
7	Q	And, uh, when these field response teams are put
8		together, are there other, um, disciplines
9		reflected in the makeup of the team?
10	А	Uh, yes. The the team isn't so much made up of
11		people from specific units for specific tasks at the
12		scene. Rather, it's a volunteer unit that people
13		from the entire lab feel that they can contribute to
14		it, and and then we go on the rotational basis
15		for to be on call. And I just happened to be on
		call when this call came in
17	_Q	How long have you been a member of the Field
18		Response Unit?
19	А	Since 2002.
20	Q	Approximately how many crime scenes have you had
21		an opportunity to respond to as a member of the
22		Field Response Unit?
23	A	I would It's a guess. I would guess, um, maybe 20
24		to 30.
25	Q	Well, before we get into the particular, uh,

- Î

1		details of your response in this case, let's find
2		out a little bit about yourself, Doctor. Would
3		you, first of all, tell us about your educational
4		background?
5	А	First of all, I'm I'm a mister. I'm not a doctor.
6		I have a Master's Degree in molecular biology, uh,
7		University of Wisconsin-Parkside. That's where my
8		Bachelor's Degree in chemistry was from as well.
9	Q	Uh, and when did you receive that again?
10	A	Um, Bachelor's Degree was in 1984 and Master's Degree
11		in 1992.
12	Q	And from which institution did you receive your
13		Master's Degree?
14	A	The University of Wisconsin at Parkside.
15	Q	And when did you receive that particular degree?
	- A	In 1992.
17	-Q	After receiving that degree, what pursuit did
18		you, um, follow in terms of your education or job
19		training?
20	А	I I obtained that degree while I was working at
21		the University as a research specialist in a plant in
22		molecular biology laboratory. Um, after I left the
23		University, I went and worked for Abbott Laboratories
24		in Waukegan, Illinois for awhile, where I worked on
25		diagnostic acetates using DNA techniques. Uh, from

1 2 2 2 2 2 F

1		there, I moved to the State Crime Laboratory in
2		Milwaukee where I was trained as a serologist and a
3		DNA analyst.
4	Q	From from what time period did you work in
5		Milwaukee?
6	A	From 1997, in March, until about November of 1998.
7	Q	And what occurred in November of '98? Where did
8		you move next?
9	A	I moved down to Austin, Texas, and I worked for a
10		short time at the M. D. Anderson Cancer Research
11		Center In Smithville. And then I moved to the State
12		Crime Laboratory. It's called the Department of
13		Public Safety Crime Laboratory in Austin, Texas.
14	Q	And how long did you work for the Texas State
15		Crime Lab?
16	- A	-Until December of 1999. And then I moved back to
17		Madison to work at the laboratory in Madison.
18	Q	Very well. What are, um Again, returning to
19		your job experiences as a particularly as a
20		member of the Field Response Unit, what types of
21		cases does the Field Response Unit usually get
22		called in on?
23	A	Usually, it's a homicide. Um, missing persons are
24		also something we get involved in. Um, we get calls
25		anytime the agency has any question about anything.
		134

1		How should they collect a certain item of evidence.
2		We do usually don't respond unless it's it's
3		bigger than that. Usually usually, we respond to
4		the smaller agencies. The County Sheriff's
5		Departments. Um, generally, we don't respond to the
6		larger cities because they have their own crime scene
7		response people.
8	Q	All right. Let's direct your attention, then,
9		uh, to this particular case, Mr. Ertl. On
10		Saturday, November 5, 2005, were you called to
11		assist in the investigation of the missing
12		person, Teresa Halbach?
13	А	Yes, I was.
14	Q	Tell us how you became involved?
15	А	Well, it was around noon on Saturday, and I received
16		a call from the it's called the Time Control
17		System. They're the people who take the laboratory
18		phone calls while we're not actually at the
19		laboratory. And he directed me to call, um,
20		Manitowoc County and to ask for a Detective Dave
21		Remiker. And so I did that.
22		And he indicated that they were, um,
23		working on a missing persons case out of Calumet
24		County, and the vehicle from the missing person
25		had been located in a salvage yard in Manitowoc

<u>ja</u>	1		County. And it looked as if it had been
	2		concealed in some way. There were things around
	3		it and they were were looking for assistance
	4		in recovering the vehicle.
	5	Q	All right. What did you do?
	6	A	I talked with him about it. Um, he indicated that
	7		the weather was threatening, and for a vehicle, if
	8	-	if it's out in the weather, that could jeopardize
	9		any, uh, fingerprint evidence, could jeopardize any
	10		biological evidence that may be on the outside of the
	11		vehicle. I suggested that they get it covered if
	12		they could.
	13		And I contacted, um, my director, told
·.	14		him about it, and he indicated to me that I
	15		should go up and help out with that.
	16	Q —	Did you, in fact, then, eventually leave Madison
	17		to-help-out?
	18	А	Yes.
	19	Q	Approximately what time did you leave Madison?
	20	A	It was about 1:15 p.m. that same day.
	21	Q	Who, if anyone, accompanied you on this response?
	22	А	Yes, um, Mr. Guang Zhang, Z-h-a-n-g.
	23	Q	All right.
	24	А	He was the photographer and I was the team leader.
	25	Q	Anyone else accompanied you for this initial
			136

1		response?
2	A	No, just the two of us.
3	Q	What time did you arrive, um, at the salvage
4		yard?
5	A	Bel I believe it was around 4 p.m.
6	Q	What happened when you arrived? What did you do
7		first?
8	A	Well, there were several road blocks that we had to
9		pass through. And we finally got to a checkpoint
10		where our names were taken, and then we were directed
11		up to a place where there was some firetrucks, and
12		some canopies laid out, or coming off the firetrucks,
13		and told to look there for the people who were in
14		charge. And we found, um, Tom Fassbender and Mark
15		Wiegert. And they seemed to be the ones to talk to,
1.6		and they filled us in on what they knew so far, and,
		um, we were directed down to where the vehicle was.
18	Q	All right. Let's start there, then, uh, your
19		first assignment, if you will. When you arrived
20		at the location where the vehicle was found,
21		first of all, describe for us the general area
22		where the SUV was located?
23	A	Well, it was it was a auto salvage yard, so there
24		were row after row after row of salvaged vehicles or
25		junked vehicles. Um, they directed us down to a flat

1 area where we drove the van to park and there was a 2 car crusher nearby. There was also a -- a water --3 storm water retaining pond nearby, and there was a --4 a little -- sort of a dirt roadway that went around 5 the pond, and the roadway was lined with vehicles, 6 and in the row of vehicles there was the, uh, 7 bluish/green RAV 4. 8 All right. Describe -- Describe the vehicle in Q 9 greater detail for us, would you please? 10 Α Well, it was -- it was a newer looking vehicle. It 11 didn't have any license plates on it. And it was, as 12 was conveyed to me, that it -- it kind of looked like 13 it had been hidden in some way. There was a -- a 14 Rambler hood leaning up against the back end of it. 15 0 Uh, and I'm going to stop you right there and 16 direct your attention to Exhibit 26, which 17 appears to be leaning up against the table. Does 18 that look like the hood? 19 Α Yes, it does. 20 All right. Continue. 0 21 Α Uh, there were tree branches and/or small trees piled 22 on and against it, and there was a cardboard box on 23 the hood. There was a piece of plywood up against 24 one of the front tires, and some fence posts with 25 fencing attached to them, some wire fencing, um,

1		leaned up against the vehicle as well.
2		Uh, the other vehicles in the area
3		looked older than this one. This one looked like
4		the newest of the bunch, and they didn't have
5		things leaned up against them. They had trees
6		and brush growing around them, but there was
7		nothing put around them.
8	Q	Was there anything unusual about the trees or the
9		brush that you observed leaning against the SUV?
10	A	Well, this was in November, so there weren't
11		weren't any leaves or anything on it. But these
12		trees and brush didn't have any bark on them either.
13		And, um, some of the trees had bits of the roots
14		still coming out of the base of them as if they'd
15		been pulled from the ground, rather than sawed off.
1-6	Q	All right. Was the roof of the, uh, vehicle
17		-covered or obstructed with any items that you
18		recall?
19	А	Uh, not that I recall. No.
20	Q	All right. Now, you described something about
21		the weather. Initially, upon your observation of
22		the of the vehicle, describe the weather
23		conditions at that point in time?
24	А	It was overcast.
25	Q	When you first approached, was it still daylight?

.

1 Dusk? Or dark? 2 It was -- It was going on 4:30 in November, and it Α 3 wasn't quite dusk. I would think. 4 Q All right. Now, at some point did the weather 5 change that evening? 6 Um, yes. We didn't -- We left that evening around Α 7 quarter to ten, and at some point it did pour, and 8 there was quite a lightening storm. 9 0 All right. When you arrived, was the vehicle 10 covered in a tarp at that particular point? 11 I never saw the vehicle covered in a tarp. Α 12 0 Okay. Approximately how long were you there 13 before the weather changed to the extent that it 14 began to rain? 15 Α I believe within an hour of us arriving, it was sort 16 of on and off showers. 17 -0--All right. What plans did you make to secure the 18 vehicle for its ultimate transport? 19 Α Well, I asked that a trailer be secured to put the 20 vehicle in for transport back to the Madison 21 Laboratory. 22 Q Now, did that occur immediately or did that 23 involve the passage of some time before it could 24 be arranged to transport the vehicle? 25 Α It -- It did take some time. Um, they also needed

to -- to bring a wrecker truck into the yard to -- to 1 2 move the vehicle from its, uh, position to a place 3 where they could load it onto the trailer. 4 And I believe those two things, the 5 wrecker and the trailer, arrived pretty much 6 simultaneously. Maybe an hour-and-a-half, two 7 hours. I'm not sure. 8 0 Your best estimate as to the time that the SUV 9 was loaded onto the, uh -- the -- the wrecker and 10 moved from the scene, about what time was that? 11 Α I would guess 7:30 to 8:00. All right. Could it have been later? 12 0 13 Α Possibly. 14 All right. Could it have been as late as 8:30 or Q 15 9:00? 16 A Well, I checked the time when we left. I think it 17 was about quarter 'til ten, so that -- that is a 18 possibility, yes. 19 0 All right. Now, while you were awaiting for the 20 arrival of the equipment to secure the vehicle 21 and move it to Madison, did you have an 22 opportunity to examine, as it were, the SUV more 23 closely? 24 Α Yes, I did. 25 Q Can you tell us, um, a -- about the vehicle,

1		itself? For instance, um, you mentioned
2		something about the absence of license plates.
3		What else did you note about the vehicle?
4	A	Um, it The doors were locked. We couldn't gain
5		access to it. And we looked through the glass with
6		flashlights to see what we could see inside and it
7		looked relatively clean inside.
8		Um, there was some minor damage to the
9		vehicle. I believe there was a dent located
10		behind the Rambler hood on the right rear quarter
11		panel. And I believe the left front signal lamp,
12		the plastic that covers that, was cracked and
13		broken.
14	Q	How were you able to determine that the doors of
15		the vehicle were locked?
16	_A	We tried to get in inside the vehicle. So we
17		tried the doors.
18	Q	While you were waiting for the, uh, wrecker and
19		other equipment, did you also have an opportunity
20		to examine the debris that surrounded the car for
21		the possibility of any trace or biological
22		evidence?
23	A	Yes, I did.
24	Q	Tell us about that, please?
25	A	Well, the first thing I did, was I directed the
	9	

...

,

. . .

1.1.1

1		photographer to to photograph the vehicle as it
2		was when we arrived. Um, I then looked at the debris
3		and those items which I felt may hold a fingerprint,
4		that did have a certain texture to them. Um, the
5		Rambler hood and the cardboard box were pulled away
6		from the vehicle, and we had transported those to the
. 7		Madison Lab, as well, along with the vehicle.
8		I examined all the brush and the plywood
9		and fence posts, etc., looking for any signs of
10		biological materials or fibers that may have
11		caught on them, attached themselves to them. Um,
12		and I didn't notice anything that I could collect
13		from that.
14	Q	So, in other words, you found no trace or
15		biological evidence on any of those items?
16	_A	No, I did not.
17	_Q	Okay. I take it there was a decision made not to
18		process, or further examine might be the better
19	-	term, the SUV at the scene; is that correct?
20	A	Um, I don't believe it was much of a The the
21		decision, yes, that was made. But that I mean,
22		in in threatening weather, the the first order
23		is to to preserve and protect the evidence and not
24		to begin processing it.
25	Q	All right.

1 And out in the middle of a junkyard is not the ideal Α 2 situation to process a vehicle anyway. You can --3 want to get it back to the laboratory where we have 4 the proper tools and lighting and controlled 5 conditions where we can look at it properly. 6 Describe for us, if you would, um, how the Q 7 vehicle was actually transported to Madison? 8 Ά A -- a large wrecker truck was needed to get -- get 9 the vehicle out from behind the pond. Uh, it was a 10 four-wheel drive vehicle, and it was -- all the 11 wheels were locked, so they couldn't roll it out. 12 Um, so attempts were made to put it in neutral to see 13 if the parking brake was on or -- or not, and we 14 couldn't get inside. 15 The tow truck guy attempted to get under 16 the hood to get access to the transmission 17 linkage to disconnect that, and he couldn't get 18 the hood open. Uh, he ended up crawling 19 underneath and unbolting one of the driveshafts. 20 He then lifted the back end of the vehicle, which 21 still had the driveshaft attached, and rolled it 22 out on the front wheels into the clear area where 23 the car crusher was located. 24 He then used his truck to maneuver the

-25

144

vehicle, the RAV 4 vehicle, into a large covered

1 trailer, and it was secured into that with, I 2 believe, floor straps, and then the trailer was 3 closed up. 4 And then Guang Zhang, my photographer, 5 rode with the driver back to Madison. They 6 followed me, and I drove the -- my van back. 7 0 So once the vehicle was loaded on the trailer, 8 was it exposed at all to the elements? 9 Α No, it wasn't. 10 Q However, prior to getting it onto the vehicle, 11 had it been exposed to the rain? 12 Yes, it did. Α 13 Q And it had been raining for awhile before you 14 were able to finally secure it and get it onto 15 the, um -- the wrecker and the enclosed trailer? 16 Α Yes, it had. 17 0-All right. Um, you indicated, uh, your 18 colleague, Mr. Zhang, he rode with the driver, 19 did you say? 20 Α Yes, he did. 21 All right. And what did you do at that time? Q 22 Α I drove the Field Response Unit back to Madison. 23 Q Your best estimate as to your approximate arrival 24 time at the Crime Lab in Madison? 25 А I believe it was just after 1 a.m.

1 So that would have been Sunday morning, the 6th Q 2 of --3 Α November. 4 0 -- November. All right. Did there come a time where your services were requested again by Agent 5 6 Fassbender or others, uh, to return to the 7 salvage yard and assist in executing the search 8 warrant that was underway? 9 Α Yes. 10 All right. And, um, in addition to the Saturday 0 11 work that you've just described, how many other 12 days did you participate in the search of the 13 salvage yard and other duties associated with this case? 14 15 Α We returned to the salvage yard on Sunday afternoon. 16 We worked through Sunday evening. We stayed over 17 Sunday night. We worked all day Monday. Stayed over 18 Monday night. Worked all day Tuesday. Stayed over 19 Tuesday night. And returned back to the lab on 20 Wednesday morning. 21 I'm going to direct your attention, if I may, to Q 22 your services on, um, Tuesday, November 8. What 23 were the duties that you were particularly 24 assigned to do on Tuesday, November 8? 25 Α Uh, we started in the morning at the Calumet County

	1		Sheriff's Department Service Garage in Chilton. Um,
	2		four Actually, five burn barrels from the salvage
	3		yard had been taken there, and we had set up a
	4		sifting station. We were sifting through the burned
	5		debris of those burn barrels. On Tuesday morning, we
	6		finished that up with, I believe, the fourth and
	7		fifth barrels.
	8	Q	All right. Would it be fair to say you had
	9		started that particular task the day before?
	10		Monday?
	11	А	I believe we started it even before that, although it
	12		got interrupted several times.
	13	Q	Because of other duties that you were assigned?
÷.	14	А	Yes.
	15	Q	All right. So you finished up the processing of
	16		the_burn_barrels?
	<u> 17 </u>	_A	Yes.
	18	Q	All right. If you would, tell us about the
	19		processing of the last barrel? Barrel No. 5?
	20		Would you describe, um, that for us, please?
	21	A	All right. Um, Barrel No. 5, I believe, was, uh,
	22		different than the other barrels in that the contents
	23		were were mostly ash. The other barrels had a lot
	24		of partially burned materials, lot of food-type items
	25		wrapped in foil. You could recognize corn on the
		1	

1 cob, and potatoes, and fish, and chicken, and 2 whatnot. 3 This one was a little different than 4 that. It was -- had a lot of, uh, coiled wires 5 in it that we had seen, um, kind of reminiscent 6 of a burnt tire. Uh, there was the rim of a 7 tire, or a wheel sitting on top of the ash. But 8 under that, everything else was pretty much ash. 9 And we sifted that and found things that 10 looked like they were electronic components. Um, 11 some of them had, um, the Mot -- Motorola "M" 12 clearly on them. Um, things that looked like --13 sort of like burnt batteries. Things you could 14 identify as a battery. Um, that sort of thing. 15 Whereas, we hadn't found those sorts of things in 16. the other barrels. 17 Q All right. Approximately how deep was the ash in 18 Barrel No. 5 that you began to sift and process? 19 Α I would guess it -- it was a guarter to a third of 20 the barrel. And these were 55-gallon drums. They 21 stand about three-and-a-half feet tall. So there's 22 probably a foot-and-a-half of ash in it. 23 Q All right. And tell us how you went about 24 processing that barrel? In other words, how did 25 you go about it? Did you shovel it out? Reach

1		in? Sift through with your hands? Tell us about
2		the process?
3	A	Uh, well, we start by just picking through with your
4		hands, and in placing handfuls or I think we had
5		small mason's trowels as well. Scoopfuls of the
6		material onto a tripod and screen setup that we have.
7		And you move the material around on the screen. The
8		small particles fall out, and then you can examine
9		the larger pieces of things. And that's how we
10		worked through the barrels.
11	Q	All right. About what time did you finish that
12		task of processing, um, the barrel?
13	A	I believe we finished, um, somewhere in the ten
14		o'clock hour.
15	Q	All right. Now, was there anyone who assisted
16		you in this sifting process?
17	_A	Uh, yes. The photographer that I had taken on
18		Sunday, or on Saturday, the initial response, came
19		along with me, and we had a third person as well.
20	Q	And who was your third person?
21	А	It was Chuck Cates.
22	Q	All right. And what does Mr. Cates, um What
23		was his role, if any, in the process on the
24		succeeding days? Particularly this day, November
25		8?

	1	A	Um, he he was just there to help.
	2	Q	All right.
	3	A	He didn't have any specific role.
	4	Q	Was there anyone from the Calumet County
	5		Sheriff's Department present?
	6	A	Um, there was. I I believe there were different
	7		people on and off, but the the main contact person
	8	-	there was, uh, Jeremy Hawkins.
	9	Q	And, uh, to whom did you provide anything that
	10		you deemed of evidentiary significance?
	11	A	Uh, we were collecting all the evidence as we went
	12		along from the different locations where we were
	13		searching.
1.97 1.97	14	Q	Right.
	15	А	We packaged it, and we then we at some point we
	16		turned it all over to the Calumet County Sheriff's
	17		Department.
	18	Q	All right. With respect to the, uh, burn barrel
	19		components, were they turned over to Officer
	20		Hawkins?
	21	A	I don't believe so.
	22	Q	All right. Do you recall which one of the
	23		officers?
	24	A	No. I don't recall which one. There was two or
	25	:	three of them
			150

1	Q	All right.
2	A	at one point, inventoried all the materials we had
3		collected at that point, and we turned it over to
4		them.
5	Q	Okay. Very good. After you completed
6		processing, um, the burn barrel, what was the
7		next assignment that you were given on that day?
8	A	Uh, we returned to the salvage yard, and they had
9		just located the license plates from the RAV 4
10		vehicle. And so we went over and photographed that
11		area, photographed the vehicle that they had been
12		found in. And then we searched that area, and there
13		was a a camper a trailer camper nearby, and I
14		searched that.
15	Q	All right. And, um, after you processed the
16		the location where the license plates were
17		found By the way, did you examine those
18		plates? Or did look at them, I should say?
19	A	I was involved in in packaging them, yes.
20	Q	All right. Tell us about that?
21	A	Um, Chuck Cates was assigned to, uh, process the
22		vehicle for fingerprints. In in his former role
23		at the lab, he was a fingerprint analyst. Um, at
24		this time he was the field response coordinator.
25		That was his chief duty. So he was processing the

1		plates.
2		Uh, when the plates were found, they
3		were sort of rolled or crumpled up so you
4		couldn't read them. Uh, the person who had found
5		them, was reported, had opened them up enough to
6		be able to read them and know which ones they
7		were. That they had belonged to the RAV 4. Um,
8		he then reportedly placed them back where he had
9		found them as best he could.
10	Q	Right.
11	A	Um, Chuck, then, looked at them for any obvious
12		fingerprints on them.
13	Q	Okay.
14	А	I don't believe he processed them with powder or
15		anything. Just looked at them. We then placed them
 16		into a pistol box and secured them with zip tags.
_17	_Q	All right.
18	A	And then secured the box.
19	Q	And the box was given to whom? Do you recall?
20	A	At that very moment it was placed in our field
21		response van.
22	Q	Very good. What was the next assignment or
23		uh, that you, um, participated in?
24	A	Around 3 p.m., uh, we were got a request to use
25		our sifting equipment. They had found an area, a
		152

Ĺ

1 a burn pit type area, behind the garage next to 2 Steven Avery's trailer. And they had been looking in 3 there and they wanted to use our sifters. We had previously loaned them out for another assignment in 4 5 the gravel yard, and so they had asked for them 6 again. 7 And at that moment we didn't have 8 anything else to do, so we went along with them 9 to help sift. And it was a -- maybe a 10 four-by-six foot area on the ground. A small 11 depression behind the garage. And it looked like 12 it had been -- uh, some fire going on there. 13 There looked like a lot of the remains of burnt 14 tires, there was the frame from some sort of car 15 seat, and some ash on the ground. 16 The ground below the ash looked like it 17 had the consistency of baked clay. Like a 18 ceramic. It was hard. It wasn't like -- like 19 you'd expect the ground to be after thunder 20 storms a few days earlier. So it looked like a 21 burn area. And we sifted that, just as we had 22 been sifting the -- the burn barrel contents. 23 All right. Q 24 Α Put it on the screen. 25 Q We'll get into a little more detail in just a

second here. We're going to have one, uh, 1 2 photograph, um, marked to assist you in talking 3 about this, um, matter. (Exhibit No. 132 marked for identification.) 4 5 Officer Wiegert is handing you a photograph. Q 6 Would you identify that for us, please? First, 7 of all, tell us what the exhibit number is? 8 Exhibit 132. Α 9 Thank you. What is Exhibit 132? Q 10 It's a photograph showing the -- the burn area behind Α 11 the garage. You can't see the garage in the photo, but you can see the -- the frame from the -- the car 12 13 There's one tire there, and some tools on the seat. 14ground, and some flags in the ground. 15 All right. Um, we have it now projected on our Q 16 screen. Is, uh, what is projected, is that 17 Exhibit 132? 18 Um, that one's cropped more than this one is, but, Α 19 otherwise, yes. 20 Q All right. 21 Α The center area of this photo was on the screen. 22 Q How about the larger screen over here to your 23 left? 24 Α Well, this one shows -- You can see it better. 25 There's a red building behind that tank. That

1		doesn't show up well here. You can see the windows
2		on the photograph.
3	Q	Very good. Is that the, uh How about, uh, a
4		zoomed out? Is that
5	А	Yes.
6	Q	more accurate?
7	А	That looks like the photograph.
8	Q	All right. And who participated in the
9		processing of this, um, burn pit?
10	А	Uh, the three of us assisted, and, uh, the person in
11		charge with that area was Tom Sturdivant, Special
12		Agent, with the Division of Criminal Investigations.
13	Q	All right. And, um, tell us how you proceeded
14		to, um, uh, process that pit?
15	A	Uh, there were also additional officers present who
16		assisted in the sifting process. Uh, I was the one
17		who shoveled the the materials from the the
18		ground up to the sifting platform, and then there
19		were probably four, five, or six of us standing
20		around the sifter at anytime, um, collecting things
21		and placing them in boxes. We sifted through all the
22		ash and material that was in that area.
23	Q	Now, if you would, um If you would, um,
24		describe for us exactly how the shovel was used
25		to, uh, remove debris and other materials from

. . .

1		this pit, and, uh and brought to the sifter?
2		Tell us about how that was, uh, conducted?
3	А	Okay. On the photograph there, we set the sifter up,
4		it would be just, um, past those red flags, and just
5		past the end of that, uh, um, frame from that car
6		seat. Um, the shovel we used was one that we carried
7		with us for this purpose. Um, the sifter we usually
8		use is for exhuming gravesites. So we'll shovel out
9		the material and sift through it looking for bones or
10		bullets or whatever from a gravesite.
11		Uh, in this case, we had, uh, very hard
12		ground on top of which was maybe from zero to six
13		inches of ashen material. It's a flat blade
14		shovel, sort of like a garden spade, and that was
15		used to sort of like a dustpan to scoop up the
16		ash, and then I stood up, turned around, and took
17		a step, and set it on the screen. And then
18		the the people around the screen would pick
19		through it. The smaller material would fall
20		through the screen onto a tarp, and the larger
21		materials they would collect and put in a box.
22	Q	All right. What efforts did you undertake to
23		ensure that you wouldn't damage or create any
24		harm to any of the debris that was being
25		recovered from the pit?

....

- 1

Well, it was done carefully. I -- I guess that's 1 Α 2 what I can say. Um, we didn't look real hard at the 3 materials we were collecting. Um, my advice to the 4 people around -- around the, uh, sifter was, if 5 you're not sure, just put it in the box. Uh, someone 6 else will figure that out later what it is. Um, so 7 we didn't spend time picking at the things that we 8 were collecting. 9 Um, the shovel -- We had a hard surface. 10 It's just pick up the ash with it. I mean, it 11 wasn't like we had to dig and -- and put your 12 foot on it and push down and dig or anything. Ιt 13 wasn't necessary. So it -- it was a pretty 14 gentle process. 15 Q Tell us about the sifting part of the process? 16Α Um, it's a -- sort of like hardware cloth, and we 17 carry it -- three different grades of it. I think 18 there's a half-inch mesh, a quarter-inch mesh, and an 19 eighth-inch mesh, and we put this material through 20 the quarter-in -- quarter-inch mesh. 21 So one scoopful at a time is placed onto 22 the mesh, and the mesh is probably, uh, 23 three-foot by three-and-a-half-foot rectangular 24 area, and then the five people would, with their 25 gloved hands, uh, I believe some of them had, uh,

 1		a mason's trowel, it's about this big, triangular
2		metal-shaped object with a handle, to move the
3		the ash on the screen, spread it out, and then
4		you can sort of tap the screen and it sort of
5		jiggles the material, and the the finer
6		particles fall through.
7	Q	All right. Did you, or any of your team who
8		participated in this process, recognize any of
9		the debris as human remains?
10	A	We recognized it as remains for sure. Uh, there were
11		things that looked like teeth. Things that looked
12		like bone. Um, nothing bigger than the palm of my
13		hand, and but whether it was human remains or not,
14		we weren't sure.
15	Q	Most of the items were very small?
 16	A	Yes, they were.
 17	_Q	All right. Approximately how long did this
18		process last?
19	А	Well, they had asked for the sifter for about 3 p.m.,
20		and we worked until it got dark. It was just after
21		five. So about two hours.
22	Q	All right. And what did you do at the scene as
23		you wrapped up this, um, processing for that
24		evening?
25	A	Well, once we had sifted all the materials, then we
		158
24	A	evening? Well, once we had sifted all the materials, then we

1 had what was collected in boxes. We packaged that 2 up. That was eventually turned over to Calumet 3 County. The -- the material that was fallen through 4 the screen onto the tarp was also saved, and Tom 5 Sturdivant took care of that. And we just cleaned up 6 the sifter and put it away, and then we proceeded 7 onto our next task. 8 How was the, um, material preserved that had 0 9 fallen through the screen? 10 Α It was fallen through onto a tarp, and it's my 11 understanding that Tom Sturdivant was going to keep 12 that. How he did that, I -- I don't know. 13 Q All right. In other words, you, uh, left that 14 scene before the -- the complete wrap-up, as it 15 were, had undertaken? 16 Α Yes. 17Q Was undertaken? All right. What was the next 18 assignment, then, that you performed, um, on this 19 day, Tuesday, November 8? 20 Α Uh, we were then asked to -- to do some luminol 21 testing on a couple of residences. Uh, Steven 22 Avery's residence, Chuck Avery's residence, and the 23 garage next to Steven Avery's residence. 24 0 All right. Let me stop you there. And if you 25 would be so kind as to explain to us, first of

1		all, what luminol is, and then, uh Well, we'll
2		start with that. What is luminol?
3	A	Okay. Uh, luminol's a chemical that, when it comes
4		in contact with blood, will glow. So we use it to
5		find traces of usually highly diluted blood or very
6		small blood amounts. Uh, if there's larger amounts
7		of blood, or whatever, they're usually pretty obvious
8		because blood has a a distinctive color.
9		Um, we had already searched the Avery
10		residence for looking for a bloodstain pattern
11		and we hadn't found any. We had found blood
12		staining, but nothing nothing that would
13		indicate a pattern. Um, there had been talk
14		about luminolling the, uh, residence earlier in
15		the week. I had recommended that that be your
16		last the last thing you do in attempt to find
17		blood.
18		Um, this treatment with luminol will
19		leave a luminol residue, and then you don't
20		want really want to be, uh, going in there and
21		doing other things after you've luminolled. And
22		treatment with luminol should come after a
23		thorough visual search. It shouldn't be your
24		first attempt.
25	Q	All right.
		1.60

7

Ne stratter i

2011 - 100 - 100 -

.....

So we went in and luminolled the residence. We 1 А 2 found, um, just a couple of stains on the couch that we had missed visually. Um, we then luminolled the 3 garage and we found a lot of luminol reactive stains 4 5 in the garage that we couldn't confirm with another 6 test. 7 Q All right. Let me stop you there and ask: You indi -- uh, you told us just a few moments ago 8 9 that luminol reacts to blood? 10 Α Yes. 11 Let me ask this: Does luminol chemically react 0 12 with substances other than blood? 13 Yes, it does. Α 14 What substances will the luminol react to? Q 15 It -- it reacts with, actually, quite a few different Α 16 substances. Um, uh, one thing would be a shiny 17 penny, is what we quite often use as a positive to 18 make sure the luminol's working okay. If the penny 19 glows, the luminol's working. It's actually the iron 20 in the heat molecule in the blood that the luminol's 21 reacting with. 22 So pennies, copper, lead. Um, I've 23 never seen it with a -- with rusty iron-type 24 stains, but it's reported that it might. Um, 25 the -- the big thing that we see quite often is

cleaning reagents that have some sort of bleach 1 2 It reacts quite vigorously with that. in them. Of all the substance -- Of all the substances 3 0 that you mentioned, uh, the blood, the, uh -- the 4 5 copper, iron, and bleach, which are the substances -- which substances did the luminol 6 7 react most vigorously to? 8 Α Well, with the bleach, but depending on the 9 concentration of -- of the bleach. 10 Q All right. Does it react with, um, gasoline or 11 paint thinner? 12 No, it doesn't. А 13 0 All right. Okay. Let's return, then, back to 14 the garage. You indicated there were several 15 spots where you had luminol reactions. Let's pick it up there and have you tell us about it, 16 17 please? Most of the spots looked like -- sort of like a maybe 18 Α 19 inch, inch-and-a-half diameter circle. Uh, when you 20 do this, the glowing that comes from the luminol 21 reaction is -- is very weak. So you always want to 22 do it in complete darkness if possible. 23 And what you do is use a spritz bottle. 24 You spray an area, and you have a piece of chalk 25 in your other hand, if anything glows, you circle

And you work through an area, and then you 1 it. 2 go back and sample those areas you've circled 3 with chalk, and do another more specific test for It's called phenolphthalein. And if it 4 blood. 5 reacts with the phenolphthalein, that's an indication that there may be enough material 6 7 there to do DNA on, and then you would collect 8 that. Uh, in the garage, uh, only one area, 9 was right behind the vehicle that's on the screen 10 11 there, was confirmed with phenolphthalein. 12 You're referring to, uh, Exhibit 76 now, which Q is, um, depicted on the screens? 13 14 А Yes. 15 All right. And, um, I believe there's a laser Q pointer, uh, right there in front of you. 16 Um, first of all, let's start with the -- If you 17 18 could use that, um, computer animation, which is reflected in Exhibit 76, and, um, probably easier 19 20 to point to the larger screen, point out the spot 21 where you did have one positive reaction to 22 phenolphthalein? 23 А You actually can't -- I can't point to it because 24 it -- it's right below the bump -- back bumper of 25 that vehicle --

163

, 10-

1	Q	All right.
2	A	on the floor.
3	Q	Okay.
4	А	And there were other people there, and when we turned
5		the lights back on and started checking the stains
6		that we had circled in chalk, they said, yes, we
7		we had found that earlier visually. We have
8		collected that one. So we didn't collect that.
9	Q	All right. Because it had already been
10		processed
11	A	It had already
12	Q	by others?
13	А	been collected.
14	Q	All right. Now, you indicated that there were
15		several spots. Um, if you can recall, uh,
 16		approximately Um, using this same diagram, if
 17		you would just briefly point us point to
18		several of those spots where you did get luminol
19		reactions, um, which did not test positive for
20		phenolphthalein?
21	А	I can't point to any specifically.
22	Q	All right.
23	А	There were just small spots here and there. Sort of
24		a random distribution. Not a lot by the door. Not a
25		lot by the the snowmobile. Uh, there was there
		1.04

:	1		was one area that did stand out.
	2	Q	All right. What area was that?
	3	А	It was behind this tractor lawnmower here, and it
	4		it wasn't just a a small spot. It's a maybe
	5		a a a three-by-three or three-by-four foot area
	6		that was more of a smeary diffuse reaction with the
	7		luminol. The light was coming from, seemingly,
	8		everywhere, not just this little spot.
	9	Q	Would that be something like a three-by-four foot
	10		oval? Was it a circular shape? Square-shaped?
	11		Or any particular
	12	A	Well
	13	Q	irregular?
	14	A	It sort of went up into the debris here. So that
	15		would have been the extent of it. And then coming
	16		out sort of, um, maybe oval on the open side.
	17	Q	All right. When you made that observation, what
	18		did you do?
	19	A	We marked off the area in chalk and we saw the the
	20		luminescence. Then, later, we went back with the
	21		and swabbed it, tried to confirm the presence of
	22		blood with phenolphthalein, and we could not.
	23	Q	All right. Just one moment. After you made the
	24		observation with respect to this larger area that
	25		reacted to the luminol, what did you do?

..,

l

100000

		r	
			1
	1	A	After I made the observation?
	2	Q	Yes.
	3	A	Well, upon seeing it, we marked off the perimeter
	4		with chalk.
	5	Q	All right. And you tried the phenolphthalein
	6		test?
	7	А	Tried the phenolphthalein test.
	8	Q	Did you report your findings to any of the law
	9		enforcement officers?
	10	А	Well, there were some in there with us.
	11	Q	Do you recall who, um, might have been with you
	12		that night?
1	13	А	I do not recall their names.
	14	Q	All right.
	15	A	They had been in there previously. They were the
	16		ones who told us that the stain behind the the
	17		vehicle had already been collected.
	18	Q	I see. All right. Your best estimate,
	19		approximately how many spots reacted to the
	20		luminol in that garage area?
	21	A	I would guess, um, a dozen.
	22	Q	All right. Now, the You talked about the one
	23		large spot. The remaining spots, can you give us
	24		a range as to their varying size?
	25	A	I would say they were all inch-ish. Inch or

11.11

1.15.11

	1	
	1	inch-and-a-half diameter. Smaller.
	2	Q All right. All 11 were in that inch to
	3	inch-and-a-half range?
	4	A Yes.
	5	Q All right.
	6	ATTORNEY FALLON: I would move into
	7	intro uh, evidence the one, uh, exhibit, 1
	8	132, and, uh the photograph, and tender the
	9	witness for cross-examination.
	10	THE COURT: Any objection to reception of
	11	132?
	12	ATTORNEY FREMGEN: No, Judge.
	13	THE COURT: It is received. You may cross.
•	14	CROSS-EXAMINATION
	15	BY ATTORNEY FREMGEN:
	16	Q Uh, Mr. Ertl, were you referring to any notes
	17	while you were testifying?
	18	A Yes, I was.
	19	Q I notice you're looking down.
	20	A Okay.
	21	Q That that's all right. You needed to
	22	refresh It's been several years since or
	23	year-and-a-half since
	24	A Year-and-a-half. And he's asking for times so
	25	Q Did you want to be accurate?
	(167

.....

...,

1	A	Yes.
2	Q	And these are the same notes you previously
3		provided to the State?
4	A	The notes I'm staring at right here are not
5	Q	So these are
6	A	notes
7	Q	just some handwritten notes? Maybe summary of
8		the notes you previously provided to the
9	A	Yes.
10	Q	State?
11	A	Notes that I've been jotting down while I've been
12		waiting to come on.
13	Q	That's fine. Okay. When you were called to the
14		scene, this would be the first time, November 5,
15		um, essentially your involvement on November 5
 16		was to deal with the RAV 4; is that correct?
17	A	That's correct.
18	Q	And you indicated that you attempted to enter
19		into the RAV 4, but unable to do so?
20	А	Correct.
21	Q	So there's no way you could have been able to
22		process anything within the vehicle?
23	А	No. We wanted to just open the door and look inside.
24	Q	Was your intent to process any of the vehicle,
25		itself, when you were called?
		168

oorat i kaarin h

Just to -- They had indicated it had been 1 А No. obscured with things. So the intent was to check out 2 3 what those things were, look at them, and then to 4 bring back to the lab anything that we -- we thought 5 was inform -- going to be useful. 6 Q Well, you noted that you were aware that the 7 weather was going to turn, and -- Well, it's 8 going to rain later? 9 Α Yes. 10 Q And this was, uh, a -- probably a project you 11 needed to get done before the vehicle, itself, 12 qot rained on? 13 Ideally, yes. Α 14 Was -- And was there a tarp being utilized at Q 15 that point to hopefully keep the rain from the 16 vehicle? 17 Α I was told that they had covered it with a tarp and 18 that they were removing it once they knew we would --19 had arrived on the scene. 20 Q Okay. 21 Α And they also told me that there had been some debris 2.2 on the roof that got pulled off when they pulled the 23 tarp down. 24 Q Did you, uh -- a -- and, again, you -- you're --25 indicated that your intent wasn't necessarily to

1 process the vehicle, but noting that it was going 2 to rain, uh, did you consider maybe we should 3 process the out -- the exterior to some extent to 4 avoid losing potential evidence? 5 A No. Uh, my hope was that we could get it inside of a 6 trailer before it rained. 7 Q Now, you did remove the -- some of the items that 8 were up against the vehicle; correct? 9 Α Correct. 10 0 And you did that with some sort of methodology? 11 You didn't just -- Let's rip them all away from 12 the car? One at a time you removed them? 13 А Correct. 14 0 In fact, you indicated you wanted to look at, uh, 15 further, the hood and -- and the cardboard box, since there -- I'm going to assume -- may be some 16 17 sort of trace evidence on -- on those items? 18 Α I thought that if any of the items would hold a 19 fingerprint, those would be the ones. 20 Q Now, you had in -- indicated -- And I -- I -- And 21 I just want to cross -- Or maybe I didn't 22 understand you correctly. When, uh, Attorney 23 Fallon asked you if there was any trace ev --24 evidence that you were able to find, you 25 indicated, no?

1	А	Correct.
2		
	Q	But you hadn't yet processed the hood or the
3		cardboard box; correct?
4	A	No. I was going to collect those items. Those would
5		be examined back at the lab.
6	Q	So they may have had trace evidence? You had no
7		idea?
8	A	Right.
9	Q	That was sent back to the lab. Let the lab look
10		at those?
11	А	Correct.
12	Q	You were talking about some of the debris?
13	A	Right.
14	Q	The branches?
15	А	Right.
 16	Q	Now, obviously, the vehicle didn't just come out
17		of the sky and drop right into that spot;
18		correct?
19	А	Correct.
20	Q	I think we can assume that, though no one saw
21		that? So it had to get there somehow?
22	A	Correct.
23	Q	Did you In processing the scene, you indicated
24		you were looking around for trace evidence
25	í.	outside the vehicle? Did you try to make a
		171

1		determination of how it got there?
2	А	I did. I looked from where the tires were resting
3		towards the front. It didn't didn't seem that
4		that would have been a possibility because there was
5		another vehicle in front of it.
6		Um, looking towards the back is probably
7		the direction it came in from. I tried to look
8		for tread marks. Uh, it was a grassy area, and
9		below that was hard-packed gravel. And I wasn't
10		able to to even see the tire prints from the
,11		vehicle, which, I would assume, had to have been
12	-	there.
13	Q	Okay. Did you go any distance away from the
14		vehicle, um, to try to trace potentially some of
15		the path to see if there might be additional
16		trace evidence you could find?
17	A	I didn't get very far. It it seems pretty futile
18		in that I couldn't even see the any any
19		indication from beneath the tire. Uh, I did look
20		around. There were some areas were a little bit more
21		clearer and, perhaps, a puddle had been there and it
22		was more of a a smoother surface.
23		Uh, I I didn't see any footwear
24		impressions. I didn't see any tire track
25		impressions that I could discern.

Ê

...

1	Q	And and footwear impressions, you would
2		assume, again, because it didn't magically
3		appear, whoever brought the vehicle there would
4		have to have maybe left on foot?
5	A	Correct.
6	Q	But unable to find anything that would assist you
7		in that?
8	А	Correct. There were some footwear impressions on
9		on top of the vehicle next to the the RAV 4. I
10		was I was told that those were from the officers
11		who had been removing the tarp.
12	Q	So you you don't know if there were any, uh
13		Strike that. On November 8, you indicated you
14		were involved with two processes in of of
15		sifting debris, um or sifting ash, excuse me.
 16		One was in the barrels; correct?
 17	A	Correct.
18	Q	And one was assisting with the, uh the burn
19		area or the burn pit; correct?
20	А	That's' correct.
21	Q	As to the burn barrels, um, you indicated that
22		the process was essentially going in there with
23		either handfuls or taking a
24	A	Trowel.
25	Q	A a What was it?

i viti m

1	A	Trowel.
2	Q	A trowel? Okay. And that was consistent among
3		all of the individuals assisting in the the
4		burn barrel sifting?
5	А	Yes.
6	Q	Did each person have their own separate barrel?
7		Did you go barrel by barrel?
8	A	We went barrel by barrel.
9	Q	So you didn't have teams off on their own doing
10		it? That was together? You're doing it one
11		after the other?
12	А	Right.
13	Q	Is
14	А	There were three of us doing that.
15	Q	Okay. All Was Wasn't you didn't have a lot
 16		of people to help anyways?
17	A	No.
18	Q	And took You said it took you some time over
19		three days because you were called to other
20		spots?
21	A	Yes.
22	Q	Now, you indicated at times you would take some
23		of the larger items out by hand?
24	A	Yes.
25	Q	And then you would scoop out a a layer of ash?
		174

1	А	Yes.
2	Q	Did you try to take it by layers?
3	А	Well, it's a barrel. You you pretty much have to
4		work down, so, yeah, we would go bit by bit.
5	Q	Well, what I mean is, you know, it is like you
6		say, it's a barrel, and you could go with one
7		full layer, or you could just keep scooping down
8		in the middle and off to the sides? Kind of
9		haphazardly?
10	А	No, we we'd try to work down. So then we
11	Q _	You tried to do it somewhat organized? Logical?
12	А	Well, I mean, what's on top is is that's what
13		you take. You know, try to dig to the bottom leaving
14		the top.
15	Q	Well, now, you you said this was a pretty
 16		full, or three-quarters, or two-thirds full
 17		barrel?
18	A	Well, the fifth barrel was a like, one-quarter to
19		one-third full.
20	Q	Okay. And you don't know how many times these
21		barrels had been used over the last, let's say,
22		several months?
23	А	No idea.
24	Q	Could have been used 10, 15 times, potentially?
 25		Or just once?

Sector Contraction

1.100101

I

175

,

	1	A	I have no idea.
	2	Q	So you don't know when items were burned in the
	3		barrel; right?
	4	A	No, I don't.
	5	Q	Could you tell by going down layer by layer
	6		versus just scooping away through the barrel?
	7	A	If you assume that the person doing the burning never
	8		mixes the contents, then I would I would guess,
	9		yes, you could determine which was burned last. That
	10		would be the closest to the top.
	11	Q	Was was that something you thought about that
	12		maybe that would be important to note? Or felt
- 	13		wasn't necessary?
	14	A	Um, at that point, no. We When we collected, we
	15		collected everything from a given barrel together.
	16	Q	Okay. In regards to the license plate, you
	17		indicated that you processed the license plate.
	18		That's the term you used. What do you mean by
	19		processed the license plate?
	20	А	No. I would I said that the the fingerprint
	21		analyst, who was with us, was given the task to
	22		process the vehicle. He examined the license plate,
	23		but I don't believe he processed them at the scene.
	24	Q	So if I were to say, using it in that context,
) P	25		processing, you would assume processing would be

. E

176

t.

1		use the the powder to extract the potential
2		extract? The potential fingerprint; correct?
3	A	Correct.
4	Q	But he didn't do that?
5	A	He did that with the vehicle. He did not do that
6		with the license plate.
7	Q	Okay. And do you know what happened to the
8	~	license plate?
9	A	I packaged it in a pistol box, sealed it, and turned
10		it over to Calumet County.
11	Q	So you don't know if it made its way to the Crime
12	~	Lab, eventually?
13	А	I don't know.
14	Q	That's not your job?
15	Ā	No.
16	Q	In regards to the burn pit, were were you
17	~	keeping track of where you were scooping items of
18		ash from the pit as far as what point in the pit?
19		For instance, if you gridded out the pit?
20	A	No. Um, the the pit was most accessible from the
21	**	position where we set up the tripod. It was level
22		with the the surroundings there. Um, it was sort
23		of a depression compared to the the other three
24		sites. So we began at the accessible area and worked
24		our way towards the inaccessible area.
25		our way cowards the inaccessible area.

- 11 I

.....

ī			
	1	Q	So where an item was located wasn't as important
	2		as whether there was potential evidential value
	3		to anything that was found in that pit?
	4	A	Correct.
	5	Q	Did you When you indicate And, again, maybe
	6		you didn't do this part. Uh, when you packaged
	7		what was sifted from the burn pit, did it go to
	8		the Crime Lab from there?
	9	А	I don't know.
	10	Q	You weren't in that involved in that process?
	11	А	No, I wasn't.
	12	Q	Were you involved in the process involved, uh,
	13		in regards to the car seat that was found? Was
1947 A	14		that taken to the Crime Lab as far as you know?
	15	A	I don't believe so. I don't know.
	16	Q	Okay. You testified in regards to luminol. Now,
	17		that can react with human or animal blood;
	18		correct?
	19	А	Yes.
	20	Q	So, for instance, hypothetically, if someone were
	21		skinning a deer in the garage, and cleaned up
	22		afterwards, it might react to luminol?
	23	A	That's true.
	24	Q	You You commented that oftentimes it's a way
	25		to detect diluted blood? Or Is that correct?
			170

÷ 1

1	A	Yes.
2	Q	By that you mean if someone, for instance, had
3		washed, for instance, the gar the garage
4		floor, possibly find blood, that wouldn't be
5		readily, uh, uh, noticeable to the naked eye?
6	А	That is correct.
7	Q	And that could be with anything? Not just the
8		a garage floor? You could do that with a table,
9		for instance?
10	А	Yes.
11	Q	Clothing?
12	А	Yes.
13	Q	Okay. Did you do the luminol spray on the entire
14		garage floor?
15	А	No. Some of the garage floor wasn't accessible due
 16		to the presence of a lot of stuff.
17	Q	Okay. Anything that was exposed, though, you
18		were able to spray the luminol on?
19	А	Yes. And we did go underneath the vehicle there,
20		because we could spray under it and see what was
21		there going on in there. We did not go under the
22		snowmobile or the tractor.
23	Q	Did You did indicate that it would also react
24		to lead?
25	А	Yes.
		179

anti addite hatte data

ŗ

4		
1	Q	Potentially?
2	A	Potentially.
3	Q	So, hypothetically, a lead bullet may end up
4		if might react to a luminol spray with that
5		glow?
6	A	Yeah, it's possible.
7	Q	In In the picture, um, behind the lawnmower,
8		is where you indicated was that three-by-four
9		foot area that seemed to be entirely in the
10		glow
11	A	Yes.
12	Q	of luminol?
13	А	Yes.
14	Q	To the right of that seems to be lot of items.
15		Boxes, etc.?
 16	A	Yes.
 17	Q	Did you spray luminol there as well, since it
18		was abutted that area you found?
19	А	Maybe a foot, foot-and-a-half above the floor. But
20		we didn't We didn't You couldn't access that
21		area to move into it. It was packed full. We didn't
22		attempt to clear it, or to look behind it, or to
23		examine those items.
24	Q	But the boxes, themselves, show that the items
25		that were stacked up there you were able to
-		180

1	spray?
2	A To some extent.
3	Q Were you able Did you receive any positive,
4	uh, um, results, uh, from any of those items that
5	you might have sprayed?
6	A I don't believe so.
7	Q Okay. Nothing further. Thank you.
8	THE COURT: Any redirect, Counsel?
9	ATTORNEY FALLON: None. Thank you.
10	THE COURT: You may step down.
11	THE WITNESS: Thank you.
12	THE COURT: Your
13	ATTORNEY FALLON: State
14	THE COURT: next
15	ATTORNEY FALLON: State would call
16	William Newhouse.
17	THE CLERK: Please raise your right hand.
18	WILLIAM NEWHOUSE,
19	called as a witness herein, having been first duly
20	sworn, was examined and testified as follows:
21	THE CLERK: Please be seated. Please state
22	your name and spell your last name for the record.
23	THE WITNESS: It's William L. Newhouse.
24	And then it's N-e-w-h-o-u-s-e.
25	DIRECT EXAMINATION

. . . .

1 :

- - - F

1 BY ATTORNEY FALLON:

2 Q How are you employed?

3 A I'm employed as a firearms and toolmark examiner in
4 the Wisconsin State Crime Laboratory in Madison,
5 Wisconsin.

6 Q What does a firearms and toolmarks examiner do? 7 In general terms, uh, we're asked to examine physical Α 8 evidence that's been recovered in the course of some 9 kind of a criminal investigation, answer questions 10 about that evidence, whether or not it's pertinent to 11 the investigation, and then, of course, report about 12 those examinations in our findings.

13 A little more specifically, as a 14 firearms and toolmark examiner, most of the 15 physical evidence that I examine is going to be 16 related to the firing of a gun. So I'm going to 17 be looking at guns, of course, I'll examine 18 bullets, cartridge casings. I do gunpowder 19 residue examinations and -- and studies, uh, just 20 trying to answer questions about how that 21 evidence relates to that particular criminal 22 investigation. 23 0 All right. How is that you are involved in this 24 case, Mr. Newhouse?

ст., т.,

25

А

182

Well, there were a -- a number of items of evidence

recovered in the course of -- of this homicide 1 2 investigation that were, uh, submitted to the laboratory for analysis. Uh, several of those were 3 firearms related. 4 5 All right. How many examinations, uh, in total Q 6 did you do for the investigators in this case? 7 There was a rifle that was submitted. Uh, there А 8 were, I think, 11 cartridge casings -- fired 9 cartridge casings -- and two bullets that were all 10 submitted for my examination. All right. And, um, before we have you explain 11 Q 12 your findings, let's, uh, find out a little bit 13 about yourself. I'm going to have, um, Investigator Wiegert, uh, hand you Exhibit 133. 14 15 And what is Exhibit 133, please? Exhibit 133 is a curriculum vitae. 16 А It's a 17 description of my training, my background, my work 18 experience. 19 All right. And, um, I believe there is one, um, 0 20 typo that we may have to clarify regarding the 21 time spent at the, uh, California Department of 22 Justice in -- in terms of your years there --23 А Um --24 -- versus Kansas City experience? Q 25 А There were a -- there were a couple of typos that --

that I had noted. Uh, in California, I was there, as 1 it indicates, from 1972, uh, to, actually, 1981, and, 2 3 um -- and then I went to Montana in 1981. Was there 4 until 1998. And then in Kansas City from 1988 until 5 I came to, uh, Wisconsin in September of 2002. 6 Q All right. Um, first of all, um, do you have an 7 undergraduate degree, sir? 8 Α I do. 9 And, um, what is your degree in? 0 10 I have a Bachelor of Science Degree in physics. Α 11 0 Um, from what university? 12 Α From Purdue University. 13 Um, did you pursue, um, graduate courses beyond 0 14 that? 15 А I took some graduate courses after I received my 16 Bachelor of Science Degree. Uh, some of those were 17 in physics. 18 All right. And, um, in terms of, uh, your 0 19 experience as a firearms and toolmark examiner, 20 where did you begin your career? 21 А Um, I accepted a position with the California 22 Department of Justice in the Sacramento Laboratory in 23 August of 1972. Didn't really get acquainted with 24 firearms and toolmarks immediately. I was trained in 25 a couple of other areas of the laboratory, um, until

about 19 -- I think the fall of 1973, when I took 1 2 a -- a course, taught by one of the examiners there in the laboratory, that dealt with kind of the 3 history of firearms and toolmark identification, and 4 5 how it related to criminal justice. 6 And then in the fall of -- of 1974, I 7 went through the training program that they had 8 in place in the Sacramento Laboratory at that 9 time for firearms and toolmark examiners. It was 10 a two-and-a-half or three-month program as I 11 recall. Um, I completed that successfully, and 12 in January of 1975, was asked to take, um, a 13 course that dealt with the theory of identification, um, how is it we can look at a 14 15 bullet, or a cartridge casing, or any kind of 16 toolmark, and really answer questions about what 17 tool or what weapon caused the markings that we 18 observed on those items. 19 Uh, completed that course successfully. 20 I think the next week I was over in San Mateo 21 Crime -- Crime Laboratory on another three-day 22 course that dealt with ammunition problems and 23 automatic weapons. 24 And then having completed that series of 25 courses in May of 1975, I was assigned to the

	1		firearms and toolmark section of the Sacramento
	2		Laboratory. And until I left there, I was
	3		responsible for most of the firearms and oth
	4		and toolmark case work that left that laboratory.
	5		There were other examiners that could do that
	6		kind of work, and did. I worked in there full
	7		time until I left there and went to, um, the
	8		Montana State Crime Laboratory in I think it
	9		was January, 1981.
	10	Q	All right. In terms of, uh, your California
	11		experience, in particular the Sacramento Lab, how
	12		many other examiners did you work with in that
	13		lab?
1	14	А	Um, there were probably, anytime there, three or four
	15		other examiners um, we called they're called
	16		criminalists in California uh, who were trained
	17		and capable of doing firearms cases.
	18		Uh, most of them did not do those full
	19		time. They did them as they encountered them in
	20		their work in other kinds of disciplines in the
	21		laboratory. Uh, but I was the for that
	22		period, the single examiner who worked full time
	23		in the in the, uh, fire firearms and
	24		toolmark section.
	25	Q	All right. And, um, after you left California,

1.1

.....

	,	
1		what was your, next, um, uh, experience?
2	A	I went to the Montana State Crime Laboratory, uh,
3		that was in January of 1981, and become became
4		that state's firearms and toolmark examiner.
5	Q	All right. And then, um, you mentioned something
6		about, uh, Kansas City, Missouri? Tell us about
7		that?
8	А	In November of 19 Is that right? Uh, November, I
9		think, of 1988, um, I accepted a position in the
10		the Kansas City Police Department Crime Laboratory in
11		Kansas City, Missouri, as one of four firearms
12		examiners in that laboratory.
13	Q	And I believe you indicated you, uh, came to
14		Wisconsin in September, 2000?
15	А	Um, I think it was 2002.
16	Q	All right.
17	A	Yes.
18	Q	And, um, you are based in the Madison office?
19	A	Yes.
20	Q	All right. And, um, do you have any estimate for
21		us as to approximately how many times you've been
22		asked to come to a court of law and render expert
23		opinion regarding firearms identification?
24	A	Um, I know it's been more than 300 times in the
25		course of the 30-some years that I've I've been

1914) - 110 - 14

1		doing the work.
2	Q	All right. Um, are you a member of any
3		professional associations or affiliations that
4		you find, uh, useful and practical in the field
5		of, uh, firearms identification?
6	А	Yes, I am.
7	Q	Tell us about those, please?
8	A	I'm a member of the Association of Firearms and
9		Toolmark Examiners. Um, it is the the single
10		professional organization, international
11		organization, for a firearms and toolmark examiner,
12		um, that is focused, specifically, on that area of
13		forensics.
14	Q	All right. From time to time, have you taken any
15		courses to maintain, um, currency in the
16		literature and in the science of firearms
17		identification?
18	А	Um, there are couple of things that we can do. Uh,
19		in terms of formal courses, while I was in Montana,
20		um, I had the opportunity to go to the FBI Academy.
21		I took and completed a week-long course there that
22		dealt with specialized techniques in firearms
23		identification.
24		Um, beyond that, a attending the
25		the the AFTE, or the the Association of
		188

orak international

1966 1971 1971

1.111111

1		Firearms and Toolmark Examiners meetings. Uh,
2		those are training seminars. A lot of it, of
3		course Most of it is papers and research being
4		presented to those of us who attend. And I've
5		gotten to do that of and on over the years as
6		well.
7	Q	All right. Very well. Let's begin, then. First
8		of all, tell us what firearms identification is
9		or involves?
10	A	Um, well, as I said, I'm examining evidence that's
11		been recovered in in in investigations or
12		crimes that involve the shooting of a firearm.
13		Clearly, I'm going to be involved with firearms, be
14		examining firearms. I'm test-firing them in the
15		laboratory, uh, determining whether they function or
16		don't function, or whether they've been altered.
17		Additionally, we recover bullets and
18		cartridge casings, um, from scenes, from
19		autopsies, and there is always the question, when
20		we have a gun recovered, of whether that bullet
21		or the cartridge casing, if it's recovered, have
22		been fired from the particular gun that was
23		recovered.
24		In those cases where we might not have a
25		gun recovered, I answer other questions. Was
		100

......

- 10 - L

there only one gun involved in this shooting? 1 2 Was there more than one gun involved in this 3 shooting? Those questions are all answered by examinations of the bullets and cartridge 4 5 casings, and, where possible, the test-firing of the weapon in the laboratory. 6 7 Finally, the other area of -- of 8 firearms and toolmarks that I'm involved in, is involved with gunpowder residues, answering 9 questions about distances, where I can, uh, 10 11 between a victim and the muzzle of the weapon 12 when it was fired. 13 All right. Well, let's begin, I think, by Q 14 defining some terms, um, for many of us who may 15 not be all that familiar with firearms. Um, 16 first of all, tell us, what is a cartridge? 17 Um, if you're going to fire a gun, you have to load Α 18 the cartridge into the weapon, and the cartridge is 19 designed for the particular weapon in which it's 20 going to be fired. 21 Usually a cartridge consists of, say, 22 four components. One of them is going to be the 23 projectile or the -- or the bullet. Um, 24 sometimes it's called a slug. 25 Uh, one component will be the cartridge 190

1		casing, in which the bullet is mounted.
2		Another component is the gunpowder.
3		When the cartridge fires, it's the gunpowder
4		inside the cartridge that explodes, and that's
5		what forces the bullet out of the barrel of the
6		weapon, and, of course, down range and in the
7		direction that the weapon is pointed.
8		The last component, the most modern
9		ammunition, is going to be something called a
10		primer. And this is just a another compound,
11		not dissimilar to gunpowder, but chemically
12		different. That is, very shock sensitive. And
13		that when struck by a part of the gun designed to
14		strike the cartridge, will cause the the
15		primer to explode, set the gunpowder on fire,
16		essentially cause that to explode, and then we
17		have a gun firing.
18	Q	All right. How is a cartridge then fired from a
19		weapon?
20	A	Well, you're going to going to have to load the
21		cartridge in one manner or another into the a
22		particular part of the weapon. Uh, you're going to
23		have to cock the weapon, or arm it, and this is all
24		defined by how that weapon is designed.
25		And then, to actually fire the
		191

1 cartridge, assuming the gun's working properly, 2 you have to generally pull the trigger. And 3 pulling that trigger causes a part of the gun to strike the cartridge and causes the cartridge, 4 5 then, to explode and the bullet to be fired. 6 All right. Where does the, um -- the firing Q 7 pin -- or how does that figure into the actual 8 firing of the cartridge? 9 Well, that part of the gun that actually strikes the Α 10 cartridge and causes it to fire is what we call a --11 a firing pin. In certain weapons it might be called 12 a striker. Essentially, what it is, is a piece of 13 metal that, when the trigger is pulled, is released 14 and allowed to strike the cartridge. 15 0 What happens to a, uh -- the cartridge? Or, uh, 16 perhaps, a better way of asking it is what 17 happens to the bullet which is mounted in the, 18 uh, casing or the cartridge once the weapon is 19 fired? 20 Well, the bullet, which initially is mounted in the Α 21 cartridge, is propelled by the gases created by the 22 explosion of the gunpowder, is propelled down the 23 barrel of the weapon, and, of course, whatever 24 direction the gun's pointed at is the direction that 25 the bullet is going to be projected.

1	Q	All right. Generally, what happens to the
2		cartridge, itself, once the bullet is expelled?
3	A	Once you fired your cartridge, you now have and
4		the bullet's on its way you have left in the gun
5		the cartridge casing. What happens to the cartridge
6		casing after you fired the gun is is determined by
7		how that weapon is designed.
8		In a semi-automatic weapon, whether a
9		handgun, or a rifle, or a shotgun, that cartridge
10		casing is going to be extracted and ejected from
11		the weapon. Out of the weapon and onto the
12		ground.
13		Um, if it's a revolver, certain other
14		kinds of handguns, the cartridge may stay
15		cartridge casing may remain in the weapon, and
16		then you may have to actually extract it from the
17		weapon manually.
18	Q	Now, there's some other terms and phrases that I
19		think are bandied about quite a bit in, um,
20		mainstream media and television. And these are
21		terms called lands and grooves. Do you recognize
22		those terms and, if so, tell us what they are?
23	A	Yeah. Um, if you look down the barrel of of any
24		modern weapon, with the exception of a shotgun, uh,
25		what you'll notice is that there are grooves in the

a spectrum and a

. . .

barrel. And we're talking about the inside of the barrel, and the barrel of the weapon is just a tube, and inside that barrel, they -- they've -- in the manufacture of the barrel, they've put these grooves in there. You probably also notice that they are

1

2

3

4

5

6

7

8

9

10

11

twisted as you look down there. We call those grooves, of course, "grooves". We call the areas between the grooves in the barrel, lands. That's l-a-n-d-s. I'm not sure where the term ever came from and never heard a really good story for it.

12 When I'm looking at bullets, what I see 13 are land and groove impressions, but they're 14 created by contact between the bullet and the 15 inside of the barrel of that weapon. Given that, what, um -- how a cartridge is 16 Q 17 filed -- or -- or, excuse me, how a cartridge is 18 fired in a weapon, and these lands and grooves, 19 what is it that makes the actual identification, 20 for instance, of, uh -- of a bullet as having 21 been fired by a particular gun possible? 22 А Well, what makes it possible, ultimately, is the 23 manufacturing process used to create the -- the 24 barrel of the gun, um, in the case of a bullet, or 25 other parts of the weapon that come into contact with

the cartridge casing.

- 1 C C C

1

2	Uh, if I'm asked to determine whether a
3	bullet was fired from a particular gun, the way
4	I'm going to do that, eventually, is by putting a
5	test-fired bullet, one I fired in the laboratory
6	from that gun, and one that I know has been
7	marked only by the barrel of that gun, I'm going
8	to put that bullet under the microscope, I'm
9	going to examine those test-fired bullets, and
10	what I'm going to look for are patterns of
11	scratches, or what we call in the in the field
12	are stria. These are engravings on the side of
13	the bullet that are created by microscopic
14	defects inside the barrel of the weapon.
14 15	defects inside the barrel of the weapon. When the bullet passes through that
15	When the bullet passes through that
15 16	When the bullet passes through that barrel, it's coming into contact with those
15 16 17	When the bullet passes through that barrel, it's coming into contact with those defects and they're leaving patterns of scratches
15 16 17 18	When the bullet passes through that barrel, it's coming into contact with those defects and they're leaving patterns of scratches or stria on the surface of the bullet. I have to
15 16 17 18 19	When the bullet passes through that barrel, it's coming into contact with those defects and they're leaving patterns of scratches or stria on the surface of the bullet. I have to be able to determine or or do or con
15 16 17 18 19 20	When the bullet passes through that barrel, it's coming into contact with those defects and they're leaving patterns of scratches or stria on the surface of the bullet. I have to be able to determine or or do or con conclude that, in fact, all the test-fired

I have to be able to determine or or do or con conclude that, in fact, all the test-fired bullets that I'm seeing from that gun are
15 16 17 18 19 20 21 22	When the bullet passes through that barrel, it's coming into contact with those defects and they're leaving patterns of scratches or stria on the surface of the bullet. I have to be able to determine or or do or con conclude that, in fact, all the test-fired bullets that I'm seeing from that gun are creating the same pattern of markings.

1		in a autopsy, or may have been taken out of a
2		tree in a shooting. But I'm going to look at
3		that bullet. I'm going to look for those same
4		patterns of stria on the surface of that bullet,
5		and if I see those patterns, if I can be assured
6		with my examination the patterns I do see are the
7		kind of thing I expect to see on any bullet fired
8		from that specific gun, then I can conclude that
9		the bullet that was recovered in the shooting was
10		fired from that particular gun. Until I see
11		these patterns, and I see them reproducing, I
12		can't come to any conclusion at all about that.
13	Q	Very well. Let's talk about your findings in
14		this case. Um, first, I'm going to have
15		Investigator, uh, Wiegert, uh, show you, I
16		believe, what is marked for or had been
17		received into evidence as Exhibit No. 128, and
18		ask if you, um, first of all, can examine that
19		item and tell us if you recognize it?
20	А	Yes, I do.
21	Q	And what is Exhibit 128?
22	А	Well, Exhibit 128 is, um, a paper bag, now opened,
23		that that contained, um, a box. Um, all of these
24		are marked in some way or another so that I could
25		recognize them later. Within the box are I

.

1 believe, is 11 fired cartridge casings that were 2 submitted in the course of this investigation. 3 All right. Now, we're, uh, showing a projection Q 4 now of that item. Is that what you're examining? I believe it's, uh, Exhibit 120 is being depicted 5 6 on the screen? 7 Α Yes, it is. At this point, when I concluded my 8 examinations, I put the cartridge casings in small 9 plastic bags. When that photograph was taken, they, 10 obviously, were not in those plastic bags. 11 Q All right. And, um, as part of your first 12 examination in this case, um, were you also asked 13 to examine a .22 caliber rifle? 14 Α Yes, I was. 15 All right. I'm going to have Investigator Q 16 Wiegert show you Exhibit 129. Do you recognize 17 Exhibit 129? 18 Α I do. 19 Q What is 129? 20 Um, Exhibit 129 is a -- a .22 caliber rifle. А It's 21 manufactured by Marlin Firearms Company. The model 22 of rifle is a -- a Glenfield Model 60. Uh, this 23 happens to be a semi-automatic rifle. I -- I can 24 recognize it because of the -- the sticker I placed 25 on it that -- with the appropriate information and by

1	the serial number on the weapon.	
2	Q All right. And, um, just so that we're clear,	
3	um, what kind of examination did you do	
4	reference, um, that rifle and the, um, uh,	
5	cartridges which are, uh, contained in Exhibit	
6	128?	
7	A Um, well, the first thing that I did with Exhibit	
8	129, um, because I knew I was going to test-fire the	
9	weapon, was to to give it an examination, uh,	
10	checking the function of the weapon, checking the	
11	condition of the gun, uh, documenting and writing	
12	down information about the weapon, the serial number,	
13	manufacturer, and so on.	
14	Uh, and I wanted to make sure that the	
15	gun was working, first of all, and, secondly, I	
16	wanted to make sure that it was safe to to	
17	fire the weapon, because I knew this was	
18	something I wanted to do, and because I'm going	
19	to want bullets and cartridge casings that I know	
20	have been fired in this gun.	
21	So having completed that series of	
22	examinations, the next thing I did was to obtain	
23	those test fires to determine what ammunition to	
24	fire in the weapon, fire it in the laboratory,	
25	and then recover the cartridge casings and	
	198	

. .

1		bullets.
2	Q	All right. Tell us about the procedure you then
3		employed for test-firing. What did you do? What
4		was the first step?
5	A	Uh, well, as I said, I I simply wrote down various
6		information about the weapon, marked the weapon for
7		later identification. Uh, one of the examinations
8		that's that's, of course, important to do, is just
9		to look down the barrel of the weapon, after, of
10		course, I've determined it's not loaded, and to
11		determine make sure there's no obstruction in the
12		barrel. Occasionally, the bullets don't get out of
13		the barrels of weapons, and and, uh, that's not
14		a a safe way to fire a weapon. So I did perform
15		that examination.
16		I, essentially, determined that this gun
17		was functioning, and at that point, as I expected
18		it to, and saw no problems with the weapon in
19		terms of of safety, um, I then would have
20		test-fired rounds, cartridges in the weapon, and,
21		in fact, test-fired three of them.
22	Q	All right. How did you test-fire them?
23	А	Um, this weapon loads cartridges or you load
24		cartridges in it, in a tube on the just a sec,
25		it's stuck on the bottom of the barrel. That's

10.00

this tube right here. Uh, you drop the cartridges in this slot here, and then put the tube back in the -in position.

And then to actually fire this weapon, had it ammunition in it, I'd pull this back. This is called a bolt. Let it drop. That action pushes the cartridge into this part of the weapon, called the chamber. It also cocks the weapon. That means if I pull the trigger now, it would fire, assuming I had a cartridge in there.

This, by the way, for those of you that aren't familiar with weapons, is the barrel of the gun. I described to some -- in some detail what that is. So to fire the weapon, I pull the trigger, that click you heard was the snap of the -- the striker, or the firing pin in this weapon, and had there been a cartridge in it, it would have fired at that moment. Q Uh, is there any way, from just looking at it,

20 to, um, tell what the magazine capacity is in 21 that weapon?

22 A Um --

17

18

19

24

25

23 Q Or do they vary?

A No. The only way to do that, and I did not do that with this gun, um, is to actually put a number of

cartridges in it, see how many it would hold. 1 Ι 2 could have looked it up in some magazine or something 3 and determined the same thing, but it would hold, I 4 would assume, anywhere from -- from 10 to 15 5 cartridges. 6 All right. Now, um, first question, then, uh, 0 7 were you able to determine that that weapon, um, 8 fired and functioned properly? 9 Α Yes, I was. 10 All right. Q 11 And it does. Α 12 And, um, in order to fire it, I would imagine you Q 13 would have to have some ammunition? 14 Α Yes. 15 And what ammunition did you select for your Q test-fire? 16 17 Well, the -- one of the things that's important in my Α 18 examinations is to make sure I'm firing the same kind 19 of ammunition that was submitted. That was 20 In other words, I examined the cartridge recovered. 21 casings in Exhibit 128. I determined that those 22 are -- are CCI manufactured cartridges, uh, .22 long 23 rifle, and so that's what I fired in the rifle. Ι 24 obtained three of these cartridges from a collection 25 I have at the laboratory and fired those three

cartridges in this weapon.

2 Q All right. And what -- what are those fired into 3 so that you can, um, check both the cartridge and 4 the bullets?

5 Α I have a -- a water tank in the laboratory, about, 6 uh, nine feet long, probably three-and-a-half foot 7 deep, and a couple of feet wide. And I can fire 8 through a tube in that -- in that, um, essentially 9 big box of water. I can fire my weapons into that. 10 The water slows the bullets down. They simply drop 11 The cartridge casings are, in this to the bottom. 12 case, ejected from the weapon and caught in a trap 13 that I have on the front of the -- of the water tank. 14 0 All right. Now, with respect to, um, your 15 examination, were you able to, um, determine 16 whether those cartridge casings, which were 17 submitted to you, had actually been fired from 18 that rifle that you now hold in your hand? 19 Exhibit 1, uh, 29? 20 Α Yes, I was. 21 Um, and what opinion did you reach, sir? 0 22 I was able to determine that all 11 of these Α 23 cartridge casings in Exhibit 128 had been fired in 24 this rifle. 25 0 All right. And do you hold that opinion to a

ar 10a Part dat	1		reasonable degree of scientific certainty?
	2	A	I do.
	3	Q	Very well. Now, did there come a time where you
	4		were asked to perform a second examination of
	5		evidence involving that very same rifle? Exhibit
	6		129?
	7	A	Yes.
	8		ATTORNEY FALLON: Um, let me then ask,
	9		um, if I could have, uh, Investigator Wiegert,
	10		um, bring Exhibits 114 and 113 to your attention?
	11	Q	(By Attorney Fallon) Let's begin with Exhibit,
	12		uh, 114. I believe it's Item FK? Crime Lab
	13		designation; is that correct?
	14	А	That's correct.
	15	Q	All right. Um, tell us about Exhibit 114,
	16		please?
	17	A	Um, well, Exhibit 114, uh, was a again, a paper
	18		bag, inside of which was a is a bullet or bullet
	19		fragment. Um, it's a bullet that that's in very
	20		bad shape. Uh, some of it missing. Um, that was
	21		what I was asked to examine. I was asked to answer
	22		the the same question, really, I answered with the
	23		cartridge casings, uh, and that was whether this
	24		bullet was fired in this weapon or whether I can say
	25		it was or not.

0.0001

22.23

1.000.000.000

1	Q	All right. Tell me about the condition of that
2		particular bullet? Uh, Item FK? Exhibit 114?
3	A	Item Fk Um, the first thing I do with these items
4		is to examine them microscopically. Um, I want to
5		define and determine what I can about the kind of gun
6		that fired this, based on the characteristics of the
7		bullet that remained.
8		Uh, for example, I can look at a bullet
9		and determine the caliber of the bullet. Uh, in
10		this case, I can look at this bullet and tell you
11		that this is a .22 caliber bullet. I know
12		because be because of my familiarity with
13		guns, that then it had to have been fired from a
14		gun that's a .22 caliber gun. And that means
15		that the the bore diameter of that barrel has
16		to be .22 inches, approximately.
17		There are other class characteristics or
18		other design features of the gun in which a
19		bullet is fired that are transferred to that
20		bullet. And the other one of those that I was
21		able to look at, and is present on on this
22		bullet, at least in part, were the land and
23		groove impressions. The bullet's in very bad
24		condition. I examined it. Uh, some of the land
25		and groove impressions on this had been

.....

- 1

. 1

obliterated, um, by its contact with something 1 2 hard, or passage through something hard. 3 But, nonetheless, with Item FK, um, I was able to determine that there are eight 4 5 remaining land and groove impressions on this 6 bullet in Exhibit 114, and that they had what I 7 would call a right-hand twist. That is, the gun 8 from which they were fired, those -- those 9 grooves in that barrel were twisted clockwise 10 when they were created. 11 So after I've examined this bullet, I know it was fired from something manufactured 12 13 with -- in a .22 caliber, and it was fired from a 14 gun whose barrel had 16 land and groove 15 impressions. There were 8 remaining. There were 16 16 originally. And I can determine that from the 17 8 that remained on that -- that bullet. 18 Ο What did that bullet look like? I mean, did it 19 look like a bullet when it was submitted to you? 20 Α Um, to me it looked like a bullet, but I'm used to 21 looking at bullets that have -- that have struck 22 things, that have been -- been broken up into pieces 23 or smashed up. Uh, it may not look like a bullet to 24 somebody who's not familiar with them. Uh, it does 25 have the characteristics of a bullet. It's lead.

1		That's fairly easy to determine. And it's it's
2		coated with a copper coating, and that's what they do
3		with in particular, with .22 caliber bullets.
4		So I was satisfied, after my microscopic
5		examination, that that's exactly what I had, was
6		a .22 caliber bullet.
7	Q	All right. But if one did not have, say, the,
8		uh, assistance of, uh, your training, and
9		experience, and a microscope, to the untrained
10		eye, what would what would what did it
11		possibly look like?
12	А	It really look looks like a chunk of metal. Um,
13		it might not look like anything more than that to
14		somebody who isn't used to seeing these kinds of
15		things.
16	Q	All right. Um, would the, uh the head of a
17		roofing nail be a fair description?
18	A	Well, maybe in terms of size. Uh, again, it would
19		look different from that.
20	Q	All right. What conclusions, if any, were you
21		able to reach with respect to, um, um, Item FK,
22		Exhibit 114, uh, relative to, uh, the firearm in
23		question here? Uh, Exhibit 129?
24	A	Um, I was limited in my conclusions to what I could
25		tell based on the class characteristics that are

and the second second

1 1

1		there. All I can say about, uh, this Item 114, is
2		that it's a .22 caliber bullet, that it was fired
3		from a gun manufactured with 16 lands and grooves,
4		and a right-hand twist in the barrel of the gun.
5		I cannot be specific of what about
6		what gun that was. For example, whether,
7		specifically, it was fired from this particular
8		rifle. Because of those microscopic markings
9		that I've described as having been scratched in
10		the surface of bullets by barrels, are not
11		present there anymore. They've been obliterated
12		by its its contact, or passage through, with
13		whatever it struck.
14	Q	So, in in effect, you're saying there it
15		just lacks sufficient individual characteristics
16		beyond those general ones of the lands and
17		grooves and 8 out of the 16 twists? Other than
18		that, that's what you got?
19	A	Exactly.
20	Q	All right. Very good. Let's move on, then, to,
21		um, Exhibit 113, Item FL. Did you have an
22		opportunity to examine that particular item?
23	A	I did.
24	Q	Um, first of all, then, uh, for our benefit, uh,
25		what is I Item FL, Exhibit, uh, 113?

		,
1	A	Well, Exhibit 113 is a second bullet. Again, I went
2		through the same examination process. In this case,
3		again, I'm able to determine that it's a a
4		.22 caliber bullet. Uh, in this case, I have 11 of
5		the 16 original land and groove impressions that were
6		transferred to this bullet when it was fired from the
7		gun from which it was fired.
8		Um, I also, uh didn't mention on the
9		other bullet but I also weighed the bullet,
10		which can be helpful in in determining the
11		caliber and so on.
12		Um, and, additionally, on this bullet,
13		on Exhibit 113, I do have the microscopic detail,
14		the stria and scratches on the surface of the
15		bullet, that I can relate back to a particular
16		weapon. I can compare it to test fires from a
17		particular weapon.
18	Q	All right. And, um, as such, were you able to
19		make any determination as to whether, um, Item
20		FL, uh, that's the Crime Lab designation, and
21		Exhibit 113, were, uh was fired from Exhibit
22		129, the Marlin Glenfield 60 .22 caliber rifle?
23	A	Yes, I was.
24	Q	And what, uh, conclusion did you reach, sir?
25	А	I was able to determine that that this bullet in
		208

1910) - 2011 -

....

.....

1	Exhibit 113 was fired from this particular Marlin
2	rifle.
3	Q All right. Um, and do you hold that opinion to a
4	reasonable degree of scientific certainty?
5	A I do.
6	Q And how is that you're, uh Well, let's follow
7	that up with, is it to the exclusion of any other
8	rifle that that bullet was fired from?
9	A It is.
10	Q Why is that?
11	A Um, when I examined the test fires from this rifle,
12	um, I'm sorry, Exhibit 129, um, when I looked at
13	those bullets under the microscope, I found that I
14	was seeing patterns of scratches or stria reproducing
15	on each of the test fires. There's always
16	differences, not all there on every bullet test-fired
17	from that rifle, but I was able to determine that I
18	could expect to see certain patterns of these
19	markings.
20	More importantly, when I put Exhibit 113
21	under the microscope and compared it directly to
22	my test fires, I was able to demonstrate that I
23	had the same patterns on the test fires that I
24	had on this bullet in Exhibit 113.
25	And, in fact, it was enough markings
	209

and the second se

that I was able to determine that I had more 1 2 agreement in these kinds of stria, and these 3 patterns of stria, than I ever would expect to see from two bullets that were not fired from the 4 5 same gun. We have to be able to satisfy that 6 kind of -- of correlation that we expect to see 7 in bullets not fired from guns, same gun. 8 The fact of the matter was, in this 9 case, the patterns, the amount of agreement and 10 correlation that I see, and saw, on this bullet, 11 when I compared it to test fires, was enough for 12 me to be able to conclude that it had been fired 13 from this Marlin rifle, and could have been fired 14 in none other. 15 0 All right. I'm having Investigator Wiegert, uh, 16 show you Exhibits 134, 135. Do you recognize 17 them? 18 Α I do. 19 Q And what are Exhibit 134 and 135? 20 Α Well, Exhibit 134 is a report that I wrote, uh, 21 describing the evidence I looked at and the findings 22 or conclusions to which I came. Uh, this report is 23 dated February 21 of 2006, and, in particular, it 24 describes the examination and comparison of the 25 cartridge casings that I looked at and related to or

1	determined were fired in that rifle in Exhibit 129.
2	The other report, Exhibit 135, is dated
3	May 10 of 2006. This is the description of the
4	bullets that I looked at, uh, in Exhibits 113 and
5	
	114, uh, and describes my findings with regard to
6	whether they were or were not fired from the
7	rifle in 129.
8	Q All right. And are those the official reports
9	that you filed in this particular case?
10	A Yes, they are.
11	ATTORNEY FALLON: Your Honor, subject to
12	the receipt of those last two exhibits, 134 and
13	135, I would tender the witness for
 14	cross-examination.
15	THE COURT: All right. Cross, Counsel?
 16	CROSS-EXAMINATION
17	BY ATTORNEY EDELSTEIN:
18	Q Good afternoon, Mr. Newhouse. You've been at it
19	for a good while, haven't you?
20	A A little while.
21	Q Okay. Um, I'm not going to take issue with your
22	qualifications. I think it's pretty obvious that
23	you've had plenty of experience in the training.
24	I do want to ask you a little bit about the FBI
25	program. Um, I believe you said you spent about

. . 5

.

	1		a week out there?
	2	A	That's true. Yes.
	3	Q	Did you spend any time, in connection with your
	4		visit to the firearm and toolmark section of the
	5		FBI Lab, with the metallurgy section?
	6	A	No, I do not.
	7	Q	Do You know they have a metallurgy section?
	8	А	Yes.
	9	Q	Does Wisconsin have a metallurgy section?
	10	А	Um, no.
	11	Q	All right. Well, let me ask you this: Given the
	12		fact that you received the empty cartridges, and
	13		you were able to identify the manufacturer as
r.	14		CCI, did you make any attempt beyond the
	15		identification of the manufacturer to determine
	16		which specie, if you will, of CCI .22 caliber
	17		cartridge, turned into, or was the originating
	18		source, of your FK, um, and FL?
, · · ·	19	A	Um, no, there was no other association that I
	20		attempted to make between the cartridge casings and
	21		the bullets.
	22	Q	Uh, CCI, just like a lot of manufacturers, they
	23		make a multitude of .22 caliber bullets; right?
	24	A	They do.
	25	Q	Okay. They vary by weight; correct?
			212

Γ

1	A	Yes.
2	Q	They vary by, uh, size? And by that I mean long,
3		short; correct?
4	A	Uh, essentially by weight, but and by length, yes.
5	Q	Well, but that's related to the relative, um,
6		power, if you will, of any given cartridge,
7		because of the amount of powder?
8	A	Uh, yes. Uh
9	Q	Okay. What what I'm getting at, Mr. Newhouse,
10		just to get down to the point here, the
11		test-firings that you made in order to get a
12		clean bullet, to be able to do the microscopic
13		examination, the CCI bullets that you took from
14		your stock, you cannot tell us that they are, in
15		fact, the same CCI type which resulted in what
16		you've labeled FL and FK? Is that a fair
17	_	statement?
18	А	Um, I That's all going to revolve around what you
19		mean by type. The the fact of the matter is they
20		are the same type. That doesn't mean there are not
21		differences between what I test-fired and what we
22		have in 113 and 114.
23	Q	Well, let's go backwards. Can you tell me
24		precisely what stock number, for example, CCI
25		test-fire bullets you used?

Α No. 1 2 Can you tell me what Stock No. F-- assuming 0 3 they're CCI -- FK and FL were? 4 Α No, I cannot. All right. You undertook no efforts, and correct 5 Q 6 me if I'm wrong, to have any comparison done 7 between FK and FL as they relate to one another with respect to the metallurgy composition of 8 9 those shells; correct? Or those --10 That's correct. Α 11 Q -- bullets? And, Mr. Newhouse, let me ask you 12 this: Wa -- was there submitted to you, for any, 13 um, examination, a box of CCI, uh, .22s? 14 None that I'm aware of, no. None that I examined, Α 15 certainly. When things get submitted for you to examine, 16 0 17 they get a number, and everything has one 18 particular number for -- for your file purposes; 19 right? 20 Α That's correct. 21 Okay. And you've had a chance to look at your Q 22 records in anticipation of your testimony? 23 А Yes. 24 Q If a box of .22 shells were submitted to you for 25 examination in connection with this case, it

1		would be reflected in those records; right?			
2	A				
3	Q	Well			
4	A	My			
5	Q	Exam			
6	A	point My point is that it's possible a box of			
7		ammunition could have been submitted that I didn't			
8		see.			
9	Q	Submitted to the lab?			
10	A	Yes.			
11	Q	Doesn't mean it made it to you?			
12	A	Correct.			
13	Q	But the bottom line, again, is nothing was			
14		submitted to you?			
15	А	That's correct.			
16	Q	Okay. So if there were some shells recovered			
17		from a particular crime scene, um, you undertook			
18		no efforts to compare your FK, your FL, to			
19		anything else that was submitted; correct?			
20	А	That's correct.			
21	Q	All right. I believe you testified that either			
22		FK or FL, uh, had charasteris characteristics			
23		of a coated bullet?			
24	A	Yes. They both did.			
25	Q	They both did? Okay. Copper?			

· · · }

	1	А	I'm sorry, what?
	2	Q	Copper?
	3	A	Uh, I would presume of copper, copper ac copper
	4		alloy, the more likely.
	5	Q	Okay. You didn't undertake any test to
	6		determine?
	7	А	None.
	8	Q	All right.
	9	А	No.
,	10	Q	So from your testimony, we know that FK was fired
	11		in that particular rifle you've examined?
	12	А	It was the one that I designated FL.
	13	Q	Oh, I'm sorry, FL. Okay. FL being the one with
	14		19.7 grains remaining?
	15	А	Yes. I believe that's correct.
	16	Q	And when I say, remaining, you can't tell this
	17		jury how many grains it may have originated with,
	18		can you?
	19	A	Uh, no.
	20	Q	All right.
	21	А	I cannot.
	22	Q	And the same would be true on FK as far as
	23		weight?
	24	А	I could only guess. I wouldn't be able to determine,
	25		specifically, no.

Γ

1 0 And that's because the manufacturers vary the weights of the bullet; right? 2 3 Yep. That's correct. Α So FL, you're satisfied, came out of that gun? 4 0 5 That's correct. Α 6 FK, we can't really say? Can't say the same 0 7 thing, certainly? That's correct. 8 Α 9 Okay. And, certainly, you absolutely cannot say Q what or who caused either FK, or FL for that 10 matter, arguing they both maybe came out of 11 12 there, caused them to be projected through the barrel of that rifle? 13 14 Α No, I cannot. You have nothing by way of your examination, 15 Q whatsoever, to suggest that it was fired at 16 17 anytime by this defendant; correct? 18 That's correct. Α Okay. That's really out of your bailiwick; 19 Q 20 right? 21 Yes, it is. Α 22 All right. That's all. Thank you. Q 23 THE COURT: Any redirect, Counsel? ATTORNEY FALLON: One clarification. 24 25 REDIRECT EXAMINATION

1	BY ATTORNEY FALLON:
2	Q Um, I take it it is possible that Item FK,
3	Exhibit 114, was discharged by the weapon, 129?
4	At at least it's the same general
5	characteristics?
6	A Yes, it is possible.
7	Q But beyond that, you cannot say for any degree of
8	certainty?
9	A That's right.
10	Q Okay. That's fine. Thank you.
11	ATTORNEY EDELSTEIN: Judge, just some
12	real quick follow-up.
13	RECROSS-EXAMINATION
14	BY ATTORNEY EDELSTEIN:
15	Q When you say, it could be, isn't it just as
16	likely, Mr. Newhouse, that that one that, um,
17	Counsel just referred to, FK, could not have been
18	fired from that gun?
19	A I simply can't say. And that's what that means.
20	Q Thank you. That's all.
21	THE COURT: All right. You may step down.
22	THE WITNESS: Thank you.
23	THE COURT: Uh, I think we'll take a recess
24	now for about 15 minutes. Counsel, if I could see
25	you for just a couple of minutes?

ATTORNEY FALLON: Sure. 1 2 (Recess had at 2:57 p.m.) 3 (Reconvened at 3:20 p.m.) THE COURT: Before, uh -- Before -- Oops. 4 5 Before proceeding, I'd like to remind the media that 6 the trial administration order says that during recesses, the camera should not be operating, and in 7 this -- during this past recess, it was, so I'd 8 9 appreciate it if you could, uh, look a little bit 10 more closely at that. All right. Uh, gentlemen? 11 Are you ready to proceed, Mr. Fallon? ATTORNEY FALLON: Yes. State would call 12 Kenneth Olson. 13 THE COURT: Is it your plan that Mr. Olson 14 15 will be your last witness this afternoon? ATTORNEY FALLON: Yes. 16 17 THE CLERK: Raise your right hand, please. 18 KENNETH OLSON, 19 called as a witness herein, having been first duly 20 sworn, was examined and testified as follows: 21 THE CLERK: Be seated. State your name and 22 spell your last name for the record, please? 23 THE WITNESS: Kenneth B. Olson, O-l-s-o-n. 24 DIRECT EXAMINATION BY ATTORNEY FALLON: 25

How are you employed? 1 0 2 I'm a forensic scientist at the State Crime Α 3 Laboratory in Madison. And how long, um, have you been employed in that 4 0 5 cap -- uh, in that capacity? 6 А Approximately 27 years. 7 What type of, uh, forensic science do you Q practice at the Crime Lab? 8 9 My main duties at the Crime Laboratory is in the area А 10 of trace evidence examination. I examine a variety of materials; paint, glass, fibers, plastics, metals, 11 12 um, anything that needs chemical identification or 13 comparison, um, that doesn't fit into drugs, 14 toxicology, or DNA. 15 Q All right. And how long have you been actively 16 engaged in the trace evidence, uh, field? 17 My -- The whole time that I've been employed at the Α 18 laboratory. 19 All right. Have you ever been a member of -- for Q 20 instance, of, uh, the Field Response Unit for the 21 Crime Lab? 2.2 Α I was an active member of our field response Yes. 23 program for 24 years. 24 Q All right. Um, are you a current member? 25 А I kind of fill in as needed.

1	Q	All right. How is it that you became involved in
2		this particular case?
3	A	I was asked to examine, um, several items that were
4		recovered during the investigation of this case. Um,
5		items from a burning barrel, uh, and some, uh,
6		charred bones.
7	Q	All right. Um, and, in particular, your reason
8		for being here today is to provide us the, uh,
9		results of your examinations?
10	A	That's correct.
11	Q	All right. Um, before we do so, um, I'd like to
12		find out a little bit about your, um your
13		background. I'm going to have Exhibit, um, 136,
14		uh, given to you by Investigator Wiegert. Do you
15		recognize Exhibit 136?
16	A	Yes, I do.
17	Q	What is Exhibit 136?
18	A	Exhibit 136 is a statement of my qualifications.
19	Q	And, uh, did you prepare that exhibit?
20	А	Yes, I did.
21	Q	All right. Well, first of all, let's talk about
22		your, uh, educational, um, experience. First of
23		all, do you have an undergraduate degree?
24	А	Yes, I do.
25	Q	And from which institution?

. .

1

- - 1

А I have a Bachelor of Science Degree from the 1 2 University of Wisconsin at Superior with a major in 3 chemistry. All right. Uh, have you received any, uh, post, 4 Q 5 um, uh, graduate experience at all in -- or 6 courses of that ilk? 7 I took a couple, um, um, Master's of Business Α Administration courses. 8 9 Very good. And what particular, uh, Q 10 on-the-job-training have you received to assist 11 you in performing the tests that you, uh, 12 currently perform for the Crime Lab? 13 А Since being employed at the Crime Laboratory in the 14 area of trace evidence, I did a three-year 15 apprenticeship-type activity, learning the different aspects of trace evidence. So I had extensive 16 on-the-job-training, and the laboratory sent me to 17 18 several schools over those training years in all the 19 different areas that I do analysis, um, with the 20 different types of instruments that we use to the 21 different types of evidence that we handle. 22 Q All right. Um, are there any particular, um, 23 associations or organizations that you belong to, 24 either for training purposes or for professional 25 development?

	1	A	Yes. Relating to forensic science, I'm a member of
,	2		the Midwest Association of Forensic Scientists. I'm
	3		also a member of the Association for Crime Scene
	4		Reconstruction, and a member of the International
	5		Association of Blood Stain Pattern Analysts.
	6	Q	All right. And do you regularly a attend
	7		trainings in these areas of specialization to
	8		maintain, uh, current familiarity with the
	9		research and the literature and general crime
	10		scene processing requirements?
	11	A	As often as as I can.
	12	Q	All right. Um, when did you first become
	13		involved in this case? What was your first, um,
	14		assigned task?
	15	А	The first evidence that I examined in this case, um,
	16		I received some items from a burning barrel on
	17		December 1, 2005.
	18	Q	What kind of items did you examine from a burn
	19		barrel?
	20	А	The items were submitted in in I, um, put the
	21		materials out on a an exam table, and I found, um,
	22		items of of uh, from a cell phone. Um, it was
	23		a Motorola Motorola cell phone. You could tell
	24		that the um, just visually, the material it
	25		was, um, consistent with, uh, a cell phone, flip

No concerción.

1		phone, and I found, um, charred remains of a a
2		Canon Sure Shot A310 camera, and then some other
3		electrical components and, uh, some batteries.
4	Q	All right. Um, did you recommend any additional
5		or further forensic work on that material that
6		you, yourself, were unable to, um, uh to
7		conduct?
8	А	I was asked if I could get any information from the
9		cell phone or the components of the camera. And I
10		informed the investigators that, um, our laboratory's
11		not equipped to do that type of analysis. Um, I'm
12		basically one that can examine things either visually
13		or microscopically, and give them investigative
14		leads. So if they needed a more in detailed
15		analysis, they would have to send that to, uh,
16		
		another laboratory or the FBI.
17	Q	another laboratory or the FBI. All right. After examining the contents of the,
17 18	Q	
	Q	All right. After examining the contents of the,
18	Q A	All right. After examining the contents of the, uh the burn barrel, what was the next, um,
18 19		All right. After examining the contents of the, uh the burn barrel, what was the next, um, matter, uh, which concerned your, uh, expertise?
18 19 20		All right. After examining the contents of the, uh the burn barrel, what was the next, um, matter, uh, which concerned your, uh, expertise? In February of 2006, I was asked to examine some
18 19 20 21		All right. After examining the contents of the, uh the burn barrel, what was the next, um, matter, uh, which concerned your, uh, expertise? In February of 2006, I was asked to examine some skull fragments, some charred skull fragments from a
18 19 20 21 22		All right. After examining the contents of the, uh the burn barrel, what was the next, um, matter, uh, which concerned your, uh, expertise? In February of 2006, I was asked to examine some skull fragments, some charred skull fragments from a burning pit. Um, specifically, uh, they wanted me to

1 - E - E

1		you were asked to examine?
2	A	The skull fragment was, um, a small, um,
3		approximately two inches in in diameter, um, piece
4		of charred skull that had a hole in it, and that hole
5	ı	had some beveling on the outer surface, and it and
6		it had some, um some beveling or concave
7		appearance on the inside of the the bone fragment.
8	Q	All right. I'm showing investigate uh, having
9		Investigator Wiegert show you a photograph. Um,
10		what exhibit number is that, please?
11	А	Exhibit 140 is a photograph of that cranial skull
12		fragment that I examined that had the beveling, um,
13		and the can't think of the term the concave,
14		uh, nature of the of the bone.
15		ATTORNEY FREMGEN: Judge, at this point
16		I don't know if I necessarily have an objection,
17		but I I suppose I'd like some more foundation
18		from this witness. He's referring to it as a
19		cranial or a skull fragment. I don't think the
20		expert has Well, I don't think he has an
21		expertise to say what type of bone this is other
22		than, someone told me it might have been a
23		cranial bone.
24		I I know he mentioned charred bones
25	1	when he was talking about what he reviewed, and

1919 L

now it's referred to as cranial bone. If there 1 2 could be some more foundation as to how he knows 3 what that is. 4 ATTORNEY FALLON: That's where I'm going 5 next. ATTORNEY FREMGEN: 6 Okay. 7 THE COURT: All right. 8 ATTORNEY FREMGEN: Thank you. 9 (By Attorney Fremgen) Um, from whom did you Q 10 receive these items for purposes of, uh, 11 analysis? 12 Α These items were, uh, originated from, uh, Dr. Leslie 13 Eisenberg, um, an anthropologist with the State 14 Historical Society. 15 All right. And, um, did the -- the items that Q 16 you examined, they did receive a Crime Lab 17 designation; is that correct? 18 Yes, they did. Α 19 All right. And, um, first of all, tell us about Q 20 the -- the items that were -- how they were 21 originally submitted to you in their packaging? 22 Would you describe that for us, please? 23 Α Could I refer to my notes to that? 24 0 Sure. This particular item in Exhibit 140, uh, was received 25 Α 226

1		in a box, um, from DCI, and Item EJ, which is that,
2		um, bone fragment there, um, was received in, uh,
3		three sealed plastic Ziplock bags. Uh, one was
4		labeled cranial refits with suspected entrance
5		deficit. The second one was labeled cranial refits,
6		and the third one was labeled cranial refits. Um, I
7		was only interested in the suspected entrance defect
8	1	in that one, uh, uh, skull fragment.
9	Q	All right. And, um, again, um, from whom were
10		those, um, uh, items received?
11	А	EJ and EK were submitted by Special Agents Special
12		Agent James Holmes, uh, Division of Criminal
13		Investigation.
14	Q	That's correct. Now, you mentioned something
15		about Dr. Eisenberg? Were there indications or
 16		markings on the materials indicating that she had
17		previously examined those items?
18	А	Yes. Those were, um, her markings, her initials.
19	Q	All right. And her labeling?
20	A	Yes.
21	Q	All right. Very well. With respect to, um Of
22		the items that you examined, you you indicated
23		you only examined one item?
24	А	Of of the two that were submitted, Item EJ and
25		A uh, EK, I only examined the one, uh, fragment

i indinest i in

I

1		from Item EK. Or EJ, excuse me.
2	Q	All right. And the item and the other items
3		were how were they labeled?
4	A	The other item was a sealed plastic bag with bone
5		bone fragments labeled cranial, slash, face, slash,
6		dental.
7	Q	All right. And was there any indication of a
8		suspected entrance defect on Item EK?
9	A	No, there was not.
10	Q	All right. Let's begin, then, with, um, Item EJ.
11		Specifically, how did you begin your analysis of
12		that item?
13	A	Um, first thing I did was just examine, um, that, uh,
14		skull fragment, uh, under my normal stereo microscope
15		to see what the surfaces looked like, to see if I
16		could see any, um, metallic metal present. Um, I
17		then, um, mounted the item on a a scanning
18		electron microscope that uses energy disbursed x-rays
19		to do elemental analysis on the areas, and I was
20		specifically interested in the areas, um, around
21		the the entrance defect, both on the on the
22		inner surface and on the, um on the inward
23		beveling.
24	Q	All right. And, um, what was the condition of
25		the fragment that you examined?
		228

1 .

and the second of the

1

r

	1	А	It was heavily charred. Um, and it was and it was
	2		brittle.
	3	Q	All right. And did you take any special
	4		precautions in handling the matter, um, prior to
	5		subjecting it to testing?
	6	А	Just, uh, handled with, uh, gloves and was gentle
	7		with it.
	8	Q	All right. And subsequent to your, um,
	9		examination of that item, did you receive other
	10		fragments from Dr. Eisenberg, uh, to examine?
	11	A	In November, um November 17, 2006, um, I received,
	12		uh, two other, uh, charred cranial pieces from
I	13		Dr. Eisenberg.
	14	Q	All right. And what were those items designated?
	15	A	Those items were designated Item KQ and KR.
	16	Q	All right. And describe, um, if you would, uh,
	17		Item KQ in a little more detail, would you,
	18		please?
	19	A	Item KQ was a smaller bone fragment than Item EJ. It
	20		also had an entrance defect present. And what, uh,
	21		was interesting from Dr. Eisenberg's standpoint,
	22		and and my standpoint, was the x-rays of that item
	23		showed some tiny little bright spots present in the
	24		x-ray, which usually means there's some type of dense
	25		metal there.

n et an

1 1

	1	Q	All right. I'm going to show you one more
·· .	2		photograph, 137. Do you recognize that?
	3	A	Yes. Exhibit 137 is the outer surface of Item KQ,
	4		uh, showing the entrance defect with the beveled
	5		edge.
	6	Q	All right. And, um, you mentioned something also
	7		about, um, some x-rays. I'm going to have two
	8		more exhibits, uh, provided to you, uh, 138 and
	9		139. Beginning with, uh, 138, do you recognize
	10		138?
	11	A	Exhibit 138 appears to be a x-ray image of Item EJ,
	12		the, um, first skull fragment that I examined.
	13	Q	All right. I'm showing the inner surface. All
	14		right? And, uh, now, you mentioned, uh, before,
	15		we Well, yeah. All right. Let's go to the
	16		next one. Exhibit, uh, one thirty
	17	A	Nine?
	18	Q	nine. And directing your attention to the
	19		piece in the upper left-hand corner, uh, of that
	20		exhibit, do you recognize that?
	21	А	Yes, I do.
	22	Q	All right. And is, um What is that?
	23	А	Uh, Exhibit 139, uh, is a x-ray image of eight, um,
	24		bone fragments. And, specifically, the one in the
	25		upper left-hand corner, which has an entrance defect,
·-			230

- - 1

+

1

Second Second S

1		shows some bright spots right on the edge of that
2		entrance defect, both on the beveled edge, uh, and
3		inside of the beveling.
. 4	Q	All right. Now, that, um, looks different than
5		Item 137. Um, and if you can explain to us, um,
6		the apparent difference?
7	A	One thirty-seven, um, shows this smaller bone
8		fragment with the entrance defect, um, attached to,
9		uh, some more bone fragments. And that attachment
10		is, uh, done after these x-rays were taken, um, when
11		Dr. Eisenberg was putting together the pieces to try
12		to, um, put the bone fragments back together to what
13		they originally were.
14	Q	Hence, the designation cranial refit?
15	А	Correct.
 16	Q	All right. Well, um, let's start, then, with
 17		the, um, exhibit, uh, with the, um the the
18		x-ray of the last one, 138?
19	A	One thirty-nine?
20	Q	Oh, 139, I'm sorry. There we go. All right.
21		Now, directing your attention to the the
22		zoomed-in picture of 139, what are we If
23		you'd I believe there's a laser pointer to,
24		uh right next to your material there. And you
25		can either use the large screen over here, or one

ļ

Г

1		of those. It might be easier to use the large
2		screen. Um, what are we looking at with the,
3		um the area that seems to fluoresce there?
4	А	I was interested in these bright particles here, and
5		focused my scanning electron microscope on those
6		areas.
7	Q	All right. And with respect to those areas, what
8		were you able to, um, determine?
9	А	I was able to determine what elements were present,
10		um, on that on that area that I was examining.
11	Q	All right. And, um, similarly, I'm going to back
12		up to Exhibit 138 now, the, um, previous one, and
13		ask you, on this particular one, on a zoomed-in,
14		uh, picture of that, there appears to be,
15		likewise, some fluorescing material there?
16	Ā	There is one bright particle there. Um, I did not
17		have access to this x-ray when I was doing my
18		analysis. So I focused my attention in this area
19		here and this area in here.
20	Q	All right. And, um, were you able to, uh, make
21		any determination as to what these substances
22		were, uh, along that ridgeline that you've just
23		identified?
24	A	Most of the the The strongest elements that I
25		found in these areas were calcium and phosphorus,

- 1

1		which are the elements of bone. Um, but in the upper
2		area, in this area, I did detect, uh, traces of
3		elemental lead.
4	Q	All right. When we say "traces of elemental
5		lead", what do you mean?
6	A	Like I mentioned, um, the strongest elements that
7		were present in that area were calcium and
8		phosphorus, and those are the the main elements of
9		bone. Um, and I would suspect to see them, since I'm
10		looking at a a a sample of of bone.
11		Um, but I was also interested in seeing
12		if I could detect any lead, um, because this
13		entrance defect interested me from a science
14		standpoint that that was, indeed, a bullet hole,
15		that I would be looking for any traces of lead
16		metal.
17	Q	All right. And how many different locations
18		along that area did you examine?
19	А	I examined three areas in here and found elemental
20		lead. And I examined four areas over here and I did
21		not detect any elemental lead.
22	Q	All right. Did you examine any other, um,
23	•	aspects of this particular item to determine
24		whether there was any trace of elemental lead
25		elsewhere on the, um, exhibit?

	1	А	Yes, I did.
	2	Q	Tell us about that?
	3	А	I purposely went to an area away from that entrance
	4		defect, uh, to get a background or a control sample
	5		of what elements I would suspect or would think to
	6		find in that area. And in that area, that control
	7		area, a away from that entrance defect, I did not
	8		detect any presence of elemental lead.
	9	Q	So in in terms As a scientist, having
	10		looked at a control area, and now having that
	11		knowledge, and comparing it with the area near
	12		the defect, what does that suggest to you or what
	13		does that tell you?
	14	А	That tells me that if I'm seeing lead in that
	15		entrance defect, that a source of that could be a
	16		bullet.
	17	Q	All right. How many control areas did you
	18		utilize?
	19	А	I believe I took four, uh, control areas away from
	20		that entrance defect.
· .	21	Q	All right. Very good. In your experience, um
	22		Well, let me also ask, have you had any firearms
	23		training as part of your, uh, Crime Lab training?
	24	А	Yes, I I do.
	25	Q	And tell us about that?

1.1

1	A	For about a year and two or three months in the year
2		2000, I did some cross-training in the Firearms Unit,
3		um, examining guns, preparing guns for destruction,
4		um, test firing guns, recovering the bullets, doing
5		bullet comparisons, cartridge case comparisons.
6	Q	All right. Very good. I want to, um, move onto
7		the, um Well, before I do, let me ask you this
8		question: With respect to Item EJ, based on your
9		findings of traces of elemental lead, uh, your,
10		uh, Crime Lab training, is is that defend
11		uh, defect that you observed on that item
12		consistent with having been caused by a
13		high-speed projectile?
14	A	Yes, it is.
14 15	A Q	Yes, it is. Um, and why is that? What is it about the defect
15		Um, and why is that? What is it about the defect
15 16		Um, and why is that? What is it about the defect and your findings that, um, lead you to that
15 16 17	Q	Um, and why is that? What is it about the defect and your findings that, um, lead you to that conclusion?
15 16 17 18	Q	<pre>Um, and why is that? What is it about the defect and your findings that, um, lead you to that conclusion? From my experience in crime scenes and field</pre>
15 16 17 18 19	Q	<pre>Um, and why is that? What is it about the defect and your findings that, um, lead you to that conclusion? From my experience in crime scenes and field response, uh, pending autopsies, and giving training</pre>
15 16 17 18 19 20	Q	<pre>Um, and why is that? What is it about the defect and your findings that, um, lead you to that conclusion? From my experience in crime scenes and field response, uh, pending autopsies, and giving training to law enforcement, that when, um, something</pre>
15 16 17 18 19 20 21	Q	<pre>Um, and why is that? What is it about the defect and your findings that, um, lead you to that conclusion? 15 16 17 18 19 20 21 22 23	Q	<pre>Um, and why is that? What is it about the defect and your findings that, um, lead you to that conclusion? From my experience in crime scenes and field response, uh, pending autopsies, and giving training to law enforcement, that when, um, something something is shot with a bullet in the skull, you get this type of beveling on the surface from where the bullet impacts, and then you have that concave</pre>

and the second sec

1		bullets.
2	Q	All right. Very good. Let's, um, move onto, um,
3		the item, um, KQ, and I think we have that as
4		Exhibit 139?
5	A	That's correct.
6	Q	All right. Again, we're focusing in on the, um,
7		piece of the upper left-hand corner of this
8	}	exhibit. Tell us about your examination of this
9		particular fragment?
10	A	I did have a photograph of this x-ray when I was
11		doing my analysis of this item, and I focused my
12		analysis in the area here. I took four samples. One
13		here, two, three and four. Um
14	Q	All right. And, um, with respect to those
15		particular four areas, what did you find?
16	A	In areas one and two, the two strongest elements were
17		calcium and phosphorus. Uh, and then the third
18		strongest element in that area was was elemental
19		lead. Uh, Item areas three and four, the
20		strongest, um, element present was lead on those two
21		areas.
22	Q	All right. And, um, likewise, uh, comparatively
23		speaking, was there more or less lead associated
24		with, um, Item KQ, Exhibit 139, than with Item
25		EJ, Exhibit 137?

1	A	There was considerably more lead in this particular
2		bone fragment, KQ, than there was in Item EJ.
3	Q	Um, likewise, with respect to this particular
4		item, did did you test other areas of the
5		fragment? In other words, did you develop
6		control areas from which to make comparisons?
7	A	Yes, I did.
8	Q	Tell us about that?
9	A	Like in the previous item, I went to an area away
10		from the defect and, um, did not detect any lead
11		present in tho in those areas.
12	Q	All right. And so what did that tell you or
13		signify to you relative to your findings of, uh,
14		lead in in in and around the area perceived
15		to be the defect?
16	A	That finding lead in the area of this entrance
17		defect, associated with bright spots that are
18		consistent with very dense metal that that
19		containing mainly lead, that it could have come from
20		a bullet.
21	Q	All right. Is the, um on microscopic
22		examination, is that defect area, which you
23		identified as having traces of lead present,
24		or or be more than traces of el actual
25		elemental lead present is that consistent

1		with, um, a a a defect caused by a
2		high-speed projectile?
3	А	Yes, it is.
4	Q	All right. And why is that?
5	A	As I mentioned earlier, that type of defect, um,
6		striking hard bone, causes the beveling effects on
7		the out outside and on the inside surfaces that is
8		consistent with a high-speed projectile, such as a
9		bullet.
10	Q	On this On this particular item, did you do
11		both the inside and the outside?
12	А	Yes, I did.
13	Q	First of all, so we're all clear, what do you
14		mean inside and outside? Are we referring to the
15		defect beveled area? Or what are we referring
16		to?
 17	A	I'm referring to the in inner surface of the skull
18		versus the outer surface. What we're What we see
19		in this exhibit, this is the inner surface here. So
20		this is the inner beveling of that defect. And I did
21		look at the other side, the, um, outside surface.
22	Q	All right. And with respect to the outer the
23		other outside area, what did you find relative to
24		the presence or absence of lead?
25	A	In the area inside of that bevel, I was able to

l

....

111111

. . . .

20024

	1		detect elemental lead on the the beveling on the
	2		outside surface.
	3	Q	All right. Similarly, did you employ that same
	4		control technique on this, um outside, as you
	5		did on the inside area?
	6	А	Yes, I did.
	7	Q	All right. And what did that, if anything,
	8		indicate to you?
	9	A	I did not defect any lead, uh, in my control area.
	10	Q	Is it fair to say, then, that the only traces, or
	11		presence, actually, of lead were in and around
	12		the area identified as this defect?
	13	A	From what I examined, yes.
	14	Q	All right. All right. Mr. Olson, the opinion
	15	:	that, um, Item EJ, the first one we examined, had
	16		traces of elemental lead, uh, associated with it,
	17		do you hold that opinion to a reasonable degree
	18		of scientific certainty?
	19	A	Yes, I do.
•	20	Q	Um, with respect to the item given Crime Lab
	21		designation KQ, uh, do you hold the opinion to a
	22		reasonable degree of scientific certainty that
	23		Item KQ, uh, contained elemental lead in and
	24		around that defect area?
	25	A	Yes, I do.

.

ATTORNEY FALLON: Subject to the receipt 1 2 of the four exhibits, one -- Or, excuse me, five. 3 The, uh, CV, 136 through 140, we, uh, move those into evidence, and tender the witness for 4 5 cross-examination. THE COURT: Yeah. My sheet shows that, uh, 6 7 132 through 135 had not yet been offered. 8 ATTORNEY FALLON: Oh. Well, then I 9 would make a motion that they be received as 10 well. 11 THE COURT: Any objection, gentlemen, to 12 either of those motions? 13 ATTORNEY FREMGEN: Judge, we reserve --14 Ask -- ask the Court to reserve ruling on those 15 at this time. I wish to be heard on a few of 16 those. 17 THE COURT: All right. Cross. 18 CROSS-EXAMINATION 19 BY ATTORNEY FREMGEN: 20 Doctor, I -- I noticed -- And you did ask, uh, Ο 21 Attorney Fallon if you could refer to your notes. 22 Um, I understand it's been about 12 or 15 months 23 since you evaluated these items? Completed --24 I --Α 25 0 -- your reports? 240

1	А	I evaluated in December of '05, February of '06,
2		April of '06, and November of '06.
3	Q	So it would be difficult for you, from the top of
4		your head, to know everything that you wrote in
5		your reports, or recall everything you wrote in
6		your reports?
7	A	Well, I tried to prepare today to be able to not
8		refer to them, but some of the specific questions I
9		asked to review my notes.
10	Q.	And that's fine. You, um, had indicated And,
11		actually, I only have a few questions for you.
12		So, hopefully, we'll make it easier for you.
13		You'd indicated that when you reviewed, uh
14		when you tested the areas of on EJ, I think in
15		your notes you refer to them as there's one,
16		two, three, and four, five, six? That's the
17		outer edges of that bevel area?
18	A	That's correct.
19	Q	That you noted the the presence of calcium and
20		phosphorus? Which you've testified is consistent
21		with bone?
22	A	Correct.
23	Q	And lead? Which wouldn't normally be be
24		consistent with a human bone?
25	A	I'm not aware of finding that large a concentrations

- 1 - - F

1917 - N 1917 - N 1919 - N

1		in human bone.
2	Q	There's small concentrations of lead in the human
3		body, but not in bone like that; correct?
4	A	Not that I'm able to detect.
5	Q	Now And and your assumption is that it
6		might be from some sort of a lead projectile? In
7		fact, you said bullet?
8	А	Yes.
9	Q	Um, are you aware of what items were in the fire
10		pit, or in this where where this burning
11		pit, that might have maybe contributed to the
12		lead presence?
13	А	I knew there were tires. That's about the limit of
14		my knowledge.
15	Q	Okay. Could could Well, it could have
16		something in the fire, had it been lead,
17		contributed to these deposits?
18	А	It's possible, but it would have to be a relatively
19		pure sample.
20	Q	Did you note any copper in any of these in
21		your evaluation?
22	А	No, I did not.
23	Q	You did note other elements? Including zinc,
24		magnesium, aluminum?
25	A	That's correct.
		242

. 1

.....

ALTERNATION INTERNA

1	Q	So, uh, just to be correct, on on your direct,
2		it wasn't just calcium, phosphorus, and lead, but
3		at least three or four more other elements?
4	A	That's correct.
5	Q	And would that be normal to find in the human
6		bone?
7	A	I have limited, um, um, opportunities to examine bone
8		fragments, but on the samples that I did examine, I
9		was not surprised with the elements I was seeing
10		there.
11	Q	When you also, uh, did your control samples,
12		similar type of elements would show up?
13	A	Yes.
14	Q	And, again, not a surprise to you?
15	A	That's correct.
16	Q	Your control was only on one other area of the
17		bone fragments you provided to you?
18	А	Every surface that I examined, um, like if it was the
19		inner surface of one of the bones, I would do a
20		control on the inner surface. If I examined the
21		the entrance on the outer surface, I would do a
22		control on that same outer surface.
23	Q	And you did that for every fragment that you
24		received?
25	А	Yes, I did.
		243

an order og

arritre theory needed in a state of the second structure of the theory of the state of the state of the state of the second state of the

그 나는 말 같은 것을 했다.

1	Q	You also received a a headboard?
2	A	Yes, I did.
3	Q	And and you had an opportunity to examine it
4		to determine if there were any rope fibers;
5		correct?
6	A	That's what I was requested to examine, to see if I
7		could find any rope fibers attached to the headboard.
8	Q	So you're directed to look for this?
9	A	That's correct.
10	Q	And you did, uh, an actual a visual
11		examination; correct?
12	A	Visual with some microscopic exam.
13	Q	So the first step would be to visually observe
14		the item?
15	А	That's correct.
16	Q	And when you visually observed the item, you
17		noted no rope fibers; correct?
18	А	That's correct.
19	Q	Uh, and then, of course, the microscopic
20		evaluation would be because our eyes aren't that
21		great; right?
22	A	A magnification helps in the area of trace evidence.
23	Q	And, obviously, that's your training? And you
24		know that the next step would be to try to take a
25	,	closer look; correct?

- 4553 (5558) (7555) 1. 7

100

1	A	That's correct.
2	Q	And in order to do so, you used some sort of an
3		adhesive tape to to pull up what might be on
4		the surface of that, uh, wooden spindle on the
5		headboard?
6	A	Yes.
7	Q	That's one one technique for looking for
8		fibers is by using a tape lift to take a, um
9		not too strong of an adhesive, um, but just to
10		tape lift, like a lint remover type lift, and
11		then examine what fibers were recovered from
12		that? You don't want to pull off the surface,
13		itself?
14	A	That's correct.
15 [′]	Q	And so with that, you were able to then, uh,
16		place it onto some uh, some sort of a slide?
17	A	Actually, I placed it on a plastic backing, and then
18		I can examine that under the microscope, and if I see
19		something of interest, I can put a little cut in that
20		plastic and, with a solvent, remove all the fibers
21		I'm interested in.
22	Q	Did you note any fibers?
23	A	Yes.
24	Q	Were they rope fibers?
25	A	Uh, they were not consistent with rope fibers.
		0.4 5

1	Q	You noted some cotton fibers?
2	A	That's correct.
3	Q	Okay. I have nothing else. Thank you, Doctor.
´ 4		THE COURT: Any redirect?
5		ATTORNEY FALLON: Yes.
6		REDIRECT EXAMINATION
7	BY .	ATTORNEY FALLON:
8	Q	Was it, um Is it, uh, expected or unusual for
9		you not to find any rope fibers given the the
10		material you examined?
11	A	In my experience, um, smooth surfaces, like spindles
12		on a headboard, are not your best surface for
13		snagging fibers. Um, if there was, uh, slivers, a
14		nail, or something that could snag, uh, rope fibers,
15		that would be a better method for depositing fibers,
16		um, on a surface.
17	Q	All right. Now, did you find something
18		anything else on that that headboard?
19	А	Yes. On one of the spindles there was a thin,
20		plastic film that I removed and analyzed, and
21		identified it as polypropylene.
22	Q	What are some of the uses of polypropylene is?
23	A	Um, polypropylene, um, is used in garments, it's
24		used, um, uh, as plastic containers, um, it it is
25		also used in rope manufacturing.

1114 - F

1 ATTORNEY FALLON: No further questions. 2 ATTORNEY FREMGEN: No, Judge. THE COURT: All right. You may step down. 3 4 THE WITNESS: Thank you, Your Honor. 5 THE COURT: You're welcome. Any further 6 witnesses this afternoon? 7 ATTORNEY FALLON: We do not have any 8 this afternoon, Judge. We went a little more 9 quickly than anticipated. 10 THE COURT: All right. Uh, Mr. Fremgen, 11 you want to be heard on some of these exhibits? 12 I'll excuse the jury for the afternoon and we can 13 talk about the exhibits. 14 Ladies and gentlemen, you are done for 15 this afternoon. We'll see you tomorrow at 8:30. 16 Again, I remind you, don't talk about this among 17 yourselves or anyone else. Have a good night. 18 (Jurors out at 3:59 p.m.) 19 THE COURT: All right. Be seated. At 20 issue are Exhibits 132 through, and including, 21 140. You, Mr. Fremgen, or Mr. Edelstein, have --22 have objections to one or the other of those? 23 ATTORNEY FREMGEN: Judge, I have no 24 objections to Exhibit 132, and 137 through 140. 25 My objections are, specifically, to 133 and 136.

They're curriculum vitae of the two witnesses. 1 Ι don't believe that that is evidence. I'm not 2 3 entirely sure why they were even, um, marked. These witnesses were testifying already about 4 5 their expertise and their backgrounds. For 6 the -- for those two, that's the reason I have an 7 objection. 8 THE COURT: All right. You want to be 9 heard on that? 10 ATTORNEY FALLON: Just -- They're just 11 part of the record. 12 THE COURT: Uh, yeah. They can be received. 13 They're not -- They're not going to be 14 published to the jury or anything of that sort, 15 so... 16 ATTORNEY FREMGEN: And if that's the 17 ruling of the Court, then I would have the same 18 as to 134 and 135, and -- and, simply, if it gets 19 to the point of what the jury wants to see, we 20 want to be heard on that, because, technically, 21 those are reports. Technically, they're hearsay 22 reports. Um, the witnesses have already 23 testified. And it should be the recollection of 24 the witnesses at the time of jury deliberations, 25 not what the reports say.

248

en. An A

THE COURT: Yeah, I understand. I --I -- I will receive all of them subject to, uh, the reservation of -- of hearing what gets published or what goes back, if anything, to the jury. ATTORNEY FALLON: All right. That's fine. That's -- that's all we would ask. THE COURT: Okay. Uh, anything else? ATTORNEY FREMGEN: No, Judge. THE COURT: All right. Uh, we'll meet in my chambers in about ten minutes? ATTORNEY FALLON: Sure. THE COURT: We're adjourned until tomorrow at 8:30 then. (Court stands adjourned at 4:01 p.m.)
